

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

VOLUME THIRTY-SIX

Note the following abbreviations:—

illus.—Illustrated.

Ed.—Editorial.

Sec. T.—Secretary's Table.

A

- Adventures overseas, by Brothers over there, 591.
Akron Alumni Chapter—
Letter, 94, 275, 674.
Alden, Spencer Thorndyke, Death of (Gamma Nu-Gamma Theta), 118, 168.
Aldrich, Ralph Johnston (Delta Eta), 701.
Allen, Albert Silas (Delta Zeta), 350.
Allin, George R. (Beta Mu), 565.
Alpha Chapter—
Soldier roll, 122, 309, 498, 714.
Almon, A. H., Sr., 456.
Alumni Chapter Letters, 94, 275, 461, 674.
Alumni Chapter, The (Ed.), 406.
Alumni interest, 157, 536, 583, 611, 713, 755, 756.
Alumni interest (Ed.), 234, 405.
Alumni notes, 101, 278, 466, 681.
Alumni, The, 91, 274, 459, 670.
Alumnus treasurer plan, The, by John Clarence Hoshor, 606.
Alumnus treasurer, The, By Harry Angevin Rider, 606.
Alumnus treasurer (Sec. T.), 613.
American drive would end the war, by C. C. Lyon (Illus.), 18.
America's home-coming, by Archie Austin Contes, 605.
Amex Forces Alumni Chapter—
Applied Fraternity, 394, 597.
First dinner in France, 10.
First Sigma Nu banquet in Germany, by Lawrence C. Brewer, 590.
Our Chapters at French universities, 595.
Our first word from Germany, by Samuel Galloway Hibben, 391.
Secretary's letter, 109, 393, 594.
Watch on the Rhine, The, 389.
Amory, Thomas Dewire, Death of (Alpha-Gamma Theta), 482, 546.
Angell, Norman H. (Delta Gamma), 16, 92, 460, 672.
Applied Fraternity, by Albert H. Wilson, 394, 597.
Armshy, Henry Prentiss (Delta Delta), 459, 702.
Art and the soldier, by Robert Cutter Matlock, Jr., 591.
Athletes, The, 70, 267, 453, 658.
Aydelotte, Frank (Beta Eta), 91, 673.

B

- Back, Roscius Harlow, death of (Delta Iota), 120, 168.
Reported alive, 120.
Badge, war (Sec. T.), 56.
Badge, war, 157.
Baldwin, Joseph Addison (Gamma Gamma), 544.
Baldwin, Lawrence Merrill (Gamma Lambda), 544.
Baltimore Alumni Chapter—
Letter, 94, 276, 461, 674.
Barden, Eldred Stewart (Delta Zeta), 481.
Barron, Harold Earl (Delta Delta), 704.
Beckett, John Wesley (Gamma Zeta), 71, 267.
Bellak, Joseph Faussett, death of (Beta Rho), 305, 355.
Benson, Thatcher Wyllis, death of (Nu), 483, 546, 706.
Berrien, Edward G. (Beta Upsilon), 459.
Beta Chapter—
Alumni notes, 278.
Initiate roll, 73.
Letter, 236, 411, 618.
Soldier roll, 122, 309, 498, 714.

- Beta Alpha Chapter—
Soldier roll, 127, 315, 505, 722.
Beta Beta Chapter—
Alumni notes, 101, 280, 469, 684.
Initiate roll, 74.
Letter, 65, 244, 419, 626.
Soldier roll, 127, 149, 315, 340, 505, 532, 722, 754.
Beta Chi Chapter—
Soldier roll, 132, 321, 512, 729.
Beta Eta Chapter—
Alumni notes, 101, 287, 469, 685.
Initiate roll, 73.
Letter, 244, 421, 627.
Second generation club, 456.
Soldier roll, 128, 316, 506, 723.
Beta Iota Chapter—
Alumni notes, 102, 281, 469, 685.
Initiate roll, 75.
Letter, 66, 246, 422, 629.
Soldier roll, 129, 150, 317, 340, 507, 532, 724, 754.
Beta Kappa Chapter—
Alumni notes, 281, 685.
Initiate roll, 75.
Letter, 66, 246, 423, 629.
Soldier roll, 129, 317, 508, 532, 725, 754.
Beta Mu Chapter—
Alumni notes, 469, 685.
Initiate roll, 76.
Letter, 246, 423, 630.
Soldier roll, 130, 150, 318, 508, 725.
Beta Nu Chapter—
Alumni notes, 102, 281, 469, 686.
Alumnus treasurer, 606.
Initiate roll, 76.
Letter, 246, 424, 630.
Little journeys of the Editor, 54.
Soldier roll, 130, 318, 340, 509, 533, 726, 754.
Beta Phi Chapter—
Alumni notes, 281.
Initiate roll, 77.
Letter, 66, 248, 427, 633.
Soldier roll, 132, 320, 340, 511, 533, 729, 754.
Beta Psi Chapter—
Alumni notes, 281, 470, 687.
Initiate roll, 77.
Letter, 66, 248, 427, 633.
Soldier roll, 133, 321, 512, 730.
Beta Rho Chapter—
Alumni notes, 102.
Initiate roll, 76.
Letter, 248, 425, 631.
Soldier roll, 131, 319, 510, 727, 754.
Beta Sigma Chapter—
Alumni notes, 470, 686.
Initiate roll, 77.
Letter, 248, 425, 631.
Soldier roll, 131, 320, 510, 728, 754.
Beta Tau Chapter—
Comments, 543.
Initiate roll, 77.
Letter, 248, 426, 632.
Soldier roll, 132, 320, 511, 729.
Beta Theta Chapter—
Alumni notes, 685.
Initiate roll, 75.
Letter, 66, 245, 422, 628.
Soldier roll, 128, 316, 507, 723.
Beta Upsilon Chapter—
Alumni notes, 102, 281, 470.
Initiate roll, 77.
Letter, 248, 427, 632.
Soldier roll, 132, 320, 511, 729.

THE DELTA

Beta Xi Chapter—

Alumni notes, 102, 686.
Initiate roll, 76.
Letter, 66, 247, 425, 630.
Soldier roll, 130, 819, 510, 727.

Beta Zeta Chapter—

Alumni notes, 101, 280.
Initiate roll, 75.
Letter, 65, 244, 420, 626.
Soldier roll, 128, 316, 506, 723, 754.

Bisbee, Earl Bronson, death of (Gamma Sigma), 491, 549.

Bland, Oscar E. (Beta Eta), 93, 274.

Bollinger, Lynn L., death of (Beta Beta), 546.

Bookshelf, Chapter, 159, 345, 537.
Bennett, Rawson (Nu); Navys of the world, 538.

C

Caldwell, Perry DeFord (Delta Zeta), 349.

Calhoun, Hall McCoy, death of (Theta), 546.

Callen, Speer Woodson, death of (Nu), 546.

Camp Clayton, France, by Alfred Alexander Grant, 398.

Carlson, Oscar Fred (Delta Omicron), 296, 712.

Cuse, Mervin, death of (Gamma Theta), 490, 548.

Casualty list (Ed.), 57.

Catalogue (Sec. T.), 57.

Catalogues, the first and second, by Grant Woodbury Harrington, 602.

Chapter letters, 236, 411, 618.

Chapter standing (Ed.), 616.

Chandler, George A. (Gamma Lambda), 346.

Chandler, George A. (Sec. T.), 230.

Chapter Bookshelf—

See Bookshelf, Chapter.

Chapter House clubs (Sec. T.), 231.

Chapter House Fire—

See Fire, Chapter House.

Chapter publications (Sec. T.), 50, 402.

Chapter survey, 65.

Charlton, Donald Hopple, death of (Beta Nu), 118, 167, 489.

Chicago Alumni Chapter—

Banquet, 664.

Letter, 461.

Chi Chapter—

Alumni notes, 280, 684.

Soldier roll, 127, 315, 505, 722.

Clayton, Bertram Tracy, death of (Theta), 717, 167, 497.

Clayton, Bertram Tracy (Theta), 87, 308.

Clayton Brothers, The, by Thomas M. Owen, Sr. (illus.), 86.

Clayton, Henry DeLamar (Theta), 86, 93, 275, 351.

Clayton, Junius Pugh (Theta), 87.

Clemans, Carl Lane (Chi-Beta Chi), 459.

Clemmer, Frank, death of (Lambda), 718.

Cleveland Alumni Chapter—

Banquet, 665.

Letter, 94, 276, 675.

Meetings, 409.

Membership, 759.

Clippings and comment, 154, 343, 758.

Cones, Archie Austin (Delta Gamma), 759.

College notes, 72, 208, 660.

Cone, William Alexander, death of (Delta), 494, 550.

Conventions and rallies, 88, 273, 457, 664.

Conventions, Division (Sec. T.), 57, 402.

Cowart, Albert Hansford, death of (Beta Th), 709.

Cowell, Horace Baxter, death of (Psi), 708.

Cowell, William Harold (Nu-Gamma Mu), 267.

Crawford, Thomas Lansden (Nu), 481.

Credit, Chapter (Sec. T.), 401.

Creed of a sportsman, The, by Zane Grey, 40.

Crossing on a transport, by Homer J. Schlin, 203.

Crossley, Moses Leverock (Delta Lambda), 1.

D

Dare, Mark Donald, death of (Delta Ka), 494, 550.

Daves, Herman James (Sigma), 453.

Davis, Westmoreland (Alpha) (illus.), 373.

Deaths, 167, 355, 546.

Debts, Alumni (Sec. T.), 57, 612.

Delta Alpha Chapter—

Alumni notes, 283, 473.

Initiate roll, 81.

Letter, 257, 440, 643.

Soldier roll, 142, 331, 523, 743.

Delta Beta Chapter—

Alumni notes, 692.

Initiate roll, 81.

Letter, 258, 441, 644.

Soldier roll, 142, 332, 524, 744.

Delta Chapter—

Alumni notes, 681.

Soldier roll, 122, 309, 498, 715.

Delta Chi Chapter—

Alumni notes, 108, 288, 478, 695.

Initiate roll, 84.

Letter, 69, 266, 451, 656.

Soldier roll, 149, 150, 339, 340, 532, 533, 755.

Delta Comments—

Adot, John Julius (Gamma Eta), 759.

Chandler, George A. (Gamma Lambda), 1.

Harrington, Grant Woodbury (Nu), 566.

Delta correspondents (Ed.), 407, 536.

Delta Delta Chapter—

Alumni notes, 105, 283, 473, 692.

Alumnus treasurer, 608.

Initiate roll, 87.

Letter, 259, 442, 645.

Soldier roll, 144, 150, 333, 340, 525, 533, 754.

Delta Delta's treasury guard, by John F. Kell, 608.

Delta Epsilon Chapter—

Alumni notes, 283.

Initiate roll, 81.

Letter, 68, 259, 442, 646.

We Announce *the Second Sigma Nu* *Song Contest*

BY the time this announcement is read our Chapters will have received copies of the songs that won the prizes in the first contest. We now announce the opening of the Second Contest, and every Sigma Nu is cordially invited to submit lyrics and melodies of Sigma Nu Songs. We suggest nothing—but we demand originality. The winning songs in the Second Contest will be published by the Fraternity, and suitable prizes awarded to the writers and composers. The contest will be governed by the same rules which applied to the First Song Contest.

Send all subscriptions and remittances to the General Offices, Sigma Nu Fraternity, Lemcke Building, Indianapolis.

The annual per capita tax paid by members of Alumni Chapters entitles the member to a year's subscription to The Delta. Such tax should be sent to the Alumni Chapter Treasurer, who will transmit it to the General Secretary.

Alumni not members of Alumni Chapters should send their subscriptions and remittances to the General Secretary, Lemcke Building, Indianapolis.

Advertising rates given upon request to the General Secretary.

Official Announcement

Official Jewelers to Sigma Nu

By Contract with the Fraternity

J. F. Newman
L. G. Balfour Co.

To the Active Chapters of Sigma Nu Fraternity:

Pursuant to the action of the Eighteenth Grand Chapter, the High Council has entered into a contract with J. F. Newman and L. G. Balfour Co., making these two concerns the sole Official Jewelers to the Fraternity, and granting them all rights and privileges pertaining thereto.

These Official Jewelers hold entirely different and distinct relation to the Fraternity than those who were formerly known under that title.

Under our contract they become really Official Jewelers—the interests of the Fraternity and of our members are conserved and the Fraternity has a direct means of control over their actions.

Two Official Jewelers were selected, because:

First—The smaller number of jewelers makes the exclusive rights more valuable to each party, and therefore more enforceable by the Fraternity.

Second—The competition will insure what the contract provides, since each concern will wish to build up its own trade.

The terms of the contract provide that:

ADVANTAGES TO THE FRATERNITY

First, the jewelers agree to maintain the standards of design, according to and in agreement with the Law and Customs of the Fraternity.

Second, the jewelers agree to maintain the regular standards of value in all Sigma Nu jewelry and novelties.

Third, the jewelers agree to keep their prices at the level of the market prices prevailing at this time, and not to raise their prices during the limits of the contract.

Fourth, the jewelers agree to make prompt shipment of all orders, and to keep on hand a supply of their goods adequate to take care of the demand.

In brief, our Chapters and our Alumni can purchase standard goods at fair prices and made according to the Law of the Fraternity. If there is any dissatisfaction, the Brothers have recourse through the General Office.

In return for this service:

First, the Fraternity has pledged exclusive rights of sale in our Chapter Houses to our Official Jewelers.

Second, the Fraternity will expect that all members shall individually observe the spirit of this contract in their purchases.

For the business of our Fraternity in the matter of jewelry and novelties, these two Official Jewelers will turn in a percentage of their receipts to the general fund of the Fraternity. This revenue will be used for the good and welfare of Sigma Nu, subject to the order of the Grand Chapter.

The foregoing does not apply to the Official Standard or Regulation Badge and Pledge Pin, which by law all Chapters and Initiates are required to buy from the General Office.

The spirit of this contract is binding upon all Sigma Nus, whether active or Alumni. It is not only to the advantage of the Fraternity that you confine your dealings to our Official Jewelers—it is to your own benefit as well.

To Chapter Officers:

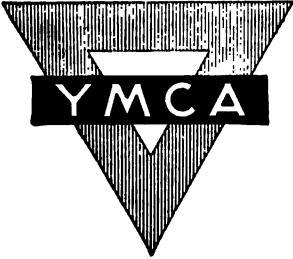

Specific Duties

1. Post the Official Placard in a conspicuous place on or near the Chapter's bulletin board.
2. Send all orders for Pledge Pins and Initiates' Badges to the General Office, as heretofore.
3. Extend all courtesies and privileges involved in this contract to the salesmen of the Official Jewelers, *and to them only*.
4. Do not permit the salesman of any other companies to display or sell their goods in the Chapter House or to the active men.
5. Report to the General Office *at once* any salesman not of these two concerns, purporting to be official salesman.
6. Make reports to the General Office, *promptly*, on the forms provided, of all sales of jewelry and novelties made in the Chapter House or to the members of the Chapter.

Bryant Park Eagle Hut, New York City
New York Public Library and Fifth Avenue Office Buildings in the Background

THE DELTA

The Bryant Park Eagle Hut and Brother Alvin E. Gillett

Gamma Gamma

At the corner of Bryant Park, just back of the Public Library, where Forty-second street and Sixth avenue meet—one of the most congested corners in New York City—stands the Eagle Hut. A port of embarkation, as every one knows, sees every day thousands of soldiers and sailors from our camps and fleet passing through. Most of these boys get leave to visit the city on their way to the front. Hence the Y. M. C. A. war hut is placed downtown for their headquarters.

One picture shows the Eagle Hut as you approach, of simple and yet artistic design, which fits in appropriately with the neighboring buildings and is yet similar to the camp huts. Our frontispiece gives a glimpse indoors, with everything in session, as it is all the time. (Take a good look at Brother Gillett, who is "at leisure"—you ought to see him when he is busy!) The hut and furnishings were designed by experts, and it is said to be the most attractive Y. M. C. A. in the world. Plans are being made to duplicate the colors and furnishings in other huts here and abroad.

Here all men in uniform find a homelike atmosphere where they can write letters, listen to music, buy refreshments at the canteen, which is served by women like Mrs. W. K.

Vanderbilt, Jr., Mrs. Jay Gould, Mrs. Robert Bacon, and many other prominent New York women. There are provided guides to show the men around the city. Rooming places are secured for them. In fact, the secretary and his staff try to serve all the needs of the men who are off duty while they are in New York.

And that brings us to an interesting phase in this article. Persons interest more than things, and their work without themselves lacks vitality. Brother Reader, meet Brother Gillett. (A fine-looking, upstanding man he is. Plenty of vitality in him and around him. His work attests this, too, to you who have never seen him.)

From the pine woods of northern Michigan Alvin Gillett went to Albion College, where he modestly says his Brothers did more for him than he can ever do for others. Here he decided to give his efforts to human service. For eight years he was director of social work at the West Side Y. M. C. A. in New York City, an association of 8,600 members—the largest in the world—and of high reputation throughout the country for its successful work and energetic staff.

When the Bryant Park Eagle Hut was built Brother Gillett was solicited as the secretary. It is hardly

necessary to tell about it, since we are all familiar with camp "Y's." At this point of passage, however, his opportunity was unique on this side of the Atlantic, and we can say he lived up to it.

Recently Brother Gillett was requested to go to Waterbury, Conn., and organize the Y. M. C. A. work

Pegues Goes Through a Bombing

Brother Pegues, the loved and honorable guardian of our treasury, knows the experiences of his Brothers in the hospitals of France. He has been through a bomb raid—and escaped injury, we gladly hasten to say.

On September 3, 1918, a bomb placed in the entrance of the Federal Building, at Chicago, exploded, killing four persons and injuring seventy-five.

Interior of Bryant Park Eagle Hut
Arrow points to Brother Alvin E. Gillett, Gamma Gamma, Secretary

for the Chase Companies, which are engaged in government war work, employing 7,000 men. He is also a leader in the Waterbury Community Sings.

Besides being a Sigma Nu and a Y. M. C. A. secretary, Brother Gillett is a thirty-second degree Mason, a member of the Waterbury Chamber of Commerce, and a man of ideas and leadership.

It came just as a bell in the dome of the building struck 3:10 o'clock. The force of the blast tore the radiator from its fastenings and hurled it twenty feet, where it struck and killed a horse, smashed desks, tore up great slabs of marble from the walls and ground the woodwork into splinters.

This outrage might have directly affected the Sigma Nu Fraternity. Where would we find another "Sam Pegues"? His office is in the Engineers Department, 308 Federal Building, and near enough to get all the sensations of a bomb raid and its dangers.

The Regent in France

[This communication has just been received from our Regent. We hope for his safe return about the time this magazine reaches our readers. We expect a most interesting article from him for the December number.—The Editor.]

American Y. M. C. A.
On Active Service with the American
Expeditionary Forces.

My dear Dunlavy:

Will reach New York the latter part of September and before leaving will cable you about what date I will arrive so you can meet me in New York if you think well of it.

Have met a great many Sigs, been with them *everywhere*; saw one Brother die as he was rallying his men on an attack against a nest of machine guns. The boys over here are playing the part of men—there must be a tightening up at home!

Have not time to write more.

Fraternally,

Aug. 5, 1918.

BURR.

Borden Burr Wins Fame

Birmingham Attorney With Y.M.C.A.
Does Gallant Service in France

BORDEN BURR, prominent attorney of Birmingham, in Y. M. C. A. work, making a tour of the American sector on the battlefields in France, who went over the top with several of the companies, which included Birmingham and Alabama soldiers, during the fighting in July, seeing the driver of one of the ambulances killed, mounted the seat of the machine, took the wheel, drove into the thickest of the fight, helped gather in the dead and wounded, drove back to the first line hospital and made two more such trips on to the battle grounds.

Borden Burr showed the greatest daring of any man not actually engaged in the fighting ever seen, according to the letter. The driver of the ambulance fell during the midst of the great over-the-top drive. Undaunted Mr. Burr grabbed hold of

the wheel and went forward. He assisted in placing the dead and wounded into the ambulance and wheeling around dashed for the hospital. The flying bullets, the bursting shells, the whizzing machine gun shrapnel and lead had no terror for him. For a second and even a third time he drove the ambulance back on the field and assisted in gathering up the unfortunate young men.

Our Regent

Burr led two other ambulances to the field and showed the drivers the easiest way to reach the portion of the field where many of the boys from his home section had been stricken. Nothing caused him fear. He would not desist, but bravely went to the front, after going over the top. It was the most remarkable showing of bravery ever heard of.

Exactly when Mr. Burr is to return is not stated in the letter, but before leaving here several weeks ago he announced that he would endeavor to be back by October and that he would be able to give personal description of conditions. His prediction has come true. Going over the top was tame as to what else the Birmingham attorney did in the great fighting on the Marne.—Birmingham, Ala., newspaper.

REGENT'S DINNER IN PARIS

Dear Brother Rider, M. P. C.:

A copy of the Herald (Paris edition) came into my hands today and about the first thing I saw was:

Sigma Nu Fraternity

"All members of the Sigma Nu Fraternity who can so arrange are invited to meet the Regent of the Fraternity for din-

lie H. Rubicam, Gamma Chi 153, telling me, among other things, of a banquet held the evening before the letter was written. He said that nine good Sigma Nus, all in the 18th Engineers, Railway, had sat down to a Sigma Nu banquet and had a Sigma Nu time and expected to do so again! Anyway, it is good to know the boys are getting together there, no matter who gets there first, or how often.

CAPT. FREDERICK H. RICHARDSON,
Gamma Chi.

Dale A. Hartman
Delta Zeta
At Camp Sheridan, Alabama

ner at Hotel Wagram, on Monday evening, August 26, at 6 p. m." and hence this letter.

Now as to where I am in France, the censors won't let me tell (and, to tell the truth, I haven't a very good idea of just where I am); so we'll drop that. Now, I don't know whether I'll be present on the 26th at Paris or not. This soldier life is darned uncertain, you know—the 26th may find me breaking stones in Berlin or "pushing up the daises." You never can tell.

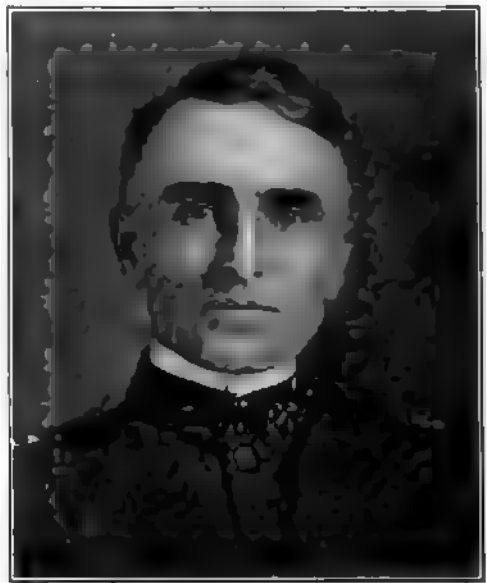

DALE HARTMAN, Delta Zeta.

First Sigma Nu Dinner in France

I am particularly interested in the account of the "Amex Forces" Alumni Chapter, and I hope to soon meet some of the boys over there. However, I am wondering if theirs was the first such meeting there. Sometime last fall—in October or November—I received a letter from Brother Les-

TRAINS THE "Y" MEN FOR SERVICE OVERSEAS

In the big Y. M. C. A. Overseas Training School, New York City, the Colonel of the Battalions, that drill every afternoon on the West Meadows of Central Park, is William Robert Holland, of the Beta Xi Chapter, William Jewel College, Liberty, Mo. Brother Holland is not only a wonderfully busy man, but he is a universally liked gentleman. The following from the "Kit Bag," published by the Y. M. C. A. men while waiting for their passports, is self explain-

W. R. Holland

"Colonel of the Battalions," in charge of New York headquarters training Y. M. C. A. men for work overseas.

ing and shows how well established this brother has become in the hearts of the men with whom he is laboring. The presentation was made on the drill grounds just at the close of the afternoon's maneuvers with Mrs. Holland standing with her husband:

"Mrs. Holland decided a 32nd degree Masonic ring would be the best thing for Col. Holland. Lieut. Colonel Burleigh will

present it to him Friday after drill. It's safe to say that the Colonel will not appreciate the handsome gift one bit more than the "Y" men appreciate the opportunity of being able to contribute to the friend which purchased it."—"Kit Bag."

He Just Wouldn't Be Kept Out of the War

Mr. Holland hails from Claremore, Okla., where, until he got into the war, he was the head of a big wholesale grocery house. He is a former officer in the National Guard and became a captain in the National Army when the latter was organized. He was crippled in an accident while training at Camp Foote, Little Rock, Ark., and was discharged for physical disability. But that couldn't keep him out of the fighting zone. He hooked up with the Y. M. C. A. and soon will be on the other side. There are many like him among the secretaries who are being sent to France, to England, Italy, Mesopotamia and in fact everywhere there is fighting.—New York Evening World.

Harry Carleton Fraser

Delta Gamma

Brother Harry Carleton Fraser is chaplain in the 79th Field Artillery. Brother Fraser enrolled at Pratt Institute after pre-

Chaplain Harry Carleton Fraser
Delta Gamma

paring for college at the Mt. Hermon School. He then went to Columbia College, where he was initiated into Delta Gamma Chapter. He left there at the middle of his junior year for Iowa Wesleyan, where he graduated.

Brother Fraser served four years at the Army and Navy Y. M. C. A. in Brooklyn, and was then made General Secretary of the Y. M. C. A. in Manila, holding this position for six years. In December, 1916, he was nominated by Governor General Harrison of the Philippines for a chaplaincy in the Regular Army, and returned to the United States. He could not qualify for this position, however, until after ordination by the Wyoming Conference of the Methodist Episcopal Church in April, 1917. The 79th Field Artillery was a crack cavalry regiment, but was changed along with many others to Field Artillery, in October, 1917.

"Camp and Field," the army cantonment paper, reports Brother Fraser as equally alert in making a ringing speech at the Sunday morning camp service as in staging a boxing bout under Y. M. C. A. army auspices.

[Brother Fraser is respectfully referred to the Pickwick Club, page 144, for his letter of protest. We trust that we have now fulfilled his expectations and he will withdraw his complaints (!) We congratulate him on his accuracy of aim for his letter to his Chapter brought us a Chapter letter from the reporter without a call this time. Other Alumni! take heed, and if your Chapter doesn't send in enough news, "punch" 'em up.—The Editor.]

Dr. Oscar T. Schultz Enlists

Dr. Oscar T. Schultz, Beta Eta, is now a captain in the Medical Reserve Corps. In the early summer he was stationed at Pratt Institute, New York, and on July 1 he was transferred to the Army Medical School at Washington, D. C., for duty, and "after that," he says, "no one knows." With his family he will make his home at Baltimore, Md.

Captain Schultz was formerly a member of the Faculty of the Nebraska Medical School. Before that for years he was professor of pathology in the Western Reserve Medical School.

In Cleveland, he was an enthusiastic member of the Alumni Chapter, a "regular" attendant at every meeting. His friends there will always remember his genial face and cheery ways. He was always relied on as one "to keep things going," and no meeting at which he was present ever grew listless or soporific. Captain Schultz established a precedent in making "the shortest speech" in record, which did not detract in any way from his popularity.

It's a grand old war anyway you take it, and one of Sigma Nu should be justly proud of the part we are taking in it.

Sigma Nus in Y. M. C. A. War Work

Here and Over There

We have been asked by the National War Work Council of the Y. M. C. A. to feature their work in this issue of our magazine, and we are glad to do every possible thing which this organization, so magnificent in service, asks us to do.

Brother Alvin E. Gillett's article on the work at the Eagle Hut in New York City—in Bryant Park, just back of the Public Library—has appeared on the editor's desk at a most appropriate time. In order to round out the description of the Red Triangle and to present it from all angles, we are also publishing in this issue Brother Gillett's contribution in our vocational series—Y. M. C. A. work as a profession for college men. Its war work is but a part of its regular affairs and bears a definite relation to the home organization. The

Y. M. C. A. is doing for our soldier boys in the field only what it professes to do for all young men, at home or abroad.

In requesting the co-operation of the fraternities and their magazines, Mr. Albert B. Elliott, of the Bureau of Publicity of the National War Work Council, writes us: "I am interested in the number of Sigma Nus who are in France in Y. M. C. A. work." Indeed, the list of Sigma Nu Brothers in this issue who are acting as Y. M. C. A. secretaries, though incomplete, of course, is nevertheless impressive and indicative of our relation to this organization. And while we are writing this article our Regent, Brother Burr, is on an inspection tour of the western front, preparing to give his time this fall to the nation-wide Y. M. C. A. drive for

\$112,000,000, and our Past Regent Albert H. Wilson is on the seas going for duty as hut secretary in France.

Here we are glad to present a roll of Sigma Nus in Y. M. C. A. war work. This roll is far from complete, but is indicative of the close relation which Sigma Nu bears to this important service:

The Y. M. C. A. is coming to its own in the testing fire of this great war. It has apparently taken a

world calamity to make the general public understand something of the value of this organization. General Pershing has personally endorsed the statement sent out from his headquarters, which says: "Give me 900 men and the Y. M. C. A. and I will have a more effective fighting force than 1,000 men without it."

Aside from this value to the fighting force of our country the American people are now beginning to understand through the boys who are over there that the value of this organization in many other ways is almost inconceivable. Its part in the great victory to come, as well as in giving comfort to our boys, is simply beyond measure.

Fraternal Ties Abroad Bind Close

Sigma Nu Fraternity:

It is indeed most interesting and gratifying to learn that our Chapters are in such a flourishing condition and I trust we may keep them so, through this period of unprecedented conditions.

When the boys come home there will be many who will see Sigma Nu in a new light and our organization should be materially strengthened. I knew of no pleasanter reunion than that of many that will take place between our Brothers on the battlefields of Europe.

Some years ago it was my opportunity to visit the Philippine Islands and upon my arrival, although enjoying the scenery and the wonders of a new country, still I felt like a stranger in a strange land. You can not imagine my delight upon meeting a Brother Sig, one Carl Fraser, from Columbia, who introduced me to about fifteen others from our Chapters from coast to coast. How much more will such meetings be appreciated "Over There"?

There are a number of five pointed badges around Wilmington, but there has been no "get together" since my arrival here, about two months ago. It has been my pleasure, however, to employ four from our Delaware Chapter for work at our powder plants, and I hope I can get more from this or other colleges.

I have never been in Indianapolis except to pass through, but some day I shall surprise you and myself by dropping in for a real visit, and you will have an enemy in the Brotherhood if you ever get within hailing distance of Delaware without "slipping me the grip."

Fraternally,

C. A. LAMBERT, Delta Delta.

Wilmington, Del., July 22, 1918.

This was an old creamery. The Y. M. C. A. has three rooms in the cellar. The top floor was absolutely smashed by shell fire. The place was shelled every day. Two men were locked up in it for two days and two nights, unable to get out. Two of the rooms were taken over and used by the Army as an advance dressing station at the battle of Meuse. The third room was used by the Y. M. C. A. men for serving the wounded.

The Post Secretary and His Hut

Ray H. Finger, at Fort Des Moines, Iowa

Chi

[Through Brother Don Krull we are able to give a brief glimpse of the Y. M. C. A. work at one of our camps. We have pieced this account together from clippings from the Fort Des Moines Post, of which Brother Krull is associate editor, which will account for any inadequacies in the writing. For the same reason, written by the soldier journalists, these portray the "Y" as the soldiers themselves see it, which may be the more interpretative.—The Editor.]

"Soldiering keeps a fellow pretty busy and makes a fellow appreciate what an easy time he had in civilian life," says Don Krull. "The hardest worker in this camp is a Sigma Nu named Ray Finger, from Cornell College, Iowa (Chi Chapter). He's the Y. M. C. A. secretary here and

a regular fellow, with all the good qualities a man would want. Hence the fellows swear by him and are back of him to the limit in anything he starts. It's merely the same old story of 'Sigs' always in the lead."

New "Y" Building

The new Y. M. C. A. building, which has been under construction for the past four weeks at Fort Des Moines, has just been completed and was opened last Saturday by Mr. R. H. Finger, Post "Y" secretary. The building consists of a large wing, 115 feet by 44 feet, in which the auditorium is located, and a smaller wing, 56 feet by 30 feet, which is to be the social room. The two wings

are connected by a corridor. Mr. Finger has been pushing the construction and states that the new quarters are well equipped with all the conveniences necessary for the work of the Y. M. C. A. and that he will be able to give the men the best of service.

Wants to Give Men a Home

"What we want to do is to give the men a home and keep them in such condition that when they do go home they will be just as good if not better men, mentally, physically and morally."

He praised the way in which the American people have been giving their money to the organization and expressed the hope that when the next drive begins they will more than "go over the top."

Auditorium

The auditorium will be used for plays, concerts and moving pictures, and has a seating capacity of one thousand. It is equipped with writing tables capable of accommodating six hundred people at once. The stage, located in the rear end of the auditorium, is 24 feet by 24 feet, with a front platform four feet wide. On either side of the stage is a small but convenient room to be used for classes. In the front end of the large wing are three rooms—ladies' rest room which is well fitted for its purpose, a store room where advance supplies will be kept, and the secretary's quarters. There are quarters on the second floor equipped to accommodate six secretaries and will be occupied by the three workers who are expected to come here soon.

Club Rooms

The whole small wing is to be used as a social room. It is well furnished for that purpose with writing tables, easy chairs, two library stacks, magazine and newspaper racks, and several game tables for such interesting pastimes as checkers, shuffle board and crokinole. The social room is to be connected with the hospital corri-

dor next fall so that patients may enter without going into the cold.

The service desk, where stationery and stamps will be furnished to the men, is located in the corridor connecting the two wings. To the rear of the desk are the secretaries' office and the store room for immediate supplies. There are three entrances to the auditorium and one to the social room, each opening into large vestibules.

Plans of "Y" Camp Work

The aim of the Fort Des Moines Y. M. C. A., as explained by Mr. R. H. Finger, post secretary of that organization, is to help make the men as efficient soldiers as possible and to accomplish this end the work has been divided into four different departments, religious, educational, social and recreational. It is expected that three more secretaries will be assigned here in the near future, and as soon as they come each one will be put in charge of a department, under the supervision of Mr. Finger.

Religious Department

Under the direction of the religious department, Sunday services will be held in the morning and evening and it is also planned to hold mid-week services. Arrangements have been made whereby the best pastors in Des Moines will speak at the morning services. The evening services will take the form of song services.

Hospital ward visiting will be done on a much greater extent as soon as more secretaries arrive. It is planned to visit all the patients three times a week, to hold personal interviews with them, and to supply them with stationery, stamps and whatever else they may need.

Educational Work

The educational department has met with great success. Approximately 240 men have attended the French classes, which were instructed by Professor Constant of Drake University. A large number of men have been enrolled in the English and

typewriting classes, but this particular phase of the educational department is to expand as soon as more help arrives.

Social, Recreation, and Sport

With the opportunity and convenience offered by the new Y. M. C. A. building, the social phase of its work will be greatly developed. There is to be an entertainment for the men every evening of the week. It is planned to have moving pictures twice a week, one concert, one "stunt night" and one social evening.

The recreational department will have in charge the promotion of games for the benefit of the men during their leisure time. The purpose of this is not so much to develop teams in the different athletic sports, though that may come about incidentally, but more to give every man an opportunity to take part in some form of athletics for the sake of the pleasure and enjoyment derived.

Athletics

Volley ball, hand soccer ball, football and tennis are some of the games in which the men will be given a chance to spend their leisure periods. The Y. M. C. A. has now over \$400 worth of athletic goods of all kinds and efforts are being made to obtain more. There will be handball, volley ball and basketball courts in the auditorium of the new Y. M. C. A. where the men can play in the winter.

The report of "Fort Des Moines Balltossers'" organization meeting relates: "R. H. Finger, the cheery secretary of the Y. M. C. A., offered to provide the necessary bats and balls, and this offer was gladly accepted." In every way the "Y" offers to the men a good time as a prescription against homesickness and idleness.

To quote Brother Krull a second time, "Though he puts in fifteen or sixteen hours a day, the camp secretary is ever accommodating, always cheerful, obliging to the limit and always in the front van. Brother Finger is a typical Sigma Nu."

A Treasure "Over There"

Many of the boys in France write of their pleasure in reading *The Delta*, with its interesting reports of Grand Chapter proceedings and minor convention affairs. A copy of *The Delta* "over there" is a treasure indeed, and circulates from hand to hand, being oftentimes enjoyed by members of other fraternities as well.

SERGEANT GEORGE A. CHANDLER,
Gamma Lambda.

July 29, 1918.

Norman H. Angell
Delta Gamma

To Help Sell Thrift Stamps

The picture shows Norman H. Angell, Delta Gamma, of the Baltimore Y. M. C. A. force, wearing a gas mask and trench helmet brought to Baltimore by a Baltimorean with the United States naval force, and now on his way back to France. The French soldier who wore this outfit at the front was killed by a bullet which passed through the helmet from front to back, the photograph showing the hole made by the fatal projectile. The gas mask is complete with respirator, fastened to the wearer's chest.—Baltimore (Md.) Star.

Y. M. C. A. Work as a Vocation

By ALVIN E. GILLETT, Gamma Gamma

Just a few thoughts to my young Brothers who are looking forward to life's start. I want to tell them why I chose the Y. M. C. A. as my vocation. Dare I say profession? Now I am not a writer. I might get away with a talk on this subject, but to put it down in black and white looks rather brutal toward you readers.

First, you must bear in mind the fact that I am talking to you as college men, which means that you are one of that fortunate group of two or three per cent. of the total men in the country who have had the special advantage of a college education. I do not see how any man can go to college and sit week after week under the teaching and leadership of choice men without catching some of their spirit of service, the spirit of wanting to pass on to others some of the good things he has been privileged to learn. If a man does not catch this spirit in college I think he has missed one of the best things in college life, and particularly in college fraternity life.

One of the great things Sigma Nu did for me was to teach me the value of friendship. My close friendship for the men of our little group of twenty men increased my desire for friendship for the larger group of men, and it gave me a desire to be of some service to them.

The Young Men's Christian Association was started in 1844 by a young man named George Williams, who organized an association among the group of men with whom he worked. The purpose of this association was to do personal religious work. At first its work centered on the religious and social activity. The movement was developed very largely in this country to its present state by such men as Richard Morse, Robert McBurney, Edwin F. See, John R. Mott, and others.

In my mind, one great appeal of Young Men's Christian Association

secretaryship is the fact that in it you can use every talent you possess. If you have ability as a teacher, there is unbounded opportunity in its educational department. There have been 5,200 men in educational classes in the West Side Branch of the Young Men's Christian Association, New York City, during the last year. They range from the foreigner, who does not speak a word of English, and comes to study English and Americanism, to the college or business man who wants to study business psychology, salesmanship, first aid, or aeroplane mechanics.

Have you talent as an orator or speaker? If so, you can use it until you are pumped dry in the religious work department in their large number of meetings held in and out of the building. This association holds meetings in about thirty-five shops each week. Good music is arranged and some competent speaker provided, who will give an inspirational message to the group.

Have you ability as an organizer? In the Y. M. C. A. you have a field which is composed of the best young and middle-aged men in the community where you are located.

Are you a salesman? What better selling proposition is there than a Young Men's Christian Association membership, which is bound to make a man better fit to do his daily work?

Do you enjoy finance? There is plenty of chance for you in the raising and handling of money for the benefit of the young manhood of your town.

Are you fond of detail? You will find lots of it in the monthly and annual statistical reports and daily detail work of the association.

Are you fond of business managing? It is no small job to handle a plant worth from one to two millions of dollars and employing two to three hundred paid workers.

Most men like to use their talents to the utmost. I believe that an increasing number of them are being attracted into Y. M. C. A. work for this reason.

There is quite a large class of college men, and especially men of the small colleges, who feel that they would like to do some definite Christian work, but are not especially qualified for the ministry. To this group of men the Y. M. C. A. offers an opportunity for unlimited service in Christian work.

Every one connected with the Y. M. C. A. work feels that it is on the eve of its greatest growth. A large number of men who have been served by the Young Men's Christian Association in the army cantonments and huts are going to take an active part in the associations when they come back to civilian life.

What a privilege to have a part in a program which deals with men and not mere things, and what an opportunity and responsibility men in association work are to have when these soldiers and sailors come back and expect the same sort of service and fellowship which the Y. M. C. A. has provided them while in uniform.

AMERICAN DRIVE WOULD END THE WAR, SAYS LYON

Nothing Can Stop Army of Two Million Yankees, Once They Get Started Toward the Rhine, Declares Correspondent, Back After a Year at the Battle Front.

Fresh from the firing line in France, C. C. Lyon, staff correspondent of The Citizen, returned to Columbus Tuesday morning for a vacation, exactly one year to the day after he started to the front.

Having spent weeks in the American trenches, slept with American boys in their dugouts, stood guard with them in their lookout posts, seen them go over the top with fixed bayonets, and looked on while some of them were killed or wounded by the Huns, Lyon knows the American soldier as he really is.

Yankee Morale Is Good

He has talked confidentially with hundreds of them. He knows what they are thinking about. He knows what they have done and, biggest thing of all, he knows

what they will do, what the people back home can expect when America gets into the war with its full strength. And this is what Lyon says:

"If the United States will put 2,000,000 bayonets on the western front within the next few months and pull off a real offensive, in co-operation with the French and the British, this war will be over in a jiffy."

Uncle Sam—"They're coming, Cal!"
—Columbus Citizen.

Want a Real Fight

"Instead of a tit-for-tat affair, with neither side suffering much damage, the American craves a knock-down, drag-out fight. He thinks the quickest way to end this war is to give the Germans his hardest licks in the shortest possible time."

"The only fear that many American soldiers have is that the war will be over before they get the chance of pulling off a tremendous offensive of their own."

Huns Fear Yankees

"The German newspapers sneer at the American soldiers, but I was present in a French battalion headquarters, just on the left of an American battalion, when several German prisoners who had deserted, were brought in."

"Why didn't you go across to the Americans and surrender?" a French officer asked them.

"And get killed?" answered one of the Germans. "Those wild men haven't any more sense than to kill us if they get a chance."—Columbus (Ohio) Citizen.

High Council Meeting

New York, June 11-12, 1918

The High Council met on June 11-12, 1918, at the Hotel Waldorf-Astoria, New York City. The occasion was a farewell to Regent Borden Burr, who was on the eve of his departure to France, in the service of the Y. M. C. A. The necessity of his presence in New York at that time led to its selection as a meeting place.

Business affairs of more magnitude than usual were discussed and settled at this meeting.

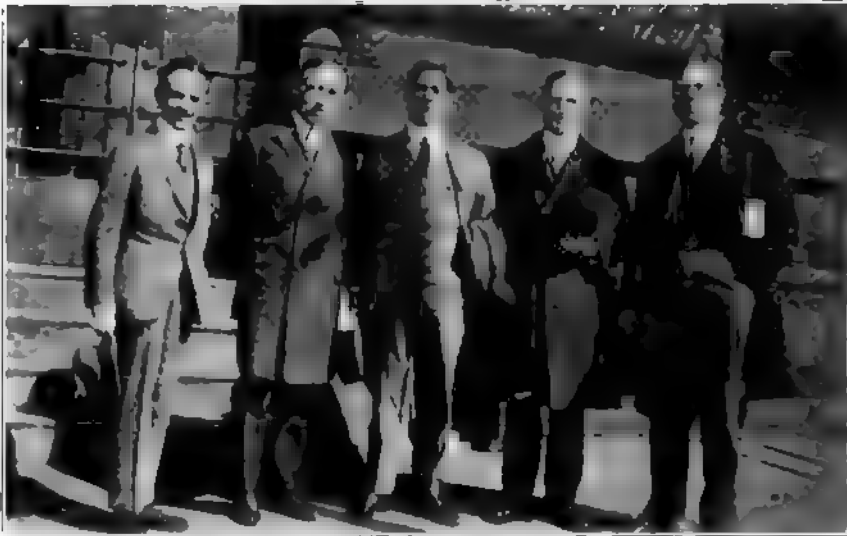

The official jeweler contracts were let. This matter is explained in detail on pages 4 and 5, this Delta. All revenue derived therefrom is to be put in a separate fund for disposal by the Grand Chapter.

A number of delinquent debtors were expelled. We cannot give their names in our magazine, but the list will be sent to the Chapters.

The practice of Brothers owing their Chapters when they leave college, refusing or ignoring these debts, is coming to a sudden stop. True Sigma Nus will keep their obligations, fraternal or financial. The brand that merely "totes" the badge will be left outside.

Many other matters of routine administration were disposed of.

The most interesting session was the dinner given to the High Council by the

The High Council and General Officers
Taken at Indianapolis, Indiana, April, 1918

From Left to Right—Harry A. Rider, George A. Smith, Borden Burr, Walter E. Myers, Edwin W. Dunlavy. Unfortunately Sam F. Pegues had taken an early train home.

The condition of our Chapter House Building Associations based on the reports submitted according to the Grand Chapter decree.

The policy of the editor was approved by the following resolution:

"We express our pleasure at the make-up of the Delta both from literary and mechanical standpoints, and recommend that it be maintained at its present standing."

[Hence we make in this issue no cut from the last volume in number of pages and illustrations, quality of paper stock or other matter of content or appearance, cost what it may under the rising scale of prices.—The Editor.]

New York Alumni, June 11, 1918, at the Geneva International Club. Brothers R. E. Sawyer, Maurice V. Samuels and Inspector Henry A. Theis welcomed the High Council to its first official visit to New York. Regent Borden Burr and Grand Treasurer Walter Edward Myers responded. Vice Regent George A. Smith, being also a New Yorker, spoke for both sides. Many men in uniform were present and Brother Burr was bidden God-speed in the true manner of our Military Order.

Unfortunately there was no opportunity to secure a photograph of the dinner, but here is a picture of the High Council taken last April, at the High Council meeting in Indianapolis.

Presents from Prussia

Issued by Army Section, Social Hygiene Division Commission on Training Camp Activities, Washington, D. C.

[The following article is based on an article appearing originally in "The Garnet and White" of Alpha Chi Rho. It is printed here by request of the United States Commission on Training Camp Activities. We congratulate our sister magazine on taking the lead in this matter.—The Editor.]

AT the last meeting of the Inter-Fraternity Conference, a representative of the United States Government presented some startling statistics as to the prevalence of venereal diseases not only in the army and navy but among the civilian population, and appealed to the fraternity workers to aid the government in checking their ravages. The government approaches the old problem from no narrowly religious or moral viewpoint. It simply faces facts—facts which show that in Europe, before preventive measures were adopted, there was more loss of military efficiency through venereal diseases than from any other cause except casualties in the line. The government is bound to do everything in its power to win the present war, and with this end in view must crush anyone or anything affording "aid and comfort" to the enemy.

There is a legend that, when Alexander the Great approached a certain remote province of India, the king had his daughter, Yzdra, inoculated with a deadly poison, and sent her to the western conquerer as a present. Thus every prostitute in the neighborhood of a camp or cantonment, who is a carrier of either syphilis or gonorrhea—and most of them are infected with one or both—may be regarded as a potential ally of the Kaiser, a "present" from the Prussians.

Simply to promote efficiency, then,—to put an end to this "aid" to the enemy—the government has already taken drastic measures in and about training camps to protect our soldiers and sailors from the fate that threatened Alexander. The territory

within an effective radius of such camps has been cleaned up, and is being stringently policed. Dispensaries and stations for prophylaxis and clinics for the treatment of infected persons have been established. State laws and city ordinances for the repression of prostitution have been encouraged. Lectures on venereal diseases and their terrible sequelae, attendance at which is compulsory, are given in all cantonments by a staff of specially trained speakers. Literature is distributed. Graphic exhibits are displayed. Even elaborate film plays are produced to drive home the same imperative lesson. And now the government appeals to all of us stay-at-homes to interest ourselves in the fight, not only as it effects the armed forces directly, but also as it may effect indirectly those younger men in our charge who are with us today in civil life, but who tomorrow may be in the uniform of Uncle Sam. How can we, members of Sigma Nu do this?

In the first place we can write letters to our boys, our Brothers, at the front, urging them not only for their own sake, but for the sake of those with whom they may be associated, to give their active support to the government's program. While fraternity men are comparatively few in number, they are the potential leaders in any group of community, and should be able to exert a far-reaching influence. Not only should our general secretary send letters to members of Alpha Chi Rho in the nation's service, but every man among us who has a younger fraternity Brother in either army or navy, should write personally to him on this subject. Even a father cannot talk

to a son as one of these "older Brothers" can talk to a boy on matters relating to sex, and never was there a time when full, frank, brotherly discussion on these matters so essential as it is today, with the whole world at war, and the United States making every effort to bring its full military power to bear on the side of our allies at the earliest possible moment.

Again, we can take the campaign up and carry it into the Chapters of our Fraternity. Every undergraduate member of a Chapter today is a potential soldier. However young at present, he is more than likely to be called upon to render military service in one way or another before the war is over, and it is not too early to make him begin to feel now his responsibility to himself and to his country. He, too, should be required to give his active support to the government's program. This he can do by keeping himself clean and "Fit to Fight" so that when the time comes for his personal participation, he may not be a "slacker" because of easily avoidable physical disability incurred through the senseless pursuit of pleasure.

Sigma Nu feels that it is its duty to take a definite and determined stand on this matter of physical and moral standards. It uncompromisingly advocates, for all its members, complete chastity outside the bond of marriage, not as a distant, unattainable ideal, but as an actual standard of conduct. Such a standard involves, certainly, a considerable exercise of will-power, but, in the judgment of the most eminent medical authorities it is thoroughly practicable and is entirely compatible with health. The Fraternity warns all its Brothers, and particularly those already in uniform, or in Class 1, against venereal diseases. Far more, then, it warns them against every form of sexual immorality, without which such diseases would soon disappear. It is one thing to treat the result. It is another to remove the cause. The

former is the work of trained specialists. The latter is something in which we can all take a hand and render yeoman's service. The Brother who lives up to the standard which we propose is participating directly in this vitally important work, and is not only behaving as a loyal Knight of our Order, but is likewise serving well this great country of ours in time of war. In this sense now, as never before, loyalty to the Fraternity is loyalty to the United States.

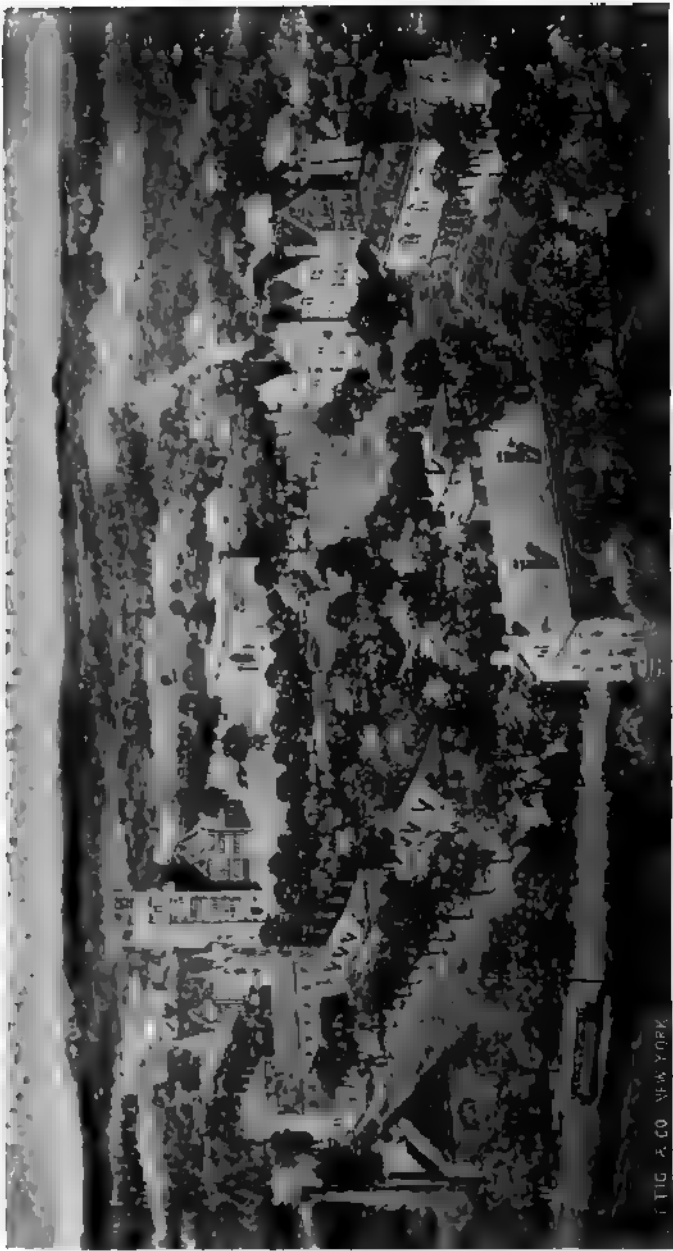

Appeals for Clean Morals

With the American Army in France, August 20 (by the Associated Press).—In a general order, General Pershing addresses the army frankly on the social evil and urges continence as "the plain duty of every member of the American expeditionary forces, both for the vigorous conduct of the war and the clean health of the American people after the war."

General Pershing directs the commanding officers to urge moral cleanliness on the men as their duty as soldiers and the best training for enforced cleanliness of life at the front. The order prescribes more rigid control of leaves of absence and directs courts-martial to exercise severity in dealing with infected men. It makes all immoral resorts "off limits" and in co-operation with the French police, both military and civil, takes steps to repress clandestine evasion of the order.—Indianapolis News.

Suppresses Venereal Disease

Brother Isaac P. Robinson, Lambda, who has been long located at Baltimore, Md., has a new address. Dr. Robinson has accepted an appointment with Surgeon General Rupert in the U. S. Public Health Service, with headquarters at Fort Leavenworth, Kansas. He is in charge of venereal disease control, with the title of acting assistant surgeon.

Installation of Delta Psi Chapter

Bowdoin College

Through the Eyes of An Old Alumnus

By DR. SETH F. ARNOLD, Beta Upsilon and Boston Alumni Chapters

IT has been suggested that I say a few words to you in regard to the installation at Bowdoin, at which it was my privilege to be in attendance.

Nature was kind, and in mid-afternoon of a perfect spring day we re-

very impressively and expeditiously inducted the thirty-four candidates into the secrets and mysteries of Sigma Nu. I must pause to pay a most deserved tribute to Inspector Edson K. Smith, of Beta Iota, Delta Lambda, and Providence Alumni Chapters. Upon Brother Smith came the responsibility of the arrangement of details for the installation and banquet. As Eminent Commander he conducted the ceremonies with despatch, dignity, and delight from

Walker Art Building, Bowdoin College

paired to the basement of the new Art Building for the ceremonies. Seven men were given the pledging rites in a very impressive manner by the Delta Lambda team, ably assisted by the Delta Lambda quartet. While the audience, which consisted of Brother Segur, of Trinity, and myself, was not unappreciative up to this point, we were very glad to welcome a delegation from Fort Williams, all in uniform, led by Brother First Lieutenant Randall from the University of Maine. With the augmented gallery, the installing team with, what is more important, genuine impressiveness to the initiate. As

the standpoint of the spectator, but toastmaster at the banquet his keen wit and good humor contributed much to the success of the event. I take off my hat to "Kirk" as a 100 per cent. Sigma Nu.

Brother Paul Young, Delta Psi, responded very pleasantly to a toast of welcome on behalf of the baby Chapter. Professor Paul Nixon, acting dean, welcomed the delegates on behalf of the faculty, and we all could not help but feel that Bowdoin men were very fortunate in having such a delightful personality in intimate association with them.

Delta Psi Chapter House, Bowdoin College

King Chapel, Bowdoin College

A similar spirit was manifested later in the evening by a few well-chosen words from Professor Hamm. (Sigma Nu is close to the throne in Bowdoin.)

A true inspiration to the new men, as well as awe akin to reverence on the part of the older members, were the feelings elicited by the recital of the Creed of Sigma Nu by Brother Segur. Here is a Sig of a month who will bear watching. It would have done Walter Sears's heart good to have been present during those moments.

I strongly feel that Sigma Nu has gained much by the addition of this Chapter in Bowdoin, and in conclusion just a word of warning to you fellows in the other parts of the country. It behooves you to look well to

your laurels, as the Eighth Division is coming strong.

April 29, 1918.

Bowdoin College

Bowdoin College was incorporated in 1794, while Maine was still a part of the commonwealth of Massachusetts, and more than a quarter of a century before she was admitted into the Union as a separate State. It is unsectarian in its government, administration and instruction.

Path to Whittier Athletic Field

Gymnasium Interior, Bowdoin College

The college was named in honor of James Bowdoin, a distinguished Governor of Massachusetts, of Huguenot descent, a member of the first Continental Congress in Philadelphia, and a close personal friend of Washington. He was the first president of the American Academy of Arts and Sciences, and was a valued friend and correspondent of Benjamin Franklin.

An early patron of the college was the Hon. James Bowdoin, son of the Governor, who, while minister of the

Beta Chi Fraternity, the Petitioners
Hawdon College

United States at the Spanish and French courts during President Jefferson's administration, collected a valuable library, a most interesting gallery of paintings and drawings by old and modern masters, a fine cabi-

tional banks, seven churches, a free public library, and a carefully graded and ordered public school system. The climatic conditions are most healthful; its water supply is of unusual purity; it is provided with a

Gymnasium and Athletic Building Bowdoin College

net of minerals and fossils, all of which, together with lands and money, he gave or bequeathed to the college.

The college is situated at Brunswick, a town of about eight thousand inhabitants, on the Androscoggin river, and is easily accessible by both

complete sewerage system, and has electric lights.

The buildings, sixteen in number, are grouped upon a spacious campus of about forty acres, five minutes' walk from the railroad station, one mile from the Androscoggin river with its picturesque falls, and a few

Searles Science Building Bowdoin College

steam and electric railroads to all parts of the State and New England as well, being upon the main line between Boston and the Provinces of Canada. There are several large manufacturing establishments in the town, a weekly newspaper, three na-

miles from various attractive resorts on the shores of Casco Bay. A central heating and lighting plant furnishes heat and electric lights to all the college buildings, which are also connected with the water and sewerage systems of the town.

Impressions of the Installation

By LIEUTENANT H. A. RANDALL
Delta Nu

When I received a letter from Brother E. K. Smith asking me to write a short item for the Delta giving my impressions of the initiation and banquet of Delta Psi Chapter, I at once realized that I was up against a hard proposition. In the first place, I am not a writer, and in the second, I know I cannot find words that will half express the wonderful impression the affair made on me. But I feel it my duty to try and tell the

stalling team. I have no doubt that the initiates will be as loyal Sigma Nus as we have in the Fraternity, due, to a large extent, by the first insight they had in the Fraternity as the officers in charge. I felt, as I know every one else present did, that I sure was a member of the grandest Fraternity in the world and that I would make a stronger endeavor to live up to its ideals. That is just why shown them by the perfect work of every Sigma Nu should attend an initiation every possible chance he gets, for we are apt to forget and should constantly be reminded of our vows.

Hubbard Hall, Bowdoin College
Bowdoin College

Brothers what they missed, so here goes.

I am going to give the impressions I received in the order in which they came. I, with four other loyal Sigma Nus, arrived a little late, so we did not have a chance to meet the initiates before we saw them ride the snake. So the first impression I got was of the installation ceremonies, and believe me, Brothers, the snake stood right up on its tail in fine style. As I sat there and heard again the wonderful teachings of Sigma Nu, I think they were brought home to me with a greater force than ever before. This was due to the manner in which the work was put on by the in-

After the ceremonies were over, we had a chance to meet the initiates and get acquainted with them. My next impression pertained to them and was as satisfying as the first. I never saw a finer bunch of men and I am sure they will every one be an honor to the Fraternity. They were a healthy, bright-eyed, clean bunch, ready for hard work for their college, their Fraternity, and their Country. For they already have several men in the service and every man in the House is a member of the military unit connected with Bowdoin College, preparing himself for the call when it comes. It was this fighting spirit that made them Sigma Nus and will carry them on in their fight with the

outside world and bring themselves and the Fraternity many trophies. Their hospitality also left a strong impression on me, for they made a fellow feel as though he was right at home, and it was like bidding good-bye to your family when you left.

My third impression was of the banquet, and since it was about 9 o'clock before we sat down you may rest assured that it was a very strong impression that I had. However, that wore off as the different courses came on and before the last one arrived I was very well satisfied. The banquet was held at the Eagle Hotel, in a

tice to have some Brother of every Chapter learn the Creed and give it at the initiations. I was glad that there was a member of the Faculty on the toast list, for I always like to hear an outsider give his opinion of the Fraternity. Brother Segur very on Inter-Fraternity relations, another thing which the Sigma Nu Fraternity is a leader in, I am proud to state.

The banquet closed with many rousing cheers for the different colleges represented, and thus ended a time long to be remembered. In sum-

Old Fireplace in Massachusetts Hall
Bowdoin College

room very appropriately decorated, and there was a pure white rose at every plate, which again reminded me of the Sigma Nu teachings.

The banquet was followed by a number of very excellent toasts conducted by our toastmaster, Inspector E. K. Smith. My impressions were very many during the toasts, but the one thing that stood out the strongest was the reading of the Sigma Nu Creed by Brother Segur, Delta Chi. I, as I suppose all other Sigma Nus have done, have read the Creed over many times, but I did not grasp it the same as I did when I heard Brother Segur give it so forcefully. I think it added a great deal to the installation and think it would be a grand scheme to make it a universal prac-

marizing my impressions of the whole installation, all I can say is, it was the best one I have ever seen and every Sigma Nu that missed it was out of luck for fair, for he would have seen an initiation that would have made him a better Sigma Nu and would have made him thank his lucky stars that he was asked to wear the Badge of a Knight of the Legion of Honor.

From a Local Viewpoint

By CLYDE E. STEVENS, Reporter
Delta Psi

There are two dates in the history of Delta Psi which will remain in the minds of all Brothers of the Chapter. The first is April 13, 1918, when the

members of the local Fraternity, Beta Chi, at Bowdoin College, received their first step toward becoming Sigs, the pledging ceremony. The other date is April 27, when the final step was taken and the charter in Sigma Nu was formally presented to the new Chapter.

CLARK of 1875
Gateway, Bowdoin College

On the afternoon of Saturday, April 13, Inspector Edson K. Smith, Beta Iota, and Commander H. S. Sla-baugh of Delta Beta Chapter arrived in Brunswick and proceeded to put twenty-nine members of the Beta Chi local through the pledging ceremony. In the evening the final arrangements for the installation itself began to take shape, and a new charm came to the familiar "burning of midnight oil" in the desire to get things working smoothly for the final rites which were to come two weeks later.

The first section of the installation team arrived Friday afternoon, April 26, coming all the way from Providence by auto. This party consisted of Arthur E. Kenyon, Harold A. Campbell, Harold E. Marr, Clifton I. Munroe, and Stanton A. Burdick, of Delta Lambda, and Glenn C. Carbaugh, of Beta Xi. The following morning dawned with the sun beaming forth, resplendent in its glory, seeming to extend its greetings to the new Chapter about to be chartered. The visitors, with the local Fraternity men, got busy promptly and arranged the initiation hall, which was in the lecture room in the Walker Art

Building. This hall proved to be an ideal place for such an event, setting off, as it did, the various emblems and insignia of the shrine of Sigma Nu.

Early in the afternoon, Inspector Edson K. Smith, Beta Iota; Dr. Seth F. Arnold, Beta Upsilon; John W. Haley, Commander of Delta Lambda, and Raymond H. Segur, Delta Chi, appeared upon the scene of action, and things immediately began to hum. The ceremonies of initiation occupied the entire afternoon, and it was nearly 7 o'clock before the bunch returned to the home of Delta Psi to await the banquet. Meanwhile, the forces had been increased by the arrival of five loyal Sigs wearing the uniform of the Army, Brothers J. E. Hammond, Beta Nu, and H. A. Randall, R. A. Ranger, P. M. Burnham, and T. S. Whitehouse, all of Delta Nu. These Brothers are all stationed in the nearby city of Portland, at Fort Williams.

Upon our return to the chapter house we found the delegation from the University of Maine Chapter, which had been unable to reach Brunswick in time for the initiation. These delegates were Roger B. Hill, Gordon W. Johnson, and S. C. Fraser.

The banquet at the Hotel Eagle was the final step in the day's festivities, and the after-dinner speeches brought out the true worth and merit of the Fraternity. Cheers for the several colleges represented at the banquet were given by the new Sigs, and they in return were cheered by the visiting delegations. The echoes of Hi Rickety were still resounding in the banquet hall when the happy throng adjourned at an early hour on Sunday morning.

Bowdoin has need of Sigma Nu, and the presence of such a strong addition to the list of national fraternities represented at this institution will prove of great value. Even as this story of the installation is being written, come evidences that Delta Psi Chapter is to become a leader in the Greek world of Bowdoin. The

value of the Fraternity and Bowdoin are alike, and it is only fitting that a college with the traditions and splendid reputation of Bowdoin should be placed upon the rolls of Sigma Nu, a Fraternity which likewise has its traditions and fine reputation throughout the Greeks of the world. Sigma Nu means even more to the local Chapter than to the college, for with the prestige and strength of its efficient national organization behind us our service and power in the college will be increased. We shall strive to make Delta Psi Chapter the leading Fraternity Chapter at Bowdoin, and do her bit in maintaining the strength of Legion of Sigma Nu.

The Banquet Toasts

Toastmaster, Inspector Edson K. Smith, Beta Iota-Delta Lambda; "Welcome," Paul C. Young, Delta Psi; Presentation of Charter, Arthur E. Kenyon, Delta Lambda; Response, G. Stuart DeMott, Delta Psi; "Welcome to the College," Professor Paul Nixon, Phi Nu Theta, Bowdoin College; "Effective Alumni Work," Dr. Seth F. Arnold, Beta Upsilon; "The Delta Psi Alumni," Chester C. Maguire, Delta Psi; "Inter-Fraternity Relations," Raymond H. Segur, Delta Chi; Greetings from the Chapters: Beta Nu, Ohio State University, Lieutenant J. E. Hammond; Beta Xi, William Jewell College, G. C. Carbaugh; Beta Upsilon, Rose Polytechnic Institute, Dr. S. F. Arnold; Delta Lambda, Brown University, J. W. Haley; Delta Nu, University of Maine, R. B. Hill and Lieutenant H. A. Randall; Delta Chi, Trinity College (Conn.), R. H. Segur. Professor R. J. Hamm, Bowdoin College, A. Redheffer, Wesleyan College, and C. E. Stevens, K. V. Palmer and E. C. Palmer, all of Delta Psi, also responded to toasts.

The Committee on Arrangements

To the chairman of the installation committee, George Stuart DeMott, '18, must be given much of the credit for the successful carrying out of the plans for the ceremony and banquet.

He was ably assisted in his duties by Clyde Ellerton Stevens, '19; George Horace Blake, '18; Robert Cressey Rounds, '18, and Edwin Clarence Palmer, '20.

Thirty-four Initiates

The local Beta Chi had an active membership of twenty-eight at the time of the change to Delta Psi Chapter of Sigma Nu, and all of these men were introduced into the mysteries of the Cross with the exception of one man, who was out of the State with the Varsity baseball team. Seven Alumni of the old local were also given an insight into the shrine of Sigma Nu, giving a total roll of thirty-four men in Delta Psi Chapter. Other Alumni are to be initiated as soon as possible until the full membership of Beta Chi has become that of the new Chapter. The men who were initiated at the installation of Delta Psi Chapter of Sigma Nu are: (1) Karl Vernon Palmer, '18; (2) Henry Marshall Howard, '18; (3) Chester Corbin Maguire, '17; (4) Hendrie Walter Grant, '18; (5) George Horace Blake, '18; (6) Dwight Linley Libbey, '18; (7) Walter Huron Lane, '18; (8) William Haley VanWart, '18; (9) Wilfrid Oliver Bernard, '18; (10) Ralph Archie Stevens, Jr., '19; (11) Clyde Ellerton Stevens, '19; (12) Eric Melville Simmons, '19; (13) Rufus Clarke Tuttle, '19; (14) Robert Cressey Rounds, '18; (15) Hugh Waldo Blanchard, '18; (16) Paul Campbell Young, '18; (17) James Sumner Draper, '20; (18) Douglass Arno Haddock, '20; (19) Leslie Everett Norwood, '20; (20) Albert Edwin Hurrell, '20; (21) Edwin Clarence Palmer, '20; (22) Charles Leo Thebeau, '20; (23) Arthur Albert Demuth, '20; (24) George Stuart DeMott, '18; (25) Harry Nelson, '21; (26) Roy Bartlett King, '21; (27) Reginald Webb Noyes, '21; (28) Philip Henry McCrum, '21; (29) Clarence Ralph Lindner, '20; (30) Allan William Constantine, '21; (31) Carroll Herbert Keene, '21; (32) John Woodford Hone, '21; (33) Forest Hallie Rogers, '21; (34) John Garnett Young, '21.

Beta Chi Becomes Sigma Nu

By CLYDE E. STEVENS, Delta Psi

[Although The Delta's policy is not to re-print articles, we take pleasure in adding here this account, written by the editor-in-chief of the Bowdoin Orient, Brother Clyde E. Stevens, Delta Psi, which appeared in that college paper. It has some points not contained in the foregoing reports of the installation.—The Editor.]

Saturday afternoon, April 27, Sigma Nu Fraternity received into its Brotherhood the former local Fraternity, Beta Chi, now the Delta Psi Chapter of Sigma Nu and the seventy-eighth active member of the National Fraternity. The admission of Delta Psi at Bowdoin makes it the sixth in the New England Division and the second in Maine of the Sigma Nu Fraternity. Initiation ceremonies were held in the afternoon by a

A Campus Path, Bowdoin College

team selected from the Boston and Providence Alumni Chapters and from the Delta Lambda Chapter at Brown University. Edson K. Smith, Inspector of the Eighth Division, of which the new Chapter is a member, acted as Eminent Commander; Arthur E. Kenyon, Chapter Adviser for Delta Lambda Chapter, served as Lieutenant Commander; Glenn C. Carbaugh of Beta Xi Chapter, William Jewell College, was Marshall; Harold A. Campbell of Delta Lambda was Sentinel; Clifton I. Munroe of Delta Lambda was Chaplain; the other members of the team John W. Haley, Harold E. Marr, and Stanton A. Burdick, all of Delta Lambda.—Bowdoin Orient.

Installation Notes

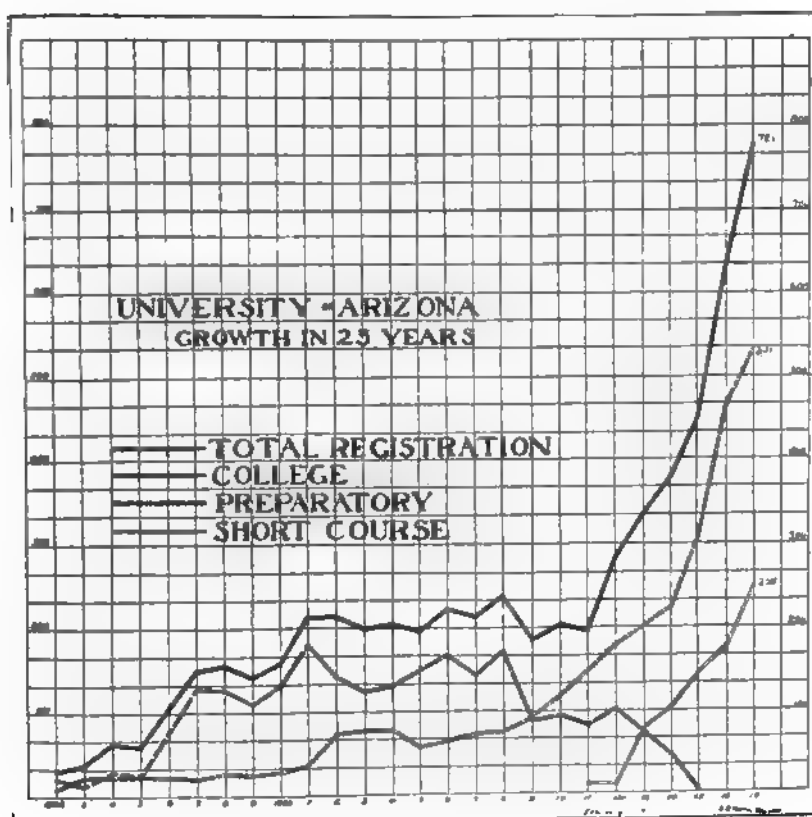

By INSPECTOR EDSON K. SMITH
Eighth Division

The Delta Psi installation really began in the little State of Rhode Island when Brother Campbell driver of the official installation automobile special, awakened Chapter Adviser Brother Kenyon by pounding on his house door and yelling. This was shortly after dawn on Friday. To the best of our recollection, this is the first time Brother Kenyon was ever found asleep on the job, at least a Fraternity job. In spite of a late start the special made good time and rolled into Brunswick Friday evening. Trains and other automobiles brought the other visiting Sigma Nus at various times on Saturday.

Brothers from eight Chapters comprised the fifty odd who were present, which means a warmer feeling between the Chapters themselves because their representatives have enjoyed a good time together. A real benefactor of his Fraternity would be that wealthy Brother who would provide means for increasing the attendance at such functions by bringing Brothers from far and near. Close fellowships are thus formed.

No Brother could fail to enjoy such an occasion. At the installation ceremony itself Brothers eager to impart our fraternal teachings found the new Brothers even more eager to receive them. The banquet was what all banquets ought to be, a gathering of Brothers with the menu as an excuse and fellowship as the real reason. The toasts, the catchy songs by the Delta Lambda quartet, the yelling of "Hi-Rickety" as led by that wild western Brother, "Brick" Carbaugh of Beta Xi, the words of the Creed which Brother Segur of Delta Chi has learned by heart and recited to us—all these gave the new Brothers something of an idea of Sigma Nu spirit and enthusiasm.

Cordial greetings were received from President Sills of the College.

Installation of Epsilon Alpha Chapter

University of Arizona

By BILLIE B. BUSH, Xi

WHILE America is fighting for humanity on the battle fronts, the Sigma Nu Fraternity is holding up her high and lofty ideals at home, furnishing her loyal sons to this great cause. In addition to her past glorious record, her recent advent into the fraternity field at the University of Arizona not only meant a great blessing to the nineteen worthy novices who were made Sigma Nus on the 3d of June, but will be a blessing to hundreds of future Alumni of the University of Arizona.

Sigma Nu is the third national Fraternity to enter the university,

the other two being Sigma Alpha Epsilon and Kappa Sigma.

June 3 opened auspiciously for the nineteen neophytes who desired to worship at the shrine of Sigma Nu, though two of the prospective candidates were unable to be present. In the afternoon, at the Citizens Hall, Brother William E. Turner of Gamma Alpha, acting as Commander, together with the assistance of Brothers McKale, Pusch, Bush and Hannah, led the lambs to the slaughter.

At 8 p. m., at the Old Pueblo Club, a delightful banquet was greatly en-

Science Building, University of Arizona

Sigma Phi Beta Fraternity, the Petitioners
University of Arizona

joyed by the Brethren initiated and other Sigma Nus present.

The speakers' program follows: Toastmaster, Brother Billie B. Bush. Speakers, Brothers J. F. McKale, "Athletics at U. of A."; Wilson B. Wood, "Future of Epsilon Alpha Chapter"; T. DeWitt Talmadge, "Sigma Nu in the War"; George W. Wright, "Sigma Nu in Politics"; Harry K. Steele, "The Ladies"; Roloff W. Reeves, "Loyalty," and George Pusch, "Old Timers."

Other short but splendid talks were made by the members present, including Brother Williams of old Theta Chapter. Brother Bush, the toastmaster, proposed toasts to the President of the United States, "the boys in the trenches" and to the "High Council."

It was a source of disappointment to the initiates, as well as to the old Sigma Nus, that the High Council was not represented. However, we extend a cordial invitation to the

The Chapter House, University of Arizona

members and all Sigma Nus wherever they may come from to visit our home on East Fifth Street.

Epsilon Alpha Chapter will return about twelve of the initiates, which is a magnificent nucleus with which to have a rousing good Chapter the incoming year. The finances of the Chapter are in first-class condition, while the Chapter House is the best at the university.

The university is at present a Government training camp and is becoming more popular not only in this State, but in the Southwest, and we

hew, Robert S. Beaton, David Cole, Jr., Bruce H. Hannah, Wilson B. Wood, George W. Wright, Walter F. Pusch, L. Russell Jacobus, T. DeWitt Talmadge, Harry K. Steele, Charles D. McCauley, Francis H. Lysons, Roloff W. Reeves, Ralph V. Verfurth, Jack W. Still, Edward Belton, Edwin L. Sines, R. Pilcher.

After the banquet Brother Ralph B. Verfurth proceeded to run away and get married. Even though it was a Gretna Green affair, a number of the newly made Sigma Nus were present. Brother Verfurth is now

Agricultural Building, University of Arizona

are looking for an increased attendance this fall despite the fact that attendance will be necessarily small due to the demands of the war and the sacrifices attendant, which all good Sigma Nus and good citizens gladly make.

Epsilon Alpha owes her existence to Daddy McKale, the coach of the University of Arizona, more than to any one else. Daddy, or "old man McKale," as he is affectionately called, he being about thirty-one, is a great fellow, has a magnificent wife and is gradually growing a nice Sigma Nu family.

The names of the initiates are: John H. Gardiner, Henry M. May-

located at Bisbee and has gone in business for himself and will not return to the university this fall.

Brother David Cole, Jr., rode a flivver about four hundred miles in order to be on hand to be made a Sigma Nu.

July 24, 1918.

Tucson, Arizona.

The University of Arizona

The University of Arizona is situated at Tucson, a city of twenty-two thousand inhabitants, on the main lines of the Southern Pacific Railway and the El Paso and Southwestern System, three hundred twelve miles

west of El Paso, Texas, and five hundred miles east of Los Angeles, Calif. The city lies in a broad valley at an elevation of 2,400 feet above sea level and is surrounded by mountains.

The act of legislative assembly making possible the University of Arizona was passed in 1885. By 1890 three of the departments for which it is provided, the Agricultural Experiment Station, the College of Agriculture, and the College of Mines and Engineering, were organized, and in

schools throughout the State, the university refused to admit to its preparatory department students coming from communities large enough to support local high schools. By 1911 the State was so well provided with such schools that the university announced its intention of closing the preparatory department by withdrawing each year the work of the lowest class of the preceding year. The first step towards the execution of this policy was taken in 1912-'13, and in June, 1915, the permanent

Athletic Field, University of Arizona

1891 the university was opened to students. The history of the University of Arizona for the first twenty-five years of its existence has been closely related to the educational history of the State. When it was opened in October, 1891, with a Faculty of eight professors and instructors, only thirty-one students, all told, matriculated, and only nine of these were of Freshman rank; the remaining twenty-two were taken care of in a preparatory department. For the first eighteen years the preparatory students outnumbered the university students. But in order to encourage the growth of the high

closing of the preparatory department was effected.

The increase in the number of college students has been more than sufficient to offset the decrease in the number of preparatory students. The membership of the university proper has shown a steady, normal growth gratifying in a pioneer State, in which the industrial basis that makes the privilege of higher education a matter of course is still in process of establishment. To secure this growth and develop a university worthy to rank among older State universities and competent to offer to the youth

Freshmen Before Annual Class Rush
University of Arizona

of the commonwealth just educational advantages, Arizona has been obliged rapidly to expand and enrich the various departments of instruction in the university, and to that end has provided a Faculty and academic equipment of high order for a College of Letters, Arts and Sciences, a College of Mines and Engineering, and a College of Agriculture.

The following new buildings have been recently provided for and are or will be completed the coming fall: Mines and Engineering building, \$200,000 (nearly completed); dormitory, \$100,000; astronomical observatory, \$60,000; hospital, \$8,000; mechanical shops, \$15,000 (nearly completed).

The university campus, consisting of sixty acres, is situated upon high ground about a mile from the business center of Tucson, with which it is connected by an electric car line. On every side it commands a view of mountain scenery of remarkable extent and grandeur. Carefully laid out in drives, lawns and gardens, with a large number of palm, olive,

ash, umbrella, pepper, bagota and cottonwood trees, the campus has the air of a well-kept park.

The university has its own water supply system for fire protection, irrigation, laboratory and domestic purposes. The water is drawn from deep wells, and is of exceptional purity, chemically and bacteriologically. A new well, drilled in 1915, has a capacity of 1,500 gallons a minute, ample for the needs of the institution for many years to come. The campus has a complete sewer system connecting the buildings with the city mains at the university gate. The buildings are lighted by electricity.

The university has an annual income of \$634,694.46.

The library contains over twenty-five thousand bound volumes exclusive of public documents, and several thousand unbound bulletins and reports. The present appropriations provide for an annual increase of about one thousand two hundred volumes.

A banquet was held that same evening at the Old Pueblo Club, where places for twenty-two were set. The evening turned out very successfully, regardless of the fact that three of the Brothers had already departed for the service. After the dinner a number of appropriate speeches were made by all the Alumni members of Sigma Nu Fraternity that were present and ten or twelve of the newly made Brothers. Billy B. Bush as toastmaster and J. F. McKale as chief speaker of the evening gave very interesting talks and impressed upon us the true spirit of Sigma Nu.

At the close of the dinner Brother Ralph Verfurth put the finishing touches to the evening by getting married, much to the surprise of the Brothers. He started his honeymoon that evening by an overland trip to Phoenix and then returned to his home in Bisbee, where he is now manager of the Independent Fuel and Feed Company. Some of us Brothers made a recent trip to Bisbee and found him a confirmed old married man.

The next day all the Brothers left for their homes, and we hear from them at odd intervals.

We will feel greatly insulted if any of our Sigma Nu Brothers fail to stop over when passing through Tucson. We have already had one visitor, R. S. Parks, from Dartmouth, and we hope and trust that we will be able to see more of our Brothers in the future.

Installation Notes

By J. F. MCKALE, Gamma Gamma

Brother William E. Turner, Epsilon Alpha, acted as Commander at the pledging and installation ceremonies. Of the six "old boys," Brother Turner was the only one who had been present at an initiation

under the new ritual. His work was clever in every particular.

We were happily surprised to have with us on Installation Day Brother Leland D. (Red) Adams, Beta Psi. Adams is so filled with Sigma Nuism that it is infectious. He happened to be in Tucson, unaware that a charter was granted the petitioners. Five minutes was his entire warning before he was taking part in the proceedings. Brother Adams was one of the original boosters of Epsilon Alpha.

The petitioners and Alumni were disappointed because the General Secretary was not present. Illness in his family necessitated Brother Dunlavy remaining at home. The Inspector was notified too late to make connections. However, Brother Dunlavy has promised to visit us the coming fall.

Brothers George Pusch, Gamma Sigma; Billie B. Bush, Xi; J. F. McKale, Gamma Gamma, and Williams of Theta filled the minor offices.

Three of the boys came long distances to be at the installation. John Gardiner and Henry Mayhew traveled six hundred miles to become Sigma Nus, while David Cole established a record, driving a Ford the length of Arizona in twenty-four hours.

Several of the new Brothers are now in the Army, but a dozen will return to aid in making Epsilon Alpha's initial year prosperous.

Within six hours of the time the vote on the Arizona petition was affirmed, Sigma Nu had twenty new pledgemen.

The Tucson Alumni Chapter will now be a regular active association. When the war started, six of the original members left for service and since then it has had a struggle for existence.

An Active Man's Review

By T. DEWITT TALMAGE
Epsilon Alpha

When word was received from the General Secretary saying that the individual Chapters had passed on our petition, it is needless to say that there was great rejoicing at the Sigma Phi Beta Fraternity. The telegram arrived on the afternoon of the 27th of May while exams were at their height. The good news was carried to the Brothers who were taking examinations, regardless of the strong protests made by the various professors in charge of the exam-

due to the fact that the examinations were at hand and many of the fellows were in the service it was decided to do away with most of this.

The pledging ceremony took place at our Fraternity House. Members of the Tucson Alumni Chapter (Brothers McKale, Turner, Bush, and Pusch) officiated. This was held on Wednesday evening and on the following Sunday morning we were examined by Brother McKale as to our knowledge of the Sigma Nu laws, Chapter names, etc. Since our House was deemed too small for the initiation, the "Citizens Hall" was rented and it was held there. The initiation

A Shady Nook, University of Arizona

ination rooms. That evening night letters were sent to those of our Alumni who had expressed a desire to enter Sigma Nu along with us at that time. Not many of them were able to attend the initiation, however.

Two of the boys who were at Camp Kearney in Uncle Sam's service were able to obtain a five days' leave of absence. One fellow bumped in his little "flivver" all night long over these Arizona roads in order to be on hand for the real celebration.

It was originally planned by the Tucson Alumni to hold a week of social activities, with a dance, a banquet, and social gatherings, etc., but

proved to be very successful, nineteen men in all being put through. At the close we held our first meeting, at which Wilson B. Wood was elected Eminent Commander; T. DeWitt Talmage, Lieutenant Commander; "Jack" Reeves, Reporter; Harry K. Steele, Recorder; Ed Sines, Treasurer; Walter F. Pusch, Chaplain; Charles D. McCauley, Marshal, and Ed Belton, Sentinel. The other Brothers initiated were Henry H. Mayhew, John H. Gardiner, George W. Wright, Russell H. Jacobus, Francis H. Lyons, Ralph Verfurth, and Jack Still. Our Alumni who were initiated were: Ted Fox, Robert Pilcher, Bruce F. Hannah, and Tracy Cole.

Cathedral. Arequipa

From Peru to Chile

A Sigma Nu's Trip in Western South America

By EDWARD B. BERRIEN, Beta Upsilon

OROYA, March 31, 1918.

DEAR Enrique: Your letter of February 7 was here when I got back from my trip and, needless to say, I was very glad to hear that you arrived in New York safely; also that you agree that New York is some place. I have always thought we had a very nice country north of Mexico, and now that you agree I see no reason for any others to doubt it. Naturally I sympathized with you when I learned that you were delayed some four hours on one of our railroads, but you must remember that we are at war. On my trip from La Paz to Antofogasta I was delayed fifty-six hours. The trip should have taken thirty-eight hours, but this time it took us ninety-four hours. Further, the country between La Paz and Antofogasta is not at war. So you see that you really have no kick coming.

Very kind of you to want to know about the trip and if you promise not to be angry at the length of the letter I will start off from here (Oroya).

I had intended taking the passenger from here to Lima to catch the boat sailing on the 13th, but they postponed the sailing date for five days and I had to take a freight train down to enable me to catch the "S. S. Imperial" sailing on the 12th. The trip down was very interesting (but not so comfortable as one would like, as there are no cabooses on freight from here to Ticlio (15,665 feet elevation by people along the route who trains here). Stayed on the engine deemed it a fitting manner of celebrating carnival. At some of the station), as we left Oroya at 3:30 in the morning and it was far from warm. The sun was out when we got to Ticlio and from there down to the sea level I stayed on a flat car loaded with copper.

Due to its being carnival time, I stopped about thirty gallons of water along the way—this being thrown at I will start off from here (Oroya). tions we were given a shower of flour. This, mixed with the water, was very nice—for those who did the work. Should I ever have to make the trip on a freight at carnival time I will take to the inside of an empty tank. No matter, I got to Lima just before dark.

Lima, too, had on her carnival rags and quite a little water was being given away. No one wants to work during carnival in Lima—and few do. I could get something to eat all right, but there were no papers and none had been printed for two days. Inasmuch as everything seemed to be shut up, and I had previously shipped my trunk to Callao, I thought it best to go to Callao and find out if I would be able to get my trunk. The agent at Callao assured me that carnival was for the frivolous and that he was on the job continually. I then beat it back to Lima and tearfully parted with 62 soles (\$31) for a ticket to Mollendo. This fare used to be 40 soles, but the war has caused the ship owners to think it is worth 50 per cent. more to ride on their fifth-class boats.

The Imperial is a wonderful boat. It can roll more than any boat ever built—and not sink. My ribs were terribly sore from rolling up against the guard rails on the berth. Two nights of this, too. The food was quite bad. To charge a man 62 soles for a ride on the Imperial from Callao to Mollendo is just like charging \$62,000 from New York to New Orleans. There were several excellent kickers on the boat and for awhile I thought I would not be in the running, but when the papers were

graded I was given 100. I like to ride on the ocean, but it was a pleasure to leave the Imperial—even if it was to get off at Mollendo.

Mollendo is not much to look at—much less to be in. One of the passengers remarked, "This 'ere 'eat is 'ot as 'ell," and I don't think he missed anything but a few "Haitches." Quite a sea was running and we had to be lifted out of our small launch in chairs. A steam crane supplies the motive power to lift the chairs. No, it did not groan when it started lifting me. Mollendo is sadly in need of several things to make it attractive.

quipa at 1 o'clock. Yes, Enrique, we took that train.

The train (Southern Railway) was a good one. Very comfortable parlor car—and very clean chicken sandwiches. A little after 6 we arrived at Arequipa. The trip up is through, or rather over, a barren country, and the only interesting thing on the way up was the sand dunes. They are wonderful. These sand dunes are of a bluish color and sit on dirt of another color. Was told that the wise men claim this sand has been blown up from the seashore. Well, it had quite a trip, believe me. However,

Sand Dunes Between Mollendo and Arequipa

It is hilly, sandy and smelly. The buildings are unattractive. I would say that Mollendo had about ten thousand inhabitants. They claim about forty. We went to the best hotel for lunch. It was far from good. We only had to pay a sol for the lunch, but it was the best obtainable. If they could put on a meal for three or four soles it might be worth while, but they hold to a sol and give you poor food. One of the inhabitants tried to prevail upon us to stay over two days, assuring us that it would be quite cool in the evening. Our plans were to be some seven thousand feet above Mollendo by nightfall. The good part of Mollendo, to us, was that a train would leave for Are-

I was told that these dunes are continually moving. In fact we were told that a tired man lay down beside one for a night's sleep. When he awoke he found that the dune had passed over him and was on its way. This did not sound too good to us—the dunes are about one hundred fifty feet from tip to tip, forty feet thick and some fifteen feet high.

Arequipa, the second city in Peru, is said to have anywhere from seventy to one hundred twenty thousand inhabitants. Quite a nice place, too, some seven thousand feet above sea level. Plenty of automobiles and cheap fare. When you get tired riding you can sit and look at Mt. Misti.

It is said to be 17,000 feet and 19,000 feet elevation. Inasmuch as there is but one mountain named Misti, I put it down as 18,000 feet.

The best hotel at Arequipa was full up when we arrived. It seems that the train from Cuzco came in an hour before our train. After going to some six or seven places, we finally got rooms. The rooms were clean, but no running water. No bath to be found. However, we had the best rooms and only paid a sol and a half.

My word that it was bright and clean. Then, too, they have a dining room and it did not take me long to find it. The meals were excellent. How they put them up for one sol fifty is beyond me. Immaculate table linen and good, clean, nongreasy food—that's the dining room at the Club de Arequipa. The wine was good, very reasonable and apparently without a kick. However, I fell asleep in the moving picture after dinner and know it was friend wine doing its duty. Say duty, as the picture was

Indian Boat on Lake Titicaca

Cuzco Indian

Why kick? This hotel did not differ from so many others down here. The toilet arrangements are bad—yes, very bad.

We went over to the "best hotel" to eat. May the Lord help the worst one! It was a la Mollendo. However, my luck was due for a change—and change it did. Met a friend who put me up at the Club de Arequipa. Gracious, but it was good to see that club. Just as nice a club as one would care to find anywhere. And clean.

one of these "Adventures of Myra," and a person is not supposed to stay awake when this film is being shown.

They tell me that the best baths in South America, for gout and rheumatism, are located about three miles from Arequipa. The name of these baths—Jesus Baths. Surely an odd name to give to a bath. This water is bottled and sold all over Peru. It was quite funny to give the waiter an order for some "Jesus water." It surely is a fine drinking water. For

some unknown reason the people at Arequipa have not built a hotel at the Jesus baths. There are quite a

This horseback stunt don't sound too good—especially if one is suffering from gout or rheumatism. They say

Wall of the City of the Sun, Cuzco Peru
Courtesy of the Christian Herald

few private houses there, but no accommodations for the traveler. The only way a traveler can take these baths is to go there in an auto (over very poor roads) or on horseback.

that a good hotel will be put up next year. Let's hope so.

Arequipa, like Lima, is full of churches. The carvings in some of

these churches are very beautiful, but could stand considerable more care. The streets in Arequipa are about on par with those of Lima—not good.

The trip to Puno, where we took the boat for our trip on Lake Titicaca, was uneventful, other than that we had to cross another summit. This summit was about 14,500 feet. From the summit we dropped gradually down until we came to Puno, a "port" on Lake Titicaca. This lake is 12,500 elevation and an honest-to-goodness lake. We went right on the boat, and as I happened to be with an assistant general manager of a railroad I was given a cabin to myself, which is no little consideration when one sees the small cabins. However, the berths are clean, but a little too narrow and quite too hard. No matter, we were on the lake, and that was what we came for.

It seemed funny to be on a boat at such an elevation, but we had good weather and were really quite comfortable. The food on the boat was better by far than at the hotels in Mollendo and Arequipa. Our boat had accommodations for forty passengers and was a hundred and seventy ton affair. The lake was quiet and our boat did not rock a bit. There is another fast boat, "The Inca," which makes the trip across the lake overnight. The Inca is of seven hundred tons capacity. Our boat is what we would call a "coast boat," as it makes about seven stops before we get to the other end of the lake. Took this boat so that I might see something. At each stop we were allowed to go ashore and see the native Indian villages. They are quite interesting and at Cocabana there is quite a large cathedral, but like others it is very poorly taken care of and it is shameful. A statute of the Virgin is the interesting part of this particular cathedral, pilgrimages being made twice yearly to this Virgin and many miraculous cures claimed.

The chapel in this cathedral is very clean and has a sort of straw matting on the floor. The intention of the

padres is to keep the chapel clean, there being a number of signs on the walls, "Don't spit on the floor" (*Es prohibido escupir en el suelo*). When we got there a mass was being said. The choir was making so much noise that I decided to investigate. Two musicians (cornet and violin) were going along faintly, in fact could hardly be heard, but the singers, two in number, were both blind. What they lacked in sight they made up in voice. Can hear them yet.

In the main part of this cathedral is probably the largest altar in South America. Was told so, anyhow. The lesser altars are very gaudy and plastered with the loudest wall paper imaginable. There are at least fifteen of these smaller altars. Outside of the church are three crosses, made of solid stone, the largest of which is twenty feet high. Around the bases of these crosses are thousands of very small crosses, made of wood, wool, cloth, etc., which the Indians have brought in as their offering.

Some six hours after leaving Cocabana we arrived at Guagi (Bolivia), after having passed through two straights of the lake. Quite interesting. We were told that at 8:00 the following morning we would take the train for La Paz. I was quite anxious to see La Paz, but would have liked to spend another two or three days on the lake. The trip is a delightful one and the captain and purser of the Yaravi particularly nice.

The only interesting thing on the trip to La Paz is the town of Tiaguanaco, where are situated the Pre-Inca ruins. For some reason we were allowed a stop of but two minutes at Tiaguanaco. Giggling seemed to be the chief form of amusement of the lady passengers. Mack and I could not make it out.

At Alto we made ready to go down to La Paz. The business of making ready consists of taking off our small steam engine and hooking on to an electric car. After the brakes are tested and several men say "Muy

bien" about a dozen times, the train pulls out and we go toward the edge and in about fifteen minutes we see La Paz some fifteen hundred feet below us. It was a very bright day and La Paz, owing to the number of corrugated iron roofs, looked like a pile of tin. But La Paz is not a tin scrap heap. Not by a long shot. It is a very substantial city and has some very pretty office buildings. Not skyscrapers, to be sure, but two and three-story affairs. The town is hilly. Kansas City is positively level in comparison with La Paz. Walked right in from the street to a building and went through to the next street,

sive—and listen, they have *the* hotel. It is the Hotel Paris, and a real affair. Had a nice bedroom, running water, sitting room and excellent meals, all for ten Bolivianos (Boliviano is about thirty-nine cents). The Hotel Paris is said to be the best hotel on the coast.

La Paz, like all first-class cities, has its residence section and the houses are very pretty.

The Indian woman (Chola) is the most picturesque sight in La Paz. They are everywhere, have charge of the main market, own property and are said to be quite well to do. They

Steamer in Dry Dock, Lake Titicaca

but I had to go down two floors to get out on the street. This will give you some idea of the grade. Then, too, the coaches have four horses to draw them and the horses seem willing to stop without any coaxing.

Lots of automobiles in La Paz, and they go right up the grades, but you have plenty of time to get out of the way if you see one coming up. Going down you keep the door open a little to jump if the brake fails.

La Paz has lots of nice things in store for the visitor. Curios (silverware to the contrary) are not expen-

dress well—short skirts, high-heeled shoes, silk shawls and a hat that is very funny. This straw hat has a brim about two inches wide and the crown from eight to ten inches high. The hat is highly glazed—and in most cases it is clean. Yes, Enrique, the La Paz Chola is a lot better dressed than her Peruvian sister—and a lot cleaner. You do not want to confuse the Peruvian Chola with the Peruvian women, neither do you want to confuse the La Paz Chola with the Boliviana. They are two distinct races. The Indian is called the Chola and the Peruvian or Bolivian women are the "upper ten."

The G. L. P. Railway station at La Paz is quite large, handsome and *clean*. Baskets are everywhere that one may throw any paper or fruits, and guards are everywhere to see that the paper, etc., is thrown in the baskets and not on the floor. "Don't spit on the floor" signs abound. Peru could use some of these signs to great advantage.

If you are traveling over the Antofagasta-La Paz Railway it does not pay to have any excess baggage. They allow fifty kilos free, but my trunk weighed fifty-three kilos—seven pounds overweight. To facilitate matters, in figuring, they do not figure anything except in tens, so that I had to pay on ten kilos overweight. It cost me about \$1.40 real money and I turned loose all the polite words I knew, but the inspector said it was the rule, brought out a lot of rules and insisted on reading them to me, so that in the end I had to pay the \$1.40 and also lost about half an hour listening to friend inspector read the rules.

The ride from La Paz to Antofagasta (Chile) is a tiresome one. The train is a good one, carrying sleepers, dining car and first and second-class coaches. The meals on the diner are good and very reasonable—three Bolivianos. The sleeping cars are clean, but the berths quite narrow in comparison to our Pullmans. I had the upper berth in our compartment and the berths ran crosswise of the car. There were no guard rails on the berth and I had a time staying in the berth when the engineer made a sudden stop.

The railroad is a meter gauge affair for about five hundred kilometers. That is narrow enough for any one, but the second part of the journey, some six hundred kilometers is a thirty-inch gauge. With this small gauge the train runs along very smoothly, but not near as fast as one would like.

The trip from La Paz to Antofagasta is supposed to take thirty-eight hours. When we got to Calama

(Chile) we were told that the road was washed out. The Frenchman and I were the only ones who had through tickets and sleeping car tickets. The railroad officials wired up from Antofagasta and informed us that we might be there four days. The traffic manager, named after the Mayor of Chicago, wired up that we might stay in our compartment until 5:00 the next morning. At that hour we were to get out, as they wanted to send the sleepers back up the line. The Frenchman was crazy mad, and I was a little worse than the Frenchman. Nothing doing about getting out of our berths, as far as we were concerned, until we got to Antofagasta, unless the railway made suitable preparations. Railway said nothing doing and we then advised them that we would not get out, and went over to go to bed. A man came after us and said that arrangements had been made for us to sleep in another car, so we moved to another car.

We took our meals at the "leading hotel of Calama." They were very good meals, as we ordered everything extra except the soup. A chicken for three persons, \$3.50 gold. Not so bad, when you learn that a cold bath will cost seventy-eight cents gold and if heated a little the charge will be \$1.30 real money. Needless to say that we did not bathe. We took a walk down to the river and gave it the once over. This once over business was free and we were going to do the same thing the next day, but word reached us that the train *might* pull out. Well, it didn't, but we stayed close.

Calama is the getting off station for the Chile Exploration Company mines and smelter at Chuquicamata. Went up there the first day (Sunday) and took the place in. It is very interesting to look at for one time, but if they depended upon my services to keep the place running, I am afraid they would have to shut down. The racing season was on at Chuquicamata and we went to the races. The races were a lot better than my judg-

ment. Lost six good American dollars—and all on account of that washout.

You are, no doubt, wondering if we are ever to arrive at Antofogasta. Well, amigo mio, we did arrive. The hotel register shows that. Antofogasta is one nice place right around the business section and select residence district, but the other outskirts are not much. The streets are said to be the best on the west coast of South America. It has been so long since I have seen a good street that I am willing to go them one better and say that the streets of Antofogasta are the best in the whole world. These streets were put in by an American concern and the streets are good.

The Frenchman and I stopped at a hotel that sits half on a poor street and half over the water. The poor street has spread its curse to the hotel. Only stayed there one night. There are two other, good, hotels in Antofogasta. The Frenchman recommended this first hotel as he had stopped there *fifteen years before*. But I cannot say anything about the Frenchman, as he had the address of an excellent French restaurant. Don't remember the name, but the food I will not forget. We ate well, drank well and felt well on 25 pesos (about \$6) of our money. The music was good, in fact everything was good, until the Frenchman decided he wanted some cheese. He went with the waiter to select it. The Frenchman said it was *tres bien*, but I, and others sitting near, thought it was *tres mauve*. Believe me, if I ever travel with him again I will make sure there is no cheese to be had if we go to his restaurant.

Antofogasta is the only place of its size (about one hundred thousand) that I have seen that does not have street cars. No street cars in Antofogasta, but they have an auto-bus which is quite good (although I did not try it) and the fare reasonable. These busses seem to do a thriving business. The automobile hire in An-

tofogasta is very cheap and it is a pleasure to ride around in them on the good streets.

The S. S. Quilpue (Pacific Steam Navigation Co.) was due to sail, so I went around to see the agent. He never cracked a smile when he told me it would cost \$72.50 (£14.500) to get me to Callao. However, I had to take the boat or wait three days, so I took it.

The Quilpue is an English boat, built, no doubt, shortly after Balboa commenced looking around in this neighborhood. There were a number of cows aboard. No, I did not see them, but every one knew they were on board. No charge was made for the smell. If a charge had been made for the smell I am afraid none of us could have paid our fare.

The cows were bound for Iquique, and when we got there I got off with the cows to take in the town. Iquique is quite a sandy affair, has funny street cars (horse cars), owns about 60 per cent. of the heat on the Pacific coast and has some remarkable odors. Quite a different one for each block that I passed. Stopped passing them, after two had gone by, and backed up to the boat.

The boat, some six hours after we left Iquique, took on another air and the trip the balance of the way was all right. The Quilpue rolls quite a bit, but the food is all that could be desired. It is really good.

We stopped at Arica for a few hours and I took the place in. Arica seems to have leased quite a bit of heat from Iquique. Same sort of a town, but not smelly. The only thing "new" that I saw in Arica was a pair of oxen drawing small freight cars (on rails) in the Customs House yard.

The fourth day we arrived at Callao and I got off and smiled pleasantly at the customs officials. Had to spend three days in Lima to have my glasses fixed (delay due to power being off). Well, nobody ever objected to staying three days in Lima,

Gamma Gamma Chapter House
Albion College

unless they were broke. I was not broke, as I went to the office immediately after my arrival. Otherwise I might not have cared to stay in Lima at all.

Am back on the job and busy, so I am going to close and hope to hear from you soon. Let me know how you are getting along at Bloomington.

Kindest regards and best wishes.

Sincerely yours,

EDUARDO.

How Do You Like Our Style?

This new volume of the Delta is being printed by The Art Press, of Indianapolis.

This company is noted for its excellent typographical work and fine halftone and color printing, as is evidenced by a number of the leading college annuals.

The former typographical excellence of the Delta is expected to be surpassed in this volume.

Little Journeys of the Editor

Gamma Gamma

WE can imagine nothing harder on all good resolutions concerning summer work than to visit the State of Michigan in the last days of May. The never-ending variety of forest, lake and stream, to say nothing of the beautiful farms and commercial orchards, is a perpetual invitation to folks who love the out-of-doors.

How the Albion Brothers keep up the splendid college and Fraternal record which is theirs we do not know. Their Chapter House lawn is washed by the beautiful Kalamazoo river (see frontispiece). The barn has been made over into a boathouse and the favorite week-end journey is twenty-five miles down the river by canoe to Battle Creek for dinner and back home in the evening by trolley. We know now why so many of the Gamma Gamma Brothers get their wives from among the coeds. The Editor dropped into see the Chapter unexpectedly and the last canoe party of the season was just on. It was the time, the place, and the Brothers offered to furnish the girl, but alas the Mrs. Editor was waiting in a nearby city and the Mr. Editor concluded that discretion was still the better part of valor.

Gamma Gamma in spite of war conditions has kept up her wonderful record by having a clean year finan-

cially. Brother Sam Pegues says (and Brother Pegues knows) that during his entire period as treasurer (who knows how many years?) Gamma Gamma has never failed to report promptly and has never been in arrears to the General Office. We found the secret of this in part when we met the Chapter Adviser, Brother Robert Baldwin. He is a business man of Albion, a trustee of the college, and yet finds time to drop in to the House at least once every week and usually more often than that. He is father confessor to every Brother who needs him, and watches closely every activity of the Chapter.

Albion is one of our small schools with a student body of five hundred. It has just been successful in completing an endowment campaign for a million dollars. Our Chapter there has always maintained high Fraternal and educational standards. We found there a unique Chapter activity in the maintenance of a complete orchestra with the exception of the drums, under the efficient leadership of Brother William H. Perkins. We wish this fact had been known to the Committee on Arrangements for the Cleveland Grand Chapter and wish some of our larger Chapters would take note. This orchestra serves as the college orchestra and has a spirit of pride and unity which is the greater because of its being a fraternal organization.

Gamma Nu

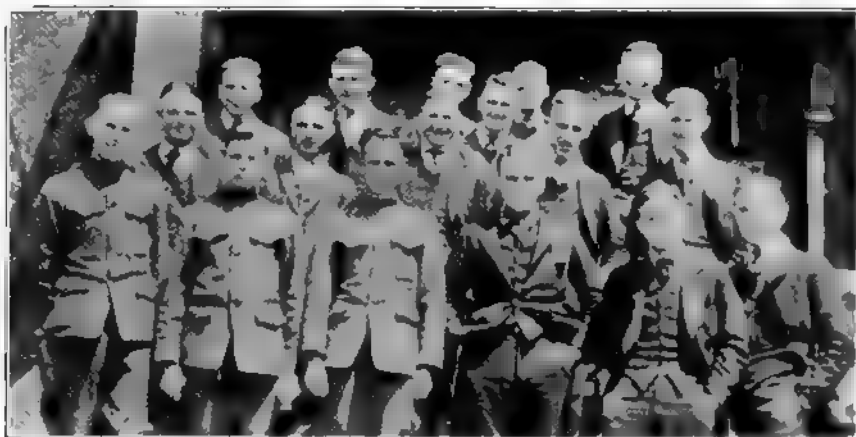

From Albion we journeyed over to Ann Arbor and surprised the Brothers of Gamma Nu. We found them all busy with term examinations, but not too busy to receive us with true Sigma Nu hospitality.

Michigan is one of the greatest of our American universities. It showed no sign of suffering by the war. With the utilization by the Government of the school equipment for military training the campus had the appearance of a military camp. The new library construction was being pressed steadily forward, the

the dinner table and were impressed, by the questions asked, with the intelligent interest which this strong Chapter has in all the general affairs of Sigma Nu. The trouble with so many of our strong Chapters is that they are likely to be consumed with the traditions and ideals of their own great institution and their local Chapter. Gamma Nu has all these ideals and traditions, but at the same time betrays a keen interest in Sigma Nu as "A National Society of College Men."

Gamma Beta

With all due remembrances of the beautiful homes of Rho at the Uni-

Gamma Nu Chapter Group

new Y. M. C. A. building had just been opened, and the Student Union was nearing completion. This building, costing more than one million dollars, is said to be the most complete plant of its kind in America.

Gamma Nu owns her own home, which she purchased some years ago, and is now planning to build a splendid home after the war. We found this Chapter in fine spirits fraternally and in splendid shape financially. The house had not been run not only without loss, but with an actual profit.

Gamma Nu felt certain of a successful year in 1918-19 unless the draft age should be lowered. We spoke informally to the Chapter at

versity of Missouri and of Gamma Lambda at Wisconsin, we are compelled to say that the most artistic Chapter House which we have ever yet visited is the Gamma Beta at Northwestern. From the dining room in the basement to the commodious lodge room on the fourth floor this home gives the impression of having been designed by architects who knew with exactness what an ideal Chapter House should contain.

We found that the secret not only of the completeness of our own House, but also of the beautiful quadrangle of Fraternity Houses, of which ours is but one, lay in the policy of the Trustees of Northwestern University.

We wish to urge upon every college administration perplexed over its housing or fraternity system a close investigation of the Northwestern system. It seems to us rather an ideal solution of both these problems. The university authorities have set apart a beautiful quadrangle of ground facing the fashionable North Shore drive on one side and Lake Michigan upon the other. Here the fraternities are given ground upon which to build. The money is furnished by the university, which also prepares the plans, which are adopted along one general scheme. The Chapter pays back the cost of the House through a term of years and in the end the university has a beautiful group of homes on the campus, where they are an ornament to the institution, a help in its housing problem and a means of better supervision of the fraternity life.

Gamma Beta has the honor shared by all of our Chapters in being hard hit by the war, but the younger Brothers who have been compelled to take the responsibilities are determined to show the Alumni that they can very decidedly make good. We found the finances in splendid shape and the Brothers full of courage as they look forward to the next year.

Gamma Rho

Brother Roberts, our most efficient Inspector of the Ninth Division, called for us and took us out to dinner with the Brothers of Gamma Rho. Brother Roberts has recently removed from the neighborhood of the Chicago Chapter, but not being able to get very far away from one or the other of his Chapters, has bought a beautiful home on the North Side, where he passes the Gamma Beta Chapter every day.

Gamma Rho Chapter has made a real progress last year under very hard circumstances. This Chapter is constituted of a fine body of real Sigma Nu Brothers and is deserving in a special sense of the unqualified support of our Brothers everywhere. This Chapter has all the difficulties

which are common to the war situation everywhere and then in addition a number of problems which are distinctly associated with Chicago University and with the history of the Chapter. These Chicago Brothers are a credit to our Brotherhood. They are working unusually hard. They deserve the best of success, and we bespeak for them the sacrificial interest and support of every Alumnus in Chicago who loves Sigma Nu and the help of our Brothers everywhere in notifying this Chapter of good men who are going to enter Chicago University.

Beta Nu

It has never been our privilege to view a more inspiring sight than that which took place in front of the great library building of the Ohio State University, when on Alumni Day they unfurled their service flag with nearly three thousand stars (the second largest in the United States). We were the guest of the university on that day by the invitation of the general chairman of arrangements, Brother H. L. Hopwood, the efficient Adviser of Beta Nu Chapter.

Beta Nu Chapter has a commodious home in Indianola, the beautiful residence suburb of Columbus, and close to the University. This Chapter, founded by Brother Walter Sears, has furnished a splendid galaxy of leaders in Sigma Nu. Harry Junk, who joined the Chapter Grand in the very beginning of his life work, would have been a gift worthy of one Chapter if there had been no other. When we name Sears, Heywood, Hopwood, Sherman, we are only beginning a list marked by illustrious service to our Brotherhood.

We found here an interesting example of kindred Brothers. Brother C. E. Sherman, Dean of Engineering and well known to the older generation of Sigma Nu workers, has a son, Robert, who is the Commander of his own and his father's Chapter. We also had a very interesting visit with Dr. Thompson, the popular President of Ohio State. We had met Dr.

Thompson in other years at educational conferences. He was not too busy even in commencement times to invite us into his office for a half hour's conference over local fraternity administration and some contemplated changes therein. The increasing co-operation between the college administration and the fraternities bespeaks not only a better understanding on the part of the one, but also an increasingly higher sense of responsibility on the part of the fraternal organizations.

"Forward our warriors go
Fronting the sullen foe—
God be their guard!
Lo, here, in memory
Of their young chivalry,
Our banner floating free,
Thrice thousand-starred!"

The occasion of our visit did not lend itself to any opportunity to meet the local Chapter as such, but conferences with the local officers and inspection of the books revealed a splendid condition in spite of the

Beta Nu Boys and the Editor

The war conditions made the attendance of Alumni smaller than usual, but a great throng of students and citizens stood with bowed heads when Brother Hopwood gave the signal and the great flag was unfurled. The closing words of the presentation speaker reflected the evident feeling of every person present when he said: "Its colors may fade and its stars may grow dim, but the spirit in which we dedicate it, and our faith in the things that are true, and honest, and just, and pure, and lovely, and of good report, that glows resplendent from its every fold, will last throughout all the years." Many voices were choked with tears before they reached the last verse of the presentation hymn, which was as follows:

large number of stars on the great service flag which represented the Sigma Nus.

Beta Nu returned only seven men last year, and of these four soon left for the service. From this beginning the Chapter initiated twenty-five men, paid all bills and closed the year in splendid shape. This kind of record, which, fine as it is, can be duplicated times without number, should inspire every Alumnus of Sigma Nu in these days who is too old for active service to his country to resolve to sustain these younger Brothers who are fighting so superbly to keep all our Chapters alive. Visit the boys, take The Delta, support the active Chapter and suddenly find yourselves twenty years younger than you thought you were.

Secretary's Table

Founders Day

The first regular meeting of the Alpha Chapter of Sigma Nu of which we have any record was held on January 1, 1869.

Wednesday, January 1, 1919, ought therefore, as the fiftieth anniversary of our founding, to be celebrated by appropriate exercises in every Chapter. These exercises need not be necessarily of great preparation and expense, but some form of Founders Day exercises should be celebrated in every Chapter. It would be well at these meetings to connect the history of the founding of the local Chapter with that of the National Society and invite the Chapter founders to attend wherever this is possible.

War Initiations

We wish again to call attention to the specific and old method of special war initiations. Please note that the following special conditions must be observed:

First—The pledge must have the written consent of his Chapter, addressed to the General Secretary.

Second—The initiating Chapter must have consent of the General Secretary for such initiation.

Third—The pledge must have been an actual matriculate to the college where his Chapter is located.

Fourth—The initiating Chapter must fill out the forms, leaving the initiate's number blank—these forms to be completed by the initiate's own Chapter.

Unless greater care shall be exercised by Chapters initiating soldier pledges it may become necessary to ask the High Council to suspend this privilege.

Our Soldier Records

The list of the "Knights of the Republic" continues to grow; also, we are proudly sad to say, that of "Immortal Dates."

It is a matter of the keenest of regret that there seems no way by which we can make these lists absolutely complete. Brother Lieutenant Tussing, Beta Nu, writes us, sending in some additional names for his Chapter and pleads for some one, active or Alumnus, in every Chapter who will take upon himself this labor of love. We also note with gratitude special work in compiling his Chapter roll by another of our soldier Brothers, Sergeant George Chandler, Gamma Lambda. These Chapter lists should be etain engraved on bronze tablets and occupy the honored place in every Chapter House at the close of this war.

Check your Chapter list in this issue and send us at once every name which should be there and is not.

Sigma Nu War Badge

Some of our Brothers have written the General Office suggesting that some form of Sigma Nu War Badge should be adopted by the Fraternity to be worn by our "Grand Army of the Republic."

These Brothers most richly deserve any special recognition which the Fraternity can give them. As the reports come in it would seem that practically every Brother who can possibly come under the regulations is in service or going in this fall. Whether there should be some distinguishing addition to the badge for War Service we think should be largely left to "The Knights of Chivalry" themselves. What say you?

A Word to Chapter Officers

One of the greatest difficulties of general administration in war times lies in the necessarily rapid changing of the Chapter officers. Our system was designed with the expectation of systematic training of men for each of these places. This under present conditions is, of course, impossible.

We are constantly dealing, therefore, with new officers.

We wish to specially request the old officers, on leaving, to make all records for which they are responsible. Failure to do so not only leads to endless confusion, but may invalidate the historic record of some one or more Brothers.

New officers should take the earliest opportunity to familiarize themselves with their duties and responsibilities. Read the law carefully, also all instructions as to accounting and forms. Above all, keep in touch with us.

"Stalling" Your Debts

We have been astonished at the number of Brothers who seem to feel, in spite of the dire war need of their Chapters, that they are justified in any sort of recourse by way of excuses in order to avoid a prompt and businesslike settlement of their fraternal obligations. Very few men look with complacency upon the final charges which are to sever them from the fraternal and college associations, which are, after all, among the most precious things in life. They will, however, beg and plead and send installments as a last resort, which, if sent in the first place, with a businesslike promise to continue the same, would have avoided all trouble.

Brothers cannot make this office specious promises, then refuse to sign notes guaranteeing small payments upon admitted indebtedness to a needy Chapter, and avoid charges of expulsion from our Brotherhood. Therefore the list of expulsions, we regret to say, is growing.

Division Conventions

During the last college year many of our Inspectors did not call their Division Conventions. This was largely due to the fact of the Grand Chapter having been held last year and also to the laudable desire to keep down the expenses of the local Chapters as far as possible.

We are convinced, however, in the light of events, that there is no real

economy in this kind of saving. Almost without exception the Divisions which held their conventions as usual last year betray an efficiency which is not seen elsewhere. Let us hold the Division Conventions this year. Set the date as early as possible and notify the General Office of such date as soon as it is determined upon. It will be often possible for us to have a representative with you.

Sole Official Jewelers

The active Chapter officers are especially urged to read carefully the full announcement elsewhere concerning our new jewelry contracts. All kinds of camouflage will be thrown out by disgruntled salesmen. Under the old system we ourselves detected a salesman of a house which had refused to take an "ad" in The Delta representing his firm as "Official Jeweler." There will be more of this now. It will be the duty of the officers of the active Chapters to see that the proper notices are posted and the Law of the Fraternity in this respect is strictly obeyed. This is in justice to the Chapter as well as to our Brotherhood.

The Directory

The Sigma Nu Directory is at last on the press. This venture has been in the hands of a private concern, R. L. Polk & Company, who make a business of publishing volumes of this kind. They have a skilled corps of personal investigators who are sent out to investigate personally where other efforts fail to procure the required information. The proof of this volume has been read in our office. It is a regular Who's Who of Sigma Nu and will be the most complete compilation of Sigma Nu data which we have ever had. The price of the volume may seem high, but the work done is invaluable.

Individuals may order through this office if more convenient. A sufficient number of volumes have been purchased by contract of the General

Fraternity to furnish each active Chapter with a volume from this office.

Do not place orders directly for the volumes intended for the Chapters.

Novices in Chivalry

We publish again in this issue the list of our initiates. This list is not only valuable as a matter of reference, but also as a checking list for the records of the local Chapter. It is possible that some initiations toward the close of the year were not reported to the General Office. Please note the law in this respect. Until our records are clear in the office these Brothers are not recognized as Sigma Nus.

The total number of initiates for the fiscal year closing July 1, 1918, is 965. This is an increase over the previous year, which recorded a total of 954. There was necessarily a considerable decrease in the number of old men returned to college, thus affecting the income of the Fraternity to that degree.

No more pertinent comment on the vitality of the Sigma Nu spirit in the younger men could be made than the fact of this increase of initiates.

Here is the standard, Brothers of 1918-1919! What will your record be?

Chapter Publications

We wish to call the attention of each Chapter to the action of the Eighteenth Grand Chapter, specifying that "Whenever any active or Alumni Chapter shall issue or circulate any Chapter news letter, or booklet, a copy shall be mailed to the Grand Historian and to the General Secretary.

Strange as it may seem, this is a matter very commonly overlooked because of the fact of these letters or papers being specifically intended for Alumni of the local Chapter. These publications always convey information which should be in the General Office.

Put us on your mailing list.

College Army Plan and the Fraternities

Just as we go to press the War Department has made public its plans concerning the Students' Army Training Corps. The purpose of the new plan is declared to be "to utilize the executive and teaching personnel and the physical equipment of the colleges to assist in the training of our new armies."

As the men in the college training corps will be compelled to live in barracks, all college life will be revolutionized. Chapter homes will generally be vacant. In many cases these buildings are being taken over by the college authorities for use as barracks after the furniture has been stored. In some other cases they are being taken over as girls' dormitories. The regular dormitories being used as barracks.

Where neither of these uses is possible, the problem of leasing the houses will sometimes be serious.

It is the understanding of the General Office on what seems to be reliable information, that fraternity life will not be interfered with any farther than is absolutely necessary. It will be possible in many cases for the Brothers to retain the house for use as a club room and thus have a welcome retreat from barracks life.

The new law will be helpful to the fraternities in that an unusually large number of men will enter college in order to obtain the advantages of the S. A. T. C.

Our Chapters ought to be unusually large this year thus laying a great foundation for the work of our Brotherhood when the war is over, which we hope will be within another year.

Instructor in History Wanted

Brothers who have specialized in history and who would desire a chair in a relatively small but strictly high grade college, are asked to communicate with the General Secretary. This place is open for the year beginning September, 1919.

View and Review

Few men in our Brotherhood have ever set a higher standard of unselfish public service than has Brother Borden H. Burr.

The Regent
in France

Though he has achieved an enviable record as one of the leading attorneys of the South, he has seemed to always have made his law practice secondary to the call of the great common interests of us all, as signified by his activities as State Senator, State Chairman of his party and National Committeeman, and worker in the Boy Scouts, Red Cross and Y. M. C. A.

Brother Burr has been his State Chairman of the Red Cross, directing the manifold war activities of this wonderful organization and leading its financial campaigns to success. He has now been selected by the National War Council of the Young Men's Christian Association as one of their speakers in the nationwide campaign for one hundred million dollars, which is to take place this fall. In order to prepare for this campaign Brother Burr went to France early in June to spend the summer inspecting the work of the Y. M. C. A. along the western front. Brother Burr expects to return to this country about October 1st in time for the Y. M. C. A. drive.

Sigma Nu eminently justifies her existence as long as she can claim any part in the production of men of the ideals of our Regent.

This issue records a large increase in our record of "Immortal Dates," of Brothers of whom it is recorded:

The Casualty
List

"Far hence he died, before his time was ripe;
Howbeit a soldier, for his country's cause."

When the war broke out upon an unprepared world four years ago, the colleges of Great Britain poured forth almost their entire body of men as part of that "contemptable little army" whose sacrifice contributed so much to save the freedom of the world.

In the past year our American college boys have shown that they are fundamentally of the same stuff as those English lads. In the first eight months more than 150,000 college students flocked to the colors. Fortunately for us we were able to profit by England's experience and through the officers' training camps have been able to conserve the value of our trained men more than England was able to do in those opening months.

We cannot escape, however, paying a heavy price in the sacrifice of these, our best, who are doing precious parts for the freedom of the world.

For generations to come memorials of conspicuous and appropriate buildings will be constructed as fountains of inspiration for generations of college men yet unborn.

It is the supreme duty as well as the high privilege of every Chapter

and every Brother to see that no "Immortal Date" is left without adequate notice in this magazine and also recorded as a precious heritage in the records of the active Chapters. These names should be recorded when this war is over in tablets of bronze and placed upon the walls of every Chapter. What now is constituting our greatest losses will then constitute our most precious heritage.

* * *

As we write these lines we note with a deep sigh of relief that the Government has stopped all volunteering for the present. With the discussion in Congress of the lowering of the draft age to 18, there has been such an avalanche of volunteers as to threaten seriously the future supply of trained men.

Our college boys do not yet seem to grasp the portent of the request of the President and the Department of Education that the boys should by all means get into college and stay in college until their country calls them. If the age limit is lowered it will not mean that these young boys will be called except as a last resort.

The Government is in process of organizing the students' army training corps, composed of college students between the ages of 18 and 21. During the school year the student will have the status of a private in the National Army on furlough without pay. Uniforms and equipment will be supplied by the Government, and during the summer vacation each soldier student will receive six weeks of intense military instruction. The corps is designed for the purpose of meeting future demands for trained

specialists and to provide material for officers' training camps.

In these supreme days it is not a question of what we most want to do, but of where we can best serve. At the present time the place, beyond all doubt, where every young man under 21 can serve best is in college.

* * *

We are reprinting in this issue, by request of the Bureau of Information of the United States Government, an article on the above subject which is based on an article appearing originally in Garnet and White of Alpha Chi Rho.

This matter was taken up at the last Inter-Fraternity Conference by a representative of the Government, who spoke before that body, asking the earnest co-operation of the College Fraternity men in this great campaign, as a supreme obligation of patriotic service.

The Government makes the astonishing statement that "in many instances European armies lost the services of more men through venereal diseases than through bullets, shrapnel, hand grenades and all the other destructive agencies combined, and asks the co-operation of the College Fraternities in two great aims of the Government—first, to make the men necessary parts of a perfect fighting machine; and secondly, to return them to civil life, to their families, in as good if not in better condition than when they entered the service.

As a result of this campaign in part, and also in larger part than is usually given credit for, in the ideals and teaching of other years, the Gov-

ernment makes the statement that in the United States Army at present there is not only far less venereal disease than in other army in the history of the world, but that the percentage is also actually far below that of civil life in our own country.

It is believed that in this first constructive attempt to handle this greatest of all scourges a foundation is being laid which will be permanent.

No one can live the Ideals of Chivalry towards womanhood inculcated by Sigma Nu and not live a clean life sexually as the practical standard of his own life. We trust that not only every Brother wearing khaki will be true to these ideals, but that the active Brothers in college, who are likely at any time to be called into the service of their country, will be found every one physically clean and "fit" when that time comes.

* * *

We are glad to note the increasing number of informal dinners by our Sigma Nu Brothers in the training camps. We recognize that it is very difficult for the Brothers to get together in any large numbers at a given time. These gatherings, however, are not measured in value by the number of men who are present. Fraternity bonds are cemented together in single hours of comradeship which will last beyond all time.

We shall never forget sitting about the table at Camp Taylor with twenty brothers, officers and privates, Brothers all, knowing that within a few days they would be separated going over seas. There was a note of brotherhood in that little con-

ference which shall always be sacred to the Brothers who were fortunate enough to have part therein.

We can sometimes be of great assistance to Brothers wishing to call the men together in a given camp. We shall be glad to furnish such names as we may have by telegram if necessary.

* * *

We have had a number of letters recently from Brothers in France, anxiously inquiring concerning the prospects for the coming year in our Brotherhood.

That we are entering upon a most critical year in the history of Sigma Nu is beyond all doubt. Had not the Government stopped all volunteering (and if this ban should be removed), we fear for the existence of many colleges, to say nothing of the Fraternities.

We were most agreeably surprised last year at the splendid record of our Chapters. Initiations were slightly increased rather than decreased. The younger men felt their responsibilities and the most of our Chapters were able to approximate the report of Beta Iota when she said at the close of the year, "No active man owes us a penny."

Beyond all doubt, however, the strain upon us this coming year will be much more severe than last year. A far larger per cent. of the men under draft age have volunteered. The appeal for industrial service was never so strong to the boys coming out of the high schools.

As these lines reach the Chapters they will be in the midst of the most

"strenuous" spike they have ever known. Very much will depend upon the discretion and the energy of the few Brothers returning to college.

The evident responsibility of all Alumni Brothers is also greatly increased. If every one of us will be resolved to do *something* for our own Chapter we will be able to pull through.

As we swing into the second year of this world war for Liberty things are going increasingly better "over there." Let those of us who must remain "over here" give every ounce of energy to supporting our Country. Not the least of these responsibilities is connected with our colleges and our own Chapters.

* * *

This Delta presents accounts of the installation of two new Chapters.

These Chapters are widely separated in distance, but close together in time and enthusiasm. Delta Psi at Bowdoin College and Epsilon Alpha at Arizona officially entered the Fraternity on April 27th and June 2d, respectively. It is interesting to note in connection with these charter grants that the *actual* favorable vote broke all previous records. The percentage of our Chapters actually recording their affirmative votes by Chapter action instead of by default was the largest of any in the history of the Fraternity.

The May issue contained a brief report of the pledging of our Delta Psi Brothers and of the special satisfaction felt on the part of our Eastern Alumni. Herein we chronicle the successful installation of the second

New England Chapter under the skillful leadership of Brother Edson K. Smith, the wide-awake and zealous Inspector of the Eighth Division. Brother Seth Arnold, past president and charter member of the Boston Alumni Chapter, and Brother Harold W. Slabaugh, last year's Commander of Delta Beta Chapter, present from different angles the cordial welcome of New England to her new Brothers.

Since the May Delta appeared, we have entered the Epsilon series of Chapter names, the Alpha falling upon the University of Arizona. The history of this petition, as well as that of the Tucson Alumni Chapter, will forever be connected with the name of Brother J. F. McKale, Gamma Gamma, faculty athletic director of the university, who has fathered this movement from the beginning, and who most appropriately had charge of the installation.

We have liked the spirit of these Western men, now our Brothers, from the very first. We have had some knowledge of the rapid development of their school through a personal acquaintance with the young and vigorous President Kleinsmidt. The record of the installation and some of the difficulties overcome in order that the initiates might be present can scarcely be conceived by our Eastern men.

This school is strategically located. The State has made a favorable beginning by concentrating all its support on one institution, large grants of mining lands insure a large income in the future, and its health conditions will make it attractive to students throughout the country. One of our older Alumni has just written

that he contemplates sending his two sons from the Middle West to this school.

Rudyard Kipling said, "Oh, East is East and West is West, and never the twain shall meet," but in these two Chapters the East and West of our own land join hands in this our "National Society of College Men."

. . .

The Sigma Chi Quarterly for May, 1918, gives in full a very interesting decision of a District Court of Iowa, afterward affirmed by the Supreme Court of the State. This decision upholds the right of the Board of Directors of the School District of Des Moines in suspending members of high school fraternities. The decision also upholds the law of the State of Iowa forbidding high school fraternities in the State.

This decision discloses that laws have been enacted in Ohio, Indiana, Washington, Kansas, Illinois, and other States, either absolutely forbidding them or placing them under the control of boards of education. Also that "an examination of the cases arising under these laws and local regulations discloses that the courts of last resort in recent years have uniformly held such statutes and rules valid and constitutional."

This decision unmistakably records a steady growth of public sentiment against these organizations as a harmful influence in the high school life of our country.

We think the Inter-Fraternity Conference could well take notice of this evident growth of public sentiment and reflect the same in Inter-

Fraternity Conference action. We believe that the last session of this Conference took a backward step in this matter.

. . .

The next (December) issue of The Delta will be the Fiftieth Anniversary number. We call attention to the obligation of proper celebration of the day (January 1st) in the Secretary's Table of this issue.

In this special number we hope to give, in addition to an epitome of our fifty years of history, some personal reminiscences from Brothers who have had to do with our earlier activities.

We have repeatedly urged upon a number of these Brothers the necessity of putting down historic facts and personal experiences which they alone possess. They seem, however, to have been overwhelmed with timidity in this matter. They now have on this occasion a special opportunity to do so. If they do not embrace this we know of no further argument by which to influence them.

Will not every older Brother who is placed in a reminiscent mood by the theme of the next issue put down NOW the facts concerning the early days of your own Chapter, which have doubtless never been recorded? And will not the younger men bring such pressure upon the Fraternity Fathers so as to make secure for all time these historic facts?

What do you have to contribute to this issue?

The Scroll of Phi Delta Theta in its May issue, under Recent Fraternity Convention, gives a most complete digest of the proceedings of the Eighteenth Grand Chapter of Sigma Nu, including a summary of legislation, a part of the speech of Brother Burr in accepting the Regency, the Sears Creed and Brother Woods' presentation of the same, and a generous selection from "Remarkable Remarks" in the convention number of The Delta. Our former opinion of "The Scroll" as one of the best of our Fraternity magazines is naturally not lessened by this article.

* * *

This issue opens a new and most important volume of the Delta. Changes will be noted in arrangement and in style, which will involve some economies and we believe an improved appearance as well.

We have widened the printed page thus giving more matter to the page. This relieves somewhat the congestion on the Editor's desk and on the Editor's brain without additional cost and as we think with improvement in appearance. Notice also that we have converted the form of the magazine into double column throughout. The shorter line not only gives more words to the page but also is more easily read. Certain departments have been changed in location so that they will appear in smaller type again slightly enlarging the capacity of a given number of pages. All departments relating to the active chapters will be found located more conven-

iently together. This is also true of all departments relating to the Alumni. Only articles on subjects of specific interest and treated at length will appear in the more prominent type.

Our plans for the new volume as for the last far outrun our ability to compass them within the limits of our pages and budget. It is the wish of the High Councils as well as of numbers of our leading Alumni that if possible we do not lower the standards of excellence already set for our magazine in order to save expense. It is possible that this may finally be necessary unless we can rally a larger support of Alumni subscribers.

In the new volume a number of articles of travel and of life work which are written by Sigma Nus or about Sigma Nus will continue to appear. The department of Kindred Brothers begun in the last volume is attracting unexpected attention. It is especially surprising to see the relative large number of fathers and sons who are Sigma Nu Brothers. The Knights of Chivalry is the department which now constitutes our greatest burden. We have finally determined, however, that this department will not be dropped even if it forces out of our pages a number of others. It is now with our sister department, On the Way to Berlin, the most popular part of our magazine and in future years will be of inestimable historic value.

The interests of our Alumni in the Delta have grown into three sections in addition to the Alumni Chapter Letters and Alumni Notes of former days.

Chapter Survey

By HARRY A. RIDER, Assistant General Secretary

BETHANY COLLEGE

Epsilon Chapter

The college enrollment for 1918-19 will probably be slightly less than that of 1917-18 1917-18. Out of twenty-three men in the Chapter last year, ten intended to return.

The prospects for Chapter operation are good. The actual expenses for House upkeep are small, although the Chapter owns its property. The small amount of Chapter indebtedness is more than covered by debts to the Chapter.

A little financial aid may be expected from several of the "active" Alumni, who are also lining up men for the coming year. There are about forty-five Epsilon men in service, which includes most of the younger and active Alumni.

MERCER UNIVERSITY

Eta Chapter

While many of the men have not returned, the number of pledges already will raise the Chapter to its usual strength.

WASHINGTON AND LEE UNIVERSITY

Lambda Chapter

Commander A. S. Watkins answered our questionnaire, but says, "It is impossible for me to answer the numerous questions with any satisfaction where I am now (in the Navy)."

UNIVERSITY OF KANSAS

Nu Chapter

Professor E. F. Engle, the Chapter Adviser, writes these encouraging words: "The prospects for this fall are fine and we have spent about four hundred dollars in repairs and improvements on the house."

EMORY COLLEGE

Xi Chapter

This college is in process of being removed to Atlanta, Georgia, under a new endowment, which insures that this institution will be one of the great Universities of the South. The professional schools are now in Atlanta. The College of Liberal Arts will not be moved to the new plant now being prepared until the fall of 1919. Inspector Oscar Palmour writes: "Although this makes conditions exceedingly unfavorable here, I believe we will be able to develop a scheme in which this Chapter may be held together until conditions improve."

UNIVERSITY OF MISSOURI

Rho Chapter

A reduced college enrollment is certain. Out of thirty-one men in the Chapter last year, twenty are expected to return.

A heavy payment falls due to the House Corporation this year. Also old accounts remain to be paid. Though a large Chapter is necessary to pay the expenses, enough men will be back to open up well, including a commissary and a treasurer, both experienced.

The Alumni came to the rescue last year financially and enabled the Chapter to pull through in fine shape. They may be counted on in a necessity, but the active men feel that it won't be necessary.

UNIVERSITY OF TEXAS

Upsilon Chapter

"School closed with very little excitement, but with the loss of three more men to the army. I expect to enter during the summer myself. It does not feel very good to be sitting around holding the sack while other people are doing so much. I am the only man in the Chapter at present that was here when war was declared last spring. I was only nineteen then and could not get in the training camp with the bunch. But now the naval aviation looks good and if I don't lose any more weight, I ought to be in Boston by fall. We will have some eight or ten men back out of nineteen total in last year's Chapter."

JOHN D. COFER.

DEPAUW UNIVERSITY

Beta Beta Chapter

Brother Royal E. Davis writes: "I believe that we will open school this fall with a larger and better bunch of Freshmen than this Chapter has had for a long time. All the Brothers that are left are enthusiastic over the prospects. The indications at the present time are that there will be nine old men back and six pledges in addition."

PURDUE UNIVERSITY

Beta Zeta Chapter

The college enrollment for 1918-19 will be twenty per cent. less than that of 1917-18. Out of thirty-two men in the Chapter last year, about eighteen will return.

The boys are enthusiastically setting to work for the fall and the Chapter has never been in better condition. Prospects are exceedingly bright.

ALABAMA POLYTECHNIC INSTITUTE**Beta Theta Chapter**

The college enrollment for 1918-19 will be slightly under that of 1917-18. Out of thirty-four men in the Chapter last year, nineteen will return.

The House expenses will approximately be the same as last year. The Chapter has no creditors, but has a small balance of debts to itself.

The outlook for the Chapter is most hopeful. The Alumni are willing to help in any way they can.

MOUNT UNION COLLEGE**Beta Iota Chapter**

The college enrollment for 1918-19 is about the same as for 1917-18. Out of a total of thirty-six men in the Chapter last year, twenty-nine stayed in college the whole year, and twenty-four are expected to return.

The Chapter has practically no debts either way—owed to or by the Chapter.

The burden will fall principally on Sophomores and Juniors, with possibly three Seniors. Prospects are very bright.

The Alumni have backed the Chapter in the past to perfection and will so continue.

KANSAS STATE AGRICULTURAL COLLEGE**Beta Kappa**

The college enrollment for 1918-19 will be materially less than 1917-18. Out of twenty-eight men in the Chapter last year, seventeen will probably return.

The expenses will be about the same as last year. The small indebtedness of the Chapter is more than covered by the few debts owed by recent Alumni. The Chapter House this summer was under the management of the matron and was rented to officers' wives, bringing in about \$25.00 weekly. This money goes into the house repair fund.

Prospects are as good this fall as last year, which may well be considered successful.

The Alumni contributed about \$200 toward house repairs last year and they can be depended upon for aid if needed.

WILLIAM JEWELL COLLEGE**Beta Xi Chapter**

The college enrollment for 1918-19 will be only about two-thirds of that for 1917-18. Out of twenty-two men in the Chapter last year, eleven will return and also four pledges.

The Chapter owes nothing and has only a small outstanding account due to it. Facing conditions such as last year, the prospects for Beta Xi are encouraging. To quote one of the Alumni, Brother A. D. Brandom, "Keep the quality up even if you run a small Chapter. We will give you assistance, even financial."

TULANE UNIVERSITY**Beta Phi Chapter**

The college enrollment for 1918-19 will be slightly under that of 1917-18. Out of the twelve men in the Chapter last year, nine will probably return.

The Chapter owes nothing and has but few debts outstanding.

No house has been maintained by the Chapter the past year. The prospects are better for the coming year.

A little help may be expected from the Alumni.

UNIVERSITY OF CALIFORNIA**Beta Psi Chapter**

Many of the active men have gone into the service, but prospects are better than at this time last year.

GEORGIA SCHOOL OF TECHNOLOGY**Gamma Alpha Chapter**

The college enrollment for 1918-19 will be the same as for the past year, 1917-18. Out of thirty-one men in the Chapter last year, sixteen will return with probably five others.

The rent for the Chapter House will be increased, other expenses remaining about the same. The small indebtedness of the Chapter is covered about five times by the debts due to it. Prospects for next year are fair.

The Alumni have helped in the past and could reasonably be expected to help now.

ALBION COLLEGE**Gamma Gamma Chapter**

The college enrollment will be practically the same for 1918-19 as during the year 1917-18. Out of twenty-four men in the Chapter last year, fifteen will return with possibly two pledges.

The Chapter has no debts outstanding, with a small amount yet to come in. Financially, the Chapter ended the summer about clear and the expenses for next year will not be materially increased. With several strong men coming back this fall, the prospects are excellent.

As to aid from the Alumni, the Chapter answers, "Nothing."

STEVENS INSTITUTE OF TECHNOLOGY**Gamma Delta**

The college enrollment for 1918-19 will be practically the same as for 1917-18. Out of thirty-two men in the Chapter last year, fifteen will be back.

The expenses for the coming year will probably not be increased, and the Alumni debts will be decidedly lessened. Prospects for Chapter operation are good.

The Commander says, "I feel safe in saying that we can depend on our Alumni for help."

COLORADO SCHOOL OF MINES**Gamma Eta Chapter**

The college enrollment for the year 1918-19 will be increased about one-third over that of 1917-18. Out of seventeen men in the Chapter last year, eight will return.

The rather large indebtedness of the Chapter is covered by the Alumni debts. No statement of expenses is given, but the commander says that "Prospects are very poor."

The majority of the Alumni are in the army or out of touch with the Chapter. This is surely the time for men in Colorado to get busy.

CORNELL UNIVERSITY**Gamma Theta Chapter**

The college enrollment for 1918-19 is not reported. Fourteen men will return out of twenty-four men in the Chapter last year.

The Chapter owes nothing, although it has a rather heavy list of Alumni debts unpaid. Expenses will depend on the number of men returning.

The Commander says that prospects are good—with a small amount of cash surplus to begin the year on and all current bills are paid.

The Chapter does not expect to need any financial help from the Alumni and the active men seem uncertain as to what to expect from them. However, the Alumni have never failed in the past to direct the Chapter rightly.

UNIVERSITY OF KENTUCKY**Gamma Iota Chapter**

College authorities state that the enrollment will be larger for the current year than for the preceding one. Out of eleven men in the Chapter last year ten will return, with two pledges.

The Chapter has rented a new Chapter House which is nearer the college. Prospects are good.

Alumni support is always forthcoming. To quote one of the active men, "When need arises, the Alumni chip in and stand back of the Chapter fine."

MISSOURI SCHOOL OF MINES**Gamma Xi Chapter**

The college enrollment for 1918-19 is slightly under that of 1917-18. Out of seventeen men in the Chapter last year, only nine will return.

The Alumni debts are too large, but there is a small amount owed by the Chapter. The expenses will be about the same as last year and prospects are very good. The winter supply of coal is in, which makes the future look warmer.

This Chapter is the only one to answer affirmatively as to financial aid from the Alumni.

WASHINGTON UNIVERSITY**Gamma Omicron Chapter**

College enrollment for 1918-19 will be considerably less than for 1917-18. Out of eleven men in the Chapter last year, five will be back with three probably affiliating and two pledges.

The Chapter owes nothing, but the Alumni debts are rather heavy.

The prospects are good for pledge material. The only fear of the Chapter is on account of "old men."

The Alumni have not been active during the past year.

WEST VIRGINIA UNIVERSITY**Gama Pi Chapter**

The enrollment for 1918-19 will be slightly less than that of 1917-18. Out of twenty-three men last year, eleven will return with possibly three more.

The Chapter owes nothing and has practically no debts due it. The expenses for next year will be about the same as in the past. Prospects are good.

UNIVERSITY OF CHICAGO**Gamma Rho Chapter**

College enrollment for 1918-19 not reported. There were nineteen men in the Chapter last year with only eleven ending the year and the same number will probably return. Officers have changed many times during the past year.

The Chapter is in good health and prospects are good for next year.

"Co-operation of the Alumni," says the Commander, "has been little in number, but good in quality."

UNIVERSITY OF ARKANSAS**Gamma Upsilon Chapter**

The college enrollment for 1918-19 will be about one-third less than for last year. The Chapter roll was twelve last year and will undoubtedly be fully as large, as at the opening of college this fall, four pledges have returned in addition to initiated men.

The prospects for Chapter operation are better than a year ago.

The Alumni are not in close touch with the active Chapter.

COLUMBIA UNIVERSITY**Delta Gamma Chapter**

No statement as to enrollment. The Chapter began the year of 1917-18 with six active men and ended with eighteen. The total Chapter roll during the year was twenty-eight. Fourteen men are expected to return.

During the year the Alumni banded together paying dues and this Alumni Club greatly aided the Chapter. The Chapter especially mentions Brothers Romagna,

Grant and Dickey, together with Past Regent Wilson as frater-aides. Brothers Grant and Dickey are Registrars at the University. Other Alumni have been of great inspiration as well as service. For example, nine Delta Gamma soldiers at one of the camps sent back a large contribution to the Chapter.

The Alumni report in brief is as follows: "We are about to make arrangements to give up our Chapter House at Columbia University until after the war. It is not a matter of quitting but of keeping Sigma Nu forceful at the University. We will lease from the University a suite of rooms in the campus dorms."

UNIVERSITY OF OKLAHOMA

Delta Epsilon Chapter

Enrollment for college is about the same as last year. Seventeen men will return out of twenty-eight men in the Chapter last year.

Prospects seem fairly good for next year.

WESTERN RESERVE UNIVERSITY

Delta Zeta Chapter

The college enrollment for 1918-19 will be about the same as for 1917-18. Out of thirteen men in the Chapter last year, eight will probably return.

Finances are in excellent shape with a large surplus ahead.

The Alumni take an active interest in the Chapter and will undoubtedly take care of any emergency.

STATE COLLEGE OF WASHINGTON

Delta Iota Chapter

The college enrollment for 1918-19 is the same as for 1917-18. Out of nineteen men last year, four will return.

The expenses will be about the same as last year. Payments to the House Corporation under present war arrangement will be just what the Chapter is able to pay.

The Chapter has had a rule against pledging before matriculation, although there are no inter-fraternity rules against "prep" pledging, but this year it was suspended and the Chapter has already twelve pledges.

The Alumni have done more than their share by assuming the rent.

STETSON UNIVERSITY

Delta Mu Chapter

The college enrollment for the next year is about the same as for 1917-18. Out of twenty men in the Chapter last year, four will return with probably three or four pledges.

The Chapter owes nothing.

There is no great opportunity for much pledge material in sight for next year.

Several Alumni near Stetson University are always an aid to the Chapter.

UNIVERSITY OF NEVADA

Delta Xi Chapter

"Our first semester opens on September 5 and the indications now are that very few boys will be registered," according to Chapter Adviser Charles S. Knight, who is the dean of agriculture.

UNIVERSITY OF IDAHO

Delta Omicron Chapter

The enrollment for 1918-19 in the college is practically the same as 1917-18. Out of thirty-one men in the Chapter last year, seventeen will probably return.

Expenses are about the same. Although the Chapter indebtedness is high, there is a considerable amount outstanding in Alumni debts.

Prospects for the rushing season are good considering war conditions. Four pledges have already been secured.

Most of the Alumni are in the service, but all write frequently and the Chapter expects their strong support.

CARNEGIE INSTITUTE OF TECHNOLOGY

Delta Sigma Chapter

The college enrollment for 1918-19 is slightly under that of last year. Out of thirty-two men in the Chapter last year, twenty-two will return this year.

The expenses are rather high, but have been estimated in a businesslike fashion. Rather heavy Alumni debts cover the amount of Chapter indebtedness. It is also expected that the House will be rented during the summer, thereby making up a part of the year's rent.

The Engineering School is likely to have a good Freshman class from which they can draw.

The Alumni can be depended upon and they have heretofore shown unusual interest.

OREGON AGRICULTURAL COLLEGE

Delta Tau Chapter

The college enrollment for the year 1918-19 will be slightly under that of last year 1917-18. Out of twenty-seven men in the Chapter last year, about thirteen will return.

The expenses for the coming year will be somewhat heavier. The debts of the Alumni will more than cover the amount which the Chapter owes. The outlook is promising.

The Chapter says, "Our Alumni body is small in numbers, but will back the Chapter to the limit."

MARYLAND STATE COLLEGE

Delta Phi Chapter

The college enrollment for 1918-19 is slightly more than that for 1917-18. Out of twenty-eight men in the Chapter last year only five will return.

The Chapter has no debts either way. As this is a new Chapter, the Alumni roll is small and nearly all of them are in service.

TRINITY COLLEGE**Delta Chi Chapter**

The college enrollment for 1918-19 will be about the same as for last year. Eleven men will return this year, out of fourteen in the Chapter last year.

Prospects are good and four pledges are announced already.

The Hartford Alumni Association is solidly behind the new Chapter.

BOWDOIN COLLEGE**Delta Psi Chapter**

The enrollment for the college will be about one-third less than for last year. Out of twenty-five men in the Chapter in 1917-18, fourteen will probably be back this year.

The expenses are light and will probably not increase. The prospects are good.

CHAPTER CONDITIONS SUMMARY

The reports on the current year's prospects of our Chapters are meager. The war has upset college affairs to such an extent that the Chapter officers gave only estimates and approximate answers.

In many cases the commanders and reporters had left college early and our letters reached them in training camps far away from their Chapter records and out of touch with actual conditions, so fast they change.

It is correct to state, however, that our Chapters are in good condition in the face of war uncertainties. Never was there such a fighting spirit among the active men, a seeking for co-operation and harmony, a determination for Fraternity service. Among Alumni comradeship has acquired a new meaning and Fraternity a living significance. We can look at the future with one certainty, at least—that Sigma Nu, despite all vicissitudes and dangers, will march in the stride set by the Brothers who have gone out into the service of the larger Brotherhood of the nations.

Others did not reply at all, probably from the same reasons. We have been trying to reach their officers and members of the Chapter where responses have not come, but, as copy for this Delta dates only to August 15th, many gaps are left in this survey. If your Chapter is missing, send them word delinquency. You Alumni can greatly aid the General Office by "punching up" your Chapters.

As we go to press, the new government regulations, enrolling college students in the army adds to the perplexities of Alumni in their Chapter House Building Associations and render necessary a readjustment of our Chapters to fit into the needs of military service.

Fraternities and Army Training Corps

Upon receipt of the government's announcement concerning the establishment of the Students' Army Training Corps and the conversion of colleges into army posts, the General Secretary immediately sent to our official staff and Chapter officers the following letter:

SIGMA NU FRATERNITY**Indianapolis**

September 5, 1918.

To All Inspectors, Chapter Advisers and Chapter Commanders:

Dear Brothers:

Let us call your immediate attention to the possibilities of the new Registration Law, just passed by Congress, providing for the Students' Army Training Corps.

Up to this time our prospects for next year were much brighter than we had hoped for at the close of the last college year. What this new law will do to us is problematical. It ought to increase the number of men in college this winter. We understand, however, that these men must live in barracks. This may effect our Fraternity life seriously.

We wish to call your attention especially to the fact that many of the colleges are taking over the Fraternity Houses to be used as barracks. We urge and direct the heartiest co-operation in the offer of our buildings where such is necessary. We hope that this will be done without any controversy anywhere as to financial returns. We should offer the use of our property trusting the colleges and the government to see that we get sufficient returns for the use of these buildings to pay the interest on our mortgages and preserve the property.

Please get into communication with the presidents of your own colleges at once, and keep the General Office advised.

Fraternally yours,

EDWIN W. DUNLAVY,
General Secretary.

The prompt co-ordination of our college organizations and their workers will aid the government in the war and give to the colleges and fraternities a safe basis for the reconstruction period. We shall need then every college facility preserved in its working efficiency and in its esprit du corps.

We are called upon as Americans and as Sigma Nus to play a man's part in a man's game.

BORDEN BURR, Theta-Lambda.

The Athletes

SIGMA NU COACHES

It is worthy of remark that Sigma Nu has four college athletic coaches. We can only mention them now, in a later issue we hope to have a more extended account of their activities.

At West Virginia University, Brother Kemper Shelton, Gamma Pi, was baseball coach last Spring.

The University of Washington and the University of Arizona each has a director of athletics as Faculty members. At Seattle is our Inspector Claude J. Hunt, Beta Beta. At Tucson is Brother J. F. McKale, Gamma Gamma, who is both Secretary of the Alumni Chapter and Chapter adviser of our baby Chapter, Epsilon Alpha. These two men supervise all athletics at their institutions and put out last year first-class football teams despite the disadvantages of war times.

At New Hampshire State College, Brother W. H. Cowell, Nu-Gamma Mu, answers to the euphonious title of physical and athletic director.

KING SEES ED LAFITTE, GAMMA ALPHA, LOSE GAME

Former Cracker Hurls for Army Nine Against Navy in London and Is Beaten.

An old former Cracker pitcher was one of the chief attractions at the baseball game between the Navy and Army teams in London, on July 4, which was played before King George, the Queen and a large crowd of "coming English baseball fans."

Ed Lafitte, the big right-hander, formerly one of the mainstays of the Atlanta and Brooklyn pitching staffs, who is in the dental corps, is "over there," and he pitched in this game.

Ed was on the slab for the Army nine, and he was opposed by Herbert Pennock, former southpaw of the Athletics and Red Sox. Pennock hurled the Navy boys to a 2 to 1 victory, in an interesting pastime.

Arlie Latham, old Giant performer, wrote the following story of the game for the Universal Service:

London, July 5.—John McGraw's New York Giants had nothing on us Americans over here when it came to celebrating the grand old Fourth of July. With the grandstand filled with royalty, we put on a show that was good enough for the New York Polo Grounds or any other ball park in the United States, and we did not have a regular baseball diamond on which to play, either! It was a football field.

As the greater part of the crowd was not equipped with opera glasses like Queen

Mary, and with their eyes really aching to see a ball game, they just naturally swarmed down on the field, and formed on the side lines. The goal posts were somewhat of an inconvenience and the field itself was built on a sort of a bowl-like pattern, which made it more or less inconvenient to play ball on.

Many of the Army and Navy lads were on the side lines to see the show, and, being schooled in the game, did not interfere with the playing.

There was plenty doing for me. I had to tackle the job of umpiring single handed, shake hands with King George before the game started and engineer the whole proceedings.

It had been all framed up for the King to throw out the first ball, but as the ground keeper had put some tennis netting up in front of the royal box, where the King was seated, in an antique gilt chair, the King wrote his name on the pellet and came down and handed it to me, while about a dozen photographers and movie operators gathered around.

Wilson Cross then introduced the King to Mims, the Army captain, and McNally, the Navy captain, and myself. He shook hands with all of us and then handed me the league baseball, which he had autographed, and which is to be sent to President Wilson. You know the original plan was to auction it off, but that stunt was called off because it wouldn't be according to Hoyle with royalty.

"I am delighted," King George said to me—just like Theodore Roosevelt, only he has a beard so you can't see his teeth—"to see Americans and English drawn so close together in national sport."

"We hope to make it international sport," I replied.

"How long have you played baseball?" the King then asked me.

"Forty years."

"What position did you play?"

"I played third base for thirty years."

"I have read a lot about you," continued the King. "I take a great interest in baseball. Recently I have been reading the sporting pages of your newspapers, forwarded to me by the Y. M. C. A., and have also been reading 'The Stars and Stripes.'"

My statement that I had played baseball for forty years evidently puzzled King George, for he then asked me how old I was, adding that he hoped he was not asking an impertinent question. I replied that I was 63, and he then said that I did not look to be over 35. He then went back

to his box so we could start the game, which was some affair, with emphasis on the some.

Both Lafitte and Pennock pitched a splendid game. Fuller was the real star. It was his batting that gave the Navy the victory by a score of 2 to 1.

GRID STARS WIN SPURS

Johnny Becket and Elmer Hall Made Lieutenants Gamma Zeta

Johnny Beckett and Elmer Hall, former well-known University of Oregon football heroes, who enlisted in the marine corps in 1916, have been commissioned second lieutenants at the marine officers training camp at Quantico, Va., according to information reaching Portland.

Beckett attained fame as a member of the University of Oregon 1916 football squad, which, under the watchful eye of Coach Hugo Bezdek, defeated the University of Pennsylvania at Pasadena, Cal., during the tournament of roses, New Year's Day, 1917.

Beckett is regarded as one of the greatest tackles in the country. Last season he captained the famous Mare Island marines eleven, which defeated all collegiate and independent teams on the Pacific coast and walked away with the Pacific coast grid-iron championship.

Elmer Hall, who was sent from Mare Island with Beckett to the Quantico training camp, is another graduate of the Eugene institution, where he was considered an apt student and a nervy football player. Hall enlisted with Beckett and was a member of the Mare Island marines football team last season. Hall hails from Baker, Oregon.—Spokane Spokesman Review, July 19, 1918.

RODGERS, GAMMA PI, NAMED CAP- TAIN OF NINE, THOUGH IN ARMY

Though these items are the same in content, you can see how country-wide fame travels.

Morgantown, W. Va., June 3.—As a tribute to West Virginia's great athlete, who is now in the service, Ira E. Rodgers today was elected captain of the 1919 Mountaineer baseball team. Although it is not anticipated that he will be here to lead the team before the war ends, it was a foregone conclusion that Rodgers would be captain of all three varsity teams at West Virginia in his senior year, so his teammates today decided to go through with the arrangement, although Rodgers already is in training at Camp Lee.—Pittsburgh Post.

Morgantown, W. Va., June 6.—Ira E. Rodgers, shortstop, has been elected captain of the West Virginia Baseball Team for next year. Rodgers is now in Camp Lee in the service and there is no likelihood that he will be here, but having made the greatest record of any mountaineer athlete in years he was given the honor, even though it was known he could not serve. Rodgers had previously been elected captain of football and basketball for next year at West Virginia.—New York Times.

FOOTBALL STAR IN MARINES Richard Hanley, Delta Iota

The photograph shows Dick Hanley, captain-elect of the Washington State College Football Team, in the uniform of the United States marines. Hanley enlisted with the "soldiers of the sea" about two months ago and since then has been stationed at Mare Island. He is in the northwest on a fifteen-day furlough scouting for material for the marines. Football material is what interests Hanley most and he already has succeeded in coaxing his brother, Leroy, and Mike Moran to enlist.

Hanley, who played on the Washington State College Team in 1915, 1916 and 1917, says that the marines will have a football team this year that will take the measure of anything on the Pacific coast. He contends that it will be even better than the great eleven led by Johnny Beckett last season.

THEY'LL GUARD THE GOLDEN STREETS

This is the famous Battle Hymn of the Marines, the song that inspires the Marines in every battle they fight.

From the Halls of Montezuma,
To the shores of Tripoli,
We fight our country's battles
On the land as on the sea.
First to fight for right and freedom
And to keep our honor clean,
We are proud to claim the title
Of United States Marine.

Our flag's unfurled to every breeze
From dawn to setting sun.
We have fought in every clime or place
Where we could take a gun;
In the snow of far-off Northern lands
And in sunny tropic scenes,
You will find us always on the job—
THE UNITED STATES MARINES.

Here's health to you and to our corps
Which we are proud to serve,
In many a strife we have fought for life
And never lost our nerve;
If the Army and the Navy
Ever look on Heaven's scenes,
They will find the streets are guarded by
THE UNITED STATES MARINES.

College Notes

American Council of Education.

Edmund J. James of the University of Illinois and one of the greatest of our college presidents, is state director of the committee on Student War Service of the American Council of Education, called a conference of educators at the Auditorium Hotel, Chicago, to urge the slogan among the young people, "Finish the High School, Enlist, and Go to College."

This conference was composed of representatives of all the colleges of Illinois, all normal schools, high school principals, representative city superintendents, county superintendents, agricultural directors, secretaries of Rotary clubs and associations of commerce.

The purpose of the conference was to push a wide publicity campaign to keep the young men in college until drafted and to close with a college enlistment day to be set apart by President Wilson.

Bethany College Receives Foreign Legacy

A very interesting bequest case has been decided favorably for Bethany College by the English House of Lords. It involved about \$15,000 and was made by the late Robert McDongald of Edinburg, Scotland.

Government Encourages College Enrollment

The President of the United States and the Department of Education have authorized a nation-wide campaign during the past two months on behalf of student enrollment in the colleges. This campaign has been conducted by the Emergency Council of Education, which represents all the educational associations of national scope.

No More Kultur For Us

Some one has well said, "There should be a century of disinfection before another American student enters a German university."

Undergraduates in War Service

In a recent number of the New York Times President Thwing of Western Reserve, has an article setting forth tabulations of 150,000 undergraduates who have gone into war service. The omission however in the tabulation of a number of institutions makes certain that the total number is much larger than this article states.

Howard College Endowment

The Rockefeller Foundation has just given \$100,000 to Howard College, Birmingham, Ala., to complete an endowment of a new department in the college of \$300,000. That will mean a great thing to our Iota Chapter. Howard is a grand old college

and will yet remain to make Sigma Nu appreciate the kind of Alumni we have from that college and Chapter.

All-Year-Round Courses at Brown

Staid Old Brown has yielded to modern industrialism and war-time pressure and has adopted a modified "Gary School Plan"—utilizing the college buildings and equipment every month of the year.

To quote its new bulletin "Brown University Reorganizes for the War":

"Brown University will become an all-year-round college when it opens in September, and will render it possible for students to complete their courses in three instead of four years, as a result of action taken by the faculty and Board of Fellows to make the university "not a pensioner, but a great and unique source of strength" during these war times.

"There will be three college terms, each of 16 weeks. The student during his first year will be expected to take courses largely prescribed, but planned to insure an early acquaintance with correct methods of doing college work, to open the eyes of the student to new interests and to help him decide upon his course of study in the subsequent college years."

The change will embody the announced conviction of the faculty that the old order of instruction should be materially altered to make the university more useful to the country in this time of unprecedented stress. Last year what is characterized as an "opportunistic" policy prevailed at Brown.

The main purpose of the changed courses is to emphasize the relationship of the classroom, workshop and laboratory to life, particularly life under present conditions. Every department, it is said, will conform its instruction to war-time requirements.

A new military department has indeed been in operation for some months, and one of the few naval units thus far planned for any American college will begin work in the fall. This does not mean that the so-called "cultural" studies will be abandoned or that there will no longer be any attempt to give the student a well-rounded college course. But it does mean that the way is to be cleared for him to select naturally affiliated subjects of instruction for himself and so prepare himself more fully for a successful after career.

Maryland College Faculty Enlarges

Ten new professors have been added to the staff of Maryland College for next year. Over 200 freshmen applications are filed at the registrar's office—all boys.

Novices in Chivalry

*"To believe in the life of love; to win in the fresh morning of our youth the loyal love of faithful friends, who will go with us unmoved into the darkening shadows of life's closing day; and so to seek and to find, to have and to hold the friendships that will abide. * * * And so to be true to the Knighthood of Love."—The Creed of Sigma Nu.*

A list of our initiates for the college year 1917-1918:

UNIVERSITY OF VIRGINIA

Beta Chapter

- 186 Expelled.
- 187 Bass, Percy Bruce, 3310 East Broad St., Richmond Va., October 15, 1917.

To You!

Don't wait for the other fellow to do it! Save wheat, meat, gasoline, paper, cloth, metals. Every worker or manager of workers can save not only in personal consumption, but in industrial waste.

It is every American's duty to help win this war.

Kindred Brothers

The Clayton Brothers

Theta

By THOMAS M. OWEN, SR., Theta

It is an interesting reflection that this Brotherhood contains on its rolls groups of brothers in the flesh, or by ties of kinship. An examination of the table of relationships which appears in the old fraternity catalogues is confirmatory of the appeal of Sigma Nu. There are more than one hundred groups of brothers, varying in num-

JUDGE HENRY DE LAMAR CLAYTON.

was the first to enter Sigma Nu, 1876, initiated in the first two years of the Chapter history, and therefore in a sense one of the founders. He was born February 10, 1857, near Clayton, Barbour County, Alabama, and is the son of Major-General

Junius Pugh Clayton
Theta

Judge Henry D. Clayton
Theta

ber from two to six. Theta Chapter perhaps leads in such relationships, its roster showing five Foster brothers, three Clayton brothers, three Lee brothers, and three Parker brothers.

Of these, whatever may be said of the others, there is no more interesting or splendid group than the Claytons, represented by Judge Henry DeLamar Clayton, 1876; Colonel Bertram Tracy Clayton, 1884, and Junius Pugh Clayton, 1888.

It is interesting to note another Kindred Brother in the person of a nephew, Maxwell W. Lippitt, an active man of Gamma Theta.

Henry D. Clayton and wife, Victoria V. Hunter. The father was of an old Georgia family, a graduate of Emory and Henry College, Virginia, a lawyer of distinction and a Major-General in the Confederate Army. The wife of General Clayton, and the mother of Judge Clayton, was the daughter of General John L. Hunter, a family of notable connections throughout the South.

Judge Clayton was prepared for college in the town of his nativity, entered the University of Alabama in 1876, and was initiated the same year. After graduation in 1877 with his bachelor's degree, he took

a law course, which was completed in 1878. He at once entered upon the practice in Eufaula, where he had a large clientele. In a political way he has had a conspicuous career, serving as a member of Local, State and National Executive Committees, a delegate to the National Democratic Convention of 1888; a member of the Alabama House of Representatives 1890-91, in which body he was chairman of the Judiciary Committee; was United States District Attorney, Middle District of Alabama, from 1893 to 1896; and a Democratic presidential elector, 1888 and 1892. He entered the larger field of national life as a Representative in the Fifty-fifth Congress, and served in each succeeding session through the Sixty-third Congress, and until his appointment May 2, 1914, to his present position as Federal Judge of the Middle and Northern Districts of Alabama. He was permanent chairman of the Democratic National Convention at Denver in 1908. When the Democrats came into power, he was advanced to the position of chairman of the Judiciary Committee of the United States House of Representatives, and his name is associated with the Clayton Trust Act, and other notable legislation.

Judge Clayton has been twice married: (1) to Virginia E., daughter of Major-General W. W. Allen, of Montgomery, Ala.; and (2) to Elizabeth, daughter of Samuel Marshall Davis, of Georgetown, Ky.

Of him O. O. Stealey, in his attractive volume, entitled "130 Pen Pictures of Live Men" (1910), says:

"This man would be prominent in any company, political or social, of which he was a member. He is not only gifted with intellect, but he has a force of character that will not be denied. Balzac says that one must propel himself through this life like a cannon-ball, or glide through it like a pestilence. Henry D. Clayton is the cannon-ball. The son of as gallant a soldier as ever led his division to the charge in the great war of 1861-65, and of a woman who might have been 'wife to Hercules,' as one will discover who reads her charming book, descriptive of master, or rather mistress, and slave during that trying period, entitled: 'White and Black Under the Old Regime.' Mr. Clayton is a Southerner of Southerners, and reminds one of the fig and the vine. He is a man on the threshold of the prime of life, and he is one of the leaders of his party in Congress, of which he has been a distinguished member seven terms. He is of a lawyer as well as a soldier race. His father was as able at the bar as he was intrepid in the field, and he is a nephew of that grand old jurist, James L. Pugh, who was so long a leading legal luminary of the United States Senate, second even to none in that body as a constitutional lawyer. Henry Clayton is a handsome and commanding man, as well as a forceful personality. He is a leader, too,

because of a marked individuality, a strong will, a clear conception and a powerful conviction of right. That would force integrity upon him if he were not so richly endowed with that attribute by nature as well as by environment. Indeed, his honesty is so blunt that sometimes the stranger, for a while, is repulsed by the candor and perhaps the dogmatism of his speech, but soon that charming personality sets all aright, and every one beholds in Mr. Clayton a man who strives to serve his country and who does serve it as God has given him the light to see his duty."

COLONEL BERTRAM T. CLAYTON

Whose tragic death in France on May 30, 1918, is fresh in the memory of the people of the entire country, was the second of the name to be enrolled with the Knights of the Legion of Honor. He was born October 19, 1862. His name appears in the Catalogue as initiated in 1884. He entered the University of Alabama in 1880, but before completing his course entered West Point, 1882, from which he graduated with honor in the class of 1886. The story of his life is told under "With Military Honors."

JUNIUS P. CLAYTON

The third brother, was born May 28, 1871; entered the University of Alabama in 1887; and was initiated in Theta Chapter January, 1888. He graduated in 1891, as Second Lieutenant on the battalion staff, and as treasurer and business manager of his class. The same year he was elected principal of the Geneva Public Schools; served as deputy clerk of the Circuit Court of that County 1892; again elected principal of the Geneva schools, and admitted to the bar for the practice of law in August, 1893. After practicing there a short time, he removed to Oklahoma and later to Arkansas. He is now and has been for a number of years in the active practice of his profession at Ozark. He is one of the most earnest supporters of the Government and a friend reports that he is a "terror" to slackers and disloyalists. On August 22, 1897, he was married to Jessie S. Hunter, of Muscogee, Okla.

MAXWELL W. LIPPITT

Sigma Nu Fraternity:

An uncle of mine, a Sigma Nu, who was a Colonel in the Ordnance Department, was killed by an aerial bomb last week. His name is Bertram T. Clayton, of the Alabama Chapter and the Panama Alumni Chapter. He is one of our highest officers killed so far. He is the brother of Brother Henry D. Clayton, U. S. Judge, also a Sigma Nu.

Faternally,

M. W. LIPPITT, Gamma Theta.
Thunderbolt, Ga.

Conventions and Rallies

GEORGIA BARBECUE ENJOYED BY SIGMA NU

Down Along the Old Savannah Road Soldiers of Sigma Nu Hold Miniature National Convention.—Exercise the Fish Before the Dinner.—Augusta Alumni the Hosts.

On two trucks, nicely bedded with straw, crawled thirty boys from Camp and city and started for Carmichael's Fishing Club for one of those famous Georgia barbecues. The ride out the famous Old Savannah Road with a stiff breeze ablowing, at once relieved our minds from the intense heat of the afternoon, and when we arrived at Carmichael's the coolness of that delightful spot charmed us at once.

First crack out of the box, some one wanted to exercise the fish in the pond and so the necessary fishing tackle was unearthed and out on the pond in the old flat boat went the ambitious Izaak Waltons. However, the fishing as far as catching anything went, was not a success, but Brother Bales attempted some aquatic stunts that was voted highly successful. Sitting on a cracker box he leaned too far to one side and backed off into the water, getting slightly moist for the rest of the afternoon. He hung himself up to dry and appeared O. K. for dinner.

But it was the dinner that got the boys. A genuine barbecue. We had heard of those famous dinners before landing in the State, but an opportunity to enjoy one never had presented itself. But through the generosity and hospitality of the Augusta Alumni of Sigma Nu, the boys at camp were given the chance of their lifetime. I cannot describe that meal, but oh, boy, she was a jim dandy. Eat—say, we cast reflections on the mess sergeant of every company represented. Everything was good, new to our palates, and abundant.

Hon. Samuel F. Garlington acted as the official toastmaster. Speeches were not indulged as the diners were too full for utterance, but several stunts were pulled off that got the boys. In the first place there was a nice, ice cold keg of "Queen" on tap—the Augusta Beverage Co.'s famous drink. Around that keg many of the bar-flies hung. The novelty of the flowing bowl—the drink that exhilarates but does not intoxicate—attracted everyone. Then the waiters continually replenished

the mugs with the "liquid food" so that no one suffered from a parching thirst.

A census was taken of the men present and from the thirty men who were at the dinner, 23 different chapters were represented, the men hailing from nineteen different States. It looked like a national convention.

Too soon we had to leave for camp. We could have stayed there forever, it seemed. But back to camp we had to go. So with long "Hi Rickety" for the Augusta Sigs, we boarded the trucks and were soon back in dear old Hancock.

The following were present:

Lieutenant H. M. Gillespie, Co. 5, C. O. T. S.
Lieutenant G. L. Sears, M. G. T. S.
Lieutenant J. S. Boughton, Co. B, M G. T. S.
Ed. E. Neill, Co. A, O. S. S.
C. V. Austin, Co. E, O. S. S.
R. L. Fitts, Co. A, M. G. S.
R. G. Sterling, Co. A, O. S. S.
J. P. Fleming, Co. A, M. G. S.
H. T. Ross, First Co., 5th Bn. 1st Regt.
W. R. Primm, Co. A, O. S. S.

DELIGHTFUL DINNER FOR SIGMA NU

Members of Fraternity at Camp Hancock Made Merry at Lenwood

The members of the Sigma Nu Fraternity who are now located at Camp Hancock gathered at the Lenwood Hotel one evening recently, where they again renewed old time acquaintances and talked about the days when the gang about the "House"

made things hum on the campus. The boys were largely from the West and Middle West, just a sprinkling of fellows from the "effete" East. And I guess we will have to hand it to those lads from the West. They sure did pull off the dinner in great style. Many of the men in camp who are "Sigs" could not be reached because the date for the dinner was arranged on so short a notice, but the next affair will be given more lengthy advertisement.

Lieutenant Gillespie acted as the toastmaster and his delightful manner in handling the stunts of the evening doubly added to the pleasure of the occasion.

Any Sigma Nu in camp who has not been reached and who will drop a card or visit Army Y. M. C. A. 79 and ask for F. R. Hean, will be put next to the Sigs who are in camp.

SIGMA NU, IN KHAKI NOW, AT FRATERNITY FEED

The members of the Sigma Nu Fraternity who are now located at Camp Hancock gathered at the Lenwood Hotel on Wednesday evening, June 26th, where they again renewed old time acquaintanceships and talked about the day when the gang about the "House" made things hum on the campus. The boys were largely from the West and Middle West, just a sprinkling of fellows from the "effete" East. And I guess we will have to hand it to those lads from the West. They sure did pull off the dinner in great style. Many of the men in camp who are "Sigs" could not be reached because the date for the dinner was arranged on so short a notice, but the next affair will be given more lengthy advertisement. Lieutenant Gillespie acted as the toastmaster and his delightful manner in handling the stunts of the evening doubly added to the pleasure of the evening.

Naturally the gang had to "bust" into songs—and the good old stuff that used to make the House reverberate was again hauled forth from memory's storehouse. Of course the toastmaster had to call on the silver-tongues and from the sunburnt lips of the Khaki Brothers poured forth the humor, pathos and reminiscence that has been preserved from Fraternity dinner to Fraternity dinner.

M. G. Batley of Oregon State opened her up with a rattling good talk. His journeys into the days when he was a freshman and comparing them to these days when he is, as he said, "an acting buck private," set the gang off into howls of delight.

A. J. Schweers followed with a short talk that made the hit of the evening. And this is why. He said that if on Sunday afternoon at 4 p. m., July 7th, the boys would meet at the Administration Building of the Army Y. M. C. A., corner of Wrightsboro and Whelless Road, he would provide trucks to haul them out to Carmichael's Fishing

Club, where a great old Georgia meal would be served. That suggestion just about hit everybody in the right place. And, by the way, any Sig whose identity in camp is still a dead secret, wants to let Hean of Army Y. M. C. A. No. 79 know where he is hiding. To miss the party for July 7th is to miss the time of your young life.

Joe Herman of Augusta naturally invited the entire crowd around to his home any time at all. If the Sunday morning breakfasts don't suit you, just hop a jitney and travel down to Joe's home and he promised to fix you up in a style that would make you come again.

F. R. Hean urged the fellows to scout around and line up any Sig that might be lurking in the sticks. The more we have on our correspondence list, will make the stunts to be pulled off all the more successful. He was appointed the secretary, as it were, of the Army Sigs in this Camp, and he would appreciate the names and addresses of any Sigma Nu not listed in the following names. Call, phone, or drop a card to him at the Army Y. M. C. A. No. 79.

Lieutenant Gillespie closed the feast of "reason" with an inspiring talk and the dinner was brought to a close in plenty of time to hit the camp before taps.—Trench and Camp (Camp Hancock, Augusta, Ga.).

FORT SHERIDAN MEETINGS

Dear Brother Dunlavy:

The boys who attended the R. O. T. C. camp at Fort Sheridan were for the most part men who will return to school next year, and were not in the regular service, but were sent to the camp at the expense of the Government. I happen to be enlisted in the Aviation section, flying, however, and am waiting call to ground school.

The organization we effected while at Sheridan was not very strong, because we could get together so seldom, but we accomplished more, I believe, in the way of getting together, than most of the fraternities—I might say "any other." The first Sunday of the camp we had a gathering down on the beach of twenty-eight men. The second Sunday meeting thirty-two came around, and the third Sunday we threw our dinner at the Moraine, which was a splendid success. Warren Piper was kind enough to come out and I'm sure he deserves a lot of thanks. We couldn't have done without him. He gave us a short talk which was very much to the point and I am sure made every man think—about the Fraternity in war time. We also heard from Brother Brewer of Beta Kappa, and what he had to say about fraternity spirit and sticking to school will long remain in my own memory.

On the whole, we certainly accomplished something by our meetings. Outside of the pleasure of mixing with such a splen-

did bunch of men, a direct benefit to the Fraternity will be the result of the acquaintanceships formed there.

I might ask you to put a small notice in the Delta that those who failed to get their copies of the picture may get them by sending sixty-five cents to Brand, Photographer, Highland Park, Ill.

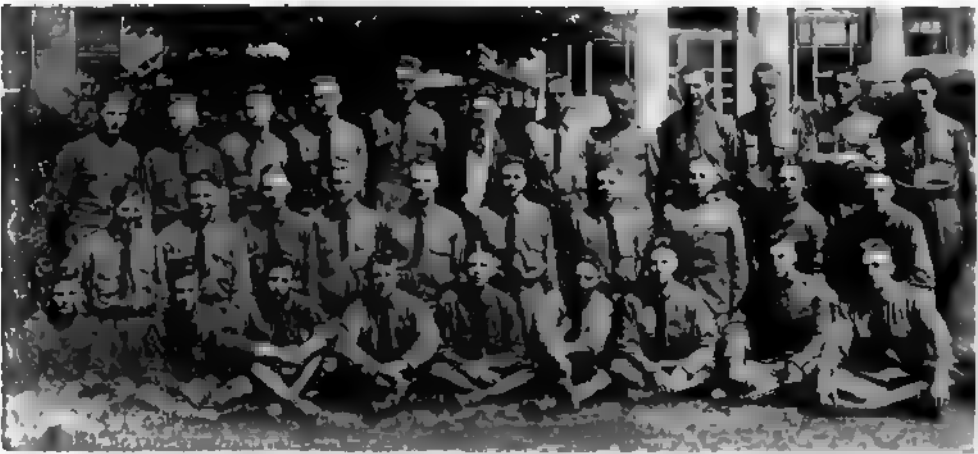

The boys out at Fort Sheridan now are getting together in some way, and I shall see that they keep in touch with you in regard to activities.

Sincerely and fraternally,
H. A. PHILLIPS, Gamma Lambda.
Chicago, Ill., July 31, 1918.

how they got started, and about the inexpensive banquet because at that time of the year the finances of each man were pretty low.

That letter makes us all who are active members, glow with pride that we are Sigma Nus. How can we help but go along and improve with such loyal Alumni backing us up? Such deep interest as our Alumni have in us makes us want to do all we can for Beta Iota to keep her on top.

Several new Brothers are anxious to meet their Alumni Brothers and become better acquainted. We are counting on your love of the Fraternity to bring you back again.—Beta Iota Bulletin.

Sigma Nus at Fort Sheridan Training Camp
Taken at Dinner, Moraine Hotel, Highland Park, Illinois

BETA IOTA ALUMNI BANQUET

Since 1892 the Beta Iota Chapter of Sigma Nu has held a banquet at the end of the school year to make it a fitting climax of the year's work. As the years rolled on and new men came into school and those with the right stuff in them became Sigma Nus, our number of Alumni increased so that now there is enrolled on our record about 280 men. These yearly banquets became to be banquets for the Alumni members, so that at least once a year they could come back to the old Fraternity and renew friendships that were gained by the golden tie that binds.

This week we received a letter, a fine one, too, from one of our founders, Edmund Lee Nicholson, who is now in Argonia, Kansas. He is sorry that he cannot get here for the banquet and he goes on and wonders how it will compare with the first one that was held in 1892, with the nine founders and Past Regent Walter J. Sears present. That was the night they became Sigma Nus and this Chapter was given its name. Brother Nicholson tells

EAST AND WEST MEET

At Camp Hancock, Ga.

By an Eastern Sig.

Especially noteworthy is the fact that from such a group of men as assembled last week, the large number of Chapters and various States were represented. I assure you it quite a pleasure to meet men from the far West from Chapters I had heard so much about and get first-hand what the Western Sigma Nu is doing.

When the 28th Division were here in camp, the Sigs were made up almost entirely of Eastern boys, particularly from Pennsylvania, but now the entire country has representatives in this camp.

I notice that the Western Sig does a heap more singing than the Eastern Sig. He knows more songs and is able to sing them. We fellows from the East just have to tag along when the song-fest commences. Too bad that such a condition exists. We sure are lacking in not having a National Song.

Fraternally,

FRANK R. HEAN, Beta Rho,
Secretary, Y. M. C. A. No. 79.

The Alumni

DUTY CALLS ASSEMBLYMAN

Hon. H. D. Williams, Gamma Theta, Enlists
in U. S. Marine Corps

Leaves for Paris Island Soon

Assemblyman in First District Places Appeal of Uncle Sam Above Politics and Joins Branch of Service Which Has Won Fame on Battle Fields of France—Enlistment a Surprise to His Many Friends.

Greater than the call of politics has come the appeal of Uncle Sam to Assemblyman Henry D. Williams of the First District of Oneida County. This popular and well known local attorney has enlisted in the United States Marines, and he will leave for the marine training station at Paris Island, S. C., in the very near future. This announcement will come as a surprise to his many friends in this vicinity, for in spite of the rumor that he was to enlist in the army there has been no official announcement on the assemblyman's part that he had decided to postpone a political career in order to do his full bit for this country in the ranks of the United States Marines. He is enlisting as a private, but it will probably not be very long before his capability is rewarded by his advancement to a higher rank. While he has not as yet been sworn into the service there is little or no doubt but that this will be done within a week or ten days, for he has passed all requirements.

Assemblyman Williams applied at the local Marine Corps recruiting station in the Mann Building about a week ago, but as he had certain important matters to settle before leaving he did not wish his enlistment made public. Sergeant W. E. Cooper, in charge of the station, was, of course, greatly pleased to sign up such a distinguished resident of the city. Mr. Williams has been a member of the Republican party since the time when he was first able to vote, and since then he has been one of the leaders in the work of the party here. He is a resident of Utica and has made this city his home for the greater part of his life. He was educated in the local schools, and is a graduate of Cornell University. After graduating he entered the office of Charles G. Irish. Later he practiced law for himself, and soon became one of the leading attorneys of the city. He is the son of Henry R. Williams, vice-president of the First National Bank, and is in the prime of life. For some time he has been a member of the Republican Club, and has

as a true friend every member of this club. They, along with many others wish the patriotic assemblyman the best of luck in his venture.

Before the draft, Assemblyman Williams enlisted in the Officers' Training Camp at Madison Barricks, but due to an attack of appendicitis at that time was unable to train at the school. Following his recovery he continued his efforts to enlist with the result that he is now, or soon to be, a regular member of the United States Marines.

The enlistment of Mr. Williams is another proof of the fact that this country is wholeheartedly back of the war, and that young men from every walk and station of life are willing and ready to take part in the great work of making the world safe for democracy. While the whole community will feel keenly the temporary loss of one of its prominent citizens, Utica is proud that another of her sons has entered the service. Mr. Williams has the approval of every patriotic Utican in the step which he has taken, and on his return he will be warmly welcomed.—Utica, N. Y., Newspaper.

WAR CHANGES FOR RHODES SCHOLARSHIPS

New Honor for Frank Aydelotte, Beta Eta

Changes, both temporary and permanent, in the organization of the Rhodes scholarships were discussed by Dr. George R. Parkin, organizing secretary of the Rhodes Trust, just before he started back to England a few days ago, after a long tour among universities and colleges of America.

"The trust has found it advisable to postpone all new elections to the scholarships till the end of the war," he said, "not only in the United States, but in all the British colonies from which scholars are drawn. The university life of Oxford has been so broken up by the almost universal acceptance of military service by the students that scholars from abroad cannot get from it what they do in normal times.

"Besides this, in all the United States and the dominions men qualified to compete for scholarships are qualified to become soldiers and ought to do so, hence elections have to be deferred till the war is over. The postponed scholarships will be filled up as soon as circumstances permit, and in the meantime the usual quali-

fying examinations will be held in October in any State where candidates present themselves if due notice is given."

It is probable that as time goes on ex-Rhodes scholars in America will be asked to take a larger part in the work of choosing new scholars. In the meantime Dr. Parkin has arranged for the appointment of an American secretary, to have charge of general American interests of the Rhodes Trust.

This position has been accepted by Frank Aydelotte, professor of English in the Massachusetts Institute of Technology, who was a Rhodes scholar from Indiana from 1905 to 1908. He studied at Indiana University and at Harvard, and is the author of a number of books, including "The Oxford Stamp," a collection of essays on English university life.—New York Times.

ANGELL, DELTA GAMMA, MAKES RECORD FOR BIGGEST MONTH

Last month was the largest May, as far as memberships and financial returns from memberships are concerned, that the Baltimore Y. M. C. A. has known in four years. May is generally the best month of the twelve in the matter of getting new members and renewing expired membership cards and this last May has eclipsed all others.

Beginning last January the Y. M. C. A. has been on the gain, though at first it was believed that the war would interfere with getting new members. Instead of interfering it seemed to help.

In explaining the increase in membership, Norman H. Angell, membership secretary, said: "Baltimore men are realizing that they must prepare for the days ahead, so that when they are called to the colors they will be physically ready."—Baltimore (Md.) Star.

CHARLES STUART STRAW, BETA RHO, APPOINTED SECOND ASSISTANT PROSECUTOR OF CAMDEN COUNTY

Strong character seldom fails to select its pathway in the direction of honor and usefulness for which its talents are best adapted, and this fact has been often illustrated in the lives of men who have eminently succeeded to their own satisfaction, as well as to the necessary advancement of the integral interests of society, as may be found in the active legal career of Charles Stuart Straw, Esq., a prominent and influential member of the New Jersey Bar, who was honored several days ago by an appointment as Second Assistant Prosecutor of Camden County. Mr. Straw's appointment to the place in question was an eminently fitting choice of a man especially qualified by wide legal training and experi-

ence, and he will undoubtedly discharge the duties and responsibilities devolving upon him in a capable, intelligent and praiseworthy manner.

Second Assistant Prosecutor Straw is a son of the Rev. C. W. Straw, D. D., Superintendent of the North District of Philadelphia Conference of the Methodist Episcopal Church, and is a man of many fine qualities of personal character. He studied law in the offices of Judge Lewis Starr and the late Judge John G. Horner, applying himself with diligence and zeal, and supplemented this excellent instruction by a further course of study at the law school of the University of Pennsylvania, from which he graduated in 1914 with the degree of LL.B. While a student at the above institution he was president and manager of the University of Pennsylvania Combined Musical Clubs, a member of the Wilson Law Club, Sigma Nu Fraternity, Philinathian Society and the Navy Club.

At the present time Mr. Straw is first lieutenant and adjutant of the Camden Battalion, State Militia Reserves; chairman of the Associate Legal Advisory Board of the Third City District of the Camden Draft Board; chairman of the Fourth District City Gardens Committee, of Camden, and a member of the First Methodist Episcopal church, of Camden.—Philadelphia Journal of Commerce, March 23, 1918.

HOWARD L. BRIDGES Xi

Mrs. Howard L. Bridges and two children, Miss Leonna and H. L. Bridges, Jr., of Leesville, S. C., are the guests of Mrs. Russell Bridges, at 145 Penn Avenue. Mr. H. L. Bridges, who left for France last August to take a responsible position with the American Red Cross, spent the winter in Paris, but is now in London, having been promoted to the position as general accountant, and will visit all the Red Cross headquarters "over there," systematizing the books.—Atlanta Constitution.

The above clipping discloses the whereabouts of Brother Howard L. Bridges, of Xi Chapter. He comes from a family of Sigma Nus, and was connected with his brother, S. R. Bridges, also a well known and enthusiastic Sigma Nu, in the management of the Alkhest Lyceum System, located in Atlanta, Ga., before his entry into the war work of the Red Cross. Four of the Bridges brothers are Sigma Nus, H. L., B. L., E. L. and S. R. Bridges, all of Xi Chapter, Emory College.—W. L. Kemp.

PROFESSOR CROSSLEY TO LEAVE Delta Lambda

The student body of Wesleyan will hear with regret that Professor Moses L. Crossley, Ph. D., associate professor of chem-

istry, has resigned from the Faculty and will not return to his chair next year. Professor Crossley, who has enjoyed no small popularity and esteem among Wesleyan men ever since he came to the University in 1913, has accepted the position of Director of Research for the Calco Chemical Company at Bound Brook, N. J. He will also be associated with the Yale Chemistry Department. Professor Crossley is a Fellow of the American Association for Advancement of Science, the American Chemical Society, and the Eighth International Congress of Applied Chemistry. Although his going is a distinct loss to Wesleyan, his talents will find a merited success in the wider industrial field.—Wesleyan Argus.

HARRY L. HOPWOOD

Alumni Day Chairman, Beta Nu

No account of the Alumni Day ceremonies would be complete without some mention of the genial and gentle general chairman of the occasion, Harry L. Hopwood, '07, and his indefatigable efforts to make the day a success.

Columbus people do not need any introduction to Harry Hopwood—nor do many Ohio State University people. They know all about him, for if there is a Liberty Loan to be floated, a Community War Chest drive, a Red Cross or a Y. M. C. A., or any other kind of campaign his team is always in the lead and HE is the LEADER. He has a way with him. YOU KNOW!

Harry is an industrial lawyer—when he isn't on some sort of campaign or drive—and owns a section of those elegantly appointed offices in the new First National Bank Building, dedicated to the Ohio State firm of Doud, Crawfis, Bradford and Dones. He started to work for Alumni Day sometime early in April. He organized his committees, kept open house for them in his office, dictated hundreds of letters, had the telephone going day and night, rounded up fellows who hadn't been back to the campus since they graduated, bagged several new members for the Association, talked reunion at the Athletic Club and elsewhere and finally had the crowd coming this way. Between whiles he said good-bye to the State boys at Camp Sherman, leaving for the trip overseas, watched over the welfare of the Sigma Nus, to whom he is alumni adviser, and superintended the thousand little details that go to make up a great occasion.

Nor did he once lose his temper or his smile or his optimism. He gave his time, himself, his money, and enjoyed doing it. Harry Hopwood does not expect thanks. He does things just for the love of doing them.

Hats off to him, everybody! May he live long and prosper!—Ohio State University Monthly.

CONGRESSMAN BLAND, BETA ETA, TELLS OF VISIT TO FRANCE

Oscar Bland, a member of congress from the Fifth Indiana district, at an open air meeting here, said that the American soldiers who have been wounded and are being cared for in hospitals in France are receiving the best medical attention it is possible to obtain for them and that the American soldiers are in Europe to stay until Germany has been subdued. He asserted that he would never cast a vote for any peace that would leave the kaiser in a position to renew the war in future years. Mr. Bland returned from France recently and in his talk here he described conditions as he found them in the fighting zone.—Indianapolis News.

FROM AGATE TO ZINC

Henry D. Clayton, Theta

When I was Democratic Minority Leader, Representative Henry D. Clayton, subsequently chairman of the great Committee on the Judiciary, now a Federal Judge, gave out a flaming interview declaring that he would offer a substitute tariff bill covering every item from "Agate to Zinc." The last three words were winged words, and were headlined in every newspaper in the land, and this interview reached into the remotest corners of the country. The papers hammered on it until a great uproar was created—in fact, a perfect furore, outside of Congress—and a vast volume of talk in Congress. It was the resounding theme of every tongue. Of course the thing was unheard of till then.

I hope that my illustrious friend, Judge Henry D. Clayton, may live many years full of happiness and prosperity, but if he reaches the age of Methuselah and is interviewed every day the chances are a thousand to one that he will never utter any three words which will be so widely quoted or create such a hubbub as did "Agate to Zinc."—Champ Clark's Autobiography in Hearst's Magazine.

HOME, SWEET HOME

The first thing War Correspondent Lyon did after leaving ship in New York was—report to his office? No.

He drank two chocolate ice cream sodas!

The second thing he did was—telegraph his wife? No again.

He went into a restaurant and drank three glasses of milk!

"The first I've had since I put foot on French soil," said Lyon.

Then he filled his pockets full of good old American cigars—the French smokes are something awful, he explained—and within an hour both his wife and his office knew he was back.—Columbus (Ohio) Citizen.

Alumni Chapter Letters

AKRON ALUMNI CHAPTER

The Akron Alumni Chapter activities have been rather curtailed, due mainly to the inroads the war has made upon our members. The meetings have been abandoned during the summer months. We intend to resume our meetings this fall, hoping to have enough of the home guards to warrant us holding our monthly meetings.

Brother Frank W. Fox, Delta Zeta, with the Goodyear Tire and Rubber Company, and Brother Jones, with the B. F. Goodrich Co., are two new Sigs to join our fold.

Brother Frederic J. Wenk, Gamma Rho, and Reginald F. Kitchingman, Gamma Lambda, have received their call and are located at Columbus, Ohio.

W. W. SCHALLER, Secretary.

1009 W. Exchange St.

Akron, Ohio, August 12, 1918.

BALTIMORE ALUMNI CHAPTER

You will be glad to hear that Past Regent I. P. Robinson left Baltimore on July 5 for war service in this country. Although he was beyond the usual age for appointments, he offered his services from a spirit of patriotism to the Government. In the last week of June Surgeon General Rupert Blue telegraphed Brother Robinson to come to Washington for an interview. The Government needed at once a specialist at the State Industrial Farm at Leavenworth, Kansas. The interview was so satisfactory that the appointment of Acting Assistant Surgeon in the U. S. Public Health Service was given Brother Robinson. He returned to Baltimore, at once closed his office and responded to the call of the Government. His present address is, care Post Office Bldg., Leavenworth, Kansas.

Professor Roy Foley of Colgate University and I spent the Fourth of July at the Edgewood Arsenal, Edgewood, Md. Professor Foley is giving his vacation for Y. M. C. A. work in the camps around Baltimore. At Edgewood all the "gas" is made. It is a camp where very few visitors come. The boys at this place had a big athletic field day which Professor Foley and I tried to run off. We were invited to dinner at Mess B. At the close of it a splendid Sigma Nu introduced himself to me. He was Brother A. E. Webster, of our Syracuse Chapter, and who, by the way, was Commander of his Chapter last year.

In the different camps around Baltimore we figure that we have over eighty thousand men. Naturally a large number come to Baltimore on leave. Of this number one is sure to find a few Sigma Nus. Last week

I had the pleasure of meeting Brother Leslie J. Bosworth in our "Y" building here.

Brother Bosworth comes from Manley, Iowa, and is a member of our Gamma Lambda Chapter. He is stationed at Camp Holabird, Md.

I also hear that there is another Sigma Nu at this same camp, Brother Carl M. Aldrich, Delta Eta, though I haven't had the pleasure yet of meeting him.

Faternally yours,

NORMAN H. ANGELL.

July 21, 1918.

CLEVELAND ALUMNI CHAPTER

Albert S. Allen, alias Si Allen, has migrated to Washington, D. C., his address being 1106 Thirteenth Street.

Arthur Carr, Beta Iota, who formerly taught at South High, is now in Alliance, at 522 South Arch Street. I don't know what he is doing.

Carl Jacobsen, Delta Alpha, is now located in Madison, Ohio. Occupation ditto.

Carl B. Jones, Delta Zeta, is now in Girard, O.

J. F. Taddiken, Beta Phi, has left us. He stole a march on everybody, got married and "beat it." I had a letter from him stating that he was in San Francisco, still working for the National Sugar Refineries. We miss him, as he was a good, faithful worker. We must give him a lot of credit for his work in financing the Grand Chapter.

H. L. Cornelisen, Beta Zeta, has left us. His address is Bulletin Bldg., Philadelphia, Pa.

The following are new additions to our Honor Roll:

"Dad" Clark, Delta Zeta, Naval Reserves.

R. C. Floyd, Beta Upsilon, was only with us a short time.

Byron E. Jackson, Epsilon, is an aviator, at present at Armorers School, Wilbur Wright Field, Fairfield, O.

Robert N. Smith, Gamma Kappa, died after a short illness—pneumonia got him. About a dozen of us attended the funeral. He left a widow and one small child, I believe. Smith was a real Sig, a plugger, and, believe me, we feel his loss keenly.

I heard yesterday that Corporal Russ Pease, Delta Zeta, is "over there." He is what they call an "obstacle man."

Just learned Fred Snell, Delta Alpha, has received commission as first lieutenant in Quartermaster's Department of Construction. He will be stationed at Camp Sherman.

MILES E. EVANS, Secretary.

July 10, 1918.

DENVER ALUMNI CHAPTER

Regular meetings have been discontinued throughout the summer months. Special noonday luncheons are held frequently on the call of the secretary, Brother P. S. Jolley. Brother Jolley's address is 411 Symes Building, Denver. Phone Main 833, and all visiting Sigs are particularly requested to communicate with him.

Inspector Williams advises that the Colorado Chapters are in good condition as regards the past year, and plans are being made to help out more than ever during the coming season in order that they may all be recruited to proper strength to enable them to carry on the work in the proper manner. At some of the schools plans have already been made by some of the fraternities to combine two at least in one house. It has not as yet been thought necessary to consider this as regards our own Chapters.

Brother O. S. Fowler is, as usual, leading the list on fish stories (and actual fish) for the season.

Brother A. F. Krippner seems to be finding plenty of business excuses for extended trips throughout Colorado and adjoining States in his Packard roadster.

Brother P. S. Jolly is the very proud dad of a fine daughter, just arrived.

Denver Alumni are looking forward to Brother Dunlavy's promised visit this fall and an effort will be made to give as many as possible an opportunity of meeting him.

Business conditions in this section remain very good; very few loafers and many producers. With our coal mines, metal mines, extensive agriculture and manufacturing, in all of which our Brothers are widely represented, we feel that we are trying to do our share in the production of material and food for the winning of the war.

O. S. MOORE, Secretary.

HARTFORD ALUMNI CHAPTER

The first Alumni Chapter of the Sigma Nu Fraternity in the State of Connecticut is now organized and ready for service.

The officers of the Hartford Alumni Chapter are as follows: President, Graham H. Anthony, Beta Tau; Vice-President, Edwin B. Judd, Delta Beta; Secretary, Raymond H. Segur, Delta Chi; and Treasurer, Edward C. Marsden, Gamma Delta.

Two of our Charter Members, Brothers Brand and Francis, are now in our country's service, while Brother M. L. Crossley has resigned from the Wesleyan faculty to enter the industrial field.

We feel that we are especially fortunate in having a collegiate chapter at Trinity. This will give us an opportunity to mingle in the life of a chapter house and should

be of advantage both to us and to the members of Delta Chi Chapter.

The Chapter would be glad to welcome any Sigma Nu at its monthly dinner at the University Club, 30 Lewis Street, on the second Wednesday of each month, at 6 o'clock. We do most cordially invite all brothers who are living in this part of New England where Sigma Nu is comparatively unknown, to affiliate with the Hartford Alumni Chapter.

RAYMOND H. SEGUR, Secretary.

MONTGOMERY ALUMNI CHAPTER

The Montgomery Alumni Chapter has not been particularly active in recent weeks. However, its members have been doing their full part, not only in their usual avocations, but also in all forms of war activity. It should be a cause of lasting congratulation to all loyal Sigma Nus that so large a proportion of the membership of the Legion of Honor is represented on the rolls of the great armies of Democracy. How my heart swelled with pride at the news that every Chapter had already given a large percentage of its membership, and that in many cases the percentage was greater than that of any other Fraternity.

We can all now more fully grasp the value of the spiritual and patriotic teachings of our noble Order. While appreciating the personal and social values of Sigma Nu, for one I have always given the first place to the high ethical and civic ideals inculcated.

Every Sigma Nu a Friend and Brother, how splendid the appeal! Every Sigma Nu a Patriot, how much more compelling and wonderful the challenge!

While scores of Sigs are in uniform and are fighting under the immediate inspiration of the flag, on the Western front and elsewhere, or are in training camps preparing for overseas service, either in the field or in the air, there are many others who from age or other disqualifications cannot share in that form of service. They, however, are not unmindful of the opportunity for activity in a civic way, and they are found leading in Red Cross, Y. M. C. A., Y. W. C. A., Liberty Loan, Food Administration, secret service, library and other campaigns, cheerfully giving time and treasure toward winning the war.

General Activities

Of our Chapter there is no one who is doing more toward stimulating a loyal support of the Government, in encouraging obedience to law and order, in ridding the country of slackers and in a general support of all Government policies than Judge Henry D. Clayton, a sketch of whom will be found elsewhere in this issue. Camp

Sheridan, located at Montgomery, has brought within his jurisdiction large numbers of men in uniform, who have not yet been naturalized. These have been formed by Judge Clayton into classes, and formal ceremonies of naturalization have been conducted by him in a most impressive and dramatic manner.

Another member of the Chapter, Judge Ben P. Crum, is active in all war work, and he is now serving as President of the Bankhead Club, which is engaged in the patriotic task of re-electing Hon. John H. Bankhead, senior Senator from Alabama, to the United States Senate. Senator Bankhead has been in public life in Alabama almost fifty years, thirty of which he has been either a Representative in Congress or a member of the Senate.

Judge E. Perry Thomas, Assistant District Attorney of the L. & N. Railroad, is now, by virtue of Government control, one of the trusted servants of Uncle Sam, and, apart from his regular duties, he is doing everything possible by way of assisting the Government in meeting the immense problems of transportation.

W. Temple Seibels is a candidate for re-election as Solicitor for the Fifteenth (Montgomery) Judicial Circuit, in the primary of August 13, 1918, with every show of success.

Floyd Powell has left Montgomery, at least temporarily, and is now located at Dothan, Ala. He represents the Reliance Life Insurance Co.

Stuart May and Feagin Rainer more than a year ago purchased the confectionery business of Duncan May, which they conducted for some months. Later they dissolved, and each is now at the head of separate establishments, and each is enjoying a high degree of prosperity.

Eason Cook, on the death of his father, left the jewelry establishment of Leo Klein, and took over the management of the large planting and stock raising interests left by his father.

Eugene Reid and James Wade, both undergraduate members of Beta Theta, are on the road this summer with the Redpath Chautauqua, the former as cashier and advance agent, and the latter as property manager.

Joe Frank Lassiter is now employed in Government work at Akron, Ohio.

Representation in the U. S. Army

The Chapter has a fine representation in the United States Army. General R. E. Steiner continues in command of the 62nd Brigade, 31st (Dixie) Division, at Camp Wheeler, Macon, Ga. Brother Steiner ranks very high in army circles. His previous training as a lawyer has specially fitted

him for handling problems of army organization, and his advice is constantly in requisition by the Division with which he is associated.

Roy Cox, located at Washington City for some years in the office of Louis L. Jeffries, General Counsel of the Southern Railway, after a law course in the George Washington University, located at Mobile. Responding to the call to the colors, he was assigned to duty at Camp Sheridan as an army field clerk. He is one of the most accomplished office men in the army, and much of the completeness of the organization of headquarters at Camp Sheridan is due to his experience and skill.

Harwood Bowman has recently completed a special course, with high honors, at Fort Sill, Okla., and has been promoted to First Lieutenant, 117th Field Artillery, at Camp Wheeler, Macon, Ga.

Henry C. Meader, a Lieutenant in the 307th Field Signal Battalion, American Expeditionary Forces, is somewhere in France. His mother in Montgomery has advices of his safe arrival and good health.

Thomas J. and George G. Miles, brothers, are in uniform, the former in training at the Reserve Officers' Training Camp, Camp Taylor, Louisville, Ky., and the latter as a Sergeant in the 113th Aero Corps, Aero Supply Department, Middletown, Pa.

Forbes Yarbrough, still a member of Iota, is in the Reserve Officers' Training Camp at Camp Taylor, Louisville, Ky.

The gratifying news has been received by relatives that Lorenzo F. Woodruff (Fuzzy) has arrived safely in France.

Thomas M. Owen, Jr., recently transferred to the 313th United States Cavalry, with his old rank as First Lieutenant, and stationed at Del Rio, Texas, is now on temporary detail at Camp Perry, Ohio, in attendance upon the School of Instruction in Small Arms.

State Service

The Chapter has the following representatives at the State Capitol: Ormond Somerville and Lucien D. Gardner, Justices of the Supreme Court; Graff J. Hubbard, Adjutant General; Lawrence H. Lee, Reporter to the Supreme Court and Court of Appeals; Judge Charles E. McCall, Chief Examiner of Public Accounts; and Dr. Thomas M. Owen, Sr., Director, Department of Archives and History.

It has been the policy of Montgomery Sigma Nus to cooperate with all active Chapters by bringing to their attention the names of desirable young men preparing for college from year to year. It is believed that the number of worthy young men who will apply for admission to higher institutions of learning this year will not fall short of previous years, notwithstanding

the large demands for all forms of service both under arms and in agriculture and industry. The policy of the Government in giving preference, other things equal, to men of college training and equipment, has served to emphasize the importance of such training, and young men are showing their appreciation of the significance of this action on the part of the Government by a determination for better equipment for life through our higher educational institutions. Plans have already been projected for securing the names of all young men who will leave Montgomery this fall, and they will be advised as to the high claims of Sigma Nu.

THOMAS M. OWEN, SR.

July 25, 1918.

NEW YORK CITY ALUMNI CHAPTER

On Tuesday evening, July 11, the New York Alumni Chapter had the pleasure and honor of entertaining the members of the High Council, who were holding a meeting for the first time east of the Alleghenies. After a reception and informal dinner at the International Geneva Club, at 143 West Forty-fourth Street, we began to absorb some of that Sigma Nu Spirit and even though we thought we had a pretty full system we soon found that we had room for lots more. We hope that the High Council will see fit to favor us with another visit in the near future.

Since our last letter our Treasurer, Brother Edgar Rogers, Gamma Theta, left to accept a position in Washington. Brother Samuel Ketchum has been elected to fill his place.

Brother Kobak, our Secretary, also left for a permanent residence in Chicago. He worked wonders during the short time he was Secretary and we were very sorry to see him go. Brother Ralph E. Sawyer was elected to fill the vacancy.

Brothers Lane and McCormick, both of Delta Gamma, recently commissioned at Fortress Monroe, dropped in to one of our Thursday luncheons recently. We shall be glad to welcome any of the other brothers who can find time to do this on their way across. These luncheons are held at the same old place, Machinery Club, Hudson Terminal Building, 50 Church Street.

Brother Alvin E. Gillett, Gamma Gamma, who had charge of the Y. M. C. A. war hut in Bryant Park, left the first of July to take charge of a similar hut at Waterbury, Conn.

Brother George A. Smith, the Vice-Regent, is acting as Regent while Regent Borden H. Burr is in France.

Sigma Nu lost a devoted Brother on May 27, 1918, when Chas. P. Fry was called by death.

Brother "Bert" Wilson, Beta Iota, has enlisted as a Y. M. C. A. Secretary and expects soon to go across the pond and carry our greetings to the Brothers "Over There." We shall miss Brother Wilson a great deal, but wish to congratulate the boys in the service upon having such an able and efficient Secretary working for them. Any Brother who has ever met Brother Wilson just knows that he will make the best Red Triangle man in the world, barring none.

It is rumored at present that this same Brother Wilson has a monopoly on all Sigma Nu marriage ceremonies around New York City, and is using some magic means, whether fair or foul we are unable to say at this writing, for inveighing Sigs into double blessedness. Just look at the list.

Brother Archie Homewood Dean and Miss Maude Shuman were married at the home of the bride in New York City, on the evening of June 15th.

Brother Henry ("Henny") A. Theis, Gamma Epsilon, the new inspector of the Seventh Division, was the next to fall. He neglected to send the Secretary an announcement of his marriage, so we must punish him by not telling anyone who the lucky woman was. Don't forget to send the card next time, Henny.

Brother "Bill" Brown, Jr., and Miss Emma Aline Gauthey were united in marriage at the home of the bride on July 6th.

RALPH E. SAWYER, Secretary.

July 30, 1918.

OKLAHOMA CITY ALUMNI CHAPTER

The Alumni Chapter feels that, under the conditions prevailing, it has faithfully carried out the trust reposed in it during the past year and only hopes that it may justify its existence in the future as well.

In January the Alumni Chapter gave a dance for the active Chapter at Norman, which was held in the ball room of the Lee Huckins Hotel in this city, and at which was represented not only the active men and city Alumni, but also many Brothers from the forces at Camp Doniphan and Fort Sill.

In February the Chapter at Norman and this Chapter put on a banquet, smoker and initiation at the Lee Huckins Hotel here, which was a pronounced success, with a large attendance from all parts of the State as well as neighboring States.

The regular monthly luncheons at the Savoy Cafe, on the first Saturday of each month, have been held regularly and have been the source of much profit to the order and to the individuals present.

Our membership has gradually dwindled until few of the faithful remain. We give

the addresses of those in the service as far as possible, as follows:

Lieutenant Geo. Puterbaugh, Gamma Upsilon, Camp Pike, Ark.

Major W. P. Lipscomb, Sigma, 182nd Field Artillery, A. E. F., France.

Lieutenant Keely West, Delta Epsilon, Medical Corps.

Captain W. M. Sanger, Sigma, Medical Corps.

Lieutenant J. C. Thompson, Delta Epsilon, Aide to Gen. R. P. Hoffman, A. E. F., France.

Paul Darrough, Delta Epsilon, U. S. Navy.

Clarence McKinney, Delta Epsilon, Radio Training School, College Park, Maryland.

Lewis Morris, Delta Epsilon, Army. Address unknown.

The remaining Sigma Nus who can be counted as faithful members are as follows:

O. E. Jones, Delta Epsilon, Attorney, Colcord Building.

C. D. Bennett, Psi, Attorney, Colcord Building.

Solon W. Smith, Nu, Attorney, American National Bank Building.

I. D. Taylor, Nu, Attorney, Referee in Bankruptcy, Baum Building.

C. Edgar Honnold, Gamma Beta, Bond Broker, State National Bank Building.

John H. Dunkin, Gamma Xi, Assistant Manager Rorabaugh-Brown D. G. Company.

O. E. McCartney, Beta Mu, President Oklahoma National Life Insurance Company.

H. D. Canfield, Delta Epsilon, Bond Broker, Insurance Building.

There are a few others here who have not been active in the work of the Alumni Chapter.

We have kept in close touch with the active Chapter at Norman, and are pleased to report that it is in excellent condition. This is largely due to the watchful care of Brother Inspector E. R. Newby, who lives at Norman and keeps his hand on the Sigma Nu pulse at all times of night and day.

If the draft age is lowered to eighteen undoubtedly the Norman Chapter will have to close, but under present conditions we feel certain that it will maintain a very virile existence throughout the war.

SOLON W. SMITH, Secretary.

July 26, 1918.

OMAHA ALUMNI CHAPTER

The call to the "colors" has been so strong for so many members of the Omaha Alumni Chapter that its ranks have been sadly depleted and its activities curtailed. Eighteen former members have gone into the service and this of course takes the younger and more active men. We are proud of the record of the Chapter and the

few of us that are left are trying to "keep the home fires burning" till we meet again and listen to their wonderful stories of their share in the conflict for liberty and democracy.

Earle Carse, our former president, is now in the navy, stationed at the Great Lakes Naval Training Station. The transfer of the Infantry from Fort Crook to Camp Funston took four Sigs, who were all officers, with it. These boys, we understand, will soon leave for "over seas."

E. A. Roehry has been transferred to Peoria, Ill., thus taking another one of our more active members.

Hugh H. Drake was lately married to Miss Gretchen Langdon, in Omaha, and will make their home at Manhattan, Kansas, near where Brother Drake is stationed until he receives his "over seas" orders. Brother Claire H. Murphy, formerly of Omaha, was in the city for about a week before leaving for Camp Dodge to enter the service.

No regular meetings of the Alumni Chapter are being held this summer, but with the coming of the winter we expect to meet to reorganize and elect a new quota of officers. The weekly luncheons have also been given up for the summer.

WM. L. RANDALL,
Temporary Secretary.

PANAMA ALUMNI CHAPTER

I regret that the Panama Alumni Chapter of Sigma Nu is at present in a state of innocuous desuetude. I believe that I am the only member of the Fraternity now remaining on the Isthmus. Under the circumstances it will not be possible to write any Chapter letters, as there is no one but myself to nominate a reporter and it would be most immodest for me to do so and then declare myself elected.

Regretting that I shall be unable to comply with your requests, but sincerely hoping that a flock of Sigma Nus will arrive on the Isthmus so that this tropical Chapter may be revived, I am,

Fraternally yours,
STEVENS GANSON.

May 3, 1918.

PITTSBURGH ALUMNI CHAPTER

The nation today stands before the bulletin boards and is interested chiefly in matters other than local, and any report dealing with the men of Pittsburgh's Alumni Chapter must be primarily a record of Knights gone out to battle, rather than a recital of events here at home. An examination today of the Alumni Chapter's mailing list in force last spring, shows thirty-eight men known to be in uniform

and some half dozen others in Government service elsewhere than Pittsburgh. The Alumni Lodge—intended to house ten or eleven men—now boasts a service flag of nineteen stars; the rapid growth of this constellation during the early summer is threatening the necessity of a special astronomical observer to keep the new stars in their places.

Among those most keenly missed in Pittsburgh is L. L. Hopkins (Case), former inspector of the Fifth Division, and for two years manager of the Alumni Lodge. Hopkins is with the 305th Engineers, now in France.

Lieutenant S. G. Hibben (Case) was one of the founders of the United Service Club in Washington and now lives at the club in DuPont Circle. Before entering military service, Hibben was prominent in the modern profession of illuminating engineering, and he is now engaged in the development of improved types of searchlights to detect hostile aeroplanes. Hibben has made an interesting collection of war posters, domestic and foreign. Several hundred of these posters are now on exhibition in Pittsburgh.

Clinton G. Reed (Purdue), who was recently commissioned a captain in the Ordnance Bureau of the army, is now in Canada. His work will probably be in Toronto and Sherbrooke.

I. A. Nicholas (Lafayette), formerly chief chemist at the Clairton Works of the Carnegie Steel Co., has recently been appointed chief chemist of the Steel Corporation's new coke plant near Clairton, the largest and most modern by-product coke plant in the country.

A. W. Dann (Cornell) treasurer of the Dravo Contracting Co., and G. B. Taylor of the United States Bureau of Mines,—both charter members of the Pittsburgh Alumni Lodge—have recently returned to Pittsburgh. Among the Sigs new to this region is C. M. Means (Lafayette), now doing chemical work at Homestead, Pa., for the Ordnance Bureau of the navy. All the Sigs mentioned in the above paragraph are young married men who have moved their families here.

Dr. Wilbur M. Holtz (Mount Union) who was recently commissioned a captain in the Medical Reserve Corps of the U. S. Army, has received orders for active service. Dr. Holtz is a veteran of the Spanish American War. For eight years he has been chief of the medical bureau of the Pittsburgh Railways Co. Prior to taking up medical work he was engaged in reportorial and editorial capacities on Pittsburgh newspapers.

On August 13th the Pittsburgh Alumni Chapter congregated at the Fort Pitt Hotel for what proved to be one of the most successful meetings in the history of the organization. This meeting was informal and purely social in character—

business matters being absolutely forbidden by the enterprising Chairman, C. T. Dabney and his Committee—Addams, King, D. A. Moran and Staehle. Fifty-four Sigs were in attendance and the enthusiasm displayed surpassed that any other meeting of recent date. At the last meeting of the season, on May 11th, the following officers were elected for the ensuing year: C. T. Dabney, President; A. W. Dann, Vice President; E. H. McClelland, Secretary; H. F. Braddock, Treasurer; D. A. Moran, Sergeant-at-Arms.

Engagements

Miss Ruth Hogan of Pittsburgh to Robert E. Lee Wildman (Carnegie Tech.) of Harrisburg, Pa.

Miss Clara Louise Berlin of Pittsburgh to Lieutenant D. R. McNeal (Delaware College) of Newark, Del.

Miss Alida Frye Bradford of Wilkesburg, Pa. to Carl D. Kester (Lehigh) of Spencer, N. C.

E. H. McCLELLAN, Secretary.

WASHINGTON ALUMNI CHAPTER

The present administration of the Washington Alumni Chapter of Sigma Nu, began January, 1918, when the following officers were elected: Albert L. Harris, President, and Mark Finlay, Secretary-Treasurer. Shortly after the election, Brother Finlay was called to service. To fill this vacancy, the president appointed Brother Marvin, Secretary, and Brother Mehurin, Treasurer.

As there was a large number of Sigma Nu's working in the various government departments and in the camps near the city, in addition to those in the house, it was decided at the first joint meeting of the active Chapter and Alumni in February, to give a series of entertainments for the out of town Brothers. Two smokers at the Chapter House and a dance at the Kenesaw Apartments, formed the main part of the entertainment.

The attendance at the smokers was unusually good. This was due in a large part to Brother Norman M. Shaw, whose carefully kept list of the Sigma Nus in and around Washington, enabled us to reach many men who otherwise would have been overlooked.

The active Chapter furnished the entertainment, consisting of some fine music and several very lively boxing and wrestling matches. In addition to this, Brother Oscar S. Bland, of the Second Indiana Congressional District, gave a splendid talk on our entrance into the war and all it would probably mean in sacrifice as well as glory. Excellent refreshments brought the evening to a close.

The second smoker, held two weeks later, was equally successful, there being nearly sixty men present. Many of the men who visited us on the occasion of the first smoker, were missed at the second, having been sent to sea, to new training camps, or transferred to other cities. Brother John M. Evans, Congressman at large from Montana, gave an inspiring talk on several phases of the war. The remainder of the evening was spent in singing Fraternity songs and in getting acquainted.

The dance, given by the Alumni and Active Chapters, held April 12th, was a delightful affair, entirely successful from every standpoint. One novel feature of the dance, was a black leather souvenir card case, with the letters Sigma Nu stamped on it in gold, which served as a cover for the program.

Good music, a congenial company and a delicious supper made the evening one long to be remembered by the thirty-five or forty couples present. This delightful series of entertainments was made possible through the untiring efforts of a committee consisting of Brothers Kelley, Swem, Suttill, Sullivan of the active Chapter, and Brothers Marvin, Mehurin, Comboye and Hubert of the Alumni Chapter. As the warm weather was upon us, it was decided to discontinue further efforts along this line until fall.

However, in order not to lose touch altogether, with the visiting Alumni, Brother Norman Taylor was made chairman of a lunch committee. This committee arranged for the local and visiting Alumni to meet every Thursday at the National Club for lunch. An announcement was also carried in the daily papers stating that Sigma Nus would find congenial company on Thursdays at the National Club. In this way new men were constantly coming in, some on their way to other cities, some located here in the government service.

These luncheons were very pleasant and served to keep up an interest in the Fraternity work. Unfortunately, however, we were unable to continue them as the distance from the government buildings was too great to permit employes to maintain the strict half hour lunch period, enforced by the government. It is hoped, however, that in the fall a more convenient place may be found so that we may continue this delightful custom.

The active Chapter deserves the greatest credit for the whole-hearted manner in which they opened their House to visiting Brothers. They have rendered a most patriotic and fraternal service. Only those in touch with the work can realize the burden this imposed on the active men.

They provided comfortable quarters and good meals for these men, many of whom could not find accommodations, owing to the present crowded conditions of the city.

Every man who has been able to get into the House has been enthusiastic in his praise of the cordial manner in which they were received, the splendid spirit of welcome enjoyed while they were in the House and the heart-felt Godspeed when duty called them away.

Delta Pi is one of the younger Chapters of the Sigma Nu, but she had proven to the Fraternity that she stands ready to do her part in the great struggle and is ever ready to hold out a hand of welcome and to provide a home for the stranger Sigma Nu, in Washington, D. C. Come and see for yourself.

ALBERT L. HARRIS, President.

President of the Alumni Chapter.

Brother Chester E. Rightor, Gamma Lambda, is in town with the Income Tax Bureau, Treasury Department. Busy? Sure, but time to talk to a Sig always.

Captain Arthur P. Walsh (Washington State College), of the Seventeenth Field Artillery, has just returned from France, for duty as an instructor at Camp Jackson, S. C. (Called to see me this A. M.)

John B. Maynard (Colorado State College) is a Lieutenant in the Coast Artillery Corps.

Thomas A. (Bull) Durham, Washington State, is an assistant paymaster in the Navy, and is on duty with Naval Aviation Headquarters, Paris.

Word has just been received from Brother R. W. Hillis, Delta Pi. After being rejected by all of the recruiting services in the United States, he enlisted in the Canadians, trained in England for some time and has lately been sent to France, and when writing was being sent up to the line with other replacement troops to join his unit. He signs himself "Pte." (which is the British for private), and his address is: "Pte. H. W. Hillis, 2137468, 29th Battalion, Canadian Engineers, British Expeditionary Force. Don't forget the number after the name.

First Lieutenant Homer B. Vanderblue, Gamma Beta, passed through Washington a short time ago. He was on detail at a special school at Camp Meigs for ten days, but he might have been anywhere else, so far as most of us knew, for his time was so taken up that there was no chance for calls. He has since been detached from the 341st Infantry, Camp Grant, and is assigned to the Depot Brigade, Camp Green, Charlotte, N. C.

Brother Nederhauser, Delta Pi, is now living at 1902 Fourth St., S. E., Canton, O. Canton Sigs, dig him out.

The weekly lunches of the Washington Alumni at the National Club, 607 Fourteenth Street, N. W., third floor, are great

business. Noise it around a bit, the table is big enough for a few more.

Brother Robert W. Voeth, Nu, captain, Marine Corps, serving with the Marine Brigade in France, has been reported as seriously wounded.

Brother H. B. Ware, Pi, who enlisted in the Aviation Section of the Marine Corps, has gone overseas with his organization.

Dear Brother Editor, isn't this enough foolishness for this time? I could tell you lots more, but the censor would get you for printing military secrets. A lot of Sigs have gone over lately, but lots of this cannot be given out.

NORMAN M. SHAW.

June 3, 1918.

Alumni Notes

UNIVERSITY OF ALABAMA Theta Chapter

I have just ascertained that Brother J. Q. Smith, Theta, has been nominated by the Democratic primary of Alabama, which means an election, for Attorney General of Alabama. It was a close race, but on the official count Brother Smith came out considerably ahead.

It is also pleasing to note that our Regent, Brother Burr, received the highest number of votes in the same election for a membership on the State Executive Democratic Committee from his county.

Fraternally,

MANLY A. JOINER.

UNIVERSITY OF GEORGIA Mu Chapter

A future Sigma Nu, born to Brother and Mrs. W. M. Watson today, June 27th. Brother W. M. Watson, Mu, is a second lieutenant, fighting for Uncle Sam, "Somewhere in France."

Here's hoping that "Bill Jr." will make as good a Sig as the one before him.

Brother J. Pope Watson, who was a "volunteer inspector" of our Georgia Chapters last year, will now conduct official visitations among our Southern Chapters. He is the representative of L. G. Balfour Company, one of our official jewelers.

LEHIGH UNIVERSITY Pi Chapter

Brother Percy B. Storey has received the commission of captain in the Engineer Corps, and has been ordered to report at camp for training on August 10, 1918. Captain Storey is leaving the position of checker in the Engineering Department of the Gifford Wood Co., Hudson, N. Y.

ELWOOD F. MESCHTER.

UNIVERSITY OF MISSOURI Rho Chapter

Brother Thomas N. Jarrell is associate publicity director of the National War Work Council, S. E. Dept., Y. M. C. A. of the United States, and is stationed at Atlanta, Ga.

VANDERBILT UNIVERSITY Sigma Chapter

Brother Nobel Van Ness has left tonight for Fort Thomas, Cincinnati, and from

there will be transferred to Camp Cody, Gettysburg, Pa., where he has been assigned as a topographer in the tank corps. He has been a sergeant in the Fourth Tennessee regiment.

UNIVERSITY OF TEXAS Upsilon Chapter

Brother A. E. Amerman is mayor of Houston, Texas.

LOUISIANA STATE UNIVERSITY Phi Chapter

Brother W. T. Helm is chief clerk to superintendent of the Edenborn Line, Louisiana Railway and Navigation Company, at Shreveport, La.

DEPAUW UNIVERSITY Beta Beta Chapter

Brother O. E. Maple, Beta Beta, is secretary of the Florida State Y. M. C. A., with headquarters at Jacksonville.

Brother Leslie E. Harris, Gary, Ind., is the proud father of a daughter, born August 14, 1918.

PURDUE UNIVERSITY Beta Zeta

Past Vice Regent James W. Noel is one of the men conducting the hearing of the Indianapolis Street Railway Company, which has applied for a raise in rates before the Indiana Public Service Commission. Brother Noel represents the Chamber of Commerce and is acting with the city solicitor and other civic representatives who have charge of the public's interest.

INDIANA UNIVERSITY Beta Eta Chapter

Brother Loring W. Mellette was candidate for judge of the Juvenile Court of Indianapolis in the Republican primary, May 7, 1918. His card is a most attractive one, bearing simply his picture and name with this word of advice: "Voters are not so much interested in how candidates talk, as to how they will do."

Brother Clinton H. Givan, candidate for State representative in the Indianapolis

District, won nomination by handsome plurality and is looking forward to a successful election campaign this fall.

Brother Thaddeus Hiram Stonecipher has gone into Y. M. C. A. work. He was formerly superintendent of schools at Zionsville, Ind.

MOUNT UNION COLLEGE

Beta Iota Chapter

Rev. David E. Scott, Beta Iota, pastor of the Finley Methodist Episcopal Church of Steubenville, O., is leaving the pulpit to serve as an army chaplain in Europe. He had been pastor of the church for about three years and was accounted one of the city's ablest preachers. His family will remain in Steubenville.—Pittsburgh Gazette-Times.

Brother Harry F. Hazlett, who, heretofore, has been known to us as Major Hazlett, has been promoted to the rank of Lieutenant-Colonel and adjutant of the 37th Division of the National Guard. Brother Lieutenant-Colonel Hazlett is now with his division stationed at Camp Lee, Va. We extend our best wishes to Harry and hope he may go higher and higher as we hear he sure is deserving of it.

Brother E. Kirk Smith, who graduated from Harvard law school in the class of 1917, has successfully passed the examinations and has been admitted to the bar in the State of Rhode Island.

Brother Homer H. Moore, pastor of the Methodist Episcopal Church at Grafton, N. D., and Brother D. Elwood Scott, pastor of the Finley Methodist Church of Steubenville, recently went to Camp Zachary Taylor to train for chaplainships in the United States Army.

Brother Frank W. Reinoehl recently resigned the superintendency of the Larimore, N. D., schools to become manager of the Elk Valley Farming Co. He has under his supervision over 12,000 acres of land and twenty-four tenants.

Chaplain Bowen Bruere, Beta Iota, leaves for Bombay, India, shortly to have charge of the English speaking church in Bombay, and also to act as chaplain among the English troops stationed there. Brother Bruere is a fine chap and his father is now a missionary in that part of India.

Reverend W. Stanley Smith, brother of Inspector Edson K. Smith, of the Eighth Division, is pastor of the Methodist Episcopal Church at Welshfield, Ohio.

WILLIAM JEWELL COLLEGE

Beta Xi Chapter

E. V. Holland, Denver, Colo., has won the nomination for Congress. He is a brother of Colonel W. R. Holland.

OHIO STATE UNIVERSITY

Beta Nu Chapter

Brother H. L. Hopwood writes: "This day I received a letter from Captain Frank A. Hunter, 330th Infantry, Company I, American Expeditionary Forces, via New York City, saying he expected to leave England soon for France."

UNIVERSITY OF PENNSYLVANIA

Beta Rho

Lieutenant Donald A. McClure has been severely wounded on the Marne salient. He was a junior when he enlisted.

ROSE POLYTECHNIC INSTITUTE

Beta Upsilon Chapter

Brother George M. Maier is with the American Radiator Company in their Research Department called the Institute of Thermal Research, at Buffalo, N. Y.

GEORGIA SCHOOL OF TECHNOLOGY

Gamma Alpha

Brother Joe W. Dalton was the only Sigma Nu at the University of Florida last year, where he has attended college the past two years. He is assistant business manager of the Seminole, the University Annual.

NORTHWESTERN UNIVERSITY

Gamma Beta Chapter

Brother Charles Kieffner has just been commissioned second lieutenant, Signal Reserve Corps, Aviation Section, Reserve Military Aviator (Second Lieutenant, Signal Reserve Corps, A. S., R. M. A.). He is still stationed at Rich Field, Waco, Tex.

ALBION COLLEGE

Gamma Gamma Chapter

Brother Alvin E. Gillett, social work director of the West Side Y. M. C. A., 318 W. 57th Street, New York City, has been granted a leave of absence of four months from his work. Brother Gillett will be secretary in charge of a war hut which has been built in Bryant Park directly back of the New York Public Library.

Later.—Brother Gillette, after a strenuous summer in New York, has gone to the Y. M. C. A. at Waterbury, Conn.

CORNELL UNIVERSITY

Gamma Theta Chapter

Brother Ellington Neill writes that the Sigma Nu Alumni of Augusta gave the Brothers in Camp Hancock a royal time and hopes that they may understand his appreciation which he could not fully express in words.

UNIVERSITY OF WISCONSIN

Gamma Lambda Chapter

[These notes were collected and written by an Alumnus in service as an adjunct to Gamma Lambda's War Directory, printed elsewhere in this issue.—The Editor.]

George I. Middleton reports that he is engaged in food production at Markesan, Wisconsin. "Mitty" graduated from the Ag. School in 1915, so he is eminently well fitted to carry on this important phase of war work.

Carl Bougere, an affiliate from (please look up; I think it is either Phi or Beta Phi), was married last February at his home in Covington, Louisiana, has since lived in Jacksonville, Illinois, and is now located at Indianapolis, from which point he covers considerable territory for the Coons Cypress Silo Company of Patterson, La.

Wirt Faust, who has been teaching in one of the Indianapolis high schools, has accepted an appointment to teach English at St. John's Military Academy, Delavan, Wisconsin, for the coming year.

Russell Fogg, who affiliated with Gamma Theta last winter, is attending the agricultural college at Cornell and is so deeply interested in his work in dairying that he is remaining at Ithaca all summer. From him we learn that Cornell and Wisconsin are neck-and-neck rivals, and that the chapters of Sigma Nu at these two schools are each a credit to the Fraternity.

Don Willison, the busy secretary-treasurer of our building corporation, has left the Land Department of the C., M. & St. P. Railway in Milwaukee to become cashier of the Farmers Savings Bank in Palmyra, Wis. Thus a valuable man is lost from the councils of the Milwaukee Alumni, but his new location will serve to make Don more valuable to the active chapter, because of the short distance to Madison.

Rex Welton, formerly president of the Hollister Drug Company in Madison, now seems to be at least part-owner of about half the first rate garages and auto sales companies in Madison. Hope he can help the boys out once in a while during rushing season.

Many of the boys in France write of their pleasure in reading the "Delta," with its interesting reports of Grand Chapter proceedings and minor convention affairs. A copy of the "Delta" over there is a treasure indeed, and circulates from hand to hand, being oftentimes enjoyed by members of other fraternities as well.

Ken Clark writes from Sault Ste Marie, where he is aboard one of the Sectional Patrol vessels: "We are on dispatch work about two miles above the locks. . . . It is the coldest job on earth. This is the first of July, but the temperature is 35

degrees, the wind about 50 m. p. h., and it has rained 48 hours without a pause. We are to be given a pilot house and a steam heater, but in the meantime—WOW!" As quartermaster his duties are to keep the log, do the signal work, act as helmsman, and direct the deck work. Ken and Brig Young, who, together with two others own the steam yacht "Yarrow," turned it over to the Government over a year ago and started out as its first crew. Brig is now an ensign in the Navy, on board a tanker in the overseas service of the U. S. Merchant Marine.

Don McCandless, writing from a French camp where he is stationed with a Wisconsin field hospital unit, says: It's a queer feeling to be riding in a large Packard and pass a typical French cart with two or three horses hitched tandem hauling a load of farm produce to a nearby town. It seems like the 16th or 17th century. . . . We have running drinking water in every ward (evidently a base hospital), a complete sewage system, and electric lights everywhere. The sergeants sleep in iron beds with mattresses, sheets, and pillows—but this will be over next week." This unit is now known to be in active service, probably along with the rest of the Iron Jawed Division, the 32nd National Guard (Michigan and Wisconsin), in the Alsace-Lorraine region, on German soil. Brothers Wetherby, Schantz, H. Niss, Gregory and Bloodgood are also with this division and are probably seeing good service now.

"Stubby" Cummings, who affiliated with Beta Nu at Ohio State, is now a full-fledged aviator and is probably across the sea by this time. He spent two months at San Diego, "toddling around in the air," and had no more serious mishap than landing upside down in the Pacific Ocean and smashing his "ship." His brother "Doc," who tried hard to become a farmer while at Wisconsin, is also in aviation and has probably graduated by this time. In his course in gunnery at Selfridge Field he fired from the air "at floating targets—both moving and stationary—and then at the shadows of another ship. Later we take up camera fighting, in which you fire at an attacking ship with the gun camera. Each week we get a long reconnaissance trip during which time we have to guide the pilot and see that he keeps to the course we are mapped to follow." The requirement is "to bring in photographs of certain school houses or other objects some fifty miles away."

"Bozz" Whitney, a member of one of the sanitary squads attached to headquarters of the 85th Division, recently arrived overseas, tells of his work: It "consists of supervision of refuse disposal, drainage, water supply, billeting, and general sanitation measures that cannot be taken care of by the individual units, and the inspection of quarters, stables, supply depots, etc., as regards sanitation. We do our damndest

to eradicate the flies and mosquitoes by oiling ponds and seeing that everything organic is kept covered. We supervise the construction of field latrines, seepage pits, field incinerators, and so on. In general, we take all possible measures to prevent disease through insanitary living conditions." His first sergeant is also a Sigma Nu, "Pete" Perrot of Gamma Gamma; the other members of the squad are all college men, and among them several members of other fraternities. The group has their "jazz orchestra, immature glee club, house rules, and all the discomforts of a frat house."

Al Booth, who won his R. M. A. at San Diego, has for several months been in charge of all dual flying at Call Field, Wichita Falls, Texas. Omar Gregory, "Iggie" Merrill and Jimmie Payton are also aviators, while Russ Lindsay, Hap Phillips, Ray Kitchingman, Al Storrs and Tom Rose are in various stages of preparation leading to appointment as "sky pilots."

Vin Cartier was a dispatch rider with the 184th Aero Squadron and was on the eve of sailing overseas from Camp Hempstead, New York, when he was operated on for appendicitis, making it necessary for him to remain in this country for a time.

Miss Ruth Mildred Barr of Racine, Wisconsin, to Clarence Addison Hibbard, at Racine, June 20. Hib is now engaged in special psychiatric work at the Great Lakes Naval Training Station.

Bob Curd announces the arrival on July 13 of Robert Franklyn, Jr. Mr. and Mrs. Curd live in Birmingham, Alabama, where he is connected with the Sherwin-Williams Company. They also have a little two-year-old daughter, June.

The following members of Gamma Lambda are temporarily members of the U. S. Army: Howard P. Jones, Malcolm Mecartney, and Frank Wolfe. These men are taking a three months' course of very intensive training at Ft. Sheridan this summer and will be returned to the University in the fall to act as assistant instructors in military tactics.

Later.—C. Don Willison, secretary-treasurer of the Wisconsin Sigma Nu Building Corporation, has just severed his connection with the Farmers Savings Bank of Palmyra, Wisconsin, the cashiership of which he had held only a month, to accept a commission in the Corps of Engineers, U. S. Army. His address is C. D. Willison, First Lieutenant, Eng. R. C., Camp Humphries, Va.

Brother Maklem W. Gregory, Field Artillery, A. E. F., France, writes: "At last Don (Brother Donald S. McCandless) and I have made connections. He is situated about six or seven kilometers from me, and right now it is rather hard to make connections. I tried several times to see him and at last succeeded. He was just coming forth from a sumptuous feed given to

the sergeants by the three 'sous-lieutenants' whom they were relieving. We spent a most pleasant afternoon. I see Dave (Brother David W. Bloodgood) quite often and there is a chance that he'll soon be a member of this detachment. We are in a beautiful country, German Alsace, in fact. For the first time I am reaping the benefits of my two years' study of that tongue. It is mountainous here, and as I have a fine young chestnut mare, an occasional charming ride falls to my lot. There was a big Fourth of July celebration only 4-5 kilometers from here."

Brother Donald S. McCandless, Field Hospital No. 127, 32nd Division N. G., A. E. F., writes: "We had quite a celebration here the Fourth of July when the French soldiers and the people in a little town back from here a short distance helped us celebrate. In the morning the French and American troops put on a parade and then were reviewed by their respective generals; in the afternoon the Y. M. C. A. put on a vodvil show in a temporary theater which had been erected for the occasion. The entertainers were mostly professionals from the U. S., who have come over here to help entertain us. It was mighty fine to see the enthusiasm which all our new friends manifested, and now day after tomorrow, July 14th, we are going to turn the trick and help the French celebrate their national holiday. Last night the men in this part of the line were entertained by Elsie Janis. She had made eight other stops during the day, so that she was nearly 'all in,' saying that we found her 'at the end of a perfect day'. She sang several of our popular songs which she then rendered in French, much to the enjoyment of our numerous friends in blue uniforms."

Prof. H. F. Wilson, Gamma Lambda's Chapter adviser, who is taking a two months' course of intensive military training at Ft. Sheridan, Ill., writes interestingly of his experiences: "We are sure having a strenuous time. We get up at 5 a. m. and quit at 9 a. m. Last week I was on K. P. (kitchen police) and we had to scrub the floors and tables and all the pots and pans for three meals. Then we had to peel two boilers of potatoes. A gay life?"

Brother Vincent Cartier is a private in an Aero Squadron, A. E. F., France. He also reports a Lieutenant Robert Watt, Columbia '16, as a Brother Sig attached to this squadron. Lieutenant Watt's military designation is almost certain to be that given above for Kieffner.

Brothers Stanley R. McCandless and Walter E. Mueller, active members of Gamma Lambda, are now located at the Fourth Officers' Training Camp, Camp Grant, Illinois.

Brother Arthur Frederickson, Gamma Lambda '18, is a first-class petty officer in Naval Aviation, Great Lakes Naval Training Station, Great Lakes, Illinois.

UNIVERSITY OF ILLINOIS Gamma Mu Chapter

Brother Helton E. Heinecke is now at the U. S. Military Academy, West Point, N. Y. He is a member of the fourth class, having entered June, 1917. He "prepped" at Marion Institute and attended the University of Illinois, where he was initiated into Sigma Nu. Brother Heinecke is making an athletic record at West Point—last winter he was captain of the "plebe" basketball team and also played on the Varsity baseball squad.

SYRACUSE UNIVERSITY Gamma Psi

Since leaving Syracuse, Brother Charles A. Slater has been employed by the local Shade Tree Commission, a period covering a little over two years, first as assistant city forester in 1916, and remaining until the fall of 1917. He left to fill another position in Delaware, but in December returned to fill the vacancy caused by former City Forester Brother A. G. Henn, Gamma Psi, who had been called to the colors. At present he has charge of completing a planting plan for the entire city. Mount Vernon, a suburb of New York, is noted for its shade trees and spends about ten thousand dollars a year on their upkeep. This averages a little less than one dollar per tree. Few of our American towns and cities appropriate more than twenty-five cents per tree for this work. He already has one prospect for Gamma Psi in Charles A. Slater II, who is celebrating his birthday today, age nine months. From appearances he will fill his father's shoes on the baseball and football teams at Syracuse.

COLUMBIA UNIVERSITY Delta Gamma Chapter

I have just received the May "Delta" and upon looking through the list of "Knights of the Republic," I find that Clift Cornwall from the Columbia University Chapter, is incorrectly located, as since the first of the year he has been on the other side and his address and location should be First Lieutenant, Engineers Officers Reserve Corps, A. E. F.

After graduating from the first O. T. C. at Fort Myer with a commission of first lieutenant in the Engineers Officers Reserve, he was assigned to Camp Lee at Petersburg, and later transferred to Camp Dix at Wrightstown, N. J., and at the end of the year was assigned to foreign duty on the other side and since that time has been over there.

I am forwarding his "Delta" to him and no doubt he will be glad to receive the same and trust that by this time he has gotten in touch with Ammex Forces Alumni Chapter at Paris.

I have not as yet had a chance to really go through this issue, but from all appearances it seems the best yet, and I congrat-

ulate you and your staff upon the appearance and contents of this issue, and with best wishes for many more like the same, I am,

H. F. CORNWALL.

PENNSYLVANIA STATE COLLEGE Delta Delta Chapter

Don M. Brown, instead of being in the Marine Corps, is an ensign in the Naval Reserve Force.

WESTERN RESERVE UNIVERSITY Delta Zeta

Brother Eldred Barden has been commissioned second lieutenant at the Third Officers Training Camp, Camp Sherman.

Walter D. Clark, of the Naval Reserves, is home on sick leave. His troubles have centered in his eye, but except for his "looks" he is quite normal. It might seem that vaudeville and the navy were distinct branches of service, but we understand "Dad" can give naval exhibitions in the Central Armory that bring tears to the eyes of his officers, seasoned tars though they are.

It's Captain Starkes now! Culley is a commissioned M. D. and stationed at Panama.

Bernard J. Alten is still with Ernst and Ernst, though he threatens to enlist as soon as he can camouflage his admirable personality, and persuade the doctors to give him a Christian Science examination. "Doc" persistently wants to give the Germans hell.

Wilbur C. Hunter is entertaining his brother Howard at his country-place. It is remarked in Montville society that no greater event has taken place since last summer.

Howard K. Hunter is spending his summer vacation with his Brother Bill, "on the dear old farm." Howard is the champion long distance farmer in these United States, as well as Akron and other foreign parts. To look at him, however, you can see nothing but the distinguished and polished pedagogue (unless you catch him in a Chardon restaurant).

Stanley E. Roth is running the street car company when he is not running his automobile. As to running his family, well, there is Mrs. Roth— Well, anyway, he reports that his son thinks his dad is the wisest and greatest of men.

H. Samuel Amidon is permanently entrenched as city solicitor of Painesville, at least, all who have seen his office state he has thrown up earthworks of law-books, documents, newspapers, magazines, and agricultural reports, until it would be impossible to reach him except with a guide.

Carl R. Dietsch has resigned as superintendent of schools at Hudson. He is with

the Gravity Carburetor Company, Cleveland, this summer, and is living in his West Side home.

Perry D. Caldwell was elected city councilman last fall, carrying every precinct in Ward 19 except two, over the popular and long-termed Democratic candidate. There is no doubt of our Perry's abilities and personal qualifications. (Don't everybody try to get a city job.)

Virgil C. Barch is dispensing ten-penny nails and other hardware at his emporium on Euclid Avenue.

Gurth Baldwin is in the electrical fixture business in Erie. He is awaiting call to the army.

Frank W. Fox has been transferred to the general offices of the Goodyear Tire and Rubber Company, in Akron, and has moved back to Ohio with his family.

Malcolm S. Nichols is general secretary of the Associated Charities in New London, Conn.

Miles E. Evans, attorney-at-law, with Patterson & Nielding, Cleveland, is getting "fat and a little fatter." His good humor sticks out in many parts, otherwise his rotund and protuberant personality is solidly encased by many lawyers of fleshy substance that add greatly to the weight of his arguments. We are told he originated the famous Hooverism, "Eat all you can, but don't waste anything."

Milo C. Newton is a public accountant in Cleveland. He lives with his wife and family, and is a regular home-body as befits a man of his natural inclinations.

T. Blair Scott is still with the James & Manchester Company (life insurance). He resides in Lakewood, and his chief mental recreation is staying in nights.

Dwight E. Wertz, attorney-at-law, is a member of the United States Department of Justice, as assistant to the district attorney. His cares are greatly increased due to the paternal instincts of his young daughter and son, and the fraternal habits of his partner, Sherman Arter. Between the three of them, he is worried so much, he can scarcely hear an invitation to drink an ice cream soda. He stayed at the Chapter House during June, and his wife enjoyed a rest in the country.

Tom Scott sends a clipping from the Cleveland News, showing a Reserve "instructor" in the war nursing course, demonstrating a microscope to a Red Cross candidate. The caption to the photograph reads: "Laboratory work has a big place in the war nursing course being given by Western Reserve University. Here one of the students is shown learning the fine points about microscope study from Dr. Edward G. Patton.

PERRY D. CALDWELL.

GEORGE WASHINGTON UNIVERSITY Delta Pi Chapter

Robert Y. Yates is now a lieutenant in the Civil Engineers Corps of the navy and located at the public works office of the Naval Academy, Annapolis, Maryland. He will be stationed here until further notice, which will not probably be for several months to come.

CARENGIE INSTITUTE OF TECHNOLOGY Delta Sigma Chapter

It will be of interest to know that "Sunny" Kesner has been transferred to the aviation branch "over there." "Sunny" will give a good account of himself, of that we can be sure.

At the end of last year, there were twenty members and one pledge living in the Chapter House. There are eight active men and two pledges living outside of the House, Easton, being the only senior in the present membership, there is every indication of a good turnout for the coming year. Two of the men, however, Willoughby and Clark, expect to be called in the coming draft. A lease has been signed for another year for the present Chapter House. Within a very short time, the biggest portion of the upper floor is to be redecorated.

Brother Stockdale left on March 18th for Dayton, Ohio, where he takes up a civilian position with the Production Engineering Department of the Signal Corps. This work will be in connection with the production of aeroplanes and their equipment.

Brother Dick Fleming has been accepted in the draft and expects to be called in the near future.

Bill Diehl has been made an ordnance sergeant. This rank is equivalent to battalion sergeant-major and higher than top sergeant.

Brother Tom Carlisle joined the ranks of the benedicts recently, taking as his bride, Miss Caroline Bowman. Shortly after the marriage, Tom left for Camp Lee.

Brother Mike Sweeney has been called for naval aviation and is now in Boston.

Brother Ed McKee writes from France stating that he is enjoying the game to the limit.

Brother Brockman also advises of good health and happiness, stating that Pop Stewart, Sunny Kesner and he were together. A rumor to the effect that Sunny Kesner was killed got enough of a start about the Pittsburgh district, that his history was written in the sporting pages together with a large picture showing him in football togs. We are glad to advise, however, that so far as can be ascertained, there is no grounds whatever for the state-

ment. In fact, from all information, Sunny is still very much alive and able to give a good account of himself.

April 13th was the occasion of a very well attended meeting of the Pittsburgh Alumni Chapter held at the Fort Pitt Hotel. The entire active Chapter attended and the meeting was a great success. The features were an entire absence of a business session and a cabaret program to take its place.

Your correspondent announces the arrival of Miss Ruth Mary Haaren on March 26, 1918. The time was when he was as much as one-half of his family, but now he is only one-fourth. Such is life.

Brother Chick Traver is librarian at Camp Merrit, embarkation camp, in New Jersey. Chick tried to enlist in several branches of the service but was turned down. His present work is right in his line and he fits in very well. His library at present contains about 12,000 volumes with more coming. His address is American Library Association, Library War Service, Merrit Hall, Camp Merrit, N. J.

Brother Howard McCandless writes from California sending a check for the second note in advance. Howard holds the record for House Building Notes paid in advance.

In a very well written and intensely interesting letter to Biz King, J. B. Hays tells at length about the doings of himself and Simpson who are working together. They are certainly getting everything that is to be gotten out of their experience and it makes one long to be with them to hear of their experiences, such as the censor allows them to tell. The editor is also in receipt of a letter dated March 30th in which comes the news of the transfer of both Jabe and Simpson to the engineers. Both are delighted with the development which means that they will continue to work in the line which so far has proven so interesting to them. The new address is Private J. B. Hays, Attached to Co. B, 503d Engineers (Service Battalion, A. E. F. Base Hospital No. 27).

A card from Brother Button advises that he is still running an architectural office "over there."

Inspector L. L. Hopkins of the division in which Delta Sigma Chapter is located, has resigned to enlist in the service. His successor is Perry D. Caldwell, 433 Williamson Bldg., Cleveland, Ohio. Brother Stockdale who has been Alumni Adviser of Delta Sigma has resigned because of his change of position and in his place has been appointed Frank H. Haaren, now of Parnassus, Pa.

Andrews is in charge of the drafting department of the Naval Radio School in Cambridge, Mass.

"Marty" Boyer is in charge of the drafting at the Naval Training Station in Gulfport, Miss.

Brockman, "Sunny" Kesner, "Pop" Stewart have all been over in France with the 15th Regiment Engineers for a period of nearly a year.

Paul Beckert is still located in Pittsburgh.

Lamont Button, "Jabe" Hayes and Russell Simpson are all following architecture with Hospital Units in France.

Curtis Colwell is quartered in Washington Barracks, D. C.

Carroll is traveling inspector and construction engineer for the Scaife & Sons Co., Oakmont, Pa.

Tom Carlisle is an inspector of aeroplane equipment.

Bert Colmery is at present working for the Peoples Gas Co., but is still Instructor of Mathematics during the school session.

W. E. Carr is working on munitions in New York State.

R. M. Crosby is an ensign in the navy, his brother Bill is practicing architecture in Oil City, Pa.

Bob Crawford is still manufacturing T. N. T. in New Castle, Pa.

Dillenback is a lieutenant in the aviation, last heard of in England.

Bill Diehl is a sergeant of ordnance in Washington, D. C.

Bob Dake is an aviator, present whereabouts unknown.

Al Dyer is doing business at the old stand for the Electric Controller Co.

Dick Fleming is in an Engineers' Replacement Division in Camp Humphreys, Va.

Russel Green is a corporal in the 25th Engineers in France.

"Dutch" Grotenfend is manager of the Production Department of the U. S. Aluminum Co., New Kensington, Pa. Haaren is manager of the Cost Department of the same firm.

Art Vail is manager of the Rod Mill of the U. S. Aluminum Co., Massena, N. Y.

"Dutch" Gettman is successfully selling Fords from his Centre Avenue Garage.

"Punny" Graham is associated with the American Collapsible Tube Co., New Brighton, Pa.

Frank Hieberger is with the Hospital Corps in Camp Hancock, Ga.

George Hays is selling auto supplies in Sewickley, Pa.

Haynes is with the National Guards, now in England.

Kilgore is conducting a successful contracting business in Canton, Ohio.

Kirk is a commissioned officer in the navy.

Kingsbury when last heard of was reported to have been wounded in France.

"Bill" King is practicing architecture.

Frazer Myers is located in Washington, D. C.

"Lefty" Manker is with the American Incandescent Heat Co., in Boston, Mass.

Phil Marshall from last reports is still at Camp Lee, Virginia.

Ed McKee when last heard from in France was awaiting an operation.

McCandless is a lieutenant in infantry, at present in San Francisco, Cal.

Cliff McMillen is expecting his call to the draft very soon.

McCaughy is instructor in architecture, University of Illinois.

Reisinger is doing very well in his work at the Naval Academy, Annapolis, Md.

Hugh Simpson and Paul Simpson are both now abroad flying for Uncle Sam.

Stockdale is located in the Production Department of Governmental Aeroplane Construction; is now working in Washington, D. C.

Scobell is serving as a commissioned officer somewhere in France.

Traver is librarian at the embarkation camp, Merritt, New Jersey.

Warring is training in a camp in Ohio.

Weigler is training for aviation in Atlanta, Ga.

Wildman, who is about to be married, is working with his father in Harrisburg, Pa.

Warren Walker is associated with the American Cotton Oil Co., Guttenburg, New York.

Willoughby was called for service before the school year was over.

Hershey is located in Cleveland, O., and is staying at the Simu Nu House.

Barnhart is doing engineering work near his home, Leisenring, Pa.

FRANK H. HAAREN.

TRINITY COLLEGE

Delta Chi Chapter

Brother N. K. Allison has entered the engineering department of the Travelers Insurance Company.

Brother H. R. Brockett and Miss Marion E. Bennett, of Meriden, Conn., have announced their engagement.

Brother R. E. Smeathers has left the home office of the Travelers Insurance Company for their branch office at Newark, New Jersey.

Brother E. G. Smeathers is working for the Standard Aircraft Corporation at Elizabeth, N. J.

Brother A. K. Smith has been appointed a special assistant U. S. District Attorney for Connecticut.

WAR DEPARTMENT PLAN FOR COLLEGE STUDENTS

Details of Reserve Corps System Are Made Public

Young men who enter colleges this fall which have qualified for United States student army reserve corps may enlist in the corps on entering the institutions, be furloughed immediately and may continue their studies until the government deems it necessary to call them for active war service.

For Highly Trained Men

The Government's announcement reads as follows:

"The importance of this plan for combined military and collegiate training, if we are to meet in the future the urgent needs of the army for highly trained men, is so great that the war department most earnestly requests the colleges, councils of defense, and other patriotic societies to co-operate in bringing it to the attention of the young men of the country and urging them to do their part to make it a success," the announcement says. It adds:

"The purpose of the plan is to provide for the very important needs of the army for highly trained men as officers, engineers, doctors, chemists and administrators of any kind. The importance of this need can not be too strongly emphasized. The plan is an attempt to mobilize and develop the brain power of the young men of the country for these services, which demand special training. Its object is to prevent the premature enlistment for active service of these men who could by extending the period of their college training multiply manifold their value to the country.

Equipment is Provided

"The boy who enlists in the students' army training corps will be a member of the army of the United States. He will be provided by the war department with uniform and equipment, but will be on furlough status and will not receive pay. He will undergo regular military training as a part of his course during the college year, will attend a six weeks' camp for rigid and intensive military instructions at private's pay, and will be subject to the call of the President for active service at any time, should the exigencies of the military situation demand it.

"The policy of the government, however, will be to keep members of this corps in college until their draft age is reached, and the war department will have the power to order such men to continue in college even after their draft age is reached whenever their work is such that the needs of the service, e. g. for doctors, engineers, chemists and the like, are such as to make that course advisable."—Indianapolis News.

On the Way to Berlin

Shells From the Front and Training Camps

*"To be steadfast in the performance of every trust; * * * to be content to live the ancient Faith that our Honor is dearer to us than our lives; to emulate the chivalrous deeds of courtesy, * * * And so to be loyal to the Knighthood of Honor."—The Creed of Sigma Nu.*

AM. EX. FORCES ALUMNI CHAPTER

Your letter of May 3 is at hand. I hope that by now you have received my letter of April 14, which was delayed a little by going through the base censor.

There is nothing new to relate except that Fullington Payton, Gamma Lambda, and I, Beta Kappa, are here at the French Army Aviation School. New censorship regulations allow me to say that we are at Chateauroux, Indre.

Since writing my last letter to you, I have heard of the following Sigs, all at Base Hospital No. 12, B. E. F. (British Expeditionary Forces): Privates David Millar, Beta Omicron; Lee P. Gay, Rho; Thos. R. Hunt, Noah W. Hunt and Seldon H. Murray, Beta Xi; and Captain W. R. Rainey. Lieutenant John R. Smiley, Beta Xi, is also a Sig.

Many Sigs here have already won their first foreign service chevron for six months' service; in fact, I believe that all the men I have heard from are now wearing it. I put mine on day before yesterday.

I have received all the Deltas now except December, and would be glad to see that number. I am keeping the ones sent me in the hope of finding some Sig at my next station that has not seen them.

I hope that by now our Fraternity has taken membership in the American University Union at Paris. That is about the only practical way of keeping Sigs in France together.

The three of us here expect to win our Brevet and R. M. A. in about a month and then go to the acrobatics school at Issoudun for the finishing touches. Don Hughes, Beta Kappa, left for that place two weeks ago with his Brevet, and is probably now at work on wing-slips, reversements and all the little tricks of the air game.

Best regards to all.

Fraternally,

HOWARD A. JOHNSON, Gamma Phi.

A. E. F., U. S. A., P. O. 738.

May 25, 1918.

SIGS AT ELLINGTON FIELD

Sigma Nu Fraternity:

Thanks for sending me those Deltas so promptly. They were surely manna to me.

I have run onto quite a few Sigs since coming here. I shall name over as many as I can: Crosthwaite, from Michigan Aggies; J. A. Franklin, from Pennsylvania

State; Bratton, from Maryland State, and one of the founders of our Chapter at Vanderbilt, N. S. West. We have had some good times together, and I took a picture of some of us, but somehow it did not turn out well.

It is so hot here that all we can do in the middle of the day is to sit and gasp. As the fellows say, "Anywhere but Texas."

Fraternally yours,

LIEUTENANT MERRITT S. BEACH,
Beta Zeta.

Engineering Dept., Ellington Field,
Houston, Texas, July 19, 1918.

GLIMPSES OF SIGMA NU IN THE CAMPS

Sigma Nu Fraternity:

Just a bit of news so that you can include another name in the Sigma Nu honor roll.

Attended School of Military Aeronautics, Atlanta, Ga. (Georgia Tech.), as a cadet, from January 26, 1918 to March 23, 1918. Appointed second lieutenant Aviation Section, Signal Reserve Corps, March 29, 1918. Commanding officer of lines in the Trades Division, First Training Brigade, Kelly Field No. 1, South San Antonio, Texas, April 6, 1918 to May 26, 1918. Asked for transfer to combatant service, so was relieved from duty at Kelly Field May 23, 1918, and assigned to the Armorers School, Wilbur Wright Field, Fairfield, Ohio (near Dayton), where I am being trained to be an expert on guns and bombs, etc. I will be here four or five weeks more and then expect to go to France at once as an aerial gunner, installation, maintenance, armament or supply officer.

The school work at Georgia Tech. was pretty stiff, but I got through with high marks and was one of the first few of my class to be commissioned.

Here at the Armorers School the instruction is highly technical, yet very practical. My first examination here comes tomorrow.

I had an announcement published in the Kelly Field Eagle while at San Antonio, Texas, trying to get all the Sigma Nus together, but I left the field the day the notice was published.

Walter Reller, a Sig. from Missouri, was my sergeant major on Line 14, First Training Brigade, Kelly Field No. 1, for twenty-four hours. Just as we were pulling the

covers over us that night in bed, Reller said, "Are you a frat man?" I said, "Yes, are you? What frat?" "Sigma Nu." "You are." We didn't go to sleep for some time.

Saw Bernie Alten in Cleveland two weeks ago. He is too badly battered up physically to get into the war game, but he is patriotic.

Some Sigma Nu left this field for France about the time I came. While I was looking for quarters I found a copy of the Delta on his baggage, but his name was not on anything.

Another old Sigma Nu pal expects a captaincy soon as a chaplain. He would

enough to have fifty of the boys. We have thoroughly enjoyed having had the boys with us just as often as we could and it is with sincere regret that we will have to lose them in a few days.

Top row, left to right: Percy Jackson, Olinger, Starna, Canaga and Kester. Bottom row, left to right: John Jackson, Slates, Harris and Trump. The Y. M. C. A. man in center was unfortunate enough to attend Ohio Wesleyan, where he had no opportunity of joining Sigma Nu. All these men are from Beta Iota except Canaga, who is a Beta Nu man.

Those standing are Mrs. Steiner, myself and twenty per cent. of the Steiner children.

make a corking good man for the job and if he gets it I'll notify you.

Fraternally,

BYRON EDWARD JACKSON, Epsilon.

Second Lieutenant, S. R. C. A. S.

P. S.—Was made a thirty-second degree Mason at San Antonio recently. Armorers School, Wilbur Wright Field, Fairfield (near Dayton), Ohio.

MOTHERS' DAY AT CAMP SHERIDAN

The Steiners Treat Buckeyes in True Dixie Style

Sigma Nu Fraternity:

On May 12, Mothers' Day, Mrs. Steiner and I had the pleasure of entertaining for dinner eight men from Beta Iota and one from Beta Nu, and a happier day we never spent. I have a picture of the group that I can send you if you wish. Our only regret was that our home was not large

The Ohio boys have about left us and the few remaining will be off in a few days. The boys in the photo left yesterday and Mrs. Steiner and I feel like we have lost part of our family, as they had endeared themselves so much to us.

Fraternally,

BERNARD STEINER, Theta.

It is appropriate to reprint from the May Delta, this tribute of Brother Percy W. Jackson, Beta Iota, to the Southern hospitality of Brother Steiner and the Montgomery Alumni:

"On arriving at Camp Sheridan, Alabama, we lost no time, but immediately started out on a hunt for Sigs. We first met Brother Bernard Steiner, president of the Montgomery Alumni. We at once felt as though we had met a strong Sigma Nu. Brother Steiner has in more than one way made us feel and appreciate Sigma Nu. We soon became acquainted with many Brothers, and the sometime dullness and monotony of a soldier's life has been driven away through their kindness and efforts."

EXPERIENCES OF AN AVIATOR BEGINNER

Sigma Nu Fraternity:

I have had it on my mind to write to you for some time to tell you where I am and what I am doing, but until now the favorable opportunity has never presented itself. Soon after returning to work at Ohio State, after participating in our very successful Grand Chapter, the school was changed to an adjutants training school, and we were sent to various other ground schools in aviation.

New Faces But a Familiar Badge

Some one hundred and fifty of us, including Nick Carter, Cummings, Tussing, and myself, were sent to Berkeley, California, to finish ground school work. Carter comes

from Case School and Brothers Cummings and Tussing from Ohio State Chapter were, I think, both at the convention.

We had a wonderful trip out and a wonderful time all the time in California. It is a beautiful State and I have nothing but praise for the many pleasures of San Francisco. We soon graduated, however. All but one of the four above mentioned were sent to San Diego for flying. I was sent with my squadron to Camp Dick, Dallas, Texas. Of which, more anon. Before leaving California I must give the role of valiant Sigs whom we found there. They are: Raymond Buckley, Washington; Sterling Spellman, Oregon; Ralph Boone, Washington State; Harrold Grady, Oregon; Nor-

man McLeod, Washington; Lymert Knettle, Washington pledge; Preisker, Stanford; and Geo. D. Roberts, University of California. We also had word that Brother Robert Hawkins, Washington, would soon be up. I am sure no other Fraternity beats that record for men at S. M. A. Berkeley. We visited the California Chapter House often and found always the congenial bunch and the real Sigma Nu welcome.

Up in the Air

Camp Dick, to which I was sent, is an aviation concentration camp, both for cadets and for officers. Here we accumulated to the number of nearly 4,000 until an opportunity offered at the overcrowded flying fields. We drilled from morn till night and when not drilling we were being inspected. The most rigid army discipline prevailed. When volunteers were called for for bombing, I welcomed it as a relief from drill, and with some one hundred others was sent to this field. Here we are being taught flying and scientific bomb dropping, as well as the accurate use of the machine gun. We have really landed in a pretty good thing, the first on the field in bombing.

We hope to get our commissions soon and take some part in the present campaign. We have a pilot assigned to us and we have no driving to do unless pilot is injured. I have done a lot of flying and have handled the controls often, but have not yet had the ship up alone. Needless to say I enjoy it all immensely. Have not had any of my night flying yet, but expect to get it soon. I'll inclose a snap recently taken showing how we doil up for flight.

Faternally,

ROSCOE C. WRISTON, Beta Sigma.
Ellington Field, Houston, Texas.
April 26, 1918.

FIRST AID DETAIL

Sigma Nu Fraternity:

Just a word to let you know I'm still alive and kicking and like the army despite its rigors and discipline. It's all toward licking one Bill Hohenzollern, and as you know all good Sigs want to back Uncle Sam to the limit.

I haven't met any Sigs in camp as yet, either at Jefferson Barracks or here, but I intend to run up to Ames over some weekend and visit the boys there.

The Deltas you sent out to California were forwarded to me here and I promptly went through them—hungrily.

Should you desire the information, I'm attached to the Post Hospital here and am in the Medical Department of the army.

Most fraternally and sincerely,

DON KRULL, Gamma Mu.
Post Hospital, Fort Des Moines, Iowa.
May 6, 1918.

COLONEL DREISBACH WRITES

Dear Brother Dunlavy:

It has been too many years since last we met. I know you have lost track of me, for my name does not appear among the list of Beta Eta men who are in service.

Inasmuch as I was in the Spanish War and in the Indiana National Guard ever since preparing for just such an emergency as has arisen, I would like my name among those who are in service. My military preparation has extended over twenty years.

Second Lieutenant Dwight M. Park, Beta Eta, is in this camp in the 152nd Infantry. He came down with the drafted

Lieutenant Colonel Clyde Floyd Dreisbach
Beta Eta

men in October and I got him admitted to the Third O. T. C., where he won a commission.

Clarence E. Zinn, Beta Eta, is also in service. He is in the Quartermaster's Corps.

I am in the Infantry, but at present am on special duty in command of the Detention Camp, where the drafted men are held for completion of examinations, records, and preliminary instructions. I had six thousand men here last month and will have 8,000 this month.

My wife and two children are here with me and live in the "Squaw Camp."

Fraternally,

"DRESSIE."

(LIEUT. COL. CLYDE F. DREISBACH.)
Hq. Detention Camp, Camp Shelby, Miss.
July 12, 1918.

DREISBACH, BETA ETA, AGAIN
HONORED

Appointed Commander of Detention Camp
at Shelby

Lieutenant Colonel Clyde F. Dreisbach has been appointed for the important post of commander of the divisional detention camp at Camp Shelby, Hattiesburg, Miss. The popular Fort Wayne officer, who was only recently advanced to the rank of lieutenant colonel, will take charge of the 6,000 national army men who will arrive directly into Camp Shelby this week. It will be his duty to supervise the adjusting of the raw recruits from civilian life to the life of a soldier.

This work is regarded as highly important by army officers, as it is pointed out that the future efficiency of a soldier is largely dependent upon the instilling of a proper spirit of discipline and harmonious co-operation in the formative period of his military career.—Fort Wayne News and Sentinel.

CAPTAIN SHERMAN CORKRAN
GASSED

Captain Sherman Corkran, U. S. Field Artillery, and with Pershing in France, was severely gassed in the recent drive of the Allies and has been ordered home for attention. He is now at his father's home in Wilmington, Delaware. Brother Corkran has been in France since the first American troops went abroad and won his captaincy for distinguished service in the field.

LEARNING TO BE OFFICERS

Sigma Nu Fraternity:

There are quite a few men down here, but we are so busy that there is little time to devote to "get-togethers" outside of the company. However, shortly before we (W. W. Koch, Gamma Lambda, and I) arrived Sigma Nu had a large party and it created quite an impression.

S. R. McCANDLESS,

Gamma Lambda.

Camp Hancock, Ga.,

A WORD FROM RHO'S CHAPTER
ADVISOR

Sigma Nu Fraternity:

I am leaving in a week or two for Washington, D. C., where I will be stationed with the Forest Engineers (Road and Bridge Battalion). I expect to get a month or so of training there and then get "over there" and do what I can toward "trimming Fritz."

Fraternally,

LEROY H. ADDINGTON, Rho.

St. Louis, Mo.

PLATTSBURG TRAINING CAMP Sigma Nu Has Largest Number of Fraternity Candidates

When the military training camp for members of the Senior Division of the Reserve Officers' Training Corps opened here on June 8, it afforded another opportunity for Sigma Nu history to be made in connection with the present world war. Fortunately (or unfortunately) the honor of recording this bit of history, has been thrust upon me and I feel sure you would like to have it for the Delta.

For College Men Only

The camp established here is solely for college men, which is probably a unique event in itself. During the past college year, many of the colleges in the East have formed units in the R. O. T. C., with a view

Of course, the Y. M. C. A. at the post was the gathering place for the men right from the start and it was not long before a fraternity roll book was started. And that was where Sigma Nu began its history.

We were fortunate right from the start, for one of the hustling "Y" secretaries turned out to be Brother R. L. Peterson of Albion College. Naturally, that gave us the jump on the other Greeks and Brother Peterson has certainly demonstrated "the fifth point to all of us.

Sigma Nu Leads

Day by day the fellows signed up, until finally we discovered that Sigma Nu had more representatives at the camp than any other national Fraternity. Sixty-seven "Sigs" from twenty-one different colleges were on the roll. While fourteen of the colleges were in the North, the seven from the South furnished a full quota. The col-

Sigma Nus at Reserve Officers Training Camp.
Plattsburg, N. Y., June, 1918

to train college men for officers' commissions when they graduate. The students undergo a thorough course of military training at their various colleges during the academic year and are all more or less familiar with military tactics.

But just as practical training is essential in all peaceful lines of work, so it is essential in the military, and for that reason the summer camp at this place was established.

At the camp here, which will close on the 3rd, there have been no less than 25 colleges and universities represented. The total number of men here has been close to 3,000, and every one a college man.

Peterson, Gamma Gamma, at "Y"

Now you will probably wonder when I am going to return to the subject of Sigma Nu.

leges represented were: University of Georgia, Albion, North Carolina State College, University of Pennsylvania, Lehigh, Cornell, University of Virginia, North Georgia Agricultural College, Brown, Penn State, Carnegie Tech, University of Florida, Delaware State, Maryland State, Georgia Tech, Maine, Vermont, Washington and Lee, and the two younger sisters, Trinity and Bowdoin.

A Reunion Dinner

Naturally when that many "good fellows get together" there is bound to be a banquet and this was no exception. The dinner came off two nights ago and there were about thirty-five present. Unfortunately, sickness and quarantine kept many of the others away. But we had a real dinner and plenty of "pep" and of course the main topic of conversation was Sigma Nu.

In a day or so now the camp will close. Many of the boys have been recommended for officers training camps in the fall and many expect to accept. The others are perhaps too young as yet or wish to finish college before "going over," so they will probably return to their chapters in the fall.

For myself, I can only say that to have met the Brothers that I have up here is indeed an inspiration. A finer bunch I never saw, and it surely made me proud to know that I was a Sigma Nu. Many of them have been "Sigs" but a short while, yet they are already showing the real spirit of Sigma Nu and as long as we have such staunch workers in our chapters we need feel no anxiety for the future.

I realize that this is but a poor account of our doings up here, but I have tried to bring out some points of interest. Please feel free to edit this in any way you wish and use as much or as little as you desire.

GEORGE W. SULLIVAN, Delta Delta.
Plattsburg Barracks, Plattsburg, N. Y.
July 1, 1918.

COOPED UP AT THE DETENTION CAMP

Sigma Nu Fraternity:

I have finally been compelled to leave the boys at Purdue and take a step to prevent my being drafted into the army.

After looking all branches of the service over thoroughly, I picked the Naval Reserve as a prospective radio operator. So I am now in detention camp here at the Naval Training Station, for a period of three weeks, at the end of which time I will be sent to school at the main camp for a period of about two months. I will then be sent to Cambridge, Mass. (Harvard), to complete my course in radio operation. From there I will be shipped.

This is the first time I have ever been cooped up, and it goes pretty tough. I haven't seen a soul in five days that I ever saw previous to last Tuesday. But the grub is pretty good and we have warm clean quarters.

Yours fraternally,
J. L. BREWER, Beta Zeta.
Great Lakes, Illinois.
Dec. 1, 1917.

LYON RETURNS FROM WAR ZONE

C. C. Lyon, Citizen war correspondent, who has been with Pershing's expeditionary force in France for the past year, arrived at New York Sunday.

He will reach Columbus Tuesday morning.

Lyon "went over" with the first American contingent and was with the American troops on different sectors.—Columbus (Ohio) Citizen.

"OVER THERE" AND BACK AGAIN

Sigma Nu Fraternity:

In the May number of the Delta my address was given as a member of the former "Norton-Hayes Ambulance Corps." Last year, from May until November, I served with the Norton-Hayes Ambulance Corps in France, working with the French Army. Please change my address to Flying Cadet Paul H. Dunnavan, Love Field, Dallas, Texas.

While in Paris I met several fine Sigs whom I met through the Inter-Fraternity register, which is kept in the Paris Y. M. C. A. club rooms.

Yours fraternally,
PAUL H. DUNNAVAN, Gamma Tau.
Dallas, Texas, May 19, 1918.

Inspector Hopkins

EX-INSPECTOR L. L. HOPKINS LANDS IN FRANCE

Sigma Nu Fraternity:

Just a scribble to you and all my other Sigma Nu friends. Haven't time for more. At any rate, you can advise them that I am here, and well. Also I am still as skinny as ever.

Haven't run into any other Sigs as yet, but have not covered much territory yet. Besides, they are a bit difficult to identify these days.

Hope all the Chapters will be able to "make the rifle" in spite of war conditions. Am sure our organization is now in prime shape to further such a condition.

Would be glad for a word from you letting me know how things are moving.

Fraternally,

L. L. HOPKINS, Delta Alpha.

France, July 2, 1918.

MOTOR MECHANICS' PAN-HELLENIC IS ORGANIZED

It was anything but a bunch of joy-killers that met in the mess hall of the 5th Co., 4th Reg., on Thursday evening, May 2, and organized the Motor Mechanics' Pan-Hellenic. No hint of anything like the Army Blues. In fact, after transacting some necessary business, they went willingly to work on the proposition of giving a dance in the near future. The meeting was well attended, and the men present represented a wide range of fraternities and colleges.

W. K. Mullins, Delta Epsilon, was elected president. Some college wit proposed the election of a duty-sergeant and a mess sergeant; the first was promptly ruled out, but it took the august interference of the chair to stop consideration of the second.

All men of the Third and Fourth Regiments who are members of a Greek letter fraternity, including professional fraternities, are urged to be present at 8 o'clock next Thursday evening in the mess hall of Fifth Company, Fourth Regiment.—The Propeller, Camp Greene, N. C.

Later Bulletin

The Pan-Hellenic dance of which I wrote you some time ago came off as per schedule and everybody had a big time. There were some sixty-five or seventy Fraternity men present, made up of officers and enlisted men.

Fraternally yours,

W. K. MULLINS, Delta Epsilon.

Camp Greene, N. C., June 25, 1918.

ELMER PONDER AWARDED FRENCH CROSS FOR BRAVERY

Sigma Nu Fraternity:

In the Pittsburgh (Penn.) Chronicle Telegraph, dated June 20, 1918, I find the following concerning Brother Elmer C. Ponder, Delta Epsilon, University of Oklahoma:

"In the war news of yesterday mention was made of the French war cross having been awarded to Lieutenant Elmer C. Ponder for bravery in action. Ponder is a former Pirate pitcher, having played with the club last year. He enlisted and after preliminary training was sent to France with a commission of lieutenant. He is the first baseball player to be honored with the French war cross."

W. K. MULLINS, Delta Epsilon.

"BIG JEFF" HEALY WOUNDED

Lieutenant Jefferson A. Healy, Infantry, who was captain of the Columbia University Football Team of 1916, and who went to France with the Third Division of the regular army, has been wounded in action and is now at a base hospital near Paris. Healy, who was known to all Columbia men as "Big Jeff," is a Plattsburg training camp graduate and, like Lieutenant Cross, was in the first contingent of Plattsburgers transferred to the regulars. Healy's home is in Chicago. At Columbia he was noted for his spectacular fashion of catching forward passes. He was also noted as a Latin scholar and as an orator. Healy is twenty-three years old and is a brother of Edward Healy of the 1917 Columbia Football team. The cablegram announcing that Lieutenant Healy had been wounded did not state whether or not the wound was serious.—New York Times.

IN THE "FOURTH" DEPARTMENT, ARMY

Sigma Nu Fraternity:

I have taken to letter writing lately and each evening I dash off a letter that is long due or worse, so don't be surprised to get it or to get it after so long a time. I have moved, shifted around and been in quarantine for a month and in the meantime I didn't write letters or receive any because I thought every day I would leave. Now I feel as though I'd be settled for at least a little while.

I transferred for the aviation department and came here five weeks ago. I was more than surprised when I got here because I was reduced to the plane of a raw recruit and had to go through all the torture that a man gets when he first gets into this institution. Seeing what I was up against and the slim chance to get what I expected, I immediately took advantage of an invitation to transfer to the medical department. I thought when I left that department at Camp Sherman that I'd never get back, but here I am. I was put in a special detachment of several hundred men to go to Dayton, Ohio, but the transfer was first, so I got out of the detachment. It sounded pretty good to think that I would get back to the greatest State in the Union again so near home, but I'm not sorry I'm here. I'm a dental assistant now. It's one of the nicest army jobs I have ever seen. I only fear it won't last long, for it is rumored that two-thirds of the dentists will soon leave and can't take the assistants along. That will put me out of a job and maybe give me one that I would despise. But such is the Army, and whatever comes I'll have to put up with it.

Before I forget to mention, I sure have appreciated the Deltas that somebody is responsible for sending. It reads a lot more

interesting than it did when I was in school, and that is saying a good deal. I have taken some addresses out of the last one of men who are or at least were in this camp. I am going to try to find a few of them when I get a little spare time. I haven't met a Sig since I left Camp Sherman.

I am now in the fourth department of the Army. I mean that I have been in four—Infantry, Field Ambulance, Aviation of the Signal Corps, and Dental. Guess I've seen a little.

I was pretty sore that I couldn't get a pass at the time of the Convention. I might have gotten it, but so many fellows were bothering the officers and at last they turned a deaf ear. But it evidently went perfectly well without my presence.

I can imagine that Chapters are having some time to keep alive. Pity they don't come under the war department so they could get all the necessities for the asking.

Fraternally,

C. K. STONER, Delta Zeta.

CAMP GORDON TRAINING CAMP

Best Fraternity in the World:

Please send me a dozen creeds for myself and some of the other boys in the Forty-fifth.

Chapters on the Way

As you will learn by this, we have changed stations, the whole regular brigade. We're whipping into shape now for overseas service.

We have visited the active Chapter in Atlanta (Georgia Tech) and they have a fine bunch of young fellows. While in Washington on "leave" last week, I spent one evening with the George Washington Chapter. Saw some old faces and met a number of new ones. Washington is the most interesting place in America now—something popping all the time, and uniforms of many nations to be seen on all hands.

German Prisoners

Last week we inspected the motley crew of German prisoners, at Ft. McPherson, just out of Atlanta. They are just the kind one would expect to find on the U-58, or on captured Kron Prinz Wilhelms. Some of them came from those boats and others direct from France.

Here are addresses of the boys here who changed stations with our brigade:

All in Camp Gordon, Atlanta, Ga.

Forty-fifth U. S. Infantry: Lieutenant Karl Henion, Case, Delta Alpha; Lieutenant Samuel C. Gist, Jr., Cornell, Gamma Theta; Lieutenant Roger E. Prosser, Gam-

ma Epsilon; Lieutenant Frank L. Yates, West Virginia, Gamma Pi.

Lieutenant Robt. W. Dathie, West Virginia, Gamma Pi.

Twenty-sixth M. G. Bn.: Lieutenant Harry Curry, West Virginia, Gamma Pi.

One Hundred and Fifty-seventh Depot Brigade: Lieutenant Clyde W. Hague, West Virginia, Gamma Pi; Captain Sidney Smith, V. M. I., Alpha.

With all best wishes, I am,

Yours fraternally,

FRANK L. YATES.

Camp Gordon, Atlanta, Ga.

May 16, 1918.

Forty-sixth U. S. Infantry: Lieutenant Jno. W. Easley, West Virginia, Gamma Pi;

THE ARMY AND NAVY FOREVER!

June 12, 1918.

Sigma Nu Fraternity:

Having a little time I thought it would be a good idea to send in some news that might interest you.

I received a letter from Frank Erben a few weeks ago. He is a warrant officer now in the navy. He is on a five weeks' trip to France and back. Frank will then take an exam. for a commission as ensign.

I have joined the army and am at a radio school about nine miles outside of Washington, D. C.

While I was down at the Columbus Barracks enlisting I came across a Sigma Nu by the name of Bishop. He is stationed there. After I had been here a week one of the boys in the room in which I sleep asked me if I was a Sigma Nu. I told him I was. He said that he was a Sigma Nu from Wisconsin. He has been out of school about nine years. His name is Jones. He has been sent to Fort Sill, Oklahoma. I am now trying to get in touch with the Alumni at Washington.

My brother, W. Edward Kneale, Delta Alpha, has been detached from the U. S. S. Vermont and has been sent to England. He had a ten days' leave to go home. Saturday, I received a telegram from him that he could not come down to see me as he expected, and he said that he would leave Tuesday. I immediately left for New York and spent all Sunday morning with him. We certainly had a fine time. He is a lieutenant, junior grade. His promotion was dated January 1.

Fraternally yours,

RALPH KNEALE, Delta Alpha.

U. S. Radio School,
College Park, Md.

P. S.—Davis, a Case Sigma Nu of '16 class, just came in. He was transferred from the camp in Georgia.

With Military Honors

Here We Write 'Immortal Dates'

"Thinking of our Fraternity not only as a Brotherhood of militant force, but also as a creative force for the spiritual development of men."—The Creed of Sigma Nu.

LIEUTENANT COLONEL BERTRAM TRACY CLAYTON

Theta

Telegrams received in Montgomery late Tuesday afternoon by Judge Henry D. Clayton, of the United States Court, contained the official announcement of the death of Judge Clayton's brother, Lieutenant Colonel Bertram Tracy Clayton, U. S.

Bertram T. Clayton
Theta

A., in action in France. Colonel Clayton was a son of Major General Henry D. Clayton, C. S. A., and president of the University, and was born October 19, 1862, on the old Clayton plantation near the town of Clayton, Ala.

Colonel Clayton was educated at the University of Alabama and in 1886 was graduated from the United States Military Academy, at West Point, where he was a classmate of General John J. Pershing.

After his graduation, he served as a lieutenant in the army for several years in the West, in Dakota and elsewhere, while the Indians were being subdued by United States troops.

Leaves the Army

Later he resigned his commission in the army and took up the pursuit of the profession of civil engineering in Brooklyn, N. Y.; while there he became colonel of the 14th Regiment of New York National Guard. At the outbreak of the Spanish-American war Colonel Clayton organized Troop C of the New York (Brooklyn) Cavalry and went with it to Fort Alger, near Washington, D. C., and was put in command of the New York squadron, composed of Troops A, B and C, of the New York Cavalry.

Goes to Porto Rico

He went with General Miles' army to Porto Rico, and commanded the advance guard of the army in Porto Rico, and his troop was engaged in action at Coamo and Aibonito, P. R., just before the protocol was proclaimed. Upon Col. Clayton's return to New York after the Spanish-American war, he was nominated by the Democrats of the Third New York District for Congress and was elected to the Fifty-sixth Congress by more than three thousand votes in a Republican district.

Appointed a Captain

At the expiration of his service in Congress he was appointed a captain in the regular army by President Theodore Roosevelt. He served three years as quartermaster in the Philippine Islands and afterwards superintended the erection of the army barracks at Fort Jackson, near New Orleans. He also served several years as quartermaster at West Point and while there superintended the completion of the new academy buildings.

Colonel Clayton served several years in the Quartermaster's Department at Washington and was afterwards sent as quartermaster to Panama. At the outbreak of the war with Germany he was detailed to serve as second in command of the transport

service at New York. He requested an appointment to the line and asked to be sent to France to serve his country there.

Lieutenant-Colonel

He was promoted to lieutenant-colonel but was kept in the Quartermaster's Department because of his large experience and sent to France. Shortly after Major General Robert Lee Bullard, an Alabamian, took command of the First Division on the firing line, Colonel Clayton was made quartermaster of that division, succeeding Col. Cheatham.

It is interesting to note that Major General Cheatham, C. S. A., father of Colonel Cheatham, and Major General Henry D. Clayton, C. S. A., father of Colonel Clayton, both commanded Confederate divisions in General Stephen D. Lee's corps of the C. S. A.

A Regular—Not a Hero

Colonel Clayton was every inch a soldier, tall, erect and muscular, he was of distinguished appearance. Doubtless he could have stayed in the transport service at New York, but he was anxious to see active service and begged to be sent to France. In the language of General Lawton, who was himself a fighter, Colonel Clayton "was a regular and not a hero." He has died on the soil from which his ancestor, Thomas de Clayton, one of the soldiers of William the Conqueror, went with the Conqueror to England in 1066.

Is First to Go

General and Mrs. Victoria Hunter Clayton left surviving seven sons and four daughters and Colonel Clayton is the first of their children to die. He met the supreme test and made the supreme sacrifice and poured out his life's blood as a "libation to liberty's cause."

Colonel Clayton is survived by his widow, two sons, six brothers, two of whom are Sigma Nus, Judge Henry D. Clayton and J. P. Clayton. See "Kindred Brothers" for the sketches of their careers to date.—Montgomery (Ala.) Advertiser.

DONALD H. CHARLTON

Beta Nu

An air-pocket, dreaded by aviators, is blamed for the death of Donald H. Charlton, of Bucyrus, Ohio, who died in a fall on Taliaferro Field, near Fort Worth, Texas. The body was immediately sent to his home, where a public service was held with soldiers and sailors as active pallbearers, and with a corps of honorary pallbearers.

The fatal fall had not crushed the young man so dreadfully as has been the case in some similar accidents. Both legs were broken and a terrible wound inflicted at the throat, where he was thrown against some part of his machine, but his features were practically unmarred.

The city flag hung at half-mast all through the service. Four young men from Sigma Nu Fraternity of Ohio State University were also in attendance.—Bucyrus (Ohio) Journal.

LIEUTENANT JOHN DAWKINS

MATHIS

Gamma Alpha

Lieutenant John D. Mathis was killed in action in France, June 6, 1918. His brother, Lieutenant Evan T. Mathis, Jr., Gamma Alpha, is also in France, having gone over several months after Lieutenant John Mathis, who was one of the first of a large party of American officers sent to France early in the war to study European methods of warfare. He was a graduate of the first officers' training school at Fort McPherson, a young man of splendid business qualifications, and a member of one of the most prominent families in this section.

The war department telegram announcing the death of Lieutenant John Mathis gave no details concerning the manner in which he met death except to state that he was killed in action.—Atlanta Constitution.

Spencer T. Alden
Gamma Theta

SPENCER THORNDYKE ALDEN

Gamma Nu-Gamma Theta

Ensign Spencer Thorndyke Alden, Gamma Nu-Gamma Theta, instructor in naval aviation, was killed by a fall while flying with a pupil at Great South Bay, Long Island, New York, on May 4, 1918.

Brother Alden's home was in Fort Wayne, Indiana, but he had prepared for college at Michigan High Council, Ann Arbor, and entered the University of Michigan in 1913, where he was initiated into

Sigma Nu. Two years later he transferred to Cornell, taking the agricultural course. He had an exceptionally good bass voice and was a member of the Glee Club and also of the Savage Club. He left college in April, 1917, and enlisted at Newport, R. I., as a second class machinist's mate in the Naval Reserves.

His record shows him as one of the first six out of a class of fifty-seven at the Massachusetts Institute of Technology. He was commissioned in the Naval Aviation March 14, 1918, as an ensign.

His progress was rapid and after only seven hours instruction he was allowed to solo (fly alone). He was transferred from Pensacola to the Bay Shore Station, where he expected to have charge of squadron flying, but the C. O. (officer in charge) was anxious to train thirty-eight new men in their primary lessons and he was assigned to instruction work. In one week he turned out four new men ready to solo and then began giving advanced instruction.

Here they had a few large sea planes known as R-6's. He was driving one of these to New York City during the Liberty Bond Advertising Campaign, when something went wrong and he landed at Rockaway, returning in a second plane. The next day Brother Alden went out with a student who had already soloed for twenty hours. Suddenly the plane started a spiral down from about two thousand feet elevation. At about four hundred feet above the water it went into a side slip and fell. It seemed to commence regaining position before it crashed to pieces on the water. Another officer who saw the accident says: "From what I know of the work and what I saw, the student after safely spiralling down most of the distance for a practice landing on spiral, failed to bank and the aero naturally side slipped. As the fall began, Alden took the control, but had insufficient distance to right the aero so its descent could be changed into level or ascending flight. From appearances, I think he would have succeeded had he had even a hundred feet more dropping distance."

WILLIAM H. TOWNSEND

Delta Beta

I have received a letter today from Mrs. W. H. Townsend, of Wyoming, Illinois, whose husband was in the Class of 1915, and a member of Delta Beta Chapter of Sigma Nu, and in it she gives an account of her husband's death in France.

The following extract from the letter you may like to publish:

"We have heard rather indirectly that he was shot down by an anti-aircraft gun. They were returning from a bombing expedition in the early evening; they had been severely arched but were all safe and were landing. He was the last one down and

was only one hundred feet up when his machine burst into flames; he was thrown out unconscious and died an hour and a half later. His observer was killed instantly. He was apparently hit by a shell, although I don't see how they could shoot so far behind the lines. He had been at the front but three weeks. Left for France April 1 and was killed April 23. He received his commission in October and sailed for England November, 1917. Sometime in March he was made first lieutenant."

CHARLES J. WESTON.

[See the Delta, May, 1918, page 832, for our first account of Brother Townsend's death.]

JEFFERSON A. HEALY

Delta Gamma

Just received word that Brother Jefferson A. Healy, Columbia Chapter, died from wounds received in France. This word came to me today, August 23. "Jeff" was a splendid man and had taken both his college and law degrees at Columbia University. Brother Healy paid the price for the cause of freedom and his devotion shall not be forgotten. I cannot say, in words, how deeply this thing has touched me. I can see him right now tearing up and down the football field at Columbia using every inch of his six feet and every ounce of his weight, in perfect abandon, to bring victory to Columbia. There is no doubt in my mind but that was the way he fought and died for the cause of America.

A. H. WILSON, Beta Iota.

J. A. H.

Dead in France, August, 1918

Sunny Jeff! Whose heart and hands were great
Holding all kindness in them, and joy of youth,
We shall remember you, who died for truth;
You shall remain in all hearts incarnate,
What you had been in those old days when you
Came to the House with laughter and with jest
Fresh from the field, surrounded by the rest
Who sought to learn the fellowship you knew.
Honest you were and kind—no kinder grew
Among the Legion that the bright Star led.
(And eyes upon the stars, you fought, and bled
And past the stars your great warm spirit flew.)
We saw you come to us, and smile, and pass—
So short your draught—but oh, how rich your glass!

ARCHIE AUSTIN COATES,

Delta Gamma,
D. G., U. S. N. R. F.

HENRY F. MICHELL, SECOND Delta Delta

The sad news of the death of Henry F. Mitchell, 2d, was received in Philadelphia, April 9, through the following brief announcement from the War Department: "Your son Harry died from drowning, in line of duty, on April 7, 1918." Harry was 23 years old. He was born in Philadelphia, and for nearly two years he studied scientific agriculture at State College and, last July, enlisted in the Engineers Corps, entering the class then receiving instruction at the University of Pennsylvania. His corps went to France July, 1917. The dispatch from Washington did not give details of how the young engineer met his death, simply stating he had been drowned on April 9. The presumption of his friends is that he was engaged in bridge building or similar operation at the time.

Lieutenant Carl O. Rosequist
Delta Theta

CARL O. ROSEQUIST Delta Theta

Lieutenant Carl O. Rosequist, Infantry, died May 10, 1918, from wounds received in action. He was among the first to be sent across for experience in French and British training camps. After short visits at several of these camps he was given charge of a company of British soldiers stationed in the first line trenches. Lieutenant Rosequist worked with the "Tom-mies" until the regular army men of the United States arrived, when he was ap-

pointed as first lieutenant, U. S. A. It was while in this capacity in the front line trenches that he met his death.

Brother Rosequist was twenty-four years old. He was born in Evanston, Illinois, and in his high school days developed into an athlete of ability. Entering Lombard College he won both athletic and scholarly distinction. Here he joined Delta Theta Chapter. He was captain of the football, baseball and basketball teams, and during his senior year was the director of athletics for the college. After graduation in 1916, he taught mathematics and English at the Fulton County High School, Lewiston, Illinois, also serving as director of athletics there. From this place he entered the first officers training camp at Fort Sheridan, where he was commissioned.

CAPTAIN R. H. BACK Delta Iota

A seventh gold star was added to the State college service flag today when word was received of the death in action of Captain Roscius Harlow Back, until the school year of 1916-17 a student in the department of hydro-electrical engineering. Captain Back was a son of Judge and Mrs. R. H. Back of Vancouver, Wash., and was associated with the Sigma Nu Fraternity while in college. As a student he took a keen interest in military affairs and attained the rank of first lieutenant. He left college several months previous to America's declaration of war to enlist in the regular army. Upon the entrance of the United States into the war he was assigned to Camp Green, Charlotte, N. C., as a member of the Fourth Division, Eighth Brigade.

His advancement in military life was rapid, due to his preliminary training and natural aptitude and he was advanced to the rank of first lieutenant before sailing for France nearly a year ago. Soon after arriving on foreign soil he was granted a captain's commission, and went to his death in action wearing the stripes of that office. —Spokane, Wash., Spokesman-Review.

JUDGE BACK'S SON LIVES Captain Roscius H. Back Is Reported Alive and Well in France

Just as we were "pulling page proof" comes the cheering message given below. Since it was too late to change the black border around his name in the Knights of the Republic, we are leaving the notice of Brother Back's death stand as corrected, as follows:

On July 31 last a telegram from the War Department addressed to Judge R. H. Back of the circuit court here announced that his son, Captain Roscius H. Back, had died in France of wounds received in action. Today a cablegram received by relatives of the captain announced that he was alive and well.

LOUIS P. MUTTY

Delta Iota

Brother Louis P. Mutty was killed in an airplane accident at Miami, Fla., July 10, 1918. No details have been furnished us.

Brother Mutty was a senior in the college of agriculture, State College of Washington, Pullman, Washington, when he answered the call to the Colors, choosing the navy. He was assigned to the naval aviation corps and was sent to San Diego, California, for training, later going to Florida to complete his air schooling.

Brother Mutty was prominent in student activity while in college, being a member of the varsity tennis team three years and captain of the team one year.

Louis Peter Mutty
Delta Iota

ALFRED RICKERT HAMEL

Delta Kappa

Brother Alfred Rickert Hamel, captain, Infantry, France, was killed in action in the drive at Chateau Thierry. Brother Hamel was initiated at Delaware State College in 1911, and was a prominent man while there. He was captain of both the football and basketball teams in his junior year. His home is near Philadelphia, Pa.

ROGER WHITMAN HILLIS

Delta Pi

Brother Roger W. Hillis is reported killed in accident in France. When war was declared he left the employ of the Goodyear Rubber Company and tried to enlist in the service. Every recruiting office in Akron and Cleveland, Ohio, turned him down, and also at Seattle, Washington. He then went across the border and joined the Canadian Engineers and was almost im-

mediately sent across. After a short stop in London his regiment went directly to the front.

This letter from a comrade tells the final act of his life drama:

"You'll know about Roger long before you receive this, but I thought you'd like to learn the particulars. I was his closest friend here in the army, and he left a list of addresses for me to write to in case he 'went West.' He was every inch a man and yet he had the highest ideals and cleanest mind of any boy I ever knew. I can understand why he had so many friends. He was such a big, jovial, likable fellow, and his loss is regretted by many of the boys here.

"We volunteered for a raid, and we were lying together in a small shell hole out in 'No Man's Land' waiting for the barrage to open up when a 'Fritzie' machine gun made a casual sweep and Roger fell back in my arms with a bullet through his heart. He didn't suffer any and died wonderfully game, trying to tell me something with his last breath, but I couldn't catch it quite. Private C. C. Mathews.

"P. S.—You may like to know that his commission was coming through, and he'd soon have been an officer."

Brother Hillis spent his first two years in college at Oberlin, where he was captain-elect of the 1917 team. Nevertheless, he transferred to George Washington University, being elected captain of the football team there, too. He also played guard on the basketball team and was considered one of the best athletes in college. At George Washington he joined Sigma Nu.

FOR FAITH AND FLAG

Already we have begun to mourn for our heroic dead—for those who have fallen on the fields of honor across the seas, fighting for the Cross and the Faith. But more than sorrow fills our hearts—rather a solemn joy and pride in the peerless and unwavering purpose of these sons of Liberty to free the world of its wrong. For them the transition of death was an incident—to face the wrong and destroy it—this was the firm and unyielding compulsion of their souls.

Already we have written their names upon the historic scrolls of our Knighthood. Henceforth they shall be as a Lamp to our feet, a Pillar of Fire to our eyes—calling us to high endeavor, to steadfast Loyalty for our Faith and for our Flag.

Knightly sons at once of the Republic and the Fraternity: You have realized in death the ultimate ideal of your lives—the unselfish ministry of service—and in doing so you have achieved the fullness of all worldly success, leaving to us a cherished memory of a strong and fearless life, given freely to others.

WALTER J. SEARS, Nu-Beta Nu.

Knights of the Republic

*"To guard with jealous care * * * the ancient rights of human freedom, in whose name we shall destroy all wrong and oppression, * * * And so to be faithful to the Knighthood of Truth."—The Creed of Sigma Nu.*

[Our thanks are due to the Chapter Reporters and Alumni correspondents who are taking a keen interest in keeping our Honor Roll up-to-date and complete. Every reader, your co-operation is necessary to an accurate record.

The War Department has asked that military addresses be not published, and hence they are to be hereafter omitted. But we must have them in all cases, for our mailing list, to insure every Sigma Nu Knight-in-Arms the regular receipt of his Delta.

The initiate's number following each name stands only as a verification. More than two hundred names have been sent in which do not appear on our membership list. As our correspondents' information is sometimes incomplete we expect this confusion, but we would ask you to specify initiate or pledge to give his chapter and not to use nicknames or initials.

Remember we often have several men of the same name, so that as full information as you can obtain about a man is sometimes necessary for identification.—The Editor.]

Knights Afield and at Home

We want the name of each chivalric son that it may be enrolled in the immortal scroll of our history. We honor and love all of them. We shall pray for them through the bivouac and the battle. We shall watch for their return, and living or dead we shall hold them in cherished memory, immortal.—Walter J. Sears, Nu-Beta Nu.

Summary

This honor roll, as shown by the following tabulation, includes every live Chapter and most of our dead Chapters. This table is correct as far as data has been furnished our office. The total number is, of course, much larger.

Chapter	Total	Affil- ates	Net Total	Dead	Chapter	Total	Affil- ates	Net Total	Dead
Gamma Lambda	80	1	79		Delta Kappa	31	0	31	1
Beta Psi	75	3	72		Lambda	29	3	26	
Beta Iota	66	4	62		Beta Kappa	29	0	29

A Prayer Before Battle

I wear my Five Armed Star close to my heart under my uniform and consider it as a protection. The Creed is my guide and should I join the "Unknown Band," I hope the honor roll of Sigma Nu shall be not one whit less white on account of me.

VICTOR L. KEBLER, Delta Pi.

Greek News

By Past Regent A. H. WILSON.

Alpha Chi Rho has entered Lehigh University and thus establishes her sixth Chapter within the state of Pennsylvania. Alpha Chi Rho makes the twenty-sixth Fraternity to place a Chapter at this university.

Sigma Chi has placed her second Chapter within the state of Montana by entering, as the pioneer, the Montana State College. Sigma Chi at the University of Montana and the Montana State; Sigma Nu at the State University and Sigma Phi Epsilon at the State University comprise the extent of the Greek Letter life within the bounds of Montana.

Delta Tau Delta has chartered the Kappa Theta local Fraternity at Amherst College, Amherst, Mass. Amherst is one of the real Fraternity centers in New England and Delta Tau Delta will meet Psi Upsilon, DKE, Alpha Delta Phi, Chi Phi, Phi Delta Theta, Phi Kappa Psi, Delta Upsilon, Phi Gamma Delta, Beta Theta Pi, Theta Delta Chi, and the local Sigma Delta Rho.

Sigma Pi has withdrawn her Chapter from Temple University, Philadelphia, Penn., and placed her Mu Chapter at Cornell University.

Richmond College, Virginia, has been taken over by the Federal Government as a base hospital for our soldiers returning from France. The college has met the issue enthusiastically and gladly surrendered their beautiful site at Westhampton for the duration of the war and on June 1st will remove back to their old buildings in the city of Richmond. Fortunately the old buildings are still intact and the college will suffer no great loss in the continuance of their work next year. All the professors will be retained and to assist in the housing of the student body the Fraternities will be permitted to occupy Chapter houses, a thing that was not yet permitted at the country place. All the Fraternities are responding and will rent homes near the college campus. The government will add new and permanent buildings in keeping with the present beautiful structures now on the Westhampton campus and at the end of the war these will be given outright to the college plant. So in the long run the college will be the material as well as the sentimental winner. This is the second time in the history college that Richmond has been taken for hospital purposes for during the war between the

States Jefferson Davis made use of Richmond College to take care of the Confederate wounded. It has been shown that after ships from abroad have landed at Newport News, Va., the wounded soldiers, via the Chesapeake Railway, can be brought to the Richmond campus. The entire college world, as well as all true patriots, will honor Richmond College in her splendid response to our President's call. Such willing sacrifice will not go unrewarded.

A few years ago the so-called Rocky Mountain States were practically unknown to the fraternities with the exception of Colorado, where Delta Tau Delta had established her Chapter in the early eighties. Today every one of these States have become a part and parcel of the Greek letter life as follows:

Idaho State University—Kappa Sigma, Phi Delta Theta, Beta Theta Pi and Sigma Nu.

Montana State University—Sigma Nu, Sigma Chi and Sigma Phi Epsilon.

Montana State College—Sigma Chi.

Nevada State University—Sigma Nu, Phi Sigma Kappa and Sigma Alpha Epsilon.

Utah State University—Sigma Chi, Pi Kappa Alpha, Phi Delta Theta and Beta Theta Pi.

New Mexico State University—Sigma Chi and Pi Kappa Alpha.

Arizona State University—Kappa Sigma, Sigma Alpha Epsilon and Sigma Nu.

Wyoming State University—Alpha Tau Omega, Sigma Alpha Epsilon and the Gamma Theta Chi (local) petitioning Sigma Nu.

Within the State of Colorado, the forerunner of the Rocky Mountain Chapters in Greekdom, there are five colleges where these Chapters have been established:

University of Colorado—Delta Tau Delta, Sigma Alpha Epsilon, Beta Theta Pi, Sigma Nu, Alpha Tau Omega, Phi Delta Theta, Sigma Chi, Kappa Sigma, Sigma Phi Epsilon, Alpha Sigma Phi, Phi Kappa Psi and Phi Gamma Delta.

Colorado Mines—Sigma Nu, Kappa Sigma, Sigma Alpha Epsilon and Beta Theta Pi.

Colorado College—Sigma Chi, Kappa Sigma, Phi Delta Theta, Beta Theta Pi and Phi Gamma Delta.

Denver University—Sigma Alpha Epsilon, Kappa Sigma, Beta Theta Pi, Sigma Phi Epsilon and Lambda Chi Alpha.

Colorado Agricultural College—Sigma Nu, Sigma Phi Epsilon and Sigma Alpha Epsilon.

Theta Delta Chi has withdrawn her Harvard University Chapter after an unbroken existence there of more than one-half century. With the passing of Theta Delta Chi there still remain at Harvard Chapters of Delta Upsilon, Sigma Alpha Epsilon, Kappa Sigma, and Alpha Sigma Phi. Dormant Chapters at Harvard are: Alpha Delta Phi, Beta Theta Pi, Delta Phi, Psi Upsilon, Zeta Psi, Delta Kappa Epsilon, Phi Kappa Sigma and Chi Phi.

Delta Tau Delta refutes the statement she has lost her Chapter at Columbia University. On the other hand arrangements have been made for Delta Tau Delta to either occupy an apartment or a suite in one of the dormitories when the university opens in September. The report of the Chapter loss became current through the newspaper telling of the sale of the Delta Tau Delta house owing to enlistment of the Columbia "Delta" in the army and navy. Sigma Chi at Columbia has given up her house also, and has already been established in Livingston Hall. If the war continues for any great length of time no doubt other Columbia fraternities will follow these two fraternities into dormitory housing. Sigma Nu is happy to know that Delta Tau Delta will remain at Columbia for her place there would be difficult to fill as Delta Tau Delta has played a most important part among the Greeks at the big university.

Theta Xi has purchased a very chapter house at the Stevens Institute of Technology, Hoboken, N. J. The house is on the fashionable Hudson Street and at the edge of the campus.

Maryland State College fraternities have been requested by the authorities there to give up their chapter houses for the duration of the war and to reside at the college dormitories. The request has been met by the fraternities and Kappa Alpha, Sigma Phi Sigma and Sigma Nu are now located in Calvert Hall.

Alpha Chi Rho is said to be looking with favor upon petitions from Dartmouth College and the University of Michigan. Also, the efforts of the Western Alumni of this Fraternity to revive the only dormant Chapter of Alpha Chi Rho and at the Iowa State University. For some time the chapters of Alpha Chi Rho were confined to the thirteen original or colonial states, but such restriction whether actual or seeming

has been put aside and Alpha Chi Rho has become national in chapters as well as in name.

Theta Chi has placed her fifth chapter below the Mason-Dixon line at the Alabama Polytechnic Institute. Other Southern chapters of Theta Chi are at the University of Virginia, Hampden-Sidney, Richmond College and the University of Florida. At Alabama Polytechnic the Theta Chi will meet Sigma Alpha Epsilon, Kappa Alpha, Phi Delta Theta, Alpha Tau Omega, Kappa Sigma, Pi Kappa Alpha, Sigma Phi Epsilon and Lambda Chi Alpha.

Alpha Xi Delta Sorority has placed her twenty-fifth chapter at the University of Pittsburgh. The entrance was made within the month of June and was accomplished mainly through the work of the Pittsburgh alumnae, assisted by the Alpha Xi Delta chapters at Mount Union College, Bethany College and West Virginia University. This is the first chapter of this sorority to be established within the State of Pennsylvania.

Sigma Nu has established her Epsilon Alpha Chapter at the State University of Arizona and in doing so has added her fortieth State and the District of Columbia to her fraternal possession. At Arizona Sigma Nu will meet Kappa Sigma and Sigma Alpha Epsilon. Two locals are said to be petitioning nationals for charters.

Within the past few months the colleges of New England have been given more than usual attention by the Greek letter fraternities. The known establishments are:

New Hampshire State—Sigma Alpha Epsilon.

Trinity College—Delta Phi and Sigma Nu.

Bowdoin College—Sigma Nu and Chi Psi.

Amherst College—Delta Tau Delta.

Pi Kappa Phi has revived her Alpha Chapter at the City of Charleston College, South Carolina, and enters in friendly rivalry with chapters of Kappa Alpha and Alpha Tau Omega.

Chi Psi has re-established her Alpha Eta Chapter at Bowdoin College, Maine. Chi Psi first entered Bowdoin in 1844, but became dormant in 1866, after one hundred and fifty-six men had been initiated. In entering Bowdoin Chi Psi absorbed the Phi Theta Upsilon (local) Society. In chronicling the event "The Purple and Gold" of Chi Psi remarks: "Today Chi Psi needs, and in fact, can always use the right material, and this new crowd has certainly furnished unmistakable evidence of their fitness to become Brothers."

Utah State University—Sigma Chi, Pi Kappa Alpha, Phi Delta Theta and Beta Theta Pi.

Clippings and Comment

PIRATES IMPALED

Our genial and brazen contemporaneous pickpocket, the Delta Chi Quarterly, which lately "lifted" bodily two of our original contributions has been transfixed by the friends of journalistic ethics, our Brother Editors of Alpha Sigma Phi and Delta Upsilon, while Brother Banta's Greek Exchange silently pillories the pilferers with his "comment is unnecessary."

Editor H. E. Chapin, of Alpha Sigma Phi, republishes our essay "On Honor Among Thieves" and follows it up with the following editorial on "Editorial Piracy," which speaks for itself:

Editorial Piracy

In the last number of the Tomahawk we reproduced an excellent article entitled: "What I Missed Without a Fraternity," giving credit to the Delta Chi Quarterly, which had published it as an original contribution. But we were astonished to learn, soon after, from the editor of the Delta of Sigma Nu that this article had been deliberately appropriated from an old number of that ably conducted and highly esteemed magazine. Not only had no credit been given to the Delta of Sigma Nu, but the article has been so skillfully juggled that it was made to appear as written by one of the contributors of the Delta Chi Quarterly. Were it not for such concrete evidence, it would have been impossible to believe that the editor of any Greek letter periodical could, in his eagerness to appropriate an article from an exchange, be so brazen as to substitute the name of his own Fraternity for that of the one to which the article was originally contributed. The March number of the Delta of Sigma Nu very properly scores this species of editorial trickery, and, to prevent it in future, has deemed it necessary to have all its articles copyrighted.—The Tomahawk of Alpha Sigma Phi.

Then along comes the "Gossip of the Greeks," who politely is the exchange editor of the Delta Upsilon Quarterly, and, though no sufferer in the present case, he thus expresses his pleasure in the exposure and punishment of predatory editing.

"The following set of facts startled your law-abiding Gossip in his studious search for fodder in the Greek pastures. He wondered whether the days of pirates and buccaneers had returned along with those of ruthless warfare. He is pleased to note that such actions cannot go unpunished and that justice is still our foundation. Under

the title of 'On Honor Among Thieves' the current issue of 'The Delta' of Sigma Nu metes out judgment upon the culprit."

To all of which let us add Editor Banta's "brief", who also was "taken in" by the bare-faced methods of "appropriation."

"We reprinted with due credit to the Delta Chi Quarterly a little article entitled 'What I Missed Without a Fraternity.' The spirit and point were so admirable that it seemed well worth the repetition.

"But the editor of the Delta points out that the article was originally published in that magazine, the only difference lying in the name of the Fraternity. Of course we were entirely innocent in our reprinting it in its changed form.

"Comment as to the ethics involved would seem to be unnecessary."

We have as yet heard nothing from the Delta Chi Quarterly.

STUDENT SELF GOVERNMENT

President Benjamin I. Wheeler of the University of California, in his commencement address of 1918, drew an interesting comparison between world democracy and educational democracy as expressed in Student Self Government.

The following interesting tribute to Student Self Government appearing in that address is recorded in the California Alumni Fortnightly.

Part of his address follows: "Student self-government is typical of the sort of education which serves the purposes of democracy. It encourages men to be frank, full exercise of popular government which is a government springing from within a man or within a community, not imposed from without. The education suited to an autocracy deals with formal discipline applied by the weight of an authority dictated from above; the education familiar to democracy deals with inspiration and interest unfolding from within. The one teaches by assertion that it is, the other by encouraging to open the eyes and see; the one by rote and dictation, by rehearsing and reciting, the other by working together and coming together into the knowledge of truth. The one compels the children of industrial classes through early vocational choice to be sidetracked at twelve and become slaves of routine, the other leaves the way open to the last for every child to fulfill what is in him. The one is the German way, the other is the way of free peoples.

Remember Pittsburgh has twice and plus as many paid up-to-date members as any other Sigma Nu Alumni Chapter.

This number completes a volume of The Rainbow that has been produced under difficulties and handicaps too numerous to mention. The Editor has been ground between the millstones of almost doubled costs and a decrease of nearly eight hundred in the

subscription list. Still, the record of continuous publication since 1877 has been maintained.

"Perhaps that is true in some cases. But that is the man's fault, not the Fraternity's. On the contrary, for most Brothers, the Fraternity means more, and has added interest as they grow older, because they see it from a national not a local viewpoint."

Fraternally,
R. C. HARDING, Secretary.

Editor's Miscellany

NO LONGER DO WE DANCE THE "GERMAN"!

From widely separated sources comes the following suggestion. We suspect our Brothers are acting unofficially on it already, but it will soon be a matter of official change.

At the dinner of the New York Alumni Chapter, given to the High Council last June, Brother Maurice V. Samuels, Beta Psi, entered a strenuous protest in the name of the New York Alumni against the German word in the Sigma Nu yell.

"Ausgezeichnet" has ugly associations in our minds just at present. Two suggestive is it of 'spurious versenkt.' The idea we want lies in the Latin 'ex conspectu'—out of sight, literally translated."

And in July comes a letter from Brother Herold T. Ross, Beta Beta, which details the action taken by our soldier Knights at Camp Hancock, Ga.

"And after the boys had all had all that even an army appetite calls for, we had a few talks and it developed that there were thirty present, representing 19 different states and some 23 different Chapters. And while we had trouble harmonizing on a song (the need of an official song was apparent), we hit on all six when it came time for the Hi Rickety! Some of the boys were inclined to think that the 'As——tz' part of it should be changed in view of the fact that it is German, and some felt that it would be a shame to change a yell, so closely connected with our history, and as a result, we finally gave it right and expressed our opinion of the Germans in more elaborate manner afterwards."

Proposals for the right substitute to use for the condemned word are in order.

CAMP PUBLICATIONS

The Editor's thanks are due for the many camp papers and souvenirs sent to him by Brothers-in-Arms.

Much valuable news and information has been gleaned from these for the papers of this Delta. To Brother W. K. Mullins for the "Propeller"; to Brother Don Krull, Gamma Nu, for the "Fort Des Moines Post"; several Brothers for "Trench and Camp" (Camp Hancock), and to Brother William S. Hedges, Gamma Rho, editor of "The Pilot" of the Ohio State University School of Military Aeronautics.

Half a dozen Brothers have sent us copies of the Paris editions of the Chicago

Tribune and New York Herald, and Brother John F. Merrill, Gamma Delta and Gamma Lambda, the "Plane News," which claims the distinction of being "the only A. E. F. newspaper edited and printed by soldiers."

VISITORS' REGISTER

Here we present the roll of visitors to the General Office, since the May Delta was published.

It is not necessary to repeat our invitation again. Sigma Nus are heartily welcome always and often. Come, Brothers, who pass through Indianapolis—make the General Office your headquarters while here. And Brothers in urbe, stop in whenever you can.

April 15, Arthur R. Kelly, Beta Zeta, 1102 Nevada Bank Building, San Francisco, Calif.

April 19, Paul W. Johnson, Beta Beta, 210 W. Jefferson St., Fort Wayne, Ind.

May 3, Walter J. Sears, Nu-Beta Nu, Chillicothe, Ohio.

May 11, W. A. Rooker, Delta Omicron, care Idaho Tech., Pocatello, Idaho.

May 15, John E. Rosser, Xi-Sigma, 313 S. Preston St., Dallas, Texas.

May 23, Harrell V. Baily, Beta Beta, 35 W. Ohio St., Indianapolis, Ind.

May 31, F. B. Leist, Beta Eta, 322 Kirkwood, Bloomington, Ind.

June 7, J. E. Moffat, Beta Eta, 322 E. Kirkwood, Bloomington, Ind.

June 18, John C. Scott, Beta Zeta, 6569 De Longpre Ave., Los Angeles, Calif.

June 23, Chas. M. Wells, Beta Eta, 2126 College Ave., Indianapolis, Ind.

June 24, Herschel A. Auxier, Gamma Iota, Edinburg, Ind.

July 1, Tracy M. O'Brien, Beta Beta, Clayton, Ind.

July 15, G. E. Sears, Beta Eta, Danville, Ind.

July 18, Harrell V. Baily, Beta Beta, 35 E. Ohio St., Indianapolis, Ind.

July 1 G. E. Sears, Beta Eta, Danville, Ind.

August 19, E. B. Hall, Gamma Mu, Indianapolis, Ind.

August 26, G. R. Eppesie, Beta Upsilon, Indianapolis, Ind.

September 3, Herschel A. Auxier, Gamma Iota, Edinburg, Ind.

September 3, Royal Davis, Beta Beta, Greencastle, Ind.

September 5, Frank C. McConnell, Beta Zeta, Sheridan, Ind.

September 5, Kenneth Massengill, Beta Zeta, Henderson, Tenn.

ARMY RECOGNITION GUARD

Sigma Nu Fraternity:

All the boys agreed that it would be fitting and proper that some form of insignia be added to the pins of those who were in the army during the war. This would sort of be the Fraternity recognition of the willing and eager sacrifice which the men of the Fraternity have made, and would prove, I am sure, a valued thing to the men, and as many will not return to their colleges again, it will always explain to Sigma Nus their situation. I am merely expressing the sentiment of some twenty boys here in the camp. We thought of something that could be worn as the Chapter letters were worn, but that part of the plan was not marked out in detail, but merely submitted for your consideration.

HEROLD T. ROSS, Beta Beta.

Camp Hancock, Augusta, Ga.

A THANKY JOB

Fraternity Service a Reward In Itself

[An Alumnus aptly hits the mark in a letter to us in which reads between every line the spirit of Sigma Nu. Our faithful working cohort of volunteer correspondents are always at hand though they themselves little know the service they render through the Delta and the General Office to the cause of our Fraternity. They may never receive outward recognition, but they are always happy in their service of love and in their harness of honor.

It need be stated here that this latter was confidential and not for publication, though we cannot help sharing it with our Brothers in the hope that it may inspire some hitherto silent Knight to break into print even anonymously.—The Editor.]

Sigma Nu Fraternity:

When I read the May Delta, I found so much space allotted to myself it embarrassed me. I must say that I appreciate any recognition given "the old man" by the "boys." I have know nothing but serving most of my life. If there were a thank you job in church or State, I got it. Never had a pay one in my life. Guess that is why I am so happy.

It is with just pride I note that so many of our men have offered their services for Liberty and Democracy. My dear boy left this week for Camp Sevier, Greenville, S. C. We expect nothing less of loyal Sigma Nus. The responsibility is upon us. Will we meet it?

Who knows but we for such a time,
And for a duty so sublime,
Have come upon the scene just here,
To show the world whom we revere.
America, the land of the free, and the
home of the brave! Aren't you proud you
are an American citizen?

Fraternally,

NO. 1. IN AN OLD CHAPTER.

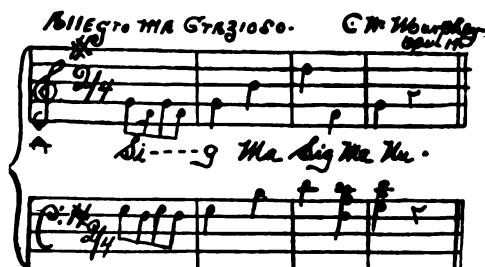

May 30, 1918.

SIGMA NU WHISTLE

How many Brothers know our whistle?

This whistle was written by Past Vice Regent Clarence W. Murphy, Psi, and was made official by Grand Chapter vote.

Although it has been reprinted several times, every new generation of college classes needs a copy, and the many inquiries from active men during the past year lead us to repeat it again. Our soldier knights may find it useful, too, in locating unknown Sigs in trench and cantonment.

DELTA UPSILON CHAPTER

Doesn't Need This Information, But Your Chapter Does

[It takes one of the youngest Chapters to set the pace for the rest of you. Past Commander Lyndon H. Strough comes through with a request on his own initiative which proves how alert a Chapter should be to keep in touch with its Alumni. The only medium provided to keep the Alumni together and informed of the doings of all our Chapters and their comrades in Sigma Nu is the Delta.

How many of your Alumni, Brother Commanders, are subscribers?—The Editor.]

Sigma Nu Fraternity:

Will you kindly tell me if the subscriptions to the Delta of any of the brothers on the roll of Delta Upsilon Chapter have expired or will expire before the close of the next college year. If so, may I have their names?

We are making a point of seeing that every Alumnus of the Chapter gets the Delta; we do not want any of them, and particularly the men in service, to get "out of touch." Consequently, I would appreciate this information.

LYNDON H. STROUGH,

Commander 1917-1918,

Delta Upsilon Chapter.

Oneida, N. Y., July 29, 1918.

TO SOLDIER SUBSCRIBERS

The editor wishes every soldier to receive the Delta regularly. Please send your new address to us every time you are moved.

Chapter Book Shelf

THE UNDERGRADUATE AND HIS COLLEGE. Frederick P. Keppell, Dean of the College, Columbia University. Houghton, Mifflin Co., Cambridge, Mass. (375 pages, \$1.60 net.)

This new volume by a man thoroughly conversant with the educational history of America is one of the most valuable books for the Chapter Book Shelf which it has been our privilege to read. It should take its place with Baird's American Fraternities as a hand book by each of our active Chapters. It will have an added value to those Brothers who expect to have any connection with teaching or with college administration.

There are three points of view which are each exceptionally well dealt with by one or more Chapters.

There is first a discussion of the type of the present day college with some valuable historical material and a critical study as well. The author states "This book will attempt neither to arraign nor to whitewash the present day American college for men, but to bring together some information about it which may be useful to prospective investors of their own time or that of their children." The author then proceeds to ask the following questions and answer them. "What is the American College? Where did it come from? And whither is it bound?"

The second point of view is that of the undergraduate student and the third deals entirely with college problems from the standpoint of Educational Administration, dealing with the problems of organization, administration, teaching and teachers.

By far the greater and most interesting part of this book is given to the point of view of the undergraduate and his problems, the author stating "So far as possible I have tried to write from their point of view rather than that of the professional educator." The chapter on "The Raw Material" is the best classification we have seen of the various types of the American college student. The chapter on "The Point of View" embraces the athletic activities of the colleges in various parts of the country.

The most interesting chapter of all, however, and also one of the longest is that of "Student Organizations" dealing with "The Student as a Political Animal." This

chapter is largely given up to a brief description of the Fraternity movement. "Of college organizations whose purpose is primarily social the most conspicuous and, on the whole, the most typical, is the Greek letter Fraternity. In the college secret societies for men there are, in round figures, a total enrollment of three hundred thousand, and an investment in lands, buildings, and endowment of more than twelve million dollars. The fifteen hundred living Chapters are scattered through the colleges over the length and breadth of the United States and Canada."

Dr. Keppell finds that while the college Fraternity has its faults, that it is making a wonderful progress which is based upon a real service to the American college. "If any one thinks the value of this training in a Fraternity is negligible, let him pick out at random ten Fraternity and ten non-Fraternity men from any graduating class, and he will see a difference in social efficiency much greater than can be explained by the obvious retort that it is the gregarious type of boy that naturally goes into the Fraternity.

* * * Any boy may be harmed by membership in any society, but if he has chosen a good college in the first place and taken the trouble to learn something about Fraternities represented there, and which of them is likely to be best for him, he will be benefitted in numberless ways." Again our author says "In my judgment, the Fraternities are on the whole moving in the right direction. There are examples enough of snobbery, inconsiderateness, and selfish stupidity, but the beginning of a new spirit of individual responsibility for social justice and tolerance may be recognized. The question as to whether a man is his brother's keeper is being honestly faced by a growing number of serious-minded boys who do not believe that whatever is, is wrong and who are willing to do their share in improving the social and political institutions that they find to their hand. In the best Fraternities such men are doing much to break down the silly conventionalism and injustices that furnish the basis for criticism of Fraternity life today, and every November about a hundred alumni, many of them distinguished in various walks of life, meet in an Inter-Fraternity Conference, in New York, and give serious consideration to plans for checking the evils and emphasizing the good qualities of the American fraternities, a significant tribute to the weight of opinion in favor of the Fraternity as a college institution."

THE KIT-KAT. Vol. 7, No. 3. Osman C. Hooper, Editor. (75-page magazine, 25 cents the copy, \$1.00 per year.) Published by "The Foundation" Chamber of Commerce Building, Columbus, Ohio.

We are in receipt of the July, 1918, number of "The Kit-Kat, published four times a year at the Sign of the Torch," Columbus, Ohio, and "being some personal glimpses of Literature and Life."

We note on the list "The Foundation" responsible for this interesting little publication the names of two Sigma Nu Brothers of Beta Nu Chapter, Walter J. Sears and C. E. Sherman. Brother Sherman whom the editor describes as "a professor of civil engineering at Ohio State University whose diversion is literature," contributes a poem of some length and of equal merit. The subject is "I heard the Forest Bells." Evidently Brother Sherman's only diversion is not literature as this poem discloses a deep love and appreciation of God's out-of-doors.

The following lines disclose the sympathetic understanding of the true out-of-doors lover:

"Awakening, I saw eastern skies
Rose-tinted with approaching rise
Of glorious morning sun; it sent
Light breezes in the tree-tops spent;
—'Twas early morning,—and, astir,
A pheasant passed me with a whir;
Then distant through the friendly trees
Came calls of wild ones on the breeze;
Then tinkle of the forest stream,
That must have soothed my fevered dream,
Chimed out 'Awake!' through woodland
dells."

We sincerely hope that Brother Sherman will not forget the Delta when indulging in literary "diversions."

BLOWN IN BY THE DRAFT. Frazier Hunt. Doubleday, Page & Co. (372 pages, \$1.60 net.)

These stories are exactly described by the title. They betray the fine hand of the skilled newspaper man, a correspondent of the New York Times at Camp Upton who has keenly reflected the life of forty thousand selected men, Irish, Jews, Negroes, Chinese, Japanese and Italian. Here is a close view and a new one of "The Melting Pot" where the final refining process of the spirit of Democracy may be seen doing its mighty task.

These stories are unconventional yarns of the camp which while keenly humorous also reflect the actual process by which the great mass of unpromising drafted men are quickly fused into units of first-class fighting men who are the pride of their country.

The foreword of this volume, fit for any Chapter Book Shelf, is written by Theodore Roosevelt, who in speaking to the drafted men at Camp Upton said: "You represent

the men who beyond all others at this time have put their fellow countrymen under a lasting debt of high obligation."

As you read these stories you will enjoy many a hearty laugh and while you are laughing you will at the same time find yourself a better American.

MARCH ON TO VICTORY. Patriotic song by Clarence Wainwright Murphy, Lambda No. 6. Published by E. F. Droop & Sons, 1300 G. Street, N. W., Washington, D. C.

The above is the title of an inspiring new song, the music of which is written by our esteemed Brother, Clarence Wainwright Murphy, Lambda, and published by E. F. Droop & Sons, 1300 G. Street, N. W., Washington, D. C.

This music should be found in the music of all our Chapter Houses. The words are martial and majestic and the music is expressive of the same spirit—not the feet shuffling, shoulder-shrugging variety that now seems to prevail in such abortions that are all too often inflicted upon the public under the guise of patriotism.

The music and words are combined in a dignity appropriate to the church as well as the march and the community sing. Brother Murphy writes that "If it succeeds in inspiring any one, my 'mission' will have been accomplished."

This stirring song is very appropriately dedicated "To the President, with great Respect and much Admiration."

Special words of a Sigma Nu song have been written into one copy of this music by Brother Murphy. We commend it to the serious consideration of our Song Committee in seeking for THE Sigma Nu Song.

THE PILOT. School of Military Aeronautics, Ohio State University, Columbus, Ohio. August, 1918. William S. Hedges, Editor.

This is a souvenir booklet of the type of the college "annual," detailing the experiences of the men enrolled in the aviation school at Columbus. No doubt to the student aviators, in after days, it will bring to mind those delightful memories that always cling round our college days, and bringing back to them, through the intervening turmoil of battle and bloodshed, friendships of comrades sacrificed in "the pursuit of kultur."

The book is printed on heavy glazed paper, illustrated with photographs and drawings, and filled with clever and interesting write-ups and sketches, some humorous and some serious. It is ably edited by a Gamma Rho Brother, who was on the staff of the Chicago Daily News—William S. Hedges.

"The only booklet of its kind in the country," he calls it. And while other camps have their publications, we feel sure they can't beat "The Pilot" for "style."

Pickwick Club

By MR. SAMUEL PICKWICK, ESQ., G. C., M. P. C.

THE POSTHUMOROUS PAPERS OF THE PICKWICK CLUB

Containing a Faithful Record of the Perambulations, Perils, Travels, Adventures and Sporting Transactions of the Corresponding Members.

Mr. Samuel Pickwick, G. C., M. P. C., is glad to report unceasing activity on the part of our corresponding members, despite the effects of the hot weather of the summer and its temptations to an idle vacation. Particularly is Mr. Pickwick delighted at the interest of our soldier boys in furnishing to the Archives Pickwick sundry and varilorum episodes of camp life. He is only waiting now for actual adventures from the trenches in France, and perhaps in Italy and Siberia. And heigh-ho, for the Navy, too! Weigh anchor, lads, and tear a leaf out of your log-books.

A PICKWICK COLYUMNIATOR

Mr. Samuel Pickwick, G. C., M. P. C., begs Mr. Augustus Snodgrass, Mr. P. C. Scribe and Guardian of the Archives to read the roll of our new Corresponding Members.

"Mr. Donald Krull, Gamma Mu, of Indiana, California, Oregon, Washington and Iowa, and (to be) of Champagne and Burgundy, whose later address he hopes to be am Rhine, Frankfurter and Potsdam—"

Hold! Hold! Enough!

Behold, ye Corresponding Members of the Learned Society of United Pickwickians, what renown has blossomed forth from such a tender shoot (and bold shot!)—a colyum writer with a real colyum in a real newspaper.

"Krullers," by Don Krull, the legend reads in our military exchange, the Fort Des Moines Post, whose associate editor is Mr. Donald Krull, M. P. C., who pessimistically emits: "At the present time, I hold the job of associate editor, but between you and me and the gate post, I hope to have ye honorable's job one of the days."

But to return to the colyum. It is full of Krullers, fried brown, crisp and fresh, and served hot. They sure take the cake! (to use the slang of the War with Spain). We are sorry we can't reprint them, but they're not about Sigma Nus. The only other Knight at Krull's post is Brother *Ray Finger* and he's not written up—be-

sides he's the Y. M. C. A. secretary there and, of course, above reproach and notoriety.

Ah, yes, here's one Mr. Pickwick suspects to have a touch of local color (Black, White and Gold) about it:

"Wanted—One GOOD man to dispose of Puts, Bywater, McKamy and Garvey for choosing the man they did as Barracks 2 Associate Editor."

Mr. Pickwick seconds the motion and hereby offers a financial reward of one penny and his best wishes to the successful "disposer." All present, please rise. Carried.

Note.—Proof must be furnished of disposition of the aforesaid and consequent health of disposer.

A DELTA GAMMA ALUMNUS GOES LOCO!

One of our Brothers took a fling at the Editor the other day, but, as he is impervious in his perspicuity, no damage resulted. Still, as the Editor hesitated to publish such

a bold exposition of the truth, Mr. Pickwick offered to undertake the dangerous mission. In self-defense, therefore, Mr. Pickwick begs to state that he does not suppress the number of Brother Fraser's regiment intentionally, but only on orders from the Committee of Public Information—otherwise, the letter is printed exactly and fully as written. One great good has already been produced—the carbon copy sent to the Chapter reporter brought forth a Chapter letter for the current Delta without the usual notification from the Editor.

The Editor Escapes This Time

Dear Brother Dunlavy:

I am plumb disgusted and likewise peeved and the reason sounds like this. I was enjoying a most delightful Gas Mask session under one of those Army inquisitors sent us from the Gas Section as instructors, when word came that my Delta awaited me at my tent. It took all the joy out of not being able to use your nose for one of its proper purposes, all the pleasure out of suffocation—a parched throat—the-er-inability to expectorate, etc., to know that I would have to wait the remaining fifteen minutes of the "hour" before clapping my

beloved Delta to my buzzum and to my already aching eyes. (A mixed metaphor.)

A Vile Calumny

What is now to come deserves a new paragraph. A careful perusal of the pages of aforementioned periodical failed to disclose a single mention of the leading Chapter of the Fraternity. I need hardly mention the fact that I refer to Delta Gamma, except in the columns headed Knights of the Republic, where a vile calumny was perpetrated on the writer of this epistle. Several New York papers of repute recently printed my name in a casualty list, but none ever dared to go so far as to accuse me of being the Chaplain of a "Doughboy" outfit. I actually read that I was connected with a certain Infantry Regiment. It is absolutely false.

A Nefarious Plot

To return to the plot to keep Delta Gamma out of the pages of the Delta, for I am convinced there is such a plot afoot, how dared you to mark "Delinquent" under the name of Columbia? No reporter of that Chapter has ever failed to submit a voluminous and newsy letter unless it was back in the days of that notorious deviator from the path of rectitude, Jack Story. And even did a Columbia reporter so forget himself as to neglect his only real duty, you cannot make me believe that Ed Grant, Bill Brown or some of the Old Guard did not send in a story for the Alumni pages. Even Al Wilson's mention of poor Old Columbia (I could swear he mentioned us once in some article sent in) was suppressed. And as to the Marriages and Birth columns, you even cut us out of them.

A Horrible Threat

The more I write the madder I get. This is my last word, if you don't print something about Delta Gamma in your next issue I will ask you to take my name off the mailing list. I can't have Major Joe King of the Missouri Chapter, Lieutenant John Hadesty of the Penn State Chapter, Lieutenant Karl Koch of the Mount Union Chapter, laughing at their Sky-Pilot every time one of those expurgated editions of the Delta comes out, and I won't!

Fraternally,

HARRY CARLETON FRASER,
Chaplain—Field Artillery, U. S. A.

P. S.—I know you won't have the nerve to publish this scathing arraignment of you and your sheet, so I am sending a carbon copy to the Reporter in question that he may know just what I think of you.

H. C. F.

Camp Logan, Houston, Texas,

May 27, 1918.

Now, Brother Fraser, please pay your Delta subscription! Thank you!

A TEXAN STEER IN CAMP

Mr. Pickwick is overjoyed to welcome Brother Cofer, of Texas, into our enthusiastic band of tale-bearing adventurers. Just as much happens to all of us as happens to Brother Cofer, but we can't express it the same way. You will remember his Chapter letters last year and how we all wanted, after reading them, to pack our "grip and take a trip" to Texas U. Now he's a regular soldier, and is going to train the plebs at college next fall.

Two Classes of People

Mr. Samuel Pickwick, Esq., G. C., M. P. C.

Dear Sir:

I have been at this camp for five weeks. We are here from all parts of the United States to a two months' training camp. We return to school next year to train the R. O. T. C. cadets. It is rather strenuous training and taste of real army life. For we are enlisted and have the rank of private. I hadn't been in camp very long before I served kitchen police. I learned one thing. There are just two classes of people in the world—those who hold their cups over the serving pan and those who hold it over the floor. The majority are in the latter class.

Officers Lack Sense of Humor

Last night I served on guard. The cadet officer of the guard and the commander of the guard came by my post. They had a prisoner with them. I advanced the officers with their prisoner and recognized the officers. I didn't pay any attention to the prisoner. I thought that with the officer of the guard and the officer of the day it did not behoove a B. A. private to get inquisitive as to whom they had with them.

When I told them to pass on, the commander of the guard yelled, "Well, what the hell are you going to do about this man?" pointing to the prisoner.

"Sir," I said, "if you can't take him in alone I will call the corporal of the guard."

He must not have appreciated my humor. Today I am serving fatigue duty at headquarters.

The Army No Distinguisher of Persons

But sometimes I think that we really will get some good out of this army life. The first day I was here I went down toward the kitchen. There I saw Jack Beall, Jr., of Dallas, a Beta from the University of Texas. His father is an ex-congressman, and Jack never did a lick of work in his life. The first wages he ever drew was when he got his first pay. But Jack is a good sport and he was peeling potatoes with the best of them. He has been on kitchen police practically every week. So

with all of us. We are beginning to see what the army life means and that we can work when we have to.

The Spirit of the Gridiron

We were put in quarantine the first day that we got here, for measles. We were in two weeks and had just gotten orders to the effect that the quarantine was lifted when another case developed. We went in for another two weeks. It was pretty hard on us all, who had not been out of camp for two weeks. But just after the second two weeks' quarantine was announced, some one down in the end of the barracks started, "Pack up your troubles in your old kit bag, and smile, smile, smile." And everybody sang. It was the same spirit that used to make the fellows sing just the same when their college was losing a football game as when they were winning. And it is the spirit that is going to win this war. Our lieutenant, who is just back from France, said the other day that that accounted for the success of our forces over there. It is the spirit of the men and the officers who go over the top in the ranks.

Sigma Nus at Camp

Sigma Nu is forward here, as in all of the camps. There are some sixty odd in the whole camp. There are three in our company, two from Texas and Brother Maxwell C. Payne from Vanderbilt. He has just been transferred to Camp Perry, Ohio. We have meetings every Sunday morning and are planning a banquet just before the camp is over. If any of you should by chance be in Chicago say two or three weeks from now, we would certainly be pleased to have you attend it. Unfortunately, I have been unable to attend any of the meetings. The quarantine kept me from it. But I have heard from the other fellows what was going on. Brother John F. Phillips, of Minnesota (Gamma Tau), is in the adjoining company to me, and I have him keep me posted. I will miss the meeting next Sunday, as we go on a hike.

Faternally,

JOHN D. COFER, Upsilon.

S. A. T. C. Camp,
Fort Sheridan, Ill.

TOGO STUDIES COLLAR JEWELRY AND MEETS THE AGENT

The Rt. Esq. G. C. Picknic, so-called Sammy:

After living ½ doz. months in calorie sunbeam climate of Amalgamated Counties of Texas—which are to South of U. S., and natives can read English—accomplices in conelike canvas domicile, called bookishly "pyramidal," for resemblance to Egypt, ex-

coriate "North are still intact; why not return soon in clothes of school youth?" "Bloody" rebut another, "This are not done today by front families. (Here I speak in on paper: But in Appaducian war this are popular propensity, according to Hon. Col. Bogey White, of Iowa Hussars.) Witness from Head¼s these words of G. O.—"Unless rehearsal of taking the French leaves is deceased, stringent measurements will be introduced." From me, by mouth, "Who are going to make such introductions and who can be this Hon. Ments—a Germ?" My colleges then snickle, no doubtfully thinking at my night in stockyard for W. Va. hike reported last time.

So to my dear Hon. Cap. for advising. First I ripple "Cappy dear, I could be desiring of honorable retreat from this O. D. Club, but before, please to inform how collar jewelry, etc., are purchasable; appearances are so enhancing thereby." "Titter," he smole, camouflaging grin, "First to get commission, like I." "Traicher to this nationality," I brake out, "So you also get raking-offs on special orders." This bursting deprive me of ex-Hon. Captain's self-respect, so he shimmer to secretary, "Give this here hash person transporting nearly to North; he are daft of sun-heat." "Haha" silences thru my brain, "This agent are also bloated R. R. maggot, beside grafter in Army elections, to offer free rides."

So back to U. S. A. I hie, deciding to take militia abode at former camping home of Gen. Grant, handy to home and U. W., which are my Alma's mother. No sooner am I arrive and step into soft booze store of 343rd Doughish Boys, than before me is framed on counter nice photo-painting of—who? author of Bevo? Rt. Rev. Geo. Wash.? Adm. Bunker Hill? Neither of these, but beaming cheeks of Judge Homer Vanderblue, once Swedish quarantine inspector for Sigmund Knew Fraternity and composer of economical syllables at N. W. Univ. How like complexion adv. he gleam thru transparency of glass, but how cherubic in that Boyish Scouting clothes, in whose army he are important collar jewelry agent. On account of Van being so honorably fraternal scholar at Harvard, etc., editor of Chi. photo shop adv. in glass frame "Take a picture with me, like ancient Hon. Homer and others herewith."

If readers like this bold obloquy, written below great stretches of champagne conditions on fields of Illinois, why not send H₂O² for face bleaching, so I could member myself to this noble Sigmund Club, and shake the hands to old Bro. Generally Sears, which, in spite of his military jewelry on collar, I could do as frat pal.

Respectively,

"MUCH-HASH TOGO."

(SERGEANT GEORGE A. CHANDLER,
Gamma Lambda.)

THE SPIRIT IS WILLING BUT THE "GAS" IS WEAK

Mr. Samuel Pickwick, G. C., M. P. C., is delighted to present to you, the Corresponding Members of the Society of United Pickwickians, hereto assembled, an epistle from our honorable and learned colleague and officious officer and charter member—Mr. Samuel Weller, Jr., P. V. P., M. P. C. (Perpetual Vice-President, Member Pickwick Club.) Mr. Weller is the second member of this August Assemblage of Seekers after the Spinacious and a one-time lengthy contributor of concomitant collections of cryptic and cressy compound-accounts of cretins.* He is deserving of all the honors of love and war and disports himself well among the perils and vicissitudes of tennis court and battledore. "Love all!" is his unanimous score, and gas his second nature.

As a valiant and tried member of the Gas Service squad, Mr. Weller has made an enviable and uninmitable record as a brave and perseverant corporeal corporal. What stunts he has not hitherto tried out upon his college mates and fraternity pals, Mr. Weller will turn vindictively upon the fleeing dashed-hund who will instinctively drag his tail between his legs and crawl saponaciously within his tank of near-beer to die an easy death amid the dregs, rather than face the fumes of Russian tobacco or draughts of Barden's cistern. The experience of Mr. Weller as an apprentice in the well-known cooperage firm with which he has so long been connected, will serve in good stead in these days that test the mettle of steeled souls.

Alas! Mr. Weller has been trained to use his gas mask of late and is quite unlike his old self, consequently. Let us all hope and pray that Samivel will recover his sanguinity and revert to the ancient and accepted style of active ruction and nervous narrative, denominated by the illiterate and artless as erotic rot, but known to all too true lovers of art as camouflage. (This word, by the way, originated in an original way from Mr. Weller's conversation, to which a common introduction was "Gimme a camel." No reflection in this, by the way, to the 'alf-pints of liquid delight at the Old Tavern on Random Road, which he was wont to take to swab the frog in his throat.)

For such of those whose sloping and densely thatched understandings cannot undermine the undercurrent that underlies these delicious bits of undertakings in the field of ruminative reminiscence, Mr. Weller is willin', for a consideration (a consideration of any metal not termed base by the olden alchemists) to supply a diagram and a key thereto. Everyone else step forward, si vous plait, and shout.

*Mr. Pickwick would call upon the ignorant and forsooth impulsive reader, not a Corresponding Member naturally, to look up

this word in the dictionary. It is not the modern English word signifying idiots, not at all, but the old French for Christians, hence human beings.

Mr. Samuel Pickwick, Esq., G. C., M. P. C.

Dear Sir:

I am willing to bet that you are cursing me for a poor boob who has not enough decency to write to a pal. I am not going to put up a lot of bum excuses, but I will say that I have intended to write you for a hell of a long time, but each time I lacked the necessary ambition to do it. I have been detailed to the Gas Defense Service for the past four months, and I need not tell you that gas and I are old friends. You know me, Al.

I have also thought of attempting to write a small article for the Pig Vig Papers, but I find on looking myself over, that I have lost all my old journalistic punch. Those articles which I read have made me see how horribly inferior I am to the chaps who are at present contributors to the famous paper, and, as I realize that I am getting old, I find myself strangely satisfied to let the young bloods do it.

How are they treating you? The best is none too good for an original member of the Pickwick Club, and if at any time you need some muscular assistance, don't hesitate to call on Samivel Veller, the same being spelled with a "we". At the same time I say to you, do not call upon the same fellow for financial aid, because he is without funds.

Do you remember the times we have drunken of the flowing bowl, and the tremendous way we each used to insist on being allowed to pay for it? Do you remember the hope and fear with which the prospective members of our club used to come to us to try the exams for membership to our club, only to fall down on the test of wrassling with you?

Hearts also was a good game, and it almost makes me cry when I think of how that scum of a Murray Goodrich used to try to coax me to enter into some infamous conspiracy with him so that he might win one game from you. Thank God I always loved you enough to turn away from his nefarious offer with scorn, and I have yet to see anyone win a single game from you. How is Clem Sorrow (I mean Grief)? He also sought in vain to take your scalp in Hearts, but he soon saw the futility of his deeds.

Moore Emmett was a fine fellow and a very good friend of mine, and I am almost moved to lachrymation when I think of the noble way in which he stood by me when I fainted in the bath room. However, I feel that I sort of paid the debt when I so magnificently helped him out of that scrape

with an infamous woman, and also when I dragged the chief of police from his prostrate body.

I like to reminisce, so to speak, but I am not the Veller of old, for all my fighting proclivities are gone. Well, I must stop. I shall appreciate the Delta at any time, and when I get back, I shall look you up.

Lovingly,

SAMUEL WELLER, JR.
(CORPORAL CHARLES M. B. COOPER),
Gas Defense Service, Engineers Corps.

April 7, 1918.

[Received June 20, 1918.]

P. S.—Note the date of this letter. I had no money to buy a stamp. S. V.

THE PRIVILEGES OF RANK OR A FRESHMAN'S REVENGE

Mr. Samuel Pickwick, Esq., G. C., M. P. C.
Dear Sir:

War brings forth strange adventures and coincidences. When the Sigma Nu veterans gather around the old frat fireplace again, yarns will be spun that will rival The Tales of Arabian Knights.

Beta Eta at Indiana University believes she has one that beats 'em all. The principal participants are Corporal F. S. Matthews and Private J. W. French, of the U. S. Marine Corps. A year ago Matthews and French were roommates in college. Matthews was then a freshman, while French was a junior. Life for "Mat" wasn't the pleasantest in the world, for freshmen in a fraternity are bell-hops and baggage-smashers till they serve a "hitch" of one year. Matthews heard the call to the colors last August and joined the Marine Corps, being sent to Paris Island, S. C., for his training.

French left Indiana University immediately after Easter vacation, having completed his four-year course. He, too, hit the Dixie trail and came South to the Marine Training Camp at Paris Island.

Sunday, April 7, found French marching in line with several hundred applicants to shed his civilian clothes for a uniform. After being outfitted with uniform and blankets, he came to the hat counter. A tall, husky corporal slapped a campaign hat on his head. Looking up, French recognized his old roommate "Mat." The line held while "Mat" and French exchanged excited and jubilant greetings as only real Sigma Nu Brothers can.

Corporal Matthews, who is a drill instructor, had come over to outfit his new company at the quarantine station. To the surprise and joy of both Sigma Nus, French had been assigned in Matthews' company. The tables had turned—no longer was French the stern upperclassman and "Mat"

the meek freshman. Instead, Corporal Matthews was in charge of a "boat company," while French was a lowly private subject to Corporal Matthews' thundering commands.

Revenge is sweet but fraternal bonds are stronger. Corporal Matthews spent the day marching his old upper-classman across the burning sands of the island, teaching him how to Squads Right! and About Face! In the evenings he would inspect French's washing and send him back as high as four times to rewash his duds before they were O. K'd in his critical inspection. At night the two old "bunkies" would assemble in the corporal's tent. Then would they forget their rank as they talked over their old college days and especially their past life together in the Fraternity.

Tomorrow Corporal Matthews is leaving the company to take charge of a new company being formed at the quarantine station. Acting Corporal J. A. Chase, of the N. C. B. School, will take Corporal Matthews' place. Strange, but true, Corporal Chase is also a Sigma Nu Brother, Gamma Xi, from Logansport, Indiana. So Private French will continue to receive training under a Sigma Nu officer.

Neither of the three wearers of the five armed stars and the marine insignia can understand the strange coincidence. But any of them will vouch for the authenticity of this yarn. Thus the ties of Sigma Nu follow the Brothers from the fraternal threshold into the war camps and indeed to "the four quarters of the globe."

Fraternally and sincerely,

PRIVATE JOHN W. FRENCH,

Beta Eta.

Paris Island, S. C.

"ALL MEN ARE LIARS," BUT NOT ALL LIARS ARE FISHERMEN

General Secretary Dunlavy is going to take a Western inspection trip this fall. Already Inspector Sampson has asked him to plan for a fishing trip up in Montana, where—oh, well, Inspector Williams butts in to say, as it were, so to speak, you know—

My Dear Dunlavy:

Our fishing is the best in the world so far as sport goes. There are men who have caught fish seven and eight feet long in a brook not more than ten inches deep. I never saw the fish, but I have heard a great deal about them.

Our fish are blooded fish; they do not become contaminated with the muddy waters of the Missouri river, as one finds in Montana. I have been told that they have nothing but catfish in Montana. Still I have been there, and I never even saw a catfish walking around on the shore.

Our fish are not tame. You have to work to catch them, but after you have caught a

Colorado fish it becomes very much domesticated—at least those I catch do; in fact, the fish becomes a part of me, as it were.

Notwithstanding all this, October is a bad month to attempt to fish in the mountains, on account of the storms. There is good fishing in the Laramie river, however. Of course, that is in Wyoming, but Sampson does not have anything to do about Wyoming, and I therefore admit its virtues.

But remember, Colorado is the best State in the Union. It has the best fish.

Fraternally,

ERNEST L. WILLIAMS.

After reading the letter aloud, Brother Dunlavy began to tell about Indiana fish. Inasmuch as such things should be saved for our Western Brothers, Mr. Pickwick hastily withdrew. Never let a preacher tell fish stories—it is contributing to delinquency and a peril to immortal salvation.

BENCHED!

Our esteemed contemporary, Krullers, of the Fort Des Moines Post, operated under the supervision of Brother Don Krull, Gamma Mu, bears across the top of the column this sad legend, "Pinch Hitting for Krull by Private James W. Colton," and explains it further down: "Krull is bothered with a falling of the sock this week, consequently I came in to be his supporter."

Mr. Pickwick wishes to express his sympathy and the sympathy of the entire Order of United Pickwickers, with Brother Krull in his affliction.

PRATHER A LA CREME

Mr. Samuel Pickwick, Esq., G. C., M. P. C.
Dear Sir:

A shining example of patriotism and loyalty, worthy of our Knighthood in Sigma Nu and of American citizenship has come to my attention. I would be singularly forgetful of Pickwickian customs and characteristics did I not hasten to add it to our archives of sporting transactions.

Brother Ora H. Prather was last year the commander of the Gamma Rho Chapter. He was an able executive and a zealous worker for his Chapter and Fraternity. But that is not the story—every Chapter has its commander and its faithful workers.

Brother Prather is no longer commander of Gamma Rho—that's the point! He might have had a second term (who knows?) but for the cream— There, I'm getting along a little too fast, so let's go back to the beginning.

The military examiner turned Brother Prather down on account of his weight or rather lack of it. Mournfully, he asked his

Chapter mates how he could add a few pounds to his frame. "Drink milk," they said, "rich milk and plenty of it." Accordingly, Brother Prather went forth and bought cream, pure cream—\$11.57 worth of it—so testify the Chapter gossips—\$11.57 worth of cream—and he consumed it as hastily as he was able. The next day he was accepted in the Aviation Corps.

A high flyer now drinks milk, 'twould seem!

JACK STRAW.

SIGMA NU CALENDAR FOR RUSHEES

It was the strict rushing rules of the Inter-Fraternity Council at Western Reserve University that made possible this outburst of Sigma Nu spirit. "Circumstances, I make circumstances," Napoleon said and did. Rushing rules may be made and met. This is the way.

Mr. Samuel Pickwick, G. C., M. P. C.

Dear Sir:

We introduced a rushing innovation in the way of dating. Here is what we were up against. There was to be only campus rushing until the third day of school. No dates were to be made until that third morning when all the fraternities would gather in at the end of the walk and nail the freshmen as they ambled in. The old way of dating was to find a blank sheet in the frosh's diary and scribble your insignia and the dates on it. Then every one of the other ten fraternities would do likewise, with the result that the poor frosh's diary looked like a drunkard's dream at the finish. And then usually the poor kids couldn't read what you had written. One came up to me one morning with his diary open and the following question:

"Say, Shea, I got a date this afternoon with a frat and I can't read their name. It looks like a pretzel and a fishhook and I'll be — if I know where to go."

We had cards printed. I am sending you a copy. Our name was spelled out in good, plain English. Our address was there in husky, tangible arabic numerals, and even the telephone number. And then, when we went after a date, all we had to do was insert on the card a couple of checks, tear off the upper half and give it to the freshman, and keep the rest ourselves. It knocked the other fraternities cold. Freshmen were tickled to death. A lot of them put all their dates on that card. Imagine the situation. A Beta goes up to a freshman for a date and finds that he has to mark them on a Sigma Nu card. Next year it will be a case of "Everybody's Doing It."

Yours fraternally,

MORT SHEA, Delta Zeta.

Marriages

Beta Zeta.—Lieutenant Merritt S. Beach and Miss Ruby Ness Scully of Utica, New York, on April 16, 1918, at Dallas, Texas. Brother Beach adds "and we are now 'at home' at Ellington Field" (Houston, Texas).

Beta Iota.—Brother William P. Johns and Miss Mabel Sherwood, at Massillon, Ohio, last spring. Brother Johns left Camp Sherman for an eastern camp and is probably "over there."

Beta Iota.—Lieutenant Roland Jones and Miss Grace Elizabeth Wentz, on March 30, 1918.

Beta Iota.—Brother Floyd Trump and Miss Annette Fox, last spring. While home on a furlough from Camp Sheridan, Brother Trump made the most of his limited opportunity and was married, meeting his bride-to-be in Pittsburgh, en route from her home in New York City. After a quiet wedding and a brief honeymoon, Brother Floyd returned to his outfit.

Beta Xi.—Brother Russell Howard Senior and Miss Finis Robinson, December 28, 1917, at Saint Joseph, Missouri.

Beta Rho.—Brother Claude W. Dudley and Miss Dorothy Batcheler, July 17, 1918, at Raleigh, N. C. They will be at home to their friends in Washington, where Brother Dudley is engaged in Government work.

Beta Phi.—Brother John F. Taddiken was married recently. Details unknown.

Beta Phi-Gamma Lambda.—Brother Carl Bertie Bougere and Miss Norma Weaver, February 28, 1918, Covington, La.

Gamma Delta.—Brother Leroy Vogel Edwards and Miss Eleanor Layman, on June 1, 1918, at Brooklyn, N. Y. The wedding was a strictly Sigma Nu occasion, Brothers Taft and Stevenson as ushers, Brother Moeller as best man, and Past Regent A. H. Wilson officiating. Brother Edwards and his attendants are from Gamma Delta Chapter.

Gamma Epsilon.—Brother Lieutenant Henry Jacob Smith and Miss Ida Rebecca Royce, on January 2, 1918, at Galveston, Tex.

Gamma Epsilon.—Brother Henry A. Theis, inspector of the Seventh Division, and Miss Hope Leighter, June 14, 1918, at New York City, Brother Otto F. Theis, Gamma Epsilon, acting as best man and Past Regent A. H. Wilson officiating. Brother Theis is now inspector of the Seventh Division. The wedding took place in Brother Wilson's church, the Church of the Saviour.

Gamma Lambda.—Brother Clarence Addison Hibbard and Miss Ruth Mildred Barr

of Racine, Wisconsin, June 20, 1918, at Racine, Wisconsin.

Gamma Sigma.—Lieutenant Thomas E. McCullough and Miss Margaret Babbitt, of Flagstaff, Ariz., on March 9, 1918, at Hollywood, Calif. Brother McCullough is in the Engineers, U. S. R.

Gamma Tau.—Brother Astor Alexius Anderson and Miss Ella Irene Smith, on July 16, 1918, at Grantsburg, Wisconsin. Brother Anderson is assistant cashier of the Webster State Bank at Webster, Wisconsin.

Delta Gamma.—Brother William Hori Brown, Jr., and Miss Emma Aline Gauthey, on July 6, 1918, at New York City. Brother Russell Brown was his brother's best man and Past Regent A. H. Wilson officiated. Among the guests were Brother Herbert S. Nulsen, Brother and Mrs. Albert H. Wilson, Brother and Mrs. Henry A. Theis, Brother and Mrs. Edward J. Grant, and Brother and Mrs. Anthony Romagna, who made the wedding a real Sigma Nu affair. Brother Brown is a charter member of Delta Gamma.

Delta Zeta.—Brother F. Moore Emmett and Miss Gladys Marie Wilkins, in June, 1918, at Fairmont, Mont. They will reside in East Akron, Ohio.

Delta Eta.—Brother Garrett Falcoln and Miss Rita Payne, at Schuyler, Nebraska. Brother Falcoln is in the Naval Medical Corps and is stationed at Great Lakes, Ill.

Delta Kappa.—Brother Archie H. Dean and Miss Maude Schumann, on June 15, 1918, at New York City, Past Regent Albert H. Wilson officiating.

Delta Kappa.—Brother Robert T. Weimer and Miss Elsie Davis, on June 22, 1918, at Newark, Delaware. Brother Rev. A. H. Wilson officiated and Brother Harold W. Horsey, Delta Kappa was the best man. Brother and Mrs. Weimer will make their home at Mansfield, Ohio.

Delta Omicron.—Lieutenant Alfred J. Lyon and Miss Majorie Adair, of Moscow, Idaho, on July 9, 1918, at Lake Charles, Louisiana, where Brother Lyon is instructor in the night flying school of the Aviation Corps.

Delta Sigma.—Brother Thomas Carlisle and Miss Caroline Bowman. Brother Carlisle is stationed at Camp Lee.

Delta Chi.—Lieutenant Alvord B. Churchill and Miss Jean Adelle Thompson, May 30, 1918, at Hartford, Conn.

Deaths

BERTRAM T. CLAYTON

Theta

Lieutenant Colonel Bertram T. Clayton was killed by an air raid bomb in France, June 4, 1918. See extended notice under "With Military Honors."

CHARLES PHILIP FRY

Theta

Brother Charles Philip Fry died May 27, 1918, at New York City.

DONALD H. CHARLTON

Beta Nu

Lieutenant Donald H. Charlton, Aviation Corps, was killed in an accident on Taliaferro Field, Texas, while engaged in his duties as an airplane instructor. See extended notice under "With Military Honors."

MYRON WOLF

Beta Psi

Myron Wolf, attorney and clubman, former State Insurance Commissioner, was stricken with apoplexy yesterday afternoon while eating lunch in the California Market.

Attorney Wolf is well known in many circles of San Francisco and throughout northern California. He was president of his class at the University of California; shortly after he was on the staff of "The Examiner," gained fame as an orator for the Republican party and was made insurance commissioner by former Governor Gillette.

Wolf has his offices in the Monadnock Building. He is a bachelor and resides at 2816 Pierce street. He is a member of The Family and Bohemian Clubs.—San Francisco Examiner.

Sigma Nu has never had a man of whom she could be more justly proud than E. Myron Wolf, on whom the hand of death has suddenly fallen. From the days when he first lent his great natural talents to the upbuilding of Beta Psi Chapter, of which he was one of the founders, until his closing hours he has been one of the truly big men of our Fraternity.

Character has always been deemed the very cornerstone of our Fraternity's success, and it was because of his superb moral fiber, the bigness and kindness of his vision,

the complete unselfishness and generosity of his nature that Myron was always one of the best-loved of the California Sigs.

In 1906 he happened to be insurance commissioner of the State when the greatest fire of the century destroyed San Francisco. Had he been anything but the absolutely conscientious, courageous and wrong-hating citizen that he was he could have easily kept silent, holding himself strictly to the formal duties of his office, instead of taking the initiative and conducting a vigorous fight in the creation of public opinion, when, bewildered by their terrible losses and anxious to get their much-needed money in a hurry, the stricken losers were being urged by the fire insurance companies to yield to their demand that 75 per cent. of the amount of the policy be made the basis at which losses should begin to be computed (25 per cent. discount being claimed for "earthquake" loss whether there actually was any or not in a given case). Had this been accepted San Francisco would have lost seventy-five million dollars. To Wolf, more than to any other cause, could their defeat be justly assigned. It is not hard to guess what pressure was sought to be put on him to be "reasonable." Many told him it was no duty of his office to take any part in the argument. It would have been very easy to have made no enemies. But San Francisco, sore stricken, would have suffered, and it would have been unfair. That was quite enough for Myron Wolf.

Then, half contemptuous of politics as he saw the game played at the time, he resolved to devote himself to the practice of the law. He resumed practice as poor a man as he had entered politics and I question whether he left much of an estate, for he was ever one to place a value on friendships and opportunities for kindness and to hold in disdain the acquisition of money beyond what is needed for modest living. Of one thing I am certain. The benefit he had done San Francisco could easily have been capitalized. He might have used it to build up his practice, for indirectly he had benefited many men. Never a word in print. Never a boast. Never a claim. He was well content merely to have done his duty as he saw it. In these days of unscrupulous privateering it is worth while for my Brothers in the Fraternity to ponder a moment over what such a life as Wolf's means in the preservation of our faith and our ideals.

Simple, modest, unpretentious, big in body as in mind and heart, Myron was a well-known and a well-loved man in San

Francisco. At more than one club of distinction his presence will be sadly missed. He leaves but one relative, an aged mother, whose magnificent character and splendid mind were ever his inspiration.

As for myself, the world will never be quite the same to me again. Although my work keeps me East and I have been able of late years to spend but a few weeks occasionally in my old home, I have always thought of Myron as one of my own family and there is pain in the very thought of going to San Francisco again and not seeing him there. He was my truest friend, and of all the men I have ever met, of him I think it can be most truly said he was the pal of my best self.

MAURICE V. SAMUELS, Beta Chi.
New York, August 24, 1918.

JOHN DAWKINS MATHIS
Gamma Alpha

Lieutenant John Dawkins Mathis was killed in action in France June 6, 1918. See extended notice under "With Military Honors."

ROBERT N. SMITH
Gamma Kappa

Brother Robert N. Smith died in Cleveland, Ohio, last spring, after a brief attack of pneumonia. He left a widow and a baby son, born last December. His is a loss that is felt keenly by the Cleveland Alumni Chapter, for Brother Smith was a plugger for Sigma Nu. He was for several years secretary of the Salt Lake City Alumni Chapter.

SPENCER THORNDYKE ALDEN
Gamma Nu-Gamma Theta

Brother Ensign Spencer Thorndyke Alden was killed by a fall while flying at Great South Bay, Long Island, New York, May 4, 1918. See extended notice under "With Military Honors."

JEFFERSON ALOYSIUS HEALY
Delta Gamma

Brother Jefferson Aloysius Healy died from wounds received in France. See extended notice in "With Military Honors."

CARL O. ROSEQUIST
Delta Theta

Brother Lieutenant Carl O. Rosequist, Delta Theta, died in France May 10, 1918,

from wounds received in action. See extended notice under "With Military Honors."

ROSCIUS HARLOW BACK
Delta Iota

Captain Roscius Harlow Back, machine gun detachment, infantry, was killed in action in France. See extended notice under "With Military Honors."

LOUIS PETER MUTTY
Delta Iota

Brother Louis Peter Mutty, Delta Iota, was killed in an airplane accident at Miami, Florida. See extended notice under "With Military Honors."

ALFRED RICKERT HAMEL
Delta Kappa

Brother Alfred Rickert Hamel was killed in action in the drive at Chateau Thierry, France. See extended notice in "With Military Honors."

ROGER WHITMAN HILLIS
Delta Pi

Brother Roger Whitman Hillis was killed in action in France. Date unknown. See extended notice under "With Military Honors."

GERALD JAMES KEENAN
Delta Pi

Brother Gerald James Keenan was one of our charter members, being the ninth member to be initiated from Alpha Beta Phi on the 23d of October, 1915. He was born in Portville, N. Y., in 1894, and died after six months' illness.

MILO J. SUTLIFF, Recorder.

EARL JOHN GETTMAN

THE DELTA

One Year - One Dollar

There are Two Reasons Why Stafford Engravings are used in this Publication and why they should be used in Yours—

The First, of course, is quality. Through years of specialization, our organization has become unusually expert in half-tones, color plates, zinc etchings, and designs for college and school publications. We have the very best shop equipment and every facility for prompt production of quality work.

The famous Levy Acid Blast process gives our half-tones a cleaner, deeper, sharper etching than the tub method most commonly used, and makes it easier for your printer to give you a first class job.

The Second is Stafford Co-operation. For the benefit of our customers in their dealing with us, we have prepared a valuable handbook entitled, "Engraving for College and School Publications," containing 164 pages and over 300 illustrations, and giving complete information in regard to planning your publication, the preparation of copy, and ordering of engravings. This book simplifies ordering, prevents costly mistakes, and means high quality engravings at lowest cost. We do not sell it—but we lend a copy to the staff of each publication for which we make the engravings.

Let Stafford make your commencement invitations, fraternity stationery, visiting cards, and any other copper plate engraving or steel die embossing. We have a large department devoted exclusively to this class of work, and can give you both quality and service. Samples with prices on request.

SIGMA NU FRATERNITY

All members of the Sigma Nu Fraternity in France are requested to send their names to Flying Cadet Howard A. Johnson, A. E. F., U. S. A., P. O. 725. The desire is to effect some sort of informal organization if possible.

The above notice appeared in the Paris edition of the Chicago Tribune of January 24. We are glad to repeat Brother Johnson's call here. We urge every Brother who arrives in France to report to Brother Johnson and to the General Office. Even a post card will be gratefully received.

THE ART PRESS, INDIANAPOLIS

"Let's Go"

As we go to press the Great War comes to a close.

Sigma Nu has made a wonderful record in the number of Brothers who have given themselves to their country.

The General Office promptly offered the use of all our Chapter Houses to the Government without any stipulation as to financial return.

The Chapter activities have been confined to the perpetuation of the organization, local and national.

The vast majority of the college administrations have been intelligently sympathetic toward the fraternities under war conditions, as is witnessed by a large file of recent letters from college presidents in the General Office. Some of these went so far as to offer financial assistance to the local Chapter Houses if needed.

We have been disappointed at the obtuse unfriendliness of a very few college administrations which were quick to avail themselves of the special war provisions made by the Government on their own behalf and at the same time denied or thwarted the general policy outlined by Brigadier General Rees for the fraternities.

As a result of this a very few of our Chapters have not been functioning. This cannot be continued unless charters are relinquished.

We must all pull our part of the war burden of the General Fraternity. No Chapter can ride while its sister Chapters pull the load.

However, before these words are read in print, changes will have come.

The Government announces imminent changes in the S. A. T. C.

Fraternity life will quickly become more normal.

Many promising men are in college.

Many Brothers will be quickly returning to college.

There is still time for us to realize a year of greatest prosperity.

Now—"Let's Go."

Loyalty to Sigma Nu

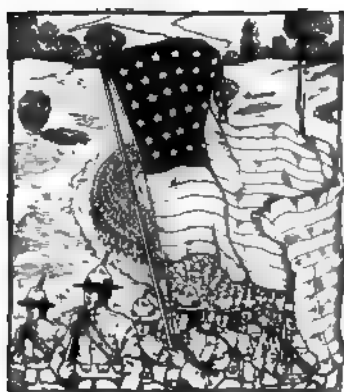

We have been greatly pleased by the rising tide of Sigma Nu spirit which has marked these war days.

The active Brothers who so unanimously dropped their books for the sword when their country needed them, have kept us very busy answering their inquiries about "the boys," sending them Deltas and caring for their contributions to The Delta.

Again we have been happily surprised by the older Brothers, many of whom had been given up as lost to the fine fraternal idealism of their college days. These Brothers have in the hour of need risen with offers of assistance to their Chapters, to the General Office, and to The Delta, which has surpassed all expectations. We have been too busy in these war days to even think of a Delta subscription campaign. Yet the individual Alumni subscriptions have increased about 500 in the past few months. The older Brothers have been baptized with a new spirit of devotion to Sigma Nu. Finally it has enthused our fraternal soul to see the fine loyalty of the new and younger Brothers who have been left untrained in Sigma Nu, and without knowledge of our organization, to carry the whole responsibility of the local chapters.

We could count the Chapters which have ceased to function on the fingers of one hand.

The fine spirit of loyalty to Sigma Nu, as well as loyalty to our country, bespeaks still greater days for our Fraternity.

The Finish of Hunism

By PAST REGENT WALTER JAMES SEARS

TRULY, this is a good time to look forward. Indeed for more than four years, the unconquerable sons of God and the lovers of humanity, have been fighting forward through the smoke-clouds of battle to win again their inalienable right to look forward hopefully and fearlessly—fighting forward with changeless purpose to drive from the earth, the Hunish hosts of wrong and oppression, and to destroy utterly the last remaining citadel of tyranny. The task has been so titanic and so compelling that none might rest for a single moment to measure the full meaning of the conflict, or contemplate the heroic greatness of the results.

And now victory—more complete than we had dared to hope. Victory of justice over cruelty, of liberty over slavery, of happiness over misery, of democracy over autocracy. The free peoples of the world have once more paid the supreme and ultimate price of blood and tears for the rights of a nobler and freer existence, and now as always the rights which have been won, have been worth the price.

The real and vital significance of the victory shall be known only to our children and our children's children;

but this much we know: The hun philosophy which glorified the biological law of hatred and brutality, born of the jungle, is dead; the hun religion which denied Christ and enthroned the pagan god of war, is dead; the hun cult of science which wallowed in gross materialism, is dead; the hun system of politics which exalted might above right, is dead; and if the individual huns who have been responsible for the shameless crimes against humanity receive their just deserts, they too shall die the death of bloody outlaws. And further, let it be said, that history again records the failure of another tyrant who started something which he could not finish, and which in fact has put upon his life, a finish as complete as it is ignoble.

The war has again revealed, what has always been basically true, that the world is directed by ideas. The direction may take a noble course or an ignoble one. Civilization goes forward or stands still, just as society is either fossilized by a stagnation of ideas, or is energized by a fermentation of ideas. Normal and healthy growth and progress are marked by a gradual development of a new order as it replaces an older one. This is evolution which may perform its

functions as benevolently among social institutions as it performs them in the lower ranges of world-life.

When the strata of social life become fixed, when they cease to respond to change and growth, there follows a reaction upon the human mind causing it to seek relief from its chains of repression. Ideas begin to take shape, new thoughts break against the old order. So moved men cease to be complacent and submissive. They destroy the tyranny which holds and confines them. They rush into the light and life of new ideas. This is revolution.

More than half of the civilized world is now rushing through the storm and chaos of revolution. Russia, Austria, Hungary, Bohemia, Poland, the Slav States, Germany—all are now ablaze with the moving and fertilizing ideas of liberty, fraternity, equality—the symbols of emancipation which the free nations of the earth carried into battle against the Germanic hosts, held aloft as the flaming ideas of hope and happiness for all peoples who should take them as their very own.

They have indeed accepted these ideas with a vengeance. Having accepted them amid an anarchy of blood and tears, the question is, not what these ideas will do for the people, but what will the people do with these ideas? Since no ideas which concern the social well-being of a nation are of any value, unless they find an orderly application and expression in the political and economic life of the nation.

Therefore, the world war is not over—it is not half over. It will not be over until all the civilized nations reach that stability of ideas which shall promise and produce the blessings of justice and happiness. It will not be over until democracy is safe from the vagaries of the Industrial Workers of the World, from Bolshevism, from Marxian Socialism which seeks to set up the class rule of the proletariat—that is, the working classes.

We didn't start the war. We may thank God that our souls are free of that monstrous crime. But the free democracies of the world must finish it. And not until we have done a good job, in constructive finishing, may we thank God again.

The processes of re-construction will not be confined to the old monarchial nations, which have just come into a new life of freedom. The old democracies like Great Britain, France, Italy and the United States must harmonize their free institutions to the new ideas which are now setting up nobler ideals of human existence. This work will fall upon the thoughtful and enlightened men and women of these free nations. It is their first duty to analyze the forces now at work, to discard the ideas which are harmful and unite upon these which will bring the world to a condition of peace, security and happiness.

I make bold to suggest in an humble spirit some of the tendencies which will likely direct and modify our basis institutions:

(1) Religion will become more democratic, progressive, tolerant, self-sacrificing and unified. The old theologies are as dead as Bancho's ghost, to be succeeded by the supreme conceptions of the Fatherhood of God, and the brotherhood of men. Men will no longer seek by conforming to rites and ceremonies, to save their souls. They will save them by acts of love, and service to their fellow men. Heaven will be no longer a place of ineffable glory beyond the stars. It will be the world itself, shot through and through with the light of good cheer, and hope and happiness. Theologies having passed away, religious denominations will cease to exist as such, and all men will group themselves under the divine leadership of one God of love and truth. The pathway leading to Him will be no longer narrow, but as wide as the conceptions of love and truth themselves, so that men shall find

Him and serve Him, by all the premonitions and inspirations of life, be they the verities of science, the realities of social growth, or the sacrificing labors of love.

(2) Political institutions will express the broad ideals of human well-being. Politics as this country has developed them, will become sane, honest and enlightened. Agencies of the Government will become more and more responsive to the people's will. All arbitrary power will cease and tyrants will be shot to death, as fast as they appear.

(3) Educational institutions will be released from the plague of materialism, to be refreshed by the human qualities of noble and self-denying service. Teutonic cults of philosophy and science will be sent to hell, never to return. It will be no longer thought necessary, to teach the German language, to secure the fundamentals of an education, or to secure a doctor's degree, at a German university to obtain the highest standing in the teaching force of an American college.

Not that we are to fall into a narrow Philistinism which will deny all that may be sound in German achievement, but no longer will we fawn before the German assumption of super-intellectuality.

The uplifting ministries of learning will reach every child who will be given a fair chance for a successful and honorable life. Ignorance, the hand maidens of false and misleading ideas, will be banished and our democracy will be inspired and di-

rected into sane, noble and disinterested actions.

(4) Industrial and commercial institutions must expect to pass through serious if not radical transformations. Against the plan of radical Socialism, which proposes to reduce all economic life, to a common level of collective effort, we must set up the plan of co-operative industrialism. This will involve a fairer division of the productive income, as well as bring the laboring man into a closer relation with all enterprises. England has already taken this step by organizing industrial councils composed of employers and employees.

Whatever the great future holds in store for us, whatever the trend of great social and economic events, we shall make no permanent achievement unless we keep our minds open to the world-wide yearnings and strivings of all the human races. The law of progress which the world war has established, and which cuts through all human effort is this: All nations are one—all must rise or fall together—all must work together for social and economic well-being.

In a struggle which must uplift and glorify humanity, it is most gratifying that our Brotherhood has responded so nobly. It has sent forth a real host of fearless and forward-looking men who have thought it a joyous privilege to serve and die for their Faith and their Flag—the one standing for chivalry, the other for justice. Those who have served and those who have died, have already won an abiding place of glory in the Walhalla of Memory.

Regent Borden Burr
Theta-Lambda

THE DELTA

The Regent in France

Four Months With the American Army

BY REGENT BORDEN H. BURR

THE ever-increasing names on our Liberty Roll, the Knights of the Republic, disclose, in a general way, the part our Fraternity is playing in the present great struggle for peace and humanity.

During the past summer, as a representative of the National Work Council of the Young Men's Christian Association, it was my privilege to observe first-hand at the front the wonderful work of the American soldier, including some of the Sigma Nu Brothers.

It would be impossible to put a value upon the opportunity which I had of thus observing the American soldier, marching with him on the lines, billeting with him in the woods and barnyards of the French country, seeing him heroically stand assaults in the trenches, bravely while in reserve under the terrors of bombardment, fearlessly charge the enemy through the woods and across open fields, unselfishly and uncomplainingly receive wounds and surrender life as a sacrifice for our sakes and for our country's honor. Any one having this experience of necessity must have a clearer conception of our country's ideals and a greater pride in its noble purposes. Such a one must also, if he has recognized the sacrifice which underlies it all, have his great love for his country and her soldiers and sailors tempered with humility. He knows that the most he can

render over here is but the least when compared with one of those over there.

The Gallant Death of Brother McGrew

My experiences have not only made me feel, if possible, a greater pride in

Lieutenant Charles J. McGrew
Beta Beta

my Fraternity, but that pride—more democratic than it used to be—embraces American manhood which our Fraternity typifies.

It was my good fortune to be assigned to the 167th Infantry Regiment of the Rainbow Division. This regiment, while originally composed of Alabamians, through severe losses

Woods near Fere-en-Tardenois, showing spot where Lieutenant McGrew fell

in battle and replacements has become, in a measure, all American. Captain Herman Thompson, Iota; Lieutenant Richard B. Kelly, Theta; Lieutenant George Glenn, Sigma Theta; Lieutenant Robert M. Brooks, Epsilon; Lieutenant Judson McGrew, Beta Beta, and myself represented the Sigma Nus in this regiment. When I tell you that Brother McGrew paid the supreme sacrifice, that Brother Thompson was most severely and probably fatally wounded, and that all of the others received wounds, it can be readily seen how the work of the Sigma Nus and their sacrifice in this regiment has been almost a hundred per cent. This regiment, after having assisted, on July 14 to 17, inclusive, in breaking the spearhead of the German offensive on the Champagne front, took part for eight days in our offensive which drove the Germans to Fismes. The division went into this offensive under most unfavorable circumstances. The main body of the huns had retreated, leaving as a rear guard a very large number of machine guns, and also pro-

Group from the 167th U. S. Infantry including Lieutenant Kelly

tecting the retreat by heavy artillery. It had been raining for several days and the roads were impassable, and on this account our artillery had not been able to keep up with the infantry. The regiment on the afternoon of the 26th of July was ordered to drive through a very thick forest, so dense that it was almost impossible to maintain liason and so muddy that even foot progress was difficult. With nothing except their rifles and bayonets and high-handed courage, these boys had to charge through the forest under shell fire and against machine

Lieutenant Richard B. Kelly, Jr.
Iota-Theta

guns placed in the trees and emplacements in the field beyond, so hidden that the only possible way to locate them was to charge against them. It was in the thickest of this battle that Lieutenant McGrew lost his life. As his men were advancing against an unusually thick nest of machine gunners, they were thrown in momentary confusion by some of the French who were on our left (the boys always thought German spies in French uniform) running back through them, yelling "Allez! Allez!" McGrew rushed from a place of comparative safety, rallied his men, re-

ceived a wound in the arm, continued to go forward, and after going about twenty paces was struck again, this time dying instantly. The next morning twenty-one German machine guns were found in this part of the forest, a great many American dead, including the body of Lieutenant McGrew, but at least three German dead for every American, and most of the Germans showed on their persons bayonet wounds and the marks of personal combat.

History will never record a braver fight than was made by these boys, nor braver leadership than was given by Lieutenant McGrew and the other officers of this regiment. They gained their objective, but when gained only 585 effectives of a regiment of nearly

Lieutenant Kelly and His French Friends

3,000 remained in line. During this same battle Lieutenant R. B. Kelly was seriously gassed and is yet confined in the hospital. Captain Herman Thompson received a most serious wound in his head from shrapnel and is being returned to the States, with slight hope of his ultimate recovery. The degrees of the wounds our other Brothers received I have not been able to ascertain, though I understand they were not severe.

The sacrifice and service which is being rendered by our Brothers, their unselfish and uncomplaining suffering of wounds and surrender of life should cause us to arrive at a re-

newed and consecrated determination to subordinate everything else to the passionate support of our country and of our boys until we have attained a peace with complete victory and a surrender without conditions.

The Regent's Dinner

Receiving a cablegram ordering me to return to the States in time to assist in the Liberty Loan drive, I inserted in the Paris edition of the New York Herald a notice requesting any Sigma Nus who could conveniently do so to meet me for dinner on Monday evening, August 26.* In response to this invitation, with as little possibility as it had and as short as the time was, I was delighted on reaching Paris to find letters from Sigma Nus, some of them as far away as Italy. Fifteen of us, representing all sections of the country and a great many of our Chapters and all branches and grades of the service, gathered around the board. Among those present whom I recall were First Lieutenant C. J. Underhill, Beta Xi, Chaplain, 2d Regiment, M. M. S. C.; Sergeant G. C. Schrieber, 27th U. S. Aero Squadron, Gamma Eta; Lieutenant Earle J. Dickinson, Gamma Eta, Air Service; First Lieutenant Alfred A. Grant, Beta Kappa, 27th Aero Squadron, First Pursuit Group, Kansas State University; First Lieutenant Roy A. Miller, Gamma Mu, Aviation Service; Lieutenant J. B. Lovelace, Beta Theta, Anti-Aircraft Artillery School; Second Lieutenant George C. Hawley, Beta Nu-Upsilon, Battery C, 2d Anti-Aircraft; First Lieutenant John F. Merrill, Gamma Delta-Gamma Lambda, 28th Aero Squadron. From these Brothers and from a great many other Sigma Nus whom I ran across from time to time (and everywhere I went Sigma Nus were found), we heard of the other Brothers, and from what we could learn, all over there in their appointed positions are living their lives and performing the deeds which will go to

*See page 206 for descriptions of the Regent's dinner by Brothers who were there.

make our record in this world struggle a record of sorrow for those who have been called upon to pay the supreme sacrifice, but of great pride and joy that we have been able through these Brothers and through the services of those who remain to contribute so much to the cause of liberty, democracy and Christianity.

Overlooking No Man's Land

During the night of July 4, with the exception of the supply company, which remained housed in a large abandoned manufacturing plant, the 167th Infantry Regiment moved towards the front. After several movements, Companies E and F were located with French troops in the front line trenches, just outside of the ruined town of Souain, and Companies G and H in the front line trenches to the right. The first and third battalions were located in support and reserve, the first battalion being placed in stretches of woods, while the third occupied a long open ditch in the field. Regimental headquarters were located in a French camp between the first and third battalions. From the 5th of July until the German offensive commenced at midnight of July 14 there was comparatively little shelling from the enemy. It is their custom, so the French officers say, to spend a period before beginning an offensive in intensive preparation, during which time they make but little reply to the bombardment of the Allies. We therefore had the opportunity with comparative safety of going through the surrounding country, becoming familiar with the locations of our boys, and watching with interest the great preparations being made to withstand the threatened assault. One afternoon we went into an observation post cleverly built and hidden in the top of a magnificent oak tree. From here we obtained a most wonderful view. This Champagne section of France is beautiful. Behind us from the post we could see as far as the eye could reach the golden grain waving in the sunshine, bril-

liantly colored with the red of the poppies, while the green background of the government-kept forests added to the beauty of the scene. Above us were twenty or twenty-five aeroplanes like huge birds darting here and there. In front the contrast between the pleasures of peace and the terrors of war became manifest. Here we looked out on the trenches, and No-Man's Land, devastated and desolate, not a trace of vegetation remaining, the earth plowed and re-plowed with shot and shell; trenches laced and interlaced. It had the appearance—except many times gloomier and more desolate—of a mill pond after the water had been drained off for days and the sun had dried and cracked the earth into innumerable cracks and all vegetation had withered and become dead. Looking on this portion of the trenches as a section, it was not difficult to imagine miles of similar territory and the millions of men lined ready to spring at each other's throats. The country here is rolling, but so long has it been cultivated (and even now the brave and thrifty French have planted their grain within the wire entanglements) that it seems free from the irregularities of our hills. The valleys gently melt into the hills. Evidently the French under General Gourard had determined to make a final stand. Guns of all sizes were camouflaged in almost every conceivable place. From a distance of ten miles behind the line could be found hidden within the trees and camouflaged with branches and with bagging painted to conform with the landscape large naval guns with a range of from twenty to thirty miles. From here towards the front guns of lesser caliber were placed at a distance of within two or three miles of the front; hundreds of French 75's formed a network of defenses. Still closer could be found innumerable machine guns. Through this part of the country runs one of the military roads constructed by Caesar. Though not longer used as a road, its grade is clearly discernible, and the outline, with firmness of

contour, is preserved. At places it has the appearance of an old railroad grade, and along this grade one could find hundreds and hundreds of machine guns. The successful camouflaging of these guns is amazing. You can pass sometimes within a few feet of a large gun without discovering its presence. I recall one afternoon as I was going from visiting one of the battalions back to headquarters, walking along with my thoughts far across the sea, a big gun within ten feet of me belched forth, deafening the ears, numbing the faculties and causing me to wonder where the earthquake came from.

Dugouts de Luxe

In this portion of France there had been constructed large dugouts. Underneath regimental headquarters were three of these dugouts, capable of housing some fifteen hundred or two thousand men. One of the dugouts had been specially constructed for use as a hospital. About ninety feet underground, with three entrances, and an entry below with rooms turned off, it provided wards for two hundred and fifty patients. It was floored, with side walls and ceilings of corrugated iron, and while it lacked having many of the conveniences of our hospitals, it was really a hospital underground. Other dugouts were scattered here and there through the woods for the purpose of affording shelter during the bombardment. The love of the French for the artistic was never better illustrated than by little things one would notice around these dugouts and temporary camps. Although the camps were known to be within shell range and thus expected at any time to be shot up, we would find flower gardens, carved figures in the chalk-like rock of the trenches, which lends itself to sculpture, and vegetable gardens artistically planted—one I recall in the shape of an enormous horseshoe—the camouflage around and over the places where the dugouts stood having the appearance as you approached it, especially at night by moonlight,

of a beautiful summer arbor. Almost every day we would carry cigarettes, tobacco, chocolate and cakes to the front line trenches. Here our boys lived like surface rats. To make conditions more pleasant and safer, many of them undercut and make shelves no larger than their bodies. Irving Cobb used to refer to an upper in a sleeper as "the upper shelf of Mr. Pullman's perambulating pantry." He should see one of these Alabama shelves. They used pieces of shelter tent to cover them with, and during their idle moments write various inscriptions with the chalk rock. One had written across it, "Stage entrance. No admittance. This is not the Jefferson (Birmingham Theater), so keep out, YOU." The Germans, when they attacked, a few days later, obeyed instructions and kept out.

Creature Comforts

We found the boys hungry and almost crazy for cigarettes, tobacco and chocolates. Transportation is a big problem in France. It is difficult to get "Y" supplies from the warehouses to the supply eschelons of the regiments, which are in the front, and from there the "Y" secretary carries it out on his back. It was a great experience to go through the trenches and hand out chocolate and cigarettes and tobacco to these boys. On account of the scarcity of supplies we had to limit each boy to a choice of one article. The cigarette smoker and the chocolate fiend loved their cigarettes and chocolate, but oh, boy, how the chewer loves his chew! One chewer bought the piece of plug limited to the individual, and I saw him stealthily slip a piece of money to one of his comrades who was broke, with the expectation that this comrade would purchase for him another plug. The comrade, who loved cigarettes, winked at me, and with the other fellow's money, to his intense disgust, bought cigarettes instead of chewing tobacco. The life of a Y. M. C. A. secretary is a happy, but busy one. My diary of Friday, July 12, which was a normal day, shows that the sec-

retary served the boys in the following ways: Carried in his pack, strapped to his back, writing paper, tobacco, cakes, raisins and chocolates to the companies in the front line trenches, the walk to and fro being at least twelve miles; sold goods over the counter in a canteen amounting to over two thousand francs' worth; gave out thousands of sheets of free paper and envelopes; cashed checks for a number of officers; sent money home for a number of enlisted boys; wrote several letters for soldiers who were not able to write, and conducted prayer service at the end of the day.

The rolling kitchens were located about three miles behind the front trenches, and the food was carried up by details in canteens and large cans provided by the French. Here the bread was principally French hardtack, which when wet swells like a sponge. Meeting a detail carrying dinner to the front in a heavy downpour of rain, we asked, "Everybody happy?" and the response came, "Sure. This rain will make much bread of the hardtack."

"Marking Time"—an Interlude

On July 8 it was reported to the commanders of the different companies that the German offensive would begin at 4 o'clock, and about 3 o'clock the boys stationed in the woods in support and reserve commenced to get ready their equipment in anticipation of the attack. Their spirits reminded one of a football team on edge—a little nervous, but ready to go. Listening to them talk, we heard such remarks as these: "Parade begins at 4 o'clock"; "The next time we show in Germany"; "If one gets me I'm shaved and had a hair cut"; "It's hard to die without a chew." A few minutes before 4 o'clock the French commenced to lay down a very heavy barrage, and the noise was terrific. Could see over in their lines a very large German ammunition dump in flames. For some reason the report of the attack proved incorrect and it did not develop at this time.

At night large details were taken from each company and carried forward for the purpose of digging trenches as cover for the supports. They went forward in the communicating trenches which had already been partially built, and as they wound in and out of the trenches with only their steel helmets visible in the twilight it had the appearance at a distance of a large snake moving forward. These details were handled in the democratic way of marking off so much space for each man, and when this space was completed his job was done. During the night the terrific din of the big guns, which seemed as if shot just over your bed roll, together with the activities of the rats, made sleep a question of almost impossibility.

On July 11 there was distributed to the boys cigarettes and tobacco from the Alabama tobacco fund. Could those in charge of this fund and the donors see the delight of the boys on receiving their allotment of the cigarettes and tobacco they would be more than repaid for their generosity and would have an added zeal for carrying on this good work in the future.

"Awake and on Our Guard"

On this same day the following general order of the famous French General Gourard was published, translated and read to each of the companies:

"To the French and American Soldiers of the Fourth Army:

"We may be attacked at any moment. You all know that a defensive battle was never engaged under more favorable conditions. We are awake and on our guard. We are powerfully reinforced with infantry and artillery.

"You will fight on a terrain that you have transformed by your work and by your perseverance into a redoubtable fortress. This fortress will be invincible and all its entrances are well guarded.

"The bombardment will be terrible. You will support it without weakness. The assault will be fierce, in a cloud of smoke, dust and gas, but your position and your armament are formidable. In your breasts beat the brave and strong hearts of free men. None shall glance to the rear. None shall yield a step. Each shall have but one thought—to kill many until they have had their fill.

"That is why your general says to you, You will break this assault and it will be a happy day.

"Signed: GOURARD."

With determined faces the orders were received and the attack awaited with confidence.

On the morning of July 12 we found that a regiment of French Blue Devils had moved into our camp during the night. They remained under cover, and about daylight the following morning made a successful raid on the German trenches, capturing thirty or forty prisoners. From these prisoners valuable information as to the plans of the enemy and the time of their contemplated attack were secured. Having with their usual bravery and recklessness performed this difficult undertaking, they marched out of camp, singing as they went the French marching song, "The Madelon." This had more of the glamor and pomp of warfare than anything we had seen. These Blue Devils, with their dark blue uniforms and jaunty caps, having about them an air of recklessness and bravado, in appearance look the part, and their deeds, as we all know, have not belied their names.

The Cross Preferred

On Sunday, July 14, it was ascertained that the Germans would begin their offensive at midnight, and that the attack on this immediate front would be made by twenty divisions on a twenty-kilometer front, and opposing the twenty divisions the allies had seventeen. In the afternoon the French general presented crosses of honor to twenty-eight men. I noticed

that for some of them it was the third decoration. The presentation is very formal and inspiring. The general would address the soldier, pin the medal on his breast and kiss him on both cheeks. Following this the band would play a part of the Marsellaise, the music being closed each time by the buglers, who used their bugles not only musically, but with the gracefulness and mannerism of a band leader's baton. The same ceremony was continued for each of the soldiers to whom the *croix de guerre* was presented. One of our boys standing nearby remarked, "Gee, I'm willing to pass up the *croix de guerre* if they'd just give me a *croix* (cross) de Atlantic."

Bringing in "les Blessés"

From my diary the following is copied:

"Monday, July 15. Well, it happened and is continuing to happen. After 8:30 service last evening we took our roll-ups to headquarters company dugout, but found it too full for comfort, there being standing room only. So returned to hut, and just as we were going to bed received a message from headquarters for us to go into the hospital dugout. We went down into this dugout, forty-nine steps, about ninety feet underground, the dugout being floored, walled and ceiled. About ten minutes before midnight the bombardment of the allies begins, and at midnight that of the Boche. In a few minutes French artillerymen begin pouring into the dugout yelling "Gas" as they came in. We get into our gas masks with as much rapidity as possible and with feelings hard to describe, as we sit below, listening to the explosion of the shells, the shrieking of the shrapnel and the answering drum of our artillery. The noise is terrific. The wounded begin to come in. We hear to our left rifle fire, and this lends credence to the report which has already come (afterwards this was found to be incorrect; the firing we heard was an ammunition dump set on fire) that the

Boches have broken through on our left and that all communications have been cut. There is nothing for us to do except to wait, like rats in a hole, for developments. For over twelve hours constant shelling, both from the enemy and the allies, continues without abating. It is impossible to find out what is happening around us. About 8 a. m. Captain Mortimer Jordan runs in from regimental headquarters, reports thirty-six casualties in the third battalion and a great many in the first, no direct news from the second battalion in the front line, that wires, flashes, carrier pigeons have all gone, and, as in Caesar's day, runners have to be depended upon. He reports the bombardment of shells to extend from the front almost in a steady stream as far back as Suippes. At 9 a. m. a Frenchman with shrapnel-wounded head is brought in, refuses opiate and shows the most wonderful nerve while Major Watt dresses his wound. U. S. soldier hit 150 yards from dugout, dies as they were bringing him in. One of our sergeants who had reported this man being struck, returns about 9:30 with a badly wounded Frenchman. Later on this same sergeant comes into the dugout and asks that his shrapnel wound, which he had received when his comrade had been killed, be treated. In a few minutes he grows weak, and while we hold his hand, dies. Requests us to write his mother. His individual service, thinking not of himself, but altogether of others, is typical of our nation's unselfish service in this world conflict. Following the death of this sergeant the wounded commence to come in in large numbers. One boy dies from phosgene gas—tasteless, odorless and invisible. Neither he nor any one else suspected that he had it until within a few minutes of his death. Foaming at the mouth and appearance of his features terrible. Several other gas patients brought in. 10 a. m.—Shell exploded in the midst of a burial detail engaged in burying two of the men of the headquarters company. Two of the burial detail were killed and two—Lowe and Emmons—brought into

the dugout. Lowe's left arm and shoulder practically torn off by the shrapnel, Emmons with a jagged hole almost as large as a water bucket in his back, and with shrapnel in his face, side and back. Lowe talks a good deal and remarks to his lieutenant, "Well, lieutenant, I have soldiered with you to the last." They both ask for cigarettes, realize their condition, and request us to write their relatives. Ambulance service not good. These two boys and others, with only first-aid attention, are not evacuated with ambulances until late in the afternoon. Edwards gassed, gasping and choking. All of them nerve clean through. Calls have been coming in for ambulances to go to Companies G and H in the front line trenches and it is reported that they have there fifty casualties awaiting attention, and that the men have been engaged in hand-to-hand fighting with the Germans. About noon, the shelling having lessened, we venture out of the dugout. The camp, which the day before had been a beautiful place with twenty or thirty barracks, large trees, artistically kept by the French, had overnight become a shambles, trees two and three feet in diameter snapped off like match-heads, the barracks shot down and burned, thirty-six mules and horses killed, the ground pocked with shell holes, some very large. German airplanes are over. They seem to have the superiority in the air. California engineers who had been located with our third battalion come into our dugout. During the bombardment a shell made a direct hit in the midst of these engineers, killing eight and wounding several. Those remaining, with tears in their eyes, plead for an opportunity to get into the fight. See more suffering and blood during the day than in my entire life. Stories that we have all heard of the persistent bombing by Germans of hospitals are confirmed. Ambulance drivers report that evacuation hospital at Bussey le Chateau bombed during the night and several patients injured; other wounded at once evacuated to Chalons. Bombed there and evacu-

ated again some distance behind Chalons, the last evacuation hospital being about twenty miles from the first-aid stations. At 8 o'clock we take the first ambulance to Companies G and H, four of us in the party. Went the route that we recognized from trips we had made to these boys in the previous days, but so entirely changed as to make us doubt whether or not we were on the correct road. Roads full of shell holes around which we had to detour. Trees cut down, dead horses and mules alongside the road. Recognizing landmarks, we keep going until we reach an American outpost, who states that we are on the correct road, but that the last quarter of a mile is under German observation and shelling."

We reached our destination and another scrap from my diary reads:

"Found heavy casualties at G and H—about forty-five. One-half of platoon missing. Men are holding positions and fighting the Germans face to face. Rockets all colors going up. Shells bursting. I get in a tremendous hurry to leave, but find that these ambulance boys after getting here would not be hurried until all patients properly attended. Leave with these litter patients all shot to pieces. Some trip coming back. Sky towards Germany full of all kinds of lights—flashes—guns big and little. The road with shell holes in it and pieces of trees cut with shrapnel all along it. No lights to the ambulance. Two of the boys lying out on the fenders acting as headlights. Dead mules and horses alongside the road. Shells bursting, and barrage in rear and to our side. Ambulance had to take the wounded to Chalons, so on final trip they put Pete, one of the orderlies, and myself out to find our way back to the hospital dugout. Passed French ammunition trains, but my limited French did not get much information. Met another wagon and asked, "Ou est Camp Dolores?" American voice responding, "By God, man, I like to have shot you," sounded sweet. They directed us, and we reached dugout at 1 a. m."

A "Heavenly" Street Car

On the morning of July 16 we visited the third battalion, taking cigarettes, tobacco and chocolate. We found that those boys had been through probably the worst experience of any. They were located in a large open ditch without dugouts or cover. Shells had burst thickly among them and their casualties had been heavy. One of the lieutenants told me of the conduct of a young Hebrew, Benjamin Rutstein. With both legs mangled by shrapnel, he called for paper and pencil and wrote a letter to his mother. It was a wonderful letter; he told her that he was dying, but that it was all right, he was dying like a brave man and for his country. Again we found the Germans had superiority in the air. Boys here reported that German planes had been over them almost without opposition and had fired machine guns into the ditch where they were staying for partial cover. While we were there ten German planes made us a visit, and we heard for the first time the spiteful "spat, spat, spat" of the machine gun. Shelling had now become desultory and only occasionally the shriek of the shells was heard. The boys learn by their sound how to estimate fairly accurately the size, kind and probable place of striking. The Austrian "whiz-bam"—so nicknamed by the soldiers—has the sound almost of a street car running through the heavens, followed by the quick "whiz" and then the "bam" of the explosion. They pay no attention to the sound of the shells which do not indicate danger, but when one is heard coming which they recognize as being a close visitor no pancake can get flatter than they can to the ground or to their cover. The most expressive cartoon that has ever been executed is that one of Briggs' which represents the soldier's grand and glorious feeling when the shell proves to be a dud.

Returning to the dugout from the third battalion, we had the opportunity of observing the wonderful ac-

for their losses and sufferings. The vacant places closed up and they went forward to face the hun on another sector with renewed determination, an unconquerable spirit and a magnificent morale.

"The Fraternity of Arms"

In the issue of "L'Illustration" of July 27 a wonderful description of this battle appeared. A free translation of a portion of it is as follows:

"While the attacking troops had arrived before the line of redoubts, all the machinery behind them was continuing to function according to the schedule based on a hypothesis of a victorious progress. The barrage rolled rhythmically far in advance of the furious waves breaking against the dyke which was resisting them. And the divisions of the second line, fully convinced that the first were pursuing their regular advance, like the hands of a clock, had advanced behind them at the appointed hour; then motor convoys, supply wagons, horse-drawn batteries, in columns on the roads—into all that our artillerymen fired with open sights, pounding, grinding unceasingly, the men, the heavy trucks and the horses. Never has any one seen such fine hecatombs. At the source of the Aisne, on that little hillock which General Marchand used to love and which he called 'Place de l'Opera,' seventy corpses were lying in one heap. But it was perhaps in the region of the 'Monts,' which we had just abandoned during the night in conformance with the plans of the command, that the carnage was the finest. They were seen to appear on the crests, at present

denuded, where no cover masked them from view, and then to plunge down the slopes. Magnificent targets! 'We were firing into the mass,' the gunners say.

"One fact will suffice to give an idea of the valor and determination of our soldiers, as well as the will of the enemy and of the violence of his assault. In the army corps which was fighting on our left wing three divisions had to face six enemy divisions, the first six of the enumeration given above. Now these admirable troops fought until the 18th. There was one battalion there which, completely surrounded, resisted three long hours on the Roman road and succeeded in disengaging itself. On the fourth day of the combat the regiment to which it belongs was charged with pinning down the enemy, holding him back, and keeping him from sending his reserves to another point. Not only did it 'pin him down,' but it progressed at certain points and brought back as trophies thirty-three machine guns and machine gun rifles.

"They had in their midst, in the most perfect fraternity of arms, an American division. It esteemed it an honor to rival them in courage and nerve. Its men went under fire as into a football game, in shirt sleeves, with their sleeves rolled up over nervous biceps. In a trench they were operating in concert with our Chasseurs sixty corpses were counted on a field of 250 meters. Ah! the Germans who saw them at work can no longer doubt that they were there, and, indeed, as our troopers say, 'certainly there.'"

A Man's Game

We are called upon as Americans and as Sigma Nus to play a man's part in a man's game.—REGENT BORDEN BURR.

A Word to the Active Chapters

By LIEUTENANT GEORGE A. CHANDLER, Gamma Lambda

ONE day last fall, shortly after Western college, a young army officer called upon an old friend in the Faculty. The officer was the founder of the local chapter of a national fraternity at that school, and the professor was the chapter adviser. They were discussing the organization's prospects of rebuilding its membership that year. Only four of the old members had returned, and they were all members of the S. A. T. C. So far they hadn't "found the time" to pledge any new men, giving as an excuse that they were too busy with their military work.

One of the Brothers, of an expansive personality, who might have been expected to put some life into a whirlwind rushing campaign, even under the very adverse conditions then existing for fraternities, was called upon the carpet and asked to explain why nothing had been done. He selfishly said that he was devoting absolutely every ounce of effort to purely military work, in order that he might be sure of winning a commission. He didn't have any time to fool with talking to men and trying to interest them in joining a fraternity, least of all one that had such poor prospects and (to his way of thinking) no inducements. What good would it do to pledge and initiate a bunch of men? They would all go off to war anyway, and the fraternity would be of no use to them and they would do nothing for the fraternity. Why not just let the chapter die out, and then everybody come back after the war and revive it in a hurry? Or if the adviser and the founder were so anxious for new men, why didn't they and some of the other older men, whose business it really was, since they started it (but who, by the way, were all in service), get out themselves and try to interest some freshmen?

That man was a *traitor* to his fraternity, and further conversation developed the proof and the cause. It seems this man felt that because there was no house, no group of congenial brothers, and none of the garish display of fraternity life, the fraternity was failing to contribute anything to his well-being. He was willing to have anything done for his good, but extremely unwilling, especially in an emergency, to do even so much as lift his hand for the organization which had honored him with membership. To make a long story short, it was found that this man had been initiated during the year 1917-'18 and had been a young member of the chapter during the most critical time in its history—when the membership was very unstable, living conditions were abnormal, and the very essence of fraternity life was one of intense sacrifice. He had been unable to look beyond the darkling clouds to the time when his college and his Chapter would again be in prosperous condition, and his spirit passed on. Then and there he ceased to be a fraternity man, for he repudiated the principles laid down by the Founders of his Order.

This is only an isolated instance of what may be taking place in the lives of countless so-called fraternity members—men who were initiated and grew into their chapters during a time of stress such as last year proved to be for so many organizations. But does the fault lie entirely with such an individual as we have pictured? Cannot the chapter be blamed for not properly educating its members and establishing in them the principles of their order? This problem is one which will have to be faced squarely during the year by each one of the seventy-nine Chapters of Sigma Nu, lest our Brotherhood have traitors such as this to deal with—and, more important, lest some of

our Chapters expire through the negligence and cupidity of just such an individual, capable of misdirecting the efforts of otherwise loyal comrades.

So let each Chapter of Sigma Nu take especial care this year to inculcate, more thoroughly than ever before, the true Principles of our Order. Let each novice be carefully drilled in a genuine understanding of the imperishable words of Past Regent Sears, author of the Creed of Sigma Nu. If the novice grasps the tremendous import of this message, no fear need be expressed that he will ever lose sight of that wonderful vision which gave birth in the heart of a great emporor to the enduring Principle upon which our Fraternity was later to be founded. Master of this inspiring Creed, a Knight can be trusted to obey the Ancient Customs,

the Law, and the proper commands of his fraternal superiors; he can be relied upon to "carry on" for the freedom of all mankind—to be a better man, a better soldier, a better American, as well as a better Sigma Nu.

Keep up the system of careful examination of candidates and thereby protect our Fraternity from encumbering itself with men who, in a testing time, would prove disloyal and threaten the foundations of the Chapter. Choose your men with greater judgment than ever before. Now, if ever, we need *quality* instead of quantity. Pursue the sane policy of making your initiation ceremonies true courses of instruction—revelations of the deeper significance of our Order—not occasions of levity. Teach each man the meaning of the Fifth Point; make him realize that the aim of Sigma Nu is *to serve* all mankind.

Thanks

By ARCHIE AUSTIN COATES, Delta Gamma

[The following poem by Brother Coates was published with favorable comment in article on current poems on life published in recent issue of *The Literary Digest*. This poem is selected from a new volume of Brother Coates's "City Tides." (Doran & Co.)—The Editor.]

For all the murmured words you did not say,
And all the hours beneath the star-shot blue
Unspent by us; and for the gold and gay
Midsummer noons we never shared . . . my thanks to you.

Ay, and for all the messages of cheer
And tenderness unsent, and for the true
Deep gaze of understanding, that the drear
And gray beclouded days found not . . . my thanks to you.

For all that might have made our few days rare,
But which you did not give, my thanks are due;
For you have made an ending I could bear,
Which otherwise had rent me, so . . . my thanks to you.

In War-Time Italy

A Sigma Nu Red Cross Man's Experiences

By V. HUGO FRIEDMAN, Theta

[Brother Friedman, formerly Chapter Advisor to Theta, joined the American Red Cross some time ago and was sent to Italy, and here are a few experiences which the censor permitted to pass. He has not run across Sigma Nus as our Brothers in France have frequently, but his tale is full of interest.—The Editor.]

IT may be of interest to you to know that neither submarines, Big Berthas nor bombing planes can stop a real dyed-in-the-wool Sigma Nu.

When I left the old U. S. about two months ago for front-line work with the Red Cross canteen service, it was with one of the largest convoys that had ever sailed up to that time. When we hit out onto the deep blue you could look out over the bounding main at sunset and the turrets and stacks of the fleet resembled the sky line of New York city. Interesting events (to a layman) came thick and fast. Submarine alarms, life-boat drills—both day and night, the sad spectacle of seeing the body of one of our boys lowered over the side of his ship—all these were interesting.

This burial took place just at sunset. Every soldier on every vessel stood at attention, the officers at salute, and faced the burial ship. Across the waters floated the trumpeter's "taps" and as the casket was lowered the Stars and Stripes were pulled from off the body and it slid below the waves. And then, one morning when we were thinking of land again, a bunch of little dots came racing over the horizon. It took them only a few minutes to reach our flagship, and lo and behold, they were ten little "wasps of the sea" with the Stars and Stripes floating from their mast heads. Oh, boy! but the troops aboard did give them a reception. And then came the crowning event of the trip. It was about 3 o'clock in the afternoon, that hour when every one is sunning himself on deck, a big gun boomed on the flagship and we could see the water spurt where the

shell struck. In just one minute every little wasp was circling around the fleet like mad, some of them shooting off at tangents obedient to the signals of the flagship, and about every 500 yards the little fellows would drop a depth bomb. At every explosion, although some of the bombs were dropped at a distance of a mile or more from us, the big ships would tremble, so it took no very vivid imagination to know just how far from life's pleasant journey riding on a hunted submarine must be. The disappearing stern of one sub as she started her disastrous journey to Davy Jones' locker was all that was visible to the spectators, but the next morning, when the troops lined up for inspection, the Adjutant read a wireless received from the British Admiralty to the effect that "From evidence obtainable we advise that your convoy has accounted for ——— submarines."

When land was sighted the convoy separated and our ship docked at a certain English port whose people had never beheld a contingent of American troops before. The authorities had been notified of our approach and the city was in holiday attire. As the troops came down the gang plank and swung into line for a march to the City Hall, where a banquet awaited them, the school children threw flowers in their path, and I saw many a sad-eyed woman rush out into the ranks and, grasping a soldier's hand, exclaim, "Good luck, sir, and God bless you." Think of it. Over 16 per cent. of the inhabitants of this city were or had been in the war.

Then from England to France, where the most interesting event was the baptism of Big Berthas' fire for three days, and then on to Rome.

From Rome to a little city of northeastern Italy and then out into the war zone by means of a military automobile. Now no one rides in Italy except the military. The American Army rides in Fords and the Italians in Fiats. Either one is capable of from fifty to sixty miles per hour on these magnificent Italian roads, and believe me the military chauffeurs coax them for the limit. I am now stationed at a big villa used as a clearing station for the wounded and sick of an entire Italian army corps. Hundreds of men are brought here each twenty-four hours by the Red Cross, Italian and U. S. Army ambulances before being distributed to various hospitals nearby. We are in the very center of the war zone, just a few miles from the Piave and Grappa hills. You can hear the big guns easily, and I assure you that a civilian, unless he be aged or one-legged, is a matter of curiosity.

As I suppose you know, one cannot write of the things that would interest you most—of military incidents, of particular units, of dates or places, nor of anything that might interest our enemy the Hun. Nor can you criticize in any way. The last named restriction does not handicap me, however, as it is my opinion that any man who would criticize in this war-stricken, devastated country ought to be taken out and shot rather than censored. But I can relate two incidents which happened to me last night and which may interest you.

Last evening about 8 o'clock the director of this station sent an orderly to my room and invited me to go with him to meet a colonel who had just arrived. We motored down to a large villa about one mile distant and there we were ushered into a large dining hall. Seated around several tables were the colonel, a captain and fifty-two young lieutenants. They had just started dinner.

Now the director seems to have the idea that I am not only representing the American Red Cross, but the Army, Navy, President Wilson and the "whole damn family," and as this director is such a fine fellow and incidentally treats me so nicely I hesitate to wake him from "love's young dream." Courtesy, accompanied by some urging, compelled me to sit next the colonel. The only English words contained in the colonel's repertoire were "New York" and "Washington." Now these are good old burrs, I must admit, but their names are not conducive to a very prolonged conversation; but just to show the colonel how finished his knowledge of English was I promptly told him, by means of signs, and punches principally, that I lived in both places, took my meals in one and slept in the other. This pleased his vanity very much. You can imagine how my mastery (?) of the Italian language was then put to the test. I find that this language is one-fourth poetry and three-fourths gesticulation. A good "Southpaw" who has the use of either arm could master it overnight.

When the colonel could not "get me," which was oftentimes, I pulled my little English-Italian dictionary and we worked it out, much to the amusement of his lieutenants. There was a piano in the hall, and after *cheese* was served one of the lieutenants played a few Italian operas most excellently, then he tried for the Star Spangled Banner, on a whispered tip from the colonel. Well, if I had not overheard the whisper, believe me I would have thought it another Italian opera. We immediately stood at attention and the lieutenants shouted "Viva Americana," then another lieutenant played all of the allied national airs and there was a following cheer for each. Three of the lieutenants sang solos in excellent voice, after which the pianist played "Over There." Everybody looked at me as if I was expected to go the solo route, but I kept calm and also their respect.

Then came the crowning feature of the bill. The colonel called upon a young lieutenant for a recitation, and while I could not grasp over one word in every fifty, it was the best exhibition of acting that I have ever seen. You could grasp the story just as if he had been talking English. Later the director told me that he is considered the coming actor of Italy. He is a wonder. The captain arose at this point—he has just come out of the hospital, his left arm having been shot away—and presented the assembly with a bunch of chocolate that I had brought, telling them that I offered it as a token of my great esteem. Then they cheered again, but remember that cheering came easily about this time of the evening, as the old wine bottle always remains on the table long after the crumbs are brushed away. I find that there is a difference in liquid refreshments over here. I have seen one full bath tub in *three* weeks, but I see *three* kinds of wine at every meal. Seeing that the colonel was about to adjourn the meeting, it being then 11 p. m., I soberly arose and in six well-chosen Italian words, which I had been rehearsing for ten minutes, I told them that I wanted to drink one more toast to the “*greata biga* friendship between America and Italy,” which assertion brought forth renewed Vivas Americanas.

Now, fellows, this is a true account, just as I saw it, and the moral of the incident is that American help, a whole lot of wine and six well-chosen Italian words can stampede any banquet in the war zone any old night.

I left the station about 11:30 last night and walked down to my room, which is in a villa now occupied by the officers of an aero squadron, the unit which protects this sector from air raids. Just about the time that I had gotten the “pale blues” on and was preparing to unfurl the mosquito bar I heard a sound very much like the fluttering of mighty wings. Being a newcomer here and not very well up on affairs militare, I wandered over to the window, thinking perhaps

the Italian army possessed an angel squadron, when something began to give a long, whining whistle which lasted for about five seconds, then a thud, and then—as Tecumseh Sherman would have said—hell broke loose. A terrific explosion occurred just about 500 yards from my villa and the echo of that bomb hadn’t gotten a good start toward Rome before you would have thought the battle of Gettysburg was being fought over.

Four batteries of three-inch guns (of whose presence I had no previous knowledge) began to boom out shrapnel, little rapid fire guns, that you see on all the higher buildings in the war zone, began to patter-patter like big bunches of firecrackers, and five searchlights began to comb the sky for the Austrian. Well, fellows, you could imagine that hun climbing, for shrapnel was bursting all over and the sky looked like it was inhabited by an army of fireflies. It was the first real raid they have had at this point in a month’s time, but they were up and ready for the gentleman. But he did have some nerve, for with all this discouraging reception, and though Italian planes began to hum in pursuit, he continued on down the valley and dropped three more bombs on and near a town below here before wending his way back across the Piave.

Not one of these bombs caused a casualty or hurt an important building. I may say that he might as well have hit me. I have watched these raids in the distance for three nights now, but this is the first time I have been “at home” to one. There are two things you never forget—the hum of a rattlesnake and the whine of a falling bomb. Now my hair did rise upon this occasion, in fact it does not comb just right as yet, but I did manage to keep my head out of the window and see and hear all there was to see and hear. And, fellows, there’s a full moon again tonight. May she sober up soon!

I am expecting and hoping to go up on the Piave next week for work

along the front, and while interesting things are barred from the mails I hope to bring a bunch of them back

with me for expression after Victory and Peace.

(To be Continued.)

A Scholar In La Belle France

By KENYON STEVENSON, Beta Eta

Ever since I came to France I have intended writing you, but leisure moments have not been especially plentiful. Now I have been over here a little more than four months, and so have a service chevron two-thirds won.

In Artillery School in France

Almost five hundred of us, graduates of the Third Officers' Camps, came from Camp Jackson in May to the ——— Artillery School. Our trip was a very adventuresome one and included passage via steerage and walking guard on a stockade (we were all sergeants at that time).

We had three months more artillery training at ——— and at the close of the camp were assigned to outfits to put into practice some of the many theories we've been having drilled into our heads for the past eight months.

Sigs in Transit

There were several Sigma Nus in our party which came across together. I didn't learn all the fellows' names, but some of them are: Lieutenant Floyd M. Sayre, of West Virginia; Lieutenant "Mickey" O'Quinn, of Louisiana; Lieutenant Robert W. Hendel, of Lombard; Lieutenant H. Harper Moulton, of Missouri; Lieutenant James W. Boring, of Kansas; Lieutenant Philip P. Marshall, of Carnegie Tech.; Lieutenant Harold Lyon, of Cornell; Lieutenant William A. Shearer, of Rose Poly, and Lieutenants George D. Wiley, Fred E. Farr, and myself, of Indiana.

A French Billet

We are all scattered now, but somewhere in the A. E. F. My battery is now billeted in a little French village in the foothills of the Jura mountains. We just made a move from another village to this one today. I have a very nice room in the house of the village cure, with the great high French bed and a lot of curious little symbols and pieces of bric-a-brac everywhere. The place is wonderfully clean, and, to use an expression of one of my fellow officers, "There's not a cow in the house."

It's the French custom, you know, to have all property sheltered under one roof. The peasant has his own home, his granaries, his tool sheds, his hay mows and stables all in one large building. That, of course, is very convenient, if not sanitary, and especially handy in the winter time, when, I am told, the snow lies four and five feet deep on the ground for three months at a stretch.

The French Countryside

We are pretty well outside the civilized world, it seems, for we don't get newspapers but once or twice a week, have no place to spend money, have to see by candle light in the evening, and are six miles from a railroad. We are pretty well compensated, however, for we have an excellent mess and get mail pretty regularly.

The scenery is wonderful, for we are up among the peaks, which are covered with spruce forests and rolling meadow lands. I really don't see

keep such thinly soiled hills. Every few yards the lime-
 ows up on the surface and
 ly there are jagged cliffs.
 sants all have cows, huge
 rger than any back home,
 ey often use as oxen besides

their regular capacity as milk pro-
 ducers.

In all, it's a very interesting coun-
 try, but can't compare with the home
 land, the U. S. A., and we're all ready
 for "Recall."

Crossing on a Transport

A Sigma Nu in the Royal Canadian Dragoons

By HOMER J. SCHLAMER, Gamma Rho

Brother Schlamer, reading the interesting experiences of other men in The
 , set down a few of his own for us. We wish our readers to remember con-
 ditions from every one are invited. Many a fascinating tale is told nowadays
 would, if written, make the Delta the best reading of the year.—The Editor.]

WE just received the May
 lta from Brother Johnson in
 ance and I certainly was
 receive some news about the
 their doings. The military
 ces, somehow, pleased me
 or at present I'm serving
 ing George when I really be-
 h the Americans, but I was
 in the States because of de-
 sion, and as I couldn't bear
 y Brothers taking all the bur-
 nlisted with the Royal Ca-
 Dragoons, one of the crack
 units of Canada.

I read of the various experi-
 my Brothers in Sigma Nu
 mpted to tell you of a some-
 citing time I had on the trip
 o England.

nit was stationed in Toronto,
 near the Exhibition Park, in
 lid barracks. Our draft left
 me 27 and went to a certain
 the St. Lawrence river for
 ation. We left immediately
 quite a nice trip down the
 eing treated to a sight of the
 ebec bridge. But our good
 sn't to last long, for a sub-
 was reported as having been
 once we were in the Atlantic,
 captain took precautionary
 s and went out of the course.
 fog came down on the night
 1, causing the ship to anchor.

We started slowly the next morning
 through heavy fog and rain. About
 7 o'clock on July 2, as we were con-
 suming what was given to us as
 breakfast, a terrible crash occurred
 and the utensils, dishes and food were
 sent flying across the room. Nat-
 urally we all thought of a submarine
 attack, so every one hastened to the
 life-boat stations. The R. C. D.'s were
 stationed at the port side of the poop
 deck and on arriving there were
 greeted by the sight of a monstrous
 rock protruding about sixty feet out
 of the water. We were somewhat re-
 lieved, but guards were put on the
 hatchways to prohibit us from re-
 turning to our bunks. It wasn't long
 before the ship's gunners got busy
 and sent up one-pound rockets at min-
 ute intervals. Several shots were
 also fired from the four-inch gun on
 deck. The men began to get restless
 until the crew came around and took
 soundings. They assured us that the
 water was less in depth than what
 the ship drew, so all would be O. K.
 if the ship did go down. After an
 hour of anxiety several rowboats and
 small fishing smacks came in sight,
 but that was all. The whistle was
 signalling continually when suddenly
 a motor dory appeared with an Amer-
 ican officer in charge. After waiting
 for about five hours we were taken
 off "The City of Vienna" by the crew
 of the U. S. S. Aztec. All on board

were eventually saved and taken to Halifax.

There sure were some peculiar happenings during those anxious five hours in the fog and rain. The canteen stores were opened and the contents thrown out to us. Every dragoon had a package of 500 cigarettes and a box of gum. It was all given to the Yanks on the Aztec. We had some colored troops on board and they caused a great deal of trouble by

jumping into the life-boats and trying to lower them. One of the crew knocked one "nigger" cool when he refused to come out of the boats. But the most curious of all was the action of the "Drags." Some were shooting craps (a customary affair in this army), others were singing to the accompaniment of a banjo, while others were trying to dance.

Still it was quite a happy bunch that landed in Halifax at midnight.

Going Across via Hydroplane

A Sigma Nu Marine Aviator

By C. FRANK SCHILT, Beta Upsilon

I WAS with the First Marine Aeronautic Co. We left Philadelphia on January 9th, last. It was necessary for two tug boats to break the ice for our transport in order to get down the Delaware. We steamed south and very moderate weather appeared in about two days out to sea, but it certainly was a rough ocean, for five days we could see our destroyers only about half of the time, the waves hiding them the other half.

On our twelfth day out we sighted land and "believe me" it was a welcome sight, for it is not very funny to be seasick for nearly two weeks, and the sight of land took all of that away. We stayed all night in port, and the next day. The port was a very beautiful place, the harbor itself shaped like a horseshoe and the mountains under cultivation with hedge trees in perfect alignment for fences, and beautiful winding roads all seemed to lead to the center of the harbor. The houses were painted white and yellow on the sides, the roofs painted green and red, all made out of tile.

On the second night we "put out" to sea again. This time everyone was alert, for a very few days before, a Spanish ship had been sunk outside of the harbor and submarines

were reported to be all around our course. Our destroyers circled around us and afforded good protection. On January 23 we put into port that was to be our home for seven months. It was a beautiful place to look on, nearly the same as the first port. The greatest thing that I remember going into port is that the captain of our transport had all the marines pulling on a nine-inch rope from 5 o'clock until 11 p. m. without "chow." I hope to meet that captain in civilian life. I have learned to do most anything, but I do love my "chow" first of all. The next morning a landing party was sent ashore and unloading the ship commenced soon afterwards. We were well equipped and prepared, having everything that could make us comfortable. Our commanding officer, Major Evans, looked after that part of it.

The natives were very curious, having seen but few Americans before, they could hardly realize the amount of goods that we unloaded, and one could not make them believe that the hydroplanes in the big boxes would really fly.

On the day of our first flight about ten thousand people had gathered to witness it, and when the ship left the

water, they nearly went wild with excitement.

The natives are mostly very poor and go barefooted all the year. The children are very apt and when you go through the towns, they all cry money! money! money! They seem to think that all Americans are millionaires, and it does go about five times as far there as it does here. One can get a very good meal there for fifty cents.

Our duty consisted of patrolling the seas with hydroplanes, which is usually very uninteresting work. Only one time did it become exciting to me, and that was when Lieutenant Pougue (not a Sigma Nu) and myself were lost out at sea. A heavy fog had appeared and we could not find the island we were looking for. We took turns at the wheel, each steering his own course where he thought the island was. We finally sighted land just as our gas was nearly gone.

I was sent back to the U. S. to finish my training and we had a long trip coming back. It took 29 days to

get here. The trip included the Azore Islands, Bermudas, Cuba, Port Arthur, Texas, then up the Mississippi to New Orleans, then we went overland to Miami, Florida. On the trip back we were without drinking water for five days.

I was stationed in Miami for two months as chief mechanic of a plane. Have been sent to Boston Technical to finish my training. While training, I rank as a gunnery sergeant. Will be at Boston Technical from eight to ten weeks, then be sent to Miami and if I get through all the training course O. K., will be commissioned a second lieutenant.

Brother William P. Hill, a Sigma Nu from Oklahoma University, served in the same company across as myself. Brother Hill is a first lieutenant and now adjutant of the post at Miami, Florida, and a very popular adjutant he is.

Brother Henry F. Sheets, of Lehigh University, is in the same class of cadets as myself, and is very popular here.

Marine Aviation Cadets.

Help The World Sweet Peace Secure

By R. E. PETTUS, Theta

[Who handed them to the committee yesterday with a thousand-dollar subscription for Liberty Bonds.—The Editor.]

The plea our President has made,
Must not unheeded go,
At once, we for our country's aid,
Should needed help bestow.

This call is to the rich and poor,
It comes to all alike,
To help the world sweet peace secure,
The kaiser's death knell strike.

A land so blessed in field and store,
And factories everywhere,
Should run our Nation's coffers o'er,
Our loyalty declare.

Six billion dollars, what is that,
For such domain as ours?

We'll show old Bill the diplomat,
We lead all money powers.

For Liberty, this is fourth loan,
If it were five or six,
We'd take the bonds without a groan
And there would be no kicks.

Heed not the overtures for peace
Of Germany just now;
From drafts and bonds we will not cease,
Our hands are to the plow.

Let us have proof she is sincere,
THEN lasting peace will come,
We'll see that nothing interfere
To bring opprobrium.

—Huntsville, Ala., Times.

The Regent's Dinner

And Other "Good Reading"

By BROTHERS OVER THERE

[Inspector Ernest L. Williams, Fourteenth Division, has sent us some "good reading" in the shape of a letter from Lieutenant Earl J. Dickenson, Gamma Eta, who attended the Regent's Dinner at Hotel Wagram, in Paris. This gathering of Sigma Nus in the American Expeditionary Forces is significant even in the history of our Fraternity, and the descriptions which follow are more than of passing interest. These letters are delightful tales of the dinner given by the Regent, Brother Borden Burr, at the Hotel Wagram, Paris, while he was abroad in Y. M. C. A. work. They are full of the Spirit of Fraternity—as many soldier correspondents of the Delta say, "never knew what Sigma Nu meant to me till I joined the Army." They are further the first accounts of Sigma Nu reunions abroad. Rumors of get-together meetings "over there" persist in coming in but no one has before written beyond the bare mention of them.—The Editor.]

Reunion In Paris

By EARL J. DICKENSON, Gamma Eta

Ernest L. Williams,

Denver, Colorado.

Dear "Dad":

Well, Dad, I guess you think I am a fine guy for not writing you before, but things have been happening so rapidly in my life the last few months that it has kept me busy being on the move all the time so that I have not had much time for corresponding, but I have thought about you all more than once, and I imagine by this time that my wife has been in to see you and given you the dope.

On Arriving in France

Well, first of all I arrived in this here land August 5, 1918, and I have been going ever since. I think I have seen most every town of any size or consequence in France and they all are very nice when it comes to fine buildings and wonderful architecture, but I have failed as yet to find a "Curtis Street" in any of them. I may say that most all the cities show the effects of a four years' war, as lots of things are pretty well run down, and, as for the sanitary condition of things, I don't think the French know what sanitation means. The prices of nearly everything an American wants over here have gone or are going up, but, as far as food is con-

cerned, they seem to have plenty, and I have found the food here in France much better and more plentiful than in England, but they say they are bleeding England to save France, and I guess it is about right, but our camps are well fed, and all the boys are healthy, cheerful and anxious to get it over with.

The Regent's Dinner

It was quite strange when I landed in Paris on the 20th of August. I stopped at the American University Union. It is a hotel run for nothing but American men from the universities, and the first notice that came to my eye was a notice that on August 26th all Sigma Nus would meet with Brother Burr at the Hotel Wagram for dinner. Well, can you imagine how I felt? Here I was alone in Paris, and could speak damn little French. If there ever was a time in my life when I was glad I was a Sigma Nu it was then. Well, when the night came I was Johnnie on the spot, and all together there were nine of us including Brother Burr, and a more enjoyable evening I never spent. (Now, dad, don't let that Gamma Eta go to sleep, because some day they will realize as I have what Sigma Nu means to them.) Brother Burr was on his way back to the States to take part in a Y. M. C. A. drive of which he has charge of some particular branch. He had been to the front for

three months, and believe me, he had some interesting stories and a great many things of interest to take back.

I have been in Paris during two air raids, the last one just two nights ago, and I tell you it is some sight. You don't know whether to run for shelter, or take a chance, and you know me. Take a chance is my motto, but it certainly was wonderful. The guns of Paris accounted for two, and the rest got back all O. K. as far as I know.

• A Word to the Colorado Chapters

I have met very few men from Colorado, and I understand there are very few over. Tell my Gamma Eta Brothers hello for me, and give them my best, and one by one I hope to get a letter to each one, but the mails are pretty scarce, and the news has to be so carefully watched that what you want to say means nothing after you cut out the facts that might be of interest to the Germans. So, Dad, even though this letter may be very short, read between the lines, and you can gather a little more information. I wrote Gamma Eta a long letter. I hope some one gets pep enough to answer it, and give me the dope, as I am sure anxious to see that bunch up and doing. By the time you receive this, schools in Colorado will be well started and I sincerely hope Delta Rho and Gamma Kappa the best of luck. Well, Dad, that must be all for this time. Give my best to all.

Second Lieutenant,
Air Service, A. E. F.
September 8, 1918.

A Welcome Reminder

By JOHN F. MERRILL, Gamma Delta

Dear Brother Dunlavy:

Yours of the 23rd ult. received a few days ago. I am glad you enjoyed the "Plane News."

As for Sigma Nu items, I have but two. There is a Brother in this squadron with me, a flyer, named John H. Buckley, Gamma Kappa.

The other item is the weekly dinner given by our Most Eminent Regent, Brother Burr, every Monday evening at the Hotel Wagram in Paris. Had the honor and pleasure of being present at the one given this week; there were eight of us besides Brother Burr, and if the others enjoyed it as much as I, it was a very successful little gathering. One is prone to forget many things which would be ever present in our daily lives back in the States, and such a pleasant reminder of Sigma Nu was very welcome.

August 29, 1918.

Aero Squadron,
Pursuit Group, First Army.

Present In Spirit

By EVAN J. DARRENOUGE,
Gamma Rho

Regent, Sigma Nu Fraternity,
Hotel Wagram, Paris.

Dear Brother:

As I am not stationed in the vicinity of Paris, I will not be able to attend your dinner there the 28th. However, I will be there in spirit.

France,
August 15, 1918.

Regrets From Italy

By HUGO V. FRIEDMAN, Theta

Dear Brother Dunlavy:

When in Rome couple of weeks ago, I noticed in Paris edition of the Herald, a note asking all Sigs in Paris to meet with Regent Burr for dinner at Hotel Wagram.

I would have given a great deal to have been with Borden and the boys that night. Have met several Sigs in Italy. There are two here now in the U. S. Ambulance Unit.

From what we can learn, matters are unusually well with the Allies and next summer should see the finish.

Rome.
American Red Cross.

*Yours fraternally,
James Frank Hopkins,
Alpha #1*

Founder James F. Hopkins. Alpha No. 1. Born December 30, 1845. Died December 15, 1913.

Synopsis of the History of Sigma Nu

BY GRAND HISTORIAN BURTON P. SEARS

SIGMA NU was founded on or about January 1, 1869, at the Virginia Military Institute, Lexington, Va.,—the West Point of the South. Following the war between the States, large numbers of students had enrolled from the West and South, some of whom had borne arms under the Confederacy. The dark days of reconstruction had set in, times were troubled, and a general feeling of restlessness pervaded the Institute. Numerous organizations were formed, and out of one of these—the Honduras-Emigrant Aid Society—grew the Sigma Nu Fraternity.

Alpha Tau Omega had been founded there in 1865, and being without a rival for several years, soon dominated the Institution, securing most of the honor men and a strong following among the sub-professors, and its members, known as "Blackfeet," assumed an attitude of superiority. This dominance was resented by a number of Western boys, who proceeded to organize a rival organization, known as the "Whitefeet", and later as the Sigma Nu Fraternity.

The prime mover in the scheme was Cadet John Frank Hopkins, who had served in the war and was twenty-one years of age when he came to the Institute, in 1866. He there became a Mason and a member of the Knights of the White Carnelia, a Southern order designed to preserve the old traditions and ideals of the South. Finding a severe system of hazing in vogue, he espoused the cause of the freshmen, or "rats", as they were called, and in their defense successfully fought numerous battles with prominent upper classmen, thus gaining the enmity of the "Blackfeet", but at the same time securing the warm friendship of many of the under-classmen. Some time thereafter, aided by Cadets J. M. Riley,

Greenfield Quarles, J. W. Hobson, and R. E. Semple, all of whom were dubbed "Hopkins' rats", he set to work among the members of his class, many of whom had been members of the Honduras-Emigrant Aid Society, which had recently collapsed, and he soon had an organization under way.

The first regular meeting of which we have any account was held January 1, 1869. The organization was intended simply as a local society, none of its founders ever dreaming that it would ever extend beyond the Institute. Its success was phenomenal, forty men being initiated before the commencement in 1869. Its members were known as "Whitefeet", and the rivalry between the new organization and the older society of "Blackfeet" was tense and bitter. By the following commencement, Sigma Nu had secured practically all of the principal offices in the Cadet Corps. Emboldened by its success, the idea of extending the order was proposed and discussed, and a constitution, badge and symbols were adopted. The badge was designed and its symbols suggested by Founder Hopkins, while the original constitution was chiefly the work of Edward R. Arthur, later third Regent of the Fraternity. The badge has always remained the same, varying only in size and the use of the raised center, while the constitution has undergone many changes and modifications necessary to meet the wants of a rapidly growing order.

The form of government adopted in 1870 and that in use until the Nashville Convention of 1884, was as follows: The only general officers were a Regent and a Vice-Regent elected for the term of five years. The first Regent was Founder Riley, and the first Vice-Regent was Founder Hopkins, both being elected by the V. M. I. Chapter (Alpha) on

Greenfield Quarles
(Helena, Ark.)

Founder Greenfield Quarles, Alpha No. 2. Still living at Helena, Ark.

May 7, 1870. Each State was to have a president and vice-president, elected for three years, by the Chapters in each State, each commander having one vote for every twelve members of his Chapter. The State presidents were thereafter to elect the Regent and Vice-Regent from candidates selected by the Chapters, each president having one vote for every twenty-five members in his jurisdiction. The Regent was to designate some one Chapter as the Grand Chapter, which was to have special privileges in regard to granting charters in any section of the world. Each State president in turn was to designate some one Chapter in his State as the Grand Chapter of that State, which had power to establish Chapters in the State. Chapters were designated with Roman numerals, in the order of their establishment, not receiving their present Greek-letter names until 1888.

It became the practice to give to certain members leaving the parent Chapter blank charters to establish Chapters in such places as they might choose. Several charters were issued in this way, and it is probable that a number of short-lived Chapters were formed, but all have been lost sight of except four. These were located at the University of Virginia, Bailey Law School of Asheville, N. C., University of Georgia, and at Tarboro, N. C. No records of any of them have ever been found. The first charter was granted to Henry T. Drane, in December, 1870, authorizing him to found a Chapter at the University of Virginia (Beta). He enlisted only four men, none of whom returned to college the next year and accordingly the Chapter died, until revived in 1882.

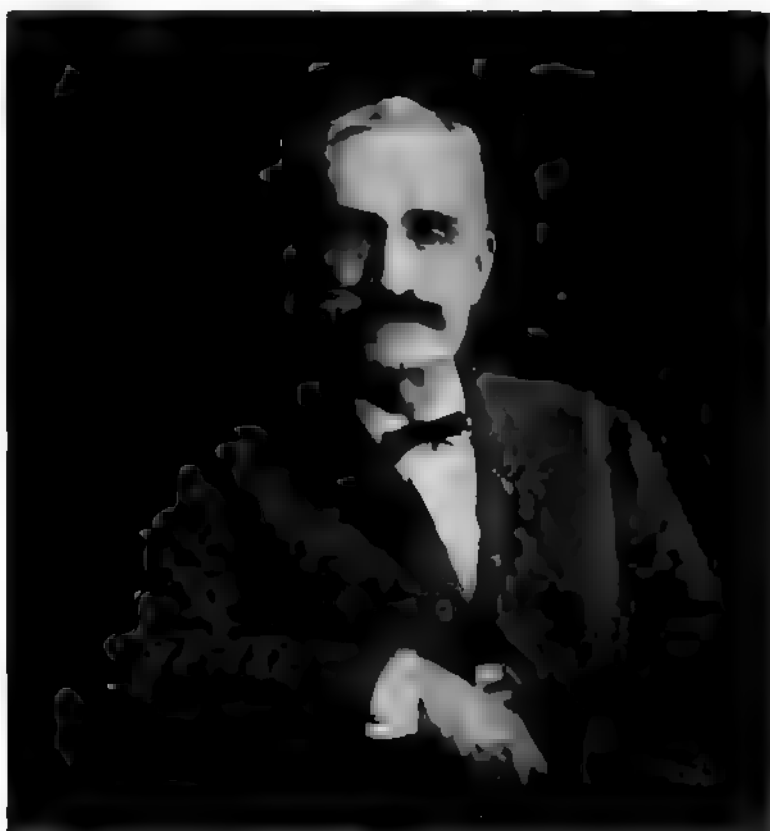

In the fall of 1871 John P. Arthur, of Alpha Chapter, tried unsuccessfully to establish a Chapter at the Bailey Law School of Asheville, N. C. (Gamma), and in 1874 a few business men at Tarboro, N. C., were initiated in an irregular way (Delta). In 1873 James Bonham, of Alpha,

founded a Chapter at the University of Virginia (Mu), and had made four initiations, when the authorities abolished all fraternities.

In 1874 Alpha authorized O. E. Smith to establish a Chapter at the University of Alabama (Theta), which he did through the efforts of Thomas W. Clark. This was the first real Chapter to be established, but it, too, soon encountered anti-fraternity laws and in 1877 was driven into a *sub rosa* state. It continued, however, to initiate members from time to time until it came out from under the rose in 1885.

In 1879 Alpha alone survived, except for the fact that Theta was running *sub rosa*. In June, 1879, through the efforts of R. E. L. Hudson, of Theta, a Chapter was installed at Howard College (Iota), but in 1881 it was disbanded, because of anti-fraternity legislation, and not revived until 1890.

Then followed the most critical period in the history of the Fraternity, for anti-fraternity legislation had destroyed all except the parent Chapter at Virginia Military Institute (Alpha). In 1881, through the efforts of Commander Eugene H. Crowder, of Alpha, a Chapter was established at North Georgia Agricultural College (Kappa). John Alexander Howard was one of the charter members of the Chapter. Alpha realized that more Chapters must be founded and in the spring of 1882 initiated Isaac P. Robinson, who in the fall of that year established a Chapter at Washington and Lee University (Lambda), likewise in Lexington, Va. Robinson was a man of great energy and soon developed a flourishing Chapter. At the suggestion of Lambda and Alpha, he created for himself the office of General Secretary and began a correspondence with all known members of the Fraternity, discussing such steps as a general convention, extension, a catalog and a Fraternity journal. He put himself in touch with Kappa Chapter and with its leader, John A.

Founder James M. Riley, Alpha No. 2. Born May 16, 1849. Died June 8, 1911.

Howard. In April, 1883, with but three living Chapters, (Alpha, Kappa and Lambda), Howard began the publication of the Sigma Nu Delta, deriving the name from the trio of living Chapters mentioned.

With the advent of Robinson and Howard, the Fraternity's struggle for existence became more successful and it is at this point that the real constructive revival of the Fraternity begins. Alpha granted to Lambda the privilege of establishing new Chapters and Robinson, as commander, made the most of it. Beta, Theta and Mu were revived, and four new Chapters founded, Epilson, Zeta and Nu organized through the efforts of Lambda, and Eta by members of Kappa.

Through the efforts of Robinson and Howard, the first Convention was held at Nashville on July 9, 1884, and was comprised of eight delegates, representing five Chapters. The entire form of government was changed and the supreme power vested in a General Convention of Chapters, while the officers, including the three division chiefs, were designated as the Grand Chapter. The method of granting charters was changed so as to require the consent of all of the officers, all Chapters in the division, and a majority of the remaining Chapters. A ritual was also adopted. Robinson was made General Secretary and Howard, Vice-Regent.

The second Convention was held at Lexington, Ky., in 1886, and was comprised of twenty-six delegates, representing ten chapters. In the interval, Alpha, Beta and Epsilon had died, the first from anti-fraternity regulations and the other two from indifference. Six new Chapters were founded, Delta, Xi, Omicron, Pi, Rho and Sigma. Robinson resigned in December, 1885, and Rawson Bennett, of Nu (University of Kansas), became General Secretary, and for the succeeding ten years the Fraternity was largely in the keeping of members of Nu Chapter. This Lexington Convention, dominated by the

progressive views of Bennett, revised the ritual and constitution, investing the supreme power in a Grand Chapter composed of the grand officers and three delegates from each Chapter, and in a High Council, composed of the four officers of the Fraternity. This is substantially the form of government which has ever since prevailed. The laws as to extension were greatly modified and practically gave to the officers the power to grant charters.

The third Grand Chapter was held at Birmingham in 1887, under the auspices of the Fraternity's first Alumni Chapter. It was distinctly reactionary in sentiment, but no constructive policy of legislation was adopted. It placed itself definitely on record as being opposed to consolidation in any form, and refused to receive a report favoring a proposed consolidation with the Kappa Sigma Fraternity.

The fourth Grand Chapter was held at Asheville, N. C., in 1888. The contest between the expansionists and conservatives was sharp, but not entirely decisive. A conservative was selected as Regent, and the law was amended so that any one Chapter or Grand Officer could prevent the issuance of a charter.

The fifth Grand Chapter, held at Chattanooga in 1890, was the most constructive Convention ever held, with the possible exception of the Nashville Convention in 1884 and the Denver Grand Chapter in 1915. The progressives and conservatives there met squarely on the issues of extension and the progressives were victorious. The Fraternity definitely committed itself to a policy of rapid northern and western extension, under the leadership of Harrington and Bennett. The constitution and laws were codified, and a much needed financial statute enacted, which is substantially the same as that which prevails today. The right to grant charters was placed in the hands of the Grand Recorder, subject only to the control of the High Coun-

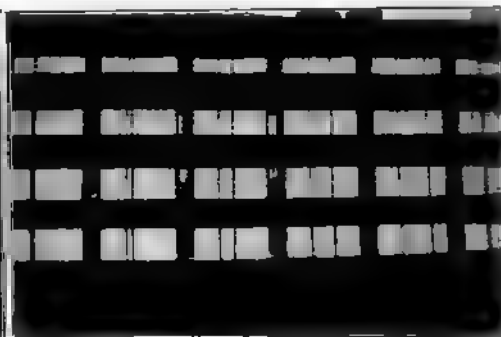

Gates of V M I.

cil. The Chapters themselves were given no vote upon petitions. Then followed a period of rapid extension, and before the next Grand Chapter, Harrington had founded twelve new Chapters.

The sixth Grand Chapter, held at St. Louis in 1892, approved the existing policy of extension, and re-elected Bennett as Regent and Harrington as Grand Recorder.

The seventh Indianapolis Grand Chapter of 1894 marked the retirement of Harrington and Bennett, and the return of the conservatives to control. The laws relative to extension were modified so that division Chapters could reject a petition for a charter. Robinson, a conservative, was made Regent, and Clarence E. Woods was made Grand Recorder.

The early history of the Fraternity, from 1869 to 1894, may be divided into three periods of Chapter domination. First, the Founders' Period—from the foundation of the Fraternity to the establishment of the Delta—1869 to 1883—may be said to be that of the domination of Alpha Chapter. Second, the period from the founding of Lambda in 1882 and the establishment of the Delta in 1883, up to the advent of Harrington and Bennett, in 1885 and 1886, may be said to be that of the domination of Lambda Chapter, represented by Robinson, supplemented by the aid of the Delta, edited by John Alexander Howard, of Kappa. The third period, from the advent of Harrington and Bennett, 1885 and 1886, up to the Indianapolis Grand Chapter, of 1894, may be said to be that of the domination of Nu Chapter.

The activities of Robinson and Howard gave to the Fraternity such leaders as Bennett and Harrington, who successfully made the Fraternity a national organization, by rapidly extending it north and west.

Following this period of rapid and progressive extension, the Fraternity entered into a short period of conser-

vative expansion and financial depression.

The eighth St. Louis Grand Chapter of 1896, after a strenuous contest, adopted even more conservative laws in reference to extension, and the liberals were routed for the time being.

Woods, as Grand Recorder, was retained in office until 1913, and being at heart an ardent expansionist, his views soon became those of his associates and those of the Fraternity, which within a few years was again in control of the progressive element, and numerous Chapters were established throughout the United States.

The ninth Atlanta Grand Chapter of 1898 marked the defeat of Heywood as Grand Treasurer, who took the Fraternity's finances in hand and placed the Fraternity upon a firm business basis.

The seven succeeding Grand Chapters took no radical action upon the questions of general Fraternity policy, but were devoted primarily towards perfecting the internal development of the Fraternity, and at the same time extending the roll of its Chapters particularly in the State Universities of the country.

The seventeenth Denver Grand Chapter marked a new era in the development of the Fraternity, for it enacted more constructive legislation, of general importance, than had been enacted since the days of the Chattanooga Grand Chapter. The administrative system was entirely reorganized and provision made for a General Office to be conducted by a General Secretary, chosen by and responsible to the High Council. The system adopted has proven a success, and the real internal development of the Fraternity may be said to have definitely begun.

The color originally chosen for the Fraternity was sky blue, but it was superseded by the Black, White and Gold. The white rose was chosen in 1892 as the distinctive emblem, and

in 1913 the first Sunday in November was adopted as Memorial Day. The Fraternity permits no honorary members. The Creed of Sigma Nu was written by Walter J. Sears, as was also the Declaration of Principles, adopted in 1915.

Established in the West Point of the South, following the war between the States, Sigma Nu was essentially a military Fraternity, and its mem-

bers in the present great world war are fully living up to the Faith of their Founders, the teachings of the Ritual, and to that precept of the Creed which admonishes each Knight "To guard with jealous care the ancient rights of human freedom, in whose name we shall destroy all wrong and oppression * * * and so to be faithful to the Knighthood of Truth."

Chicago, Ill., April 17, 1918.

Virginia Military Institute, Lexington, Va., as it looked in the early days.

[These old historic pictures, accompanying this article, are reprinted from Deltas dating from 1907 to 1913, chiefly for the thousands of initiates since those years, who have never seen them, and also for the few to whom the history of Sigma Nu in word and picture, oft repeated, never grows wearying or monotonous. —The Editor.]

Building a National Fraternity

I. Extension Period from 1886 to 1894

By PAST GRAND RECORDER GRANT W. HARRINGTON

[The following article is the first of a series of historic narratives prepared for The Delta by Brother Grant Harrington, Nu No. 4. Brother Harrington's long experience as Editor of The Delta and Grand Recorder gives these articles an uncommon value to the younger Brothers. If Sigma Nus will carefully read these articles as they appear, together with recent and current articles of Brother Rawson Bennett and historic synopsis of the Grand Historian, Burton Sears, they will then have a comprehensive knowledge of other days.—The Editor.]

WRITING for The Delta in 1914 (XXXII, p. 5), Past Regent Bennett said: "Historically, we who framed the law intended that Sigma Nu should have a general manager and that he should be the Grand Recorder." As I was the acting or actual Grand Recorder from the Lexington Convention in 1886 to the Indianapolis Grand Chapter in 1894, it is not egotistical for me to say that for the eight-year period between these two gatherings I had more to do with directing the policy of the Fraternity than any other member.

The first issue of The Delta under the management of Nu Chapter in 1886 contained the following official notice:

"Notice is hereby given that I have this day appointed Grant W. Harrington, Chief of the Fourth Division, to the post of Assistant Grand Recorder. All official communications intended for the action of the Grand Recorder, or High Council, will be addressed to him until further notice. The office of the Grand Recorder is hereby established at Lawrence, Kansas.

PERLEE RAWSON BENNETT,
G. R., S. N. F."

In his report to the Birmingham Grand Chapter in 1887, Grand Recorder Bennett said:

"I can find no more fitting place than this to pay a richly deserved tribute to a Brother whose energy and ability have stood the Fraternity in good stead during the past year. I refer to Brother Grant Woodbury Harrington, Chief of the Fourth Division and publisher of The Delta. I say no more than truth when I say that the work of the Grand Recorder's office could not have proceeded at all this year without Brother Harrington. Early in the year I foresaw that I would be unable to attend to the routine work of the office, and appointed him my Assistant Grand Recorder. Right well has he fulfilled the task. During the past year Brother Harrington has written hundreds of letters. He has published The Delta with the brilliant success that we all know; he has carried on the routine work of the Grand Recorder's office; he has collected about one-half of the material needed for a complete catalogue of the Fraternity; he has gathered from many sources a large amount of most valuable historical material. In addition to all this he has kept up his college work in fine style, graduating second in a class of

thirty. With all respect to this Grand Chapter, I here urge that Brother Harrington be rewarded in proportion to his deserts."

Bennett was re-elected Grand Recorder at Birmingham, and in his report to the Grand Chapter at Asheville one year later said:

"For reasons elsewhere more fully explained I have been constrained to turn over to Brother Harrington nearly all the duties of the high office with which you have repeatedly honored me."

I succeeded Bennett as Grand Recorder at this Grand Chapter and was re-elected at Chattanooga in 1890 and at St. Louis in 1892. After being out of office two years Bennett was elected Regent at Chattanooga in 1890 and re-elected at St. Louis in 1892. In his report to the Grand Chapter at St. Louis Regent Bennett said:

"Owing to the isolated situation of my residence as regards the bulk of the membership of the Fraternity, I have been able to concern myself but little with external administration, nor have I been able to make any visitations to Chapters. But the interests of the Fraternity have not suffered by this enforced inactivity on my part, the organization of the High Council leaving the executive direction of the order in the hands of the Grand Recorder when the Regent is unable by reason of circumstances to exercise his powers to their full extent. Fortunately for Sigma Nu, we have in our Grand Recorder, Brother Grant W. Harrington, an official who is fully equal to the task imposed upon him and whose discretion, fidelity and zeal are so well proven to the Fraternity at large that they need no commendation from me."

At the Indianapolis Grand Chapter in 1894 Regent Bennett said:

"Brother Harrington has been the working head of our Fraternity, with free hands, for the past two years. He has been such because I as Regent desired that he should be; and while

I have never hesitated to check him in any enterprise which I did not approve, he has done nothing which I did not then and do not now fully and emphatically endorse. More than this, Brother Harrington has been virtually Grand Recorder not only since 1888, but since 1886. I never more than nominally filled the office, my lack of settled residence during those two years preventing my attending the multitudinous details. The work was done in my name, but Brother Harrington did it in fact. With such aid as my own household could furnish he compiled our first catalogue and published it at his own risk, the Fraternity then having no sound system of finance. He published The Delta year after year and often had to pay the printer out of his own pocket. He has worked early and late, in sickness and in health, neglecting his own business for Sigma Nu, and has performed for her services that no money compensation we can give him will adequately repay."

Getting Out of the Sectional Rut

What was done during this period with The Delta, the Catalogue and the Song Book have already been told. But these were only incidental to the main work of getting the Fraternity out of the sectional rut in which it was stuck and putting it on the highway to national greatness. Two ideas existed then, as now, regarding the purpose of a college fraternity—one that it is a very select organization to which only the bon ton, who can run the gauntlet of wealth and social position, should be admitted; and the other that it is a democratic institution responsive to the demands of student needs wherever found. It is the world old story over again of the conservative—the disciple of the things that are—and the radical—the one who believes in growth and progress. It was inevitable that these two ideas should clash in the management of Sigma Nu. The first real test of strength between the conservatives and the progressives took place at the

Asheville Grand Chapter in 1888. A petition from the Chi Beta Delta local at Westminster College at Fulton, Missouri, had been rejected by the High Council and the case had been appealed to the Grand Chapter. After a pretty full discussion of the policy of extension the matter of the Westminster petitioners was referred to the incoming High Council by a vote of 27 to 16.

The chief of the conservatives at this time was Regent Daniel W. Langdon, Jr. He had prevented the granting of the petition from Westminster when it was before the High Council and his re-election, of course, meant the defeat of the petitioners once more. It meant more than this. It meant a continued check to the policy of expansion, which some of us were convinced was necessary to secure the permanency and prosperity of the Fraternity.

Accordingly Brother Eugene H. Crowdus of Alpha, who had achieved prominence in the Fraternity by his work in breathing new life into Upsilon Chapter at the University of Texas, was nominated for Regent against Brother Langdon, who was a candidate for re-election. The minutes of the Grand Chapter show that the fight was made in the open. They read (see Delta VI, p. 150):

"Brother Howard nominated for Regent Brother Daniel Webster Langdon, Jr., of Theta.

"Brother Murphey nominated Brother Eugene Crowdus of Alpha.

"Brother Bennett seconded the nomination of Brother Crowdus.

"Brother Dean seconded the nomination of Brother Langdon.

"Brother Harrington seconded the nomination of Brother Crowdus, taking occasion to say that he opposed Brother Langdon merely on account of the latter's overconservatism in extension.

"This brought out a speech of reply and defense from Brother Langdon.

"The Grand Chapter applauded both Brethren and took occasion to praise their truly fraternal frankness. The roll was called and resulted as follows:

"Brother Daniel Webster Langdon, Jr., of Theta, 23½ votes. Brother Eugene Crowdus of Alpha, 18½ votes. Total, 42 votes.

"On motion of Brother Harrington, Brother Daniel Webster Langdon, Jr., was then declared elected Regent by acclamation."

The Grand Chapter was not as conservative as this vote would indicate, but the progressives labored under the handicap of not having their candidate present. Brother Langdon was of charming personality and no one questioned the zeal and fidelity with which he served the Order. He was "Our Dan," and the result was a personal victory for him.

The June, 1889 Delta, containing the proceedings of the Asheville Grand Chapter, was mailed to every member of the Fraternity so far as addresses were known. This seemed a suitable time to discuss the subject of extension and so my General Circular No. 16 was inserted:

GENERAL CIRCULAR NO. 16

Office Grand Recorder Sigma Nu.

To the Members of the Fraternity: As this issue of The Delta will reach nearly every member of the Fraternity, it seems to be a good time to call attention to the subject of extension. So far we have drifted along without any definite notion as to where we were going, and many of our now most flourishing Chapters were organized more through accident than design. The unparalleled activity of rival fraternities now makes it imperative that we adopt some policy and steadily pursue it or drop behind in the race. Such a policy, of course, cannot be adopted before the next Convention, which will meet some time during the summer of 1890, but in the meantime we can determine

what fields are still open for us and gain new footholds. The Catalogue just issued ought to give an impetus to the work that will succeed in reviving some of our dead Chapters and organizing a half-dozen new ones before the next Convention.

In the First District, which includes the states of Delaware, Maryland, Virginia, West Virginia, North Carolina and South Carolina, there are probably no more schools we would care to enter. Our Beta Chapter at the University of Virginia ought to be reorganized by all means. Experience has shown that a Chapter cannot be successfully maintained here in the professional schools, and we have never yet secured a foothold in the academic department. Of our 850 members about forty are now residents of the Old Dominion. It ought to be a matter of pride to them to see a flourishing Chapter here, and I believe it could be done if they would undertake the work.

In the Second District, comprising the States of Georgia, Alabama, Florida, Mississippi and Louisiana, we are strongly intrenched, nearly one-half of our members being found in these States. There are many and strong rivals in this territory and many of them are much better organized than we, and through the means of their State associations and Alumni Chapters much valuable aid is given to the active Chapters. A more thorough organization is needed in this division.

The Third Division, comprising the States of Kentucky, Ohio, Indiana, Illinois and Michigan, covers a boundless field into which we have scarcely penetrated. Our two Chapters in Kentucky are doing work of which we can feel proud, but aside from this we have done nothing. Our Vanderbilt Chapter was allowed to die through indifference. This is the most desirable place in the State and an especial effort should be made this coming year to revive it. The trouble here, like that at the University of

Virginia, is to gain a foothold in the academic department. This is overshadowed by the professional schools, but we cannot hope to gain anything permanent in these schools, as the men as a rule do not attend long enough to give stability to a Chapter. On account of the strong rivalry we would meet in an attempt to reorganize, the most feasible plan seems to be to pledge enough men before they enter in the fall to give the Chapter a start. This can be done by the Alumni throughout the State. The feasibility of this plan is shown by the success in Texas last fall. It needs some one to take personal supervision, and fortunately the chief of this division, Brother S. E. Bradshaw, of Forest City, Arkansas, is both able and energetic and will make the most possible out of the aid furnished him by the Alumni.

In the remaining four States across the Ohio river we have done nothing. The directory shows our membership in these States to be as follows: Illinois, 7; Ohio, 5; Indiana, 1; Michigan, 0. And this, too, in the face of the fact that these four States are among the foremost States in the Union in wealth, intelligence and population. Nothing shows the onesidedness and sectional aspect of our Fraternity stronger than this. In these four States there are upwards of twenty-five colleges and universities where some of our rivals have chapters. A half, at least, of these schools are desirable places for us to enter. In many of them there are societies that might be absorbed if the matter was properly looked after. Alpha Tau Omega and Sigma Alpha Epsilon have been working this field successfully for the past two years and there is no valid reason why we should not do likewise.

The Fourth Division, comprising all the territory west of the Mississippi and the state of Wisconsin, like the Third also opens a boundless field, but, unlike the Third, it is comparatively new and so there is a greater opportunity to extend. It is only a

tion of time when the center of relation will be west of the Mississippi. With it will come great schools. It is far better for us to gain a hold now than to wait until we have to fight hard for everything we want.

The four institutions where we have Chapters now have no superiors in the Fraternity, Yale alone excepted. The State universities of Wisconsin, Minnesota and Iowa are equal to us in every respect, while those of Nebraska and Colorado are not far behind. * * * Phi Delta Theta has 25 chapters in this division, Beta Beta Beta nine, Phi Kappa Psi seven, Alpha Chi Omega six, while a number of others are represented by one or two chapters.

The Fifth Division, comprising the Middle and New England States, has been regarded as a territory in which the Western and Southern Greek fraternities could not flourish. Schools in this division, outside the four or five great schools, are small, and a little comparison will show that they do not compare favorably with the Western and Southern universities. They have reached their full development and do not present the possibilities of the newer ones. The University of Boston

presents a possible exception to this. An effort ought to be made to gain Chapters in the larger institutions, as it is very probable that as we grow in numbers many of our members will go here for a professional education. These should be provided for.

By our Constitution the Vice Regent, Grand Recorder and the five Division Chiefs are constituted a board of extension, but their hands are practically tied without the earnest co-operation of the members of the Fraternity. All information as to schools or men should be sent to some member of this board at once. It often happens that some member will know of a bright, energetic man about to enter college who can be interested in the work and who will work up a petition after he has matriculated. Quite a number of our Chapters have been founded in this way. This is one of the most successful means of founding new Chapters and the one on which we must rely if we hope to accomplish much.

Fraternally yours,

GRANT W. HARRINGTON,
Grand Recorder.

[To be Continued.]

Some Notes and Queries

BY PAST REGENT RAWSON BENNETT

JUST needs retract my inferential deprecation, in my note in the February Delta, of the printing of the Founders' Constitution. The printer has called attention to an error in the Howard transcript which should be corrected. I refer to the sentences in Sections 1 and 2 of Article IV, where it is said to be the duty of the Regent and the State President to designate some "Point" as the "Grand Lodge" for the Order in the State. For "Point" we should simply read "Chapter."

In the summary of the Founders' Constitution made by Brother Grant

W. Harrington, with the original before him, for in the Historical Sketch prefixed to the catalogue of 1889 it is stated: "The Regent was to designate some Chapter, which during his term of office, was to be designated as the Grand Lodge, and which was to have special privileges in regard to granting charters. The President of each State was also to designate some Chapter which would be known as the Grand Lodge of that State."

The only construction that can give any meaning to "Point" is that of "office" or "headquarters" which

might pass in view of the fact that the founders were at a military school, were not that meaning wholly inconsistent with the powers assigned to the "Grand Lodge" and to the "Head Chapters of States" in Article VIII, which provides for issue of charters. That article evidently contemplates some body of men who were to grant or refuse petitions for charters. The Regent and Vice-Regent and State President and Vice-President seem to have had a veto rather than an initiative, since without their signatures no charter would be valid.

Who Granted the First Charters?

The vagueness of that Article VIII as to the charter granting process is in striking contrast with the present particularly on that subject. It also suggests inquiry as to what was the actual method pursued up to the change in the frame of government effected by the Nashville Convention of 1884, or first Grand Chapter.

It is evident from the "Form of Charter" set out in Article VIII that the plan of extension was to issue to some Brother a warrant to establish in a given State and place—not necessarily a college—an organization which became a Chapter, with power to frame its local by-laws, when twelve men were enlisted.

We know, in fact, that Chapter II (Beta) was established at the University of Virginia, Chapter III (Gamma) at the Bailey Law School, Chapter IV (Delta prime) at Tarboro, North Carolina, and not in a college; Chapter VIII (Theta) at the University of Alabama, Chapter IX (Iota) in Howard College, Chapter X (Kappa) at North Georgia, Chapter XI (Lambda) at Washington and Lee, and Chapter XIII (Nu) at the University of Kansas.

Brother Harrington also ascertained in the course of his researches in 1888 that a charter was issued to Brother James Bonham for Chapter XII (Mu) at the University of

Georgia and obtained the statement that four men were initiated before the college president interposed his veto. Brother Harrington also obtained the names of two "Hills" as two of these initiates. Brother Walter J. Sears later discovered, I believe, that these gentlemen were members of another Fraternity.

But what authority issued these charters? And to whom and for what States and places were issued the warrants for Chapters V, VI and VII? Epsilon, Zeta and Eta, which later bore the Greek letters corresponding to these numbers, were not established until 1883-84 as part of the revival which began when Brother I. P. Robinson obtained the warrant for Lambda. The numbers given Lambda, Mu and Nu show that these warrants had been issued and the number given Theta in 1874 shows that they were issued before that.

What Were the "Grand Lodges?"

So far as I know the fragmentary records that remain owing to the loss in that Kansas fire so many years ago reveal no designation of "Grand Lodges" for the Fraternity at large or for any State. In fact, it seems doubtful if the "State President" plan ever extended beyond the first attempt to establish in Virginia in 1870.

The reasonable supposition is that Alpha Chapter, either by designation of Regent Riley, or by assumption of the power because there was no other body, at times, to exercise it, sanctioned all the charters issued down to that sent out to Nu shortly before the Nashville Convention met. If any formal action was taken by any other Chapter the old records of Theta, Kappa and Lambda ought to show something of it.

Nu's charter was signed "Wm. H. Wade, Regent; J. P. Imboden, Vice-Regent," and by a third name which I do not now recall, to which was annexed the Greek letters "Gamma

Sigma," meaning "Grand Scribe," as the Corresponding Secretary, now the Reporter, of the Chapter was then called. He was however, merely an officer of the Chapter, and not of the Fraternity.

The fact last mentioned is presumptive evidence that Alpha Chapter had been given or had assumed the charter granting power. The fact that "Grand Scribe" is specified in the "Form of Charter" as attesting the document is further evidence that a Chapter, and not a "Point" was to be designated as "Grand Lodge."

Who Elected the Second Regent?

A surviving record shows the election of J. M. Riley and J. F. Hopkins as the first Regent and Vice-Regent. But who re-elected them in 1875 and 1880, if they were re-elected when their terms would by law expire, and who elected W. H. Wade Regent and J. P. Imboden Vice-Regent in 1882?

Our founders who were the first Regent and Vice-Regent have gone beyond, leaving these questions unanswered, if they could answer them. But Brother Wade is, I believe, still living, and an effort should be made to obtain his records or recollections of how he obtained the office.

In this connection I must point out an error in the lists of Grand Officers given in the Proceedings Delta. It is there stated that I. P. Robinson was Grand Recorder, 1882-1884. He could not have been for the simple reason that as no such office existed until the Nashville Convention created a "General Secretary" in July, 1884, and elected Brother Robinson. The roll for that office should stand thus:

General Secretaries (Grand Recorders).

1884-1886—Isaac P. Robinson, Lambda.
 1886-1888—Rawson Bennett, Nu.
 1888-1894—Grant W. Harrington, Nu.
 1894-1912—Clarence E. Woods, Zeta.
 1913-1915—Walter J. Sears, Nu Beta Nu.
 1915-1917—Bixby Willis, Lambda.
 1917-.....—Edwin W. Dunlavy, Beta Beta.

The original title was "General Secretary." I was elected "General

Secretary" toward the end of 1885 to fill the vacancy caused by Brother Robinson's resignation. Notice reached me, I think, along in October or November of that year.

Interest in "Dead" Chapters.

These notes have dealt largely with "dead" Chapters, including some that probably never lived. There is a feeling in some quarters that we should not talk about our "dead" Chapters. Their history is, however, of importance, because of the men they have contributed during their more or less brief career to Sigma Nu's upbuilding. For instance:

C. W. Lohse, founder of Pi, the beginning of our whole eastern series, was initiated at Epsilon, which speedily "died" and which a number of Brethren fought hard to keep "dead."

Carl L. Clemans, founder of our Pacific coast wing, was initiated at Chi, since "dead." J. M. Roberts, Inspector of the Division in which I write, was admitted at another Chapter long since "dead."

And Clarence E. Woods became a Sigma Nu at a Chapter which its members let die instead of moving it with the college in which it had lived, in which course, with all respect to them, I think they made a mistake.

To turn to where I started, the reprint of the Founders' and the Nashville Constitutions was a good idea, but before "the law" of 1890 is reprinted I will see that the General Office is supplied with a correction of a typographical error which, queerly enough, has persisted through all revisions down to the latest.

To You Contributors

Says Inspector Errett R. Newby, Delta Epsilon, "Congratulations on the October Delta. It is inspiring to get the good thoughts of the leaders of Sigma Nu."

Sigma Nus Bear Acquaintance

How Travel Broadens One's Views on Extension

By LORENS F. LOGAN, Beta Psi

[Brother Logan's interesting letter on Eastern Chapters he has visited and Brothers in service from Chapters all over the country, is a frank commentary on Sigma Nu's nationalism. His Alumni news has been distributed to "Alumni Notes." Acquaintances with Brothers from many colleges gets us away from any sectional pride that would look down on other parts of the country. Of course, "my" Chapter is the best, but "yours" is the next. Brother J. Pope Watson also briefly voices the same idea in a note on his sojournings. Moral—let's get acquainted with each other.

These comments are sidelights from men of this college generation that prove the fruits of the policies of our Builders as outlined by Past Grand Recorder Grant Harrington in his series of historical reminiscences.—The Editor.]

I HOPE that The Delta arrives promptly, for I am extremely anxious to read the latest news about the Fraternity.

I shall try to become a regular contributor, but must say that news of interest is extremely scarce around this post. I have been a victim of hard luck since my arrival here. You see, there were some ninety of us who had completed the Master Gunner Preparatory Course at the Enlisted Specialists School at Fort Winfield Scott, California, and they hurried us back to Monroe, claiming that we were needed immediately to enter the finishing course at the Enlisted Specialists School here. We arrived here Friday, September 13th, and after waiting around about a week, they announced to us that they would only handle thirty men every three weeks, so they lined us all up and we drew numbers to determine order of entrance into the school. Well, I drew No. 89, which meant that I had to wait six weeks before entering the school here—six long weeks in this dreary place with nothing to do but grow homesick. The first thirty started Monday, September 22, the second thirty started Monday, October 14, and the bunch I am in is due to start Monday, November 4—and believe me, that date is being awaited by all of us with the greatest anxiety.

Delta Pi

Fortunately the six long weeks have been broken by two very pleasant trips, one to Washington, and the other to New York. The major very kindly gave me a seven-day pass, and I made a trip to Washington during the week, September 28-October 5, and enjoyed it immensely. It was my first trip to the Capitol City, and I had the good fortune to hear President Wilson speak before the Senate on the Suffrage Amendment. While there, I visited Delta Pi Chapter at George Washington University. There was only one man there who is a member of that Chapter, but the House was filled with Sigma Nus from all over the country who are in the service and are stationed in Washington on special duty. Naturally, the Chapter is in a flourishing condition financially, due to the large number of men living in the House.

Delta Gamma

This last week I enjoyed a very pleasant trip to Schenectady, N. Y., with all expenses paid, as I was on a Government mission. I had a very nice stopover in New York City on my return; saw the Passing Show of 1918 at the Winter Garden, and went out to visit the boys at Columbia University. There I found Brother "Willie" Spalthoff and Brothers

Blanchard and Warren, Atwell and Peek, and others. Believe me, the Fraternity at large certainly has to "hand it" to Brother Spalthoff. The New York Alumni were going to let the House go because of inability to pay interest on the mortgage, when he stepped forward, gave his personal check to cover the deficiency, and saved the House for the Chapter, and for one of our best Chapters. He has now undertaken the personal management of the House, and as you probably already know, has leased it under sealed contract to the Government for one year, which will enable the Chapter to have the House in its own name by that time. All hats off to "Willie" Spalthoff. To say that I enjoyed my visit with these boys is only putting it mildly—I felt just like one of them, and they reminded me more of my own Chapter than any I have ever visited. Or rather, I should say, they reminded me more of our western boys than any others I have met.

I plan soon to make a trip up to William and Mary College, as Brother Spalthoff tells me there is a local Fraternity petitioning there, and I should like to give the boys the "once over." I shall let you know, should I make this trip.

Ideas on Expansion Change

The October Delta arrived this afternoon all O. K. Believe me, I surely was glad to get it, and already have devoured half of its contents. I read with interest the articles on the Installations at Bowdoin and Arizona. I certainly was glad to hear that Brother Red Adams was on hand for the installation at Arizona, as he greatly admired that bunch, and it was he, more than any one else, who secured Beta Psi's favorable action on the informal petition—we relied on his recommendation absolutely. You perhaps know how hard it is to get any favorable action from the boys out that way—they are a very conservative lot—but with Brother Adams' hearty endorsement and also the fact that they have a growing State behind them, we

finally "came around," and I know we will never live to regret it. My ideas on expansion have changed a little since coming East, and I rather believe that some of the rest of the Brothers from Beta Psi Chapter will have their ideas changed before this war is over also.

We are planning on having a rousing Sigma Nu Thanksgiving dinner at the Hotel Chamberlain, if not some informal gatherings before that time. Of course, time is limited in the school, for one is kept busy night and day, but some week-end shall try and get all the boys together and get a picture of the bunch for The Delta. You know Fortress Monroe is a training center for the Heavy (Coast) Artillery, and it is just like a big college—in fact there are no regular companies at this post any longer. Leave it to me to get all the boys together!

I have a good mind to write to Brother Westmoreland Davis, Governor of Virginia, to run down from Richmond and join us at our banquet, but I suppose the press of official duties will detain him.

Sigma Nu In Dixie

By J. POPE WATSON, Mu

If you could but be here and see our fellows and compare them with the average ones, you would understand more fully why our Southern Brothers are so proud of Sigma Nu. Of course, the majority of the other fraternities have good men, but we have got just the same old kind that it takes to keep up the good standard of Sigma Nu. Nor lowered one particle on account of the war.

A man doesn't know how to appreciate being a Sigma Nu until he goes about and meets his Brothers elsewhere. And when he sees the same good bunch, the same good spirit all working for the same cause, he just gets so proud of that five-pointed badge, that he has the right to wear, that he wants to let everybody know he's "one" too.

A Look-In On Arizona

Our Baby Chapter—Epsilon Alpha

By HERSCHEL A. AUXIER, Gamma Iota

FOR fear you might think my health has completely failed me, I thought I'd better let you hear a bit about life out here in Arizona.

Farewell to Gamma Iota

I was down to visit the boys at Gamma Iota, Lexington, Kentucky, and stayed with them for a week during "rushing season" in their new home on 416 East Maxwell Street. The House they have this year is an excellent Chapter House and situated much closer to school than the one we lived in last year. It was hard parting for me when I had to board the train Sunday morning and start for such an arid place as the State of Arizona. All along the way I discovered enough interesting objects to keep me from getting so tired of my trip. It was quite a change from Kentucky. I got here at 3:45 a. m. Thursday and soon found a hotel near the station. Naturally, the first thing I did on waking was to hunt up the Sigma Nu House. I started from the hotel with coat and vest on, but had both on my arm in a short while. I found the "Sigs" to be the regular "Sig" type. All good fellows and ready to do anything for a Brother Sig.

The Five G Club

Since then everything has changed. All the boys but three entered the S.

A. T. C. and another entered the Artillery Training Camp at Camp Taylor, Ky. The remaining Sig and myself tried to hold the House by gathering up a bunch of "physical wrecks" and getting them to live in the "Frat House." We were just doing fine under the name of "Five G Club" when school was shut down because of influenza and now we've had to discontinue eating in the House and have just enough to hold the House as a rooming place for us. We hope to be able to gather in more "Five G's" when school reopens and to again start the table as usual.

Epsilon Alpha Boys

I never found a bunch of more highly pleased fellows to have gotten Sigma Nu than are these boys. I helped them give the pledging ceremony to twelve new pledges just before they were all inducted into the S. A. T. C. We have been unable to hold meetings as all the S. A. T. C. boys have been under quarantine since they were inducted into service. We are planning to resume our regular routine after quarantine is over. I hope the trouble will end and bring all the boys back safely from Europe and then we can cheerfully defy anyone when we all start to work once more.

Instructor in History Wanted

Brothers who have specialized in history and who would desire a chair in a relatively small but strictly high grade college, are asked to communicate with the General Secretary. This place is open for the year beginning September, 1919.

The Romance of Business

I. Selling Goods

By A SIGMA NU SALES MANAGER

IF success in life can be computed in dollars and cents, there is no field that offers greater opportunity to youth and brains than the gentle art of selling goods. It is pleasant, happy work, requires no special technical training, and is a broadening education in itself. The demand for men who can consistently deliver is constantly growing and in cold cash it leads the field. There is none of the years of waiting for recognition that faces the young lawyer or doctor in their crowded fields, none of the uncertainty that faces the engineer, nor does the salesman content with the respectable starvation of the newspaper man and journalist in their notoriously underpaid work. All for the following reason: As long as a factory wheel turns in this country the man who can sell that product for the most money will be in demand, at his own price. No matter how efficient are manufacturing methods or how modern the factory equipment, it's not worth a whoop without the sales organization to put it over.

Volumes of doubtful worth have been written on "How to Sell Goods," and I do not purpose to duplicate them. I wish only to show the opportunities for salesmen and the necessary qualifications in the hope of answering some lad's query, "What shall I do when I leave college?"

The popular notion of a salesman, which is as incorrect as most popular notions, is one who has the ability to make you buy something you don't want. A real salesman does nothing of the sort. Instead, he makes you *want* to buy something he has for sale. Divorce yourself right now from the idea that the salesman of today even remotely resembles the slangy, noisy, "hail fellow" we find on the stage and in the magazines.

Your modern salesman is a high-class man, well bred and well informed, and decidedly well paid.

Generally speaking, a salesman's work consists of selling the product of a factory or the stock of a wholesale house either to the retailer or direct to the consumer. Real estate and insurance salesmen are in a special class with other lines requiring special training. City salesmen stay in one location important enough to warrant it; traveling salesmen cover a territory. Salesmen are paid either a "straight" or regular salary or a commission—sometimes both. Traveling and other business expenses are usually paid by the house, or advanced by them. Beginners in most lines make from \$75.00 to \$125.00 per month and expenses. The future is up to the man. In two or three years he should double his starting salary. If he is a mere order taker his advance may stop there, but if he can produce his earnings will rise on a par with his ability. One friend of mine sells the entire output of a clothing specialty factory each year in two trips of one month each, and his annual commissions are never less than \$15,000. He spends the other ten months collecting the rents from his apartment buildings. Thousands of salesmen make \$5,000 per year or more.

Every Chapter House is an unconscious school of salesmanship, and the man who leads the "rushing" is usually a "natural-born" salesman, for he probably has the gift of personality. This much-abused word covers a multitude of sins, but the man who leads in "rushing" has the gift of meeting people, liking them and making them like him. It's the art of being human. He knows the value of cordiality, he says the right thing at the right time, but he also

knows when to be a good listener. He learns to appreciate the other fellow's viewpoint. He avoids arguments, and learns to put things on a personal basis; he anticipates the other man's objections and answers them before they are consciously formed. He knows the right time to suggest putting on the button, which is equivalent to the right time for closing a sale. Such a man is alive mentally and physically. He has the gift of personality. With some it is a natural gift; most of us can learn to acquire it.

Two other qualifications are equally important—energy and balance. Personality counts for little without energy to carry it out, and energy means work. It means more than merely doing allotted tasks; it means steam, enthusiasm, driving power. It means doing more than is expected of us, then looking for still more, hitting the line for all we're worth, struggling ahead and hitting it again. It's the last plunge that puts the ball over. The hardest thing for a college man to learn is to work for the sheer love of working, for he is handicapped by four years' training in which most of them do only what is expected of them, seldom more and usually less. I have visited practically every Chapter House of every Fraternity in America and I dare you to name one Chapter in which more than one-third of the members are consistently hitting the grade with every ounce of steam they possess. The grades from the dean's office mean nothing. Full steam ahead is beyond and above any mere scholarship mark that a college faculty awards. There is no royal road to salesmanship or anything else, much-faunted short-cut correspondence courses to the contrary notwithstanding. Success means energy, cooked on the hot coals of ambition, flavored with enthusiasm and topped off with the sweetest satisfaction the world holds—the knowledge that you are doing your damndest and doing it better all the time.

The third qualification is the most important. I called it balance. It's a

sense of responsibility, a regard for the fitness of things; for successful salesmanship depends upon character, not conversation. Personality can be developed and energy can be stimulated, but balance is a gift of the gods. It's the art of playing fair with yourself and the world. It means taking care of your health, improving your mind, paying your bills, saving your money. It means moderation and decency, the happy medium between extremes. It helps us to win without crowing, to lose without excuses, to laugh at ourselves before we laugh at the other fellow. It's a sense of sportsmanship that forces us to obey orders, to do disagreeable tasks, to be kind, considerate and appreciative. It urges us to be loyal to our house and its interests, to fit in with the general scheme of things. It's the spirit of teamwork which prevents us from cheapening ourselves or the house we represent, for it dignifies our efforts. Balance is the sense of individual responsibility, the daughter of common sense. If you have those qualifications—personality, energy, balance—you can sell goods, and a real salesman can command his own price. Selling goods is selling human nature. If you can sell one line of goods you can sell another. The branch manager's job is just ahead of the salesman, beyond that the sales manager's desk—and the rest is up to you.

To the young man entering the selling game I say study yourself and the people you meet. Cultivate the qualities that please; avoid saying things that irritate.

I believe in starting with a smaller firm rather than the huge corporation; you will learn more of general business and general methods. Specialize later when you can better judge what you are fitted for.

I believe in selling the highest price line; it's probably the best in its field, and the American public is being educated to appreciate that the best is the cheapest in the long run.

Too many salesmen are floaters, drifting from one position to another. Don't be a quitter. Stick with the ship until you know beyond doubt that you can learn no more and climb no higher. But don't be afraid to change when you know you have reached the limit. Some men throw their lives away vainly trying to put across an impossible proposition, and hang on through sheer obstinacy.

Road work is hard work, but a broadening education. Get your share of it, for it will pay in dividends of experience.

Don't abuse your expense account. Travel for your house as you would travel for yourself. You are entitled to all of the comforts and some of the luxuries, but none of the extravagances. Besides, an experienced sales manager can pick a doctored expense account every time. If you doubt it you're kidding yourself, which is the next worst sin to taking yourself seriously.

Your house is judged by its representative, and you are judged by your appearance and manners. The well-bred, well-groomed, dignified salesman will be producing business long after the noisy order-taker has talked himself into the hell which God has prepared for bores and boors.

Business drinking has gone out of fashion, and the salesman who gets business on the strength of a shot of Scotch is betting on the wrong cards.

Somewhere in your life build a shrine to a good woman and play fair for her, whether it is your mother or a girl back home. It ought to be both. More salesmen are tripped by the "wild, wild women" than were ever entertained by Al Jolson's cheerful ditty. A daily letter from the man on the road to a *real* woman is more than a good habit—it's insurance.

Last of all, smile, doggone you, smile. It wins every time.

[To be Continued.]

Special Instructions on How to Write the Winning Song in that Sigma Nu Song Contest

CONTRIBUTED BY BIG NOISES IN THE SIGMA NU WORLD

[Some of these gents were too busy to be interviewed, so the committee jotted down what they would have said if they could have found the time.—Warren Piper, Chairman, Committee on Songs.]

"Make it ripple like the splash of a mountain stream, tender and true, deep and low—and fill it with plenty of the 'dear brethren' stuff. That gets away in a cloud of dust."—Walter J. Sears.

"Make it soft as the voice of the Southland, borne on the fairy wings of a breeze, fragrant with the breath of magnolias, bathed in Southern sunshine and caressed by a Southern wind."—Clarence Woods.

"I said 'jazz' and I mean 'jazz.' Make it step, d'yuh understand, make it step. Give it a swing of the right tempo, slip a kick into the words, and you'll knock 'em all dead. I said 'jazz.'"—Pete Burns.

"Very simple (ahem) very simple. Merely a matter of combining meter and sentiment and melody. Very simple."—Inspector Vanderblue.

"Call it 'Hip-Hic-Hooray.'"—The Alabama Delegate to the Grand Chapter.

The Second Lap of the Song Contest has begun—Pile in!

Secretary's Table

Brother Chandler's Admonition

We cannot too strongly commend to every active Brother the article in this issue by Brother George Chandler, Gamma Lambda. It is called "A Word to the Active Chapters," and so particularly calls attention to present conditions that we call attention to the article in preference to elaborating on these conditions in this department.

Chapter House Clubs

Despite the flight of our men to the Government barracks, several Chapters are still keeping their Houses as club houses for Brothers to meet in off hours. Nu Chapter is still in its House. Beta Nu and Delta Zeta found congenial landlords who reduced the rent by a half and are continuing on the same premises. Beta Beta Alumni who own their House have offered to hold it open for the active men. And so the list goes.

Club Rooms

Chapters that found it impossible to hold their Houses, have given them up and opened club rooms near the college. Here they hold their infrequent business meetings and gather informally for many a smoke or war-talk. Thus the spirit of the Fraternity is kept alight and the organization intact for the postbellum resurrection. But the men of this college generation gain much in real fraternal experience in their club rooms and barracks that in easier times was missed in the palatial Chapter House.

Preserve the Records.

We wish it were possible to sufficiently impress the active Chapters with the importance of preserving their records. Much of the details of

our fifty years of history will never be recorded because of failure in this respect. Many Chapters, compelled to move in these war days, are almost certain to destroy records of fact which cannot be replaced when wanted for future history.

Remit At Once If Not Sooner.

Some few of the Chapters have written this office, assuming that the regular fees would not be remitted under war conditions. If such an idea were to prevail it would ruin the Fraternity.

The large budget voted by the last Grand Chapter and contracted for could not be met.

The records at the General Office would not show the return of the men in college this year, nor would the per capita tax Delta subscription be provided for.

No new initiate is recognized as a Sigma Nu until his initiation fee is received at the General Office.

In these days no Chapter can ride while its sister Chapters do all the pulling.

Any Chapter, therefore, which violates our law by failure to remit will be at once cited to the High Council for prompt suspension of charter.

Whether such charter is returned at the close of the war will be left to the tender mercy of the Brothers who cheerfully are making sacrifice to carry the load *now*.

Jewelry and Jewelers.

We trust that every Chapter will remember that we now have two official jewelers and *only* two. All Fraternity jewelry should be purchased from the L. G. Balfour Company or

from J. F. Newman. The Fraternity is protected in price and quality, as price lists are filed with the General Office. The general Fraternity is also helped financially by the terms of these contracts, which is very important in these war times.

Do not submit to any sort of special plea by the nonofficial jeweler. Chapter officers are expected to see that the law is obeyed with reference to the display of jewelry in the Chapter Houses.

Fiftieth Anniversary.

Wherever it is possible there should be little gatherings of our Brothers on or as near Wednesday, January 1, 1919, as possible, in honor of the Fiftieth Anniversary of the Founding of Sigma Nu.

The specific date—coming in the midst of holidays—may make a celebration of the exact day a difficult matter. The active Chapters ought to hold a special meeting or informal dinner as near that date as possible and invite some of the older Brothers to tell the interesting story of both national and local growth of Sigma Nu.

It ought to be an occasion where

local Chapter histories are begun and when facts which have never been gathered are put in permanent form.

Volume 35 Bound.

We have had Volume 35 of The Delta promptly bound. We are ready to furnish these volumes free to each active Chapter according to our law. We are not, however, mailing these volumes according to our usual custom on account of the many changes of addresses of the active Chapters caused by the S. A. T. C.

Where Chapters are in temporary quarters, with the Fraternity furniture and library stored, it would probably be best not to ask for these volumes until the Chapter is in its permanent quarters again. The volumes are in our office, however, and may be had at the discretion of the active Chapters.

Individual Brothers wishing bound volumes can obtain the same through the General Office.

Volume 35 will be found to have the most complete index of any of our bound volumes. It will be furnished free of cost to Brothers who wish to have their Deltas bound.

Do You Know Sigma Nu's History?

Enter the Inter-Fraternity Contest and Test Your Knowledge

Dear Greek:

Last college year the College Fraternity Reference Bureau offered a prize of \$25.00 for the best short history of any college fraternity or sorority. It required that these histories should be confined to two hundred words.

When the committee met this summer, it was found not a single entry had been made. Enquiry developed that many had been willing to enter the contest, but they felt that the limit of two hundred words was too confining. It was therefore decided to remove this limit and to simply ask that each contestant write a short history of his or her fraternity and that the prize be awarded to

the one which covers the main facts most carefully in a brief sketch.

The purpose of this contest is to enable the bureau to have on file an authentic record of each organization. Aside from the value of this to the Greek letter societies, one would think that the national officers of all fraternities and sororities would encourage their members to enter the contest, from the good which would come to the members themselves as well as to the society.

This is a move to do something for the whole Greek world. Will you help?

Very fraternally,

WILLIAM C. LEVERE.

For the College Fraternity Reference Bureau, Box 254, Evanston, Ill.

View and Review

The past few weeks have been filled with uncertainties and confusion on the part of

The War and the
Fraternities all the fraternities.

The situation, however, is rapidly clearing. The Executive Committee of the Inter-Fraternity Conference went to Washington and after a conference at the War Department secured an order permitting fraternities to keep up their business organizations, though omitting all social and "ceremonial" functions.

We have since secured a ruling from Brigadier General Rees, of the General Staff, that "the War Department considers that election of members is an activity of a business nature and so unobjectionable."

By far the larger number of our own Chapters are already functioning. We regret to say that a very few of our Chapters have neglected to take advantage of the action of the War Department and have "adjourned" until a more favorable time. Still others, however, are making the best records of their history.

We also regret to say that a very few of our colleges have, while accepting the special provision of the War Department to assist the colleges themselves, have at the same time refused the fraternities the privilege of the special provisions of the War Department made that the fraternities might live.

A few of the plans of our sister fraternities are noted in "Clippings and Comment" of this issue.

* * *

The New York *Times* did a very great injury to the college fraternities of the entire country in an editorial Sunday, October 6th.

The first sentence in this editorial was: "By request of the War Department—a request which will naturally be heeded—the activities of college fraternities are to be suspended during the war at institutions where the Student Army Training Corps is at work."

The "Times" usually so careful in its editorial statements, evidently was confused by a statement of Brigadier General Rees commanding the S. A. T. C.

This statement sought only to suspend the social activities of the Fraternities and so far from "suspension" of Fraternities that it contained specific provision for the business meetings of the Fraternities. This was later followed by specific permission to receive new members.

While a very few of our Chapters have given up under their own discouragements or the discouragements of a hostile school administration, Sigma Nu instead of being sus-

pended, has thus far initiated more men proportionately than she had at this time last year.

* * *

As this issue of The Delta comes off the press, the Tenth Session of the Inter-Fraternity Conference is being held. It meets at the University Club, New York, on Saturday, November 30. This organization has exerted a large influence in the cultivation of a fine spirit of co-operation among the college fraternities. It has also been very useful in dealing with anti-fraternity agitations.

This conference has been supported by a number of leading educators and college presidents.

The delegates from Sigma Nu this year are Regent Burr, Grand Counselor Myers, and General Secretary Dunlavy. Vice Regent Smith and Brother Charles C. Burr, both of New York City, are the alternates.

The session this year will be memorable for its review of war activities and plans for reconstruction. A full report will be given in the March Delta.

* * *

Our Fiftieth Anniversary, which occurs on Wednesday, January 1, 1919, will be celebrated very differently from the way toward which we have been looking forward through the years. Our Chapters are only maintaining their business organization. All our men are in uniform and nearly four thousand are in the active service of their country.

There is, however, a most beautiful side to the fiftieth commemoration of

the Anniversary of Sigma Nu at this time.

Not only have the fifty years of wonderful growth of Sigma Nu been typical of wonderful development of our country, but Sigma Nu is also typical of the spirit of national unity by means of which our country today sits at the head of the council board of the nations of all the earth.

At the first Grand Chapter in Nashville in 1884 Regent Wade, in speaking of the sad days immediately after the Civil War, when Sigma Nu was founded, said:

"At a time when the men and women of the South longed for an early death as the only happy future of their children, when the rope of resistance was broken and the bell of despair was tolling the dirge of death, then Sigma Nu faced the emergency, determined to succeed."

How well Sigma Nu has succeeded is not only recorded in the new Catalogue, with its more than thirteen thousand names, but in the wonderful new national spirit which Sigma Nu, born of the old South, grown into the new nation, with no North and no South, typifies.

And even as our Founders had much to do with the reconstruction of our own great land, so it falls to our Knights of the Republic of today to have to do with the reconstruction of the entire world.

So; whether our Fiftieth Anniversary shall be kept by our widely scattered Brothers on foreign soil, which henceforth in most sacred sense shall be forever America because of the number of our Brothers sleeping there, or whether we shall gather in little uniformed groups without the

jest and jollity we would normally have celebrated with, still the Fiftieth Anniversary of Sigma Nu comes at a time and is a part of the greatest hour in two thousand years of history.

* * *

We are glad to be able to announce in this our anniversary number articles of great historic value by Brothers Rawson Bennett and Grant Harrington. What these Brothers are doing for us is typical of what at least a dozen other Brothers who were more or less intimately connected with the earlier days ought to be doing.

Brother Harrington's articles have been gathered together and will be published serially under the above subject. These articles began with an intended sketch, but have expanded into more formidable proportions, as we knew they would when once Brother Harrington became reminiscent.

Brother Harrington's articles have been grouped together under the following heads: "The Extension Period From 1886 to 1894," "A Prophecy and Its Fulfillment," "Extension Policy Approved," "Eight Years of Delta History," and "The First and Second Catalogues."

* * *

These war days are developing a new relationship between the active Chapter and its Alumni.

The responsibility for this is mutual. The Alumnus is feeling a new responsibility for his Chapter. This is shown by letters and by a rapid increase of individual Delta subscriptions among the older

men. The active Chapter has found a new interest and a new bond in keeping up with pardonable pride its list of Knights of the Republic. This has necessitated keeping in touch with the Alumni. Then the active boys have been greatly interested in the Brothers across the seas.

We somehow feel that in the midst of a time which is filled with uncertainties in our Fraternity life foundations are being laid which mean, in the years immediately to come, the deepest realization of Brotherhood, expressed in service, which we have ever known.

* * *

A combination of circumstances has caused a number of changes in this issue from the accustomed form.

The pressure of the Fiftieth Anniversary has made it necessary to curtail or entirely omit some of our regular departments. These will again appear in their regular places in the next issue.

We have also been compelled to use a slightly lighter weight paper than hitherto. The Government now specifies the weight of the paper stock used, and limited the maximum tonnage to our subscription list.

We are happy to accommodate ourselves, as such slight inconveniences are, after all, very small parts of the larger sacrifice being cheerfully given by so many of our Brothers.

* * *

The Editor remained at home throughout the past summer without his usual vacation in order that he might have leave of absence for five weeks this fall to give our Western Chapters the per-

Little
Journeys

sonal visitation long promised by the High Council.

The war situation, however, delayed our program after the schedule was prepared and this was followed by national quarantine. The whole program is now problematical. The Editor has visited some of the nearby Chapters, but these recently have found a place in "Little Journeys," so that this department will give way in this issue to need of space for more important articles.

. . .

Many of our Chapters give us a thrill of pride by the way they seem determined to make unusual records in war time. Nu Chapter seems to have this year undertaken the task of supplying the Editor with material for the department of "Kindred Brothers" for all time to

Historic
Sequence

come. They have just initiated five men who, by virtue of their initiation, become "double Brothers." To this imposing list they have also added Grant Harrington, son of the founder of their Chapter, who is also Past Grand Recorder and Past Editor of The Delta. This list of initiates tells the story of a Chapter which has kept in touch with its Alumni.

Another unusual record of Nu Chapter is shown in the cut of last year's Chapter in this issue. In that photograph there are thirty Brothers. Of these, three are dead and the twenty-seven remaining are all in the service of our country. Nu Chapter has a total of 110 Brothers in service.

Beta Eta Chapter has a feature all its own in a "Second Generation Club," composed of four sons of Sigma Nus in the Chapter this fall.

Death of Mrs. John C. Scott

There will be sadness in the hearts of many Brothers in Sigma Nu by the announcement of the death of Mrs. Hazel Reeves Scott, wife of Brother and Past Editor John C. Scott, on October 26, 1918. She was buried at Columbus, Ind., on October 28th, the fifteenth wedding anniversary of this devoted Sigma Nu home. The funeral services took place from the old family home. The General Secretary was privileged to be present and assist in the services.

Mrs. Scott was a graduate of Butler College and a member of Kappa Kappa Gamma. Although only thirty-five years of age, she was possibly more widely known among Sigma Nus than any other of our Sigma Nu wives. For years a guest room was maintained in the Scott home known as the Sigma Nu room. Her home life was filled with a beautiful idealism. She was a most devoted wife and mother.

The heartfelt sympathy of our whole Brotherhood will go out to Brother Scott and the four little sons.

Chapter Letters

Prize Award

The prize book for the best Chapter letter this time is "Blown in by the Draft," by Frazier Hunt, which was reviewed in the October, 1918, Delta.

The award is given for December to Brother David W. Smith, Gamma Lambda, who describes himself as "Acting Reporter, also Treasurer, Acting Recorder, Acting Eminent Commander, and Janitor." Despite his numerous offices and these necessary duties, he found time not only to write a rattling good Chapter letter, but to observe the request for Alumni notes and military notes. And he did not forget to follow Delta style even to the heading which saves the Editor a deal of hard work.

For merit we will cite Mu, Beta Iota, Beta Kappa and Delta Chi. We mention, too, Gamma Mu, whose letter is equal to the prize winner, but Brother LaBier forgot the Alumni news. Beta Iota and Beta Kappa have been at the head before. Brother O'Brien always writes a good letter and Brother Marlowe is following in Brother Ritchie's footsteps. We welcome Mu and Delta Chi! It is fine to see one of our baby Chapters standing in the front rank.

Next Chapter Letter

While all of these letters are interesting and most of them well-written, the reporters, with the exceptions above, failed to observe the conditions. Follow them, Brother Reporters, and you will win your opportunity.

STANDARDS FOR GRADING

"Promptness"—be on time!

"Facts," not "Great Expectations" or "Pipe Dreams."

"Journalistic Sense"—direct and intimate narrative.

Separate pages of Alumni notes, military news, lists of marriages and deaths.

Mechanical but important details; typewriting, punctuality, spelling, punctuation, heading. The use of nicknames and abbreviations is poor form, too.

Many a reporter this time lost his opportunity by the omission of one or more of these points. "Watch Your Step!"

The Chapter letter for March is due January 15, 1919.

To the Alumni

If your Chapter is delinquent, send word to the Reporter. A word from an Alumnus is more effective than the Editor's familiar dun. If you Alumni ask the reason why, you will get the news you wish to see.—The Editor.

UNIVERSITY OF VIRGINIA

Beta Chapter

Beta Chapter opened on September 23d with eleven old men back and one affiliate. At that time it was not known for certain whether fraternities would be allowed by the military authorities to run, so that it was with a great deal of anxious interest that we awaited the conference between the military end, academic end, and the representative of the Inter-Fraternity Council. Finally, four days after college opened, during which there was a gentleman's agreement between the different Chapters that there would be no bidding or pledging, the decision was rendered, namely that we

would be allowed to run so long as our organization did not interfere with military affairs and matters.

Now that our rushing season is over it can be termed a success in every sense of the word. The simple fact that Sigma Nu has not lost a single bid this year is a record in itself. There were exactly nine bids extended and nine men pledged to Beta Chapter. We brushed up against six of the strongest chapters here in rushing, so that it cannot be said that we had our men sewed up beforehand. It gives our Chapter great pleasure to introduce at this time our new Brothers in Sigma Nu: J. H. Cessar and G. T. Paterson, Leland, Miss., C. R. Fenwick and A. S. Knowles, Falls Church, Va.,

Hout and G. K. Shands, Washington, D. C., J. B. Jackson, Hopkinsville, Ky., E. E. Ralph, Washington, D. C. Randolph, our ninth pledge, could not be in at this fall initiation, having returned home for an operation, however, he will return after Christmas and become one of the crowd.

One of the Chapters are to be allowed to use their Houses this year for ten of them, the others owned by the fraternities, have all been taken over by the Government and used as barracks in quartering the enlisted in our Student Army Training Corps Unit. There are a thousand or more men in college which brings our enrollment up to the normal peace time attendance, so that it has been necessary for the Government to take over all available space to house us in. Our House is a building which is not to be taken over, it we have been able to occupy it up to this time. We expect to give it up later, some time this next week, for the men are required to live in their assigned quarters as soon as they are inducted into service. At this time we will rent rooms as most of the other Chapters have done to be used as meeting rooms. Our system of running fraternities with headquarters will be continued during the rest of the war. This will reduce finances to a minimum, for the running expenses amount to very little.

During this period we are going to lay out for the future in increasing our new fund. It will be possible to put all of our initiation fees into this fund which will amount to quite a little and in addition the dues. In two years we ought to be able to reach the first thousand dollar mark. This has been our goal for so long and our dear Brother A. H. Wilson has kept it vividly before us. With this aid the rest will be much easier and we will realize the dreams which have been dreamed by every Beta Sig for the last years.

A crowd of old men who are here to represent Beta during this second year of the war realize what her existence means and have entered into every move as one man. This is the type of fraternal harmony which always works for the best and has us in concerted action in making the most of what we have out of the rushing season. The members are: Brothers Harold Sparr, Powell, Bill Bramham, Warren Birge, George Dean, George Chiles, Shorty Moore, Dick Jackson, Otto Jennings, Dan, and A. R. Shands, together with our Mewborne from Eta Chapter, who has already proven his worth as a Brother in Sigma Nu. With the eight new initiates, our number is brought up to normal. These members of Beta Chapter have started her as one of the leading crowds of the

University of Virginia, and will keep that place during this school year of 1918-19.

A. R. SHANDS, JR., E. C.

BETHANY COLLEGE

Epsilon Chapter

Delinquent.

MERCER UNIVERSITY

Eta Chapter

Out of the most threatening circumstances, Eta has come out victorious and with more than mediocre success. It seemed for some time that Eta would not return more than three men. But just as the clouds seemed darkest, a bright gleam was brought into our fraternity life by Mercer's securing one of the S. A. T. C. Under the supervision of the United States Government, Mercer became at once a nucleus to which the patriotic young men concentrated, bringing to our threshold the best of metal.

As a result of Brothers Mewbourne, Rainey, Fudge, Pulliam, Jackson and Coachman's concerted alertness, we wish to introduce to Sigma Nus Pledges Charles and Joe Smith, Ed Morgan, Poole, Physioc, Sieg, Tripp, Read, Geer, Dortch, Hawkes, Heard, Meadows, Hopkins and Taylor, some of whom will be in the ranks as Brothers ere this reach you.

Such a coterie of Brothers has never graced the "old halls" in many a day. We are indeed proud of them. We are deeply grateful to all Sigma Nus for the assistance which they rendered us in obtaining these men.

We have two new Brothers who have come to us: Brother Kelly, from George Washington University, and Brother Long, from Dahlonga. It is good to have them with us.

It is with a deep feeling of loss, that we give up Brother Charles Crawford Morgan, our past Eminent Commander, who has now joined hands with Uncle Sam in this great struggle, which we all hope to assist in winning.

Each member desires to join arms with his Sigma Nu Brothers on the battlefields of France, in the extermination of autocracy from the face of the globe. And may our cause meet the approbation of our God who will give us success!

H. L. COACHMAN, E. C.

UNIVERSITY OF ALABAMA

Theta Chapter

Delinquent.

HOWARD COLLEGE

Iota Chapter

The opening of school found Brother Robert F. Carlisle back to keep old Iota going. He is due much credit for his diligent work at the beginning of school. He was not by himself long, for in a few days Brothers J. A. Price, R. J. Bell, M. F. Langston, W. F. Yarborough, and H. M. Barrentine came to his aid. We all got busy and have had one of the most successful rushing seasons in our history.

We have twelve new men, who are the best on the hill. They are S. R. Crew and Dean Fleming of Goodwater, Ala., J. M. Yarborough, George Savage and Fred R. Smith of Montgomery, Ala., B. A. Culpepper of Headland, Ala., Joel Davie of Clayton, Ala., Fred Colley and Frank Carlisle of Birmingham, Ala., Sam Ingram, Avrea Ingram, and Stanton Ingram of Anniston, Ala.

We are expecting great things of these Brothers in the future, and are sure that they will not disappoint us. The members of this Chapter believe in quality not quantity, which accounts for our small numbers. We are holding up our standard this year.

Out of our fourteen members last year, all but four are in the service, five in the S. A. T. C., and the others are in different branches of the service, some in France. Brothers Rupert Lindsey and S. L. Price are second lieutenants. Brothers Clyde Walker and John L. Ray are attending school at Vanderbilt University, and Brother T. B. Gibson is in the Chaplain's Training School at Louisville, Ky.

This summer six men were chosen from Howard to go to Fort Sheridan, Ill., to take a course in military instruction to assist in the instruction at the college this year. Out of the six, three were Sigma Nus, namely: Brothers W. F. Yarborough, M. F. Langston and S. L. Price. Brothers Price and Langston were offered commissions. Brother Langston turned his down in order to return to college; Brother Price accepted and was sent to Lombard College. Four of our men here have been appointed as non-commissioned officers, sergeants; they are Brothers Langston, Yarborough, Avrea Ingram and Savage.

All the boys are full of enthusiasm now and things are running fine, so we are expecting a good year.

The college is in fine shape this year. The Government has taken it over, and over two hundred students have been registered. However, things looked gloomy for a while at the opening of school as our House was taken over and we were left without any place to go, but we managed to get some nice rooms close by and have furnished

them well, and are able to have our meetings just the same.

ROBT. J. BELL,
Reporter.

NORTH GEORGIA AGRICULTURAL COLLEGE

Kappa Chapter

During the past year Kappa recorded a successful and prosperous year. Our commencement was cut short to allow the members of the R. O. T. C. to attend the training camp at Plattsburg, at which Kappa was well represented. It is needless to talk further on Plattsburg, as there was a great bunch of Sigs there as we saw it, and where there are Sigs there is a great life.

After a pleasant vacation, Kappa has opened her doors and the year promises to be as bright as has ever been before us. We have returned five faithful Brothers and we have initiated six men. They are Brothers Anderson, DeLoach and Emmitt, Statesboro, Ga.; Hogan, Hogansville, Ga., and Newman, Gainesville, Ga.

N. G. A. College is expecting to install a unit of the S. A. T. C. in the next week. And as we already have an abundance of students and a very crowded condition, are expected just what influence this will have on our fraternity life cannot be plainly foreseen. We have offered our house as a barracks and four of the men are now living in it. One thing is certain, there will be an exceedingly large crowd to choose fraternity material from, although we do not claim to choose fraternity material but rather to make fraternity material.

Just a bit of dope on our private life; believe me, we have a great bunch this year. Brothers Anderson, DeLoach, Nunnally, Brown and Emmitt are on the football team. Brother Vickery is the cadet major and Porter is captain; Nunnally and Brown are first sergeants; Emmitt and Ripley are sergeants, while Brother Tatum boasts of a corporal's rank. As ever, Sigma Nu holds positions of esteem in college life.

We are sorry to have lost Brothers Higgins, Faucett, Long and Christopher from last year's roll. Higgins is now serving his country as a second lieutenant, while Faucett and Long are with the civil engineers, both having graduated this spring. Brother Christopher also is in his Uncle's Army.

Social activities have practically discontinued in Dahlonga, partly as a patriotic conservation measure and partly on account of female sex, as Dahlonga is located in the mining section of Georgia and therefore the latter could not be expected—and what is life without them? The absence of the social side of life does not diminish

our "pep." We are forever working and the prospects are when The Delta goes to press again we will give announcement of the initiation of several others.

One of the most interesting events that ever occurred in this college was the boxing bout which was held last Saturday night. We were well represented by Brother Nunnally. He fought an opponent of equal weight ten rounds to a knockout.

Wrestling has become very popular in our college, and on the next Saturday night Brother Anderson is slated to meet Mr. Fowler to a finish bout. It is easily seen that our Chapter is taking an active part in all branches of athletics.

The prospects for a gala year of football and other forms of athletics seem very disappointing, as the military authority has ruled that no man can be absent from the post for that long a period. We are in hopes that this order will be repealed, however chances are very slim.

GEO. H. PORTER, JR.,
Reporter.

WASHINGTON AND LEE UNIVERSITY

Lambda Chapter

When Lambda's roll was called September 25, 1918. Brothers M. W. Simmons, L. S. Musgrove, W. F. Barron, J. P. Hill, J. D. Owens, F. A. Henry and F. D. Compton answered present.

The session 1918-19 was formally opened by a university assembly at the chapel, in which President Smith made an impressive address. The enrollment this year is one of the largest in our history, and it continues to increase.

When the Government took over the university, October 1st, and established the S. A. T. C., the rushing season closed, and Sigma Nu claimed the following pledges: Rowell Stanton, J. J. O'Neil, and J. L. Glover, all of Rome, Ga.; Joe Dinges, of Huntington, W. Va., and Woodruff Williams, of Tulsa, Okla.

The Inter-Fraternity rules having been disregarded during the period of the war, we initiated on the evening of October 12, 1918.

As the Chapter House is adjoining the campus and we are allowed to spend our leisure hours there, we have decided to keep the House open this year, although none of the other fraternities are keeping their Houses.

In the military line Lambda leads, as usual. The highest cadet officers in the S. A. T. C. are first sergeants and of these four officers we have Brothers Williams and O'Neil. Brother Hill is line sergeant

and Brothers Dinges, Musgrove, Owens and Glover are corporals.

Lieutenant Diggs, formerly of Delta Phi, is now stationed at Washington and Lee, and is the commanding officer of Company "C."

At the recent elections of the Ribbon Societies, Brothers Simmons and Compton were elected to membership to the White Friars and Brothers Hill and Henry to the Pi Alpha Nu. This makes all the old men members of one or the other of the two societies.

Brothers Simmons, Musgrove and Hill have been elected to the Cotillion Club, giving Lambda four Cotillion Club men this year.

Of the six "13" Club men returned to the university this year Lambda has Brothers Barron and Musgrove.

Although conditions are somewhat upset at this time by the military training, yet Sigma Nu has the opportunity of making this her banner year at Washington and Lee.

FLOYD D. COMPTON,
Reporter.

UNIVERSITY OF GEORGIA

Mu Chapter

The University of Georgia is an entirely different college this year from what it has ever been before. Instead of the usual crowd of class-goers ambling leisurely to classes, we see uniformed men at drill or on working parties. 'Tis, indeed, a changed place. An S. A. T. C. department was established here, and also a Naval Section. There are some seven hundred in these two departments and about three hundred others, making a round total of one thousand, some two hundred and fifty larger than it has ever been before.

Of the six men we thought would return to begin this Chapter's activities this year two returned, and four that thought they would not be back are with us. The returned Brothers are: Wilhoit, F. E.; McManus, W. W.; Woodall, J. D.; Rice, W. B. Jr.; Morris, B. I., and Malone, G. K. We have three affiliates: Brother Edwin H. Jesup, from Beta Theta, and from Eastman, Ga.; and Brothers Lester D. and Harvey L. Henderson, from Eta and Monticello, Fla.

Chapter activities have been badly broken into by a quarantine for Spanish influenza. The campus and barracks have been strictly quarantined for a week, and most of the men in the Chapter are on the campus. We took in ten men before the quarantine was declared. They are: Ramsey, B. Y., Bainbridge, Ga.; Wieker, D. L., Jr., War-

renton, Ga.; Woodall, A. M., Columbus, Ga.; Freeman, L. O., College Park, Ga.; Walker, S. E., Waycross, Ga.; Carlton, W. M., Union Point, Ga.; Stanley, J. B., Quitman, Ga.; Hart, J. B., Jr., Macon, Ga.; Palmer, V. D., Tennille, Ga.; Starr, F. F., Jr., Dublin, Ga. Besides these we have four pledges, who will come in as soon as the quarantine is lifted. They are: Smith, F. L., Jr., Quitman, Ga.; Hand, Frank, Pelham, Ga.; Durden, Graymont, Ga.; White, Chris, Dublin, Ga. Besides these we have a few others "on the string," but all action is off of course until that infernal quarantine is lifted. We expect to see, in the near future, a Chapter of some thirty or so good Sigma Nus adorning our meeting-room.

By an order of the university, we have given up our House and have our "lodge" in two rooms of one of Athens' skyscrapers, the Southern Mutual Building. If any Brothers should drop over to see us they will find "Sigma Nu" on the directory, and opposite it 708-9. We are not there all the time but will be there when they give us liberty.

There are not nearly so many college activities as usual this year, but we have our share of student non-coms, which is the highest a student can attain.

All in all, we are going to have a good Chapter. Our only regret is that we cannot live together at the House, and so a good measure of Brotherhood be lost with a consequent measure of estrangement resulting. But we shall take advantage of every opportunity to get together in the rooms and at smokers and banquets, and so make up, somewhat, for what we lose in being separated.

FRANK E. WILHOIT, E. C.

UNIVERSITY OF KANSAS

Nu Chapter

One hundred per cent. This is Nu's picture in 1917. Brother Hazen Kendrick and Pledge James Barrett died in the year 1917 of throat trouble. Every other man was in active service before school began this year. Nu Chapter has one hundred and one Brothers in service that are not in school. New stars will be added to the service flag as the men leave school this year for further training and service.

Nu Chapter now has the pleasure of seeing the coiled serpent on a man that we have long been waiting for. Harris Harrington, the son of Grant Woodbury Harrington, one of the only living charter members of Nu Chapter. See "Kindred Brothers" Department. Brother Harrington was for several years editor of the Delta. He has been with us much of rush week and we have received great inspira-

tion and help from him. It is largely due to the combined efforts of Brother Harrington and Brother Engle that we were able to refinish our house this year and have it in A-1 condition for this year.

Another interesting event in the history of Nu Chapter is the fact Pledges Blair, Harms, Jackson, Clawson and Crawford are Brothers of old Sigs, and we are justly proud that these men follow so closely in the path of their older Brothers. Not only is this a record in the history of this Chapter, but also the number of pledges which has amounted to just twenty is greater than ever before.

Out of fifty-three men that were sent from Kansas University to the R. O. T. C. at Fort Sheridan, nine were made commissioned officers. The two Brothers from Nu, Bert E. Cochran and Merl M. Clift, received commissions as second lieutenants, making another one hundred per cent. record for Nu Chapter. Brother Cochran is stationed at Fort Worth, Texas, and Brother Clift is at Manhattan.

It is to be expected that the standard of a Chapter should rise and every year, of course, the new men are better than of the year previous, but never before has there been the need of new men so great, due to the scarcity of old men, and never has there been such a field of material to choose from. It takes a remarkably good man to make a fraternity at K. U. now, so you can judge what class of men are qualified to wear the Sigma Nu pledge button this year. With our twenty pledges and ten old men returned, we just fill our House nicely. One of the problems that is before us this year is to instill the right kind of fraternity spirit into men that will only be in the House for about two weeks. It means that we must be more intensive in our training in both discipline and in fraternity instruction.

As Wichita, Kansas, is now represented with nine men in the Chapter at present, the new Alumni Association of Wichita plays an important part in the well-being of this Chapter. The organization is new but it has helped us greatly in rushing this year. The banquet that was given the tenth of August was a great success and it enabled many Sigma Nus from other Chapters to get together in a way that only Sigma Nus know how.

The Chapter House is to remain open this year at least. Our location makes this possible and our Alumni has provided that our home shall be maintained here and that Mother Young, who has been so faithful to us for the past nine years, shall stay with us regardless of how things turn for the active Chapter. This munificence is greatly appreciated by every man, but if everything goes as planned we will not have to call upon them for help in any form. Our finan-

cial condition is the best that it has been in years. At the present time we have all bills paid and a surplus is to our credit.

The list of pledges are as follows: Wilmer Harms, Edward Thompson, George Wellwood, Daymon George and Jack Hartle, from Wichita; Julian Brown and Fred Salathiel, Independence; Charles Blair and Ralph Holliday, Carthage, Mo.; Everett Clawson, Finley Daugherty, Victor Muse and Harold Evert, of Concordia; Paul Jackson, Kansas City; Harris Harrington, Kansas City, Mo.; Harold Henry, Bellville; Robert Winkler, Bartlesville, Okla.; Verling Welker, Hutchinson; Dana Hale, Delphos, and Raymond Crawford, Paola.

We all mourn the loss of Brother Ward Ellis, who was killed in action. This is the second Brother that Nu Chapter has given to the cause of liberty.

DWIGHT M. SMITH,
Reporter.

EMORY COLLEGE

Xi Chapter

[This is the Chapter that in the fall of 1917 had only one man back, Brother A. C. Darling. Now they are going strong.—The Editor.]

We certainly appreciate the interest shown in Xi by the General Office and will do our level best to make our Chapter a credit to Sigma Nu.

We are doing nicely now with eighteen Brothers. Our new Brother Collins is from Louisiana State College, affiliating from Phi.

We have been waiting for further developments to see what the Government is going to do with our boys.

The college enrollment for 1918-19 is larger than ever—nearly four hundred students. Only three of last year's Chapter returned, Brothers Jeffcoat, Dixon and Taylor. Two affiliate Brothers are Wynne, from Kappa, and Collins, from Phi.

Following Inspector Pelmour's quotation in the October Delta that some scheme would be devised for holding Xi together until we move to Atlanta next year, our Alumni went over the top and paid off Xi's outstanding debt. With the aid of several of our Alumni, Brothers Jeffcoat, one of the first members in Xi Chapter; Adams, our advisor; Battle, of Warrenton, Ga. (who has not missed a spiking season in twenty-eight years); G. L. and L. G. Alexander, of Forsyth, Ga., and C. W. Daniels, one of last year's Chapter, who is now attending Medical College in Atlanta, the old active members jumped in the front line trenches and initiated fourteen of the elite of the Freshman Class. They are:

Brothers G. H. Alexander and J. T. Hill, Forsyth; J. W. Harned, Jr., and B. K. Harned, Hopkinsville, Ky.; W. P. Petrie, Fairview, Ky.; Gibbs Lyons, Jackson; R. L. Smith, Jr., Moultrie; G. F. D. P. Croy, Douglas; R. L. Marchman, Jr., Peerry; T. I. Lewis, Concord; J. N. Willis, Midland; P. H. Mitchell, Crawfordville; G. C. Alderman, Lake Butler, Fla., and W. L. Hudson, Macon. Six pledges—R. C. Tuggle, W. H. Wynne, Jr., J. E. Pritchett, E. C. Griffin, and Walter Brady, all of Atlanta, and Sims, of Macon.

Having given up one House, we have rented a hall in the center of town for our meetings.

On account of our Brothers in the S. A. T. C. being quarantined, we have been able to hold only a few business meetings, but several of the Brothers who are not quite old enough to enter the S. A. T. C. are holding down the fort until the quarantine is lifted.

The Chapter officers for 1918-19 are: M. T. Wynne, commander; J. G. Jeffcoat, Jr., lieutenant-commander; S. H. Dixon, treasurer; G. H. Alexander, recorder; B. K. Harned, reporter; Gibbs Lyons, chaplain; J. N. Willis, marshal, and W. L. Hudson, sentinel.

There is certainly a moral in what Xi has accomplished this year in that Sigma Nu "will out." There has never been greater Sigma Nu spirit shown than by Xi and her Alumni this year. They have stood the test and shown that they are Sigma Nu to the bone.

Xi sends this message to her Brothers in service: She will be with you in the unbroken chain of Brotherhood in either body or spirit at a near future meeting in France. We will all march through Berlin together!

M. T. WYNNE, E. C.

LEHIGH UNIVERSITY

Pi Chapter

College opened September 12th with a larger Freshman Class than usual. The majority of the upperclassmen returned, but Sigma Nu was with only three old men, of whom Brother Cyril Melville has since been called into service. These three, however, made things look alive and there are now fourteen active members in the Chapter. The new members are: Brothers Tice, Jacobs, Glen, O'Keefe, Keenan, Sears, Little, Dowd, Kline and R. Knerr. Brother Schuler has returned after a year's absence from college. Brother Butz returned from Camp Greenleaf. Brother Carter, L. U. '17, returned, not as an active member, but as an instructor in the chemistry department. Because of the few old men in the House, elections were held.

As a war measure we have taken in the Nu Chapter of the Phi Sigma Kappa Fraternity, having ten active members. Our House will be a barracks for the period of the war, and a quota of forty men has been assigned to it. Everything is unsettled as yet—possibly some of our men will be compelled to move, and there is a probability that all of us will be assigned to other quarters. The housing question is entirely at the discretion of the commandant. At a recent meeting between the fraternities and the commandant in which all fraternities were represented, the Houses were put at the disposal of the commandant for use as barracks, in lieu of commandeering them for the same use.

We have no intentions whatever of closing the Chapter, and Pi looks forward to a successful year.

G. RUSSELL KNERR,
Reporter.

UNIVERSITY OF MISSOURI

Rho Chapter

Rho Chapter was ready, with the university, to start a new year two weeks earlier than usual. Not only has Rho answered the call of Sigma Nu, by pledging fifteen standard men, but since the first of the month she has responded to Uncle Sam. Upon establishment of the S. A. T. C., we were one of the first fraternities to offer our House for barracks. With only one month together, we have accomplished a great deal. Pan-Hellenic gave permission to initiate, in accordance with which we took all our novices in as Brothers. Eighteen old men are back and with a Chapter of this size there is little doubt but what Rho Chapter will survive through the period of the war. We have rented club-rooms and are to have our weekly meetings and as much fraternity life as possible.

In the cadet roster of officers we are well represented with Brother Brickey as captain; Brothers Foster, Shore and Bradford, as lieutenants; Brothers Gravely, Way, Rathbun, Mackey and Jacobs as sergeants, and the rest all high-class privates. Four of these have received special training at Fort Sheridan.

In school our scholastic reputation is rewarded by the appointment of five of our Brothers as assistants—Brother Black in mathematics; Brother Love in physiology; Brother Mackey in farm crops; Brother Schneitter in metal work; and Brother Bradford in bacteriology. We also are represented in the political part of the school with several student officers.

With our new officers-elect, and under the leadership of Commander Foster, Rho Chapter, can assure that Sigma Nu at

Missouri will survive the war as victoriously as Uncle Sam.

WM. L. BRADFORD, Reporter.

VANDERBILT UNIVERSITY

Sigma Chapter

Your letters reached me on my arrival home Tuesday and my short furlough did not afford time for answering. I will tell you of the active Chapter in this letter as best I can and write in detail of the Alumni in a few days.

In accordance with a Faculty ruling there are temporarily no fraternities at Vanderbilt. Sigma, like the rest, gave up her House. I am told that rushing will be permitted as soon as the S. A. T. C. has gotten a proper start (about Christmas). The S. A. T. C., of course, keeps the men in barracks. They are at present quarantined with influenza. When fraternities start again, Sigma Nu will start strong, for there are an able crowd of men back and at least four younger Brothers besides a very large Freshman Class. Since the Medical Department is on a separate campus, the fellows are a little bit isolated.

Brother John McMillon is an interne in Vanderbilt Medical Hospital.

I was riding in a very filthy part of town when I met Brother Dan Thomas carrying in his arms a very sick influenza patient to be put in an ambulance. Brother Thomas is an interne at the City Hospital.

Brother Ernest Milam returned to school with an eight and a half pound son for future Sigma, besides a much heavier younger Brother.

Brother George Owen is back in medicine, so there are no medics missing.

On the other campus Brother Charles M. Sarratt, Iota, is a member of the Faculty. A Sigma Nu lieutenant of the Sheridan camp from the University of Alabama has for his top sergeant at Vanderbilt Brother Coker (also at Sheridan). A Brother from the University of Oklahoma also adds to Sigma's number. The academics back, as best I could learn, are Knight, Coker, DeLay, Marley, Stevens, Bushart, Davis, Leathers and J. J. Thomas. With this bunch back I feel certain that Sigma Nu can hold her lead when activities are resumed.

Am not surprised that our Inspector has not heard from Sigma in as much as the S. A. T. C. and influenza have muddled things.

Brother Sarratt of the Vanderbilt Faculty and Brother George Owen, Vanderbilt Medical School, can best keep you informed. I will from time to time endeavor to write you what I may gather.

I am on my way to Delaware State College as an instructor in S. A. T. C. and expect to find a great bunch of Sigs there.

MAXWELL CARR PAYNE,
E. C. 1917-18.

I beg to advise that Sigma has been somewhat disconcerted, owing to the inauguration of the S. A. T. C. in Vanderbilt, and while it has been a very difficult matter to get the "gang" together, we have not forgotten that we have a good Chapter, and are not overlooking preparations for a successful year, even though we have been rather tardy in complying with requests from the General Office and in answering letters.

We have been working under most difficult conditions in Vanderbilt this year, owing to the inauguration of the S. A. T. C. University ruling delayed the date of pledging until November 7th and has allowed no time for rushing. We have two affiliates this year. Owing to the difficulty in getting away from the reservation, we have been unable to hold any meetings up to this date.

To day nine of us got together and made preparations for rushing day, November 7th. We have been fortunate in having quite a large number of letters of recommendation from our Alumni, and from a list of some thirty-four men. I feel sure we shall be able to perpetuate the ideals of Sigma Nu and Sigma Chapter. The meeting today was very informal, and temporary officers were selected, to fill the places of those men who have gone to the army since last year. We anticipate a regular meeting of the Chapter within the next few days.

The university authorities at Vanderbilt have not declared an armistice nor ceased the operation of fraternities, but on the other hand have really been doing everything in their power, feasible, to maintain their operation. I think the delay in the rushing season a very wise one under the present conditions.

I regret that we were unable to maintain our Chapter House this year, but every Fraternity in Vanderbilt has given up its House. Owing to the medical and academic departments of Vanderbilt being in different sections of the city, and to the quarantine which has just been raised, it has been extremely difficult to get together. I feel sure that from now on this difficulty can be overcome at least partially. I can assure you that Sigma is still on the job and shall do all within our power to uphold the ideals of our Fraternity and hold the Chapter together.

By the time for the next issue of The Delta, we will have as much information as possible with regard to the boys in the service and Chapter letter.

I am very glad indeed to know of the attitude of the War Department toward Fraternity matters.

GEORGE W. OWEN.

UNIVERSITY OF TEXAS

Upsilon Chapter

[In lieu of the Chapter letter we are publishing a letter from last year's commander, Lieutenant John D. Cofer, who is now at Camp Grant, Illinois, which furnishes a clue to the Chapter's condition. Brother Cofer always hits the mark and gives the kernel of a situation.—The Editor.]

Sometime ago a letter was forwarded to me by my mother from your office, in which you asked for a report on Upsilon Chapter. At the time at which I received the letter I had just arrived at Camp Grant and was so busy that I was unable to answer it. So as usual I suppose I am late for the next issue of the Delta. My affairs have been so upset for the last month that I can hardly find time to drop a line now and then to a young lady at home that wears a Kappa key over the "Cross of the Legion of Honor."

The new S. A. T. C. has practically done away with fraternities at the University of Texas. I hear from the fellows that the fact that they live in barracks has seriously interfered with the opening of the Chapter. Yet they have a few pledges. The House has been let out as a girls' boarding house. The fellows have rented club rooms. I think if it has not already been done that it would be a good idea for the General Office to issue some sort of circular giving advice to the different Chapters over the country. The boys at home are almost at a loss as to how to maintain the Chapter. We do not want the Chapters to fall through, and I have no doubt that you all have formulated a plan.

I have met two splendid Sigs up here—Brother Evans C. Crow of Penn State and Brother Willard Wight of Maine. We would appreciate copies of the first Delta when it comes out. No matter how far we go away we will always carry the spirit of the Fraternity which meant so much to us at college. You just begin to realize its advantages when you get out into the world.

INDIANA UNIVERSITY

Beta Eta Chapter

When Indiana University announced that it was to have a unit of the Student Army Training Corps, the greatest number of students in the history of the institution arrived in Bloomington for the registration day. Among these were thirteen members of Sigma Nu and a number of pledges.

The Brothers who returned to school are: Victor Mays, Pendleton; Leo Reed, Parker; Hiram Stonecipher, Zionsville; Cecil Craig, Otwell; Frank Faust, Goshen; Alan R. McGinnis, Evansville; Robert Rogers, Bloomington; Robert Sinclair, Fort Wayne; Ralph Winslow, Greenfield; James E. Moffat, Bloomington, and Edward M. Pitkin, Greencastle.

Brothers Robert Brewster, Fortville; Floyd Neff, Logansport; Andrew Sallade, Goshen, were in Bloomington during rush week, but are not now in school. Brother Robert F. Brewster has entered a training camp at Warsaw, Indiana. Brother Andrew Sallade was forced to withdraw from college on account of illness, but will no doubt return to school later.

Other visitors present during rush were Past Regent George M. Cook, of Chicago; Brother William R. Stuart, of Greenfield; Brother Bernet Leist, of New Albany; Brother John Leonard, of Chicago, and Brother "Pat" McCorkle, of Greensburg. Brother Stuart is now in training at the Great Lakes Naval Training Station and Brother Leist has also entered the service. Other men of last year's Chapter who are now in the service are Brothers Earl Stickel, Camp Forest, Ga.; J. Wymond French, who enlisted in the Marine Corps and is now on his way to Siberia; Earl Bettinger, Fort Sill, Okla.; Donald Richardson, Great Lakes; William McCaw and Lawrence Anderson, Municipal Pier at Chicago; and Ralph Winslow, who was assigned to Indiana University from the Great Lakes Naval Station.

During rush week twenty-five men were pledged. They are all men of high character and most of them come here with enviable athletic and scholastic reputations. The men wearing the pledge pin are: Myron Brozier, Pendleton; Orville Castor, Lapel; Ralph Closson, Logansport; Hallis Deakayne, Fortville; Kenneth Ellington, Pendleton; Monroe Frazure, Gary; Kenneth Fugit, Greensburg; John Fair, Bloomington; Shoppie Grimsley, Fortville; Philip Hardin, Fortville; Paul Honk, Columbus; Vernon Hyer, Parker; Dee and John Jones, Williams; Harold Kercheval, Sheridan; Kenneth Kilpatrick, Gary; John Kyle, Gary; Frank Marquardt, Gary; Ralph Lamb, Indianapolis; Noble Riggle, Goshen; Clifford Smoke, Goshen; Robert Stahr, Elkhart; Eugene Thomas, Fortville; Harold Wells, Columbus; Lee Crawley, Princeton. Clarence Feldman, of Evansville, who was pledged in 1913, came to Indiana this year and was initiated October 6th.

The freshmen give promise of adding to the athletic glory of the university and of the Fraternity. Several of the pledges starred in high school basketball and will no doubt be strong contenders for the Crimson quintet this year. Kyle, former Emerson High whirlwind, is playing fullback on the varsity eleven. Stahr, who "starred" in high school athletics, is making good as alternate quarterback. Kilpatrick, another fast little player from Gary, is rapidly developing into a speedy half-back who never fails to make a dent in the line of the opponents of the Crimson eleven.

Brother Frank Faust, who is playing his second year on the varsity as quarterback, is going better than ever before and has proved himself to be one of the best generals the Big Red Team has had for several years. In the first game of the season Faust made a sensational run of ninety yards and has been a consistent ground gainer.

Indiana University was one of the few universities in which the fraternity men were allowed to live in their Houses. The Houses here were all taken over by the Government, furniture, curtains, pictures, etc., were removed, and they were converted into barracks. Additional plumbing and heating arrangements were installed in order to bring the house up to Government specifications. All the members of Sigma Nu who were in the S. A. T. C. were allowed to stay in the House and enough other men were taken into our House to fill our quota of sixty-five.

In order to provide a club room for the men and to provide a place where they might spend their time between drill hours, another house, located two blocks from the original one, was rented and all our furniture was put in there. Five Brothers and pledges who are not members of the S. A. T. C., live in the House, which is called the

"Sigma Nu Annex." There Fraternity meetings and initiations are held. Two rooms have been fitted up as club rooms and the gang can always be found there during leisure hours.

Brother Victor Mays has been appointed top sergeant of the Sigma Nu House, now known as "Barracks No. 10," and he has taken charge of the work in a most creditable manner.

The Chapter last year was able to pay off many of the old debts and we were able to start the year with practically a clean slate.

The financial arrangement made with the Government will take care of practically all the financial problems that arise throughout the year.

Beta Eta will not slacken this year in her effort to keep represented in all branches of student activities. As usual, she is holding her own in athletics. Brother Ralph Winslow is editor of the 1919 *Arbutus* and president of Sigma Delta Chi, the honorable journalistic fraternity of which Brother Robert Rogers is also a member. Brother Victor Mays is business manager of the *Indiana Daily Student*, the college newspaper. Brother James E. Moffat is a member of the Faculty, teaching in the Economics Department. Brother Edward M. Pitkin is an instructor in the Anatomy Department in the Medical School. Brother Pitkin's wife and young son accompanied him to Bloomington this year and they are now residing here.

There are four men in school this year whose fathers are Sigma Nus and they have formed a "Second Generation Club." They are Brothers Victor Mays, Hiram Stonecipher, Pledges Dee and Paul Jones.

The officers of the Fraternity this year are: Ralph Winslow, commander; Robert Rogers, lieutenant commander; Hiram Stonecipher, recorder, and Cecil Craig, treasurer. These men are looking after the material interests of Sigma Nu.

Initiation of the pledges has been planned for next Sunday. The university has closed for ten days.

Beta Eta has managed to weather the storm in this crisis for fraternities. She has given a host of Brothers who have gone out to fight for the principles of Sigma Nu and to make the world a safe place to live in.

This year it shall be the goal of Beta Eta to instill into all her pledges the Sigma Nu spirit and the principles which should guide their lives, although she is handicapped by war-time conditions. Her ambition shall be to give to her Government the very best, and the greatest possible number of officers.

RALPH WINSLOW, E. C.

ALABAMA POLYTECHNIC INSTITUTE

Beta Theta Chapter

I suppose you think that Beta Theta is taking a good while to let you hear from us this year, but we have been in such a position this year that we did not know what to do and we are just now getting on our feet good.

When we returned to college we found that our treasurer and assistant treasurer would not return as they were in a training camp and were commissioned at the end. Things were also in a turmoil in college and there was a lot of talk about taking over all the fraternity houses here and using them as barracks for the boys, and fraternities here were in a bad fix. However, we went to see the president of the college and he told us that we could stay in our House until the first of October and maybe longer, so we went right to work as we have always done and started work. We elected new officers and have pledged fourteen fine freshmen. We are all right now as we have the books posted up and have things going full away.

The Government has taken over our House as barracks, and we are to get out on the first of October. We are trying to keep the Fraternity going and have rented halls out in town to hold meetings in, but I am not sure that we can do this. I hope, however, that we can get along some way, and we are going to do all in our power to keep Beta Theta of Sigma Nu running.

They have moved fifty-two cots in our House already, and the rest of the Fraternity Houses have as many as they can get in. I think that they are planning to put as many of the college boys as they can in these Houses so they can be kept up, as we have no regular barracks here.

Anything that we can do to help our Government in this time of war we are going to do as cheerfully as possible, although it means that we are to give up all that we hold dear in our college life and the sacrificing of our college home. We have talked this over in the Chapter and have decided that this is the best and only thing to do and have told the president of the college that we were willing to let him use the House. I am sure that we were the first of the Fraternities here to make this sacrifice, and he praised the spirit that we showed very highly.

We got a letter some time ago from you telling us that we had better take the steps we have, if necessary, and we were very glad to get this advice, for we have only three men in the Chapter now who have been here three years, and no four-year men, so you see that the three of us have to work a little harder than usual to keep things straight.

JOHN F. FRAZER, Treasurer.

MOUNT UNION COLLEGE

Beta Iota Chapter

At the time of this writing we are unable to say much in regards to Beta Iota's future. Our House has been taken over by the Government for barracks, owing to a strict quarantine, as yet we have been unable to effect an organization. However, the college authorities and the commandant will arrange to provide a meeting place for all fraternities here. We will pledge men as usual and will endeavor to keep up the fraternity life as much as possible.

Brothers Eynon, Burkle, Cocklin, Jones, Marlowe, Dager, Helwick, Knoll, Nelson, Rymer, Shively and Sprankle have returned to school and are enlisted in the S. A. T. C. All are scattered through the different barracks and have little opportunity of meeting as in normal times. We have our share of honors. Brother Eynon, back from Fort Sheridan, is ranking student officer of the S. A. T. C. unit here, and is also varsity football manager. Brothers Burkle, Dager, Nelson and Sprankle are varsity football men. Brother Marlowe is editor-in-chief of the college weekly, the *Dynamo*. In the S. A. T. C. we have our share of officers, but as no permanent appointments have been made, it is impossible to say how many at this time. We miss Brothers Brown, Hughes and Ritchie, who have been commissioned and are now stationed elsewhere. As long as a few of us remain in school, Beta Iota will hold up to the last.

LEROY E. MARLOWE, Reporter.

KANSAS STATE COLLEGE

Beta Kappa Chapter

Kansas State College opened this year September 9th. Contrary to expectations and contrary to the rule of the two years previous, we returned fifteen old men—a fine nucleus to carry out a successful rush season. The two main problems which immediately confronted us were: First, that our Chapter House would be taken over by the Government to be used as barracks for the Students' Army Training Corps, which would be organized on about October 1st; second, that practically all of the old men and those who we would pledge would, on that date, leave the Chapter and go into training.

However, the S. A. T. C. was our drawing card and never in our experience in fraternity life has fraternity material for pledging been so plentiful nor of such splendid quality. High school graduates came by the hundred to enter the Student Training Course and as the regular college rulings regarding pledging were the same as usual, we got busy and pledged a larger number of freshmen than we generally do *the first week of school*. Two pledges, W.

E. Gault, Wichita, and J. L. Pike, Chanute, Kansas, were carried over from last spring. To these, we added twelve new pledges, all of whom we are very proud to have wear the serpent button. They are as follows:

C. E. Bleckley, Wichita; J. P. Fallis, St. Joe, Mo.; Fred Miller, Wamego; Leland Lovejoy, Clay Center; E. J. Howe, Morganville; G. O. Faulkner, Bellville; D. G. Lynch, Manhattan; K. B. Key, Wichita; Arthur Stark, Bellville; F. B. Russell, Paola; Tate Fry, Lockney, Texas; Milton Spencer, Concordia.

Since the induction of the men into the S. A. T. C., we have rented another house, furnishing it with our own furniture, and it is being manned by the five left-overs, three old men and two pledges. Our matron, Mrs. Bassler, is still with us, although a part of each day she spends in the new S. A. T. C. Community House. The S. A. T. C. is just now temporarily quarantined with Spanish influenza, but it is our program to have the men in uniform with us at our Chapter Annex a few minutes each day, and on week-ends.

As yet we have not initiated our new men. We did everything possible to instill into them real Sigma Nu spirit and Beta Kappa's way of doing things before they were taken over by the Government, and we expect to give them all the training possible in the time we have. Thus we have made possible a common meeting place for the men in college and visiting Brothers from the nearby camps; a place for regular Chapter meetings; a place where initiation can be held soon; and so long as possible, Sigma Nu, as an organization will be maintained and recognized in Kansas State College. We are determined to "Carry on!"

OHIO STATE UNIVERSITY

Beta Nu Chapter

Beta Nu opened her Chapter halls this fall with six old men, one Senior, Lester C. Neer, four Juniors, Robert Sherman, commander elect, Walter Hamilton, Ray Swolish and Carter Motz, and one Sophomore, D. S. Dean. Later in the year Dwight Deffenbaugh, a Senior and the Chapter Treasurer, entered school. Looking back over last year, we have two things to feel proud of: the large number of men who have entered the service and the fact that, in spite of the unsettled condition and the small number of active men, we were able to pay more than \$200 on an old debt.

State University had the largest man Class in the history of the institution this fall, mostly on account of the U. C. The boys got together and with the aid of a couple of Alumni, pledged an excellent freshman, probably the youngest of freshmen ever pledged at any time at Ohio State. The last week in October we initiated two sophomores, one of last year, George Kibler, Cincinnati, O., and Lawrence Bonner, Columbus. By the time this is printed the majority of this year's pledges will be wearing the five pointed badge.

The evening of September 26 the chapter entertained the new pledges at a regular college dance. Socially, the "got by" for the year. One of our pledges from Lima, O., fell so hard into the sorority pledge that the boys are sure he will give his pin away as soon as possible. Mrs. Lewis B. Makepeace, the wife of one of our men in France, chapter. Twenty-four couples were present.

Conditions around the university are very good, some of the men are in barracks, many in the waiting lists, and others in various classifications; we can be sure of nothing but we feel a certainty that we will be able to keep the house open throughout the college year. At first this seemed doubtful. The majority of the larger fraternities here have either closed or about to

Chapter has had some very fine visitors ready this fall. Brother Hopwood, chapter adviser, has been up a number of times and helps out wonderfully. Brother Assistant Aviator Charles Milton Cummings, formerly of Fort Worth, Texas, was here one evening on his way across via New York. Brother Cummings was Chaplain in command part of last year and was respected by all. Brother Clyde D. Aistadt, a Sigma, of Camp Mt. Clemens, was here for a few days. He is a Signal Electrician. This Chapter has had the pleasure of entertaining and being entertained by the inevitable "Chic" of Messrs. Shubert, New York, who were staying in the Winter Garden production "Doing Our Bit" at the Hartman Theatre. This happened during rushing and I'm sure had quite a bearing on the results that we can show. Lieutenant Wiley, chief of the military police in Columbus, spent the very pleasant evening at the pledge dance with us. He is a Yale man though not a Sigma Nu, one of the best men we have seen in an officer's uniform since the war began. We must not forget Brother C. H. Julian, one of our most interested and active alumni, who is now on us now and then. We could not rush a rushing season without him.

Her Stebelton, Eta, has entered the fraternity here and seems to be a typical

southern Sigma Nu. Brother Frank Beach, Gamma Zeta, who has been connected with the State Department of Agriculture for a couple of years, left a few weeks ago for service in the coast artillery.

The Sigma Nus at Ohio State along with many other things are working patiently and faithfully on their New House Fund, and as soon as the war is ended, the Chapter expects and intends to build the finest and most modern fraternity home on the campus.

The names of the new pledges are: Robert B. Manley, Howard Sherman, Bryan Downs, Columbus; Jefferson Hoshor, James Chambers, of Canal Winchester; Frank H. Wickline, Akron; James D. Ward, Belmar, N. J.; Wm. Brinkmeier, George Orphal, Howard Doute, St. Mary's; Wade W. McGee, Chillicothe; Harry LeFeure, Jack Reese, Gloucester; Howard Dinkel, Lima; Ralph Gibson, Elyria; Francis Gallagher, Mt. Sterling, and Robert Gehring, Findlay.

LESTER C. NEER, Reporter.

WILLIAM JEWELL COLLEGE

Beta Xi Chapter

The following boys have entered the service since our last year's report:

Brothers Hamilton Baksade, Donald Church, Ray Cooper, Herbert Eby, Paul Cook, Basil Joyce, O. P. Moody, Mason King, Frank White, Paul Hunt, Paul Richmond, Perry Stoits, Harold Stewart and Austin Hall.

Pledges Wilfred Beasley, Ridy Stockdale, George Scovun, Amos Dickson, Earl Smort, Jack Bachlor, Elmer Cobb, Fiteney, Finley Mason, Robert Funkhouser, E. R. Samuel, R. L. Word, O'Fallen Nutter, Frank Coffmon and Russel Bollow.

Brother Sanford Miller Brown was killed in action.

We opened school this year with nine active men and five pledges. Since then we have pledged fifteen others. Our prospects this year are the best they have been for years.

Although we were unable to keep our House, we manage to meet there every Sunday for dinner. We are holding regular Chapter meetings and expect to initiate soon.

We own our House, so we are not bothered financially in that way.

Address all mail to Sigma Nu House, Liberty, Mo.; D. M. Church, Commander; H. Stewart, Treasurer.

P. P. RICHMOND, Reporter.

UNIVERSITY OF PENNSYLVANIA

Beta Rho Chapter

All of the Fraternity Houses have been taken over this year for Government purposes, we had to either store our furniture and give up all ideas of having a common meeting place, or rent a suite of rooms which could be occupied by several of our Alumni, and pay a small rent. We decided upon the latter and forthwith had the treasurer of the Beta Rho property company lease rooms at the above address.

Of course, we can not be together as much as we wish, but we manage to make week-end liberties very enjoyable, as well as the few hours we may get off during the week.

At the beginning of the term we had eighteen members, more than any other fraternity on the campus—and even now that four have gone to officers' camps, we still hold our own. We are all in the service, however, and have had little time for rushing, but we managed to very quietly pledge and initiate two splendid fellows, Howard Hovde and Gerald Jewett, both of Des Moines, Ia.

Most of us are twenty or over, and as we are not certain of staying after December, we have made arrangements with our younger Brothers and our Alumni to have them keep things in as good form as possible under the circumstances.

JACK L. SEBALD, Recorder.

I do not know whether any of the active men at Beta Rho have written you recently regarding the situation at Pennsylvania, and I am therefore taking this opportunity of informing you.

The university gave us to understand that our House would be acceptable for barrack purposes and we therefore removed all the furniture, rugs, etc., excepting beds, mattresses, pillows, and straight chairs. The fifteen Sigs who have returned to college rented three rooms and a bath about three squares away and everything was ready for the signing of the lease, when an inspector from the surgeon general's office of the War Department condemned the use of the House as barracks.

If we had known of this sooner it may have been possible to have partially filled the House with Alumni, but I fear it is a little late this year to do this now. We will simply have to make the best of it and pull out somehow. Three of the men in college have been transferred to officers' training camps, and those that have remained have already taken in two initiates.

W. L. GRUHLER, Treasurer,

NORTH CAROLINA STATE COLLEGE

Beta Tau Chapter

The commander of our S. A. T. C. unit has issued an order that no fraternity or secret order mail shall be delivered in barracks, so I have received no fraternity mail since coming back to school.

If you will please send all mail to Beta Tau Chapter to our Chapter adviser, Dr. Rayford K. Adams, State Insane Hospital, Dix Hill, Raleigh, N. C. I can get it from him, as he is a loyal Sigma Nu, and the best Advisor this Chapter ever had.

This Chapter has only two men back, F. S. Childs and B. F. Mitchell, but we have several pledged men from last year back that we can take in in a short while if fraternities are allowed to remain active. The Freshman Class this year is unusually large and has lots of fraternity material in it.

NORTHWESTERN UNIVERSITY

Gamma Beta

Going under the supposition that Chapters all over the country are laboring under the same difficulties, we will not attempt to enumerate Gamma Beta's. Suffice it to say, however, that they are plentiful.

Notwithstanding the times, several old men and two pledges returned to school at its start to join the S. A. T. C. Brothers Eugene McMakin, Vincent Ely, Wayne Walker, and Phelps joined the S. A. T. C., while Brothers George Young and Edward

Halperin were returned from the navy school to continue their course of study; Brother Donald Richardson of Indiana also was returned to Northwestern and Brother William Hicks joined the Naval Unit of the S. A. T. C. Brothers Twist Thorson and Togi Moore are down at the Dental School and Brother Earle Pronger is attending the Medical School.

Since it no longer had a House to support and because it feels that most of the old men will return immediately after peace is declared, the Chapter conservatively pledged but six new men. They were carefully chosen and the rushing period extended over three weeks in order to do so.

The pledges are: Willard Helmuth, Leeds, Ala.; John Taft, Evanston; Arthur J. Stevens, Joliet; Miles R. Scott, Concordia, Kans.; William Moeller, LaSalle; George Kerr, Chicago; William Ballanger, Richmond, Ind., and Joseph Bryant, Fairfield.

The House, along with all the other Fraternity Houses and dormitories on the campus, has been taken over for Government use. Since this act is for the public weal, Gamma Beta is satisfied to do its duty in every possible manner. Brother Captain Homer Vanderblue talked to the men occupying the House and he urged them not to damage it.

Vic Ely, Norman Phelps and Eugene McMakine left for training camps a week after school started. Vic and Mac are at Camp Grant and Norm is at Hancock. Brother Cliff Porter is flying at Carruthers Field, Fort Worth, Texas. Eddie Sutphen and Charlie Kiefner have recently been ordered overseas from that place. Kief visited us on his way across. We received a card from "Skin" Miller the other day from Dublin. Joeb Luther says that Bob Ennis is expected home for Thanksgiving dinner. Tom Harwood and Bob have been trying to locate each other in France—they have met by now.

Billy Pore, training for naval aviation, happened through and pepped up the Brethren considerably. Brother Jack Nelson is at Great Lakes taking the officers' material school course. Brother Paul Beckett is at Princeton in the paymaster's school. Brother Dan Hagin is doing some boxing at the Lakes and he held the heavy-weight belt for some time. Brother Cy Young is now playing varsity center on the Northwestern football team and he is one of the stars of the school.

With Sigma Nus fighting everywhere for the safety of the world, distinguishing themselves in every field, Gamma Beta is certainly proud to be a unit in such a wonderful organization—an organization that will come out of the war as strong and powerful as ever.

The Chapter has been saddened by the loss of two Brothers. Wilbur Thomas Rawleigh, Gamma Beta, of Freeport, Ill., succumbed to pneumonia at Great Lakes. He was a musician in the Second Regiment Band. Brother Leo G. Maury, Gamma Beta, an interne at the Michael Reese Hospital, Chicago, met death fighting to suppress the epidemic. Gamma Beta extends its sympathy to the bereaved parents of both these brave men.

ALBION COLLEGE

Gamma Gamma Chapter

[In lieu of the Chapter letter we are forced to include a brief note, accompanying a formal report, which gives a bare outline of the Chapter's condition.—The Editor.]

We are of course in a sad state of uncertainty as to fraternity life this year, but are trying to hold together with eleven actives and as many pledges. We have given up the House but are planning to rent some rooms wherein to meet.

DON M. ALEXANDER, Recorder.
S. A. T. C., Albion College, Albion, Mich.

Gamma Gamma was very fortunate in having so many of the actives returning this year there being at the present time eleven in all. They are: Brothers Donald Alexander, Milo Bostwick, Shorey Peterson, Roy Tuxworth, Ford Otis, Charl Green, Harlan Hatch, Glen Wilkinson, Douglas Sargent, Hilton Tullar, and Arthur Hudnutt. Brothers Jay Wade and Donald French although not connected with the active Chapter, are in Albion this year. Brother "Bob" Baldwin, Chapter Adviser, is still with us and we are proud to say that we are glad for his help and could not get along without him.

The following pledges complete the Chapter: Roland Davies, Detroit; Cleve Jordan, Lake Odessa; Edwin Pearce, Detroit; Roumaine McCall, Ithaca; Hubert Quick, Muskegon; Roy McGeachy, Gaylord; Harry Laity, Grand Ledge; Stewart Kingsnorth, Albion; Frank Church, Detroit.

Brothers Sargent, Peterson and Hudnutt have been recommended for the Officers' Army Training School at Camp Grant, Ill. Two others were chosen to complete the number, thus giving Gamma Gamma three out of the five. This goes to show that Sigma Nu is still at the front. Brother Tuxworth is manager of the Co-operative Book Store; Brother Otis has charge of the college S. A. T. C. hospital, and Brother Wilkinson is acting as assistant chemist instructor in the college.

Owing to all the Chapter but three being in the S. A. T. C., we were forced to give up our House, and Fraternity Mother, Mrs. Barnes, but we are in hopes that soon we can have both back again. Meetings of the Chapter will be held at Brother French's home. Our first initiation comes November 9th.

Our fall party was a success and we were very lucky to be able to hold it, as the Government had not yet prohibited such functions in connection with the war activities.

MILO BOSTWICK, Reporter.

STEVENS INSTITUTE OF TECHNOLOGY

Gamma Delta Chapter

Gamma Delta has been very fortunate this fall in having most of the Chapter return. Only three men have left to enter the service. This has largely been due to the fact that the Government has established the S. A. T. C. at "The Stute," and the place is now practically the preliminary to an officers' training school.

The entire student body will soon be uniformed and put into barracks. This will mean that there will only be about half a dozen men in the house, and it is still a question as to what will be done. Recent developments seem to indicate that the Chapter will continue as under normal conditions till at least the first of the year.

Five men have been pledged and there are good prospects for more.

Gamma Delta to date has fortunately no gold star in its flag and the Chapter wants to take this opportunity to extend sympathy to those chapters whose members have made the supreme sacrifice.

I intended to write a week ago, but I was taken with Spanish influenza and that stopped me quick. As it is, I am writing this in bed, and I think I could put myself in almost any mood except that of letter writing. This letter will probably be a day late, but if it is possible will you please do your best to have it published because I know the gang would be disappointed if it were not.

H. D. GREGORY, Reporter.

LAFAYETTE COLLEGE

Gamma Epsilon

Gamma Epsilon has eleven active men left out of seventeen who should have returned in normal times. The Chapter met four days prior to the opening of the collegiate year in order to prepare for rushing season. Never before did prospects look brighter because the entering class is the largest in the history of the college.

Twelve men have been pledged. We aim to bring our Chapter roll up to thirty, but whether or not we reach our goal depends upon the finding of men of Sigma Nu caliber.

Our future Chapter life depends largely upon the decisions of the military authorities. It has been learned from good authority but not officially that the S. A. T. C. will mess as a whole unit with the consequence that our commissary will be closed. Students may also be quartered according to age or course pursued, which act should not allow us to be together in our House. However, in that event we will no doubt be allowed a place for meeting during recreation hours. The officers in command do not approve of using our House for barracks because it is not on the campus. Our executive committee is negotiating with the college to bear our financial burden if the Chapter House is not accepted for S. A. T. C. or Regional Headquarters.

Regardless of these probable conditions we are going to hang together and keep things going as usual so long as it is possible. We are looking forward and preparing for the time when peace is declared.

We take pleasure in introducing as pledges, Preston Schimer, Pottsville, Pa.; Philip N. Trowbridge, Chatham, N. J.; Raymond Jewell, Utica, N. Y.; H. Walton, Tyrone, Pa.; John Penn, Waynesburg, Pa.; J. Bieher and H. Dissinger, Kutztown, Pa.; Howard Heffernan, Hoboken, N. J.; Raymond Lerch, Reading, Pa.; Alvin Morgan, Minersville, Pa., and H. Brotzman, Phillipsburg, N. J. We shall hold a smoker this week for the purpose of teaching these men the college traditions and inciting the proper college spirit. Thus they will be fitted to take the part of leaders during the period of reorganization.

Brother Smith is assistant manager of the football team and has no opposition for the coming year. Brother Alexis is trying for an end position on the football squad, and is making good. Pledges Trowbridge and Morgan are tackles who show great promise.

Our undergraduates who are in the service are Brother Kuhn, '19, enrolled in the Medical Reserve Corps at the University of Pennsylvania; Brother Hopf, '19, who is at the Central Officers' Training School at Camp Lee, Va.; Brother Gunter, '19, who is in France with an engineering unit; and Brothers Magee, '19; Fackenthal, '20, and Shirer, '20, who have enlisted in the Navy. Brothers Forrest, Hagey and Sarraat, who graduated last year, are also in the Army.

Our motto is "After the United States Gamma Epsilon needs you," and we will not let it perish. We are all confident and cheerful.

UNIVERSITY OF OREGON**Gamma Zeta Chapter**

Delinquent.

COLORADO SCHOOL OF MINES**Gamma Eta Chapter**

Delinquent.

CORNELL UNIVERSITY**Gamma Theta Chapter**

Delinquent.

UNIVERSITY OF KENTUCKY**Gamma Iota Chapter**

The University of Kentucky opened this year with the largest enrollment in the Freshman Class in its history. There were approximately five hundred men enrolled in this class alone and probably three hundred in the others. This increased enrollment in the Freshman Class was due in part of course to the great number of men that came to join the S. A. T. C., but it was mainly due to the marked improvement that has been shown in the university in the past year under the able management of President Frank L. McVey. Several new departments have been added to the university, and there has been a very large increase in the staff of instructors to meet the growing number of students that are coming every year. Every college has a very able and well known man at its head. In addition to the regular S. A. T. C. here, we have a branch of the Naval Reserve as well, and many of the students are choosing this branch of the service.

One month of our college year has already passed, and it finds Gamma Iota well on its way to what we believe will be one of its most prosperous and successful years. However, we might say that uncertainty broods over all of us, yet we are not different from other Chapters in that respect. Uncertainty has altered our plans but little, and we have gone ahead with them as in former years. With all our old men and pledges, with one exception, in the S. A. T. C. or the Naval Reserve, it is hard to say just what the result of this year will be, but many of the pledges are taking engineering, so it is safe to say that practically all of those men will be here all year.

The following old men returned at the opening of the university: J. G. Heber, Neal W. Knight, C. C. Young, T. L. Gorman, Winston Coleman, E. V. Murphree, W. D. Morgan, G. H. Creech, Earl Wallace and Pledge Ed. Gregg. Brother W. C. Draddy, who has been out of the university for a year, working with a large brokerage concern in Cincinnati, also returned this

year. We are fortunate enough to have two Brothers from other Chapters. Brother Salsburg comes to us from Sigma, and Brother John Clay from Beta Zeta. We are indeed glad to welcome such good Brothers.

Rush season is over and it finds Sigma Nu as usual with the best freshmen in the University. No other fraternity in the university can say that we didn't get the best here this year; in fact there were only two men in the university that we wanted that we didn't get. We therefore take great pleasure and pride in introducing the following pledges, whom we believe will make good and enthusiastic Sigs: Barron Faulconer, Lexington, Ky., quarterback on Picadome High; William Faulconer, Lexington, Ky., football with Cornwall Prep., Washington, D. C.; Mark A. Watkins, London, Ky., star pitcher on the strong K. M. I. Team of 1918; T. Jerry Beam, Bardstown, Ky., fullback on football and first base on base ball team with Peddie Military Institute; G. R. Hubbard, Bardstown, Ky., made 1917 Virginia Freshman Team; G. L. Haydon, Springfield, Ky., star on Springfield High Football Team; F. B. Noe, Springfield, Ky., football and baseball with Springfield High Teams; Harry Rainey, Lancaster, Ky., star end on Millersburg Military Academy Team; Fred C. Lewis, Harlan, Ky., pitcher and manager baseball, Maryville College, Maryville, Tenn.; R. J. Riorden, Newport, Ky., football with Newport High; Harry Jennings, Ashland, Ky., solo cornetist, University of Kentucky Band; J. S. Yanky, Springfield, Ky., and J. F. Pannell, Nelson, Ky.

All initiations will take place at the earliest possible moment, because it is very likely that some of the men will have to leave most any time, besides it is the desire of the university officials that we initiate at once. The War Department order calling for the discontinuance of fraternities during the period of the war will of course have a great effect upon this Chapter. We will have of course our regular business meetings and an occasional get-together in the form of banquets and dinners.

We are living at present in our own House, as the barracks at the university have not been completed as yet. We are trying to get the commandant to use our House as a barracks, as they are doing at the other schools, but we fear that our House is too small. Everyone who possibly can is living in the House so that we may get all the good out of it that we can before we are required to go into barracks. We are going to maintain the House as a meeting place, and then some of the men can live there, as those men in the Naval Training Unit do not have to live in barracks with the Army Unit. Sigma Nu is the only Fraternity maintaining a House this year.

In college activities Sigma Nu is well represented as usual. Brother Heber is captain of this year's varsity, as well as being one of the fastest and most aggressive ends that the team has ever had. Brother Murphree is back at his old position at right tackle, and rumor has it that he is to be the captain of next year's team since he is the oldest man left and sure of being back. Pledges Faulconer, Beam, Watkins, Hubbard and Rainey are all out for the team, and although nothing has been promised any of them, it is certain that two or three of them will make good this year. Brother Andy Gill, of Beta Eta, is this year's coach and unless military activities interfere he is going to turn out one of the best teams that the University of Kentucky has ever had. Several old men and pledges have non-com. ranks in the training units. Pledge Jennings is playing solo cornet in the University Band; Brother Draddy is sport editor on the Kernel; Brother Coleman is an instructor in the Radio School, and Brother Creech is president of the Strollers. There have been no class elections as yet, but when they do come off we feel assured that Sigma Nu will be well represented in class offices.

Six Brothers from Gamma Iota have recently won commissions. They are: Ensign Floyd H. Wright, Aviation; Ensign Harold A. Pulliam, Aviation; Ensign David P. Campbell, Aviation, Balloon Service; Ensign William S. Moore, Transport Service; Lieutenant Tilford L. Wilson, Infantry; Lieutenant Jeff D. Rowlette, Signal Corps. Five Brothers and one pledge are now in training for commissions. They are: Steve Watkins, Nat. Aaron, Leland Eish, and Pledge Ed. Gregg. These four are candidates for commissions in Field Artillery at Camp Taylor, Louisville, Ky. Brothers C. E. McCormick and J. W. Marr are in Naval Aviation and are now attending the Ground School at Boston and Minneapolis respectively. More than fifty per cent. of the total initiates of this Chapter are in the service, and over ninety per cent. of those have commissions, or are candidates for them.

Brother Guy Huguelet, '15, was the only Alumni representative during rush season, but he made up for several as he gave us valuable assistance. Brother Huguelet has been made Chapter adviser. Brother Iglehart, Beta Xi, '17, also paid us a visit during rush season. Brother Herschel Auxier was unable to return to the university this year on account of ill health, but he came down and helped us out during the rushing season. Since the opening of school we have also lost Brother W. D. Morgan, who was compelled to go West for his health.

On the whole the prospects for a good year are very bright. Most of the old men are in the Engineering or Chemistry De-

partment, and these will not be compelled to leave until they have completed their courses, and none of them are seniors. Most all of the pledges are also taking engineering, so we are very sure that we will come through the year with a goodly proportion of the men we have at present. We have been careful in picking men who we know are here for the full four year's work, war or no war. We have made no especial effort to get those men who are taking strictly war courses, with the express purpose of leaving the university at once. All our pledges are good enthusiastic men, and they say that should they have to go before the year is over, that they fully intend returning and finishing up their courses when the war is over, and to eventually help build that House for Gamma Iota, which we know is a certainty after this war is over.

This Chapter wishes to extend congratulations to all those pledges who have been wise enough to choose Sigma Nu and for their good fortune. The best wishes of this Chapter goes with every Brother who enters the service of his Country this year.

GROVER H. CREECH, E. C.

UNIVERSITY OF COLORADO

Gamma Kappa Chapter

Delinquent.

UNIVERSITY OF WISCONSIN

Gamma Lambda Chapter

Things for a time during the middle of the school year of 1917-1918 looked very dubious for Gamma Lambda, but thanks to the consistent efforts of Rushing Chairman McCandless and the other members, we succeeded in keeping a fair sized bunch. At the end of the school year we had what promised to be a good Chapter for the opening of school this fall. Then the new draft law came into effect and all of us expected to be in service in a short time. Then the S. A. T. C. was organized and we expected to have a larger Chapter this fall than ever. About the time we were ready to make our fall plans for the House the news came saying that all S. A. T. C. men would live in barracks and be under military discipline. Of course we know that we would have to give up the House, but to whom we did not know. As our new place is somewhat off the campus, the university asked that we lease it to them for use as a girls' dormitory. Thus it happens that the cries of feminine voices ring through the halls and dining room where once the freshmen sang ads to the tune of "On Wisconsin."

At the present time we are temporarily located at 433 State Street. Our bunch this fall is the largest and the best on the campus. The following active men are in

school: R. H. Ede, W. M. Fanning, Ernst Wallau, W. Brothers, G. Spies, R. Lammert, H. Lenz, D. Smith, M. McCartney, D. L. Shaw, H. Duecker, R. Touton; Pledges Conley, G. Martin, A. Martens, Stevens, Stolley, Bennett, Norris, Ede K., Below, Terkel, McDonald, Osmondson, Miller, Rittenberg, Gates, Blowney and Brother Mark Nelson from Lombard.

Our rushing this fall has been completely impromptu, but very successful. Every man pledged this year is of the best and most promising sort. When the war is over Gamma Lambda of Sigma Nu will be the biggest and best by far of any fraternity on the University of Wisconsin campus.

At the end of the summer session of this year the fellows in school pulled off a very successful house party at Lake Waubesa. Those present were: Fred Carter, Dick Ede, Dave Smith, Ken Ede, Rush Touton, Tom Rose and Hub Lenz. And who can guess what happened to Fred Carter?

When it comes to music the coming Chapters are going to be as well supplied as the past and our pledges include some of the best banjo and piano, mandolin and saxophone players in school. Last year the Sigma Nu Band and Jazz gained quite a rep and we have hopes for the future. Besides the vocal quartette is not lacking.

Past E. C. Walter Timm spent several days with the Chapter this summer. Forrest Staley spent several weeks of the summer here in company with some young men and enjoyed the proximity of Lake Mendota.

Brother Joe Hopkins, from South Carolina, is an affiliate of Gamma Lambda.

The S. A. T. C. has brought with it the "infl" and the following men are in the hospital with it at the present time: Ray Lammert, Richard Ede, Cornelius Below, R. Osmondson, Geo. Martin, Armin Martens, Russell Blowney, Hub Lenz and Glen Rittenberg.

Eminent Commander Ernst C. Wallau, Brother W. M. Fanning and Brother Rush D. Touton left Saturday, October 12, for the O. T. S. at Camp Grant. For the present Brother D. W. Smith is assuming the duties and worries of Commander.

DAVID W. SMITH,
Acting Reporter.

[Also Treasurer, Acting Recorder, Acting Commander, and Janitor.]

A Later Word

Things are going in fine shape here. We have a dinner together each Saturday evening. Last evening twenty-five of us were present.

A couple of men from other Chapters are here and an Alumnus, Ensign Harry Koch, '15.

Financially we are O. K., or will be as soon as all bills are paid (not including old bills).

A fine bunch of women are living in our House and yesterday at open house about twenty of us visited it and were right royally entertained. They promise us a regular party as soon as the "flu" ban is completely raised.

Better than all, the Sigma Nus in school this year are more active than ever in all branches and we are getting to be known even among the town people, and not notoriously either.

DAVID W. SMITH, Treasurer.

UNIVERSITY OF ILLINOIS

Gamma Mu Chapter

A week before school was scheduled to begin notice was sent out that the opening of school was to be postponed until September 30th. The reason for this was evident considering the great program for the formation of the Student Army Training Corps. Work began and preparations were under way to take care of 5,000 students. Courses were changed to conform to the new regime, a new second floor was put in the Armory, where 1,200 men are to be quartered, and the lower floor was made into a mess hall for the entire S. A. T. C.

It was almost entirely due to the formation of this new branch of the service that the Chapter started off this school year with twelve men back. The greater part of the men had expected to be voluntarily or involuntarily inducted into the service so that until the creation of this new branch of the service very few of the men considered it worth while starting back to school. The Chapter started off strong with Brothers R. E. Spangler, W. F. Gast, G. E. Misener, S. J. Wilkinson, R. C. Williams, D. W. Stockham, C. R. LaBier, T. H. Utley, R. M. Eaton, W. B. Russell, M. H. Watson and C. W. Campbell back this year. Unfortunately Brothers F. S. Hager and C. C. Russell, who came back to enter again, had registered prior to September 12th and were not allowed to join the S. A. T. C. This loss was compensated by the addition of Brothers L. V. Ingraham and D. C. Peden, both of Delta Theta, who will affiliate soon.

For a time it was thought that if we would be able to fill our Chapter House with "old men" and pledges we would be able to keep our House intact as a Fraternity House, except that it would be at the disposal of the Government and all the men in the service. For the first few

weeks we were able to do this, as our quota was thirty-three, and having pledged sixteen men who, with the "old men," practically filled it. Now it is a certainty that we will be obliged to take up temporary quarters in which our meetings may be carried on and in which we can gather at our very few leisure hours. In a short time provision will be made for quartering some of the men in the Armory.

All S. A. T. C. men will eat there. It happens that the greater part of the Chapter will be quartered in the Armory. The prospects of carrying out a normal fraternity year are entirely gone. The House as we now occupy it is under military supervision, with reveille at six-thirty and taps at ten o'clock.

Having decided to make an attempt to pledge men to fill our quota of thirty-three men, we started off with the old time "pep" and pledged sixteen men without lowering the standard of former years in the least. This year it was a question of hours instead of days or weeks, and we were lucky to pledge several talented men. The following men have been pledged: A. B. Whitcombe, Dixon; E. A. Rynearson, Dixon; G. A. Edmunds, Joliet; A. M. Montzheimer, Joliet; A. J. Wiener, Dixon; P. H. Wilkinson, Bethany; B. R. Lathe, Sterling; R. J. Hager, St. Louis, Mo.; E. B. Mallers, Chicago; L. K. Bartholomew, Dixon; F. J. Quinn, Lafayette; E. B. Wingert, Dixon; W. E. Hazelrigg, Terre Haute, Ind.; D. E. Murray, Springfield, Mass.; C. H. Orlup, Aurora; H. H. Graham, Canton.

In all probability many of the men will be sent to officers training schools by the first of the year and this will leave the younger men to keep the Chapter together. This prospect is good and it is the best that could possibly be done under the present conditions.

At the first of June this Chapter had a strong sixty men accounted for in the service. Brother H. O. Siegmund has accepted an instructorship at Drexell Institute in Philadelphia.

A baby boy arrived last May to Brother Maurice Edwin Reagan, who is teaching machine guns in the local ground school.

Instead of merely holding our own along with the other fraternities in scholarship, we came out on top by a good margin the first semester last year, and came back the second semester for third place in scholarship without half trying.

The prospect of varsity football this fall is very encouraging, even though we did fall before Great Lakes last Saturday. The showing made quite exceeded our expectations and in the future great confidence is going to be laid in the team. Navy football

has attracted Brothers Russell and Campbell as well as Pledge Lathe.

MISSOURI SCHOOL OF MINES

Gamma Xi Chapter

Despite the comparative shortage of college men this year, Gamma Xi was able to return eleven old men, including J. M. Morris, F. V. Moore, T. C. Morris, C. A. Gettler, A. L. Cairns, R. N. Stubbs, E. A. Williams, H. F. Patterson, H. A. Hollingshead, James M. Wilson and Joseph M. Wilson. The prospects for a good foundation in men were encouraging and our financial condition was very good, for our bank book has been well looked after.

So far we have pledged five men: J. A. Spalding, Roy Gettler and D. A. Bash, Hannibal, and H. H. Price and E. G. Ohnsorg, of Alton, Illinois. These men all took an active interest in their duties as pledges, as well as in their classes. Due to the abnormal conditions which exist because of the S. A. T. C., we found it necessary to initiate these men early and they are proving to be good Sigma Nus.

At present rather indefinite conditions are confronting us owing to the S. A. T. C., in which practically all of our men have enlisted. We will not be able to maintain our House as a fraternity house, but there is a possibility of our being barracked in our House, as it is adjacent to the campus. Of course, we are hoping for this. In case we are not, we will probably rent a suite of rooms for use when off duty. In any event, however, some means will be provided by which we can continue our fraternal relationship insofar as conditions permit.

We will keep in touch with each other as best we can during the war, so that Gamma Xi can come out with a new vigor afterward.

Reporter.

WASHINGTON UNIVERSITY

Gamma Omicron Chapter

With the return of two active men, Brothers Deal and Danglede, Gamma Omicron opened the fall rushing season of 1918 with a party at the home of Brother H. H. Lynch, as a result of our being deprived of our former Fraternity rooms, which we have held since the year 1903. Our rooms were given to the cause upon the inauguration of the W. U. S. A. T. C.

With the aid of Brothers Campbell, Roth, Hollinshead, Hassinger, Liggett and Brinkman, we succeeded in pledging eight select men. They are: J. H. Danglade, Harold Johnson, W. M. Logan, Francis Quigley, M. L. Wingfield, Sydnor Hall, Fred B. Hulse and G. J. Eberle.

Inasmuch as the Pan-Hellenic Union has suspended activities and laws, we initiated these men on September 30th, after a thorough consideration of the possibilities of our being able to run the Chapter as heretofore.

At a request of Major W. M. Craigie of the local unit of S. A. T. C., the fraternities of Washington University agreed to consider suspending activities during the present crisis. Thus far no definite action has been taken, but we are in hopes that we will be able to meet at intervals.

With the sincere assurance that we will put forth a maximum effort in the behalf of Sigma Nu, we remain

F. J. DANGLADE, E. C.

WEST VIRGINIA UNIVERSITY

Gamma Pi Chapter

Out of a Chapter of twenty-three men last year only six returned to school this year. Practically all of the others entered some branch of the service during the course of the summer. We also had five pledges at the close of the last school year, but since that time all have entered the service and three of them have won commissions. In keeping with the military notoriety of our Chapter, many of the Brothers in the service previously commissioned lieutenants have been promoted to the rank of captain and some even higher.

We are still at the moving game, having moved three times since April. Being compelled to move from the House we had occupied for the last several years, we moved into a small house temporarily until we could find a place well suited for a fraternity. Just before the opening of school this fall we found a place that was ideal for a Fraternity House in every respect. Not long after we moved into our new home we were asked to give it up for a dormitory for girls, for barracks, for a hospital, and for a hostess house. In keeping with the spirit of patriotism so manifestly shown by Sigma Nu everywhere, we willingly placed the House in the hands of the Government to do what they saw fit with it. The House has been taken over for barracks and seventy men will be placed in it October 14th. This necessitated our third move. We have stored our furniture and expect to hold meetings at the home of one of our Alumni until suitable club rooms can be procured.

A wealth of good fraternity material entered the university this fall and out of the nearly one thousand men enrolled we have pledged twenty men who came to us with splendid recommendations. Out of this number six are upperclassmen who are eligible for initiation at once. We plan to hold an early initiation in order to materially strengthen our Chapter.

As practically all of our members and pledges are enlisted in the Students Army Training Corps, we will be separated most of the time. We will, however, have a chance to get together once and a while in our club rooms, which we hope to have before long.

We opened our Fraternity House early this fall and soon had it full with twenty eating at the table. We began to hold meetings for our preps earlier than usual, and out of the unusually large number a splendid six-piece orchestra was procured. Continuance of these meetings and special watchfulness for each pledge will be prevented by the interference of military duties.

Practically all Inter-Fraternity life and social activities will be eliminated here this year.

In conclusion I am glad to say that when everything is taken into consideration our Fraternity has as bright if not brighter prospects for a successful year than any of the other nine fraternities established at West Virginia University.

Our reporter, Brother Mark Valentine, is out of town owing to the fact that the university has been closed down for a time because of the Spanish influenza epidemic. I do not know that he did or did not send in a Chapter letter and for fear that he did not I am sending one.

For the present and more than likely for the whole year, send all the mail intended for any of the members or Chapter officers to Box 874, Morgantown, W. Va.

UNIVERSITY OF CHICAGO

Gamma Rho Chapter

Uncle Sam is still drawing on our young men to "lick" the huns (not a proper noun). Our service flag now contains fifty blue stars and one gold one. We are extremely grateful to Mrs. Beardsley, the mother of one of our members now serving Uncle Sam, who so generously presented to us this flag, an emblem which will be cherished long after the present war becomes history. With the growing of the service flag always comes a diminishing of our numbers so that although we closed last year with fifteen men, only six returned to university this fall.

We, however, had an advantage over the other fraternities by having "Dad" Cook to back us. Before the opening of school he called us together to organize. Through his advice and assistance we obtained a suite of rooms in the Hotel del Prado, a hotel which is only three blocks from the school, and were ready before the opening of the fall term. We started rushing of this quarter and are still at it.

We have already gone over the top, but have not slackened our pace. Our pledges up to date are: Robert Alexander, Evansville, Ind.; Hamilton Bruce Maher, Chicago; Joseph Earl Wooding, Fort Wayne, Ind.; Donald Ghering Rose, Chicago; Merrick Roblee Breck, El Paso, Texas; Howard Lobdell Van Arnum, Fort Wayne, Ind.; Carl William Rothert, Fort Wayne, Ind.; Francis Herbert Himelick, Fort Wayne, Ind.; John David Adams, Chicago; Jasper Meade Stull, St. John, Kan.; Edward Joseph Chalifoux, Chicago; Edward White Wilson, Chicago; Benjamin Kenneth Widdifield, Charlevoix, Mich.; Russell Avery Schweitzer, Charlevoix, Mich.; Elmer Donald Miller, Fort Wayne, Ind.; Charles William Palmer, Chicago; Ernest Van Duser, Chicago; Carl Dewey Hullinger, Huntington, Ind.; Karl Joseph Kastner, Joliet, Ill.; Charles Miller Rudy, Chicago; Paul Elias Atkinson, Chicago. The fellows if anything are above the average and in normal times would be prominent in all campus activities. Their ability ranks from football, basketball and track to debating and journalistic work.

We intend to organize the Sigma Nu Jazz Band, as we have a great deal of musical talent, at least we call it that. Although hindered greatly by the military training and the studies, we intend to get together at least once a week.

Our scholastic standing for last quarter was third of twelve national fraternities. On account of the Students' Army Training Corps, there will be no record of the grades kept this year.

We expect by next time to be able to tell you more about the status of fraternities for the coming year and also more news. But in spite of the war and the loss of men that came with it, Gamma Rho is more firmly entrenched than in pre-war times and is looking forward to an especially successful year.

UNIVERSITY OF MINNESOTA

Gamma Tau Chapter

How things have changed since last year. We have scattered from one end of our country way across the ocean. Men from our Chapter are in the S. A. T. C., in training camps, and in Europe. So far we have only lost one man, so we count ourselves on the list of fortunates. This does not signify by any means that very few of our men are "over there." We have a good representation in France, and our men are doing justice to Gamma Tau, according to reports. Our percentage of officers is very high. Most of our men are commissioned. Those who are not will soon be. At the last training camp at Fort Sheridan four out of six of our men received commissions. At the time this letter is being written, we have five men on the way to Camp Pike to a central officers' training camp.

Our Chapter this year is far ahead of other chapters on the campus, financially and otherwise. Many of the other fraternities have had to give up their houses; others have turned them into boarding and rooming houses. We, however, are among the fortunate few. Our House with four others has been taken over by the university as a dormitory for girls, and is used in connection with the large dormitory. We receive a good rent for the House and it is kept in good condition. Fifteen of our old men came back this fall and with very few exceptions are in the S. A. T. C. Our men must all live in barracks furnished by the university, so no houses are open at all on the campus.

We are pledging men this fall and so far we have certainly gotten the best men on the campus—men who will do their best for Sigma Nu and do her honor. Our social activities will be continued as much as possible. The Alumni have consented to open their homes during the week-end holidays for social activities. By having some kind of a "get-together," we expect to keep the men interested and eager to do their best.

We hope that other Chapters are in good condition and will be able to weather the storm in great shape.

To the Editor—Please excuse this writing, as it is being written on a train. I am on my way to Camp Pike.

Reporter.

UNIVERSITY OF ARKANSAS

Gamma Upsilon Chapter

The opening of this school year was a hard one for all the fraternities, at Arkansas, and especially it seemed for Sigma Nu. The Students Army Training Camp captured the attention of the new men, who were

anxious to enlist as early as possible, and in consequence no rushing rules were established, and it lay with the fraternities who worked the fastest and the hardest to get the best men. There were only a few old men back ahead of schedule time, but others came in soon after, and we succeeded in pledging seventeen men. We lost but few, due to the rush and excitement, and we feel that we were very successful since all of our pledges are exceptionally good men.

After the first five days, the "flu" grabbed us all, and the Chapter House took on the appearance of a hospital in all its details. There was but one case to develop into pneumonia, and luckily we sustained no casualties.

We will be handicapped this year on account of almost all our men being in the S. A. T. C. However, we have five who are too young to enter and they are to keep the House for us. We shall be one of a very few of the fraternities who will be lucky enough to have a Chapter House.

We are not able in this letter to give the names of all our old Brothers who are in the service and their addresses, but hope to have this ready for our next letter. We have a large service flag containing forty-eight stars, and expect to add many more soon. A large number of these forty-eight are commissioned officers, several are already in France, and some are in officers training camps.

We are very proud to have in our Chapter, Brother Roy Benoit, from Louisiana State University.

We were well represented on the varsity football team last year, and we have returned three of those men who made their A's. These, together with some of the new men who expect to be out for the team, will represent us well in that line of student activities this year.

SYRACUSE UNIVERSITY

Gamma Psi Chapter

After spending six months at camp, and winding up with an operation, it was real pleasure to be returned to college, if only for a short time. When I returned things

were changed materially, our House being used for officers' quarters, and most of the other Fraternity Houses being used as barracks; but the Sigma Nu spirit still prevailed.

We have twelve men scattered about the "hill" in different companies and we get together as much as we are able, but it is never so the entire Chapter may meet at one time, as there is always one company on guard and another on detail; while that notorious institution "K. P." extends its autocratic influence into the sanctum of our Fraternity—there is no place so secluded that is entirely free from this influence.

Some time ago there was a meeting of the Inter-Fraternity Conference at the University Club, at which was discussed the advisability of renewing Fraternity activities. There was much to be said for and against the movement, but the negative element finally prevailed. This, I think, to be a good thing, as it is impossible to educate a man in his "fraternal profession" in three months at the most, as that is the longest the best men will remain here. For that reason, it is my opinion, that the conference representing this institution, acted wisely.

LESLIE M. THOMPSON.

CASE SCHOOL OF APPLIED SCIENCE

Delta Alpha Chapter

I was over at mess this A. M. when some fellow handed me your letter unopened, saying that he had found it. I have been unable to find out who had been carrying it around for a week.

From this letter you will perceive that I as well as all the rest of Delta Alpha Chapter are in quarters—and under quarantine at that—we received notice suddenly three weeks ago that we were to go into quarantine at once, so you can imagine what the Chapter's status as regards business or other activity has been.

The Delta Zeta Chapter has arranged to keep the House at 11448 Euclid Ave., until spring at least. Mort Shea can give you more definite information as regards the plans of finance for they made the arrangement while we were in here. [See Delta Zeta Chapter letter.—The Editor.]

We have about seven men pledged so far but have several good prospects and hope to have about ten good men.

As regards the soldier roll, as far as I can check the October list, there are no "addenda." All of my data is at the House. I have not heard from any of the boys in quite some time, so I cannot give you any news of them. It has been exceedingly difficult to carry on at all here in the barracks

because of the strictness of the quarantine. I hope it will soon be over.

Crane, I understand, has dropped out of school and I heard Anderson was going to Purdue. I cannot verify either statement. As soon as the "Q" is lifted I will write you more definitely regarding the situation.

Parks is waiting a call for Naval Aviation, as is also Don Brooker. They have both passed the examination.

Vandy is in the Naval barracks and back into the game. They need him, too.

DARTMOUTH COLLEGE

Delta Beta Chapter

Delinquent.

COLUMBIA UNIVERSITY

Delta Gamma Chapter

It was Delta Gamma's misfortune not to be represented in the May issue of The Delta. The reason for such delinquency was the fact that the Chapter's very efficient Reporter, W. Rogers Primm, was called to the colors, and no one was named to fill the vacancy until too late for the letter to appear.

Despite war clouds, Delta Gamma Chapter ended a good year. With a service flag of more than sixty stars, no further comment need be made as to the loyalty of Delta Gamma, or as to the great demand that has been made upon this Chapter. In resume it might be stated that Delta Gamma started the past college year with six active men and ended the year with eighteen. One of the finest set of men ever entering at this Chapter were initiated during the past year and from all appearances Delta Gamma will return fourteen men in September. The one big problem is the Chapter House and at the present time this matter is being most carefully attended by a committee from the Alumni in the city. Whatever happens as to the House, one thing is certain, that Sigma Nu at Columbia University will be right on the job as one of the big factors in the life of this big university.

Honors were numerous throughout the year and Sigma Nus at Columbia did themselves proud. In football Brothers Shaw and Healy and Pledge Houlihan were stars and won their letter. In basket ball Brother Frank Kiendl made a name for himself and also won his "C." In baseball Brothers Buonaguro and Carroll and Pledge Houlihan were brilliant performers, while Buonaguro captained the team. As for track, Sigma Nu contributed Brothers Shaw and Sibley and both performed with credit.

Brother Shaw was one of the most conspicuous winners at the Pennsylvania meet this season. In all Sigma Nus at Columbia brought to the Sigma Nu House three "C's" in football, three in baseball, one in basket ball and two in track. In scholarship Sigma Nu stood near the top, although the exact ratings have not as yet been published.

Other important honors coming to Sigma Nu were the presidency of the Junior Class given to Brother Healy; Senior Society election of Buonaguro, Naccoms, while the spirit among the brothers was fraternal and at all times of great concern to keep the Chapter strong and forceful.

Since the last report the following men have been added to Sigma Nu at this Chapter: Brothers Hanson, Bysinger and Hoover.

During the summer months the Chapter has been turned over to the Delta Gamma Alumni Chapter, as it was last season, with Brothers Grant, Romagna and Wilson in charge of the same as the officers with power to act for the good of Sigma Nu at Columbia.

Brother Romagna, as Chapter Advisor, has been of great assistance to Sigma Nu this past year, while Brothers Grant and Dickey, registrars at the university, have been of the greatest and constant inspiration to the Chapter.

Brother Jack Dennis graduated from the university in June, but expects to return for post graduate work in September. So we will not lose him from the Chapter.

At present the Brothers are scattered from training camps to munition factories doing their part as opportunity is afforded, but when September rolls around the following are expected to return and start once more to keep the old Chapter going and to fit themselves for service when they are called upon to take a more open part in winning this great war for democracy: Brothers Shaw, Salmond, Healy, McCormick, Hanson, Bysinger, Buonaguro, Carroll, Dennis, Sibley, Doubleday, Kiendl and Relyea; also, Pledges James Houlihan and Wilson LeFevre.

J. A. L. SALMOND, Reporter.

The Alumni report, in brief, as follows: "We are about to make arrangements to give up our Chapter House at Columbia U. until after the war. It is not a matter of quitting, but of keeping Sigma Nu forceful at the university. We will lease from the university a suite of rooms in the campus dorms. The rooms overlook south field and are arranged with one big living room and off from the room, the west side, are two smaller rooms. These smaller rooms will be occupied by two of the Brothers, who

will pay rent for them. We will have eight or ten men to return and then we can initiate a good class and still watch very closely the essentials of the men. I have discussed the matter with some of the professors, not Sigma Nu men, at Columbia, and they are unanimously of the opinion that considering the unusual scarcity of coal, the high rate of rentals, and the taxes that must be paid that all the fraternities would be wise to follow this plan of living. Brother J. E. Grant, registrar's office, will attend to the matter of the finances. Sigma Nu will be right there until the war is over and then back to the House when the boys are home. Brother Grant will send you a full account when the matter has been actually settled. Delta Gamma will give a good account of herself.

PAST REGENT A. H. WILSON.

PENNSYLVANIA STATE COLLEGE

Delta Delta Chapter

At the beginning of college on September 25th, Delta Delta could not have wished for brighter prospects than those which confronted her. With eighteen of last year's Brothers returning to college, and the Chapter House open as usual, Sigma Nu still holds her place among the leaders at Penn State.

Since that time we have passed through a strenuous rushing season and nine pledges have been secured. They are: Emile P. Roy, Chicago, Ill.; Herbert N. Hallett, Buffalo, N. Y.; Harry W. Good, Harrisburg; Paul H. Roeder, Harrisburg; J. Howard Worley, Pittsburgh; Louis C. Bruckman, Pittsburgh; Fred F. Kramer, Irwin; E. Gail Cooley, Irwin; W. Elmer Perry, Jr., Pittsburgh. Further rushing has been absolutely impossible because of the military duties which confront us as members of the Student Army Training Corps.

At present we are entrenched as firmly as any fraternity here, and although we are existing under some hardships, we will be able to continue as a Chapter, at least for a while. Twenty-five men are living in the House, which is being run as a barracks. The Government is going to make an allotment for each man in the S. A. T. C., as it is doing in the other colleges, so we will be able to remain right here in our Chapter House. We are allowed to run our own mess under supervision of the mess officer.

Although we have made a good beginning, our prospects for the coming year are uncertain. Four of the Brothers are already making preparations to leave and enter other branches of the service. Just how their places in the House will be filled is not known. It may be that some outsiders will be brought here in their stead. In that

case, we would have to find a new place for our meetings. So it can be seen that at present we are moving along as usual, but just what our situation will be a few months from now, we do not know. At least, we hope for the best.

JOHN F. KELL, Reporter.

UNIVERSITY OF OKLAHOMA

Delta Epsilon Chapter

Delta Epsilon opened the school year of 1918-19 with the return of fourteen active members of last year's Chapter. The war took a number of our best men, including Brothers David D. Morris and Joe Wheeler Curtis, who were commissioned during the summer at Fort Sheridan. Brothers Samuel Lowe, Harris and Sam Norton, Jr., have entered active service since school opened; Brother Harris going to Central Officers' Training School at Camp Taylor, Ky., and Brother Norton enlisting in the Marine Corps.

However, we did well during the fall rush, getting fourteen good men: Arthur Miles, Perkins; Paul Fahrney, Vinita; George Townsend, Shawnee; J. U. Biggers, Dallas, Tex.; Leland Booth, Robert Bosworth, Creed Taylor and Ed. Waite, Oklahoma City; Dudley Wood, Laile Neal and — McClelland, Blockwell; Pat. McAllister, Selig; Whitman Fentum, Ada; and Nat. Irish, Muskogee.

In addition to the old men and the pledges, Brother Francis, of Gamma Omicron, Washington University, entered Oklahoma University and has affiliated.

Our Chapter House has been converted into barracks for the Students' Army Training Corps, but we have rented a cottage within the military reservation to be used as a Chapter House and loafing place for the S. A. T. C. men while off duty. We have four men in the Engineers' Reserve and one seventeen-year-old pledge who live in the cottage and form a sort of nucleus around which the S. A. T. C. men and others in the service may gather.

We have just received the good news that the Inter-Fraternity Conference Scholarship Cup was awarded to us for the last semester of the school year 1917-18, giving Sigma Nu first place in scholarship for both semesters of last year.

Social activities here have been curtailed by the quarantine against the Spanish influenza, but we "pulled off" two good dances before the S. A. T. C. men were inducted into the service, and are planning other social activities as soon as the quarantine is lifted.

Although college politics have been forced into the background this year, we hold a

lion's share of the spoils. Brother Reasor was re-elected treasurer of the Student Council, and is also president of the Inter-Fraternity Conference; Brother Young is president of the Sophomore Class, and Brother Darrough is sophomore representative on the Student Council. We are also well represented in the various honorary and professional organizations on the campus.

While the establishment of the Students' Army Train Corps at Oklahoma University will seriously affect fraternities, we are determined to carry on the good work, and so enthuse our pledges with the spirit of Sigma Nuism that Delta Epsilon Chapter will be able to start out with a full stride after the war is over.

SYLVAN ANDREWS, Reporter.

WESTERN RESERVE UNIVERSITY

Delta Zeta Chapter

This date finds Delta Zeta well started in its year's work.

Nine of last year's men are back this year. They are Brothers Glauner, Shea, Searl, Warnes, Burton, Wagner, Rolli, Krock and Shissler.

We have twelve pledges, and more to come, we are certain. Burri and Hartman, New Philadelphia; Boyd, Hartman and Harrisson, Marion, O.; Gunk, Trenton, O.; Shaw, Wilmington, O.; Wolf, Bellevue, O.; Stevenson, Macedonia, O.; Tompkins and Kramer, Cleveland, O.; Warnes, Ashland, O. No other Reserve fraternity has over seven at present.

Appreciating school conditions, the owner of our home has reduced the rent one-half, making it possible to keep it in spite of our having to live in barracks. We have prospects of some ten Alumni to move into the House and help us to keep it.

Our most excellent matron, Miss Bauer, is still with us.

S. A. T. C. started with a bang, and is going fine. Two of our men, back from Fort Sheridan, are instructors.

Brother Searl is captain of the biggest football turnout Reserve has ever seen. Pledge Burri, 230 pounds strong, is varsity guard.

Scholastic report is not yet out.

Influenza is rampant, but has hit none of our boys.

All in all, we cannot but be exceedingly hopeful and optimistic. We are sure that with Delta Alpha's co-operation, we are best able of any of Reserve's fraternities to weather these war times.

MORTIMER J. SHEA, E. C.

UNIVERSITY OF NEBRASKA

Delta Eta Chapter

Delta Eta broke into the front lines at Nebraska University at the beginning of the year with seventeen old men back and a cleanup of ten of the best freshman pledges in school as the result of a very successful rush week. We have but four upperclassmen back, but our second year men are pushers and are bound to make things hum.

The chances are that we will be able to keep our House open as six men have returned from the Great Lakes to school and three more have enlisted in the S. A. T. C. From all indications these men will be allowed to live at the House.

Brother Herman B. Thompson was recently made an ensign in the Navy, and Brother Cecil A. Chase, a lieutenant in the aviation section of the Army. They visited us during rush week. They were both in school last year and have made rapid progress since entering the service.

Along about the first of October the Chapter was in fine shape with twenty-seven men at the tables. We had planned our first social event of the year, a House party for Saturday, October 5, when the deadly Spanish influenza struck town. Pledge Starret was very sick at the House, but had just recovered when Brother Paul Schminke Young was taken ill. The Friday night previous to the party Brother Young took a turn for the worse and Saturday night he passed away. The Brothers gave up the party and were all at the House at the time of the death. [See "Deaths" for further chronicle.]

Pledges Hays and Lake and Brother Goodfellow were sick at the time. They and Pledge Fletcher, who was taken sick later, are now doing very well. Delta Eta extends heartfelt sympathy to any other Chapter which may have suffered the effects of the dread disease.

After the mist had cleared away and the House was no longer a hospital, all the "gang" congregated again and started in where things had been left off. Plans were immediately begun for the initiating of the pledges according to a provision made by the university for their initiation.

The boys again resumed their places in activities. Pledge Mont Munn has cinched his place at the pivot position on the varsity. Brother Wade Munn is taking part in all the games at guard. These two brothers, who seem to come of a race of ancient giants, are proving themselves even better athletes than the Brother, Wayne Munn, who is at present in an Officers' Training School at Camp Pike.

Brother Parsons is again dipping his finger in politics and has introduced two pledges, Maurice, Bramman and Frank Parsons, into the realms of the tactful art. We felt it best not to run any men for offices, although the political leaders had saved a very important place as sophomore member of the publication board for Brother Parsons. It is probable that he will be appointed to this place, although no names appear on the ballot for this office on election day. Brother Landale is sporting editor on the Daily Nebraskan.

Our fussers, much delayed because of our recent bereavement, are due to get under way any time now. The Kappas and the Delta Gammas seem to be popular with most of the boys except those that are tied up at some other House. It's a cold weekend night when at least three-fourths of the Chapter are not found dating at some "classy" party. For instance Brother Parsons is so popular that for every dance date he makes he gets about three or four in return.

Just as a little finis, Delta Eta would like to let her sister Chapters know that she is not dead and that they can expect big things from the Cornhusker Sigma Nus. We are not all lined up in activities as yet, but will be well represented in all lines of activities soon.

Our Chapter has certainly been fortunate in their late trouble. We never knew that we had so many friends until that time when everybody from professors and neighbors to sorority girls and Brother Greeks, turned in and helped us.

JACK LANDALE, Reporter.

LOMBARD COLLEGE

Delta Theta Chapter

College opened on September 12th with prospects extremely promising for Delta Theta. Brothers H. M. Mottram, Harold Graham, Russel Anderson and Henry Hughes were those of last year's Chapter to return. In a few days we were encouraged by the return of Brother Geo. Stephenson, who had entered West Point Military School last June, but owing to an accident had been given a dismissal until next Spring, and so was able to return to continue his college work. Neophyte Harold Behringer also came back. With such a nucleus we were able to get things in shape and commence rushing. Before many days we had pledged fourteen men and can say that we are mighty proud of the men that are now wearing the button. They are as follows: Frank E. Culp, Kewanee; Earl Culp, Leroy Carlson, Chas. F. Bates, Donald C. Nance, Leo Graham, Kewanee, Ill.; Fred E. Wetterholm, Red Oak, Iowa; Scott Nowers, Atkinson; Fred W. Wikoff, Oneida; Robert D. Robinson, William Hines, Edwin

L. Harris, Galesburg; Hobart G. Gore, Canton; Carman R. Vance, Yates City.

The House was opened and after a week we had things in fine running order. All of the fellows stayed in the House with the exception of those that lived in town. We surely were thankful of the outlook, which had looked so dubious in the summer, but which had been greatly strengthened by the S. A. T. C. Unit which has been organized at Lombard. Immediately we started in to give the neophytes as much instruction along fraternity lines as we could before moving into the Army barracks. As was suggested by the National Fraternity, we have co-operated in every way with the college and offered our House to them to be used as barracks, if necessary. It was finally accepted as a temporary place until the college barracks were ready, and the boys remained in the House until about October 7th.

Of course, Brother Stephenson was unable to join the unit and Brothers Mottram and Graham and Neophytes Hines and Gore were unable to join on account of special Government ruling. All the other members of the Chapter were inducted into the S. A. T. C. At this writing Brother Mottram has been allowed to join and Neophyte Hines is waiting for papers to return from Washington.

At present nothing has been done with the House but we are making plans to rent it. The Phi Delta Theta House has been taken over for the Y. M. C. A. Hut, but as our House is not directly on the college campus, it is not desirable for any Government use. We are making plans to hold informal meetings as often as possible so as to keep up the interest and already one of these meetings has been held in which a general discussion was had to which the pledges were present.

A few days ago our numbers were again swelled by the return of Brother Harold S. Bates, who has been transferred from the Great Lakes Naval Training Station, to the Student Army Training Corps.

Just as school opened we were disappointed to lose Neophyte Vance, who was suddenly called to Camp Grant. Due to this special Government ruling Brother Graham and Neophyte Gore will have to wait their call. Neophyte Behringer was recently initiated. This took a problem off of our minds which would have been more difficult to solve after the Chapter moved into the barracks.

We have had many letters from Brothers who have answered the call to service and we sure are deeply indebted to them for the interest that they have shown and the words of encouragement that they have given us. In the last few days we have had letters from Brothers Fronk, Negley,

Adams, Hendel, Johnson and Hodson, who have just recently landed "over there." We were pleased with the interest that they have in what we are doing.

We feel that this is a year of trial for Sigma Nu, inasmuch as there are certain problems that we will have to work out as individual Chapters, that are absolutely foreign and that we have never confronted before. Delta Theta is going to meet these problems to the best of her ability and we are hoping that this will be a most successful year, as the prospects now look.

The following members of the Chapter have been elected to the various college offices:

President, Junior Class, Brother Stephenson; President, Sophomore Class, Brother Anderson; Treasurer, Freshman Class, Neophyte Graham; Assistant Manager, Football, Brother Hughes. Neophytes Wickoff and Harris are acting sergeants with Harris also as company bugler.

HAROLD M. MOTTRAM, Reporter.

WASHINGTON STATE COLLEGE

Delta Iota Chapter

Washington State College, the same as all like institutions, is now a unit of the S. A. T. C., and as a result, fraternity life is practically at a standstill. All men are now in barracks, therefore we are using the House as a club room only.

Delta Iota owns her property and we are therefore sure of not losing our House. There are no outstanding bills against the Chapter, so we plan on starting, after the war, with a clean slate.

The entire Chapter of last year, as well as this year, is now in the service. This is a record of which we are proud.

The Chapter has lost one member in the war, Lieutenant Lewis Peter Mutty, U. S. Navy Air Service, who was killed in an aeroplane accident at Miami, Florida, about July 15. We feel the loss greatly, but are proud of Brother Mutty.

Among the Brothers in France, there are Gene Curti, Ray Rudberg, Edwin Copeland, Earl Whitman, Mason Leigh, Herbert Ritter, Roscius Back, Maurice McGregor, Frank McDougall, "Cad" Durham, "Bull" Durham, Earl Woodland, Leonard Woodland, Harold Williams, Joe Halm, Harry Deegan, Al Crane.

Brothers Captain A. O. Walsh and Brice Toole have both returned from the front. Brother Walsh is of the Field Artillery, and Brother Toole of the American Ambulance Corps.

All other members are now in this country, waiting to go across.

Brother Roscius H. Back, Captain of Infantry, was reported killed in action, but this report was later corrected, to severely wounded in action.

Following is a list of the members and pledges now in college:

Members: Richard A. Cisna, E. Leroy Knight and G. Frederick W. Salt.

Pledges: Merrill B. Davis, Spokane; George W. Bohanon, Spokane; Philip A. Yenney, Walla Walla; Gerald Hover, Walla Walla; Gervan Wilcox, Walla Walla; Campbell Wilson, Pullman, and Jack White, Wallace, Idaho.

G. FREDERICK W. SALT,
Reporter.

DELAWARE COLLEGE

Delta Kappa Chapter

The college authorities will decide whether a fraternity house is to be used as a barracks for the S. A. T. C. or not. The Chapter at Delaware College is to keep its own House, live in it and go on living as they did before, provided they have always twenty-five Sigs living in the House who are members of the S. A. T. C. The House will be known as a barracks instead of a Fraternity House. In addition the Chapter will receive ten cents per day per man for housing the twenty-five which nets a revenue of \$75.00 per month. The Delta Kappa House paid its last B. and L. payment on the first of this month, therefore we own the house. Now with the above amount coming and the assessment for members, Delta Kappa will have some funds to salt away in Liberty Bonds for some future time when she will want to build. It seems to me that if every Chapter is as fortunate as Delta Kappa in retaining its House and getting revenue besides and the students of the S. A. T. C. who live in the House get \$30.00 per month for going to college, that this is the golden opportunity for each Chapter to put away some money. Not let assessments stop by any means.

Yesterday Delaware College opened and Delta Kappa returned thirteen men and two pledges. Before the sun hid itself for the night, twelve men were pledged and they were the pick of the largest class that ever entered Delaware College. Last night I drove down to a smoker they had and the first punch, cake, apple and smokes I have seen together since we went to war were heaped on a large table. It brought back memories of the feeds we used to have years ago.

There were about fifty men at the House when I arrived, all making merry and having a good time. The commander-elect, Brother Craig, was busy with several other Brothers making the men feel at home at the same time putting the pledge button on

al more for good luck. The party up at 10 p. m., due to the rule for rving coal that requires all lights out at hour.

STETSON UNIVERSITY

Delta Mu Chapter

lta Mu opened up with five old men as follows: Rutherford, Sanderson, m, Harris and Landis. They held two formal meetings, September 25 and

October 2, pledging five and two men respectively, making a total of seven pledges, then the influenza struck us and every man down with it except Sandy. Personally, I have been pretty busy and not profession- ally. Therefore, I trust you will overlook my not writing something at least. I did not even think to ask any of the sick fellows if any report of the opening had been made.

I am glad now to be able to report that all of the boys are up and about though somewhat weak. We had one meeting last Sunday, and initiated John C. Ainsworth. At that meeting, the proper officers of the Chapter were instructed to make immedi- ate reports to you, and I am glad to say that such reports were forwarded to you the first of the week.

Conditions look pretty bright for us this year. The president of the university very graciously gave us a room in which to hold our meetings, free of rent, and even al- lowed us to give a smoker, although smok- ing in this building is positively prohibited. I don't know how soon S. A. T. C. will in- terfere with our fraternity plans, by sending away some or all of our members, but we are going right ahead, and hope we will be able to manage to keep a quorum.

R. P. WALTERS, Chapter Adviser.

UNIVERSITY OF MAINE

Delta Nu Chapter

I am glad to say that since writing you, the ruling at Orono has been modified and Delta Nu Chapter has succeeded in pledging eleven very promising men. The Chapter is, of course, greatly hampered by the men being quartered all over the campus, but I suppose that this is the same condition that other Chapters are working under.

Delta Nu is in as good condition as could be expected, considering the restrictions that are imposed. The university has provided a room for each Fraternity to meet in, and this of course will help considerably in keeping up the Fraternity activities.

Brother B. C. Kent, the new treasurer of the Delta Nu Property Association, is an instructor at Orono and is, of course, in daily contact with the active Chapter. You may be sure that everything will be done that can be done to maintain our Frater- nity existence the coming year.

I have received my call for Y. M. C. A. service overseas and expect to leave as soon as I can straighten out my business af- fairs.

W. O. HARVEY, Ex-Treasurer,
Delta Nu Property Association.

UNIVERSITY OF NEVADA

Delta Xi Chapter

UNIVERSITY OF IDAHO

Delta Omicron Chapter

We are getting along quite well with our work so far. There are several of our members that are awaiting the day when they may be inducted into the S. A. T. C. At present we boast of eleven good pledges. Of these there are five that are too young to enter the S. A. T. C.

Owing to the difficulties that have confronted us in our effort to reorganize for the coming college year, our letters to the Delta have been sadly neglected. For this failure, I express the apology of this Chapter.

Brother Sampson, our Inspector, called for a short while yesterday afternoon and gave us a talk. We certainly appreciate having such a man as he to aid us in our work.

BOYDE W. CORNELISON, E. C.

GEORGE WASHINGTON UNIVERSITY

Delta Pi Chapter

The boys of Delta Pi are prepared, after a short vacation, to start the most strenuous season since we have been a Chapter of Sigma Nu. We are sure that Delta Pi will have its usual high standard Chapter with such men as Brother Delany, commander; Brother Sullivan, treasurer, and Brother Nicholson, House manager.

The Call to the Colors has reached the hearts of every active man, most all of whom have left for army training units, leaving only those who cannot be spared from their Government positions and a naval reservist.

The Chapter has worked together remarkably well during the summer, holding meetings of twenty active men every two weeks.

Delta Pi possesses a number of musical men, who entertained the Chapter, and their fiancées at several picnics held at Brother Delany's camp on the Potomac River, every time we thought we had enough dancing for one week.

It has been our pleasure during the summer to meet many Sigma Nus for whom Washington has been the mecca. There have been throughout the summer, twenty "Sigs" staying with us, sleeping on any accommodations we could offer.

Our Alumni has been very active, working in harmony with us on every occasion. We arranged a schedule of weekly dances with the aid of the Alumni. The dances were very successful as well as instructive, for they gave us an opportunity to meet with older and more influential men.

Due to the highly efficient manner in which Brothers Sullivan and Nicholson have worked over the books and House respectively, the Chapter is able to begin the school year with a larger treasury than ever before.

Brothers Delany, Sullivan, Styer, H. E. Cole, F. G. Cole, Boyd, Sutliff, Tibbitts, Chamberlain and Nicholson now comprise our active Chapter. It is unfortunate that we will not be able to initiate any members of the Student Army Training Corps, for the only men eligible for a fraternity are those attending night school.

Action has recently been taken by the university toward taking over the Fraternity Houses to use as barracks for the six hundred men in the army training unit. We don't think any action will be taken, however, because it would leave a number of our men homeless.

MILO J. SUTLIFF, Recorder.

COLORADO AGRICULTURAL COLLEGE

Delta Rho Chapter

Our Chapter House is closed and no men will be initiated until after the war. All members are in the Army or in training camps.

W. E. SPANGLER.

CARNEGIE INSTITUTE OF TECHNOLOGY

Delta Sigma Chapter

Delta Sigma returned twelve men this year and the prospects were exceedingly bright for a successful year. However, the S. A. T. C. was organized at "Tech" and the authorities in charge of housing the men, did not take kindly to the idea of using the fraternity houses for barracks. It was therefore necessary for all the fraternities including Sigma Nu to give up their houses.

The Sigs here are pretty much scattered as a result. Several have already been sent to officers' training schools and the remainder are in different companies, each company having its own barracks.

At present the S. A. T. C. is under strict quarantine for Spanish influenza which at this time is quite prevalent in Pittsburgh. This makes it impossible for men in the various companies to get together. However, with the lifting of the quarantine, the Sigs who are here are planning to hold meetings as regularly as possible at the Pittsburgh Alumni Lodge, they having offered us the use of the House at any time.

Brother Russell R. Willoughby, at present is in training at the Great Lakes Naval Training Station.

this year were such as to cause le anxiety at first, but now we Chapter will be able to sur- ficulties. We are proud of the e have twenty-six men in our yce, not counting those in the a fraction over half of all the re ever initiated. Those men turned, feel their responsibility the honor of Sigma Nu at Col- as these Brothers are uphold- training camps and on the bat- normal fraternity life is of ssible, because the men can d nor room at the House, but if arrant, the House will be kept nds. Colgate is so well sup- dormitories that the Chapter not be used for barracks, but

during the present emergency our House has been commandeered as a "flu" hospital. Colgate seems to have been among the "early birds" in "catching the germ," but prompt and thorough measures taken by Major Lawton, the commandant, seem to have checked the disease before it could assume serious proportions. Brother Fisher and our Chapter adviser, Brother George Saunders, have pneumonia, but both are expected to recover.

As soon as the quarantine is lifted and normal camp life is resumed, the Chapter activities will really commence. We now have six men wearing the button and will take a few more during the term. The freshman class is the largest ever, but the boys have little opportunity to rush. However, all things have an end, even the influenza.

C. C. MacDUFFEE.

Perhaps you have had no word direct from the active Chapter, owing to the unusual situation this fall. As I visited the boys at Colgate shortly after the opening of college, I will give you an outline of the conditions there.

There were five men back, three juniors and two sophomores. At the time I was there, they had pledged seven men, all of whom appeared to be excellent Sigma Nu material. Inasmuch as the entering class of the university numbers over 250, there is a wealth of material yet to draw from, and the boys will surely put the button on several more men. The total enrollment of the college was about 400, but it was planned to accommodate all members of the S. A. T. C. in the dormitories. That would leave all the Fraternity Houses in a deserted condition, and particularly so with us, for all the Sigma Nus are in the army or the navy units.

There is a possibility that the Houses may be used for some purpose, but in any event, the university authorities have offered to assist all the House corporations in meeting their obligations, so the danger of financial difficulties is eliminated. If military discipline permits, and it seems desirable, the boys are planning to keep the House open for social purposes, and for meetings, which, of course, will make for Chapter unity.

While they have lost the Chapter advisor, Professor Saunders having left the Faculty for a position in Utica, the boys have a staunch helper in MacDuffee, who has been acting treasurer as well as auditor for the Chapter.

At the present time, there is an epidemic of the influenza on the hill, and all activities are paralyzed, but the strict measures of the commandant have the situation well in hand. We shall hear more of the activ-

ities of the Chapter when the quarantine is lifted.

LYNDON H. STROUGH.

MARYLAND STATE COLLEGE

Delta Phi Chapter

The opening of college and the induction of the students into the S. A. T. C. found six active members on the campus, namely Brothers Sawyer, Peddicord, Jester, McLean and the Knode brothers. We fellows have gotten together already and organized. Every office has been filled and we are starting off this year with a big push. A smoker is being planned for this week-end at which we expect to get in touch with about fifteen new men.

Brother Austin Campbell Diggs, who was with us last year and went to Plattsburg after the close of school, has received his bars and is now a military instructor at V. M. I.

Brother Sullivan has been drafted into the army, but we have not as yet learned of his location.

Brother Sawyer who attended camp with Diggs, returned to college and is now acting as captain of a company. "Bobbie" Knode is out for football and expects to keep his last year's position as quarterback.

Brother "Pete" Chichester has received his appointment as first lieutenant.

Fred Chichester has received his wings and was chosen from four hundred men to fly with his instructors before the army heads.

Brother "Bill" McLean is a first lieutenant in the Engineers.

Brother Ike McDonald is with our forces overseas.

With one pledge, Mitchell Duval, and a bunch of prospects, we expect to have one of the most successful fraternal years in the history of Delta Phi.

W. CLAYTON JESTER,
Reporter.

TRINITY COLLEGE

Delta Chi Chapter

College opened September 19 with an enrollment of about 150 men. There are now however, nearly two hundred men in college. Seven old men of the Chapter returned to college, but Brothers Vogel and Saunders soon left for officers' training camps. We have pledged seven men so far, five freshmen and two sophomores.

All S. A. T. C. men are required to live in the college dormitories, so that social life

at the Fraternity Houses is pretty well broken up. We have held two or three meetings in the House under difficulties, as there is a strict quarantine on at college to guard against the influenza epidemic.

We are planning to have initiation very soon, because a stricter confinement to the college grounds is anticipated.

Under the circumstances, we shall endeavor to rent the Chapter House for the winter, perhaps reserving a room to hold our meetings in.

Our finances are in a good state. We have taken in a fine bunch of men this year, and I consider the prospects of Delta Chi Chapter as bright as ever before.

WILLIAM J. CAHILL, Reporter.

BOWDOIN COLLEGE

Delta Psi Chapter

The baby Chapter of the Fraternity returned to Bowdoin fully determined to secure the foundations of its constructive future. Upon arrival we were informed that under the new Government plan of military training in the college and in view of the consequent upheaval of academic work and the persistence of the fuel problems, the college would take over all Fraternity Houses this year, pay interest on bonds, and keep the Houses closed. While this meant much inconvenience to us, it did not, of course, allay our enthusiasm. We felt happy that our inconvenience meant merely an adaption to world exigencies in keeping with our lofty military traditions.

We opened our Chapter with the return of all our Brothers except Carroll Keene, '21, who has been drafted.

The following eight men were pledged, the first six of whom were initiated last Sunday: Ralph Knott, Frank Seeland, Edwin Therriault, Silvis Martin, Marshall Hurlin, Chandler Coffin, Austin Noyes and Ralph Peabody.

The next problem was a meeting place; this we secured in the new dormitory, Hyde Hall, otherwise known as the "Gold Coast."

We are still out for new men, and there are prospects of achievement even in the turmoil of this unique year in college history.

The following men have been voted in, but not pledged yet on account of absence on military duty. [Names omitted by the reporter.—The Editor.]

Penn Track and Football Star Drafted on Eve of Relays

Penn's track prospects received a jolt yesterday when it became known that Joe Van Ginkle, end on the varsity football team last year and a star in the weight events, had been called in the draft and must report to Camp Dodge, Des Moines, Ia., on April 25. Van Ginkle had acquired a little skill in the discus and javelin and undoubtedly would have been a point winner.—Philadelphia Public Ledger.

College Notes

Student Army Training Corps

On October 1st, 150,000 college students in all sections of the country were mustered into the Student Army Training Corps at more than five hundred colleges and universities, becoming a part of the military forces and pledging themselves to the defense of the nation.

Special programs were arranged at all colleges to inaugurate the corps with formal ceremony. The President's message was read at all the colleges. Secretary Crowell urged the students to use the same force and zeal in their work in the cause as they would to win a football game. General March explained in his telegram that the corps has been organized to assist in training a body of men from whom the army will draw officers in large numbers. He emphasized the need for officers and spoke of the opportunity given young men in the corps to fit themselves for service in the great drive which is to come.

The Test of the College

In the supreme test (of the war) the American college has proven for all time its efficiency as a producer of men. We who knew her were certain of her, for we knew that her creating forces lived in that spirit of service which kept her ever a living and growing thing. Forever renewing herself through contact with youth, the American college takes the best of our life

and in times of peace she gives that best back again with something in its character that is not measured by the shifting standards of mere utility but upon which this republic depends as the most solid fact in its existence. In time of war she has given her best without display, in the confident knowledge that those who have known the most of life can teach the rest to die.

McGill University

McGill University of Montreal, Canada, has been presented with an endowment of one million dollars in recognition of its "devoted service and sacrifice toward Canada's part in the war."

College Men in Service

It is estimated that more than one-quarter of the college men of America are now with the Colors. Sigma Nu has this proportion of her entire membership.

Selfhelp at Columbia

Students of Columbia University earned \$137,203.22 last year, doing work of many kinds.

Scholarship

Fraternity Scholarship

[We are reprinting below a very interesting article from "The Record of Sigma Alpha Epsilon," describing their method of scholarship reports and special awards.—The Editor.]

The Keynote of Efficiency

The scholastic standing of a fraternity concerns itself with the attainments of every man in the active Chapter. Whether a man recognizes this responsibility or not, it rests upon him. From it there is no escape. It is the vast army of men who are content with less than the best that is within them who are responsible. When every active member of any fraternity conscientiously does his full duty in the quest for knowledge the standard of scholarship is raised. Scholarship is the fundamental purpose of a college education. Knowledge is the keynote of efficiency. Efficiency is the measure of success.

Achieving Commissions

In this righteous world war for the absolute overthrow of autocracy, the establishment of national democracy, world freedom, and a new world order, in which just and friendly international government may be established and maintained, scholarship is demanded as never before. In many of our training camps commissions are lost or won by questions of scholarship. The ability to achieve is a determining factor.

The student who remains at college is affected by the departure of his classmate or fraternity brother who has heard the call to the colors and answered that call. Many of us who remain long to get into the front trenches of service but we are prevented by age or accident from doing this. Our minds center upon the battlefields of war-torn Europe rather than the activities of the classroom. Under these adverse conditions high scholarship is harder to attain but safe scholarship is within the reach of all.

In Reconstruction Period

In the period of reconstruction that follows the war sound scholarship will be demanded in every line of the nation's activity. It will bring to fraternity men their opportunity. Take fast hold of instruction. Let her not go. Keep her, for she is thy

life. Attend to know understanding. Wisdom is the principal thing. Therefore get wisdom. Yea, with all thy gettings, get understanding.

Sigma Alpha Epsilon Plan

To accomplish the above purpose in scholarship, national legislation was enacted at the Pittsburgh convention along the lines of eligibility for initiation, uniform grade cards, and national prizes. Uniform grade cards have been printed and distributed free to all Chapters. They are to be filled out, read at the Chapter meeting, and then filed by the Chapter for future reference. These cards can be used as frequently as any Chapter may wish. It is hoped that in no instance will they be used less than four times in any academic year. By filing these cards in an ordinary filing cabinet the active Chapter, the alumni, and the traveling secretary can find the scholastic attainments of any man at any time.

Uniform Reports.

Uniform scholarship report sheets have also been printed and distributed to all the Chapters. They are in keeping with the recommendations of the Inter-Fraternity Conference. They are to be filled out at the close of each term or semester and forwarded to the Chairman of the Standing Committee on Scholarship. From these reports the Chapters that are prize winners will be determined. Each sheet carries room for fifty-six names. Therefore the largest Chapter can be represented on a single sheet for any given report. When the reports are all in for the academic year of 1917-1918 they will be bound as Sigma Alpha Epsilon—Scholarship Report—Volume 1.

The scholarship award will be given to all Chapters that pass through a full academic year without having any failures placed on the books of the registrar. The contest began in September, 1917. The first award will cover the period from September, 1917, to the close of that academic year in 1918.

CHARLES H. RICHARDSON.

[The Scholarship Table is omitted in this number for lack of data. Reporters will not fail to give us all possible scholarship standings at the earliest moment after receiving this magazine.—The Editor.]

Kindred Brothers

The Harringtons

Grant Woodbury, Harris and Wayne Powers

Nu

We are glad indeed to present in this Fiftieth Anniversary number the group of Harrington Brothers. The one familiar to every Sigma Nu is Grant W., the Past Grand Recorder and Editor of The Delta. His son, Harris, is following his father into the fold of Sigma Nu.

Brother Wynne P., our soldier, is of the same stripe, as shown in Grand Historian Burton P. Sears's sketch, and he had an ambition to be known for his own and not for his brother's achievements. Surely this sketch will give him his own place in Sigma Nu, and we look to hear more of him "On the Way to Berlin."

Grant W. Harrington

Nu

[The Grand Historian, whose story of one Harrington appears here, gracefully excused himself from the other because he could not add to his biographical sketch published by Editor Walter J. Sears. Not that we can do more here than give a digest of the earlier sketch with a few words of the years since elapsed, and for the fuller tribute, see The Delta, August, 1913. One excuse for this presentation is that that Delta dates from a long time ago, and thousands of Brothers never read it—the Delta is out of print. On this Fiftieth Anniversary, it is fitting to give some account of the author of "Building a National Fraternity."—The Editor.]

At the Eighteenth Grand Chapter, Grand Recorder Clarence E. Woods remarked on the anomalous position of the two Past Grand Recorders, of which line there would be no more. The earlier of these two in office is Grant W. Harrington. In the formative years of the Fraternity, he guided Sigma Nu and published The Delta, literally at his own risk. Naturally the history of the Fraternity is bound up with the story of his life.

Born in a small Wisconsin town (Tory Center, Wadsworth County), on June 5, 1865, his parents took him to Kansas when three years old, and he grew up a Kansan. His first Fraternity work was the founding

of Nu Chapter in 1884. His college work, for all his active interest in Sigma Nu, did not suffer, and he received from Kansas University three degrees, A. B. and B. D. in 1887, and LL. B. in 1889.

Harrington's journalistic instincts cropped out early. His interest in college journalism won him the editorship of the "University Courier" in 1885 and 1886. In this latter year he was placed in charge of The Delta which part of the story comes later. In 1890 he decided to make the law his profession and entered the firm of Webb & Raymond, at Hiawatha, Kansas. In September his law office was burned, including a fine library and irreplaceable Fraternity records. After this he threw over the law for a journalistic career, and became the editor of "The Kansas Democrat." For fifteen years he published this paper, until he sold it in 1907. In Hiawatha, too, Grant found his wife, who was Miss Hattie Graff. They were married on January 21, 1892. Harrington's fraternal career has been varied.

Upon selling his newspaper, Harrington became national organizer for The Life and Annuity Association, a local fraternal insurance company. In 1908 he was elected President of the Kansas Fraternal Congress.

Grant's fraternal career has been wide and varied: Commander of the Sons of Veterans and editor of their "Sunflower Magazine," Grand Patron, Order of the Eastern Star, Kansas; prominent in the A. O. U. W., a Knight Templar and Knight Mason.

A long time he had been one of the best known Democrats in Kansas and he served as private secretary to Governor Hodges in 1913-1914. Also he has written "Annals of Brown County" and is a frequent contributor to many magazines.

And now we come to what we most admire, Brother Harrington's deeds in Sigma Nu.

As one of the founders and charter members of Nu Chapter, he still keeps a watchful and a loving eye on the college boys.

His winning personality and wonderful story-telling bring him forward at every banquet. As editor of *The Delta* in its early and precarious years, he did a work seemingly impossible. "Volumes Four to Eleven," as the Grand Historian truly says, "are the work of Harrington and will forever stand as a monument to him. The improvement which he wrought in the magazine during this period was truly wonderful and hardly without parallel in Fraternity journalism. At the time he ceased to edit *The Delta*, the magazine was without doubt one of the best Fraternity journals published."

elsewhere. Suffice it to quote from the Grand Historian's tribute again:

"The ultimate fact remains that without the impetus of Harrington's vigorous policy of western expansion and his wresting of the control of the Fraternity from the hands of sectional leaders, Sigma Nu today would not rank as one of the largest national Greek Letter Fraternities. How true is this remark made by him in 1891: 'The true path of Sigma Nu lies through the West to the East.'"

How has he done these deeds and borne the burdens?

Grant Harrington and Son Harris
Nu

Besides publishing *The Delta*, Harrington issued two editions of the Catalog and one of the Song Book. His collecting of Alumni data while still an active man and during his years as Grand Recorder, placed the Fraternity records in better shape than they ever had been, and is a basis upon which stands all his successors may have achieved.

We must remember that these deeds of Grant Harrington were carried through in a time of financial deficit, and are truly remarkable. He had not only the responsibility of editor and publisher, but first as Grand Recorder he had to collect the fees and taxes. In 1890 the Chattanooga Grand Chapter voted him for the first time a salary—\$300 a year.

We might say much of Harrington's extension policy for his life in Sigma Nu has been given to the "building a national Fraternity," but he describes these at length

Wynne P. Harrington
Nu-Beta Chi

At the Cleveland Grand Chapter, Harrington voiced the keynote of Fraternity.

"If you are going into the Fraternity with the idea that it is going to be of a benefit to you socially, politically, in your class, or in any other, you are going to be grievously disappointed; but if you are going in with the idea that here is one more avenue in which you can be of benefit to humanity, you will be surprised at the amount of good that you can get out of your college Fraternity."

Surely, he is a living incarnation of this type of true Fraternity man. May great be his reward!

Harris Harrington

Nu

We note in the pledge list of Nu Chapter this year, the name of Harris Harrington, son of Grant W.

Wynne P. Harrington

Nu

BY GRAND HISTORIAN BURTON P. SEARS

Wynne Powers Harrington, Nu 39 and Beta Chi 28, now serving with Co. F, of the Eighth Division Motor Supply Train, was born in Brown County, Kansas (date deleted by the censor) and entered the University of Kansas in the fall of 1888, where he was initiated as a member of Nu Chapter of Sigma Nu. He completed two years' work at the university and then spent two years with his brother Grant in newspaper work. Then he decided to complete his university course and entered Stanford University. He said in making the change: "Grant Harrington has impressed himself so thoroughly on the University of Kansas that no matter what I do, I am only Grant Harrington's brother, and I want to get out where I can do things for myself."

Soon after reaching Stanford, he wrote to a friend that athletics and kindred activities seemed to be preempted, but that the debating field was open and that he was going into that. He was successful in this field, winning out as a member of the team that was to contest with Berkley. The good work done by him in the Berkley contest attracted the attention of the faculty and brought him in his senior year the appointment as Memorial Speaker, an honor highly prized and much coveted at Stanford. He graduated from Stanford with the class of 1896 and then returned to Kansas, settling on a ranch in Gove County.

His studies at Stanford had made him a Socialist and he soon became an active factor in that party, making the race first for State senator and then for Congress. For a time he conducted a newspaper of his own. For twenty years he has been a contributor to the Socialist papers of the nation. As the war cloud rose higher and higher, he found himself more and more out of harmony with the leaders of the party and voiced his protest against the course they were following. In one of his articles he said:

"This war is bound to bring us a great deal of practical Socialism. The tide is setting strongly that way now. Thrones crumble in Europe, high taxes everywhere, governments taking over the railroads, and factories everywhere, setting maximum prices on necessities, cutting out the speculators and now the United States is going into the insurance business to insure its soldiers. These are exactly the things a Socialist Government would do if it had the chance. They are giving us the strongest kind of arguments for Socialism if we only had sense enough to grasp our opportunity. We are having better success in war than in peace. Mohammed propagated his re-

ligion with the sword; maybe it would be better for us to follow his example.

"The Socialist party is missing a great opportunity. Instead of accepting these measures which the logic of events has forced on the enemy and using them as levers to get more, the party uses up its energies in a futile protest and a factious opposition to everything the Government is trying to do. It puts us in a position where we cannot claim any credit for what is being accomplished for the cause of Socialism and enables John Spargo to say that the greatest enemy of Socialism is the Socialist party. The course the party is following is making it unpopular and arousing a prejudice that will be hard to overcome. That is why I was opposed to the majority report of the snap convention at St. Louis.

"I would have the party about face, support the Government and ride with the herd. If capitalism wants to bleed itself to death, lets help it. We are doing now just what the enemy wants us to do. If we had Socialists in Congress, in the army and through the press helping the war along and preaching Socialism all the time, we would have the system ready for the funeral by the time the war is over. If capitalism manages to survive this war, it may be more owing to our mistakes than to anything else."

Being taunted that a man with views like that ought to be in the army, he replied that he was the son of a soldier and had been taught that a man's first duty was to his country and that if Uncle Sam could use him in any capacity he was ready. He accordingly volunteered, passed the physical examination and after the necessary preliminary training in Camp Johnston was assigned to the Motor Supply Train service. In writing of his enlistment, he said: "I thought I might want to show my diploma from Stanford some where along the line and I couldn't figure out how a man could have that diploma and be less than forty-three."

"I am the oldest man in the company," he writes, "and as everyone must have a nickname, it came easy for this bunch of boys to dub me Dad. Our first trip we took a train of motor cars across the mountains from Detroit to Baltimore. It was a hard trip and some of the boys were inclined to complain of the hardships. I jollied them and told them the old man must set the pace yet, and that as long as Dad could stand it the youngsters must not complain. I think it helped to cheer the boys up. Now that they are rested up, not one would get out of the service if he could. As for myself, while I am not anxious to commit suicide, I shall feel deeply disappointed if we do not get the order to take us across on the other side where the big work is to be done."

Conventions and Rallies

M. I. T. NAVAL AVIATION SCHOOL

Meeting July 12, 1918

On Friday evening, July 12, a group of Sigs from all over the country, most of whom were attending the U. S. Naval Aviation School at the Massachusetts Institute of Technology, got together for an informal dinner at the Riverbank Court Hotel in Cambridge, Mass.

Two lone army men were present: First Lieutenant P. H. Cathcart, Delta Pi, who is stationed at Harvard University on chemical research work and Austin C. Diggs, Delta Phi, from the Plattsburg Officers' Training Camp.

All the rest of the men were embryo naval aviators from Tech:

F. P. Farrell, Gamma Zeta.
R. W. Arthur, Delta Phi.
Odver H. Miller, Delta Pi.
P. G. Otterback, Delta Upsilon.
Le Grande F. Kirk, Delta Upsilon.
John F. Sweeney, Delta Sigma.
John H. Trowbridge, Delta Gamma.
Killey A. Page, Lambda.
H. W. Tinker, Delta Nu.
P. A. Libby, Delta Nu.
H. G. Cundell, Gamma Theta.
J. N. Heath, Delta Gamma.
L. C. Tross, Beta Rho.
Arthur W. Laflamme, Beta Rho.
R. Donald Conn, Delta Mu.

PAUL H. CATHCART.

Cambridge, Mass.

Meeting August 5, 1918

Just a note to let you know how the Sigs in the Naval Aviation Detachment are getting on.

We have a good school here and representatives from almost every State. Our work is very interesting and exacting as well. We are taught every thing that a navigator should know as well as all about our planes.

About three months ago we Sigs had a get-together meeting and banquet. Quite a crowd came out and another date was set for another. We spent three such evenings; the meeting which was due for about a week ago had to be called off. Am sending a list of the Brothers who were at the last meeting, held August 15:

P. G. Otterback, Delta Upsilon, 1918.

L. H. Sanderson, Gamma Phi, 1919.
E. E. Talbot, Beta Rho, 1917.
L. F. Kirk, Delta Upsilon.
C. W. Fox, Gamma Tau.
J. E. DuBois, Beta Kappa, 1918.
H. G. Cundell, Gamma Theta.
T. H. Bentz, Eta.
J. B. Coffman, Gamma Chi.
R. E. Slayter, Epsilon.
A. W. Laflamme, Beta Rho.
F. P. Farrell, Gamma Zeta.
Lynn Wassell, Gamma Upsilon.
P. A. Libby, Delta Nu.
K. A. Page, Lambda.

Brother Wassell was detachment commander just before he left. This is the highest office open to one of the students here. Brother Libby was company commander and has been appointed an instructor of wireless here.

Others of the Brothers represented us in all lines of activities.

To all Brothers in the service we wish the best of luck and to those at school the best of success for the coming year.

Fraternally yours,

K. A. PAGE, Lambda.

CAMP DODGE O. R. T. C.

Among the graduates of the Fourth Officers' Training School at Camp Dodge were four Sigma Nus—Brothers Earl Draper, Harold Newcomb, and Wayne McMillen, of Beta Mu, and Ralph Redding of Gamma Mu. One of the instructors in the school was Brother Loren W. Benton, Gamma Tau, whose excellent work was rewarded at the conclusion of the school by his promotion to first lieutenant. The successful Sigs held a dinner at a Des Moines hotel at the conclusion of the school. A mid-summer Sigma Nu dance and several informal gatherings were held while the school was in progress.

LIEUTENANT WAYNE McMILLEN,
Beta Mu.

The Sigs of Camp Dodge and both of us at Fort Des Moines had a party in Des Moines not long ago, but Finger and I didn't get there due to the fact that the invitation from the Dodge boys was delayed in the mail and didn't reach us until two days after the affair was over.

DON KRULL, Gamma Mu.
Medical Detachment, Ft Des Moines, Ia.

The Alumni

BLAND'S WAR RECORD GOOD

Our Congressman of Beta Eta Has Voted Uniformly to Support President in Conduct of the Conflict

If President Wilson is really in earnest in a desire to have some one in the Congress from the Second Indiana District who will stand by him in his war policies, he can find that support in the person of Oscar E. Bland, the Republican nominee for re-election. "By their works we shall know them," says the Book of Books, and Mr. Bland's work in the last Congress should convince the President that he can be trusted. Mr. Bland's record shows that he stood by the President all the time he has been a member of the Congress.

No matter what the war measure of the President was, no matter what his policy concerning the conduct of the war, he always had Mr. Bland's vote. Not a single measure offered by the President that would in any way tend to bring victory to the American forces and their Allies, but had the hearty support of Mr. Bland. He did not stop to consider that President Wilson is a Democrat. The only thing that he considered was that Mr. Wilson was the President of the American people and was the commander-in-chief of the army and navy, and it was his duty, regardless of party politics, to assist with his all the American President and the navy and army supreme command.

Representative Bland is a Republican, but when it came to supporting the war measures of the President, with him politics was really adjourned.—Indianapolis News.

Brother Bland was returned to Congress by his district on November 5, 1918.

NEW HONOR FOR SOPHOMORE

Beta Eta

Iowa Student Chosen as Editor-in-Chief of "Pennsylvanian"

Earle R. Van Vliet, a sophomore in the Wharton School, University of Pennsylvania, has been elected editor-in-chief of the The Pennsylvania, the student daily.

The election of Van Vliet establishes a precedent in university undergraduate publications. Never before has a sophomore been chosen to direct the affairs of the leading student journal. This honor always was bestowed upon a junior or senior. Van Vliet's home is in Des Moines, Iowa. His university address is 3312 Walnut street. Edward B. Pollard, of Chester, also a sopho-

more, has been elected managing editor of The Pennsylvanian.—Philadelphia Public Ledger.

AND W. IS THE SIGMA NU PART OF THE G. & W.

The G. & W. Electric Specialty Company, Chicago, is well represented with Sigs. Paul Williams, Beta Zeta, is the "W" in the firm, and Brother George P. Edmonds, Gamma Iota, is sales manager, etc. Brother Williams also holds down the position of Distribution Engineer for the Commonwealth Edison Company. He is one of the leading engineers in the country in this branch of the electrical industry, and his potheads are without equal.

EDGAR KOBAK.

STATE LEGISLATOR

Clinton H. Givan, Beta Eta

The Indianapolis News in its survey of candidates in this Fall's election, gives this item:

**Clinton H. Givan
Beta Eta**

"Clinton H. Givan, an attorney of high standing, who has done special investigation work for the state tax commission, was employed as an expert in the bureau of legislative information in drafting bills for the last legislature. Is superintendent of the Central Avenue M. E. Church Sunday school."

Brother Givan, Beta Eta, is a graduate of Indiana University and of its law school. He is on the law faculty in its Extension Department.

He was elected state representative by a good sized plurality.

FREE SPEECH DOES NOT PROTECT DISLOYALTY

Clayton, Theta, Tells Bolsheviks They
now as Little of Freedom as a Billy
Goat Knows of Gospel.

men and one woman, all followers of
ie and Trotzky, were indicted in the
ral Court yesterday for conspiracy to
be the espionage law by publishing a
evist circular containing scurrilous
ences to President Wilson.

e prisoners were arraigned before
d States Judge Henry D. Clayton of
ama, now sitting in New York by spe-
designation. When arraigned Miss
er addressed the court and intimated
her indictment was an effort on the
of the Government to "stifle free
h."

freedom of speech," said Judge Clayton,
me thing and disloyalty is another.
; you term free speech does not pro-
disloyalty. I am sorry for the people
ew York that have to deal with indi-
als who have no more conception of
free government means than a billy
has of the gospel."

ige Clayton added that when in Con-
he had voted to restrict immigration
hat he was now satisfied that he voted
on that question.

his court," said Judge Clayton in fix-
all, "is not going to follow the exam-
f the Bolsheviks, which appears to have

a half-baked idea of government composed
of socialism and nihilism. I will therefore
set the bonds of the defendants at half the
amount asked by the Government, and if
there are any German propagandists still
left in this city the prisoners should have
little trouble getting bondsmen. And I
want to say that when this war is over the
United States will be the principal agency
in assisting the Russian people to attain an
orderly form of government."

Judge Clayton wears a gold service star
in memory of his brother, who was recently
killed in battle on the French front.—New
York Times, September 13, 1918.

Editor, The Delta:

The above clipping refers to Brother
Clayton of Alabama. His presence on the
bench in New York has always been at-
tended by some special comments by the
New York papers as he is such a live wire.

PAST REGENT ISAAC ROBINSON MOVES AGAIN

Lambda

Past Regent Isaac P. Robinson has been
transferred from venereal disease work he
was doing at Fort Leavenworth, Kansas,
to Housatonic, Mass., where he is actively
combating Spanish influenza.

Alumni Chapter Letters

AKRON ALUMNI CHAPTER

Akron Alumni Chapter has not been
ularly active during the summer
hs. The majority of our younger
ers have gone into the service of our
ry and most of our older members are
ly engaged in war work of some na-
or other. We are mighty proud of
boys who have gone to fight and pro-
the cause of democracy and we hope
come back to us once more after the
has been won, but if not we will for-
honor the memory of their friendship
heir fidelity to their country. We be-
we have a record hard to surpass for
lumni Chapter in men who have an-
d the challenge of Germany. Few of
nce large membership are left, but the
g principle of Sigma Nuism burns
n us and we will try to "Keep the
 Fires Burning" till the boys come
from nailing the Stars and Stripes
iser Bill's flagstaff. Won't the after-
neeting be wonderful, listening to the
tell of all their different experiences
; great world conflict, and how these

heroes, for they are all heroes in my esti-
mation, brought the despicable Hun to his
knees. Eldred Barden can then sing his
little song, "We won't go home until morn-
ing."

We will start in holding our monthly
meetings again the first Monday in Novem-
ber at the Elks' Club, and we expect a rous-
ing good meeting with the few members
we have left.

This county was looking for a man to
put the fourth Liberty Loan across big. It
looked over the list of men and then thought
of how the war chest has been such a huge
success and so they picked the same leader.
Brother W. D. Shilts was the fourth Lib-
erty Loan campaign manager. I hope the
Kaiser hears how he took us over the top
in four days. A wonderful success from
every angle, and the way Brother Shilts
and his cohorts' untiring efforts brought
success is known throughout the State.

Brother Paul Allen Bloom, Delta Alpha,
is army inspector at the Goodyear Tire &
Rubber Co., and is now a second lieutenant.

Brother Frank W. Fox is with the Good-year Tire & Rubber Co., but I have been unable to meet him as yet.

Brother Coffin, Goodrich mechanical sales manager of B. G. Goodrich Rubber Co., is a busy man these days. He is gone quite often to Government plants in view of supplying their requirements.

Brother Brown of Penn State is with the B. F. Goodrich Rubber Co. He says, give him a canoe and a camera and he is happy. He tells many an interesting story about his week-end trips on the many connecting lakes around here.

Brother Bridges, Beta Beta, of the Firestone Tire & Rubber Co., was decisively defeated by Dan Cupid last spring and we wish him all the joys of married life.

Brother Stan Krall decided his house was too large for only him and his wife, so now when you enter his home, you are greeted by a fine baby boy.

Brother Schaller, Beta Eta, has joined the sales force of the B. F. Goodrich Rubber Co., and there is already reported a large increase in sales.

From the Goodyear Tire & Rubber Co. comes reports that Brothers Cannon, Buell and Blythe are doing big things.

As Akron plants are all doing almost 100 per cent. Government work, we are all doing our part for Uncle Sam.

We feel that we cannot do too much towards keeping our Alumni Chapter alive and prosperous, for we feel that we realize so much more what our Fraternity means to us when we assemble together and discuss the different things which our Brothers are doing not only here but all over the land.

Visiting Sigs, remember that you are more than welcome and we extend a hearty invitation to each and every Sig who comes our way to get in touch with us and we assure you we will try our best to entertain you while you are with us.

I have heard from some of our members who have gone but not from all. I would appreciate hearing from more.

W. W. SHALLER, Secretary.

B. F. Goodrich Rubber Co.
Phone No. 105.

BALTIMORE ALUMNI CHAPTER

In the recent "flu" epidemic, Past Regent I. P. Robinson, who was appointed in July acting Assistant Surgeon in the U. S. Public Health Service, rendered a splendid service in Housatonic, Mass., where he was transferred from Leavenworth, Kan., for this emergency work. Brother Robinson was practically the only physician in that locality and rendered a service which was

very much appreciated both by the citizens and the officials of the Government. In a recent letter he wrote: "It is hard to conceive what one as a physician has to contend with. There are so many patients and among them a large number are foreigners who seem unaware that there is such a thing as hygiene." Brother Robinson returned to Baltimore the first part of November, and will take complete rest for a few weeks.

Private Leslie J. Bosworth of Gamma Lambda Chapter who is at Camp Holabird near Baltimore, has been recommended by his officers for the Artillery Officers' Training School in Kentucky. In his company only two men were taken, the other lucky man being a graduate of Harvard. Brother Bosworth was also chosen by his captain in October to be clerk of his company. He tells me another "Sig" came into Camp Holabird in November. He is Private Myers A. Abbott of our Ohio State Chapter.

Baltimore "Sigs" recently had a visit from Brother Francis D. McCormick, Delta Gamma. He was in Washington getting his papers approved for "oversea" Red Cross duty, and stopped off for a visit on his way to New York..

One of the instructors at John Hopkins University S. A. T. C. is Lieutenant A. B. Cook of Richmond College, a member of the Tri Phi Local at that college which has now a petition for a charter before this division. Lieutenant Cook is a graduate of the Plattsburg Camp and received his commission in August.

NORMAN H. ANGELL.

CLEVELAND ALUMNI CHAPTER

The epidemic of Spanish "flu" which is prevalent in our city at this time has prevented us from inaugurating our fall activities after a vacation period of three months during the summer. The health authorities have placed a ban on all indoor gatherings, and believing that even our monthly dinner and meeting would be a violation of the spirit of the rule, we have decided to postpone our activities until the restrictions are lifted. We are, however, going ahead with the vigorous prosecution of a weekly noonday luncheon. The word "prosecution" is used advisedly and will, as heretofore, be particularly applicable to delinquent members.

In the way of general news the secretary has a few items which are more or less authentic. If any Brother concerned is libelled by the publication of these articles, the secretary hereby serves notice that such libel is without malice or evil intent.

Dr. Edward C. Patton is now a full-fledged physician, surgeon and medical mechanic. He is at present located at the City Hospital and is also medical assistant at the American Steel & Wire Company.

John Floyd Schaeffer, Beta Nu-Delta Alpha, is in the military service. He has received a commission of first lieutenant in the Sanitary Corps. Just before he left for active service he was married. I am sorry to be unable to give the particulars of the marriage or the name of the fortunate young lady.

Dr. Clarence W. Sund, Delta Zeta, is now engaged in the perfectly legitimate practice of tooth carpentry. He has enlisted in the Medical Reserves and is expecting to be called in the near future. In the meantime he is acting as instructor at the Western Reserve Dental School.

Rumors have reached the secretary that B. J. Alten, Delta Zeta, who still juggles figures for Ernst & Ernst, is about to join the ranks of respectable and married men.

Gurth Baldwin, Delta Zeta, whose present habitat is Erie, Pennsylvania, has been a visitor frequently in our city of late. It is understood that the object of his visitations is matrimony.

Ira W. Baker, Gamma Mu, who is manager of the Real Estate Department of The Guardian Savings & Trust Company, has recently undergone an operation and is reported to be now recovering from same in good shape.

Arthur W. Chisholm, Delta Zeta, who formerly sold lots to innocent unsuspecting investors, is now engaged in making munitions.

Henry M. Hunter, Gamma Delta, has received a commission and is now in some branch of the military service.

Perry D. Caldwell, the able and sagacious Inspector of this division, and councilman for Ward 19, is busily engaged in selling Liberty Bonds and satisfying the many demands of his various constituents, who besiege him with complaints pertaining to such things as scarcity of policemen, street cars, ash collectors, etc.

Martin Luther Burchfield, Delta Alpha, is still with the Standard Parts Company. He has, however, recently removed himself and family to the West Side. As a lifelong resident of God's own part of the city, I take pleasure in publicly welcoming him to the sunset side of the river.

Dwight E. Wertz, Beta Nu-Delta Zeta, is now connected with the United States Department of Justice.

We are also pleased to welcome Brother Archibald Ladner, Delta Lambda, who is now in army work here.

We have heard a rumor that Ray Clark, Gamma Pi, is married.

Walter D. Clark, Delta Zeta, of the Naval Reserves, is still stationed in the city and

has regained his wonted exuberant good health.

W. Edward Kneale, Delta Alpha, who is in the Navy, has been promoted to a senior lieutenancy. He is stationed on one of the battleships in Admiral Simms' fleet, which has London as its base.

Harold H. Woods, Beta Iota-Delta Alpha, is an inspector in the Ordnance Department.

With the exception of the aforesaid, no one has achieved any notoriety, to the best of my knowledge and belief.

M. E. EVANS, Secretary.

HARTFORD ALUMNI CHAPTER

The Chapter is looking forward to celebrating Founders' Day on January 1st. We are not making any elaborate plans, but with the aid of all nearby Alumni and the active men of Delta Chi, we believe that our feed at the University Club will be all that a Founder's Day banquet should be.

Like many another Chapter, we have felt the loss of the men who have entered the service. Vice-President Edwin B. Judd was married to Miss Anna A. Bubser of this city before he left for Camp Greenleaf, Ga. Our treasurer, Edward C. Marsden, who is also in service, was married on September 7 to Miss Edith Mary Alling of New Haven. The news that Smart Brand had won his commission at Rantoul Field was what we all expected.

The Chapter has welcomed two Aetna-izers into the fold, Lewis I. Corliss, Delta Beta, who has been transferred to the Home Office, and Paul H. Taylor, Delta Chi, who is a special agent at New Haven.

We expect that as the season advances an increasing number of Sigs will get the habit of dropping around to the University Club on the second Wednesday evening of the month.

RAYMOND H. SEGUR, Secretary.

NEW YORK ALUMNI CHAPTER

Like every other Chapter, our list of Brothers in the service is rapidly growing. At present we have a record of eighty-eight and doubtless there are many more of whom we have no record.

Brother Roland E. Fletcher, Delta Nu, who was commissioned as first lieutenant in the Dental Corps of the Army, has recently received his orders to report for active duty.

Brother Granger, Beta Rho, and later of the Panama Alumni Chapter, was one of our more recent visitors. He had just arrived from South America and had many interesting things to relate.

Brother Frank W. Fox is with the Good-year Tire & Rubber Co., but I have been unable to meet him as yet.

Brother Coffin, Goodrich mechanical sales manager of B. G. Goodrich Rubber Co., is a busy man these days. He is gone quite often to Government plants in view of supplying their requirements.

Brother Brown of Penn State is with the B. F. Goodrich Rubber Co. He says, give him a canoe and a camera and he is happy. He tells many an interesting story about his week-end trips on the many connecting lakes around here.

Brother Bridges, Beta Beta, of the Firestone Tire & Rubber Co., was decisively defeated by Dan Cupid last spring and we wish him all the joys of married life.

Brother Stan Krall decided his house was too large for only him and his wife, so now when you enter his home, you are greeted by a fine baby boy.

Brother Schaller, Beta Eta, has joined the sales force of the B. F. Goodrich Rubber Co., and there is already reported a large increase in sales.

From the Goodyear Tire & Rubber Co. comes reports that Brothers Cannon, Buell and Blythe are doing big things.

As Akron plants are all doing almost 100 per cent. Government work, we are all doing our part for Uncle Sam.

We feel that we cannot do too much towards keeping our Alumni Chapter alive and prosperous, for we feel that we realize so much more what our Fraternity means to us when we assemble together and discuss the different things which our Brothers are doing not only here but all over the land.

Visiting Sigs, remember that you are more than welcome and we extend a hearty invitation to each and every Sig who comes our way to get in touch with us and we assure you we will try our best to entertain you while you are with us.

I have heard from some of our members who have gone but not from all. I would appreciate hearing from more.

W. W. SHALLER, Secretary.

B. F. Goodrich Rubber Co.
Phone No. 105.

BALTIMORE ALUMNI CHAPTER

In the recent "flu" epidemic, Past Regent I. P. Robinson, who was appointed in July acting Assistant Surgeon in the U. S. Public Health Service, rendered a splendid service in Housatonic, Mass., where he was transferred from Leavenworth, Kan., for this emergency work. Brother Robinson was practically the only physician in that locality and rendered a service which was

very much appreciated both by the citizens and the officials of the Government. In a recent letter he wrote: "It is hard to conceive what one as a physician has to contend with. There are so many patients and among them a large number are foreigners who seem unaware that there is such a thing as hygiene." Brother Robinson returned to Baltimore the first part of November, and will take complete rest for a few weeks.

Private Leslie J. Bosworth of Gamma Lambda Chapter who is at Camp Holabird near Baltimore, has been recommended by his officers for the Artillery Officers' Training School in Kentucky. In his company only two men were taken, the other lucky man being a graduate of Harvard. Brother Bosworth was also chosen by his captain in October to be clerk of his company. He tells me another "Sig" came into Camp Holabird in November. He is Private Myers A. Abbott of our Ohio State Chapter.

Baltimore "Sigs" recently had a visit from Brother Francis D. McCormick, Delta Gamma. He was in Washington getting his papers approved for "oversea" Red Cross duty, and stopped off for a visit on his way to New York.

One of the instructors at John Hopkins University S. A. T. C. is Lieutenant A. B. Cook of Richmond College, a member of the Tri Phi Local at that college which has now a petition for a charter before this division. Lieutenant Cook is a graduate of the Plattsburg Camp and received his commission in August.

NORMAN H. ANGELL.

CLEVELAND ALUMNI CHAPTER

The epidemic of Spanish "flu" which is prevalent in our city at this time has prevented us from inaugurating our fall activities after a vacation period of three months during the summer. The health authorities have placed a ban on all indoor gatherings, and believing that even our monthly dinner and meeting would be a violation of the spirit of the rule, we have decided to postpone our activities until the restrictions are lifted. We are, however, going ahead with the vigorous prosecution of a weekly noonday luncheon. The word "prosecution" is used advisedly and will, as heretofore, be particularly applicable to delinquent members.

In the way of general news the secretary has a few items which are more or less authentic. If any Brother concerned is libelled by the publication of these articles, the secretary hereby serves notice that such libel is without malice or evil intent.

Dr. Edward C. Patton is now a full-fledged physician, surgeon and medical mechanic. He is at present located at the City Hospital and is also medical assistant at the American Steel & Wire Company.

John Floyd Schaeffer, Beta Nu-Delta Alpha, is in the military service. He has received a commission of first lieutenant in the Sanitary Corps. Just before he left for active service he was married. I am sorry to be unable to give the particulars of the marriage or the name of the fortunate young lady.

Dr. Clarence W. Sund, Delta Zeta, is now engaged in the perfectly legitimate practice of tooth carpentry. He has enlisted in the Medical Reserves and is expecting to be called in the near future. In the meantime he is acting as instructor at the Western Reserve Dental School.

Rumors have reached the secretary that B. J. Alten, Delta Zeta, who still juggles figures for Ernst & Ernst, is about to join the ranks of respectable and married men.

Gurth Baldwin, Delta Zeta, whose present habitat is Erie, Pennsylvania, has been a visitor frequently in our city of late. It is understood that the object of his visitations is matrimony.

Ira W. Baker, Gamma Mu, who is manager of the Real Estate Department of The Guardian Savings & Trust Company, has recently undergone an operation and is reported to be now recovering from same in good shape.

Arthur W. Chisholm, Delta Zeta, who formerly sold lots to innocent unsuspecting investors, is now engaged in making munitions.

Henry M. Hunter, Gamma Delta, has received a commission and is now in some branch of the military service.

Perry D. Caldwell, the able and sagacious Inspector of this division, and councilman for Ward 19, is busily engaged in selling Liberty Bonds and satisfying the many demands of his various constituents, who besiege him with complaints pertaining to such things as scarcity of policemen, street cars, ash collectors, etc.

Martin Luther Burchfield, Delta Alpha, is still with the Standard Parts Company. He has, however, recently removed himself and family to the West Side. As a lifelong resident of God's own part of the city, I take pleasure in publicly welcoming him to the sunset side of the river.

Dwight E. Wertz, Beta Nu-Delta Zeta, is now connected with the United States Department of Justice.

We are also pleased to welcome Brother Archibald Ladner, Delta Lambda, who is now in army work here.

We have heard a rumor that Ray Clark, Gamma Pi, is married.

Walter D. Clark, Delta Zeta, of the Naval Reserves, is still stationed in the city and

has regained his wonted exuberant good health.

W. Edward Kneale, Delta Alpha, who is in the Navy, has been promoted to a senior lieutenancy. He is stationed on one of the battleships in Admiral Simms' fleet, which has London as its base.

Harold H. Woods, Beta Iota-Delta Alpha, is an inspector in the Ordnance Department.

With the exception of the aforesaid, no one has achieved any notoriety, to the best of my knowledge and belief.

M. E. EVANS, Secretary.

HARTFORD ALUMNI CHAPTER

The Chapter is looking forward to celebrating Founders' Day on January 1st. We are not making any elaborate plans, but with the aid of all nearby Alumni and the active men of Delta Chi, we believe that our feed at the University Club will be all that a Founder's Day banquet should be.

Like many another Chapter, we have felt the loss of the men who have entered the service. Vice-President Edwin B. Judd was married to Miss Anna A. Bubser of this city before he left for Camp Greenleaf, Ga. Our treasurer, Edward C. Marsden, who is also in service, was married on September 7 to Miss Edith Mary Alling of New Haven. The news that Smart Brand had won his commission at Rantoul Field was what we all expected.

The Chapter has welcomed two Aetnazers into the fold, Lewis I. Corliss, Delta Beta, who has been transferred to the Home Office, and Paul H. Taylor, Delta Chi, who is a special agent at New Haven.

We expect that as the season advances an increasing number of Sigs will get the habit of dropping around to the University Club on the second Wednesday evening of the month.

RAYMOND H. SEGUR, Secretary.

NEW YORK ALUMNI CHAPTER

Like every other Chapter, our list of Brothers in the service is rapidly growing. At present we have a record of eighty-eight and doubtless there are many more of whom we have no record.

Brother Roland E. Fletcher, Delta Nu, who was commissioned as first lieutenant in the Dental Corps of the Army, has recently received his orders to report for active duty.

Brother Granger, Beta Rho, and later of the Panama Alumni Chapter, was one of our more recent visitors. He had just arrived from South America and had many interesting things to relate.

Brother William Andrews, Beta Alpha, and one of the charter members of the New York Alumni Chapter, gave us a visit while in town in charge of the Army medical supply display for the Liberty Loan drive.

Past Regent Albert H. Wilson has finally received his clearance papers and expects to sail for France in the very near future as a secretary for the Y. M. C. A. Knowing Brother Wilson as well as we do, we know that Sigma Nu will run a close second to the Y. M. and will gain a great deal by having such a tireless worker "over there" with the boys.

It is a great pleasure to report that Brother Edgar Rogers is back with us again after traveling extensively for the United States Shipping Board.

Just a reminder to those of you who are passing through this "little one-horse town," our weekly meetings and lunches are still being held at the Machinery Club, 50 Church St., every Thursday noon, 12 to 1 p. m. We hope all who can will drop in on us whenever possible.

RALPH E. SAWYER, Secretary.

PITTSBURGH ALUMNI CHAPTER.

Last June was a hard month on the Alumni Lodge. Eight men left in one week,

leaving four Sigs to keep things going. I was selected as manager and Buswell of Stevens as treasurer. In two weeks we had the Lodge filled with fine chaps, although no Sigs were available. At present we have fourteen men in the House and our service flag has nineteen stars—ten of the boys are in France. All bills are paid and credit fine—while there is one Sig left, the Lodge will be O. K. If all go, then our Board of Trustees, H. B. Mann, A. W. Dann, G. B. Taylor and S. P. Howell, will take charge of all furniture and equipment. I have told each man whom we have taken into the Lodge that as the furniture and equipment is owned by our Sigma Nu Alumni Property Association, the management must necessarily be in our hands, and they do not seem to mind.

The following chaps have left the Lodge for other cities or camps: H. S. Conover, Chicago; C. D. Kester and R. C. Harding, Cleveland; J. H. Schuler, care Standard Steel Co., Burnham, Mifflin County, Pa.; A. Y. Fotheringham and W. T. Manning, U. S. N. Engineering School at Stevens Institute; William Adams, Training Camp; R. D. McManigal, ensign, Navy; and H. C. Hopkins and Lieutenant S. G. Hibben, A. E. F.

R. L. BOVARD.

Alumni Notes

UNIVERSITY OF VIRGINIA

Beta Chapter

Brother Luther Hill Waller is in the infantry overseas. Brother Waller enlisted two weeks after America entered the war and was made second lieutenant, and then assistant sniping instructor. He has recently been raised to the rank of special patrol officer and has now been in the trenches for three months. To his mother he writes he has been "over the top" so often, he does it right gracefully.

BETHANY COLLEGE

Epsilon Chapter

Brother U. G. Palmer, Jr., has gone into the army. At one camp he reports meeting Lieutenant M. S. Shuttleworth.

Brother Vinson Bixler recently completed a course in the Depot Division Base Signal School of the First Army Corps in France.

Brother W. Edwin Wells, Jr., '13, of East Liverpool, Ohio, is general manager of the Homer Laughlin China Co., operating the largest potteries in the world. He is the youngest man who ever occupied the posi-

tion. Brother Wells is also Chapter Adviser.

Brother Perry A. Harrington, Bethany '14, of Beta Iota Chapter, is the principal of schools at Chardon, Ohio, and has with him this year as grade supervisor, his niece, Miss Belle McLachlen, an Alpha Xi Delta from Bethany.

Brothers Finis Dunn and Paul Sutton met each other on the street in Bordeaux this summer, and reports state it was some meeting. It was the first time they had seen each other since just after the declaration of war, when Brother Dunn enlisted and returned to Bethany on a 24-hour pass.

Brother Stanton Crawford, '18, maintains a war map in Y. M. C. A. No. 57, Camp Lee, that has earned him such a reputation that high officers call on him for assistance in their map-makings. Candidates attending the Infantry C. O. T. S., learn their Western Front geography from his maps. Brother Crawford has a Chapter-mate just a few doors away in the Officers' Exchange, in the person of Brother Clarence Chapman.

Brother Nelson, '17, is located in the Edgewood Arsenal, Baltimore. Brother

Morgan LeRoy Lumpkin, '15, whose home is in Baltimore, is a senior (in uniform) in Maryland University Medical. Brother William Shuttleworth, '13, a first lieutenant in the Dental Corps, is stationed at Camp Meade, eighteen miles from Baltimore, and expects to go across soon. The three meet frequently, Brother Shuttleworth spending practically all his Sundays with Brother Myers.

U. G. PALMER, JR.

UNIVERSITY OF ALABAMA

Theta Chapter

Brother Robert H. Hartsfield is in the Naval Reserve Forces and is stationed at the Navy Yard in Washington, D. C.

Brother James Quincy Smith has been nominated for Attorney-General of Alabama.

Professor Herbert A. Pettus, principal of the Etowah County High School, served as a minute man in the Third Liberty Loan, and also made speeches for the Red Cross drive. Having put across the Liberty Loan, he went across himself to France. He is the son of Brother R. E. Pettus, Theta No. 1.

HOWARD COLLEGE

Iota Chapter

Brother Lycurgus Leftwich is teaching at Columbiana, Ala.

NORTH GEORGIA AGRICULTURAL COLLEGE

Kappa Chapter

Major Robert L. Longstreet is in the Quartermaster Corps in France.

WASHINGTON AND LEE UNIVERSITY

Lambda Chapter

Just a word to let you know something of the history I've been writing since you heard from me last.

I have about decided to abandon law, and have gone into the field of commerce, having taken over control of this office, which is one of the leading brokerage concerns in this section. On June 23, 1917, I took unto myself a wife, and let me tell you now, that in July, 1918, the stork brought us a ten-pound baby girl. Right much history for fifteen months isn't it?

LUTHER A. DILLON.

Past Regent I. P. Robinson, Lambda, who was appointed in July, acting assistant surgeon in the U. S. Public Health Service, was one of the physicians sent to Massachusetts by the Government to help in the Spanish influenza epidemic. The following

item concerning Brother Robinson's services in that State was printed in "Berkshire Courier" of October 24th:

"The epidemic of influenza locally has begun to subside. Dr. Robinson, the Government physician, has about completed his work this week. The new cases reported have been few this week and most of those are among children. While the cases reported numbered about 300 in all, there has so far been a small number of fatalities in proportion. The majority of deaths were among the foreign population and were due in a great measure to carelessness on part of the patients. Conditions have so much improved that it is expected that the ban on the churches, schools and theatre will be off next Sunday."

NORMAN H. ANGELL,
Delta Gamma.

UNIVERSITY OF KANSAS

Nu Chapter

Brother Bert William Voeth, Marine Corps, is reported to have recovered from his wounds and to have returned to the firing line.

I am informed that Brother William C. Ingram has been in France for some time—presumably in the Engineers.

JOHN T. BALDWIN, Nu.

LEHIGH UNIVERSITY

Pi Chapter

Brother Philip B. Myers, Delta Alpha, who is with the E. I. du Pont de Nemours Company, at Newark, Delaware, writes: "I am working for a Sigma Nu from Lehigh and he has a good many patents to his credit. He is the C. B. Jacobs that discovered alundum and the fellow who sold the patent to the Air Reduction Company of New Jersey for fixing nitrogen in the form of sodium cyanide. And he is a regular Brother, too."

Brother Harry C. Faust is with the United Pocahontas Coal Company at Crumpler, W. Va.

VANDERBILT UNIVERSITY

Sigma Chapter

Dear Brother:

Am now bunking with Lieutenant Price, Iota. Lieutenants Walter, Gamma Pi; Coleman, Gamma Upsilon, and myself are among the S. A. T. C. Sigs just commissioned here. We moved in officers' tents today and took our first meal in the officers' mess. We are all arrayed out as second lieutenants and will be sworn in soon.

Brother James Lungsford Boone, I have heard from regularly during his year at the front as first lieutenant in the Medical Service. Each letter deals with the thoughts of Sigma Nu and with tales of other Sigs he has met at the Paris Headquarters of Sigma Nu. There is a German helmet sent by him waiting my return home.

Brother Perry D. Lipscomb when last heard of was in the infantry as second lieutenant.

CARR PAYNE, Sigma.

Second Lieutenant, Infantry.

Camp Perry, Ohio, Sept. 25, 1918.

I promised you an Alumni letter for Sigma and although very late here it is.

James L. Boone writes from France that he is having a great deal of trouble burying German dead fast enough to keep up with the American advance.

Merle Dunn has been transferred from water to air and will report soon to Boston for aviation.

Robert R. Sneed recently received a commission in the Coast Artillery.

Julian L. Owen is in the Artillery Officers' Training Camp at Louisville and by this time has probably been joined by Brother William D. Hardison.

Joseph W. Alford, drafted in August, was hurried to France just six days after arriving in camp.

Alfred O. Phillips is now chemist at the Government's largest powder plant near Nashville.

Red Hurt is pulling teeth in his home town, but expects to pull German teeth soon.

Guy D. Schoonmaker recently received a commission and has been assigned to a division.

Noble Van Ness has lined up against the Hun and is now in the 327th Battalion, Company B, of Light Tank Service, at Tobyhanna, Pa.

Charles H. Lanz is enjoying life as a naval officer aboard the collier Jason.

Lee Loventhal is keeping Nashville at a high standard in the Fourth Loan.

LIEUTENANT CARR PAYNE, Sigma.

S. A. T. C., Delaware College,
Newark, Del., October 16, 1918.

CORNELL COLLEGE

Chi Chapter

Brother Ray H. Finger, Chi, "Y" secretary at Fort Des Moines, continues his

good work and is the idol of the boys. He supervised the building of the new "Y" and has added many features that might not have been here for the soldiers had it not been for him.

DON KRULL, Gamma Mu.

Brother A. T. Esgate is cashier of the Valley Bank at Phoenix, Arizona.

Brother and Mrs. Earl Dickinson announce the arrival of a son June 12, 1918. Brother Dickinson is at present "somewhere in France."

UNIVERSITY OF NORTH CAROLINA

Psi Chapter

Brother O. Max Gardiner, Beta Tau-Psi, is lieutenant governor of North Carolina. In college he was captain of the football teams at both colleges. He is a nephew of Dr. Joel D. Whitaker of Indianapolis.

Dr. Rayford K. Adams is now with the State Insane Hospital, Dix Hill, Raleigh, N. C.

DEPAUW UNIVERSITY

Beta Beta

Brother Chas. Jakes has removed from LaFayette, Ind., to 1119 Maple avenue, Evanston, Ill. He is connected with The Howard Severance Co., book publishers, at 205 W. Monroe St., Chicago. Brother A. D. Dorsett is one of the members of this company.

Brother Claude H. Anderson, in addition to being the editor of "New Jersey Municipalities," is the secretary of the New Jersey State Council of Defense, with offices in the State House, Trenton, New Jersey.

Brother Anderson writes that a new member of their home has arrived, Miss Jean Adele, born September 11, 1918.

Brother Claude H. Anderson is now one of three Brothers of Beta Beta Chapter. John H. is a chief yeoman in the Navy. A third Brother, Harold, has recently become a member of Beta Beta Chapter.

PURDUE UNIVERSITY

Beta Zeta Chapter

Brother Robert W. Waterbury is now at Camp Zachary Taylor, Ky. When war was declared he enlisted with the Canadian forces, but after America entered the war he received a discharge from the Canadian Army and entered the service of our Country.

Brother Joseph Andrews's engagement is announced to Miss Mary Morris Magruder. Brother Andrews is a candidate in the Field Artillery Central Officers' Training School, Camp Taylor, Ky., and expects his commission Thanksgiving Day.

The engagement is announced of Brother Reeves Newsom to Miss Katherine Keene of Lynn, Mass.

Lieutenant Roland R. Bliss is now at the Edgewood Arsenal, Hastings-on-the-Hudson, doing chemical engineering work. Brother Bliss before entering the service was an advertising salesman for Chemical and Metallurgical Engineering, published by the McGraw-Hill Co., Inc., New York.

INDIANA UNIVERSITY

Beta Eta Chapter

Lieutenant Charles M. Wells, who recently was graduated from the United States Military Academy at West Point, recently spent a brief leave of absence with parents in Indianapolis.

MT. UNION COLLEGE

Beta Iota Chapter

Captain William O. Weaver is stationed as instructor at St. John's Military Academy, Delafield, Wisconsin.

Lieutenant Harry E. Ritchie is rifle instructor for the S. A. T. C., at the University of Louisville, and expects to be transferred soon to active field duty.

To Brother and Mrs. Howard (Peg) Wilson, a son, Howard E. Wilson, Jr.

KANSAS STATE AGRICULTURAL COLLEGE

Beta Kappa Chapter

Lieutenant Alfred A. Grant was this last week awarded the French War Cross for distinguished bravery. He has brought down his seventh Hun plane, and is now a captain. He was offered leave of absence to return to the States, but refused it.

Brother Dewey Newcombe to Miss Marvel Merillat of Kansas State Agricultural College. Miss Merillat is a member of the Kappa Kappa Gamma Sorority. Brother Newcombe is attached to the Naval Training Station Unit at Manhattan, Kan.

Brother Howard A. O'Brien to Miss Annette Perry of Topeka, Kan. Miss Perry graduated from Kansas State Agricultural College in the class of '16, and is now assistant advertising counsellor with the Capper publications. Brother O'Brien is in the Veterinary Division of the S. A. T. C. at Manhattan, Kan.

H. A. O'BRIEN.

OHIO STATE UNIVERSITY

Beta Nu Chapter

Brother Harry L. Hopwood, in addition to his many other jobs, is now secretary of the Ohio Taxpayers' League.

Robert Hower, ex-'20, and Ralph Force, ex-'20, are on Government work at the construction camp outside Cleveland, under the management of The Hunkin-Conkey Co. Brother J. N. Baker is with the same company in Columbus.

Robert H. Wieche, Hamilton, Ohio, is managing his father's farm there. Wieche will be remembered as one of the mainstays in the Western Conference's champion football team of last fall.

Harry G. Call reported to Officers' Training Camp at Camp Gordon, Atlanta, Ga., October 15th.

John Dale McNamar, ex-'18, is in the Ensign School at Great Lakes.

Jay N. Dyer, ex-'19, is located at Minneapolis in the Naval Aviation Ground School.

Robert B. Reed has entered the O. S. U. Medical School again this year. He is also a member of the Phi Rho Sigma Medical Fraternity.

ROSE POLYTECHNIC INSTITUTE

Beta Upsilon Chapter

Brother August Meyer is secretary of Langstadt-Meyers Co., Appleton, Wisc. They are manufacturers of a farm lighting plant, also electrical contractors and dealers with stores and shops in Appleton, Green Bay, and Oshkosh, Wisc., and are doing a large business—the biggest in their line in this part of Wisconsin.

TULANE UNIVERSITY

Beta Phi Chapter

Brother Howard Sandidge is a member of Koch & Sandidge, selling agents for labor conserving equipment, located at 17 S. Wells St., Chicago. Sandidge is a Tulane graduate, married, and has one offspring.

Brother Lieutenant Evan S. Connell, Medical Reserve Corps, has been transferred overseas, where he will be in the eye service department of an Evacuation Hospital, A. E. F.

UNIVERSITY OF CALIFORNIA

Beta Psi Chapter

Brothers Percy Booth and Willis Booth are the Hotpoint Company. This company was recently consolidated with the Hughes Electric Heating Co. and General Electric

Co., and is now known as the Edison Electric Appliance Company. Brother Percy Booth is vice-president and in charge of the Pacific Coast territory, with headquarters at Ontario, Calif.

Brother Benjamin C. Halle has been appointed agent for the Pacific Mail Steamship Company, at Calcutta, India. He was formerly the agent at Shanghai.

GEORGIA SCHOOL OF TECHNOLOGY

Gamma Alpha Chapter

Lieutenant Edward Hatch Hubert arrived across the waters about October 1st. He is in the Engineers.

Brother Edgar Kobak, formerly assistant engineering editor of the Electrical Work, is now assistant to western manager of Electrical World and Electrical Merchandising, with headquarters at 1570 Old Colony Building, Chicago. Brother Kobak was formerly secretary of the New York Alumni Chapter.

LAFAYETTE COLLEGE

Gamma Epsilon Chapter

Brother William L. Raup, Jr., is with the U. S. Metals Refining Co., East Chicago, Ind., in charge of the hydrofluoric acid plant.

COLORADO SCHOOL OF MINES

Gamma Eta Chapter

Brother B. N. Kilbourn of Murray, Utah, welcomes a daughter, Florence Janet, born August 10, 1918.

UNIVERSITY OF WISCONSIN

Gamma Lambda

Brother George A. Chandler, who spends too much of his time "fooling around" in the interests of the Fraternity, to his consequent detriment along lines of military advancement, has at last been made a second lieutenant in the Quartermaster Corps.

Brother Walter Henry Timm is secretary of the Public Utilities Commission of New Hampshire, at Concord.

UNIVERSITY OF ILLINOIS

Gamma Mu Chapter

Brother Donald Krull has enlisted in the Medical Corps. He is associate editor of the Fort Des Moines Post, in which he also conducts a column called "Krullers."

UNIVERSITY OF MICHIGAN

Gamma Nu Chapter

Brother L. O. Aldrich is with the Grant Smith-Porter Ship Company of Aberdeen, Washington.

WASHINGTON UNIVERSITY

Gamma Omicron Chapter

Brother Aglar Cook is business manager of Electrical Record, 114 Liberty St., New York City, one of the leading monthly electrical papers.

WEST VIRGINIA UNIVERSITY

Gamma Pi Chapter

Brother George C. Starcher is professor of horticulture at Alabama Polytechnic Institute, Auburn, Ala.

Brother Herbert McMillen for two years taught science in the high school at Morgantown, W. Va. Since April he has been employed as chemist by the National Carbon Company at Niagara Falls, N. Y. See Marriages for further news.

UNIVERSITY OF CHICAGO

Gamma Rho

Brother Harry M. Beardsley sailed the first week in October for Vladivostok, Siberia, as one of a unit of military photographers. Brother Beardsley holds the rank of first sergeant and expects a commission soon. He was transferred from the personnel office in New York early in the spring to the Signal Corps and received his training at Columbia University during the summer. When the Allied Governments deemed it necessary to do some photographic work in connection with the army in Russia, the United States decided to send a special mission of expert photographers. The mission is headed by the best U. S. Army photographer. He then chose the supposedly five best students in the training school to go with him. Brother Beardsley was one of the lucky five. In addition Brother Beardsley is the official war correspondent for the United States Government in Siberia, recording both civil and military events.

Brother George Schuyler entered the Naval Reserve School at the Municipal Pier, Chicago, on April 29. He is now completing his training at Pelham Bay, New York, which will entitle him to a commission as ensign in the United States Navy. At the present he is a first-class quartermaster. Brother Schuyler's examinations have been reported first-class in every way and he sure is making good.

Brother Homer Schlamer enlisted in the Royal Canadian Dragoons, stationed at Stanley Barracks, Toronto, Canada, about

4, 1918. On June 27th, he embarked overseas service on the "City of Vienna." July 2d during a dense fog the boat was tied on a rock off the shore from Halifax. He was rescued by the U. S. S. Aztec and landed at Halifax. On July 23d he landed at Shoncliffe, Kent, England, and he is now in training. As yet he has no actual service in the trenches.

Other Jerome and Lad Fisher are in Hospital No. 13, located at Limoges, France. Jerome is administrator of the camp with the rank of sergeant of the first class. Lad is master of a ward with the rank of private of the first class. They have been in overseas service three months. They are enjoying themselves and are learning to know the French people and their language.

The University of Chicago Daily News on the name of Brother Frank Johnson appears among those who died in service.

ORA H. PRATHER.

Other Ora H. Prather is instructor of mathematics at Kemper Military School, Springfield, Mo., holding the rank of lieutenant in the Missouri National Guards.

IOWA STATE COLLEGE

Gamma Sigma Chapter

Other H. L. Eichling is county agent of co-operative Extension Work in Agriculture and Home Economics in Clarinda, Iowa.

UNIVERSITY OF ARKANSAS

Gamma Upsilon Chapter

Other George Baumgartner is an engineer for the Chicago & Great Western and is located at Oelwein, Iowa.

SYRACUSE UNIVERSITY

Gamma Psi Chapter

Lieutenant Henry Edward Dodd is coming officer of the S. A. T. C. at Butler College, Indianapolis, Ind., and also at Hanover College, Hanover, Ind.

MISSOURI SCHOOL OF APPLIED SCIENCE

Delta Alpha

Mr. B. Myers, chemical engineer at the duPont de Nemours & Co., and getting along fine. "My wife and I took one vacation at Wildwood, N. J., on the Atlantic coast, and had a very delightful time," he writes.

COLUMBIA UNIVERSITY

Delta Gamma Chapter

Other Norman H. Angell has been released from his duties as membership secretary

of the Baltimore Y. M. C. A. for several months, and appointed State secretary of the Maryland headquarters, United War Work Campaign, which was organized at the request of President Wilson.

Before Brother Archie Austin Coates entered the Naval Reserves he was on the editorial staff of "Life," and before that of the "New York Tribune." He has written several songs for the Chapter and Fraternity and is now a member of the Committee on Songs.

PENNSYLVANIA STATE COLLEGE

Delta Delta Chapter

Brother Fred W. Breimeier is in the Aviation Corps. He was formerly on the Faculty of the University of Pennsylvania, and since last winter with the Federal Bureau of Efficiency.

UNIVERSITY OF OKLAHOMA

Delta Epsilon

Brother Errett R. Newby has been called to Washington for special work with the Committee on Education and Special Training, Vocational Section, War Department. Brother Newby has been for several years the Inspector of the Twelfth Division and all his Chapters will miss him greatly.

WESTERN RESERVE UNIVERSITY

Delta Zeta Chapter

The following statement from Commander Mortimer J. Shea shows positions held by the Delta Zeta boys in college affairs at the close of last semester:

Schofield—Star Council, base ball manager.

Keith Henney, Weekly associate editor, also instructor Military Telegraph Signal Corps.

Warnes, Signal Corps.

Searl, football captain, basket ball, baseball, Star and Arrow Club.

Suhr, assistant manager basket ball. Did special work in the Third Liberty Loan campaign.

Crock, assistant manager baseball.

Joyce Hartman, musical clubs.

Shea, manager of the Weekly, musical clubs, appointment to Fort Sheridan Training Camp, Third Liberty Loan campaign.

Hudson Relay—Searl, Warnes, Wagner, Suhr, Shissler, Hartman and Shea.

Scholarship reports not complete in this writing. Approximate average about 80 per cent.

Commander Shea's official report is inspiring. Mid the adverse times of tumult and the strenuous hours of training, the active men are outclassing all records. Delta Zeta will live as long as the Alumni can remember, but it also will live in fact and in Reserve while men like these men now active are bred every year. Let's encourage them! Give 'em a word of appreciation as Brothers Braun and Francy have done, and let them know two hundred eyes are watching them. A word from an older Brother will do the active men more good than a thousand silent wishes or a daily chest-exercise when you put on that pin of yours.

Ed Braun writes: "I was pleased with the report of Joyce Hartman when I read of his good work at the Fraternity House. With the conditions as serious as they were I think that Joyce and his co-workers are deserving of unlimited praise. How well I remember the first year that Joyce was at the House. From the acorn grew a mighty oak and now I expect to see Joyce one of the 'Who is Who' men of the United States."

Ralph Francy writes: While in Cleveland I had the opportunity of spending some time with the fellows at the House on Euclid Ave. I must say that the fellows of the active Chapters certainly did nobly last year, and the present, as well as the future, welfare of Sigma Nu in Cleveland is in good hands. I hope the present school year finds everything going as well for the Chapter as it went last year.

By the way, Shea says "two of the active men were at Fort Sheridan, attending the Officers' Training School, and now are military instructors at Reserve." One is Mort Shea. The other man's name I do not know. (If Shea were not so modest and retiring a young Irishman, he would have been more specific and heralded his dear-bought honors far and near, but he feared to tell the names lest he be forced to mention his own. Will he ever amount to much?)

Don Collister announces the arrival of Robert Dean Collister, on June 19, 1918 Dean is named after his godfather, Walter Dean Clark, Delta Zeta. Don is now with the M. A. Hanna Co., Leader News Building, Cleveland.

Uncle Howard introduces his third nephew to Delta Zeta Chapter Junior, born August 19, 1918. Having carefully searched through the biographical dictionaries of famous men, his parents could find no name better than his father's, Wilbur Clark Hunter. Junior, like his brothers, is a husky young lad.

Arthur Mochel is now an instructor at Case School. Also, understand he is a proud father. Girl.

Gurth Baldwin is a frequent visitor in the city. His stops at the House while regular are always short. We don't know but we believe these short visits are due to the fact that a certain young lady is requiring his attentions.

Also, he has given up Lizzie for a real roadster. Still at his old home in Erie, with the Rusterholtz Electric Company. He is installing fixtures and wiring houses when not getting Government orders.

Dr. C. Dimmick Millhoff is now at St. Luke's Hospital, Cleveland, Ohio. Brother Millhoff has returned to his old home town, Cleveland, to live, and brings with him a wife, nee Ruth Anne Bixel, a sister of Mrs. "June" Kilmer.

Carl Dietsch has an executive position with the Gravity Carburetor Co. Particulars do not state whom he executes, but we understand they are huns since the company is working on Government orders.

Carl Jones has moved to Girard, Ohio, and is connected with the Brier Hill Steel Company there.

Keith Henney has been with the merchant marine as a wireless operator all summer, but now has commenced teaching wireless in the Toledo (Ohio) High School.

Frank Schofield is training with some bunch of engineers at Camp Sherman, Ohio.

Dwight E. Wertz has been doing special work for Uncle Sam in the Department of Justice.

Fred C. Herke is located at Sao Paulo, Brazil, special representative of the White Sewing Machine Co., and reports an interesting and wonderful experience.

Art Chisholm is working in a munition factory. Unable to get the name of the concern.

Dr. Edward Patton has received an appointment as interne at St. Alexis Hospital.

John Plent is in the Medical Corps.

H. C. Brown (Babe) is advertising man with the Bloch Co.

Lieutenant Kenneth Strock is an instructor in the Officers' Training School at Camp Taylor, Ky. At last—mirabile dictu!—the year of wonders has arrived—Brother Strock has written a letter. No excuses now accepted from anyone!!! The last bit of ground has been cut away from you, and no effective barrage can be maintained from your position. Ken, the magnificent Swede, you are all right. The Army surely improves a man even in the little ways like correspondence. It must be they teach these officers, "The pen is mightier than the sword!"

Robert E. Stobie is an interne in Hospital, Chicago, Ill.

E. Evans is planning a fine vacation farm at Bass Island.

any one picture Mike on his Bass farm trying to talk the fish into g on his hook. This island is known s many wine cellars.

sell Pease, Harrison Terrell, Charles r, Dale Hartman, Zed Pethtel, Carl erger all are somewhere in France their bit for their country.

E. Stephens is the proud father of a aby girl.

tenant Eldred S. Barden is in the city short furlough. He is a second lieu- t, stationed at Camp Perry. Is also pert marksman.

l Jones has moved to Girard, Ohio, s connected with the Brier Hill Steel any there.

Braun is at Camp Taylor, Ky. He ts seeing Sam Amidon guarding pris- there. Imagine the city solicitor of ble city of Painesville with a bayonet is shoulder and the stern responsibili- f the American Army in his face and ge!

himself is in the personnel office and ; "soft" since he doesn't have to drill. rites: "In this man's army one does ave the time to do the little things per- g to civil life. Your letter arrived as a series of events took place in this . First, I am located with the Brigade quarters Company and do interviewing ; personnel office; however, I am quar- and rationed with another company. I came home for lunch and while there ut under quarantine. Next, this same any was ordered to move about two away to the other side of the camp. moved, and here I am. Immediately my arrival here I was put in the Bat- Headquarters for duty and in this you work all day and part of the . I have no plans nor many worries he future, the Army has contracted y services at the usual rate per month board. At the present we are wonder- f the war stops at noon on some date, ve be paid for the full day."

n Blair Scott is enrolled in the O. T. Camp Taylor, Ky. He writes: "I ar- here two weeks ago last Friday. I lucky enough to get into the Officers' ing School and say, maybe they don't us busy. Our time is provided for 5:15 a. m. to 8:30 p. m.; lights go out 15 and we must be in our bunks by the rest of the time we have to our- s. If we don't get stuck for some spu- luty we have from noon Saturday un- 45 Sunday. A fellow sure has to step

if he keeps up to the pace they set here. I like it fine and sure am feeling great. They feed us good and work us hard. We have some mathematics and lots of drill and military courtesy, etc." There are a num- ber of Sigma Nus in this course. There is a college register at the Y. M. C. A. and I found two in the same battery with me. There are others registered but I haven't met them yet.

Walter Warburton is at Camp Sevier, S. C., also in the personnel office. He writes: "I was greatly interested to learn that my old room-mate, Braun, is in the same branch of personnel work at Camp Taylor, as I am here. I have been in the work for eight weeks and have found it extremely interesting, as well as educational. Re- cently, however, owing to the suspension of the draft, I have been getting my share of outdoor work in the line of drilling, hik- ing and detail. Perhaps you fellows did not know that I have a very fine wife back home and Braun can no doubt bear me out when I say that it's pretty hard to be away from her. Yet, a man catches the spirit of the American soldier and just smiles through the trials."

Frank Fox, formerly of Brookline, Mass., with the Goodyear Rubber Co., has been called to the home office of the company, where he now has his headquarters.

C. J. Super is with the Mark Manufac- turing Company of the Steel and Tube Company of America, and is located in Chi- cago, Ill.

Walter Clark, who is with the Naval Re- serves, is still in the city. Brother Clark had some trouble with his eyes, but we are glad to know that the trouble is dis- appearing.

Clem Graeff reports business booming at the Brierley Company. Clem is now on the Board of Directors and is making good.

Howard Hunter is teaching at Shaw High; is now living in the city, but spends his week-ends on the farm.

Rolla O. Brown, Medical Reserves, has returned to the University of Pennsylvania Medical School. He has been taking a spe- cial course in bacteriology with the Mayo Brothers at Rochester, Minn. On his re- turn he stopped at the Chapter House at Cleveland for a week. As a result of Brother Brown's researches this summer, he is publishing in one of the medical journals a "Study of the Etiology of Cholecystitis."

Clem Graeff is now riding round in a \$3,000 Holmes, and he hasn't put a mort- gage on his home, either, but that's because he hasn't any. They do say, he expects to have one soon. These munition manufac- turers are busy men right enough. They even go down to old New York City once in a while.

Albert Silas Allen and Ralph Howard Francy are located at 1106 Thirteenth St., Washington, D. C. They are in the Chemical Warfare Section of the Army. Si Allen is proudly wearing the bars of "class." He has arisen out of the ranks of caterpillars and acquired the wings of a lieutenant butterfly—and they say talks more chemistry than ever, if such a thing could be true. It pays, sez 'e. Ralph Francy is out again after a serious attack of the "flu." He is tough enough to withstand a few germs after his working hours in the gas laboratories.

Brother Robert L. Shreffler is in the Infantry, A. E. F. He is mess sergeant and athletic director combined. As the latter he pounds his men into shape physically and as the former he wins back their friendship with tempting "grub."

Brother John Burton Holcomb was ordained into the Catholic priesthood September 14, 1918, at St. John's Cathedral, Cleveland. The same day he received an appointment as priest of St. Rose's parish on the West Side. As Brothers Burchfield and Rider received his blessing on that occasion, it is needless to say that they are immune from the prevailing epidemic of the Spanish influenza and all other earthly ills and cares. "It won't hurt ye any," says he.

M. D. Kilmer is still with the Telling-Belle Vernon Milk Company, "juggling figures."

James V. Suhr has enlisted in the Light Coast Artillery.

Murray Goodrich is in the O. T. S., at Camp Gordon, Ga.

Keith Henney has been with the merchant marine as a wireless operator all summer, but now has commenced teaching wireless in the Toledo (Ohio) High School.

Frank Schofield is training with some bunch of engineers, at Camp Sherman, Ohio.

Brother and Mrs. Eff Moore Emmett are enjoying life to its fullest extent, and it is reported that they are having many "cheerful" little surprises (this latest bulletin comes by way of Brother Dall Glauner, to whom I acknowledge my indebtedness for news items. He is still living at the Chapter House and is taking good care of the boys there).

Joyce Hartman is in medical college, and has been pledged Nu Sigma Nu.

Dall Glauner has entered Reserve! Likewise a husky young Hartman—Jesse by name—who equals both his older brothers in size and we surmise in intellect. He is a likely successor to Searl, this year's football captain.

PERRY D. CALDWELL.

Liberty Loan Special

To All Whom It May Concern:

Being duly sworn the undersigned solemnly states upon his word of honor that to the best of his knowledge and belief, the facts given below are the truth, the whole truth and nothing but the truth.

I have spent considerable time with our Brother, the Alderman, Hon. Perry D. Caldwell, and have collaborated with him in getting together some Alumni notes on Delta Zeta. If he has the presumption to claim as his own efforts the letter which he is mailing you on this date, I desire most violently to protest.

But, knowing his ever present tendency to inaccuracy, so far as important news is concerned, and fearing he will omit the most important item of all I herewith submit it.

In the Third Liberty Loan drive the Nineteenth Ward, of which the Honorable Councilman is colonel, went over the top and far beyond the second in line, in the amount of Liberty Bonds subscribed. In this Fourth Liberty Loan drive, under General Caldwell, the Nineteenth Ward is neck to neck with its only rival and will undoubtedly outdistance all comers on the fateful day.

Yours for victory,

MILES E. EVANS, Esq.

Attest:

October 12, 1918.

M. E. EVANS, Notary.

DELAWARE COLLEGE

Delta Kappa Chapter

Major William Sherman Corkran has just returned from a year's service in France with the First Engineers. He was one of the first officers in the front line trenches and was at the front most of the time while in France. He is now stationed at Camp Humphries, Alexandria, Va., where he is chief instruction officer.

BROWN UNIVERSITY

Delta Lambda Chapter

Lieutenant Wallace A. Gannon is now overseas in Coast Artillery. Brother Gannon received his commission at Fortress Monroe, Va., and was then assigned as an instructor at the same camp, from where he was put in Coast Artillery work and sailed shortly afterward.

STETSON UNIVERSITY

Delta Mu Chapter

Brother Robert P. Walters, Chapter Adviser of Delta Mu, is representing the New

York Life and Insurance Company, at Deland, Fla.

UNIVERSITY OF IDAHO

Delta Omicron Chapter

Brother C. L. Downing is now with the Nevada Consolidated Copper Co., McGill, Nevada.

GEORGE WASHINGTON UNIVERSITY

Delta Pi Chapter

Lieutenant Paul H. Cathcart has been assigned to extended duty overseas with the chief of the Food and Nutrition Division of the Surgeon General's Office.

CARNEGIE INSTITUTE OF TECHNOLOGY

Delta Sigma Chapter

Lieutenant Lemuel C. Dillenback of the American Air Service has been stationed in England for several months. He advises of reading in the "Stars and Stripes," official A. E. F. bulletin, of the awarding of the distinguished service cross to Brother Carl O. Kingsbury. Details of the award are lacking.

Geo. Curtis (pledge) is still at the U. S. Naval Hospital at Great Lakes, Ill. Was transferred about August 1 to the Aviation Machinists Division.

Frank McCaughey is reported to have stopped in Pittsburgh recently on his way to join the army which is building ships for Uncle Sam.

Lieutenant Curtis C. Colwell, Engineers Reserve Corps, was married in Washington, D. C., on Monday, June 3, 1918, to Barbara Maxcy. He embarked shortly after the marriage for France and has since been promoted to first lieutenant.

Art Vail spent two months at the New Kensington plant of the U. S. Aluminum Co., doing some special experimental work. He recently returned to his regular position of assistant manager of the Massena, N. Y., plant of the U. S. Aluminum Co.

Bob Dake is an instructor in flying and received his commission May 1st.

Ed McKee is having the time of his young life "over there."

Lee Wildman, recently benedict, is at Camp Wadsworth, S. C.

Glenn Haynes writes that he has been over a considerable portion of France and has seen active service at the front.

William H. King, Jr., recently entered the Government service and is at present work-

ing at the Standard Aircraft Corporation in Elizabeth, N. J.

Brother James C. Reisinger is at the United States Naval Academy, at Annapolis, Md.

COLGATE UNIVERSITY

Delta Upsilon Chapter

William Allen, '20, has a responsible position with the National Chemical and Analine Company of Buffalo.

Jacob Irving Allart, '17, is overseas, a sergeant in a Motor Mechanics Regiment.

Sherman Elmer Brush, '17, is a hospital apprentice stationed at Montchic, France.

Jesse Scott Boughton, '17, is an instructor in the Machine Gun Officers' Training School, Camp Hancock, Ga., with the rank of lieutenant.

F. B. Chamberlin, '17, is teaching French and Spanish in the Cascadilla School, Ithaca, N. Y.

George Ralph Cooley, '21, recently won his gold bar at the Engineers' Officers' Training School, Camp Accotink, Va.

To Brother F. C. Carpenter, '15, owner of "The Teacher's Gazette," Milford, N. Y., goes the honor of presenting to Delta Upsilon its first member of the "Next Generation Delegation."

Homer Albertus DeFriest, '19, who was the commander-elect of the Chapter for this year, has won his commission in the Field Artillery at Camp Zachary Taylor.

Orrin Elmer Dunlap, Jr., '20, is in the U. S. Radio School at Harvard.

Charles Monroe Dunlap, '20, has received an appointment in Naval Aviation.

James Elwood Dempsey, '21, is in Heavy Artillery at Fort Slocum.

Ferris James Edwards, '17, after winning his gold bar at Camp Oglethorpe, Ga., is now stationed at Camp Wadsworth.

Charles Roland Fish, '21, in spite of his avoirdupois, is with the Navy at the Great Lakes Training Station.

Hamilton Lucius Fay, '15, is in the Army Ordnance School, Carnegie Institute of Technology.

Harrison Franklin Ford, '20, is a quartermaster in Naval Aviation, stationed at Brest, France.

At Camp Jackson, are found two members of Delta Upsilon—Harold Frank Hewitt, '19, who is in the 156th Depot Brigade, Co. M., 2nd Provost Regiment; and Clarence James Myers, '20, Battery A, 14th Regiment, Field Artillery.

George Elmer Inman, '18, is making chemicals for gas masks, in the Gas Defense Division of the Chemical Warfare Service of the Army. He is stationed at Astoria, L. I.

Le Grande Francis Kirk, '21, is getting his flight training in Naval Aviation, at Key West.

The engagement of Brother E. C. Lowell, '19, and Miss Grace Elizabeth Glavin, of West Medford, Mass., was recently announced.

Charles Bleeker Mitchell, '19, is a "non-com" in the 4th Buzzer Co., Fort Leavenworth. His only objection to the life is "K. P."

Cyrus Cotton MacDuffee, '17, is an instructor of mathematics in the S. A. T. C. of Colgate University.

First Class Sergeant Howard Edgar Noble, '18, is overseas with the 306th Field Signal Battalion. In this division, the 81st, Delta Upsilon is also represented by Sergeant Major Richard Thorpe Turner, '19, attached to the Divisional Headquarters.

John Horace Nunemaker, '20, is with the Development Battalion Infirmary, Camp Hancock.

Philip Graham Otterback, '18, is at Akron, Ohio, in the Balloon Detachment of Naval Aviation.

Murray Bushnell Parks, quartermaster in Naval Aviation, is stationed in Wexford, Ireland.

"Cal" Parks is at Brown University.

Charles William Paul is a purser in the Merchant Marine.

Walter Arthur Peck, '16, enlisted in the Navy, has been building roads in Rhode Island while not on active duty. No, not in a chain gang, but as supervisor.

Harold Marlow Quincy, '18, is in Aviation, stationed at Ebert's Field, Loanoke, Ark.

Hugh Wallace Reynolds, '15, is in France with the 313th Infantry.

Horace Lorraine Stevenson, first lieutenant in U. S. Air Forces, is now in Italy.

Professor George Saunders has resigned his position on the Faculty of Colgate University to engage in war work with the Savage Arms Co., of Utica, N. Y.

L. H. Strough, '18, is vice-principal of the Oneida High School.

Bliss Jacob Youker is a private in the 152nd Depot Brigade, located at Camp Upton, L. I.

Harold Frank Stoddard, '20, is in the Naval Rifle School at Peekskill, N. Y.

Allston Turner Budgell, '18, is a first lieutenant, "somewhere."

"Louie" Jensen, '17, has been ordained for the ministry.

TRINITY COLLEGE

Delta Chi Chapter

Barber and Valentine, of the original five who reported for the first Plattsburg, remained for the second camp.

The close of the college year brought additional honors to the Chapter. Barber was elected editor-in-chief of The Tripod, Valentine and Vogel made Phi Beta Kappa, while Cahill won the Freshman Holland.

C. L. Schlier, '17, is the latest Alumnus to be initiated by the Chapter. J. W. Woessner, '12, will be taken in soon after college opens.

During the summer, Sanford and Whalen have been working at Colt's, Cahill at the High School, and there is a rumor that Saunders has been playing at Block Island. Dame Rumor seems to have been more than busy up Simsbury way. There is a story of a certain crate of eggs, a borrowed hand car, and a special session of the Town Court, concerning which Vogel would be glad to furnish details for which we have no room here.

The receipts from the 1918 endowment to date are \$143.50.

One of our officers who has gone across has sent on his military books for the use of the Chapter. Cahill, our librarian, promises to faithfully look out for all books placed in his temporary care.

N. K. Allison, '11, who is now working in the engineering department of the Travelers Insurance Company, has presented the Fraternity with his one hundred dollar House note. This is the type of spirit to aid us all to "carry on."

H. R. Brockett, '12, and Miss Marion E. Bennett of Meriden, Conn., have announced their engagement.

Lieutenant A. E. Burnap, '18 pledge, with two service chevrons on his sleeve, reports at Camp Dix on September 11th. It was the whistle which we presented to him which sent his men "over the top" on that now historic drive which started on the 18th of July.

R. E. Smeathers, '19, has left the home office of the Travelers for their branch office at Newark, N. J. The Smeathers are living at 450 Westfield Ave., Roselle Park, N. J.

Brother Henry W. Valentine has been assigned to Pennsylvania State College as a military instructor.

RAYMOND H. SEGUR.

The engagement of Brother Nathan K. Allison of Hartford and Miss Mae Whitman of Bay Shore, Long Island, has been announced.

Brothers Valentine and Barber received commissions at Plattsburg this summer. Brother Valentine is now stationed at Penn State, and Brother Barber has reported to the Central Officers' Training Camp at Camp Taylor, Louisville, Ky.

Brothers Sanford and Schortmann have enlisted in the Naval Aviation.

WILLIAM J. CAHILL, Reporter.

BOWDOIN COLLEGE

Delta Psi Chapter

Of the men who left the college last year we hear only the best reports. All are in active service.

George H. Blake and Karl V. Palmer have been commissioned as second lieutenants, U. S. Army; Lee Sumner Gorham and Raymond Miller Richardson are "somewhere in France"; George Stuart DeMott is a drill sergeant in Illinois; Robt. Cressey Rounds, Chester Corbin McGuire, Clyde Ellerton Stevens are privates in the regular Army. All of the men eligible for S. A. T. C. have enlisted and were publicly inducted on October 1.

ALLAN CONSTANTINE.

In the graduates of 1918, Delta Psi Chapter had two Phi Beta Kappa men, and four graduated with honors—Blake received Magna cum Laude, and Rounds, Bernard and Young, cum Laude. The first two named won their Phi Beta Kappa keys.

In the Fraternity standing at the end of 1917-18, Delta Psi stood second of ten fraternities, and first of nine national fraternities, an improvement over the first half-year's grades.

C. E. STEVENS.

Why Grow Old?

By R. E. PETTUS, Theta No. 1

[Brother R. E. Pettus, Theta No. 1, the Brother who initiated Sam Pegues, contributes the following interesting personal reminiscence in which he unconsciously answers the above question.—The Editor.]

Since receiving Nos. 3, 4, 5 of the Delta, I have been rollicking in the realm of Sigma Nuism. Beginning with the proceedings of the Eighteenth Grand Chapter on through January and February as I read the records, I have been living over again, with inexpressible felicity, the days of *auld lang syne*, and have caught afresh new inspiration from the mature and rich experience of the "old days" as well as from the optimism and enthusiasm of the younger brethren, many of whom I have known personally and from reputation for years. Then coming to the March number, which was filled with pride and patriotism, I became fired with zeal and love for my native land, as I noted the lender of the lives of "our boys" for Liberty and Democracy and I was constrained to ask why should a man ever grow old, too old for any service.

The pictures of Brother Tom Owens and his son in the March Delta are a fine looking pair and no doubt they are true pals, but the line of loyalty of the writer and his son to Sigma Nu is much longer. The writer was the first initiate into Theta Chapter in 1874, at the University of Alabama. Brother Thomas W. Clark, de-

ceased, was the first commander. Dr. B. L. Wyman, President of Birmingham Medical College, was the second commander and the writer was third. I helped to initiate "old Sam Pegues," the much loved and honored watch dog of our Treasury, and many others, who have become renowned in this State and Nation, among whom were U. S. Circuit Judge Henry D. Clayton and ex-Congressman J. F. Stallings. How many of you are old enough to remember when the writer was on the editorial staff of the Delta? Well, it was away back when Alexander Howard was editor-in-chief, down at Dahlonga, Ga. I have kept in closer touch with Theta Chapter perhaps, than any other member and recommended more boys than any other for membership. Who of the entire Fraternity has worn his badge for forty-four years? Mine is on the lapel of my coat now as I write these lines, and I think it is the prettiest badge ever made. The work of my life has been to help little things worth while to grow big.

My son Herbert entered the University in 1907, and broke into Theta as soon as he could and filled his quota of the offices. Soon after his graduation in 1911, he was elected principal of one of our State high schools, being the youngest in the State.

From the day that old Theta was organized she has been able to give a good account of herself.

On the Way to Berlin

Shells From the Front and Training Camps

*"To be steadfast in the performance of every trust; * * * to be content to live the ancient Faith that our Honor is dearer to us than our lives; to emulate the chivalrous deeds of courtesy, * * * And so to be loyal to the Knighthood of Honor."—The Creed of Sigma Nu.*

PAST REGENT A. H. WILSON OVERSEAS

Our latest recruit is Brother "Bert" Wilson, Beta Iota. He has taken his place in the ranks as Hut Secretary, Overseas Y. M. C. A., France. He is now in training but will be "over there" by the time this Delta is published. His training, by the way, is under "Colonel" Holland, Beta Xi, about whose work in New York City he sends us an interesting sketch.

Past Regent Albert H. Wilson
Beta Iota
In Y. M. C. A. Overseas Uniform

Brother Albert H. Wilson has held many posts of honor in the Fraternity, from unofficial worker up to Regent. His heart is always with Sigma Nu everywhere, and we expect many "stories" of our Annex Forces Alumni Chapter from him. Also, he is secretary of the Inter-Fraternity Conference and is well known to thousands of Greeks throughout the country.

O. S. U. SCHOOL OF MILITARY AERONAUTICS

In the "famous fifty-five" if the Ohio State University School of Military Aeronautics are Brothers William S. Hedges, Gamma Rho; Carl Ramsey, Epsilon, and Allen M. Springer, Beta Iota.

THOUGHT DEAD, IS MUCH ALIVE

Lieutenant Boyd Hadeasty, Delta Delta, Writes From Germany That He Is a Prisoner. Led a Noble Charge. His Platoon Tried to Ford River Under a Murderous Fire. Lieutenant Was Seen to Go Down and Major Wrote to His Wife He Was Lost.

A postcard was received today from Lieutenant Boyd Hadeasty, in which he states that he is a prisoner of war, that he is not wounded or ill, but sound, and that he is in Germany. The postcard is dated August 9th.

This confirms reports that were secured from the British Embassy in Paris and the Red Cross and sets at naught the supposition that the young lieutenant had been killed. It is now officially known that Lieutenant Hadeasty, in command of his platoon, encountered the enemy in a strongly organized position, north of the Vesle River and south and east of Bazoches, on August 7. Hadeasty's platoon was one of the front line units, Major James A. Stevens of the 47th Battalion wrote while under the impression that Lieutenant Hadeasty had met death. It encountered a veritable inferno of barbed wire entanglements, hidden snipers, entrenched machine guns and heavy artillery fire. Hadeasty's company was trying to ford the river when it encountered the barbed wire. Under a murderous fire he was trying to extricate his men when he was seen to go down. This was the last seen of him and his officers supposed he was lost. Evidently he succeeded in swimming to the other side of the river where he was taken prisoner.

Major Stevens, believing Hadeasty was lost, wrote to his wife in this city, condoling with her on what he believed to be her loss. But the boy who was looked upon as the strongest swimmer at Tumbling Run a few years ago was not to be disposed of so easily. Two days after his major last heard of him he addressed the postcard in ques-

tion and is now in a prison camp in Germany, where provisions are being sent to him weekly by the Red Cross.—Newspaper, name not given.

GREEKS IN THE TANK CORPS

(City of) Atlantic Ocean, State of War.

Saturday, August —, '18.

We'll be "over there" within a week, but I'm taking advantage of an opportunity to have this started towards you as soon as we land, by writing this on shipboard. And the reason for the evidenced haste is that I crave news—Sigma Nu news—and therefore The Delta. So I beg of you to forward me, if possible, a copy of each and every issue—if you please.

I am "one of the boys" of the Battalion of the national army Tank Corps—and those words mean one "hellofalot" to me—yea, indeed! In our company alone I listed twenty-eight (28) Greeks ("nationals") and there are about half a hundred college men. I reckon our personnel is the highest—a subject for argument with our Brothers-in-aviation. Be that as it may, what I want to say is that I'd give several of my Iowa farms for a good handshake and tête-à-tête with a sure enough "Sig." And I figure that The Delta will have a few Am. E. F. addresses of some of our Knights of the Republic—so, please don't forget me!

DON WARNER, Gamma Sigma.

[Brother Warner is one of our "war initiates"—pledged by Gamma Sigma last year and initiated in February, 1918, by Delta Alpha. Evidently in his brief Fraternity experience he has learned the meaning and worth of Sigma Nu.—The Editor.]

BETA IOTA CHAPTER IN FRANCE

I had meant to write before, but you know what intensive training in France means. We are getting plenty of hard work and hope soon to be able to take our place on the line. The boys are all in good shape and hungry for fraternity dope, so don't forget us on The Delta. Our new addresses of the bunch are: Corporal Marion L. Slaters, Corporal John M. Jackson, Privates Merle L. Starbaugh, Percy L. Harris, Ralph W. Scott and Craig R. Starn, all Beta Iota boys, in Battery "B," Field Artillery.

In Headquarters Co., Field Artillery, there are: Corporal Lester Ohlinger, Beta Iota; Corporal Percy Jackson, Beta Iota; Corporal Floyd Swamp, Beta Iota; Corporal Wm. McKinley Sharp, Beta Iota, and Corporal Sutton, Epsilon; Mayer, Beta Iota, and Haag, Beta Nu, are in training camps, and not with us anymore.

We see Pethel and the Delta Zeta gang quite often and they are making good in Battery "A" of the Field Artillery. We have

written Brother Howard A. Johnson, also the University Union in Europe.

PRIVATE CRAIG R. STARN.
Near Bordeaux.

FIGHT LIKE VETERANS

"When a certain American division was in training under the supervision of the French, a high French general said to me:

"Your troops are wonderful! They perform like my own veteran French troops. I predict that before the war is over you Americans will all be shock troops. You know we use only our fittest for shock fighting."

"The general belief which pervades the American army is that the primary purpose of their being in France is to FIGHT, and not to fiddle around with an enemy.—Cal. C. Lyon, Beta Eta, in Columbus, Ohio, Citizen.

Lieutenant Alfred A. Grant
Beta Kappa

TEXAS AVIATOR IS MADE

AN "ACE" IN FRANCE

Lieutenant Alfred A. Grant, Beta Kappa

Lieutenant Alfred A. Grant has been made an ace in the aero squadron in France. A flyer is called an ace as soon as he has brought down five German planes.

Lieutenant Grant was born and reared at Denton. He attended school at Manhattan, Kan. He went to the first officers' training camp at Fort Riley, but was detailed to Canada as a sergeant in command of a group of prospective aviators. He was

in training there under French and British aviators and joined the British Royal Flying Corps as a private. He was later sent to Texas, where he took further training, and soon was commissioned first lieutenant. He has now been in actual fighting less than three months, yet has five Hun planes to his credit.—Dallas (Tex.) News.

IN THE ARMY SCHOOL OF THE LINE

Dear Brothers:

I have been over here since May. When we first came over we were with the British. I am now at the Army School of the Line, trying to learn infantry tactics, having been in machine gun work for so long I was rather rusty along those lines, but it's coming back. My organization is the Machine Gun Battalion. Please change my address to:

Lieutenant Walter M. Stillman,
c/o Morgan, Harjes & Co.,
31 Boulevard Haussmann,
Paris, France.

A PROFESSOR TURNS STUDENT

Sigma Nu Fraternity:

I have been trying to line up the boys in camp. At present one of the boys has a list of thirty-one men. I have a list of twenty-one. We are planning a meeting for next Sunday and I hope to get a complete list for you at that time. August 17th we are planning a banquet down town and we hope to have some of the Chicago Alumni present.

It is a great life, 5 a. m. to 9 p. m., fall in and fall out are the principal formations. We have a very interesting condition in the Headquarters Company, which consists entirely of faculty men from various institutions in the Middle West and Central Southern States. Most of them take the work pretty well and most of their dignity has disappeared.

Fraternally yours,

H. F. WILSON, Gamma Lambda.

Headquarters Company, S. A. T. C.,
Fort Sheridan, Ill.

NU CHAPTER 1917

Left to right, first row—Palmer Shelton, Orville McCandless, Burt Cochran, Earl Youngmeyer, Ed H. Hashinger, Dean Nutting, James Edward Jones, Walter Scott Priest, Clell R. Todd, Charles Chipman.

Second row—Albert E. Hyer, Earl W. McPherson, Frank H. Terrell, J. G. Norton, M. E. Clawson, T. Wylis Benson, Fred Rustinbach, Herbert Osborne, Herman B. Engel, Clarence Bennett.

Third row—Merle Clift, Clarence C. Attwood, James Barrett (dead), Larry Engel, Frits Schnitzler, David W. Borgata, Hassen Kendrick (dead), Page F. Wagner, Reed H. Golden, Joe Daniels.

I have run across only a few Sigs over here. Met Lieutenant C. R. Hazeltine, of the Oregon Aggies Chapter. He was commander at time the Chapter was initiated a year ago last spring. He is with the Engineers.

Have not seen any action yet, though the division did shortly after I left for school. Just a stroke of bad luck, I guess. However, I should not complain, for no doubt we'll all get a chance at it and get plenty of it before we're through.

I hope the Delta will find me over here and that through it I'll be able to get in touch with a number of Sigs.

LIEUTENANT WALTER M. STILLMAN,
Delta Gamma-BetaMu.

Brother Wilson is a member of the Faculty of The University of Wisconsin, and took a course in military training at Fort Sheridan this summer, in order to drill students this year. He is also Chapter Adviser to Gamma Lambda and a Sigma Nu to the core.

100 PER CENT. RECORD

Nu Chapter

The picture on this page is that of a Chapter with a 100 per cent. record. Of the members of Nu Chapter in 1917, every man is in service except two who are dead. Nu proudly boasts this record is unique among all our Chapters.

TRANSFERRED TO HANOVER S. A. T. C.

Lieutenant Henry E. Dodd, Gamma Psi

Lieutenant H. E. Dodd, who has been stationed at Butler College as an instructor in the Students Army Training Corps there, has received a transfer. The lieutenant is to report at Hanover College, Madison, Ind., where he will receive further instructions. Lieutenant Dodd came here from New York, where formerly he practiced law.—Indianapolis News.

CAPTAIN RICHARDSON, GAMMA CHI

"On the Way"

Sigma Nu Fraternity:

After we got on the boat and rather settled in our quarters, Brother McCrary handed me the May Delta and I have managed to find time to get through most of it, and have surely enjoyed reading it all. The last two numbers are the only ones I have missed in some sixteen years, and am glad to be able to connect with the Fraternity again.

Went to the Engineer Reserve Officers' Training Camp last January, and intended to write you from there, but the "Faculty" there were sure we had nothing to do but work and study from 5:45 a. m. to 9:30 p. m., and must do nothing but sleep the rest of the time, so all the writing we could put off was not written! Did manage to check up the register and find that Sigma Nu was represented there by some thirty men and led the list of the Fraternities by three or four over the next highest. All the members who went there with commissions held them, and the enlisted men who were trying for commissions now have them. Among this bunch was Tom Phipps, Gamma Mu, captain E. R. C., who has since some time in March been in charge of construction at Governors Island, N. Y. Tom was one of the older members of the University of Illinois Chapter when the Chapter was young. Before going into the service he was chief engineer of the Public Service Commission of Washington. The training at Camp Lee reduced his "equator" some four inches, and when last seen in New York, he was about to have a box pleat put in the back of his blouse so it would fit closer to his belt. Says the Army life beats golf for exercise. Brothers John T. Rice, Gamma Xi, and Chester J. Overstreet, Gamma Xi, who were of the Class of '04, and roommates, at the Missouri School of mines, met again for the first time since leaving college. They were in the same company at Camp Lee. Overstreet held a commission as lieutenant and went with the 601st Engineers. I think Captain Rice is now at Camp Humphries. Fred Rustenback, of Kansas U., earned a commission as second lieutenant, being probably the youngest man to be commissioned, and is also at Camp Humphries.

Most of the men who were there are now across, or about to go across. Brother Alva P. McCrary of Beta Theta Chapter is with me as one of my lieutenants. Met Brother James Bonner, Gamma Phi, at Lee for the first time since the organization of the Montana Chapter.

Later. Have had a mighty pleasant trip across and expect to land in a few hours. Of course we do not know where or just when, and won't be able to tell when we find out. Am going to enclose a dollar bill and ask that you send me the Delta over here.

FREDERICK H. RICHARDSON,
Gamma Chi.

Somewhere on the Atlantic,

A MILITARY SPECIAL—FUN WITH FRITZIE IN FRANCE

My Sig Letters

I'm no longer in the Engineers. The regiment number was changed before I left the States.

While at school there were ten Sigs, mostly from the East, who congregated at a "Y" hut and there we spent a pleasant evening swapping "house-talk."

Dave Millar is still with Base Hospital 21. Charlie Watkins is just about to be commissioned in the Transport Service, I believe. Freer has written me once in thirteen months, so I know nothing of him.

I used to hear from Josh and Swen fairly regular, but I suppose they're on their way across. That accounts for a great deal of silence. Meister is still quite faithful and writes me most regular. I would certainly feel estrange if it wasn't for my Sig letters.

Two Cracks at Fritzie

Though I'm away from my old regiment at present, I am expecting to return any hour to the W. U. crowd and "Painless." The boys have thinned out a little—some have gone elsewhere, some have been commissioned, but the majority of the original bunch awaits me. They are still railroading and up in the present mix-up now.

I've had an active hand in two drives and it looks like I won't get to jump into this third one.

I've had several good cracks at Fritz with 75's, but the result as to exact numbers wasn't ascertained; at least, I feel I have had a good share in the doing of things.

A Sign of Bondage

For the benefit of Reed Harkness, that mustache which he seemed pleased about has long since disappeared. I lost it when

He insisted on an officer taking him back, but they wouldn't listen to him. As he was going back, a Marine private happened to be lying in his path, and he sang out in very good English, 'Gangway there.' Whereupon the private sprang to his feet and replied, 'Gangway, hell!' and with that he injected about two inches of good American bayonet into Mr. Officer's stern sheets. Then to add insult to injury, they made the officer get on one end of a stretcher with a German private on the other and carry in a wounded buck Marine."—Seattle, Wash., Post Intelligence, sent in by A. S. Douglass, Beta Nu.

LIFE AT A NAVAL BASE

You asked for some sort of a description of my work here at the naval base. I enlisted in the Naval Reserve Force as a second class seaman and after a few days at St. Helena was transferred to the base. A little later I was sent along with my company to the Naval Rifle Range, some two and a half miles from Virginia Beach, Va., for practice in rifle shooting. Here by some good shooting and some good luck I managed to make a high enough record to be rated as a sharpshooter.

After returning to the base I was assigned to the outgoing unit of seamen and expected to be sent to sea soon, but in some manner they learned that I had a college education and some military training and experience. As a result I was drafted into the Company Commanders School, where I am now. Here we are taught all of the naval drills, signaling up to a certain point, regulations, care of clothing and ships, and in general nearly everything a recruit has to know before he can be sent to sea. After we are proficient in the drills, etc., we are sent out as graduates with companies to drill and are rated as junior instructors.

According to Captain Crose, in command of the station, we have the most important company on the base, because on us is going to depend the drilling and teaching of a great number of men in the very near future. The usual length of time spent in an instructor's school is three months, but on account of the demand for them the course is being shortened. It is very interesting work, but it soon becomes monotonous. We drill about four hours a day and study the Blue Jackets Manual in the afternoon. We have our own clothes to scrub, etc., just as all other sailors do, arise in the early morning at 5:00 a. m., crawl out of our hammocks or fall out as the case might be, and turn in at 9:00 p. m. We get liberty every night and on Saturday and Sunday afternoons, so we get a chance to get away if we care to.

I went down to Virginia Beach one day last week and met Judge Beverly P. Evans, of Montana, a Sigma Nu, who has been up to the Delta Pi House often, and found a

Sigma Nu sister in Mrs. Harold F. Eulows, Delta Pi. It was quite a surprise to run into them and I surely was mighty glad of it, as it brought me in touch with a couple of my old friends.

VICTOR L. KEBLER, Delta Pi.

ESCAPES HUN SHELLS

Captain Oscar Carlson, Delta Omicron, Is Gassed and Bombed

Captain Oscar Carlson has been knocked off his feet and gassed, but he has not been in the hospital yet, and is proud of his company of the Sixth Infantry in France.

"They dropped twenty-three shells on this place less than an hour ago," he writes to his relatives here. "We called for our artillery and they sent forty shells in reply in the first half minute."

Captain Carlson has been over much of the front. He says in the letter that the boches appeared to be unusually brazen on the Fourth of July.

Captain Carlson is the son of C. Karlson, a retired farmer of Latah County Idaho.

"I am a Swede and my son in France is an American. That is why our names are not spelled the same," said Mr. Karlson with a smile. He said that he was proud of the showing his family was making as Americans.

Captain Carlson is well known at the University of Idaho, having drilled many cadets there before he was commissioned at Fort Wright. He was sent from here to Fort Leavenworth and is now with the Sixth Infantry.—Spokane (Wash.) Spokesman. Sent in by A. S. Douglass, Beta Nu.

A SIGMA NU DIVISION, U. S. A.

As you will see by the above address, I have come West to the State which has produced so many loyal Sigs. Rounds and DeMott, of Delta Psi, with Snyder, of Delta Gamma, and myself, arrived here last week as non-commissioned officers, to aid in the organization of the newly authorized 95th, and with the one hundred and twenty other men, from Camp Lee, we form the entire strength of the aforesaid army at present.

Please send me three copies of the Creed, (small size), one for each of us Delta Psi men.

I shall do my best to take care of the Delta Psi Alumni news as long as my services remain satisfactory to The Delta, and I remain in this country myself.

CORPORAL CLYDE E. STEVENS,
Delta Psi.

LYON CARRIES CHEER TO THE BOYS IN FRANCE

C. C. Lyon, Citizen war correspondent, left the city to return to the battlefront.

"Within three weeks I expect to stick my feet under the mess table of Colonel Ben Hough," Lyon said, "and at the first Sunday services of the old One Hundred and Sixty-sixth after my return I'll take the

Says Yanks the Best

Praising the fighting qualities of all the allied soldiers, Lyon said the American was destined to be the best among them because individually he was the smartest.

The allied soldiers, he said, want no peace except a peace dictated by the allies after a march to Berlin.

Lyon will return to France with hundreds

Cal C. Lyon, War Correspondent

At the Front firing an anti-aircraft gun at a boche airplane which has just appeared
—Courtesy of the Cleveland Press

place of the chaplain and tell the boys what the home folks are doing.

To Tell of Home

"I'll tell them how wonderfully this nation is standing back of them," Lyon continued. "They don't realize how you are thinking of them and working for them. I'll tell them about the War Chest and the Patriotic League and all the other things, and the splendid spirit of the people at home."

of messages from parents to boys fighting over there.

To Be With Ohioans

"A correspondent can only be at one place at one time," he said before leaving, "and I can see just as much with the Ohio boys as anywhere else. After I reach Paris I'll make a beeline for Colonel Hough's outfit. Then I'll hunt up the Thirty-seventh Division of Ohio guardsmen and the Eighty-third Division of Ohio selects."—Columbus (Ohio) Citizen.

S. A. T. C. ASSIGNMENTS FROM CAMP PERRY

The assignments of Sigma Nus at Camp Perry, so far as I know, are as follows:

Redford B. Walker, Hampden-Sidney College, Va.

Lanier Price, Lombard College, Galesburg, Ill.

William H. Brimberry (Georgia Tech), to College of Charleston, S. C.

Carr Payne, Delaware College, Newark, Del.

One Sigma Nu from Kansas whose name I couldn't learn.

All these men are to report to their assignments October 4th.

All of the above were commissioned as second lieutenants, September 17, 1918, at Camp Perry.

CARR PAYNE, Sigma.

THE COMMANDANT AT DELAWARE

Inducts a Sigma Nu Company Into the S. A. T. C.

Dear Brothers:

I have had a most interesting day today. Arrived here Monday and have been hard at work ever since. The influenza shut Delaware up for a time, but we are having the students report daily for induction into S. A. T. C. and then send them home.

Now, as officers we are not allowed to associate with the men very much (which isn't exactly to my notion, being a good Sigma Nu). Today I was inducting about forty men. To my utter astonishment about half of them wore Sig pins or pledge pins. In looking the crowd over without knowing the men individually, I feel that Delaware must have one of our best Chapters and certainly the best here. The place was simply cluttered with pledges. We have been a little hard on the men, so I thought I would have a bit of fun. Picked out a likely pledge and ordered him to go with me. Naturally he was worried, but when I gave him a raised pledge button to replace the smooth one, he seemed pleased as well as surprised.

Later on in the day, I ordered* my old friend, Brother Brewer, who, like the other Sigs, did not know I was enlisted, and was a bit surprised to find me a lieutenant. Brother Brewer received compliments in the Wilmington paper for his tireless work in driving the Delaware ambulance around that city during the present rage of influenza. From my observations of the men

*Brother Payne does not state the extent of his order, neither how it was carried out.

in my three days here, Sigma Nu is going to have a great time when the influenza is over and the men are brought back to college. I look forward with great pleasure and thank my good fortune for landing me in a place where it is plain to me Sigma Nu as usual leads and wins.

Brother Walker tells me that at least three Sigma Nus besides himself are at Hampden-Sidney.

CARR PAYNE, Sigma.

Second Lieutenant, Infantry,
Delaware College, Newark, Del.
September 16, 1918.

RAY H. FINGER, CHI

Former "Y" Secretary Is Commissioned

Ray H. Finger, formerly Y. M. C. A. secretary at Fort Des Moines, was commissioned as a second lieutenant in the Sanitary Corps last week and assumed his duties at this post last Friday.

Lieutenant Finger has been in the Y. M. C. A. work for the past thirteen months. He came to Fort Des Moines in April after five months' service in "Y" work at Camp Dodge.

He will assist in reconstruction work here. At present Mr. Finger is instructing candidates for the Central Officers' Training School.

Before taking up Y. M. C. A. work, the lieutenant was instructor and athletic director in the Cedar Rapids High School at Cedar Rapids, Iowa. There is a possibility that he will direct the athletics at this post. He is at present coaching the Detachment Football Team.

During the time that he was in the "Y" work, Lieutenant Finger endeared himself in the hearts of the men of the post by his untiring efforts to do all in his power for the men and to make the Y. M. C. A. a homelike place for the men to go. It was through his efforts that the Y. M. C. A. here, which is above the average standard of "Y" buildings, was constructed.—Fort Des Moines Post, September 26, 1918.

A MINE PLANTER READS BETIMES

The Delta reached me here at New Bedford today and it surely is always welcome, especially to a Sig in the service, as it is one way of keeping in touch with what the other "fellow" is doing. I have been aboard the above mine planter for several months and find that the work is most interesting, but I am hoping to be assigned to an overseas regiment before long.

ARTHUR F. GILMORE, Beta Sigma.
Captain, Coast Artillery.

U. S. ARMY REACHES PEAK OF VICTORY IN TEN WEEKS

Lyon Describes Magnitude of American Efforts in France; Kaiser Would Beg for Mercy If He Could See Our Army.

By C. C. Lyon, Beta Eta.

(N. E. A. Staff Correspondent Attached to General Pershing's Army.)

U. S. Front Near Metz.

If Kaiser Bill and his war lords could see what I have seen in and behind the American lines during the last few days, they'd quit cold and get down on their knees and beg for mercy.

A terrible beating is in store for him. These wonderful American armies have hit their stride. There is more truth than poetry in the claim that American troops will march down the streets of Berlin before this war is over.

Marvelous is the only adjective that fittingly describes what General Pershing accomplished in the ten weeks I spent in America on furlough.

Whereas he had only a few divisions in line early in June, now he counts his fighting divisions by the tens. Then he held only a comparatively few miles of the long allied front, but now American troops have been fighting on the whole front from Ypres to the Swiss border.

Behind the fighting lines, the magnitude of the American effort is even more noticeable. The ports are clogged with American ships: mammoth transports and giant freighters, heavily armed cruisers and battleships, and scores of slim, graceful submarine chasers.

It all made me mighty proud I am an American and that I come from a country that can accomplish such vast things in so short a time.

On the road to Paris and to the front more evidences of America's greatness in war are apparent on every hand. Miles and miles of warehouses stretch back from the sea, and an American flag floats from every one of them. In those warehouses are enough food and necessities to maintain our armies for months.

Tens of miles of railroad tracks have been laid for the operation of AMERICAN railroad lines. It fills one with an indescribable thrill to have a man in khaki stick his head out of the cab of an engine and yell as your train goes by: "Howdy, partner! What's the news from back home?"

American training camps have sprung up all over France. They compare in bigness with anything we have in America. And nearly every town of any size on a railroad from the seacoast to the war zone

had been "taken over" by the American boys, who scatter American prosperity among the shopkeepers. The depots are all policed by American troopers.

Within the last three months some of our aviation camps have expanded until five times as many aviators are being given the finishing touches for service as in any American camp; artillery camps are ten times as big as anything at home.

In a word, General Pershing now has the men, the supplies, and the FIGHTING SPIRIT to make America's effort the real, determining factor in this war. It is the mighty American effort that has filled the whole allied side with a wonderful WILL TO WIN.

"It's only a matter of time now until Germany will be prostrate," a great French statesman said to me in Paris the other day. "There is no longer any question about our side winning; the only question is how soon."—Cleveland Press, September 21, 1918.

GREETINGS FROM PLATTSBURG

To the Brothers of Delta Chi of Sigma Nu:

Every one of you who is going to return to college this fall must be back there on the 16th of September surely. You all know why. This is to be the most critical time in the history of our Fraternity both as local and national. There is to be a great rushing season with fewer men than usual, so every man must be on hand from the very first and fight his damndest for the greatest number of the best men. Remember, however, quality not quantity rules.

I wish you could all have been up here to meet all the good Sigs from colleges all over the East and South. They surely are a great bunch. After you had met them, I know every one would go in and win every time and work hard for Sigma Nu and especially Delta Chi of Sigma Nu.

Brother Barber and I will not be back as early as we should wish to and maybe not at all, but I think we will be on hand the 17th or 18th. In our absence, Brother Nichols, being next in rank, will take charge and will be ably helped by our old reliable, Brother Segur. I hope that if either asks anything of any Brother, especially the Hartford men, that they will respond cheerfully, willingly, and at once.

Remember, then, every man put his shoulder to the wheel and push hard for Delta Chi of Sigma Nu. YEA.

Above all, make it interesting and hospitable for the men you are rushing.

Fraternally yours,

HENRY W. VALENTINE, E. C.

THE SIGS AT BROWN

I have met very few Sigs in the service, but my roamings have been limited to the decks of this ship most of the time. Last winter I had a chance to visit the Brown University Chapter and I'll tell you I never had such a genuine fraternal reception anywhere. The men were all in first or second year, but they had real Sigma Nu spirit.

GEORGE A. BOWMAN, Delta Zeta.
U. S. Navy.

A WORD FROM EVERY KNIGHT OF
THE REPUBLIC

[Letters from overseas are crowding each other out and yet so interesting are they, we wish we could print a Delta of nothing else. At least we will try to acknowledge every one of you Comrades, if only a line, in this column.—The Editor.]

There are about sixty Sigma Nus in the training batteries, but have practically no time to be together.

We are all busy on our toes working for commissions and it's nothing but study, study all the time.

I will mention Brother Albertus Homer DeFriest, Delta Upsilon, and Brother Alton Z. Glass, Delta Xi, who are bunkmates of mine and meet hourly. Brother Glass has the "flu" now and is in the hospital.

We expect to graduate Thanksgiving.

JOSEPH ANDREWS,
Beta Zeta.

Just a line to tell you that at last I am over here and doing fine.

I have met several of the boys over here and we are going to have a little get-together party in St. Nazaire some night right soon now.

SERGEANT W. K. MULLINS,
Iota-Delta Epsilon.

France.

All the fellows who were with one regiment at Camp Sheridan are now here in France. We had a fine trip across, and since that have been having some good times. Would appreciate to hear any news concerning Sigma Nu. Have sent our names to our headquarters over here.

CORPORAL P. W. JACKSON.

I keep my eye open for Sigs and run into one every once in so often that I can exchange the time of day with. I have met two from West Virginia in the last couple of weeks. It is a great bond of Brotherhood and it seems as if there were no limit or boundaries to its extent. I am more than

proud to be encompassed within the circle of its bonds.

The station here is being rapidly built up and bids fair to be the best in the country or perhaps in the world, when it gets finished and all complete. We have a football team here this Fall and expect to take a ride on some college teams. That, however, is only a side issue, as most of our energies are bent on preparation for the great drive due in the Spring. We'll be ready.

Lieutenant George F. Goetzman is another loyal Sigma Nu.

VICTOR L. KEBLER, Delta Pi,
Second Seaman.
Naval Base.

Lieutenant Hogg and Johnny Haldeman, both of Rho, are in the vicinity. Brother Hogg has been recently wounded and I have been unable to hear from him since. Brother R. S. Miller, from Stetson University, is attached to this company in the medical department. I am surely glad to have him along with me.

I had not heard of Brother Johnson's Alumni Chapter, but shall register with him immediately and have Miller do the same.

SERGEANT LEROY H. ADDINGTON,
Rho.
Engineers.

This is not business but interesting. While coming from the front yesterday, I passed a Brother and roommate from Delta Sigma, Paul Fuller Simpson from Aero Squadron. He was watching our train pull by. Just enough time to shout "Hello Simp" and get an answer and we were out of sight.

Yours in the Bonds,
BROTHER HENRY JOHN SCOBELL,
Delta Sigma.
Second Lieutenant, Infantry.

I am with the Ordnance Depot Co. at Camp McClellan, in a company of eighty. I have discovered two other Sigs, Brother Fisher from Cornell and Brother Kleinschmidt from Minnesota. We delight in talking about our great Fraternity and only wish there were more here.

HARRY A. NEWMAN, Delta Pi.
Ordnance Depot Co.,
Camp McClellan, Ala.

I enter Camp Gordon, Atlanta, Ga., as candidate for a commission. Brother Arthur Milam, of Jacksonville, Fla., is already there.

RAY V. SELLERS, Delta Mu.

KRULLERS, FINGERS, AND OTHER CONFECTIONS

Served by the Associate Editor of the "Fort Des Moines Post"

It's Sunday morning, supposed to be put to use by doing bunk fatigue, but I managed somehow to scrape enough ambition together to write a letter, and here I am.

In addition to receiving his commission, Finger is business manager of the paper which I am sending under separate cover. In his new duties, Finger has full charge of the athletics at the Post, is conducting classes for returned overseas men who are in need of physical rebuilding. He is coach of the football team and is well fitted for this position, having coached at Cedar Rapids, Iowa, high school for five years before going into the "Y" work. He also took a course in coaching under "Bob" Zuppke, the University of Illinois coach.

Met another Sig this morning who has been added to the staff of Fort Des Moines. I shouldn't say that I met him this morning, for I met him several days ago, but I just found out he was a Sig and he knew a bunch of the old-timers with whom I happen to be acquainted. It's none other than one Huron H. Smith, Beta Beta. He's in the "Y" service just like Brother Finger was and has been put at the head of the educational and athletic department of the camp activities among the Y. M. C. A. here. He graduated from DePauw in 1905 and was active in all athletics, having played varsity football, basketball and was on the varsity track team.

I was sitting on my bunk when he breezed into the barracks, and we proceeded to have a nice little chat, talking about some of the mutual friendships that we had, such as Joe Knapp, John Scott, "Skin" Miller, "Reggie" Peck and a score of others who I cannot think of right at this present moment. It sure seems good to meet a Sig when one is so far away from all the environment of the college life and it helps to drive away the blues that are wont to present themselves now and then in this man's army.

I sent to the Delta the last two copies of the "Post." Did you get them? Whatever scandal you might want about the Associate Editor of the said sheet can be found in the columns of the publication I think, but as for the scandal regarding him that you might wish to gain from him himself, I can safely say that it will be as scarce as hips on snakes.

Smith was telling me that there are a number of Sigs from the Wisconsin Chapter over at Camp Dodge, and we are going to try to get together some time as soon as

this damn quarantine lifts. We have been under quarantine for the Spanish "flu" here for the past two weeks or more and believe your Uncle Dudley, it gets terribly old. We sit around the barracks chewing the rag, go outside and play indoor baseball and try in a hundred other ways to get rid of the monotony of all the thing, but as yet we have to find something more exciting than is offered here to satisfy us. You see, it used to be that we could go walking with the nurses and that helped some, but that order has been rescinded and now the only thing that we can do is wander around aimlessly and use a little Christian Science. Savvy?

I'll send you the dope about the Sigs from time to time as it comes under my observation and in the near future, Smith and I hope to get next to the bunch at Dodge as soon as the quarantine lifts and then perhaps we can have a real Sig party that will be worth telling about.

Perhaps we'll start a "Pan-Hellenic" right here. There is an Alpha Sigma Phi, a D. K. E., a Delta Chi and probably a score of others in camp that we do not know about now.

My best to all the bunch around the office and any of the rest of the gang whom you might see.

Oh, yes, before I close. Went to a Sigma Nu luncheon uptown the other day and met some of the Des Moines Alumni. Fine bunch of fellows.

DON KRULL, Gamma Mu.
Fort Des Moines "Post,"

WE NOMINATE FOR STATION AGENT

in Berlin—Makepeace, Beta Nu

Sigma Nu Fraternity:

I read The Delta as zealously as I do The Quarterly of Alpha Phi. You know I also have a brother from Beta Nu Chapter—he is at Great Lakes now.

Lew left Camp Meade the 7th of May and has been near Toul sector since his arrival. You ask for extracts from his letters. Well, I'll tell you the later ones have been censored pretty rigidly, as he said a little too much and I don't think there are enough connected sentences left to make profitable reading. However, I shall send you the next "readable" letter. He was with the Americans when they took St. Mihiel and he said that there hadn't been a train in the town for four years; said he surely would liked to have had the job as "Station Agent." That wouldn't overtax one's strength, would it?

Loyally yours,
MARGUERITE LEWIS MAKEPEACE,
(Mrs. Lewis B. Makepeace, Beta Nu.)

He's a Hero in His Own Home Town

By WILLIAM S. HEDGES, Gamma Rho (Pilots Fifty-five)

Once upon a time there was a dashing young aviator, who wanted to be a big terrible hero in the world conflict, and who also aspired to seeing his name and comely mug on the front page of his home town sheet. He applied to the examining board and was pronounced ninety-nine and forty-four hundredths per cent. pure; in fact, he was a physical whizz, so he hit father for a wad of kale, hocked his watch and invested his meager savings in toto in a swell uniform that once had braid on the cuffs. He purchased a nifty barracks cap, stuck a white band on it, placed his shanks in a pair of beautiful puttees, that showed his shapely figure to advantage, and proceeded to cause wonder and admiration among the belles dames of the village. Being convinced that he was a sure enough hero, he strutted around, his chest expanded and he nearly wore out his handsome uniform, waiting for the War Department to discover that he was alive.

Finally orders came along with fifty cents worth of check and our dashing young indoor aviator kissed all the girls of the dear old home town farewell and started out to conquer new worlds. Contrary to his wont, our hero heeded the sage advice of a friend and reported at school in his last suit of mufti, thereby sparing a dozen or more officers the humiliation of feeling poorly clad in comparison with his trim military outfit.

Then the long grind began. A. Q. M. sergeant gave him the once over out of the corner of his eye and heaved a pile of clothes in his direction. Oh, yes, dear reader, he got a swell bunch of duds. The pants bagged in the wrong places, the coat had too much bosom, the shoes fitted where they touched and had but one virtue—they could never be shined!

During the first week our hero was effervescent with enthusiasm. He assured his home town friends that he would knock 'em cold. But when the instructor slipped him a half dozen quizzes every other day he began a new tack of authorship and told his friends that he could clearly see that he was in the most strenuous elimination contest he had ever heard of. He told his mother that even if he was the brainiest chap in the world, his commanding officer might not like the way his ears were put on, so his efficiency record would go to pieces and the army would lose a potential ace of aces. He finally doped it out that his difficulties would increase with the square of the velocity up to the critical week, after which they would decrease, but said critical week reached its crisis on the last day of school.

After five weeks the dashing young aviator was tamed. He could walk the straight and narrow, gaze tremblingly over the abyss that led back to straw hats and pointed shoes and boast of no conquests and frame no alibis. He achieved this humility by "sounding off" with the count of "one" and later by ordering "pass in review, officers center." A lieutenant with a wicked gleam in his eyes frazzled our hero and made him slip up on a Saturday night date with a Packard friend, who had dreamy eyes and a winning way of saying, "Would you care to have chicken dinner with us Sunday?"

Of course, the home folks weren't wised up on the bulls of the dashing young A. They still believed him a little t. g. on wheels and filled in the blank spaces between "send me dough" and "send me cigarettes," with flights of imagination.

To camouflage his trepidation he assumed an air of nonchalance towards his subjects, but he kept his nose glued to his note book, never fell asleep in army paper work and when he was momentarily paralyzed by a finger backed up by a pair of gray eyes, he uncoiled with incredible rapidity at Lieutenant Gray Eyes' command, "Stand up quick."

Yes, gentle reader, our hero was tamed, and so being a hero he graduated and wore his canvas leggings with dignity and went to Camp Dick to peel potatoes for all Kingdom Come.—The Pilot.

Girls, Here's Tip on Correct Way to Write Buddie

WITH THE AMERICAN ARMY IN FRANCE, May 21.—A boy showed me a letter from his fiancée back in America the other day. I thought it the right kind.

"You know, George, I promised to marry you one year from the day you get back home.

"I'd be willing to marry a hero a lot sooner than that.

"You know Mary Smith's beau got the French cross for bravery the other day, and Mary is lording it all over the rest of us girls.

"If you'll get a French cross I'll marry you six months from the day you land.

"And if you win the new American medal I'll meet you on the dock with the marriage license in my hand."

"Where are those damned Germans?" exclaimed George. "Let me at 'em!"—C. C. Lyon, Beta Eta, in Indiana Times.

With Military Honors

Here We Write 'Immortal Dates'

"Thinking of our Fraternity not only as a Brotherhood of militant force, but also as a creative force for the spiritual development of men."—The Creed of Sigma No.

CAPTAIN CHARLES PENDLEY

Kappa

Jasper, Ga., November 3.—News has just been received of the death in France of Captain Charles Pendley, of Tate, Ga., he having died September 23 of pneumonia. Captain Pendley was connected with the Georgia Marble Company at the time of our entry into the war, but resigned his position to enter the first Officers' Training Camp at Fort McPherson, from which he graduated with the rank of first lieutenant. Immediately upon his graduation from the training camp he was ordered overseas and assigned to the Fifth Field Artillery and was just recently promoted to a captaincy. His battery has been in the thickest of the fighting done by our forces. Captain Pendley was a native of Pickens County, a son of one of the county's most prominent citizens and prosperous farmers, Mr. Barney Pendley. He was reared on the farm and attended school at Dahlonega, and at the time of his graduation there was major of the school battalion.—Newspaper, name not given, sent in by W. L. Kemp, Mu.

News has just been received of the death in France of Captain Charles Pendley, of Tate, Ga., he having died September 23 of pneumonia. Captain Pendley was connected with the Georgia Marble Company at the time of our entry into the war but resigned his position to enter the first officers' training camp at Fort McPherson, from which he graduated with the rank of first lieutenant. Immediately upon his graduation from the training camp he was ordered overseas and assigned to the Fifth Field Artillery and was just recently promoted to a captaincy. Captain Pendley was a native of Pickens County, a son of one of the county's most prominent citizens and prosperous farmers, Mr. Barney Pendley. He was reared on the farm and attended school at Dahlonega, and at the time of his graduation there was major of the school battalion.—Atlanta Constitution.

I was talking to the president of this college this morning and he said that Brother

Pendley was one of the finest students that ever attended this institution, as you will notice he was major of the cadet battalion while in college. His last year's work in college set a record that has never been broken as yet. He was champion debater, made the varsity football for four years, major of the battalion, captain of the rifle team and one of the most popular students in college.

P. H. EMMITT, Kappa.

PAUL BRYANS MINTER

Mu

Brother Paul Bryans Minter, of Monticello, Ga., was killed in action "Somewhere in France," on or about August 1. It was in the German drive of the latter part of July, and his company of machine gunners was completely annihilated. He was the last to fall, and as four Germans closed in on him he "got" three of them when the fourth shot him between the eyes.

FRANK E. WILHOIT, E. C.

CAPTAIN WARD ELLIS

Nu

Captain Ward Ellis, Company C, 353rd Regiment, Infantry, 89th Division, was killed in action on September 19, 1918. No details are given.

Captain Ellis, a son of the late Justice Ellis of the Kansas Supreme Court, was 36 years of age. He was born and reared at Beloit; graduated at the high school there; attended military school at Orchard Lake, Mich., and later entered Kansas University. In the last half of his senior year he was commissioned a lieutenant of marines, and is said to have been the first officer so appointed from civil life. Following such appointment he was at Annapolis for a year before being assigned to active service. He spent several years in the Philippines and was in China at the time of the second Boxer uprising. In 1913 he resigned his commission, and afterwards engaged in business in Kansas City, Mo., and Denver, Colo.

Upon the declaration of war with Germany, in April, 1917, he again offered his services and was commissioned first lieutenant of infantry. Later he was promoted to a captaincy and went to France with the 89th Division last June. His mother, Mrs. A. H. Ellis, and his brother, Hale Ellis, reside at 4112 Chestnut avenue, Kansas City. His wife, who is the daughter of Commodore Gearing, U. S. N., retired, with his son, Halstead, are at present with her parents at Cobourg, Ontario.—Topeka Journal.

CAPTAIN WARD ELLIS NOT KILLED

Nu

Letter Informs Relatives He is Recovering from Shell Wounds

Just as we were "pulling page proof" comes the cheering message given below. Since it was too late to change the black border around his name in the Knights of the Republic, we are leaving the notice of Brother Ellis's death stand as corrected, as follows:

A letter contradicting the report that Captain Ward Ellis, serving with the Eighty-ninth Division, had been killed in battle on September 19, was received yesterday by his uncle, E. C. Ellis, a former congressman. The name of Captain Ellis appeared in a casualty list several weeks ago. The letter stated that he had left a French base hospital, where he had been recovering from shell wounds. He is the son of the late A. H. Ellis, formerly supreme court judge of Kansas.

MERLE VANDEVER MARTIN

Nu

Van Martin, a well known attorney, Hutchinson, Kansas, is dead at Seattle, Washington, where he was attending the University of Washington. He left home a month ago to join the aircraft division. He is the son of Judge and Mrs. F. L. Martin and was associated with his father in the law business. He graduated from Kansas University four years ago and shortly afterwards was married to Miss Marguerite Graybill. His mother returned Sunday night from an Atlantic port, where she said good-bye to another son, John Martin, also of Nu Chapter, and in the Aviation Corps, who sailed for France.

WILL SAMUEL MURPHY

Nu

Brother Will Samuel Murphy was killed at Presidio, California, while in the Medical Corps.

CHARLES JUDSON MCGREW

Beta Beta

[See the Regent's story of Brother McGrew's death and his pictures there.—The Editor.]

Lieutenant Charles J. McGrew of the famous 167th Infantry, was killed in the attack on Ferre-en-Tardenois on July 25, 1918.

His death was a glorious example of the highest expression of knighthood. Brother McGrew graduated from Depauw University in 1910. He was not naturally a soldier. He said to the writer on the day after he had won his commission in the First Officers' Training Camp, that he was not cut out to be a soldier, but wanted to "do his bit." How gloriously he did this is told by our Regent, Brother Burr, who was in a few yards of Brother McGrew when he fell and had the sad privilege of burying the body and bringing back to the grief-stricken parents the articles found on the body.

Brother McGrew's battalion was fighting against machine guns and artillery in the thick woods below Ferre-en-Tardenois. They were in the midst of intense darkness and a terrific rain storm. Suddenly a French battalion in the left of Brother McGrew's company gave way and the Germans pressed forward on the flank. Brother McGrew at once left the trench where he had partial protection and with his company charged the Germans with the bayonet. He was struck in the arm, but did not pause until at the moment the Germans were overcome, he fell, killed instantly with a machine gun bullet. Brother Lieutenant E. R. McGrew, a younger brother, was in the same battle, but did not know this fact until afterward.

LIEUTENANT EDMUND D. WELLS

Beta Kappa

Each name in the American casualty list represents its own separate tragedy. To the great mass of people these names are nothing but names; to a few loving hearts each name brings life's bitterest grief.

Lieutenant Edmond David Wells represented the highest type of American officer. He had given up his college career to enlist in the first training camp. He had been a splendid student, a remarkable athlete, one of Beta Kappa's best. In the field, for almost a year of active service with the Rainbow Division, he had lived up to the highest traditions of the service. His first lieutenantcy had come to him less than two weeks before his death at St. Mihiel.

Brother Wells played an important part in the Kansas Aggie football team of 1916 and was given at the end of the season all-Missouri-Valley full back. He also played

as all-valley guard in the 1916-'17 Kansas Aggie basket ball team, thus making two all-valley positions in a single season. During the second semester of the same year he was Beta Kappa's eminent commander.

To his mother, Mrs. Odessa Wells, of Wichita, Kansas, and to Miss Mary Keller, also of Wichita, to whom Brother Wells was engaged, our Fraternity offers its deepest sympathy.

H. A. O'BRIEN, Reporter.

Edmond David Wells
Beta Kappa

SANFORD MILLER BROWN

Beta Xi-Rho

Lieutenant Sanford Brown was killed in action in France September 25. No details were given.

Lieutenant Brown was a graduate of William Jewell College and the University of Missouri. Soon after war was declared, he left a position with the Commonwealth National Bank to attend the officers' training camp at Fort Riley. He was commissioned a second lieutenant. Lieutenant Brown later was assigned to the 35th Division as adjutant, and was promoted to first lieutenant at Camp Doniphan. He went to France with the division, and his last letter home said he had been recommended for a captaincy.

Besides his parents, Lieutenant Brown is survived by a brother, Captain Joseph Brown, with troops in France.—Kansas City, Mo., newspaper.

Brother Brown was a member of Ivanhoe

Lodge, A. F. & A. M., and from the Kansas City Freemason we add:

Several members of Ivanhoe Lodge went all the way to Camp Doniphan last spring and conferred the Master Mason degree on Brother Lieutenant Sanford M. Brown, who was at Camp Doniphan at the time. He was assigned to the 35th Division and went to France shortly afterwards. The elder brother, Joseph, is also a member of Ivanhoe Lodge, and is now a member of General Pershing's staff. Both boys early obtained a college and university education.

Dr. R. K. Maiden, editor of the Word and Way, of this city, has so beautifully and forcefully expressed our convictions about Sanford that we are glad to reprint it below:

"Sanford M. Brown, Jr.—A Tribute

So close is grandeur to our dust,
So near is God to man,
When duty whispers low, 'Thou must,'
The youth replies, 'I can.'"

On the battle front in France, the other day, the earthly career of Sanford M. Brown, Jr., was brought to a swift close.

Immediately following our country's declaration of war, Sanford and Joseph, his older brother, offered their services to their country. They enlisted and went to Camp Funston, where they took a thorough course of training, both winning official rank. Both boys had a college and university education. Joseph was just getting fairly established in the legal profession when he volunteered to help win the cause for human liberty and human rights. Sanford was just getting started on a promising business career. In the early summer the boys went to France and later to the front.

ENSIGN JOSEPH FAUSSETT BELLAK

Beta Rho

Ensign Joseph Faussett Bellak, aged 29, a graduate of the University of Pennsylvania, and valedictorian of the class of 1907 at the Penn Charter School, a son of the late Leopold W. Bellak, of this city, died suddenly this morning at 2102 L St., N. W., Washington, D. C., from pneumonia. He was taken ill with influenza a few days ago.

Bellak enlisted at the outbreak of the war, and was appointed to the Legal Department of the Navy, with the rank of ensign. His mother was with him at the time of his death.—Philadelphia Evening Bulletin, October 4, 1918.

Brother Joseph Faussett Bellak died in the service of his country October 4, from an attack of bronchial pneumonia. He answered bravely to the summons "over there" calling him across the Sea of Time to Eternity.

Ensign Bellak, as he was known in Washington, was popular in both civilian and military circles. His death took place on the eve of receiving his commission as a lieutenant in the Military Intelligence Department. A military funeral was held in Washington on October 6, and officers of the navy accompanied his body to his old home in Philadelphia, where he was laid to rest with appropriate honors.

Brother Bellak was a member of Beta Rho and was affiliated with the Washington Alumni Chapter of Sigma Nu. He was graduated from Brown Preparatory School, Penn Charter, and the Law Department of the University of Pennsylvania, after which he entered the practice of law and won success.

Joseph Faussett Bellak
Beta Rho

No greater tribute could be paid to the memory of Brother Bellak than this. He was a Knight; his creed the Creed of Sigma Nu.

His demise was a sudden and severe shock to his Brothers and friends, and a bereaved mother is left to suffer her sorrow alone. In the Chapter House at Washington is a handsome piano, the gift of an affectionate parent, an untiring friend of the Fraternity. Attached to it is a bronze tablet on which is inscribed the name of a Brother whose loss his Fraternity and country sorely feel.

Well might the inscription bear the simple legend, There was a man.

CAPTAIN NORMAN M. SHAW,
Gamma Beta.

ARTHUR WILLIAM LA FLAMME

Beta Rho

Brother Arthur William La Flamme, Merchant Marine, died in Boston, of pneumonia, some time in October, 1918.

DAVID RUPP

Beta Rho

Captain David Rupp, of Wayne, Pa., was killed in action in France, September 30, 1918.

ROBERT FORSYTHE PELOUZE

Beta Chi

Reported by Lieutenant W. O. Rose, Beta Chi, as having died of spinal meningitis at one of the camps.

JOHN HAROLD BUCKLEY

Gamma Kappa

It is my sad duty to notify you of the death on September 27, 1918, of Brother John Harold Buckley, University of Colorado, in a collision of two air-planes while forming for a patrol over the lines.

Brother Buckley has been known to me since last June, and in his loss the Fraternity suffers the loss of a man more worthy than most of us to bear the badge of Sigma Nu, while at the same time it can be proud of the sacrifice of one of its most noble sons to a noble cause.

Both men who crashed were killed, the other being Lieutenant Kenneth Bell, a Delta Kappa Epsilon of Pasadena, Calif.

Brother Buckley was originally commissioned a second lieutenant in the Air Service, but since being at the front had been recommissioned as a first lieutenant.

JOHN F. MERRILL,

Gamma Delta-Gamma Lambda.

First Lieutenant.

FRANK J. OLIVER

Gamma Rho

The Chicago Tribune reports: Cadet Frank J. Oliver of the United States Aviation Corps, was killed in September, 1918, in an airplane accident at the flying field at Waco, Tex. He was a student at the University of Chicago when he enlisted last December. His home is in Sioux City, Iowa.

ANDREW G. SULLIVAN,
Gamma Rho.

The solid field of fifty blue stars in Gamma Rho's service flag is broken. A gold star appears in their midst. It is to commemorate the death of Frank J. Oliver,

a Brother who will always be held dear in the hearts of Gamma Rho. He was as patriotic as he was loyal to Sigma Nu. He started his army career by entering the officers' training camp at Fort Sheridan, Ill., but failed to obtain his commission. He then entered the fall quarter of the University of Chicago, during which he was pledged. He was initiated November 20, 1918. Shortly after he enlisted in the Aviation Corps of the United States Army and left for Cornell University to take up his ground work. He later became a cadet and left for the flying school at Waco, Tex. During a flight he lost control of his machine and fell three hundred feet to the ground. The accident resulted in injuries to his head so that it was necessary to give up flying for a while. He went through about five operations and was again able to return to the flying school. On the twelfth of September his machine collided with that of another pilot three hundred feet up in the air and this fall resulted in his death. The body was shipped to Onawa, Iowa, where it was interred. The loss is mourned deeply by all members of Gamma Rho.

JOS. B. HALL, Reporter.

ALEXANDER VIVIAN GREER

Gamma Psi

Brother Alexander Vivian Greer died of pneumonia in Camp Sherman, Ohio, October 2, 1918. He was the son of Mr. and Mrs. James Greer, of West New York, New Jersey. He was initiated into Gamma Psi of Sigma Nu in 1913, and graduated from Syracuse University in 1915 as a mechanical engineer.

After graduating he took a position with the Goodyear Rubber Co., Akron, Ohio, and when this country entered the war, sought to enlist but was rejected on account of his health. He resigned his position and spent a good deal of his time at Ivy Lea, Ontario, in order to regain his health. Being classed as unfit for military service by his draft board, he later took a special examination and was classed for limited service. Still later he passed another examination, was classed A-1 and was sent to Camp Sherman, Ohio.

His body, escorted by a sergeant from his company, was sent to West New York for burial.

HENRY J. HELK,

"ROSIE," LOMBARD STAR, HITS LINE FOR LAST TIME

Galesburg Loses First of Her Ft. Sheridan
Officers on the Western Front

Lieutenant Carl O. Rosequist, Lombard athlete, and idol of the east side campus, and later commander of a company of infantry on the western front, has been wounded in battle, has answered taps, and he is now honored as the first Lombard hero to make the supreme sacrifice. All Lombard is in mourning over the tragedy that was announced in the casualty lists of this morning.

"Rosie" Saw Real Action.

"Rosie," as he was known to students and faculty alike, was in the thick of the fighting in Europe—probably in the Lorraine sector. He went across the seas shortly after being awarded the commission of first lieutenant from the first Reserve Officers' Training Camp at Fort Sheridan, arriving on French soil early in September.

Following the preliminaries, he led his men into the front-line trenches. Here they faced the Huns, repulsed attacks, took part in raids, and played the game of war for seven weeks. "Rosie" then left the front trenches for a short period.

During this time he wrote a letter to friends at the college. He told of his ex-

periences enthusiastically, and said he was going back to his company at the front within a short time to reinforce the command.

He went—this time as company commander, although his official title was still lieutenant. He entered the zone of extreme danger for the second time about six weeks ago, friends believe.

Wound Proves Fatal

A week ago a message was received by friends at Lewistown, Ill., stating that he had been wounded. It did not tell of the extent of the injuries. This morning the casualty list briefly said: "Lieutenant Carl Rosequist, died of wounds."

"Rosie's" home is at Evanston. He leaves no close relatives, for he was an orphan, and had no brothers or sisters, friends here say. He was born at Evanston on October 7, 1893.

His towering figure was a familiar one to followers of the gridiron, basketball and baseball for four years before his graduation in the spring of 1916.

The big athlete came to Lombard College five years ago. He immediately assumed prominence in sports. He was the fighting kind of a boy and a clean sportsman. Four consecutive years he played on the Lombard football team. The third year the big fullback was chosen captain of the eleven. The next year he was captain of the basketball team. He was on the basketball team two years. He played baseball with the Lombard nine for two years. In addition, he had served as baseball, football and basketball manager. His prowess caused an enlarged photograph of him to be hung in "Old Main." He was a member of the Sigma Nu Fraternity.

Taught in Lewistown.

Following his graduation, he taught at the Lewistown High School, and also acted as coach of athletics. Then the war broke out and friends of "Rosie" were not surprised when he snapped his books shut and rushed away to Fort Sheridan. He was not sent to a camp in this country following the granting of commissions. He was made a first lieutenant, and Uncle Sam had immediate use for him in France. He went. He went "over the top" many times, but was wounded only once, and then mortally.

"Rosie" Hit the Line Hard

"Rosie" hit that western line hard. He always did hit the line hard. He was one of the first to go over the top 'over there.' He played the game hard, and he played the

game fair. They can't get a sub that'll fill his shoes."

That is the tribute a fellow athlete accorded the veteran of the gridiron—and of the present war.—Galesburg Evening Mail.

FERNEY GEORGE SNARE

Delta Xi

Brother Ferney George Snare died in the service at Camp Sheridan, Ala., October 21, 1918. His death was the result of an attack of influenza. He was well known in Reno, Nevada, having lived in that city since 1901.

Brother Snare was a junior student in our College of Agriculture when he entered the military service. He was an honor student in all of his agricultural work, a popular glee club man, and took an active part

Ferney George Snare
Delta Xi

in many of the university functions, during the short time he was a member of Delta Xi Chapter. His influence with the junior members of the Chapter was of great value to the Fraternity. We deeply feel his loss as an active worker in university circles and in the Delta Xi Chapter of the Sigma Nu Fraternity.

On June 28, 1918, he was made a sergeant in the Development Bureau at Camp Sheridan. He was later transferred to Company K, 67th Infantry, awaiting transfer to the officers' training camp.

Knights of the Republic

*"To guard with jealous care * * * the ancient rights of human freedom, in whose name we shall destroy all wrong and oppression, * * * And so to be faithful to the Knighthood of Truth."—The Creed of Sigma Nu.*

Our thanks are due to the Chapter Reporters and Alumni correspondents who are taking a keen interest in keeping our Honor Roll up-to-date and complete. Every reader, your co-operation is necessary to an accurate record.

The War Department has asked that military addresses be not published, and hence they are to be hereafter omitted. But we must have them in all cases, for our mailing list, to insure every Sigma Nu Knight-in-Arms the regular receipt of his Delta.

Remember we often have several men of the same name, so that as full information as you can obtain about a man is sometimes necessary for identification.

Brother Hill Ferguson tips our readers of the Delta off to a good thing. Write every Knight of the Republic you know a letter or postcard as a Christmas or New Year's greeting. What inspiration would it not mean to our soldiers in camp and in trench a personal word from Sigma Nus they know.—The Editor.

We want the name of each chivalric son that it may be enrolled in the immortal scroll of our history. We honor and love all of them. We shall pray for them through the bivouac and the battle. We shall watch for their return, and living or dead we shall hold them in cherished memory, immortal.—Walter J. Sears, Nu-Beta Nu.

Greek News

By PAST REGENT ALBERT H. WILSON

Hon. Henry H. McCorkle, Phi Kappa Psi, New York City, has been chosen secretary of the Inter-Fraternity Conference to fill the place left vacant by the resignation of the secretary elected at the last Conference, Albert H. Wilson, Sigma Nu, who goes for war work in France. Mr. McCorkle has just concluded his term as president of the Phi Kappa Psi Fraternity.

Phi Kappa Tau has placed her first Pennsylvania Chapter at Muhlenburgh College, Allentown, and will provide a friendly rival for Alpha Tau Omega which Fraternity has been the lone occupant there for a great number of years.

Alpha Xi Delta Sorority announces the establishment of Chapters at Coe College, Iowa, and at Cornell University, New York. Alpha Xi Delta now numbers twenty-seven Chapters all living and none dead.

Alpha Phi Sorority has entered Montana University and will meet Delta Gamma, Kappa Kappa Gamma and Kappa Alpha Theta.

Alpha Tau Omega has established her second Texas Chapter at the Southern Methodist University, Dallas, Texas. The Chapter was installed at the beginning of the new college year and will meet Kappa Alpha, Pi Kappa, Alpha, and several locals petitioning national organizations.

The Omega Phi local, Wesleyan University, Connecticut, is petitioning the Delta Upsilon Fraternity for charter privileges. Years ago the Delta Upsilon was active at Wesleyan, but for some time the Chapter there has been dormant. Omega Phi desires to revive the Chapter.

Lambda Chi Alpha in entering Cumberland University, Tennessee, has shown a spirit of great daring or has become a firm believer in the "rabbit foot" as able to overcome the proverbial graveyard shivers. Cumberland is the real cemetery for Greek letter fraternities when it is considered that fraternities are not prohibited by the university authorities. Here are the tombstones at Cumberland: Beta Theta Pi, Delta Kappa Epsilon, Delta Psi, Alpha Delta Phi, Phi Kappa Sigma, Phi Kappa Psi, Chi Phi, Alpha Tau Omega, Phi Gamma Delta, Sigma Chi, Pi Kappa Alpha. *The active chapters at Cumberland are:*

Sigma Alpha Epsilon, Kappa Sigma, Delta Sigma Phi and Lambda Chi Alpha.

At the annual convention of the Beta Theta Pi Fraternity, held at White Sulphur Springs the first of July, Mr. Francis W. Shepardson, Urbana, Ill., and recently of Chicago, was chosen president of the fraternity. Mr. Shepardson is one of the foremost fraternity men of the country and is versed in knowledge of all the fraternities as shown in his work as chairman of the Inter-Fraternity Conference. Beta Theta Pi considered, among other applications, petitions from North Dakota University, Southern Methodist University, Oklahoma Agricultural College and Trinity College, North Carolina.

Alpha Tau Omega has purchased a fine plat of ground at Mount Union College, Alliance, Ohio, and will build thereon immediately. With the ownership of this House, all the Fraternities at Mount Union College will have become their own landlords.

Sigma Pi has entered Chapters at the Iowa State College and Franklin and Marshall College.

Kappa Kappa Gamma is the second sorority to enter at the University of New Mexico. Pi Mu was the pioneer of all the sororities and fraternities at this university. The men's societies at New Mexico are Pi Kappa Alpha and the Sigma Chi.

Sigma Nu in entering Bowdoin College, Maine, has added her second chapter within the State of Maine and her sixth within the New England States. At Bowdoin the fraternity will meet chapters of Alpha Delta Phi, Psi Upsilon, Delta Kappa Epsilon, Theta Delta Chi, Delta Upsilon, Zeta Psi, Kappa Sigma, and Beta Theta Pi. Also the local Phi Theta Upsilon petitioning the Chi Psi.

Drake University, Des Moines, Iowa, is under the ban as to national fraternities, but is the possessor of well organized and well equipped local societies that function all the works of national chapters. These locals are: Gamma Sigma Kappa, Chi Delta, Tau Psi, Kappa Lambda, and Phi Gamma Lambda. Sigma Nu is the only national ever to be established at Drake and entered there in 1891, but was barred by the faculty ruling in 1894, after fifteen men had been initiated.

Clippings and Comment

PHI GAMMA DELTA APPEALS TO ALUMNI

Phi Gamma Delta of October features an appeal of the National Secretary, to the alumni as a means of holding the activities of the Fraternity through the war crisis. We predict a new impulse of service on the part of many alumni of the college Fraternities as a result of these war days and the magnificent examples of unselfish service by the whole body of the younger men.

"Phi Gamma Delta is now facing its greatest crisis. Its future rests this year in the hands of each individual member. In the behalf of all our Brothers who have gone before, who now are, and who, we hope, are yet to be, you are called upon to give your time and your thought in this emergency. No matter how many years you have been out of college, or for how long you have lost touch with your Chapter, visit it at the earliest possible moment, write to its members, proffer your services or your advice. If you have any suggestions, and it is to be hoped that you will have many, as to what the Board of Archons should do, give them the encouragement and support of writing to the National Secretary's office. If you have no suggestions to make, write them anyway a word of greeting, thereby showing them your interest."

THE DEGENERACY OF AGE

The Caduceus of Kappa Sigma, under the title "Could a Tale Unfold—But Ought He?" notes the rapid extension of Lambda Chi Alpha—thirteen charters issued in the college year 1917-1918, seven in one day, and goes on to quote the editor and founder of that Fraternity:

"I have quieted many a Fraternity man in undergraduate Chapters when he has commenced this 'youth and no history' rating of a young organization, by reciting some of the many interesting tales to him about his own organization that he never dreamed existed. I have found the best cure for these knockers who believe in living on their predecessor's laurels is to enlighten them about the inner secrets of their own organization which these upperclassmen overlooked when they were initiated. And then follows a most astonishing statement: 'For in my travels I find the older the Fraternity, the greater chains of ill doings attached to it.'"

"These sentences, though colloquially phrased, are all too clear," remarks the

editor of The Caduceus. "The oftener we read, the more we wonder."

Marcus Aurelius is undoubtedly right in saying, "Happy is the nation that has no history, for history is the narration of the unpleasant—war, famine, and calamities—through which the world rises." The older a man grows, the greater his burden of cares and troubles. "Then I thought of the days I would fain erase, more clouded skies than blue," a poet once put it. In Fraternity history no doubt there are pages of dark days, not written, because the shadows are displaced by the sunshine of triumph over them. "It isn't the fact that you're down that counts," as another poet says, "but only how did you take it?"

As the words of our Brother editor of Lambda Chi Alpha stand, they are the severest indictment of fraternities we have ever heard. Indeed, we offer to him what sympathy and condolence we can summon, as we gaze upon the awful fate toward which he announces his Fraternity is now fast hastening.

PHI KAPPA PSI APPEALS TO ALUMNI

The Shield of Phi Kappa Psi in its October, 1918, issue announces a reduction in size during the war and makes a special appeal to its alumni to make up in number of subscriptions the "exceeding small" number of subscriptions expected from the undergraduates.

Appeal is also made to buy war savings stamps and contribute same to the endowment fund. The plan is as follows:

"Let all good Phi Psiis buy as many war savings stamps as possible and then turn them over to Phi Kappa Psi's endowment fund. This plan offers an unusual opportunity to help one's country and one's Fraternity."

AN EMERGENCY FUND

Delta Upsilon has inaugurated an emergency fund, to be procured from a new alumni tax which includes a subscription to The Delta Upsilon Quarterly. The payment of this tax gives the alumnus an "active" relation to his local Chapter.

"It is not your own Chapter that is in danger; the appeal of that is strong. It is the General Fraternity, the central body which gives life to the branches and through which all progress in internal and external development is made, for which The Emergency Fund issues its appeal."

Editor's Miscellany

AN EMBLEM OF "SERVICE"

In the October Delta there appeared two suggestions with reference to the adoption by the Fraternity of some distinctive badge or insignia to be authorized for wear by members in the military service, in recognition of their patriotism and of the fulfillment of their fraternal obligations. This subject is one which has interested me for some little time, and I am glad to find that there are others who recognize the desirability of adopting such an emblem. The way is thus opened for discussion, and, if the plan finally appears to be feasible, for definite action on the part of the High Council.

The project would seem to fall into two separate classes, namely, some insignia which could be worn on the uniform by members while in the military service (or, at any rate, on "state" occasions after peace has been declared); or some device, perhaps attached to a standard badge, for wear after our fighters have been returned to civilian life.

The success of the first proposition rests, of course, on the possibility of obtaining permission from the Secretary of War for our members to wear a distinctive ribbon, similar in nature to the ribbons indicating good conduct, foreign campaigns, medals of honor, etc. Our organization, it should be recalled, is a military order, and since other military orders, such as the Sons of the American Revolution, have authorized ribbons for wear on army uniforms, it is possible that permission can be obtained for the adoption of such an emblem by Sigma Nu. Such a ribbon would form a very effective means of identification, besides constantly reminding its wearer of the principles upon which our order was founded. My suggestion for the ribbon would be a piece of black ribbon, of the prescribed size, with a narrow stripe of gold near each end and a somewhat wider stripe of white through the center.

The second proposition opens a wide range of possibilities. One member has already suggested the adoption of a distinctive device to be attached to the standard badge by means of a short chain, after the manner of the so-called "guard", consisting of a miniature coat-of-arms or the Chapter letters cut out, worn by some members. No doubt our official jewelers could submit some excellent suggestions for the *design of such a device*. I have also sug-

gested that, if not interpreted to be contrary to the law, some sort of additional layer could be attached directly to the badge, although, of course, not really becoming a part thereof. For instance, a red, or blue, or white, five-armed disc, conforming to the outlines of the standard badge, and slightly larger, could be attached on the back of the badge, so that the edge would project over the last gold line. Or a thin ring of gold could be made to encircle the badge, like a circumscribed star. Or perhaps an entirely separate auxiliary badge would be more feasible of adoption.

I present this little discussion for what it may be worth and invite other members, in service or out, to express their sentiments. Then, if after mature deliberation the scheme appears advisable, some suitable plan can be worked out by order of the High Council, and in a manner to bring credit to the Fraternity and to the members entitled to wear this special emblem of SERVICE.

LIEUTENANT GEORGE A. CHANDLER,
Gamma Lambda.

THIS IS THE WAY

[The following letter with check for full amount owed to his Chapter has been sent us in answer to our collection letters:

Its strange that every brother who pays in full always wants to do something for the Brotherhood or wants to hear from us.

We wish several hundred other delinquent Brothers would get a "hankering" for this kind of feeling.—The Editor.]

Dear Old Sigma Nu:

I am in the peculiar position of being able to inform one of my rather lengthy creditors that I am not sorry to have paid an account. I imagine that at this time it will be more acceptable and of more use than any other time.

It's a grand old war anyway you take it, and one of Sigma Nu should be justly proud of the part we are taking in it.

There are several Sigs in the regiment, so that we can enjoy all news that any of us receive.

Let me hear from you once in a while if anything special comes up.

Fraternally,
....., Gamma Omicron.

Chapter Book Shelf

GENERAL CATALOGUE OF THE SIGMA NU FRATERNITY. Published for the Fraternity under the direction of the High Council, 1918.

The new Sigma Nu Catalogue is at last off the press. Its formidable proportions, with its 668 closely printed pages, is at once a reminder of our wonderful growth and a source of pride to many an older Brother who can distinctly remember the slender volume which constituted our first catalogue.

The price of this volume seemed on first thought to be very large to many of us. When, however, we begin to look through these pages so full of fascination to every Sigma Nu, and realize the infinite amount of painstaking detail involved in its compilation, we are surprised that any private company should have undertaken the task without a subsidy on the part of the general Fraternity. Its cost after all is modest in return for the wealth of information which it contains.

A statistical study of the Catalogue reveals the fact that we have now a total number of 13,899 initiates. There have been 505 deaths, 134 have been expelled, and there are 731 duplications by affiliation. This leaves a net grand total of 12,529 Brothers.

It is also interesting to note the varying growth of the Chapters chartered in similar periods of time.

The Chapter which leads us all in point of number of initiates is old Theta with her grand total of 411. Theta has been a well-spring of Sigma Nu vitality ever since her founding. For a number of years she had to exist sub rosa on account of hostile legislation, but exist she did, initiating a class every year of her history, save three. Next to Theta comes Mu with her 333 Knights.

Among the group of Beta Chapters, Beta Iota stands out alone with 280 members on her initiate's roll. This record is the more remarkable in that this Chapter's college is so small in comparison with many other schools embraced in this group. We have few, if any, Chapter histories recording a Chapter activity so uniformly and so consistently faithful to the ideals of Sigma Nu. Beta Zeta stands second in this group with 259 initiates.

In the Gamma group of Chapters Gamma Alpha has steadily maintained her "Alpha" place in numbers as well as in years. She

has 248 initiates with Mu Chapter in second place with 224.

In the Delta group, we find Delta Theta leading with 176 initiates. Delta Theta, despite her name, which places in the latter part of the Catalogue, is an old Chapter with traditions already. Delta Beta, a new, comparatively, Chapter, follows close behind with 171 members.

As we spend this evening turning the leaves of this new directory, finding names and life histories here and there of Brothers we had lost track of through the swift pursuing years we close the volume with a sigh of satisfaction and know that if it had cost us twice six "bucks" in these war days, we still would have been richly repaid. The names and dates recorded in this volume bring back again memories which cannot be measured in terms of dollars.

ZANE GREY IN CAMP

The A. L. A. (American Library Association) is one of the social organizations working for the welfare of our soldiers in camp. It now asks for \$3,500,000 as its proportion of the United War Work Fund of \$170,000,000 to be raised in December. It also asks for contributions of books—new books, interesting books.

While text books and other solid reading are eagerly sought for, the big demand is for fiction for the soldier's leisure hours. The Literary Digest, quoting the Chicago News, gives a list of fiction writers whose books are called for in the camp libraries, and lo! under the division of fiction, Brother Zane Grey, Beta Rho, leads all the rest. The others are Edgar Rice Burroughs, Rex Beach, Jack London, and Harold Bell Wright.

We are happy to add this comment by Corporal Clyde E. Stevens, Delta Psi, as a soldier's testimony on our Brother author's popularity:

In the copy of "Desert Gold" by Brother Zane Grey, Beta Rho, in the Main Camp Library at Camp Meade, Md., is the following inscription:

"This author is one of my favorites and in my opinion is one of the very best writers of western stories to be found. This book is up to par and is a fine example of the author's best work.

"M. M. C., Washington, D. C."

Pickwick Club

By MR. SAMUEL PICKWICK, Esq., G. C., M. P. C.

THE POSTHUMOROUS PAPERS OF THE PICKWICK CLUB

Containing a Faithful Record of the Perambulations, Perils, Travels, Adventures and Sporting Transactions of the Corresponding Members

TRADE-MARKS

The value of a trade-mark to a business house is often beyond the measure of dollars and cents. The Preacher assured Mr. Pickwick one time, not from the pulpit, he admits, "that a good name is more to be chosen than great riches." Some names still stand as land marks of Sigma Nu. These names to our Fraternity mean more than riches.

Just the other day our past advisor to Theta Chapter sent in an interesting account of his experiences in Italy as a Red Cross lieutenant. He sends it to Clarence E. Woods, editor of The Delta, Lemcke Building, Indianapolis.

And then, a few days later, Delta Theta Chapter mailed in initiation blanks to Grant W. Harrington, Grand Recorder, Sigma Nu Fraternity.

Thus the names endure and our Brothers think of them when they think of Sigma Nu.

A PERAMBULATOR OF ADHESIVE TEMPERAMENT

Mr. Pickwick cannot refrain from special mention of one of our Corresponding Members, whose faithful accounts of his perambulations has so greatly enriched this Noble Collection of Tales, namely Much-hash Togo, our Japanese recruit. Lest some Brother rises to object to an assumed violation of the law, we must disclose that under this name is cloaked the august dignity of Brother George A. Chandler, of Gamma Lambda Chapter and the U. S. Army.

Togo has a naive way of doing, as you might expect, the unexpected, through his literal interpretation of orders. His American instigator, however, has a "literal" way of doing what many other Brothers should do and don't—of keeping up Gamma Lambda's end in the Delta, as well as in the Pickwick Club. Pickwickians, here is

an example for all of you—a regular contributor of actions and transactions. He sticks to it!

SPICE CAKES

Mr. Pickwick has already referred to the colyum in the Fort Des Moines Post, so ably conducted by Brother Donald Krull, Gamma Mu, under the heading "Krullers." Here is a good description of his efforts by a feminine friend of his at the Post Red Cross Hospital. Mr. Pickwick is most happy to learn that Brother Krull's literary effects are so deeply appreciated and that he is sung and honored among his own. We quote effusively and at length:

"The following was submitted by two nurses who were in Ward 14 under observation for the Spanish 'flu.' The reader's attention is called to that fact in order that no blame be laid on the editors of the 'Post.'

"The nurses thought Krullers were doughnuts until they came to Fort Des Moines. Now they know a Kruller is a spice cake. MISS CATHERINE GRAHAM, A. N. C.'

"(Krull apologizes most fluently for anything which might have gained for him the title of 'spicy.' He tried to write for 'Snappy Stories' once, but never for 'Spicy Stories.')"

KRULLERS

Now that Krother Krull has been formally indicted for the ingredients that he puts into his "Krullers," Mr. Pickwick feels it his duty to come to his defense and urges furthermore that all Members of the United Society of Pickwickians rally to the attack. Let not the name of an active perambulator and sporting adventurer be so falsely maligned and his mental offspring impugned.

As a protecting barrage Mr. Pickwick submits the following extracts from the "Krullers" as evidence of Brother Krull's soul of integrity and honor:

"Quotes from our own Scripture: It's easy to jump over the iron bars on the fence, but it's harder to crawl through those in the 'hoozegow.'"

"A private is a private, a sergeant is a sergeant, and a lieutenant a lieutenant, but

an acting corporal is nothing short of a major-general."

"Some fellows come into an office on business and others just naturally hang around."

And to show what kind of reading occupies his leisure moments, we will close with Brother Krull's terse closure: "Now we can go back to our Black Cat Magazine until next week."

TOGO ASKS YOU TO BEWARE "FAKE" STORIES

To all Unified Picnics, et al.:

To describe of two small incidentals happening to occur in army camp are my duty to this so Glorious Corporation, because of fake stories generously spread on.

This guard, to whom so great advertising is presented in joke and other humor columns, are rookey in character, having all new scouting clothes of similar color presented to members of O. D. Club. Promenading at extreme of bridge one darkly night, his peeled eye fall upon sneakish figure crossing thereover. "Whoa," he blat, deluging Spearhead juice into river, "Who bane you, and if so advance kindly at one time." "Can all such" grump that shadow, "Do you not comprehend that I am elected Officer of Day and are Head Boss in these parts?" "Tell to Marine Corpse," corrode that gunman, "For if Officer of Day, how come you to be out beyond dark at night? Better to have pass next time, for rules cannot be thus engulfed."

While above is transposing, another dim intrusion are seen coming, but this time none but I, pilfering back to sleep-couch for somnolence. Again catechism: "Halt, are you there?" "Only me, and no booze." "Advance separately and be reconnized." "This are snickering farce!" I unload. "You are at this joint only 2 days, so how pretentious you are to be acquainted of me?" Expostulation would be impolite, on acct. of hari-kari dagger attached to gun, so I step to this guard-boob and introduce, with hand-shake.

This last incidence so demogrifies that Daily Officer that he burst out of silence like hyena and chortle, "You of almond face, return to ¼s; you of stab-gun continue traveling, but never more such flip-pish talk to collar jewelry agent."

Kindly, Hon. Sammy of alphabet fame, or who else is Sec'y, note with care the words of this report, for such is accurate record of two famous militia transpirations.

"MUCH-HASH TOGO."

(LIEUTENANT GEORGE A. CHANDLER, Gamma Lambda.)

THE DOOR AJAR

A Glimpse Into the Barracks.

Mr. Samuel Pickwick, Esq., G. C., M. P. C.
Dear Sir:

War may be hell, but being a medical student at the present time is war to the nth power.

I blew in Saturday morning and went through the formality of registering and immediately afterward was assigned to my room. Oh! she's a daisy. There are seven of us in what last year was a dormitory double room. In addition to that we have without any extra charge two single beds for the seven of us. There is no heat nor hot water. We are not permitted to bring any of our personal property into the room because the red tape has not been completely unraveled.

The House has been commandeered by the Government for barracks. They have not been given any definite orders for immediate removal, so I have finally found a bed here. By way of illustration of the wonderful environment in which we all must work, they are going to quarter sixty-nine men where we could accommodate but nineteen in this House.

Today we were led to believe that we will probably be graduated in June. Here's a friendly tip. If that comes to pass and you are ever ill be sure to ask your doctor when he graduated. If you don't you may get one of these short order fellows who, conscientious though ignorant, will give you a dose of potassium cyanide for a cough. That undoubtedly will prevent the cough from bothering you any more, but it is not believed to be the best treatment.

Well, a fair damsel awaits me without, so I must hasten.

N. O. T. WHITE.

ALL IN A DAY'S WORK

Mr. Samuel Pickwick, Esq., G. C., M. P. C.
Dear Sir:

It is surprising what a varied lot of things a man will be asked to do. Just a sample: yesterday I helped to undress an observer who was killed in a fall. They ran into a balloon cable in the air. I did some property paper work in the forenoon. I ran through some specimen analyses in the laboratory. Assisted a dentist. Stopped a bad toothache, and acted as a Red Cross nurse all evening. And part of the afternoon I spent at band rehearsal. It's a great life. If you don't know how to do a thing, you do it anyway.

C. K. STONER, Delta Zeta.

BACK TO THE FARM!

College Boys Display a Sudden Agricultural Tendencies

Mr. Pickwick regrets that lack of space has crowded out this admirable essay on the sudden movement toward agriculture evident in our colleges in the spring of 1917. One corresponding member noted this trend with amazing perspicacity and deep power of thrilling description.

Mr. Samuel Pickwick, Esq., G. C., M. P. C.
Dear Sir:

Well, before we get started, what do you think of our man, Woodrow Wilson, by this time? I place more faith in him every day. Funny how one will rely so consistently on a certain leader. Of course, I am not un-mindful of the fact that Teddy R. is attempting to do what is needed and will possibly happen.

The boys are still leaving for the farm. Brother Samivel Veller was here today and tells exciting news from the agricultural front. You can imagine how vividly he describes it all. From every evidence he is actually doing real farm labor. For instance he tries only those cows that have the long teats. He lets those with the pimples go for some one else. His Pickwickian humor is clearly demonstrated in his descriptions and kept the gang considerably amused for a while.

Our college has quite a number of students who are suddenly becoming farmers or at least they are telling the dean that they are. These last weeks of school are not overly attractive, it would seem. The place will soon be deserted here if the guys keep on going.

I'm on the fence and as long as I can't get myself straightened out, I'll likely stay there. The big question is what will Congress do? What Congress needs is two good men like you and I. Say, wait a minute. I forgot Woodrow.

CHESTER K. STONER,
Delta Zeta.

Cleveland, Ohio,
April 25, 1917.

OLD MAN GLOOM

Mr. Pickwick recently heard a story that ran like this:

Lieutenant Eldred S. Barden, Delta Zeta, tells an interesting story of how he was walking down a street in camp on a bright and sunny morning. Upon a bench nearby sat the orderly of the day, with gloom smeared from ear to ear and a mouth that drooped at both corners and sagged in the middle. Eldred walked on for a moment, and then hastened over. "Well, well," sez 'e, "ma ol' friend Guzik, par moi foi!"

DELTA ZETA MEN IN OLD TROOP A

Laying Shells on "Dear Fritz"

Mr. Samuel Pickwick, Esq., G. C., M. P. C.
Dear Sir:

First we want to let you know that we three Sigs are still present at roll call; second, to tell you what Sig news we know; and third (and most important), to request an eight-page letter (typewritten) from you full of Fraternity news. Tell us of some of the Sigs we knew who are here; we may get a chance to look them up.

As you know, Brother Layton is no longer with us. Brother Cooper is somewhere over here, but we can't locate him. We left Brother Strock in America at the Officers' Training Camp, and expect him over here soon. Brother Terrell, Brother Pethtel and I are the only Sigs left in old Battery A. Brother Pethtel is a scout and a good one, as you may well believe. Brother Terrell and I spend our time figuring out the proper range to lay a shell on dear Fritz. We are all well—germ and German proof. It is our ambition to get a nice German helmet to send to the boys at the "House." It wouldn't look so bad beside the scholarship trophy, would it? Well, we're going after it!

France is a great place—the land of wine, you know. Omar lived in France, not Persia—there's a good thesis for a Phi Beta Kappa paper. Yes, France would make a fine place for a convention—ideal. And there's a big bunch of Sigs here!

DALE A. HARTMAN,
Delta Zeta.

FIRST CLASS FIGHTING MEN

Mr. Samuel Pickwick, Esq., G. C., M. P. C.
Dear Sir:

I am pleased indeed to learn of the number of Sigma Nus in the service and I know they will do their duty carrying the high ideals of our Fraternity with them on the battle field or wherever duty may call them. Unfortunately, as a man of family I am not privileged to go to war, but when they start calling on married men I am sure the country will obtain some first-class fighting men. Of course you do not get that, but both Fox and Newton will tell you what I mean.

CHARLES JUDSON SUPER,
Delta Zeta.

Mr. Pickwick is afraid, however, that these first-class fighting men must be affected by shell shock or trench fever, for the latest dispatch from the Hippodrome reads:

"I have fought and fought and ran, I'm one of an army that never won a battle—I'm a poor married man!"

SERGEANT LIGHTWEIGHT-FROM-THE-NECK-UP—BUT “ORDERS IS ORDERS”

Ye Right Honorable Samuel Pickwick, Esq.,
P. D. Q., S. O. S. Further deponent say-
eth not:

The only thing that enters my head at the present time is a bunch of things sprung here by one of the sergeants. He's all right in his way but doesn't weigh much from the neck up and pulls off some funny things now and then. I might submit this:

“All of the men who are illegible to vote in Des Moines County will report to me at once,” saith the top sergeant one morning, and, continuing with his orders, added, “We want you men out here two minutes after reveille on the balls and toes of your heels. Furthermore, you have been very lax on inspection and we want those shoes shined in your lockers.” It appeareth that some of the orders will be hard to fill, but orders are orders.

A most perplexing situation arose when this same said sergeant opened his mouth at drill and bellowed in a most amazing tone of voice, “Right left into front. Swing your arms in the opposite direction looking to the front. Be careful to keep in step; hey there, who is that fellow with both legs stuck into the air?”

The drill proceeded. “In marching, keep both feet in step,” bellowed our sergeant, “And don't crowd too close next to the fellow at the side of you, he might want to crowd away from you. Hey there, too far apart, move closer away from the other rank.

“If you guys can't get onto the drill, we'll learn you how. I believe every one of you is dead from the neck up. Now step out in full cadence at half step.

“From now on you men have got to be soldiers. If you can't be a soldier be one anyway. Underwear, socks and other bed clothing such as mattresses must be changed once a week whether they need it or not. Don't throw any paper with the exception of that what's wrapped around the cigarettes into the cuspidors.

“I've also noticed that some of the fellows have been smoking in the tents. Now we don't want no smoking in these here tents whatsoever, at all, none of it. You might catch the place on fire and then have to have a fire drill in the middle of the night and I know none of you would like that.

“In case some of you fellows can't understand my English, I'll tell you that dismissed means that I'm done with you. **DISMISSED!**”

Most sincerely and fraternally,
DON KRULL, Gamma Mu.

BEWARE THE LAWYERS

A Story With a Moral and a Morale

Mr. Samuel Pickwick, Esq., G. C., M. P. C.
Dear Sir:

Councilman Perry D. Caldwell, of Cleveland, is the general of the Nineteenth Ward, and is putting the Fourth Liberty Loan over the top as he put the Third. Last time General Caldwell's division raised, in dollars, the highest amount of any ward in Cleveland. Beat 'em all, he did, and way over the next in line. This time the prospects is the same, with our General in the saddle.

And this good news leads us to divulge a state secret—keep our old friend, Dwight Wertz, of the United States Department of Justice, out of the way—a secret that was told us no less than a score of times—and I hope Murray Goodrich learns it and lives to tell it to us. Here goes! At last, Perry confidentially let us in on it his self, so really our conscience is out of order or we wouldn't repeat it.

The Honorable Councilman was passing a church—yes, I said, passing—and noticed a large assemblage of men (voters they looked like) pouring in. Because of this unusual and unprecedented spectacle at such a place, our astute politician and learned-in-the-law counsellor (keep that fact in mind) hurls himself headlong into the midst of the “church-goers.” Once inside, he finds it a W. S. S. meeting, and the officials in charge enrolling the “Liberty Army.” Without further inquiry and amid a tumultuous round of enthusiastic applause, the City Father and learned-in-the-law counsellor—keep that fact in mind—plunges through the crowd like Brother Searl on the five-yard line, and beholds his name duly and lawfully inscribed upon the Roll of Honor, by the simple expedient of buying a 25c Thrift Stamp and signing a card. Then he turns, with a smile of hearty approval upon his face, and walks proudly home with his “Liberty” button in his lapel. Whereupon the assembly adjourned.

Next day the learned-in-the-law counsellor—keep that fact in mind—received a notification to the effect that he could purchase the \$1,000 worth of W. S. S. which he had pledged to buy, at his convenience within the next week, the earlier the better. And yet lawyers advise the common people to read papers before signing.

Moral—Vive la Patria et le Patriot!

THE “BAR ASSOCIATION”
of Cleveland.

AT MILITARY INSPECTION

Please Leave Your Razors in Your Tent.

Mr. Samuel Pickwick, Esq., G. C., M. P. C.
Dear Sir:

Since the time that I wrote you from Fort Sheridan, despite my guard duty and other lapses of military discipline, the Government has evidently gone crazy and awarded me a commission. And so instead of returning to school as I had expected, I am way up here a thousand miles away from God's country, trying to teach a bunch of men, half of whom can't understand English, their left foot from the right.

Since arriving here I have about come to understand why the Government gave me a commission. They wanted to stick somebody, so they picked on me. The first day I got here I was assigned to a negro Development Company, a company which one of the fellows in writing home to his girl described as suffering from slight physical disqualifications. I won't state what the disqualification is, because you might print this in The Delta. But if you want to know ask any army man what the Development Battalion is.

The day I arrived was Saturday and we had to get them ready for inspection. In a company of three hundred men there were four combs, five brushes, three tooth brushes—used for cleaning guns I think—and about two hundred razors. No negro would spend any time in close proximity of another without his razor. They use it to fulfill their social obligations. It took my company thirty-five minutes to fall out of the barracks and in line. These are the "noble black boys" that are giving their lives for our Country. Some four thousand of them at Camp Grant alone, who do nothing but eat and draw pay.

Well, I did not stay but two days in the Development Battalion. From there I went to the Depot Brigade and it looked like I was stuck for the duration of the war. But after two weeks we were transferred to the replacement camp. So my chances of going over before many months are pretty good. At present I have the distinction of belonging to the only provisional training battalion in the world composed purely of commission officers. You see the epidemic has held up the draft and in lieu of troops to train, we are being trained ourselves. We expect to be assigned to companies soon.

JOHN D. COFER, Upsilon.

SHIPS THAT PASS IN THE NIGHT

Mr. Samuel Pickwick, Esq., G. C., M. P. C.:
Dear Sir:

Wynne P. Harrington, Nu and Beta Chi, who is somewhere on the way to France

with the colors, writes: "When we were going from Chicago to the training camp we were let out of the cars at Birmingham to stretch our legs a few minutes. Then I heard a bunch of fellows raise the old K. U. yell. Went over and helped them. Then I asked in army language, 'Where did you get that?' They convinced me that they were right from the University itself and I said, 'Any Sigma Nus in the bunch?' 'I'm one,' said one of them. We shook hands, and just then the Captain said all aboard and we separated and I never saw him again."

GRANT W. HARRINGTON, Nu.

A STATE RELIGION

Brother Givan Believes in Pastoral Admonition

It dawned a bright unclouded Sunday morning and Sunday School Superintendent Clinton H. Givan, Beta Eta, walked briskly to his religious duties with nothing in his mind or on his conscience save the punctual fulfillment of the day's schedule of Bible classes. . . .

He rose in his place on the platform and solemnly intoned the announcements of the day. Then he said, "We will now turn to the lesson for April 4th."

Now it so happened that this Sunday was April 2, 1918. Remember, Brother Givan was a candidate for state representative in the Indiana primaries and the next Tuesday (April 4th) was election day.

After the lesson was duly read, the Elders gathered in the Pastor's study and cast a "straight" ballot for Brother Givan. And he won the nomination.

RUTH.

WHY POSTMEN MUST TAKE A CIVIL SERVICE EXAM

Mr. Samuel Pickwick, Esq., G. C., M. P. C.
Dear Sir:

I've wondered ever since reading it whether or not Brother Si Allen uses the same address for his correspondence as he gives in his book. If he does—pity the postmen!

CHESTER K. STONER, Delta Zeta.

The passage referred to is taken from "Washington Under Gas, or The Huns' Fate," by Lieutenant Si Allen, in three volumes, illustrated, and reads as follows:

"I am now in charge of the Miscellaneous and Emergency Unit of the Pyrotechnic Section of the Research Division of the Chemical Warfare Service, and I am stationed at the American University, which is the headquarters of the Research Division."

HELEN AT THE BAR.

Friday last in the United States District Court in the Postoffice Building, Judge Henry D. Clayton, of Alabama,* a quaint man, a "character," presiding.

Present, rich man, poor man, beggar man, thief—Jew, Greek, barbarian, bond and free.

Before the bar for sentence, Helen Johnson, negress, charge with selling whisky to a soldier.

Coming in through the windows the clang of the Liberty Loan bell in City Hall Park, with mingled street noises and murmurings.

Judge Clayton to the prisoner: "Helen Johnson, I want to say a few things to you, now that the evidence shows that you are guilty, as charged. I am not going to call you 'Mrs. Johnson.' Down where I came from we do not call negroes 'Mister' or 'Mistress'—we call them by their first names. But that is not to belittle them. I think that down there we understand the negro people better than do the folks up here. We have a deeper sympathy with them, because we know them. (Looking musingly through the window.) I have known negro people all my life. During the civil war my father was in the Confederate army. There were five of us children on the old plantation with mother and the negroes. There were Uncle Joshua and Aunt Rachel, and there was the slave woman who took care of me. And when we ran short of food she divided a little corn meal she had hoarded up between her own boy and me."

The judge was speaking in a low tone, but in the absolute quiet every word was heard as he went on:

"And, Helen, that woman loved me to her dying day—and I loved her. The negroes are a docile race—the most docile race in the world. They will do almost anything a white person tells them to do. Helen, I am going to make allowances for you. But I am going to punish you. The United States wants its soldiers to leave liquor alone, and the law says no one shall sell liquor to them. I am going to punish you with a fine of \$10. I want you to promise me, Helen, that never again so long as you live will you violate the law of the land or sell liquor to a soldier. Do you promise, Helen?"

"I promise I never will."

"Very well, Helen; you may go, and do not forget what I have said to you."

And Helen Johnson went out where the Stars and Stripes were radiant and where the band in City Hall Park was playing "The Battle Hymn of the Republic."—New York Tribune.

*Theta Chapter.

THE EDITOR'S PRESCIENCE.

Mr. Samuel Pickwick, Esq., G. C., M. P. C.
Dear Sir:

Brother Merle A. Dunn, Algiers, New Orleans, writes that in the same mail came an announcement of his acceptance to aviation and the October Delta announcing that he had entered aviation. Congratulations to the Editor on his foresight.

CARR PAYNE, Sigma.

Second Lieutenant, Infantry.

THE BATTLE OF FORT SILL

Special Wire by the Correspondent of the United Society of Pickwickians.

Mr. Samuel Pickwick, Esq., G. C., M. P. C.
Dear Sir:

The battle of Fort Sill is continuing without change. Those of us who are here have no doubt that it will continue as long as the war lasts. And the depressing part of it all is that many of us seem to have been delegated to stay with it until the last. But even the ablest militarists are fooled sometimes. So it may happen that events may quiet down enough to allow some of us to go where the real fracas is.

It's terrible sometimes. With the heavy artillery stationed in the hills around us laying down a barrage; and the planes overhead making daylight attacks on circus-day balloons; the tarantulas making night raids on the scorpions; the gophers running count-attacks on the lizards; the prairie dogs entrenching against the hordes of Oklahoma jack-rabbits; and the occasional gas cloud sent over the raccoon ranks by pole-cats in favorable weather; and the sand storms carrying part of Northern Texas into Missouri; makes even the oldest Cherokee Indian pray that the Gods will spare his land from the invaders.

CHESTER K. STONER, Delta Zeta.

THE GOSPEL ACCORDING TO MISS SPELLER

According to the General Secretary's stenographer, he sends this touching sentiment to a corresponding member newly inducted into our Learned Society: "You have to be either a cheerful liar or have a keen sense of humor to 'make' the Pickwick Club. On the latter basis you have been selected by Mr. Pickwick."

In fact, on no other basis ever. Cheerful we may be, have to be, but not liars. We are actively doers. But through such travelogs do we gain our calling to adventure, and enrollment in this band of Gentlemen Adventurers and Corresponding Transactors.

**PRIVATE LORENZO FERGUSON WOOD-
RUFF, THETA, TELLS WHY HE
ENLISTED IN UNCLE SAM'S
ARMY**

**Well-known Newspaper Man Is to Learn
Game From Bottom.—Besides Needing
Shoes, He Hopes Training Will
Make Him Real Man.**

Having cast aside the well-worn and bottle scarred habiliments of civil life to put on a suit of clothes and a pair of shoes and some unmentionables, all the gifts of my uncle with the goatee, I hereby forswear all the allegiance I ever had for the newspaper business, and use the personal pronoun.

I entered the armies of the United States Sunday as a private in the Headquarters Company of the Fifty-first Infantry, stationed at Camp Forrest, Chicamauga Park, Ga. I know 2,381 people, or, as Ambrose Bierce would have it, persons in Birmingham. In the last three hours I have answered 2,381 times the more or less banal question, "Why did you join the army?" In self protection, I am forced to resort to public print and the personal pronoun.

In the first place I don't know any good and sufficient reason why I shouldn't be in the Army, which seems to me good enough reason to be in there. I have no dependents. I couldn't plow on a bet. I am unequipped by habit, training and natural ineptitude to do anything for the country in the war industries. The Great Jehovah knows I haven't got any money to aid the cause. I am physically sound and not seriously unbalanced mentally. How the devil could I keep out?

Needed the Shoes

In the second place, I needed a pair of shoes, and at the present price of shoe leather I couldn't see any more chance of getting a pair than of ascending to the firmament of heaven in a chariot of fire, according to the predilection of Elijah of old. I went in the Army and got two pair. I think they must have been aces and kings. I am sure they were the biggest two pair in the deck.

It has been my custom to whisper hoarsely "eights" when I am purchasing shoes, and the clerk asks me my size. The Army man decided first that I ought to wear "nine and half." I tried them on and he mentioned "tens." The "tens" showed that I needed "ten and half." I am wearing that size now. The Army certainly has an early broadening influence.

In the third place I have always had a desire to be a husky. For years I roomed with a full-blooded Ojibway halfback, whose skull was as thick and solid as a battleship's armor, but he could turn the furniture into kindling wood without the aid of

a tomahawk, and on one occasion when we were athirst he carried a keg of beer up three flights of stairs on his shoulder.

Is Good Investment

Since war was declared I have seen a lot of men I knew as aenemic mollicoddles in civil life become hardy as mountaineers, strong as horseradish, and healthy as billy goats in a remarkably short space of time. All of this became father to the thought that if the Army didn't kill you it would cure you, which is all any doctor has ever been able to do from Old Doctor Munyon to the Mayo brothers. Wherefore the Army looks like a pretty good investment.

Another question that I have answered some 1,496 times is "why did you enlist as a private?"

The answer is easy. The Government is not given to enlisting Major Generals or Second Lieutenants or First Sergeants or anything but privates.

In the second place I couldn't be a Major General or a Second Lieutenant or a First Sergeant or an Eighth Corporal (if they have them). I know, rather less about the military business than an Eskimo knows about inshoots, and I don't know of any way of learning except from the bottom. I have seen lots of great newspapermen who started out as cub reporters, but I never saw a man jump into the business from any other profession and ever amount to a hang.

Couldn't Buy Uniform

In the third place I couldn't have bought an officer's equipment, unless I had pawned my sacred soul on which I doubt if I could have raised \$1.50 anyhow.

Lastly—way back yonder in the days of the revolution I had a great, great ancestor of some kind, who scorned a commission, and insisted on serving as a private. After the war he became Speaker of the House of Representatives, and was re-elected more times than Tom Reed and Joe Cannon. Maybe after the close of the present unpleasantness I can come back and be a constable. Who knows?

FUZZY WOODRUFF, Theta.

—Birmingham News, Birmingham, Ala.,
April 29, 1918.

MILITARY FEAT

Latest News From the Line of March

Thomas Blair Scott, Delta Zeta, tells me that he is ruining his feet in this man's army, and knowing well how proud Tom used to be of his pedes and what fond attention they once received, our hearts go out to him in anguish and despair.

ED BRAUN, Delta Zeta.

Marriages

Nu.—Brother Edgar Powell Blanton and Miss Frances Vaughn, June 15, 1918, at St. Louis, Mo.

Nu.—Dr. Montrose Thomas Burrows and Miss Flora B. Hege, September 4, 1918, at Emporia, Kan.

Nu.—Lieutenant James Edward Jones and Miss Hilda Marie Brady, July 20, 1918, at Philadelphia, Pa.

Nu.—Grand Historian Burton Peabody Sears and Miss Lillian Irene Cunnick, October 8, 1918, at Douglas, Arizona.

Nu.—Lieutenant Page Paschal Wagner and Miss Helen Mason, September 23, 1918, at Washington, D. C. Mrs. Wagner is a member of the Chi Omega Sorority.

Nu.—Russell Dick Williams and Miss Mary Gossard, June 29, 1918, at Oswego, Kan. Mrs. Williams is a member of the Chi Omega Sorority.

Beta Beta.—Brother Merrill Steele and Miss Frances Neff at Sullivan, Indiana, recently. They will live in Indianapolis, where Brother Steele is attending Medical School.

Beta Eta.—Captain Frederick Norman Anderson and Miss Marie Bowles, of Bloomington, Ind., on October 23, 1918, at Louisville, Ky., where Brother Anderson is stationed. Mrs. Anderson was graduated from Indiana University in the class of 1915 and is a member of the Kappa Kappa Gamma Sorority.

Beta Eta.—Brother Floyd R. Neff and Miss Blanche McClain, of Logansport, Ind., October, 1918.

Beta Iota.—Brother Alfred C. Lovell and Miss Blanche George, on June 13, 1918, at Alliance, Ohio.

Beta Iota.—Lieutenant Albert Pike Morris and Miss Nina Daisy Weltner, this fall, while Brother Morris was on leave from Camp Lee, Virginia. Mrs. Morris is now teaching school near her home while Brother Morris has returned to his regiment which will soon depart for overseas service.

Beta Iota-Delta Lambda.—Brother Edson Kirk Smith and Miss Corinne L. Harris, at Alliance, Ohio, on September 3, 1918. Brother Smith is the Inspector of the Eighth Division and is connected with the law firm of Edwards & Angell in Providence, R. I. The bride is the daughter of

the Hon. Heaton W. Harris, American Consul-General at Havana, Cuba, and a member of the Delta Delta Delta Sorority. After graduating from Mount Union College and Wellesley, she returned to Mount Union as professor of German.

Beta Kappa.—Brother Wilbur W. Wright and Miss Mae Thompson, of Conway Springs, Kansas, on October 2, 1918. Brother Wright graduated in 1916 and has since been county agent for Greenwood County, Kansas. Their home will now be in Eureka, Kansas.

Beta Kappa.—Brother Raymond V. Adams and Miss Gladys Grove, of Eureka, Kansas, on August 4, 1918, on his return from his fourth trans-Atlantic voyage as senior-grade lieutenant on the transport Antigone. Mrs. Adams is a member of Kappa Kappa Gamma Sorority. Brother Adams was very prominent in varsity basketball, being captain in his senior year, and all-valley captain in the same year.

Beta Kappa.—Brother Lloyd Rayburn Miller and Miss Elda Johnson, both of Belleville, Kansas, on August 10, 1918. Brother Miller is attending college, having enlisted in the Engineers' Reserve Corps, and they are now living in Manhattan, Kansas.

Beta Nu-Delta Alpha.—Lieutenant John Floyd Schaeffer and Miss Clarice Kathryn Rogers, September 5, 1918, at Cleveland. Brother Schaeffer is in the Sanitary Corps.

Gamma Delta.—Brother George Anthony Balko. No particulars.

Gamma Delta.—Brother Walter Cuthbert Grubb. No particulars.

Gamma Delta.—Brother Edward Charles Grubb. No particulars.

Gamma Delta.—Brother Edward Charles Marsden and Miss Edith Mary Alling, on Saturday, September 7, 1918, at New Haven, Connecticut.

Gamma Delta.—Brother Howard Smith. No particulars.

Gamma Lambda.—Brother Morgan Edward Cartier, Past Eminent Commander, and Mary Ethelyn Hughes, at Grand Rapids, Michigan, September 19, 1918. Mr. and Mrs. Cartier are residing in Ludington, Michigan, where he is in the automobile business.

Gamma Lambda.—Brother Paul McMaster. No particulars.

Gamma Mu.—Lieutenant Robert H. Humphreys and Miss Florence Quinn. Mrs. Humphreys is an Alpha Chi Omega.

Gamma Pi.—Brother Ray E. Clark. No particulars.

Gamma Pi.—Lieutenant Russell L. Law and Miss Gwendolyn Collier, at Fort Sill, Okla., August 15, 1918. They will be at home some time and some where after the war.

Gamma Pi.—Brother Herbert McMillen and Miss Edith Protzman, August 31, 1918, at Rochester, N. Y. They will reside at Niagara Falls, N. Y.

Delta Beta.—Edwin B. Judd and Miss Anna A. Bulser, before Brother Judd left for Camp Greenleaf, Ga.

Delta Gamma.—Brother John Casper Brady and Miss Catherine Morris, at Saint Mary's Star-of-the-Sea Church, Far Rockaway, Long Island, August 21, 1918.

Delta Zeta.—Lieutenant Eldred Stewart Barden and Miss Virginia Louise Boyd, on October 24, 1918, at Atlanta, Ga.

Delta Zeta.—Dr. C. Dimmick Millhoff and Miss Ruth Anne Bixel, September 12, 1918, at Buffalo, N. Y.

Delta Zeta.—Brother Robert L. Shreffler and Miss Ruth Gadsby, on December 26, 1917, at Mansfield. Their home is in Shelby, Ohio.

Delta Zeta.—Brother Walter Warburton and Miss Lorena Geib, of Middlebrand, Ohio, on August 16, 1918, at Canton, Ohio. Mrs. Warburton is a graduate of Ohio University and a member of Pi Beta Phi Sorority.

Delta Eta.—Brother Lieutenant Hugh H. Drake and Miss Gretchen Langdon, at Omaha. Brother Drake was formerly stationed at Fort Crook, but is now at Camp Funston. They will make their home at Manhattan, Kans., until Brother Drake is sent "over seas."

Delta Theta.—Lieutenant Carl Nathan Olson and Miss Isabelle Bunker, both young people of Galesburg, Illinois, in May, 1918. Lieutenant Olson is an instructor in aviation at Houston, Texas, having graduated from the flying school and now expects to graduate from the bombing school in a few weeks. The young couple are making their home near the school.

Delta Iota.—Lieutenant Ralph R. Boone and Miss Marie McGregor of Hooper, Washington, at Dayton, Ohio, where Brother Boone is stationed in aviation service. Mrs. Boone is a graduate of Washington State College and a member of the Kappa Alpha Theta Sorority.

Delta Iota.—Brother T. Arthur Durham, Senior Lieutenant U. S. N. and Miss Mildred France, Pi Beta Phi, Washington State College, on June 14, 1917.

Delta Iota.—Brother Arnold A. Gleason and Miss Edith Ritter, Delta Gamma, University of Washington, and a sister of Brother Herbert Rittier, on July 7, 1918, at Spokane, Washington.

Delta Iota.—Lieutenant Milton Moeser and Miss Zelya Mecklem, Pi Beta Phi, Washington State College, at St. Louis, Mo., September, 1918.

Delta Iota.—Brother G. Frederick W. Salt and Miss Elsie M. Freakes, Pi Beta Phi, Washington State College, November 1, 1917, at Spokane, Washington.

Delta Kappa.—Major William Sherman Corkran and Miss Mary Louise Chambers were married August 11, 1918, at Covington, Ky.

Delta Mu.—Lieutenant Raymore Horace Jordan, returning from the Third Officers' Training Camp on leave, and Miss Frances Gardiner of DeLand, Fla., and a member of the Pi Beta Phi Sorority.

Delta Sigma.—Lieutenant Curtis C. Colwell and Miss Barbara Maxcy, on June 3, 1918, at Washington, D. C. Brother Colwell is in the Engineers' Reserve Corps.

Delta Upsilon.—Brother Eugene Garrett Bewkes and Miss Helen VanVlandren of Montclair, N. J.

Delta Upsilon.—Lieutenant Jesse Scott Boughton and Miss Helen Stearns, of Hamilton, N. Y., at Augusta, Georgia. Brother Boughton is an instructor in the Machine Gun Officers' Training School at Camp Hancock, Ga. Mrs. Boughton is a member of Chi Omega Sorority and attended Syracuse University.

Delta Chi.—Brother Maximilian Sporer, of Hartford, and Miss Esther Bray, of Lincoln, Nebraska, in September.

Delta Chi.—Brother Joseph H. Cahill, of Hartford, and Miss Dorothy V. Rice, of Harwichport, Mass., September 26, 1918.

Delta Psi.—Brother Clyde E. Stevens and Miss Ernestine Strout, at Rockland, Maine, on August 29, 1918. Brother Stevens is in the service at Camp Sherman, Ohio, and was a member of the class of 1919 at Bowdoin College. Mrs. Stevens graduated from Farmington Normal School in 1917 and will reside at her home in Rockland for the present.

Delta Psi.—Brother Douglas A. Haddock and Miss Jennie Moore, at Portland, Maine, about September 5, 1918. Brother Haddock is a member of the class of 1920 at Bowdoin.

Deaths

RUSSELL LOWELL SHIVELY

Epsilon

Brother Russell Lowell Shively died in a Cincinnati Hospital recently. Brother Shively was a popular student in Bethany College and stood ace-high with the faculty and students. He was a good student and a fine athlete, both baseball and football. His preference was for baseball, however, and he was captain of the team in his junior year. He also held various other positions of honor, including president of his class.

CHARLES PENDLEY

Kappa

Captain Charles Pendley of Tate, Ga., died in France of pneumonia, September 23, 1918. See extended notice in "With Military Honors."

PAUL BRYANS MINTER

Mu

Brother Paul Bryans Minter was killed in action in France on or about August 1, 1918. See extended notice in "With Military Honors."

WARD ELLIS

Nu

Captain Ward Ellis was killed in action on September 19, 1918, in France. See extended notice in "With Military Honors."

EDWARD HAZEN KENDRICK

Nu

Brother Edward Hazen Kendrick died in 1917 of a throat disease.

MERLE VANDEVEER MARTIN

Nu

Brother Merle Vandever Martin died at Seattle, where he was attending the Aviation Ground School at the University of Washington. See extended notice in "With Military Honors."

WILL SAMUEL MURPHY

Nu

Brother Will Samuel Murphy was killed at Presidio, California, while in the Medical Corps.

CHARLES JUDSON MCGREW

Beta Beta

Lieutenant Charles Judson McGrew was killed in action at Chateau Thierry, France. See the story of the battle of Chateau Thierry by our Regent Borden Burr and also extended notice in "With Military Honors."

EDMOND DAVID WELLS

Beta Kappa

Brother Lieutenant Edmond David Wells was killed in action at St. Mihiel, France. See extended notice in "With Military Honors."

SANFORD MILLER BROWN

Beta Xi-Rho

Brother Sanford Miller Brown was killed in action.

JOSEPH FAUSSETT BELLAK

Beta Rho

Brother Ensign Joseph Faussett Bellak died of pneumonia, October 4, 1918, at Washington, D. C. See extended notice in "With Military Honors."

ARTHUR WILLIAM LA FLAMME

Beta Rho

Brother Arthur William La Flamme, Merchant Marine, died in Boston, of pneumonia, some time in October, 1918.

DAVID RUPP

Beta Rho

Captain David Rupp was killed in action in France, September 30, 1918.

HOWARD SHIELDS LEE

Beta Chi

Brother Howard Shields Lee died of influenza, at Silverton, Colorado, on October 26, 1918. Brother Lee was a mining engineer and was widely known throughout the West. He attended East Denver High School and Dr. Holbrook's Military Academy at Ossining, N. Y., and then finished his education at Leland Stanford, Jr. University. Brother Lee was manager of the

One Year - One Dollar

Here are Two Reasons Why Stafford Engravings are used in this Publication and they should be used in Yours—

First, of course, is quality. Through years of specialization, our organization has become expert in half-tones, color plates, zinc etchings, and designs for college and school publications. We have the very best shop equipment and every facility for prompt production of work.

Second, the famous Levy Acid Blast process gives our half-tones a cleaner, deeper, sharper etching and the tub method most commonly used, and makes it easier for your printer to give you a first class engraving.

Third is Stafford Co-operation. For the benefit of our customers in their dealing with us, we have prepared a valuable handbook entitled, "Engraving for College and School Publications," containing 164 pages and over 300 illustrations, and giving complete information in regard to the preparation of copy, and ordering of engravings. This book, by ordering, prevents costly mistakes, and means high quality engravings at lowest cost. We do not sell it—but we lend a copy to the staff of each publication for which we make the engravings.

Let Stafford make your commencement invitations, fraternity stationery, visiting cards, and any other copper plate engraving or steel die embossing. We have a large department devoted exclusively to this class of work, and can give you both quality and service. Samples with prices on request.

THE WORLD'S GREATEST NEWSPAPER

PARIS THURSDAY, JANUARY 24, 1918

SIGMA NU FRATERNITY

All members of the Sigma Nu Fraternity in France are requested to send their names to Flying Cadet Howard A. Johnson, A. E. F., U. S. A., P. O. 738. The desire is to effect some sort of informal organization if possible.

The above notice appeared in the Paris edition of the Chicago Tribune of January 24. We are glad to repeat Brother Johnson's call here. We urge every Brother who arrives in France to report to Brother Johnson and to the General Office. Even a post card will be gratefully received.

Here is a Real Christmas Card

*It Combines Good Taste
and Good Business*

At Christmas-time

• 1918 •

INSTEAD of a Christmas Card I am sending you the Songs of Sigma Nu. They will tell you for me all that I would say could we meet : : that I wish happiness for you on Christmas Day : : and every day.

(Your name will appear here)

Send your friends the newly published Songs of Sigma Nu in place of the ordinary cards which everyone uses. These songs are so decidedly *your very own* that they will appreciate your thoughtfulness, and the music will last long after a card would be forgotten. Nearly everyone remembers his friends at Christmas-tide, and this year we all need each other's friendship more than ever before.

The three songs will be sent postpaid to any address upon receipt of 50 cents, and if you will tear out this page and send in your order on the blanks on the next page we will send each of your friends the smart holiday card pictured above in miniature.

Of course, you'll have to order at once—right now—if the three songs are to reach them on time. The safe plan is to do it this very minute, and have it off your mind. It's a limited edition, and first come will be first served. Turn over—thank you!

The Governor of Virginia
Westmoreland Davis
Alpha

THE DELTA

Westmoreland Davis

Governor of Virginia

[If this sketch does not do Governor Davis adequate justice, the blame lies in his own modest hesitation to appear in print. Few biographical details are available; even the records of Alpha Chapter are incomplete. In "Who's Who" the only chronicle runs: "Davis, Westmoreland. Governor of Virginia for term 1918-22. Democrat." This sketch is based principally on the newspaper accounts of his inauguration, and our thanks are due to Mr. Francis Lee Albert and Mr. J. L. Lane, Tri Phi Fraternity of Richmond College, who secured them for us. Brother Chester E. Rightor, Gamma Lambda, now with the Detroit Bureau of Governmental Research, who has been for several weeks on special leave, engaged in research work for the State of Virginia, contributes a few interesting sidelights on the governor.—The Editor.]

IT is noteworthy to record, in this fiftieth year of Sigma Nu, that the governor of Virginia, the State where the Fraternity was born, should be a member of our Alpha Chapter. He was initiated in 1872.

This sketch must confine itself to the events narrated by the newspapers at the time of his inauguration. Mr. J. S. Lane, Tri Phi Fraternity, gives us a view of one characteristic of Brother Davis—his reticence in the matter of publicity—when he tells us of his interviews with the governor: "I have been to see him several times, and he would always put me off with a joke and laugh about having done nothing worthy of publication. Ever since I came back to college I have been continually after him about this matter, and have been there enough to make a good friend out of his secretary, who is a young lady. I finally got her interested in this, and she furnished me the clippings I am sending you. I hope that it has in it just what you desire, and I believe it has all you need."

Westmoreland Davis was inaugurated governor of Virginia on Feb-

ruary 1, 1918. He comes from Loudoun county. Plans for a parade were abandoned, but a number of officers from Camp Lee gave a military aspect to the ceremonies. The public reception at the governor's mansion was a democratic affair, without cards of admission.

Of the long and distinguished list of Virginia governors, none came of a prouder lineage than Governor Davis. He springs from fine old Virginia-South Carolina stock. On his maternal side the new executive comes of two distinguished Virginia families—the Morrisses and Thrustons. His mother was Miss Nannie Morriss, niece of the late Edward T. Thruston, master of "Lansdowne," the Thruston family seat in Gloucester county, who inherited the once handsome estate from his brother, Robert, who served as a colonel under Washington. Governor Davis's father was Colonel Thomas G. Davis, of South Carolina, scion of a family long prominent in the Palmetto State. Colonel Davis moved to Virginia shortly before the Civil War, and settled in Gloucester county, where he bred blooded horses and took a

leading part in the social life of the county. It was here Colonel Davis met and married Miss Morriss, reputed at the time to have been the wealthiest heiress in Virginia. The nuptials were celebrated in Richmond.

Governor Davis married Miss Marguerite Inman, of Georgia, daughter of William H. Inman, a wealthy cotton merchant. Her mother was a Miss Curry, related to Dr. J. L. M. Curry, minister to Spain under President Cleveland, and for many years a professor in Richmond College, Richmond. The marriage ceremony was performed in Westminster Abbey, London.

Governor and Mrs. Davis are both experts in horsemanship. The governor has for a long period been master of the Loudoun hounds. Mrs. Davis is charming and affable in her manner and brings to the mansion that ease and grace expected of the first lady in Virginia.

Westmoreland Davis was born at sea, while his parents were en route to Paris. He was educated at the Virginia Military Institute, the University of Virginia, and Columbia University, New York, graduating in law from the latter institution. He is also a graduate of the university of "hard knocks." The history of his life is one which affords an inspiration to the ambitious youth of today. Born with a traditional silver spoon in his mouth, and with all the comforts the wealth of indulging parents could command, Governor Davis at the same time had to hoe alone his row in life. While he was still a boy his father died and the ravages of war swept away in its entirety the once large fortune possessed by his parents. With indomitable courage, however, young Davis set about to earn a livelihood for himself and his widowed mother. He first secured employment as a car tracer in the offices of the old Richmond & Danville Railroad in Richmond, and his mother taught school in the capital city.

By dint of hard labor he managed to get together enough money to enter Virginia Military Institute. Graduating here, he next entered the University of Virginia summer school. While there his funds ran out and he was forced to return to work. He went to New York, where, without friends or influence to aid him, he secured employment in a law office, and it was here that he molded his future. Sixteen years ago he retired from the practice of law, and, returning to Virginia, purchased "Morven Park," in Loudoun county, one of the handsomest estates in the State.

The taking of his oath of office by Governor Davis crowns a political career without a parallel in the recent history of politics in Virginia. He entered the gubernatorial lists as an unknown political quantity, and came on the field to find his candidacy opposed by both factions of the democratic party in the State and every avenue of political preferment closed to him. He had never sought or held public office. He represented neither faction within his party. His name had seldom appeared in the newspapers. Of the game of politics he knew little. In the hundreds of speeches made by him during the two years he was prosecuting his campaign, he frankly told his audiences that he was not interested in politics. He was, he said, more interested in enabling the farmers to grow two blades of wheat where one formerly grew. He was more interested in the construction of good roads, the conservation and development of the agricultural resources of the State and in securing full terms for the primary schools, taught by competent and adequately paid teachers, than he was in who should hold this or that office.

Brother Davis had been for eight years president of the State Farmers' Institute and had been largely instrumental in securing favorable action by the general assembly on bills, drawn by him, in the interest of the farmers. He had also been active before the corporation commission in securing reduced freight rates on

farm products and machinery. His greatest achievement along this line, however, and one which made him extremely popular with the farmers, was his successful fight for the enactment of the statute under which State lime-grinding plants were established, from which the farmers may now purchase at cost lime ground by convicts.

This championing of their cause was not forgotten by the farmers of the State on election day. One of the first moves of Brother Davis's campaign committee was to send out 10,000 letters to farmers. From that number, it is said, more than 7,000 committals to the Loudoun man's candidacy were received. And the election returns showed the farmers to be most solidly behind Davis, fifty-six of the one hundred counties being carried by him, while fourteen of the twenty-two cities in the State also fell into the Davis column. The final figures for the primary showed that seven of the ten congressional districts had likewise given the farmer candidate a plurality. Traveling over the State in a popular-priced automobile, sometimes speaking to large crowds, sometimes to small, and then again to the farmer between his plow handles, Davis argued that the farmers were entitled to a greater voice in the councils of the State government. He pointed to the fact that the State Board of Taxation was composed of three city men, and said that this wasn't fair to the farmers. He declared there was too much waste and extravagance in the expenditure of public funds and too many offices. He said the State school system should be freed from the baneful influence of politics. He declared all jail birds should be put on the roads. He said that, if elected, he would veto any bill creating a new office unless same was made necessary by extraordinary conditions incident to the world war.

If sent to Richmond as the chief magistrate of the State he promised that he would be always ready to confer with any citizen, be he great or be he humble, but would be dominated

by neither faction, interest nor person. He preached his doctrine in a novel way. While his adversaries were making the larger cities and towns, Davis would be off at some crossroads store, sitting upon the counter, explaining his platform and views to customers who happened to drop in. Again he would be found at some farmers' picnic or making a house-to-house canvass of farms along the highways of a sparsely settled section of the State. For days his campaign committee would be without word from him as to his whereabouts. He was a good hand-shaker and "mixer." After the primary he is said to have expressed the opinion that he had shaken the hand of more than 200,000 voters.

And it not infrequently happened that the farmer candidate appeared at gatherings at which he was unknown. In this connection an amusing incident occurred. Brother Davis appeared at a picnic in King William county. He knew no one in the crowd. He singled out a man who seemed to be master of ceremonies and, calling him aside, said to him: "My name is Davis; I want to be governor of Virginia." The man looked at him for a moment as if puzzled, and then said: "The hell you do." Davis then explained to the man his purpose in coming there and asked permission to speak to the picnickers. This was readily granted. Davis carried King William county.

Governor Davis is a man of positive character, and with it he is courageous. Those who know him best say he never quibbled over an issue in his life. In his campaigns he was besieged by all manner of interests as to his attitude towards this measure and that. His replies were invariably a clean cut "yes" or "no." If the question asked concerned a matter upon which he felt he should not pass while a candidate he did not hesitate to decline to commit himself.

Governor Davis is a successful and practical farmer and breeder of blooded live stock. Upon the broad

acres of his magnificent "Morven Park" estate in Loudoun county there roams what is said by expert cattlemen to be the finest herd of Guernsey cows in America. The herd was personally selected by the governor on the island of Guernsey and brought to this country by him. The herd is headed by Francis Jewell 8th, one of the purest bred Guernsey bulls in the world. Instead of sending his male calves to the city markets, Governor Davis sells them at nominal prices to the farmers in the State, and in this way has been responsible for the establishment of other Guernsey herds. The breeding of pure bred Percheron horses has also engaged his attention. His brood mares and stallions were purchased by him in France and represent the purest strains of this draft horse in this country. Six two-year-old stallions were returned winners in every show on the Virginia cir-

cuit of fairs in which they were exhibited.

"Morven Park" annually raises bumper crops of corn, wheat, beans, peas and hay, and is one of the show farms of the State.

Governor Davis has taken over the reigns of Virginia's government at a time when the world is in a convulsion and the days ahead are dark. That he will prove a daring yet conservative leader and safely pilot the ship of state through the twilight zone through which the commonwealth is now passing is the conviction and prediction of those who know his attainments, broadness of vision and determination of purpose.

Governor Davis is an Episcopalian, and is the first governor of that denomination the State has had in many years.

A "Close-up" of the Governor

By CHESTER E. RIGHTOR, Gamma Lambda
Detroit Bureau of Municipal Research

ALL our Delta readers should have the benefit of the story of Governor Davis's success. He is no "ring" politician, but apparently plays the game well enough without being one. Personally, he at once impresses one as being forceful and fearless. He is one of the eighteen-hour (or maybe only sixteen-hour-a-day) type, essentially an analyst of any problem confronting him—and he has many! A learned man told me that Governor Davis is the most metaphorical speaker, with one exception, he'd ever known. You know he is owner or manager (or "suthin") of the Southern Planter, which I am told is extensively read through Virginia and the South. He also put some new pep, I'm told, into the Governors' Conference, held in Washington last summer. His secretary—herself charming enough for an interview—tells me the governor has never granted interviews, but before long I may yet send you a few personal impressions.

I do know he is planning great things during his four-year term, such as a \$25,000,000 good roads program to start soon, conferences of department and institution heads, all possible economy and efficiency moves, etc.

The administration of Governor Davis is pledged to more results for the same money or the same results for less money; central State purchasing wherever advisable; more good roads; and better schools, with competent, adequately paid teachers.

The Richmond Times-Dispatch prints an account of a conference of the trustees of State institutions called by Governor Davis. This is the first time in any State, I believe, that such a meeting has been held.

Described by Dr. Edwin A. Alderman, president of the University of Virginia, as epochal in the life of the State, 140 representatives of the

boards of trustees of forty-five Virginia institutions, men who control the policies and direct the affairs of the State in its public service activities, met yesterday in the hall of the House of Delegates to confer among themselves and with Governor Westmoreland Davis in regard to a better and more efficient administration of the business committed to them.

Particular attention was given to the matter of securing the same or better results with the expenditure of less money than these activities have cost the State in the past, and from the discussions yesterday there will be evolved in time a definite program of co-ordination, with the end in view not only of cutting down expenses, but of making more efficient the administration of the various public institutions.

The idea of a central purchasing agency, through which all institutions of a public character will obtain

their supplies, gained instant favor among the delegates. There was not a dissenting voice raised against this proposition, and the next legislature probably will place into the statutes a bill crystalizing the opinion expressed at yesterday's conference.

That the meeting yesterday, unique in the political history of the State, will become a permanent institution was the unanimous opinion of those who participated in its deliberations. One prominent business man who came skeptical as to its value went away enthusiastic and said it was worth \$100,000 to the State and should be held quarterly.

Governor Davis, whose idea the meeting was and at whose instance it was called, thanked the delegates for the interest they had shown and for the perfect frankness with which they expressed themselves in trying to arrive at a definite program for bettering the State institutions generally.

Psi Chapter House

Burns In University of North Carolina Fire

OUR House was completely destroyed by fire early this morning (January 9, 1919). The fire originated in the S. A. E. House and inadequate fire prevention facilities, coupled with a strong wind, rendered our House an easy prey to the flames. The greater part of the furniture and all of the records were saved. We had \$1,750 insurance on the building.

The following clipping gives the details:

FRATERNITY BUILDINGS AT CHAPEL HILL DESTROYED

Chapel Hill, January 9.—Fire which broke out this morning at 2 o'clock in the meeting room of the S. A. E. Fraternity House completely destroyed this building, and the Pi Kappa Alpha and Sigma Nu Fraternity Houses. The university library of approximately 100,000 volumes and the whole Fraternity row of Houses, especially the D. K. E. House, adjoining the S. A. E., were seriously threatened

The flames swept in an easterly direction, the Sigma Nu being the last House on the block. Cause of the fire is unknown. The Chapel Hill fire department got a late start and the three structures were doomed. The Durham fire department responded in an hour after the flames started, but too late to render material assistance. The loss is estimated at \$20,000, covered by \$2,500 insurance. Most of the furnishings were saved. The Houses were owned by the Chapters.

We intend to begin work immediately upon plans for the rebuilding of the hall. We firmly believe that our Alumni will gladly respond.

J. S. FICKLEN, Reporter.

Nu's House Nearly Burns

Nu Chapter came near losing its House. On January 2, 1918, the first day of school this quarter, a fire started on the third floor back, but was found and extinguished in good season.

The Inter-Fraternity Conference

Tenth Session, November 30, 1918

THE tenth annual session of the Inter-Fraternity Conference which met at the University Club, New York City, on Saturday, November 30, 1918, was a memorable meeting in that it combined the tenth anniversary of the Conference with a celebration of peace with its attendant plans for reconstruction of fraternity life. More than one hundred representatives of the thirty-six fraternities represented were present for the all-day session and luncheon.

The delegates representing Sigma Nu were Brothers Walter E. Myers, General Counselor; George A. Smith, Vice-Regent; and the General Secretary.

Noon Luncheon

The noon luncheon was provided with a new feature in the form of a special address. We understand that this is to be continued as an annual feature of the Conference. The speaker this year was most appropriately President W. H. P. Faunce, of Brown University. Dr. Faunce was one of a small group of educators who were responsible for the organization of the Inter-Fraternity Conference and gave the history of the first call for the organization from its inception in the Religious Education Association until it, "after a decade of effective work, now finds itself to be only one expression of the great democratic movement that is sweeping around the world. Steadily the conference has stood against isolation, exclusiveness, prejudice and pride, steadily it has stood for clean manhood, wide horizons and the whole-hearted service of the nation."

Dr. Faunce has set a high standard for the annual luncheon addresses.

Chairman's Report

The address of James D. Livingston, chairman of the Conference,

was largely taken with the long conferences and correspondence of the executive committee with the War Department extending from the 13th of September until the close of the war. This interesting report alone justifies the organization of the Inter-Fraternity Conference. Had it not been for this central organization with power to speak for the Fraternities, they would have been summarily wiped out of existence by the Committee on Education in the War Department.

As it was, the report plainly shows that the wide confusion and varied attitudes toward the Fraternities, was caused because the Committee on Education withheld its memorandum allowing initiations until the officers of the Inter-Fraternity Conference were able to have an interview with Secretary of War Baker himself, who promised that previous orders would be cancelled. On November 15th, the famous memorandum No. 49 was issued directing S. A. T. C. to place no restrictions on Fraternity activities, "including initiations and meetings, except such as are clearly necessary to preserve proper military training and discipline. In determining what, if any, restrictions are essential commanding officers will exercise tact and good judgment."

The chairman's report made it perfectly clear that the responsibility for the utter confusion as regards the Fraternities lay with the Committee on Education in Washington.

Tenth Anniversary

Dr. Francis W. Shepardson, Editor of Beta Theta Pi and for many years dean of men at the University of Chicago, read the admirable report of the committee on the tenth anniversary. The salient points of ten years of co-operation were summed up in the statements that "representatives of organizations,

once called rivals and enemies, have seen the artificial barriers of local prejudice and established tradition broken down. We have met face to face. We have looked eye to eye. We have been drawn heart to heart. There is not a Fraternity leader in the United States who has availed himself of the opportunity of sharing in these conferences who has not had his life enriched through the widening of the circle of friendship which has been brought about here at the shrine of this super-fraternity.

Dr. Shepardson summed up the accomplishments of ten years as embraced in a better knowledge of ourselves; a better knowledge of others; improvement in Chapter Houses; improvement in scholarship and better co-operation of Alumni.

In closing, Dr. Shepardson, said: "Let us here and now, vow, as members together in a larger Brotherhood, to 'so live in all true manliness, as to be an inspiration, strength, and blessing to those whose lives are touched by ours.'"

"God grant us wisdom in these coming days,

And eyes unsealed that we clear visions see

Of that new world that He would have us build,

To life's ennoblement and His high ministry."

Health and Hygiene

This Conference will be marked by a forward movement in the matter of health and sex hygiene. One of the best reports we have ever heard was made on the above subject by Dr. Frank Wieland, of Chicago.

Steps were taken to make this committee a permanent one with Dr. Frank Wieland as chairman. We believe this committee will lead the way to an educational program on the above subject which will open a new and important field of service for the Fraternities and the Conference.

The Editors' Dinner

The annual editors' dinner took place on the evening previous to the Inter-Fraternity Conference with the Salamagundi Club. We should not like to cast any spirit of depreciation upon the good fellowship manifested there, but we confess to a deep sympathy with the last issue of Phi Gamma Delta which records the following:

"There was a Fraternity Editors' banquet at New York on November 29th. It was a failure. There were seventeen editors present and not one was allowed to speak. The food was great and so was the host."

The annual meeting of the editors offers one of the greatest opportunities of helpfulness of the Conference. It should not be a place to give a resumé of the coming Conference. It should be given to the many peculiar problems which the Fraternity editor has to meet. We believe that plans for co-operation as regards publishing certain articles of general interest in all the magazines could and should be worked out. Also that a co-operative system of advertising is entirely feasible. As a matter of fact the problems of the editor were never mentioned at this most enjoyable dinner. We were therefore frankly disappointed.

The Returned Soldier Speaks

Now that the war has ceased, we should all get right down to business. We have learned to sacrifice for our country. Let us now sacrifice for our Fraternity, and work for Sigma Nu to the best of our ability.

STANTON A. BURDICK,
Delta Lambda.

Building a National Fraternity

II A Prophecy: Its Fulfillment

By PAST GRAND RECORDER GRANT W. HARRINGTON

UNDER the subhead of 'Extension' in my report as Grand Recorder to the Chattanooga Grand Chapter (see Delta VIII, p. 20) I said:

"The views of your Grand Recorder as to a policy of extension were fully set forth in General Circular No. 16, which was printed with the proceedings of the last Grand Chapter. As was said then, 'It is only a question of time when the center of population will be west of the Mississippi river. With it will come great schools, and it is far better for us to gain a foothold now than to wait until we have to fight hard for everything we get.'

"With her boundless resources, both agricultural and mineral, her constantly increasing wealth, and her energetic population it is self-evident that the West will be the dominant factor in our national life and will shape our national character. To quote from our senior senator from Kansas, 'The future triumphs of the Anglo-Saxon race will be accomplished in the valley of the Mississippi, a vast empire in itself.'

"The boys who are filling our small Western schools today will shape the policy of the nation twenty-five years from now, so it is the height of folly to sit back and quibble about low grade schools and small endowments. The fraternity that is wise enough to enter this promised land and to fill its chief institutions with its chapters is the fraternity that will lay future claims to pre-eminence.

"Sectional fraternities must give way to national fraternities. As a Southern Fraternity, Sigma Nu cannot compete successfully with her rivals in the Mississippi valley. She must either adopt a liberal and aggressive policy of Western extension or abandon what she has already gained. The issue must be met now and decided once for all."

Eighteen years later Clarence E. Woods, in his report as Grand Recorder to the Chicago Grand Chapter, under the subhead "Grant Harrington's Remarkable Prophecy Twenty Years Ago," reproduced a part of this report and commented on it as follows:

"From the musty pages of the old Delta files I revive this wonderful prophecy made twenty years ago by Grand Recorder Harrington.

"When Harrington penned those remarkable words Sigma Nu had but two Chapters (except Nu) west of the Mississippi—Missouri State and brave old Chi at Cornell College, Iowa—and only one north of the Ohio or east of Virginia—old Pi at Lehigh University, Bethlehem, Pa. Her other sixteen Chapters were in the South. And yet there were true men, good Sigma Nus, who opposed extension then with all their powers. Had their ideas triumphed, where would old Sigma Nu be today? Dead—dead as African slavery! For the American youth of the South or of the North no longer desires membership in a college fraternity restricted to one section of our nation, because his home

friends of tomorrow may be
lands of miles from home and
lands of today." (Delta XXVI, p.

Victory of the Progressives

The progressives were in full control of the Chattanooga Grand Chapter in 1890, but the conservatives did not get their stranglehold without a struggle. The minutes disclose that three times at least the question as to the extension policy of the fraternity was up for decision. They

the subject of extension was brought up for consideration. Brother Harrington moved that Brother Walcott, Sears of Nu, who would enter the State University of Ohio the coming year, be granted a dispensation allowing him to initiate students of his institution into the Sigma Nu Fraternity, observing all constitutional requirements as to qualifications, and that in case five initiates be secured that the incoming Council be instructed to furnish a charter, otherwise the initiates be enrolled as members of Nu Chapter. Brothers Harrington and Walcott spoke in favor of the motion.

The Regent called Brother Owen to the chair and then spoke briefly in support of the plan of granting dispensations. Brother Howard also opposed the motion.

The resolution was adopted by a vote of 40 to 8. Those voting against were Regent Langdon, 1; Kappa, 1; Phi, 3. Kappa managed to get all sides of the proposition and secured one vote for, one against and one not voting. (See Delta VIII,

Regent Langdon then stated that he wished to explain his vote, as he did not wish to be understood as opposing to entering the institution in question or to Brother Sears, but that he simply wished to enter his protest against this method of founding new Chapters." (Page 5.)

The second contest came over a proposition to revive Iota Chapter. The Birmingham Alumni Chapter presented a petition from a group of students at Howard College asking for a charter and it was presented to the Grand Chapter by Brother Owen. The minutes recite (page 5):

"Brother Harrington then introduced and Brother Owen seconded the following resolution in relation to the petition:

"Resolved, That the said petition be granted and that the Birmingham Alumni Chapter be instructed to revive Iota Chapter in accordance therewith.

"A lengthy discussion followed on the proposed resolution, during which a motion was made and carried to adjourn to 9 o'clock a. m. August 13.
* * *

"Brother Dean then called up the resolution of Brother Harrington relating to granting the petition from five students of Howard College. After much discussion by Brothers Dean, Langdon, Harrington and Outz the roll was ordered called and the resolution adopted."

There were 35 votes cast for this resolution and 18 against. The conservatives seem to have given up the fight with this, as the minutes on page 9 disclose that the following resolution offered by Brother Harrington was unanimously adopted:

"WHEREAS, It has come to the knowledge of this Grand Chapter that Brother Daniel L. Quirk of Beta Omicron will enter the University of Michigan; Carl L. Clemens of Chi will enter Johns Hopkins University; A. L. DeArman of Rho will enter Columbia College, and Brother Charles W. Carlton of Eta will enter Vanderbilt University; therefore be it

"Resolved, That the incoming High Council are hereby instructed to communicate with the several Brethren and that they use their best endeavors to revive our Sigma Chapter and

establish new Chapters at the afore-said institutions."

Having won their fight as to the extension policy of the Fraternity, the progressives decided to take no chances on having an unfriendly High Council to block the work. We did not make the mistake this time of drafting an absentee candidate for Regent, but put Bennett into the race and he was elected by acclamation. Clarence Wainwright Murphey of Lambda was re-elected Vice Regent and Bixby Willis of Lambda was elected Grand Treasurer.

With a progressive High Council in control the extension policy as above outlined was pushed with vigor. I know of no better way to show the spirit of that policy than by reproducing Delta editorial that appeared from time to time.

From The Delta of October, 1889, Vol. VII, p. 14:

"We will but repeat our oft expressed judgment that the correct policy for Sigma Nu is to attack the East by way of the West. This we say without in any way disparaging the brilliant work of our Eastern Brethren, who in one year have brought the Yale Chapter so high up on the Fraternity roll."

From The Delta of June, 1890, Vol. VII, p. 132:

"With the settling of points of polity to be made at Chattanooga, Sigma Nu should enter upon another period of rapid extension. Let it be made wisely, seizing every available point, but remembering that the road to triumph lies through the West to the East."

The Ohio Crossed

From The Delta of December 1890, Vol. VIII, p. 64:

"The Rubicon, or rather the Ohio, is crossed at last and with the establishment of our Beta Chapter at DePauw University we believe there has been ushered in a new era

in our Chapter development. It was understood at the Chattanooga Grand Chapter that the incoming High Council must be composed of men who were in favor of a vigorous Northern and Western extension policy and on that issue the present governing body of the Fraternity was chosen. DePauw is the "first fruits" of this renewed activity, but it will not be the last, as the close of the year will show."

From The Delta of December, 1891, Vol. IX, p. 57:

"The year 1890-91 was a red letter year for Sigma Nu. The liberal extension policy adopted by the Chattanooga Grand Chapter bore most excellent fruit and the growth from within was no less gratifying. Three new States and six new Chapters were added to our roll, while commencement week brought medals and honors to the Sigs in numbers surpassing the expectations of the most sanguine."

From The Delta of December, 1891, Vol. IX, p. 57:

"We must close the gaps in our list of Chapters. Every year some of our graduates attend the professional schools of the larger universities where Sigma Nu is not represented and they must be provided for. This year finds three Sigs enrolled in the law department of the University of Michigan, two in the University of Virginia, two in Vanderbilt and one each in Williams, Cornell and Leland Stanford, Jr. The list will increase with the growth of the various institutions where we are now located and we must put our house in order so we can care for them. The indications point to the revival of our dormant Beta and Sigma Chapters before the next issue of The Delta, and then we can push on to further conquests."

From The Delta of December, 1891, Vol. IX, p. 56:

"The gratifying news comes from Brother Whit P. Martin that Beta Chapter is again on her feet and is to

be classed among the dormant Chapters no longer. This adds another important school to our list of active Chapters and should serve as a spur to Brothers Lee and Robertson, at Vanderbilt, to press on in the good work of reviving Sigma Chapter."

From The Delta of December, 1891, Vol. IX, p. 55:

"Heretofore we have always gone South with our Grand Chapters and the Western Chapters have been placed at a disadvantage in sending representatives on account of the distance. They feel now, and justly, that with the increase of new Chapters in the Third and Fourth Divisions that the next Grand Chapter should be brought nearer to their doors. One-half of the active Chapters are now located in these two divisions and the years' statistics will show that they contain more than one-half of the active members of the Fraternity. If Sigma Nu is going West to grow up with the country it is time to emphasize the fact by holding her next Grand Chapter on the west bank of the 'Father of Waters.'"

From The Delta of January, 1892, Vol. IX, p. 91:

"The editor of the Shield of Theta Delta Chi is a man of very pronounced views, which he proceeds to air at every convenient opportunity. In his December number he closes a very pleasant notice of the November Delta as follows:

"The editorials teem with arguments for extension and a record of a year's growth. Sigma Nu is evidently on the warpath. Her yell is Chapters, Chapters, more Chapters! Well, so be it. There are apparently a number of fraternities of later day growth which seem to be vying with each other to see which can get the greatest number of chapters. Colleges, state universities, normals, high schools, anything called a college or university will fill the bill—only more chapters. By and by some of these Greek soap bubbles will burst, and away will go all the wind. We

do not mean this as a reflection on Sigma Nu, but general remarks on the chapter craze."

"It is characteristic of the Eastern college man to look disparagingly upon anything which comes from west of the Alleghenies, and President Eliot's declaration that 'the West as a mass is incapable, dense, ignorant and wrong' finds too ready a belief among men who cannot seemingly realize that 'the lion of the tribe of Judah long ago pitched his tent in the valley of the Mississippi.' The time was when the Eastern fraternities had a monopoly of the field, but their failure to keep pace with the growth of colleges and the development in student life called other organizations into being, which are rapidly outstripping them in numbers and influence. A careful comparison of Baird's third and fourth editions give ample proof of this. These 'soap bubbles' realize the force of Senator Ingalls' remark 'That the future triumphs of the Anglo-saxon race are to be wrought out in the valley of the Mississippi' and are taking possession of the land, and when the bursting time comes Vanderbilt, Central, DaPauw, Leland Stanford, Jr., and the great State Universities of Kansas, Missouri, Texas, Alabama and Ohio will probably compare favorably with Kenyon, Hobart, Hamilton, Lafayette, Bowdoin and other equally as great institutions of learning where Brother Holmes boasts chapters."

Twelve Chapters in Eighteen Months

From The Delta of January, 1892, Vol. IX, p. 92:

"Since her last Convention held in the summer of 1890, Sigma Nu has revived three of her dead Chapters and organized nine new ones. All the new Chapters, with the single exception of our baby Chapter at Leland Stanford, Jr., have been planted in the great Mississippi valley region. They have not been put in at haphazard, but in accordance with a care-

fully considered plan of extension. The object has not been to swell the Chapter roll, but to add to our list those institutions of promise, which are turning out the young men who are to assist in shaping the destiny of the nation. This is Sigma Nu's field and here she proposes to do her work."

From The Delta of January, 1892, Vol. IX, p. 95:

"The opening of the great Leland Stanford, Junior, University and the prompt action of Brother Carl Lane Clemans in organizing our Beta Chi Chapter opens up a hitherto unknown land to our Fraternity. Our little band of thirty-one Chapters now span the continent and the fraternal ties that bind reach from the rising of the sun upon New Haven's elms to the going down thereof behind the Golden Gate. The Pacific states are a sort of an undiscovered country to the Greeks, as but two institutions on the coast have heretofore been blessed with chapters of any fraternity. No fraternity can claim a prestige here by reason of age, wealth or strength of Alumni, and Sigma Nu, young and vigorous as she is, will not find herself handicapped by any of these conditions. The beginning has been auspicious and we trust that as this great region continues to develop Beta Chi will be enabled to surround herself with a sister band which will make Sigma Nu a tower of strength on the Pacific coast."

From The Delta of January, 1892, Vol. IX, p. 98:

"The growth of Sigma Nu since 1882 has been rapid and vigorous. Care has been taken in planting of new Chapters to enter only such institutions as seem to stand upon a firm financial basis, and with the single exception of our Gamma Chapter, planted over twenty years ago, Sigma Nu has never unfurled her banner at an institution that was forced to close its doors for want of funds, or which today stands in financial straits."

From The Delta of April, 1892, Vol. IX, p. 182:

"Again the Pacific slope has been heard from and it is with pleasure that The Delta is enabled to announce the organization of our Beta Psi Chapter at the University of California with eleven charter members. Twelve months ago the thought that Sigma Nu would have two flourishing Chapters on the Pacific coast before the end of the year would not have been believed, but determination, energy and zeal have accomplished the happy result."

From The Delta of April, 1892, Vol. IX, p. 185:

"Only a few years ago every one looked to Harvard and Yale to take the lead in all educational work, and at that time the idea of any Western university attempting to rival either of these institutions would not have been entertained for a moment. But the times are changing.

"The Western States have always been generous to their educational institutions. It was the young and energetic fellows who have had the advantages of a college training in New England and the Middle States that have made the West, and they have seen nobly to it that the universities and colleges of their adopted States have had the means to keep pace with the marvelous development of the country. Increased facilities and added advantages have brought into prominence flourishing institutions which ten years ago were not known outside the borders of their respective states and their number is rapidly increasing.

"It will not do to despise the day of small things, and the fraternity that fails to keep up with the star of empire in its western course cannot hope to count its votaries among the men who will make history for us in the next generation. Let us have more Western Chapters."

[To be continued.]

In War-Time Italy

A Sigma Nu Red Cross Man's Experiences

By V. HUGO FRIEDMAN, Theta

II

[Brother Friedman continues his delightful sketches of Italy during the war by this letter written on the day that the armistice was signed. This is rather "old" copy, but is still interesting to us. We only regret that so many good things have to be left out, because of lack of space in the Delta.

In another place we chronicle the decoration of Brother Friedman with the Italian "Croce de Guerra" for bravery under fire. A Red Cross man's mission is far from peaceful at times.—The Editor.]

I am especially thankful tonight that I am in Italy, and in that portion of the war zone that lies nearest to the frontier. For what—just a year ago seemed possible defeat, probable ruination for a fine country and a great people—tonight has culminated in a grand victory.

When the armistice with Austria was signed at three o'clock today, Austria had been defeated and Italy was a victor, pure and simple.

I am billeted in a little village, along with the colonel and his staff, of perhaps three hundred inhabitants and five hundred soldiers. On one side of the village tower the Alps. The mountains begin to rise within three hundred yards of the little cluster of stone houses and rises, seemingly straight up, above the snow line 4,200 feet above the village. It is on the eastern side and so precipitous that the sun's rays do not penetrate this little valley until after nine o'clock each morning.

The top of this mountain is the frontier of Italy and Austria and it has been the location of several Austrian outposts, with three batteries of little mountain guns. Many a time have they shelled this village. Several of the houses show the effects and during the past ten days twenty-six shells were fired into it. As has every Italian village, no matter how small, there is a church, and a nice brick and stone church at that, with its two large bells placed one above the other.

Now, Brothers, how would you have liked to live in a village where, for three long years of war, terrorized day after day, night after night by the enemy, where the God-fearing people could not even listen to the cheerful sound of their church bells, for those bells had been silent these three years, fearful lest their sounds might bring down on the village, iron messengers from the enemy. It was my good fortune, when the clock struck the hour of three today, proclaiming the cessation of hostilities, to be standing in this village street. At the first sounds of the bells there was silence for a minute or two. They could scarcely realize their deliverance. Then the soldiers began to cheer and the old men and the women and children ran into the street and burst into shouts. Many cried out of sheer joy, and all of them began to gather around the church as if they wanted to drink in the voices of those bells.

That was five hours ago and still those bells are ringing; one after another, they take their turns at the ropes. Those were the happy ones. But as the corporal (my interpreter) and I were going to my room, about four o'clock, we saw the other side of the picture. Standing in a doorway, crying as though her heart would break, was a girl of about ten years of age and clinging to her skirts were two little tots, crying also out of sympathy because they were surely too young to comprehend. My interpreter questioned the girl and found that her father had been killed just

three months ago, and the sound of these bells had brought back memories. Sitting on a doorstep, we saw a young woman in black, crying. Her husband had been killed recently, and so it was in all of these mountain villages, that are overshadowed by the guns of the enemy. There was joy and there was sorrow.

As I write, the soldiers are shooting fireworks and from the Italian outposts upon the tip-top of the mountain, the sentinels are sending up many colored signal rockets. Some of them have the little parachute attachments so that the fire will float for a while. They are so very high that they seem to be visiting among the stars.

Now the terms of the armistice, as agreed upon about ten o'clock last night, were these: That the armistice would take effect at three o'clock today, that whatever line the soldiers were on at that time, they were to hold and that whatever soldiers of the enemy were behind that line at three o'clock, were to be prisoners of war. So you can perhaps realize what an effort was made to extend the lines into the enemy's territory, as far as possible during the few remaining hours.

And, Brothers, such a country for "extension." Up one mountain 4,000 to 8,000 feet, then down the other side and then up and down again continually, and snow and ice everywhere. Every officer and every soldier available grabbed their guns and marched to the work and presumably the enemy was making just as strong preparations to stem the tide.

Yet so determined were these Alpini, so brave and so bent on pushing the enemy back off the territory, that had been stolen from them in days gone by, that some of the patrols forced their way, 15 to 20 miles back into the enemy's lines. To one who knows these peaks as I do, it seemed an impossibility.

All prisoners taken hereabouts, must be brought to this headquarters. Here they are questioned and all documents that they may have are inspected. The first batch that arrived, late this afternoon, consisted of seven men and a corporal. If you had seen them, you would have wondered how in Heaven's name they could have existed up in the snow as long as they have. Their clothes hung in rags. Several had only parts of a uniform. Few had overcoats; their hair was long and ragged, and they were anything but clean. You seldom see a beggar in America as ragged as they. When I gave them some cigarettes and cigars, they had many smiles for "Americana." They had never seen an American uniform before and had no knowledge of any Americans in Italy. I made their guards line them up for a photograph and they looked as pleased as children.

Now, four of these eight men were under twenty years of age, three were twenty-one and the corporal was thirty. And the pity of it was, that when the examining officer inspected their pocket-books, full of post-cards and pictures of their home folks and friends, some of the photos were of these same boys, some on football teams, some in family groups all nicely dressed and at pretty homes. They were absolutely unrecognizable in their present condition. One of them autographed a piece of paper money that he had and gave it to me. Another gave me a little military medal. Since then several batches have come in and now (at 11 p. m.) we have just had a phone message stating that others are on the way here.

Now the Austrians, the comrades of these prisoners, perhaps these very same men themselves, are the ones who have terrorized this war zone for three years. They have perpetrated every misdeed; they have treated with greatest cruelty all Italian prisoners; they have mistreated the women and the old and youthful inhabitants of all Italian villages which they have taken, and

yet, today, I have seen these Italian officers and soldiers with that sympathy which no other nation possesses in like quantity, give to these prisoners comforts and eats and not one harsh word have I heard hurled at them. It is past understanding, when you have seen, as I have, what the Italian people of this war zone have undergone during the past three years from this enemy.

Could any one on earth have aught but tender feelings for such a people?

My comrade and I have had many strenuous times in these mountains since my last letter to you. We have carried comfort and supplies for the American Red Cross to peaks, known the world over to all mountain-climbers, where the snow and ice is perpetual. One of these little outposts is nearly 13,000 feet high and is the very highest trench of the Allied Army in the whole war zone of Europe and one of the highest peaks in the Alps.

We have seen and crossed magnificent glaciers and we have gazed on

snow-clad mountain peaks, glistening in the sun, one after the other, as far as the eye could reach. From some of the sentinels' posts we could see many miles into Austria and Switzerland. We have had the enemy's sentinels "pot" at us with rifle and machine gun, and tied to a rope alongside Alpini guides, we have scaled icy cliffs where a misstep meant a tragedy; yet, when we would gain our objective and see the look of appreciation upon the soldiers' faces for the comforts and supplies which we had brought them, we have always felt more than repaid and in our hearts was always that feeling of "doing so little" for these men who were "doing so much" for the Allies and humanity.

A few days ago, I had the honor of being recommended for the "Croce de Guerra,"—the Italian Cross of War. I feel that this more than compensates me for all of the strenuous hours I have spent. It seems now that it will only be a matter of a few weeks or months before we all shall be coming home again, flushed with victory.

[To be continued.]

Special Cables to our Brothers

From WARREN PIPER, Song Correspondent of Sigma Nu

When Irving Berlin writes a new song the whole world listens, for about one day. When the Song Committee makes its award on June first they will choose a song that will live in the hearts of Sigma Nu forever. Will it be yours?

As President Wilson says: "May I not convey to you the glad-some tidings that a song contest is about to be pulled off right under your nose?"

Some gent once murmured that he would rather write a nation's songs than to frame its laws. If you feel that way about it contribute to the Sigma Nu Song Contest.

About the only decent thing we can say about the German people is that they like music. Enter that Sigma Nu Song Contest right now.

["Shortly following the armistice I happened to be traveling across the German frontier when these verses occurred to me. You see, the insignia and token of the Engineer Corps is the 'Castle,' and thinking of that, and of the work of occupation of the Rhine country by the Engineers, led to these lines that were not inappropriate to the place and time. Some of these days I shall see the 'States' again and till that happy time we work along on the reconstruction and cleaning up of the country."—Sam Hibben.]

My Castle on the Rhine

By SAM HIBBEN, Delta Alpha
First Lieutenant, Co. F, 605th Engineers, A. E. F.

*If I should build a Castle on the Rhine
And after many years it crumbled down
To ruins, link its name and memory not
With stein and tun,
But let it be the symbol of the time
When men threw off their superstitious bonds
Nor bore the War Lord's crippling lash, as slaves
To Hohenzollern line.*

*When'er I build my Castle on the Rhine
A sturdy structure it shall rise, and stand
Landmark of freedom, peace, democracy
Throughout the years.
Not of old stones, blood-splotched, nor mouldering vine
Nor yet with dungeons deep and dank,—no chains
Shall bind against their will the guests within
My Castle on the Rhine!*

*For if I build my Castle on the Rhine
'Twill be a home for clean and happy folk,
Children, not dragons; laughter, work,—forbid
Intrigue and wrong!
May not the traveler say, "I heard the cry
And whine of lonely ghosts, the clank of arms,
Specters grotesque that jeered me as I passed
The Castle on the Rhine."*

*Where'er I build a Castle on the Rhine
There love shall dwell, and friendly beacon rays
Of welcome from each window o'er the land
Shall shine with cheer;
Carousels, vermin, miser's greed,—no place,
No time for these. The storied past's behind!
Men of a new-born age shall know as theirs
This Castle on the Rhine.*

Metz, November 20, 1918.

[This poem shows what the attitude is which our Army is taking in the occupation of conquered territory. The Delta and our Brothers appreciate the opportunity of reading it.—The Editor.]

The Watch on the Rhine

First Word From Our Alumni Chapter in Germany

IN this first verse of a (once popular but at the present time very unpopular in Germany) certain national song:

There comes a sound like thunder's peal,

The saber's clash, the clang of steel,
The Rhine, the Rhine, the German Rhine,

O who will guard the River's line? is put a pertinent question. The Hohenzollern insisted on an answer, and he got it. "The Poilus, the Tommies, and the Yanks—these three," says the "Stars and Stripes," and goes on to describe the occupation of the Rhineland by the Allied forces:

It was just at dawn that the close-massed forces of the Third American Army moved forward in the dismal December rain to take and hold the bridgehead that is theirs today. By four bridges and four ferries, they moved quietly across the river, which is more beautiful than any our own country can show and which means more to Germany than any American river can ever mean to us.

The Rhine for all its castle-crowned steeps, for all its massive and impotent fortresses, is more than a mere moat to guard the Fatherland. To the Germans, it is a river of proud memories, the silver thread on which their history is strung, the link of lore and legend, the inspiration of their songs for which through countless generations its lisping waters have crooned a soft accompaniment.

Today the sentries who guard its bridges and pace their posts within the shadow of the ancient castles are not German soldiers. Poilus and Tommies and Yanks, these three—and it is their Christmas present to a tired, thankful world—these three are keeping the Watch on the Rhine.

And then in the gray of a December morning, an American Army

moved across the German Rhine. For this great hour in the history of the United States, many Americans were up and abroad an hour in advance of the sun, as though reveillé meant nothing in their lives. Gray-haired staff officers, Salvation Army lassies, cooks from neighboring messes, couriers, artists, war correspondents, they were all there waiting at the Coblenz pontoon—the Bridge of Boats—for the electric moment when the Rhine bridges should give forth the music, the ever recognizable, ever stirring music of American infantry on the march.

Yet they knew in their hearts it would be what the French would regard as an indifferent show. They knew from long and gloomy experience that the American Army simply refuses to be dramatic. They were right. There was no fuss and feathers, no flourish of trumpets. There never is.

On the stroke of seven, the first mounted men clattered forward over the cobbles of the quay and the order "Forward March" sounded from post to post along the river front. But the procession grew impressive enough as the doughboys tramped across, an endless column that thumped ahead, deliberately oblivious to the beauties of the Rhine or the significance of the occasion, listening indignantly to the patter of the rain on their helmets and wondering if the quartermaster had enough shoes. Close to the further shore, the swaying, scarce-distinguishable column of olive drab melted into the all-en-shrouding mist.

Not so the flag and standards, when their turn came to cross the Rhine. Always they shone bravely from shore to shore. It was the one touch of color in all that drab and cheerless morning, from the moment when midstream, the river wind

caught and flung them wide, till, dwindling, dwindling, they became only a point of scarlet in a curtain of mist, like a poppy blooming in the cranny of a gray wall. And always, faintly from the other shore, came the music of the band playing in the rain.

While the First Brigade, with ponderous trucks and smoking kitchens, moved over the pontoon, the Second Brigade, was crossing by the beautiful three-span Pfaffendorf bridge near by. Below, the famous Thirty-second was crossing and below them the Second, while above, the Third had edged upstream a bit toward Bingen.

For this crossing, the troops had been massing on the left bank since the preceding Sunday, when the first cavalry trotted into Romagen and the first infantry—a whole trainload of affable doughboys—arrived in Coblenz.

Now the Stars and Stripes float from the skyline flagpole of Ehrenbreitstein. Ehrenbreitstein sounds rather like the name of some cloak

and suit house in New York, but it is really a fortress so formidable that it is called the Gibraltar of the Rhine.

Brothers In Germany Read!

Lieutenant Lawrence C. Brewer, Gamma Sigma, is with the Army of Occupation in Germany. Brother Brewer went overseas as commanding officer of Sales Commissary Unit 309, Quartermasters Corps, and was promptly attached to the Quartermaster Department of the First Division, then at St. Mihiel. He was soon promoted to the colonel's staff and is now assistant to division quartermaster, First Division, A. E. F. His address in military language is A. P. O. 729, but reading it old style, it would be Coblenz, Germany.

Brother Brewer hopes that this notice will meet the eyes of Brothers in the Third American Army of Occupation and thus bring him back old friends and make him new ones. He says, too, that he would like to attend a dinner of our Alumni Chapter in Germany.

Sigma Nu in the Army of Occupation

[We offered a list of Brothers already reported in our Alumni Chapter in Germany. The rest of you will please write us, giving the names of other Sigma Nu men you meet there.—The Editor.]

Atkins, James William, first lieutenant, Army of Occupation, Germany. (Gamma Iota 54, University of Kentucky.)

Bechberger, Carl Stead, sergeant major, Headquarters, Motor Battalion, 308th Ammunition Train, A. E. F., A. P. O. 734, Heimbach, Germany. (Delta Zeta 22, Western Reserve University.)

Clawson, Millard Edward, lieutenant, Signal Corps, 5th Signal Battalion, A. E. F., Army of Occupation, A. P. O. 740, Meyer, Germany. (Nu 274, University of Kansas.)

Dymont, Donald St. Clair, M. T. C., Quartermasters Corps, Company F, 107th Supply Train, A. E. F., Marienrachdorf, Germany. (Gamma Zeta 131, University of Oregon, aff. to Gamma Chi 198, University of Washington.)

Genereux, Joseph Arthur, lieutenant, Company E, 1st U. S. Engineers, Coblenz, Germany. (Beta Sigma 169, University of Vermont.)

Gibson, James Raymond, second lieutenant, Army of Occupation, Germany. (Gamma Mu 173, University of Illinois.)

Gibson, Thomas Robert, captain, Army of Occupation, Germany. (Gamma Mu 172, University of Illinois.)

Hadesty, George Boyd, Jr., second lieutenant, 47th Infantry, prisoner of war, Kriegsgefangenenlager, Karlsruhe, Baden, Germany. (Delta Delta 70, Pennsylvania State College.)

Jackson, Byron Edward, lieutenant, 188th Aero Squadron, 7th Army Corps, A. E. F. Germany. (Epsilon 47, Bethany College.)

Martin, Virgil L., corporal, Company C, 314th Engineers, A. E. F., A. P. O. 761, Welschbillig, Germany. (Nu 220, University of Kansas.)

Pomeroy, Orange Barker, second lieutenant, commanding officer, Mobile Bathing Unit No. 11, Third Division, A. E. F., A. P. O. 740, Andernach, Germany. (Delta Zeta 63, Western Reserve University.)

Our First Word From Germany

By LIEUTENANT SAMUEL G. HIBBEN, Delta Alpha

The Binding Tie of Fraternity

WHEN our battalion returned from the zone of operations to this city, I found amongst quite a pile of mail your letter, as a very welcome surprise. It seems good to know that the Fraternity is not shorn of its undergraduate strength through the large number of the fellows serving overseas, and still better to learn how true to its traditions Sigma Nu has proven itself to be, because so many Brothers have unhesitatingly served their Country.

So many and varied have been my experiences that it would be hard to select any one that might particularly interest you or any of the other Brothers. I do, however, want to tell you of one incident that was very pleasing to me. Shortly after my arrival in France last fall, my company moved to the old French fortified city of Langres on the Marne, and going in to the American officers' mess at that place on the first evening, I saw lying in full view a Delta. That certainly made me feel very close to my home and friends, and of course immediately led to finding a Sig fellow officer. The two of us—Fern Brooks, of Pennsylvania, being the owner of the Delta—soon located a third Brother, and so wherever one goes, even in the mud and tangle of No Man's land, the little Cross of the Legion may be found.

Friends "Just Like Home"

Every now and then I hear from one of the fellows in my neighborhood. Lawrence L. Hopkins, of Delta Alpha and the Pittsburgh Alumni Lodge, is with the 305th Engineers on the front, and Brother Clark Francy is just south of me in another Engineer regiment. I expect the boys at home know more concerning the men in France than myself, because mail comes infrequently and I move

about too much to keep up any liason system.

The Army as Educational Factor

Now that the fight is over, I can look back on my short military career as being a great experience. The whole thing is worth more to me than our four years in college. Among all the events—and there are more than the number of cooties on a boche's shirt—I recall first the trip overseas. We were in a large convoy that wallowed through storms all the way, and became so hard pressed off the north coast of Ireland that one of the ships went on the rocks and the rest of us were three days beating about to ride out the heavy weather. The deckhouses were washed overboard, also most of the lifeboats, and the ship's cat was the only thing that could stand on its feet. I was lucky in not eating six meals daily—three down and three up—but most of the men were first afraid they were going to die and then afraid they wouldn't.

Uncle Sam Furnishes Tourist Privilege

Across the channel to Havre, then we moved to the front by easy stages, visiting Langres, Fort St. Meuge, Faverolles, and not a few other villages. This all gave me the chance to prow around some wonderful mediaeval cathedrals and forts.

At the Front

At the front we were doing ground ranging south of Metz, over the section called the Woevre, and not far from the famous Beaumont ridge and Montsec. We were in an active zone, but in comfortable dugouts and fairly safe most of the time. Whenever a big one let go, I had an idea that there had been a B. & O. freight wreck, but soon you become accustomed to shelling. The fellows, when they messed, always kept a tin pie plate at their elbows to slap over

their grub to keep out the falling dirt. Then, since I had been staying around Times Square in New York most of last winter, I didn't find No Man's land so strange after all.

You have read more descriptions of the front than you probably care to, so I'll not speak of the region as I saw it, or of the thousand and one tales that are told, and will be told again at the Fraternity banquets.

Hobnobbing with "Friend" Fritz

One thing may interest you more than the rest, namely, the way the fight ended on the American front. At 11 o'clock on the dot all the firing ceased. Our men had attacked at about 10, and were trying to take the village of Marcheville right in front of us when the bugles blew "recall," and to the doughboys Gabriel's trumpet will seem no sweeter. By noon the boche were above ground, dancing along, throwing away tin lids and soon coming over to trade souvenirs for bread. That night the enemy and our men slept in the same town, and it was a strange thing to see a fritz and a doughboy sitting side by side before a fire. The American soldier doesn't know how to hate, though I don't mean to say he likes the hun. I can better express the difference between the French and the Americans by stating that the German people in Metz and those places that I have visited across the frontier look to the U. S. to help them, and praise Wilson, while they fear the French army and its occupation of the Rhine. I respect the deep hatred of the poilu, and I recall the statement of a French officer, who said, as he stood by the hole where a boche and a poilu were lying, "Our brother will forgive his enemy's spirit before the Mercy Seat," then adding significantly as he turned away, "peut-etre!"

France As It Is After the Battle

One of the big hills that were held by the Germans during nearly four years is named "Montsec" and rises within view of our former position on the line. Some wonderful engineering was done on this hill, and here the boche with their characteristic damnable thoroughness had tunneled through and through, back and forth, so that the entire top is honey-combed, and it reminds one of the New York subway. But what I started to mention was that we were on this ridge just after the cessation of hostilities, and had as pretty a display of fireworks as I've ever seen. All the star-shells, signal rockets and very lights were used that were left over in the ammunition dumps, and soldiers on both sides of the line sure did keep the air filled with colored lights. One of the pictures indelibly on my memory is that of the village of St. Hilaire—only a scar of shattered walls, broken beams and tangled wire—as it was illuminated by the fire in the sky, and with its wreck like a white skeleton under that cold-est of blue-white light.

At the foot of Montsec is a monument, built of concrete and anti-aircraft shells, that was erected by the boche when, in their onward march, they were at the height of their confidence and insolence. On this monument is the inscription that reveals their attitude, "Wir Deutsche furchten Gott, sonst nichts in der Welt."

If I had the time to write further, I should like to tell you of the triumphal entry of the Allied armies into Metz, or of the feelings of the peasants of Lorraine, who once more are part of the French Republic, but it's all too long a story.

Metz, Germany.

A Fraternity Secret

It's not what you "get out" of Sigma Nu but what you "put in" that counts.—R. L. HARTER, Beta Psi.

Our "Amex Forces" Alumni Chapter

[We are enabled to present this month, the most detailed and yet concise account of our men in the American Expeditionary Forces in France, through the untiring efforts of Brothers Lieutenant Howard A. Johnson, Gamma Phi, and Past Regent Albert H. Wilson. Lieutenant Johnson is the voluntary secretary of our Amex Forces Alumni Chapter, having on his first arrival in the vanguard of the American Army, taken on himself the "labor of love" of effecting an informal organization of Sigma Nus abroad. His first letter appeared in the Delta for May, 1918.

Brother Wilson is active and alert in the interests of Sigma Nu always and everywhere. As a member of the Overseas Army Y. M. C. A., he is brought into contact with thousands of men, and as his letters show, with hosts of Sigma Nus. His cheery chats have given many a Brother a merry welcome and "send-off" for he is full of Fraternity news and spirit. Since our Regent has returned to this country, "Bert Wilson" becomes Sigma Nu's ambassador extraordinary and minister plenipotentiary to our Knights of the Republic.

The long lists of Sigma Nus which they have sent, have contributed much to the authoritativeness of our Honor Roll, and only the limitations of space compel their omission here.—The Editor.]

The Secretary's Letter

By LIEUTENANT HOWARD A. JOHNSON,
Gamma Phi

Sigma Nus Everywhere

I WON'T put off writing any longer—for there is no valid excuse. I received your letter some time ago, while still at aerial gunnery school at St. Jean-de-Monts (Vendee), and am enclosing the list of Sigs in France, corrected and amplified so far as possible according to my latest information.

Everywhere I go I find Sigs. When I got to St. Jean, Brother Donald Hughes, Beta Kappa, was in charge of the flying there, but soon after he succeeded in getting away so as to make for the front. Like myself, he was too late. The armistice found me still at St. Jean, my course not completed.

A Second-Hand Front

Since then, though, I have succeeded in getting up to what used to be the front, but which is now a poor second-hand front. We even show lights at night, and the camouflage on our barracks and hangars has been allowed to go to seed. No longer does the sportive Hun shower us with explosive bullets and dumdums, and the machine guns on my Spad look

dejected. Too bad I couldn't have gotten here in time to have seen some real service! Still we keep in practice by diving at a small lake and shooting holes in it. That is the only handy target. We need all the Hun prisoners to repair roads.

In this squadron with me is Brother J. E. Spier, Gamma Kappa. He left aerial gunnery school with me, but it wasn't until we had been in Paris a day or two that I learned he was a Sig. [Brother Johnson's story of this meeting will be found under the Chapter Bookshelf.—The Editor.]

The Good Ship "Spad"

Spier and I are in the 638th Aero Squadron, Fifth Pursuit Group, Second Army, A. E. F. That is our address. Just at present we are marking time, waiting for something to happen. The report is that we are about to move into Luxemburg and Germany, but army rumors are notoriously poor things to believe. Still we are hoping to be in the Army of Occupation.

Each of us has his own little Spad chasse plane with machine guns firing through the propeller. It is the swiftest and most reliable ship "on the front" and is a wonder. When-

ever the weather is good we take off and explore the country, going as far as Metz and Verdun. Toul and Nancy are only a few minutes away.

Lay St. Remy is eleven kilometers west of Toul on the road to Paris. It is near the eastern boundary of the Department of the Meurthe and Moselle; our aerodrome is mostly over in the Department of the Meuse, the boundary line cutting through it.

This is very interesting country to fly over, but we never will cease regretting the fact that they didn't get us up here until too late. Our aero-

drome was used for allied planes during the famous Saint Mihiel drive, and I would like to have been here then.

Just a year ago tonight our convoy was coming down past Belfast and we knew that the subs had just a few more hours in which to get us. They must have been confident that few of the flying cadets on board would ever get to the front, for they didn't trouble us. Why waste torpedoes?

Second lieutenant.

Lay St. Remy (Meurthe et Moselle), France.

December 7, 1918.

Applied Fraternity

LETTERS FROM PAST REGENT ALBERT H. WILSON

Introduction

By INSPECTOR HENRY A. THEIS

The Great Father, as we are pleased to call him and as I know he is known to a large part of the Fraternity, has sailed overseas in the service of the Y. M. C. A. It is as all of us who knew him expected it would be, and though we miss him and his friendly guidance, we would not have it otherwise. Our good wishes extend across the seas to our Brother, A. H. Wilson. We are anxious to receive word of his arrival and will look forward to learning his experiences.

I

SOMEWHERE on the bustling bosom of the Atlantic." All is well except a genuine attack of "mal de mer." Sea legs have arrived at last.

On the Way Over

No Sigma Nu, other than myself, on board. At least I have not found any such. However, I have met an old Inter-Fraternity compatriot in

Mr. Herbert Martin, Worthy Grand Scribe of Kappa Sigma. He is a genuine gentleman and fraternity exponent from Danville, Va. We exchanged "The Delta" and "The Caduceus" for pleasant reading. Both most excellent copies. "The Delta" sure is an honor to our Fraternity.

II

Peace Day in Paris

WHEN Great Britain declared war on the Imperial Government of Germany I chanced to be in Liverpool, England, and it was wonderful. When the news was flashed to all the corners of the world that Germany had exploded and peace had come it was my rare privilege to be in Paris, France, and words fail to describe or to define the greatness of it. As if by magic Paris threw off the strain of war and learned how to smile once more. It will be impossible ever to forget the experience of that Peace Day in the magnificent city of Paris. Among the delightful and satisfying occur-

rences was the manner in which these Parisians hailed America. On Rue and Boulevard we were acclaimed, embraced and punished on either cheek. Enough of war, for all America has come to know the greatness of our cause and the wonderfulness of the Allied victory.

Sigma Nu Goes Along

Even in France a Sigma Nu discovers that his Fraternity has not been left in America. On our arrival in England I had scarcely reached the rest camp at Knotty Ash when Brother Joseph P. Gilbert, Vanderbilt, introduced himself and we enjoyed a half-hour of pleasant conversation. Brother Gilbert is in the Medical Corps at this American camp in England.

On arrival in Paris I found that Sigma Nu had preceded me to extend a welcome. At the Y. M. C. A. post-office I found letters from Norman Angell, Delta Gamma, of Baltimore; James A. Schweizer, Delta Gamma, Washington, and R. L. Bovard, Delta Delta, Pittsburgh, besides others from the General Officers.

The Regent's Courage

At my earliest convenience I went to the American University Club to register and had scarcely placed my name within the big book when Lieutenant Robert M. Brookes, Bethany, reached out his hand and slipped me the Sigma Nu grip. Brother Brookes was wounded severely, but has about recovered. He told me anew of the courage and daring of Regent Borden Burr during the great drive in which Brookes was wounded. Regent Burr not only went over the top, but returned to help attend the wounded and to act as chaplain in burying the dead. Lieutenant Brookes also informed me of the death of Lieutenant Charles Judson McGrew, DePauw, in this same battle. Not only was Brother Brookes wounded, but he owns a souvenir in his leather belt, which was cut by bursting shrapnel in two places.

The American University Club

The University Club has filled a great place for our boys while in Paris. The notion struck me to go over the files and jot down the names of the boys from Sigma Nu who registered at the club while in Paris. At the end of my letter I will append the list, giving name and college of each Brother. [This list has been consolidated with the Knights of the Republic.—The Editor.]

The first afternoon of the Peace Celebration I was passing to the Madelene Boulevard when some one touched me on the shoulder and I turned to greet Lieutenant Morton Kelly, Stevens Tech. Brother Kelly is with an Engineers' Regiment south of Paris.

In the "Y" Harness

Even when I came in touch with my Regional Chief for "Y" work, about the first question he asked me was whether or not I knew Captain John Carmichael, Hagerstown, Md. Brother Carmichael is a Washington and Lee Brother. Mr. Case, my chief, has arranged for us three to dine together shortly.

You can boost the war work of the Y. M. C. A. over here just as far as you please and you still will be in conscience clear. It is truly magnificent. As for myself I will be placed in Region No. 1, with the city of Rennes as our central or divisional center. I am to go among the boys constantly and at times to lead meetings, hold entertainments, join in athletic games and help to "carry on" in every way possible to help make our wonderful fellows in good cheer while anticipating the day when they shall walk up the plank at the Hoboken or New York piers and then scatter for the fires that have been burning against their coming.

"Applied" Fraternity

It is a fine work and I am proud and happy to be here. My debt is again increased to Sigma Nu, for I

feel far better equipped to do my tasks by reason of the lessons learned in my Fraternity. I am not ashamed of my Fraternity, for truly she has taught me much to be prized and cherished. Sigma Nu has been great in battle and I am certain she will be just as heroic in peace.

III

A Sigma Nu Bivouac

ALMOST immediately after posting my letter yesterday (Wednesday), I walked from the "Y" building to meet Lieutenant Donald P. Horsey, Delaware, who was just in from the front lines and on his way to the Officers' School, Clamecy, France. Brother Horsey had been over the top on several occasions and was embellishing a shell hole in Belgium awaiting the order to go over again when the peace armistice reached his company. The Lieutenant was searching for hotel accommodations when I found him, so I carried him to my room at "The Wagram" on the Rue de Rivoli, where he will bivouac until tomorrow morning, when he leaves for Clamecy and I return to Cherbourg. I showed Brother Horsey the October "Delta" and I wished you might have seen him literally devour it.

IV

And a Dinner Party

LAST evening (Sunday) we had a little dinner party at the "Y" hut and two of the lieutenants were invited into the circle. My surprise and pleasure were great when one of the Lieutenants proved to be Brother Olaf A. Zewadski, Michigan. I produced "The Delta" for his delectation and he made full use of the opportunity. Every place I go in France I am meeting up with our splendid fellows.

V

In Rennes

I AM in the city of Rennes, en route to Vannes, where I will be stationed in Y. M. C. A. work. The "Y" is following our soldiers both east and west. The city of Rennes is in Brittany, and the ancient capital of that dukedom. Quite an interesting place. Brother John Carmichael, Lambda, of the 44th Engineers, is stationed here. I take the 3 o'clock train for Vannes in the afternoon. Six hours is required to reach the city of Vannes.

German Prisoners

German prisoners are to be seen about all the camps, working under French guards. Some of them appear to be only young chaps, but all of them wear a browbeaten countenance. The kaiser has put his stamp on them and no mistaking at that point. Six thousand Frenchmen returned to Rennes this week after serving some time in Germany as prisoners. I feel sure France will not consent to the kaiser escaping justice.

VI

Vannes, France, Sig Colony

TO keep up with Sigma Nu reports to you I am telling you of the very fine colony of "Sigs" I have discovered here at Camp Vannes—Chaplain and Captain Carl Fraser, Columbia; Lieutenant George B. Hadesty, Penn State, and Lieutenant Carl Koch, Mount Union. We will arrange a little "get together" soon. Captain Fraser is immensely popular with every one in this place.

My poor old "Delta" is becoming "dogged eared" from much usage, as all these "Sigs" in France ask to see my October copy.

VII

Sigs at the Masonic Rally

CHAPLAIN FRASER was the "big noise" as Chairman of our Masonic Rally last Monday evening. Over one hundred Masons were present at my hut and we had a wonderful occasion. I had to make a speech and almost welcomed the men to a Sigma Nu instead of a Masonic gathering. I caught my tongue just in time to keep the Sigma Nu out of the atmosphere.

Christmas in the Hut

Brothers Fraser, Delta Gamma; Koch, Beta Iota; Hadesty, Delta Delta, and I will hold a Sigma Nu Christmas session at this hut on Christmas eve after our day's work is ended. I am going to surprise the fellows with a little spread and a present for each one. I sure am proud of the "Sigs" I have met over here—100 per cent. men, and no matter where they hail from as to territorial distinction.

"See Paris and Die"

This camp may be abandoned as an evacuation camp. If so we "Y" men will move to some other point and no doubt I will have other Sigma Nu names to add to my French roster. At the end of four months' service I will be given two weeks' vacation. I am buffeted between two desires—Nive vs. Paris. Rather suspect Paris will win. At either point I am sure to meet some American friends and Fraters. France is giving President Wilson a wonderful reception. We are having fine weather for the doings in the President's honor.

VII

A PACKAGE of "The Deltas" reached me yesterday (December 23) with date of the October issue. I will see that Brothers Fraser, Koch and Hadesty of this camp receive a copy each. Also I will mail a copy to Lieutenant Donald P.

Horse, Officers' Training School, and another to Lieutenant Walter Stillmann, Paris. I know their addresses with certainty. I am mailing a copy to the University Club, Paris, for use in the reading room and I am sure many a stray Sigma Nu will have a happy surprise to find it there. Another copy I will mail to Captain John Carmichael, Rheims. The remaining copies will be placed as quickly as I find addresses of our men. The camps are changing so rapidly that it is difficult to keep up with the Brothers in arms. Here is hoping the December "Deltas" are not so long in reaching me. Thank you very much indeed for your thoughtfulness.

We are getting ready for Christmas tomorrow. There are treats for every soldier boy in camp. Among other duties, I will speak at the hospital at 10:30 Christmas morning..

The picture I am enclosing, from the New York Times (Americans in the Ambulance Service with the French army who have received decorations), includes Brother Edward G. Fendrick, University of Virginia.

IX

Christmas in France

I HAVE made good use of the package of "Deltas" sent to me in France. I have distributed them among the known "Sigs." I am mailing a copy to the University Club, Paris, with the request to place same on the reading room table. Stray Sima Nus will be happily surprised and entertained to find there.

I will sidestep modesty and tell you I have been made Divisional Secretary of Religious Work. It keeps a fellow busy to see that speakers are provided for all the different huts and in the different places—week days as well as Sundays.

By the way, I find that Beta Iota has another man in Y. M. C. A. over here. H. H. Bowman, Canton, Ohio, is the latest one discovered.

Chaplain H. C. Fraser, Delta Gamma, was called to Paris yesterday to meet his father-in-law, who is en route to the Balkans.

Christmas was a wonderful day in France. Not only a Peace Christmas, but the day was perfect in sunshine and warmth. The "Y" gave every man in camp a fine box packed with good things. I spent the entire forenoon at the hospital. That may sound like gloom, but not a bit of it. I never enjoyed anything better in my life.

[To be continued.]

Camp Clayton, France

In this morning's mail I note General Order No. 64, para. I, Hq. S. O. S., A. E. F., dated December 11, 1918, that the Quartermaster Casual Camp at Chateau-de-Loir (Sarthe) has been named Camp Clayton in honor of our deceased Brother, Colonel Bertram T. Clayton. It seems to me a fitting tribute to so valiant a man.

CAPTAIN ALFRED A. GRANT,

Beta Kappa.

A Father's Approval

ONCE in a while a Chapter has to face parental objections in "rushing" men. This situation is due to lack of knowledge or misunderstanding on the part of fathers and mothers of what a fraternity means and of the part it plays in the lives of their sons. At least they do not understand what Sigma Nu stands for.

The parents of the active men have often been of help to the Chapter, by way of tactful counsel, better morale, and sometimes financial assistance.

We know of one instance where a father built the Chapter House for his son's Chapter, not by gift, but by financing the project and allowing the Chapter and its Alumni to repay him in annual installments. Many of our Chapters believe in cultivating this acquaintanceship by giving an annual parents' party and by inviting them to dinner and week-end visits. These associations result in mutual helpfulness.

It is interesting, therefore, to note what one father has to say of his sons' Chapter. Mr. James D. Gibson has two sons in Gamma Mu Chapter, University of Illinois—Lieutenant Thomas R. Gibson, who recently was awarded the Distinguished Service

Cross for extraordinary heroism in action near Soissons, and Lieutenant Raymond Gibson, Air Service, both now with the American Army of Occupation in Germany. He writes, in a personal letter to an old friend of his, Past Regent George M. Cook:

"George, I bet you are proud of your Sigma Nu boys. Over half of your membership was in the Army and Navy, and about 90 per cent. of that half has earned the right to be officers and leaders.

"A record like that demonstrates one thing for a certainty and that is you must have a perfect system in selecting your pledges, or is it something you instill into them after they become pledges? No matter what it is, though, they sure are the right sort."

Yes, indeed our Gibson Brothers' father is right on both counts. We choose with care the men to whom is given the privilege of wearing the Star of Sigma Nu, but still the influence of the Fraternity and the precepts of our Creed play a part in shaping their lives. And we rightly may be proud when the fathers gladly recognize its training in the sons.

[See account of these Brothers under On the Way to Berlin.—The Editor.]

The Romance of Business

II Sales Management

By A SIGMA NU SALES MANAGER

A SALES MANAGER is responsible for the sale and distribution of a factory product. His work usually deals with the development of salesmen, the direction of agencies, the building of branches and the planning of sales advertising.

I divide sales managers as business builders and turpentine hounds. The builder trains his sales force, stimulates teamwork and effects harmony. His ideal is the perfection of organization; that is, the building of a sales machine that will function under any conditions. The turpentine hound is another type who yells for results and raises hell when they appear not. The builder inspires through leadership; the hound succeeds through fear of the big stick. Both types can get results, but I prefer to build, and the methods may interest you.

We are manufacturers of fine grade jewelry specialties, with eight distinct departments, each separate, yet each overlapping the other. We sell direct through our own branch offices and a national staff of traveling salesmen, who require unusual versatility and specialized training. My most important work is the development of salesmen, and the job was made to order. It happened when I was on the road, and my territory became too big for one man to handle. I picked up an assistant who managed to produce, and other assistants followed. I continued to howl for more territory and more men, and gradually I got both, but if we had ever ceased to produce my climb would be ended. We *had* to get results, or I was doomed to mediocrity; so it became a co-operative plan by which I worked for my men and they worked for me. Their work made me sales manager of a national institution. My work increased their efficiency, their opportunities and their

earnings. Plain, everyday teamwork and lots of it.

In a previous article on selling goods I said a real salesman must possess energy, personality and balance. A sales manager must have all of these plus leadership and enthusiasm. These are the qualities of hitting hard, playing fair, and refusing to admit of discouragement. They are positive forces that stride forward, gain respect and hold personal loyalty. I consider loyalty the greatest element in successful management, and personal loyalty is easiest acquired. My first trip as a new salesman was a sad disappointment, and I returned to the factory expecting to be fired. One member of the firm laughed at my discouragement, sneered at my fear, and sent me back to the road determined to succeed, not for myself, nor for the house, but for this man who believed in me. At that time I considered the house an old and honorable institution with the heart of a refrigerator, but this one man became a sort of hero that I dared not disappoint. The greatest lesson life has taught me is to believe intensely in every one in our organization as long as they try hard to succeed, and this belief has been the keynote of my work.

In choosing salesmen I prefer inexperienced men, and I do not object to men who failed in other work. Given the primary qualities of salesmanship, intelligence and good breeding, I believe almost any man can sell successfully with proper direction. Few of us realize our opportunities and resources until necessity forces us to use them. The new salesman comes to me as a personal assistant in the office, and for one month he becomes the hardest worked man in the force. Every odd job in the place is heaped on him, and before he finishes one

task the next is ready. This month gives him a general idea of what we are doing and why. He learns something of our system and methods, and to work at top speed. He gradually catches the spirit of the place, for our office radiates happiness. There is no cheap discipline, but there is a world of dignity, and we hit the ball all the time. That is because we work *with* each other. During this period the new man becomes my friend, and this friendship is very real. We often have luncheon and dinner together, take in theaters and dances, and get to really know each other. Emerson said, "The way to have a friend is to be a friend." I need this man and he needs me, so our interests are mutual. Friendship and loyalty spring from respect; he soon finds that I demand a lot from him, but more from myself. If I can keep his respect, I can hold his friendship and loyalty, both of which I need. He learns to know me and some of my general problems and ambitions, and I get to know him in the same way. If I can convince him that I am "square," that his success is mine, and that I will work as hard for him as I expect him to work for me, my aim is accomplished and we understand each other. After a month in the office he is put on city sales work, learning to handle prospects and customers in each of the various lines we manufacture. His first road trip soon follows, usually with an older salesman. When he starts his first trip he comes under my direction and is studied in a dozen ways. Mistakes and errors are carefully explained, to prevent recurrence; policies are laid down and carried out; sales routine begins. He is studied and helped continually, and as fast as he develops, greater responsibilities are passed to him. If he shows unusual ability in any particular line of work, he is given a

chance to specialize in it. When his road work is successful, he may become assistant manager of a sales branch, and as other branches are opened or developed he has an opportunity to work into branch management.

This phase of sales management is specially interesting, and I consider it my most important work, because the development of teamwork is the underlying force that sells the goods in ever-increasing volume. Sales advertising, the study of new fields, and the building of branches are all important parts of the work, but they would be futile without the spirit that grasps every opening and fights hard as a team.

A salesman "sells" himself to a customer when he takes his order, and by service, delivery, and confidence inspired, he keeps himself "sold." I "sell" the house to a salesman when I employ him, and with fairness and understanding, based on mutual loyalty, I keep the salesman "sold." To have a hand in the development of human beings, and to watch this human power deliver clean business in growing volume, is the most interesting work I can imagine.

Sales managers are paid, like salesmen, in proportion to what they produce. Their opportunities are limited only by their ability to think big thoughts and carry them out. Most of the turpentine hounds are mental pikers, and \$3,000 is probably their average salary.

Business builders command from \$5,000 upwards. My ten years as salesman and sales manager have taught me that very few people are really unappreciated. We usually get pretty much what we are worth, and some of us get more, for such is life.

[The End.]

A Man's Game

We are called upon as Americans and as Sigma Nus to play a man's part in a man's game.—REGENT BORDEN BURR.

Secretary's Table

Inspectors' Conference

have been unable on account of conditions to hold the Inspectors' Conference as authorized by the last Chapter.

Each attempt it has been found impossible to obtain the promise of attendance of a sufficient number of inspectors to warrant the expense necessary to hold this meeting.

conference with the Regent, it has been found not advisable to again attempt to call such a meeting this coming spring. Our Inspectors are exceedingly busy men. It takes a kind of a Brother to make a good doctor. It has been felt that at an important time in the reorganization of our Chapters, all the possible time away from their business should be given on the part of our inspectors to the active reorganization of their Chapters.

Most heartily believe in an annual conference of our Inspectors. Now of no other addition to prescriptive activities which will add so much to the strength of our Brotherhood, we hope to soon see this meeting established as part of the regular program of our national activities.

The lack of a conference of workers is being overcome in part by the local location of the General Offices in Indianapolis. Our officers and members are finding it increasingly convenient to stop over in Indianapolis for conference and information. Recently we have had the pleasure of conferences with Inspectors Ernest Williams of the Fourteenth Division, John R. Roberts of the Ninth Division, former Inspector E. R. Wy of the Twelfth Division, and Mr. O. S. Moore, secretary of the New Alumni Chapter. We have held recent conferences with Inspectors Theis of the Seventh and

Lynch of the Eleventh Divisions.

To these officials there is also a long list of other Brothers as noted in the list of our Visitors' Register in the Editor's Miscellany.

Chapter Credit

There are some fellows who think that the Chapter exists for the sole purpose of paying their way through college. Occasionally, we find those who think that the last thing they should do is to settle their debts to the Chapter—but that is going to be ancient history from now on. These Brothers will be reminded promptly and effectively. If due notice is ignored they will cease to be Brothers.

The worst form of the "human sponge" is the man who rides the credit of the Chapter for his personal debts. The stigma which he leaves clings to this Chapter after he is forgotten. Many a merchant has extended favors to the men at the Chapter House, because, with such exceptions, the boys always were honest, and because there was friendship as well as business dealings on both sides. Sigma Nus have a good name. "The truth is," said one active man to us, "we have too much credit."

Nu Chapter has followed for a long time the policy of standing back of all accounts left unpaid by its members to merchants in Lawrence, and charging such amounts to the delinquent member. So far, it reports, but three instances have occurred where the Chapter took over unpaid accounts and collected from the debtors. If the member fails to reimburse the Chapter, it will be necessary for him "to suffer the undoubtful result."

Look after the name of your Chapter in your town.

Official Jewelers

Chapters please note that we have two official jewelers and not one. The salesmen of the J. F. Newman Co. and the L. G. Balfour Co. are to be admitted to the Houses on exactly the same basis. They have exactly the same relation to the Fraternity. To patronize either of these firms is to have the guarantee of the Fraternity as well as of the firms. By this means we have been able on several occasions to be of assistance to the Brothers where we could have been of no service with firms having no contract with us.

Finally in dealing with our official jewelers you are helping the Fraternity as well as gaining the added guarantee for yourself.

These firms pay for the privilege of being received in our Chapter Houses. Please remember this. Deal with them and with *no others*.

Honor Roll and Memorial Tablets

We trust that the active Chapters will take upon themselves as their first reconstruction task the completion of the records of their Chapter Brothers who were in the service of their country. These lists should be engraved on metal tablets and placed in the entry halls of every Chapter House.

Every Chapter having Brothers who gave their lives for their country should be ready to unveil special memorial tablets for these Brothers not later than next commencement.

Chapter Publications Important

We wish to urge upon every one of our Chapters, which has been accustomed in former years to get out a Chapter publication for its Alumni, not to fail to do so this year; and upon Chapters which have not followed this custom, that they begin now. The younger Alumni were never so hungry to renew Fraternity fellowships. The older Alumni were never so proud of their younger

Brothers and of their Chapters. There will never come another such opportunity to cement the Chapter fellowship as in these days of reconstruction.

Inspectors and Inspections

We have asked that our Inspectors make personal visits to their Chapters as soon as possible. If these officers have not reached you, write them directly if you need their help. If for any reason you feel that they have neglected you, write us.

Division Conventions

We have urged upon the Inspectors the great importance of holding a convention in every division this year. The war has necessarily interfered with these valuable conferences, but it was quickly noted in this office that divisions which did hold conferences of some kind were able to keep up a better grade of fraternal activity.

If you have not heard of a convention in your division this year, stir up the Inspector. A number are already dated. We have promised to be present at some of them and will assist wherever asked in getting some representative of the Administration to be present.

The conventions this year ought to be largely given to the very practical problems of reconstruction. Many newer Brothers have had little opportunity in the past two years to learn very much of what Sigma Nu really is.

Employment Service

Our Brothers will note elsewhere in this issue a list of certain requests which have been made of us concerning employment desired or of institutions inquiring for certain type of men.

Our Alumni can render no greater service to the Brotherhood than in writing us when they know of an opening for a college man with a specific line of training.

View and Review

are now receiving anxious inquiries in person or by mail every day on the above subject. We suppose that if we were in conference the unanimous resolution would be for the General Secretary to arise and speak on the subject.

that we are able to make so favorable a reply is due to no one man or but rather to our system of national administration to which so many of our Brothers have contributed since Brother Sears and others began to dream of it twenty years ago. We were fortunate above measure in being partly established in the form of administration before disaster hit us. We were unfortunate in not being able to fully show what the form of administration could do under more auspicious circumstances.

When the reader will turn to the Chapters in this issue, he will find the form of report from all but six Chapters. The activity of several of these delinquents is attested by the report forms in our office. Readers will compare this record with that of the magazine of another National Fraternity almost as large as our own which recently printed a list of ten letters from its large list of Chapters and congratulated those Chapters on their being alive.

that our Chapters are not only functioning, but are also in orderly condition with our office, is proven by the fact that our official records show the

list of initiates of this college year to be now considerably in excess of one year ago. It may be said that this fact is accounted for by the removal of restrictions upon early initiations in some institutions. Our records show, however, that the list of institutions where initiations, ordinarily permitted in the fall, were suspended by the S. A. T. C., is much larger than the list removing restrictions. The weight of this can be better appreciated when we remember that our list of initiates of last year was the largest in our history.

As we pen these lines the Chapters are reporting every day large lists of pledged men and that they are almost universally moving back into forsaken Chapter Houses or preparing to immediately do so. Four inquiries have come in within one week which look to the immediate building of new Houses.

A report was made on the floor of the recent Inter-Fraternity Conference in New York that just one National Fraternity had reported an increase of the circulation of its magazine during the war and an increase of initiations during the same period. Since we made such a report we may fairly claim to be that National Fraternity.

We have much to accomplish yet, but in educational ideals, financial soundness, and above all, in the real sacrificial spirit of fraternal service, Sigma Nu was never in better condition despite the war. She now

stands ready to enter the new period of reconstruction—a period which will change many ideals and customs of American college life—with a resolute spirit of confidence and a deeper desire for service. So much for “The State of the Order.”

* * *

The war has had rather a disastrous effect upon our current standards as well as methods of rushing and pledging men. “Rushing” and the War
One year ago old ideas were very largely thrown away, for the democracy of the camp. It was pre-eminently a time of action and not of artificial standards.

So far as we are able to ascertain, however, the results warrant us in feeling that after all there is more in Sigma Nu training than in any artificial standards. We have, without exception, never had a more courageous and self-sacrificing band of Brothers than the active men of last year and of this. The Chapters were officered by younger men entirely. They had little encouragement and help from older active Brothers, for there were none such. The freshman Brother may have missed some things which are usually enjoined upon him for his own good by his upperclass Brothers. It may be that the war has put a new spirit of service in us all. It may be that a better average of young manhood is entering college. We do not seek to explain. We only record that in the main we have been proud of the work of these younger Brothers and the relatively few older Alumni have enabled our Fraternity to not only hold its own, but make distinct progress during war times.

The very few Chapters of Sigma Nu who were “afraid” of not being able to pledge the “right kind of men” and who concluded to wait for more auspicious times, rather than violate any of the sacred standards of the kind of men they were accustomed to choose, are somehow the only Chapters who now are impressing the Fraternity as not possessing any monopoly upon the most efficient type of Sigma Nus. Again we remark that we do not explain. We only record.

. . .

Recent events have proven that college students are better trained in real thinking than they have often been given credit for. A well known educator shortly before the war in speaking of the athletic competitions of American students bewailed the fact that competition in scholarship “had been almost banished from our colleges.” Already we believe the tide had turned before the war. The movement of the Inter-Fraternity Conference to raise standards of scholarship had brought results among the Fraternities almost at once.

The war, however, has taught us new lessons in thoroughness as well as new lessons in Democracy. It has taught us the necessity of being able quickly to discard all extraneous and irrelevant matters and to lay bare fundamental principles. It has taught us that a relatively few things learned well is far more valuable than a superficial knowledge of many things, and that culture is after all not measured by the extent of information but by a mental attitude.

These results ought now to be conserved and extended. They will affect the curriculum of the American college. May we not also expect that it will also influence the habits of the student.

There should now be more competition in scholarship. More hard thinking for the love of it.

* * *

No single task has involved more time and expense during the recent months (although a labor of love) than keeping the list of our Soldier Knights.

It was our intention to omit the list itself in this issue and publish only an announcement that the final publication would appear in the May number. We find, however, that more than three hundred corrections and additions have come to the General Office since the December issue, so the list appears again.

Chapter Officers, please use every effort to complete your Chapter roll of Knights of the Republic for the next issue. It is not possible to keep the list standing through many issues.

Please note suggestions as regards Memorial Tablets in the Secretary's Table.

* * *

In sending in his Chapter letter, the Reporter, Brother John F. Kell,

Chapters and Their Alumni asks us to insert in the Alumni Department an appeal to the Alumni of Delta Delta to send in their present addresses to the Chapter. He has checked up the list in the General Catalogue and found that the Chapter records are 'way out of date. With the normal movement of

men just out of college, together with the returning of soldiers, the changes in addresses are numerous. It is up to you, Alumnus, to let your Chapter know where you are.

Beta Nu Chapter is planning a Delta subscription campaign among its Alumni. Fine idea, Brother E. C. John Hoshor, that all our Chapters should adopt! One of the surest ways to keep the Chapter and its Alumni in touch with each other is through the Delta.

Our old Alumni often wonder how they are to keep up their Fraternity interest when they get away from the House. Did you ever try writing back to the active men? Of course, many Chapters send out a periodical Alumni letter, telling about Chapter affairs, and that stirs up old memories for a time. But why not reciprocate? The Chapter would like to hear what its Alumni are doing, too.

* * *

One of the forward steps in keeping with the changing ideals of education was taken at the last Inter-Fraternity Conference, when after a most interesting report of Dr. Frank Weiland, a standing committee on Health and Sex Hygiene was ordered to be appointed.

It is expected that this committee will guide the Fraternities in continuing and assisting the educational campaign which the United States Government has carried out so admirably and which it designs to continue under the United States Public Health Service. The Government has found that, in spite of the ravages of venereal diseases in all great armies, this is not a war epidemic. Govern-

ment statistics show that of the drafted men, five men came into the army with venereal disease for every one who contracted it after he was inducted into the service.

The Government has fortunately led the way in taking the whole matter out of the realm of mere sentimentality and putting it upon the basis of cold facts. The physicians having this matter in charge in the camps found the most widespread ignorance on the whole subject of sex and venereal diseases.

The Government requested our Fraternity, and we presume all others, to co-operate with them during the war in fostering proper sex education and in enforcing practical discipline in our Fraternity Houses.

The appointment of this committee makes possible a further co-operation with the Government in its "after the war" campaign of education. A complete sex education should be based upon the right conception of sex as the source of the dignity and the power of life.

It should include the individual development of the will as well as wholesome physical development.

Knowledge of the disastrous effects of the misuse of sex should be a vital part of this program. The very great danger of infection from these diseases should be better understood. One of our personal friends almost lost his eyesight from living in a House and using a common towel where one of the men was infected with a venereal disease. National legislation in all the Fraternities should strengthen local action in automatically excluding from Chapter Houses any man so weak as to voluntarily

put himself in the way of contracting these diseases. He should be forced to protect others if he does not choose to protect himself.

The appointment of Dr. Frank Weiland, one-time president of Delta Tau Delta, a leading authority on genito-urinary diseases, author of "Letters From a Father to His Son" and special lecturer of the United States Government on Sex Hygiene, guarantees that some constructive leadership will be offered to the college Fraternities in this work.

* * *

We early received a few descriptions of sundry celebrations of our Fiftieth Birthday. There were not enough, however, to give special notice in this issue as we had planned. We find, however, as we go to press, that a much larger number of our Chapters, active and Alumni, have found time amid the distractions of war conditions to hold informal meetings or banquets.

We are saving all these descriptions and will give special attention to them in the May issue.

In the meantime, if other gatherings of this kind are held, even at a later date, do not fail to send accounts of the same to us.

* * *

Our Alumni Chapters have suffered even more from the war than have our active Chapters. There will be, however, in the next few months, unusual opportunities to reorganize Chapters which have disbanded on account of the war and also to organize new Chapters.

The Alumni
Chapters

If our impressions are worth anything, the Brothers coming home from active service in the Army and Navy are coming back with a new spirit of brotherhood in their hearts. They are hungry for the renewed fellowship with their Brothers.

Every city in the Country having ten or more Sigma Nus residing therein should have an Alumni Chapter. These Chapters give mutual fellowship to the Brothers, keep alive college and fraternal idealism, which otherwise soon perishes amid the distractions of modern life, and finally each Alumni Chapter becomes a unit of power for the active Chapters.

Following the war this deeper consciousness of our Brotherhood should lead a number of our Alumni Chapters to follow the worthy example of Pittsburgh and by founding a Lodge make real homes for the younger Alumni.

* * *

Twice within the past few weeks the fathers of Sigma Nu Brothers have come to us expressing appreciation for the moulding influences which certain Chapters of Sigma Nu had given their sons. We hope, and knowing the teachings of our Brotherhood, we have a right to expect that this may be said of every Chapter.

Mr. James D. Gibson's words, printed elsewhere in this issue, are of special moment to us all. There is surely a basis for both points he scores.

Our Chapters which cultivate the interest of the parents, are building a sure foundation for their future progress. Many a father, skeptical as to his sons joining a Fraternity,

has been thoroughly converted by a visit to the Chapter House. Beta Zeta Chapter has had a beautiful custom of inviting the mothers of the active Brothers for a week-end once each year. Several others annually hold "an open House" for fathers, mothers and friends of the Chapter.

We have nothing in the ideals of Sigma Nu which we wish to conceal. We have every reason for wishing the heartiest co-operation with parents and with college administrations. If there are any Chapters of which this is not true, those Chapters are recreant to the sacred vows which they have taken.

* * *

Several Greek Editors have asked us how we could obtain so much material for the Delta from busy men, big men in their profession and business. Our Brothers take an interest in writing for the Delta as in working for the Fraternity and their Chapters. We have a host of unofficial correspondents who are regular contributors of Alumni news, besides our official staff of reporters and secretaries. Though we cannot give their names always as the sources of information, we feel grateful to them for their prompt and regular co-operation and know that they receive their deserved reward in service to Sigma Nu.

* * *

Nowhere is "variety the spice of life" more than in our magazine. We

Our Policy— have repeatedly A Plea for stated that our Fairmindedness pages are open to all regardless of whether the Editor agrees with the opinion expressed or not. In volume 34, page 369, the

Editor stated that "The contributed department is the open forum of the Fraternity—let it be understood that contributed articles do not need to agree with any person other than the writer himself."

In spite of the above facts it has been reported that the Delta is not open to those who supposedly disagree with the policies of the present administration. Let us repeat that the Delta is open to all upon exactly the same conditions. We cannot "pull" articles already in type in order to accommodate your later though of course much more important contribution. Nor can we allow you to indulge in unbrotherly personalities either as regards Chapters or Brothers, but within all reasonable bounds you are cordially welcome to the Delta. We are delighted to be able to state that this privilege is now so increasingly being exercised

by the Brothers as to call forth recent letters from editors of other magazines and from college presidents asking of us the secret.

* * *

We are compelled in this issue to curtail some of our usual departments. This is primarily a matter of pressure for space.

"Greek News" "Knights of the Republic," "With Military Honors," and "On the Way to Berlin" have increasingly expanded.

We are especially sorry to omit "Greek News," a department of long standing and of great interest to us all. Our Greek Editor, Brother Past Regent Wilson, is in France. Many of our exchanges are coming in from three to six months late or not finding their way to our exchange table at all.

"C'est la guerre."

The Creed of a Sportsman

By ZANE GREY, Beta Rho

Let me pause in these momentous days and think with wonder and reverence how the spirit and activity of the American pioneer hunters and fishermen have given us the American soldier—that splendid type of the land of the free and the home of the brave.

I want my boy and his comrades and the boys of the future to receive this heritage of gun and rod. It is a heritage of the open, which now must be idealized to a love of nature and a thoughtfulness for the meaning and preservation of life.

Feeling this, I record my unalterable belief that a sportsman should—

1. Never in sport endanger human life.
2. Never kill wantonly or needlessly or brutally.
3. Obey the laws of state and nation, work for better laws and uphold the law-enforcing authorities.
4. Respect the rights of farmers and property owners and also their feelings.
5. Always leave seed birds and game in covers.
6. Never be a fish hog.
7. Discourage the killing of game for commercial purposes by refusing to purchase trophies.
8. Study and record the natural history of game species in the interest of science.
9. Love nature and its denizens and BE A GENTLEMAN.

—*Indiana Times.*

Exclusive Interview with Ex-war-lord

By C. C. LYON, Beta Eta

Editor's Note—C. C. Lyon, Beta Eta, Times staff reporter with the American Army in France, was one of the first Americans into Germany after the signing of the armistice.

He immediately set about obtaining an interview with the biggest figure left of imperial Germany—Field Marshall von Hindenburg. And he succeeded.

Lyon's interview, cabled from Paris, is published herewith.

By C. C. LYON

Times Staff Correspondent

PARIS, December 27.—Hindenburg wants America to be friendly with Germany. He told me so in an interview which I have just brought from Germany.

"Now that the war is over, I sincerely trust the two nations may become friends again," he said.

The interview took place in general German Army headquarters at Cassel, in the Prussian province of Hesse, about half way between the western border and Berlin.

On the day I arrived, Hindenburg was out of the city. I was received by General Groener, successor to Ludendorff as next in command to Hindenburg.

I was eating lunch in the Cassel hotel when a courier came from headquarters, saying Hindenburg had returned, and would talk to me at 4 o'clock.

Hindenburg sent an automobile which conveyed me to headquarters, located in a big hotel in the same grounds as the ex-kaiser's summer palace, a mile outside the city.

At exactly 4 o'clock a German major led the way to Hindenburg's private office.

Hindenburg, standing near a big fireplace, came forward quickly, shook hands and addressed me through an interpreter in German.

"Tell me first—how did you get here?" I replied:

"We just passed through your lines from the western front in an automobile. Nobody stopped us."

Hindenburg smiled.

"Just like you Americans," he said.

While he drew up chairs, I took the opportunity to study him.

He looked tired and careworn, but physically vigorous, despite his 72 years.

He is big-limbed, with an enormous head and bushy hair. His large mouth partly hidden by a thick mustache.

He is not so stern and forbidding as I had expected.

Concerning Germany's future military plans, he answered:

"That is a matter for the new government to decide. I cannot speak for them."

Then he made his plea for American friendship, adding:

"I have always been a great admirer of Gen. Robert E. Lee, both as man and soldier."—Indiana Times.

Those Ignorant Yanks

German officers are saying the Allies won the war because the Americans were ignorant of military tactics. It seems that the Yanks didn't know much about the rules of war. For instance:

1. They didn't know it was impossible for infantry to charge machine gun nests.

2. They didn't know a soldier was not supposed to aim at the enemy, but merely to shoot in a general direction away from himself.

3. They didn't know a regiment ought to retreat when it had suffered a certain percentage of casualties.

This ignorance of our soldier boys had an appalling effect on the morale of the German armies. The huns knew that if they stuck to their posts, sooner or later an American soldier would kill them. To this the German leaders attribute their defeat.—From reports in the daily press.

Cleveland Alumni Chapter

Weekly luncheon every Friday noon, any time between twelve and one-thirty at Clark's Restaurant, under the Cuyahoga Building.

If any out-of-town Brother wanders into the city on Friday, want him with us.

MILES E. EVANS, Secretary.

For monthly dinner and business meeting see Fraternity Directory.

Brother Coates sends you this message with a word of greeting, as follows:

"On reading the December Delta which reached me today, the day after my discharge from the Navy, I was moved to write off these lines.

"The Delta continues to be a godsend to the distant, and the very busy. It's almost the only fraternity anchor a lot of us have."

Home-Coming

Gee---! Isn't it great to be home,
Isn't it great to see
Ev'ry familiar spire and dome,
Every house and tree?

Isn't it great to walk the way
Up to the good old dorm,
Whence you went forth, expansive, gay,
Proud in your uniform?

Gee! Isn't it great to go back
Back to the Chapter Hall---
Looking for Billy, and "Bud," and Jack,
"Stuffy" and Pete, and all?

But---it's kind of tough to come back again
And think---of the other---ones---
The silent, heroic, sleeping men
Dust---in the rust---of guns:

Now we've got to build, and we've got to try---
They'd do it, if they could---
Be as glad to *live*, as *they* were to *die*
For eternal brotherhood.

*By Archie Austin Coates
Delta Gamma*

Our Brothers will read these lines, we are sure, with the same feeling that inspired Brother Coates. The Delta is proud to present a Sigma Nu poem by this Brother who has won public recognition already as one of the younger poets of this country.—The Editor

Chapter Letters

The Chapter Letter for May is due March 15, 1919.

Reporters, please be prompt—if not, you may expect the customary telegram, C. O.
D. Also note these:

STANDARDS FOR GRADING

"Promptness"—be on time!

"Facts," not "Great Expectations" or "Pipe Dreams."

"Journalistic Sense"—direct and intimate narrative.

Separate pages of Alumni notes, military news, lists of marriages and deaths.

Mechanical but important details; typewriting, punctuality, spelling, punctuation, heading. The use of nicknames and abbreviations is poor form, too.

Many a reporter this time lost his opportunity by the omission of one or more of these points. "Watch Your Step!"

Prize Award

Beta Iota comes into first place for a second time. The prize book for the best Chapter letter in this Delta, "Comrades in Courage," by Lieutenant Antoine Redier (being a translation of that French soldier's "Méditations dans la Trenchée), is awarded to Brother Leroy E. Marlowe, the reporter. Brother Marlowe is following in Brother Harry E. Ritchie's footsteps.

It seems strange that most of our reporters persistently ignore the Standards for Grading, printed under here every issue, or do not follow their Alumni closely enough ever to get word from a single one of them. Gamma Theta, Gamma Sigma and Delta Theta sent in remarkable letters this time, but failed to include Alumni notes. Gamma Iota's Chapter letter is excellent and fulfills all specifications, but came too late. Please be on time! Upsilon is here again in the person of Lieutenant John D. Cofer, who is back from the war—late as expected. As a reporter he is always as good as he is late, which is a high commendation.

For merit, we would further cite Gamma Epsilon (whose reporter failed to separate his Alumni news from the body of his Chapter letter—it was there, all right) and Delta Psi (Brother Allan Constantine, with the aid of the former reporter, Brother Clyde E. Stevens, and Brother R. C. Rounds, managed to fulfill the conditions in good shape). We congratulate Delta Psi on its Chapter letter, for we like to see our new Chapters begin right. Delta Chi's letter is up to standard, as usual, but the reporter was late for the first time.

To the Alumni

Keep after your Chapter if it's marked delinquent! You want the news of your old Chapter, and you can help us by writing back to 'em. The Editor is confident that, now the war is over, our Chapters will get back to the One Hundred Per Cent Record that they used to set, every Delta.

UNIVERSITY OF VIRGINIA

Beta Chapter

Beta Chapter is now becoming re-organized on a peace basis. The S. A. T. C. has been disbanded and the fraternities allowed to take their houses over again. Old Beta is right on the job—with twenty-two men on the roll and one pledged. Our pledge is Randolph Odell, from Richmond, Virginia. We believe we have one of the best Chapters we have had in several years, not only in number of men, but also in the quality.

Several of our old men who were in the service have returned, and now lend their good influence to the development of the Chapter. One of them, Brother J. Manly Cobb, has recently returned from France, his description of the country is very interesting.

We are at present living in a rented house, but have plans under way for the building of a home suitable for Sigma Nu. We have very good prospects now, since the war is over, and have a goodly number of men. We also have some money set aside for the House, and by means of the Hopkins Society, we hope to start building soon.

Among our dear Brothers who have visited us recently are Charlie White, who was married on Christmas Day, Lieutenant Bruce Berkeley, of the Aviation Corps, who is an instructor in air acrobatics, and Forrest Stanton, who holds the record for the 440 and 220-yard dashes in the South.

Two Brothers serving "over seas" are Lawrence Grayson and Edward Fenwick. Brother Grayson was injured in a "crash," and Brother Fenwick, serving with the First Hospital Unit which left Virginia, was mentioned for bravery and was decorated. With men of this type we hope to hold up the old records of Sigma Nu at Virginia, and lay a foundation for one of the best Chapters in the South.

RODERICK H. JACKSON, Reporter.

BETHANY COLLEGE

Epsilon Chapter

When school opened at Bethany last fall, Epsilon counted but four men returning to the Chapter. These were Brothers Hoover, Robeson, Bross and Walker. Brothers Spragg and E. H. Wray were with us part of the time, and we also had the able assistance of Brother Hunt, Beta Iota. We found school very different from what it had been the year before. The S. A. T. C. had virtually taken possession of the college. Old traditions and customs received scant attention. The regular courses had many of them been dropped, and new lines of instruction were introduced to meet with the Government requirements. The larger percentage of those attracted by the S. A. T. C. were not the type of men usually found in Bethany. So although the enrollment had increased beyond precedent, we found no difficulty in choosing nineteen men who were capable of becoming Sigma Nus. Of those pledged we initiated C. E. Palmer, Harold Fulton, and Leroy Drake of Verona, Pa.; C. H. Singhaus, of New Philadelphia, Ohio; W. J. Pomeroy, of Buffalo, N. Y.; W. E. Rownd, of Steubenville, Ohio; H. D. Jones, of Danville, Ohio, and L. E. Perry, of Bethany.

Brothers Hoover and Walker were permitted to stay but a short while, when they were sent to a C. O. T. S. The newly made Knights Rownd and Perry accompanied them. Three of them returned after the armistice was signed, and Brother Walker has returned at the opening of the new school term. Brother Hershberger, who, during the S. A. T. C. occupation of the colleges, dwelt with Gamma Epsilon, also returned. Most of the men, however, due to disarranging of plans, were unable to return to school, but are laying their plans for return in the fall. Our active Chapter is now composed of Brothers Hershberger, Bross, Robeson, Palmer, Perry, and Walker, with Pledges Beadling and Reinhold.

Our regular initiation this year will be held in February, when the college will formally open the new gymnasium. There will be a general homecoming at this time, so we are planning for a good many Alumni. Beta Theta Pi will hold a district convention here at that time. Fraternities seem a little slow in resuming the pre-war activities, so we may have only a stag banquet at the reunion.

So far as college activities were permitted, Sigma Nu took her usual place of eminence this year. In football we were represented by Brothers Hoover, Perry, Rownd, Hunt, Drake, and Robeson. If we may name positions in the S. A. T. C. as participation in activities, then we should mention Perry, Battalion Sergeant Major; Walker, Battalion Supply Sergeant; Rownd, Color Sergeant; Top Sergeant Hoover, and Sergeants Singhaus, Hunt, Hershberger and Young.

While the S. A. T. C. occupied our House as barracks, we lived in the William Moore house, where Delta Tau Delta was founded. Our House was very badly treated during our absence. Woodwork was marred, water was allowed to escape from the radiators and loosen the plastering, and light fixtures and window blinds were largely destroyed. Nor was proper care taken of the heating system. The president of the college has not as yet allowed us any damages, but may be persuaded to do so.

Financially we are in fairly good shape. Although several items of expense have been incurred which were unexpected, nevertheless we have more than paid our running expenses and other usual items. Brother Crawford, just returned from Y. M. C. A. work, has given us very able advice and, better, some much needed assistance in organization. We expect to close the year in good shape, ready for the fall, when we feel school will really open again. But although next year's Chapter will be a splendid one in talent and numbers, we intend to give them some example.

[Not Signed.]

MERCER UNIVERSITY.

Eta Chapter

With the disbanding of the S. A. T. C., Mercer's prospects and Eta's were very gloomy. But the coming of the new year brought the release of many former Mercer students who had been in the service of Uncle Sam, and once more the old campus rings with yells of rehabilitation; once again our halls hold their pro-rata share of goodly Sigma Nu Brethren.

Class elections were held this week, Sigma Nu, as usual, getting an abundant share. In the junior class Brother Coachman was elected historian and Brother Mil-

Jackson, vice-president. In the School Commerce the Sigs fairly walked away the elections, Brother Read being treasurer; Brother Rainey, secretary and Brother Tripp, vice-president.

looks forward to a good year in base- Brother L. D. Henderson who has in the Navy is back at Mercer, and mer Ed. Morgan, who was also in the

is with deep regret that Eta gives up of its star members this year, Brother Fudge, of Colquitt, Ga. Brother Fudge been an active and worthy member of Chapter for over two years and was one of the most popular men on Mercer's campus. But alas! he has crossed into the fate- (though some say blessed) state of matrimony. Brother Fudge was married during the Christmas holidays to Miss Polly R., of Colquitt, Ga., the charming sister of Mr. W. R. Danur, also of Eta Chapter. The congratulations and best wishes are extended to Brother Fudge, and hope that all his troubles will be "little

W. H. TRIPP, Reporter.

UNIVERSITY OF ALABAMA

Theta Chapter

Theta Chapter is now in fine condition and has good prospects. The opening of the year found fourteen old men: Brothers Hinton, Horn, Scott, Smith, Shreve, Hlin, Doster, Aird, Siles, McCall, Blue, Grimes and Reynolds and three new ones, J. E. Robertson, of Florence, Beeland, Greenville, and D. S. Murphree, of Troy, on hand.

During a week of strenuous rushing, we elected the following men: Hobson Farvergreen; Frank Bricken, Luverne; George Hamilton, Turner Clark, and A. B. B. Tupelo, Miss.; Harrison Kendrick Farris Batson, Bessemer; L. D. Gard-Jr., Montgomery; W. H. Key, Jr., and James Wilson, Russellville; Edgar Crandall, Birmingham, and E. W. Grimes, Tusca-

During this period we were in possession of our House, but with the establishment of the S. A. T. C. on October 1st, at the unity, all the fraternities were compelled to give up their Houses and move to the barracks for the sake of military discipline.

Then, despite the fact that many of our men were sent to training schools, we managed to keep up the spirit and secured our pledge, William Hicks, of Tallapoosa, who was entering the university from the fall.

With the coming of peace and the subsequent disbandment of the S. A. T. C., the university has returned to a normal state and we have our House again. We have

lost Brother Nelson by graduation, and Brothers Horn, Shreve, Clark, Hinds, Dunklin, Aird, Beeland, Murphree, Bricken and Kendrick failed to return to school, but we are expecting some of them back next fall. Brother Hartsfield has returned from service in the Navy and Brother Hodo from the Army, making a total of twenty-one men in the Chapter at present.

We are in fairly good financial condition and have been able to put our House in very good shape; it is no doubt the prettiest one on our campus. Our spirit and interest has been fine this year and the freshmen have formed an organization of their own for the purpose of observing and working systematically to help the Chapter as much as they can and we expect splendid results from this scheme.

JAMES E. ROBERTSON, Reporter.

HOWARD COLLEGE

Iota Chapter

Iota is holding her own in fraternity life at Howard College.

Since the S. A. T. C. has demobilized we are getting back into our House which was used as the Y. M. C. A. during the period of the S. A. T. C.

The college made a few repairs on our House and the Chapter intends making some additional improvements.

Howard College has added to its faculty, Professor I. Newton Kuglemarsh, a graduate of Columbia University, who has organized the Birmingham Chemistry Club, thus bringing the industrial chemists and student chemists in close contact.

Brother R. A. Parson, President-elect of the Student Association, was unable to return to college on account of not being discharged from the service. Mr. H. G. Williams, a member of Pi Kappa Alpha, was elected to fill the unexpired term.

Athletics have been handicapped by the S. A. T. C., but we were well represented in football by Brothers Leath and Crew, and hope to have an active part in basketball and baseball.

Brother W. F. Yarborough is business manager of our college paper, and Brother Sam Ingram, assistant editor.

On Thanksgiving Day, Iota Chapter entertained her friends with a box party, followed by a banquet at the Hillman Hotel. Several other entertainments have been given, but not so elaborate as this, on account of the war. At a beautiful celebration of the fiftieth anniversary given at the home of Brother Thomas M. Owen at Montgomery, Ala., Iota was represented by ten men. Brother W. F. Yarborough made a short speech in behalf of Iota. Our social

committee is now working out some plans for entertainments to be given in the near future.

Brother T. B. Gibson, '18, made us a short visit before his departure to France, where he is stationed as a first lieutenant. Brother R. D. Griffin, '18, while on furlough, made us a short visit, and so did Brother Mark Hodo, of Theta Chapter.

The present condition of the Chapter is better than it has been for years. It is entirely out-of debt, and has a small cash balance on hand.

Since our last letter we have taken in Brothers John R. Leath, of Jamestown, Ala.; Tom F. Morgan, of Gulfport, Miss.; Frank Stephenson, of Birmingham, Ala.; Robert N. Woolfolk, of Montgomery, Ala.; Charlie Herron, of Anniston, Ala., and C. E. Faulkner, of Bessemer, Ala., and have pledged R. B. Sims, of Vernon, Ala., and Clarence Cox of Birmingham, Ala.

Now that we are back in our House, we expect to make life in the Chapter count as much as possible to the individual member.

ROBERT J. BELL, Reporter.

NORTH GEORGIA AGRICULTURAL COLLEGE

Kappa Chapter

For the benefit of the many Brothers who have never had the opportunity of visiting the oldest existing Chapter in Sigma Nu, allow me to meet this description.

N. G. A. College, a branch of the University of Georgia, has never been what is commonly called a large college. It was the first college established by the State affording military training to its students, being chartered in the year 1871. From that time it has advanced and is what we consider the best of its kind in Georgia. The Faculty is comprised of the best of instructors and opportunities are waiting for all the students. The college offers courses, including A.B., B.S., Engineering and Mining. The student body consists of about three hundred representatives of Georgia's and the South's best families. Our greatest adornment is the close relations we have with the red old hills of North Georgia and during the idle moments many beautiful sceneries are in sight from the Chapter House. Literary societies are maintained and encouraged to develop the ability to prevent one from forcibly, debates are commonly held and a dramatic society encourages the drama. Athletics are very effectively encouraged and we boast of several successful teams.

The management of the less important parts of college life are entrusted to the student body to allow the opportunity to

develop the initiative and leadership. At one time in the history of the college five fraternities existed, but for some reason three of them whose names I do not mention, are no longer existing, leaving only two.

Kappa Chapter plays an important part in the great drama of college life and we are well represented in all student activities. In the football season just passed, Brothers Anderson, Brown, Emmitt and Nunnally secured letters, so it is seen that we take a very active part in athletics. Brother Emmitt was elected manager of the football team for 1919, and very likely Brother Nunnally will be elected our next captain. In considering the social events, we are always at the top in scholarship; our aim is second to none; our expense account is possibly the smallest of any Chapter, so we are not confronted with financial problems.

In the Atlanta Alumni Chapter, we are well represented by men who have served Kappa well while in college, and now are serving their Country as well as their Fraternity in all walks of life.

Basketball is now started and we have a well-represented Chapter. We are sure to have two regulars on the team if not more.

We take great pleasure in introducing as Sigma Nus, since our last letter, Brothers Oslin, Atlanta; Graham, McRae, Brock, Greenville; and Dyle, McRae, Robinson, Atlanta, and Kennon, McRae as pledges.

P. H. EMMITT, Reporter.

WASHINGTON AND LEE UNIVERSITY

Lambda Chapter

Now that the S. A. T. C. is merely an event in past history and our unusually long and glorious holiday is over, Lambda's men are back to their old post to undertake the perplexing problems that will confront them during the next few months of concentrated study.

Our Fall term in so far as collegiate work was concerned was decidedly unsuccessful. The military and college authorities, although they tried very hard, could not co-operate sufficiently to avoid serious conflicts which continuously resulted in the interruption of our studies. The S. A. T. C. was completely demobilized on December 16, and due to the irregularities of the scholastic work, the faculty deemed it expedient to cancel the term examinations, so from that date to January 3, we were allowed to recuperate from the intensive military training we had undergone. Now I would not have my readers assume the idea that the military work was a failure, for it was not. We had a battalion of wonderfully well trained men, and according to information that I can collect, it was the second

best S. A. T. C. in the South, V. P. I. ranking first.

We are now back to our normal routine, the only important exception being that the faculty proposes to cover nine months' work in six months, and thus make up for the time lost during the Fall term.

At present basketball holds the attention of the athletic dopesters. With the effective work of Coach Raftery, who has just returned from the Navy, and seven monogram men on the squad, we have the most favorable prospect of having a team with plenty of "pep" and "fight" and who will uphold the reputation of The Fighting Generals. Brother Barron is Junior assistant-manager of basketball.

We also have plenty of good material for the track team, and with our Brother Musgrove as Junior assistant-manager, we hope to carry away the "bacon" in this sport.

Our Chapter has not suffered to any great extent by the upset conditions of the university. We had a goodly number of men before the holidays, and now we have fourteen men in the Chapter. Unfortunately we failed to return Brothers Owens and Staunton of Rome, Ga.; Brother Williams of Tulsa, Okla., and Brother Phares of Jacksonville, Fla. We deeply regret their loss, and hope that they will find conditions favorable to be back with us next year. It was certainly gratifying to see John Miller, Robert Ewing, and I. B. Watkins back to the House. These Brothers have been in the service for the past year, and they tell us lots of interesting experiences they had while in the Anti-Aircraft Coast Artillery, Field Artillery, and Navy, respectively. It will no doubt be of interest to the Alumni to hear that "Pike" Johnson and Robert Baumgardner are in a hospital in France, recovering from injuries received at the front.

Lambda is pretty well represented in all the student activities this year. Brother Barron is manager of the Calyx, Junior assistant manager of basketball and secretary and treasurer of the Pi Alpha Nu Ribbon society. Brother Musgrove holds forth as vice-president of the Junior class, Junior assistant manager of track, and secretary and treasurer of the White Friar Ribbon society. Brothers Hill and Henry are goats in the Pi Alpha Nu, and Brother Compton is a goat in the White Friars. It certainly does look like old times to see the Ribbon society goats on the campus again. The following men in the Chapter are Seniors this year: Brothers John Miller, A. S. Watkins, I. B. Watkins and W. F. Barron.

Since my last letter to the Delta, we have taken in George Louis Duncan, Gadsden, Ala.; Edward Long Phares, Jacksonville, Fla.; and Robert Hayes Muir, Clarendon, Texas. We also have a transfer goat, L. W. Lawson, from West Virginia University.

The one big event of the year, the fancy dress ball, is slowly but surely approaching. Every man in the House is looking forward to this occasion to have just one big time. I must not neglect to state here that we are still working for our new Home, and have not given up hope or lost interest. We hope to have it erected within the next few years. Funds are accumulating all the time, and as the Valley of Virginia is the cradle of Sigma Nuism, and Lexington is the real birthplace, there is no reason why we should not have a fine memorial Home here.

Brother Toulmin Ewing, Alpha, of New Orleans, visited us a few days ago. We were certainly glad to have him with us and his company was overwhelmingly appreciated. Lambda extends an invitation to all to visit her. Her men are exceedingly cordial—won't you come?

FLOYD D. COMPTON, Reporter.

UNIVERSITY OF GEORGIA

Mu Chapter

Conditions here are much better since all of the S. A. T. C. men have been mustered out of service, and all are able to be back in our Chapter House. It not only is more satisfying and convenient to all the Brothers, but causes the closer association that brings us into the grand old spirit of Sigma Nu.

We are very glad to have Brother Taylor from Xi with us for the ensuing year, and are also glad to have Brother Palmer Williams, one of our last year's graduates, practicing law in the city, as it will give us all a chance to be with this ideal Sigma Nu. Brother Williams has recently secured his discharge from the artillery school for officers at Camp Hancock, Ga.

W. B. RICE, JR., Reporter.

UNIVERSITY OF KANSAS

Nu Chapter

This term which is starting with such promise, marks the second half of one of the most unusual years in the history of schools and colleges of America. The prospect of having our schools nothing but military colleges and of having fraternity life practically abandoned, is changed and we are now facing the reconstruction period which is going to be very short at the University of Kansas. Even now the only thing that is left is the continuance of the quarterly plan instead of the old semester schedule. This is very unsatisfactory, but it will be changed again next fall. The university is giving credit to Seniors who were in school at the beginning of the school year and were sent to officers' training camps from the S. A. T. C., so that they can graduate with their class.

We were very fortunate in the return of several of the older Brothers from the various Officer Training Camps and among them Lieutenant Merl Clift, who has been stationed at Manhattan, Kansas, in the K. S. A. C. unit of the S. A. T. C. Marvin Harms, who has returned from Camp Pike, is editor of the annual Jayhawker. Word has just been received of another of our Brothers, Thatcher Willis Benson, who has given his life in the cause of democracy. Brother Benson is the fourth that this Chapter has lost out of an honor roll of 134, which is perhaps the largest of any of the Chapters. [This number includes the active men in the S. A. T. C.—The Editor.]

Brother Grant Harrington is now preparing a residence directory of Nu Chapter to be sent to all the Alumni. This directory will be a great aid to this Chapter and the Alumni in the State.

The three Novices in Chivalry that have been added to Nu Chapter are Read Phipps, Jack Kollmann and John Huntzinger, all of Kansas City, Missouri. These make our Chapter number just twenty men.

On the second of January, the first day of school of this quarter, a fire that started on the third floor came perilously near depriving us of a Chapter House. The day was very cold and if the fire had got beyond control of the chemicals, it would have taken the whole House, as we are up on a hill and the water plugs were frozen. It was confined to one room, however, and the loss was not great.

With the crowding of nine months' work into the remainder of the school, we will not have time dragging on our hands. The university classes are organized again and the outlook for the next few months is very bright indeed.

D. M. SMITH, Reporter.

EMORY COLLEGE

Xi Chapter

Emory College is in a transitional state this year, due to the fact that next year it will be moved to Atlanta, where the professional departments of the university are located. Our campus in Atlanta is situated in one of the most popular sections of the city, and covers thirty-eight acres. The structures are of variegated marble and modeled after Spanish designs.

The student body of Emory almost lost its identity as an organization, because of the S. A. T. C., but since Xmas it is regaining its old-time strength and "pep." It was through the efforts of an organized student body that the Faculty decided to give the S. A. T. C. men credit for the work of the Fall term without their taking the examinations. A glee club, and a mandolin club have also been revived and basketball practice begun.

We are sorry to say that some of our Brothers could not return after Christmas, and we want to congratulate Mu Chapter on getting Brother Frank Taylor.

The Chapter is represented by promising material in the Phi Gamma Literary Society. Brother J. W. Harned is on the mandolin club. Brothers Croy and Alderman were selected for the glee club. Brother Jeffcoat is a member of the Chi Sigma Chi, Sophomore Social Club, and Brothers Croy and Marchman have been taken into the Beta Omicron Phi, Freshman social club. Brothers Jeffcoat and Alderman represent us on the band, and Brothers Croy and Wynne are out for the Freshman basketball team. Brothers Wynn and Jeffcoat have been elected to the Inter-Fraternity Council.

Brother Adams, our Adviser, visited the Chapter just before Christmas and expressed his gratification at the size of the Chapter and at its prospects.

Our scholarship was remarkably high for the first term, considering the handicap of the S. A. T. C. Xi Chapter stands at the top in social affairs. The Chapter House is in the hands of a capable House Committee.

We are glad to record the visits of Brothers P. A. Megahee and D. C. Upshaw during December.

One noteworthy policy that Xi has recently adopted with her full strength, is that of attending church. It was decided that full church attendance would do as much toward adding to our reputation as anything else, and so Sunday morning we attended church in a body. We have almost started a church-going contest among the other Fraternities.

We deeply regret to announce the death of our beloved Brother Alfred Cullen Turner, Jr., who died as a true and loyal Knight in the service of his country. His death occurred at Wilmington, N. C., about June 1st.

B. K. HARNED, Reporter.

The men who did not return after the disorganization of the S. A. T. C. are Brothers Brady, Collins, Taylor, Lyons, Lewis, Smith and Mitchell.

We are now represented by twelve active members, which is about the number of the other seven of Fraternities, and considering the quality of our Brothers I think we are unquestionably on top.

We may take in at an early date two or three of our eight pledges.

M. T. WYNNE, E. C.

LEHIGH UNIVERSITY

Pi Chapter

We are back on our feet once more, now that the S. A. T. C. has been demobilized. Our House, being used as a barracks, naturally suffered some damage, but most of this was taken care of by the university. We have just finished the arranging of our House and are now comfortable and have started the new year in old Sigma Nu fashion.

We have three pledges, O. W. Kopf, G. C. O'Keefe, and C. O. Kennedy, whom we intend to take in the latter part of January, and Harry Hughes, who has left college, but who intends to be with us next Fall. We also have a very good prospect in B. H. Liveright, who we are confident will be among our pledges by the time this goes to press.

We are very well represented in athletics by Brother Dowd, who made good as quarterback on the football team, and is at present starring on the basketball team. He is sure of a position on the baseball team and Brother Glenn will no doubt hold down the initial sack in this branch of sport. Pledge Kopf is making good on the basketball team and will cover the keystone bag this Spring. Pledge O'Keefe, a New Haven High player, will make a good bid for a berth on the team.

On account of vacancies we have elected the following officers: Treasurer, Brother R. E. Schuler; assistant treasurer, Brother G. R. Knerr; chaplain, Brother H. J. Kleine; reporter, Brother M. Glen.

We have received notice of the death of Brothers H. B. Ware and T. O. Hokensen in France.

Brother Suender has left college with the intention of returning next year.

Brother W. J. Knerr surprised us the other night by coming home with a broad grin and no badge. We cannot account for this, but we have very strong suspicions.

We were very glad to have Brother Chester Langdon, treasurer of Pi Chapter Building Co., visit us a short time ago.

MAXWELL GLEN, Reporter.

UNIVERSITY OF MISSOURI

Rho Chapter

The opening of the winter term, December 30th, found us ready to continue Sigma Nuism in Missouri with nearly all of the Brothers back in school. With thirty-two active members and several new pledges, Rho Chapter received an unusual good start again, after three months of "war" in the S. A. T. C. Our new additions are: Affiliates Brother Paul Cook, from Beta Xi,

and Brother Deal from Gamma Omicron; Pledges Fred Hogg, of Hannibal, and James Wight, of Moberly. Pledge Wight is the eighth man of our Chapter this year whose father is a Sig, a fact which goes to prove our Fraternal fellowship.

Considering the adverse conditions of adaptability, the S. A. T. C. unit here was a success both for the school and for the men. Our House received several knocks as a barracks, but was easily placed in order again by the efforts of Brothers Harris and Black, who remained here during the holidays. We are fortunate in having such capable ones with us as Mother Gordon, Brothers Alumni Barnett, Neidermeyer, and Price, and our newly elected Chapter officers: Commander, Brother Chilton; lieutenant-commander, Brother Mackey; treasurer, Brother Gravely, with Brother Ernest Garth as assistant; commissary, Brother Harris; recorder, Brother Jarrell; chaplain, Brother Shepard; sentinel, Brother Shore.

With practically the same Chapter which started the year in September, it is sure that we will be well represented in athletics, and other school activities. Although it is impossible in this report to give our scholastic standing as compared with that of other Fraternities, I can safely say that Rho Chapter as a whole did better work than the average last year and the first semester of this year.

The past semester brought several old Sigs back to visit us in spite of the fact that we had to show them club rooms instead of our House. Brother DeGraw, 1896, was enrolled in school last semester; Brother Corder, of Waverly, 1886, has paid us several visits, besides giving us his son last fall; Brother Merritt Ketchum, 1911, stopped off on his way to Washington, D. C., where he is completing his medical work; Brothers Barringer, Beta Kappa, and Jones, Gamma Lambda, were stationed here as lieutenants during the S. A. T. C.

Now that we are all settled again to begin work with the new year.

VANDERBILT UNIVERSITY

Sigma Chapter

The opening of the university this year was far different from that of any previous year. The university organization, as a whole, was materially changed. Older students as well as Freshmen, entered upon a military life. If an older Brother had returned, he would have wondered at the many changes in the university life. Buildings heretofore used for students, were turned into barracks for men under direct military control. Upper classmen were few in number, but a large Freshman class readily made up in total attendance. There

as the S. A. T. C. was fully installed we were unable to do very much in the way of Chapter activities. The men were quartered in barracks, but as our Chapter House was not taken over for use as barracks, we kept it open during the few hours that we had freedom.

As soon as it became known that the S. A. T. C. was to be demobilized, we immediately began to make our plans for the renewing of full activity. Unfortunately, a number of the Freshmen who had been able to be in the university through the S. A. T. C., found it impossible to return after Christmas, but these men are all planning to be in school next fall. When the second term began, December 30, we opened with twelve men, and since then we have pledged Charles Timmons.

We are very fortunate in having some of the old men back with us this term. Brother Henry Young, a naval aviator, who is now on inactive duty, re-entered the second term and will graduate in the Spring. Frank Weathers, a second lieutenant, has returned to school after being in the service eighteen months. Brother Royal Davis, who took up an engineering course at Purdue last Fall, left there at the closing of the S. A. T. C., and is with us again this term. Brother Johnson and Brother McIntosh, who are at present on active duty in the Navy, are planning to return to school immediately upon being discharged. Brother Harold Jones is in the ensign school at Chicago.

The various college activities are all being taken up speedily. Brother Paul Jones and Brother Frank Weathers are working on the varsity track team, and hope to bring new athletic laurels to DePauw and Sigma Nu.

The Chapter House is being overhauled and several minor improvements are being put in. The prospects for next Fall are very bright compared with the last two years Beta Beta has gone through. With the close of the war the enrollment at DePauw will come back to normal again, and the Chapter will be in good sound condition.

OWEN COOK, Reporter.

PURDUE UNIVERSITY

Beta Zeta Chapter

No doubt you think that Beta Zeta is taking a good while to let you hear from us this year, but we have been in such a position up till now where we have been unable to say much in regard to our future.

By way of a hasty review of the present school year, as it concerns our Chapter and Purdue, school opened early in September. The House was in fine shape, after the summer months. We had eighteen old men

back, ten of them being upper-classmen; in addition, we had two initiated men from from other universities: Brother Bolt from Rose Poly, and Brother Davis from DePauw. We were all bent on a successful rush season. As Purdue was chosen to have a Navy and Army S. A. T. C. unit, the greatest number of students in the history of the institution were on hands around registration time. Well the fight was on, and we certainly got a splendid bunch of men. We pledged seventeen which brought our House number up to thirty-five with four living outside.

Although we were somewhat crowded, our spirits rose, and we had bright prospects for a while, however, as the barracks were nearing completion, we know that soon there would have to be a change. The first of October after some five weeks serving as diligently as possible as fellow pledges, we initiated the new men. The occasion was certainly one of note for Beta Zeta, the work being administered by Brother E. M. Wolf, E. C., at that time.

Although we were together only a short while our new Brothers learned to know what Sigma Nu was and what it stood for, and one certainly can say that all who wore the five-armed cross did credit to it, here in the S. A. T. C. camp. The men were inducted into the S. A. T. C. October 10, and as the Fraternity House here was not taken over by the Government as barracks, we had to shut down. Provision was made so that the House was used to good advantage by us fellows over week ends, and while on liberty, a valuable asset to break the monotony of the camp life. Sigma Nu was well represented here with Lieutenant Draper, from the University of Iowa, and four top sergeants in the personnel office, from our Chapter.

We made wonderful progress while in the House along the financial line, leaving us in such a position that we were easily tided over the period while the S. A. T. C. was in vogue. The scholastic situation was very unsettled during this period, owing to the military schedule, sickness, and the quarantine.

This situation is a thing of the past now, and we are now launched on a new era since the S. A. T. C. was demobilized. The House was opened after Christmas vacation; everything in good shape, and a Chapter standing of some twenty-six active members. The entire student body is resuming their regular courses, and everyone is taking hold, displaying intense interest and enthusiasm. Conditions are almost back to normal, with several good men in sight and prospects for a late rush are good. The Faculty has added another month to the first semester, in order that the regular work may be covered, and so the men entering after being released from the service may get a better start.

At present Beta Zeta hasn't any of its men back, who have been in active service, but we hope to have several of our overseas's Brothers with us next year. Brother John C. Nagel, formerly of Iowa State, has registered and is with us since Christmas. Brother E. M. Wolf, E. C., the earlier part of this year, has dropped out of school for the remainder of the year, intending to complete his course in chemical engineering later.

Early in the Fall, our E. C. of last year spent the week-end with old Beta Zeta, Lieutenant Derrick, commissioned in artillery. Brother Barrett, second lieutenant, paid us a visit while on his way to take charge of his duties as personnel adjutant at a school in Denton, Texas. We have heard from Brother Woodburn, '17, first lieutenant, Engineering Corps, lately; also Brother Hammand, '17, ensign on the battleship Alabama.

Beta Zeta certainly is proud of her twelve Brothers who are overseas, and some twenty in the States in active service. They were men who have just graduated and joined the Colors, or have enlisted while still attending school. We have three Brothers in the famous Rainbow Division: Lieutenant Richter, aviator; Carl Traxter, in the Engineering Corps, and Captain McKinley, in the Artillery; the latter having signified his hopes of being with us next year, and completing his course. Brother Traxter was among the first American soldiers to land in France, and the first man from Purdue.

Beta Zeta is glad to say that she is back at it, everyone working together in good spirits, and ready to swing most anything. She extends a hearty welcome to the Alumni and the Brothers being released from service, and she will have as her aim, the teaching to the younger Brothers, the principle for which Sigma Nu stands.

INDIANA UNIVERSITY

Beta Eta Chapter

Notwithstanding the perplexing problems of the day and conditions, regarding the disbandment of the S. A. T. C. unit and the present influenza conditions, Beta Eta, as usual, in this school is a "top-notcher."

From a material standpoint, I. U. has not changed from last year, but from a spiritual view, there has been much change. Immediately upon the disbandment of the S. A. T. C., college democracy and I. U. "pep" returned. Although many of the khaki suits are seen on the campus today, the schedule and strictness of militarism is lacking. In fact, the student body too well realizes "the war is over," after a strict discipline, a wave of "sloppyness" seems to prevail.

Indiana will maintain compulsory military training. This will be on the basis of the R. O. T. C., with Captain Dalton at the head. Freshmen and Sophomores are compelled to take this training. The Faculty has also been very busy and has attained commendable achievement in adjusting the new schedule of studies and the term system. Many of the studies pertaining directly toward the militarism, compulsory for the S. A. T. C. men have been discontinued and the present term system will be replaced by the former semester system; the term system was found to be very impracticable.

The demobilization of the S. A. T. C. has diminished the number of the student body. Many men came to school solely for the military training; others were not financially able to come before or to stay in school after the unit was disbanded. Before disbandment the enrollment was twenty-four hundred and now it is nineteen hundred.

Indiana Union, Boosters Club and Inter-Fraternity conditions and activities are flourishing. The members of these organizations all gave their utmost energy and good will towards all drives to benefit the war program, and now are doing as much for the school. Social activities are stunned by the influenza situation. The epidemic is still serious. All dances, dramatics, dinner parties have been cancelled indefinitely.

As to the men in the Chapter itself, Brother Winslow was elected president of Sigma Delta Chi—honorary journalistic fraternity; Brother Mayes and Brother Winslow were elected members to the Sphinx Club—The Sphinx Club represents the most popular men in school activities; Brother Sinclair was elected president of the W. M. C. A.; Brother Winslow was elected editor and chief of the Arbutus (the Senior year book); Brother Stonecipher is connected with the Daily Student newspaper. We have five men on the Freshmen basketball squad: Brothers Kile, Kilpatrick, Kerchival, Mayes, and Pledge Rucklehouse. Pledge Rucklehouse, who was recently pledged, comes from Indianapolis and made the all-state team. Five strong men will be out in the Spring for baseball and the same amount for track. The Inter-Fraternity basketball tournament starts tonight, and Brothers Mayes, Kyle, Kilpatrick, John Jones, Kercheval, and Pledge Rucklehouse represent Sigma Nu. We have one of the strongest teams in school and are sure of winning the cup. Our social and scholarship standing in school is far above the average, although we have as many Freshmen as "Uppers"—the Freshmen are of the "very best of Sigma Nu stuff."

The Sigma Nu dance will be February 22. Dinner parties are planned for practically every week-end, also several smokers will be given this term. These dates

as the S. A. T. C. was fully installed we were unable to do very much in the way of Chapter activities. The men were quartered in barracks, but as our Chapter House was not taken over for use as barracks, we kept it open during the few hours that we had freedom.

As soon as it became known that the S. A. T. C. was to be demobilized, we immediately began to make our plans for the renewing of full activity. Unfortunately, a number of the Freshmen who had been able to be in the university through the S. A. T. C., found it impossible to return after Christmas, but these men are all planning to be in school next fall. When the second term began, December 30, we opened with twelve men, and since then we have pledged Charles Timmons.

We are very fortunate in having some of the old men back with us this term. Brother Henry Young, a naval aviator, who is now on inactive duty, re-entered the second term and will graduate in the Spring. Frank Weathers, a second lieutenant, has returned to school after being in the service eighteen months. Brother Royal Davis, who took up an engineering course at Purdue last Fall, left there at the closing of the S. A. T. C., and is with us again this term. Brother Johnson and Brother McIntosh, who are at present on active duty in the Navy, are planning to return to school immediately upon being discharged. Brother Harold Jones is in the ensign school at Chicago.

The various college activities are all being taken up speedily. Brother Paul Jones and Brother Frank Weathers are working on the varsity track team, and hope to bring new athletic laurels to DePauw and Sigma Nu.

The Chapter House is being overhauled and several minor improvements are being put in. The prospects for next Fall are very bright compared with the last two years Beta Beta has gone through. With the close of the war the enrollment at DePauw will come back to normal again, and the Chapter will be in good sound condition.

INDIANA UNIVERSITY

Beta Eta Chapter

Notwithstanding the perplexing problems of the day and conditions, regarding the disbandment of the S. A. T. C. unit and the present influenza conditions, Beta Eta, as usual, in this school is a "top-notcher."

From a material standpoint, I. U. has not changed from last year, but from a spiritual view, there has been much change. Immediately upon the disbandment of the S. A. T. C., college democracy and I. U. "pep" returned. Although many of the khaki suits are seen on the campus today, the schedule and strictness of militarism is lacking. In fact, the student body too well realizes "the war is over," after a strict discipline, a wave of "sloppyness" seems to prevail.

Indiana will maintain compulsory military training. This will be on the basis of the R. O. T. C., with Captain Dalton at the head. Freshmen and Sophomores are compelled to take this training. The Faculty has also been very busy and has attained commendable achievement in adjusting the new schedule of studies and the term system. Many of the studies pertaining directly toward the militarism, compulsory for the S. A. T. C. men have been discontinued and the present term system will be replaced by the former semester system; the term system was found to be very impracticable.

The demobilization of the S. A. T. C. has diminished the number of the student body. Many men came to school solely for the military training; others were not financially able to come before or to stay in school after the unit was disbanded. Before disbandment the enrollment was twenty-four hundred and now it is nineteen hundred.

Indiana Union, Boosters Club and Inter-Fraternity conditions and activities are flourishing. The members of these organizations all gave their utmost energy and good will towards all drives to benefit the war program, and now are doing as much for the school. Social activities are stunned by the influenza situation. The epidemic is still serious. All dances, dramatics, dinner parties have been cancelled indefinitely.

As to the men in the Chapter itself, Brother Winslow was elected president of Sigma Delta Chi—honorary journalistic fraternity; Brother Mayes and Brother Winslow were elected members to the Sphinx Club—The Sphinx Club represents the most popular men in school activities; Brother Sinclair was elected president of the W. M. C. A.; Brother Winslow was elected editor and chief of the Arbutus (the Senior year book); Brother Stonecipher is connected with the Daily Student newspaper. We have five men on the Freshmen basketball squad: Brothers Kile, Kilpatrick, Kerchival, Mayes, and Pledge Rucklehouse. Pledge Rucklehouse, who was recently pledged, comes from Indianapolis and made the all-state team. Five strong men will be out in the Spring for baseball and the same amount for track. The Inter-Fraternity basketball tournament starts tonight, and Brothers Mayes, Kyle, Kilpatrick, John Jones, Kercheval, and Pledge Rucklehouse represent Sigma Nu. We have one of the strongest teams in school and are sure of winning the cup. Our social and scholarship standing in school is far above the average, although we have as many Freshmen as "Uppers"—the Freshmen are of the "very best of Sigma Nu stuff."

The Sigma Nu dance will be February 22. Dinner parties are planned for practically every week-end, also several smokers will be given this term. These dates

will be carried out unless the "flu" epidemic prohibits.

Financially, the Chapter is in good standing, the Government having taken over the Fraternity Houses for barracks for the S. A. T. C. men, allowing a dollar a day for every man housed. They still owe us a considerable amount of money on bills and for depreciation of property. This warrants an exceptionally good financial standing.

Recently Beta Eta was honored by the visit of Past Regent George M. Cook, of Chicago; Brother Lawrence B. Mays, of Pendleton, and Brother Thaddeus Stonecipher were at Purdue University. Brother Stonecipher is educational director of the Y. M. C. A., and leaves for France, January 15th. Lieutenant Woodburn also visited us last night.

ALVIN J. STIVER, Reporter.

ALABAMA POLYTECHNIC INSTITUTE

Beta Theta Chapter

With the passing of the S. A. T. C., Alabama Polytechnic Institute finds herself benefitted in many ways by the hands of Uncle Sam. A new up-to-date mess hall, accommodating eighteen hundred and a dormitory for five hundred men are two of the most important improvements on the campus. During the S. A. T. C., Auburn possessed army spirit and not college spirit; a training camp and not a student body. However, with the new year, we are fast returning to old conditions. The old student honor system has been re-established, literary societies re-organized and fraternal activities resumed. In short, old Auburn is coming to her own again.

Beta Theta feels that it has been more fortunate than the majority of the Chapters. During the uncertain affairs of army life we had the privilege of meeting every Sunday afternoon at the home of Brother Starcher, who extended a helping hand to the fullest extent at the time when it was most needed. Notwithstanding guard duty, the quarantine and the like, not less than fifteen Sigs were present at every meeting. Consequently, with the opening of the new year we can still carry on our Chapter in regular cadence and upon a firm financial basis.

The Senior class elections were very flattering to Sigma Nu. Brother Anderson was elected class treasurer and business manager of the Orange and Blue, our weekly paper. Brother R. B. Kelly, was elected editor-in-chief of the Glomerata, the college annual, and also made honor man. The remaining class elections have not been held.

In the field of athletics Brother Wade holds the honor as manager of the 'varsity

basketball. This past year Brother Lollar was one of the few who received his "A" in football.

Brothers N. D. Spann and S. H. Dent who received commissions at Fort Sheridan have returned to graduate. It goes without saying that these Brothers add great dignity to the Chapter.

Brother J. M. Ward who was commissioned at Camp Grant, with Brothers Crow and Strozier, has written several letters of advice and encouragement and promises to pay us a visit before long. Brothers Crow and Strozier are now serving in France along with many other Brothers of this Chapter.

Brother Hugh Dumas who is a first lieutenant in the regular army has been visiting us. We have enjoyed having him back.

In addition to returning fifteen old men Beta Theta has again been extremely fortunate in new material. Our initiates for 1919 include the following men: J. M. Baarcke, Montgomery; D. J. Beauchamp, Albany; J. T. Goughtie, Eufaula; R. A. Jervis, Albany; R. B. Kelly, Atlanta, Ga.; J. O. Lanham, Selma; D. H. Frazer, Lafayette; R. S. Monroe, Huntsville; E. Monroe, Huntsville; W. F. O'Neal, Chipley, Ga.; J. L. Pate, Lafayette; R. A. Patterson, Cuthbert, Ga.; L. E. Rowan, Selma; P. H. Spann, Dothan; E. B. Weedon, Eufaula, and G. S. Wilkes, Huntsville. At present we have two pledges, C. Lanier, West Point, Ga., and J. R. Hornady, Birmingham.

Several of our Freshmen were unable to return for the remaining session, thus losing the genuine fellowship and brotherhood of Fraternity life.

C. E. REID, Reporter.

MOUNT UNION COLLEGE

Beta Iota Chapter

The new College Commons is the latest addition to Mount Union's equipment. Old Miller Hall, which was remodeled for use as S. A. T. C. barracks at a cost of \$70,000 has been changed into a dormitory where Freshmen are required to live until they attain Sophomore ranking. The building is claimed to be one of the finest equipped in the State. The basement contains the dining room, where meals are served cafeteria system; recreation rooms and a smoking room. On the first floor is the office of the Y. M. C. A. Secretary, who is director of the building, a canteen and a library. Study rooms are on the second floor and the third story is used for sleeping quarters. The building is finished in oak, well supplied with shower baths, etc., and is an ideal place to stay. The men have student government and are under the supervision of Brother Bandy, who is the new Y. M. C. A. Secretary here.

In the student body, new interest and enthusiasm is springing up in all lines of activities. The Y. M. C. A. with Brother Bandy at its head is becoming the strongest organization in school and other lines are growing with it. However the term is too young to admit any report on the individual activities, except athletics. Pan-Hellenic relations are good owing to the influence of the S. A. T. C. and it is believed that they will continue to be.

Sigma Nu at Mount Union is again stepping out and taking her usual place in the student activities. Five of the eight men on the Varsity basketball squad are Sigma Nus. Brothers Burkle, Nelson and Evans are regulars with Shively and Sprankle as first string substitutes. Brother Burkle is captain, taking Brother Eynon's place as he is not in school this term.

Beta Iota is in splendid condition in regard to finances and number of men back. We have opened our house and are confident of a successful year. Brothers Burkle, Cocklin, Jones, Marlowe, Helwick, Knoll, Nelson, Bymer, Shively and Sprankle stayed in school after the demobilization of the S. A. T. C. and to these are added Brothers Brown, Morris, Evans, Hipsley, and Smith, who have been honorably discharged from the service. Several more are expected to return when the second semester opens in February. We have the following pledges, who are now in school: George Barrick, Canton; Winfield Corl, Uniontown; Blair Hoover, West Farmington; Arthur Johnson, Columbiana; Wendell Jones, Alliance; Kenneth Long, Ann Arbor, Mich.; Lester Rufenacht, Dover; Wyatt Smith, Alliance; Clyde Van Dorstan, Canton; Corl Zimmerman, Akron. The death of Pledge Earl D. Dobbyn was a shock to all.

When school began last October, the prospects were rather blue but all the active brothers got together and also got busy. After four weeks of rushing, we pledged twenty-five men, ten of which returned after demobilization. Our home was being used as a barracks and we were compelled to hold our meetings in one of the college buildings. We were active during the period of the S. A. T. C. and about one-half of the men destined for Officers Training School were Sigma Nus. When the armistice was signed and the Unit was ordered disbanded, we immediately made plans for return to normal life. We are now comfortably installed in the "Old Red Brick" and are expectantly awaiting the boys coming back from "Over There."

LEROY E. MARLOWE, Reporter.

KANSAS STATE AGRICULTURAL COLLEGE

Beta Kappa Chapter

"Aint it a grand and glorious feelin' " to get back into the house after an enforced

absence. The S. A. T. C. has left us in a much better condition than we expected and with the return of eleven old men and five pledges everything is booming off in fine shape. A new pledge, David K. Copeland, has been secured within the week and the prospects are excellent for making several more additions to our list of neophytes. Brothers Brewer and Barringer have already returned to school after holding commissions in the infantry and from the tone of the letters received from our overseas men there will doubtless be a regular time next fall when the most of them come back, as they are planning to do.

For a while it was thought that there are not enough men in the house to pay for the expense of a table but after a successful trial of the two-meals-a-day plan (omitting breakfast) we have continued with it. At the last Chapter meeting a ruling was made, to be strictly enforced without exceptions, whereby a man owing the House more than forty dollars will be required to leave the House and live outside until the delinquency is made up. We believe that this will do away with the customary and sometimes habitual slowness of a few Brothers in meeting their house expenses and assessments. A similar ruling has been placed before the Inter-Fraternity Council. It was suggested by Brother Harrington, who inspected us recently in place of our regular inspector, Brother Newby. This ruling states that no Fraternity House may owe more than one hundred dollars to any store or shop and the credit of the Fraternity ceases at the time the debt amounts to more than that sum.

Beta Kappa has not been so prominent in athletics this year as last but the few Brothers who are athletes have come to the front as usual. Brothers Husted, Miller, and Burton (quarterback) received football letters. Brother Neely is out for track and as this is his sophomore year he will undoubtedly win his place on the college team after taking class honors last year. After receiving his discharge from the navy as athletic instructor Brother Merner has returned to his position as basketball coach at Columbia University, New York City.

Although there has been no practice so far this season the outlook for Inter-Fraternity basketball is excellent with the odds in favor of Beta Kappa. When the time comes for the show-down we will be there with the proper spirit and material which will win the championship for us again this year.

L. L. HAMILTON,
Reporter.

UNIVERSITY OF IOWA

Beta Mu Chapter

School has re-opened in the usual manner, and with the re-opening has come the re-occupation of our Chapter House. Since

our dismissal from the S. A. T. C. we have been trying to adjust ourselves to new conditions with apparently good results. We have just returned and it has been a struggle to get started, especially since, during the period of time that our House was used to house "flu" patients, the hospital people walked off with our dishes, sheets, pillow cases, table cloths, and everything else which was not nailed down. All things considered we are running smoothly.

The University has just completed one of the finest and most modern of Children's Hospitals in the United States. The building is to be devoted, principally, to the treatment of orthopedic surgery cases. Then, too, in the building line, the school is carrying to completion its new \$250,000 barracks, which will be converted into a dormitory for men. The structure is composed of several buildings built around a common court 200x400 feet. This court will be roofed over to form an indoor athletic and drill field.

The Board of Deans met a few weeks ago and decided to give ten hours' credit to any man who had been honorably discharged from the S. A. T. C. at S. U. I. This ten hours is to apply on the one hundred twenty required for graduation. At the same time, the board passed a ruling to do away with all tuition in the Colleges of Liberal Arts and Applied Science, and to deduct a like amount from the tuition of professional colleges.

Athletics have not been abandoned even though the S. A. T. C. interfered greatly with them. Brothers Block and Lohman were on the football team, Brother Lohman being, no doubt, Iowa's star man. Brothers Kaufman and Newcomb promise us representation in basketball.

Our men are down to business in the study line. A committee of three has been appointed, and each pledge must receive the consent of the committee before leaving the House after 7:30 at night. This method has been successful in the past, and keeps the Chapter in good condition. All but two of our pledges live in the House. This makes it an easy matter to keep track of them, and also better helps to fill the treasury which is in pretty fair condition considering the fact that we have been so inactive this year.

At present we have eleven pledges. They are Everett Jack, of Fort Madison; Robert Block and Gilbert Goos, of Davenport; E. B. Soper III of Emmetsburg; Max Conn, of Hartley; Edwin Dethlefs, of Iowa City; Russell and Sherwood Swain, of North English; Rollin Roehl, of Clinton; A. J. Mulrone, of Roefe and Archie Cardle, of Burlington.

Lieutenant Robert C. Dethlefs, Lieutenant Carl Meyrick, Lieutenant F. A. Donaldson, and Brother Gerald A. Jewett, the last of

whom is from Beta Rho Chapter, were visitors during the past week.

The death of Brother "Bob" Odle is deeply felt by the whole Chapter. "Bob" was a favorite among all the fellows and we were greatly grieved when we learned of his death which occurred at Camp Dodge during the summer of 1918.

In closing I might say that Beta Mu has been successful for a number of years and has little competition in pledging. Life within the Beta Mu Chapter is delightful and beneficial; there is no doubt but that it will remain so. W. L. FLANAGAN, Reporter.

OHIO STATE UNIVERSITY

Beta Nu Chapter

Ohio State is making rapid strides towards returning to a pre-war basis. The two semester plan is again in force. The second semester will begin Feb. 4, 1919. All courses of study have been returned to their former places. Plans are being arranged for University Day, February 22, and the Alumni Committee will have the co-operation of the Student Council in making these arrangements. Lowry F. Sater, '95, is in charge.

A bill was introduced in the Ohio State Legislature January 14, asking for \$300,000, for which to build more dormitories for women at Ohio State University.

Intramural athletics have again been revived at the University. All fraternities are expected to be represented in basketball. These contests are always looked on as very interesting events by the fraternity men.

The Inter-Fraternity Council at a recent meeting decided to rejuvenate its activities and soon the normal fraternity aspect will be worn by all the organizations.

The active Chapter at the present time consists of but nine men. However, we are still keeping open house and are getting along very well financially. Five men were recently initiated. They are: Wm. Brinkmeier, St. Mary's; Howard Dinkle, Lima; Wade W. McGee, Chillicothe; Frank Wickline, Akron; Laurence Bonner, Columbus. Unfortunately all of these men except Brother Bonner have withdrawn from the University, but most of these men will probably be back in school next semester. Among the old boys expected back are the following: Brothers Hip Palmer, Bill Wilcox, Bill Lewis, Jack Carruthers, Wheat Stokes, Earl Tussing. With the discontinuation of the S. A. T. C. we lost quite a few of our pledges and at the present time have but three in school. However, many freshmen will enter school at the beginning of next semester and we are planning a second rushing season. Socially the Chapter has been very quiet as have all organi-

zations on the campus but with the return to normal next semester we expect to pull off several live parties.

The Sigma Nu House Fund proposition will be revived next semester and with co-operation with the Alumni Beta Nu should be comfortably located in a new Chapter House in the near future.

Brother Walter S. Hamilton has matriculated in the Medical College of the University. "Ham" as we all know him has been initiated into Phi Rho Sigma (medical) Fraternity.

The years of '19-'20, at Ohio State University should be one of the biggest ever witnessed in her history. With the return of the boys "Over There" the University and Beta Nu should thrive as never before.

LESTER C. NEER, Reporter.

WILLIAM JEWELL COLLEGE

Beta Xi Chapter

William Jewell opened for school work on January 6th. Due to the fact that a great many men are returning from the different branches of the service and also on account of the confusion caused by the Students Army Training Corps the Faculty has so arranged the courses that we are able to start right in exactly as it was the first of the year. I found this very convenient and lost no time getting back into school after receiving my discharge from the navy.

The Faculty and student body of William Jewell feel a just pride in the success of the S. A. T. C. The superintendent of this division, which includes Wyoming, Colorado, Kansas and Missouri, stated in his report that William Jewell was the most successful in handling the training of any of the schools under his supervision. R. O. T. C. is to be installed here this term under the same commander, Captain Spooner.

Our Chapter is in good condition. We have fifteen active men and seven goats. While they are I think younger than usual they have all grasped the ideas and ideals of Sigma Nu and are working shoulder to shoulder to make Beta Xi a better Chapter than ever before. We have men in every student activity—both literary and athletic. I rather expected to find them in a more or less weakened condition and so was mighty well pleased to find things in even better conditions than they usually are at the beginning of an average school year.

We were recently notified of the death of Brother Seldon Murray. He was attached to Base Hospital No. 28, in Roen, France. His life and death came as near measuring up to the standards of Sigma Nu as it is possible for men to live. A nobler and finer Brother never lived.

TROY MCGEE SMITH, Reporter.

UNIVERSITY OF PENNSYLVANIA

Beta Rho Chapter

With the demobilization of the S. A. T. C. and the opening of the University seventeen men have returned to resume their academic studies and their activities in Beta Rho. They are as follows:

Brothers E. R. Van Vliet, G. A. Strickland, E. S. Newitt, H. T. Hovde, E. L. Carlson, J. E. Caulderwood, J. E. Sebald, J. C. Stimson, Charles VanGinkle, G. A. Jewett, H. A. McLaughlin, J. A. Donovan, F. W. Black, A. J. Williams, H. J. Berry, P. S. Greismer, G. O. Mattox.

The Alumni have made many necessary improvements in the House, putting it in perhaps the best condition it has ever been.

Sigma Nu is well represented on the campus at the University. The major activities being represented in the following men: Brother J. C. Stimson is assistant crew manager, and Brother Earle R. Van Vliet editor-in-chief of the Pennsylvanian. We are represented on the Red and Blue by Brother H. J. Berry; in the class officers by Brother J. L. Sebald; while E. L. Carlson and G. A. Strickland represent Sigma Nu in track and basketball management respectively.

Within the last few months Beta Rho has entertained many interesting visitors from Chapters all over the country. Among the late visitors are Brothers Norris, of Delta Beta; MacBrair, Delta Gamma; G. C. Hawley, Upsilon, lately returned from overseas; Barron, Delta Delta; Kinney of Delta Delta, and Dr. R. O. Brown, Delta Zeta.

G. A. JEWETT,

Reporter.

UNIVERSITY OF VERMONT

Beta Sigma Chapter

College opened October 23rd with an extremely unpromising outlook for Beta Sigma. Only eight of the Brothers, all Sophomores, returned, and four of them were ordered immediately to the Field Artillery Officers' School at Camp Taylor. It was an unpromising aspect for four underclassmen to hope to successfully rush Freshmen against Fraternities that had nearly all their men back as members of the S. A. T. C. You can imagine our surprise upon returning from our various camps to find that these four Brothers had not only pledged eighteen men, but had won the very pick of the class. Our pleasure was saddened, however, by the death of Brother Goodrich and Pledge Roy Howard, who died of the influenza while members of the S. A. T. C.

When college reopened on January 2nd, the unpromising outlook of the first registration was entirely forgotten. Brothers

Tyler and Goldthwaite returned from the Naval Aviation Service, while Brother Burke blew in from the wild and woolly West, maintaining that Camp Grant is the real home of the U. S. Army. These three Brothers constitute our class of 1920. 1921 has seven representatives: "Ed" Whitcomb, "Jim" Jennings, Plimpton and Carson, back from Camp Taylor, and "Sam" O'Neil, "Sam" Bartlett and "Mother" McGreevy. We are also expecting Brothers Bob Parker and Roy Logan almost any day. Eleven pledges returned and since then we have pledged four more, all of whom will be initiated on February 1st.

We are making great plans on the initiation and banquet, which we hold at the Hotel Vermont, for we are expecting many of the Brothers back.

College activities have not been very flourishing and we are particularly handicapped by our lack of upper-classmen, as we have no Seniors and only two Juniors. But prospects certainly look bright. Every man is working for something and we are represented in every branch of college activity. Our men are on the Ariel staff,—the Junior year book,—the college paper, The Cynic; the class basketball teams, and last fall's football team. Perhaps the best way to make a Fraternity famous here at Vermont is to win the cup given for the best stunt staged by any Fraternity at the annual Kake Walk. This is the big event here, and every Fraternity puts in all their spare time months ahead, working up a winning stunt. Sigma Nu has been particularly successful and we have won this cup two years out of the last four, and we are sure working to get it again.

It is impossible to give our scholastic standing at the present time, as college has not been opened long enough to obtain any grades.

Our House was turned over to the S. A. T. C. during the Fall and it was certainly a wreck when we arrived here in January. The only thing that saved any of it was the fact that it was used as a hospital part of the time. But we are beginning to get it into shape. We are having the floors gone over and the lighting system fixed up, and it is beginning to look like a real place again. As yet we have not started a table at the House, so we are doing the next best thing, eating at the "Hash House" at two tables especially reserved for Sigma Nus.

We hear now and then from our Brothers still in the service and things seem to be going fine with them. We have been singularly fortunate in the past war, for although we had around seventy in the service, we know of no one who has been killed, although many of them have been on the Front since the war began. Brother

Frank Burke, who left college to enter the service, has risen to the rank of major.

So we have a great deal to be thankful for in that we have lost so few of our Brothers in the past war, while the future is as promising as anyone could ask for.

HOMER A. PLIMPTON,
Reporter.

NORTH CAROLINA STATE COLLEGE

Beta Tau Chapter

Just a few lines concerning conditions with Beta Tau Chapter. Things are beginning to look more favorable and I think the Fraternities at North Carolina A. & E. will be permitted to initiate about as usual.

Only two old men returned to college this year, Burton S. Mitchell and Fred S. Childs, the former being sent to the Officers' Training Camp at Camp Gordon. However, he is expected to return to school shortly, since the armistice has been signed. In the meantime, Childs has gone ahead and pledged two men and has several others in view with prospects good for "landing" them. Initiations are forbidden until February 1st, which will give time to work for new men.

I hasten to correct any impression that I may have unintentionally given you to the effect that Beta Tau was inactive. She is active and coming right along. Of course the Chapter has been handicapped, but there is no reason why it should not come through the year very creditably.

Lattimore was initiated several days ago and prospects look fine for landing from six to ten other prospects. The S. A. T. C. has demobilized and the Fraternities will, so far as I know, resume their before the war status. Rules at the college have always prohibited pledging Freshmen before February 1st.

Conditions at the college look promising. For some reasons, due probably in part to duties required in the S. A. T. C., some of the Freshmen failed to pass enough work to be eligible. We have in view two candidates that we feel sure will land. I am inclined to believe that there is material in the college that has been overlooked and we may be able to initiate several other men during the Spring. One of the men that we would have initiated on pledge day (February 1st) has left college to enter the State University. We have arranged for him to be initiated by Psi Chapter.

I suppose you have been officially notified of the loss of the Psi's Chapter House by fire. I feel this very keenly, as Psi was my Chapter. I have been so busy that I have not been able to go to Chapel Hill, but I hope the House can be re-built.

DR. R. K. ADAMS,
Chapter Adviser.

ROSE POLYTECHNIC INSTITUTE

Beta Upsilon Chapter

Beta Upsilon, as predicted last year, is in great readiness for the coming semester, which includes rush season.

We are now in our splendid and newly furnished home, 461 N. Sixth street, with seven house men and encouraging prospects for several more from the freshmen class.

The S. A. T. C. in a great way, effected our Chapter, while more than 50 per cent. of last year's men enlisted during the summer. These men are slowly returning to school fully inspired, realizing the true worth and value of an education together with the unlimited benefits of fraternity life.

Within the last four weeks we have initiated six pledges left from last year, increasing the present roll to fourteen. This leaves us with only three pledges, who are to be taken in at our next meeting.

Due to the turmoil of settling ourselves, a more detailed account of school activities, as well as those of the Chapter, will be deferred until our next letter.

G. R. EPPESE, Reporter.

TULANE UNIVERSITY

Beta Phi Chapter

Beta Phi began the year of 1918-19 with a return of 80 per cent of the old members, the 20 per cent loss being wholly due to the enlistment of these men in the service of their country.

We received one transfer from the Chapter at Auburn Institute and two new men were pledged.

Fraternity activities here were greatly impaired by S. A. T. C. Of course no fraternity houses were run, all men of the university being placed in barracks. But with the demobilization of S. A. T. C. and the resume of normal affairs fraternity affairs now begin to brighten perceptibly, for which we are truly grateful.

The football season was not attended by as great enthusiasm as in the past years owing to war conditions and the epidemic of influenza. The team was entitled "Camp Martin" instead of "Tulane" and hardly any intercollegiate ball was played, the games being confined to battles between "Camp Martin" and other army camps. We had two men on the varsity.

With a return of peace we now look forward to a happy and prosperous resume of our activities.

WILLIAM K. LLOYD, Reporter.

UNIVERSITY OF CALIFORNIA

Beta Psi Chapter

In May, 1918, the University of California practically ceased as a university and bent all its efforts and time for the continuance of the war. Barracks, mess halls and military buildings seemed to spring up overnight—even some of our historical old trees gave way to these barren buildings that California might do her share. Those of the Faculty who had not gone to the Front responded nobly to this call and devoted their time and energy to the more militaristic courses of study that the students might be prepared for officers in aviation, infantry, artillery, machine gun corps, engineers, ordnance, medicine, and for the Navy.

And yet militarism could not stamp out California spirit! The "Big Game" of the West was once more revived when California clashed with her old rival, Stanford, on the gridiron and the Blue and Gold triumphed 67 to 0. The "Daily Californian" struggled along and managed to pull through with only half a staff working double time. The student self-control has been so well established for so many years that its momentum carried it right along under the guidance of the few remaining upperclassmen.

Naturally, Fraternities were hard hit, and I believe that the Sigma Nu House was the only one that kept her doors open. No meals were served and only three Brothers lived there, but the old fireplace was a popular and welcome spot over the weekend, after hearing a bugle call all week.

For the last two years the Chapter has been more than active on the campus in honor societies and serving on committees. Brothers Brown, Blakely and Paxton are members of the Senior honor society, Golden Bear. Brothers Harter and Hewitt were elected to the two Junior societies, Winged Helmet and Reptax. Brothers Ashe, Blakely, Hewitt and Harter are members of U. N. X. As for committees, Brother Blakely was in charge of the committee selling A. T. U. C. cards, and also a member of the executive committee. Brother Brown was chairman of the rally committee and yell leader. Brothers Hewitt and Harter are on the Junior Prom committee. Brother Harter was also on the rally committee and an associate editor of the "Blue and Gold," the college year book. Brother Vaughan was a member of the rally, Big C, and Sophomore Hop committees. He is also secretary of the glee club and an associate editor of the "Daily Californian." Brother Paxton was unable to play football last Fall, due to a dislocated hip, but nevertheless he lent valuable assistance to Coach Smith drilling the rookies of the gridiron.

The coming Spring semester promises to be bright and with it comes the dream

of a new House. Our \$10,500 lot is paid for, the plans are drawn and the bank ready to back us, so all we need is a little push. With so many of our Alumni returning, I sincerely hope that the push will soon be here and that this will be the year "when dreams come true."

We regret that Beta Psi is not nearer the Fraternity offices, for we would heartily welcome a visit and be brought nearer the inner workings of our Fraternity.

R. L. HARTER, Reporter.

GEORGIA SCHOOL OF TECHNOLOGY

Gamma Alpha Chapter

A couple of Sundays ago I spent the afternoon at the Georgia Tech Chapter, and while there got hold of a copy of the Delta. I certainly devoured it with interest and resolved to secure the numbers as they are published.

I wish to report the Georgia Tech Chapter as all O. K. with twenty men pledged, but with their Home broken up, as they were moving into the barracks when I was there. I had a pleasant chat with Ensign George A. Balko, of Stevens Tech, who organized the Naval unit at Georgia Tech.

GEORGE W. MYERS,
Gamma Nu.

NORTHWESTERN UNIVERSITY

Gamma Beta Chapter

Conditions at Northwestern are rapidly returning to normal. The S. A. T. C. has been gone now for over a month and a good many of the old men are back in school. The Student Army boys were pretty rough on our house, but the university is starting this week to completely refinish and redecorate the House throughout. It is estimated that the repairs, including new hardwood floors, will amount to \$4,000.00. Within the next two weeks the House will be the real home that it was before the war.

At the first official meeting of the Fraternity on January 6th, Brother "Cy" Young was elected Eminent Commander. Others chosen for office were: Eddie Halperin, lieutenant-commander; Norman Phelps, treasurer; Wayne Walker, recording secretary; Bob Schweser, reporter; "Toggie" Moore, marshal; William Hicks, chaplain, and Guy D. Randolph, sentinel.

The Saturday before school started, the Brothers decided to put on a little dancing and rushing party. Everyone had a very pleasant time and we started the rushing season off with a lot of the old-time "pep." The following men have been pledged this term: John Campbell, Chicago; Harold Gilmore, Chicago; Barton Foster, Evanston; Frederick Maika, Chadron, Neb;

Ralph Moore, Concordia, Kans.; John Moorman, Oskaloosa, Iowa; Russell Munnix, Freeport, Ill.; William Nichol, Fond du Lac, Wis., and Howard Staup, Chicago.

"Cy" Young made his letter on the 'varsity football team and is now playing guard on the basketball team. He is also secretary of the Athletic Association, and a member of the student council. Eddie Halperin is manager of the Daily Northwestern and is on the Syllabus board. Halperin and Staup have been selected for the university campus players production to be given this Spring. Phelps is official cartoonist for the Syllabus. Munnix is playing on the Freshman basketball squad.

The prospects for the coming year are very bright. The Fraternity is represented well in every activity and as a consequence are in a position to keep Sigma Nu at the top for a long time.

The Alumni Association has been a wonderful help to the active Chapter during the past two years. Brothers Parmelee and Sanderson, lending their homes for rushing and Brothers Luther and Vanderblue keeping things going good in general.

ROBERT E. SCHWESER,
Reporter.

ALBION COLLEGE

Gamma Gamma Chapter

Albion College has quickly adjusted herself to normal life again and has begun the second term with the same old "Eo Triumphe" spirit. Athletics, oratory, debating and all forms of activities are being resumed and Gamma Gamma, as usual is holding her share of the honors.

The Chapter at the present time has seventeen actives and nine pledgemen. Brothers Peterson, Wilkinson, Bostwick, Alexander, Tuxworth, Sargent, Tuller, Hatch, Walker and Greene comprise the old men from last year. Brothers Pearce, Quick, Jordan, McCall, Davies, McGeachy, and Bryant being the initiated men of this year. Pledgemen Laity, Leamon, Church, Kingnorth, Garlick, Lang, Liple, Spannenberg, and Bennett complete the list.

Being unable to secure our old home on Erie street, we have rented a house for the remainder of the year on East Porter street. This accommodates twelve men and serves very nicely for a temporary place in which to hold meetings and get-togethers. Plans for the building of a permanent Chapter House are progressing rapidly, and by the aid of the Alumni, are in hopes of having it ready during the coming year.

The Inter-Fraternity basketball games start Friday night, January 17th, and Sigma Nu, with all new men hope to come through successfully and again gain possession of the cup. Manager Bostwick and

Captain Quick are rounding the men into shape for the contests. Compete outfits for seven men have been ordered by the Fraternity to aid to the appearance of their representatives.

Our annual Christmas party was necessarily postponed on account of the demobilization of the S. A. T. C. and the closing of college one week earlier for the Christmas recess. We expect to have a big party some time in February, definite plans as to the nature and place of the party has not as yet been decided.

Brothers Alexander and Tuxworth are members of the "Plead" staff. Brother Pearce was elected president of the Freshmen class.

Brothers who have visited the Chapter during the year are: Murl Boyd, Washington, D. C.; Russell Boyd and LaVern Sutton, Great Lakes Naval Training Station; Captain Ernest O. Hartman and Captain Joseph Baldwin of Camp Custer; Owen Emmons, camp athletic director also of Camp Custer; Lieutenant Winegar, and Brother Jan Patterson.

MILO BOSTWICK, Reporter.

STEVENS INSTITUTE OF TECHNOLOGY

Gamma Delta Chapter

The U. S. Steam Engineering School has erected a three-story building directly in front of the Chapter House. This is by no means an "improvement" as far as we are concerned, but the new structure will add greatly to the development of the Steam School in which Stevens is more or less interested.

Student activities at present are just beginning to be actual, and now that conditions are normal the old college life is sure to come back strong. Brothers Paulsen, Lawrence, Campbell, Fengar, Moeller and Gregory are promising candidates for the musical clubs. Brother Lawrence has been elected a member of the Junior Program committee.

Brother Stephenson has been elected secretary of the Junior class and Brother Gregory, class historian.

Brother Anderson has joined the Gamma Theta crowd at Cornell.

The Inter-Fraternity Council has renewed its work and the co-operation of the Chapters through it has been a great advantage in many respects.

Gamma Delta is now enjoying the results of their hasty "turnout" from the old House. The new place at 529 River street, is very well suited for our purpose and although things are still rather unsettled the outlook is very bright.

There have been a number of Sigs who have entered the Steam School and the Chapter has had the pleasure of meeting these Brothers who hail from all over the country.

The Fraternities have never had a greater chance than now to realize their own significance and men are beginning to see that "unity in action" is the key for strength and success. Sigma Nu played her part in the great war and those Brothers who were fortunate enough to wear a steel helmet certainly had occasion to know that the Fraternity was right back of them, and that means every one of us.

H. D. GREGORY, Reporter.

LAFAYETTE COLLEGE

Gamma Epsilon Chapter

Lafayette College is returning to its normal basis and its Fraternities appear to have taken on a new lease of life. Gamma Epsilon is looking forward to one of the most successful years of her history.

With a Chapter roll of twenty-two men and three pledges whom we take pleasure in introducing to Sigma Nu: R. P. Lowe, '22, West Philadelphia; R. L. Conner, '22, Waynesburg; D. Ziegler, '22, Phillipsburg, N. J., and Brother N. J. Palihnich, Hoboken, N. J.

Our Freshman class is about the normal and is ably assisted by Brothers Jewell, who is its secretary, and Trowbridge, marshal.

Basketball is the sport which now claims most of our attention and Brothers Bobby and Bieher aid materially in making Lafayette's team a winner. Vying with this, the Bowling tournament of the Y. M. C. A. claims our attention, and Sigma Nu hopes to win the trophy again this year, having successfully won the cup for two years in succession.

Although military affairs interfered with most of the activities of the Fraternities, Gamma Epsilon held its initiation banquet at the Hotel Huntington at which all the Brothers were given an opportunity to learn something of the Brotherhood of Sigma Nu.

Having just been discharged from the service my knowledge of the affairs of the Chapter is not as extensive in its scope as I desire it should be but trust to send a more complete record of the Chapter and its activities in the next Delta.

CLIFTON J. HOPF, Reporter.

UNIVERSITY OF OREGON

Gamma Zeta Chapter

College has been going just a week and we are looking forward to a banner year,

both fraternally and scholastically. All college activities are again resuming their natural order and by Spring the college should be normal.

We have nearly 1,100 students registered this term, and expect a larger registration in the Spring term.

Gamma Zeta has a bright outlook for the next year. We have eleven exceptional pledges. They are as follows: Vern Dudley, Phil Clemons, Harold Connelly, Wesley Shattuck, Charles Robertson, Sidney Hay-slip, Stephen Mathien, Paul Shafer, Dewey Knox, Carl Newberry, Barton Sherk. Pledge Matlien is on the glee club and Pledge Dudley is a strong contender for center on the Freshman basketball team. We will be in the finals in the Inter-Fraternity Conference, as we have considerable material to pick from.

All the Gamma Zetas in the service come through in true Sigma Nu style. About three fourths of the entire members being officers in some branch of the service. Of the old men in the service to return so far, only two are here: Brother Flint Johns, from the Officers' Material School at Seattle, Wash., and Brother Lieutenant Sprague H. Carter, from Portland, Ore.

Brothers Lieutenant Bart Spellman, Lieutenant John E. Matheson and Paymaster Tegart were all back to visit us. Tegart expects to return soon to college. Brother Dean Walker is now graduate manager and 'varsity basketball coach.

Brothers Becket and Hall are first lieutenants in Marine Corps in France now, and Johnny is still playing football.

Wishing all our Brothers all the success possible, Gamma Zeta remains the "Old Reliable."

S. H. CARTER, Reporter.

COLORADO SCHOOL OF MINES

Gamma Eta Chapter

Delinquent.

CORNELL UNIVERSITY

Gamma Theta Chapter

Gamma Theta at Cornell is rapidly getting back into the old order of things. In spite of the disorganization due to the S. A. T. C., the few men we had left took in a might good Freshman delegation, so that when the university opened at the first of the year we had twenty-two men living in the House. We expect to have at least half a dozen men return this month, and as rushing is starting all over again, we should add considerably to our present numbers.

The old men back are: Brothers Estes, Bleakley, Bullen, Lippitt, Nugent, Minton,

Raymer, King, Schneider, and Gale. The new men we have initiated are Brothers MacInnis, Trainer, Ross, Southard, Breese, Olney, Harney, Adamson, Flautt, Cundell, and Shaner. We have just affiliated Brother Anderson, who comes to us from Stevens.

We have completed extensive improvements, in the form of refinishing floors, papering, retinting, and carpeting, as the Naval Unit of the S. A. T. C., which established their headquarters in the House, left it in pretty poor shape. We are very fortunate in being able to have this done at once, as practically all of the Houses, at Cornell as elsewhere, have little or nothing to work with, due to the financial strain of last year. We came through the critical period of last year with a clean slate and a substantial surplus, however, and as the finances of the House will again be directed by Brother Lippitt, we may consider ourselves once more on a sound footing.

We are particularly fortunate in the hearty and active support of our Alumni. Brothers Sibson, Harris, Owens, and Mixell have just been here, partly on the business of the Gamma Theta Property Association, to give the new men a clear idea of the work of the Association in financing our House when it was built. We have started a new drive on Gamma Theta second mortgage bonds, with which we are rapidly paying off the first mortgage, so that the House and property will shortly be entirely in the hands of Gamma Theta men. We sold \$2,900 of bonds in the active Chapter, which our Alumni have agreed to match.

We are planning a big reunion in the spring, when we expect a great number of our old men back with their wives and future Sigma Nus. It should be a great week, with plenty of Old Soldiers' Home campaign tales, and lots to do, as Cornell is celebrating her bi-centennial. So we expect all of you, as there is the double call—Gamma Theta, and Cornell. Come back and get in touch with the active Chapter again, as Sib. and the rest have done. You won't regret it, and I know we won't.

JOHN N. BULLEN, Reporter.

UNIVERSITY OF KENTUCKY

Gamma Iota Chapter

The University of Kentucky has weathered the S. A. T. C. storm, and although not fully recovered, has commenced to settle back to normal conditions. Very little was accomplished here while the boys were in the S. A. T. C., hence upon our return after the holidays, we have commenced at the beginning and are trying to catch up with all the time that we have lost.

Several members of the Faculty who have been away on leave, doing one kind of war work or the other, have returned and are now back at their old positions, and this greatly eases the work on the other

instructors. There have been added several new instructors at the university. Men of note have been placed at the head of several old and newer departments. Among courses of note that have been added is that of music, under the direction of Professor Lampert, of Chautauqua fame. Other additions have been made too numerous to mention.

There has been a new building program put in effect, and we now have the first unit of a new mechanical hall built, which will be added onto as often as possible until the present one is done away with. Several of the old buildings have been improved, principally the administration building. A new heating plant has been put in that takes care of about half the buildings on the campus. The four large barrack buildings that were erected to take care of the members of the S. A. T. C. unit are to be salvaged.

There was no opportunity to carry on student activities while everyone was in the S. A. T. C., however, on our return we have started out as of old, and many promising events are ahead. Class elections are being held, and the different societies are making a canvass for members. The "Strollers," the dramatic organization of the university, are planning to have their big annual play soon.

Conditions here as far as Fraternities are concerned greatly resemble those met at the first part of the year. With the S. A. T. C. went about one-half of the Freshman class. Fraternities, of course have suffered greatly in this reduced attendance, in fact it has caused all of us to commence to look around for new material. Sigma Nu lost several of the newly initiated men on various accounts, some because of financial reasons, some were disgusted with college life from the impression that they got of it from the S. A. T. C., while others will return next year, and then some of them will return next semester. All our old men returned, and we are forging ahead and do not intend to let the loss of a few Freshmen worry us but little. We have two new pledges whom we wish to introduce; they are W. P. Eaton, of Ashland, Ky., and Charles Graham, of Lexington, Ky., and Lexington, Va. This gives us a Chapter of eleven actives and three pledges.

Brothers Heber and Murphree have been awarded their K's in football. Brother Heber was captain of this year's team. Brothers Beam, Watkins, Faulconer and Hubbard were members of the first squad. To Sigma Nu again comes the honor of having Tau Beta Pi honor man in Brother Neal W. Knight. Brother Earl D. Wallace is president of the Sophomore class, and Brother Grover H. Creech, was chosen as stage manager of the "Strollers" for this year, and at present has his hands full, securing a play for the coming show.

Just before we left for the holidays, we had a smoker at the House, and besides the active Chapter and pledges, the following present: Brothers Ensign Harold A. Pulliam, Gamma Iota; Lieutenant Collis Ringo, Gamma Iota; Lieutenant J. S. Watkins, Gamma Iota; Andy Gill, Beta Eta; Pledge Charles Horney, Gamma Theta. We have planned a big Sigma Nu home-coming to celebrate the fiftieth anniversary of the founding of our Fraternity, and if it's anything like the one we had two years ago, it will be some party. Most of the members from this Chapter are out of the service now, so we surely intend to make it a grand old affair.

We are the only Fraternity maintaining a House and all the men, except those who live in town, are living in it. We are keeping a close tab on the underclassmen. Everyone is doing good, consistent work and we should lead easily in scholarship this year, since we were second of ten last year.

Financially Gamma Iota is in comparatively good shape. Our assets are about four times our liabilities, and with a little effort we should be able to clear up our debts at once.

We have had a real live bunch of boys this year. The boys are always in great demand socially. We have quite a reputation for throwing good parties and they are always looked forward to with great anticipation by those who enjoy such. On the campus the boys are all in good standing with all their instructors and the student body as a whole. Sigma Nu is on the best of terms with every other Fraternity at this institution, and while we are inclined to be clannish, yet we mix freely with the other Fraternity men here. We organized an all-Sigma football team, and succeeded in getting a game with the S. A. T. C. officers' team and beat them 38-7. Their team had only a few days previous beaten Transylvania University 14-0, so we had a real team to play. Brother Andy Gill, athletic coach at the University of Kentucky, played with us and put up a wonderful game. Those composing the team were: Andy Gill, Murphree, Beam, Watkins, Faulconer, Hubbard, Gorman, Wallace, Raney, Knight, Riorden, Faulconer W. and Eaton. About 500 spectators were out to see the game, it being the only game played on Stoll field this year.

Brother Clarence Young has been appointed House manager, and in conjunction with the commander, is seeing that all House rules are being strictly adhered to. Brothers Knight and Murphree are the members of the scholarship committee, and they are seeing that the underclassmen put in their time studying every night.

We fully expect to have a Chapter House building association incorporated in a very short time. Brother Guy Huguelet, Keel

Pulliam and Grover Creech are behind the movement, and we are quite sure that our plans are going to meet with success. Of course our Alumni are behind us to a man, and it is only a question of getting them together now to build the House. This we expect to do when we have our big home-coming. At present our plans are to again lease our present House for another year, as it is in a very good location and one of the best Houses that we have ever occupied.

Brothers Captain Keeling Pulliam, Jr., Lieutenant Hartford Matherly, Lieutenant J. S. Watkins, Ensign Harold A. Pulliam, Ensign F. H. Wright, Ensign David P. Campbell, Lieutenant J. Collis Ringo, Lieutenant Jeff Rowelette, Andy Gill, Beta Eta, and Pledge Charles Horney, Gamma Theta, have paid our Chapter visits during the past few weeks.

Gamma Iota's prospects are as bright as ever, and although we have lost some very promising men, we yet have every reason to believe we will finish this year at the top, and in order to do so, we will have only to maintain our present standing. We sincerely wish success to the other Chapters, and no doubt many of them will be greatly benefited by the return of old men, but we have none to return, but can make the grade with our present Chapter.

We are very proud of the war record of this Chapter, sixty-three men as far as we can determine were in the service of their country when the war ended. One gold star has been added to our service flag for Brother George Lloyd Haydon, who died of influenza and pneumonia at the University of Kentucky S. A. T. C. hospital. He was a young man of great promise and had been initiated into Sigma Nu only a few days previous to his death.

Many of the men from Gamma Iota have won high honors in the service, and we feel that there are too many of them to mention them all, but one or two names are especially conspicuous, that of Brother Keeling Pulliam, Jr., who received the French War Cross. Brother Harold Pulliam was for some time an instructor in aviation at Pensacola, Fla., until sent overseas. Brother David P. Campbell was one of the most proficient balloonists in the Navy. There is something to say about all of them, but time and space prevents.

GROVER H. CREECH, E. C.

UNIVERSITY OF COLORADO

Gamma Kappa Chapter

The University of Colorado is slowly but surely returning to normal standing after a three months' seige by the S. A. T. C. Student organizations that were disbanded at the opening of school in October are gradually being resumed, and with the

opening of the second quarter, January 28th, the old college pepper will be fully restored. War courses have been abandoned, and with the return of prominent Faculty members who have been engaged in war work, the old regime will be firmly installed. During the time the S. A. T. C. was the dominating factor on the campus the student body was above normal, but with the passing of the organization also went a greater part of the "floating population." At the present time the student body is not quite normal, but many old faces will appear with the second quarter, along with a number of first-year students.

When the S. A. T. C. was installed last fall it was evident that Fraternity Houses would be taken over as barracks, and the Inter-Fraternity Council voted to cease all activities of every nature for the duration of the war. Coincident with the signing of the armistice an announcement was made by the military authorities that Fraternities would be allowed to resume, and at a meeting held a few days later it was decided to start pledging on Thanksgiving Day.

Gamma Kappa, with six men left on the campus—(some Fraternities had fourteen)—realized that there was a big job ahead and that Thanksgiving would be no holiday. Four of us stayed on the "hill", while the other two covered Denver. Needless to say it was a unique day in the history of the school. Competition was keen, more so in fact than usual, which is going some. At the end of the day five of the best Freshmen were wearing the golden snake, and since that time six more men have been pledged.

The list of pledges: William Lord, Avery Mathews, Burns Ellison, Edward Nelson, Robert Dickson, all of Denver. Robert Shimeall, Goodland, Kans.; Roy Churchill, Bedford, Ia.; Oliver Lester, Boulder; Norman Beckett, Lafayette; Francis Keeler and James St. Clair, Longmont.

To date Gamma Kappa has had no social functions, with the exception of a rush party which was held at the "Alps", a mountain resort in Boulder canyon, the first part of December. A college social calendar is to be made up soon, at which time dates will be arranged for dances and other entertainments.

In school activities Gamma Kappa is well represented. Virgil Sells is president of the A. S. U. C. Wharton (Bud) Gray is president of the Senior class. Brother Carlton Robinson is a member of Heart and Dagger, honorary Senior society. Brother Morrison wears a Sigma Tau pledge ribbon. Brother Elliott has been initiated Tau Beta Pi. Brothers Wastfield and Clarence Robinson are members of Arch, honorary Sophomore society. Brother Simon is working on the Silver and Gold. Pledge Lord was a member of the 1918 football team, and Pledges Lord, Shimeall and Lester are out for varsity basketball.

the return of social events several Brothers will come into their own, at least of whom will be Brothers and Campbell, recently returned naval officers school at Norfolk, Va.

lastic records will probably not be ed until spring, but Gamma Kappa well up toward the front.

hers Dr. O. S. Fowler and Herman were visitors at the Alps rush and Brother Roger Mead, Ensign Aviation, was a visitor on New Day.

J. DEWEY SIMON, Reporter.

UNIVERSITY OF WISCONSIN

Gamma Lambda Chapter

"dear old college days" have once returned, after the temporary disce caused by the S. A. T. C. But ave returned, from the standpoint of a Lambda, with more pep than even ear old days" could summon forth. is a new spirit of activity, a spirit takes for progress along scholastic n collegiate activity, and best of all life of the Chapter itself.

men are back than was anticipated, their discharges in their pockets, to take up again their courses in . Among the men here now that ot here last Fall are George Miller, Darries, Tom Rose, Howard Jones, Wolfe. With but one or two excep- all the men in the S. A. T. C., r old members or newly-initiated rs, or pledges, have returned to and we are starting the quarter ore men than the House could hold, e never before attained in the time e been in the House we now occupy.

new spirit previously mentioned is ified by the men we have in outside es. There is hardly an activity in in which some of our men are not d. In "Slew" Fanning and "Mac" ney we have two men of 'varsity on the basketball squad. On the "Well" Brothers has already won ." The Daily Cardinal claims two: d Jones, desk editor; Kenneth Ede, r. And Bert Mann, who was a in the Fall, but who will be initiated this letter reaches you, was captain 'varsity football team.

ary 18th, Brother John Roberts, in- of the Ninth Division, honored us short visit.

Mueller, second lieutenant, Field Artillery; "Polly" Koch, second lieutenant, Field Artillery, and Lieutenant William Young, U. S. Navy, were here over the week-end of January 19th. Frank L. Bonner, Gamma Phi, spent the week-end of January 12th with us.

HOWARD P. JONES, Reporter.

UNIVERSITY OF ILLINOIS

Gamma Mu Chapter

Despite the abnormal conditions and high prices due to the late war the University of Illinois has recently completed a new Educational Building, which will soon be given over to the departments of Education, Psychology, and Philosophy. The College of Music will, upon the completion of Smith Hall, be moved to its new quarters. Both of these beautiful buildings are different in their style of architecture from any buildings constructed so far. It was found necessary for the library to be extended in order to accommodate recent additions. This is only temporary, however, as the site for the new library has already been chosen. Plans are under way for the erection of a new Architectural Building also.

Illinois has recently had the honor of sending one of its Faculty members to the Peace Conference at Paris, Doctor Lybyer, associate professor of history and an authority on the Balkan question.

The new quarter starting the first of October last year began a very disastrous period for this Chapter. At first it was thought that we could continue living together in our House if we could fill it with our own men. This we did, but everything was in a turmoil, and being obliged to give up our House to the University to be used as a barracks we moved to a suite of rooms in the Robison Building in Champaign. This was our only home after turning over the House, and here we gathered together, when possible, usually only on week ends, and kept up our Fraternal spirit. Regular meetings were impossible and the result was that our meetings were few and far between. Rushing was almost out of the question but we were not without success in this respect. The rooms were well situated in the business part of town, were well furnished and made a fine place for the fellows to go and forget military life. With the beginning of the second quarter, we moved back into our old House at 807 S. Third St., Champaign, where a great deal of hard work by every one soon put the House in the best condition it has been in for some time.

The university has ceased to teach several subjects, which were special war courses last quarter. The new quarter system, which it was deemed advisable to keep for the remainder of this year is now in force. The military training which was of so much importance last quarter lost all

its popularity, and now is only taught on the old R. O. T. C. plan.

At present the main attraction in the university is the subject of politics. Brother Rodney Spangler is working hard to clinch the election in the Junior class for our side, and Brother W. B. Russell is doing the same for the Sophomore class election. Brother Spangler is a member of the Ilio Staff, which publishes the school annual.

The Pan-Hellenic Council by which all Fraternities are regulated here is still holding to its rules and regulations with the usual accuracy. Several local Fraternities have been admitted to the Council recently. The general feeling of friendship between all Fraternities on the campus is to be commended. Inter-Fraternity basketball and bowling are being organized and Sigma Nu is expected to make a good showing this year from the prospects now.

Owing to the difficult conditions under which the Chapter was run last quarter, social functions were made impossible. The social spirit was not stamped out, on the contrary it was intensified. Besides the three dances planned by the Chapter there will be the Junior Prom, Sophomore Cotillion, and perhaps the military ball given this year. The first Chapter dance will be given February 14th, and the boys are all planning on letting loose "a lot of pep."

The Chapter now finds itself in excellent condition. The high scholastic average set last year is being maintained. Financially there are very few Fraternities on the campus who are in such good standing as Sigma Nu. The House is filled with a fine bunch of fellows. The Freshmen this year are exceptionally good, and with the right handling will make good Sigma Nus. The social standing is of the best, and the girl is very hard to find who does not want to come to Sigma Nu dances. The Chapter continues to conform to all its by-laws to the letter and many a Freshman and an occasional upper classman finds out how they can be enforced.

At present, due to the high prices of material, the prospect is not at all good for a new House, but this year great progress is going to be made and it is hoped, not without conviction that Gamma Mu will soon have a new Chapter House.

Brother Charles Thomas, Beta Beta, was our guest for a few days last week. He has recently been discharged from the aviation service, in which he was second lieutenant. Brother Frank Hager, on his way home from the East, spent a day with us not long ago. With things coming back to normal more of the "old men" are coming back to the university. Brother Ralph Reding, who was commissioned second lieutenant, Infantry, and having been discharged, entered school this quarter. Brother J. B. Mallers is also back with us

this quarter after resigning his commission in aviation, where he won the D. S. C.

Late last quarter H. J. Arter, Kewanee, Ill., was pledged and D. M. Eaton, Stockton, Ill., and L. E. Walker, Anna, Ill., were pledged the first of January.

A shadow was cast upon this Chapter last quarter when Pledge L. K. Bartholomew died of pneumonia following an attack of influenza. Pledge Bartholomew was a member of the S. A. T. C.

Rallying from the extreme conditions of last quarter, the Chapter has come back with the determination to make this year one of its greatest and has already made a good start with twenty-five men to help. Without a doubt a Fraternity has become essential in the life of a college man, and Sigma Nu with its ideals and standards cannot be surpassed as the ideal college Fraternity for the conscientious fellow who would get the most out of his college life. Strict rules and high ideals are the guiding hands for every man, especially Freshmen, and these are the foundations of the success of Sigma Nu.

RUSSELL LABIER, Reporter.

UNIVERSITY OF MICHIGAN

Gamma Nu Chapter

Once more we are back in the Chapter House and are getting things back to normal. The college year opened and found the university and the Chapter preparing for the S. A. T. C. It was necessary for us to give up the House but we at once took rooms on Church street and had a place for the fellows to go when they managed to get a few minutes off from drill and classes.

There were twelve men back at the beginning of the year but several left during the period of the S. A. T. C. Brother Hammer was sent to an O. T. C. at Camp McArthur, Texas and Brother Popp to the Field Artillery Officers' School at Camp Taylor.

The war struck its hardest blow to the Chapter in the death of Brother Diffenderfer. He was back at school and after suffering from the influenza, pneumonia set in and caused his death. The boys will all miss Dave and his wonderful jazz music, but the Fraternity will miss a man who would have helped to put Sigma Nu higher and higher in the eyes of all. Our second gold star represents another real sacrifice to the cause of Democracy.

Word has been received from Brothers, Chase Oren, Ganschow, Reisch, who are in France and from many of the others in this country and on the sea.

There are at present eight men back in the active Chapter but the second semester does not start until February 17th and we

are expecting quite a number of the fellows back at that time. The Chapter is on the lookout for good men and hopes for a good year. Bob Orel of Detroit was initiated about a month ago and Karl Bohr was just pledged.

A. G. PICKARD, Reporter.

MISSOURI SCHOOL OF MINES

Gamma Xi Chapter

We feel that a new era has come for Gamma Xi this year. Everything is so different from the past semester that it is hard to believe. Of our men who have been in the service, Brothers Crawford, Patterson, Stevens and Millar have returned. Everyone is in high spirits and prospects are fine.

Two new pledges have been obtained: H. S. Crawford, Los Angeles, Cal., and R. C. Shappler, Washington, D. C.

In college activities our men did not remain idle in spite of the general state of affairs during 1918. In football we have three letter men: Brothers Cairus, James Wilson, and T. C. Morris. Brother James Wilson is Sophomore treasurer and Brother C. A. Gettler is on the Rollamo Board. Two of our men are student assistants: Brother J. M. Morris in the Civil Engineering department, and Brother R. N. Stubbs in the English department.

Financially Gamma Xi is in very good condition and many improvements are being made about the House. Our present condition is largely due to the foresight and ability of our commander, Brother J. M. Morris. This is his last year in school and it is needless to say he will be very much missed. In social standing Gamma Xi is maintaining its usual high standard.

We try to impress upon our new men that every man must do his bit toward the general welfare of the Chapter whether it be in campus activities or duties about the House. We realize that our reputation about the school will be measured by our activities in and attitude toward college life as a whole, and we are trying to do the things which will keep our Chapter in the highest estimation of both Faculty and students.

JOSEPH M. WILSON, Reporter.

WASHINGTON UNIVERSITY

Gamma Omicron Chapter

With the return of normal conditions at Washington University, following the demobilization of the S. A. T. C., Gamma Omicron Chapter has started on what promises to be its banner year. Every man in the Chapter is imbued with the true Sigma Nu spirit, and as a whole it is considered

to be the strongest Chapter that Washington University has ever had.

All but two men returned after the holidays which makes a Chapter of twelve active members on the campus. There are also five Brothers at the Medical School, located at the Barnes Hospital. With these seventeen men taking an active part it looks like a great year for Gamma Omicron.

During the S. A. T. C. our rooms were patriotically turned over to the use of the government and men of the W. U. unit were housed therein. Immediately following their return to the Chapter plans were made to have them re-decorated and this has been completed. The furnishings, which were stored, were returned and the Freshmen spent one day in restoring the rooms to their normal condition. The first meeting of the year in the Chapter rooms was held on the night of January 7th. There were eleven men present and a large amount of business was transacted.

On Thursday evening, January 9th, a smoker and rush party was held in the Chapter rooms. It was a great evening and two men were pledged. The new pledges are Andy Hall Jr., of Mt. Vernon, Ill., and Herman H. Brandenburger, of St. Louis.

So far no regular meeting night has been decided upon, but this will be done as soon as there is an Inter-Fraternity meeting. Brothers F. J. Danglade and Walter Haase were elected as our Chapter representatives.

Brother Wingfield, of Baxter Springs, Ark., who did not return to school after the holidays is working in a bank at Webb City, Mo. Brother Eberle, who lives in St. Louis and who also failed to return, has accepted a position here in St. Louis.

The Chapter will have a basketball team this year under the captaincy of Brother Haase, who is a member of the varsity squad. While the personnel of the team has not been decided upon it will be composed of several star players, who made their mark on high school teams. With practice we hope to have the champion Fraternity of W. U., and it is toward this end that we are all working.

Brother Ed Barbour, a member of Rho Chapter, has entered Washington after being honorably discharged from the service. He is in the middle year law class.

We have two Brothers who are members of the W. U. Faculty. They are Brother Francis Thomas, Rho, professor in geology and Brother Orville Pierce, instructor in chemistry. At the Medical School we have Brother Montrose Burrows, Nu, who is the head of the Department of Pathology, and Brother Forrest Staley, Gamma Lambda, assistant in surgery.

Financially, this Chapter was never in better standing.

Andy Hall, one of the new pledges, has been elected president of the Freshman class.

FRED B. HULSE, Reporter.

UNIVERSITY OF WEST VIRGINIA

Gamma Pi Chapter

When the S. A. T. C. was demobilized it left the Chapter in a precarious condition. We had been compelled to give up our House lease with no assurance that we would be able to get it back, and only two old men were remaining in school. The others had been compelled to drop out until the second semester due to the fact that their military duties had so hindered their school work that they would have been unable to have made it up during the remainder of the semester.

We went to work immediately and got a new House lease and opened the House soon thereafter. We had eight pledges eligible for initiation and there we initiated as soon as school was resumed after the Christmas holidays. Two old men who had been discharged from the army entered school the first of the year, thus giving us twelve initiated men in the Chapter and three pledges.

In athletic circles we have had no chance to show up. When football season started Murphy and Dawson were candidates and both would probably have been on the varsity had not the S. A. T. C. compelled the university to abandon football. In basketball Brother Dawson is the only one who represents us on the quintet. Next semester Nefflen and Fretwell will re-enter school and are considered likely candidates. Lieutenant Rodgers has been discharged from the army and he too will re-enter school the second semester but will probably take no part in athletics until baseball season opens.

In student activities we have been doing our part. Brother Ralph Maxwell is business manager of the Athenaeum, our college paper, while Brother McDaniel is assistant manager. Brother Stewart is a likely candidate for managership of the basketball team. Brother Stewart was also recently pledged to Theta Psi, an honorary engineering Fraternity.

Our prospects for next semester are bright indeed. Many old men have expressed their intentions of returning to school and it looks as though Gamma Pi may again get back to its "before-the-war" basis and take its place as the strongest Chapter at West Virginia University.

MARK T. VALENTINE, Reporter.

UNIVERSITY OF CHICAGO

Gamma Rho Chapter

The past three months have, quite naturally, been extraordinary ones for the University of Chicago and for Gamma Rho Chapter.

The organizing of the local S. A. T. C. unit brought a great deal of confusion and individual restriction which combined to play havoc with our fraternal life. Since our Chapter House was the property of the university it was turned over to the government leaving us temporarily homeless. However, we rented a suite at the Hotel del Prado and opened up for business.

The S. A. T. C. brought within our scope twice the number of men usually enrolled in the university. This would have offered wondrous opportunities for increasing our membership, had it not been for two factors. Inasmuch as our temporary headquarters were several blocks away from the campus, to whose limits the S. A. T. C. men were forcibly restricted, it was difficult to have meetings and to rush prospects. Moreover, the allurements of free education had brought to the university many men who would not continue their college career after the war. Consequently, the most extreme care had to be exercised to avoid pledging and later initiating a man who would not come back. In spite of these difficulties, however, we succeeded in pledging twenty-one men, of whom fourteen have now been initiated.

During the S. A. T. C. regime there was little student activity. There were no debates, no class meetings, and very little athletics. There were a few football games, but since these were played by a 'varsity team composed entirely of Freshmen, they did not arouse a great deal of enthusiasm. In fact, college spirit was a difficult thing to arouse in such heterogeneous mass of student soldiers whose chief reasons for attending the university were to eventually get commissions in the regular army. All in all, it was a spiritless three months of college.

Now that the S. A. T. C. has been demobilized, prospects seem more favorable. College life is coming back to normal and the Fraternity will again play an important part. Although there are practically no new students present this quarter, our old men are coming back from the various camps and cantonments.

Brother Edward Palmer, who left the university last April to enlist in the Field Artillery, is back again with us. After serving at Fort Sill as a private for some months, he was sent to the Field Artillery Officers' Training Camp at Camp Taylor, Louisville, Ky. His road to a commission was suddenly blocked by the demobilization of the school after the cessation of hostilities.

ities. Brother Palmer has been discharged and has paid the Chapter several visits.

Two other almost-lieutenants whose commissions were snatched away by the signing of the armistice, were Brothers Don and Douglas Rose. They had been sent to the Infantry Officers' Training Camp at Camp McArthur, and had almost completed their course when they were discharged. "Doug" has again taken up his abode with us while Don is attending the University of Wisconsin.

Sigma Nu was well represented in the carefully selected detachment which was to be sent from the local S. A. T. C. unit to the O. T. C. at Camp Taylor. Out of thirty men picked from the entire regiment, six were of our Chapter. They were Sergeants Miller, Hullinger, Rudy and Rothert; Corporal Himelick and Private Alexander.

However, the signing of the armistice prevented these candidates from entering the training camp. All of these are again with us except Brother Hullinger, who has not yet sufficiently recovered from bronchial trouble contracted in the service, to permit his attending college.

Brother W. J. Matherly, assistant professor at the university, has been spending several weeks here. He was discharged from the Army in which he had served as first lieutenant and chaplain at Camp Taylor. He has accepted a position as head of the Department of Commerce and Business Administration at Georgetown College, Georgetown, Ky., and will leave for the place within the next few weeks. It is with keen regret that the Chapter sees him go, for we will miss his congenial presence and sage advice.

The Chapter is deeply indebted to a number of our Alumni for their welcome assistance during the trying three months just past. First and foremost in our estimation comes Brother George M. Cook, affectionately known as "Dad." He has been a constant and never failing source of help and inspiration. We have nothing but the truest appreciation and sincerest respect for "Dad." May he long continue to be our unfailing adviser and Brother.

Two other Alumni have paid us a number of visits, Brother Pegues has visited us several Sunday afternoons and Brother Roberts, our Inspector, made a visit in November.

Realizing the unfavorable location of our club rooms, we have just moved to new quarters in Hitchcock Hall, one of the university dormitories, where we will be centrally located on the campus. As yet we have no definite plans regarding a Chapter House, but intend to have one by the opening of the Fall Quarter, next October.

Meanwhile, we are doing our best under the present circumstances to make Sigma Nu's presence felt on the campus.

CARL W. ROTHERT, Reporter.

IOWA STATE COLLEGE

Gamma Sigma Chapter

The S. A. T. C. has come and gone, and 2166 Lincoln Way has ceased to be Barracks No. 5 and has again become the home of Gamma Sigma. The interior of the House has been redecorated, floors sanded and refinished, and several other minor repairs made since the S. A. T. C. was demobilized.

Brothers Wm. Verploeg, R. D. Henderson, Sterling Kleaveland, Moore, Budd, Anderson, Root, Whitemore, Donham, Kloppenburg, Mulvihill and Walpole returned to school at the beginning of the second quarter. Brothers Steward, Van Dyke, Warner and North expect to come back as soon as they are released from the service. Brothers Clay and Holmes are still in France, but intend to finish their school when they come back.

Although few Freshmen have entered school this quarter, and competition has been keen, we have succeeded in pledging seven good men in Russel Orr, East St. Louis, Ill; Aurthur Judge, Ames; Harold Richardson, Marshaltown; Hobson, Des Moines; Victor Beach, Ames; Harold Hintz and Cyril King, Oelwein. Pledges Ashley and Henderson did not return to school this quarter.

Considering the small number of men in the Chapter, we have been fairly well represented in athletics. Brother Donham held down the position of quarterback on the fotoball team until he left for O. T. C., at Camp Pike. Due to war conditions, Freshmen were allowed to play. Pledge Orr was one of the few Freshmen who made a regular berth on the 'varsity. Brothers Anderson and Walpole are on the basketball squad. Brother Moore is burning things up on the indoor track.

Brother Henry Eichling, who has been in the Faculty for several years, left last spring to take up county agent work. He certainly is missed by this Chapter. We have enjoyed several very pleasant visits from Brothers Frank and Julius Beach. Ensign Julius Beach has been stationed at Ames in command of the Naval unit here.

Financially our outlook is excellent. We start the year with a clean slate, and have enough men back to run the House and table. With every man doing his level best, and all pulling together, Gamma Sigma looks forward to a successful year.

H. S. ROOT, Reporter.

UNIVERSITY OF MINNESOTA

Gamma Tau Chapter

Our men are all out of the S. A. T. C. and all but three have returned to school. Several of our men have returned from camps of various sorts bringing our number of men up to a mark considered rather high during even normal times. We have twenty-five men back and eight pledges. We hope to increase the number of our pledges slightly in the near future. The men take exceptionally keen interest in the work, and it seems mighty fine to see such enthusiasm displayed after the dormant period which we just passed through.

At present we have no House to live in, owing to the fact that we leased our "House" to the university last Fall for use as a dormitory. We will be unable to get our place back until next October, so we are looking for some kind of a house that is for rent. It seems rather difficult to find any kind of place that is suitable for such use. The way indications point at present we are outgrowing our House. We could fill it easily with the men we have in school right now. The question presents itself, "What are we going to do for room when our old men return next Fall and more new men affiliate?" We intend to take up this matter very shortly with our Alumni and decide upon some course.

Our men in France have written us at intervals and kept us posted on the various happenings. In the last letter from Brother Sam Feeney, we were told of a Sigma Nu banquet at Tours. This goes to show that "our boys" get together at every possible opportunity and keep the spirit going.

We had an initiation in December and admitted seven men, namely: Harry Armstrong, Harold Reinecke, John Kelley, Hale Clements, Tom Feeney, John Feeney and Harold Lund. Two of these men did not return to school because of sickness in one case, and the other Brother was transferred to Mare Island with the Marines.

Fraternities at Minnesota are beginning to get back to their pre-war basis. Inter-Fraternity basketball is to be revived within the next week. Last year we were in the finals but lost. We have a promising team again this year, and expect to put up a good fight for the title.

Before closing, I think it is only proper to laud the Alumni who helped us weather the storm. Brother Babcock, who has done more than his share of the work is still more than ready with advice and help to keep the ball rolling.

WILLARD BALLENBACH,
Reporter.

UNIVERSITY OF ARKANSAS

Gamma Upsilon Chapter

The old order of things at the university was seriously set back this year. On account of the S. A. T. C. and the circumstances attending army discipline, former customs in student life were done away with almost entirely, resulting in a catch-as-catch-can scheme, to the surprise and bewilderment of the old men who did not return early enough to anticipate the coming conditions. All former rushing rules were abolished and pledging had practically ceased by the time it was usually expected to be in full sway.

Sigma Nu, through the whole wild fight, was successful in realizing twenty-five pledges, men of exceptional merit and standard. We lost some, however, but with who we can hardly be said to have had a fair chance.

Everyone seems to feel that the S. A. T. C. has materially benefited the university, by bringing a large number of young men who would not have attended school under normal conditions. Many did not return after the holidays, but have expressed their intention of returning next year. Sigma Nu realized only nine of her pledges, for the whole year, but everyone has vowed his utmost to be able to be with us early next Fall.

In football, the only student activity which has materialized yet, Sigma Nu afforded its captain, E. C. Paul Gold, and three members for the 'varsity team, Brothers Hal and Elmore Alcorn, and Joe Hardin.

In the coming activities, the glee club, the black friars, debating, baseball, and wrestling, we shall be well represented.

According to reports, the University of Arkansas, in proportion to its enrollment, furnished more commissioned officers than did any other college or university in the United States. Sigma Nu sent almost all of her Alumni as well as active members into service as commissioned officers. Many are still in the field and abroad.

We have been very glad to have Brothers I. D. Lighton and Leroy Palmer, lieutenants in aviation, visit us. Lieutenant Chas. Coleman, of the Infantry, is back again with us in school.

It has been impossible to furnish a complete list of the Knights of the Republic, but we shall endeavor to send it in for the next edition.

BLAN MAXWELL, Reporter.

UNIVERSITY OF MONTANA

Gamma Phi Chapter

On account of the S. A. T. C. and the flu college did not open until the first of

January. However, things are going in good shape now. The Department of Science has a new building which is a great improvement over the old.

None of the Fraternities had a House until college opened this winter. At present the three nationals, Sigma Nu, Sigma Phi Epsilon, and Sigma Chi are all in Houses, and two of the locals, A. D. A. and Delta Rho have moved in. The other local, Iota Nu, is not running a House. The Sigma Chis are the only ones that are running a table just now. All of the other Fraternity men eat at the men's dormitory.

There have been no social events on account of the influenza quarantine. However, as soon as the ban is lifted everyone is looking forward to "big doin's."

Brothers Cook and Mooney were the only men we had in the S. A. T. C. here. They pledged Thomas G. Swearington and Eugene Free. When college opened Brothers Hirst, Wilson and myself came back. We pledged John R. Toole, Frank Weigle, Harvey Watson and Phil Angland.

Brother Cook was elected treasurer of the Senior class, Brother Wilson is president of the Junior class, and Brother Hirst is president of the Forestry Club.

We cannot give too much credit to our Alumni, and especially Brother John Lucy, our Chapter Advisor. They stood behind the active Chapter during the most trying times, and were always more than willing to help us in any way possible.

Gamma Phi has a splendid war record. We regret more than we can say the deaths of Brothers Cook, Haubensack, Simkins and Woodward. But we feel that we may well be proud that they proved themselves to be true Knights of the Republic.

BRICE TOOLE, Reporter.

The Gamma Phi Chapter is again on its feet. The fellows are in a new Home and have furnished same with all new furniture. A number of the older men are back and they have a number pledged. A new set of officers have been chosen, and the Grand Chapter will hear from them very soon if they have not already.

JOHN J. LUCY,
Chapter Adviser.

UNIVERSITY OF WASHINGTON

Gamma Chi Chapter

On account of the activities of the S. A. T. C. last quarter, Fraternity activities were practically suspended. However, we succeeded in pledging six good men who are up to the standard of Sigma Nu.

Owing to the existing conditions, the "flu ban," and the fact that only half of the members of the S. A. T. C. were given liberty at a time, it was practically impos-

sible to hold any meetings. Now that the S. A. T. C. has been demobilized, our men coming back to school, find Gamma Chi once again on deck, and getting back to normal conditions.

The barracks constructed on the campus for the S. A. T. C. are still standing and are being used as dormitories for independent men. Otherwise, the campus is in normal shape. Two new buildings have recently been constructed on the campus, namely, Commerce Hall and Economics Hall. They are both of the latest type of architecture and are modern in every respect.

Several Faculty members who have been in the service returned this quarter, thus adding greatly to our staff of instructors. Gamma Chi boasts of having four members on the Faculty: Brother Edmond S. Meany, head of the Department of History; Brother W. R. Russel, head of the Advertising Department; Brother P. H. Mudge, of the Engineering School, and Claude J. Hunt, head of the Athletic Department.

Among the changes in the courses of study is the change of the Commerce School to the College of Business Administration. The courses offered in Business Administration have met with approval, and instant favor among the students, and it is destined to have a great future.

The former members of Gamma Chi who have returned to school are: Brothers John M. Allen, William T. Foran, Felix Cline, Silas F. Matthies, Wilfred Bordeaux, Alan Macfarlane, Milton Daly, Maxwell Howe, Robert Allen and Harold McMorris. The pledges that we have in school are: Charles M. Condon, Hanford Wn., Lloyd T. Baird, Seattle; Stephen Haynes, Seattle; Eric Aldrich, Walla Walla; Myron Black, Spokane, Wash.; John Sullivan, Seattle, and Harry Martin, of Aberdeen, Wash.

Brother Wm. Foran was recently elected president of the Inter-Fraternity Council. Brother Allen, second lieutenant, F. A., U. S. A., is chief in command of the R. O. T. C. under Major Ershaw.

Brothers Alan Macfarlane and Maxwell Howe have been pledged to Tyes Tyon, Sophomore Honorary Fraternity

Notable of the returning Brothers is that of Harold "Mike" Foran, from France, where he spent eighteen months with the Eighteenth Engineers. Brother Foran having enlisted as a private, recently won his commission while on active duty "Over There."

As yet no Fraternities have held any social functions. However, Gamma Chi is planning a big formal to take place in the near future.

Our House was leased to the university, at the beginning of the S. A. T. C., for a women's dormitory and is now occupied as such. We are living at present farther off the campus than before and in a much smaller House. We are looking forward with anticipation to next Fall when we will be back in our own House.

The boys are hitting the books good and hard, and Gamma Chi expects to be at the top of the scholarship list at the end of this quarter.

ROBERT L. ALLEN, Reporter.

SYRACUSE UNIVERSITY

Gamma Psi Chapter

The Joseph Slocum College of Agriculture has been completed, and is considered one of the finest buildings on the "hill." It contains two large assembly rooms, laboratories, farm implement, machinery experiment rooms and the like.

The university has determined, beginning next fall, to institute in connection with the academic course (A. B.), a course of finance, insurance, bookkeeping, stocks and bonds, banking, business and commercial law. This will make the college curriculum, of some value to the man preparing himself for business.

Syracuse has been remarkably fortunate in athletics this year; our football team lost only one game, that being to Michigan. The Michigan game, which was played at Ann Arbor, was, in spite of the fact that we lost, one of the best games to watch, of any game we played except possibly the Rutgers game.

Inter-Fraternity conditions have been all that could be expected. Early last Fall the Inter-Fraternity Conference decided that none of the Chapters at Syracuse should be active until conditions should become more nearly normal. It was a gentlemen's agreement, and was kept as such, except for Sigma Phi Epsilon there was no question but that each Chapter kept closely to the agreement. That Fraternity was asked to explain one or two incidents in regard to pledging men. This, however, was satisfactorily explained, though I think it worthy of mention here.

Brother Renn was a member of the Freshman baseball team last year, and Pledge Rainbow made all the trips with the football team. He showed up well in every game. Brother Emerson and Pledge Moss are out for the Dramatic Club, "Boar's Head," and both of them stand a mighty good chance of making prominent roles, particularly Emerson, who was the leading student in election last year. Brother Thompson was assistant trainer to the football team, and made all the trips with

them. Brother Fivaz has been elected secretary of the Rifle Club.

Gamma Psi is certainly glad to be back in its House, where we are safe from bugles, guard duty, "K. P.", etc., but "that's all shoved behind us long ago, and far away." We have proceeded to forget, as earnestly as we started to learn the ways of the Army and Navy. We are back, not in the old life, but in a normal one, and we are in the game, for Syracuse and Sigma Nu.

LESLIE M. THOMPSON,
Reporter.

CASE SCHOOL OF APPLIED SCIENCE

Delta Alpha Chapter

The S. A. T. C. unit at this school was disbanded an the twenty-first of December, 1918, and since that time Delta Alpha has been resuming in the fullest extent all of her activities, both at the House and in school.

The annual pledge dance, long delayed, was held in conjunction with Delta Zeta Chapter on January 22, 1919.

On account of the unsuccessful regime of the school during the S. A. T. C., several Brothers have been forced to sever connections with the school. We have, as active men this year, Brothers Cryan, Esterly, Hamlin, Meyers, McCullough, Wallace and Knowlton. Brother Brooker enlisted in the naval aviation and Brother Anderson has been doing Government work in Washington. Brothers Vanderhoof, Kehres, Carlson and Graeff were forced in discontinue studies, the latter being in Officers' Training Camp at Camp Taylor, Ky. Brother Crane is in Officers' Training Camp at Fortress Monroe, Va.

Though handicapped to a very great extent in rushing, we take great pleasure in introducing as some of the best material in school, the following pledges: John J. Allen, Raymond J. Neal, Edward E. Evans, Roder Bell, all of Cleveland, and Edward R. Torgler of New Philadelphia. Brother Hamlin was initiated in January. Brothers Esterly and Graeff were affiliated from Beta Iota in September.

Delta Alpha is well represented this year in school activities. Brothers Cryan is leader of the glee club as well as being on the "Tech" staff. Brothers Hamlin and Meyers are likewise on the paper staff. Brother Esterly and Pledges Evans and Bell are in the glee club. Brother McCullough is a member of the school band. Pledge Neale is trying out for Freshman basketball and Pledge Torgler has a good chance of making the paper staff. Brother Knowlton is out for 'varsity basketball.

Prospects for the year are much better than at the same time a year ago.

JOHN N. McCULLOUGH,
Reporter.

DARTMOUTH COLLEGE

Delta Beta Chapter

The military control of the college during the reign of the S. A. T. C. restricted all fraternal activities here at Dartmouth. The Fraternity Houses were closed until the armistice was signed; after November 11th they were open on Sunday afternoons and evenings. This arrangement appeared at first to be a set-back, but, happily it has been a boost for our Fraternal life and spirit.

The loss of men crippled the administration of the college and handicapped the work of the Chapter. The New Year, however, brought about a decided change. Men who had been prominent in war activities returned and took up their work in college.

Before the closing of all Fraternities we had initiated C. E. Hart, Boston, Mass.; J. R. Mahoney, Westfield, Mass.; R. R. Ramsbach, Brighton, Mass.; H. F. O'Malley, Worcester, Mass.; S. H. Tredenick, Roslindale, Mass. Since the reopening of the Chapter, we have pledged the following men: S. L. Chevalier, Naugatuck, Conn.; E. Ansin, Brighton, Mass.; J. R. Chadwick, Tuscola, Ill. The rushing season is still on and we have several prospects in view.

Brother Bedford pledged at this Chapter and initiated at Delta Gamma, has returned to Dartmouth and hopes to be affiliated soon.

The Chapter opened in September with eleven active members. Before the S. A. T. C. two of them were called into service. The opening of the college for the second term on January 2 brought about the return of several members, notably: Brother Wetherby, golf champion of the college, and Brother Wilkinson, president of the Dartmouth Outing Club. Others who returned were: Brothers, E. T. Palmer, A. S. Palmer, Morrell, Hodgkins and Nelson.

The outlook of the Chapter for the remainder of the year is very bright. Our finances have been carefully examined by a finance committee and very satisfactory conclusions reached. The Chapter is planning a House Party during the Winter Carnival and social events have been planned for the rest of the year.

Brother Pearly, '12, Brother Jewett, '13, and Brother Ross, '14, visited us on Dartmouth Night. We are always glad to have the Alumni come back and we hope to meet more of them before June.

O. L. HODGKINS, Reporter.

COLUMBIA UNIVERSITY

Delta Gamma Chapter

Yesterday, in St. Paul's Chapel, the Alumni of Columbia University presented

a service flag with one hundred and twenty-eight gold stars to the university. Five of those stars are in honor of Sigma Nus—Brothers Howard Leonard, Jeff Healy, Johnnie McCormick, Tommie Hegarty and Ches Peterson. Nothing that we can say or do here can add their glory.

The army docs finds more things the matter with Brother Willie Spalthoff than it was previously thought a well man could have and live. But the Madame sure came through and did his bit. Last fall Delta Gamma Chapter was financially up against it. The only reason we still have the House is because he supplied some real Sigma Nu spirit together with some real cash out of his own roll. He succeeded in renting the House to the Y. M. C. A., retaining the dining room in the basement for his own use and the use of any other Sigs who happened around. The House has been completed renovated and is in the best shape in the history of the Chapter. Willie supplied the brains, the energy and the cash. No one can appreciate either, the energy required to be a successful janitor for a lot of women canteen workers. We take this opportunity of expressing Delta Gamma's everlasting indebtedness to Brother Spalthoff.

The S. A. T. C. so disrupted the regular work of the university that it is hard to give any long record of academic or athletic effort. Charlie Shaw, who won the intercollegiate half mile championship last spring, and Jim Houlihan were very prominent members of the football team; Norm Sibley was on the squad. Frank Kiendl is sure of a position on the basketball team while Louie Salmon has declared himself a glutton for punishment and gone out for water polo. Ed Healy has been commissioned a second lieutenant of Infantry, but will return to college in February. He is president of the Junior class. It is impossible to make any statement of scholastic standing or achievement due to the military nature of the work carried on at the university.

We expect to have our House back the middle of February and the Chapter will make every effort to return to normal conditions. Rushing has started and we have been successful in pledging some new men. We initiated Brother Lloyd Warren, of Portsmouth, Va., during the quarter just ended. Brother Warren is a student at William and Mary College, and a member of a petitioning local at that institution. If they are all like Brother Warren we say bring 'em on.

Delta Gamma expects about a dozen men back to start the new term. In this respect we are better fixed than most any other crowd on the campus. Also we will have our House. Several of the other Fraternities lost everything. Our great difficulty is that the returning Brothers are comparatively young, and have had no experience

in the way to run a Fraternity Chapter. We are going to supply this deficit with "pep" however.

Unfortunately Delta Gamma has kept no record of visiting Brothers—it certainly would prove interesting as the day is rare that does not bring at least one visitor. Some that come to mind are Brothers Johnson, Logan, Byington, Little, Peek, Neale, Rambeau, Dorsey and Heiser. We sure were glad to see them.

Delta Gamma wishes to express its sorrow at the death of Brother Nulsen of Beta Zeta. Brother Nulsen was very prominent in the New York Alumni Chapter and was one of our best friends. He can not be replaced.

THE REPORTER, Pro tem.

PENNSYLVANIA STATE COLLEGE

Delta Delta Chapter

Penn State seems to have passed through more than her share of trials and tribulations since our return to college last September, but Delta Delta has weathered the storm and matters are gradually being rounded into their former shape. To begin with, the S. A. T. C. turned the old college life into an entirely new channel. The rough spots were just being smoothed out and matters were beginning to run in the right way when the armistice was signed and all that we had worked so hard to perfect had to be unraveled. To cap the climax, the main unit of our group of engineering buildings was destroyed by fire late in November and college had to be closed for ten days. But, for all of that, this Chapter has come through the battle safely and still maintains her position among the leaders here.

Fraternities in most colleges have greatly felt the blow dealt them by the war, but the Chapters here seem to have fared a little better than elsewhere. A majority of the Chapters here have been able to retain their Houses and, although existing under hardships, have managed to preserve organizations. Sigma Nu has been especially fortunate in this way. At present there are twenty-six men living in the House and just as soon as the college returns to a normal basis, one will not be able to recognize a difference between present conditions and those of a few years ago. We expect several of the Brothers who have been in the service to return shortly.

Already Sigma Nu is coming to the foreground in student activities. Brother Sullivan is editor of the Penn State Collegian, the official college newspaper, a member of the student council, and just recently was elected vice-president of the athletic association. Brother Cupit is captain of the soccer team, a member of the student council, secretary of the athletic association, and a new member of Lion's Paw, an hon-

orary campus Fraternity. Brother Hart is basketball manager and Brother Hecht is first assistant track manager. Brother Kell is an associate editor of LaVie. Brother Ely is managing the Sophomore wrestlers while Brother Roeder was a tackle on the yearling eleven. Most of the Freshmen are getting out into some phase of college life. We are striving hard to retain the position this Chapter has always held in activities.

The usual House party, held in November, was just as big a success as ever. At present we are making plans for another one in February. We have had one House dance and the second one is to be the latter part of this month. Just before the Christmas holidays, a banquet was tendered the new initiates and a new idea of Sigma Nu was instilled in them.

Delta Delta is in good financial condition, plans having been started for our new House which we hope to be living in two years from now. We have instituted a note system whereby each Alumnus and each Brother as he graduates will subscribe for one hundred dollars' worth of these notes, payable in ten years. So that before so very long our hopes for a home of our own will be turned into a reality.

During the war we had adopted the idea of an Alumnus treasurer, but since matters have quieted down and we are sure of a firm organization right here in our House, we have gone back to the old system of having one of the Brothers as treasurer. Brother Grundhoeffer certainly deserves credit for the way that he came to our aid as Alumnus treasurer.

Since the last publication of The Delta, we have Pledge J. Russel Fry and James B. Sayers of Waynesburg, and Kenneth Baily, of Carmichaels; Walter C. Sigworth and C. Gilbert Killmer, of Tronesta, have been initiated.

Taken as a whole, this Chapter could scarcely hope to be in better condition, no matter in what light it is considered.

JOHN F. KELL, Reporter.

UNIVERSITY OF OKLAHOMA

Delta Epsilon Chapter

To the soldier student who has just returned from the trenches in France or the battles of some training camp Over Here, the campus presents a much changed appearance. With the auditorium completed, the geology and library buildings nearing completion and the new hospital for the medical school at Oklahoma City almost ready for use, Oklahoma University greets and welcomes the return of the men who quit school to aid in winning the war.

The erection of a combined armory and gymnasium costing \$65,000 started last fall

and suspended when the S. A. T. C. was demobilized, has been resumed. When completed it will be used by the R. O. T. C. which the War Department will establish here at an early date, due to the good record made by the S. A. T. C. unit here. Oklahoma ranked with one of the highest five of all colleges west of the Mississippi, having S. A. T. C. units.

With the demobilization of the S. A. T. C. December 21, the courses of study, school life and all that goes to make up college spirit, quickly returned to the normal basis of old.

The opening of the second quarter January 1 found Delta Epsilon again in our home. After the evacuation of the S. A. T. C. men who had used our House as barracks, many repairs and improvements had to be made. A new heating system has been installed, walls painted, and furniture purchased.

Lieutenants Doue Morris and Joe Curtis have enrolled in school, being discharged as their services were no longer needed by the government. We were glad to welcome Brothers Oles Clouse and Cy Russell who visited us last week. Brother Clouse who was a lieutenant in the aviation has just returned from overseas. Brother Russell wore the insignia of a lieutenant in the bombing section.

We take pleasure in introducing Brothers Whitman Tentem, Paul Fahrney, A. D. Miles and Leland Booth, who have been initiated. Since the last issue of the Delta.

Delta Epsilon announces the pledging of William Cox, of Carmen. Pledge Cox is a Sophomore and played on the basketball and base ball team of the Freshmen class last year. He is playing forward on the varsity basketball team this season. Brother Young and Pledge Cox have been honored by being pledged by the Sophomore Class Honorary Society, Mystic Keys.

Oklahoma is assured of a good basketball team, four of last year's men are back and many of the Freshmen team of last year's, will add strength to the team.

Many of last year's track team which won first honors in the Southwestern Conference, are back in school. Brothers Staggs, Miller and Vahlburg are among the veterans. These three Brothers, in addition to being in other events, had the honor of being three-fourths of the relay team.

Every man in the Chapter, glad to be free from the duties of winning the war is a worker for Sigma Nu, and are striving to place the banner of Sigma Nu, which has always held an inevitable position, on a still higher plane.

JOE W. CURTIS, Reporter.

WESTERN RESERVE UNIVERSITY

Delta Zeta Chapter

With a crash and a bang, Reserve is rapidly coming into her own, after the strenuous and unproductive career of the S. A. T. C. The student body is burying the fond (?) memories with no wreaths and with an empty mourner's bench.

Working on the liberal extension program, mapped out in the hazy past, the university has just finished work on a fine new gymnasium. The building is an imposing structure of stone and brick. Work will be started early in February on a new building and hospital for the Medical School. The buildings will be on the campus and the estimated cost is well over a million dollars.

The Fraternities are all back in their Houses. Delta Zeta, incidentally, was one of the three Fraternities who kept their Houses open during the S. A. T. C.

In all college activities Delta Zeta has more than held her accustomed place. Brother Howard Searl was captain of this year's championship football team. Although he was called to training camp before the end of the season, he showed his sterling worth in all the games in which he participated. In the Reserve-Cleveland Naval Training Station game Reserve held the gobs to a 20-7 score. It will be remembered that the gobs won from the invincible Pitt crew several weeks later. Pledge Burri was a regular on the varsity. In view of the fact that he has three years more football, great things are expected of him.

Brother Krock is assistant baseball manager, and Brothers Wagner and Warnes are shining on the musical clubs.

On December 21, Delta Zeta held a very successful Christmas dance at the Woman's Club.

The annual Pledge Dance will be held on January 22 in conjunction with Delta Alpha. A large number of Alumni have signified their intention of attending and a record turnout is expected. The active Chapters in Cleveland expect to entertain the Alumni Chapter at a smoker some time in February.

The scholarship report of last semester gave Sigma Nu second place among the twelve Adelbert Fraternities. Everyone is hoping for first position this semester. Owing to the fact that the House was kept in operation during the early months of the term, the surplus in the treasury has been almost nil. Thanks to the efforts of Brother Don Rolli who collects the shekels, things are now on the rise once more.

Delta Zeta, on account of its situation in Cleveland, has the pleasure of entertaining Alumni very regularly. The Alumni

Chapter, at the last meeting voted to hold their business meetings at the Chapter House in the future.

Brother Joyce Hartman has been initiated in Nu Sigma Nu.

The Chapter mourns the death of Brother Willis Sanford who died several weeks ago of the "flu". His death was sudden, and came as a distinct shock. Brother Sanford, although out of school for several years, never lost his interest in fraternal doings, and could always be counted on at every function.

The future looks rosy indeed. Brother Suhr has arrived home from France, and Brothers Dale Hartman, Henry and Schofield are expected back next semester. The Chapter owes many thanks to Miss Anna Bauer, our matron. She has stuck to the Chapter through thick and thin.

JOHN L. SHISSLER, Reporter.

All that Mort Shea wrote in the Chapter letter is true to the letter. True, 'tis, hard to believe, but such is such.

The number of pledges grows weekly. It has been the most successful rushing season I have ever seen. I append a list:

William Kramer, Lakewood; Walter Funk, Trenton, O.; Alfred Burri, New Philadelphia, O.; Clyde Hartman (no relation to the original tribe) New Philadelphia; Jessie Hartman (brothers of the far-famed Dale and Joyce) Marion, O.; Wallace Harrison, Marion, O.; Joseph Boyd, Marion, O.; D. Wold, Bellevue, O.; Merritt Tompkins, Cleveland; Macedonia Stevenson, residence unknown at present writing; Ray Warnes, (brother of the illustrious Claudius) Ashland, O.; Hanford A. Garber, West Salem, O.; Howard Sample, Sharon, Pa.; P. A. Shaw, residence unknown at present writing.

So far as I am able to commit myself, these men are all free born, have no oriental or ornamental blood, and somewhat incline to be good looking. Some of them are "good" because they have, after great persuasion on our part, admitted it. That is about as complete a record as I can give you. These Freshmen are all in S. A. T. C and consequently I do not get to see very much of them.

The S. A. T. C. has been abandoned. Outlook for Delta Zeta is bright.

The Alumni had a party at House last night. Wives and sweethearts (respectively) present. Rumor has it that Doc Altan is about to join the Benedicts, as the local reporter might say.

DALL GLAUNER.

UNIVERSITY OF NEBRASKA

Delta Eta Chapter

With the disbanding of the S. A. T. C. at Nebraska University, affairs about school are beginning gradually to assume normal conditions. The campus has been graced in the last year with four new modern buildings.

These buildings are being erected outside of the old campus but will be included in the new campus which will be four blocks square. This project will probably be completed within the next two years. The new buildings are Bessey hall, Chemistry hall, Social Science building and the Teacher's College building. Two of these are already in use and the others will be occupied some time this Spring.

The Cornhuskers last fall finished a rather broken up football season with fairly good results. Nebraska was one of the candidates in the race for the Missouri Valley championship which was not decided this year on account of extraordinary conditions.

Nebraska started out their basketball season in fine condition and annexed a large number of victories.

The first question that came before the girl's Pan-Hellenic after school had returned to normal was that of formal parties which had been up as a war conservation measure. Sororities decided in favor of the formal affairs on a limited expense basis.

Fraternities took up the same matter and decided favorably. The regular class dances are also being given as formal affairs.

With about fifteen or twenty of our men returning to school second semester this year, efforts in the line of school activities of the few who completed their courses first semester were greatly augmented. Many of the Freshmen are picking their particular line of activities.

Brother Wade Munn, winning his first letter in football this year, was given an enviable place on the Missouri Valley honor roll by the sporting editor of the Kansas City Star, who is considered an authority on the gridiron sport. Brother Monte Munn, a Freshman in the university, was allowed to play on the varsity team this year owing to peculiar circumstances caused by the S. A. T. C. He was also placed at the pivot position on the M. V. honor roll, which supplanted the Valley All-Star teams this year. The "Big Boy" had the pleasure of being in every minute of play throughout the season.

Brothers William Mackey and Wade Munn were recently initiated into the "N" club, an organization for the furthering of school athletics.

We were unable to stage any social affairs the first semester of the year because most of the men were in the service and did not return until the beginning of the second semester.

We are now planning for a formal party and our annual pig dinner. Besides these, we expect to give a House dance at least once a month.

The scholarship of the Chapter showed a marked improvement during the year of 1917-18. We stood second among fourteen national Greeks. The report for the second semester is now being prepared and the Sigs at Nebraska are hoping for the best.

The finances of the Chapters are in excellent condition considering the unsettled school conditions this year. The cost per man for living at the House this year is

very little more than it has been previously.

We find that the best results are obtained by having the steward, elected from among the active members have direct control of the House servants.

At present, we are looking for a new Chapter House for next year. The lease on our present House will run out the end of this semester. We may have to rent another house, although plans have been started toward building or buying a house.

Brother William Randall, formerly Chapter adviser and new Inspector, visited one of our meetings in January and made several good suggestions regarding work for the purpose of creating interest among our Alumni.

Captain Leslie G. Drake, a Brother from West Virginia, was stationed at Nebraska University early in November as commandant of the S. A. T. C. unit. Lieutenants Edward Cassidy, of Iowa, and Maximillian Sporer, of Trinity College, both loyal Sigs were stationed here as commanders. Brother Drake was appointed temporary commandant of the R. O. T. C. when it was organized.

Delta Eta probably more than any other Chapter of Sigma Nu has an opportunity to see the advantages of Fraternity life to men themselves. We oftentimes have for our rushing material men from small towns and rural districts. It is amazing to note the change in men and their idea after a year or more of living at the Chapter House. The men learn to be more particular about their appearance. They are taught to mix with other men. In fact the life is one of the greatest trainings that a business man or one out in the world not matter what his profession is, can obtain.

JACK LANDALE, Reporter.

LOMBARD COLLEGE

Delta Theta Chapter

Delta Theta has re-opened her House following the demobilization of the S. A. T. C. and is glad to report everything running in good order. At the opening of the S. A. T. C. last fall Sigma Nu at Lombard was running full blast with six old men back and fourteen Freshmen. In accordance with requests from the General Office, we at once offered our House to the college to use as they saw fit in any way connected with government work. Being off the campus it was not needed except for temporary barracks, hence we rented it to Professor Hanson, instructor in mathematics.

We were very fortunate in having for our instructor in small arms Lieutenant Sidney L. Price of Iota Chapter. Brother Price attended several of our meetings, and, while he was unable to associate with us a great deal because of military regulations, we came to know him well as a real Brother and a real man and it is with deep regret that we see him leave Lombard. We now hope that he may sometime return not as a lieutenant but as one of us.

We found it quite hard to continue our Fraternity activities following induction into the S. A. T. C. as we had no place for meetings or other Fraternity functions. We were able, however, to meet and initiate Neophytes William Hines, of Galesburg; Scott Nowers, of Atkinson; Donavan Haney, of Table Grove, and Earl Culp and Donald Nance, of Kewanee.

The semester exams were given this year before Christmas vacation. The second semester does not begin until January 21. Consequently some of the fellows are taking advantage of the situation and not all have returned as yet. At present we have twelve men living in the House and are figuring on eighteen or twenty for next semester. With these men for a nucleus we should soon get adjusted and get in a good semester's work both socially and scholastically. On January 1 we gave a stag dinner party in commemoration of the fiftieth anniversary of Sigma Nu. Notice of this occasion appears in another part of this edition.

Brother Arthur Stokes has returned from Pelham Park where he was in the ensign school, and he, Brothers Bates and Culp, and Neophyte Carlson, are trying for positions on the basketball squad. Brother Earl Fronk, now in overseas service, was elected manager of this year's squad, but not being here it will be necessary to fill his place by another of our men. Brother Stokes will probably be substituted. Since demobilization the Dramatic Club has been revived and Brothers G. Stephenson, R. Anderson, and Bates have made the club.

Notable in affairs among the Faculty are Brothers Mottram, Stephenson, and Gra-

ham, who are assisting in mathematics and the latter two in chemistry. We are unable to give any scholastic report at this time as everyone's schedule was more or less mixed up and changes made from time to time in accordance with government regulations.

We were very much pleased last week-end by visits from Brothers Anderson and Stokes who have been in the navy and Brother Stuart Stephenson who recently received his commission as second lieutenant at Camp Taylor; also Brother Peden who has been in the S. A. T. C. at Illinois University. All these men have received their discharges and it is with pleasure that we look forward to more visits from them and other brothers.

Delta Theta has stood the test and we all feel as though we have come through this great struggle in which all the world stood on the brink of destruction more fit to fight the everyday battles of life; our honor roll shows forty-nine Brothers and nine pledges in different branches of the service. One of our dear ones has made the supreme sacrifice and, that it should be Brother Rosequist instead of one of us, is a fact we all lament, for he was a man among men and had a glorious future. But whether we made the greatest sacrifice man can make for his fellowmen or not, we are all glad we had the chance to serve our country and our Fraternity.

HAROLD S. BATES, Reporter.

WASHINGTON STATE COLLEGE

Delta Iota Chapter

Delinquent.

DELAWARE COLLEGE

Delta Kappa Chapter

Now that the S. A. T. C. has ceased to be and college and Fraternity activities have resumed their normal forms, the "Sigs" at Delaware College stand pre-eminent in all activities of the student body.

In basketball we have "Hen" Marston, captain; "Alec" Alexander, and "Garry" Cantwell, manager; in baseball "Gudge" McCardell, captain; and "Alf" Mackie, manager; in track "Specs" Craig, captain, and "Lash" Ewing, manager. In the literary department of the college we are represented by Brothers J. G. McMillan and J. G. Craig, editor and assistant editor respectively of the college "Review". These two Brothers are also members of the Student Council, the former being president of the organization, and the latter, together with Brothers Cantwell and Marston, representative from the Senior class. Our standing in college activities as has been enumerated is of the highest calibre, which reputation Delta Kappa has always endeavored to hold.

On the evening of January 10 the Chapter held its Eighth Annual Dance. The dance was unanimously acclaimed by the guests to be the most elaborate and successful affair ever given at "Old Delaware." The dance turned out primarily to be a reception in honor of the brothers who had just returned to college after serving their time with "Uncle Sam." Among those who returned are Lieutenant H. W. Marston, Lieutenant E. E. Ewing, Lieutenant J. A. Mackie, and J. G. McMillan. The dance broke up at 2:30 a. m., and without exception everyone had the same remark—Wonderful Dance!

A word of praise to Lieutenant Carr Payne, who was stationed at Delaware College during the S. A. T. C., will always be gratefully spoken, for he is a "true blue" Sig, and rendered much assistance to the Brothers of the Chapter during his stay here. The Brothers all wish to thank him for his thoughtfulness and extend a hearty invitation to him to visit them in the near future.

Now that the sun once more has begun to shine through the clouds on the college, this Chapter with thirty-five active young Brothers and a strong foothold on offices in college promises to make a record for itself which will make the college and Sigma Nu Fraternity feel proud of Delta Kappa Chapter.

WM. A. HEMPHILL, Reporter.

BROWN UNIVERSITY

Delta Lambda Chapter

For several months Delta Lambda has been a dormant state, owing to the chaotic conditions that have prevailed in the university. But with the signing of the armistice and the completion of three months of army and naval training, once again we are able to continue our usual college activities. We are very proud to be the Fraternity that has the largest number of men back on the campus. At present, we have twenty men in the active Chapter.

We have given up our House on Waterman street, and have settled down in Caswell Hall, one of the best dormitories at Brown. We occupy the whole top floor, and one suite on the ground floor in the northern section of the hall. For a Chapter room a large basement room which serves our purposes excellently. At this writing, the "open season" for Freshmen is on, and we are busily occupied instilling Sigma Nuism into their systems. Our prospects are good.

HAROLD A. CAMPBELL,
Treasurer.

Now that Bill Hohenzollern has finally come to the conclusion that he cannot dominate the whole world, and has left France for a tour of Holland, Fraternity aspects at Brown begin to take on a brighter hue.

Forced to give up our Chapter House on account of war conditions, we are now located in Caswell Hall, the newest dormitory on our campus. Sigma Nu is one of the many Greek letter societies of Brown to be forced into this temporary position. Prospects look bright, however, for returning at an early date to a Home which we can call our own.

At the demobilization of the S. A. T. C., Delta Lambda found only a mere handful of her former men in the mad rush for silk hose and white shirts. Now we have a Chapter that would offer competition to Pershing's staff, with Ensigns Munroe, '18, and Grindle, '21, Lieutenants Haley, '19, and Nichols, '19, and other "gobs" and "shave tails" of various ratings. We now have twenty of our old Chapter and eight of the best Freshman pledges that ever pushed peanuts up the hill. We have with us Brothers Haley, Nichols, Pierce and Brown, of 1919; Brothers Aylsworth, Grimm, Campbell, Abbott, Aumack, Marr, Orwig and Burdick, of 1920; Brothers McKenney, McKendall, Maynuson, Stevens, Gallup, Lovenberg and Rusby, of 1921; and Pledges Manchester, Wirtz, Blake, Fellows, Wagner, Frank and Richard Littlefield. Brothers Weddell, '20, Gilbert, '19, Johnson, '18, and McLeod, '18, are among the later members serving overseas.

Delta Lambda is also again taking a prominent part in campus activities. Brother Brown, '19, is stage manager of the Sock & Buskin. Lieutenant Haley, '19, hangs low on the 'varsity quartet, his deep bass voice trained by "squads righting" the moonshiners from the hills of Virginia, helps in the aesthetic as well as trepidates in the vernacular. He also expects to start "his band" again soon. Lieutenant Nichols, '19, is heaving the hammer again. His training with the big guns at Munro and Rosecrans has helped to develop his puny muscles to a great extent. Brother Pierce, '19, is again swinging clubs with the 'varsity gym team, and his Kellerman-like form can daily be seen gliding through the waters of the pool with the 'varsity swimmers.

Brothers Marr, '20, Aylsworth, '20, Irwig, '20, and Burdick, '20, warble and strum with the musical clubs. Delta Lambda had a glee club of its own in the Spring of last year, and gave Red Cross benefits in many of the nearby cities, under the management of Brother Abbott, '20, who promises some day to be a theater manager.

Brothers Aylsworth, '20, and Campbell, '20, supervise the barbaric mutilation of the genus felis in the biology lab. Brother Aumack, '20, holds forth in the chem. lab., much to the amusement of the Freshmen. Brother Grimm, '20, was recently elected first vice-president of his class, and holds other numerous offices with the Christian Association and Inter-Fraternity Govern-

ing Board. Brother Rusby, '21, travels with the glee club as "Young Houdini," famous for his magic and escape work.

STANTON A. BURDICK,
Reporter.

STETSON UNIVERSITY

Delta Mu Chapter

Stetson University has gone through the period of organizing the S. A. T. C. and then the demobilization of the corps, which has kept Fraternity life somewhat at a standstill, though Delta Mu has come through in fine shape, and has these initiates this year: Robert Horace Hudson, of St. Petersburg; John Clayton Ainsworth, of Mason City, Ill.; Morgan Alderman, of Fort Pierce; Walter Theodore Lipfert, of Meriden, Conn.; John C. Putnam Hays, of DeLand.

While the S. A. T. C. was in existence, the Chapter pledged the following novices: Richard Bullock, Clyde LaMee, Francis Whitehair, Gordon Huie, Gerard Gibbs, Geo. V. T. Dow, Daniel J. Byrnes, Jack Hyers, Drayton Collie, Gardiner Gingras. All of the above men left school upon the demobilization of the S. A. T. C., with the exception of Collie and Gingras.

When the second term of school, started December 11, 1918, we were glad to welcome back Brother Thomas L. Jackson, who had been released from the service, in order to finish up his school work. Brother Jackson was a member of the Naval Reserve Aviation Corps, stationed at Hampton Roads, Va.

Also, Brother Charles Limpus, who has been discharged from active service in the Artillery Corps, stationed at Fort Dade, Florida. Pledge Pencke is back in school, he left us last year before the school year was finished.

Brother Conrad, one of the Alumni, has visited the Chapter upon several occasions, and he is now back in DeLand, having been discharged from active service in the Q. M. department. Brother Medwin Peek, who is in active service in the Naval Reserve Corps, stationed at Brooklyn Navy Yard, visited the Chapter while home on a short furlough. His visit was enjoyed by all the Brothers. Pledge Todd Smith was home on a short furlough from the Naval Aviation School at Akron, Ohio.

Brother Harold W. Wilson, one of our oldest members, starred in a leading part in the "Amazons" which was put on by the Green Room Club of the university, during the first part of December. Brother Wilson is also taking the part of John Alden, in "Priscilla," which will be played in the university Auditorium about February 1.

The members of Delta Mu have been chosen for positions of honor, in the following organizations: Brother Erskine Landis, president of Senior Law class; Brother Harold W. Wilson, president of the Kent club, for the winter term, and reporter for the Senior Law class; Brother John D. Harris, president of the Kent club, during the fall term, vice-president of the Senior Law class, and justice of the Phi Alpha Delta (law) Fraternity. There will be about fifteen graduates from the law department of the university this year. The Chapter gave a picnic and dancing party at DeLeon Springs, about ten miles from the university, on the evening of December 6, 1918, as a farewell party to the men in the S. A. T. C., who could not remain with us. In addition to the members and pledges and their ladies, the following were the invited guests of the Chapter: Mrs. J. W. Rutherford, Mr. and Mrs. W. T. Ainsworth, Captain and Mrs. St. Cyr, Beta Sigma; Lieutenant and Mrs. Loving, Lieutenant Mallory and guest. Everyone enjoyed a delightful time, and only regretted that the S. A. T. C. unit was to be demobilized, and that the affair could not be repeated.

The Chapter is in good financial condition, and in vigorous working order.

JOHN D. HARRIS, Reporter.

UNIVERSITY OF MAINE

Delta Nu Chapter

Out of a Chapter of twenty-eight men last year, thirteen returned to college in January. The following old men returned: Lieutenant Wellard Wright, Lieutenant Lewis Read, Ensign Newall Emery, "Benjie" Kirk, "P. I." Flewell, "Johnny" Walker, "Father" West, "Cutey" Chapman, "Bell" Bailey, "Skin" Sewall and "Ginger" Fraser. With fourteen pledges back Delta Nu looks forward to a successful year.

During the career of the S. A. T. C. we gave up our House to the government and this, in a way, stopped Fraternity activities but it didn't dampen the spirits of Sigma Nu. The eleven Sigs that were back at the beginning of the S. A. T. C. were scattered through the various Fraternity Houses and this enabled them to get a "line" on new men. And as a result the men we pledged up are already prominent in college activities. Four Sigs, Webber, Page, McLoed and Quinn, played on the football team in the fall. Brothers Getchell and Sturtevant are working out for track manager. Brother Oakes is industriously working out for business manager of the "Campus." Brother Dolloff and Pinham are in the 'varsity basketball squad. Among the most recent pledges is Brother Purington, who was an all around star in athletics in "prep" school and should easily make a name for Maine and Sigma Nu next year on the gridiron, diamond and track.

Due to the fact that Brother Sturgis did not return to college we were obliged to elect a new eminent commander and treasurer. Brother Wright was elected eminent commander and Brother Emery was elected to the office of treasurer.

We believe that the outlook for Sigma Nu for the next year is much brighter than the other twelve Fraternities at the University of Maine.

STUART F. WALKER, Reporter.

UNIVERSITY OF NEVADA

Delta Xi Chapter

There has been no Fraternity activity among the students of the S. A. T. C. at the University of Nevada this Fall. Brother Charles J. Frisch is the only member of the Delta Xi Chapter in Reno at the present time. I am in hopes that conditions at the university will become more or less normal before the opening of school next Fall, at which time I believe the Chapter will have a number of its old men back to place the Chapter in proper working order again.

I realize that this is rather a deplorable condition in the eyes of the National Fraternity, but I wish to assure you that the active members of the Delta Xi Chapter were in the front ranks in the enlistments for the various branches of military service, and most of them are now either in France or in the cantonments in this country.

CHAS. S. KNIGHT,

Dean of the College of Agriculture.

UNIVERSITY OF IDAHO

Delta Omicron Chapter

Delinquent.

GEORGE WASHINGTON UNIVERSITY

Delta Pi Chapter

The active members as on record in your office are Brothers Delany, Nicholson, Libbitts, Boyd, Cole, Chamberlain and Sutliff. Since this report, the following have signified their intentions of becoming active February 1st: Brothers Severn, Harris, Steltz, See, Sheriff, Styer and Miller.

Brothers Nicholson, Sheriff, See and Miller will be the active Chapter in the House.

The mid-year rushing season has started and we are off with great colors. We had a smoker last Saturday, at which attended five rush men, all of whom we hope to make "Sigs" as soon as they are eligible.

MILO J. SUTLIFFE,
Reporter.

COLORADO AGRICULTURAL COLLEGE

Delta Rho Chapter

Delinquent.

CARNEGIE INSTITUTE OF TECHNOLOGY.

Delta Sigma Chapter

During the past year the Carnegie Institute of Technology has added several new branches of study to conform with war work demands. A new building, known as the Langley Laboratory of Aeronautics, was erected in the record time of twenty-three working days. It is of brick and steel construction and is used by enlisted men in the study of aircraft maintainance. Recently the United States Navy has installed a 1500 H. P. Westinghouse Steam Turbine. This turbine is direct connected to a ten-foot propeller which is submerged in a tank of water thirty feet deep and forty in diameter. The Navy is sending ensigns here to take a course in turbine engineering, thus making this equipment necessary. In all probabilities the equipment will be available for use in the Mechanical Engineering Course.

The student body this year is large, the Freshman class being the largest Tech has ever had. The Senior class is to graduate the latter part of July as the college immediately turned back to a peace basis after the S. A. T. C. was demobilized.

All the Fraternities with the exception of one have started Chapter Houses again and the first meeting of the Inter-Fraternity Council has been called.

Zeta Lambda Epsilon, a local is about ready to be taken into S. A. E., thus making the fourth national at Tech.

Upon the resumption of the regular courses of study Delta Sigma returned fifteen active men. A smoker held in December resulted in ten pledges and the rushing is still going on as there is a wealth of Sigma Nu material this year. We have taken back our old Chapter House which has been redecorated throughout. We have the House filled with men and a waiting list; this is the first time that this has ever occurred.

Brother Frank Haaren, our Chapter Advisor, is on the job and the financial affairs are being administered in a most creditable manner. As the Chapter is just starting in college, no scholarship data is available.

The old system of a House and table manager running the Chapter House is to be used again, as it has proved very successful in the past.

H. DONALD DICKINSON,
Commander.

OREGON AGRICULTURAL COLLEGE

Delta Tau Chapter

At the opening of college only four Brothers and three pledges answered roll call. Our Chapter House was taken over by the college to be used as a girls' dormitory. The Brothers were separated, being in different companies of the S. A. T. C. unit here. The commanding officer of this unit has been very much opposed to Fraternities and the activity of Fraternities. This made it very difficult for us to conduct any kind of meetings or business.

We expect many of the Brothers back at the opening of the next quarter, January 6th.

In spite of adverse conditions, we have managed to pledge men and at the present writing we have sixteen pledges, all of the very best material in college.

We expect to open the next quarter with from twenty to twenty-five men. We will be able to take possession of our Chapter House again on December 24th, and will be running as in normal times by the opening of the next quarter on January 6, 1919.

ORIN D. DADMUN, E. C.

Personally, I am some hundred and fifty miles removed from Corvallis at present, and might say in the heart of the Oregon spruce country, and have not been able to personally visit the Chapter during the past year. Several of the boys spent the past summer with me, this being also a summer resort on the Pacific and from them I learned all the current school news and all choice gossip. Since September, they have all been in uniform, either in regular Army or Navy units or members of the S. A. T. C. unit at Corvallis. This last named unit made the college a strictly enlisted military affair and the House was of necessity given over to the coeds as a dormitory as were all other Houses.

This, naturally, broke into the organization considerably, but I suppose all we can say is, "C'est la guerre" and carry on. I understand the S. A. T. C. is now demobilized and no doubt the boys are now back in the House and you surely will hear from them.

W. T. MOORE, Delta Tau.

COLGATE UNIVERSITY

Delta Upsilon Chapter

'Twas with cries of disappointment mingled with smiles of joy that the S. A. T. C. vanished from Colgate and the Alma Mater returned to the real old college days minus the military adornment. When the last officer crossed the campus for the last time—and when we received our cancellations of our German hunting privileges called honorable discharges—we realized to the full—

est degree that the war was over—at least for us. But with this joyful revolution came serious problems which had to be tackled with customary aggressiveness so the Colgate men proceeded to settle down to collegiate work unhampered by guard duty or K. P. The sight of our friends, who were in active service, was the happy climax and with cheers we welcomed our fighting men to the places of honor which they had well earned.

Gillo, Colgate's star full back, Spencer, varsity half back, and Wooster, tackle, with many other prominent athletes are back so that the future looks far brighter than ever expected.

This year is Colgate's Centennial Anniversary and the outlook is that this will be the biggest year that Colgate has ever had in its history. Since it is Sigma Nu's Fiftieth Anniversary also, our Chapter will have a celebration hitherto unexcelled.

We in the Chapter were not lax in restoring this House to normal conditions. Because the House was taken over by the authorities as a diphtheria hospital, work was necessarily doubled as a hospital would hardly be considered ideal for a Fraternity. We have fourteen strong men as a nucleus for a dandy Chapter in this epochal year. Brother C. G. Parks has returned from the Brown S. A. T. C. unit. Brother J. E. Dempsey is back after being discharged from heavy artillery. Four Freshmen, Brothers W. Chadwick, P. M. Jackson, R. W. Johnston, D. V. Starkweather and two pledges, W. Koth and R. M. Littlefield, are with us to boost Sigma Nu to the pinnacle she deserves.

Brother E. G. Bewkes, the only Senior in the Chapter, received a warm welcome because Mrs. Bewkes returned with him. Cigars were in order and everyone voted Mrs. Bewkes well worthy of a Sig.

Prospects for the remainder of the year are the best ever. Brother Bewkes, a varsity debater, and Brothers Morgan, and Dempsey will represent us on the rostrum. Brothers Fisher, Parks, Stoddard, our salty gob, Starkweather and Jackson will warble in our famous Glee Club. Brothers Jackson and Starkweather have a future before them in track and are now training with the squad, Brother Fisher is vice-president of the Outing Club whose cup Delta Upsilon Chapter has held for three years and we intend to keep it another at least. Brother Saunders and Dempsey are members of the Masque and Triangle, Colgate's theatrical troupe.

Although scholarship returns are not published yet—we are working hard to place the scholarship cup in its former location over the fire-place.

We hope to open the boarding club soon and then we will be started with the sky as our limit, for we intend to have this

year go down in our annals. At present we are waiting for some of our army cooks to return to take charge of the culinary utensils.

Without doubt many of our Brothers in service will return this semester, and then with the logs crackling in the fire-place we will gather together once more to listen to and tell our varied experiences since grim war separated our happy Chapter.

JAMES E. DEMPSEY, Reporter.

MARYLAND STATE COLLEGE

Delta Phi Chapter

The demobilization of the S. A. T. C. and the return of the regular college curriculum brought to us the full enjoyment of the old college life and many new things. The new Agricultural Building, which has been used as a barracks since its dedication, has been fully equipped and furnished and now contains some of the best laboratories and class rooms in this part of the country. A new filtration plant and reservoir is nearly completion, which will give us much better water service than we have been having. Our Faculty has been further increased by the presence of Professor Auchter, horticulturalist, and Drs. Mead and Gamble, two notable figures in the animal husbandry world. There has also been a pre-medical, liberal arts and two-year engineering course added to this institution.

Once again the football championship of the state was captured by M. S. C. Another great achievement of the college was the establishment of Student Government. At the present time it is not fully organized, but will be within a short time.

The members of Delta Phi Chapter have taken an active part in all student activities. Brother R. T. Knode was elected captain of the football team for the coming season. Brother Sawyer is president of the New Mercer Literary Society. All of the Brothers are members of the different literary societies. Pledge William Barall is a member of the football team, also Pledge Lewis Meyers. The Chapter is planning to have a big dance in the next week or two for the pledges. At this dance we also expect to get in touch with some new men. At the present time the financial standing of our Chapter is good. We have not had a House for the last two years but if everything works out as we have planned we will be living in a House before many months are up.

Our Alumni has helped us out in every possible way. They have attended our meetings, they have offered suggestions and have showed us where we could better our Chapter in many places. Financially they have helped us out considerably.

The engagement of Miss Marie A. Andrews, Baltimore, Maryland, to Brother Joseph Hamill has been announced.

Brother Edgar Montell, Delta Tau, dropped in to see us on his way back from camp. Brothers Sturgis, Chischester, Bopst and Hamill were also visitors.

W. CLAYTON JESTER, Recorder.

TRINITY COLLEGE

Delta Chi Chapter

During the last few months, extensive repairs have been under way at Trinity, in order to modernize the rather old buildings. Electric lights are being installed throughout the dormitories, and the plumbing system is being renovated.

During the war, several members of the Faculty have volunteered their services to the Government. Through Professor Knowlton's efforts, many of the large manufacturing plants in Connecticut have been induced to economize on their coal consumption. Professor Swan has assisted the draft boards of Hartford in his capacity of medical advisor.

Other than the special S. A. T. C. courses offered for the first three months, no radical changes have been made in the course of study. A course in wireless has been established in the physics department, and the mathematics courses have been changed to accord with scientific school requirements.

Extra curricular activities will soon get under way. Baseball and track will start as usual, and an agitation has started in college to have a 'varsity basketball team. A call has been issued for trials for the Jesters, the college dramatic organization.

The only social event of importance during the S. A. T. C. regime was the military ball, held in November. The Sophomore Hop is coming along the last of January, and we are looking forward to the first real, full-dress dance since way back in nineteen-seventeen.

Past Regent Wilson paid us a short visit before leaving for France.

Our scholarship standing so far this year has been, frankly speaking, very poor, due to the excessive demands made upon the men's time by the military authorities. I do not think, however, that our standing compared at all unfavorably with the other Fraternities in this respect. The scholarship committee has placed all delinquents under strict study surveillance, and we shall undoubtedly get back into the running before Easter.

Although our finances were somewhat involved, on account of the numerous shiftings of the men to the camps, etc., a satisfactory scheme has been evolved by the Chapter officers for the amortization of all debts owing to the Chapter.

The initiation banquet held at the Bond Restaurant in November was the only Chapter affair held during the first three months. Many of the men in the Chapter attended the banquet of the Hartford Alumni Chapter at the University Club, January 1, 1919, to celebrate the fiftieth anniversary of the founding of the Fraternity.

The Chapter House is administered by a House committee, appointed by the E. C. This committee has charge of all cleaning and repairing, and sees that the House is kept in good order. The boarding club steward has charge of all matters pertaining to the club. We are not contemplating any change in our House at present.

The following Alumni Brothers have called at the House during the last few months: Burnap, ex-'18, Cahill, '16, Schlier, '17, Allison, '12, and Brand, '15.

_____, Reporter.

BOWDOIN COLLEGE

Delta Psi Chapter

When the college opened January 2 for its second term, Delta Psi Chapter found itself (per order of the Faculty) combined with Lambda of Zeta Psi for eating purposes. The two Fraternities eat at the Zeta Psi House, and each has the living room of that House one night a week in which to hold its weekly meeting. Many upperclassmen have returned from the service and it is hoped that the college will get back to its former status before spring. The Fraternities are all paired off and no one allowed to room at the Houses, due to food and fuel conditions.

R. C. ROUNDS.

We are happy to report that, with the demobilization of the S. A. T. C., the normal atmosphere is beginning to assert itself in all the activities of the college, especially in Delta Psi.

Despite the fact that the Chapter Houses have been closed, we have forged ahead as under normal conditions. Our finances are in a better state. The following men have been initiated since we last wrote: Langdon R. White, Wendell A. White, Lawrence J. Hart, J. Wilfred Parent, and Francis H. Sleeper.

We rejoice in the return of the following Brothers: Lieutenant Eric Simmonds, Clyde Stevens, James Draper, Allan Hurrell, and Leslie Norwood.

We received a short visit from Lieutenant George Stuart DeMott, who recently received his commission as second lieutenant, Infantry, while at Camp Sherman, Ohio.

Allan Constantine has just been appointed curator of the Botanical Section of the Lee Museum of Biology.

During the influenza epidemic which struck the college at the end of last term, the sad news came to us of the death of Brother Wilfrid Bernard. He was a member of the Reserve Medical Corps and died in service in the second year of his medical course.

ALLAN CONSTANTINE, Reporter.

On account of the S. A. T. C. last term, and of fuel conditions during the present term, the Chapter has not occupied its House at 15 Potter street since early October, 1918. The college has taken over all Fraternity Houses, using five for dining halls only, and closing the remainder with the single exception of our own House which is occupied by a member of the Faculty. On March 20, 1919, all Chapter Houses will be surrendered by the college, which will pay the owners all necessary repairs and other items for the upkeep of the Houses during their occupancy by the college, to insure the return of the property in the same condition as it was received last fall.

At present, all students are required to room in the dormitories, but during the third term, members of the three upper classes may room in their Chapter Houses.

Student activities are being resumed as rapidly as possible, with the return to college of the men who have been in service. Prospects for a prosperous season for track and base ball are bright. Brother Young is one of the three track letter men in college, and Brother Racine is a letter man in base ball. Brothers Martin and Sleeper are out for track, and there will be men out for base ball when practice starts. Brother King is trying out for manager of football, and Brother Harry Noyes is making some "noise" as a candidate for track manager.

A number of Brothers have returned from the army this term and more are expected in March. Brothers Racine, Simmons and Clyde Stevens of the Seniors are back in college, as are Draper, Hurrell and Thebeau of the Juniors. Brothers Stevens and Helson are members of the Orient editorial staff, the former having returned to his position of editor-in-chief after eight months' absence in the army. Brother Harry Noyes is a candidate for the board, and should be elected in March. Brother Constantine is an assistant in the biology department. Brothers Linder and Helson are members of the college choir; Helson and McCrum of the college orchestra, and Young, vice-president of the debating council. Brother C. E. Stevens is one of the eight proctors recently appointed by the Dean.

The Chapter has recently received visits from Brothers Hart, White and DeMott, who have just returned from service with the Colors.

Three pledges have been initiated since the last report: Francis H. Sleeper, '22, Houlton; Wendell J. White, '22, Bath, and J. Wilfred Parent, '21.

CLYDE E. STEVENS, Reporter.

UNIVERSITY OF ARIZONA

Epsilon Alpha Chapter

We expect to resume activities as usual when the S. A. T. C. is demobilized. We have moved the Fraternity House since I wrote you last and are now situated at 745 N. Stone Ave. We are the only Fraternity in town which was able to hold the House this year and in all probability will be the only one as there are no vacant houses within several blocks of the university.

HERSCHEL A. AUXIER,
Gamma Iota.

Our university opened January 2d. The new Mines and Engineering building was also opened January 4th. Nearly all the old students returned.

We returned fifteen men and have since pledged three more and are working on four others. Among the returned are Lieutenant Archa Lovett, of the A. E. F., and Captain M. D. Shappell, Aviation Corps.

We were the only Fraternity that had a House when the university opened, although we hear that two others have obtained Houses now.

There is not going to be much social activity among the students this year, as our course of study is very vigorous and is going to keep us working very hard.

Nearly all the older students of the university have returned. Some from France, but the most of them from officers' training camps, so we have nearly as many here now as we would have had if the S. A. T. C. had not cut into our work.

The school year is to last from January 2nd to June 21st, and the Faculty are to give us credit for a full year's work, so they have intensified the work.

Trusting we may hear from you soon, and with best regards, I am,

FRANCIS H. LYONS, Reporter.

D'jer Try 'Em?

The "Songs of Sigma Nu" are indeed good ones, and if the next contest is as successful as the first one we will indeed have some wonderful songs.

GROVER H. CREECH, E. C.
Gamma Iota.

The Athletes

FOOTBALL CAPTAINS

Sigma Nu had three football captains last fall—Paul Gold, at University of Arkansas; Howard A. Leel, Western Reserve University, and Robert T. Knode, at Maryland State College. How many other captaincies and managerships have not been reported as yet?

Robert T. Knode
Delta Phi

CAPTAIN ROBERT T. KNODE

Delta Phi

R. T. Knode was elected captain of the 1919 football [of Maryland State College] after two years' work on the 'varsity. It was quite an honor, as he is but eighteen years of age and a Junior in college. He is a member of Delta Phi Chapter, Sigma Nu Fraternity.—Maryland State Weekly.

ERRETT RODGERS WILL RETURN

Gamma Pi

Brother Erret Rodgers was captain-elect of West Virginia's football team, 1918, when he joined the army. Brother Clarence N. Chapman, Epsilon, gives us a bit of news about him that will interest our athletic fans:

I have met several Sigma Nu brothers down here during the past eight months in my wanderings about the camp. The other

day I happened on to Brother Errett Rodgers, Gamma Pi. Errett has just graduated from the C. O. T. S. here and expects to be back home now in a few days. He has apparently lost none of his original enthusiasm for athletics and will be back at the University again next year with plans all set for a big season in football.

CAPTAIN HENRY MARSTON

Delta Kappa

Brother George Franklin Waples, Delta Kappa, writes me that Brother Henry White ("Hen") Marston is making a good captain of Delaware's winning basketball team.

CARR PAYNE, Sigma.

CAPTAIN HERMAN DAVES

Sigma

Brother Herman Daves was elected captain of the football team and was also selected as an all-southern tackle for the year of 1918.

JOHN D. McMILLION, Reporter.

SHELTON TO RETURN

Former Senator Again Will Handle West Virginia Baseball Squad.

Morgantown, W. Va., Dec. 30.—Word has been received here from Kemper Shelton, [Lambda-Gamma Pi], last year's mountaineer diamond mentor, that he expects to be discharged soon and that it is possible that he will be back in time to handle West Virginia's baseball squad again.

Shelton is in the signal service of the engineers. Shelton was popular and his retention is assured.

FIVE SIGMA NUS

On Marine Football Team

Play on Our Founder's Day for U. S. Championship

Five Sigma Nus from the Northwest make up the mainstay of the Marine football team at Mare Island, which on New Year's day, plays Great Lakes Naval team for championship of U. S.

All Brothers in the Corps, that I have met, were sure dandy fellows and strong for Old Sigma Nu.

GRANT McFERSON, JR.,
Gamma Kappa.

The Paynes: Father and Son

Bruce Ryburn Payne

Beta

Dr. Bruce Ryburn Payne is a psychologist of national reputation. Last summer, when the Government decided to save the colleges from depletion by converting them into training camps, the War Department selected him as one of the regional direc-

make the military training effective, student candidates were required to live virtually under Army conditions. Veteran officers were sent as instructors, and the men were supplied with uniforms and rifles.

President McLaurin, of the Massachusetts Institute of Technology, was appointed to organize the training schedule,

Bruce R. Payne
Beta

M. Carr Payne
Sigma

tors for recruiting and training college men as officers. Later, the S. A. T. C. was instituted in colleges, with a male enrollment of a hundred or more. These directors, who were college presidents, were appointed advisers to the department in their respective sections.

Approximately 6,000 new officers monthly were drawn to take the place of casualties and to officer new units as they were formed. Since the number of men available from the regular training camps was limited, the Government called upon the colleges to supply the need. The college-trained man has proven himself a capable officer and fighter. In the first training camps, the larger number of commissions were issued to men of this class.

The S. A. T. C. is familiar to all our active men and most of our Alumni. To

with President Bruce Ryburn Payne, George Peabody College, Nashville, Tenn.; President Vinson, University of Texas; President Wilber, Leland Stanford University, and President Graham, University of North Carolina. President Payne was assigned the district including the States of Kentucky, Tennessee, Alabama, Mississippi, Louisiana and Arkansas, and in turn he called together in conference the presidents of the colleges in his district.

Bruce Payne was born February 18, 1874, at Morganton, Catawba County, North Carolina. He received the degrees of B. A. and M. A. from Trinity College (North Carolina) in 1896 and 1902, respectively, and the degrees of M. A. and Ph. D. from Columbia University, in 1903 and 1904. On his graduation from Trinity in 1896, he became the principal of the academy in his home town of Morgan-

ton, and on December 7, 1897, he married Miss Lulu Carr, of Kinston, N. C. This academy was a boys' school and the only educational institution in the town. In 1899 he moved to Durham, N. C., as an instructor in the high school, and worked for his master's degree at Trinity.

His first college teaching was in 1905, when he was appointed professor of philosophy and education at William and Mary College, Va. Here he was made a member of Phi Beta Kappa, in the original Chapter of that honorary Fraternity. At that time, Brother Payne was the only member of the Faculty who had not served in the Civil War. After a year, he was made professor of psychology at the University of Virginia, where he served until 1911. He went back each year to William and Mary, however, to take charge of the summer session. His first task at the University of Virginia was to organize the high school system of that State. Of the nineteen committees on high school erection, etc., he was asked to head each as chairman. Also, he taught secondary education and psychology at the university. As director of the Virginia summer school, he brought the attendance from three hundred up to thirteen hundred, and practically established this important part of the work of the university.

It was during his stay at the University of Virginia that Bruce Payne was initiated into Sigma Nu by Beta Chapter, and was then the only Faculty member. After six years of service in Virginia, Brother Payne went to Nashville, Tenn., as the first president of the George Peabody College for Teachers. The old Peabody Normal School was re-organized into a teachers' college, with a half million dollar gift from the Peabody Education Board, added to the old fund, contingent on the raising of an additional million in two years. During his presidency, Brother Payne fulfilled these conditions, and erected five new college buildings and a new campus. It was practically a new school with a new Faculty and the problems of a new institution. The enrollment last summer was twelve hundred. His college is the center of teachers' training for the South, and his summer school Faculty includes Brothers C. Madison Sarratt, Iota, also a professor at Vanderbilt University, and Charles Neil McBryde, Delta.

In addition to his professional work, Brother Payne has taken an active part in war work on the Nashville Red Cross Board and similar agencies. As described in the beginning, he has been connected with the War Department for training officers.

Brother Payne is the author of "Elementary Curricula of Germany, France, England and America," published in 1905, and other educational works. He is a member of the American Philosophy Asso-

ciation, the American Psychology Association, the Southern Association of Philosophy and Psychology, the National Education Association, the National Society of College Teachers of Education, the Society for Scientific Study of Education, and the National Council of the Religious Education Association.

Maxwell Carr Payne

Sigma

Lieutenant Carr Payne in the year of 1916-1917 was commander of Sigma Chapter at Vanderbilt. He bears out the theories of heredity for he had his part in winning the scholarship cup of the Vanderbilt Inter-Fraternity Council for three successive years (they have now added a fourth year). Last summer he went to Fort Sheridan and was commissioned a second lieutenant, and assigned as commandant of the S. A. T. C. at Delaware College. We have all read with interest his letters in the department "On the Way to Berlin." It is fortunate that he had experience in a kaleidoscope existence as he describes it, to prepare him for military life.

Brother Payne writes us of his early days: "I was born on December 28, 1898, under rather cold circumstances. I have kept up with the various movings of my parents. One of my first recollections of Sigma Nu was the gift from the Beta fellows of one of those old red-horned phonographs. They had gotten it by purchasing an ample supply of shoes, and I inherited it along with an assortment of records, such as "Turkey in the Straw." At a very early age, I made frequent trips to the Chapter House and accumulated foreign stamps, post-cards, etc., as I went through the collecting stage. My preparatory training was at Wallace in Nashville. When I went to Vanderbilt, two years ago, I was favored with a bid and am the proud wearer of a Five-Armed Cross, as Sigma No. 240."

Brother Payne received many honors at the hands of his college mates: President, Blue Pencil (Sophomore literary society); editor, The Hustler; besides he served his apprenticeship on the scrub football team and made his V in 1918 track team. During the winter session, he has taken, in addition to his regular college course, several courses in Peabody College, through the affiliation of Peabody and Vanderbilt, and he has also attended the summer sessions there. He took all the military training offered at Vanderbilt, and was, therefore, well equipped to enter the O. R. T. C. at Fort Sheridan.

Since this article was first written, we learn that Lieutenant Carr Payne has been mustered out of military service, and has returned to finish his course at Vanderbilt.

Double Brothers in Epsilon

12. Frederick Marsh Gordon, Army Y. M. C. A. Secretary. Home, 400 Rugby Road, Brooklyn, N. Y., where he is pastor of the Flatbush Christian Church.

25. Allen Thomas Gordon, Paris, Illinois. Also a minister. These two men are Brothers.

13. Jesse Elmore Martin, lawyer, 3437 College Ave., Indianapolis, Ind. (or 525 Law Building).

26. Albert Gustavus Martin, Bloomington, Ind. With Indiana Creosoting Company. These two men are Brothers.

29. Francis Downey Barger, 82 Vandergrift Building, Pittsburgh, Pa. Runs an advertising agency.

98. Guy Henry Barger, formerly Wheeling, W. Va. These two men are Brothers.

45. Campbell Leamon Chapman, deceased.

65. James Hodgens Chapman, First Lieutenant, Headquarters, 363rd Infantry, Camp Lewis, Wash. These two men are Brothers.

61. William Albert Young, farmer, R. D. 2, Gallion, Ala.

62. Robert Bruce Young, Mt. Sterling, Ky. These two men are Brothers.

70. Goff D. Ramsey, teacher, Pennsboro, W. Va.

71. Carl J. Ramsey, Army Y. M. C. A. Secretary, Camp Sheridan, Ala. Rumored to have enlisted in Aviation service.

109. Harry Hanes Ramsey, West Union, W. Va. These three men are Brothers.

84. W. Edwin Wells, Jr., East Liverpool, Ohio. Chapter Adviser.

89. Joseph Mahan Wells, Newell, W. Va. Now in the service. These two men are Brothers.

93. Ernest Emery Harmon, in aviation service.

117. Frank Henry Harmon, in aviation service. These two men are Brothers.

110. Morgan Leroy Lumpkin, 826 N. Carrolton Ave., Baltimore, Md.

132. John Roane Lumpkin, Jr., 807th Aero Squadron, McCook Field, Dayton, Ohio. These two men are Brothers.

122. Luther Todd Bullard, Medical Corps, A. E. F.

147. John Cox Hupp Bullard, Triadelphia, W. Va. These two men are Brothers of Arch Bullard Gamma Pi and Gamma Theta.

136. Vinson Heber Bixler, 76th Brigade Headquarters Detachment, Camp Shelby, Miss.

146. Lloyd Ellsworth Bixler, Mitchell, Ind. These two men are Brothers.

U. G. PALMER, JR.

Father of Four Sigma Nus Dies

Judge A. H. Alston, Senior

Judge A. H. Alston, of Atlanta, Ga., died Friday morning, October 25, 1918, of paralysis.

Judge Alston was the father of four Sigma Nus: Robert C. Alston, Edward O. Alston, of Denver, Colo.; Major Philip Henry Alston, and Lieutenant Augustus Holmes Alston, now at Camp Lee, Va. All four are members of Theta Chapter.

W. L. KEMP, Mu.

The Second Generation in Beta Eta

Twenty-five years ago, in 1893, before Beta Eta owned a House, and when Fraternity meetings were held in a club room down town, among the men who ran the affairs of the campus, were three Sigs: Brother Stonecipher, Brother Mays and Brother Jones.

Today, Beta Eta again contains a Brother Stonecipher, a Brother Mays, and two Brothers Jones; and, as their fathers before them, they are right at the front in university activities. Brother Hiram Stonecipher carries the academic laurels of the Chapter, and, when it comes to music, he can tickle the ivories, play in the band, sing, and fiddle most anything. Brother Lew Victor Mays, who recently was sent to an Infantry Officers' Training Camp at Camp Gordon, Georgia, was advertising manager of the university newspaper, the "Indiana Daily Student"; he is also a member of the Sphinx Club, the Honorary Inter-Fraternity social organization. Brothers Dee, Jr., and Paul Jones are out for Freshman basketball. All, but the younger Jones, are in the S. A. T. C.

Just because their sons are making such a success is no reason why the fathers should lay down on the job. Brother Dee R. Jones is a very successful farmer at Williams, Ind. Brother Lewis Victor Mays is a lawyer at Pendleton, Ind., and Brother Thaddeus Hiram Stonecipher, who was formerly superintendent of the Zionsville, Ind., schools, is now in Army Y. M. C. A. work at Ft. Benjamin Harrison.

Conventions and Rallies

FIRST REUNION AT FORTRESS MONROE

13 For Luck

Just a few lines in between the hours of grin and study (I am now hard at it, studying master gunnery) to let you know that the Sigma Nu dinner took place Saturday night, November 9, 1918, at the Hotel Chamberlin, and believe me, we had one wonderful time.

There were nineteen present, and thirteen institutions represented: Four from Bowdoin, Brothers Hurrel, Hone, Stevens and Hurlin; three from my own Chapter at the University of California, Brothers Ashe, Hill and myself; two from Carnegie Tech, Brothers Toler and Schmertz, one from Dartmouth, Brother Thomson, and from Louisiana State University, Brothers Caruth and Nadler; Brother Schier from Trinity, Brother Foster from Missouri, Brother Tarlow from Colorado School of Mines, Brother Lloyd from Northwestern, Brother Johnson from Cornell, Brother Ketcham from Syracuse and Pledge Hern from Rose Polytechnic—quite a gathering, don't you think?

Believe me, we are going to do it over, and have already arranged to have Thanksgiving dinner together at the Chamberlin.

Some of the boys are extremely anxious to take a trip up to William and Mary College and look over the local that is petitioning there. We will form a party and go up some week-end.

LORENS F. LOGAN, Beta Psi.

OUR HAMPTON ROADS CONTINGENT

Since Brother W. Henry Fackenthal, Gamma Epsilon, left on transfer to the U. S. S. Illinois I have met three more good "Sigs", one in my company. Here's Brother Troy M. Smith, Beta Xi, William Jewell. The other two good Brothers have just arrived in the station from San Diego and are held here for Officers' Material School. They are Ernest G. Campbell, Charles C. Adams, both of the University of Colorado, Gamma Kappa.

It surely is good to meet up with a good old Sigma Nu every once in so often. It is sort of like money from home.

I also met Brother M. E. Crispen, Rho, at the University of Missouri. He is stationed at the Naval Hospital, Portsmouth, Va., and is a hospital apprentice, first class.

That is about all of the news that I have except for the fact that we Sigs are going to try and get together for a short talk some of these days soon.

I would like a few more of the small creeds, say about six, I have given them all out, not even keeping one for myself.

* * * * *

Things have been booming in regard to meeting "Sigs" lately as I believe I told you in my last letter. Since then we had a sort of "Sig" party down at Lieutenant Goetzman's house. We had a fine time, those present being Brothers Goetzman, Kelly and myself of Delta Pi, Brothers Adams and Campbell, from the University of Colorado, and Brother Smith from Beta Xi. We went in a body to that wonderful Emporium of eats, so prevalent in large cities and so often patronized by Sigma Nus; both eminent and humble as I remember sitting across the table in Cleveland at the Grand Chapter last year from Brothers General Sears and Clarence E. Woods among others (Childs, I am speaking of) for a supper.

From there we wended our way to the home of Lieutenant Goetzman where we were duly introduced to his wife, Mrs. Goetzman, and settled down before a fine open fire for a comfortable chat. From that we turned to cards—purely sociable—and later to refreshments. It was a real party and we had a real time, our only regret was that there were lots of good Sigma Nus on the station whom we did not know and could not get in on our party. Maybe we will have better luck next time though.

The copies of the Creed came yesterday as did a letter from D. M. Brown, an ensign in the Naval Reserves, now on duty on the Irish Coast. He's from Delta Delta at Penn State, and a real Sig.

I am also sending along the news, the Brother Fackenthal, Gamma Epsilon, received his release to inactive service and is going to return to Lafayette to finish his course.

VICTOR L. KEBLER, Delta Pi.

DES MOINES LUNCHEON

Took in another Sigma Nu luncheon the other day and there were two more out of town Sigs present; one fellow, Clarence J. Moulton, from the Great Lakes Naval Training Station and Gamma Beta, and a fellow whose name I do not remember from Ames.

DON KRULL, Gamma Mu.

CAMP MacARTHUR C. I. O. T. S. SIGS BANQUET

One day during the closing week of the Central Infantry Officers' Training school of Camp MacArthur, Texas, Captain Geo. Dyer Jackson, Sigma Nu of Missouri and Texas universities was in the office of Lieut. Loren Wm. Benton, Adjutant of the First Battalion. While there he recognized a candidate of the school who chanced in, as a Sig Lieutenant Loren Wm. Benton joined in as a member from the University of Minnesota. Candidate Thomas Jefferson Stanley, formerly of Texas University, was called in, and plans laid for a Union of Sigs on Friday the 22nd of November. Brother Stanley put on his old khakis, waded forth into the pavements of the company streets, which same consisted of a six-inch layer of mud and three inches of water, and commenced to advertise.

The ancient tradition that you will always find a Sigma Nu there was true, for they appeared in almost every company. Unfortunately, owing to the lack of time for proper circulation of the news, Stanley's efforts were confined to the Officers' Training Camp and Rich Field. Otherwise he would probably have been able to report an entire platoon if not a company as present or accounted for on the feast night. As it was, nineteen whipcord-clad Sigs were there, representing thirteen different Chapters.

Lieut. Benton presided with rare grace over the duties of the toastmaster, even as he had so often done over those of adjutant in the daily parades of the First Battalion, with fixed bayonets and "everything". A representative of each Chapter present was called upon to report for that particular Chapter. While most of the talks were of Chapter or personal reminiscences, a few good constructive ideas were brought out, in regard to the development and extension of the Fraternity. The prevailing opinion seemed to be that the Fraternity would do well not to take in too much territory; that post-bellum cultivation must be of the *intensive* and not the *extensive* kind.

It was a genuine old-time Sig meeting with this difference only; the care-free hilarity of the undergraduate had been replaced by the sober seriousness of the dates for commissions in our army, and igan; T. J. Stanley, Texas; H. R. Stroube, thinking, fighting man. That seriousness had brought most of them to Waco as candidates for commission in our army, and would have sent them away decorated in all the glory of their profession, had not Fate and Foch prevented.

A few days later the camp was discontinued, discharges handed out, and the most of those present that night went back to their homes, to Vermont and Minnesota and California, to pick up the dropped pen and book and rod, but not to forget the joys

and hardships of the Battle of Camp MacArthur, the beauties of reveille and Sibley stoves and inspection, and not to forget, either, that night at the Raleigh Hotel at Waco, Texas. The following were present:

Chas. Hunter Locker, Columbia and Michigan; T. J. Stanley, Texas; H. R. Stroupe, Oklahoma; John Robert Fitzsimmons, Colo. Ag.; Harold E. McMorris, Washington U.; Roloff Wright Reeves, Arizona; Harold Eugene O'Brien, Nevada; Jas. Wood Manson, Nevada; Thos. LeRoy Doyle, Colo. Ag.; Charles Dewey McCauley, Arizona; Joseph G. Saboe, Washington State; Alvin Louis Alberti, Michigan; Arthur Perkins Johnson, Vermont; Howard Oliver Dykman, Minnesota; Geo. Dyer Jackson, Missouri and Texas, Captain; Coe Lipsey Van Deren, Colo. Ag.; Frank S. Townsend, Washington; Loren Wm. Benton, Minnesota, 1st Lieut.; James Hollins Woods, Texas.

JAMES H. WOODS, Upsilon.

PITTSBURGH ALUMNI PLAN BIG RALLY

One of the most important features of the rather informal meeting on January 11, was the unanimous approval of Brother R. L. Bovard's suggestion that we endeavor to secure the presence of General Secretary Dunlavy at a special mid-week meeting some time in the near future—probably when a few more of the Sigs now in service have returned to Pittsburgh. At this meeting, also, a committee was created to report later on the subject of a Sigma Nu dance. Other new committees are: Membership, A. C. Dyer, G. R. Carroll, F. G. Buswell. Entertainment, W. H. King, Jr., D. A. Moran. At this meeting W. H. King, Jr. briefly reviewed the affairs of Delta Sigma, the active Chapter at Carnegie Institute of Technology (supplementing an exhaustive report by Adviser F. H. Haaren at the preceding meeting). Lieutenant R. C. Cost gave a very interesting account of his recent experiences in the Radio Service, and F. C. Vandervort, attending his first meeting in Pittsburgh, spoke briefly, touching on bygone events in connection with Purdue-Illinois games, etc.

The new Sigma Nu songs have been tried out and approved, at the Alumni Lodge, and it must be confessed that it takes a mighty good song to sound attractive as rendered by the talent (?) around the Lodge these days.

E. H. McCLELLAND, Secretary.

The Alumni Center

Dunlavy, don't fail to urge every Alumni Chapter to start the Lodge idea. If you could know what the Lodge has meant for Sigma Nu around Pittsburg you would appreciate our desire to see other Chapters fall in line.

R. L. BOVARD, Delta Delta.

The Alumni

A PERUVIAN ALCALDE

Other Berrien, Beta Upsilon, Beats Ballot

[We all remember Brother Berrien's interesting travel sketch in the October Delta, which he related the pleasures of Peru. Now is a bit of news from the responsible le of life.—The Editor.]

The elections are over and I find that I ve been elected alcalde (mayor) of this ice. I received 450 per cent. more votes an my opponent, so I feel that I made a od race. I am the first American to hold is "important position" in Oroya. Here- fore the place has been filled with Peru- ins and once by an Italian. I enclose py of our ballot.

Alcalde

Oroya, 18 de noviembre de 1918.

I go to Morococha (Peru) frequently and d that there are two Brothers there own and Foran).

E. G. BERRIEN, Beta Upsilon.
Oroya, Peru, Nov. 20, 1918.

AGRICULTURAL EXPERT OF STATE COLLEGE WILL STUDY FOOD FOR EUROPE

Dr. H. P. Armsby, Delta Delta

Brother R. L. Bovard, Delta Delta, ites:

Dr. H. P. Armsby, agricultural expert of e Pennsylvania State College, has been pointed one of the four American mem- rs of the Inter-Allied Commission to idy the food requirements of this coun- r's co-belligerents, and sailed for confer- ces in London and Paris last November.

SIGMA NU IN THE SPRUCE WOODS OF THE NORTHWEST

The Alumni

The Nippon Lumber Company has just issued a souvenir booklet for the year 1918, describing the patriotic services of the company and its employees. The president is our Carl Lane Clemans, Chi No. 1, and Beta Chi No. 2, founder of Chi, Beta Chi, Beta Psi, and Gamma Chi Chapters.

In the "first line of defense" is Captain Warren T. Smith, Gamma Sigma, 20th Engineers, A. E. F., France.

The following summary gives a good idea of what this company accomplished in its little logging community:

Alpine and the War

We review with sane pride the part our little community has taken in the great conflict now drawing to a close.

Upon the organization of the Patriotic Council every man, woman, and child in the town became a member, and this hundred per cent membership has been maintained most of the time.

Twenty-eight of our men were in their country's service during the war and many others volunteered, but were for some reason rejected.

In Bonds, Savings Stamps, Red Cross, and other war work and in war taxes, Alpine contributed to Uncle Sam's war chest something over \$50,000 with a population of 175 people.

Every demand of every war work of every nature was not only met promptly, but was oversubscribed.

NEW SUPERIOR COURT JUDGE

Robert L. Murray, Beta Eta

After eight years Robert M. Van Atta, of Marion, will retire as judge of the Delaware-Grant counties joint superior court on January 6, 1919, and will be succeeded by Robert L. Murray, a young Muncie lawyer. Both are Republicans, and were opponents for the nomination in the primaries last spring. Mr. Murray defeated Mr. Van Atta by a majority of forty-eight votes. In the final election Mr. Murray defeated Frank Feeley, of Muncie, the Democratic candidate, by more than 3,000 votes.—Indianapolis News.

FIRST FREE "Y" TICKET

Our Baltimore Membership Secretary Inaugurates Plan for Returning Soldiers

As a part of its reconstruction policy, the board of directors of the Central Young Men's Christian Association, on the recommendation of the membership committee, has voted to grant to each discharged soldier and sailor a three-month full membership ticket, giving all privileges. This new provision went into effect yesterday.

In speaking of this action of the board, Norman H. Angell, [Delta Gamma] membership secretary, said: "This will mean much to the returned men. Many have made the sacrifice of their position and future in order to serve the country. They haven't the money at present for a membership ticket. The men have been having vigorous exercise, and it will be a sudden change to come back to the city life. Our gymnasium directors will supply this need, and I feel sure a large number of discharged men will take advantage of the building and its facilities. The association, through its employment department, also stands ready to help secure positions for these men.

"Baltimore is the first association, as far as we have heard, to take this action for the discharged men."—Baltimore Star.

CITY SEWER ENGINEER AT SCHOOL FOR ARTILLERY

Clarke Donaldson, Gamma Alpha

Clarke Donaldson, city engineer in charge of sewers, leaves for Camp Zachary Taylor, Kentucky, to enter the Field Artillery school.

Donaldson is a graduate of Georgia Tech and it was this fact, coupled with his experience in the city construction department, which enabled him to secure membership in the artillery school. He is one of the most popular young men around the city hall.—Atlanta Constitution.

JUDGE GOING OVERSEAS AS Y. M. C. A. WORKER

Judge Robert Bush, Xi-Mu

Judge R. D. Bush, judge of the city court of Camilla and Pelham, has received orders to report in New York to take a course of training for Y. M. C. A. army work, he having offered his services not long ago for this branch of service. After a few weeks of instruction Judge Bush will sail for France. He applied for a position as trench secretary, and was accepted, but has been waiting until there was a vacancy.—Atlanta Constitution.

ENTERS WAR CAMP COMMUNITY SERVICE

Professor Philip A. Parsons, Gamma Psi

Professor Philip A. Parsons is to enter Government employment as a worker under the War Camp Community Service Board. He has secured from Syracuse University a leave of absence for the duration of the war and he has resigned as stated supply for the Memorial Presbyterian Church. He will report for his new duties in New York September 15. Professor Parsons is director of the sociology department of Syracuse University and for six years has been in charge of the settlement work of the Memorial Presbyterian Church.

The sociology department work at the university will be divided between John Lord, assistant director; Almus Olver, secretary of the Associated Churches and Charities, and the Rev. Robert Fortenbaugh, pastor of the Lutheran Church of the Atonement.—Syracuse Herald.

THE EDITORIAL SERGEANT

Don C. Krull, Gamma Mu

Sigma Nu is now running the "Fort Des Moines Post" which is the newspaper of that camp. Donald C. Krull, Gamma Mu, who has been on the staff since the paper was first begun last summer, is now editor, and Lieutenant R. H. Finger, Chi, Sanitary Corps, is business manager. Don is now sergeant, class not given, instead of a first class private, but we know he has all the class there is going. He still has his column or two of Krullers. Brother Finger went to the Fort as a Y. M. C. A. secretary and received his commission a few months ago.

GIVAN CHAMPIONS SMALL INVESTORS' CAUSE

Representative Clinton H. Givan, of Indianapolis, Beta Eta, is the father of a "blue sky" measure in the Indiana House of Representatives. His bill provides that no dealer shall sell securities unless licensed by the secretary of state, authorizing that official to institute court proceedings against promoters in cases where he believes fraud exists.

WYNNE P. HARRINGTON ATTENDS COLONEL ROOSEVELT'S FUNERAL

Wynne J. Harrington, Nu and Beta Chi, who is in New York City, waiting for a discharge from Uncle Sam, writes that he is assigned to night duty now and as this gives him his days he took advantage of this fact and went to Oyster Bay to attend the funeral of former President Roosevelt. Trust a Kansan to always be on hand.

Alumni Chapter Letters

Chapter Letter for May is due March 15, 1919.

er Secretary, if you will fix this date in mind, you will be on time. It appears official call reaches some of our more distant Chapters rather late, and the Sec-ave failed to note the date published under the head of the active "Chapter Surely this is fair warning.

Editor appreciates the faithfulness of our corps of Alumni Chapter officers, them all to co-operate in getting out the best Delta ever, in May. To do ptness is a requisite. Let's have a Chapter Letter from every Alumni Chapter!

CAGO ALUMNI CHAPTER

members of the Chicago Alumni who are more or less constantly in the welfare of the organiza- looking forward to the period of tion, or perhaps it might be more

aptly termed the "period of re-establish-ment," as it means the time it will take for the returning heroes to connect them- selves anew with the business world and become established where they can be reached when something like a dinner, party, or blow-out of a more or less harm- less nature is in the air. Even as a real- ization of their hopes the attendance at the last two regular weekly Wednesday luncheons held at the Marshall Field Grill was double that which it has been at any time since the brave Brothers of Sigma Nu began changing their address to Camp Something, Somewhere.

At the regular annual meeting for the election of officers held last fall the follow- ing officers were elected for the ensuing year:

President, H. J. Bardwell, Chicago Beach Hotel.

Vice-President, C. A. Ward, 1108 Ash- land Bldg.

Secretary-Treasurer, Charles E. Wil- liams, 5469 University Ave.

Plans are now being perfected for the annual banquet which will probably be held in College Hall in the University Club on the evening of Washington's birthday. On previous years the dinner has been held immediately after the Chapters at Chicago University and Northwestern University finished their initiation ceremonies. This year it is not probable, however, that these two Chapters will be ready for any initia- tion because of conditions brought about by the S. A. T. C. activities at each insti- tution.

This will not interfere with the success of the banquet, however, as it is to be in the nature of a Victory Banquet and will be in honor of the soldiers Brothers who have returned from war. Every Sigma Nu in Chicago and vicinity will be there to pay homage to these fellows who were ready to make the supreme sacrifice as the occasion demanded. Any Sig who can find it convenient to be in Chicago on the eve- ning of February 22 is cordially invited and urged to come to the dinner.

Captain H. B. Vanderblue, Gamma Beta, has been discharged from the personnel department of the army at Camp Grant and has resumed his teaching duties at Northwestern University.

Lieutenant W. B. White, Gamma Lambda, stopped off in Chicago on January 13 when on his way back from France with the Blackhawk Division.

The sad word has been received here telling of the death at an army camp of Lieutenant Count de Rochambeau Lovell-ette, Gamma Rho. Pneumonia was the immediate cause of his death.

H. O. Parsons, who throughout the war has been connected with the Navy Intelligence Department as a personal representative of Secretary Daniels, has been a frequent visitor at the weekly luncheons.

CHARLES E. WILLIAMS,
Secretary-Treasurer.

CLEVELAND ALUMNI CHAPTER

The Cleveland Alumni Chapter having recuperated from the effects of the war, the epidemic of influenza and various minor plagues and pestilences, is back in action. The outlook for the coming year is auspicious and with the return of those Brothers who have been in the service, our Chapter should number nearly one hundred men.

We are pleased to announce that our membership has been augmented by Brother Ross Coker, Mu, who is now located in this city as Cleveland manager for The Retail Credit Company. We were also pleased to welcome Brother A. C. Ladner, Delta Lambda, who is in the Army Mechanical Warfare Service, and Brother F. C. Searle, Beta Nu, who is connected with the Ralph C. Fuller Company.

T. B. Scott, Delta Zeta, is back as a full fledged second lieutenant of the Officers' Reserve Corps, having completed the course of training at Camp Taylor in the Field Artillery Training School.

F. C., alias "Buck," Herke is back after a year's absence, during which time he was located at Sao Paulo, Brazil. He tells some very interesting experiences which he had in the wilds of South America. He is at present working for The Retail Credit Company under Brother Ross Coker.

We were favored with the presence of Lieutenant H. K. Strock, Delta Zeta, for a few days in December. I can say authentically that he looked like a million dollars, and said he expected to be discharged from the service very shortly.

R. B. Pease, Delta Zeta, who was with the Ohio Engineers, is reported to be on his way home.

B. J. Alten, Delta Zeta, has severed his connections with the firm of Ernst & Ernst and is in business with Brother M. C.

Newton, Delta Zeta, the exact nature of the business I am unable to state but imagine it is something to do with figures which is "Doc's" specialty.

A. E. Chapin, formerly manager of the Colonnade Lunch is now managing Clark's Cafeteria in the Cuyahoga Building, where we gather weekly on Friday noons for our luncheon.

L. M. Sears, Gamma Tau, who was formerly assistant plant manager of the Peerless Motor Car Company has just returned from New Orleans where he has been doing valuation work for the government since last June. He has some very weird experiences to relate in connection with his trip down and back, which he made by motor.

The latter part of November we held a Smoker out at the Fraternity House, which was a very great success and which was well attended. Much credit for the success of the affair must be accorded to R. P. McElrath, Sigma, who indulged in protracted and very loud song, and Ross Coker who tweaked the ukelele zealously.

In December we held an informal get-together House party for the Alumni members and their wives and sweethearts, which was one of the most successful affairs we have ever attempted. The program included most anything, and "June" Kilmer who was in charge of the "eats" has earned himself a lifelong job as sole member of the Refreshment Committee, by reason of the bounteous repast which he placed before us.

The annual meeting and election of officers was held Monday, January 13, and the following were elected as officers for the coming year:

President, S. E. Roth.
Vice-President, W. D. Clark.
Secretary, M. E. Evans.
Treasurer, A. E. Chapin.

It was decided at this meeting to hold, as has previously been the custom, the annual banquet on February 22. Arrangements for this affair are now being made and we desire through this organ to invite to this banquet all Brothers who find it possible to come to Cleveland on this date, and especially such Brothers as are residents of near-by cities, and who have easy means of access to Cleveland. The active Chapters are co-operating with us in this banquet and expect to hold their initiation of pledges in connection therewith.

It was also decided to hold monthly meetings during the year on the first Monday of each month, and to have them at the Fraternity House, 11448 Euclid avenue. The plan is that the active boys will arrange for a 6:30 dinner which will precede more complete and effective co-operation between the Alumni and the active men.

M. E. EVANS, Secretary.

HARTFORD ALUMNI CHAPTER

not let any Brother suppose that Hartford Alumni Chapter has been negligent. No letter appears here. This baby in Chapter is very much alive. We received a splendid letter altogether to their Founders' Day Banquet on Year's Day. We are holding it for our 10th anniversary celebrations which appear in the May Delta.—The Editor.

visitations are being sent to all of the nearby active Chapters and it is expected that every old grad within reach of New York will be present.

Now that the war is over we are looking forward to the most prosperous times in the history of this Chapter.

RALPH E. SAWYER,
Secretary.

NEW YORK ALUMNI CHAPTER

the majority of younger members into the service the attendance at our last meetings has necessarily suffered. That the war is over we hope to have all back with us again. At every meeting someone inquires when Brother Wilson, Past Regent, who is serving Y. M. C. A. secretary "over there" will be with us again. There is only one Wilson and he is surely missed.

Other Thurston V. Ely, Gamma Theta, back from Camp Zachary Taylor where on his commission in the Field Artillery.

is with sincere regret that the death of Brother Herbert S. ("Nookie") Nulsen, Zeta, is reported. He was one of the members of this Alumni Chapter and of its hardest workers always striving to keep Sigma Nu in the foremost place. As among the first on hand when any Sigma Nu function was taking place, his greeting will be missed by all who have the good fortune of knowing him. He died Dec. 17, 1918, after several months illness. The funeral was held at 464 138th street, New York City, and was attended by the New York Sigs in a body.

doings are being planned by the New York Alumni Chapter to take place in this issue of the Delta comes off the 10th. The annual banquet with Brother Robert A. Byrnes, Beta Zeta, as the guest of honor is expected to take place on the 10th of January 31. Brother Byrnes was one of the founders of this Alumni Chapter.

At the beginning of the war he held a commission in the old 7th Regiment which was sent across. It saw hard fighting and in one engagement all of Brother Byrnes' company was wiped out. He was wounded in the elbow and started back to receive first aid. He heard the other commissioned officers of his company had been killed or severely wounded. Turning around he led his company for the remainder of the attack.

For this he received the English Cross and the D. S. O., and was recommended for the Distinguished Service

for the heroes of the great world conflict. He is back with us for the banquet, to whom we are all proud to honor. In

Sigma Nuisances

Little Miss Helen Caughan Kiendl arrived at the home of Brother and Mrs. Theodore Kiendl, Delta Gamma, on December 28.

Brother and Mrs. Robert E. Safford, Beta Nu, announce the arrival of Master Alvin Robinson Safford, January 7.—The Fifth Point.

OKLAHOMA CITY ALUMNI CHAPTER

Most of the Alumni Chapter have been in the military service, and many of them have not yet been relieved. We plan an old-fashioned Sigma Nu Alumni reunion as soon as all our men have been returned to their former status.

The following notes may be of interest: John H. Dunkin, Gamma Xi, first lieutenant Q. M. C., has recently been discharged and has resumed his position as assistant manager of the Rorabaugh Brown Dry Goods Company, the largest department store in Oklahoma. Brother Dunkin was stationed in Washington where he made a remarkable record for efficiency in his work.

Solon William Smith, Nu, captain, Field Artillery, has recently been discharged and resumed his law practice as a member of the firm of Twyford, Smith & Crowe, in the American National Bank Building.

William P. Lipscomb, Xi, major, M. C., attached to the 131st Field Artillery, A. E. F., is expected home in a few weeks. Brother Lipscomb entered the service as a first lieutenant.

Cleveland Thompson, Delta, captain, A. E. F. We have been unable to learn the exact nature of Brother Thompson's activities, but understand that he may be expected to return to the states early in the spring. Brother Thompson entered the service as a private in the Mexican trouble and has earned one well deserved promotion after another.

Doctor W. H. Sanger, captain, M. C., is expected home soon to resume his extensive medical practice.

Paul Darrrough, Delta Epsilon, navy and H. P. Morris, army, have not been heard from recently and their present rank and location is not known.

Clarence W. McKinney, Delta Epsilon, first lieutenant, Signal Corps, was ready to embark on the 11th of November and now anxiously awaits his discharge to again delight the eye and charm the ears of our citizens with his presence and repartee.

C. D. Bennett, the dean of the Chapter, of the well known law firm of Bennett & Pope; Judge I. D. Taylor, referee in bankruptcy; C. Edgar Honnold, bond broker; O. E. Jones, oil operator; C. D. Canfield, bond broker, being the heads of families, and busily engaged in Red Cross, Liberty Bond and other war campaigns and activities, were unable to go to war and paid the taxes to furnish the sinews of the conflict.

SOLON W. SMITH, Secretary.

OMAHA ALUMNI CHAPTER

After a period of inactivity beginning with the entrance of our country in the war, the Omaha Alumni Chapter will resume activity the end of this week by holding the monthly Smoker to welcome home the returned members. So many of the members of the Chapter were in the service that it would have been impossible to muster a corporal's guard, among those who were left at home. We hope to resume full activities in a short time and to hold our annual banquet as usual in the spring.

Since our last letter to the Delta it gives the writer more than the usual pleasure to report that both Brother Brigham and himself are now proud fathers. Both of these important events took place in September. Brother Brigham's daughter has been yclept Eleonor, and the writer's, Margery Ann. Both fathers and daughters are reported doing well.

A number of the Brothers who have arrived home with their honorable discharges in their pocket, and have resumed their former positions are: Cap Carse, George Armstrong, Roy Brownell, C. H. Murphy. The latter, however, will not remain long with us as he intends leaving soon for the East to enter business. One former member, we regret to report, will not be among those who will return to the home shores again. Brother Alex Cone died of disease in France, shortly before the armistice was signed. Brother Cone had lately returned from the front line trenches.

The Omaha Chapter had twenty-two men out of a membership of forty at the outbreak of the war, in the service. This is "some" record, when you consider that the men in service represent 90 per cent. of the active men of the Chapter. By the time the next letter goes to the Delta we hope to have a full quota of active officers, including a diligent secretary who will have a lot of new "pep" and news to report.

WILLIAM L. RANDALL,
Acting Secretary.

PITTSBURGH ALUMNI CHAPTER

Prior to the signing of the armistice the secretary of the Pittsburgh Alumni Chapter received from L. L. Hopkins (Case), 305th Engineers, in France, a letter on a good grade of gray stationery which he took from a German who, according to Hopkins, will have no further use for it. More recently the secretary received from Lieutenant Sam. G. Hibben (Case), a German helmet. Hibben writes that Lieutenant Elmer Francy (Case) is somewhere in his vicinity.

Ensign R. C. Harding stopped in Pittsburgh for a few days while on a furlough in January.

Lieutenant M. B. Layton (Lafayette) left Pittsburgh early in January, stating that he was to be in motor transport service in Siberia.

Captain Victor R. Schmidt (Lafayette), connected with the Chemical Warfare Service at Edgewood Arsenal, has been in Pittsburgh several times recently. "Vic" was formerly located in Beaver Falls, Pa., and expects to return to Western Pennsylvania in the near future.

The following men have just returned to the Alumni Lodge: Lieutenant Roscoe W. Cost (George Washington) from the Radio Service, and Herbert Protzman (Bethany) who has been in the Cost Accounting Branch of the Ordnance Department.

W. H. King, Jr., (Carnegie Tech.) returned to Pittsburgh in January, after several months' service in the Bureau of Aircraft Production in the special work of packing and shipping aeroplanes. R. K. Fleming (Carnegie Tech.) is back from Camp Humphries, and W. P. Gettman (Carnegie Tech.) has been returned from military service.

Waltman Hart (Penn State) stayed at the Alumni Lodge for several days in December and the following Sigs from the same Chapter called at the Lodge: W. Elmer Perry, Jr., George W. Sullivan, J. Howard Worley.

Lieutenant Edward W. Glendinning (University of Colorado) is temporarily in Pittsburgh, having been an instructor at Carnegie Institute of Technology since November, 1918.

Other new Sigs in Pittsburgh are A. C. Clarke (Purdue) with the B. & O. R. R., Conestoga Building; R. C. Harris (Purdue) 724 Pennsylvania Station; Earl L. Moffett (Purdue) General Electric Co., Oliver Building; F. C. Vandervort, Jr., (Illinois), with the Westinghouse Electric and Manufacturing Co. since November, 1918, who resides at 738 Hill Ave., Wilkinsburg; Frank K. White (George Washington) and A. W. Brooks (Emory) 430 Biddle Ave., Wilkinsburg; the last two are also Westinghouse men.

ical paper 186 of the United States of Mines, by S. P. Howell (Lom- and J. E. Tiffany, is a 63-page st on "Methods for Routine Work Explosives Physical Laboratory of reau of Mines." 1918. Brother who is in charge of the Explosives of the Bureau, is an authority on es and several of his earlier pa- ve been issued as government pub- l.

. B. Taylor (Kentucky), chief chem- ie Pittsburgh Station of the United Bureau of Mines, has resigned to is employ of the DuPont interests he end of January. "Doc" was for me engaged in research work for eau and conducted many important ations—among them are fixation of eric nitrogen.

. Bandy (Mount Union) formerly y of the Central Y. M. C. A. in gh and more recently in war work, turned to Mount Union as secretary ollege Y. M. C. A.

er William Edwin Wells, Jr., (Beth- serves credit for some very fine work in reproducing the Sigma Nu and the coat-of-arms in pottery. eramic specimens are of good size w details quite well, and are excel- regards correct color reproduction. pecimens were sent to Inspector L. ins before his departure for France. y the secretary of the Pittsburgh Chapter has had both emblems l on mahogany—the pin on a disk, coat-of-arms on a shield—and both tracted the attention of most vis- the Alumni Lodge.

engagement of Lieutenant Lamont on, Delta Sigma, and Miss Blanch h Zeigler, of Youngstown, Ohio, is ed. Brother Button is a Pittsburgh t in civil life but went to France ase Hospital 31, composed of town medical men. He is at present d at Pan Vasses, Pyrenees, as first nt in the Sanitary Corps.

E. H. McCLELLAND, Secretary.

LAKE CITY ALUMNI CHAPTER

Salt Lake Alumni Chapter is still d we hope now that the boys are g to renew interest and hold our meetings as heretofore.

undersigned has been elected sec- and am getting together a bunch criptions which want to make as s we can to forward in. Beginning onth we will resume holding our meetings and would be glad to wel- y visiting Sigs.

B. J. ENGLE, Secretary.

SPOKANE ALUMNI CHAPTER

During the war our Alumni Association here has been non-existent. Of course there are a few of the boys such as the writer who stick around but practically all are in the army. However, recently Bob McCormack, Gamma Zeta, returned from California where he won his second lieuten- ancy in aviation and is disappointed at not having a chance at the real life over the German lines. Bob expects to go into banking and will probably locate some- where in the country, surrounding Spokane.

Doc Herbert E. Wheeler, Gamma Rho, has for some time been in France. He entered as a first lieutenant and has been promoted to a captaincy and during the latter end of the war was continuously close up to the front line where he had charge of the most desperate cases wounded in the head, chest and abdomen and which could not be moved. Therefore he has had to operate under fire almost continuously or so close up to the trenches that the German aeroplanes sometimes shot them up with machine guns not to speak of bombs. He tells of one instance where twelve German planes came down so low over the hospital where he was operating that our men shot at them with pistols and rifles, one man in the operating room being injured and while he writes that he wanted to get into a dugout mighty bad, he could not leave the unconscious patient who was under his knife and that every- one of the hospital staff stuck. The Doc was one of our best surgeons before he left and will come back an extra fine one.

Dan Hanna, Delta Omicron, is in the Navy but we do not at present know his address. When last heard of he was enjoy- ing the life and was in good trim.

F. V. D. Bangs (John Kendrick), Beta Psi, has recently secured a commission in the Infantry.

Ralph Emerson has returned to town and gone back into business. He was an en- sign in the navy.

Ralph Hettrick Emerson, Beta Chi, 135, also Ralph Waldo Emerson, Beta Rho, 174; neither of these men on soldier list.

Ed Robertson, Gamma Chi, has been pro- moted to a captaincy and is now in France.

Bert Ritter, Delta Iota, is also in France with the 91st and has a commission.

Paul Wheatley, Gamma Eta, we under- stand is at Riverside, Cal., completing his course to secure a commission in aviation.

Our crowd here is very well represented in one branch or other of the service but their absence prevents our holding any meeting.

ORRIN G. GOOD.

Alumni Notes

BETHANY COLLEGE

Epsilon Chapter

Brothers Arthur C. Mornes and Finis W. Dunn are in the American Army of Occupation in Germany.

Brother Hugh D. Darsie, '17, was wounded in action. He was recovered sufficiently to leave the hospital just before the signing of the armistice.

Brothers Orville J. Brown, '15, Ernest Porterfield and Charles Kaiser and Pledge J. R. Kinney were in Field Artillery C. O. T. S. when the armistice was signed. Brothers Brown and Kaiser remained to complete their course. Brother John W. Chapman remained at Camp Lee to complete his course in the Infantry C. O. T. S. Immediately after doing so he will re-enter college at Bethany.

Among the Brothers recently discharged are Lieutenant Raymond S. Reid, who will return to college next fall; U. G. Palmer, Jr., who will do likewise; Dean E. Walker, who has already done so; A. H. Hunt, who will return for the spring term, notwithstanding the fact that he graduated last year; Charles E. Hoover, who returned to the S. A. T. C. for the balance of the fall term, and will be back in time for baseball; W. E. Rownd, who also returned to the S. A. T. C. for the balance of the fall term, and will be back again next fall; Ernest R. Porterfield, who may be back next year to graduate; and Lieutenant Harry T. Molden. Brother J. Roane. Lumpkin writes that he will return as soon as he is discharged. It is likely that several others in the service will be back next fall.

Brother Stanton C. Crawford, '18, fell ill at Camp Lee, and returned home and was confined to his bed for a number of weeks. He has nearly recovered now.

It is reported that Sheldon W. Simms, of East Liverpool, Ohio, who was a pledge in 1914-15, was killed in France. He was in the 15th Engineers, one of the first outfits to go into action.

Brother Ernest E. Harmon, '13, a lieutenant in aviation, flew over Bethany on December 19.

The Chapter is unable to locate Brothers Olus Jesse Stewart, Benjamin Franklin Smith, Nizzo Surnda, John W. Goodin, George Francis Wolfe, Joseph Henry Cummings, N. R. Jobs and T. A. Cooper.

U. G. PALMER, JR

MERCER UNIVERSITY

Eta Chapter

Brother Wayne P. Sewell, our Past Vice-Regent, has enlisted for overseas service in the Y. M. C. A. He is at present stationed at Pensacola, Florida, where he will be in charge of a number of counties in that immediate section in the United War Work Drive.

Brother Robert Berner Williams is a sergeant in the Quartermasters Corp, and is somewhere in France.

UNIVERSITY OF ALABAMA

Theta Chapter

Brother John Inzer Freeman with the A. E. F. in France has been promoted to a captaincy.

Brother Calvin Poole was severely wounded and promoted for bravery in action in France.

Brother J. C. Curry was wounded twice but has recovered and is now at home, having been discharged from service.

Brother Leslie Longshore has received his discharge from the aviation corps.

Brother Hugo V. Friedman, adviser to Theta Chapter, has returned to this city from Italy.

Brother W. S. Herren is with the A. E. F. in Italy.

Brother W. D. Crews, Jr., is with the A. E. F. in France, but expects to be sent home soon.

Brother W. A. Leland, Jr., has received his discharge from the army and is engaged in business in Tuscaloosa, but he works as hard as ever for Sigma Nu and has been a great help to Theta Chapter.

JAMES E. ROBERTSON, Reporter.

First Lieutenant Thomas M. Owen, Jr., 70th Field Artillery, was mustered out of service on December 20, 1918. He has located in Charleston, West Virginia, where he will have a position with the Libby-Owens Sheet Glass Company.

HOWARD COLLEGE

Iota Chapter

Dr. Manly R. Joiner, our inspector of the Third Division, recently lost his father, Major George A. Joiner.

NORTH GEORGIA AGRICULTURAL COLLEGE

Kappa Chapter

Brother R. C. Porter, '09, is now traveling with the Michelin Rubber Company in South Carolina.

Brother Horton Christopher, recently of the Engineers and Kappa, '17, has returned to Chicago, and we are very glad to have him back with us.

Brother C. R. Long, who was at Mercer University and Eta Chapter, this fall, has returned to Kappa.

Brother S. C. Fawcett is now located with the Western Electric Company in Atlanta, Ga.

Brother E. C. Ripley, recently in a training camp has been discharged, and is now with an insurance company in Atlanta, Ga.

P. H. EMMITT, Reporter.

Brother Lorens F. Logan, Beta Psi, writes: Brother Edward C. Ripley is taking the electrician sergeants course at the Enlisted Specialists School, Norfolk, Va.

WASHINGTON AND LEE UNIVERSITY

Lambda Chapter

Brother Luther A. Dillon is with J. H. Christian & Company, merchandise brokers, Huntington, W. Va.

UNIVERSITY OF GEORGIA

Mu Chapter

Brother Lunsford Dickson Fricks has been a surgeon in the U. S. Army for years.

Brother Leland Stanford Busey, is in the Officers' Training School at Camp Zachary Taylor, Louisville, Ky.

Dr. Dan Hughes DuPree, is a captain in Medical Reserve Corps and is in active service.

Brother Albert Amis Rayle is a first lieutenant in the service.

Brother Guy Olis Whelchel is also a first lieutenant in the service.

UNIVERSITY OF KANSAS

Nu Chapter

The University of Kansas is preparing an honor roll of all the university men who have given up their lives in the service of the country, whether on the field of battle or in the training camps. The list of 101 names given out January 15th, contains

the names of four members of Nu Chapter of Sigma Nu—T. W. Benson, Vandever Martin, William S. Murphy and Harry B. Slaymaker.

Brother Richard Joseph Hopkins has just been elected attorney general of the State of Kansas—an honor which he obtained because of his activities for a new order of life, social, political, and economic, in Kansas.

Frank R. Whitzel, '96, a regular contributor to The Open Court, is the author of "Modern Criticism and the Resurrection" in the July number.

Merle C. Prunty, '09, is principal of the Central high school in Tulsa, Okla.

Justin Irving Miller, '17, is now located at Independence, Kan. He is an abstractor of titles and an attorney-at-law.

Webster Watterson Holloway, '13, writes from Washington, D. C., under date of October 24, that he has been made a captain in the Judge Advocate General's Division, and that he is still assigned to duty in Washington, D. C.

GRANT W. HARRINGTON.

Major Bert William Voeth has just returned from France, where he has been serving for over a year with the Marines. Major Voeth fought through the battle of Chateau Thierry, where he was wounded and the St. Mihiel drive.

EMORY COLLEGE

Xi Chapter

Brother Leonard P. Rogers was recently commissioned first lieutenant. His promotion came rapidly—in six months' time he was raised from a private in the depot brigade to a commissioned officer. The Brothers who attended the Eighteenth Grand Chapter, will remember that Brother Rogers was Xi's delegate.

Brother Lewis Payne Shelton, of Valdosta, Ga., is in the U. S. Army "Somewhere in France."

Brother L. P. Rogers has been discharged from the service and is now with W. P. English & Company, Warrenton, Ga., selling Fords.

UNIVERSITY OF MISSOURI

Rho Chapter

Hon. James E. Goodrich, A. B. 1892, LL. B. 1893, a member of the Kansas City Bar, has recently been appointed a member of the Board of Curators of the University of Missouri by Governor Gardner.

Brother X. P. DeGraw, of Brookfield, Mo., and Kansas City, who was active in

Rho back in 1892, was in attendance at M. U. the first term of the school year, taking special work in French.

Brother H. A. (Jack) Collier, who last November was elected probate judge of Boone County, of which Columbia is the capital, was inducted into office, January 1. The Boone County Bar Association presented Jack with a bouquet of roses.

Brother Lakenan M. Price, who has active charge of the finances of Rho Chapter House Corporation, is at home again in Columbia, having recently returned from an officers' training camp.

Brother David E. Killam, LL. B. 1908, of Troy, Mo., was elected at the November election to represent Lincoln County in the lower house of the Missouri General Assembly. It is of interest to note that Brother Omer Avery, Jr., now with us, is a brother-in-law of Brother Killam.

Brother W. Millikan Neil, of Independence, Mo., made Rho a short visit on his way home after discharge from service. As a lieutenant in the 110th U. S. Engineers, he saw four months' service in France in the front line trenches.

Brother Oak Hunter, of Moberly, is a member of the Legislature from Randolph County.

O. M. BARNETT,
Chapter Adviser.

VANDERBILT UNIVERSITY

Sigma Chapter

Another Sigma Nu was born when Brother and Mrs. E. B. Milam announced the arrival of their son in October. Four Brothers of E. B. are already Sigas.

Brother Carr Payne, lately returned "from the wars" writes:

Went over yesterday to see Brother Earnest Milam's sixteen-pound young Sigma Nu, aged three months.

As to myself I just returned from Delaware College with a discharge from the Army. I will probably be back in Vanderbilt and help in Sigma Nu's reorganization after Christmas. Haven't been here long enough to get all the dope on Sigma, so will postpone a news letter to you for a few weeks.

As to Sigma's ex-soldiers, here goes a partial report:

Brother Lee Owen quit Camp Taylor with a commission in the Reserve and is now in Memphis.

Brother R. P. Stewart is back from O. T. C. and will teach at University of Oklahoma.

Brother L. G. Kilvington returns to Nashville as an ex-second lieutenant in the Quartermaster Corps.

Brother Ed. Everett returns, after having been promoted to captain as an instructor in O. T. C.

Brother Noble Van Ness is in New York, on his way home from a trip to England with the Tank Corps.

Brother Joseph Alford writes that he is convalescing in a French hospital.

Brother James L. Boone, Sigma's representative in the famous Rainbow Division, writes from Marseilles, where he is touring, after a short sickness.

Brother J. J. Thomas, L. Stevens and W. Tate have returned from an artillery camp, and will be back in school.

As to the Alumni, Brother L. G. Kilvington has ceased to be one and is back in college taking his M. A. degree. Of course Brother Kilvington was a stunner in uniform, but we like him just as well as a peppy student.

Brother Noble Van Ness, of the Tank Corps, is back from England and at present at Camp Gordon.

Brother David Hardison is still at the Artillery O. T. C. at Camp Taylor.

Brother R. P. Stewart has returned to the University of Oklahoma as a professor of English.

Brother Guy D. Schoonamaker recently visited the Chapter, having just received his discharge from the Army.

Brother Harvey Hannah was recently installed in a new political office. (Don't recall the office, but know Sigma Nu names when I see them in print)

Brother R. R. Sneed, of the C. A., recently H. Delcher in Jacksonville, Fla.

LOUISIANA STATE UNIVERSITY

Phi Chapter

Brother Lorens F. Logan, Beta Psi, writes: Two Brothers from Louisiana State University, Brothers Carruth and Querbes have arrived to take the Sergeant Major's Course. I looked them up and found them quartered in tents up on the ramparts. They were as glad to see a Sig as I was to see them, and we had a mighty fine chat together. They spoke of one Brother Nadler, from Louisiana State, who was taking the Master Gunner Course in the Enlisted Specialists School here, and after supper I looked him up, as I have access to the records in the office here, and sure enough I found him in the squad room on the floor above me. Well, I took him up to the tents, and the boys had a very pleas-

ant reunion. Carruth and Querbes, by the way, are awaiting to take the Sergeant Major's course in the school here.

UNIVERSITY OF NORTH CAROLINA

Psi Chapter

Brother Lorens F. Logan, Beta Psi, writes: Brother Charles S. Carr, for whom you had no address, is located with the F. S. Royston Guano Co., and his home address is 719 Stockley Gardens, Norfolk, Va.

DEPAUW UNIVERSITY

Beta Beta Chapter

A daughter was born to Mr. and Mrs. Wilbur D. Brown, of Sullivan, Indiana, on October 26, 1918. Brother Brown was a graduate of DePauw University with the class of 1915. Mrs. Brown was formerly Miss Burah Maxwell, a graduate of the DePauw University School of Music, and a member of the Kappa Kappa Kappa Sorority.

Reverend Paul Mansfield Spencer, Grand Chaplain, has been a member of the Exemption Board of his District from the time war was declared and his duties in the draft in addition to his work at the Church of the Strangers, New York City, has been heavy and continuous.

Brother Paul Gordon has been ill for many months with tuberculosis. His present address is 1314 East Central avenue, Albuquerque, New Mexico. He writes, expressing his undying interest in Sigma Nu and Beta Beta Chapter. Brothers, please write him.

INDIANA UNIVERSITY

Beta Eta Chapter

Brother Simon E. Twining writes:

Rejected for military service on account of hernia. Gave up Charlotta Elizabeth Proctor Fellowship at Princeton University in December, 1917, to assist Federal Trade Co. in conduct of Grain Exchange and marketing investigation. Carried on field investigation in Minneapolis, Duluth, Minn., and Fargo, N. D., for two months, and at conclusion of field work went to Mayo Brothers' Hospital at Rochester, Minn., and was operated on for the hernia. Got back East just in time for announcement of armistice; too late to get into khaki. Home now assisting F. T. C. in writing the report on the grain investigation.

MOUNT UNION COLLEGE

Beta Iota Chapter

Brother W. Stanley Smith is professor of English Bible in his Alma Mater, Mount Union College.

Brother Elgie Bandy has been secured as the new paid Y. M. C. A. secretary at Mount Union College. He will also have charge of the Freshman dormitory at Miller Hall, the new "College Common." He has just returned from doing Army "Y" work at Camp Humphries, Va.

Brother Harmon H. McQuilkin, one of Beta Iota's charter members, is pastor of the First Presbyterian Church of Orange, N. J. Before accepting an Eastern pulpit, he was pastor at San Jose, Cal., for ten years, and at Cheyenne, Wyo., for six years.

Brother Lloyd Bletzer has returned from Camp Gordon, Ga., and resumed his position as secretary of the Noaker Ice Cream Co. in Canton.

Brother Harry Weaver is finishing his Junior year in Reserve Medical School.

Brother Chester Eynon is now holding a position in the internal revenue collector's office at Cleveland.

Wade H. Miller is district credit manager of the Goodyear Tire and Rubber Co., St. Louis, Mo.

Allen Springer is one more Sigma Nu added to the many at the Goodyear Tire and Rubber Co.'s offices in Akron. He was recently discharged from the Aviation Branch as lieutenant.

Brother Curtis M. Shetler, city solicitor of Alliance, is the proud father of twin daughters, born on January 4.

Born to Brother and Mrs. Lorin L. Frick, of North Canton, a daughter, Ruth.

LEROY E. MARLOWE,
Reporter.

UNIVERSITY OF IOWA

Beta Mu Chapter

Brother Carl Magee is vice-president of the Blackhawk Petroleum Co., at Tulsa, Okla. He recently married Miss Margaret Cook, at Clinton, Iowa, who was a co-ed at the University of Iowa, when he was there.

OHIO STATE UNIVERSITY

Beta Nu Chapter

George A. Caskey, lawyer, president and general manager of the Caskey Cleaning Company of Columbus, was elected a director in the National Dry Cleaners' Association at the annual meeting in Atlantic City the past summer.

The proposed amendment to the Ohio constitution for the classification of property for taxation purposes has finally been adopted. This amendment had the backing of the Ohio Taxpayers League of which Brother Harry L. Hopwood was secretary.

Lieutenant Earl B. Tussing, ex-'18, of the Air Service, at present stationed at Ellington Field, Texas, was a visitor at the Chapter House during the holidays.

Lieutenant Henry Metcalf, '18, has been discharged from the army and is back in Columbus, his home. Brother Metcalf was stationed at Camp Hancock, Ga.

Lieutenant Marion C. Overturf, '18, has received his discharge from the service. Brother Overturf received his commission in the Heavy Field Artillery and at the time of his discharge was attending the School of Fire, Ft. Sill, Okla.

Lieutenant Clarence P. Wilcox, ex-'18, of the Air Service, has received his discharge. Brother Wilcox was in New York City awaiting orders to proceed "over there" when the armistice was signed. Brother Wilcox expects to be back in school the second semester.

Lieutenant Spencer S. Hunt, ex-'18, of the Air Service, has received his discharge from service and is at present at his home in Barnesville, Ohio.

Brother J. D. McNamur, ex-'18, spent New Years in Columbus. Brother McNamur is in the Navy. He expects to be discharged and to return to school in the near future.

Brother William Lewis, ex-'19, has received his discharge from the Navy and will re-enter school the second semester.

Lieutenant Joseph H. Palmer, '17, is with us once again, having recently been discharged from service at one of the southern camps. Joe is at present registered in the Agricultural College of the University.

Gamma Alpha Chapter

Dr. Henry Latimer Rudolph has been commissioned a captain and is stationed at Camp Gordon, Atlanta, Ga.

Brother Charles William McNair is a graduate of the U. S. Naval Academy at Annapolis, Md.

Brother Charles Warren Pittard is a first lieutenant "Somewhere in France."

ALBION COLLEGE

Gamma Gamma Chapter

Brother Jay Wade is teaching in Cadillac high school.

As my home is in Albion; I was able to spend a week there when the college was starting its academic work for the second term without the S. A. T. C. The Chapter included about twenty-five men (actives and pledges) and everyone seemed to be entering into college and Fraternity life with real earnestness. Brother Robert Baldwin's untiring efforts have saved the day more times than one during the past year and he is at present the chairman of a committee for the purchase of a Chapter House for next year. The other members of this committee are Brothers Archie Young and Arthur Hudnutt, two other Albion business men.

Brother Owen Emmons is and has been athletic director of the Y. M. C. A. at Camp Custer, Mich.

The three Hudnutt Brothers, of Gamma Gamma, were all in the service when the war stopped. This is how they stood. Dean Hudnutt, major, Field Artillery, on duty in France; Arthur Hudnutt, Officers' Training Camp, Camp Grant, Ill.; Orrin Hudnutt, captain, Medical Corps, on duty overseas.

Brother Collis Ringo has been discharged from the army and is back at his old position as manager for the Caskey Jewelry Co., Lexington, Ky.

Brother Homer Combest has recently received his discharge from the army and will locate in Danville, Ky.

Brother Priest Kemper who is connected with a large contracting concern has gone to Oklahoma on a railroad building project.

Brother Keel Pulliam, who returned from the war zone recently has been discharged from the army and is now at home in Lexington, Ky.

Brother Hartford Matherly, who was an instructor in machine gunnery at Camp Gordon has received his discharge from the army and is now farming near Springfield, Ky.

Brother Guy Huguelet is back in Lexington after an extended stay in South Carolina and Alabama. Brother Huguelet is one of Lexington's successful young lawyers.

Brother Harold Pulliam, recently returned from overseas, and will be stationed at Hampton Roads. He has been spending several weeks in Lexington with family and friends.

Brother James A. Wilmore was discharged from the army some time ago and is now prosecuting attorney for the city of Lexington.

Brother Warren Fletcher is stationed at Fort Sill, Okla.

Brother F. H. Wright recently returned from overseas duty and will probably locate in Lexington upon receiving his discharge from the navy.

Brother Harry Lovelace has accepted a position with a large coal company at Antheras, Tenn.

Brother J. S. Watkins has been discharged from the army and is working on an engineering job in Ohio.

Brother Wayne Davies is connected with the Toledo Street Railway, Toledo, Ohio.

Brother George H. Wilson is located in England with Base Hospital Unit 40. Brother Reed Wilson is with the same organization.

Brother M. M. Montgomery is stationed at Fort Sill, Okla. He is a lieutenant in the regular army.

Brother Morris Pendleton is with the B. E. F. in Italy, and writes that he has heard so much Italian opera that he sings it himself.

Brother Charles Schrader when last heard from was an instructor in mathematics at Great Lakes Training Station.

Brother William Baughm is expected home soon, as he is due to be discharged from the navy in the near future.

Brother J. W. Marr, who was in training for naval aviation, has received his discharge and is back in Lexington, Ky.

Brother Tilford L. Wilson is now connected with a large implement concern in Lexington, Ky., after serving for one year in the army.

Brother Ben Wilson is instructing in Cornell University in the Animal Husbandry Department.

Lieutenant J. W. Atkins is with the American Army of Occupation in Germany.

GROVER H. CREECH, E. C.

UNIVERSITY OF WISCONSIN

Gamma Lambda Chapter

It is hard to keep up with Lieutenant George A. Chandler these days; he is moving so fast since the December Delta was out. First he was promoted to Assistant Deputy Zone Supply Officer at Camp Custer, Mich. As he says, "The whole supply game is being reorganized." Then he writes us that he expects to be in the army for some little time yet. "They have recently made me chief assistant inventory officer for all government property in this camp, all of which is to be carefully inventoried as of December 31st. My work will consist largely in revising, co-ordinating, and tabulating the results. And then they have me slated to conduct a school in army shoe-fitting during January! Doesn't look like I'd be discharged for a while, does it?" On New Year's Day Brother Chandler announced he had a "road job" as zone property accounts auditor, and, after completing an inventory of camp property at Camp Custer, he would report to Chicago. We can't say just where he is at the present time, but we know he is working there for Sigma Nu as always.

Chester E. Rightor, who has been with the Federal Bureau of Efficiency, is now connected with the Detroit Bureau of Government Research, Inc., whose director is now Lent D. Upson. Brother Rightor succeeded Dr. Upson in charge of the Dayton Bureau of Municipal Research, resigning from that position to go with the Federal

Bureau. Delta readers will remember Brother Rightor's article on Municipal Research as a Profession, last year, written while he was at Dayton. In January, we received a letter from Brother Rightor, written from Richmond, Va., where he was doing some research work for the State of Virginia, for the Governor, Brother Westmoreland Davis, Beta.

Brother Rightor writes us:

"I have in my hand a letter from Brother P. H. Myers, who is at present associated with Arthur Young & Company, and at the present time is in Ottawa, Canada, where he has the direction of the work of classifying the personal service of the Dominion of Canada. He has been up there several months, since August, and as the task includes the classification of about 50,000 positions, and involves the great distances that we read about so much in Robert Service's works, you see it is some genuine task that Myers has. I merely mention this because Myers has had an interesting lot of experiences in accounting and public service since he left old Wisconsin's campus back in 1908."

Lieutenant George A. Chandler writes of a trip back to his Chapter House: "It was my privilege to visit in Madison over this past week-end [the first part of December, while the S. A. T. C. was still under operation], and it surely was a pleasure to see all the young "old" men and to meet the new boys—almost all of them in one uniform or another. Already some of the boys are returning from the camps, and we expect to open up the House January 1 with a full quota, even perhaps to overflowing.

"We are thanking our lucky stars that we have had women in our House instead of soldiers, for the place is in splendid condition, whereas the other Fraternities have to do a great deal of repairing and redecorating before they can move back. [The Gamma Lambda Chapter House was taken over by the University for a girls' dormitory and not for use as barracks, as was the case with other Fraternity Houses.]

"Those girls regarded our big rug with the crest in the center as a sort of sacred object, and even removed it to a place of safety upon the occasion of an "Open House" to soldiers.

UNIVERSITY OF ILLINOIS

Gamma Mu Chapter

Brother Humphreys O. Siegmund is in the Electrical Engineering Department of Drexel Institute, at Philadelphia, Pa. Brother Siegmund was an instructor in the School of Military Aeronautics at the University of Illinois from July, 1917, to October, 1918, and during that time enjoyed the status of a civilian, an officer in the Na-

tional Guard of Illinois, and a private in the Signal Corps. When the Student Army Training Corps was organized, he was transferred to Drexel Institute as Assistant Professor of Electrical Engineering.

Brother J. Edson Millizen is treasurer of the Physicians' Laboratory Supply Company, 119 N. Wabash Avenue, Chicago, handling laboratory apparatus and equipment.

UNIVERSITY OF MICHIGAN

Gamma Nu Chapter

Howard P. Brydon, of Keyserville, Md., was fuel administrator for the State of Maryland. He had on his staff, Brother Geo. Lewis Neuhoff, of St. Louis.

Bruce J. Miles, formerly Chapter Adviser, is a captain in the Air Service, U. S. A., being assigned as liaison officer on Liberty engines to the U. S. Navy. He received his discharge in February and returned to Detroit. His engagement has been announced to Miss D. Wilda Seligman, daughter of Mr. and Mrs. S. G. Seligman, of Tamaqua, Pa.

Brother Walter R. Payne, second lieutenant, Ordnance Department, is an inspector stationed at the Morgan Engineering Co., Alliance, Ohio.

George N. Maurer has obtained his release from the Bureau of Aircraft Production and is now with the Goodyear Tire and Rubber Co., Detroit.

BRUCE J. MILES, Gamma Nu.

Brother Leslie Drake, '17, was stationed at Ames, Iowa, the past summer, as adjutant to Captain J. Meems, V. M. I. He was then put in command at Ellsworth College, Iowa, and made a captain. He is now commanding officer at the University of Nebraska.

Brother W. W. Trent is superintendent of school, Elkins, W. Va.

UNIVERSITY OF CHICAGO

Gamma Rho Chapter

Harold Smith Conover, recently discharged from the navy, gave the convocation program here yesterday—cello solos.

He expects to take up musical work in Chicago a little later, I believe.

Ensign Geo. Schuyler is assigned to the U. S. Sudbury.

Brother Arthur Stringer is doing Red Cross work in Washington.

Brother M. C. Lawrence, a second lieutenant in the Aviation Corps, is now located at Fort Sill, Okla. He says he has plenty to do.

Brother W. E. Wrather has been recently working for the Treasury Department as an expert on the valuation of oil properties.

Brother Fred Kay is secretary of the Twin States Oil Company, Tulsa, Okla.

Brother Gaarde is serving in the Medical Corps.

LIEUTENANT ORA H. PRATHER.

SYRACUSE UNIVERSITY

Gamma Psi Chapter

Francis Cornan, '17, received the distinguished service medal for bravery in action, and every member of Gamma Psi is proud of him.

Lieutenant William R. Schaefer, '21, U. S. F. A., visited us on his way to Fort Sill, Okla. He was one of twenty officers picked to take the Salvage Course at Fort Sill.

Frazier Montange has been made ensign; also E. L. Adams.

LESLIE M. THOMPSON,
Reporter.

CASE SCHOOL OF APPLIED SCIENCE

Delta Alpha Chapter

On December 23rd, I dropped in at the Sig House in Cleveland, but the only sign of life there was a light burning downstairs.

I am now a sales engineer with the Barber-Greene Company and for the immediate future will be located with them at their works in Aurora, Ill. A week or ten days ago I spent a couple of hours in Chicago with Charles W. Cleveland, who was in Delta Alpha with me, in fact, it was he who made me a Sigma Nu. He is a chief clerk with the Commonwealth Edison Company, 72 West Adams Street, Chicago. He lives a little outside of town in Oak Park. This afternoon or evening I hope to get acquainted with his wife and Charles, Jr.

Charley's brother Jim is in the Army. If my wife doesn't come on too soon, I may get in touch with the old Delta Alpha bunch, sans resolution, however.

WALTER A. BUELL.

Brother C. L. Royan is with the du Pont Company at Philadelphia, acting in the capacity of research chemist in the chemical department.

COLUMBIA UNIVERSITY

Delta Gamma Chapter

Brother Walter Rogers Primm was in the December graduating class at Camp Hancock O. R. T. C. This is the only officers' training camp for ordnance. He received commission as second lieutenant.

PENNSYLVANIA STATE COLLEGE

Delta Delta Chapter

Delta Delta is trying to secure an up-to-date list of the present addresses of her Alumni. This is a task that is not as easy as it may appear. Will all the Delta Delta Alumni kindly co-operate by sending their permanent addresses to the Chapter?

JOHN F. KELL, Reporter.

Delta Delta had twenty-eight survivors before vacation, and expects a record this year. I have since gotten the first issue of the college newspaper put out after college reopened (G. W. Sullivan, '19, is editor-in-chief). From that one issue it looked as though the Chapter were keeping up our old remarkable record of best representation of any Fraternity there, in college activities.

G. W. Cupit, '19, I see has been elected to Lion's Paw (that is the Senior honorary campus society there) as well as being varsity soccer captain and a member of student council.

Delta Delta will probably have a few more added to the Chapter roll the second semester, when C. W. Brown, B. P. Webster, Evans Crow, J. E. Allen, William Bennett and "Bill" Etters expect to re-enter college.

Brother C. R. Mason, who sent us these notes, is an instructor in Horticulture at Purdue University. He has been in charge of war garden work for the Indiana State Council of Defense during the past year. but is now back at Purdue.

WESTERN RESERVE UNIVERSITY

Delta Zeta Chapter

Dr. Robert E. Stobie was commissioned as first lieutenant in the Medical Corps and sent to Camp Greenleaf, Ga., after nearly completing an eighteen months' internship at Mercy Hospital, Chicago.

Rev. Walter C. Schafer is university pastor at Iowa City, Iowa. He says: "There are about three hundred congregational students at the University of Iowa whom I have to look after, that they do not neglect to take their spiritual nourishment according to prescription. And that is interesting work."

Ed. Braun varied the monotony of camp life by swift changes in duty. He says: "It is almost as bad as being picked up as a suspicious character." [You old boys all remember the Colorado Springs incident, and the whitewashing given him in the Pickwick Club. Far be it for us Delta Zeta men to mention the subject unless he brings it up.] First, since the December number, the "flu" epidemic sent him to "special duty" in the Base Hospital. "Curses," says he, "upon my medical education." First we knew about it, Ed, for we thought that was an excuse to explain why you are away from "home" so much. He gravely informs us not to mistake his "duty"; "no, it was not what you think it was," again says he, but fails to give further details. At least he stayed there long enough to quit and go back to the Brigade Personnel office.

Sam Amidon, Braun writes, transferred to the Medical Department in the main laboratory.

Tom Scott—I beg pardon—Lieutenant Thomas Blair Scott, of the Reserve Corps, expected a military band and double column procession to greet him at the Union Depot—a veteran of the battle of Camp Taylor. I refrain from saying what he did get.

King Radcliffe (that's his name, not his title), reports an enjoyable summer in the Motor Supply Truck Company, driving in an experimental trip with Packard trucks from Detroit to Baltimore, to see if this method of transporting trucks could be used to help relieve the railroad congestion. King had a wonderful time enroute, for he writes: "People seemed to think it their duty to see that we were given plenty to eat and plenty of entertainment. After last April, he was assigned to the Constructing Quartermaster's Department at Camp Sherman, Ohio.

Brother Radcliffe mentions catching there a glimpse of the elusive and fugitive, J. Earle Dahm, alleged to be a second lieutenant in the Gas Defense Service.

Word from "Poly" Standish (Roland D.) implies good health for the Standish family. "Poly" notes the growing roll of Delta Zeta, Jr., and as a pioneer himself, congratulates all the proud fathers (and Uncle Howard).

Bre'er Fox gives a long description of his "war work" which will interest you now that the censor permits publication. You can see Frank is the busy man of Akron, Ohio:

"Since the middle of June I've been in the City of Opportunity and Rubber. My work in the Goodyear Service Department has given me a chance to get over the whole plant, and I can give you some idea of the war activities in which we're engaged. The articles turned out for the Government include truck tires, solid and pneumatic, gas masks, dirigible and kite balloons, shell covers (shaped like a clown hat to keep the steel bullets from being corroded by gas), tires for passenger cars and motor cycles and a number of articles under the head of mechanical goods for parts of engines, etc. Some of the solid tires measure 60 inches by 8 inches and are used on 152-inch howitzer trucks.

"The balloon testing station at Wing-foot Lake (where I once put in a summer loading ice) showed me a number of interesting things. They test the balloons and aircraft made here and train naval aero students. The dirigibles carry about six men and may be developed to be used in transporting loads between cities instead of airplanes.

"You may think it strange, but in making gas masks, the first material used is only a strip of rubber about two by six inches oblong. This is cured in a mold which gives it the shape of the face. After the eyes have been cut out and the goggles inserted, the edges are finished and covered and the nose clamp, tube and head bands inserted. Each one costs about ten dollars."

Coridon E. Stephens asks for a reunion of Delta Zeta soon. He'll get it when the boys come back. "The gentleman from Warren" seems to have a corner on things down there, and we know he deserves it. Good old Stevie! Attorney-at-law, secretary of the Merchant's League, secretary of the Real Estate Board, chief deputy of the Election Board, and examiner of Titles under the Torrens law. These are a few of his jobs. Also he is in the real estate business himself, with an interest in about twenty-five houses and an allotment in every direction from the square. By the way, how many directions are there in Warren, Ohio?

Lieutenant Albert S. Allen has gone to Berlin—that was his objective from the first, only he says "not in the way and to the place expected"—Mills, New Hampshire. He is research chemist for the Burgess Sulphite Fiber Company.

James V. Suhr has a record none may equal (according to his own story). No one knows what he might not have attained if the hun had not laid down. "I am not going up in 'this man's army' like most of the fellows seem to be doing, in fact, I went down from first-class private to bugler or 'wind-jammer.' I have been practicing diligently ever since I got here, but, of course, am not yet good enough to

go on duty. Our course on the anti-craft guns was cut short after four weeks, because of the termination of the war, and now we have nothing but infantry drill." Then, too, he was privileged to be in Paris when the peace celebration occurred, which is a wonderful experience in itself. "I have been fortunate enough to get to Paris four times, and especially at the time when Paris was celebrating her victory. I never saw such a crowd of wild people in all my life, and—those women—I can not describe them on paper."

Tom Scott is back to his old love Cleveland, and his new love Helen. It is now Lieutenant Thomas Blair Scott, U. S. Reserves! His dignity is excruciable and his aplomb infathomable. He has gone again into insurance lines and is with Richey, Kroll and Company, Marshall-Building-on-the-Square.

The chief topic in the camps, is "When will we get out," which accounts for the brevity of this Alumni letter to the Delta. As for the Alumni, not in the army, (except for these faithful few above named) they refused to be interviewed this time.

PERRY D. CALDWELL.

UNIVERSITY OF NEBRASKA

Delta Eta Chapter

Delta Eta has, at last report, three gold stars in her service flag. Brothers Alex Cone and "Dusty" Rhodes, killed in action in France, and Brother Paul Young, S. A. T. C. dying of influenza at the Fraternity House at the university. Those of us who knew these Brothers, regret deeply their taking off, for they were men of sterling qualities and true "Knights of the Legion of Honor."

Brother Mones J. Hawley, '12, reports that the practice of the law is very satisfactory at Douglas, Wyoming, where he has been since leaving school. Brother Hawley has been very active in the service of the government in his district since the outbreak of the war.

Brothers Orval L. Brace, Gamma Rho, and Howard F. Weiss, Gamma Pi, have received their discharges and are in Lincoln, for a short time before resuming their active duties again. Brothers Earl R. Carse, Roy A. Brownell, George G. Armstrong, all of Delta Eta, have returned from the service and are again in Omaha, back at their old stands.

Brother Glen Miller has been assistant house doctor at the Douglas County Hospital, at Omaha. He expects to finish school early this spring. Dr. Miller was very active in the fight against influenza, in his home town of Harlan, Iowa, where he was called to assist the local doctors, when they became overwhelmed with work last fall.

Brother Ernest Kenny, Lincoln, has been appointed Chapter adviser for Delta Eta, to succeed Brother W. L. Randall, who was lately appointed inspector of the Tenth Division. This by the way is the first time that a Brother from Delta Eta has held the office of inspector.

Brothers Krahulik, Folken, Safarik and Ross are in the medical department of either the army or navy.

Brother Burnam Ames who has been waiting for some time for his call to active service in the Dental Corps of the army, has received his discharge from the service and will engage in the practice of dentistry at Lincoln, Neb.

Brother Elseffer has lately taken a position with the First National Bank of Council Bluffs, but still retains his home on the Omaha side of the river. Brother Elseffer has figured out (and we believe correctly) that he spends one month in every twelve in going to and from his work. One hour each way a day, making two hours in all, if correctly figured will amount to one month in twelve.

Brother Trumbull has been farming near Omaha for the past several years, expects to move to Wyoming in the spring, and proceed to break the virgin prairies of that state, near Douglas.

If the Brothers who have gone to distant parts and have not been in touch with the Chapter would take the time to drop us a line after reading these few notes we would appreciate it very much and many other Brothers would be glad of a word from them through the medium of the Delta. Write to the Chapter a note telling us where you are and what you are doing, or to BILL RANDALL, the author of this humble effort, 437 Omaha National Bank Bldg., Omaha.

DELAWARE COLLEGE

Delta Kappa Chapter

Lieutenant Howard Bratton is an instructor at an aviation school in Texas.

Lieutenant William S. Fitzpatrick, U. S. aviation, is stationed at Miami, Florida.

John Wilson O'Daniel has been awarded the Distinguished Service Cross for extraordinary bravery in action. Brother O'Daniel has recently been promoted to a captaincy.

Lieutenant E. S. Wilson, U. S. Engineers, has been in active service in France since September.

Lieutenant D. P. Horsey has been over the top several times. He is at present stationed in Belgium.

Captain L. L. Smart, of the American Flying Corps, has been in active service in France for some time.

Harvey R. Lindsay, U. S. Marines, is on special service in southern France.

Robert Sumwalt has received his discharge from the army and has gone to Boston Tech. to take up advanced work in Engineering.

Irving H. Boggs has a position with the Delaware State Road Commission. Brother Boggs was a lieutenant at Camp Lee prior to taking his present position.

Carl Fischer is a sergeant in the Chemical Warfare Service, Washington, D. C.

David L. Crockett, U. S. Marines, has been over the top three times. He is at present stationed in France.

Lieutenant Wm. B. Seward has seen active service in France. He is at present in Belgium.

J. Alexander Crothers is first lieutenant U. S. Engineers, and has been in active service for some time in France.

Harold Horsey has a position with the Bethlehem Steel Company, New Castle, Delaware.

Walter K. Hoch is at present with the Western Electric Company.

Elwood H. Stiver has a responsible position with the Atlas Cement Company, Pennsylvania.

Lieutenant John W. Jones is at present stationed at Camp Dix, New Jersey.

Howard D. Griffin is in the contracting business in Norfolk, Va.

Lieutenant W. I. Brockson is stationed at Camp Devens, Mass.

Elmer Hoch is in the Ambulance Service in France.

Frank Dean is a lieutenant in the navy.

John Edgar is employed as a chemist by the DuPont Company, Wilmington, Delaware.

Bob Weimer is farming it on his farm in Ohio.

Lieutenant Colonel Julian Smith, U. S. Marines, is stationed at League Island.

Lewis Heisler Ball has been elected to the United States Senate from Delaware.

Lieutenant Carl R. Lind is in active service in France.

Byron R. Foster is first lieutenant in the 59th Pioneer Regiment, in active service in France.

William J. R. Edgar, inspector of First Division, is with the DuPont Company, Wilmington, Delaware.

Major C. A. Short, camp adjutant is stationed at Camp Travis, Austin, Texas.

Major William Sherman Corkran is stationed at Camp Humphries, Alexandria, Va., where he is chief instruction officer.

Homer H. Ewing of Wilmington, Delaware, is the proud father of a baby girl.

Robert P. Goldey has recently been discharged from the service. He was a lieutenant at Camp Grant, Ill.

Lieutenant George L. Goodin is at present stationed at Battle Creek, Mich.

Allen Lauritsen has a position with the DuPont Engineering Company. Prior to accepting this position, Brother Lauritsen was first lieutenant, U. S. Engineers, Camp Humphries, Va.

William C. Wills has a position with the City Water Department, Wilmington, Del.

Paul H. Keppel is with the DuPont Company, Wilmington, Del.

F. Tracy Campbell is a first lieutenant in overseas service.

William V. Marshall has a position as chemist for the DuPont Company, Gibbstown, N. J.

Lieutenant G. P. Doherty has recently been discharged from the service. He is now located at Woodside, Del.

Raymond Aker is in active overseas service. He is an expert rifleman.

Lieutenant J. W. Olcott is stationed at Camp Wadsworth, South Carolina.

Lieutenant Mark Donald Dare died of pneumonia at Camp Grant, Illinois, on December 8, 1918. His body was brought to his home in Jamesburg, N. J., for burial.

Lieutenant H. L. Deakyne has seen active service overseas and is now stationed in France.

Thomas Edward Williams is a lieutenant and has seen active service overseas.

Hall Downes is an ensign in the navy and is now at the Naval Academy in Annapolis, Md.

Raymond McNeal is a first lieutenant, Infantry, and is now in active service in France.

Paul Francis Rossell is a captain in the U. S. Engineers.

Donald P. Harsey, Camp Grant, Ill., writes:

"The school was graduated earlier than expected in order that some of us could be assigned to the 86th Division. The highest 100 men will go with this division. My standing was No. 14 out of about 450 men who finished. Three Sigma Nus are among the highest (20) men." Brother Horsey graduated at Delaware College last May.

lege he was major of the battalion; in-chief of the College Weekly; captain of baseball, captain of basketball, Phi Kappa Phi, in Senior year. living up to his college reputation.

UNIVERSITY OF NEVADA

ther Herbert N. Wheeler has charge e Colorado forests at Fort Collins, ado. His office is in the Federal Build-

ther W. E. Spangler is field man for tate Dairy Commission at Fort Col-Colorado.

NEGIE INSTITUTE OF TECHNOLOGY.

Delta Sigma Chapter

ther James B. Hays was recently issioned a second lieutenant and has assigned to the 20th Engineers. He almost ready to start for the Swiss r with a Forestry Division when he reassigned. He is at present at Grand naire in France. Russell Simpson who od fortune has been with J. B. the e time of the sojourn "over there" also prospects of receiving a commission.

erty Boyer received notification of acnce to Officers' Training Camp at Fre, Colorado shortly before the armistice signed. He is now working with the ern Engineering Company, of Char-N. C., and expects a little later, to

take charge of that company's branch in Greenville, South Carolina.

John Sweeney, Jr., is still in service and probably will be for some little time to come. He has been fortunate, however, in being able to have several furloughs which have permitted of his coming home. He is stationed in Florida.

K. R. Benson recently advised the active Chapter of the sad news of the death of Brother Frazier Myers. Both boys were stationed at Kelly Field, San Antonio, at the time of Brother Myers' death which was brought on as a result of an attack of influenza.

Brother Colmery is again actively engaged in the instruction of mathematics in Carnegie Tech. Bert is very popular with his pupils and has made a very creditable record for himself as an instructor.

E. H. Grotefend who has made a very good showing as manager of the Production Department of the United States Aluminum Company in New Kensington, Pa., was recently given additional office space to house his department which is expanding and growing in importance.

Art Vail was recently made manager of the Massena, N. Y. plant of the United States Aluminum Co.

Wm. H. King, Jr., who until recently was in the government aeroplane service is back on the job again in his former office in the House Building, Pittsburgh.

A recent postal card from C. O. Kingsbury, a Sigma Nu recipient of the distinguished service cross, advises that he is doing well and recovering from his injuries.

Frank McCaughey, who was in Officers' Training Camp at the time of the signing of the armistice is back at University of Illinois, acting as instructor in architecture.

We are indirectly advised that Brother H. T. Scobell was called upon to make the grand sacrifice. This rumor has not as yet been confirmed and we hope that it may be an error.

P. P. Marshall was recently made second lieutenant in Field Artillery.

FRANK H. HAAREN.

OREGON AGRICULTURAL COLLEGE

Delta Tau Chapter

Brother W. T. Moore writes: "I came into the spruce country a year ago last fall as an engineer for the Hammond Lumber Company. We laid out eighteen miles of railroad with the timber and incidentally I had Brother L. K. Fraley, Delta Tau, as transit man. Brother Fraley I might

add, could tell of an encounter with a black bear the size of a family cow. We finished the road in July and I then started with the Astoria Marine Iron Works as an engineer on machinery installation in wooden hulls and am still there. The war has been manifest in this vicinity in the presence of the Spruce Production Division of the Signal Corps. We have had upwards of two thousand men in the woods in this locality. Of the college men among them I met Brother Seifried of Gamma Mu and you can imagine we were mutually glad to find each other as this spot is inclined to be far from the haunts of men.

My brother, Ralston T. Moore, '17, is at present at Naval Training Station, Pelham Bay, N. Y. U. S. Naval Aviation, having returned from "over there" on the Leviathan. He was at an English aviation base on the Dover side and arrived here in God's country December 10."

MARYLAND STATE COLLEGE

Delta Phi Chapter

The engagement of Miss Marie A. Andrews, Baltimore, Md., to Brother Joseph Hamill has been announced.

BOWDOIN COLLEGE

Delta Psi Chapter

As noted in the December Delta, Delta Psi had three men in Camp Sherman, Ohio. Lieutenant George S. DeMott, '18, was in the 158th Depot Brigade there, First Sergeant C. E. Stevens, '19, was in the 379th Infantry and Sergeant R. C. Rounds, '18, in the 380th Infantry; the two latter named regiments forming part of the 95th or "Veteran" Division.

Brother Hugh W. Blanchard is teaching history, mathematics and military science at the St. James School, near Hagerstown, Maryland. ROBERT C. ROUNDS.

Brother Robert C. Rounds is teaching Latin and history at Gorham, Maine, High School.

L. J. Hart, '16, recently placed on the inactive list as an ensign, U. S. N. R. F., plans to enter the services of the National City Bank of New York.

K. V. Palmer, '18, is in line for an early promotion to a first lieutenantcy in the regular army, at Camp Lee, Va.

Delta Psi has four Brothers in the Bowdoin Medical School: L. R. White, B. S., '12; H. M. Howard, '21; H. W. Grant, '20, and W. H. Van Wart, A. B., '18.

Brother Lane is in the employ of the Portland Terminal Company of Portland, Maine.

Brother Blanchard is an instructor and athletic director at a private school in Hagerstown, Md.

Lieutenant Richardson and Corporal Gorham are serving in the Coast Artillery Corps and are thought to be in Siberia at the present time.

THE SOLDIER AND HIS FRATERNITY

Since I have been in the service, I have learned that Sigma Nu has been a wonderful help to me in more ways than one. In fact the Five Armed badge has played quite a part in my military life. It has added to the pleasure of my military life, and I am always willing to do anything in my power to further the cause of our wonderfully great Fraternity.

FOR LIEUTENANT R. A. BYRNS

Beta Zeta

Company Forward Though Twice
Wounded

Lieutenant Robert Ainsworth Byrns of
Company L, 107th Infantry, formerly the
first lieutenant, has received the Distin-
guished Service Cross "for extraordinary
action" near Venduville on Sep-
tember 29. Lieutenant Byrns, although
reorganized his company after

well for twenty-two years—was my best
man—and of course this was to be expected.
You can bank on it that this is but a sam-
ple of Sigma Nu stuff!"

CAPTAIN KEELING GAINE PULLIAM, JR.

Brother Captain K. G. Pulliam, Jr., re-
cently arrived in Lexington after one year
of active service in the Flying Corps of
the American Expeditionary Forces.

Brother Pulliam came home wearing the
French Croix de Guerre with Palm having
been decorated early in March, 1917, for
work accomplished while flying as a volun-
teer with French Spad Squadron No. 102.

Captain Pulliam, after leaving this coun-
try in December, 1917, was stationed in
England for some time observing English
methods in aviation and while there volun-
teered for service in the Night Patrol
of London. It was while on that duty that
Brother Pulliam was shot down and
slightly wounded while helping to repel a
German bombing squadron.

After recovering he was sent to France
and was immediately sent to the front
where he saw many weeks of service dur-
ing the great German drive of March and
succeeding months. Later he was ordered
to the Pursuit School at Issoudun, France,
where he was Field Commander for sev-
eral months.

Just before the armistice was signed
Captain Pulliam was again sent to the front
and was in at the final killing.

he was killed and led it forward in
the face of intense machine gun fire until
wounded a second time. His splen-
dor and gallant conduct set an in-
example to all ranks.—New York

Mr. Leroy E. Kimball, Gamma
Iota, sends in the above clipping, say-

ing he is a Beta Zeta man and is prom-
inent in the New York Alumni Chapter. It
is to say he will be more prominent

appearing in a similar clipping, Brother
'H. Chasmar, Pi, gives this tribute to
Lieutenant Byrns:

He stands that "Bob" is at present in
England near London. I have known him

LIEUTENANT GIBSON DECORATED**Gamma Mu**

Lieutenant Thomas R. Gibson has been awarded the Distinguished Service Cross for heroic action in the St. Mihiel sector. Though wounded severely, he led his command through a heavy bombardment and attained his objective. He was graduated from the University of Illinois in 1917 and is a Sigma Nu.—Clipping sent in by Grand Treasurer S. F. Pegues.

Lieutenant Thomas R. Gibson
Gamma Mu

GAMMA MU AT THE FRONT**The Gibson Brothers And Their Chapter Mates**

First Lieutenant Thomas R. Gibson, Gamma Mu, Infantry, has been awarded the Distinguished Service Cross for extraordinary heroism in action near Siossons, France, July 21, 1918. Lieutenant Gibson displayed rare gallantry and leadership when all the other officers of his company having been killed or wounded, he led his men through a zone of intense bombardment, and although badly wounded himself, he attained his objective with only five men and the machine guns, refusing to be evacuated until his guns were effectively in action.

In addition to this citation for which he received the D. S. C., we have received copies of four others received from France which he received in later engagements for similar deeds. He was in the fighting right up to the last and was sent to a hospital at Limoges, France, the day the armistice was signed. I am pleased to say, however,

that he was fully recovered and is back with his company with the Army of Occupation in Germany.

Tom was a law student at Illinois in his third year when we got into the war. He entered the first Officers' Training Camp at Fort Sheridan and earned a commission as second lieutenant. He was promoted to first lieutenant in the regular Army last June. He went to France a week after the camp at Fort Sheridan closed. On arriving in France, he attended a British school of small arms and machine guns. In December, 1917, he went with the American Army as gas officer and machine gun commander. He went to the front with the 18th, last January, and has taken part in all the big American battles which have followed.

Raymond is a second lieutenant and is with the Army of Occupation in Germany. Raymond had a front seat in the big show for a couple of months but escaped injury. Coke Charlton, Tex Pavey, Barnum Rompkins and Dillenschach, other Sigma Nus from Gamma Mu Chapter were all with Raymond at the front in the air service. Carlton and Pavy are first lieutenants.

G. P. WHITSETT IN HOSPITAL**Rho**

Major George P. Whitsett, judge advocate of the Fifth Army Corps, is in a hospital in France slowly recovering from gas and wounds, according to several letters received by Mrs. Whitsett. The letters were from Evacuation Hospital No. 6, and evidently written by an attendant, as the handwriting wasn't that of Major Whitsett. The information was that he had been badly gassed and wounded in the side by shell fragments.

Major Whitsett went over with the 35th Division, and with the formation of the Fifth Army Corps was appointed judge advocate. Before he went to war he was in a law partnership with Roland Hughes.—Kansas City Star, sent in by Birby Willis.

FINDS SIGMA NUS ALL ALONG THE WAY

Although the war is over I can't refuse your request. It was my pleasure to come across with Bischoff from Ohio State, to have Todd of Kansas notice my ring, and to have Baumgartner of Washington and Lee at the post now. I think perhaps the Delta is more appreciated over here and it was a peculiar pleasure for me to receive my October number yesterday.

DROPS FROM CLOUDS TO VISIT FRIENDS

Lieutenant William Fitzpatrick, Delta Kappa, U. S. Aviator Flies From Long Island to Newark

Thrilling Stunts Scare Crowds

Lieutenant William Fitzpatrick, a former Delaware College student of the class of '19, gave residents of Newark and vicinity some real thrills yesterday morning when he did a couple of loop the loops over the town. Hundreds of people who saw the machine when it looped the loop the first time over the eastern end of Newark, were sure that the airman had lost control of the plane and that it was going to fall. The pilot, however, soon had the plane sailing along again as gracefully as a bird and many residents drew long breaths of relief.

In a few more seconds the machine was directly over the Delaware College athletic field and lower to the ground when it did another loop the loop, and falling leaf stunts. Even more persons were watching it by this time and most of them were sure the car was going to crash to the ground.

Again the pilot demonstrated that he had perfect control of the airship when he righted it and sailed over the town circling around and getting lower all the time.

He landed on the Wilson property, along Elkton Road, just on the outskirts of Newark.

Most of those who had been watching the stunts of the plane were now sure that it was forced landing and that there was trouble of some kind.

Hundreds flocked to the spot where the machine made a perfect landing, among them a number of Delaware College students. They were greatly surprised on being greeted by Lieutenant Fitzpatrick. He was accompanied by Sergeant Unruh, as mechanic.

Lieutenant Fitzpatrick is stationed at Brinsley Field Cammack, Long Island, and is out on a cross-country fly. He left Long Island on Wednesday and spent that night in Chester. Yesterday morning he resumed the trip and is reported to have done some thrilling stunts over the Hotel duPont in passing over Wilmington. It was 10:45 o'clock when he landed in Newark. He intended to remain but a short time and then return to Long Island, but rain, which started a few minutes after the machine landed, changed his plans, and he remained in Newark overnight. He was entertained by Delaware College students last night and also called on Dr. Samuel C. Mitchell, president of the college.

Had he remained in college, Lieutenant Fitzpatrick would have graduated next fall, and it is possible he will return to finish his

education. At the outbreak of the war he joined a New York National Guard regiment, his home being in that city, but was later transferred to the aviation section and received his commission at Kelley Field, Texas. He has been at Brinsley Field for several months, on two different occasions. Lieutenant Fitzpatrick was on transports in New York ready to sail at different times and because of a mix-up in orders or some other reason each time, the contingent he was with was ordered off again and consequently he did not get over.—New York Evening Journal, sent in by Inspector William R. Edgar.

DELTA ZETA MEN WIN TROPHIES

Lieutenant Ted Brock is in France. After his sojourn on the Mexican border with the Ohio Engineers, Ted was sent to Fort Sheridan where he was commissioned first lieutenant. Then he was assigned at Camp Custer, Michigan, where he won a silver loving cup for the best drilled platoon in the 85th Division.

Lieutenant Eldred S. Barden has journeyed round the U. S. A. from Camp Sherman, Ohio, to Camp McClellan, Ala. We can't remember every place he stopped at, but at Camp Perry, in July, 1918, he won a sharp shooter's medal. Yes, and at Camp Gordon (Atlanta) he won a wife. Remember, too, that Eldred insists he is a "FIRST loot," "and the boy is so taken and accepted among Brothers and fellows so help me Hannah." Don't forget that when you meet him.

INVESTIGATING NAVAL AVIATION AFFAIRS IN ENGLAND

Since March 16, Brother Jones and I have been working side by side. In August we left the Philadelphia Navy Yard with a unit of fifteen men for overseas duty, having been appointed by the Secretary of the Navy to investigate existing conditions in connection with the Naval Aviation Program in Europe. This special detail was finished about two weeks ago. We are at present located in an office of our own at the Naval Aviation Headquarters. Our work being the disposing of the millions of dollars' worth of Naval Aviation material on hand. A greater part of this material we expect to sell in France, Italy and Russia. This will necessitate a study of European markets for which Jones and I are greatly thankful, inasmuch as we have always desired such a study. We shall try to wind up this work within the next three or four months. Our next orders, I hope, will read "Homeward Bound."

Here We Write 'Immortal Dates'

"Thinking of our Fraternity not only as a Brotherhood of militant power, but also as a creative force for the spiritual development of men."—The Creed of Sigma Nu.

LIEUTENANT THOMAS D. AMORY

Alpha-Gamma Theta

Mr. and Mrs. Edward J. Amory have received notification from the War Department of the death in action of their son, Lieutenant Thomas D. Amory, in France. He was shot through the head while leading a detachment on a reconnoitering sortie in the American sector northeast of Verdun. Lieutenant Amory was severely wounded in action last May, but had recovered and gone back into active service.

Lieutenant Amory was 24 years of age. He was graduated from Virginia Military Institute. He enlisted shortly after America entered the war, and took the Plattsburg training course for officers. He was sent to France in September, 1917, immediately after receiving his commission. He was attached to the 26th Regiment, and was in Captain Archie Roosevelt's company.

LOUIS B. BRASWELL, JR.

Theta

Brother Louis B. Braswell, Jr., died in France, from wounds received in battle.

GEORGIAN AWARDED CROSS BY PERSHING

Sergeant Paul B. Minter, Mu

Brother Minter's death was chronicled in the December, 1918, Delta. We are glad to add, through the courtesy of Brother J. Pope Watson, Mu, to our records these further details of heroism and honor won:

Sergeant Paul B. Minter, of Monticello, a member of Company B, 151st Machine Gun Battalion, who was killed in action, has been awarded the distinguished service cross by General Pershing. He was a son of Mr. and Mrs. A. J. Minter, of Monticello. Mrs. Minter is now at Cordele. He volunteered in June, 1916, and served on the Mexican border with the old Second Georgia Infantry.

The citation reads:

"For extraordinary heroism in action near Serpy, France, July 28, 1918. He led his section forward, secured his objective, supervised the consolidation of his position, laid his guns personally with calmness, accuracy, and continued to direct the operations of his men, all in the face of severe enemy machine gun and shell fire until he was killed."

Seventeen men were killed in the detachment with Sergeant Minter.—Macon (Ga.) Telegraph.

EDMUND BREWER TATE

Mu

[This beautiful tribute of Brother J. Pope Watson's gives us an insight into the meaning of the sacrifice which Brother Tate made for his country. A personal reminiscence, we may add from a letter of Brother Watson's, which shows how near these chronicles, "With Military Honors" touches us: "As Brother Tate pledged me, I feel very close to him." Every one of us have lost a personal friend in this war, and all of us have lost good Brothers in Sigma Nu.—The Editor.]

Brother Tate was born at Elberton, Ga., February 5, 1895. Graduated from Elberton High School June, 1912. Entered the University of Georgia September, 1912, and was initiated into Sigma Nu that fall. He graduated at the University of Georgia the spring of 1917, but on account of the war he left school before commencement day and his diploma was sent to him while he was at training camp.

He made his "G" leter in football 1915-16. Was Sophomore declaimer, member of Gridiron and Senate Club, Phi Kappa Literary Society, Pan-Hellenic Council 1916-17.

He went to the first officers' training camp at Fort McPherson, Ga., and was commissioned second lieutenant. He was stationed at Camp Gordon, Ga. Machine Gun Co. 326 Infantry, and went overseas last spring with the 82nd Division.

He was killed in action October 12, 1918, in the town of San Juvin and was buried there.

Jonel McArthur, 326th Infantry, wrote O. E. Tate:

He was as you know in the machine gun company and participated with it in the strenuous, but glorious attempt made by the second battalion to take the German town of San Juvin. Their task was an

Brother Tate's death is also a great loss indeed to the Sigma Nu Fraternity. He was always ready to do anything for the good of Sigma Nu. His death was indeed a noble and glorious and his sacrifice was supreme. Our loss is felt to all those who know him and his place can never be filled.

J. POPE WATSON, Mu.

Brother Edmund Brewer Tate was killed in France and was reported in the casualty list December 1, 1918. Brother Tate went to the first O. T. S. held at Fort McPherson, Ga., and was commissioned second lieutenant and since then has been promoted to a first. Sigma Nu never lost a better man than Brother Tate. He was a true Sigma Nu lived up to our principles in every way. He gave his "all" for humanity and democracy.

W. B. RICE, JR., Reporter.

THATCHER WYLLYS BENSON

Nu

Thatcher Wyllys Benson died in France Dec. 13, 1918. No particulars. He was a member of the 110th Field Signal Battery.

GRANT W. HARRINGTON.

I am sending a clipping giving an account of the death of T. Wyllys Benson, Nu. Brother Benson is from my own home town and my parents sent this clipping from one of the local papers.

ORA H. PRATHER, Gamma Rho.

Late yesterday afternoon Andrew Benson received a telegram from Washington stating that he regretted very much to inform him of the death of Sergeant T. Wyllys Benson, who died in France of lobar pneumonia on December 13.

Wyllys, as he was known to everybody in this city, was born Feb. 17, 1895, and would have been twenty-four years of age had he lived until next month. He grew up in Independence, attending high school here 1908 to 1912 and after finishing going to the state university at Lawrence.

When President Wilson declared that a state of war existed Wyllys immediately decided that he would join the colors. The quickest way it seemed for him was to join the National Guards, which he did at Iola on May 5, 1917. At that time the only signal corps of the Kansas National Guards was at Iola and this was the branch of the service he wanted in, so he joined the Iola company. He was sent to Doniphan and from there to France. From such reports as have come, he was almost continually in the fighting, spending thirty days at a time at the front line trench work. He must have seen every side of the fighting life in his branch of the service. The last letter received from him was about Thanksgiving, when he wrote to his parents that he had been in the hospital. When the

Edmund B. Tate, Jr.
Mu

at impossible one,—to cross an unpassable river and attack without artillery preparation or assistance. However it was red by high authority and they made attempt with all the vim and dash of which they were capable. The machine guns were served superbly, in fact it is doubtful if any would have come back if it not been for the audacious placing of guns and their continual firing throughout that hell of shell and machine gun bullets.

Your son had his platoon in a particularly exposed place and was absolutely regardless of personal consequences in his endeavor to cover the withdrawal of the remnant of the battalion. His death was mourned by every officer and man in the regiment and yet it was glorified in too, if I can understand what I mean—we were somewhat used to death, but his was so untimely and was so well paid for."

David C. Barrow, Chancellor of the University of Georgia, also wrote:

His death as felt by me is not only a loss to the university but to the state of Georgia.

armistice was signed a great load of dread rolled off the minds of his parents as happened in the case of hundreds of thousands of others—they thought the danger now was all past. But it seems that the dread flu raged in France as it did here and so Wyllys died. He was a sergeant and doubtless would have received further promotion had the fighting continued as he was always a brave and fearless young man, the very kind of which soldiers are made.

He was the only Independence boy of his corps or else further word would have been received from his comrades. Sergeant Benson was one of the most popular of the younger men of this community and a very generous hearted, fine spirited young man.

VAN MERLE MARTIN

Nu

[See The Delta, December, 1918, for our first account of Brother Martin's death.]

Seldom has the news of the death of a young man caused more profound sorrow than did that which came last night announcing the passing away of Van Martin. Just two weeks ago last night he had stood on the platform of a train which was to take him out west to take up his military duties, the type of American young manhood of whom we are all so proud. Well built, a master mind, standing for the best which his community called for from its citizens, ever ready to help in any movement which came before the city, Van Martin stood out as example to the younger boys of his home town.

Vandever Merle Martin was born in Hutchinson on September 1, 1888. His education was started at the Allen School and he graduated from high school in 1907. After a short business college course he went to Wichita when the automobile business was in its infancy and was the first salesman of the Wichita Automobile Company.

But the influence in the home had its effect and he turned from the commercial life and decided upon following in his father's footsteps and in 1908 went to the Kansas University, where he entered the law school, graduating with high honors in 1912. After being admitted to the bar that spring he entered into a partnership with his father. He made a brilliant success of his law work and had a fine future before him when he heard the call of his country and enlisted in the Naval Aviation Detachment. His call to service came just two weeks ago and he was assigned to the Washington University at Seattle, where after taking some special work he would have taken the rank of an ensign in the Naval Aviation Coast Patrol.

Mr. Martin was married on January 26, 1916, to Miss Marguerite Graybill, daughter of Mr. and Mrs. S. S. Graybill.

Mr. Martin is the first of the members of the Reno County Bar Association to lose his life in the service of his country since the great struggle began. His will be the first gold star to be placed on the service flag which was raised in the court room while he was still in the city.—Hutchinson Kans., News.

His brother, Lieutenant John Martin, Nu, is also in the Aviation Corps.

Will S. Murphy
Nu

WILLIAM SAMUEL MURPHY

Nu

"He was a volunteer in the great world war; waged to secure, once for all, liberty for all mankind." Let this be the epitaph of William S. Murphy, the first Gardner boy who died in the service of his country. Higher tribute can not be paid.

And how like this warm-hearted, cheery, friendly-dispositioned young man it was to offer his services when his country called. Not on an impulse did he act, for all the sickening horrors of the European battle fields were a familiar story to him. He volunteered because under that sunny exterior there was seriousness of purpose and patriot fervor—because he loved his country and humanity. To him is due all the honor which a grateful country may bestow upon those who have faced the enemy's hail of death and died upon the field of action. For, after all, it is the motive which counts. He

the horrors which, as a soldier, he faced, and, yet, he volunteered.

It was sweet to this young soldier, educated and talented, he had a position on one of the country's great newspapers, the San Francisco Chronicle, and advancing in his chosen profession. The man was bright with promise, but when country called he did not hesitate, but, immediately after the declaration of war, he joined his services and was assigned to the medical corps, a position for which, because of his cheerful and kindly disposition, he was eminently fitted. Just a short time before his death he had been promoted to the first class and surgical assistant to the surgeon in Letterman Hospital, Presidio of the largest military hospitals of the nation.

In one of his last letters home he wrote that he realized that this was a real war, and that he wanted to go through the worst if necessary, to help in winning—and the winning of the war was only a matter of time. This shows the true spirit of patriotism.

It is shown by the magnificent funeral of magnolia leaves and roses which was sent, accompanied by a letter of sympathy, bearing fully two hundred signatures.

Ham S. Murphy was a Gardner boy, having been born here December 31, 1888. He grew to young manhood here and received his early education in the schools of this town, afterward attending Kansas University and Washington State University and was a member of Sigma Nu fraternity. He worked on newspapers in this City and Chicago, going to the San Francisco Chronicle two or three years ago, on which paper he was employed at the time of his enlistment. He died in the Military Hospital, Presidio, San Francisco, California, July 15, 1918, age 30 years.—Clipping by Past Grand Recorder Grant Harmon.

TENANT HARRY B. SLAYMAKER Nathan

After receiving his commission as first lieutenant in the second Fort Sheridan training camp on November 27, 1917, Harry Slaymaker left for New York on December 12. He sailed for France on December 26, landing on the other side January 2, 1918, and went at once into France.

He attended schools of instruction until April, when he was assigned to Company A, U. S. Infantry, and went immediately to the front, where the troops were in support until July 6, when they joined French troops and took over the lines. They were camped along the banks of the Marne and were on active duty

from July 14 until July 29, when they got a much needed relief. On July 21, with the rest of the Third Division, they crossed the Marne in pursuit of Germans and had the enemy in retreat when relieved. When the company crossed the Marne the first time they had a full company of 250 men; when they recrossed, eight days later, there were just 185 men left. Brother Slaymaker lost over half of his platoon, but came out without a scratch except a touch of gas, which was not enough to send him to the "rear," though he and two other lieutenants were the only officers left in the whole company. The whole Third Division won a name and special mention for themselves for their work those days in which is now called the battle of Chateau Thierry and the second battle of the Marne.

Harry B. Slaymaker.
Nathan

They went into rest camp the first of August and were not called out again until September 15. During that time they received 100 new men just over from the States, and Brother Slaymaker was in charge of the company, with only one second lieutenant to help.

On account of their work at Chateau Thierry and the second battle of the Marne they won the reputation of being the pick of American troops, and were called shock troops and held in reserve to be thrown in at a crisis, as they had had more experience in open warfare than most troops. They were called to help at the St. Mihiel salient, and Brother Slaymaker's company went in with a new captain, himself and a second lieutenant—no other officers. But they also won special recognition for their work there, for he sent his wife the papers or orders, as he called them, of commendation, just as he had those he received about the Chateau Thierry and Marne actions. In his last letter to his wife, written September

ber 25, he said they had moved from the St. Mihiel salient and were camped in a dense forest, and knew they were on the eve of a great battle, which he felt would be the last big one. From what I have read I believe he was in the Argonne Forest west of the Meuse. Brother Slaymaker often wrote how thankful he was that he had a chance to take an active part in this great work, and while he often said he would like to see the home folks, he had no desire to do so until it was all settled over there. He often thanked his wife for not making him wait to be drafted, which he felt would have been a disgrace.

He said one of the hardest things he had to do was to go back after a battle and perform the burial ceremony for some of his own men who had fallen. He was always so cheerful of his own safety. He had New York, Michigan and Wisconsin men, and while his brother and my brother are both over there in the 35th Division, he never got close enough that he could go to see them.

He was born in Peabody, Kans., August 30, 1888, was a member of the First Presbyterian Church here, also a third degree Mason.

Here is a clipping from our local paper which gives a few additional facts:

Harry Slaymaker was born and lived practically his whole life in Peabody, Kas. He was graduated from the Peabody High School and in 1908 went to the University of Kansas, where he was a member of the football team and took a prominent part in college activities. He was a member of the Sigma Nu (Greek letter) Fraternity. Wherever Harry went he made friends. After two years in college he returned home and was associated in business with his father for a time, later becoming an agent for the Kansas Fraternal Citizens. He was very successful in his work and went from this to the army.

On June 24, 1915, Miss Laura Moffett and Harry were married. With the exception of the time they lived at Norton they made their home in Peabody. Mrs. Slaymaker lived in Chicago while Harry was at Fort Sheridan, so nearly every week end they were together.

From almost the first Harry was in the thickest of the fighting. Through the inferno of destruction he led his company of men "over the top," on through the blinding smoke and the shot and shell. To home folks he had written that sometimes he had gone seventy-two hours without closing an eyelid. To those of who who never have seen war it is impossible to comprehend what these men such as Harry have gone through. To them it was merely the serenity and peace that comes with the feeling of doing one's duty. But to the world the memory and deeds of valor of these

boys will live forever. Even when marble slabs have crumbled, when the greatest men of peace times shall have been forgotten, the memory of these heroes of St. Mihiel salient and of Chateau Thierry will be kept green by living tongue. Mothers and fathers will take their babes on their knees and rehearse from generation to generation the brave deeds of these gallant men. And as long as earth lasts that part of France on which the American boys have fallen ever will be consecrated ground.

MRS. HARRY B. SLAYMAKER.

ALFRED CULLEN TURNER

Brother Harold Bacon Ware is reported as having died in the service. No particulars.

LEON ROY GRAY

Beta Beta

Leon Roy Gray died at Camp Guster on November 23, 1918, after an illness of two days with pneumonia.

Brother Gray was a newspaper man before entering the Army, being last employed on the Kalamazoo Gazette. He entered DePauw in 1910, but did not graduate. He was married a few months ago to Miss Ruth Hagerman, of Sturgis, Mich.

JOSEPH GRAY DUNCAN

Beta Zeta

According to reports Joseph Gray Duncan, Beta Zeta, 1908, and captain of machine gun company, 815th Infantry, lost his life in action at the Verdun front.

It is no surprise to those who knew "Dunc" to learn that he not only went into the service voluntarily but into that branch which demands the most unflinching courage under the hottest of fire. We know that "Dunc" never wavered from his post or hesitated to move forward into the Hell about him if so commanded. He was ever aggressive and courageous and had that

-say-die" spirit which we so envy in who are the proud possessors of it.

greatest tribute to "Dunc's" "never-say-die" spirit can be delivered in a recital of his efforts to "make" the Purdue football team. Four years he tried, but in vain and only as high as "scrub" captain. But a martyr for the good of his school and anyone who knows anything about the "scrub" know that he is, as "Dunc" would say, "On the muddy end of the

to believe that he had "gotten some on the tank too."

"Dunc" was a member of the varsity track squad in the days of the bicycle races and I am mentioning this, following mention of his apparent football failure not to belittle the fruits of his efforts but I put the other first, feeling that the characteristics portrayed by his four-year struggle without reaching his goal are worthy of far greater commendation than the actual results obtained on the track squad. The football effort showed his spirit; the track effort principally an ability.

"Dunc" could just not help being a good soldier and officer. He was courageous, honorable, loyal, aggressive, proud to assume command and possessed all of the sterling qualities which made him a good leader and a most lovable one. He bore no malice and could gracefully "spit on the slate and wipe it all off" as he was also wont to say.

Brother Duncan was born February 20, 1885. He went to Purdue University in 1902, and, after the regular course of four years, he also received a M. E. degree in 1908.

Brother Duncan went to the America Locomotive Works when he finished Purdue, and was with them for several years and then he became a salesman for the Electric Service Supply Company at Philadelphia. In 1912 he opened an office of his own in Philadelphia, selling the products of the Esterline Company of Indianapolis and the Willard Storage Battery Company of Cleveland, Ohio. In the handling this business he was very successful and built up a large wholesale and retail business under the organization known as the J. G. Duncan Jr. Company. He was continuing in this line when he enlisted in the war.

He left quite a snug estate, all of his own making, for his wife and two children. His wife was Miss Lillian Levering, of Lafayette, Indiana.

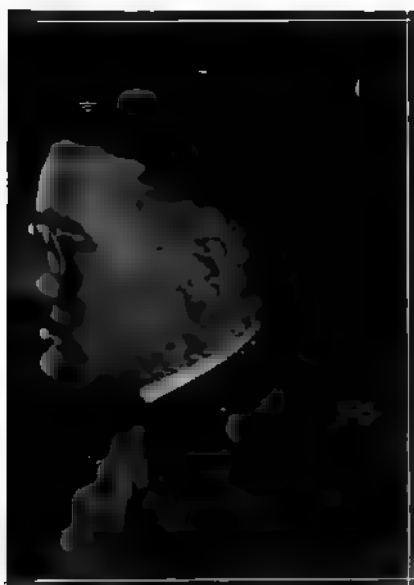

We have lost a good Brother in Sigma Nu, the country has lost a good citizen and his family a good father and husband. He stands glorified in death for he died honorably, that others might survive in freedom. He gave his all, what more could man do.

most of the time. It is needless to say that "Dunc" didn't dive in and stop them. He just couldn't quite make defective vision and handicap of his.

as "Dunc" also who, in the days of famous "Tank Fights" at old Purdue, entered his class in the capacity of "Painter" which capacity necessitated painting the sides of an immense water tank and painting his class numerals in foot figures, while swinging in mid-air nothing of being hampered while engaged in this hazardous occupation, by members of the enemy class whose duty it was to see that his task be not accomplished. I have to this day a most vivid picture in my mind of "Dunc" returning to the Upper House one morning at about 7 o'clock after having been on a painting expedition.

He just dragged along and was at the toughest looking regalia one could imagine. He was bespattered with paint to the extent that one was led

THOMAS ALEXANDER HEGARTY

Beta Iota-Delta Gamma

Brother Thomas Alexander Hegarty is reported to have been killed in action. No particulars given.

EDGAR CHARLES WEYBRECHT

Beta Iota

Sergeant Edgar Charles Weybrecht died of bronchial-pneumonia on November 2 at Staden, Belgium. His is the first and only death reported among Beta Iota soldiers.

Edgar C. Weybrecht
Beta Iota

Edgar C. Weybrecht was born in Alliance, Ohio, May 12, 1889. His entire life was spent in Alliance. Following his graduation from the Alliance High School, he attended Mt. Union College for several years. In addition to his regular studies he took an active part in the various college athletics and gained distinction as halfback of the college football team. After leaving school he took an office position with the firm of J. T. Weybrecht's Sons, established by his grandfather, and in this proved a most capable and efficient business man. Here he remained until by special induction May 18, last, at his own request, was sent by the local army draft board to Camp Sheridan, Ala., where he joined the 146th Infantry, commanded by his uncle, Colonel Charles C. Weybrecht, arriving in camp just in time to exchange his civilian clothing for

a military uniform and leaving within a few hours for Camp Lee, Va., whence the regiment shortly left for France. He had served in the Ohio National Guard as sergeant of Company K, 8th Ohio Infantry, and later as sergeant major, and with the qualifications and experience was soon made a sergeant in the Supply Company of the 146th Infantry, with which organization he was serving when taken ill. A letter written on October 9 to the family here hold of very severe fighting in which the regiment participated, also of the extreme measures used by the Supply Company in getting ammunition to the front at the Argonne fighting. It is supposed that exposure received at that time caused the illness which proved fatal. At the time of writing the last letter Mr. Weybrecht was in his usual health and the word of his death came as a terrible shock to the family.

In fraternal circles the deceased was a thirty-second degree Mason, a member of the several Masonic orders of Alliance, of Lone Rock Lodge No. 23, Knights of Pythias, and also of the Sigma Nu Fraternity of Mt. Union College. In all these he took an active part.

Sergeant Weybrecht is survived by his parents, two sisters, Misses Millicent and Mary Weybrecht, and one brother, John Weybrecht, Beta Iota-Beta Nu.—Alliance, Ohio, newspaper, sent in by Brother Chet Eynon.

CEDRIC HADAWAY SHAW

Beta Kappa

Beta Kappa has another name to add to those of its honored dead. Brother Cedric Hadaway Shaw, first Lieutenant, Infantry, was killed in September, 1918, during the St. Mihiel drive.

Brother Shaw was born in Prophetstown, Ill., May 8, 1891. His preparatory work was taken at the Pratt Kansas High School and the New Mexico Military Institute. He did not finish college having had to leave soon after his Sophomore year. Although not personally known by the men in the present classes his fineness of character and high ideals have been told many times by the old men who have known him so that his excellent spirit remains with us to help Sigma Nu which is the thing he was always striving to do.

LIEUTENANT ROBERT PELOUZE**ALIVE****Beta Chi**

In the December Delta appears a notice from Lieutenant Franklin O. Rose, Beta Chi, that Lieutenant Robert Pelouze had died from spinal meningitis.

Under date of November 14th after the December Delta had gone to press, Brother Harry A. Phillips, Gamma Lambda, writes from the Aviation Barracks, Berkeley, Cal.; "Bob Pelouze, from Stanford, is here and graduates November 23, 1918."

Then comes Brother Donald I. Seymour, Chapter adviser of Beta Chi, on December 24th, with this additional information:

Just to correct an item that was printed in the December Delta. Brother Robert Forsythe Pelouze, Beta Chi, was reported as having died of spinal meningitis at one of the camps. I am glad to be able to say that Brother Pelouze is very much alive at this writing, and is making plans toward going back to college. It is true that he was very sick, and came pretty near to passing on, but happily was able to keep alive.

We are glad, indeed, to find that the report of Brother Pelouze's death is, as Mark Twain would say, "very much exaggerated."

THOMAS LAWRENCE WILLIAMS

Beta Psi

A profound sadness came over Beta Psi Chapter when it learned on October 18 last, that Brother Thomas Lawrence Williams had passed from this earthly abode to that bourne from which no traveler returns. His death resulted from pneumonia contracted from over-exposure while with the University of California Base Hospital No. 30 in France.

"Larry" Williams as all his friends and Fraternity Brothers knew him joined Unit No. 30, in May of 1917, while he was in his last year at the university.

After the unit arrived in France early last spring, "Larry"—he was then in his twenty-fourth year—was able to render a double service from his knowledge of French and acted as interpreter for his friends, and his loyal and unselfish character and cheery comradeship made him deeply beloved by his associates. When the unit finally established itself in a number of hotels at one of the noted summer places in France Larry was in charge of the detail that made the buildings ready for use. In order to accomplish his work, that the base hospital could be placed into service as quickly as possible for his wounded Brothers-in-arms, he gave his undivided attention with the result that he suffered exposure and a severe case of pneumonia set in from which he never recovered.

But this was typical of the way "Larry" devoted himself to his affairs in college and in the Fraternity. It was for the benefits and service he could render others that was always predominant in what he did, and this same unselfish devotion and service for others brought about his death for the cause of America and humanity. But "Larry" will always be remembered by those who knew him in those true and beautiful words of the Scriptures:

"Greater love hath no man than this, that he lay down his life for his friends."

POSTHUMOUS AWARD

To John D. Mathis

Gamma Alpha

A distinguished service cross for heroism has been awarded to First Lieutenant John D. Mathis, of the Twenty-third Infantry, who was killed in action at Chateau Thierry sector, France, while leading a gallant charge, June 6, 1918.

Lieutenant Mathis was a son of Mrs. Evan T. Mathis, of Hooks Mill road, Americus, Ga. He was leading a platoon on the first day of the Chateau Thierry battle and it was claimed by the commander-in-chief that Lieutenant Mathis demonstrated conspicuous courage and ability, fearlessly going forward at the head of his command through hostile machine gun fire. His daring inspired his men to successful assault.—Atlanta Journal.

WILBUR THOMAS RAWLEIGH

Gamma Beta

Brother Wilbur Thomas Rawleigh died of pneumonia at Great Lakes, Illinois.

LIEUTENANT MERVIN CASE

Gamma Theta

Brother Mervin Case died at his home in Chicago while on a Christmas furlough. He had enlisted as a private in the Marines, and rose rapidly to a commission during his training at Paris Island, Quantico, Va., and Cuba. He had received his orders for overseas service and was about to sail when the armistice was signed. He contracted pneumonia and died shortly after Christmas. He was buried with full military honors.

JOHN N. BULLEN, Reporter.

CAPTAIN JOHN MURRAY McCLELLAN

Gamma Theta

Brother John Murray McClellan was killed in action during the glorious attack of the Marines at Chateau Thierry. He had received his military training at the Virginia Military Institute, where he graduated in 1916. He came to Cornell, where he soon became a leader in Gamma Theta. He was elected to the position of Eminent Commanded for last year, but was among the first to leave college when the United States declared war. He was given his commission at once, and sent across among the first.

His loss is a great grief both to his many friends in the South and at Cornell, for he was a true Sigma Nu, who bravely and cheerfully upheld his vow "to live and die in honor."

JOHN N. BULLEN, Reporter.

n Murray McClellan, second lieutenant, U. S. Marine Corps, was killed in action in the attack of the Second Brigade of Marines, south of Soissons, July 18, 1918, leading his platoon in the attack against the Germans, which resulted in the winning of the grand retreat, which ended the signing of the armistice on the 11th of November. Lieutenant McClellan went to France with the First Battalion, Infantry, and at the time of his death was serving in the 49th Company. The details of this engagement have not yet been revealed, but information accumulates from time to time, and when our troops return from France the full story of the gallant in which this officer lost his life can be given.

CAPTAIN NORMAN M. SHAW,
Gamma Beta.

RICHARD THOMAS MARTIN

Gamma Theta

Richard Martin was killed in action in France sometime in October, while serving in the Infantry.

JOHN N. BULLEN, Reporter.

JOHN H. BUCKLEY

Gamma Kappa

More than anything that can be said about the death of Lieutenant John H. Buckley, Aviation Section, Signal Corps, is the following letter which Brother Virgil received a short time after Brother Buckley's death.

A Nu Fraternity,
University of Colorado.

Twelve years ago, while attending the University of Colorado, I roomed with John H. Buckley, a member of your Chapter, and I have been with him in the service since the last year.

One afternoon, while getting into formation over the field, two planes collided and one of the pilots made the supreme sacrifice. Buck is to be buried tomorrow afternoon, and I will see that his grave is the best of care and attention.

I have known Buck for about fourteen years, and I can only say that he is the best, and cleanest man I have ever met, and my best friend I have ever had or ever to have.

Brother of Harold, Lieutenant Merrill, has notified the National Fraternity of Harold's death, and I have seen Jack Donovan, whom I know, over

Sincerely yours,

A. H. SMITH,
First Lieutenant A. S. U. S. A.
September 27, 1918.

JOHN FRANKLIN MERRILL

Gamma Lambda

Lieutenant John Franklin Merrill, air service, disappeared while in combat with a Hun machine just over the lines, on October 4, 1918. Up to the present time, the location of his grave has not been found, and there is some hope that he may still be alive, although this seems unlikely. According to a letter from a friend of his, Brother Merrill was one of the three best men in his combat group.

H. F. WILSON, Gamma Lambda.

John H. Buckley
Gamma Kappa

EARL BRONSON BISBEE

Gamma Sigma

Brother Earl Bronson Bisbee was killed on September 16, 1918, while fighting with Marines at Chateau Thierry.

CAPTAIN JOHN DANIEL SWINEY

Gamma Sigma

Captain John Daniel Swiney of this city is dead in France, a victim of the ravages of pneumonia. His death occurred on October 8, at a hospital in a little village a few miles back from the firing lines.

The sad news of the death of Captain Swiney was received in Davenport late Wednesday afternoon by his wife, Mrs. Marie Swiney, formerly Miss Marie Wiederrecht. Captain R. T. Benton, a college

chum of the dead soldier, told in a letter to Mrs. Swiney of the sad ending of the popular captain.

The entire community was shocked at the news and the hundreds of friends of the dead hero received the sad intelligence with deep regret.

Charter Member of Battery.

Captain Swiney was a born soldier. He was recommended the first to join the ranks of Battery B when the artillery unit was organized in this city several years ago. He served with the battery on the Mexican border and when the break came with Germany he was among the members of Battery B who were called into service.

Recognized as a capable leader he was recommended by his superior officers for the first officer's training school at Ft. Snelling and upon completing the three months' course was awarded a commission as captain.

He was assigned to Camp Dodge and acted in the capacity of an instructor in artillery at that camp for several months. Last July he received overseas orders and arrived in France the early part of August.

Since his arrival in France Captain Swiney has seen active service almost constantly. Letters to his wife and to others in the Tri-Cities told of his wonderful experiences on the firing lines. Only recently his relative in this city received a letter telling of battles in which his men went "over the top."

Lauded by Officers

On several occasions while Swiney was a sergeant in the battery he won the praise of his superior officers for his excellent judgment in handling men. It was with sincere delight that the officers of the Davenport battery learned of the commissioning of Captain Swiney upon completing his course at Ft. Snelling. Major Compton, formerly commander of the battery has often been heard to say that Swiney was one of the most natural born soldiers that he had ever met.

During the time he acted as instructor at Camp Dodge, Captain Swiney won the respect and love of every man that served under his command. Although a strict leader who demanded all that the army required, his pleasing disposition and his natural ability to lead men always won the loyalty of his men.

Career in Brief

Captain Swiney's career as a soldier ended like that of a soldier. He served his country when his services were most greatly needed and died a real hero.

Captain Swiney was united in marriage to Miss Marie Wiederrecht on April 6, of

this year. Shortly after the ceremony he returned to Camp Dodge.

He is the son of T. O. Swiney, a well known Davenport business man.

Captain Swiney was born in Davenport on October 20, 1889. He received his early education in the Davenport public schools and was a graduate of the Davenport high school. He was also a graduate of the Iowa State College of Ames. During his career at Ames he was elected captain of the varsity basketball team. He was also a member of the Davenport high school's football and basketball teams. He was a gifted vocalist and for a number of years won fame as a boy soprano at Trinity Cathedral.—Davenport (Iowa) Democrat and Leader.

SERGEANT LEONARD C. HAMBY Gamma Upsilon

In looking over my copy of the December Delta, I notice you have no notice of Leonard Christopher Hamby's death. He was a member of Gamma Upsilon (University of Arkansas). At the time of his death in Chicago, Ill., October 13, 1918, he was sergeant in a motor truck train. I received no other details than these.

LOWELL R. MOSS, Gamma Upsilon.

FORMER MONTANA MAN DIES IN FRANCE

Sergeant James Haubensack, Gamma Phi, "Dies on Duty"

Words of the death of Sergeant James Harold Haubensack of the American Expeditionary Forces, was received in the city yesterday. The unwelcome news was contained in a letter from one Sergeant Caillet, a "buddie" overseas. That he died on duty was the only information imparted. Details are unknown.

Sergeant Haubensack, previous to his enlistment in the medical corps one year ago, was a sophomore in pharmacy at the State University, and was what students term "a big man" in college. To that student memories and classical records will testify.

He was an "M" man both in baseball and football. Fans will especially remember him because of his feats on the diamond. He was a member of Sigma Nu, a social fraternity; of Phi Chi, a pharmacy fraternity, and was president of the Pharmaceutical society. And "Haubie" was a charter member of the Hobo club, which traveled and "roughed it" for fun.

Haubensack arrived overseas about eight months ago.—Missoulain, Missoula, Mont.

JAMES CLAUDE SIMPKINS**Gamma Phi**

The first graduate of the State University of Montana has given his life for his country.

Lieutenant James Claude Simpkins, the announcement of whose death came to Missoula yesterday in a terse message from the War Department, was a graduate in chemistry of the class of 1916. Lieutenant Simpkins was killed in action on September 18. He was a radio telegrapher in the aviation service. It is assumed that he was killed while riding in an airplane as an air telegrapher, although the War Department in its message gave no details of the manner of his death.

Lieutenant Simpkins enlisted in the aviation corps more than a year ago, but because of the lack of planes at the front, he did not get into active service at the front at once after he completed his ground school work. In France he transferred to the radio service of the aviation corps, and, according to word received by his father and his friends here, he went into action against the German aviators last month.

A Brother, Edward, [also Gamma Phi] is somewhere in France with a machine gun battalion. Ed Simpkins is a former student in the school of forestry here. Ed played football on the Grizzly team.

Lieutenant Simpkins was born in Boulder, Mont., twenty-four years ago. He came to Missoula eleven years ago with the other members of his family. Here he completed his grammar school education, was graduated from the Missoula County High School in 1912, and entered the university in the Fall. He took a prominent part in student activities. In his Junior year he was a member of the Prom committee; he participated in affairs of the undergraduates, but it was characteristic of him that he sought no conspicuous place in student councils.

After his graduation in June, 1916, he was assistant in chemistry at the University of Missouri, devoting half of his time to teaching and half to graduate study.

At Missouri, Simpkins became very much interested in the chemistry of the radio elements. It was natural, then, that when a scarcity of radio active material occurred at the outbreak of the war he should go to the Chemical Process Company near Denver. This company was engaged, in conjunction with the U. S. Bureau of Mines, in working up the radio active carnotite ores of Colorado. In September, 1917, feeling himself called upon for even more active participation in the war, he enlisted in the aviation service. He was sent to the ground school at Berkeley and upon his graduation

was transferred to France. Here he found that there were few planes available. He therefore obtained a transfer to the radio telegraphic service.

Emerson Stone, a friend of Simpkins since his high school days, paid the following tribute to him in yesterday's Missoula Sentinel:

"Over in France they say that the universal Yankee characteristic is the American smile. 'Simp' must have contributed to that national reputation. His smile was perennial and it was not a surface smile—it went clear through. It was of his warp and woof, those who came under its spell could not resist it.

And 'Simp' was brave as well as happy. Nobody ever saw him quiet. So there is satisfaction to his friends in the thought that it was 'killed in action' in the message of this morning. That's the way 'Simp' would want to go, fighting to the last; and this is sure, with his face to the foe."—Montana Kaimin.

Brother Claude James Simpkins has been reported killed in action in France. Brother W. Bruce Toole writes, "I have not been able to find out just how Brother Simpkins was killed, but I have fairly good authority that he was killed by a man-trap of some kind when he entered a German dugout."

SOLDIER SIMPKINS**(An Appreciation)**

By DEAN R. H. JESSE, JR.
University of Montana

Simpkins' love of fun, his unfailing good nature, and his quality of miscibility made him easily one of the most popular men of his university generation. His energy and initiative caused him to be on hand and actively engaged when anything was to be started. It was, however, characteristic of him that, once the enterprise was well under way, his name was never to be found prominently associated with it. In the chemical laboratory, where he was an assistant, his work was characterized by his self-reliance, his great resourcefulness, and a tendency to stay indefatigably on the job. I have no doubt that these were the qualities that carried him to his commission in the Army and beyond, still with cheerfulness, to his great and final service.—Montana Kaimin.

Dean Jesse was Lieutenant Simpkins's major professor.

Delta Gamma-Beta Mu

Walter M. Stillman, Omaha attorney, has just received word of the death of his son, Lieutenant Walter M. Stillman, who died of pneumonia in France January 7.

Lieutenant Stillman was born in Council Bluffs November 13, 1894, and prepared for Columbia University at the Omaha High School and Creighton University. He received his B. A. degree from Columbia in 1915, and then took the law courses at Creighton and the Iowa State School.

He went to Fort Snelling Training School where he received his degree of second lieutenant in 1917. He was then sent to Camp Logan at Houston, where he was made a first lieutenant on the staff of Major Swain and went across in May, 1918. He went in with the British on the Amiens front, and was in the Fourth of July fighting. He entered the school of the line at Langens and completed the course when he was made a staff officer of the college. Here he contracted pneumonia from which he died.—Clipping, Omaha newspaper.

Brother Stillman was a member of the Omaha Alumni Chapter.

WM. L. RANDALL.

WILLIAM ALEXANDER CONE

Delta Eta

Brother Alex Cone, of Valley, Neb., died in France on December 9. The news of his death on the battlefields of Europe was sorrowfully received by all who knew him.

ROSCOE B. RHODES

Delta Eta

Brother Roscoe Bryan Rhodes, Delta Eta, was killed in action on November 10. The word of death came as a great shock to the Cornhusker school which was expecting him back in school by the second semester. Brother Rhodes was admired by everyone at Nebraska as one of the finest men and best athletes that ever attended the university. He was elected captain of the Husker football team for the past season, but answered his Country's call early last spring. He was sent overseas three weeks after he answered the call. Word was received from him about the first of November in which he told of going over the top two times. After that time no word was received until the story of his death came.

This meant to Delta Eta the loss of a real Brother and a real man. "Dusty", as he was known, was one of the most thorough and dependable players that the Nebraska coaches had ever turned out. Coming from the small town of Ansley, Neb., in the fall of 1915, Rhodes was absolutely green material. But he was not willing to be a second stringer his first year, so he made up his mind to do something in the line of sports. "Dusty" lived football from the start to the finish of the school year. He was never known to break one of the much-abused training rules. He always carried a lot of gym work to keep himself in condition. Then in the summer time, not content with leading the usual life of a university man, he would go out in the harvest fields and do heavy work to develop his muscle. The result was a finished athlete.

He answered his last roll call on the morning of November 10 and died fighting the greatest battle he had ever entered.

JACK LANDALE, Reporter.

CARL O. ROSEQUIST

Delta Theta

Correction.—In the December edition of the Delta in a notice of the death of Brother Carl O. Rosequist taken from the Galesburg Mail, a daily publication here, it was stated that Brother Rosequist left no close relatives, being an orphan and having no brothers or sisters. This is untrue as his parents both live in Evanston, Ill. We greatly regret that this should escape our notice at the time it was sent in, and wish to take this opportunity of correcting the error.

MARK DONALD DARE

Delta Kappa

Lieutenant Mark Donald Dare died of pneumonia December 8, 1918, at Camp

Grant, Illinois. Brother Dare was in the Infantry and received his commission at Plattsburg this summer. He was about to return to Delaware College, where he is a junior, when he was taken with the influenza and contracted pneumonia. He is survived by his mother and father and a brother, Charles Rubon Dare, who is also a member of Delta Kappa Chapter.

ROBERT E. FLETCHER

Delta Nu

Brother Roland E. ("Slats") Fletcher died in the service at Camp Greenleaf, Dec. 21, 1918. He was a member of Delta Nu Chapter class of 1916, which he left to enter Harvard Dental College from which he graduated in 1917. After graduation he set up a dental office at 51 West Forty-Seventh street, New York City. At the beginning of the war he received a commission as first lieutenant in the Dental Reserve Corps but was not called for active service until October, 1918. During his training at Camp Greenleaf he was stricken with influenza which developed into pneumonia and which proved fatal. He leaves hosts of friends to mourn his untimely death. Well might his inscription read the simple legend, THERE LIES A MAN.

DELTA NU'S SACRIFICE

Walter Converse Jones

The Chapter has been saddened by the news that three of its Alumni have made the supreme sacrifice in the services of our country and the freedom of humanity from the oppression of autocracy.

The first of these to make the sacrifice was Brother Walter C. Jones. Brother Jones graduated from the university and law school in the class of 1917 and entered the service at the declaration of war as a chief quartermaster in the Naval Reserve. During the remainder of 1917 and until June of 1918, he was stationed at West Quoddy, Maine in charge of the signalling at the lighthouse. In June Brother Jones was appointed to the Naval Ensign School at Harvard University. It was while attending this institution that Brother Jones became a victim of the influenza epidemic shortly before receiving his commission as ensign in the U. S. Naval Reserve Force.

Brother Jones was very active in Fraternity life while at college and held several college honors. Among other honors he was on the college debating team and editor of the Prism, a class publication, during his Junior year. He was highly respected among his Fraternity Brothers and by all who knew him. In the death of Brother Jones Sigma Nu suffers the loss of a highly respected and loyal Brother. His death occurred in September, 1918.

George E. Kirk

The second loss which was greatly felt by the members of Delta Nu Chapter was the sudden death of Brother George Kirk from the influenza epidemic. His death occurred on November 20, shortly after the signing of armistice, while serving with our forces in France. Brother Kirk had seen action on many bloody battlefields at the front and had escaped them without a scratch. The undying desire for action and the ambitions of a Sigma Nu are well exemplified in the example of Brother Kirk. Captain Kirk had been sent to a hospital with the influenza and after partly recov-

George E. Kirk
Delta Nu

ering left the hospital in his desire for action, against the advice of his doctor and nurse, to march at the head of his company into Germany. He shortly suffered a relapse and was brought back to the hospital in an unconscious condition. Brother Kirk made his sacrifice a few days later.

In the death of Brother Kirk, not only the Chapter and Fraternity, but the college lost one of the most popular and best athletes that ever attended the U. of M. He entered in the class of 1916 and was very prominent in athletics and class honors. He was on the varsity football team and a member of the Sophomore Owls, Junior Masks, and Senior Skulls. After transferring from Maine Brother Kirk attended the Susquehanna University where he was very prominent in football.

He left college after the football season, his Senior year, and the next year found

him starring at Swarthmore College. After leaving there he was business manager of the Bar Harbor (Me.) Record until he entered the army where he received a lieutenantancy in a machine gun company, afterwards being promoted to captain.

His personality was such that all who knew him counted it a privilege. He leaves a father, a mother, two brothers and a sister and hosts of friends to mourn his death. Our sympathy is extended to them in their bereavement.

Brother Kirk entered the service at the outbreak of the war and received his commission as second lieutenant of a machine gun company in the fall of 1917. He arrived in France about December 24, and saw action on the fronts at Chateau-Thierry and St. Mihiel. He received his promotion to first lieutenant shortly after, and his captaincy on October 24, 1918. Brother Kirk was but 24 years old and will be sadly missed by all his friends and as an Alumnus of Sigma Nu.

Philip B. Sheridan

One of the deaths that will linger long in the memory and hearts of the members of Delta Nu Chapter and of the University of Maine is that of Brother Philip B. Sheridan. Lieutenant Sheridan made his sacrifice upon the battlefield of Europe where he was always in the thickest of the fighting. The following paragraph was taken from a prominent newspaper and will perhaps explain his position more plainly than I can.

"Lieutenant Philip B. Sheridan, an Infantry officer in the Twenty-Sixth Division, was killed in action in France on October 9, according to information received today. He was a member of the football and baseball teams of the University of Maine in the class of 1915, a graduate of the Plattsburg Officers' Training School, and went overseas in May, 1918."

During his college career Brother Sheridan held a social and honorary position much to be envied by all graduates and undergraduates. "Popularity" can hardly express regard and esteem which all had for him. Brother Sheridan was a leader in all college activities. He was a cheer leader with whom few compare. He was a member of the Musical and Glee Clubs, a Sophomore Owl, Junior Mask and a Senior Skull. As a Sigma Nu Brother Sheridan was all that could be desired and a member of whom we should all be proud.

In memory of our dead highly esteemed Brothers the members of Delta Nu Chapter will drape their pews for a period of fifteen days, beginning January 8.

STUART F. WALKER,
Reporter.

HUNS KILL ROGER HILLIS

Delta Pi

Shoot Through Heart Last Year's G. W. U.
Football Captain

While waiting in a shell hole for the lifting of the barrage, Roger Hillis, captain of last year's George Washington University football team, was shot through the heart by a German machine gun bullet. Word of his death has just reached the university authorities.

Hillis was a member of Company C, Twenty-ninth Battalion, Canadian Infantry. He was a member of the Sigma Nu Fraternity.—Washington Post.

Brother W. W. Shaller, secretary of the Alumni Chapter at Akron, Ohio, where Brother Hillis first tried to enter the American Army and was rejected, says: "I was sorry to hear of his death in action. He was a fine, manly chap." Brother Hillis tried at many places to enlist, finally succeeding in Canada. Read again Brother Victor L. Kebler's tribute in the October, 1918, Delta, page 121. Brother Kebler is a member of Brother Hillis' Chapter, Delta Pi, and misses greatly his fraternal friend.

GEORGE FRAZIER MYERS

Delta Sigma

Brother Frazier Myers died on December 17, at the main hospital at Kelley Field, of bronchial pneumonia resulting from an attack of Spanish influenza.

Brother Myers was initiated into Delta Sigma of Sigma Nu in 1916 and was a Junior in the Commercial Engineering Course at the Carnegie Institute of Technology at the time of his enlistment. He had been stationed at Kelley Field in the oil testing laboratories for the past year.

The Brothers in Delta Sigma have lost in Brother Myers' death, a Brother who was a true Sigma Nu and one who was always loyal to his vows, his Fraternity and his country.

H. DONALD DICKINSON,
E. C., Delta Sigma.

This day I have viewed the body prior to its being sent to his home in Franklin. Brother Myers had been stationed at Kelley Field in the oil testing laboratories for the past year.

Since my arrival here November 1 we had been enjoying our friendship together as Brothers in Sigma Nu. I therefore feel his loss very deeply and believe that the Brothers of Delta Sigma Chapter have lost in Frazier Myers a Brother who was a true Sigma Nu and one who was always loyal

his vows and the Delta Sigma Chapter 1 to his country.
ENNETH R. BENSON, Delta Sigma.

LIEUTENANT HENRY J. SCOBELL
Delta Sigma

Brother Henry John Scobell, first lieutenant, Infantry, died in France on November 15, 1918. He was wounded on September 22, in the second battle of the Marne and died of wounds and pneumonia.

'Scobie' was a Junior in Architecture at Carnegie Tech and went to Officers' Training Camp at Fort Niagara where he received his commission. He was twice cited for bravery, on one occasion he saved a company from being gassed.

H. DONALD DICKINSON,
Delta Sigma.

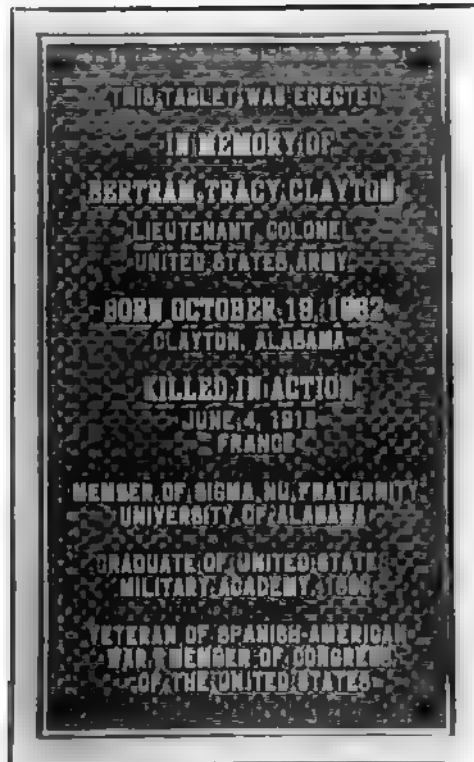

HAROLD COLTHURST MILLS
Delta Chi Pledge

Lieutenant Harold C. Mills, of the Marine Corps, was wounded in action at Chateau d'Arry, June 10, 1918, and died at an evacuation hospital July 17.

Harold Colthurst Mills was born at Westford, Quebec, Canada, January 4, 1895. He was the only son of the Rev. Seth A.

Mills and Mary H. Dunscombe. Mrs. Mills being a cousin of Sir George Colthurst, on whose ancestral acres lie the ruins of Blarney Castle, in Ireland, the family name of Colthurst was given to her son.

The family moved to Troy, N. Y., in 1905, when Mr. Mills accepted the rectorship of St. Luke's Church. Lieutenant Mills graduated from the Troy High School with honors in 1911. In September he entered Trinity College, becoming a member of the local Fraternity of Sigma Psi, now Delta Chi Chapter of Sigma Nu. He graduated from Trinity in the class of 1916, the youngest member of his class. In the fall he entered Berkeley Divinity School at Middletown, Conn., and remained until the close of the school year in 1917, when he enlisted in the Medical Corps of the U. S. Army. During the summer vacation of 1916 he attended one of the Plattsburg camps. Upon enlistment he was assigned to Ambulance Co. No. 16, at Fort Benjamin Harrison, Indiana, from where he received an appointment to the Second R. O. T. C. at Fort Niagara, N. Y. At the close of the camp he received his commission as a second lieutenant, Infantry, U. S. R. He was sent to France and was transferred to the Marine Corps. Lieutenant Mills' death gives the Delta Chi service flag its first gold star.

Clayton Memorial Tablet

Theta

Theta Chapter at the University of Alabama has erected a tablet in memory of their distinguished soldier-brother, Bertram Tracy Clayton, who was killed in France. The tablet will be placed on the Chapter walls, and will be formally dedicated on Decoration Day with suitable memorial services. Brother Clayton was a member of a famous Sigma Nu family, and was one of the highest commissioned officers in our Fraternity, a full account of his life having appeared in a recent Delta. The sympathy of all Sigma Nu is extended to the Clayton family and to Theta Chapter.

The tablet was executed by the House of J. F. Newman, official jewelers

Knights of the Republic

*"To guard with jealous care * * * the ancient rights of human freedom, in whose name we shall destroy all wrong and oppression, * * * And so to be faithful to the Knighthood of Truth."—The Creed of Sigma Nu.*

Our honor roll of the Knights of the Republic will be a part of the historic archives of Sigma Nu. We all desire to have it, in its permanent form, accurate and complete. Our thanks are due to the Chapter Reporters and our Alumni Correspondents and Secretaries who are taking a keen interest in their Chapter record herein. But every one of our readers must add his "bit" to our list. Not one of our Knights-in-Arms dare be missing.

The Editor hopes that the permanent list can be printed in the May Delta. All corrections and additions for that number must be in, on or before March 20, 1919. Please specify, where possible, whether initiate or pledge, give Chapter name and do not use nicknames or initials. Remember we often have several men of the same name so that as full information as you can obtain is sometimes necessary for identification.

Every Brother in the service is asked to fill out the blank on page 000, giving his war record and other details of interest.—The Editor.

Knights Afield and at Home

We want the name of each chivalric son that it may be enrolled in the immortal scroll of our history. We honor and love all of them. We shall pray for them through the bivouac and the battle. We shall watch for their return, and living or dead we shall hold them in cherished memory, immortal.—Walter J. Sears, Nu-Beta Nu.

Editor's Miscellany

JUNIORS PLATERNIZE

Here are a couple of familiar names identifying sons and namesakes of former editors of the Delta. Not old enough by a dozen years to become Sigma Nu "spikes," they may be known meanwhile as Sigma Nu "tacks"—and they are sharp ones. The picture was taken at the Sears home in Chillicothe, Ohio, last November.

Future Editors of the Delta
Walter J. Sears, Jr. and John C. Scott, Jr.

"Carry On," a timely cry is suggested when these new friendships spring from another generation, adding flavor to the enjoyment of the old and giving impetus to the realization that the fundamental purpose of Sigma Nu, embraced in the name "Fraternity," will be carried on and strengthened as a result of these inherited bonds of friendship.

OUR SOLDIERS THANK YOU!

Subscriptions from A. E. F. postoffices arrive in every mail, and constant changes in address are advised. But not all Brothers in uniform can afford out of Army pay to take the Delta. Many brothers, in better financial situations, have "come across" to the aid of our soldiers, and it is due to them that this public acknowledgment of their *thoughtfulness* be made:

Glen H. Haynes, Delta Sigma,
Norman H. Angell, Delta Gamma.
G. E. Sears, Beta Eta,
W. E. Wrather, Gamma Rho,
Harry L. Hopwood, Beta Nu,
H. C. Moran, Beta Zeta,
H. P. Middleton, Delta Pi,
Rho Chapter,
Gamma Xi Chapter,
Gamma Lambda Chapter,
Delta Omicron Chapter.

SIBERIAN GREETING

The Editor of the Delta acknowledges here a Christmas card from Sergeant Harry M. Beardsley, Gamma Rho, of the photo unit, A. E. F. S., whose headquarters is at Vladivostok, Siberia.

A Soldier's Wish

This be our Wish that Love may never end,
That happiness o'er all the world may
 roam;
That, we boys in Siberia, may spend
Next Christmas with our friends and
 folks at home.

Brother Beardsley is the first Sigma Nu heard from in the American Expeditionary Forces in Siberia.

VISITORS' REGISTER

The General Offices will be moved, before this Delta is off the press, a few doors down the hall to 704-708 Lemcke Building. Come in and see your offices and make them your headquarters during your stay in Indianapolis.

Space prevented the publication of the Visitors' Register in December, but we will now begin where our October list left off.

September 9, 1918. Clinton H. Givan, Beta Eta, Indianapolis, Ind.

September 10. E. B. Hall, Gamma Mu, Indianapolis, Ind.

September 11. Carl Bougere, Beta Phi, Covington, La.

September 18. W. G. Biddle, Beta Eta, Pendleton, Ind.

September 28. Edgar Kobak, Gamma Alpha, Chicago, Ill.

September 30. Wm. A. Pitkin, Beta Beta, Greencastle, Ind.

September 30. Owen Cook, Beta Beta, Greencastle, Ind.

October 9. Lieutenant George A. Chandler, Gamma Lambda, Office Sub-Depot Q M., Camp Carter, Mich.

October 12. Lieutenant Franklin O. Rose, Beta Chi, Fort Benjamin Harrison, Ind.

October 15. H. V. Baily, Beta Beta, 35 W. Ohio St., Indianapolis, Ind.

November 8. O. S. Moore, Gamma Kappa, 1073 S. Downing St., Denver, Colo.

November 9. Private Donald C. Krull, Gamma Mu, Fort Des Moines, Iowa.

November 16. Charles M. Wells, Beta Eta, 2126 College Ave., Indianapolis, Ind.

November 23. John C. Scott, Beta Zeta, Indianapolis, Ind.

November 23. H. J. Biddle, Beta Zeta, R. R. No. 11, Anderson, Ind.

December 3. Ernest L. Williams, Gamma Kappa, 408 Gas and Electric Bldg., Denver, Colo.

December 6. W. Terry Field, Gamma Upsilon, Little Rock, Ark.

December 13. C. R. Mason, Delta Delta, 24 N. Salisbury St., West Lafayette, Ind.

December 21. H. J. Biddle, Beta Zeta, R. R. No. 11, Anderson, Ind.

December 21. C. C. Brewer, Beta Kappa, 805 Poyntz Ave., Manhattan, Kans.

December 23. R. W. Durler, Beta Zeta, 1233 Newman St., Indianapolis, Ind.

December 30. Henry S. Brown, Beta Iota, Columbiana, Ohio.

January 7, 1919. W. G. Biddle, Beta Eta, Pendleton, Ind.

January 8. Lieutenant Wendell Barrett, Beta Zeta, 24 E. 36th St., Indianapolis, Ind.

January 9. Lieutenant Edward H. Kares, Gamma Delta, Brooklyn, N. Y.

January 9. Lieutenant C. C. Brewer, Beta Kappa, 805 Poyntz Ave., Manhattan, Kansas.

January 10. Captain Robert H. McKinley, Beta Zeta, Wiggins Apartments, Willmar, Minn.

January 16. Walter Krull, Beta Zeta, Indianapolis, Ind.

January 22. Ralph Winslow, Beta Eta, Greenfield, Ind.

HOW WE DO IT

Without undue boastfulness, the Editor yields to the temptation to print one of the many encomiums to the Delta which crowd his desk and files. After all, this is a tribute to our faithful correspondents among the Alumni and active men. It is to them and not to the Editor that the quality of the Delta in news and pictures, in thought and style of presentation, is steadily maintained and continually improved. They are volunteers, "these busy Brothers," who assume for themselves labors in the Fraternity in addition to the daily round. They do not, with scarcely an exception, refuse or neglect a request made of them. Most of them need no request for the larger part of our material comes without solici-

tion from them; which all demonstrates their live interest in Sigma Nu and her problems, and their keen desire for service—yes, their initiative to help "carry on."

Mr. Edwin W. Dunlavy, Editor The Delta, Indianapolis, Ind.

Dear Sir:

May I take this opportunity to tell you how much I have enjoyed the privilege of reading your very excellent magazine? We women view such fraternity magazines as yours with envy and wonder hopelessly WHERE you procure your interesting material and HOW you persuade the busy "Brothers" to take their valuable hours in which to write articles.

With many thanks for your exchange issues and all good wishes for your work, I am

Sincerely yours,
MRS. S. L. SLOVER,

Editor, The Trident of Delta Delta Delta.
530 Fairfax Ave., Norfolk, Va.
May 28, 1918.

And yet we are amazed that our men have beaten their sister Greeks. College girls are supposed to have a special aptitude for literary indulgence and to give closer attention to the needs of their social organizations.

Brother, wherever you are, remember the Delta. Send in your contribution—news, picture or "story."

FRATERNITY SPIRIT

Brother Crawford Sure Shows It!

Professor E. F. Engel,
Chapter Adviser, Nu Chapter,
Lawrence, Kans.
Brother Engel:

About two weeks ago I wrote you, stating that I was sending \$10.00 by American Express to be used by the Chapter in any way they see fit. After mailing this letter I learned that it would be much cheaper to send this amount by money order. Am enclosing money order for same.

"Blondie" Jones is touring Scotland this week. I am holding down the office but upon his return I hope to make the same trip. We are both well and are getting along all O. K. We have rented a small apartment and are living as nearly as possible like we did in the old Fraternity days.

Sincerely and Fraternally,
THOMAS L. CRAWFORD, Nu.

U. S. Naval Aviation Headquarters,
12 Grosvenor Gardens
London S. W. I.
England.

Chapter Book Shelf

TIDES. Archie Austin Coates, Delta Gamma. George H. Doran Co., New York. (192 pages, \$1.25 net.)

name of the author of this promise is well known to the readers of Delta. Brother Coates, though on the of the New York Tribune, and now ually finding a place in the leading ines of the country, still finds time to oyal assistance to the Delta. (See al verses in this issue.) If all our rs who have attained literary dis- n would equally remember us, what azine we would have!

introduction to this volume is writ- re's Magazine, who endorses Brother 's poetic inspiration in no uncertain as follows: "I do mean to declare mphatically that here is an authentic a young man with much to say, who how to say it; a maker of free verse, nowns the value of pause and tone ress; a youth who may go far if the of the city does not eat his heart too soon. And I want to share my ; in him with the lovers of beauty uth. . . . He is a new poet of the ise with a wisdom beyond his years, with vision and comprehension."

her Coates, whether for good or for vidently is not to be called upon as obert Browning and many others, to way the years, writing verses which ong await a hearing from an indif- public. He is to be congratulated ieving a place in the eyes of the at once. The Literary Digest has dly published his poems in its department of "Current Poetry."

ie issue of December 18th, they pub- America's Home Coming" with the ng comment: "Here is an admirable n the newer style which gives a vivid of the boys marching home." One very best (in our judgment) of the poems is "Thanks," reprinted in ecember Delta from the Literary

Outlook takes occasion in its issue ember 18th to use "City Tides" as a r "A Little Sermon on Free Verse," ch it somewhat caustically handles hole modern movement of which r Coates is one of the foremost of unger disciples, saying: "To a writer the 'freedom' which free offers is like the 'freedom' that lies

in free 'booze' or free love. One is prompted to preach in the terms of the old theology and to say that it is a snare of the Evil One designed to annihilate prom- ising poets."

The Outlook, despite its prejudice against the modern disciples of free verse, says of "City Tides": "There is a trend of life in these pages—but a large part of it is only half-baked. Also 'City Tides' represents free verse, not at its worst by any means. . . . For Mr. Coates has imag- ination and zest for experience besides some skill in the conventional rhythms."

We confer ourselves to some sympathy with the attitude of the Outlook toward the whole movement of "free verse." Also with the article in the January, 1919 Har- pers's, "About Writing Poetry," wherein it is said: "I cannot entirely sympathize with that now fashionable school which demands a poetry professedly American and up-to-date, which proclaims emancipation from conventional form. . . . For some of us their freedom is too hard a bondage and their anarchy too narrow and inflex- ible a dogma."

Nevertheless we have in Brother Coates one of the foremost of the younger poets of the modern school, who sees the soul of things beneath the crude exterior of our American life. The author describes too many of us though we be college men in "Blind."

Traveling home from work at sunset,
Into the maze that men call Brooklyn,
I cross a bridge midway 'twixt sky and sea.
But I never behold the sky,
Nor the water in green folds far below me.
I never see the sun on gilded domes,
Nor ivory towers, nor spires all hung with
 gems
From the sun's red crucible.
I never see the still green shadows shake
Broad arrows deep into the heated rifts
Of streets.
I have no time for that—
Nor soul for seeing—
I always have to read the evening paper,
And learn if stocks have risen,
Or if, perchance,
The ball-team's won another game.

The daring originality and strength of the eleven poems under the general theme of "A Magazine Publishing Office" is generally remarked by all reviewers. We have not seen the soul of our great materialistic activity better expressed by any of our modern writers.

The spirit of all them is expressed in the conclusion of "Martin, the Business Manager," who said:

"I have had a good deal of life, But I have never sold myself for it, So that now it is my slave, not my master."

Sigma Nu Brothers will find in "City Tides" a spiritual interpretation to many of the common experiences of all our lives. They will also keep in touch with one of the stronger voices in the newer expression of American poetry. Put "City Tides" on the Chapter Book Shelf.

A POET OF THE CITY

We would further quote the review given Brother Coates, by a critic who cannot be accused of fraternal bias, as it appeared in the Indianapolis News.

Among the new volumes of poetry one notes with especial interest the "City Tides," by Archie Austin Coates. Mr. Coates refuses to be classified in any cut-and-dried fashion, for he writes with apparently equal facility "free verse" and verse in the traditional forms. Here is a poet who is intensely modern, thoroughly metropolitan; he loves the sounds of the New York streets, which are to him full of music. The people on the streets and in the offices are to him full of dramatic and poetic possibilities. If his genius had taken another turn, he might have been a great novelist, but as it happened he found his medium of expression in verse. This book is a treasure-trove. Students and lovers of poetry can not afford to miss it.

ZANE GREY IN FRANCE

Following up our account of December about Zane Grey in camp, we must quote a little incident told by Lieutenant Howard A. Johnson, Gamma Phi. Brother Johnson had just run across Brother J. E. Spier, Gamma Kappa, in Paris. "We were in a book store on the Rue de Rivoli," he says, "and I picked up 'Desert Gold,' by Zane Grey. Spier said, 'Better buy that; it's a good book;' and through this remark, we got acquainted."

"By the way, Zane Grey can write stories," Brother Johnson affirms. "And he is international; I bought two of his books in Paris."

And for our movie fans, we would add this news note from U. G. Palmer, Jr., Epsilon:

The United Picture Theatres advertised for October release, Dustin Farnum in his first super-picture—"The Light of the Western Stars" by Zane Grey. Another picture play of Zane Grey's "The Riders of the Purple Sage," is still running.

RAWSON BENNETT

Writes on the "Navies of the World."

Past Regent Brother Rawson Bennett contributed a full page article on "The Navies" to the souvenir Peace Edition of the Chicago Journal, of November 27, 1918.

Brother Bennett's review of the naval activities is one of the best we have seen.

A Constructive Critic

[Our critic wishes not to reveal his name until he wins the prize.—The Editor.]

"Here's to Sigma Nu" is good—words and music for the boys to sing around college, but it would never do for the Fraternity's national hymn. You can readily understand that I am sure.

"Hail, Sigma Nu" is far better, both words and music, but I do not think it quite comes up to the mark we should set, in either part.

"Good Night" is also out of place as a national hymn. It would do to sing at the end of the ritual in closing meetings, or in closing meetings anywhere.

Now, after such criticisms, one is likely to say, "Well, what can you do about it? What are you going to do about it?" My reply is this: "I am going to remedy it. I have written for words which I think will be suitable, and I believe I have the tune—

not only dignified, majestic, but suitable, tuneful and simple. I will send it to the committee before very long."

As for the "Contributions by the Big Noises in Sigma Nu," in the December Delta, I should say that the song Sears wishes would be too complicated—the tender with the too strong. I would prefer the latter. Woods would be too much in the nature of a serenade; Burns just the opposite—too rowdy and rough. Vanderblue seems to "hit it" exactly, but the sentiment must be sublime; melody, tuneful, and mirthful, meter, martial, grand and inspiring.

We were born in a military time. We have ever been fighters and we hope always to be. We want a national song which is stirring—a protest against oppression—a plea for liberty. We must have a battle hymn, one to lead by and one to follow.

Pickwick Club

By MR. SAMUEL PICKWICK, Esq., G. C., M. P. C.

THE POSTHUMOROUS PAPERS OF THE PICKWICK CLUB

Containing a Faithful Record of the Perambulations, Perils, Travels, Adventures and Sporting Transactions of the Corresponding Members

OUR PANTHEON

Adventurers Into the Borders of Greece

Though Mr. Pickwick has been at times sorely tempted, he has managed to forget, up to this time, references of approbation which have been showered upon the Pickwickians and their tales of sport and hard labor. These Adventures of our Corresponding Members are so much better than personal allusions that there has been little choice otherwise. But, now, in justice to our Honorable and Famous Society and its learned Adventurers, Mr. Pickwick must congratulate the far-sighted and well-balanced judgment of some of our Brother Greeks who are the editors of the leading Fraternity journals. Such are, for instance, as have quoted selections from these Posthumorous Papers in their pages and promulgated the wisdom Pickwickian to the outlanders who dwell in Greek lands.

The editor of the Phi Gamma Delta is the chief of this band. On reprinting Brother Dale Hartman's little essay into soldier-life, he remarks aptly and adactly: "A letter from the front is interesting even if it is not from one of your own Brothers. But when that letter is from both the front and the rear, it is doubly appreciated. Here is a letter printed in the Pickwick Club of the Delta. Notice how a soldier gets down to fundamentals, which are not related to regimentals." The censor in the Phi Gam editorial office is working nights, and consequently certain military expressions are substituted by two long ——— (whatever they may mean). Brother Hartman's own words besides being scriptural have the weight and authority of regular Army usage.

Next, the Honorable Editor quotes at full length one of Togo's stories—the one about Judge Homer Vanderblue, our erudite contemporary of the Northwestern Faculty and the U. S. Army, and Brother Generally Sears of Washington, D. C., both of whom are experts in collar jewelry—rising to remark that "in the Pickwick Club, we

find a letter from one of the boys in the service which reads very much like one of our best known humorists."

Mr. Pickwick would congratulate Mr. George Friebolin, the editor of the Phi Gamma Delta, upon his good taste and excellent discrimination, and Brothers the Lieutenant George A. Chandler and the Corporal Dale Hartman upon their facility of description and touching ways of reminiscence. When a Fraternity editor uses his space for another's "copy", it is a sure sign of merit in that copy.

Furthermore, as turn about is fair play, Mr. Pickwick would pursue this elusive topic through the Coincidence Department of the Fijis, which contains many pithy and yet absolutely vouched-for tales of meetings by the Camp Fire and in the Trench. His correspondents ought to find permanent jobs waiting for them on the Associated Press. And yet, without affectation, Mr. Pickwick would humbly call Mr. Friebolin's omniscient-but-once attention to one unique coincidence which has apparently escaped his vigilant eye and fleet foot. D'jer ever notice? No matter how busy Mr. Secretary Baker has been with the affairs of war, he never misses getting a long write-up in each and every issue of the Phi Gamma Delta.

SHELL SHOCK

A Self-Analysis of a Hero

Mr. Pickwick cordially welcomes a Charter Member of the old original Pickwick Club, Dale Hartman, Delta Zeta; Brother—I mean Corporal—Zed Pethtel, of his Chapter and now of his Battery, glibly informs us that Brother Hartman's cognomen (in the Army) is "Toughy" and the corporal lives up to his name. Gone forever is our Dale, our pink-and-white Dale who once "took in" a D. U. party by appearing in his Dramatic Club costume as Miss Browne-Klinesmith.

Our Adventurers will remember the thrilling narrative of Horses and Women, in the March, 1918, number of this collection of Unique Tales (more of which anon), and they will see that Dale has lost none of his romance in his new character of Yank-under-fire. And the subtle vein of humor flows too deeply to be hindered by a tough skin.

Mr. Pickwick hopes the Chapter will bear in mind Corporal Hartman's requirements for physical ease, and, when he returns to Fraternity life again, they will supply him with all the creature comforts he asks for in the last paragraph.

Mr. Samuel Pickwick, Esq., G. C., M. P. C.
Dear Sir:

The Little Corporal

This is a great life! Oh, oui! That is, if you have a natural inclination to be a soldier, which I haven't—"there's the rub." You know I'm no hero—never did pretend to be. In fifty years from now when some one writes a history of this war I don't expect many Chapters to be devoted to me; for I'm no hero, and besides, I'm just a corporal. Of course, Napoleon was once a corporal; but I don't hold that against him—he probably couldn't help it. As I have said, I am not a hero—positively not. In fact, I'm not even brave; that is—not abnormally brave. I suppose, of course, that a hero—a real hero—wouldn't experience many thrills when under shell fire for the first time. But I—well—I did.

A First Person Whistle

It happened in this manner. About four o'clock the other afternoon I was strolling along a road on my way back to the dug-out. My mind was at perfect rest—its usual condition. There was no need to worry, for on our quiet front it is a sort of social error, a most unconventional thing to exchange compliments until after the evening dinner hour. (Let me say a word of warning here about quiet fronts—they are like quiet women; things mostly hypothetical.) Suddenly I heard a boom away off across the distant hills, and then a shrill whistling sound. Quite often before, I had heard such booms and, also, the accompanying whistle; but this was different. There was a distinctly personal, first person, present time, active voice note to this particular whistle. Something was coming my direction and it wasn't procrastinating along the way.

A New Theorem—in Which the Whole is Equal to One of its Parts

Just about this time I began to experience thrills. My psychosis at that moment would have delighted any professor of abnormal psychology. It was certainly a "complex". Like the poet, I thought many thoughts—only in less time. I don't claim that I remembered every incident of my life. I may have missed a few but they were of minor importance. The shell was whistling merrily—I wasn't. It came closer and closer—and then I—well, I ducked. I didn't do it intentionally. Just as Adam must have ducked the first time Eve threw the rolling pin at him, so it was with me—pure instinct. I just naturally pulled in my neck—sort of reduced myself to the lowest common denominator—and waited.

The Better Part of Valor

After an interval of five years or more the shell landed—about twenty-five yards behind me. It rather upset my decorum—also me. For the time being I laid aside my inherent dignity (also the heavy instrument-case I was carrying)—and by the time the second shell announced itself a half minute later, I had covered considerable ground. (This may be taken as a mild statement.) I suppose that if I had been a hero I would have stood my ground and waited for that second shell—but I would have been much less healthy than I am now. Of course after that experience shells don't bother me any more—unless they come within nine or ten miles of me.

Creature Comforts

The first thing I do when I get home will be to kill the canary; for I know that every time that bird whistles I'll duck from pure habit. Then I'll dump a pile of broken bottles, bricks and empty tin cans under the back porch steps, throw an old horse blanket over the heap and sleep in comfort. Yes, this Army life is a great life! Oh, oui!!

CORPORAL HARTMAN, U. S. Army.
(Dale A. Hartman, Deita Zeta.)

[The Journal of the Psychological Society, please copy.]

NOSE SPINS IN THE MESS ROOM

Fame is Flighty

Mr. Samuel Pickwick, Esq., G. C., M. P. C.
Dear Sir:

One of the finest pleasures I have had on this side came with the news letter and I thank you very much for it. Although many of my Brothers had strange names (my fault) they were none the less Brothers—and the letters were those of good soldiers of fortune.

My soldier life has had little to do with squads east, being a stew sergeant, a job that is showered with bouquets of sun flowers and cabbage senectute. Fortunately though I was shifted into special duty at regimental headquarters. One never knows the taciturnity of the human beast until he is a mess sergeant in the Army. One meal or several you can have all the stomachs yelling "Enough" and "Bravo"—what a glorious feeling—then the ration cart arrives half-filled and—you are a helluva fella.

Personally I am two hundred pounds of lean meat, healthy, some ten or eleven hands high, with a good place to sleep—no cooties—and plenty to eat—I have no right whatever to complain when compared with the many who knew no comfortable moments since they joined. I tell you, this Army is one big lodge, one brotherhood—and is to be reckoned with when this is all over.

BOB SHREFFLER, Delta Zeta.

FRESHMAN PRANKS

Remember Their College Days
 You remember that time when Bob or Cupid carried that log home in a case instead of his laundry, or carefully treasured a bag of bricks of his text-books when he left for home? Mr. Pickwick is delighted to get a new enlightenment on the ways in our American Army has cheered its comrades, just like college boys on a trip to Europe. Lieutenant Hibben, Delta Alpha, will be welcomed by all the illustrious Correspondents of our learned Society, and will be warmly initiated by Brother Sam P. V. P., M. P. C., in his own Welcoming way upon their respective returns to the United States.

"Rest" Camps

Samuel Pickwick, Esq., G. C., M. P. C. reports:

We were amused during our stay in England by the disclosures made when the unrolled their packs. In my bunk was a nice American rock, weighing about twenty pounds (that same United States terrier has traveled with Lorraine in one man's baggage or suitcase) and our foxy chaplain had a new stove-pipe instead of the roll of

bandaged at Liverpool but traveled to London before resting. Not having been assigned to a "rest camp" you won't miss its joys and comforts. These places are called "rest camps" because one rests there the rest of your life. No one found any other reason.

"Gas", and Minor Joys

One goes through so much muck and grime as we call "war", he gets to be so fatigued, many comical things to him are a gloom.

One day we were betting on the speed of a fellow could put on his gas-mask. Somehow or other one mask was better—the owner put it on in about five seconds, but sure broke the record by coming off.

One day we buried the major's dog in military honors—the major wasn't at the ceremony because the order was to put a gas-mask on that hound giving the gas alarm, and the dog gave a stand-in with the men.

Old nights, fellows' blankets get put together somehow, and the hunter usually finds a poilu's identification in his "corned-willie." With the identity of coins that we use, a poker must be played "in three languages" and so it goes.

I am learning to distinguish between good and bad wines, and to cultivate a little French language. It really becomes essential to "parley", especially when you go to buy tooth-paste, and discover when you get back to camp that you have purchased a tube of artists' white paint.

LIEUTENANT SAM G. HIBBEN,
 Delta Alpha.

FOREIGN TRAVEL

Odd Notes Relative to a Corporal's Career

Mr. Samuel Pickwick, Esq., G. C., M. P. C.

Dear Sir:

My tongue cannot speak how much I appreciated the chain letter. In fact, it furnished me with bits of news from Brothers that I had given up as lost. Furthermore, it tells me that Sigma Nu is furnishing her quota of men for giving the hunter his due.

I think Corporal Hartman gave you a very good account of the Camp Sheridan war in his letter to Mr. Pickwick. Well, war is played a little different over here. However, we do try use some of the knowledge gained at the training camp over here.

By the way, Hartman has acquired the name of "Toughy" and I think he justly deserves it. His one desire is to mix up in a bloody battle. You probably know that he is an instrument corp., on the B. G. detail. The work fits him as math is his long suit.

Terrell is an instrument man but still a private.

Last and least comes little "I". I'm a handy man. Don't get me wrong. I mean that I come in handy in doing odd jobs that require brawn and not brains to handle. However, I'm listed as scout corp. No. 1 and draw a regular corporal's pay. Brothers Layton (deceased), Strock and Cooper left our ranks while we were located at Camp Sheridan.

Since leaving the States I have seen many beautiful places and vice versa. France is in a pretty much dilapidated condition. Our travels (while quite extensive) have been limited to France, although we crossed England in reaching here. We travel by foot, trucks, and box cars (side door Pullman) labeled 40 hommes—8 chevaux. If you have not traveled in the above modes try 'em out. They will make you a strong advocate for a pipe, easy chair and fire-side.

In closing, I will say that I have never felt better, and I am glad to be doing my bit.

CORPORAL ZED PETHTEL,
 Delta Zeta.

TOGO, THE HON. SHAVETAIL

Wins Collar Jewelry by Convincing Twofoer Arguments

Mr. Samuel, the Very Rev. Picknick, V. C.,
D. S. C. Founder of Newspaper by
above similar name

To who may be consarned:—

After holding 4th completely 1 yr. as merely deck-swab private (as sailor in army would be dibbed in mirthful metafore of Scotch ballads), I encroach upon myself, "Why not join squad of collar jewelry agents as per remarks of formerly graft captain somewhat spoke of in these columns?" So bending footprints to application desk, I attend to swear out allegiance to office, but become informed by Boss Agent that such expensive jobs are given only after waiting in lines 7 or 5 hours until predecessors grow exhausted.

This I do and finely chance to stand next for repertory of queries. "Blal!" think I in silence, "What to say with three so high-jobbed agents making militia interrogation of ancestry and other mental disqualifications!" Treading upon the toes of this unheard remark, following dialogue thereby ensue between all of us: (but for conservatism of paper only opposing side of talk are included, as per telephone conversations of vodville stage if heard from other end of line.) Name of wife, if any; otherwise mother-in-law; Describe erstwhile residential domicile, and if foundation is of red brick, was it laid during year 1893; Do you desire commission, and if not, why did you not apply earlier; Please overturn to this Board any physical diseases which, previous to joining Army, you had been unsuccessfully inculcated against but with positive simpletons; What general proportions do you possess for wearing collar jewelry and leathern hose; Are you accustomed to playing P-knuckle for steaks; What solution have you to offer for failure of Hispanian Influence epidemic; and zuletzt the conclusion: "What branch of service do you desire to have honored with your carcass?" To this I reply with conscience, "By personnel requirements Office Corpse are essential."

At this junction that gold-leaf agent whom had whithertoo not spoken, garbled out, "I am convictioned that examining as per foregoing has brought forth the candidate's strong fit for Sleuth Dep't., but since vacancies are plenty there, better place him on waiting list for Chemical Hose & Fire Dep't. Co., at present overorganized with goodly waiting list."

There upon all three agents raise to feet, give militia salutation of hand to eye-winkers, and toss to me framed ram's-hide scroll setting 4th that by these presents I am now elected and installed Lieut.-Colonel of Shrapnel Inspection Regiment. "This is a stun!" I cry with assimilated glee,

"Me, my father, his father, and all their ancestors are much obliged!" "Tis nothing!" they wave in return, "We have them printed by the Ream." (Which I can say a la parenthesis is the cognomen of U. S. Royal Printer.)

As I make for door to which path of dessicated roses are flagrantly strewing from beaming arms of porter, another impotent agent of medical odor drift in and glimpse my face, no longer expunged from sight by flu-mask. "Halt this procession!" he stentors, "It is not in accordion with Army Regulators to appoint commissions to persons not natural citizens of U. S. Cannot you percept the almond in this wastrel's eye and judge he is not of approved complexion to join collar jewelry club?" At this junk-shop them three Board Directors hereto-previously mentioned of clap hands with glee, order porter to light romancandles & sky-shooters, and then sing in choir: "That's the time we slip it over on Big Boss M. D.; wadinell do we care now?" I slip them all a twofoer seegar, collapse into rocking chair, and resume munching banana left over from dejeuner.

Should this M. D. agent grow rosy and burst into anger? Not so, for fat smoke roll from nose as he sink into divan and gurgle "Joke rests upon you gents; this yellow bird are grand greatson of Judge Mitsi Huto, Emp. of Japan, and because of your insult in making him only Lt.-Col. at this recent date, war will result at this nationality in another ¼."

Viewing what had just gone on in proceeding ¶s and extracting morals therefrom, can you not wander why J. Og. Armor and other Capts. of Industry are not promotion to Generals in Pen Army of their uncle, Sam?

Consider now that complete army are at this date again being converted into public mob, and then realize that militia literature life of Togo, now Hon. Shavetail, U. S. A., is nerely at the end, and mayhap will be when this reading is in your eye.

Thus long, Sam, old skeeziks, and recall myself with smiles to Mrs. Sam and all the little Samples, if any.

MUCH-HASH TOGO,
(Lieutenant George A. Chandler,
Gamma Lambda.)

A "CLOSE-UP" OF WAR

Our old friend Sam Weller writes a serious letter once. The cold seems to have affected Sam strangely, but his mind is still in good trim.

Mr. Samuel Pickwick, Esq., G. C., M. P. C.
Dear Sir:

The news letter read mighty good to a chilly man. I have to wear all of my clothes and some of my friends' but still

cold. This is a country of wine, as puts it, but I am where it ain't.

remember how blood-thirsty a num- us were in the States. Well, I and, k, a large number of others have lost e portion of our desire to drink gore. s some war and it is just a little dif- from what I had expected. None at mad dashing on horse-back and g swords. A 150 mm shell is like | lightning only a damn sight more ous.

aviators get my goat. They follow ound and frequently I am without my "sang froid." Indeed an observer have noticed that I have at times, ed from a bed to a cellar minus my and pants.

ve seen those old battle-fields and for one can see nothing except shell holes lackened stumps. Signs mark the sites, there is nothing else to indi- that anything ever lived there. I talked with women whom Fritz has ated, and I have seen deformed chil- by German fathers. Surely no sane ants to fight, but an idiot would fight Huns if he saw their work.

in the States, hear much about the ug qualities of the French, but too about the English. One needs only to e old fronts of the English to realize hey are the equal of any nation as rs. Their organization is wonderful heir aviators are unexcelled.

s difficult to conceive of Carl Bech- : handling a machine gun. The rous weapons with such a gentle chap! men are hell when started and I feel for the Heinies when Bech opens up.

it stop now as my hand is numb. The gave me a new grip on things as by my instant response.

SAMUEL WELLER, JR.

orporal Charles Cooper, Delta Zeta.)
Engineers, A. E. F.

"DAMN THE TORPEDOES!"

Said Farragut, "Go Ahead!"

is title is selected by Mr. Pickwick as using Brother Child's spirit.

Samuel Pickwick, Esq., G. C., M. P. C.
Sir:

was observed in the preface to original addition that the Pick- papers were designed for the intro- n of diverting characters and inci-

will be noted that both Mr. Pickwick am Weller were often most diverting their intent was most laudable and serious. Some of the Brothers of

Sigma Nu gain access to the Pickwick Club by being most diverting at a time when they most compel our sincere admiration.

It is therefore for the above reason that we rise to propose to the illustrious members of the Pickwick Club the name of Brother Fred S. Childs, Beta Tau, as a Corresponding Member, based on the following very serious and, at the same time, very diverting incident.

Brother Childs, let us explain, has single handed rendered such service to his own Chapter as has preserved its very life and prevented it from going into the list of Chapters marked "suspended". Brother Childs writes us as follows:

"Brother Burton F. Mitchell and I were the only two members back at the beginning of the present term of school. As you know our mail was held up at first and we didn't hear a word from the General Office and we did not know what the government was going to do in regards to Fraternities.

I was only here a few days until I was taken sick with the influenza and pneumonia, after which I was given a few days to convalescence and returned to school October 25.

Brother Burton F. Mitchell was sent to Camp Gordon to the Central Officers' Training Camp, October 15.

I have H. E. Brewer, Jr., and L. M. Latimore pledged and am just only waiting an opportune time to take them in: **THE PROSPECTS FOR THIS YEAR ARE THE BEST EVER."**

We submit that the optimistic spirit of this Sigma Nu Brother is not only more Pickwickian than Mr. Pickwick or Sam Weller, but is the kind of Sigma Nu spirit which is carrying us through the war crisis.

GEN. SEC'Y E. W. DUNLAVY.
General Secretary.

E PLURIBUS UNUM

A Tale of the U. S. A.

Mr. Pickwick is in receipt of a naive and plain confession of one Army officer. It speaks freely of his unfortunate condition upon his return to a life of peace. No one will have a doubt as to why Mr. Pickwick withholds his name—a name which stands high in the roster of our adventurers—let's sign it merely E. Pluribus Unum (which is too true to facts).

"I am not back in school but will be next fall along with many others who are now finding it more pleasant to spend the winter on the Rhine. I am helping my Chapter as much as possible, but unfortunately I have been forced to resort to vulgar work to pay back my debts incurred as a second lieutenant."

NUPTIALS OF BROTHERS BALDWIN AND THEIR BRIDES McCALL.

A Coincidence of Coincidences

Never has as singular a coincidence come to the notice of Mr. Pickwick as Brother Ian Patterson's true story of how Mrs. McCall-Baldwin read the account of "her" wedding in her sorority magazine, the Anchora of Delta Gamma. Complicated as this tale is, every detail matches perfectly and harmoniously. But let Brother Patterson tell it.

Mr. Samuel Pickwick, Esq., G. C., M. P. C.

Dear Sir:

Here is a strange coincidence. Imagine the surprise of Mrs. McCall-Baldwin, of Wisconsin, when she read of the McCall-Baldwin wedding in Ithaca, Mich.!

A notice of the marriage of Miss Irene McCall, of Ithaca, who is an Albion College graduate, to Captain Joseph A. Baldwin, last summer, was recently published in the Anchora of Delta Gamma. A few days later she received a letter from Mrs. Lawrence McCall-Baldwin, of Kenosha, Wis., which told of reading this announcement. She went on to say that she was a Miss McCall and also, a Delta Gamma (at the University of Wisconsin), and that she had married, a few weeks before, a Captain Baldwin.

The coincidence is further completed by the fact that both Captain Baldwins are members of Sigma Nu. One is Captain Lawrence M. Baldwin, Gamma Lambda, and the other is Captain Joseph A. Baldwin, Gamma Gamma.

IAN PATTERSON.
Gamma Gamma.

MT. UNION PLAYS MT. UNION

Mr. Samuel Pickwick, Esq., G. C., M. P. C.:

Dear Sir:

May I erstwhile enroll myself in your Noble Band of Sportsmen to relate this strange tale of an Army football game and the developments it brought forth?

My Brother, Larry Brown, Beta Iota, now of Ambulance Company No. 331, was playing on his company's football team against the machine gun battalion's for the championship of the 83rd Division. Score was 12 to 7.

It was one of the games you read of in the great American novel.

The machine gun battalion team kicked but couldn't make the distance, so the ambulance company kicked to them. MacGregor, of the Emmagees, grabbed the ball and tore through the ambulance line for a sixty-yard run for a touchdown, 0-7. No more scoring, till the end of the first half, when the ambulance men made a touch-

down but failed to kick goal, 6-7. Both sides held till the last three minutes of play. The ball was on the ambulance's forty-yard line. Their half-back hurls a twenty-yard pass—prettiest play you ever saw—to Larry Brown, of the ambulance, who runs twenty yards for a touchdown. Failed at goal. Game called, score, 12-7.

But the real fun began, when, after the game, Brother Larry Brown, Beta Iota, met Brother Ray MacGregor, Beta Iota. They had an old-time Sigma Nu love feast.

LIEUTENANT HENRY S. BROWN,
Beta Iota.

A HOOSIER IN IOWAY

Not often does a Hoosier stray from the environs of rhapsodical literature, but when he does, he longs for the "Indiana home." Between these lines of halting admiration for the beautiful Iowayan retreat, there lies a piquant smart for "moonlight on the Wabash."

To Ye Right Honorable Mr. Samuel Pickwick, Esq.:

Written under the great steal of the state of Ioway, on the tenth day of the first month of A. D. one thousand nine hundred ten and nine.

Sir:

The Wonders of Ioway

Not long ago I was wending my way to the city(?) of Dez Moineez, Ioway from the pill rollers' retreat where I happen to have the misfortune of being an inmate per wishes of our own Uncle James X. Government when one of the natives of the surrounding country began expounding on the wonders of the state in which we or I, dwell pro-tem.

He dwelt at length on the agricultural value of the neighborhood and the price of hitching posts in Des Moines some fifteen years ago when the city council passed an ordinance prohibiting swine running loose in the streets of the fair city adjoining us when suddenly he hit upon a bright idea.

"Iowa," he quoth, "Is the greatest hog state in the country."

"Yea verily brother," I answered, "I made that discovery when I first landed and the peculiar part of the thing is, I found, was that most of the said animals have but two legs."

Not long ago a member of the detachment of the post who joined from the fair city of Des Moine-eez, made the broad and sweeping statement that his city was the largest of its size in the country. I agree with him without any further argument.

"STRINGER II" KRULL,
Alleged Journalist and Humorist.
(Don Krull, Gamma Mu.)

Marriages

Beta.—Brother Charles White, on Christmas day, 1918. No particulars.

Eta.—Brother Jim Fudge and Miss Polly Danur, of Colquitt, Ga., sister of Brother W. R. Danur, Eta.

Theta.—Brother W. A. Leland, Jr., and Miss Elizabeth Ayers, of Tuscaloosa, in August, 1918.

Phi.—Brother Thomas Helm in October, 1918. Particulars not given.

Beta Theta.—Brother Cummings H. McCall and Miss Lucile Owen Barry, of Montgomery, Ala., September 5, 1918. Brother McCall is now serving in the medical corps in France.

Beta Iota.—Brother Charles C. Amendt and Miss Edith Anderson, Alpha Xi Delta, in Steubenville, on November 28, 1918. They sailed December 3 for Korea to take up missionary work under the direction of the Methodist Church.

Beta Kappa.—Brother Bert Whitlock and Miss Janette Lund, of Bozeman, Mont., on December 8, 1918.

Beta Mu.—Brother Herbert A. Manning. No particulars.

Gamma Gamma.—Captain Joseph A. Baldwin and Miss Irene McCall, in August, 1918, at Ithaca, Mich. Mrs. Baldwin is a member of the Delta Gamma sorority at Albion College.

Gamma Gamma.—Brother Paul Beebee and Miss Dorothy Johns, in August, 1918, at Albion, Mich. Brother and Mrs. Beebee are at home at Akron, Ohio, where Brother Beebee is employed as a chemist for the Goodyear Rubber Company. Mrs. Beebee is a member of Alpha Chi Omega sorority.

Gamma Gamma.—First Lieutenant Gerald E. Stedman and Miss Lillian Houston in August, 1918, at Detroit, just previous to Brother Stedman's departure for overseas.

Gamma Gamma.—Brother Earle G. Rutherford and Miss Gladys Worden on October 29, 1918. Brother Rutherford is with the Bureau of Aircraft Production at Detroit, Mich.

Gamma Gamma.—Brother Truman Cummings and Miss Berneace Brake, in May, 1918. Brother Cummings went overseas with the 85th Division in August.

Gamma Gamma.—Brother A. Harold Brown and Miss May Darrow in June, 1918, at Albion, Mich. Brother Brown is now with the 310th Engineers at Archangel, Russia. Miss Darrow was a member of Alpha Chi Omega sorority at Albion College.

Gamma Delta.—Edward H. R. Kares and Miss Mildred Jane Kent, January 5, 1918, at Brookston, Indiana.

Gamma Epsilon.—Dr. James Burns Amberson, Jr., and Miss Rebecca Tillman Steen, on January 1, 1919, at Baltimore, Maryland.

Gamma Iota.—Brother J. C. Bosworth, and Miss Lucile Mathews, of Jeffersonville, Ind., July 29, 1918, at Lexington, Ky. They are now living on the Versailles Pike, Lexington, Ky.

Gamma Iota.—Brother Maury J. Crutcher of Louisville, Ky., and Miss Johnnie Cramer of Lexington, Ky., some time in July, at Charleston, S. C., where Brother Crutcher was stationed as lieutenant in Field Artillery. They will make their home in New York City.

Gamma Kappa.—Brother Chester B. Sells and Miss Margaret Childs, New Year's eve, 1918, at Denver, Colo.

Gamma Lambda.—Captain Lawrence M. Baldwin and Miss McCall, of Kenosha, Wis.

Gamma Xi.—Brother Tony F. Golick and Miss Loree Yowell, Christmas Day, 1917. Mrs. Golick is a Pi Beta Phi sorority girl.

Gamma Sigma.—Brother Fred Daniel Wilson and Miss Thelma Davidson of Ottumwa, Iowa, Nov. 6, 1917.

Gamma Sigma.—Brother Walter LeRoy Henderson and Miss Ida Marvick of Story City, Iowa.

Gamma Sigma.—Lieutenant William Carlton Williams, Jr., and Miss Mildred Appleman of Atlantic, Iowa, early in November, 1918.

Delta Theta.—Brother Theodore P. Wright and Miss Margaret McCarl of Quincy, Ill., on November 25, 1918. Brother Wright is an ensign in the United States Navy and is at present located in the East. The bride is a member of Pi Beta Phi sorority.

Deaths

THOMAS DEWIRE AMORY

Alpha-Gamma Theta

Lieutenant Thomas Dewire Amory has been reported killed in action in France. See extended notice in "With Military Honors."

LOUIS B. BRASWELL, JR.

Theta

Brother Louis B. Braswell, Jr., died in France, from wounds received in battle.

HALL MCCOY CALHOUN

Mu

Brother Hall McCoy Calhoun of Arlington, Ga., died in a private hospital at Atlanta, Ga., on Tuesday, November 5, 1918.

I was responsible for his joining Sigma Nu. He was one of the finest fellows in the world. Southwest Georgia lost one of its best citizens by his death.

W. L. KEMP, Mu.

EDMUND BREWER TATE

Mu

Lieutenant Edmund Brewer Tate was killed in France, being reported in the casualty list December 1, 1918. See extended notice in "With Military Honors."

THATCHER WYLLYS BENSON

Nu

Brother T. Wyllys Benson died in France of pneumonia, December 13, 1918. See extended notice under "With Military Honors."

SPEER WOODSON CALLEN

Nu

Nu Chapter wishes to report the death of Speer Woodson Callen at Boulder, Colo., November 20, 1918.

Brother Callen was initiated November 24, 1912. He soon found his place in the affairs of Nu and of the University. He was a member of Nu Sigma Nu, medical fraternity, and Sigma Delta Chi, honorary journalistic fraternity. He was perhaps the best cartoonist the "Hill" has ever seen, and was making this a side career with his medical profession.

Brother Callen developed tuberculosis which caused his death while making an

exhaustive study of the nature of that terrible disease at the Rosedale Medical School.

His last words were, "Notify the fellows back at Nu."

HARRIS HARRINGTON, Nu.

HARRY BLEAN SLAYMAKER

Nu

Lieutenant Harry Blean Slaymaker, Artillery Corps, is reported killed in action. See extended notice under "With Military Honors."

ALFRED CULLEN TURNER

Ni

Brother Alfred Cullen Turner died while in Naval Service. See notice in "With Military Honors."

THOMAS OLEF HOKENSON

Pi

Brother Thomas Olef Hokenson is reported as having died in service.

HAROLD BACON WARE

Pi

Brother Harold Bacon Ware is reported as having died in service.

ROBERT LEE PILLOW

Sigma-Upsilon-Sigma

Robert Lee Pillow, of Galveston, Texas, died recently of pneumonia, after an illness of only three days. He was a prominent lawyer of Galveston and a graduate of Vanderbilt Law School in 1913.

Only twenty-nine years of age, Brother Pillow was very prominent in Texas affairs. He served in the thirty-fifth State legislature and was recently appointed fish and game commissioner. On the day of his death flags on the Galveston Court House and the State Capitol in Austin were hung at half-mast.

LYNN L. BOLLINGER

Beta Beta

Brother Lynn L. Bollinger died November 27, 1918, at Seymour, Ind. Brother Bollinger was cashier of the First National Bank there.

LEON ROY GRAY

Beta Beta

Other Leon Roy Gray died of pneumonia November 23, 1918, at Camp Custer. See extended notice under "With Military Honors."

JOSEPH GRAY DUNCAN

Beta Zeta

Captain Joseph Gray Duncan has been killed in action in France. See extended notice under "With Military Honors."

HERBERT SPENCER NULSEN

Beta Zeta

This afternoon we (the New York Alumni) attend the funeral of Herbert S. Nulsen, Purdue, who died on December 17. Members of the New York Alumni Chapter will act as pallbearers, and you probably hear more details later.

S. KETCHUM, Gamma Delta.

Yesterday, the 17th, Brother Herbert S. Nulsen, died at Asheville, North Carolina. There was a Sigma Nu funeral held at his home, No. 464 East 138th street, New York City, Saturday afternoon, December 18. Grand Chaplain, Paul Mansfield Spengler, gave a prayer and Dr. Stone gave a eulogy without a doubt the best talk that I ever heard, under such circumstances. He spoke of how "Nucky" was loved by his body and he spoke of him by his nickname—"Nucky". He spoke most beautifully of his fraternity ideals and the fraternalism that was represented by the White of Purity. New York Alumni has one of its leaders. If you ever met "Nucky" you would never forget him and there is no doubt but that his affection and ability to make friends was sincere. It was my intention to go by way of Asheville to see Brother Nulsen on my way to the Council Meeting. There is not a Sigma Nu New York who would not have gone through anything for "Nucky".

Pallbearers were Brothers Kimball, Mum, Townsend, Theis, Owens and myself.

GEORGE A. SMITH, Vice Regent.

I lay the saddest possible kind of news to you.

This letter told me of the death of Herbert S. Nulsen, Purdue Chapter, and the life and binding link of the New York Alumni Chapter. Brother Nulsen was a familiarly and affectionately as "Nucky" and no man was his enemy. The thought of not seeing Brother Nulsen when I return home I cannot yet comprehend. He was more than an acquaintance to me and

my family. He was not only an usher at my wedding but the godfather of my second son, Albert Hughes, Jr. To Sigma Nu in New York City he was the embodiment of "The Fifth Point"; and in very truth "went about doing good." That honest, courageous and noble H. S. Nulsen, my friend pre-eminent, has gone. I have not had time to realize, but one thing I know is that many years must come and go before we shall know his life or equal again. I went to see him the very evening before sailing for France and only yesterday sent a letter off to find him in Asheville, North Carolina. Our home circle always will be the poorer for Brother Nulsen's absence.

PAST REGENT A. H. WILSON.

SIMON E. TWINING

Beta Eta

Beta Eta received the sorrowful news last week of the death of a Brother from this Chapter: Brother Simon E. Twining, of Bowling Green, Ohio. Brother Twining was a graduate of Notre Dame University and was considered as one of the most brilliant men at the university at that time. He was initiated in this Chapter in 1914, while acting as instructor in economics and at the same time getting his doctor's degree. At the outbreak of war Brother Twining received a position as member on the Federal Commission Board, Washington, D. C., and was acting in that capacity when he succumbed to influenza. Brother Twining was twenty-eight years old, a very young man for such a prominent position. Beta Eta, deeply regrets and greatly mourns the departure of Brother Twining.

ALVIN J. STIVER, Reporter.

ASA ELLWOOD WILLIAMS

Beta Eta

Brother Asa Ellwood Williams is reported dead. No particulars.

EUGENE ROBBINS VAUGHN

Beta Theta

Brother Eugene Robbins Vaughn was killed in action in the battle of Chateau Thierry, in October, 1918.

THOMAS ALEXANDER HEGARTY

Beta Iota-Delta Gamma

Brother Thomas Alexander Hegarty is reported to have been killed in action. No particulars given.

CHARLES EDGAR WEYBRECHT

Beta Iota

Brother Edgar C. Weybrecht died of bronchial pneumonia in Staden, Belgium, on November 2, 1918. Full account will be found under "With Military Honors."

CEDRIC HADAWAY SHAW**Beta Kappa**

Lieutenant Cedric Hadaway Shaw was killed in action during the St. Mihiel drive, in September, 1918. See more extended notice under "With Military Honors."

ROBERT GEORGE ODLE**Beta Mu**

Brother Robert George Odle died at Camp Dodge, Iowa, in the summer of 1918.

JASPER WILLIAM WHITE**Beta Nu**

Brother Jasper William White died while in service. No particulars.

SELDON HOWE MURRAY**Beta Xi**

Brother Seldon Howe Murray has been reported of having died of influenza and pneumonia. See extended notice in "With Military Honors."

CHAUNCEY TYLER YOUNG**Beta Rho**

Brother Chauncey Tyler Young, Naval Aviation, is reported as having died. No particulars.

KARL ALBERT EMERSON**Beta Sigma**

Brother Karl Albert Emerson of the class of 1914, died October 20, 1918, in Montreal. He is survived by his wife and by his parents, Mr. and Mrs. Frank Emerson, of Barton, Vt.

IRA LLOYD MORSE**Beta Sigma**

Brother Ira Leroy Morse died at his home in Jeffersonville, Vt., of septic poisoning, following influenza and pneumonia. He was one of the rising young men of the village, and his death was a great shock to his friends. He was a member of the class of 1916, but he left college to enter business with his father.

DANA BICKNELL GOODRICH**Beta Sigma**

Brother Dana Bicknell Goodrich, '21, of Essex Junction, Vt., died at the Post hospital at Fort Ethan Allen on November 24, 1918, of pneumonia, following influenza. He was a member of the S. A. T. C. at the University of Vermont. He is survived by his parents, Mr. and Mrs. Arthur Goodrich and two brothers, Arthur and Eugene.

THOMAS LAWRENCE WILLIAMS**Beta Psi**

Brother Thomas Lawrence Williams died

of pneumonia, October 18, 1919, in France. See extended notice under "With Military Honors."

ANTON J. JINDRA**Gamma Beta**

Brother Anton J. Jindra died in October, 1918. Brother Jindra was a graduate of the Medical School at Northwestern University and a member of Phi Rho Sigma. At the time of his death he was an interne at the Mercy Hospital, Chicago, Illinois.

WILBUR THOMAS RAWLEIGH**Gamma Beta**

Brother Wilbur Thomas Rawleigh died of pneumonia at Great Lakes, Illinois. See notice in "With Military Honors."

JOHN FRANKLIN MERRILL**Gamma Delta-Gamma Lambda**

Lieutenant John Franklin Merrill was killed in action in France, October 4, 1918.

MERVIN CASE**Gamma Theta**

Brother Mervin Case died of pneumonia while home on furlough. See extended notice under "With Military Honors."

DONALD POWER DENHAM**Gamma Theta**

Brother Donald Power Denham died at his home in Petersborough, on October 23, 1918, of pneumonia. He had gone through several severe illnesses in former years, the effects of which prevented the gratification of his heart's desire to join the Army. He had hailed the opportunity recently presented to assist in war work in naval construction, and was on his way to take up his new position when he was overtaken with sickness and death.

JOHN MURRAY McCLELLAN**Gamma Theta**

Lieutenant John Murray McClellan was killed in action in France, July 18, 1918. See extended notice in "With Military Honors."

RICHARD THOMAS MARTIN**Gamma Theta**

Brother Richard Thomas Martin was killed in action in France, October, 1918.

GEORGE LLOYD HAYDON**Gamma Iota**

Brother George Lloyd Haydon died of influenza and pneumonia at the S. A. T. C. hospital, University of Kentucky, November 21, 1918.

Brother Haydon entered the University of Kentucky in September, 1918, and was a

days later pledged to Sigma Nu. He is a member of the local S. A. T. C. being barely old enough to join. Although few knew him well, yet everyone is a friend that came in contact with because he was a boy of the highest manly bearing, and of a wonderful mentality. His death came only a few days after he had been initiated into Sigma Nu and it was a great blow to this Chapter as he was a boy of great promise. His home was in Springfield, Ky., and twelve members of the active chapter accompanied his body home and acted as pall bearers. Many beautiful floral offerings that were sent were but a silent tribute of the esteem in which he was held by his countless friends.

ROVER H. CREECH, Gamma Iota.

AVIS ALCORN DIFFENDERFER

Gamma Nu

Arthur Davis Alcorn Diffenderfer died on September 19, 1918, during the influenza epidemic. He was a student at the University of Michigan.

COUNT DE ROCHAMBEAU LOVELETTE

Gamma Rho

Arthur Count de Rochambeau Lovelette died of pneumonia. No particulars.

EARL BRUNSON BISBEE

Gamma Sigma

Arthur Earl Brunson Bisbee was killed on September 15, 1918, while fighting with the Marines at Chauteau Thierry.

JOHN DANIEL SWINEY

Gamma Sigma

Captain John Daniel Swiney died October 18, of pneumonia contracted while taking care of his men. See more extended notice under "With Military Honors."

LEONARD CHRISTOPHER HAMBY

Gamma Upsilon

Giant Leonard Christopher Hamby died October 13, 1918, in Chicago, Illinois. See extended notice in "With Military Honors."

AMES HAROLD HAUBENSACK

Gamma Phi

Giant James Harold Haubensack was killed in action overseas. See extended notice in "With Military Honors."

CLAUDE JAMES SIMPKINS

Gamma Phi

Arthur Claude James Simpkins has been killed in action in France. See extended notice in "With Military Honors."

WARD NORRIS WOODWARD

Gamma Phi

Brother Ward Norris is reported by Brother La Rue Smith as killed in action in France.

ELMER JOHN NOBLE

Gamma Chi

Lieutenant Elmer John Noble was killed in action in France, September 26, 1918.

DON SHEPARD GATES

Delta Beta

I am enclosing a clipping from the Newark (New Jersey) Evening News regarding the death of Don S. Gates on December 12, 1918. Brother Gates is a Dartmouth man and was doing great work in Newark and will be mourned by his friends in Glen Ridge.

The article states that his four children were sick, three of them being in the hospital when he passed away. His wife was also sick, but I understand they are all getting slowly better.

S. KETCHUM, Gamma Delta.

Don Shepard Gates, executive secretary of city-wide community work of the Y. M. C. A., died from pneumonia early December 12, 1918, at his home, 209 Washington street, Glen Ridge. Mr. Gates had been ill for a week. His four children also are ill, but not seriously, it was said.

Mr. Gates was born at Franklin, Vt., thirty-eight years ago. He attended Brigham Academy at Bakersfield, that state, and later entered Dartmouth College, from which he was graduated in 1905. For nine years he was boys' secretary of the Y. M. C. A. in Boston and gave up that position in 1914 to take charge of the North End community boys' work here. Last year he was placed at the head of the city-wide movement and organized two other branches, the Central and Ironbound.

The boys' work organizer had mapped out a plan by which he proposed to establish branches throughout the city. The Clinton Hill, Roseville and Weequahic districts would have been organized within a short time, according to his schedule. This also included the founding of a Kearny-Harrison branch.

"To help others to help themselves," was the purpose of the community work as described by Mr. Gates. His aim was to perfect the district organizations so that every boy in the community in need of help would be reached. Particularly did he seek the lads of the streets, introduce them to healthy and helpful recreation and try to make able citizens of them.

Surviving besides his widow, who was Miss Florence Giddings, and the children, Thelma, Junior, Elizabeth and Clark Harrison Gates, is his mother, Mrs. Mary A. Gates, of Franklin.—Newark, N. J., News, sent in by Samuel Ketchum.

JOHN KERNAN McCORMICK
Delta Gamma

Brother John Kernan McCormick was killed in action in France, October 18, 1918.

NORMAN H. ANGELL,
Delta Gamma.

CHESTER WILLIAM PETERSON
Delta Gamma

Brother Chester William Peterson died of influenza, October 12, 1918.

WALTER MARTIN STILLMAN
Delta Gamma-Beta Mu

Brother Walter Martin Stillman died in France, January 1, 1919, of pneumonia. See extended notice under with military honors.

WILLIS SULZER SANFORD
Delta Zeta

Brother Willis Sulzer Sanford died December 9, 1918, of pneumonia. He had been ill with the influenza for about two weeks but had nearly recovered when a relapse came suddenly.

WILLIAM ALEXANDER CONE
Delta Eta

Brother William Alexander Cone died in France, December 9, 1919.

ROSCOE BRYAN RHODES
Delta Eta

Brother Roscoe Bryan Rhodes is reported kill in action in France. See extended notice in "With Military Honors".

WAYNE BOYD
Delta Theta

Brother Wayne Boyd passed away at his home in Galesburg, Illinois, on October 13, 1918, following a short illness of influenza. Brother Boyd had made his home in Colchester, Illinois, until a short time ago when he came to Galesburg, to take up government work here. Brother Boyd is a graduate of Lombard College and is well known in this vicinity, where he has many friends, who with his Fraternity Brothers and his relatives mourn his loss.

MARK DONALD DARE
Delta Kappa

Lieutenant Mark Donald Dare died of pneumonia December 8, 1918, at Camp

Grant, Illinois. See extended notice in "With Military Honors."

ROLAND E. FLETCHER
Delta Nu

Brother Roland E. Fletcher died at Camp Greenleaf, Ga., December 21, 1918. See extended notice under "With Military Honors."

WALTER CONVERSE JONES
Delta Nu

Brother Walter Converse Jones, chief quartermaster, Naval Reserves, died while attending Ensign's School at Harvard University. See notice in "With Military Honors."

GEORGE EDWIN KIRK
Delta Nu

Brother George Edwin Kirk died of influenza, November 20, 1918. See extended notice under "With Military Honors."

PHILLIP BRINSLEY SHERIDAN
Delta Nu

Brother Phillip B. Sheridan was killed in action in France, October 9, 1918. See extended notice under "With Military Honors."

GEORGE FRAZIER MYERS
Delta Sigma

Brother George Frazier Myers died of bronchial pneumonia, on December 17, 1918, at Kelley Field, Texas. See extended notice in "With Military Honors."

HENRY J. SCOBELL
Delta Sigma

Lieutenant Henry J. Scobell died of wounds and pneumonia in France, November 15, 1918. See extended notice under "With Military Honors."

WILLIAM RAY HELME
Delta Upsilon

Brother William Ray Helme died of pneumonia at his home in Astoria, N. Y., January 15, 1919. Brother Helme graduated from Colgate University in 1916 with a degree of A. B. and was one of the most popular men in his class. He was the founder of the local Fraternity before it became Sigma Nu and it was due largely to his efforts that we were fortunate enough to receive the charter. He was deeply concerned in the welfare of this Chapter and we realize one of our most faithful Brothers has passed on. He leaves a wife and child to mourn their loss.

JAMES E. DEMPSEY, Reporter.

Sigma Nu Fraternity

Sigma Nus! Put your name here

Here are Two Reasons Why Stafford Engravings are used in this Publication and why they should be used in Yours—

The First, of course, is quality. Through years of specialization, our organization has become really expert in half-tones, color plates, zinc etchings, and designs for college and school publications. We have the very best shop equipment and every facility for prompt production of any work.

The famous Levy Acid Blast process gives our half-tones a cleaner, deeper, sharper etching than the tub method most commonly used, and makes it easier for your printer to give you a first job.

The Second is Stafford Co-operation. For the benefit of our customers in their dealing with us we have prepared a valuable handbook entitled, "Engraving for College and School Publications" containing 164 pages and over 300 illustrations, and giving complete information in regard to ordering your publication, the preparation of copy, and ordering of engravings. This book saves ordering, prevents costly mistakes, and means high quality engravings at lowest cost. We do not sell it—but we lend a copy to the staff of each publication for which we make the engravings.

Let Stafford make your commencement invitations, fraternity stationery, visiting cards, and any other copper plate engraving or steel die embossing. We have a large department devoted exclusively to this class of work, and can give you both quality and service. Samples with prices on request.

Why Don't You Write a Sigma Nu Song?

If you have any musical talent here's a chance to develop it, make a name for yourself and help give Sigma Nu better songs than any other fraternity.

You never know until you try. You may have special talents in this direction, perhaps unknown even to yourself. Song writers are in big demand, and command high salaries. This Sigma Nu Song Contest is a chance for you to show what you can do.

Don't be bashful or self-conscious. All contributions are strictly confidential, and the work is judged from the standpoint of originality and merit rather than arrangement or form. If you are afraid to try you'll never win anything.

The First Contest ended last June, and the winning songs have been published and are on the market. The Second Contest is now open, and will close in June. Contributions are already coming in, and we want every one to compete for the prizes and honors. Get busy now and find out what you can do.

Send all contributions to Song Contest Committee, care of Sigma Nu Fraternity, Lemcke Building, Indianapolis.

Did She Get Hers?

You Know Who I Mean—Yes, You Do!

You mount the old front steps and fidget in the entrance until Maizie answers the bell and admits that She is at home. Then you fidget some more in the reception room till you hear those Dancing Feet on their way to you, and then, Oh, Boy!!

You have lots of Terribly Important Things to say to her, but you find yourself skidding and talking foolish Opera and Club Dances and Mrs. Brown's accident, and all the time you know that the only two important subjects on earth are waiting to approach the Green.

Stop skidding—Buck up—and look! Right there on the front of the Lyon & Healy upright are the Songs of Sigma Nu. Courage, Brother, it's a helping hand. She put them there for you,—you big rummy! Its your chance, old son, so grab it quick.

Get her to play that Σ N one-step, and then that peppy Sig march, and when she starts to play that li'l love song; well, if you don't understand each other after that you're impossibly hopeless.

But in Case You Cheated

either that Wonderful Girl or yourself out of those tuneful Songs of Sigma Nu, fill in this dainty coupon, enclose a One Case note, and mail it—now!

HARRY RIDER, *Assistant General Secretary,*
Lemcke (That's our building, by gosh)
Indianapolis, Indiana.

I just fell for Warren Piper's line of Bullsheviki. Enclosed find One Buck's worth of Dough. Send one folder of Sigma Nu Songs to (we'll keep it quiet)

Miss

Address

and also send one folder to me, the "me" being

Mr.

.....
"Thank you, Harry."
"You're welcome," he replied.

THE continued appointment of the L. G. Balfour Company as Official Jeweler to Sigma Nu and as sole manufacturers and distributors of Initiate Badges, Pledge Pins, and Wall Plaques, is contingent for its successful fulfillment upon the "service" the Company can render its individual members. We will, therefore, be deeply grateful to have your earnest co-operation and to receive suggestions which will aid our efforts to make the term "service" more effective. Our desire for your continued patronage is no stronger than our intention to deserve it. Balfour Blue Book, repeatedly recognized as the Standard Reference for Sigma Nu Jewelry, and Illustrated Badge Price List on application.

Fraternal Service

Sigma Nu's Employment Bureau

The General Office has had a number of opportunities to place Brothers in positions. It is a pleasure to render fraternal service, and we often get leads on employment opportunities that may interest you.

1. A small but strictly high grade college is seeking the right man for its chair in history. A degree and special preparation in history required. Appointment is for next year, beginning September, 1919. This is an opportunity for constructive development of the history department with a future ahead for the man who does it.

2. One Brother writes us: "I am on the lookout for a good salesman—a right sort of enthusiastic worker. I wish he might be a Sigma Nu." His line is electrical lighting fixtures. The town is Erie, Pa.

3. A banking institution of national prominence is constantly adding to its force. One of its managers would like to hear from Brothers who would like to follow banking as a career.

4. It occurs to me that you may be able to put me in touch with a real man big enough to qualify for the job that is open in our Chicago office. This man will act as a representative, dealing with large Western clients located in the Middle West. He must be able to work and think constructively. Aggressiveness and initiative are necessary, but this must be tempered with a degree of conservatism that makes him a sound counsellor to the man who has \$100,000 or more to invest in advertising. He should be over thirty and under forty; he should be ready to enlist for life with one of the largest, oldest and most success-

ful advertising agencies in the country. For the right man there is a big opportunity and a future that will satisfy him. The salary depends upon the caliber of the man; the present salary of the applicant should be large enough to indicate the size of his present job. We prefer a man who can start around a salary of about \$5,000, but he must be worth it.

5. Perhaps I can help you in finding jobs for other Sigs that desire to get into engineering, sales, or advertising work. We constantly are in touch with good positions, so if I can help any good Sig, just let me know.

6. I am desirous of obtaining a position as manager of a small manufacturing plant, and as an example of this I might state my recent experience. Upon being taken into the service I was directed to report at the District Office, Toronto, Ontario, where I was placed in a sales school, receiving a course in the forging and machining of different types of high explosive shell. After a course of a week or so I was sent to Sherbrooke, Quebec, where I have been for some seven months, having a 75-mm. forging plant, a 75-mm. machining and 4.7" machining plant under my jurisdiction.

7. I had three years of mining engineering at the University of Colorado and was with the Boise Bend Mining Company, of Boise, Idaho, for some time before the war. However, it is not imperative that I follow mining, as the mining industry is far from good at the present time.

Brothers, if you know of positions, or employ men, ask us about Sigma Nus. Brothers who are interested in the opportunities above please write the General Secretary.

Twenty-five Cents the Copy

One Dollar the Year

Send all subscriptions and remittances to the General Offices, Sigma Nu Fraternity, Lemcke Building, Indianapolis.

The annual per capita tax paid by members of Alumni Chapters entitles the member to a year's subscription to The Delta. Such tax should be sent to the Alumni Chapter Treasurer, who will transmit it to the General Secretary.

Alumni not members of Alumni Chapters should send their subscriptions and remittances to the General Secretary, Lemcke Building, Indianapolis.

Advertising rates given upon request to the General Secretary.

Brigadier-General George Sabin Gibbs
Beta Mu
Assistant to Chief Signal Officer
American Expeditionary Forces

THE DELTA

Three Pals of Beta Mu

General Gibbs, General Allin, and Colonel Morrison

By WILLIAM L. FLANAGAN, Beta Mu

[This is the story of three Beta Theta army officers, who were comrades inseparable in Washington before the war. The Chapter Reporter has given us an interesting sketch of them, with the assistance of Captain Norman M. Shaw, of Washington, D. C. To Brothers Flanagan and Shaw we are indebted for their photographs, and we greatly regret that General Allin's does not appear, because he hasn't any."—The Editor.]

ASN'T the war worked wonders?" is a question asked a thousand times a day. Perhaps it isn't the war that has worked wonders, but that it has brought us the realization of the unnoticed which occur every day. Within the Beta Mu Chapter, these "unnoticed" happen to be three men who have made themselves quite prominent in war circles, and whom we recently learned to admire and respect. These shall be mentioned in order of their rank.

We are mighty proud of our two brothers, but no more proud of them than we are of Colonel Morrison, who will have charge of all the R. O. work in the state of Nebraska. We should like mighty well to see his picture in THE DELTA along with the others. The three men are inseparable when they are in Washington. It seems that we should publish their pictures together.

The first of these men is Brigadier General George S. Gibbs, Beta Mu. Brother Gibbs entered the State University of Iowa in the year of 1896, the year in which Beta Mu Chapter was organized. In 1897 he graduated with a degree of Bachelor of Science and with honors, having won, because of his able re-

search work, the honorary Sigma Xi key. Shortly after his graduation, the Spanish-American war broke out and Brother Gibbs enlisted in the signal department of the army. In this department he raised himself to a captain, and later, by his able work, to a colonel. The war closed, but Colonel Gibbs remained in the army, and devoted his time to scientific study of signal methods, and, at the opening of hostilities in Mexico, he was placed at the head of the entire signal corps of the United States armies on the border. Then the present war came to involve the great American republic. Colonel Gibbs was sent to France among the very first and was, after a few months, given charge of the Signal Corps of the American Forces in France, with a rank of brigadier general. Brother Gibbs retained this rank until he returned to America recently. Brigadier General Gibbs has written various professional papers on the subject of electrical engineering, and has been elected to membership in the American Institute of Electrical Engineers. He is a member of the Army and Navy Club at Washington, D. C., where he makes his home during peace times.

The second of our important soldiers is Brigadier General George

Allin, Beta Mu, 47. Brother Allin left Iowa University in 1901, to enter the Military Academy, and graduated from there with the class of '04. He reached the grade of major in the regular army at the time of the war, was promoted in the na-

the outbreak of the war and returned to the United States in the summer of 1917.

Third in rank is Colonel William F. Morrison, Beta Mu, 52, who entered the State University of Iowa in the fall of 1897, but after a year at the university, decided that his life must be the life of a soldier. In the fall of 1898 he entered West Point and was graduated, in 1902, into the field artillery section of the U. S. Army. After graduation, Brother Morrison was stationed at Fort Riley, Kan. From there he went to California for a few months, but was called to West Point as an instructor in mathematics. In 1908, Morrison was sent to the Philippines, where he remained for several years, finally returning to this country to be stationed in the adjutant general's office at Washington, D. C. He remained in that office until war was declared, and was then transferred to Forts Riley and Zachary Taylor, where he instructed officers in the School of Heavy Fire. At the close of the war, Colonel Morrison was recalled to Washington, where he was instructed that his future work would be the R. O. T. C. work in the state of Nebraska.

Colonel William F. Morrison
Beta Mu
In Charge of all R. O. T. C. work in the State of
Nebraska

tional army to the grade of colonel, and in the summer of 1918 to the grade of brigadier general. He was ordered to Camp McClellan to train his brigade of artillery, and in December of this year was demoted to his grade in the regular army by reason of the demobilization of his organization. He has now been detailed in the personnel office of the general staff. Major Allin was serving in the Philippine Islands at

Colonel Morrison is a remarkable man, with a wonderful personality. He smiles all the time, just as he is smiling in his photograph. He wins the respect of all people with whom he is associated, and should be a very popular commandant. In a recent call on the Beta Mu Chapter, he won the admiration of every man by his versatility in conversation and by his ever ready smile.

Our Ambition

At the Indianapolis Grand Chapter in 1894, Brother Grant Harrington said, "It has been our ambition ever since the Delta was placed in our charge at the Lexington convention eight years ago to make it the best Fraternity magazine published."

The present editor pleads guilty to the same ambition.

Will you renew your own subscription and solicit another Brother to do the same? Or will you subscribe for Brothers overseas? Only thus can we keep up the quality of our magazine amid increasing costs which are unprecedented.

First Interview with Hindenburg

By C. C. LYON, Beta Eta

The press dispatches a little while ago recorded the story of the first American newspaper to interview Hindenburg. This man was Brother Cal C. Lyon, Beta, the special correspondent at the front of the Scripps-McRae League. Brother Lyon has very gladly given us the following very interesting narrative of this historic incident.—The Editor.]

his return recently from the front, where he served as a special correspondent, Brother C. told a number of his Columbia Sigma Nu Brothers how he succeeded in getting his now famous interview with Marshal Hindenburg at Cassel, Germany, a few days after the armistice was signed.

After leaving Nancy, France, on the day following the signing of the armistice, I succeeded in getting over the border into Germany," said Lyon. "First I went by auto through the Hindenburg lines and at Saarbrücken, Germany, I fell in with the revolutionists, who, a few days before, had overthrown Kaiser Bill. These revolutionists were only too glad for me to go into interior Germany because they insisted their revolution was successful and they wanted the Americans to know about it.

I passed along from one revolutionary council to another until I reached Frankfurt, a city of 600,000.

do you suppose was running the revolution in Frankfurt? Two from America—Eugene Hess, formerly lived in Cincinnati, and Loeb, formerly a young man on Broadway, New York. He was war Hess and Loeb negotiate out citizenship papers in America and consequently were taken to Germany and put into prison.

On the night of November 9, when the revolution started, these Americanized Germans gathered them about sixty boys, all seventeen, and they marched to the city headquarters and convinced the chief of police.

"‘Are you for or against the revolution?’ they demanded of him.

"The chief took one look at the crowd of boys armed with clubs and stones and a few with pistols and rifles—any one of these guns liable to go off any moment—and he said to them:

"‘Certainly I’m for the revolution. I am heart and soul for it. What do you want me to do?’

"‘Line up your police force and come with us to the barracks.’

"Led by the police force, they went to the barracks and confronted the German colonel in charge.

"‘I have favored a revolution in Germany for ten years,’ the colonel told them. ‘Every soldier under me will be with you.’

"They turned the big city of Frankfurt over to the revolutionists with the loss of only two lives. One of these, a burglar, they killed when they caught him in the act of breaking into a store.

"Before I left Frankfurt, to continue my overland trip to Berlin, Hess and Loeb introduced me to a Mr. Wendel, who, they said, had just been made chief censor of the German army by the revolutionists.

"Wendel was feeling very ‘cocky’ over his new job.

"‘Hindenburg can’t sent out a line of news about the German army unless I O. K. it,’ Wendel said. ‘He is absolutely dominated by the revolutionists.’

"‘If you fellows are running Hindenburg,’ I said, ‘why can’t you call

him by phone and tell him I would like to have an interview with him?"

"Wendel went away, but returned to the hotel the next morning.

"I had Hindenburg on the telephone awhile ago and he said for you to come over to Cassel,' Wendell told me.

"My friends, I have had a lot more trouble many a time trying to get interviews with two-by-four politicians in America than I had getting that interview with Hindenburg.

"All I had to do was to get into my automobile and make the 150-mile journey to Cassel, and there I reported to the Hindenburg headquarters that I was in town and he sent word to me that he would see me at 4 o'clock in the afternoon.

"I will confess I was a bit nervous. Only a few days before, I had heard first-handed, from a man who was there, the story of the German atrocities heaped on the Russians, on Hindenburg's orders, in the great marshes in eastern Prussia.

"One day Hindenburg's army completely surrounded thousands of Russian troops. All hope for escape was cut off for the Russians, so they surrendered, as they had a right to do under civilized warfare. But Hindenburg, rather than feed them, ordered the German guns turned into the marshes and his orders were that the guns not stop shooting until every one was killed, and when darkness came every one of the helpless Russians was dead.

"This story was fresh in my mind when I arrived at the Hindenburg headquarters. His office was in a large hotel on the grounds of Kaiser Bill's summer palace at Cassel. There were no signs of German revolution around the Hindenburg headquarters. On the contrary, Prussian militarism was everywhere a foot thick. Every officer and man strutted around as if he had a ramrod up his back. But just as I started to enter

Hindenburg's private office, it came upon me, with a sudden force, that the revolution had permeated even Hindenburg's headquarters. A young German lieutenant, wearing on his left arm a white band to indicate that he was a revolutionary leader, stepped forward and spoke to me.

"I must attend this interview,' he said.

"You must?" I repeated. 'Who invited you?"

"I represent the revolutionists and it is up to me to report to them what Marshal Hindenburg says in this interview,' he responded.

"Well, if you are willing to take the risk, I am,' I said. And I walked into the room closely followed by the lieutenant.

"I never in my life saw a man so angry as Hindenburg appeared to be when he saw the young lieutenant enter the room. But as I came to understand later, the revolutionists were in such complete control of the army at that time that Hindenburg didn't have the nerve to order this young revolutionary leader out of his office.

"After having heard for many months of the German atrocities that had been committed with Hindenburg's knowledge and consent, I had pictured in my own mind that he would be some terrible monster, who would belch forth lion's roars instead of mere human speech.

"The old man looked exactly like his pictures. I could have picked him out of a million Germans. He is immense all over, six feet tall, enormous trunk, thick neck, massive head, iron-gray bristly hair, shaggy eyebrows that shade piercing gray eyes which seemed to look you through and through, a big mustache that half hides a ferocious-looking mouth. Hindenburg's appearance is enough to scare an ordinary mortal, but, when he began to talk, I had a most unusual surprise. He has a soft, well-

lated, almost gentle voice, and reminded me of nothing except the old German grandfather that of us have seen right here in America. For the life of me I could understand how any man, who had done such terrible things in war, could be the possessor of such a seemingly unwarlike disposition.

I talked to Hindenburg for a long time and he was frank enough to ad-

mit that the Allies had given the Germans a good beating.

"The allied superiority of numbers overwhelmed us," he said.

"He added to this also the German food shortage. He said just as soon as demobilization was finished, he was going to retire to private life and take no part in either military affairs or politics."

A Message from the Surgeon General to the Fraternity Men of America

The war proved two things which deserve to bring in this conspicuous manner to your attention:

The priceless value to the Nation of its young manhood, especially of its educated manhood.

The ghastly and unsuspected loss taken from America's manhood by venereal disease.

Our army was the cleanest in the world and its clean record had not a stain to do with its morale, and its fighting effectiveness. Yet General Pershing stated that even if the coming general could lay aside all considerations of morality, he would probably choose the eradication of venereal disease rather than the prevention of wounds.

The critical period which the Nation now faces must depend even more upon the integrity of educated manhood, which American college fraternities hold as their ideal and of which they furnish such conspicuous examples.

I naturally turn to you, therefore, at this time in a definite appeal and request that every fraternity and every jurisdiction and member thereof, go on record, not only as insisting upon compliance with the fraternity's own highest standards of physical integrity, but as actively though unobtrusively exerting influence in support of the Federal campaign against the venereal diseases.

Respectfully,

RUPERT BLUE,
Surgeon General.

Each Chapter is requested to have the above message read in Chapter meeting or posted in the Chapter rooms, and to take appropriate action.

Our New Inspectors

In the May Delta last year, we presented to the Fraternity at large, some of the new members of our official staff. Many changes in personnel have occurred this year owing to the war conditions. We take pleasure in announcing our inspectors and in giving all our Brothers a brief opportunity of knowing them—in print at least. The new inspectors are William R. Edgar, First Division; Manly R. Joiner, Third Division; H. E. Sibson, Sixth Division; William L. Randall, Tenth Division; and Grant W. Harrington, Twelfth Division. To these we add Brother Ernest L. Williams who has been an inspector for a long time, but has failed to get in the limelight. Past Regent Krippner has come to his rescue and you will all agree that Brother Krippner has a keen eye and a handy pen. Brother Edgar has so far secluded himself, and we are obliged to leave him until next time, hoping that some Delaware biographer-cartoonist will send us in a sketch.

Manly R. Joiner

INSPECTOR, THIRD DIVISION

BROTHER A. H. ALSTON, like many of our Inspectors, went forth to a training camp, and although we regret his keen and active interest, as do his Chapters, we rejoice in securing Brother Joiner as his successor.

Brother Manly R. Joiner is a member of Iota and Gamma Kappa Chapters. He was born at Talladega, Ga., in 1888. He was graduated from Howard College in 1906, studied medicine at Birmingham Medical College and the University of Colorado. His college record is heavy with honors and offices—manager of the Howard basketball and football teams and commander of Iota Chapter.

For the sake of his health Brother Joiner spent three years in the West, and then went into the drug business

in Talladega in 1913. His present load of duties is full, as witnesses this list: Eminent commander, Talladega Commandery, Knights Templar; member, Zamora Temple, Mystic Shrine; member, Board of Directors, Talladega Hospital; member, Board of Directors, Bank and Trust Company of Talladega. All this, and yet always a worker for his Fraternity.

Manly R. Joiner
Iota-Gamma Kappa

He often says to his intimate friends that his greatest token of honor is the Five Armed Badge and among his highest valued associations is the personal friendship of our Regent, Borden Burr, who pledged him to Sigma Nu.

In 1913, Brother Joiner was married to Miss Maude McCoy, of Birmingham, Ala. They have one daughter.

Horace E. Sibson

INSPECTOR, SIXTH DIVISION

BROTHER H. E. Sibson, Gamma Theta, Cornell, 1903, Inspector for the Sixth Division, could well be regarded as one of the most pow-

al factors in Sigma Nu. A charter member of Gamma Theta Chapter Cornell, he was instrumental in installation of that Chapter in 1901. Ever since Brother Sibson became a member of Sigma Nu he has done magnificent work for his own

Horace M. Sibson
Gamma Theta

Chapter in particular and the Fraternity in general. Brother Sibson graduated from Cornell in the class of 1903 as a mechanical engineer, in which profession he still follows.

Soon after graduation it became apparent that the House occupied at Cornell by Gamma Theta Chapter was not in keeping with the progress of the Chapter, the University or the Fraternity, and it is wholly due to the leadership of Brother Sibson that Gamma Theta was successful, through its Alumni Members, in designing and building about eight years ago the first fire-proof Fraternity House in the world, admirably fitted for the purpose, and a monument to the tremendous amount of time, money and energy expended by Brother Sibson on this work.

Brother Sibson was a member of the Uniform Accounting Committee,

which developed a comprehensive system of accounting, now in general use, to insure uniformity among all Chapters. This work resulted from the experience gained in taking care of Gamma Theta affairs, after Brother Sibson graduated, which made it apparent as to how internal Chapter financial affairs should be conducted.

Brother Sibson is an exponent of close co-operation between the active Chapter and the Alumni, in order that the active Chapter may receive the benefit which will result by following the advice of those who have gained business experience after leaving their alma mater, believing that in this co-operation rests the future of the Fraternity as a whole.

The Alumni of Gamma Theta Chapter, at the instigation of Brother Sibson, formed a property association, or holding company, to purchase, develop and maintain property for the use of the active Chapter. The success of this organization has been very marked, and its principles followed by Alumni of other Chapters with equal success.

From what has been said it is easy to realize that Gamma Theta Chapter is not the only Chapter which has felt the influence of Brother Sibson. It is difficult to conceive of how any one could do more for the good of Sigma Nu, either financially or otherwise.

J. E. HARRIS, Gamma Theta.

William Leslie Randall

INSPECTOR, TENTH DIVISION

WILLIAM LESLIE RANDALL, recently appointed Inspector of the Tenth Division, was born in Omaha, March 14, 1889. Graduating from the Omaha High School, he entered the college of law of the University of Nebraska in the Fall of 1909, graduating with the class of 1913. During his college course Brother Randall was an enthusiastic worker for Delta Eta and the university, and his interest has continued since that time. He was a member of Iron

Sphinx, The Vikings, and the Kosmet Klub. For the past five years, with the exception of the time he was in the service and stationed at Fort Omaha, he has been associated with the well known law firm of Baldrige & Keller. Two years ago Brother Randall was married to Miss Florence Hill (Chi Omega) of Lincoln, and they have one daughter. Brother Randall's interest in the welfare of Delta Eta has been appreciated by the Chapter and without exception, we wish him success.

ERNEST KENNY, Delta Eta.

William L. Randall
Delta Eta

Grant W. Harrington

INSPECTOR, TWELFTH DIVISION

BROTHER HARRINGTON has already had his biography in the Delta for last December as one of the Harrington boys.

We wish, nevertheless, under this head, to welcome him on our official staff. "A fine package you handed me when you asked me to act as Division Inspector," says Grant. "Just a nice little joy-ride—a fine visit

with a bunch of enthusiastic boys—and then a report with due attention to all red-taped features!"

Brother Harrington is as young and enthusiastic as the boys in college, and as good at red tape as a Past Grand Recorder ought to be.

Ernest L. Williams

INSPECTOR, FOURTEENTH DIVISION

NEARLY every Sigma Nu calls him "Dad." This is not from a sense of filial devotion, but from the feeling of good fellowship that readily develops as soon as one has an opportunity to better know the man who is seeking to give our Fraternity a high order of administration in this, the Fourteenth Division. There is no camouflage about our Brother "Dad" Williams. If he thinks so he says so, and once he says so he exerts his energies in the direction that appears to him to be absolutely right regardless of the line of least resistance or his personal convenience.

The new order of fraternity administration that was placed in effect at the time of Inspector Williams's appointment to office some two years ago brought with it certain new responsibilities whose satisfactory assumption called forth more of a spirit of constructive co-operation as between Inspectors and the Central Office rather than a spirit of subordinate obedience. Men who were strong in their determination for the betterment of Sigma Nu were needed for, and called to, our Inspectorship outposts. It became evident early in the application of the revised administrative policy that in order for the Fraternity to become more truly national in its scope and more useful to men and young men everywhere, much would depend upon the courage and integrity of those selected to watch over the destinies of the Active and Alumni Chapters in the various divisions as apportioned by the High Council. There was as never before, perhaps, a requirement for that type

fish service that would give without limit or reservation to the new structure into length and utility commensurate with the spirit that has ever animated Sigma Nu in her course toward the goal of greatest usefulness in every kind.

Ernest L. Williams
Gamma Kappa

brief sketch of this sort one is liable to the use of superlatives in the description of the good qualifications that enter into the makeup of an inspector who pretty thoroughly understands his work and does it ably and modestly, and often at considerable personal sacrifice to himself.

To one who has observed at a relatively close range it would be at the use of such superlatives in the case of Inspector Williams is fully justified, for his work is good, and continues to be, such as to command and hold the admiration and approval of those associated with him in his fraternity work. It is only fair to say that in this division, as is true of all other divisions of the fraternity, there have been problems of individual, some Chapter

and some Alumni, that have called for both sympathy and discrimination to an unusual degree. These problems have been accepted in a kindly spirit by Inspector Williams, and have been given the benefit of his mature judgment. Chapter leaders and Chapter units have been given freely of his counsel; Alumni members have been called into consultation with the one purpose of giving any question the benefit of the best of individual and collective thought. This policy is bringing those beneficial results as are reflected in improved Chapter harmony, better scholarship, less financial stringency and a Denver Alumni Association that can muster to its annual and periodic meetings an enthusiastic group of Sigma Nus from the colleges and from all parts of the State of Colorado.

In the less serious affairs of life "Dad" is a good scout and a good sport. Witness, for instance, the accompanying photograph. It shows the otherwise serious-minded attorney far afield in the beautiful San Luis valley of Colorado, his ever-faithful traveling companion, "Red Cloud," at his right and the rugged, rocky, inspiring-peaked Sangre De Cristo range in the background. Those who have been the recipients of his hospitality know "Dad's" attitude toward enjoyment that is health-giving, pleasant and wholesome. With "Red Cloud" the distances are short and at the end of the drive the fish take the bait with greater determination of winning the battle against hook and line, and the game out in the hills gives to shooting an added smack of sportsmanship, as well as to marksmanship. So the rod and the gun and the auto, as well as the Fraternity and the friendship it brings, all play their part in keeping in good mental and physical balance the good Brother Sigma Nu who finds his Fraternity and professional work a pleasure, and who unselfishly gives to each that better quality of service that is today recognized more than ever as manly character.

Past Regent A. F. KRIPPNER.

Reconstruction and the College Curricula

By HARLEY F. WILSON, Gamma Lambda

Professor of Economic Entomology, University of Wisconsin

[The following article by Brother Wilson of the Faculty of the University of Wisconsin should be read by every active Brother. Without doubt, the new education will be marked by two tendencies. The large universities will be more markedly vocational and post-graduate. There will then be a new emphasis upon the relatively small high-grade College of Liberal Arts.—The Editor.]

THE numerous articles on vocational education appearing in various magazines and papers throughout the country indicate a new trend of thought in education. It is probably not unsafe to say that education originally began as a means of culture for noblemen and well-to-do people of our ancient countries and that it gradually spread to the less favored groups through the inborn ambition found in men and women in every class of life. Ambition is not limited to the wealthy or more favored classes, but is to be found among the poorest and most illiterate peoples of our country. Formerly, instead of going to college, the poorer classes of people put their children out as apprentices to learn a trade. Even medicine, pharmacy, surveying, law and many other specialized branches were originally taught not through colleges, but through apprenticeships. As the demand for more specialized knowledge in these subjects became apparent, special institutions were developed for this purpose and gradually trades have developed into vocations. During the last twenty or thirty years there has been a strong development along these lines in this country as seen in our state colleges of agriculture and mechanic arts and in the trade schools. There has been a special demand for short courses whereby students with limited opportunities might learn the rudiments of a trade or business. The demand for these courses has been so great that practically every State institution now has one or more of such courses leading to specialization in some one line of work. The length of these courses varies from a number of

weeks of intensive study to two or three years of regular college work in which the cultural subjects are eliminated. Even our regular college courses leading to degrees in Engineering, Medicine and Law have been cut to meet this need while being extended to longer periods for more specialized work, so that we now find in America courses extending from several weeks to six or seven years. If a student wishes to prepare for a vocation, the work is so arranged that he does not study cultural subjects, but he is given specialized courses along the line he desires. Students who are able to pursue the ordinary college or university courses receive more or less work of a cultural nature with their specialized subjects and the student who desires to become specially proficient in any science or profession is required to pursue courses continuing anywhere from four to seven years.

The demand for vocational education has become especially important at this time because of the reconstruction work which the government is undertaking in behalf of disabled returned soldiers. That this is a far-sighted viewpoint taken by our government is easily realized. It not only would be unfair to disabled soldiers themselves, but to the country at large as well, to turn great numbers of such men loose without a definite purpose in view. The government, to better this condition, has formed a Federal Board of Vocational Education, which is providing the funds to be used in co-operation with State and educational institutions for the purpose of giving these men an intensive short course which will fit them for some useful occupa-

for the rest of their lives. In this the government will protect schools for them and take care of their families while they are being educated in their chosen profession. The effect of this on our colleges and universities remains to be seen, but only there will be a tremendous impetus toward the reduction of the time required for learning the fundamentals of a trade or profession and this is bound to have a far-reaching effect on the reorganization of courses in the college and university curriculum. Our present educational system has for long been bound by tradition. Will new developments break these bounds and bring about the development of a new system of training for young men and women of this country? Every educational institution in the country which has contracted with the government for the present Army Training Corps unit is bound to be an educational institution of the old type and has become, might say, purely vocational in purpose. The young men of today have not been taking cultural subjects except as they apply to the real needs and purposes of the war, but have been applying themselves to inessential subjects of value to them in training for officers.

The new industrial era is bound to bring for the next fifteen or twenty years in every industrial country on the globe and the demand for specialists in different lines of industry is likely to be so great as to call for speedy and specialized training of young men and women to take up the positions which will be open to them. It is to be feared that vocational education will greatly interfere with purely cultural subjects which are necessary for the well-being of the nation and great care should be taken by the students themselves as well as the members of college and university faculties to see that they receive a certain amount of theoretical and classical studies to give them a broad perspective of life and to make them clear-minded and broad-citizen.

As an indication that the government authorities realize the value of cultural subjects for men in the army, I may make mention of an article in a late edition of the "Stars and Stripes" which explains how the army authorities in France are arranging plans whereby soldiers who are to remain during the period of occupation may avail themselves of the opportunity to study in French and English universities. They are also making arrangements to allow men on duty in small and isolated posts to take special courses offered through correspondence. Even a leave of absence and furloughs were to be granted to a limited number of men from each division or army corps and these men would have been allowed to go to the schools in which they are interested. The subjects to be studied in the army schools during the war are broadly classified under the following heads: Foreign languages; history, character and institutions of the French and English people; cause of the war, and American participation therein. Courses in common school subjects and special courses for examination and promotion. While they are waiting their turn to return to the United States they will have an opportunity to study English literature, modern history, civics, bookkeeping, accounting, etc. At the same time the so-called vocational subjects will be given special stress and during the mobilization special schools will be provided to give courses in elementary electrical work, salesmanship, practical agriculture, telegraphy, and general shopwork in wood and metals. It is easy enough to see then that vocational education is far more important at this time than it has ever been before and that the faculties of various colleges and universities should be careful not to let the tendency swing too far. It is not to be feared that our colleges and universities are going to have to change their entire system of education, but certainly vocational work will have to be given far greater consideration than ever before.

My First Decade in Sigma Nu

By PAST REGENT RAWSON BENNETT

MY official activities in the Fraternity began with my initiation. I took the vows on the afternoon of June 2, 1884. At the first meeting of Nu Chapter held immediately after the initiation I was elected "Grand Scribe," or Reporter. I assume my activity in sending reports to The Delta and in corresponding with the active workers of the other Chapters suggested my selection as General Secretary when Brother Isaac P. Robinson resigned that office the next year. I had then never met in the flesh any of my associates of the High Council nor any member of the Fraternity outside my own Chapter.

The other members of the High Council, then called "The Grand Chapter," of which I became a member by my acceptance of this office on December 20, 1885, were Edward R. Arthur, Alpha, Regent; J. Alexander Howard, Kappa, Vice Regent; D. W. Langdon, Jr., Theta, Treasurer; C. M. Snelling, Alpha, M. G. Y. Forman, Zeta, and J. P. Applewhite, Eta, chiefs of the three Divisions. During my first term I had the pleasure of signing charters for Delta, Rho and Sigma Chapters. My most remarkable experience, however, was in dealing with what I termed in my special report on it "The Case of Delta Chapter."

Certain students of the South Carolina Military Academy at Charleston had petitioned for a charter. The majority of the High Council rejected the application. Thereupon Delta Chapter took advantage of the fact that its charter described it as situated in the "University" of South Carolina, of which the Military Academy was legally a part, and initiated the petitioners anyhow, with the sanction of Regent Arthur.

Some members of the High Council were highly indignant at this evasion of their decision. For the manner in

which I managed to vindicate their dignity and at the same time add this "branch" of Delta to our roll as Tau Chapter I must refer the curious to the record of the proceedings of the Lexington Grand Chapter of 1886. This body re-elected me, with change of title to "Grand Recorder," and reduced the "High Council," then given that name, to four, by dropping out the "Division Chiefs," now known as "Inspectors." The other members of the High Council during my second terms were D. W. Langdon, Jr., Regent; George M. Napier, Kappa, Vice Regent, and M. G. Y. Forman, Grand Treasurer. Texas was the only new Chapter established. My colleagues rejected a petition from Louisiana State.

With my second High Council my relations were not altogether harmonious. During this year I embarked on the adventure of trying to consolidate the Kappa Sigma Fraternity with Sigma Nu. From my point of view there were many arguments for this move. At least two of my colleagues, Brothers Langdon and Forman, were very emphatic against it, and the enterprise went down in a refusal of the High Council even to name representatives to negotiate with those already named by Kappa Sigma, possibly somewhat to the mortification of that society. I defended my course in a special report to the Birmingham Grand Chapter of 1887, which I was unable to attend. This report was returned to me endorsed: "Not approved or accepted." Therefore I did not consider myself authorized to include it in the record of the first three Grand Chapters which I caused to be printed for private circulation, and it remains unpublished to this day.

Having handed me this brickbat, the Birmingham Grand Chapter then handed me the bouquet of a unanimous re-election. My colleagues were

Langdon again as Regent, W. H. Wade, Past Regent, as Vice Regent, and Alexander Howard as Grand Treasurer. Brother Grant W. Harrington is telling so fully the conflict of the next three years between the progressive and conservative elements in the High Council that it is needless for me to go over the story again. How Chi, the only new Chapter, managed to "get by" I do not know. I ceased to be Grand Recorder at the Asheville Grand Chapter of 1888, and was out of the High Council until my election as Regent at Chattanooga in 1890.

During these two intervening years I concerned myself chiefly with getting the Constitution into better form. The result was "The Law" adopted at Chattanooga in 1890. I may here explain that the "infinite absolute" form of this document was taken from the Constitution of the Masonic Grand Lodge of Wisconsin, drafted by one of the ablest lawyers of that state, and in my judgment supasses in clearness and conciseness the "relative clause" form to which the Grand Chapter saw fit later to return. I also edited and published four issues of *The Delta* at Milwaukee, Wisconsin, and Marquette, Michigan.

In one of these issues I advertised as forthcoming a booklet to be called "Sigma Nu and Consolidation; the Story of a Well-Meant Failure." To my surprise I received letters of protest from several Brethren against any such publication. They seemed to think there was something humiliating in the fact that any Sigma Nu had ever even considered consolidation with Kappa Sigma. Upon what their low opinion of that fraternity and its members was based I do not know. All the few Kappa Sigmas with whom I have become personally acquainted appeared to be respectable citizens. One of them, whom I meet occasionally in a Masonic body, was one of the "ambassadors" named to negotiate with the representatives of Sigma Nu.

I have the documents relating to this episode in our history, and hope during the coming winter to find time to embody them in an account of the affair, for publication in *The Delta*, or as a chapter of that general history of Sigma Nu which Brother Burton Sears is preparing. After more than thirty years I do not see how anybody's feelings can be hurt or any interest of either fraternity injured by a full publication of the facts.

During my second period of service in the High Council, from 1890 to 1894, my residence was so far removed both from existing Chapters and from colleges considered as seats of Chapters that I could take no part in the external work of the Fraternity, except at the two Grand Chapters, held at St. Louis in 1892 and at Indianapolis in 1894. By this I do not mean that I was a figurehead Regent, for I was not. I was consulted on every move made and my correspondence file, turned over years ago to the Grand Historian, shows that I was not at all backward about expressing my opinions. As an illustration I may cite the suggestion of the Committee on Officers' Reports at the Indianapolis Grand Chapter of 1894. That committee said:

"We also heartily endorse the position of our most eminent Regent in his disapproval of anything of a political aspect arising in our Fraternity, but we would recommend, if this report is to be ordered printed for distribution among our several Chapters, that the most eminent Regent revise said report."

By this the committee meant that it found my remarks on the combination of reactionaries and job-hunters with which that Grand Chapter was afflicted somewhat too warm for its taste. Well, I did "revise" it—by making it decidedly more torrid than it was before. I have never had much use for mealy-mouthed dealings with any situation, and if I could have made that report more blistering than it was I would gladly have done so. I have just read it over again, and

after twenty-four years I stand by every word of it.

To this Grand Chapter I submitted a revised Ritual, which was tentatively approved and ordered promulgated to the Chapters. However, I became dissatisfied with my own work and went at the task again, which results which were provisionally adopted by the Fifteenth Grand Chapter and made the exclusive Ritual by the Seventeenth, and concerning which I cherish the humble hope that they will be permitted to abide as my monument of love and service to Sigma Nu.

During my first decade in the Fraternity, Sigma Nu grew from a small Southern organization to a really "national society of college men." To that development all members of the

five High Councils of which I was a member contributed according to their lights, though it seemed to me then, and seems still, that the lights of some of the Brethren with whom I was thus associated from 1885 to 1888 were rather dim, not to say smoky.

From 1890 to 1894, when Brothers C. W. Murphey, Bixby Willis, E. B. Parker, J. E. Goodrich and Grant Harrington were my colleagues, the harmony was complete. In those four years our national status was assured. Mistakes were made, of course, but the successes far outweighed the failures. As I look back now with judgment that I hope time has matured I find little to regret and much for pride in the record of my first decade in Sigma Nu.

The Regent's Story

Mr. Edwin W. Dunlavy,
Indianapolis, Ind.

Dear Brother Dunlavy:

Enclosed please find check for \$2.50, for which I wish you would send me six copies of the December Delta, 1918, which contains Borden Burr's account of the battles of Champagne and Chateau Thierry; also to cover my subscription to the Delta for one year.

Brother Burr's account is undoubtedly the best which I have seen and I think I am in position to judge, as I was wounded in the second engagement and have recently been sent home on account of wounds received there.

I am very anxious to get hold of these extra copies for people who were either engaged in the battle themselves or had some person in whom they were interested. This includes the father of one boy who was killed on the 15th of July, and through some hitch in the governmental reports received no word of it for two months. I wish to preserve this account myself and I feel sure that others will wish to do the same.

Fraternally yours,

CAPTAIN R. M. BROOKES, Epsilon.

East Liverpool, Ohio,
March 21, 1919.

Building a National Fraternity

III Extension Policy Approved

By PAST GRAND RECORDER GRANT W. HARRINGTON

THE St. Louis Grand Chapter in 1892 was a progressive body. Not a discordant note was struck during the whole session. In my re- as Grand Recorder, under the of "Extension," I said:

In regard to extension I can only state the views expressed in my previous reports. Sigma Nu must go on and grow up with the country. In everything that goes to make the sum total of prosperity, these are supplying their schools with the means to grow great and equipping them with every facility.

Harvard and their imitators offer nothing that our Western schools cannot also supply, except age and prestige, and that makes the thin- kind of diet. Schools which a few years ago were unknown are now turning out graduates which will make history for you in the next de-

The vigorous policy followed by the retiring High Council has given you nine new Chapters in this country, and I bid you charge their officers to continue the work with vigor." (Delta IX, p. 303.)

A part of the report was re- lated to the Committee on Extension which reported as follows:

Our Committee on Extension recommends that the policy fol- lowed by the present High Council be maintained as the settled policy of the Fraternity and that the incoming Council be instructed to pursue the same with vigor." (Page 326.)

This report was unanimously adopted. Bennett was re-elected Re-

gent. E. B. Parker, of Upsilon, and James E. Goodrich, of Rho, two well-known progressives, were elected Vice Regent and Treasurer respectively. With a High Council fully in accord with the policy outlined, vigorous extension was once more the watchword. I quote again from The Delta files.

"While we have decided views of our own as to the policy the Fraternity ought to pursue in regard to extension and other vital matters, yet no member of the Fraternity has been denied a hearing and the fullest and freest discussion has been sought on all occasions."

From The Delta of June, 1893 Vol. X, p. 333:

"The Catalogue of 1889 showed nineteen Active Chapters with a membership of 850. The one for 1893 will show thirty-six Chapters and nearly 2,000 members. It will show the state universities of Ohio, Indiana and California, the universities of Leland Stanford, DePauw, Purdue, Drake and Upper Iowa, together with a number of others added to the roll. In short, it will show that Sigma Nu has broken the shell and taken her place as one of the progressive fraternities. You will need the new Catalogue to appreciate what has been accomplished."

From The Delta of October, 1893, Vol. XI, p. 59:

"Word comes from Chicago that several fraternities have entered the new Chicago University. This should stir up our Chicago Sigma Nus to see

that a Chapter of Sigma Nu is organized at once."

From The Delta of October, 1893, Vol. XI, p. 62:

"The members of Sigma Nu may well feel proud of the advancement the Fraternity has made in the last decade. When Alexander Howard started The Delta eleven years ago there were but three active Chapters in the Order and things were at a pretty low ebb. Our Chapter list has now grown to thirty-five active Chapters, and the Catalogue to be issued before the close of the school year will show a membership of upwards of two thousand."

"We recently met an Alumnus of Lambda Chapter who had been away from his alma mater about five years, and in discussing the progress the Fraternity has made he gave what we believe has proven the experience of most members when he said that while he was an active member he was constantly met with the assertion that his Fraternity was small and sectional and its lack of Chapters was used to its disadvantage. But he added:

"That argument won't go now, for we have entered pretty nearly every state university in the country and most of the leading universities and colleges outside of New England and we can compare chapter rolls with the best of them.'"

From The Delta of December, 1893, Vol. XI, p. 138:

"Sigma Nu has Alumni this year at Harvard, Johns Hopkins, the University of Chicago and the University of Michigan and will doubtless continue to send men to every one of these schools every year from now on, so there is all the more necessity for making a determined effort to start Chapters in these great educational centers.

"It has been our ambition for years now to see Sigma Nu cover the land so thoroughly that no matter where one of her members went for post-

graduate work he could find an active Chapter to affiliate with. We have recognized that the great schools could be entered successfully only through our members who went there for special work.

"In other words, that the East could only be entered through the West. There is a duty incumbent upon these Alumni that they must not be allowed to shirk, and we propose to keep pushing them until the desired results are secured."

From The Delta of December, 1893, Vol. XI, p. 139:

"The Order has broken away from the mountains of Virginia and Georgia and we are no longer referred to as a little insignificant Southern Fraternity, but are accorded a place at the board along with our older, larger and more pretentious sisters. We have reached the place now where we will grow by our own weight."

From The Delta of February, 1894, Vol. XI, p. 214:

"These twenty-five years have been years of growth. * * * We must go on, adding to our Chapters Chapter Houses, to our Chapter Houses scholarships, to our scholarships loan funds to enable our worthy members to complete their education, and so on until Sigma Nu stands the acknowledged peer of all, the inferior of none."

From The Delta of February, 1894, Vol. XI, p. 214:

"It is with pleasure that we are enabled to announce the founding of Beta Xi Chapter at William Jewell College, Liberty, Mo. * * * The ceremonies of the initiation took place at the Coates House in Kansas City, Mo., January 6, 1894, under the auspices of the Kansas City Alumni Association, and when they were concluded twenty-eight "Sigs," representing eight different Chapters, sat down to the banquet. In point of number of Chapters the Sigma Nu

Fraternity is now the strongest Fraternity west of the Mississippi river."

From *The Delta* of April, 1894, Vol. XI, p. 302:

"The organization of Beta Mu Chapter at the University of Iowa adds one of the most inviting schools in the country to our Chapter roll. Iowa appreciates her university and proposes to make it the leading school within her borders. This feeling of pride in the state university, backed by substantial appropriations, has grown steadily year by year in all the Western States until today age and prestige is all that Yale, Harvard and other Eastern schools can claim over them. They are their equals in all other respects, and as this fact impresses itself upon their supporters the steady drain from their territory to Eastern colleges will cease. The West owes it to the rising generation to furnish it with the facilities for securing the best possible education at home, and this demand the state university is supplying. The desirability of this class of schools for our Chapters cannot be too firmly impressed upon our members, and our zealous extensionists should turn their attention towards entering the half dozen or more places that are still open to them."

The Record of Eight Years

During this eight-year period twenty-four new Chapters were organized and three dormant Chapters revived. Chronologically the list runs as follows:

December, 1886—Upsilon organized at the University of Texas.

December 22, 1887—Phi organized at the University of Louisiana.

May, 1888—Chi organized at Cornell College.

October, 1888—Psi organized at the University of North Carolina.

December, 1888—Beta Phi organized at Tulane.

January, 1889—Beta Alpha organized at Yale.

June 18, 1889—Beta Omicron organized at the University of the South.

September 18, 1890—Beta Theta organized at the Alabama A. and M. College.

October 15, 1890—Iota revived at Howard College.

November 19, 1890—Beta Beta organized at DePauw.

March 21, 1891—Beta Gamma organized at Missouri Valley College.

April 8, 1891—Delta Theta organized at Lombard.

April 15, 1891—Beta Delta organized at Drake.

May 22, 1891—Beta Nu organized at the University of Ohio.

September 4, 1891—Beta Epsilon organized at Upper Iowa University.

October 24, 1891—Beta Zeta organized at Purdue.

November 6, 1891—Beta revived at University of Virginia.

November 17, 1891—Beta Chi organized at Leland Stanford, Jr.

November 19, 1891—Sigma revived at Vanderbilt.

February 20, 1892—Beta Psi organized at the University of California.

April 14, 1892—Beta Eta organized at the University of Indiana.

July 22, 1892—Beta Iota organized at Mount Union College.

September 6, 1892—Beta Kappa organized at Southwest Kansas College.

October 12, 1892—Beta Lambda organized at Central College (Mo.).

May 10, 1893—Beta Mu organized at the University of Iowa.

January 6, 1894—Beta Xi organized at William Jewell College.

———, 1894—Beta Rho organized at the University of Pennsylvania.

Fourteen of these Chapters were located in the Mississippi valley. Four were in Iowa, three in Missouri, three in Indiana, two in Ohio, one in Illinois and one in Kansas. Two were on the Pacific coast. One was in New England, one in Pennsylvania and six in the South. The total membership had grown from less than 500 at Lexington in 1886 to 1,938 at St. Louis in 1894.

It is true that the one New England, one of the Southern and six of the Western Chapters have not survived, but out of all these Chapters that failed we got some *men* who strengthened us—*men* who have been devoted workers for the Fraternity's upbuilding ever since. Especially is this true of Chi, for out of it went Carl Lane Clemans, the missionary from whose labors our whole array of Chapters west of the Rockies are directly or indirectly the fruit.

That Yale, owing to the very peculiar fraternity system long established there, was regarded as a doubtful venture, is evidenced by the discussion in The Delta prior to the organization of Beta Alpha. We just "took a chance" on Yale.

Chi, Beta Gamma, Beta Kappa and Beta Lambda went down before anti-fraternity legislation passed after their organization. The troubles of Chi were the result of absolute bad faith on the part of the president of Cornell College. Before the charter was issued this gentleman was interviewed, told who the petitioners were and our plans. He assured us that the college did not contain a better group of students, sanctioned our enterprise and gave us his blessing. This is why successive Grand Chapters refused to withdraw the charter until the Chapter finally surrendered

to persistent persecution. The extinction of Beta Kappa resulted from the pettiest possible motive. The Chapter was made most welcome until its members decided they did not care for the president's son as an associate. Then anti-fraternity rules were passed. Could the truth be known about Beta Gamma and Beta Lambda, no doubt some equally petty reason for the anti-fraternity regulations could be found.

Beta Delta, Beta Epsilon and Beta Omicron failed to get a good hold on life and just starved to death. Had we been able to give them a little aid and assistance at the time (similar to that administered to Upsilon by the Texas Alumni) all might have been saved. To the credit of Beta Epsilon, it should be remembered she furnished the man who gave us our splendid Beta Mu Chapter at the University of Iowa.

The founding of these Chapters was justified as an advertising move. Sigma Nu needed to demonstrate that it was not going to remain the small sectional Fraternity it had been for its first fifteen years. When I. P. Robinson, and his associates of Lambda, reached around through Texas to establish Nu at Kansas, they embraced, whether consciously or not, the only possible policy by which Sigma Nu could get out of the sectional rut and become a real National Fraternity.

They outflanked the East and attacked the West on its open side, from across the Mississippi. While it took four years for the advocates of that victorious policy to get power to carry it into effect, all that was done in the eight years that ended in 1894 was but the logical application of the principle to which its most progressive leaders committed Sigma Nu when in 1883 Lambda Chapter selected Joel Thomas Howard of Dallas, Texas, and commissioned him to start a Chapter at the University of Kansas, if he could.

Man Passes; His Work Abides

I went to the Grand Chapter in Indianapolis in 1894 expecting to be re-elected Grand Recorder, only to find that I was the victim of a "still hunt." The Grand Recorder's office had grown in importance until it carried with it a salary of \$600.00 per annum. A member of Lambda Chapter, who wanted the job for the salary, had secured enough pledges from delegates, which, added to the conservatives opposed to the policy of extension we had been following, made my re-election impossible. Although Bennett was not a candidate for re-election, the argument was used that the Regency was enough for Nu and these things ought to be passed around. Bennett did not want to be re-elected Regent if Harrington was to be displaced, and so Bennett and Harrington planned as they did in the days of the old "secret anti-secret" at K. U. Bennett announced that he was not a candidate for re-election and sprung the name of Isaac P. Robinson of Lambda. Robinson was a name to conjure with in those days and his election was unanimous.

Then we turned back on the coalition the argument that the Regency was enough for Lambda, and before they could recover from this surprise attack we sprung the name of Clarence E. Woods of Zeta for Grand Recorder, and the coalition of conservatives and place hunters was put to rout. The conservatives had succeeded in eliminating Harrington, but they could not undo the work of eight years nor stop the impetus toward nationality the Fraternity had been given during that constructive period.

Some mistakes were made, of course. Human beings cannot avoid them. But as I look back upon the work of those eight years, from the perspective of a quarter of a century, I find nothing done for Sigma Nu that I would not do over again, situation and circumstances being the same, and feel that the work of the High Council of that period, judged in the only fair light, that of the task it had to perform and the knowledge it could obtain for its guidance, the Fraternity at large has nothing to regret. *We made Sigma Nu national.* Let that be our epitaph.

The Making of An Alumnus

[The meaning of his Fraternity is not the same to the Alumnus as to the Active Man. As our soldier Brothers so frequently testify, Sigma Nu plays a greater part (if the Alumnus is a "live one") in his life after college days than before. Brother Baily's letter is noteworthy because it voices the feeling of an Alumnus in the period of transition—that fatal period to some who never recover from the severing of activities. It rings true.—The Editor.]

The December Delta reached me this morning. I cannot help but feel that it is the best yet and for fear of missing the next issue, will enclose my change of address record.

It is certainly a great feeling to know that although I was forced by fate to do my "bit" on this side and along the lines of Liberty Loan and Red Cross—I did have Brothers who gave their last full measure "guarding with jealous care the rights of freedom."

Sigma Nuism meant a great deal to me when in college, but along lines far different than the ones I now like to look upon. The good times the old bunch had can never be forgotten, but the teachings and Creed of Sigma Nu now stand out far more prominently than they then did.

HARRELL V. BAILY, Beta Beta.

Size But What Else

Is Sigma Nu to Become the Flabby Bulk of the Fraternity World?

A Protest Against Expansion

By ALBERT RUSSELL KNEALE, Gamma Theta

FRESHMEN are told "we have nearly one hundred Chapters now." Quite true.¹ But what are the merits of each of these Chapters in comparison to rival fraternities of its college? What are their merits in themselves? Only good comes of facing facts, and facts give pause to thoughtful Brothers of many of our Chapters. There is a very present danger that ours is becoming a Brotherhood of miscellaneous assorted and diversely advantaged men, rather than a union of closely bound and congenial members held with common interests and ideals. Obtains today a definite widespread sentiment that Sigma Nu is far and getting farther from being one of the strong and fine fraternities of the university and outside world.

And why? The answer is simple—weak Chapters of our Society today greatly outnumber the stronger. An ever-heavier millstone of weak Chapters hangs about the neck of a group of strong Chapters which, the bulwark, carry the load loyally and willingly, and will continue to do so, so far as they are able. But they have limits. They cannot stand indefinitely our present policy of radical expansion which has been developed so opportunely during the past few years of unsettled, easy conditions.

If one would catch trout he must go to a trout stream. Some of the "colleges" from which petitioning bodies have courted us are admittedly little more than trade and other such schools of secondary type, far from first-class institutions in which only we should be interested. It should not be surprising that Chapters in some of our schools do not make good. They do not have a fighting chance.

The men they need, the men Sigma Nu wants, go to schools of first order.

But being in a satisfactory university or college, we are by no means merely by that fact guaranteed a desirable and successful Chapter. Both absolutely, and relatively with the methods of leading fraternities, we have rushed in with insufficient investigation and with practically no more than a hurried majority vote—or failure to vote—admitted the new Chapter. If the same methods were carried out in the admission of the individual to his Chapter it would sound the end of that Chapter as an harmonious whole. Yet we accept these methods for the even more important matter of the Fraternity at large. It is illogical. It is inconsistent. It is not an adjunct of strength.

Our requirements are lax throughout. Five, possibly ten, years' probation should be required of any petitioning body. Unanimous approval of Chapters in the petitioning bodies' division should be taken seriously only if our divisions were of size. Averaging about four Chapters as our divisions now do, "unanimous" is only humorous. And it is emphatically not well for the future harmony and oneness of the Sigma Nu Fraternity that unless over one-third of her Chapters at large register safely and promptly, their definite negative votes, another new Chapter becomes practically "fait accompli."

These vital, important defects in our ideas can be remedied only by a Grand Chapter. They should be remedied, emphatically and soon. But meanwhile it no less behooves the members of every Chapter who feel as does the writer, to check this pres-

¹Seventy-nine, to be exact.—The Editor.

²One-fourth. (Constitution, Art. VI, Sec. 1, Cl. 2.)

ent pyramiding of new Chapters and bucketing of our future by every fair and honorable means. To such Brothers it is earnestly suggested:

1. That until you are absolutely convinced a petitioning Chapter is sound enough in its college standing, finances, personnel and opportunity to stand on equal terms with your own Chapter, vote against its admission.

2. That it is best for your Chapter to send your vote to our General Offices by registered mail to insure its safe arrival. Nonreceipt of negative vote within specified time now is held to constitute a favorable vote.

3. That if you are against the admission of a petitioning Chapter, you should communicate your views to personal friends and acquaintances in other Chapters—no less thoroughly than when boosting for a body you wish admitted.

4. That any Chapter should not hesitate to vote adversely just so long, for months or years, as its honest opinion dictates such voting.

It is perfectly within the province of you active Brothers who are readers and endorsers of this anti-expansion policy to read this article, or ask to have it read, under the head of "New Business" at the next regular meeting of your Chapter.

National Sigma Nu

By PAST REGENT ALBERT H. WILSON

SOME ten years ago I was bold enough to face the disdain of the ultra-conservatives in Sigma Nu by offering for publication in THE DELTA a short article with the title "A National Sigma Nu," and suggested how it might be fully earned through the entrance of the Fraternity into the then unoccupied seventeen States and the District of Columbia. The article was written with no thought whatsoever of instituting a propaganda for the establishment of eighteen brand new Chapters, but to show where Sigma Nu was not represented.

In going over the pages of THE DELTA for December, 1918, while lounging within a Y. M. C. A. hut in France, I was struck once more with the full truth that Sigma Nu has approached more nearly, I feel quite certain, the ideal national existence than any one of our several worthy competitors. While Kappa Sigma, Sigma Alpha Epsilon, Beta Theta Pi and Phi Delta Theta top Sigma Nu in the number of Chapters, yet we find that Sigma Nu leads them, and all others, in the number of States

embraced within the respective enrollment of Chapters.

Recalling, in substance, the dissertation of ten years ago, I went over our present Chapter roll and discovered that instead of seventeen States and the District of Columbia needed to give to Sigma Nu at least one Chapter in every State of the Union that the number had fallen to the very low figure of eight missing commonwealths.

Within these past ten years Sigma Nu has entered the District of Columbia and the States of Maine, Rhode Island, Connecticut, Delaware, Maryland, Florida, Idaho, Nevada, and Arizona. At the time of the first presentment there was offered, also, the most strategic college, for Sigma Nu's entrance within each of the seventeen States and the District of Columbia, and it is worthy of passing note that in almost every instance the designated college was entered in our progress into these nine States and the Columbian District. The only changes found are in Connecticut, where we established at Trinity College instead of reviving our Beta

Alpha Chapter at Yale, and in Maryland, where we raised our standard at the Maryland State College in preference to the Johns Hopkins University. In Maine we not only entered the listed State University, but added Bowdoin College in good measure.

Referring to the eight States still without our fraternal circle we find that one, Massachusetts, is in the East; two, South Carolina and Mississippi, are in the South, while the remaining five are all Western. To sum up, it can be seen at a glance that the only difficult States to enter, should there be present such a desire in Sigma Nu, would be the Southern States where anti-fraternity laws made dormant our Delta Chapter at the University of South Carolina and our Tau Chapter at the South Carolina Military Academy, and Mississippi, where similar laws have driven the fraternities from the State University and the State A. and M. College. The most difficult open State to enter is Massachusetts, where the demand to establish Sigma Nu must be backed by a highly organized local group of men and after a most searching Sigma Nu investigation. As for the five Western States of North Dakota, South Dakota, Wyoming, Utah and New Mexico, the fields are virgin and can be occupied, with comparative ease, by any of the larger and more forceful fraternities. These State universities are amply endowed, sympathetically maintained by the peoples, and are destined to become great educational and fraternal centers.

Ten years ago we not only named the missing States from Sigma Nu, but ventured to list the best fields within said States for fraternity occupation. Following that example, we name now not only the eight unentered States, but the most promising college or university within each of these States for future cultivation:

Massachusetts—Amherst, Williams and Massachusetts Institute of Tech-

nology. Within these three colleges are to be found practically all the Eastern fraternities, while at the M. I. T. almost every one of the Greek letter societies maintain chapters.

South Carolina—State university (at present barred by anti-fraternity laws); Wofford College, where we find Kappa Alpha, Kappa Sigma and Pi Kappa Phi.

Mississippi—State university (barred by anti-fraternity laws); Millsaps College: Kappa Alpha, Kappa Sigma and Pi Kappa Alpha.

South Dakota—State university: Phi Delta Theta, Beta Theta Pi, Sigma Alpha Epsilon, Lambda Chi Alpha.

North Dakota—State university: Phi Delta Theta and Sigma Chi.

Wyoming—State university: Alpha Tau Omega and Sigma Alpha Epsilon.

Utah—State university: Sigma Chi, Pi Kappa Alpha, Phi Delta Theta and Beta Theta Pi.

New Mexico—State university: Sigma Chi and Pi Kappa Alpha.

In conclusion, permit me to add, in substance, what was said in closing the national digression ten years ago: Let no Brother in Sigma Nu become unduly excited over this little outbreak of European fervor, for there is no slightest desire to promulgate any plan whereby Sigma Nu shall enter, immediately, these eight great and worthy commonwealths, but simply to call a more marked attention to how nearly Sigma Nu has come to epitomizing the national idea among the Greek letter fraternities and to show, at a glance, where Sigma Nu is *not* to be found and to add, if possible, something new under the sun in fraternal discussion.

Camp Meuron, France,
January 25, 1919.

Eight Years of Delta History

By PAST GRAND RECORDER GRANT W. HARRINGTON

FOR eight years I was editor and manager of the Delta. This covered the period from 1886 to 1894 and volumes IV to XI inclusive. The constitution, as revised by the Lexington Grand Chapter, placed the publication of the Delta with an active Chapter. The minutes of that body (page 28) show the following action:

"Brother Ouzts moved, seconded by Brother Loveman, that as the new constitution placed the publication of the Delta in the hands of an active Chapter, that Nu Chapter, situated in the University of Kansas, be designated by this Convention to publish the Delta for the coming year. Carried unanimously."

The Chapter made me managing editor. Bennett, Marshall and Markley were named as assistants. No provision had been made for financing the publication, and as the Chapter did not want to get under the load I assumed it and took my chances of collecting enough from subscriptions and advertising to pay the bills. In his report to the Grand Chapter at Birmingham in 1887, Grand Recorder Bennett says that I lost about \$50.00, and my recollection is that this statement was substantially correct.

Volume IV was started with the September, 1886, issue and five numbers of thirty-two pages each were printed during the school year 1886-7.

At the 1887 Grand Chapter which met at Birmingham, Alabama, this arrangement was continued. The minutes recite: "Brother Dean moved that the Delta be returned to the same hands and the same Chapter and that a vote of thanks be tendered to the editors and Chapter for the magnificent manner in which they conducted the publication of the Delta. Seconded and carried amidst

great enthusiasm. Brother Harrington was then voted a special vote of thanks." (Delta, v. 5., page 8., October, 1887.)

Under this resolution Volume V was issued. It contained four issues and 110 pages and covered the school year 1887-8.

The Asheville Grand Chapter, which met in August, 1888, changed the law regarding the publication of the Delta and made it read:

"Sec. 2—THE DELTA—The Delta shall be published bi-monthly under the supervision of an alumnus member, elected by the Grand Chapter at its biennial session." (Delta v. 6., page 145.)

The proceedings also disclose the fact (page 152) that: "On motion of Brother Dean, Brother Grant Woodbury Harrington, of Nu, was elected to publish the Delta for the ensuing two years."

Volume VI contained five issues, and 158 pages and covered the school year 1888-9.

Volume VII, for the year 1889-90, was published under difficulties. No provision had ever been made for the expense of publication. As managing editor I paid the bills and took my chances of securing enough out of the subscriptions and advertisements to reimburse myself. It was a labor of love which took both time and money. I finished my school work in June, 1889. There was no printing establishment in the town where I lived and neither the time nor the expense of going to Lawrence to get out the Delta could be spared. Bennett, who was doing newspaper work in Milwaukee, came to my relief and arrangements were made to have the magazine printed there under his supervision. This arrangement worked well until the third is-

sue of the year when Bennett's business arrangements took him to Marquette, Michigan, and the fourth number was issued from that place. There were 142 pages in the four issues of the year.

In my report as Grand Recorder, to the Fifth Grand Chapter which met at Chattanooga in August, 1890, after making due acknowledgement of Bennett's work during the year, I said: "The publication of the Delta properly belongs to the Grand Recorder and I respectfully recommend that its publication be made a part of his duties, that all subscriptions and advertising contracts be payable to the Grand Treasurer, that the printer's bill for the publication of the Delta be paid with warrants drawn on the Grand Treasurer and that the Grand Recorder be paid a yearly salary of \$300.00 for his work." This recommendation was adopted and for the first time in its history the publication was put upon a sound business basis.

Volumes VIII, IX, X and XI were issued at Hiawatha, Kansas, where I had made my home and moved the Grand Recorder's office. The inability to secure a satisfactory grade of work in any of the printing plants in the town led me to buy an interest in one of the newspapers and equip it properly for the work and this in turn took me out of the practice of law and into the newspaper business.

In my report as Grand Recorder to the Sixth Grand Chapter which met at St. Louis in August, 1892, I said: "The Delta has been improved and enlarged materially since our last meeting. Nine numbers have been issued at a cost of \$685.70. The tenth number to complete Volume IX is now in press and will contain the proceedings of this Grand Chapter. The amount of money collected for the Delta during the two years is as follows: From Chapters \$657.75; from alumni and advertisers \$139.62; total \$797.37. This leaves a balance of \$100.16 now on hand. There is still due the Delta from the Chapters

the sum of \$227.00 and from alumni subscribers and advertisers about \$125.00. A good percentage of this can be collected so that Volume X can be opened with a surplus on hand. It has been suggested from some quarters that the Delta be changed from a bi-monthly to a monthly publication. I do not think this would be wise. Most fraternities have dropped the monthly issue and now come quarterly. The Delta, coming as a bi-monthly, strikes the happy medium."

The Seventh Grand Chapter met at Indianapolis in October, 1894. In my report as Grand Recorder, I said of the Delta: "It has been the ambition of your Grand Recorder ever since the Delta was placed in his charge at the Lexington convention eight years ago to make it the best Fraternity magazine published. He is not vain enough to think that he has accomplished that yet, but he does feel that the improvement made during the last two years, is without a parallel in Fraternity journalism. There were four numbers issued in Volume X making 842 pages. Volume XI consisted of five numbers which made 442 pages. The total cost of these two volumes was \$1,434.82 over and above the cost of illustrations which in most instances were furnished from other sources. The gross earnings of the magazine during the same time was from Chapters \$1,202.00, alumni subscriptions \$357.00, advertisements \$67.50, total \$1,626.50."

My services as Grand Recorder closed with the Indianapolis Grand Chapter and the publication of the Delta passed to other hands. Years have passed since then, but I still look back with pleasure and pride to my work as editor of the Delta. I feel now as I felt in closing Volume XI when I said: "It is with a feeling of pride that we send out this closing number of Volume XI * * *. It has been our ambition ever since the Delta was placed in our charge at the Lexington Convention eight

years ago, to make it the best Fraternity magazine published. We regard this issue as a great stride in that direction. Hampered by lack of funds its growth has been slow, but it has been steady and as the Fraternity cast aside its sectional character and increased its boundaries, its

membership and its influence, the Delta has kept pace with the advance and we now have a magazine that our rustlers can place in the hands of prospective initiates during the fall campaign with a firm trust that it will not suffer from a comparison with our rivals."

Where Does the Sky Begin?

By CHRISTOPHER E. SHERMAN, Beta Nu.

Where does the sky begin?
On arctic moor or fen,
Remote from the city's deafening din
Far from the haunts of men?

Show me the casket of glistening gold
That I sought at the rainbow's end,
When a happy child in days of old
I eagerly trod the meadows when told
Of the treasures the sun-showers send.

Where do the beckoning heavens rise,
From sacred Sinai's summit bold?
Or where Himalayan peaks the skies
Pierce with their shrouded summits cold?

Does the soft blue summer sky come down
On islands far in the Southern sea?
Or on Sahara, with never a town
Nor brook, nor wood, nor winding lea?

The sky begins in the crowded street
In the laughing faces of children sweet;
In the comforting thought of a day's work
done
Under the harvest-ripening sun.
It springs from cool wood, from grassy
mead,
From the heart of the doer of kindly deed,

From the spot wherever sweet music is
heard,
From wherever a needed cheering word
Is spoken to rescue from evil power,
Or written in quiet study hour.

The rainbow has not melted away!
Its tints are in autumn wood's crimson and
gold
And the transmuted mantle of forest leaves
gay
Is treasure too vast for my coffers to hold.

The sky in benison soft bends low
On peaceful homes when hearth-fires glow
When children gather in Christmas glee
To herald the spirit of Galilee;
And old and young with holiday cheer
Make high resolves for a glad new year.

To where does the sky extend?
To the happiest summits that ever were
penned?
Far, far above!
To the Father who steps from star to star,
Wherever His needy children are,
With mercy and love.
To Him whose bounties are without end,
Who from His treasury long did lend
Us loving philosopher, guide, and friend.

To the memory of Rev. Washington Gladden

First Sigma Nu Banquet in Germany

By LIEUTENANT LAWRENCE C. BREWER, Gamma Sigma

I must tell you about the Sigma Nu banquet that we had the other night, as I think it will have the distinction of being the first Sigma Nu gathering ever held on German soil, during the present war, at least. I would also like to call special attention to the fact that it was held in the First Division, thus adding another item to the long list that our division has been first in.

Ever since I received your letter I have been on the lookout for Sigma Nus here in the Division, but I had almost given up hope of finding any, when one day Brother J. O. Genereux of Beta Sigma, now Lieutenant Genereux of the First Engineers, dropped into my office and said that he also had had a letter from you, with instructions to look me up.

We immediately got our heads together and decided to have a real, old fashioned Sigma Nu dinner here in Germany, regardless of whether we could find any more Brothers to attend or not.

Captain A. C. Hansen, Beta Upsilon, now C. O. of "E" Company, First Engineers, was only too glad to offer the use of his officers mess, so having secured a place to hold the gathering, we started out on the hunt for other Brothers.

Through the kindness of the Y. M. C. A. we circulated notices all over the division area, posting them in every canteen, giving the necessary information in regard to the dinner, and cordially inviting all Brothers to attend. After a week of this sort of canvassing, we finally had ten reservations for places, so we began to feel like our dinner was going to be a real success after all.

Now here comes the sad part of the story. Monday, March 3, was the day we had selected, and on this particular day old Jupiter Pluvius or

whoever else controls the weather here in Germany, decided to turn loose all the rain he had in stock. Honestly it was the most pro-German weather you ever saw, and I am sure that the German weather man violated all the armistice terms in order to make our banquet go on the rocks, but he didn't quite succeed.

When we finally managed to make port in Wirges, and sat down to count noses before going to the dining room, we found only four Brothers who had been able to reach the scene of the evening's activities, and although we delayed matters for almost an hour in hopes that some of the others would show up, no one else came. I'll give you a list of those present:

Captain Arthur C. Hansen, Beta Upsilon, First Engineers.

Lieutenant Joseph O. Genereux, Beta Sigma, First Engineers.

Lieutenant Frank F. Fox, Lambda and Gamma Pi, Sixteenth Infantry.

Lieutenant Lawrence C. Brewer, Gamma Sigma, Assistant to Division Quartermaster.

We also had places reserved for Major Paul L. Ransom, of the Second Machine Gun Battalion, and Lieutenant Harry H. Sunderland of the Eighteenth Infantry, both are from Beta Sigma, and for four other Brothers whose names I was unable to secure.

Since the banquet I have received information that Colonel Stephen O. Fuqua, Chief of Staff of the Division, is also a Sigma Nu. I am going to investigate this rumor [It's true] and if I find it to be correct we will try and arrange to have another dinner with Colonel Fuqua as the guest of honor.

The dinner was a most pleasant little affair, in spite of the fact that

the attendance was so small, and if possible we would like to make a regular thing of these Alumni gatherings here in the Division.

It would be a great thing for the Fraternity and for the Brothers, if the members in each Division would organize a Divisional Alumni Association and hold weekly or bi-weekly

meetings, just as is done in some of the larger cities in the states. I am going to try to organize such an association here in the First Division, and I would appreciate any assistance you can give me along this line.

Montabau r, Germany.

Second Lieutenant, Q. M. C.

Assistant to Division Quartermaster.

Adventures Overseas

By BROTHERS OVER THERE

[Stacks of "good reading" come to us in the shape of letters from the A. E. F. Now that the censor is needed no longer, the letters tell many good things that before they could not put in writing. Past Regent George M. Cook sends us the first one in this series; the others come direct to the General Office. We hope to hear from more Brothers and learn of their adventures. France casts a romantic glamor over all of us, and already messages promises us the wonderful tales that will be told round the banquet tables of coming rallies, as they say, even if our Brothers have to fall back on their imaginations.—The Editor.]

Art and the Soldier

By ROBERT C. MATLOCK, Gamma Rho

In the Signal Corps

DEAR Dad Cook:

The twenty-first of this month was the anniversary of my nineteenth month of enlistment in the Signal Corps, and I've had sixteen months of active duty. Already I'm beginning to feel like an old soldier, and compared to some of the new draft men who have reached this country, with hardly more than two months of training, I do feel very much an old soldier. I've not risen a bit in rank since the first month at Fort Leavenworth, where I was made a private first class, because until very recently I was in a battalion of Signal Corps which was so full of men far more experienced in telephony (in civil life) than myself that I've had no chance whatsoever for a N. C. O. warrant.

In my old organization, a telegraph battalion, I spent five months at Leavenworth and a little better than six months at Camp S. F. B. Morse, Leon Springs, Texas, just twenty-four miles northwest of San Antonio.

From there we were sent to New York, spending a week at Camp Mills, L. I., and arrived in France July 22, 1918, being just a year in service (active) that day. We came on the Northern Pacific, flying the American flag, and arrived in Brest, France, where the battalion stayed and is still staying. Our trip across was seven days, which is as good time as the Leviathan (the old Vaterland) makes. We were convoyed by destroyers one day out of New York, and two days into Brest. The Great Northern, the sister ship, was the only other ship which came with us, and both ships are alike in speed, shape and displacement.

Our work at Brest consisted mostly of heavy telephone line construction in the city and vicinity. About a month later, eleven of us switchboard men were assigned to a job of building a telephone and telegraph exchange at base headquarters. A little over two months of work was put in on it, and when we had finished, this switchboard crew, which included myself, were transferred to Tours

into a service company of Signal Corps. I had just been there five days when I was transferred into the 37th Service Company, Signal Corps, for maintenance switchboard work in a new exchange at Limoges, France, where I am now. At present the exchange is still under construction, and I am working with the installation men, which will be a great advantage to me when the exchange is finished and my maintenance work begins.

Your Own Chapter Mates

The University of Chicago Base Hospital unit is stationed here, and the first night I had a pass I went over there and had a regular old-time visit with Joe Kinsburry and young Fisher. Jerry used his "drag" and got a recommendation to the artillery school for new officers at Saumur. I was sorry not to be able to see him, but more than glad to hear of his chances for advancement. He will make good, and his grades in his section have been of the highest in his study classes, so Louis says. I was just thirty miles from Jerry when I was at Tours, and I knew he was at Saumur at that time. If I had stayed there over Sunday I would have gone down there on a bike to see him, but I was shipped out too quickly. I go over to see Joe and Lad quite often. Believe me, Dad, it's fine to have close friends near you in this country, but to have a Brother or two of your own college Chapter right in your town over here is still finer, *ne c'est pas*? Joe is a sergeant first class and is known as the hospital sergeant. Lad has charge of a ward, and he certainly keeps the sick and wounded in good spirits with that good line of talk which he is so well noted for.

The Garden of France

Limoges is just a plain burg, very little to see, and probably has nothing that would interest tourists other than that it is the "home town" of Gay Lussac.

Tours is liked by every one who goes there. I saw about everything

of interest in the five days I stayed there. St. Gatien's cathedral, which was started in 1147 and finished four centuries later, is still doing its goodly duty, and it is surely a grand piece of Gothic architecture. It has two towers in front, each 234 feet high, and visitors are allowed to go up in one, which I did. One can get a fine view of the city from there, and also see quite a little of the surrounding country, which is little less than a beautiful garden of vineyards. In fact, Tours is spoken of as being the "Garden of France."

The River Loire, which runs through the middle of the city, is a good-sized creek for what they call rivers over here, and besides it is fairly clean, which isn't always the case with other rivers over here. On both banks there are wide promenades and long avenues of trees, and with the white stone houses with red tile roofs behind, it is a very pretty spot.

The last day a few of us went through the Musie, where there are some very fine paintings. There are at least a dozen there by Rubens, the great Flemish painter, and many others of more or less noted painters.

We—four of us—were leaving that evening. My train left at 6 p. m.—a French passenger. As far as Chateau Rouge I was well fixed, but there I had to change, and the second train was so full I couldn't find any room at all, so I rode down from there in the baggage car, and it was pretty cold traveling.

Well, the war is over now, but I hardly expect to be home very soon. I am in the Service of Supply, which includes every one back of the lines, and the S. O. S. will have to stay until the last, I guess.

I received Art Stringer's first bulletin on Gamma Rho Sigs in service, and thought it mighty good. His second reached Jerry, who sent it up to young Fisher, and a couple of nights ago I saw it while over there.

Back to College Next Fall

the Chapter has rooms at the Prado? I guess this new draft, was to include the young fellows knocked Fraternity activities a lot, especially so when the

Houses had to be turned into quarters for the men getting their training at the Universities. Well, I expect to be back at the U. of C. next fall, and, for that matter, a lot of us will, and we can make up for lost time if every one does his best.

Snap Shots on the Way Over

By BENJAMIN A. HOFFEDITZ, Delta Iota

THE Delta arrived today, forwarded from Camp Hancock. After a long sojourn at Camp Hancock we were suddenly on the July 4th and thus had a double ration. After a delightful trip we spent a few days at Camp and a few hours in New York. My first sight of the big town, was greatly impressed, but I still believe there are other cities in Amer-

geons and underground passageways. The guide told us the original building was erected by the Phoenicians and later remodeled, enlarged, etc., by the Romans, Gauls and French. Part of the old Roman foundations still remain.

Our stay at the port was short, too, and soon we were traveling through the park-like country to the center of France—the heart of the region made famous by Joan of Arc. There we saw the castle where she received her commission, and had the pleasure of eating at the hotel where she stayed while in that town.

Here, too, are many chateaux, and I know now the attraction this country holds for tourists.

After another short stop I was ordered to Tours and was separated from the battalion and from "Hank" Knowlton, Illinois, the one Sig with whom I have been associated since enlistment.

Otherwise I am satisfied with the new move because Tours is a good town and rich in historical lore. We are in comfortable barracks and are doing the work we enlisted for.

I have met Rubicam from the University of Washington, Seattle, and Fullerton from Washington State College, Pullman, here and we have had a couple of good "fests" talking over the old days. It is strange to meet the fellows so far away from home.

our journey across the ocean was pleasant as could be expected under the circumstances — ideal weather, good eats, etc. We had a bunch on board and enjoyed the eville performances several evenings and always a band concert a day. The two days we were going through the Gulf Stream actually hot and the water was in a state of calmness that I didn't ever existed on the ocean.

the day we were due to sight every available vantage point taken hours before time and the first faint outlines appeared and cheer went up. As we drew near and objects became clearly defined we saw a beautiful sight before and realized that this is the land where so much history has been and is being made.

wasn't disappointed, either, in the first view of a European city, as coincided with all my preconceived ideas with its old castle, picturesque front, etc. I had the pleasure of visiting the castle with its dun-

Our "Amex Forces" Alumni Chapter

Our Secretary is Injured

Brother John J. Lucy sends us this word:

Howard Johnson, Gamma Phi, was seriously injured on January 2 in an aeroplane wreck near Issodun, France. His machine fell to the ground and Lieutenant Johnson sustained many bruises and a broken arm, the fracture being so serious that it was impossible for him to carry his arm in a sling.

And Gamma Phi Chapter adds this description of Brother Johnson's work overseas:

Johnson has been flying in Europe for the last eight months, and his work has consisted of taking planes from a distributing point, Issodun, France, to points where they were needed by the army. On January 2 he was driving a bombing plane to an outlying point from that city. He alighted for a few minutes and had resumed his flight. He had gone about 200 kilometers when his motor stopped and the machine fell to the ground, Johnson sustained many bruises and a broken arm. The fracture was so serious that Johnson could not carry his arm in a sling. He was placed in the care of army surgeons for four hours after the accident, but little could be done for him. He was obliged to ride forty-five miles in an ambulance over rough roads in order to reach a hospital.

Lieutenant Johnson says: "Don't worry. I'll fly no more and will be home as soon as I am able to leave the hospital. I hope to reach home by March."

But now let our Secretary tell his own story:

The Secretary's Letter

By LIEUTENANT HOWARD A. JOHNSON,
Gamma Phi

I REALLY can't remember having written to you since dropping in here, but that doesn't prove anything. I have had so many installments of ether and so many shots in the arm that my memories of the last month and a half are rather fragmentary and incomplete.

Anyway, be it known that while here awaiting travel orders home I volunteered to ferry Breguet bombing planes from Clermont-Ferrand to Romorantin. Never having flown anything but pursuit planes, it looked like a good way to get experience—and I got it.

The engines were old overworked ones, noted for balking at awkward moments. However, they told us, "If you have good luck you may be able to land without crashing when your motor stops."

Christmas was a fairly good day, so I took off and headed across the mountains of Auvergne. I had covered half the distance before my motor cut out. I managed to clear the forest over which I had been flying, but there was no field large enough to land in. The plane was a total wreck, but all I got out of it was a bump on the head.

After two days at an American Engineers (Forestry) camp, which also included taking in a swell Christmas party at a chateau, I went back to Clermont for another plane.

January 2 proved good enough for another start. I took off and steered a compass course above the clouds for about two hours, then dived through and landed to learn my location. The peasants told me that Issoudun was forty-five kilometers northeast, so I at once took off. When about thirty feet in the air, with big trees just ahead, my engine cut out.

woke up five hours later in a
er bed in a peasant's cottage.
ench doctor had me all wound
th bandages and I could just see
them with my left eye.

sn't necessary to catalogue my
troubles; anyway, I am stead-
proving. But the doctor earned
y working on me. He pawed
se into shape, fastened the two
of my lower jaw together, set
ft forearm and elbow in three
ir places, reduced a sprain or
and took two dozen stitches in
is parts of my anatomy. By
ime it was midnight and we all
to bed.

hree or four more weeks I hope
on my way home. My career in
. E. F. has been meteoric rather
brilliant, and, thank the Lord,
ver. Still, meteoric isn't just the
; meteors fall farther than I
ut don't get so badly smashed.

I am sorry that we couldn't have
accomplished more for Sigma Nu
over here. Fortunately, most of our
men were in active work all over
France, which made dinners and
meetings in Paris rather difficult. I
say "fortunately" because I am glad
that our men didn't scramble for the
desk jobs at Paris. That is a pretty
good sign that we are alive, which is
something to be proud of. Not that
we are tooting our own horn—far be
it from us—but seriously the fact is
worthy of mention, and I'll bet that
we had as full a representation in
France as any fraternity in spite of
the fact that we didn't meet often for
dinners in Paris.

Best regards. I hope to call when
I come through Indianapolis on my
way home. It will be a pleasure to
see the General Offices.

Issoudun, France,
February 15, 1919.

Our Chapters at French Universities

University of Poitiers

D you know that there was a
Sigma Nu Chapter in France
and that it is in one of the old-
d most famous of French univ-
ies, in the old French capitol,
rs? At the present date there
our members: William K. Mul-
University of Oklahoma; Leon-
adley, University of Alabama;
A. Ducournau, Louisiana State
rsity, and Dale A. Hartman,
rn Reserve University.

ew weeks ago an A. E. F. order
through offering college men in
e the opportunity of attending
ench university from March 1
June 30. I decided to accept
fer and so I am now leading a
f ease in a French university
d of being on the Atlantic with
ivision (the 57th) today. There
bout three hundred American
r students attending this uni-
y.

All the text books and lectures are
in French (none of the professors
speak English). Most of the stu-
dents live in French homes. You
know just how much French I boast
of, so you may readily realize the
time I am having. However, one
simply has to learn French here.

CORPORAL DALE A. HARTMAN, Delta Zeta.
Poitiers, Vienne, France.

University of Toulouse

BROTHER HAROLD E. BAR-
RON, Delta Delta, writes us
this postcard: "I am in an
A. E. F. college here at Toulouse,
France. I received my December
Delta, but fire later destroyed it with
the rest of my property."

Just following this postcard, comes
this cablegram from our Toulouse
Chapter: "Sigma Nu has organized
at Toulouse University. Our mem-
bers are Harold E. Barron, Delta
Delta; Joseph L. Benson, Beta Mu;
Robert L. Devereaux, Delta Delta;

Dan H. Erickson, Jr., Delta Delta; Robert A. Laird, Mu; Robert M. Littlefield, Delta Nu; Morton P. MacLeod, Delta Lambda; Albert A. Martineau¹; Robert C. Matlock, Jr.,

¹This name does not appear on our rolls.

Gamma Rho; Donald E. Pike, Beta Iota-Pi; Don R. Sessions, Beta Beta; Roger Starnes, Lambda; Alvin N. Thomas, Gamma Upsilon; Richard T. Turner, Delta Upsilon; and Claude M. Wheeler, Delta Xi."

Founders' Day in France

By P. L. HARRIS, Beta Iota

[Our Beta Iota Chapter in the 135th Field Artillery celebrated Sigma Nu's Fiftieth Anniversary in truly fraternal style. Sorry they couldn't do in reunion of body as well as spirit, but they did it in a fitting way "by writing to the Delta." We all like to read letters like this one.—The Editor.]

SINCE the arrival of the October, 1918, Delta, I have thought of sending some word from over here—have felt it a duty to do so.

Founders Day in the 134th F. A.

Yesterday, it occurred to Brother Percy Jackson's ever active Sigma Nu memory, that January 1, 1919, would be the Fiftieth Anniversary of the founding of our Fraternity. He and the other Brothers in Headquarters Company, 134th Field Artillery—Brothers Trump, Ohlinger, Sharp of Beta Iota, and Brother Sutton, Epsilon, conceived the idea of doing something to try to commemorate the day, so in the afternoon "Mac" Sharp hiked over to our billets to consult with the Sigs in B Battery of the same regiment. There are five of us—Brothers Slates, J. Jackson, Stambaugh, R. W. Scott and Harris, all from Beta Iota. We discussed means and facilities for holding some sort of get-together and feed. Due to the facts that the men in Headquarters Company are so distant from us, and because of the scarcity of favorable meeting places, we had to give up the idea of the get-together, but we decided that New Year's Day should not go by without some one writing back to the Delta.

"Reading Maketh a Full Man"

I think that all of us received our October Delta, and it is needless to

say that it was intensely enjoyed. I can truthfully say that that Delta meant more to me than any previous one—more so even than when I was actively a member of the bunch back at school. I read it from cover to cover with deep interest. I think that is one thing that many of the fellows have developed over here—that is thoroughness in their reading. Books, magazines, papers are eagerly sought, and fellows devour them in a truer sense than they ever did before. As it was so in my case with the Delta, I know it was with all the other Brothers as well. It is time now that we may be looking for the December number and I assure you it will be much appreciated.

First Service Chevron

December 28, 1918, marked the end of our six months period over here, and most of the boys are wearing their justly earned service chevron. Our travels so far, from New York to our present location very near Verdun, would require a too lengthy narrative. Suffice to say, we have seen and have reason to know much of France and her characteristics and customs. Much of our time was taken up in intensive training in various places, and there was some real action on three fronts. When the armistice was signed we were in position near Vegneulle, which is one of the larger villages within what used to be the old St.

el salient. Hastily pulled out of location and hurried to the camp on the hill, in a big beech woods, we had been waiting, expectant for a half hour and a half now.

body feels that now our work is done and we should get home—perhaps the narrow, selfish way to look at it, yet the most natural human way.

The Military Question of the Day

In the meantime, we've done our share of the necessary policing that American periodicals are at present talking about—and also we've seen it all the mud and rain we care for. All the while we are waiting for an answer to the much wanted and asked question, "Where do we go from here?" and in vain, with no prospects of the answer yet in sight. A tremendous task it is going to be, I surmise, to get us all back, and most of us appreciate the big difficulty to overcome, and that it takes, yet much highly unfavorable comment is heard when we read of Germans, etc., over there, who are trying to find all the reasons they can heap us over here for reconstruction, etc. Leave it to us, and we'll demand that its home we want. There is "no" land like the good old U. S., and it takes patience and real calm to wait till we set foot on American soil again. Most every-

Our Military Order

Many of the fellows intend to go back to school to finish courses that were broken up. All, I believe I may say, are much concerned with what line of work will fall to our lot, and the discussions of various lines to follow are very serious. We have been following with much interest, the relations of government to the fraternities throughout the war. No doubt the S. A. T. C. has already been done away with and things will go back to the normal order of things again. I believe I voice the sentiment of all the Sigs here when I say that we eagerly await the time when we may gather again around the old Frat House grate fire to talk it all over. Fifty years after the founding, our great Fraternity, originally military in nature, will find that its members were loyal, true to the noble traditions it taught us, and ready to respond wholeheartedly to a tremendous and noble cause.

Near Verdun, France,
January 1, 1919.

Applied Fraternity

LETTERS FROM PAST REGENT A. H. WILSON

X

I HAVE read the names and deeds of the men under "With Military Honors" with sorrow. It is tough now that these splendid fellows to be among us no more. Just to live instead of dying. Our Ambia Chapter, to my knowledge, has six golden stars on her service

between now and June I expect all Chapters back in normal stride.

The order promulgated today is the Seventh Brigade, Camp

Meucon, Vannes, will move within ten days. Can't say whether home or to German occupation. If so, then I may not be here by the time this letter reaches you. I will not go home, however, but to another camp base.

With war ended and our boys not required to be called into further active service, it looks as though our colleges and Sigma Nu would bloom once more. By the fall of 1919 everything should be moving in shipshape order for all concerned. The testing of our worth will add to our future usefulness. We will all join hands and restore every Chapter that may

have suffered for the reason of the war and our devotion to America.

Most of the boys are anxious to get home, and I cannot blame them. The war is over and there is not the same incentive for them to be away from home and loved ones. I rather suspect many of them will be in the U. S. A. by July and a great number long before that date. Our big job, to make good, must be in America after all the troops are back in the States. The "Y" will be the one big channel for direct communication.

It sure adds a lot to your life in a strange land to meet up with one's Fraternity Brothers. Sigma Nu is a real asset in the life of any man privileged to understand the meaning of it. Some, I fear, understand only the wearing of the badge, but the overwhelming majority in Sigma Nu here caught the right notion of service.

XI

TODAY I discovered another fine Sigma Nu in the person of Lieutenant William Buchanan Seward, Delaware State Chapter. Lieutenant Seward has been here for some time, but had not met any of the "Sigs" here until I heard some one calling my name and turned to find the above mentioned. Brother Seward is living up to his connection as the great grandson of the Lincoln Cabinet Seward. I am arranging to have him meet all the other "Sigs" here.

Sigma Nu counts in France. For example, I desired to have a Dr. Clark, Yale University and now of Chicago, address as many of the soldiers here as possible and on a most important subject. How to do it was the question. Then I thought of Chaplain H. C. Fraser to reach General Horn's favor. Through Brother Fraser it was done, and Dr. Clark just finished a series of lectures where the soldiers came in regimental units to hear him. To my mind it was one of the finest kind of compliments paid the "Y" and by the general of the brigade.

Lieutenant Koch, Mount Union College, was in my room today asking me to go with him on his vacation leave. He will go to Nice and possibly Rome. I should like to accompany him, but my time is not due until two weeks after his allotted leave. I will take the same trip when my time comes and he will make an effort to await that period.

Received a letter from Lieutenant Don P. Horsey, Delaware, who is now at Ancy. He and Brother Lieutenant Tracy Campbell, Delaware, are now on their leave at Nice. Both will sail for home during the month of February.

XII

THE rain is coming down in torrential drive this afternoon and I am held to my room more than usual. Brother Clinton I. Wright, Columbia University, Medical Detachment, 165th Infantry, is with the "Rainbow" troops and went through many a hard fight, but came out untouched. He was pledged at Delaware and initiated at Columbia. He and Tommie Hegarty, Beta Iota-Delta Gamma (killed in action) were great chums and belonged to the same crowd at the DeWitt-Clinton High, New York City. Brother Wright is leaving for two weeks' leave in Colchester, England, where some relatives reside. He is now at "Remagen on the Rhine."

The Seventh Brigade has moved to the occupation and Chaplain H. C. Fraser, Delta Gamma, and Lieutenants Koch, Beta Iota; Hadesty, Delta Delta, and Seward, Delta Kappa, have gone and I am the only "Sig" here and begin to feel very much akin to the "wild ass of the desert." I shall miss the fellows greatly.

About the first of March I will go on my vacation of ten days and maybe you will have THE DELTA here when I get back to camp.

I am rather of the opinion that I will be home the first or second week in May.

France and the French

As seen by the American Soldier

By LAWRENCE L. HOPKINS, Delta Alpha
305th Engineers; formerly Inspector Fifth Division

[Brother Hopkins's story of his overseas adventures is really the best account we have seen, no exceptions. "As one of the Engineers," he says, "I joined the German-American 'foot-race' in the Verdun sector last fall, and dodged shells with the nimblest. I say German-American rather than American-German, because the Germans were always ahead when one considers space and the general direction of travel!" His great lament is not meeting even one Sig in France as yet, to his knowledge. "You see, they are a bit hard to identify," he explains, "when compassed with one of Uncle Sam's uniforms."—The Editor.]

UNLIKE the average European tourist, the majority of American troops in France see suburban France rather than the large cities and the more famous points of interest. I'm not so sure but that we are "lost" on the tourist at that, as we are "knowing" France is conceded. So I'm going to tell you of a few of the points that I have noticed about this so-called Sunny France, as we have walked through it or lived

undoubtedly it is the buildings that first engage the attention of the American when he enters a typical French village. Owing to the scarcity of timber and to the abundance and cheapness of stone, one rarely finds any but stone buildings (or perhaps buildings with mud and straw where stone is not so plentiful). The buildings are roofed with the evident red tile or with flat stone laid on like shingles. I have seen stone roofs that were at least six inches thick, and which must weigh tons. In the States a house with a red tile roof is usually the sign of comparative affluence; here it is merely the sign of the poorer French peasant's home! The stonework is crude and not finished, but the result is highly durable and may be sure.

The buildings of the average peasant home are usually arranged in a square, with one side missing. It is always difficult to determine where the house stops and the barn begins, as the outside walls of the buildings are usually continuous. Sanitary

considerations do not seem to concern the French farmer, so he puts his manure pile in the front yard as a rule. In fact, as some one has remarked, "the wealth of the French peasant seems to be measured by the size of the manure pile in his front yard."

Miles of stone walls, most of which are relics of a past generation, are an interesting feature. Many of them are laid without mortar of any sort, and are as sturdy and true as one could wish. To the eye of an American, however, it is difficult to see where the value of such walls is commensurate with the labor that must have been expended to build them.

Numerous more or less elaborate old chateaux and castles, most of them now unoccupied, are a mute reminder of the days of feudalism in France. One of these, which I visited, is looked after by a few caretakers, and is still furnished as if for use though no one lives there now.

Every hamlet, no matter how small, has its Catholic church and its adjoining graveyard with odd glass-bead "floral" pieces on each grave. The church building is invariably venerable and none the less interesting therefor. Have visited one that was over four hundred years old and still "giving service." An interesting incident is told in print by the priest of a church which I visited in Triaucourt. It seems that the Germans once held the town for a few days and thought that the clock in the church tower should register Ber-

lin time instead of Paris time (an hour's difference), so they changed the hands accordingly. But much to the glee of the old priest, the Huns couldn't change the striking mechanism, so the clock told Berlin time if you looked at it and Paris time if you merely listened to it.

Transportation facilities, too, are different from what we are accustomed to see at home. As to roads, I think all the Americans over here are willing to "hand the palm" to the French. The entire country is a network of wonderfully constructed and equally well maintained highways. The abundance of stone, and the government supervision and patrol system, seem to turn the trick. It is true that I have also seen worse roads here than in the States—roads with holes big enough and deep enough to put a small house in—but these were the result of German artillery rather than of any neglect on the part of the French.

Canals are numerous and form a picturesque part of the landscape in France, as they are invariably lined on both sides with lofty Lombardy poplars. The locks and the quaint horse-drawn canal boats enhance the picture.

To the average American eye the railroads seem more or less of a joke. They do look more or less like toys, with their little dinky single-truck freight cars and the funny engine with its shrill whistle. We often see, here in the American sector, a real, life-sized American locomotive pulling a string of these little cars, and it always seems to remind me of a big boy bullying a group of little children. The passenger trains are not so bad, however, and make good speed. Of course all the passenger cars are of the usual European type, with compartments and side entrances all along the car.

Like every other American soldier, I'm looking for the fellow who dubbed this country "Sunny France." I *guess* the sun shines as much in the

summer time in France as in the States, but I *know* that it rains more in France all the rest of the year than it does anywhere else on earth. Well, I suppose it must be a wise arrangement of Providence, for, without rain, some parts of France that I have visited would be almost as devoid of water as is the Sahara Desert. Streams are relatively few and uniformly small, and even drinking water is sometimes pretty scarce. So perhaps we shouldn't grumble at the rain, but we still have "a crow to pick" with the dub who dubbed France.

The temperature here seems to be more uniform, summer and winter, than at home, and is cooler on the average. There were very few real warm days last summer, and so far this winter there have been no very cold ones. As a result, I assume, of the cooler climate, the crops are typically those of the northern regions in America. The more common crops are wheat, oats, rye, potatoes, flax, alfalfa and other forage crops. There is a beautiful variety of deep crimson clover that makes a field that is bound to compel attention. Red poppies are a profuse-growing flower here, and I dare say the farmers consider them a pest. In any event, they make a wonderful "showing" in a field of grayish-green young oats. There is a noticeable absence of one item in the list of farm crops, that being corn. I have never seen a stalk of corn in the country, not even in the little truck gardens. I suppose the climate is too cold for that familiar and useful cereal.

The live stock is about the same as we are used to seeing in the States, except that the common breed of horses is different and rabbits are added to the farmer's "curriculum." The horses are short, stocky and noticeably well cared for. Sheep are relatively common, especially in northern France, and they are usually attended by a shepherd and one or more intelligent sheep-dogs, quite in accord with the literature on shepherds in the hills, and the like.

arming methods are still years old time as compared to American methods. One sees an occasional *tr* (and that of American manufacture), but most of the wheat and is cut by the time-honored cradle. I have seen threshing done in any localities, but it is always some form of the old horse and mill scheme, using a small machine, and is very slow. All farming implements are more or less primitive.

The common farm wagon is old-time, lumbering, two-wheeled cart. If the load requires two teams, they are hitched tandem. It is evidently a relic of the days when French roads weren't so good as they now are. The farms are all small and seem to be all of the world is known to most of the peasants.

I have even seen them so inefficient in tilling their crops that they do work in a field where long-range artillery was whistling over all the time.

The forests of France are one of the Frenchman's most cherished possessions, and they are coddled and protected to the utmost. I suppose they are doing just as we will soon to do in America if we don't quit using our timber. I hope that we do not neglect our forests so long even the brush has to be bundled and sold for firewood as it is here. Many of the forest trees are similar to our own. The more common are beech, birch, maple, poplar, sycamore, English walnut, horse chestnut, sweet gum, pine and other evergreens. The finest holly and mistletoe that I have ever seen grow here. Large clumps of mistletoe are especially conspicuous right now when the leaves are off the trees. It even grows on an occasional apple tree. English ivy grows profusely in the forests and on stone walls and buildings.

I suppose many an American farmer would give a good bit for a taste of this ivy which flourishes without cultivation here.

The French peasant is essentially a farmer, and lives a simple and frugal life. Instead of residing in the

middle of his few acres, however, he groups himself with a few others, and they form a village of closely-built houses. Then he walks out to his fields from the village whenever he wishes to till the soil. He lives comfortably, but very simply. Maybe his wife has a little cookstove, but more likely she cooks over the huge open fireplace in the good old-fashioned way. Under war conditions such articles as sugar, butter, bread and tobacco are sometimes scarce, but they never seem to go hungry. Light sour wines are as much a part of their meal as water is of ours, and there seems never to be a scarcity of that. They always use it temperately, however, a little stunt which some soldiers haven't yet mastered.

Frugality is the watchword of the French peasant. He never wastes anything. He doesn't burn brush out in the fields, but carries it to his fireplace. I have even seen old women collecting wisps of straw from the barnyard, and I'm sure it wasn't from any esthetic sense, either. The way the average American soldier "wastes" things horrifies the French, and maybe their horror is somewhat justified.

French children are an interesting study. They seem unusually bright, and they "take up" with American troops very quickly. When they are small, both sexes wear a little apron over the other clothes as a matter of protection, so that it is often difficult to distinguish girls from boys. They all have their little wooden overshoes "just like dad's great big ones," and when they run the shoes make considerable racket on the stones. Each village has its little school, and I imagine they give the French children a pretty good drilling in the elementary subjects.

France isn't just Paris and the Louvre and Notre Dame—there's something back of those places, out where the railroad doesn't always touch, and where you come on foot, as I did, if you want to see it clearly.

The First and Second Catalogues

By PAST GRAND RECORDER GRANT W. HARRINGTON

THE Lexington Convention decided that the Fraternity must have a catalogue. The minutes show that Brother Harrington moved, seconded by Brother Woods, that the Grand Recorder be chairman of the catalogue committee, with instructions to choose assistants in each Chapter, and draw on them for such material as he should think proper, all expenses to be paid from the catalogue fund, and the number of catalogues to be printed to be left to the discretion of the High Council. This was carried unanimously.

It soon developed that the assistant Grand Recorder would have to do the work. I made a study of such Fraternity catalogues as were within my reach and then prepared and printed blanks asking for such information as I thought was necessary to be had in order to have the needed material for the work. Some members responded promptly, but the majority seemed indifferent to the requests made upon them for information.

The January, 1887, Delta said editorially: "The catalogue committee have the greatest difficulty in finding the members of our first four Chapters. The records are so meager that each one will have to be addressed personally in order to secure needed information. Below we give a list of each of the four Chapters with last known address. Many of these are known to be wrong, as letters sent to these addresses have been returned. The list is as complete as we can gather from information now at hand. No roll can be found for Beta during its first spasmodic existence and it is probable that some members of Alpha are not included in the list. Any information concerning names omitted or change in address will be gladly received by the committee as the work is now practically at a standstill, so far as these four Chap-

ters are concerned. This time we publish the list in full in hopes to secure the names of any members our readers find omitted. Next time we will publish only those whose addresses are unknown. The committee would also like to know the whereabouts of the records of Beta, Gamma and Delta Chapters, if any were kept, and the circumstances of their founding. Send all information to the managing editor of the Delta."

The next issue of the Delta recorded the fact that the catalogue blanks had been mailed to all members on the roll of the first four Chapters, that a few of them had been returned filled out, but that in many instances the letters had been returned unclaimed.

In March, 1883, a list was again published and information asked for.

In his report as Grand Recorder to the Birmingham Grand Chapter in 1887, Grand Recorder Bennett said: "Much has been done toward a catalogue. The task has involved an enormous amount of labor, all of which has been done by Brother Harrington. About two-thirds of the necessary material has been collected. A name register would have been issued before this had the financial condition of the Order permitted it. I hope that this matter will be left in Brother Harrington's charge. A preliminary catalogue can be issued this year, finances permitting. The necessity of this work needs no argument, but this office has been constantly hampered by lack of funds."

So far as the minutes disclose the Grand Chapter took no action in regard to the catalogue. Bennett was re-elected Grand Recorder, however, and the work of collecting catalogue material dragged its way through another year.

The records of Alpha Chapter which found their way to the office of

and Recorder consisted of a members, two or three writings of the constitution and a miscellaneous papers. As had aid, catalogue blanks were sent on this roll, but few were re-filled out and in many instances the letters were returned un-

ited and planned how to piece out the records of Alpha Chapter.

It was vacation time at the Institute and there were no cadets and but few teachers in Lexington. The next morning Brother McCrum took me to one of the professors, who gave me his keys to the library and told me to help myself to anything that I could find.

Asheville Grand Chapter in ordered the completion of the

The minutes of the meeting he following action: "Brother gton then entered into explanation of the work on the catalogue,

that the material had nearly n collected except from Alpha r, and that after repeated efforts to secure the desired material s convinced that some one have to go to the V. M. I. and in inspection of the Institute

. Also that information so llected was in the form of and letters, and that it would a good deal of clerical labor nge this matter for the pub-

The Grand Chapter fully ap- and commended the work he eady done and instructed him on with it, appropriating to pay the expenses of a trip V. M. I. and that of compiling ranging the matter already d." (Delta v. 6, page 153.)

cordance with the instructions Grand Chapter, I went from le to the V. M. I. On the way ed for a few hours at Bristol, ee, and visited with Brothers

Vance Fulkerson and John ston, both of Alpha, and gath- om them such information as about Alpha and its members. here I went to the Natural by rail and over the moun- team to Lexington, reaching e late in the evening. I had bed and was asleep when Hugh White McCrum, a res- Lexington and a member of Chapter, found my name on l register and at once routed and for some hours we vis-

The library room of the V. M. I. in August, 1888, was a junk shop. Tucked away in boxes and barrels were the accumulations of years in the way of catalogues, programs and Institute publications. Out of this debris I succeeded in collecting a complete file of the Institute catalogues covering the years that Sigma Nu had been a factor in the Institution. These catalogues in addition to giving the names of the cadets, their standing, rank, and addresses, also gave the names of their parents or guardian. With my roll as an index, I went carefully through this file and carried all the information I could find onto catalogue blanks. I also dug up an incomplete file of a cadet publication and read the various numbers through page by page for any mention of those whose names were on my list. From the local photographer I also secured several photographs of Sigma Nu groups that had been taken in his gallery. I spent the greater part of a week in this work and my recollection now is that not a single soul came near the barracks the entire time I was there.

On my return to Lawrence I wrote letters to the guardians of those members from whom I had been unable to get replies to my catalogue blanks, asking for information. This brought more returns. In some cases I wrote to the Chief of Police asking for information. This brought more replies, some of them being anything but fraternal, but as it was information I was after, these outbursts were amusing. In this way the material for Alpha Chapter was pieced out.

The Delta for December, 1888, contained this announcement: "The first of January rounds up a score of years for the Fraternity, twenty years since the founding of the order, and it seems fitting that the catalogue should at once be issued. That date makes a full period in our career and we shall close the work then * * *. The work will go into the hands of the publisher immediately after the new year opens."

The Delta for February, 1889, said: "After two and a half years we are able to announce that our arduous task is done. In looking backward we fully realize the depth of the meaning in the oft repeated 'fools rush in where angels fear to tread.' The quires of paper sent out over this broad land in search of missing brothers; the weary hours spent in explaining just what information was wanted; the often fruitless quest; the frequent sentence 'Brother B—— is at —— I think.' Oh these are recollections that still have power to harass our soul.

Two hundred copies were printed at a cost of \$418.71, which added to the amounts previously set aside by the Grand Chapter made a total cost of \$555.96. The book was sold by subscription at \$2.50 per copy and 120 copies were sold.

The book came from the press a neat little volume of 160 pages. The Chapters were arranged alphabetically and under each head was a short history of the Institution and the Chapter, giving date of founding, fraternities represented, etc. The Chapter roll was divided into years and the full name of each initiate, his address, business, college honors and degrees were given. A history of the Fraternity, a residence directory arranged alphabetically by States and towns, a table of relationship and an index were the other features.

Work upon Volume II of the catalogue began immediately upon the delivery of Volume I. A supplementary catalogue bringing the work up to August, 1890, was presented as

a part of my report as Grand Recorder to the Chattanooga Grand Chapter and was published in the Delta for September, 1890. A similar supplementary report was made to the St. Louis Grand Chapter, two years later. This included the initiates for 1890-91 and 1891-92 and was published in the Delta for August, 1892.

In my report as Grand Recorder in 1892, I said: "The rapid extension of the past two years makes it imperative that the next quinquennial catalogue be issued before our next meeting. Experience has shown that a Fraternity catalogue to be a success, must be largely the work of one man. When the work is subdivided delays and vexations arise which impair the value of the work and increase the cost of the issue. The Grand Recorder having charge of the records of the order and carrying on a constant correspondence with the Chapters is in a position to give us the best results. I would recommend that the Grand Chapter instruct the Grand Recorder to prepare the next quinquennial catalogue and issue the same during the first six months of the year 1894, the style and cost of the work to be determined by the High Council."

This recommendation was adopted and the Grand Chapter ordered the catalogue compiled and 400 copies printed and sold to members at \$2.50 per copy, the difference between the expense of printing and the revenue derived from sales to be charged to the catalogue fund.

I was re-elected Grand Recorder and so the work of compiling and publishing Volume II of the catalogue fell upon my shoulders.

The same general plan was followed as in Volume I, but the information collected was more extensive, giving in addition to the honors held, the time and place of birth, names of father and mother, etc. The work was brought up to January 1, 1894, rounding up the first quarter of a

century of our Fraternity history. It contained 360 pages beside numerous halftone inserts, and 1,765 names and a record of 42 Chapters.

In the preface the editor said: "Fraternity catalogue making has become not only an art, but one which

demands the application of the strictest business principles. Every succeeding volume more than doubles the work and responsibility. We entered upon this work with forboding; we lay it down with a feeling of relief."

America's Home-Coming

By ARCHIE AUSTIN COATES, Delta Gamma

[On page 198, in the December Delta, we reprinted one of Brother Coates's poems, "Thanks," from the Literary Digest. Again in its issue for December 14 the Literary Digest prints a timely piece of verse with this comment: "Here is an admirable poem in the newer style which gives a vivid picture of the boys marching home." The author is none other than, as Brother Piper expresses it, our "Sigma Nu Archie."]

Tramp, tramp of men,
Men of the East and West,
Men of the North and South,
From Maine and New Mexico,
(They had said we were dead at heart.)

Tramp, tramp of men
Back from the pits of France,
Back from the shambled towns—
Out of the rain of blood.
Rumble and lunge of guns
Blundering down the ways,
Sounding in avenues,
Guns that had dragged the roads
Of France of the million scars,
Sloughing and slipping—and sucking
 through the mud,
Straining on their chains
With the crashing trucks. . . .
Guns triumphant from France,
Sullen and grim—long stilled.
Men pouring back from France. . . .
(They had said we were cravens all!)

Tramp, tramp of men. . . .
Men—and more of them after!
Back to the Western woods,
Back to New Hampshire hills;
Southerners, Georgia-bred,
Soft in their speech and eyes,
Coming—coming—and coming—
Men, and more of them after!
Men that Manhattan gave—
Men from Chicago and Butte,

Men coming back to their desks
But nevermore blind to the stars. . . .
Men of blood and dreams,
Men of purpose and pride.

The march of a million men,
And a million more of them after,
Flooding the Eastern coast
Is American vision and strength,
Tanned from the suns of the steppes
Ruddy cheeks from Verdun,
Muscles made at Mihiel. . . .
(And they'd said we were soft from gold!)

Tramp, tramp of men,
Men and the smell of men,
Swinging shoulders of men,
The sun on their bayonets,
Sun on their flags . . . and scars!
Songs and the laughs of men,
Thoughtful eyes of men
And the crude, broad jests of the male

Tramp, tramp of men
Fresh from the Flemish hell,
Hot racing blood from the West,
Red with the flame of Youth,
Red with success and joy.

Glory, America men,
America's heart full of song;
America's head in the stars!
America's thundering force
Wreathed and victorious, grand!
And they said we were dead of soul!

The Alumnus Treasurer

A Plan of Co-operative Helpfulness

By HARRY A. RIDER, Assistant General Secretary

ONE of our good old Anglo-Saxon habits of mind is not to depend too closely upon the letter of the law. When the situation arises we are apt to evolve a new institution to care for it with the least disturbance to the existing fabric, and our political history is full of instances of extra legal machinery. It is not surprising to see our Chapters of Sigma Nu, according to local conditions, working out for themselves new methods of safeguarding the Chapter treasury, without waiting for a special permit from the Grand Chapter.

The financial basis of the Chapter is the mainstay of the Fraternity. No Chapter, under burden of debt or facing uneconomical management, can progress or even keep its place. The financial troubles of Chapters may be due to extravagance in the wishes of its members or to social rivalry between fraternities in the same college. More often they are induced by inexperience and indifference of Chapter officers, to lax methods of accounting and purchasing. There are many corners to watch for the leaks, and treasurer, steward and commander leaves guard duty to the others. In many cases under observation the General Office has seen the prosperity of a Chapter based upon one person—commander, matron, Chapter adviser, or sometimes upon a “general utility man” without an official title. This haphazard reliance upon a kindly providence seemingly succeeds—until that person leaves the Chapter.

Here is where Alumni co-operation can best take hold. An Alumnus supervisor is better equipped by business ability and experience and by interest in the Chapter than any active man can be, to guide its affairs with its outside creditors. We would

recommend some plan similar to those here described to each Chapter according to its own local situation.

The Alumnus Treasurer may be the Chapter Adviser or he may be some nearer Alumnus. His work is only to oversee the Chapter's finances, see that the income comes in regularly and the outgo goes for an adequate return, and further to arrange a budget that insures the Chapters against deficit at the end of the war.

Two of our Chapters inaugurated this system before the outbreak of the war. Several Chapters, through the exigencies of barrack life in the S. A. T. C. and other changed conditions due to military relations, placed their finances in the hands of Alumni officers. There follows below a symposium of the plans and their working.

The Alumnus Treasurer Plan

By JOHN C. HOSHER, Beta Nu

THE first and most important prerequisite for the success of the Alumnus Treasurer plan is that both the Alumnus Treasurer, who is at the same time our Chapter Adviser, and the active Treasurer work together and toward the same ends. To do otherwise would obviously defeat the purpose of the plan and probably do more harm than good.

Beta Nu has used this plan under both the normal conditions which existed before the war broke out and under the abnormal conditions since then. In the same way that the Chapter Adviser can be of great help to a fraternity in its purely fraternal workings and matters, so can the same man, or for that matter a different one, acting as Alumnus Treas-

of great help in the financial of the Chapter. Certainly, before a new office was named, the was overseer of the work of the Treasurer in a general way, but is supposed to be as well in regarding the financial of the Chapter as the active member himself, and is in a place to give ready advice and quick assistance such is needed. The Treasurer makes monthly reports to the Alumnus Treasurer on the 1st of each month, which cover the detail of the financial matters of the month.

in a while a perfectly legitimate use prevents an active member from paying his fraternity bill or dues on time. The conditions are brought into consideration and when the time is provided for the payment, with the assistance and advice of the Adviser and Alumnus Treasurer in these matters, the member to whom credit is given is not so reluctant and eager to pay as quickly as he would be were he not indebted only to the active men.

the active Treasurer spends the summer vacation months out of the books are turned over to the Alumnus Treasurer until school begins. Then he assists in estimates and making the budget for the coming year, and if a new Treasurer is elected, helps break

more difficult financial and business arrangements are generally handled by the Alumnus Treasurer with his advice and approval. He acts as Treasurer of the Alumni Club, collecting national dues, subscriptions, pushing the New Home Fund, and in discharge of various other duties.

credit is due from Beta Nu Brother Deffenbaugh, who is in his third year as active member, and to Brother Harry L. Wood, our Chapter Adviser and Alumnus Treasurer, for the way in which our finances have been han-

dled. We are getting stronger and more independent financially each year. Just now we are all working in connection with them on the New Home Fund.

While the Alumnus Treasurer plan is not nearly so great or far reaching as an improvement in Chapter affairs as many new plans have been in the last decade, we feel that it is a success, and should be tried and developed by every Chapter that is having any difficulty at all in the management of finances.

The Delta Gamma Club

By WILLIAM H. BROWN, Delta Gamma

AT the annual meeting of the Delta Gamma Club (the Alumni organization of our Delta Gamma Chapter at Columbia University), which was held during December, 1916, the customary election of officers was held and Edward J. Grant, of the class of 1909, was elected to the office of Secretary-Treasurer for the ensuing term of two years. Little did the Chapter's Alumni who attended that meeting expect that the office to which "Ed" had been chosen would grow to include the supervision of the active Chapter's financial matters as well as those of the Alumni. But this it did, with the changing course of events, and in just about one year's time, too, for after the United States had entered the world war the affairs of Delta Gamma became in such a tangled condition, with the constant changes in Chapter personnel, etc., that it was apparent to all the Alumni that some radical action had to be taken at once if the Chapter was to be saved from chaos.

Therefore, after a thorough consideration of all phases of the matter, it was decided to place the financial affairs of Delta Gamma in the hands of the Treasurer of her Alumni Club, at the same time granting him the full powers of the office of Treasurer of the active Chapter. This, of

THE DELTA

course, placed two important offices on the shoulders of Ed Grant, but, loyal Knight that he is, far from grumbling at the additional responsibility, he went at the new task with admirable zeal and in a short time had placed the affairs of Delta Gamma on a thoroughly sound basis, with a well-developed system to back it up and maintain it for the future.

As results showed up to time when the Chapter House was taken over by the Government last fall, it was fortunate indeed that this decision had been made by Delta Gamma's Alumni, and it was even more fortunate that there was available, in the person of Ed Grant, a Brother who could assume the responsibility of this office and discharge its duties so adequately. For with all the discouragements, setbacks and hard times which the season of 1917-1918 held in store for Delta Gamma, the absence of Ed's diligence, hard work and abundant patience in the face of all situations would well nigh have spelled the downfall of the Chapter.

Much as Ed Grant's good work is appreciated by all Columbia Sigs, however, to those who knew him best his success as Alumni Treasurer was indeed no surprise. For the same sterling qualities of fraternity spirit which Ed displayed in his work were recognized by the older Alumni as none other than those which had endeared him to their hearts back in undergraduate days, when, besides being a reliable Chapter Reporter, Ed had proven himself a most dependable Brother, no matter what was to be accomplished, and devoted to the welfare of his Brother Sigs.

And so it came about that as Delta Gamma's Alumni War Treasurer, Ed Grant was given another opportunity to serve the Chapter he loved so well and which had meant so much to him. And from this service Delta Gamma has derived untold benefit inasmuch

as the plans worked out and the many things accomplished by Ed Grant in his work as Alumni Treasurer will leave an enduring impression for future officers of the Chapter to profit by.

Delta Delta's Treasury Guard

By JOHN F. KELL, Delta Delta

BROTHER E. F. Grundhoeffler entered Penn State from the Pittsburgh Academy in 1910. He was initiated into the Fraternity in the fall of his freshman year, and at once became prominent in college activities. He was on the college track and wrestling squads, winner of the individual military competitive drill, a member of the glee club, mandolin club, college concert orchestra, and Thespians. "Grundie" was also ranking captain of the military department, and his company carried off first honors in the annual competitive drill. He graduated in 1914 in the mechanical engineering course.

In the Fall of 1914 he married Edna C. Harter, and he and his wife went to Colorado, where he became an instructor in mechanical engineering at the University of Colorado. In 1917 he was recalled to Penn State, and returned as an instructor in experimental engineering, assuming direct charge of the thermal testing plant here.

Brother Grundhoeffler has always manifested a great interest in the affairs of his Fraternity, and his helpful suggestions have accomplished many things for Delta Delta. This year when the Chapter adopted the Alumnus Treasurer System, "Grundhoeffler" was the unanimous choice for the chair. He of course accepted, and some of the Brothers are beginning to realize that the shekels are leaving the pockets a little faster than they used to, and that Brother Grundhoeffler is on the job.

Yours Will Boost Your Chapter's Total

Little Journeys of the Editor

THE order of the day just now seems to be the holding of Division conventions. The Ninth Division met at the LaSalle Hotel, Chicago, on February 22. A report is found elsewhere.

Brother John M. Roberts, the in-charge of this division, is a man of business interests in Chicago, yet finds time to be one of the efficient of our inspectors. The Division under his careful leadership, comes out of the war stronger than it has ever been. Every Brother in this division was represented by delegates save only Gamma Beta at Albion.

After a most busy day in conference, all adjourned to the annual Birmingham Day banquet of the Chicago Sigma Nus at the University

banquet was preceded by the usual initiation by Gamma Beta Brother. The confusion occasioned by the coming in of the dinner guests and the lack of familiarity with the program on the part of the team, counteracted giving the best impression to a number of the older Brothers who had never seen our beautiful exemplified.

The annual dinner was all that one expects of our Chicago Brothers. A display of enthusiasm and good fellow-

ship is always an inspiration to come in contact with Chicago Sigma Nus. There are larger possibilities there, which have not yet been realized for Sigma Nu than in any other city. We predict that within a few years Chicago will follow the example of Pittsburgh and that a Sigma Nu Brother lodge will receive the center of social life of this, the largest of Alumni, which we have in any single city.

If any Brother desires to see Sigma Nu in all her pristine glory, and, incidentally find out what real Sigma Nu hospitality means, let him put on the five-armed star and hie himself to Alabama.

Judging by the number of Sigma Nus we met in three days and the urgent messages awaiting us to go several other places where there were large groups of Brothers, we judge it would make little difference where you dropped down in "The Cotton State." Sigma Nus are everywhere. Just a little more prominent perhaps about the capitol building than elsewhere, as is evidenced by the following partial list only, of the Sigma Nu Brothers in public service in Alabama. Judges of the supreme court, Brothers L. O. Gardner and Ormond Somerville of Theta; reporter of the supreme court, L. H. Lee, Theta; attorney general, J. Q. Smith, Theta; secretary of state, Wm. P. Cobb, Theta; state historian, Dr. Thos. M. Owen, Theta; state commission of education, A. H. Carmichael, Theta; Judge Charles Edward McCall, chief examiner, public accounts. Brother Roy R. Cox, Beta Theta, is chief clerk to the secretary of state.

The State Memorial Commission which is just now much in the public eye in Alabama, consists of Brothers Thos. M. Owen, J. Q. Smith, Borden Burr, all of Theta, and Brother Henry J. Willingham of Iota. On the Board of Trustees of the University of Alabama are Brothers J. K. Dixon, Thos. M. Stevens, Judge H. B. Foster, Gen. R. E. Steiner and Hubert T. Davis, all of Theta. Brother H. B. Steagall, Theta, is a member of congress and Brother Henry D. Clayton, Theta, is the United States judge for the District of Alabama. This is a very incomplete list of the Sigma Nus in public service in Alabama, but as we were confined to only three days in the

state, we did not have time to record them all.

* * *

Birmingham, the steel city of the South, is always a revelation to the one who sees it for the first time. Lying in a beautiful valley with the mountains on one side consisting of solid iron ore and the mountains on the opposite side containing inexhaustible supplies of coal, the city still has not forgotten to plan for beauty. The foot hills are studded with beautiful homes located along mountain drives which are so arranged as to make the whole residence district seem a part of a park system.

In front of the Regent's Home

Left to right: General Secretary Edwin W. Dunlavy; Grand Treasurer Samuel F. Pegues; Grand Counselor Walter E. Myers; Regent and Mrs. Borden H. Burr.

One of the most beautiful of these homes is that of Regent Burr on Chestnut Hill. This home was with true southern hospitality thrown open for the week of March 18 to the members of the High Council and the General Officers, who were entertained there.

The many pleasant memories connected with our service to Sigma Nu will always be enriched by the thought of the days spent in the home of Regent and Mrs. Burr.

In connection with the High Council meeting, Brother Manly R. Joiner issued a call for the active and Alumni Brothers of the Third Di-

vision. A division association was organized, we understand, for the first time. A conference was held with the same reports from this Division as elsewhere, namely, all Chapters in better condition than previous to the war. All the Chapters were represented.

In the evening there was a banquet at the Southern Club. Sigma Nus came pouring in from everywhere. Old Knights known to us by name for years came in to keep fresh the springs of youth in their own hearts and to assist in making Sigma Nu more meaningful to the hearts of younger Brothers. The account of this convention and banquet will be

Old Mantel in Iota Chapter House
Howard College

Carved with initials of Sigma Nus for forty years

found elsewhere, but we shall not forget Brother Hill Ferguson's hobby "to stick to old college associations," nor Brother Thos. Owen's recollections of the third Grand Chapter at Birmingham in 1887, nor the clasp of Brother Walter Murphy's hand.

* * *

Iota Chapter, at Howard College, is within the city limits of Birmingham. This Chapter was founded in 1879 and has occupied the same house on the college campus throughout the Chapter's existence. Though the House has been remodeled, there still remains one relic of the past—the old mantle, over a fire-place in

f the rooms upstairs, carved the names of the Knights of days.

. . .

drove overland from Birmingham to Tuscaloosa with Regent Burr. Other Burr drives the Demostate machine of Alabama the

Theta Chapter House
University of Alabama

drives his Franklin, we are surprised that there are so many Nus in and around the capi-

Boys of Theta Chapter

From left to right: Grand Treasurer F. Pegues, Regent Borden H. Burr, General Secretary Edwin W. Dunlavy.

University of Alabama was founded in 1820 and Theta Chapter 4. Many historic incidents and personalities of our Fraternity are associated with this old campus. Not far away is the old southern mansion which was the boyhood home of Brother

Sam Pegues. We took a snap-shot of the home, but were not able to inveigle the Grand Treasurer within range of the camera.

Theta has all that should and does make a great Chapter. She has history, a large and influential alumni, a beautiful home and last, but not least, a large Chapter of a fine type of southern boys who will themselves make history.

. . .

From Birmingham we were called to Atlanta. Brother Inspector Palmour, Kappa, met us at the train. Also Brother Herman J. Gaertner, Beta Eeta No. 1, who is head of the department of mathematics in Oglethorpe University.

After a drive over the beautiful city of Atlanta, we stopped at the Ansley Hotel for lunch with the Atlanta Alumni Chapter. Men from the active Chapters had been called in and a conference was held over some very important matters concerning the Second Division.

After luncheon Brothers Gaertner, Palmour and W. L. Kemp, Mu, took us out to Oglethorpe and then on out to the new campus of Emory, which is being removed to Atlanta. This is one of the most beautiful college locations we have ever seen. The Chandler millions are being poured into the erection of a large number of beautiful buildings, all designed in harmony with one another and all built of Georgia marble. Seven of these have been completed.

Xi Chapter will be transferred to her new location at the opening of school next fall. The close relation to the old Emory will insure for her a great history with the new and larger institution.

Sure, It's "Our" Fraternity

These items of interest have just come to my attention and I hasten to pass them on, trusting that they may not be too late for the forthcoming "Delta." This may not all be news to you, but nevertheless it may help to complete "records." I say "our" because I feel that way about it.

GEORGE A. CHANDLER, Gamma Lambda.

Secretary's Table

Delta Subscription Contest

The subscription list of the Delta has constantly increased during the war. This has been a pleasant surprise to the General Office and the High Council. We know of no other fraternity magazine which has attempted to appear at its regular dates of issue through the last two years.

The High Council in recent session at Birmingham has authorized two prizes for the Chapters showing largest increase in Delta subscriptions for the fiscal year beginning July 1, 1919. One of these prizes will be given to the Chapter having largest increase in actual numbers and one for the largest increase in percentage. This will give each Chapter, large or small, a chance at the prize. Note announcement elsewhere and look for details in October Delta.

Scholarship

The scholarship tables which we published regularly have become impossible during the war. Sigma Chapter at Vanderbilt writes: "The faculty has issued no such data. However, we have no reason to believe that we are not leading the list as we have done for the last four years."

In the above department we have reprinted this month a part of a very interesting report on fraternity scholarship by President Schurman of Cornell. We believe that the emphasis on scholarship which was begun by the Inter-Fraternity Conference previous to the war will be taken up by the Fraternities now with still greater interest.

The recent High Council meeting took action in this regard for Sigma

Nu and directed the General Secretary to make certain preliminary surveys and to consult our college presidents looking to the possibilities of installing tutors in each Chapter House after the system of the English universities.

In the meantime we would again suggest that the college faculties make it easier to get the scholarship records of our Chapters. Our desire in procuring these is to aid the colleges as well as our Chapters.

Our Attitude Toward Pledge Lifting

There is called to our personal attention an average of about one Chapter each year which pleads ignorance as to the attitude of Sigma Nu toward pledge lifting.

The Inter-Fraternity Conference rule is the one we stand by for ourselves as well as others. All pledge lifting is absolutely forbidden.

If a pledge of another Fraternity finds himself without proper precautions in the wrong crowd and severs the relation on his own responsibility, no Chapter of Sigma Nu can approach that man for six months. When a man has once been initiated into another general college Fraternity, he can never become a Sigma Nu under any circumstances, no matter what the reason or excuse may be.

Alumni Debts

Now that the war clouds have cleared away, we are resuming our campaign for the collection of Alumni debts. The General Office intends to wipe out all Alumni indebtedness to our Chapters and of course from now on the Chapters will

mit the active men to incur bills. All our Chapters have requested to send in a check list of Alumni debts to date. If any other Chapter which has experience related by one of our Chapters, the Commander immediately write to the General about the circumstances. We will not permit delinquent to "overlook" this matter any

we have been unable to get a report from any of our delinquent Chapters although I have written

payment of regular bills in advance should be the policy of every Chapter. It is just as easy for our men to pay the first of every month for the current month as for the month preceding and it makes a difference in the financial management of the Chapter and in the fact that the Chapter must incur outside expenses.

Chapter Commander and General in formulating the financial policy of their Chapter, should feel free to write the General and their Inspector for advice and assistance.

The Alumnus Treasurer

We wish to call attention to an article printed elsewhere in this issue on the above subject. We believe the Alumnus Treasurer offers the best solution to the financial problems of the local Chapter.

Criticism has been often made of the present accounting system as a complex for the active men. We write to forecast any report to be made by the committee now investigating the subject, but wish to say that the accounting system which in little or no work will likewise have no value either to the local Chapter or to the General Office.

Some noteworthy examples of personal responsibility in the busi-

ness of the active Chapters have developed during the war. Delta Gamma Chapter has been assisted and supervised by a Delta Gamma Alumni Club. Beta Nu has elected an Alumnus Treasurer who supervises the finances of the active Chapter, but does not, we understand, actually keep the books. Several of our Chapters, including Beta Rho and Delta Nu, placed all business affairs of their Houses during the period of the S. A. T. C. in the hands of their respective Property House Associations. Delta Delta enlarged on this by electing an Alumnus as Chapter Treasurer.

Out of all this will come an increasing tendency to elect a young resident Alumnus as active Treasurer, give him compensation for his time and allow him to supervise all the business affairs of the active Chapter.

Annual Initiation Ceremonies

We cannot commend too heartily the growing custom of having special initiations in connection with the annual banquets of our larger Alumni Chapters. This has been the custom at Chicago and at Cleveland for some years. Many of the older Brothers who drift into these annual banquets have never seen the full exemplification of the beautiful Bennett Ritual. They are always surprised and delighted when this ceremony is performed with careful preparation and many times as a result these older men are "born again" into Fraternity interest and activity.

Initiation Fees

Occasionally one of our Chapters still "rides for a fall" by an overenthusiasm in pledging and initiating men. It is strictly against our law to initiate any man who cannot or does not pay his initiation fee. The Chapter and not the man personally is held responsible for the initiation fee. See statutes, Chapter V, Sections 6 and 7.

View and Review

Under the title, "Size but What Else," Brother Albert Russell Kneale

"Facing
Facts"

G a m m a T h e t a,
seems to be "seein'
things." Many of

his injunctions to the active Chapters are admirable. They are none the less admirable, indeed, because they have long been a part of the working program of the Fraternity, according to the Law and the Orders in Council—a fact which Brother Kneale does not seem to be aware of.

It is too bad, however, that these injunctions which Brother Kneale seems to think new should be overshadowed and weakened by his heated juggling of other facts—facts, too, which every freshman is now compelled to know before or when he becomes a Brother.

Brother Kneale quite well states that "only good comes from facing facts." That is a splendid statement of a fundamental. (But one must stand on his feet instead of his head when we face facts, or else we will get a distorted view of them.) We are a little confused, therefore, in applying this statement to the author's laconic assertion, "Quite true," to some one's report to Brother Kneale that "We have nearly one hundred Chapters now." The twenty-one Chapters which our roll lacks of the total of one hundred are likely to eclipse in full, to the vision of the active Brothers, the author's injunction that "only good comes from facing facts."

Again, we are confused when we read of that "widespread sentiment that Sigma Nu is far and getting farther from being one of the strong and fine fraternities." They did not seem to feel that way at the recent Inter-Fraternity Conference. We have not quite recovered from the reports and statements made there. Thirty-two fraternities, including certainly some of the "fine and strong," were represented. Of these thirty-two, just *one* had, during the past two years of war conditions, increased the circulation of its magazine, just *one* had issued its magazine at its regular publication dates, just *one* had increased the number of its initiates, just *one* had an auditor's report showing that its cash assets had risen steadily during the war. This *one* was Sigma Nu.

Furthermore, we are perplexed in "facing facts" when we are given the rather startling information that "the weak Chapters of our Society today greatly outnumber the stronger." We had thought that vitality was at least one evidence of strength. The High Council, in recent session, was rejoicing over the strength of all our Chapters which enabled every one of our seventy-nine to come through the war functioning regularly, save two only. What a terrific strain this must have been upon the small minority of the "fine and strong," which, according to Brother Kneale, have gone through this war carrying not only their own burdens, but "loyally and willingly" carrying this burden of "an ever

heavier millstone of weak Chapters." What a heroic task for a Fraternity "far and growing farther from being one of the strong and fine fraternities"! We fear the High Council has been negligent in "giving tribute to whom tribute is due," since it was congratulating *all* of our Chapters instead of *the* few. Well, "only good comes from facing facts."

We are rather surprised to know that in the matter of granting new charters "we have rushed in with insufficient investigation and practically no more than a hurried majority vote—or failure to vote." Still more are we surprised when this is followed with "unless over one-third of the Chapters at large register safely and promptly their definite negative votes, another new Chapter becomes practically a *"fait accompli."*"

In reading the above statement our perplexity reaches the height of confusion. We dare not accuse our Brother of ignorance of our Law (Constitution, Article 6, Section 1, Clause 3—page 17), which requires a three-fourths majority of the Chapters and the unanimous approval of the High Council. To do so would imperil his fundamental contention that "only good comes from facing facts."

Brother Kneale, in stating so positively that "our requirements are lax throughout, and insisting on a minimum of five years' probation for a petitioning body," may not know what has been the rule. We turn to our official records and note that (since the establishment of the General Office four years ago) of the last seven charters granted, the average period of probation has been six

years. Two groups of petitioners had been organized for nine years.

The last four injunctions to the active Chapters are all good. The only perplexing thing to the active Brothers would be that our contributor seems to think them new. Every petition which has gone from the General Office is registered to the Chapters as required by the Law. In the General Secretary's Statement, which appears on the third page of the printed petition, the Chapters are also warned that they must register their votes in returning them to the General Office.

We hereby add our request to that of our contributor that "Size but What Else" should be read before every Chapter. Also that it be followed by the reading of this editorial comment. For "only good comes from facing facts."

. . .

The old adage concerning "many a slip twixt cup and lip," applies equally well to the proof reader and the printer. The cover of the last (March) Delta got by the whole crowd and went forth to the subscribers blazoned forth as March, 1918. We could not call in the printer's devil to say the words for us, and not being professionally free to do it ourselves—well, we almost busted.

Our personal chagrin was all the greater because we believe the Delta is the only college fraternity magazine in America which has held steadily to its publication dates throughout the war. In so far as we know all the other magazines have reduced their size or omitted issues and usually have done both.

The Delta has during the war not only been issued regularly, but has issued several extra numbers, increased the number of pages and also increased its subscription list by more than five hundred.

* * *

We are just now entering a period of American education when the competition among fraternities will be more keen than ever. The time has passed when any local Chapter can hide its light under a bushel, whatever color that light may be.

The announcement of the relative grades of the fraternities is having its inevitable effect. We recommended several men to a good Chapter last fall and all were lost because of the persistent low standing of that Chapter in scholarship. It will take several years of good grades for that Chapter to overcome the negligence of two or three years in succession. Once out of the running it is hard to climb back. College generations pass rapidly, but they have a wonderful way of passing on the single bad incident to the next generation.

We recommended a man to another Chapter. He was given a proposition and refused. When he gave his reason to me for not going to Sigma Nu, I found he had been told by rival fraternities of a regrettable incident

which had occurred six years previously. The other day a Faculty member gave Sigma Nu in his institution a bad name and gave particulars. On investigation I found that the incidents referred to had occurred *fourteen* years ago. This is a case where "For to be honest is nothing, the *Reputation* of it is all."

In the words of our Creed, you are "to guard with jealous care" your Chapter's good name. Its reputation is in your hands not only for the four years of your college course, but also for at least ten years after you are gone.

* * *

We have received many complaints during the war that copies of the Delta have not reached our subscribers who were paid up. We remember only one or two cases of this kind where our mailing system was at fault. The United States mail service has not been as efficient during the war. Usually, however, it is found that the Brother who complains has changed his address anywhere from one to six times, but has never thought to notify the General Office. We sometimes make mistakes, but never have claimed to be a "mind reader," and so cannot be held responsible for keeping up with you unless *you* notify the General Office where you are.

A Good Slogan

Team work can and will save the Fraternity; it is not going to die, to lose a single Chapter, because we can count on every man to do his part with tongue and pen and check book to keep the Fraternity running, to maintain the central organization which is the life of the Chapters as well as to care for the pressing needs of the Chapters.—Delta Upsilon Quarterly.

THE DELTA

We are going to begin next year a Delta Subscription Contest.

Why ought you to read The Delta? A thousand letters to the Editor from Brothers all over the world tell the reasons we need not repeat because you can give them yourself. (Of course a good Sigma Nu is not going to "sponge" his Delta from another Brother.)

With no shouting or urging our subscription list has jumped ten per cent.—500 names this year. Will you come in with us?

To the Chapter whose Alumni show most loyalty to The Delta will belong the prize.

Your subscription will be credited to your Chapter whether sent in by yourself or by them.

Chapter officers are requested to get out and work up this campaign among their Alumni. Which Chapter can place itself at the head of our ranks?

Two prizes will be offered—one for actual numbers and one for largest percentage. This will give fair show to all—old and new Chapters.

Chapter Letters

Prize Award

The choice of winners this time was more difficult than ever. There has never been an issue when the Reporters did such good work in sending in Alumni news as well as Chapter news. The Chapter letters were, most of them, in excellent form, too. It really looks as if the Reporters were observing Delta style in form with Sigma Nu spirit.

We have been compelled to give two prizes for the May Chapter letters instead of one as heretofore. The winners were Sigma and Gamma Epsilon. Brother Lyle Kilvington has captured "Dere Bill," which is E. Streater's latest, and Brother Clifton J. Hopf has rounded out his fourth year as Reporter by roping Zane Grey's "Wildfire."

For meritable mention we will cite Brother LeRoy E. Marlowe of Beta Iota and Brother Carl W. Rothert of Gamma Rho. Brother Marlowe was really up to his usual form and Brother Rothert outdid every other reporter in quantity, as well as almost equaling the prize winners in quality.

We must not pass this issue without a word about our good friend, Brother John D. Cofer, the lieutenant, who is taking care of Epsilon's publicity interests. Though we slice and slash our other Chapter letters, we have to leave his alone for we dare not meddle with an entertainer like him. But you other Reporters please leave out all talk about the weather and the spring fever, likewise the most successful rushing season of your history and initiating the best men in your college. Even when Brother Cofer hits the bromide trail, he makes his own tracks.

For honorable mention there are eight deserving candidates: Theta, Iota, Beta Mu, Beta Sigma, Gamma Lambda, Delta Beta, Delta Theta, and Delta Nu. These reporters wrote excellent letters, but it takes a lot of extra work to beat our leading journalists.

To the Alumni

The Editor is proud of the record which the Chapter reporters have made in this number. Only two Chapters are unrepresented. The delinquents are Beta Phi, at Tulane, and Gamma Upsilon, at the University of Arkansas. We trust that their Alumni will wake somebody up down there.

UNIVERSITY OF VIRGINIA

Beta Chapter

The second term of the University of Virginia is now drawing to a close with the winter examinations starting this week. Beta Chapter is hard at work burning the midnight oil trying to do her best on the examinations and keep up her scholastic records.

Brother Mewbourne unfortunately caught the mumps a few days ago and is now in the hospital. We hope, however, that he will be out in a day or so.

The university basketball team has finished its season with honors, winning eleven games out of fifteen. Brother Jennings was the captain of the team and such a good record was due largely in part to his good leadership.

We have quite a few men out for baseball this year. Brothers Fenwick, O'Dell and Hout are out for the first year team and Brother Ralphis out for the varsity. They will, in all probability, make the teams.

A cup was offered a few years ago to the fraternity which would win the championship of the college for three years. There were no games played last year on account of the war, but this year the games will be played as usual and we are going out with the determination to win the cup.

As soon as the examinations are over the Hopkins Society is going to start a campaign for funds towards building the new Chapter House.

Brother Sparr received his degree in medicine this week and has gone to Philadelphia to take training as an intern at one of the hospitals there. The Chapter will feel his loss as his influence has been the guiding spirit for a good while.

Brother Hirst, who is in the Medical Corps of the army paid us a visit a few days ago. He is now stationed in the city of New York.

W. P. BRAMHAM, Reporter.

BETHANY COLLEGE

Epsilon Chapter

Returning from a business trip a few weeks ago, President Cramblet informed the student body that the endowment of the college has been increased \$500,000, and two chairs added to the faculty in the last three months. The college is at this time on a better standing than ever before, both as to finances and personnel of students. The new Irvin Gymnasium has been opened. It is considered the best in the state; the swimming pool is especially fine.

The activities of the student body have likewise increased. A plan has been adopted for partial self-government, the head of the Students' Association being the Student Council. It is to have charge of stunt nights, class fights, social events and cases of minor discipline. Brothers Perry and Robeson were members of the committee which formed the constitution for the Association.

As conditions return and more to normal, Epsilon resumes her old place of leadership. Brother Perry is the basketball star of the season. Brother Walker is editor of the "Collegian" and President of the Junior Class. Brother Perry is vice-president of the same class. Brother Oldaker is leader of the College Band. Brothers Robeson, Bross Oldaker and Pledge Anderson are valued members of the glee club. Brother Walker is football manager for next season, while Brother Lumpkin will lead the cheers for baseball and football.

We had a great time when we initiated our pledges this year. On February 22 twenty-one old men swarmed up the hill—everyone a Sig of which to be proud. They infused a spirit that did us all good, the old as well as the new, Alumnus and active man. The following put away childish things and became men: Byron J. McCracken, Byron Chapman, Ernest M. Reinhold, Jr., William W. Beadling, Sheridan Loyd, and Arch L. Oldaker. The Chapter has also been increased lately by the return of Brothers J. R. Lumpkin and C. N. Chapman, recently discharged. Lieutenant John W. Chapman will enter the next term. The Chapter feels greatly enriched by the addition of these men to its roll. Interest in things of Sigma Nu is intense; great things may be expected in the next year or so with such loyal Sigs on the alert.

Brothers U. G. Palmer, Jr., Chas. E. Hoover, A. H. Hunt, and E. R. Porterfield are frequent visitors. We certainly have enjoyed the visits of the Brothers who

are returning from France, Brothers Brown and Bookes having headed for Epsilon first of all on returning.

Financially, the Chapter is in fine standing. The books show a surplus at the present time. But our expenses for the next few months will be heavy, it being necessary to repair the House considerably. We are papering the downstairs and refurnishing the kitchen. All the rent from the S. A. T. C. has been applied to the House Fund, and the notes now due will enable us to make a creditable payment this year.

When men return to Epsilon now they will eat in the old dining room. And we are looking for a good many back in June. All those in the S. A. T. C. are especially invited. Things are practically normal. And, as usual, the events of the table are the best.

DEAN E. WALKER, Reporter.

MERCER UNIVERSITY

Eta Chapter

Mercer University has almost recovered from the S. A. T. C. period when the student body practically lost identity. Mercer is offering a new course this year, B. S. C., and the School of Commerce is booming under the capable management of Dean Holder.

The Literary Societies are recovering their identity, which also was lost during the S. A. T. C. Brother H. L. Wachman has been wonderfully successful in the preliminary debates, with the powers of persuasion and fiery oratory and has been designated as one of the four champion debaters of Mercer University, who are to meet the debaters from some of the leading southern colleges and universities.

The Mercer Glee Club and Mandolin Club is certainly a winner this year with Brother L. M. Read, with his soulful violin, as one of the leaders. Brother Read was formerly with the Worcester, Mass., Symphony Orchestra.

Mercer has been lucky this year in securing Coach Billy Hunter, who has baseball started with a bang. Sigma Nu, as is quite the usual thing, is to be well represented on this year's varsity. Brother Charles Morgan, Mercer's old stand-by and all-southern star catcher, is back this year and has been elected captain. Brother Morgan is one of those ball players to whom baseball is a genius and a natural gift, and Eta feels justly proud of him. Another old-time star back this year is Brother L. D. Henderson. Brother Henderson was Mercer's second baseman last year and is a steady, consistent player and a student of the game. The keystone cushion will be entirely safe under his guardianship.

Eta has in Brother E. R. Lainer of Norman Park, a mighty promising young

pitcher, who shows promise of stepping right in to the shoes of Brother "Breezy" Winn and with Brother Morgan to complete, Mercer's Sigma Nu battery. Brother Copeland and Brother Ed Morgan are showing up fine in the outfield and are a sure bet for the Varsity. With this stellar quintet on the field and Brother C. E. Baker on the Athletic Council and Brother Charles Park, Assistant Manager, Eta bids fair to now eclipse her former record in athletics.

Eta is planning to have one of the biggest receptions she has ever given this year. Most of the fellows have been either in the army or navy and with that "60 bones, bonus," our finances should and will register high, with worlds of spirit and pep we are out to complete a banner year.

W. H. TRIPP, Reporter.

UNIVERSITY OF ALABAMA

Theta Chapter

With the passing of the S. A. T. C. and its accompanying evils the University ceased to be a cantonment and has become a school again, we are very glad to say. The disastrous half year spent under the military regime discouraged a great number of boys from returning to school this year. Among them were nine of our men whom we are trying, through close correspondence, to persuade to return in September.

However their loss was partly compensated by the return of Brothers Carmichael, Hodo, McCall, Horn and Blue from camps and officer's training schools. Brother R. H. Hartsheld also returned from six months' service in the navy. But on February 2d Harry was killed in a room at the house by a .22 bullet from his rifle.

In the student body renewed interest and enthusiasm came with the passing of war-time restrictions and military regulations. It is a custom for the inter-fraternity clubs to elect their new men, the "goats," during the mid-term dances (January 26 to 29) and Theta is well represented. Brother Doster made Key-Ice; Brother Blue is a Key-Ice and Parasite and Brother McCall is a new man in the Parasites and Skulls. In athletics, too, the University is forging ahead. This is one of the schools chosen by the Southeastern department of the War Y. M. C. A. to have mass athletics and this program has made a real hit. The fraternities have been organized into two leagues, the winners of each playing for the championship on "A day" and receiving a silver loving cup for their work. The A. T. O.'s and Kappa Sigmas lead their respective leagues at present in basketball. Theta has no cage stars, but we have made a good showing, having won and lost in the two games we have played. We hope to do

better in baseball in which we won the championship last year. Brothers Farvis and Carmichael are Varsity candidates and Brother Doster is running for manager. There have been few teams in any sport at Alabama on which Sigma Nu was not represented and we mean to continue the custom

Reporter.

HOWARD COLLEGE

Iota Chapter

Iota Chapter was fortunate in having as its guests the members of the Grand Council which was in session in Birmingham, March 18th and 19th. Brothers W. F. Yarborough and Robert F. Carlisle represented our Chapter at the organization of the Third District Association. The entire personnel of the Chapter was present at the banquet at the Southern Club Wednesday evening.

Iota continues to hold its own in all forms of college activities. The result of the recent examinations has not been totalled yet, but it is safe to say that we will be near the top when the returns are in. Brothers Crew and Griffin, recently discharged from the Army are both with us. Both are Varsity baseball men. On the Glee Club we have Brothers J. M. Yarborough, Business Manager; Fred R. Smith, Secretary, and W. F. Yarborough, Sims, Colley and Herren.

Herren and Smith will represent Sigma Nu in the inter-fraternity tennis tournament and also in the College tournament this spring.

We were pleased to have as our recent guests, Brothers John Wesley Williams, Gamma Lambda; G. Petesch, Gamma Mu; J. M. Baarcke and Lantrum, Beta Theta.

Brother R. A. Parsons, '18, recently discharged from the Chemical Warfare Service was with us several days.

Several new faces have been welcomed to the fold. Brothers Clyde Hill, Sulligent, Ala.; Stover Perryman, Oak Hill, Ala.; R. B. Sims, Vernon, Ala.; Clarence Cox, Birmingham, Ala., are new initiates.

We are planning for great times on our annual house party about June 1st, which is to be at Ingram's Wells. This is our greatest social event of the vacation and one that we always look forward to.

The Chapter has under consideration for extensive improvements on the House. Finances are good, majority of fellows will be back next year. We lose Brother W. F. Yarborough through graduation.

R. J. BELL, Reporter.

THE GEORGIA AGRICULTURAL
COLLEGE

Kappa Chapter

let us get the names of our four members before the Fraternity: they W. Cornog, Lavonia, Ga.; F. L. McRae, Ga.; L. J. Christopher, Dah-Ga., and G. E. Meaders, Dahlonega, Ga. Nunnally was forced to withdraw from college owing to physical dis-

uesday evening, March 11th, a joint was held at the Hotel by the and Kappa, being the occasion of a banquet and a celebration of the Thirty-eighth Anniversary. Thirty and the table while the toasts were read to by all the members present. The singing which added to the pleasure of the evening was the presence of the Sigma Nu.

At the last term of our college year is drawing to a close, Kappa can look back on the year as one very profitable and in this, our last Chapter letter, it is not out of order to give a summary of the year's work.

The basketball season, just closed, was one of the best teams since winning only one game the entire year. Brothers Anderson, Emmitt and Meaders were our "D" letter and very likely will be our captain-elect for 1920. The basketball team was almost a Sigma Nu. Brothers Anderson, Brown, Cornmitt and Nunnally were awarded letters, and only on account of serious illness DeLoach was deprived of this. Anderson and DeLoach will lead us on the track team. Baseball is going at a fast "clip." Brother Brown, 1918 Varsity catcher, is manager and proves to be one of the best in the state. Hogan, one of last year's, is expected to win a berth in Varsity. DeLoach and Emmitt are on the squad.

She is still following her perfect record in scholarship. We were awarded the prize Faculty last year and are sure to win the honors again this year and it our fifth straight year among the fraternities and five locals.

Simply and not boastfully we are justly proud of the records attained by our Fraternity. Brothers Vickery has capped his college career by being elected chief of the Cyclops, our college paper. Also Treasurer of the Senior Class. Brother Porter is Business Manager of the paper, while Emmitt is Athletic Editor. Twenty active members all working for the welfare of Kappa and honor of the old Fraternity, we boast of a good season.

P. H. EMMITT, Reporter.

WASHINGTON AND LEE UNIVERSITY

Lambda Chapter

Due to the term examinations looming large before us, the students at Washington and Lee are burning the mid-night oil and are showing quite an intensified interest in scholastic work. Social activities are set aside and most all other interests are at a standstill.

During the past week inter-Fraternity basketball games have been played and these have been a source of much amusement to the entire school. Lambda did not make a very good showing in this feat. She was defeated in the first game and along with the other unfortunate ones was eliminated from the contest. The contestants for the championship of the school are the Kappa Alphas and the Alpha Chi Rho.

Our Chapter is holding its own in all the student activities this year. Besides those whom I have mentioned in my previous letters that have won notable mention are: Brothers J. O. Hill, who has made the "13" Club; J. A. Miller has been elected vice-president of the Senior Class and W. F. Barron, who has been elected manager of baseball.

Brother Barron is one of the best men in Washington and Lee. He is getting his A. B. degree in three years, has made practically all the honorary clubs in school, and is business manager of the Calyx. Not only does Brother Barron deserve particular mention for his work in college activities, he is an earnest and energetic worker for Sigma Nu, and is now Commander of the Chapter.

Brother H. E. Moran, of Wyndal, W. Va., who was in school in 1914, is now visiting us. He has come back to help the "Generals" get started for a successful season of baseball. "Harry is the best pitcher that ever played on W. & L.'s team," says Coach Rafferty.

FLOYD D. COMPTON, Reporter.

UNIVERSITY OF GEORGIA

Mu Chapter

Since the March Chapter letter Mu Chapter has increased its number to 24 by managing to pledge and initiate 8 of the best Freshmen in College, namely, B. N. Styles, C. L. Hicks and J. H. Duggan, of Dublin, Ga.; J. L. Francis, of Conyers, Ga.; J. H. Simms, of Washington, Ga.; L. A. Gaines, of Hepzabah, Ga.; J. M. Powell, of Moultrie, Ga., and L. E. Talbert, of Villa Rica, Ga.

Our scholastic standing this year has been better than that of previous years, Sigma Nu standing second or third of the thirteen fraternities in College.

We were very pleasantly surprised lately when Brother D. P. Whelchel blew in from Camp Grant, Ill., where he was recently discharged from the service. Brother Whelchel is the only Senior in the Chapter this year and he was honored by being made Lieutenant-Colonel of the Cadet Corps, this being the highest ranking officer in the Cadet Corps. Brother Whelchel was voted the most popular man in College last year and also voted the best soldier this year. Brother Whelchel is also one of the College Cheer leaders.

Baseball season opened at the University on March 2d and the prospects for a pennant-winning team are very bright. Brother Frank Taylor is a very promising candidate for the pitching staff.

"Little Commencement" begins at the University April 3d, and every one expects to see four nights and days of well-planned and unusual social fetes.

Mu Chapter expects in the near future to dedicate to the memory of the members of Mu who died in the service of their country an honor roll in the design of a bronze tablet with the names of every member of the Chapter who lost their lives while in the Chapter who lost his life while in the service of their country stamped on it.

W. B. RICE, JR., Reporter.

UNIVERSITY OF KANSAS

Nu Chapter

The University of Kansas is falling into its old time swing and, with the coming of spring weather, student life is taking on a much brighter aspect. The old time vivacity and enthusiasm is swelling up and Nu Chapter, though small now, numbering twenty, is no exception.

The close of the second three-month term of the school year is now but a week off and impending quizzes are the one dark cloud on the horizon.

We expect several of our old men back next quarter. Lieutenant Joe Daniels, recently discharged from the R. O. T. C. at Camp Grant; Lieutenant James Bigelow, who has been in the Aviation Corps; Ted Hudson, just out of the Marine Corps, and Frank Vermillion and R. Brown Cunningham, who left at the beginning of this quarter.

Nu Chapter is planning an Alumni-Rush Dance for April 26th and an Alumni Smoker the day following. A great number of our Alumni have expressed their intention of being here and we are expecting each of them to bring with him some very promising rushing material. It is our intention to make this an annual affair and we believe it will be a great success.

We have added another to our list of pledges, Cooper MacMurray, the son of Professor MacMurray, a professor here at the University and an Alumnus of Nu Chapter of whom we are justly proud.

Word has just been received that Blondie Jones and Tom Crawford are in New York, just returned from France.

Lieutenant Dick Williams, now discharged from the army, is living in Lawrence with his wife. He has a responsible Position at Watkin's National Bank and takes an active interest in Nu Chapter.

We are planning great things and dreaming great dreams for next year as, no doubt, are all the Chapters. It seems that this reaction from the burden of the war just brought to a close is gathering in an ever-rising tide of enthusiasm and activity.

DWIGHT M. SMITH, Reporter.

EMORY COLLEGE

Xi Chapter

The past eighty-two years have witnessed Emory gradually disturbing the peace of Oxford Grove, and disseminating throughout the entire Southland her spirit of generosity and fairness. The Civil War saw her open her buildings as hospitals for the wounded and each succeeding year has seen her implanting into Southern manhood the lofty ideals of Americanism, continually graduating men who have been towering successes in national life. The past few years have seen her imbued with new life, the campus has become noisier, her buildings crowded, and now outgrown, and she, no longer content to restrict the numbers who wish to receive Emory training and Emory ideals, is leaving her outgrown shell and moving to her large and well-equipped plant in Atlanta.

A thrill of enthusiasm swept over the student body recently when it was announced that the Treasurer was now able to make reservations for the new Atlanta dormitories. The boys are equally enthusiastic about the new laboratories and class rooms which, it is rumored, are equipped with cushioned chairs and every convenience which would help to complete educational utopia.

The Y. M. C. A. has recently been doing great work for the boys. Free picture shows are given twice a week and in addition to this a Y. M. C. A. room is being fitted out in Seney Hall.

There has been much agitation recently over our present form of student government. The professional departments already have a form of student government mapped out for next year, which will give the School of Liberal Arts an equality with the other departments. Realizing the im-

portance of the Liberal Arts plans are now being perfected which will give it the pre-dominance to which it is rightfully entitled. The Honor System is to be the dominating feature.

The Glee Club will begin its series of performances in a week or two, about the last of March. We are all looking forward to its opening performance and to the record it is to make, confident that it will outstrip its last year's glory.

The past few months have been busy ones for every member of the Chapter. We have been studying hard and always keeping on the alert for the good and betterment of Xi.

We have recently initiated in due form two new men, Brother George Eubanks, of Atlanta, and Brother Pierce King, of Covington, Ga.

The series of Fraternity Reception has already begun. We are planning to give ours on May 3d. We will be glad to have any visiting Brother who can be present.

We are in better financial condition now than we have been this year. Our Chapter had the burden of an old debt upon it at the beginning of the school year, but the brothers have manfully put their shoulders to the wheel and have succeeded in paying off all the outstanding debts, and now have a good little sum in the bank. Our prospects for next year are good, but we need very much the co-operation of our Alumni in order to begin a Chapter in Atlanta properly in the Fall.

We have seven splendid pledges in the "Prep" department and are certain of the return of at least ten old men next year. We are, so far as we know, the only fraternity that has a Chapter house in view for next year. We are relying strongly on our Atlanta Alumni to help us get started off with a rush.

We are glad to record the visit of Brother Bond Almand, an Atlanta lawyer, who has recently received his discharge from the army. Brother Almand received a commission as Second Lieutenant at Ft. McPherson, and was later sent to France where he was made First Lieutenant. He saw service on practically all the important fronts of the war. He entertained the brothers for quiet a while with his stories of oversea life. He stated that there were a great number of Sigs over there and that nothing gave him more pleasure than to meet them.

We regret to announce the withdrawal from College of Brother Sewell Dixon on account of his health. He was one of our old men and had been an important factor in getting the Chapter started at the first of the year.

The following Brothers have pledged to the Phi Chi Medical Fraternity at Emory University: Jeffcoat, Eubanks, Willis and Wynne.

B. K. HARNED, Reporter.

LEHIGH UNIVERSITY

Pi Chapter

Lehigh University as a whole has been back on its pre-war basis since the Christmas holidays and Pi is running along in fine shape.

Brother J. M. Kline returned to us at the beginning of the second term after having been discharged from the service. Pi is proud of the fact that no Brothers were lost after the mid-year examinations, which only a few of the fraternities at Lehigh can boast of.

During the last week in January pledges H. Liveright, C. O. Kennedy and G. O'Keefe were initiated. J. H. Heim has been pledged and we have several other prospects in view.

After the mid-years Pi gave a formal dance and banquet which was the most successful and enjoyable event given at Lehigh by any fraternity in years. At the banquet the engagement of Brother W. J. Knerr to Miss Rheba Fahs was announced and I am sure all Brothers will join us in our wishes for their health and happiness.

Upon the organization of the Freshman Class after Christmas, Brother Maxwell Glen was elected president and Brother A. R. Little was elected Class Historian. This surely is a prominent start for our new Brothers, considering the fact that there are 300 men in the Freshman Class.

Brother R. B. Dowd, whom we were depending upon to be the sensation of the year in baseball, has left college to join the Detroit Americans.

The first week in March brought forth the baseball candidates. Brothers Kline, Glen, O'Keefe and Pledge Kopf are representing Pi.

The need of furniture and general repairs in our house, which the S. A. T. C. left in rather poor condition, compared to its state before, has led Brother Schuler to start a fund among the members. The fund seems to be endorsed by all, and with the hearty co-operation of our Alumni, when called upon to aid us, we expect to have the finest House at Lehigh. We only need the furniture and repairs to do this, because excluding those setbacks our House is unequaled in all respects.

MAXWELL GLEN, Reporter.

UNIVERSITY OF MISSOURI

Rho Chapter

With the newly adopted three-term plan operative at Missouri, the second semester of school ends April 18th. Both school and fraternity seem to be profiting by it. In the case of each there is an atmosphere of less play and more work.

We hope to have about twelve Sigma Nus in school this summer, but at the present Rho Chapter is busy adapting herself to what can be truly said to be peace conditions. Financially and in other ways we are normal again as we were before the war.

Brother O'Bryen is practically sure of a berth on the baseball team. Paul Cook is on the track squad and Lee Schneitter will be a strong contender for a place on the tennis team.

In the Cadet Corps, Ben Shore and Walter Garth are Lieutenants. Our pool team, composed of Ralph Gravely and Junior Summers, finished second in the Pan-Hellenic tournament and have challenged the winners for the cup.

In politics, Roland O'Bryen was elected president of the Sophomore Academics. Leslie Bradford is vice-president of the Junior Class. Joe Black is running for student president and we expect him to win out.

Brother Schneitter is on the Student Council and Brother Gravely is on the Student Senate. Brother Gravely is also president of the Board of Directors of the Evening Missourian, a daily newspaper put out by the School of Journalism, as well as being the champion checker player of the University.

WILLIAM LESLIE BRADFORD,
Reporter.

VANDERBILT UNIVERSITY

Sigma Chapter

Well, we have recovered from the war—and the S. A. T. C. Vanderbilt seems like regular old times again, back on a normal peace basis. Of course we all expected a period of hard times, but the greatest problem, that of attendance, vanished at the opening of school for the second term. Although the Junior and Senior Classes are naturally very small, their depletion is more than compensated by the very heavy enrollment in the Freshman Class, the largest in the history of the University.

Sigma has her share in the prosperity. We are in one of the most comfortable, convenient and attractive houses we have ever had. Our Chapter Roll has twenty-eight names, including four pledges, and twelve

men live in the house. Instead of using the second floor for bedrooms, as heretofore, we have converted the third floor, which is one large room, into a dormitory. For the first time we are running a table. We didn't eat much during the first month, but things have improved now that we are past the stocking-up period and it promises to be a great success, thanks to our house manager, Brother Julian J. Thomas.

On February 17th, to celebrate our prosperity, we gave a large formal dance at the Hermitage Hotel. For music we had the famous Stewart's jazz band from Memphis. In as much as this was the first affair of its kind since sometime before the war, you can imagine with what pleasure it was received.

In the Vanderbilt Glee Club, which has a membership of twenty-one, Sigma Nu is represented by eleven men. Brother George Owen is both soloist and president of the club. On the Varsity basketball team we have one man, Brother Julian J. Thomas, who plays guard. Brothers Battey B. Coker and Julian J. Thomas have just been initiated into Kappa Delta Mu, the chemical fraternity.

LYLE G. KILVINGTON, Reporter.

UNIVERSITY OF TEXAS

Upsilon Chapter

Winter has come and gone. Texas has thrown aside the wintry garments of repentance and come forth in the glory of its spring regalia. Out on the hills the mountain laurel is blooming and the prairies to the East are waving with "blue bonnets." The returning soldiers have cast aside their uniforms for their new spring suits, and the girls have appeared in their new hats and rainbow sweaters. And somehow to one who has just returned from the arctic blasts of Camp Grant, it is not such a bad old state after all. For Austin is pretty in the Spring time. The mountain laurel and the "blue bonnets" make the whole surrounding horizon just a blue haze which seems to meet the sky, and yet doesn't meet it—for there is no horizon at Austin this time of year. The earth and sky is just one expanse of blending blue. I don't know what other part of the state the "blue bonnet" may not grow, but there is ample in and about Austin to more than justify it as the state flower. Many, many years ago, when the city of Austin was founded, it is said that General Sam Houston, in looking about for the capital site of the new Republic, went to an old Indian chief and asked him where was the most beautiful spot in the state. And the story goes that they rode for three days, and on the evening of the third, with the sun back of them, the Indian called halt and dismounting, threw his blanket upon the ground on the hill overlooking the valley of the Texas

Colorado. And so here where the river comes down from the hills, cutting a narrow canon in the "fault" and then flows out over the plains to the East, Texas's capital city was built. So the native Texan falls into the easy habit of enjoying the beauty of his state. And out on the campus when the "lazy haze" begins to rise before his eyes and make the air fairly seem to wiggle, he develops a genuine case of Spring fever and as he watches the "co-eds" pass, he begins to understand why Mark Antony made so many moonlight trips down the Nile with that ancient Egyptian "vampire," and why they called Octavius, Augustus. So we crave your indulgence if perchance, when you call for a scholastic report, it should come in "exact report not obtainable." But we who are lost as hopeless "campus buzzards" are putting forth every effort to save the Freshmen from the same fate. Slowly but surely under the influence of the strap, Freshman Brother Jones is becoming imbued with the understanding that he must learn the "Eyes of Texas" and must not be seen sitting on the campus except at certain hours on Fridays and Saturdays. There is something soothingly persuasive in the use of the strap, like the tones of the barber, when he says, "Shall I wash it out, Sir." Neither can be resisted.

"The spirit indeed is willing,
But the flesh is weak."

You'll find that back in your Bible somewhere, or is it Shakespeare—I never can remember—but anyway it is a great truth and deserves to be remembered along with the sayings of Lincoln, Bill Nye and the rest of your "Yankee" philosophers who never came South to enjoy the "niggers" and the "blue bonnets."

But enough! Something of Upsilon. We are thriving fast. I want to beg your pardon for ever being disconsolate. Once last year, I think, I said that all prospects were good for Upsilon. I have said a great many brilliant things in my career as Chapter correspondent, but that easily takes the lead. Upsilon is back again where she has always been. With Brother Brown the mainstay of the Glee Club, Brothers Thomas, Ross and Pace are on the baseball. Perhaps Brother Cofer can again be persuaded to jump the elusive rod. But, if he does not do better than he did last year, he might as well refrain. Still it sounds good in Chapter letters, where you are supposed to follow the outline and remember all of your glories and gloriously forget your shortcomings. I never feel quite so good as when I am writing a Chapter letter, because I am bringing forth the virtues and discounting the defects.

But to pass on down the outline. No marriages or deaths of any consequence.

Socially we are out amongst them real often. And though the more conservative

ones of us are striving vainly to stem the mad tide of the "tickle-toe," shimmy," and things, the young bucks do it with the best. And when the old trombone starts a-moaning and the claret (I mean clarinet—there is nothing like that in Texas now) starts a sighing and a summoning us to the old "stomping grounds," we are there with pumps (patented leather) working. And in the words of our colored brothers, "We Is There."

But I must call the letter to a halt with the mention of our pleasure in welcoming Brother Withers, of Missouri. He is typical Sigma Nu "stuff," and we already feel the charm and benefit of his association.

JOHN D. COFER.

LOUISIANA STATE UNIVERSITY

Phi Chapter

Now that Kaiserism has been completely crushed and the military enthusiasm which recently swept this country has to some extent subsided, the "Old War Skule" is rapidly resuming her former schedule of student activities. Society is again a prominent function in our University life; definite and permanent athletic plans have been adopted and many conscientious athletes are ambitiously training for the contests which will soon be at hand; and the nine fraternities located here have rapidly and solidly reorganized themselves and all are now privileged to enjoy the prosperity and affable Brotherhood which was theirs in the good old ante-bellum days.

Actively participating in Varsity athletics we have Brothers Cavett and Benoit, both occupying regular positions on the Varsity Baseball Club. Fortunately, however, our number of prominent members of the "Varsity Social Club" of the University greatly exceeds two. Phi never fails to be extremely well represented in any social affair staged in the school. Through the kindness of Brother Amiss, we had a most enjoyable evening of entertainment in the form of a little dance attended only by Sigs and pretty co-eds. It was unanimously agreed among all present that this affair given by Brother Amis was a credit to both himself and the Chapter. The most important event in our 1918-19 social career, however, is scheduled to take place May 30th. On that night we will give our annual dance in the University dancing pavilion and are already perfecting plans of operation, hoping to make that night one of the brightest spots in L. S. U. society.

The Daggers, a local inner-Fraternity organization of considerable prominence, have taken in Brothers Cavett and Burden, giving us a total representation of four members in that worthy club, the other two members being Brothers Bouanchaud and Herget.

In the past month we have most heartily welcomed the return to active membership of Brothers Bouanchaud, Second Lieutenant, Infantry, and Brother O'Quinn, Second Lieutenant, Field Artillery. Brother O'Quinn had only recently returned to the states after eight months active service across the water. Both have resumed their duties attendant to the study of law.

The Chapter feels almost flattered upon the many visits paid her by recently graduated Brothers who are now listed among our younger Alumni. Brothers Marston and St. Dizier, graduates of '17, honored us with an extended visit and their presence took our thoughts back to the good old days and caused the Chapter to realize that those days of prosperity and unreserved Brotherhood are again upon us. Brother Helm, whose marriage was reported in the last letter and who is now engaged in the flour business in New Orleans, was another visitor and as usual he left us many valuable suggestions in regard to the more important operations necessary for the upkeep of our interests. Brother Hammond, of Purdue University, who is now a student ensign, has called on us twice in the last month and we feel that his presence on both occasions has been a source of unlimited pleasure to both the Chapter and himself. Brother Hammond was for four years an active member of the Purdue Chapter and states that throughout his naval travels his reception at the various Chapters have always been characterized by an open-hearted and sincere spirit of welcoming Brotherhood, a spirit of which Sigma Nu can well be proud.

Brother Waddill, who did not resume his academic duties after the demobilization of the S. A. T. C., will re-enter the University next month. Brother Pecue has resigned from school and is now managing a large plantation located near Baton Rouge. However, he is with us quite frequently and retains his active membership.

R. L. BENOIT, Reporter.

UNIVERSITY OF NORTH CAROLINA

Psi Chapter

Since the disastrous fire of January 9th, in which our Chapter House was destroyed, we have been devoting our whole efforts toward the perfection of a plan to raise the necessary funds for a new house. Now we are very glad to say that we have our plans carefully mapped out and intend to initiate a vigorous campaign at an early date with the object of successfully carrying through these plans. A Building Committee has been appointed to assist in this work. This committee is composed of the following Brothers: J. S. Ficklen, chairman; Archibald Henderson, treasurer; Walter Murphy, George Stevens, C. R. Emery, F. E. Winslow and J. H. Jones, the Alumni being fully represented as well as the active

Chapter. We have heard from many of our Alumni and they are very much interested in the project. Hence we feel that we are justified in believing that they will respond as willingly to our present needs as they have done in the past.

The College, as a whole, is looking forward to the Easter dances, our biggest social event of the year, with no little anticipation. The opening dance, given by the Junior Order of the Gorgon's Head, is to be led by Brother Ficklen, and Brother Tayloe is assistant leader of the Minotaur dance. We are very pleased by the fact that several of our Alumni declare their intention of returning to the Hill for this occasion.

L. M. JAMES, Reporter.

DEPAUW UNIVERSITY

Beta Beta Chapter

At the beginning of the second term, December 30th, Beta Beta started her Chapter with thirteen men. Thirteen may be an unlucky number to most people, but to us it has proved a very successful number.

The S. A. T. C. has been replaced by the R. O. T. C. The R. O. T. C., however, has taken the same form as that of other courses of study and does not hinder in any way the fraternal organizations. It is meeting with general good favor.

Our standing upon the campus has been one of our greatest aims. Special emphasis has been placed upon scholarship. The committee has worked diligently keeping in touch with the boys and the professors until we feel that the outcome will be much more pleasing to us and to those interested in us than it has been in the past. Brothers Frank Weathers and Paul Jones, a brother of Harold Jones, who was last year's track captain, are showing up well upon the track team. A number of men are also planning to go out for the baseball team.

As the second term ends March 14th, we are finding still much better conditions than expected. Our prospects for next year are good, we will have our old reliable thirteen and fully that many more old men and new pledges. The men that have been pledged since the beginning of the second term are Morris and Eldridge Elliott, Donald Johnson, Tully Jordan and Dwight Pitkin.

OWEN COOK, Reporter.

PURDUE UNIVERSITY

Beta Zeta Chapter

Beta Zeta and Purdue are fast getting back to normal conditions. The House opened up after the Christmas recess in

fine shape and things have been booming ever since. We had eighteen men in the House and one pledge moved in when the House opened up. Since that time we have pledged five men. The pledges were Werner, Wibel, Daugherty, Burton and Pillow. We saw fit to initiate Werner as he was pledged early in the year before the S. A. T. C. was demobilized.

We were exceedingly fortunate in having Brothers McKinley, Heine, Derrick and Woodburn, all old men, back with us upon being discharged from the service. Brothers McKinley and Heine are completing their courses in the University. Brother Derrick is employed in the Extension Department and until the first of March Brother Woodburn was employed in connection with the Highway Commission working out of Purdue. The first of March, however, he took up a position in Galion, O., as assistant engineer of maintenance for the Big Four.

Brothers Bill and Russ Cooley, Benbow and Nussbaum have visited Beta Zeta in the first of March, having been released from service.

We are working hard to have the Hoosier Rally here this year and are in hopes that the Alumni will be back with us.

The State basketball tournament was held here at Purdue this year and afforded ample chance for the spiking of good men. Beta Zeta took advantage of this opportunity and pledged four good men, all of them intending to be with us next fall. Two of the men were good high school athletes and all four of them, in our estimation, will make the right kind of Sigma Nus. The men pledged were Dodge, Matthews and Reater, all three from Indianapolis, and Dockerton from Covington.

Purdue has been chosen as one of the schools to instruct the men taking drill in motorized field artillery. Extensive plans are being made for instructors and equipment. Some six commissioned officers and three non-comms, all of them from the regular army, are in charge. The old Purdue Cadet Corps has been changed into three batteries with equipment necessary for a complete outfit.

The bearing all around the campus is beginning to take on the air of normal times, both socially and in athletics. The Junior Prom formal, Blanket and Cadet "Hops" will be given this year as in formal times. We intend to have a House party this year at the Prom time and keep the ball rolling.

We just received a letter that was forwarded to us by the parents of Pledge McCurdy. McCurdy was with the 603rd Engineers in the Meuse-Argonne drive, the letter being from the Captain of the outfit, complementing and extending his appreciation to his parents for his character "Ex-

cellent," service "Honest and Faithful." Although McCurdy was not with us but half of his Freshman year and could not be initiated, it certainly shows what Beta Zeta is striving for.

We have received letters from several of the Brothers who have been discharged lately or expecting to be, that they will be back with us next year and complete their course. With the pledges we already have, chances for late spiking, and the men that left when the S. A. T. C. was demobilized who are coming back, we have bright prospects for a good and strong Chapter next year.

SMITH L. HODGES, Reporter.

INDIANA UNIVERSITY

Beta Eta Chapter

From a material standpoint I. U. has not changed a great deal from last term, but from a spiritual viewpoint the student body is somewhat "dreamy"—not due to the S. A. T. C.—but dreaminess which is always due to the coming of Spring. Although the R. O. T. C. is in continuation, the campus does not claim a militaristic spirit or attitude. Petticoats being worn mostly by coeds, control the air with a note of "Spirit"—uncharacteristic with the familiar former sound of reveille, retreat and taps.

The student body of the University is in a "peppy" and flourishing condition. At present there have been several meetings held by the Indiana Union towards Student Self Government. The students wish Student Government, which is characteristic of Cornell, Ohio State, Michigan, Chicago and Wisconsin. There seems to be no doubt but what the proposition will be carried out, as the students are enthusiastic over the proposition and the faculty is offering splendid support.

Indiana Union, Booster's Club and other College organizations are working as strenuously for the betterment of I. U. as they did to win the war. Social activities are rapidly reaching their highest mark. Every week and date is filled with a dance. Fraternities and Sororities are also giving many afternoon dinner parties. Mu Beta, a new inter-fraternity with Chapters at Purdue, Michigan, Chicago, Ohio State, Wisconsin and DePauw has been recently installed here. The Fraternity was originally organized at Great Lakes this last summer by inter-fraternity men and has now been carried into the Universities. The Chapter here has twenty-two members, four of whom are members of Beta Eta, Brothers Winslow, Rogers, Mays and Stiver. The organization stands for and promotes high ideals, characteristics of College life.

The men of Beta Eta as usual are getting their share of honors in College life and

activities. Brother Winslow is editor of the *Arbutus*, the College year book. He is also Commander of Mu Beta and Sigma Delta Chi (honorary Journalistic Fraternity), and a member of Phi Delta Phi (honorary Law Fraternity). Brothers Winslow and Mays are members of the Sphinx Club. Brother Sin Clair is president of the Y. M. C. A. Brother Stonecipher is exchange editor of the daily student paper. Brother Stiver is a member of Mu Beta, Gama Eta Gama (honorary Law Fraternity) and Sport Editor of the *Indiana Daily Student*. Brothers Kyle, Ruckelshous, Jones and Kercheval received their numerals and sweaters on the Freshman basketball team. They are in line for the Varsity next year and also football. Five men on Glee Club. Brother Kilpatrick is expected to make All-American halfback on the football team next year. He was picked All-Western half this year. We have four men on the Freshman baseball team this season and Pledge Kennedy, Brother Faust and Brother Reed on the Varsity. Track men have not yet been called. We have good material for this sport.

Financially the Chapter is in good standing. We have made minor improvements on the House and yard. At present a contract is being let for redecoration of the interior of the House. We have only received a portion of the allotted compensation from the government for S. A. T. C. housing and bills, but expect to receive the remainder in the near future.

Brother Faust, who recently returned from the service, entered school yesterday. "Cracker" is a Junior and the last year southpaw twirler on the Varsity. Great things are expected from Faust this Spring. Brother Williams, a Junior in law, also returned yesterday. "Tipp" just returned from France. Brother Williams was a dash man on the Varsity in '16 and is still expected to hold his mark. Brother Ed Pitkin is Student Pastor of the Methodist Church, also assistant instructor in anatomy in the Medical School. Brother Salade who was in school last year and who was forced to quit school on account of sickness, is now a Fraternity jeweler for J. F. Newman. Salade visited I. U. two weeks ago. He will be in school next year. Brother Stewart, who is one of the strongest men I. U. ever turned out and who graduated in law last year, is now associated with Judge Battman, of the Appellate Court. Brother Pitman, now attending the School of Medicine at Indianapolis, visited us last week. Also Brother McFarland of Vincennes paid us a visit. Brother McFarland is district representative of the Portland Cement Company, of Chicago. "Packie," in his travels, "drops" in about every two weeks and enjoys a good meal with the Brothers.

Scholastically, Beta Eta set a standard last term. The greater part of the Chap-

ter did superior work. Out of twenty-five men in the Chapter or approximately 450 hours carried, only five hours were "flunked." That course was in Spanish with a teacher who could not talk English, so all is accountable.

Beta Eta has received several letters from Brother T. Stonecipher. Brother Stonecipher is educational director for the Y. M. C. A. in France. He enjoys his work very much and expects to make it his permanent vocation. We also received a letter from Brother Stevenson. Brother Stevenson is a Lieutenant in the Army of Occupation in Germany and expects to be in I. U. next Fall.

Prospects for a 100 per cent. Chapter next fall are fine. We recently pledged two excellent men and have a line on many good men for next fall.

ALVIN J. STIVER, Reporter.

ALABAMA POLYTECHNIC INSTITUTE

Beta Theta Chapter

Within the past few months Auburn has received very flattering concessions from Washington. One of the three Artillery units of the South is to be stationed on the campus in conjunction with the R. O. T. C. Infantry, which will mean expenditures amounting to \$200,000. The consignment will consist of heavy guns of all types, together with field, trench mortar and machine guns. Two hundred horses have also been allotted. Coupled with this will be an Engineering unit open to all students taking Civil, Electrical or Mining Engineering. Captain Bourlaski of the University of Minnesota has been stationed here to take charge of the corps.

With thirty men answering roll call, Beta Theta is also making rapid strides along all avenues of College activities. During the annual 22nd of February dances our House was turned over to the visiting girls. It goes without saying that the home of Sigma Nu was the center of interest and attraction during the entire week end.

One of the most pleasant features of the past month was Brother Joiner's visit. Brother Joiner, as inspector of this division, is in a position to give us much advice and helpful information.

The inter-fraternity loving cup for scholarship is to be awarded following our next term examinations. Much interest and keen rivalry has been created and Beta Theta is working hard for the coveted goal.

Answering the call for baseball material, Sigma Nu is again stepping up into her usual place among student activities. Brothers Anderson, Whipple, Pennington and Beauchamp are practically assured of a substantial place on the Varsity squad.

mis sharks are also active and we ident of a winning team to compete inter-fraternity championship.

KANSAS STATE AGRICULTURAL COLLEGE

Beta Kappa Chapter

The second semester is well under way and Beta Kappa has settled down to real fraternity work. Two of the men pledged this year, Fred Miller and Jimmy Fallis, have been initiated and by the end of the month the few remaining Freshmen will have been made Brothers. Two pledges, Raymond Plyley and Sylvester Coe, were captured not long ago. Coe, who held a Second Lieutenantcy, was stationed here during the S. A. T. C. and liked the school so well that he returned.

The musical men of the House got together recently and engineered a successful campaign in the Chapter for a new Sonora phonograph. With the view of bettering the entrance of the future Sigma Nus into the Fraternity an initiation team has been chosen, whose duty it will be to memorize the ritual and put the service on in the most effective manner possible. Much help has been received from Alumni who have made gifts of robes, curtains and decorations to be used during the ceremonies.

Social affairs are rapidly returning to their pre-war status. The Chapter has two affairs planned for the near future. One is a formal dinner and theater party to be given the night of the opera presented by the college music department. Two of the Brothers have the leading roles in the opera. The other is the regular Spring dance which will be turned into a formal dance and party at the House.

At a lively student pep meeting held this week in the college auditorium the baseball question was brought up and it was decided to revive the national sport which has lapsed here for the last two or three years. This will give several Beta Kappa men an opportunity to win athletic letters and will also revive the interest in inter-fraternity baseball. A note might be slipped in here announcing that the Kansas Aggies have run away with the Missouri Valley basketball championship without losing a game.

Three of the five men on the college student affairs committee are Sigma Nus on the Faculty. Last semester we didn't hold a high place on the grade list, but we hope that by the time the next report is out Beta Kappa will be breathing the upper air again.

Brother Sallade, Beta Eta, representing J. F. Newman, paid us a visit recently while on his way west.

L. L. HAMILTON, Reporter.

Theta is still in splendid financial. This is due partly to the fine spirit of operation which has pervaded the during the last year.

C. E. REID, Reporter.

MOUNT UNION COLLEGE

Beta Iota Chapter

ities are springing up with new life in Union in real post-bellum fashion. The basketball team had a fine season, went out of eight Ohio Conference losing to the champions by a single point. Debate is progressing and every points to a good year. Social functions in order and every one has his all.

Iota is taking her usual place in the s. Brothers Burkle, Brown, Evans and son were letter men in basketball, Burkle being Captain. On the two teams of four men each, we find six Nus, Brothers Anderson, Morris, Shively, Hipsley and Graeff holding positions. Brother Marlowe is as editor of the Unionian and Brother is on the staff. Brother Rymer is er of the Y. M. C. A. and Brothers Evans and Hipsley are Committee men. Brothers Brown and Smith are f leading parts in the annual play, f the Eight." Brother Brown is it of the Juniors and Pledge Van of the Freshmen. These are the residences open to men. Brother is manager of football for next year ther Sprankle his assistant. Brother is track manager.

EROY E. MARLOWE, Reporter.

UNIVERSITY OF IOWA

Beta Mu Chapter

The opening of the quarter finds us sailing at top speed and in good running order. New men are returning each day, and among them are Brothers Hancher and Hall. Brother Hancher won admission into three honorary organizations, one of which was Phi Beta Kappa, and Brother Hall is president of the Iowa Student Press Association.

Brother Fred Lohman was elected to the football captaincy for the coming year. Lohman is a star man and deserves a great deal of credit for the good work done last Fall by Iowa's team. Brother Kaufman represents us on the basketball team. Brother "Ty Cobb" White stepped out into prominence this year when he was sent to Ames as a "dark horse" on the wrestling team. He threw his opponent twice out of three times, and these two falls were practically the only two that the opponent has had in great while. The Des Moines Register gave Brother White a half column of praise. There is no doubt that "Ty" is gifted with marvelous strength and natural wrestling ability.

Four more men have given their pledge to this chapter. They are Edwin Lighter, of Rolfe; Benjamin N. James, of Clinton, and Glenn and Aubrey Divine, of West Des Moines. The Divine brothers are, perhaps, two of the best high school athletes that Iowa has seen in many years.

During the past week end we have had with us, as guests, Brother Thomas Gabrio, better known as "Noisy Tom," and Brother Frank Charlton. "Ham" Wetherall of Gamma Mu dropped in for a pleasant visit on Friday and found seated before our fireplace, "Buck" Wheat, also of Gamma Mu, who is one of Newman's star men. "Buck" attended a Kappa open house and "got away" with some innocent Freshman stuff by decorating himself with a pledge pin.

Two very successful parties have been given this year, one of which was given at the Chapter House, and the other of which was given at Majestic Hall. Along the social line it might be well to state that Pledge Gilbert Goos is ushering the Freshman party to success and that Pledge "Bob" Block is the vice-president of the Freshman inter-fraternity council. Brother Clyde Charlton has just engineered one of the most successful Sophomore cotillions which has ever been given at S. U. I. Clyde is not only a "social lion," but is an athlete as well, since he won the position of left end on the championship navy football team last Fall.

The annual banquet, following initiation, will be held on the 29th of March. This will be the big "get-together" day for the

Sigma Nus at Iowa, and we urge all who can to attend.

We have just pledged "Tommie" Thomas, who can rag a piano better than "Mr. Jazz himself." Tommie's real name is Harold D. Thomas.

Brother B. N. Hendricks, who is the first Beta Mu man, called on us yesterday noon. Although Brother Hendrick's hair is white, his spirit is still young, and he is still a loyal Sigma Nu.

W. L. FLANAGAN, Reporter.

OHIO STATE UNIVERSITY

Beta Nu Chapter

With the return of many pre-war students the enrollment of the University far exceeds that of last semester. However, the graduating class will be considerably smaller than usual, numbering only about three hundred. Social activities have been revived and the annual Junior Prom will be held this semester for the first time in two years.

The active Chapter now numbers twenty men. Among the older initiates to return to school this semester are: Bill Lewis, Jack Carruthers, Harry Call and Roy Ricklederfer. Five pledges have been initiated this semester. They are Howard Sherman, Columbus; Thomas Bryson, Millersport; Elmore Edwards, Troy; Jefferson Hoshor, Canal Winchester; Albra H. Fessler, Elkland, Pa. Brother Merle Boyd, Gamma Gamma, has entered Ohio state and affiliated with us. As a result of a second rushing season deemed advisable because of the entrance of quite a few Freshmen into the University this semester, we have pledged eight men.

The Beta Nu House Fund is steadily growing. As the House we have at present has been sold the active Chapter is putting forth every effort to at least make first payment on a permanent home.

Recent visitors of the Chapter include: Brothers John Stokes, Earl Tussing, Fritz Collie and Dewight McNabb, Brother Jeffers, Beta Iota, and wife.

LESTER C. NEER, Reporter.

WILLIAM JEWELL COLLEGE

Beta Xi Chapter

We had a good season in basketball—bringing home the championship without a single defeat in conference games. Brothers King and Church and Smith represented Beta Xi on the squad. Brother King was the only new man to be awarded a letter.

The Glee Club has been reorganized. Her Church, who has been an active member for two years, was elected to the post of secretary and treasurer. Five of twenty members are Sigma Nus.

The Scholarship Committee has kept us informed concerning our standing. So it has been very good. Brother J. H. Hart recently spent a day with us. "J" was Commander last year. Since leaving school he has entered the pure bred stock game.

Other F. O. White, '17, gave us a pleasant surprise by stopping in on his way home from the army. He has been in Camp Arthur in the Medical Corps.

TROY M. SMITH, Reporter.

UNIVERSITY OF PENNSYLVANIA

Beta Rho Chapter

We have just reached the close of one of the most successful rushing seasons we have ever had. We initiated thirteen men Thursday, March 8th. We held initiation banquet at one of the largest in Philadelphia, entertaining at the time many Alumni and several visitors from other Chapters.

We have nearly as much on the campus as other fraternities and campus opinion allows us, with perhaps the exception of the Beta. Brother Van Vliet is managing editor of the Pennsylvanian; Brother Stimmons, manager of Crew; Brother Strickland, assistant manager of basketball; Brother Carlson, soon to be manager of the lacrosse team; Brother Frey on the lacrosse team; Brother Mattox on the swimming team; Brother Newett in the Glee Club; Brother Wood with the orchestra; Brother Jewett, overseer, and Brothers Berry and Coburn in the Red and Blue and Punch Bowl societies. Brothers Van Vliet and Sebold in class officerships and every Freshman for some activity.

We are very proud of our Alumni and that if all groups of Alumni were as active in their Fraternity, it would be long before every Chapter would be as active on its respective campus.

Great many of our Chapter Brothers have been and will be returning throughout the next year, and we feel certain that all of them will return to the University. We do, we will doubtless have a Chapter to be envied by every one of the forty on the campus.

Beta Rho wishes all the Chapters the best of good results of their rushing as we had.

JACK L. SEBALD, Reporter.

UNIVERSITY OF VERMONT

Beta Sigma Chapter

The University of Vermont is beginning to get back to its normal status as the different fraternities become settled in their respective Houses and the S. A. T. C. becomes a thing of the past. The College has established a very popular Commons Hall this year to satisfy the appetites of the returned veterans. It is so good that we have hesitated to start a table at the House, but have two tables there instead, with Brothers Jennings and Calef, the two best hash slingers in College, presiding. We expect to start a table at the House very soon, however. The College has reinstated the R. O. T. C. and thus uniforms are still the order of the day. As for athletics the College has deemed it advisory for this year to drop all other sports and concentrate on baseball in order to produce a team which will compare with some of the past. Brother Logan, who, as a Freshman played on the Varsity at Bates, and Brother Tryon, who has played on the Montreal League, look like pretty good prospects, although the fact that there has been no team at Vermont since the beginning of the war, makes it all guess work as to whom will make it.

The big event of the College year occurred on February 21st, when the "one and only" Cake Walk was staged in the University Gymnasium. Beta Sigma came through with great credit, for although we did not get first place for the best stunt, we took second place, and in addition, Brothers Plimpton and Barry won the "Peerade." Our stunt was entitled "A Fair Affair" and was a representation of a real county fair, which one can only see in New England anyhow. One would not believe that a bunch of fellows would put so much work on a stunt if they did not know the Fraternity rivalry which exists here. But it produces a mighty fine Kake Walk.

The Lodge was well filled during the week of this event, for we were overwhelmed with visitors. Brother Lieutenant Willis was here with his usual line, and Brother Lieutenant Anderson looked in on us, as did Brother Ensign Johnson. Both have just received their discharges. We also entertained numerous sub-Freshmen, for it is the policy of Vermont to initiate the prep-school men of the state into the mysteries of College life by inviting them to Burlington to see the Kake Walk. And the Fraternities take care of them while they are here.

Everyone in the Chapter is getting out into college activities and we soon hope to be as well represented as before the war. Recent honors are the election of Brother Jennings as chairman of the Sophomore Hop Committee and Brother Car-

son as member of the Student Faculty Council.

We have had one House dance so far which seemed to be a great success. As we have had the floors gone over since moving back in, they are in ideal shape for dancing.

We held our annual initiation banquet at the Van Ness on January 30th and it was a great success with all kinds of the old Sigma Nu spirit. We were agreeably surprised at the large number of Alumni were here and the interest which they, one and all, have for the Chapter. Brother Lieutenant Roberts, just back from the Toul section in France, was toastmaster and did justice to his position. Brother Roberts was leader of the Glee Club when in college back in 1912 and he knows how a banquet ought to go, or at least a Sigma Nu banquet. He was ably supported by Brother Bill Williams of the same class who is now an instructor at the university; Brother Reed who has never missed a Beta Sigma banquet, Brother Clowse who has a great flow of oratory, and many others. The Freshmen were strongly represented as we initiated sixteen "good men and true." Brother Corless did the class honor in the polished impromptu which he delivered. But Corless is already a member of the Dramatic Club. Brothers Palmer and Nelson were here representing Delta Beta Chapter and we enjoyed their visit very much.

We have our meetings on Monday nights, giving up the entire evening to that and the spread and social hour which we have after it. Four Freshmen are delegated each week to furnish the feed. The new men seem to be taking hold in good shape and showing an interest in Chapter affairs. At present everyone is plugging for mid-years and we are trying not to lose anyone by flunking out. Study rules are in force throughout the year and in addition before the exams low men are required to stay in and study a certain number of hours a week. We have a system of obtaining grades on the daily work which notifies us if a man is low in any subject. It is impossible at this time to tell how we stand in scholarship but we will know in another month.

To sum it up, prospects look mighty bright for Beta Sigma. Many of the old men are gradually returning to college. We have had two additions to our Junior class, Brothers Barrows and Logan, both just back from across, but we are still without a Senior. At present we have four Juniors, ten Sophomores and fifteen Freshmen. In addition we have three non-active members, the medics, who are a great help as they take a lot of interest in the Chapter. Brother Doc Rublee rooms at the House. Every room in the House is now filled which means that twenty-one men are paying

rent, and this places things on a firm basis financially. In fact we are already on as strong a foundation as we were before the war.

HOMER A. PLIMPTON, Reporter.

NORTH CAROLINA STATE COLLEGE

Beta Tau Chapter

Since the S. A. T. C. has been demobilized this Chapter has been greatly improved. We have had more time to look over the new men in college. Since February 1 our "bid day" the Chapter has been increased considerably. We pledged four men—William E. Wearn, Harry T. Hicks, Edwin O. Clarkson and Alfred Williams, Jr. We are also sure of another this week.

We are glad to state that Brother Burton F. Mitchell has returned to college from the officer's training camp at Camp Gordon. Brother W. T. Whitaker is expected back at an early date, as he has received his discharge from a naval aviation school.

We miss Brother John K. Reitemyer, Delta Chi, very much, as he has rendered invaluable service to us during the time he was stationed at Camp Polk, Raleigh N. C. He expects to return to college next fall. He is the kind of man that made Sigma Nu what it is.

At the close of this term we expect ten or more members in our Chapter.

ALFRED WILLIAMS, JR., Reporter.

ROSE POLYTECHNIC INSTITUTE

Beta Upsilon Chapter

On February 14 Beta Upsilon closed the most successful rush season in the history of the Chapter. Sixteen freshmen and two upper classmen were pledged: William Dauns, Owen Conover, Earnest Danner, Robert Price, Lee Henderson, Kearney Harman, Hubert Wilson, Alonzo Watson, Herman Gehler, Albert Dunlap, Hal Dronberger, all of Terre Haute, Eubert Taggart, Louisville, Ky., Alfred Suttie, Louis Acheson, John Andrews, of Brazil, Ind., and Henry Naus, St. Louis, Mo., freshmen and Carl Schroeder, sophomore, and Walter Hauck, junior.

In the freshman class good material for all school activities was secured. Athletics has Andrews, Conover, Dronberger and Dunlap, while Conover and Henderson are president and vice president of the class of '22. Besides these we are represented in the Camera Club, Symphony Club, Athletics' Association, Student Council, and Y. M. C. A.

At the close of "Rush" a pledge's dance was given. Brother Baxter and Tilley were with us and also Brother Gaily, Beta Zeta.

GEORGIA SCHOOL OF TECHNOLOGY

Gamma Alpha Chapter

Now that Tech is getting back on the
old pre-war basis, things are beginning to
look mighty good for Gamma Alpha as
seven of our last year's crew have returned
and others are expected. We were very
fortunate in not having any of our men
drop out after the S. A. T. C. came to a
close, so they helped pull through until the
old men came back.

We have been very fortunate this year
in getting a fine bunch of Freshmen. Al-
though material was lacking this year in
proportion to the number of students in
school, we succeeded in getting the pick of
the Freshman Class, and we take great
pleasure in introducing our newly made
Brothers in Sigma Nu. Brothers Martin,
Kyle, B. E., Kyle, W. W., Gaines, Paschal
Lasseter, Clements, Roberts, Speight,
Jaynes, Walstrum and Hughely.

We are well represented in the college
activities this year. Brothers Pruitt, White-
ley and Rudicil are all on the baseball squad
and promise to be mainstays of the team
this year. Brother Weston is a member of
the Skull and Key Club. Brother Pruitt
made the Koseme and Bull-Dog Clubs and
also the Cotillion Club.

We entertained with an informal dance
at the Capital City Club on Friday, March
7, and needless to say it was a "lollipop-
ooser" and everyone seemed to enjoy them-
selves. Many visiting Brothers were pres-
ent and of course they felt perfectly at
home with the men of our Chapter.

We have had many visiting Brothers to
drop in to see us lately, most of them
being men in service or others who have
been recently discharged at Camp Gordon.
Among the recent visitors were Brother
Boone, Sigma; Brother Platt, Rho; Brother
Clark, Delta Omicron; Brother Stanton,
Lambda; Brother Densmore, Delta Eta.
Brother Clark is stationed at Fort McPherson
where he is recuperating from an in-
jury, received while on duty at Fort
Screven, Georgia.

From the present prospects it looks as
if our Chapter has one of its best years
before us, as she certainly has the material
and every man in the Chapter is doing all
in his power to put Gamma Alpha on top.

We lost our House during the S. A. T. C. but we have a still better one now, due to the untiring efforts of Brother J. C. Pye and Brother F. S. Bryan.

R. B. BETTS, Reporter.

NORTHWESTERN UNIVERSITY

Gamma Beta Chapter

The term is drawing to a close now—soon there'll be exams and then—vacation. The third term opens March 31.

In athletics the final game of basket ball has been played—Northwestern finished third place in the Conference. The Conference Track Meet which is to be held here on the 31st of March is now the object of considerable interest. Another event which has helped put the North Shore on the map is the Music Festival. It is to be held toward the end of the school year and a great many of the students will have an active part in the performance. Thursday, March 6, the Inter-Fraternity Council had dinner at the House and their meeting afterward.

The men are all taking a keen interest in the activities of school. Brothers Bryant, Moeller and Scott are out for Freshman baseball, Mulnix and Stevens are out for track and Ralph Moore for swimming. Since basket ball season "Cy" Young has been having a little vacation before spring football. Brother Halperin is manager of the "Daily Northwestern" and Schweser assistant manager. Knickle is on the editorial staff. The financial condition of the Chapter is fine. Social standing is one of the best on the Campus.

The House dance given February 21 was a pronounced success. Over forty couples were present, including a number of Alumni and Brothers Koch and Conley from Gamma Lambda. Junior Prom is now the brightest star on the social horizon—April 11 is the date and will be one of the biggest events of the season (press agents, please take note). In response to the invitation extended to all Sigma Nus at the Banquet February 22 at the University Club, a number of Brothers have spent Sunday afternoons with us. If any kind reader is interested, he may just bear in mind that the latch key is always on the outside.

On Sunday, March 2, the following Alumni were here for the afternoon: "Dad" Bell, Gsell, Parmelee, Bowman, Luther, Vanderblue, Kiefner, Raymond, Lloyd and Sturtz. Brothers Koch and "Brig" Young from Madison were here the same day.

Brother Dan Hagin is back in school now and is showing the boys some of the tricks of the boxing game. Brothers Nelson, Pore and Bowlin will probably be back for

the next term of school. Bomberger just returned from overseas, but will not be in school until next year.

ROBERT E. SCHWESER,
Reporter.

ALBION COLLEGE

Gamma Gamma Chapter

The S. A. T. C. is no more, but some of its results still remain with us. The one most keenly felt by Gamma Gamma was the loss of her fine House on Erie street.

The new officers have rapidly adjusted themselves to the performance of their duties and the machinery of Gamma Gamma is in good running order.

Five men are to be initiated Saturday, March 15, namely, Leamon, Lang, Bennett, Siple and Laity. Gamma Gamma has also the names of Addington, Silby and Richards to announce as pledges.

Our Christmas party which was postponed because of the demobilization of the S. A. T. C. was held in February and developed into a Washington party.

Brothers who have returned to school are Captain Hartman, Lieutenant Murray Fox, Lieutenant Robert Crossthwaite and Rogers Wakefield.

Brothers who have visited the Chapter since the last issue are Clarence Ely, Rollin Bush and Harold P. Sessions.

In debating Gamma Gamma has retained her leadership. Three of the four men on the Sophomore team are Sigma Nus and two of the four men on the Freshmen team. Brother Sargent is president and Brother Alexander is secretary of the Y. M. C. A. At the college banquet all the men speakers were Gamma Gamma men. Brother Coors represented the Alumni, Brother Hartman the Seniors and Brother Peterson the Juniors.

Brother Peterson is also a member of the Board of Directors of the Michigan Oratorical League.

The inter-fraternity basketball games are over and Gamma Gamma is in second place.

Brother Sargent was elected captain of the track team, and soon expects to start training a team which will take the M. I. A. A. championship.

EDWIN PEARCE, Reporter.

STEVENS INSTITUTE OF TECHNOLOGY

Gamma Delta Chapter

The mid-year exams, which might justly be called the most important student activ-

ities at Stevens are over, and now that the dust has settled we can see our way clear to promote those activities of a less dangerous nature.

The basket ball team has ended a very successful season. One game out of eight was lost.

There is a large turnout for lacrosse and baseball and the two squads are already up to full training speed. Both are scheduled for a hard season and both are capable of making good. The Freshman delegations are especially promising.

Our Junior Prom turned out to be a great success. If time has anything to do with it the affair certainly did go over the top, for when the last couple was seen to retreat it was in the vicinity of 6 a. m. It might be in order to add that the Stute holds the record for "endurance dances." Everyone enjoyed the House party, which is always an important phase of a Junior Prom.

Brother Spencer recently visited the House and addressed the Chapter in meeting. Brothers Kelly and Wandel, who have just returned from France, and also Brother Johnson, from Delta Iota, have visited the Chapter.

At the last meeting of the Student Council Brother Stephenson was elected a member of a committee on mass meetings and Chairman of the Prep Night Committee.

In the recent track meet with Pratt Institute Pledge Brown won first place in the half-mile and the mile, breaking the Stute record for the mile by 15 seconds. Brother Conrow captured first place in the 440.

Brothers Atkinson, Bonnell and Iliff are on the Senior Ball Committee.

Brothers Fisher and Gregory have been awarded the S. A. A.

In the Dramatic Society we are represented by Brother Atkinson as president and Brother Stephenson as secretary and treasurer.

Our Commander also had the honor of being toastmaster at the Junior Dinner.

Brother Alling, ex-'18, has returned to college and will probably be our House steward, since Brother Lawrence does not expect to return this fall.

The old House at 507 River street is now at our disposal and the Chapter will return there the first of April. Everyone will be glad to make the change because our present place is poorly located and decidedly unfavorable for rushing and all affairs in general.

H. D. GREGORY, Reporter.

LAFAYETTE COLLEGE

Gamma Epsilon Chapter

Gamma Epsilon is going to have a splendid year if the showing of the last three months continues. The administration this year has been untiring in its effort to bring the Chapter to the highest point of efficiency. The finances are in good condition.

We have an informal dinner party once a month at which time we have as guests men from the different preparatory schools to whom we wish to introduce Lafayette College. After the dinner several of the Brothers speak on topics of college interest. One of the best talks given this year was by Brother Allen Grazier. He chose as his subject "The Newer Lafayette." He outlined the plans which Lafayette Alumni have made for the college.

One of the sources of pleasure for the men is the Thursday evening card parties. These are informal affairs and the Faculty are invited. In this way the students are given an opportunity to meet the different members of the Faculty and to come into a closer relationship.

Friday evening, February 28, was the evening on which Gamma Epsilon entertained her friends at a formal dance. The ball-room on the third floor was beautifully decorated with flags of the Allies as a ground plan and garlands of spring flowers artistically interwoven. The Traylor Orchestra from Allentown, Pa., furnished the music. At midnight a buffet lunch was served by the Commissary Department. There were about two hundred present and all regretted to have 2 o'clock strike for at that hour the festivities came to an end.

The Chapter is now busy arranging plans for Junior Week which will be held April 23-26 inclusive. If the plans of the committee are realized, the affair will certainly be a success.

But of all the important Chapter activities which are to be held is the Division Convention. Brother Sibson, the Inspector of the Division, visited Easton and discussed the plans with Brother Hopf the District Secretary and we want to make this convention one of the most successful in the history of the District. The date decided upon is May 3d and it is hoped that as many Brothers that can, will grasp the opportunity to cement more closely the relations of Pi, Beta Rho, Delta Delta, and Gamma Epsilon.

This is the last letter which I will be privileged to write to the Delta as Gamma Epsilon's Reporter and it is with the deepest regret that I relinquish that office which I have held approximately for four years. With the sincerest good wishes for the continued success of the Chapter Letters in the Delta.

CLIFTON J. HOPF, Reporter.

UNIVERSITY OF OREGON

Gamma Zeta Chapter

Gamma Zeta's outlook for the coming spring term which starts April 1st, is a very bright one. Our superior strength on the Oregon campus is fast returning as our old men come back from the service. Brothers Ensign Tegart and Gunner Sergeant Mitchell of the marine corps, have returned to aid the Senior Class finish a very successful year. We expect Brother Lieutenant Floyd Hart, who has just returned from France, to join our happy throng next term.

Initiation was held February 14, 1919. A large number of Alumni being present. The initiates were: Vern Dudley, Wesley Shattuck, Charles Robertson, Barton Sherk, Phil Owens, Harold Connolly, Sydney Hayslip, Carl Newberry, Steve Mathiew.

Oregon is returning to its former self much sooner than was expected possible. Gamma Zeta is returning correspondingly.

With our present plans for rush week and Junior Week End we should grab some awfully fine men. Our Alumni are back of us to a man and always ready to help the Chapter.

COLORADO SCHOOL OF MINES

Gamma Eta

We are sorry to note that our space in the March Delta was marked "Delinquent". Our intentions were good, but our letter was late. We hope such a delinquency will not be found in our space again.

Conditions in the Colorado School of Mines are growing better every day, and so with Gamma Eta. Our men are all taking a new interest in Sigma Nu and are endeavoring to make Gamma Eta a greater success. A great many men are returning to school this semester and many more will return next fall. Brothers Robertson, Schneider and Lynch have returned to us after being discharged from the "Aviation." Brother Norris of Beta Xi has also entered school this semester. He was also in the "Aviation" branch of the service. These four men, along with the nine men from last semester, will be a help in keeping Gamma Eta the strongest Chapter in school. A number of our men still in the service have expressed their intention of returning to school next fall. All of whom will be gladly welcomed by us.

At present although few in number we are receiving our share of the honors in school. On last fall's championship football team were Brothers Dunn, Benbow, Garnett, Hopkins and Morton. Of these Dunn and Benbow were picked for the "All Rocky Mountain Conference Team". We

were represented by Brothers Miller and Dunn on the basket ball team, of which Miller was captain this year and Dunn captain-elect for next year. We hope to have Brothers Miller (captain), Barnett, Schneider, and Dunn, of whom all are letter men, playing on this year's baseball team.

Theta Tau held initiation a short time ago and four of our men were initiated at this time. Brothers Romine, Miller, Robertson, Garnett, Benbow, Dunn are all members of Theta Tau. Brothers Romine and Miller are members of Tau Beta Pi.

In looking through the Sigma Nu General Catalogue, we find that the record of our Alumni is very inaccurate. We realize this is largely our fault and for that reason we have started a series of letters to our Alumni, by which we hope we may get an accurate record of our Alumni. By these letters we are also trying to get into closer touch with them and let them know what the active members of Gamma Eta are doing.

April 5th is the date of the Annual Sigma Nu Banquet of the Fourteenth Division. It will be held at the Denver Athletic Club. We are planning on every active man of Gamma Eta attending it.

In view of the fact that this is the first letter from Gamma Eta Chapter this year, it might be well to give a short discourse of the Chapter's news since the beginning of the first semester.

At that time we had two Seniors, Romine and Miller; four Juniors, Garnett, Benbow, Dunn, and McKenna; three Sophomores, Thomas, West, and Hopkins in school. Due to so few men and the installation of an S. A. T. C. unit, this Chapter did not open a House. However we got busy and pledged and initiated E. P. Gilland, of Washington; Henry H. Mayall, of Boulder; R. H. Sonneborne, of Pueblo; Neil Gow, of Golden; Bud Church of Rocky Ford; F. A. Brinker, of Denver, and S. S. Morten, of Golden.

At the close of the first semester several of the bunch dropped out, but all expressed their intentions of returning next fall.

Three of our older members, Brothers Fitch Robertson, "Chuck" Schneider, and "Vic" Lynch, having received their discharge from the air service, returned to school the second semester.

At present the Chapter is considering very seriously the buying of a House. The efforts of every member is trained in this direction and with the help of our Alumni and "Dad" Williams our success will undoubtedly be realized by next September.

Sigma Nu is as usual well represented in all of the school activities. Five of the bunch, Benbow, Garnett, Dunn, Morton,

and Hopkins played on this year's championship football team. Benbow and Dunn were elected to the All Rocky Mountain Conference Team.

In basket ball we are represented by Miller and Dunn, Miller being the captain of the team.

In baseball we have Garnett, Miller and Dunn of last year's team of Schneider, captain-elect at the time he joined the service.

Brothers Dunn, Garnett, and Benbow were initiated in Theta Tau, the Honorary Engineering Fraternity.

We have had the pleasure of several of our Alumni dropping in during the past few weeks. Brothers Lavender and McNeil were here for a few days while on their way to Arizona. They have just received their discharge from the army.

Brother Dickinson, who just returned from the air service in France, has motored out from Denver several times with his wife. Brother Schade, who also has just received his discharge, paid us a visit and is considering coming back to school next year.

We are looking forward to the return of our members from the service and with a new House we should start out with a jump next semester.

W. J. McKENNA, Reporter.

CORNELL UNIVERSITY

Gamma Theta Chapter

Gamma Theta can feel that she has come through the most critical period of her existence with flying colors. From now on we can consider ourselves once more on a normal basis.

What is better we will shortly be much better off than we ever were before; for we are in the middle of a whirlwind campaign to pay off the first mortgage on the House by selling second mortgage bonds to Gamma Theta men entirely. This will appear in the Delta too late to be an added appeal to our Alumni in the campaign, so I will have to put it in the form of congratulations for oversubscribing our own little loan. For, from the way things have started we feel sure it will be oversubscribed.

That will make an added event for the big reunion here in June, the burning of the first mortgage! Then we can feel that instead of coming through the war a crippled Chapter, we have succeeded in making Gamma Theta stronger than she ever was.

A new term is starting in two weeks when we expect half a dozen more of our

old men back. We should then have an active Chapter of about thirty-two men. As we have only one Senior to lose through graduation, next year should see a full Chapter roll.

Our active men are getting to appreciate more and more the hearty support of our Alumni. It is the enthusiasm of the Property Association that is running this mortgage clean-up proposition; and it is very much the same bunch who are helping us out on the reunion in June. Percy Lyon has just been up to see us, as Chairman of the Clean-up Committee. It does the Active Chapter a lot of good to see such men, with such pep actively supporting Gamma Theta.

We hope to see all of our Alumni here in June, and we are making plans to take care of every one, with his wife. A wife is not a necessary qualification, however, and if you are deficient in this respect, come anyway. There will be plenty of other batchelors to keep you company.

JOHN N. BULLEN, Reporter.

UNIVERSITY OF KENTUCKY

Gamma Iota Chapter

The opening of the second semester finds this Chapter back to normal conditions at last. May we never have to pass through a similar experience, as the year through which we have just gone. Yet we are sure that old Sigma Nu came out of the melee with flying colors, and since she has we should have easy sailing now.

With the advent of spring plans for the improvement of the University of Kentucky campus and the building of new structures are rapidly materializing. A new gymnasium is the first building that is being planned. A "little theatre" is to take the place of one of the old dormitories. Other buildings are to be erected just as fast as money is available. The enrollment of the university is expected to reach 3,000 within the course of the next few years, and accommodations must be rapidly made for the large increase in enrollment.

We wish to introduce the following pledges to our Brothers in Sigma Nu: Roy Barnhill, Madisonville, Ky.; R. Neat Eddleman, Louisville, Ky.; Neal Wilkerson, St. Petersburg, Fla.; Forrest Weatherholt, Cloverport, Ky. Very few new students registered for the second semester, nevertheless we got all the men we wanted of those who did.

Track and baseball practice have started and it finds Sigma Nu well represented in both. In baseball Brothers Watkins, Faulconer and Pledge Wilkerson are out for positions, while Brother Knight is one of the few letter men in track back this year.

In fraternity athletics Sigma Nu holds both the baseball and basket ball cups, and is prepared to hold them against any of the other teams among the other Fraternities.

We are planning at present for a big Sigma Nu home-coming to take place April 11. Plans for it are now overshadowing all other social events that are proposed for the near future. It is to be one of the biggest Fraternity entertainments ever given in Lexington, and we are expecting all of Gamma Iota's Alumni back to take part in the festivities. Of course it will have taken place ere this goes to press, otherwise we would use this letter to invite the Brothers from the surrounding Chapters.

The Chapter has been visited by the following Brothers in the past few weeks: Homer B. Combest, Hartford Matherly, Walter Matherly, Henry Bell, Lambda; W. S. Moore, Floyd H. Wright and Keeling G. Pulliam.

GROVER H. CREECH, E. C.

UNIVERSITY OF COLORADO

Gamma Kappa Chapter

In looking over the last Delta, I notice one Brother started his letter with the phrase, "Dear old college days." I'd like to start this one with the above sentiment plus "good old spring days" for spring has come to Colorado for fair, and also to Gamma Kappa if the number of men who are going out for track and baseball is any criterion. Both sports will start very soon, and six of the brothers have signified their intention of trying out for track, and two for baseball. Tennis will no doubt claim two or three more.

The past two months have been studious ones for Gamma Kappa, and with quarter examinations but three weeks away, study is still the main activity. The principal social event of the winter was a pledge dance which we gave here the night of February 28. It was our first important function of the year, and was a success in every way. Invitations were sent to all the Alumni, and a good many were present, along with a big delegation from the Gamma Eta Chapter at the School of Mines. Advantage was also taken of the State Y. M. C. A. Convention for high school students which was being held at that time in Boulder, and it was a rushing party as well as a pledge dance.

Since the last letter was written two old men have returned to school, and one man has been pledged. Kenneth Willson, lieutenant in the Field Artillery, and Clarence Christensen, marines, have received discharges and are back with the bunch. The new pledge is Howard D. Beer, of Pueblo.

There is no way of ascertaining at this time the scholastic standing of Gamma Kappa, as no records have as yet been compiled, and probably will not be until next month after the starting of the third quarter.

To get in closer touch with the Alumni and incidentally to get a line on men for next year Gamma Kappa has recently sent out new Alumni and rushee cards to all of the old men, and already the wisdom of this move is apparent.

The Annual Sigma Nu Banquet and Jubilee, staged each year by the Denver Alumni for the three Colorado Chapters is to be held in Denver April 5. Needless to say, Gamma Kappa will be there to the man.

J. DEWEY SIMON, Reporter.

UNIVERSITY OF WISCONSIN

Gamma Lambda Chapter

College life is once more in full swing at "Old Wisconsin", the military regime of last fall is but a memory, and, except, for the R. O. T. C. unit, the military spirit has given way to the college spirit.

The Junior Prom, the biggest social event of the season, was held in the State Capitol Friday, March 28. In accordance with the economical spirit of the times, however, the Prom expenses were kept down to a minimum, and flowers and cabs are considered strictly out of place. The Prom itself was a welcome to Wisconsin men who have recently returned from the service of their flag.

The end of the quarter is in sight and the new quarter presents expectations of several more men back in school for Gamma Lambda. Brothers Herbert Cramer, first lieutenant, Infantry; Stanley McCandless, second lieutenant, Machine Gun Battalion, and Howard Dodge, Naval Radio Corps, will be back, and there is a generous possibility of others. This will give us a "full House" with about four men living outside the House.

Brother George Stolley, '22, has recently been elected to the Honorary Freshmen Athletic Association. Brother Willis Fanning has won his "W" in basketball.

Over the week-end of March 22, the first Middle-Western High School Basketball Tournament will be held in Madison. The champions of the various middle-western states will meet here to battle for the middle-western title. Gamma Lambda has arranged to entertain the Iowa state champions during their stay here.

Brothers George A Chandler, second lieutenant, U. M. C.; William M. Young, lieutenant, U. S. Navy; Russell Hartman, captain, Infantry, and Herbert Cramer, first

lieutenant, Infantry, have paid the Chapter visits within the past two weeks; also Brother H. G. McMillan, Delta Lambda.

Brother Donald McCandless, Sergeant Medical Corps, recently returned from service overseas is expected to return to school in the near future.

HOWARD P. JONES, Reporter.

UNIVERSITY OF ILLINOIS

Gamma Mu Chapter

The University of Illinois is slowly drifting back to pre-war conditions and the return to the semester system this fall will mark the final step. The Military Ball recently held was a great success and much is expected of the Sophomore Cotillion and the Junior Prom. The basketball team was not up to standard this year and finished in fifth place, but a better showing is expected in baseball as most of the old team are back. Following the S. A. T. C. the University Brigade has been reorganized with the addition of a Field Artillery Unit.

Gamma Mu, however, has anticipated even the university in its return to the old life and the end of the war conditions find the Chapter even stronger than it was previous to the S. A. T. C. Since the first of the quarter, five pledges have been added, Orelup, Artz, Friedrichs, Kerckhoff, and Holson. This increase brought the Chapter roll up to thirty-one and necessitated the addition of a sleeping porch to our present House. With this added room we will get along until next spring, when the new House will be under construction.

In spite of the increased expenses incurred by this addition, the Chapter at its last meeting, turned over to the House fund \$500 in actual cash and \$350 of Liberty Bonds accumulated in the present year.

However, our Chapter activity has not been all internal, for we turned out a basketball team which, though crippled at the last, finished in second place, adding another cup to our collection. Our first dance, held February 14, was declared a success, and our next is scheduled for April 4, immediately after the opening of the third quarter.

The present quarter ends March 21, and finds the fellows in rather bad shape for examinations as we just got out of a week's diphtheria quarantine for which Brother LaBier was responsible.

Rodney Spangler is manager of the Post Exam Jubilee this year with "Pete" Russell assisting him. Ralph Reding, adjutant of the Brigade, is a member of Scabbard and Blade and Pledge Artz is wearing a Medui pin. Fritz Orelup is mixing in class politics and was a member of the Freshman Frolic and Smoker Committee. Brother Bernard is President of Scarab.

Paul Heinike dropped in for a week end, explaining his visit as due to home sickness after receiving the Gamma Mu News. Captain B. T. Phipps of the Engineering Corps, who was located at Governor Island, New York, spent a day visiting the Chapter and university on his way home after receiving his discharge from the service. Word has been received that Brother E. B. Hoff has returned to his home after being discharged. He spent eighteen months overseas with the 149th Field Artillery.

RUSSELL LaBIER, Reporter.

UNIVERSITY OF MICHIGAN

Gamma Nu Chapter

The second semester finds Gamma Nu Chapter returning to normal conditions. The old men that have returned to take up the responsibilities are Brothers George Myers, "Spike" Donaldson, James Bailey, John Finley, Ralph Hammer, Robert Orell, Walter Rogers, Roland Merner, Perry Quakenbush, Art Pickard, Louis Schindler, Leslie Popp and George Daniels, making a total of twenty-two men living in the House.

The Registrar reports that the attendance at the university since the second semester is almost as large as the attendance previous to the war. With the Michigan slogan, "Every man bring back a man," next fall bids fair to see all previous records of attendance at the university shattered.

Owing to the fact that a great number of men have entered the university the second semester, rushing competition is almost as keen now as it ordinarily is in the early fall of any normal year. We have pledged six men, three of whom, Karl Behr of Detroit; Francis Smith and Farra Van Meter of Lexington, Ky., have already been initiated. The other three pledges are Murray Collie, of Cleveland; Rufus Bailey, of Detroit, and Clarence Getz, of Fort Wayne, Ind. The Rushing Committee is hard at work, and it is hoped that we may add several more good men to our pledge list within the next few weeks.

Sigma Nu is also well represented in all branches of campus activities. James H. Clarke, Jr., is manager of Michigan's champion track team, and Leslie Popp is an assistant track manager. Hart Anderson is assistant football manager and Frederick Fletcher has received an A. M. A. in football. James Bailey has made the Glee Club for his second year and Louis Schindler is on the business staff of the Michigan Union Opera.

The university will hold the Annual Junior Hop this year on the 4th of April. This is the biggest social event of the year and there is more interest being taken in it

this year due to the fact that it was not held last year because of the war.

Everybody has come back to school with more Fraternity spirit and optimism than has ever been shown before. All who have been in the service realize as never before the true significance of a Fraternity, and have returned resolving to make Sigma Nu at Michigan come up to this true significance.

H. LESLIE POPP, Reporter.

MISSOURI SCHOOL OF MINES

Gamma Xi Chapter

After the holidays "the gang" returned in full force and we are now twenty-one strong. Whatever bad effects the war might have had on Gamma Xi have been practically effaced. New equipment has been purchased for the House, and everything is being made ship-shape for our Annual House Party during St. Pat's week, our big event of the year.

Two pledges, H. S. Crawford of Los Angeles, Calif., and R. C. Schappler, of Springfield, Mo., have recently been initiated.

Financially, Gamma Xi is in a better shape than she has ever been. It makes us feel pretty good to have everything paid up and money in the bank besides.

JOE M. WILSON, Reporter.

WASHINGTON UNIVERSITY

Gamma Omicron Chapter

Washington University and the year of 1919 will go down as a wonderful year for this Chapter.

Since the last Delta two Brothers have returned from the service and two new men have been pledged. Brothers Horace Pote and Reed Harkness are the old men who have returned while Roland Ingram and Clifford Braeder are the pledgees. Brother Pote has returned after a year and a half service overseas. He was a sergeant in the 1st American Gas Detachment and was in the thick of the fight. Brother Harkness has entered school after being discharged from the navy. He is a junior engineer. The return of these two old men was a great thing for our Chapter.

Our first big social event of the season was an informal dance held at the Architect's Club on Wednesday evening, February 12. It was a pronounced success. Brothers Deal, Garth, Smith, and Way, of Rho Chapter, attended.

On Sunday, March 16, Gamma Omicron entertained with a Chapel Party, followed by an informal reception in the Chapter rooms.

Brother Edward Hashinger, Nu, was from Washington University Medical School, on March 15. While here he took an active interest in this Chapter. Brother Hashinger has gone to Kansas City as intern in the City Hospital.

Our Chapter is very proud of the fact that Brother Andy Hall was elected President of the Freshman Class. Brother Hall's election was almost unanimous.

Our basketball team promises to be one of the best in the pan-Hellenic League.

Brother Cecil Smith, Gamma Mu, who has recently been discharged from the navy, was a visitor recently. Brother Smith has accepted a position in East St. Louis, but will return to Illinois next fall.

Brother Josh Logan visited in St. Louis recently. Brother Logan had just returned from overseas and was en route to his home in Texas. He was a first lieutenant in the Sunset Division and had been across about six months.

Gamma Omicron loses but one man by graduation this year, but the one is a man who every member of this Chapter regrets losing. Brother F. Jack Danglede will graduate from the Engineering School of Washington University. During his four years in this school Brother Danglede has been a leader not only in his Fraternity but in school activities. His efforts for Gamma Omicron have been untiring.

FRED B. HULSE, Reporter.

WEST VIRGINIA UNIVERSITY

Gamma Pi Chapter

When the second semester opened at West Virginia University a great change took place. The schools of law, pharmacy and agriculture had been closed since last spring, but they again opened with large enrollments at the beginning of the present semester. Work will be greatly facilitated by the new buildings that are in the course of construction. Ogelby Hall is the newest building and is now ready for occupancy by the school of agriculture. A new Woman's Hall is being constructed on a bluff above the athletic field and this will be ready for occupancy by next fall. As soon as it is completed work will begin on a new building for the law school. In recent years the law school has acquired a very high standing, but has been hampered by lack of room for expansion. This, of course, will be overcome as soon as it can have a separate building.

There have been many changes about the college itself, but the changes among the student body have been even greater. A glee club is being organized through the efforts of Brother Joe Saunders, who was

arged from the army several months and present indications point toward cess. Our college basketball season losed, but the inter-fraternity games ow in full swing. Already all but of the ten teams have been elimi- but as yet Sigma Nu is undefeated. esults of the games scheduled for the it week will determine which frater- ill win the large silver trophy offered winning team by the University Ath- Committee. Inter-fraternity dances been resumed and those already held been successes.

ma Pi is still holding its place among her fraternities at West Virginia Uni- y. When the second semester opened edged the following men: Norman H. at, Providence, R. I.; Rex. B. Gavitte, Bethlehem, Pa.; Russell D. VanGilder, antown; Paul B. Bailey, Bluefield, and d Tregallas, Grafton, W. Va. We ly had three men who had not been ted and now have eight pledges whom el sure can not be surpassed in the raity. In athletics we are still repre- l. "Biz" Dawson was captain of our tball team and Brother Stewart was ant manager. We are now looking rd to our baseball team, which is to ached by Brother Kemper Shelton, s due to arrive from France this week. rs and Dawson are both sure of on the team, and Brother Walker is ally certain to be student manager. ial activities we have been hampered e Social Committee of the University, re have obtained permission to give formal dinner party and dance withi xt month. We also hope to have our il week-end House party at Cheat, has always added much to the fame r Chapter. Our scholastic standing is improved. The standing of the fra- ies for the last semester has not yet made public, but in spite of this we ill ahead and when school starts next ur financial condition should be the t has been for years.

eady our expectations are developing realities, and the one thing that we oking forward to most is the return r men from overseas. Many of these will return to school next fall, and if tunities mean anything at all we i develop one of the best Chapters school year that has ever been at West nia University.

MARK F. VALENTINE, Reporter.

UNIVERSITY OF CHICAGO

Gamma Rho Chapter

re is a large drop in attendance this er compared with last. This, together the fact that almost no new men are ling the university this quarter, has rushing difficult. We have only two

new pledges to our credit, Lowen McMas- ters and Allen Quigley.

The newly reawakened campus activities have given us a chance to get into things again. Brother Maurice Leseman has been elected president of the Poetry Club, which has a very favorable reputation among the literary people of Chicago. Brother Earle Wooding has been elected a member of the council of the newly formed Commerce and Administration Club, composed of all students taking that course. Brother Wood- ing has also won his numerals on the freshman basketball team. Brother Joseph Hall has made the Varsity track team, run- ning the quarter mile and hurdles. He is a member of the mile relay team, which has not met with a single defeat.

Brothers McLoone and Hoglund were sent by the Chapter to the Ninth Division Convention which met in Chicago, Febru- ary 21. Brother Hoglund was elected vice- president of the division.

At our last meeting for this quarter, the following officers were elected: Brother Hoglund, eminent commander; Brother Robert Alexander, lieutenant-commander; Brother Francis Himelick, treasurer; Brother Wooding was re-elected recorder, and Brother Robert Rotherth, reporter. A House committee was appointed whose duty it is to formulate and crystallize some plan whereby we can do our share in the work of getting a Chapter House. We have the support of the Alumni and of the other Chapters of the division in this project, so it is "up to us" to do our part toward accomplishing it.

CARL W. ROTHERTH, Reporter.

IOWA STATE COLLEGE

Gamma Sigma Chapter

This quarter is nearly over and the quar- terly exams are the topics of interest. We are expecting our freshmen to cinch their O. K. slips this quarter. We are also try- ing to raise our scholarship standing.

We have recently acquired two Brothers in the Faculty. Brother O. J. Whittemore has accepted a position as professor in the ceramics department. Brother Major William Grunou has been detailed here in charge of the Engineering Division of the R. O. T. C.

We have been lucky this quarter in hav- ing had a good many visitors. We have had the pleasure of entertaining Brothers Buler, Beta Kappa; Brown, Delta Gamma; Downie, Beta Mu; Morrison, Beta Rho; Randal, Delta Eta, and White, Beta Mu, for short visits. Gamma Sigma Alumni who have visited us since the last issue of The Delta are Brothers Clay, Eichling, Henderson, Reller, Warner and Van Dyke.

Brothers Jules Beach and Gail Steward have returned to school. We recently pledged Neal Dunnick, Manning, and Everett Laird, Auburn, Ill. This Chapter now has sixteen initiated men and eight pledges. All but four of these men are living in the House.

With the coming of spring, baseball again becomes a topic of interest. Brothers Donham and Walpole are out for the varsity. The rest of the Chapter to a man are out for the inter-fraternity team. Last year we landed close to the top in the inter-fraternity league.

H. S. ROOT, Reporter.

UNIVERSITY OF MINNESOTA

Gamma Tau Chapter

Since its last communication, Gamma Tau has rented a House and is running along better than ever. Owing to the university having our own House, we deemed it necessary to get another. Our freshmen needed attention and the only way to give it to them was to have them under continual observation. Our present abode is capable of housing fifteen men. It has three stories, the upper floor being used as a dormitory. We rented furniture from a club which is not running this year, and were able to furnish the House with the addition of a few of our own things. Shortly after moving, we were awakened by a fire alarm and found our third floor in flames. The fire was extinguished before it ruined more than the top floor, so that we could continue living in the House. At the time of writing, the third floor is nearly repaired and will soon be in use again.

I might cite an incident to show how wide awake we are. Several weeks ago we gave a formal dinner dance, which was absolutely the biggest event that has taken place on the campus this year. We are having probation week at the present time and are going to give a party for our freshmen at one of the theaters as one of our "stunts." In the near future we are also going to give a dance at our own Chapter House in honor of the freshmen. The girls at the House have been kind enough to offer it to us and we are going to avail ourselves of the kind offer.

We admitted Elmer Keefe and Charles Irwin into our Brotherhood at a special initiation a short time ago.

Brothers Howard Nelson, who was stationed in England, and Lieutenant Antone Julien, who was in France, have returned and are again in our midst. The majority of our other Brothers have returned from the various camps and will return to school the following quarter.

John Ford Philips was elected our new commander for this quarter. We decided

to elect a commander each quarter and will have another election soon. Brother Philips has done very good work in putting things on a running basis and in getting the Chapter on its former basis.

The Alumni surprised us rather pleasantly last week when they decided to renew their weekly Alumni luncheons and get a little more enthusiasm instilled in their organization. Five of our active men attended the first luncheon and reported that the Alumni are making strong efforts to start things going with some "pep."

In our complete list of the Knights of the Republic, we grieve to state that we must enter the name of Brother Willare Vestre as being killed in action. Brother Vestre was in the Marine Corps and did his best for the great cause. Brother John Platt was wounded while doing some ambulance service, but is recovering rapidly.

Spring football practice has started and we have three men out who expect to try for and make the varsity team. Inter-fraternity bowling has also opened and we are expecting to make a place for ourselves.

WILLARD BALLENBACH,
Reporter.

UNIVERSITY OF ARKANSAS

Gamma Upsilon Chapter

Delinquent.

UNIVERSITY OF MONTANA

Gamma Phi Chapter

As soon as the "flu ban" was lifted the college soon got back in its old stride. Naturally the fussers were among the first to take advantage. The first big event was the inter-fraternity basketball series. Gamma Phi managed to come out second, although we were doped for the cellar.

All of the fraternities are housed now, and everything is rapidly getting back to the old pre-war basis. We are glad to report the pledging of Sidney and Ralph Ballard, Algeroy Le Clair, Frank Gallagher, Frank Meagher, and Cecil Phipps. All of these men were in either the regular army or navy or the S. A. T. C.

Brother Mooney was elected manager of the Students' Association and Brother Brice Toole president of the Inter-Fraternity Council. After the Alpha Kappa Psi (national commercial) election we found Brother Wilson as secretary and Brother Cook as treasurer.

Almost every mail brings in letters from our Knights of the Republic asking for news of the Chapter. We are quite satis-

fied with the progress we are able to report to them. Gamma Phi is more than proud of her war record. We have sixty-two men in the service; four of them have laid down their lives on the Field of Honor, and two more have received decorations for bravery in action.

BRICE TOOLE, Reporter.

UNIVERSITY OF WASHINGTON

Gamma Chi Chapter

The conditions that existed in the S. A. T. C. have long been forgotten, and the college is quite on a normal basis as per pre-war times. Pep and spirit is running high and a movement is now on foot to create a new Washington spirit to replace the old Washington spirit, which is now a thing of the past. Social events have held full sway up to the present time, but as the end of the second quarter is close at hand they have been eliminated and a great desire for study taken its place. The Varsity Ball, the biggest college formal of the year, was recently held. Every eligible man in the House attended. As a consequence we had more men there than any other fraternity in the campus.

The Chapter recently adopted a ruling requiring every man to attend all college functions and activities, so all Sigma Nus are present at everything that comes off on the campus. Spring athletics are starting, and Gamma Chi is well represented. Five men are turning out for crew. Brother Alan McFarlane, member of last year's frosh crew, is in line for a position on the varsity. Brother Wilfred Bordeaux is on the track team, running the quarter mile. Brother John Allen, former captain of the frosh baseball team in 1916, is out for the initial sack this year. Brothers William Foran and Harold McMorris are also out for the team. Preparations are under way for a crew race with Stanford, to take place in California some time in May. This will be our first inter-collegiate race since the war began.

The close of the quarter finds Gamma Chi in good shape. We have eleven men in the active Chapter and ten pledges eligible for initiation. We have not initiated any men so far this year, but expect to do so in the near future.

ROBERT L. ALLEN, Reporter.

SYRACUSE UNIVERSITY

Gamma Psi Chapter

Syracuse has been rather fortunate this year in basketball, losing only two games. The season closed Saturday night (March 15) by defeating Colgate by a score of 22 to 17. It was a pleasure, when we played West Virginia, to meet Brother Dawson

from Gamma Pi. We sincerely hope that when West Virginia plays here again that any of the Brothers that may be with the team will come up to the House and meet their Brothers at Syracuse. This is extended to any college playing at Syracuse. Crew practice started about four weeks ago, and Brothers Griener and Fivaz are out for places in the varsity boat and Brother Severance is likely to sit in the freshman boat. Syracuse was a bit handicapped in crew at first, as Coach Tenycke was not back, though it looks now as if things would be as good if not better than ever. Gamma Psi is represented in baseball this year by Brother Olin Warren, and in track by Brothers Lee Emerson and Gordon Wilson.

March 5 marked the renewal of inter-fraternity smokers. On Friday evening, March 5, all the fraternities represented at Syracuse met in the trophy room of the gym and had a royal time, with many a song, and some very impressive speeches. Mayor Stone made a special effort to return from New York in time to be with us, and we were not disappointed. Professor Richardson, who has done so much to aid fraternities here and elsewhere, spoke to the "Brother Greeks" about the advantages of national fraternities, and also of the advantage of "majoring in fraternity" while in college.

The active Chapter have shown a lot of spirit and energy this year, with the result that we have one of the most representative Chapters at Syracuse. We have collected a number of back bills, and all the active men are paid up to the first of April. We have made a number of necessary repairs about the House, and repapered it inside. We take a little pride in this, as it was done without any assistance from the Alumni. Now we are preparing to have a "rip-roaring time" Founders' day, and we expect that a number of Alumni will be back with us that day.

We were glad to receive Brother Stoddard, Delta Upsilon, and also Brother Schneider from Gamma Theta, who visited us this winter.

LESLIE M. THOMPSON, Reporter.

CASE SCHOOL OF APPLIED SCIENCE

Delta Alpha Chapter

Second term's work at Case School was taken up the first week in February, and since that time social activities, fraternal and scholastic, have been in full sway. An R. O. T. C. unit has been established and at the time of writing about one hundred and fifty men have been signed up. Three hours a week are devoted to this course.

Delta Alpha is coming along in great shape. Throughout the period of the war

there has been, necessarily, an underlying state of unrest, one of continuous change. This is gradually being overcome and, with the returning of our Brothers from overseas, this state will disappear. The boys are coming "up and at 'em" with lots of the old-time pep. Brother Vanderhoof has returned to school and made the varsity in basketball. Brothers Crane and Price are also in school, having returned from service. Brother Roberts has been affiliated from Delta Sigma.

The week of February 15-22 was initiation week. The final ceremonies were held the night of the 22d at the Hotel Hollenden in conjunction with Delta Zeta. A "regular" Sigma Nu banquet followed. Very much credit is due to the untiring efforts of the Alumni, about seventy being present. The presence of Past Regent Walter Sears honored the occasion. We have the pleasure of introducing the following Brothers: J. J. Allen, Roder Bell, E. E. Evans and E. R. Torgler.

W. E. Hart, of Williamsfield, Ohio, has been pledged, and we have other good material in view.

On the evening of March 12, another dance was held in conjunction with Delta Zeta. About fifty couples attended. Plans are under way for a "formal," to be given in the latter part of April.

Sigma Nu finished fourth out of six fraternities in inter-fraternity basketball. Brothers Vanderhoof, Crane, McCullough and Price are out for Varsity baseball. Brothers Cryan, Allen, Bell, Evans and Wallace are in Musical Clubs. Brothers Cryan, Meyers and Hamlin are on the Case Tech Board. Brother Meyers has been pledged Alpha Chi Sigma. Brother Knowlton was captain of the Fraternity Basketball Team.

The average for the Fraternity in scholarship was 67. Brother Roberts was "high man" for February with an average of 81. Information regarding rank of Fraternities is not attainable, but we hope to better our position.

Brothers Hopper and Wilson have returned from overseas and are contemplating returning to school next year.

Brother Gage, Delta Delta, is spending a few weeks in this city and is staying at the House.

Brother Helk, Gamma Psi, was a visitor of a few hours with us.

Brothers Mochel and Ladner, Delta Zeta and Delta Lambda, respectively, are on the Faculty.

Brother Wenrick, '15, returned from service, spent a few weeks in the House and is now situated in Cleveland.

Brother Robinson, Gamma Nu, spent the best part of the past year with us and is now situated in Cleveland.

Brother Medsker has returned from overseas and is now in the city.

Two new pledges are hereby announced: W. K. Sauber, of Cleveland, and V. D. Maxwell, also of Cleveland.

Brother Wallace has been elected manager of the Case Musical Clubs for next year.

Brother Wilson, Beta Eta, is with us for a few weeks, being in Cleveland on business.

Delta Alpha is contemplating the moving into a new House in the near future. At present, we are situated with Delta Zeta, it having been thought best to do this as a war measure. Our relations with Delta Zeta have been most pleasant, the size of both Chapters being the direct cause for this change.

The Cleveland Alumni hold a meeting the first Monday of each month at the House. By this method, greater co-operation can be obtained. The effects have already been felt and it can now be said that they are aiding the Active Chapters to a very high degree.

JOHN N. McCLULLOUGH,
Reporter.

DARTMOUTH COLLEGE

Delta Beta Chapter

Everything at Dartmouth is running again smoothly and although we did not have as many men return as we expected we have several of unlimited capabilities who are working very hard on our new House proposition. In spite of the serious setback to our hopes for a new House when war was declared, now that we are getting organized we are hard at work for a new castle. There are, sadly, some old mortgages hanging over us that must be attended to before we can begin actual work of raising the money for the new House.

To facilitate this work we have a committee of six including the Commander and Treasurer, two Seniors and two Juniors, divided into two groups for work among the Alumni and Active Chapter. Because the Chapter is lacking in a large personnel from which to draw the necessary funds and action, our main efforts will have to come in a great part from the Alumni themselves. The need, however, to maintain a Chapter of the rank appropriate to the standard of the Fraternities in this college is so urgent that the Alumni cannot well refuse to lend us aid. The large number of men in the college and the small number of Fraternities make it imperative

for us to come through with a new House if the usual standard of Sigma Nu is to be maintained by this Chapter.

Pledges Ansin and Chevalier were initiated on March 9. We have an additional pledge, Charles Joseph Winkler, Jr., of Springfield, Mass.

Professor Chivers, of the Biology Department of this college, spoke to us recently about some of his trips in the northern part of this state. He also gave us some very good advice on our new House scheme and how we should spend our time in college. He is the best friend we have on the Faculty and has promised to take several members on one of his trips in June.

Dartmouth is now on the four-term-a-year basis. This means that a new term will start April 1, and also means that there is an opportunity for the men who were unable to return in January to return on that date. At present we have heard from two Brothers who expect to return.

Brother Foster was compelled to leave College on account of sickness, but will be with us again when the next term starts.
O. L. HODGKINS, Reporter.

COLUMBIA UNIVERSITY

Delta Gamma Chapter

Now that the smoke of battle has cleared away every man of Delta Gamma is pushing, his shoulder to the wheel, with all his might. We started the Chapter in February with fifteen active members and pledges. Since then we have combed the campus and pledged seven more men. Our rushing is still going on and we look forward to having a thriving Chapter before the end of the year.

The New York Alumni Chapter has helped us to solve our financial difficulties that resulted from the war. We owe a deep debt of gratitude to Brother Spalthoff, especially, who devoted himself most unselfishly to the local Chapter in a time of extreme necessity. Not only did he save the House for this Chapter, but set himself the task of putting it in order and renting it until such time as the old members could once more return to Delta Gamma. A friend indeed in a time of need was Brother Spalthoff, and the Chapter sincerely appreciates what he has done.

We beg to introduce the following recently initiated Brothers to the Fraternity: Arthur Thomas Beach, Brooklyn; John Lahaise Bazinet, Glens Falls, N. Y.; Donald George Tewkesbury, Shanghai, China. These, together with the older brothers who have returned, namely: Brothers Healy, Steinschneider, Houlahan, Shaw, Hildred, Kiendl, Relyea, Salmon, Sibley, Cusack, Beiswinger, Doubleday, Chapman, Hanssen

and McCormack constitute the active Chapter.

The following men have been pledged: Wilferd Forest, Brooklyn; A. C. Hartnagel, Little Falls, N. Y.; J. B. Macaulay, New York City; J. E. Comellas, Bay Ridge, and Wilson F. LeFevre, Kingston, N. Y.

With our House once more under normal conditions we welcome all Sigs, especially of the United States forces, who pass through this metropolis, to an old-time hospitality which of necessity we have been unable to accord since the war first depleted our ranks.

EILIF C. HANSSEN, Reporter.

PENNSYLVANIA STATE COLLEGE

Delta Delta Chapter

Since the March Delta, Delta Delta has changed entirely from a war-time Chapter to what we knew her to be two or three years ago.

There are thirty-five men living in the House at present and among this number are eight who have returned from various forms of service under Uncle Sam, five of them commissioned. Brothers Ely, Webster and Bailey all won their bars in the Artillery. Brother Crow was a Second Lieutenant in the Infantry, while Brother Allen was a pilot in aviation, stationed in California. The other men who have returned within the last two months are Brothers Brown, naval aviation; Fordyce, in the machine gun corps at Camp Hancock, and Bennett, in the navy at Puget Sound.

Four new pledges have been secured: L. D. Chopin, Nanticoke, Pa.; John Simmons, Philadelphia; Robert Blaney, Uniontown, Pa., and W. W. Rargeley, Jr., Christiansburg, Va. This makes a total of eighteen Freshmen since College opened last September.

Brother Sullivan was just recently elected president of the Senior class. Brother Hecht has earned a place in the Thespian cast, and is also leader of the Mandolin Club. Brother A. R. Ely has been elected to membership in Sigma Tau, the honorary engineering fraternity, and is on the Junior Prom Committee. Brother F. G. Ely is now a second assistant wrestling manager. Brother Weinschenk is on the Sophomore wrestling squad. Brother Riebenack is a second assistant baseball manager. Brother Pringle was a member of the Sophomore soccer team and also on the Inter-Class Sports Committee. Brother Keen is president of the second year (two year) agricultural class. Brother Good is managing the Freshmen boxers. Brothers Killner and Ray are members of the band.

Delta Delta's basketball five is holding down third place in the Inter-Fraternity League, composed of thirty-two teams.

Our February House party was one of the old fashioned kind. It was a great success, and now we are anxiously looking forward to June and another party. Our third House dance of the year is to be held on March 22nd.

Brothers Mullen, '17; Kenney, '17; Deveaux, '18, and Washburn, '18, have paid us recent visits. We hope that more of the Alumni will visit the Chapter and see our progress.

J. F. KELL, Reporter.

UNIVERSITY OF OKLAHOMA

Delta Epsilon Chapter

This being the last week before finals the men of Delta Epsilon are burning the midnight oil with a determination that the scholarship cup, which has decorated our mantel for a year, will become our permanent property.

With the opening of the spring quarter, March 19, several of our men will leave school. Brother Andrews, who graduates, has accepted a lucrative position with the Empire people as geologist. Andrews was the biggest man in the school of geology and was president of the Sigma Gamma Epsilon, honorary geological fraternity. He was our lieutenant-commander and we are sorry to see him leave the Chapter. Brother Young will quit school to assume the management of one of his father's hardware stores. We are sure the Tri-Deltas will grieve over the fact that he is leaving. There will be several of the old men, recently discharged from the service, to keep the Chapter up to the usual number. Among those who will return is Brother Hickman, a lieutenant in the air service, who has just returned from overseas.

After spending several hundred dollars on interior decorations, rugs and furniture, the House is once more an inviting place, and Sigma Nu has assumed her usual place at the head of the social world in the school. On March 29 the boys will fling the annual Bowery dance, on which date the Brothers promise to shoot up the town. Brother "Montana" Morris, our social light, has promised to escort his Theta queen to the dance on his trusty steed, the jackass. The annual Bowery dance, given by the Sigma Nu is recognized as one of the social events of the year around the College.

Under the guidance of Coach Bennie Owen, a wearer of the five-armed star, the University has produced two all-victorious teams this year. The football team went through the season without a defeat. The basketball team has just finished the

season with an unbroken string of victories to its credit. Pledge Cox, playing forward, was the only letter man from the House.

Brothers Miller, Staggs and Vahlberg, veteran letter men of last year, have reported for track. Brothers Darrough and Bosworth of last year's tennis team, are again playing this year. Several of the men are out for places on the baseball team.

Delta Epsilon was pleased to greet Brother Grant Harrington, who came in on us unexpectedly last week. Brother Harrington expressed himself as greatly pleased with the school and Chapter. Brother Harrington gave us an interesting and instructive talk on Sigma Nu, and coming from one who knows Sigma Nu, its history and what it stands for, as well as he does, it makes us all the more appreciate the fact that we can call him a Brother.

We have initiated the following new Brothers: John Lydick, Ed Waite, Robert Bosworth, J. A. Biggers, George Townsend, Dudley Wood and Laile Neal.

We have pledged during the quarter the following men: E. L. Fraker, Cherokee; Henry Noble, Alva; Sterling Mason, Mountain View, and W. N. Stahl, Perry, Okla.

Our Chapter roll now includes twenty-two active men and five pledges.

JOE W. CURTIS, Reporter.

WESTERN RESERVE UNIVERSITY

Delta Zeta Chapter

At the beginning of the second semester, February 3, the most gratifying fact for Western Reserve was the return of so many men recently discharged from the service. Brother Schofield from the First Gas Regiment, Camp Sherman; Lieutenants Shea and Searl, Field Artillery, Camp Taylor, and Brother Suhr, who had been in France with the Anti-Aircraft Artillery. As a greeting for them, Reserve has an immense new gymnasium practically completed. The outlook for both indoor and outdoor athletics is very materially brightened by it. As it was, the basketball team landed near the top in the Ohio Conference by holding practice on no less than five different floors. Sigma Nu has several candidates for the track team.

Although hampered by the S. A. T. C., the various activities are now back on the old footing. The Pan-Hellenic under the circumstances decided not to award the Scholarship Trophy for last semester. Sigma Nus are bending their efforts to win it the one lone necessary time for permanent possession. Brothers Rolli and Warnes represent Sigma Nu, the former a member of the committee to draft the constitution of the association.

Brother Schofield is a member of the Student Council. Brother Shea holds a pivot position in the Mandolin Club. Other representatives on both Glee and Mandolin Clubs are Brothers Wagner and Warnes. Brother Searl, as usual, continues his athletic activities. Brother Pittaway is an active member of the Y. M. C. A. cabinet, which is accomplishing some good results. Although only a Freshman, Burri has been pledged in the Star and Arrow Society, a national honorary athletic organization, into which Brother Searl was initiated last year.

We welcome into our midst four new Brothers: Clyde D. Hartman, R. A. Burri, William C. Kramer and William D. Wolfe; also Pledge A. C. Jones. The initiation was held February 22nd at the Hollenden Hotel, this being the occasion of the Annual Alumni banquet. Among the notables present was Past Regent Walter J. Sears, whose presence was deeply appreciated. Nearly a hundred were present, of whom at least twenty-five per cent. had been in service. We were highly pleased with the Beta Iota representation.

A dance for Delta Zeta and Delta Alpha initiates was given on March 12, at which there was a large attendance of Alumni and active men. A formal affair is being contemplated. Alumni monthly meetings are being held at the House, which, owing to the co-operation of Delta Alpha, is in splendid shape.

Delta Zeta's scholarship average for last semester was 77.5, slightly higher than usual for the first semester. Although other fraternity standings were not officially announced, we are certain of having been near the top, if not on top.

That 11448 Euclid Avenue does not exist for naught among the Alumni is shown in another Brother's letter in this issue. Though the help of Brother Howard K. Hunter, our Chapter adviser, whose able assistance after the disbanding of the S. A. T. C. can never be fully appreciated, we believe we have made the House a place which you, readers, will desire to come and visit. With the assurance of Brother Dale Hartman's return to College next fall, and with all except the two graduating Brothers, Shea and Schofield, planning to return, we predict encouraging possibilities.

CLOYD E. WARNES, Reporter.

This is a report made by Brother Rolli at the Cleveland Alumni banquet on February 22nd:

Today is the tenth anniversary of Delta Zeta Chapter of Sigma Nu, and I think it appropriate to tell you the happenings of the last semester and the present status of Sigma Nu at Western Reserve University.

We came back to College the last of September and found the House very ably managed by the Delta Alpha men. We entered the Student Army Training Camp on October 1st. All the Case men were immediately put in barracks, and by the first of November all the Reserve men were in barracks, leaving only four older men in the House. It was quite a proposition to run such a large House as ours with such a few men living in it. It was then that every man of Delta Zeta Chapter showed his true worth to Sigma Nu by working right with the commander and treasurer and thus making it possible for us to keep the House when other fraternities had to give theirs up. The Chapter wishes to thank Howard Hunter, our Chapter Adviser, for his good counsel and good work, which enabled us to pass the crisis safely.

Even though we were in the S. A. T. C. and hampered by military control we worked all the harder in rushing Freshmen and pledged fourteen of the best men in the class of '22, which was a larger number than any other fraternity pledged. Then they began sending men to Officers' Training Camps. Twenty-five men were sent to Camp Zachary Taylor, which is a Field Artillery Training Camp. One-fifth of this number were Sigma Nus and pledges, including Mort Shea, our eminent Commander, and "Doc" Searl, the youngest football captain Reserve ever had. Then the armistice was signed and all the Delta Zeta and Delta Alpha men were back in the House by December 21st.

The second semester started the first of February with everything going fine. Four old men came back from service and started in College again. They are: Brother Suhr, who went to France in Anti-Aircraft Artillery; Brother Schofield, who was in a chemical warfare division at Camp Sherman, and Brothers Shea and Searl, who came back from Camp Zachary Taylor with commissions in the Officers' Reserve.

The Chapter is well represented in activities this year. Brother Searl, a Junior, was captain of the football team, and Pledge Burri made the Varsity in his Freshman year. We came out second place in the scholarship standing the second semester of last year. The trophy was not awarded for the first semester of this year on account of the S. A. T. C. being here, but we are working hard and hope to get it back this semester. We are well represented on the musical clubs, having two men on the Glee Club and four men on the Mandolin Club. Brother Schofield, our Eminent Commander, is on the Student Council and Brother Krock is assistant baseball manager.

With ten active men, including only two seniors and four initiates, the outlook for next year is fine indeed.

In conclusion, I wish to say that we are all striving to approach the ideals and examples set by such Alumni as Howard Hunter, Perry Caldwell and Harry Rider, who have always stood by the Chapter in every crisis and shown us the true meaning of the Brotherhood of Sigma Nu.

DON ROLLI.

UNIVERSITY OF NEBRASKA

Delta Eta Chapter

Delta Eta sprung a big surprise on students and faculty of the University of Nebraska alike when they topped the scholarship list for the year 1917-18. The long delayed list of Fraternity standings appeared the first of February showing Sigma Nu ahead of all other Greeks. Alpha Tau Omega was a close second in the race. This means that the Chapter House will be adorned with large silver loving cup for the rest of this year and part of next. Resolutions run along the line of "Let's not let it go."

The House and table are running nicely. We have twenty men living at the House and several town men who drop in for their meals. The list of active initiates in the Chapter is about as large as it has ever been. Four worthy pledges are also working diligently to be initiated.

We are making plans at present for our spring banquet and our hall party. The Chapter is also getting an abbreviated "newspaper," which is being sent to other Chapters and to our Alumni. Everything is being done to get the Alumni interested in the Chapter and its welfare. The Chapter is planning on obtaining a new House for next year. There is a possibility that we will either buy or build a House.

Our prospects for men on the football team next year are excellent. Brothers Wade and Monte Munn and Pledge Verne Moore are out working hard in the spring practice. The Munn brothers were both members of the Varsity squad last fall and are practically assured of their positions on the 1919 squad.

Pledge Verne Moore, three years a star and one year captain of the strongest Nebraska high school aggregation, promises to do big things on the yearling team next fall. He returned from the navy in February and started to school then.

If athletic authorities should decide to revive Missouri Valley baseball, Brother William Mackey is sure to make a stir. He was one of the leading twirlers of the team two years ago. Brother Wade Munn has been working out in wrestling. Brother Monte Munn is doing the jumping for the Freshman basketball quintet.

Nebraska Sigma Nus went to the third round in an Inter-Fraternity basketball tournament, being eliminated by Alpha Tau Omega after a hard fought game. Pledge Beckard is showing up well in middle distance running. He is getting into shape and expects to make a few track trips before the season is finished.

Brother Landale was recently elected Junior managing editor of the 1920 Cornhusker, Nebraska's annual. He was also elected to membership in Sigma Delta Chi and Viking, Junior honorary fraternity. Pledge Byron Hooper is a reporter on the Daily Nebraskan, Brother Ben Lake and Pledge Guy Bowen are on the staff of the Cornhusker. Brother Ben Lake was appointed chairman of the Freshman Ivy Day committee.

We have been staging about one or two House parties a month since we moved back in the House. In addition to these, we are planning on an informal hall dance. Everything is in shape now so that we can start off next fall on one of the most successful years that we have ever had. There are still about five or ten of the men who have not yet completed school and who have not returned from the war. For this reason we are expecting at least twenty strong old men back in school in the fall.

JACK LANDALE, Reporter.

LOMBARD COLLEGE

Delta Theta Chapter

After three months of normal everyday life, following the period of such unsettled conditions brought about by the great struggle just won, we are again beginning to feel civilized to live as of old and it sure is great.

Several of our Brothers who were with us the first semester were not able to return in January and our number is not as large as we had expected. We are glad, nevertheless to report things in the best possible condition. We have fifteen men in the active Chapter, twelve of whom are living at the House. On February 9th we initiated Brothers Carlson and Wycoff, the former of Kewanee, the latter of Oneida. This leaves us three pledges. Neophyte Vance is at present under orders and will soon be one of us.

The S. A. T. C. has left the College in an unsettled condition. We find it hard to get our standing in the College; the curriculum seems to be in a mess, there seems to prevail a feeling of unrest and to be frank we are having difficulty in getting satisfactory results, especially from the Freshmen. Consequently, we have inaugurated a sponsor system and each Freshman is asked to furnish a schedule of hours to his sponsor who plans his study hours for him

sets his hours for recreation and ure. We are not able at this time to e data on the scholarship standing of Chapter in comparison with other Frates, but we do believe that the scholas-rouble is general and that our Fraty is as high as any in the College. mid-semester exams will be given on h 24-25 and then we will know our ling definitely.

February 28th we gave a House party bout thirty guests. The evening was in card playing and dancing and one enjoyed themselves to the ut-. We now have a social committee they have arranged a very nice social dar of events and each month we are ing to entertain and so bring Sigma nthusiasm into the life of others.

financially we are doing our dead level and are certainly glad to report all and above board. The Chapter is pay-out in fine shape. We have had sev-gifts from mothers and sisters of our hers over there and this money, with ceived from back bills paid, goes into serve Fund. No current expenses are from the reserve, but only such bills mprovements, repairs, etc., are paid this. We have also purchased a fine Victrola which furnishes a great deal ntertainment and also adds to the ty of our living room.

seball season will soon be starting and ave five men who will go out for the . Brother Graham, who has held first for the past three years, will his last year of ball and is sure of a on the team. Brothers Carlson, as, Anderson and Nowers will also fur-some good excitement to those who o beat them out of a place, as each played quite a bit.

o greatly enjoy the letters of our hers who are still in the service and are usly awaiting the homecoming. We like to have the fellows run in on us old time in the night and wish to take opportunity to extend invitations for as and to visiting Brothers.

others Stephenson, Anderson and Bates been cast in a series of plays to be by the Dramatic Club in the near e and are busy evenings in rehears-

HAROLD S. BATES, Reporter.

ATE COLLEGE OF WASHINGTON

Delta Iota Chapter

lta Iota is coming back into her own. y this because Delta Iota, as far as giate activities were concerned, has on a slump. But I will also state that r as patriotic endeavor was concerned Iota Chapter of Sigma Nu leads all

the fraternities on the campus in national activities, and without a doubt that was the large game that was our duty to play during the past eighteen months.

This letter is indeed a hard one to write because I have just returned. To follow the usual form expected by our worthy Editor is out of the question, so I shall write of conditions as I found them, and as they are after three weeks' stay in the "shrine of shrines."

Three weeks ago Delta Iota's Chapter House was standing like a large ghost on fraternity row. The sounds of merriment that had previously issued from there were lacking. Blinds were drawn; general appearance was far from good; it appeared that poor citizens were holding forth in a property that had formerly had a good reputation for cleanliness. Inquiry divulged the fact that the men who were supposed to polish the brass name plate, were living in the college dormitory, Ferry Hall.

Further inquiry brought names that were familiar only through correspondence. They were the names of three one-semester freshmen of the school year of 1917-18, Richard Cisna, George Bohanon, and Phillip Yennery. They had failed to keep things going because of duties imposed by the S. A. T. C. authorities, and because of the lack of a leader.

The leader appeared. Charles J. Broughton, Jr. a leader of campus activity in pre-war days, came back for a visit. He stayed on, organized the three, "cleaned house," looked around the campus, met prospects, developed and pledged them, then wrote to other boys that could come back for the third quarter.

As a result of his work, Edward Copeland, basket ball player, late in the service of the Navy, Michael Moran, Richard E. and Roy Hanley, Mare Island Marine football players, Lloyd Edwards, Army, Earl Dunlap, Army, Merrill Davis, Navy, Eric Egge, Lymert Knettle, Aviation, Alex McGregor, Harold Hanley, Lorrains Kuykendal Marines, and Earle McCroskey, Navy, have come back. He pledged Howard Pelan, Potlatch, Idaho, and "Jack" White, Wallace, Idaho. Three of these men will graduate, Broughton, Egge, and McCroskey. The others will still be here next year.

Our Adviser, Frank E. Sanger, just returned from the legislature at Olympia, Washington, where he was considered one of the leaders. He has kept the finances of Delta Iota in good shape out of the balance left by "his boys," and has again taken the helm to steer their ship through the still waters that lie ahead as he did when a storm was brewing.

So Delta Iota can again be classed as one of the good Chapters for the resolve to

make Sigma Nu THE Fraternity of the campus is no small animal.

AN OLD TIMER.

My attention was just called to the delinquency of Delta Iota in the March Delta. I know not when the report for the May Delta is supposed to be in, but it seems to me that it should be there at least by the end of this month, so I am taking the liberty to write for Delta Iota, although I have no official power to do so.

The reason for the trouble is that all of the upper-classmen were in the service. We have had three members here all year, but they were one semester freshmen from last year, so did not have the necessary initiative to carry on the work. The truth of the matter is that members of Sigma Nu from Delta Iota, were TOO PATRIOTIC in so far as their fraternity was concerned. We lead the school in enlistments, having some thirty odd more fellows in the regular service, barring the S. A. T. C. than any other group.

I myself just returned for this quarter for necessary work to get my degree, so my letter I fear, will not be a prize winner.

EARLE McCROSKEY.

DELAWARE COLLEGE

Delta Kappa Chapter

True to our slogan, "Over the Top", the Brothers of the Delta Kappa Chapter have carried off honors in the college in athletics and in scholarship. With a Chapter of forty-one men we have carried on such active and effective work in the college as to make the Sigs the recognized leaders on the campus.

Two Seniors, Brothers Longland and Mackie, have been elected to the Honorary Fraternity, Phi Kappa Phi. Now that the first semester exams are over and the reports have come in, we have every reason to believe that the scholastic standing of the Sigs here is the best of the four Fraternities.

Recently a varsity club was organized in the college and Brother Marston was unanimously elected president. Of the membership of the club twelve are Sigs—the majority of the Fraternity men being Sigs.

In basketball Brothers Captain Marston and Alexander received their "D's" for their spectacular work during the most successful season. Brother Cantwell, manager, also received his letter.

Recently, Brother Landon Smart returned to college to finish his last year. Brother Smart's record made during the severe fighting in the St. Mihiel drive is an enviable one. (For his picture and record, see "On the Way to Berlin".)

In the line of social activities the Chapter is holding its own in the college. On March 22, the entire Chapter is going to Dover to play the Dover High School and the Wesleyan Academy basketball teams. After the game, there is to be a dance given by the Dover teams in honor of our Fraternity. We have taken this method of advertising the college and the Fraternity in the lower part of the state and the results are exceedingly satisfactory.

Our home is in an excellent condition and there is ever a merry crowd around the House to welcome any of the Brothers from other Chapters;

So Brothers, whenever you feel blue
Come down to Delaware
And stay awhile with SIGMA NU.

WM. A. HEMPHILL, Reporter.

BROWN UNIVERSITY

Delta Lambda Chapter

College has opened and we are well on our way through the third term. Fraternity activities continue with the coming of Spring. Delta Lambda has arranged to purchase a small hotel near the Campus, for our numbers increase with our ever widening range of activities. A number of the Brothers from Delta Lambda, too numerous to enumerate are among the prominent members of the Junior Prom, and Junior Week Committees. Brother "B. S." Haley '19 has been chosen Class Orator for Spring Day. The Senior Class had no choice in the matter for Brother Haley leads them all in his particular "line."

Sigma Nu and the Brown University Glee Club made a good showing at the triangular concert at Columbia on the evening of March 29, Amhurst, Brown and Columbia uniting to show New York what some real music was like. Delta Lambda sent seven men on the Glee Club, and they all came back too! We had hard work to drag Bro. Aylsworth out but he finally came. Delta Gamma of Columbia entertained us Sunday afternoon. "Tales of a Shavetail," by Brother Healy, of Columbia, entertained us for a time, until Brother Brown, of Delta Lambda, tells one of Delta Gamma's Brothers what he thinks of Harvard, whereupon we all beat it for the boat.

Delta Lambda is greatly augmented by a new addition to the Chapter in Brother Chapman from Bethany. He is a live wire and we are glad he is with us.

Brothers Fort, Weddell and Richardson have returned recently from overseas and intend to register with us next fall.

Delta Lambda has settled right down to business, we are soon to have a new home.

ier Grindle has shed his uniform for
and we are in a normal condition.

STANTON A. BURDICK, Reporter.

STETSON UNIVERSITY

Delta Mu Chapter

Delta Mu is at present in a most satisfactory condition. We have as large a membership as could possibly be expected under existing circumstances, as the University is still feeling the effects of the war. Since the demobilization of the Students Army Training Corps, a unit of the Reserve Officers Training Camp has been established here and already practicing every one of our men who has been devoted to the military, has received an appointment as cadet officer. We have had so many so honored as Brothers Emerson, Landis, Tatum, and John G. and Mel H. Harris. At least three of the Brothers are now in line for recommendations for commissions in the Reserve of the United States Army.

On Monday, March 17th, the annual Sigma was given at the Putnam Inn, one of the leading hotels and every one voted there a great success. Brothers Conn, Jun. Walters and Conrad of our Alumni came back on the campus and attended.

Plans are now being made for the acquisition of a House for the coming year and usual when we speak of renting a House there is much talk of building. However, we shall rent one for the coming year as we do not feel strong enough to build at the time, but hope to get to the building seriously the following summer.

Prospects for next year are very good as all of our best men are now intending to return and, with the return of the Expeditionary force, we will have others back.

S. H. HARRIS, Reporter.

UNIVERSITY OF MAINE

Delta Nu Chapter

The University of Maine is slowly but surely returning to normal standing after the conditions caused by the S. A. T. C. and interfraternity activities are taking their former place. The "old Maine spirit" is surely coming back. Due to the fact that a great many men are returning from the different branches of the service and also on account of the confusion caused by the Students Army Training Corps, the Faculty has so arranged the courses that we are able to begin right in exactly as it was the first year and still receive a full year's credit for the remainder of the year. Even though this help is given students, the attendance here at Maine is below normal, being only about 700 students registered.

Due to the high cost at the present time, the college authorities have seen fit to ask the Maine Legislature for \$200,000 to cover the actual running expenses for the coming two years and \$100,000 for needed repairs. At this writing the above bill is before the Legislature but vote has not been taken.

Out of the chaos of existing conditions, Delta Nu is gradually coming to the foreground in student activities. In the two recent interfraternity track meets, we won the first by a margin of four points and in the last we took second out of the thirteen competing fraternities. Brothers Sewall, Emery and Quinn are on the varsity track squad, Brother Sewall being the best high and broad jumper in college. Among the Brothers who are striving for positions on the baseball team are Willard, Purinton, Sturtevant, Gregory, Dolloff and Pinkham.

The years of '19-'20 loom up as the biggest in Maine's history. With the return of the men in service the university and Delta Nu should thrive as ever before.

STUART F. WALKER, Reporter.

UNIVERSITY OF IDAHO

Delta Omicron Chapter

The University of Idaho during the first quarter was little more than a military academy with the Student Army Training Corps in full swing and every part of the school devoted to war work. The men were all quartered in the various Fraternity Houses, which were used as barracks. And a large mess hall was constructed where everyone had "mess". Little or none of the usual college activities were carried on as the S. A. T. C. had hardly established itself before the influenza epidemic hit the school and the strictest of quarantine regulations were put into effect.

During the reign of things military in school special courses in auto mechanics, radio, gas engines were established in the Engineering Schools, while several war courses were offered in the Departments of History and Language.

The only thing that even savored of usual college life was the football season, which was more successful than it has been for several years, Idaho winning three out of four games, one of which was with Idaho's ancient rival, Washington State College. The only defeat the team suffered was at the hands of the famous Mare Island Marines.

With the opening of the second quarter the school has resumed on a peace basis and life is slowly adjusting itself, although things are far from normal.

Sigma Nu at Idaho during this year has more than held her own, despite the fact that we had only three Juniors and one Senior here in the fall. The Fraternities had only club rooms in town, in most cases at a considerable distance from the campus, and all men were under military discipline six days a week. These two facts made any attempt at organization extremely difficult. In October when school opened the following men returned to college, joining the S. A. T. C.: Richard Westover, Ted Hege, W. H. Carder, Walter Burnside, Boyde Cornelison, Lew E. Morris, Emmett Spiker, Clarence Chariton, Albert Graf, Garde Wood, Titus LeClaire and Ralph Gochmour. The following men were pledged: Howard McQuaig, Gail Chamberlain, Harold Dart, Clarence Bull, Harold May, all of Coeur d' Alene; Alfred Hollee, and Howard Hechtner, Lapwai, Idaho; Gipson Stalker, Lewiston, Idaho; John Watkins, Caldwell, Idaho; Victor Johnson, Payette, Idaho; Clayton Westover, Moscow, Idaho.

With the opening of the second quarter we moved back into the House and have since established ourselves as a regular going concern. There are now fourteen men in the House. Brothers Wood, LeClaire returned after the holidays. Brother Kenn Hunter returned from the navy and Brother Kenn Newland from the army and are now both living in the House. Pledges Howard Hechtner, Jack Watkins and Gail Chamberlain came back and are in the House, while Brothers Carder, Morris, Cornelison, Richard Westover all remained in school, while Brothers Garrison and Patton, released from the navy, again entered school. All these men live in town. Pledge C. Westover is also in school but lives in town. The other pledges, who did not return, were kept out of school on account of financial reasons. We have pledged five new men this quarter, Clarence Hechtner, of Lapwai; Jack Jimmerson, of Payette; and Carl Nagel, Harry Emerson and Jack Hasfurther, of Genesee. Hechtner came as an agreeable inheritance. Jimmerson has been a friend of the bunch so long that he has been considered one of us for several years. Nagel is a letter man in football and Emerson, and embryo debater. Hasfurther just returned from the army and plays the violin.

In the football season Brothers Cornelison and Graf both made their letters, an "I", with a red "US" on the block of the letter. Pledge Nagel also made his letter in football, while Brother Hunter since his return from the navy sports a last season's baseball sweater. Brother Cornelison was picked for end on the mythical "All-Northwest Eleven".

Keen Newland was editor-elect of the "Gem of the Mountains", the college annual published by the Junior Class each year, and Lew Morris, Business Manager, but

due to financial conditions the Junior Class suspended publication of the book for this year, so perhaps the less said of that matter the better.

Garde Wood is yell-king, and rules his two dukes in a right royal fashion.

Boyde Cornelison is athletic manager, and secretary of the Associated Student Body of the University.

Sigma Nu won the cup in the Inter-Fraternity basketball series last year, but our chances for this year look rather slim. At this time we have lost two out of three games played, but when we consider that we started out in much the same style last year we still have hopes.

It has been only since the new quarter opened that any social events have been permitted on account of the influenza. So many general college events were postponed that the calendar has been full, but we have given one dinner party. When things are better adjusted we expect to give a series of House dances, and one large dance.

Inspector Hiram C. Sampson of Spokane, Washington, made us a visit in the first quarter, met all the men and gave us a talk on Fraternity matters.

We are frank to say that scholastically we are not what we should have been last year. We were third out of four national Fraternities on the campus. The only explanation we can give is the fact that last year we ran with only Sophomores for upperclassmen, all the older men being in the service, a condition that did not prevail to any such extent in any other House on the campus. And we can only say that we are working this year to get back to our old first place, which we held year before last.

The old men are drifting back to the House pretty regularly these days. Lieutenant Ronald Miller, '16, Charles Ficke, '17, and Bert Lattig, '15, both just out of the service, Lieutenant E. E. Hunt, '19, just returned from France, and Lieutenant Grover Evans, '18, have all visited us in the last month.

With the close of the second quarter of the scholastic year, 1918-19, Delta Omicron is an active Chapter of eleven members and ten pledges. Of these fourteen live in the House and seven live in their homes in Moscow.

Brother Edmond S. Meany, Gamma Chi, visited us March 6th. A fine man we found him, and a good Brother. He is still a boy, although he has seen many years. We hope that every Chapter in the northwestern States may learn to know him.

Idaho this year claims the Pacific Northwest basketball championship. Of the five regular members of the team this Chapter

has one representative, William Carder. Brother Cornelison is Idaho's first student manager of athletics.

Many old members have promised to return next fall. It is now expected that there will be thirty-five members active in the Chapter next fall.

VERNE PATTON, Reporter.

GEORGE WASHINGTON UNIVERSITY

Delta Pi Chapter

Active Chapter men are very much indebted to the Alumni who extended the helping hand during the past year. Brothers returning from service are surprised to find the excellent condition of the Chapter.

A strong bond of feeling has always existed between the Alumni Association and the Chapter. The united benefits derived from such co-ordination is very apparent. The Alumni Association now holds its meetings at the Chapter House and it enables the younger men to become acquainted with the older Brothers.

Too much credit cannot be given to Brothers Harris, Shaw and Chasmer of the Alumni for their efforts both in the Alumni and Active Chapter work. With such men at its head the Alumni Association will make the success to which all present indications point.

The second semester of the school year is starting with an increased enrollment. Two new courses have been offered this term, one in Commercial Law and the other in Marine Architecture.

Our Inter-Fraternity Association has been working steadily and great credit is due it for the friendly relations existing between the Faculty and the Fraternities.

The abolition of the Student Army Training Corps and the release of the men at the various camps has greatly aided Delta Pi. Many of the old men are now back in the Chapter and college. Brothers Delany, Miller, Nicholson, Sutliff, Styer, Steltz, Kebler, Tibbetts, Chamberlain, Boyd, F. G. Cole, H. E. Cole, Swem, Harris, Sheriff, and Lee have been answering the roll call since the beginning of the second semester. Brother Spring of Lombard Chapter, has affiliated with our Chapter.

With the assistance of various of the Alumni the active Chapter has brought to a successful close its mid-year rushing season with these pledges: Messrs. Burdick, King, Ricker, Hayes, Stickle, Owens and Kramer.

Delta Pi, as usual, is at the front with social activities. A series of enjoyable smokers have been held on Wednesday evenings, February 19 and 26, and March 5.

On Friday evening, February 21, our usual Washington's Birthday dance was held at the Chapter House.

All indications point to a high average in the scholarship of the Chapter.

Delta Pi can boast of being the most cosmopolitan of Chapters. The guest book shows visiting Brothers from almost every Chapter of the Five Pointed Star. One of the pleasant surprises of the past week the visit of Brother Yates of Virginia Chapter. Having just returned from eight months' active service in the West Indies, his talk to the assembled Brothers was most interesting.

MILO J. SUTLIFF, Reporter.

COLORADO AGRICULTURAL COLLEGE

Delta Rho Chapter

As we look over the Chapter letters as they appear in the December Delta and observe the great number of delinquents along with our own rather brief report we cannot but wonder as to the final effect of this world's struggle upon the different Chapter organizations. And at the same time we feel that our Brothers and the High Council would like to know as to the conditions at the Colorado Agricultural College and the activities of Delta Rho.

With the establishment of the S. A. T. C. in our school the Fraternity Houses were all given up and practically all Fraternity activities ceased, such being the wish and in fact demand of the college authorities. Through inter-fraternity rulings all rushing and pledging was put aside until after the war and in the meantime our Brothers, one after another, enlisted in the services of their country until, out of a total membership of eighty-two men, between fifty-five and sixty were wearing the uniform. Thus practically all the active men were in the service as well as the greater part of the old-timers and as a Chapter we feel that we can feel proud of our record, more especially since a great many of the Brothers were possessors of commissions and the rest of them "on their way". But all this quickly becomes a matter of the past and it is now the future of the Fraternity that demands our time and attention.

At a meeting held, on the afternoon of February 2, there were eight Alumni present along with the five active men who are now doing their bit in looking after the welfare of the Chapter and proving faithful to the trust left to them by their Brothers who are now in foreign fields. That we were the hardest hit of all the Fraternities in this institution we admit with pride and do not feel in the least resentful toward our rival organizations who have a much larger number of men back, fresh from the "farm" and elsewhere. Is not Sigma Nu a Military Fraternity, and is it not

natural that we should be foremost in answering the call to arms in a just cause? It is a part of our creed and we are happy to have lived up to it. Our Brothers will be back too, if letters mean anything, but it is a long trip across the pond and many are still needed in the services of their country. Thus we must wait with patience and be just that much prouder of them when they do come.

At our last meeting we were more than pleased with the manner in which the Alumni responded and still more encouraged by the attitude which they showed toward backing us up and taking a more or less active part in Fraternity affairs, thus making up for our small numbers.

Financially, we are on a smooth sea and can see our way clear up to the beginning of school next fall when a large number of men will be back and things will again approach the normal. Our House is sub-let for the rest of the year at an advance of ten dollars a month over what it costs us. It comes back to us in the fall and we consider this a master stroke since it is easily the best Fraternity House obtainable in this city.

Our House Fund continues as before, there being \$800 of it invested in Liberty Bonds and we are now in a position to purchase a suitable building site, a committee having been appointed to work on that proposition.

It has happened to Delta Rho what formerly would have seemed an impossibility. If such a thing had been intimated one year ago, it would have been called a fallacy—that Sigma Nu in Fort Collins would present but five active members: Brothers I. E. Nebeker, E. D. Whatley, J. C. Atterberry, F. W. Knapp and G. G. Feldman. However, the latent spirit of "Old Sigma Nu" needed no resuscitations for once imbibed it is immortal and we reorganized our activities at the close of the S. A. T. C. by the ever helping hand of our Alumni. Freshmen being few and competition keen, we were able to pledge two men, Joe Knapp and Oliven Osburn, who will be two real Fraternity men. We are proud of them.

Owing to the fact that so few of our men are in college at present and that so many will be back next year, we did not open the House. We meet regularly each week in conjunction with the Alumni and camp on our fraternal duties as he did formerly. We made wonderful progress with our House in the past along financial lines, tiding us through the crisis of the S. A. T. C. Our building fund is well represented in Liberty Bonds and we expect to make use of it soon.

We are looking forward to the greatest social function of the college year, the Sigma Nu annual dance and banquet.

JAMES C. ATTERBURY, Reporter.

CARNEGIE INSTITUTE OF TECHNOLOGY.

Delta Sigma Chapter

The school is rapidly nearing the appearance it had in times of peace. The campus is still marred with unsightly barracks, mess halls, etc. The latter, however, are being torn down and the number of men in uniform is becoming smaller each day.

Practically all the men in the collegiate section of the S. A. T. C. returned to school after the Christmas recess. These together with the considerable number of men returning from the different camps brought the attendance up to almost normal. The Chapter welcomed Brothers Toler, Lohr, and Howell from O. T. C's; Curtis from the Great Lakes Naval Training Station; Sweeney, from a naval aviation camp, and Barrow, from Chemical Warfare Service in Washington, D. C.

No data is obtainable at present concerning the scholarship standing of the Chapter. It has been definitely stated, however, by members of the Faculty that Fraternity men rank higher than other men in school.

The Chapter Entertainment Committee, composed of Brothers Fair, Campbell, Hiller and McClean, has been doing excellent work in arranging smokers, House dances, etc. A committee from the Pittsburgh Alumni Chapter is working with the Chapter Committee on a formal dance which will be held on May 2.

Brother Edward R. McKee visited the Chapter for a few days. He has just returned from France where he saw active service with the 1st Gas Defense Regiment.

Since the reopening of school the following men have been pledged. A number of them will be initiated on March 15.

Charles D. Dyer, Leonard Z. Cardot, Grant C. Stone, Walter S. Temple, Harold D. Skyrn, George G. Hester, Herbert H. Krane, Forest H. Floyd, Gilbert E. Tucker, Vernon K. Olsen, Furman H. Rhinehart, Edward R. Gibson.

WM. E. DOUGHERTY, Reporter.

OREGON AGRICULTURAL COLLEGE

Delta Tau Chapter

Delta Tau Chapter has safely passed through the critical period of reconstruction and reorganization following the demobilization of the S. A. T. C. unit located at this institution. We have resumed possession of our Chapter House, reorganized our Chapter and we are now working to make this year a successful one in spite of adverse conditions.

Brothers returning to college for their opening January 6, are as follows: O. D. Dadmun, R. A. Stewart, W. Anderson, R. L. Benner, F. J. Glennon, Boetticher, R. A. Nebergall, H. W. Z. A. Wise, R. H. Warrens, and F. ck.

list of pledges is as follows: A. r, L. Knapp, A. G. Morrill, E. K. it, E. E. Larimore, M. P. Hoefler, W. nald, A. Butler, T. B. Malarkey, E. one, C. Dunn, R. Veatch, D. Dunne, lauf, and H. M. Taylor.

campus has been improved by the on of several new buildings. A new y-building was made ready for occupation this past semester. A new Y. M. C. was erected during the reign of the P. C. as well as several barrack buildings. These buildings are well constructed and will be permanent buildings on the campus. A Horticultural by-products building and several minor buildings have been erected on the campus.

her F. N. Bock and Pledge A. Hodler were successful candidates in the annual election for the Mask and Dagger Dramatic

hers R. H. Warrens, H. W. Kyle, and Bock are members of the Sophomore Fraternity Committee, an organization which is in charge of Freshman discipline.

her R. A. Stewart and Pledges A. r, L. Knapp, G. Schwind, and E. K. t were on the varsity football squad. E. Vanstone is on the Freshman basketball team.

her O. D. Dadmun was recently elected president of the Senior Class. r Dadmun is also President of the Fraternity Council and a member of Student Council. There is a very strong and democratic feeling among the fraternities on the campus. The Fraternities are working together and by close cooperation are accomplishing much along the lines of Greek letter organization and improvement of conditions resulting from the A. T. C.

influenza epidemic, which has been severe in this section of the country, made social events of any kind an impossibility. At present conditions are better and we are planning on holding a number of dances and other entertainments during the remainder of the

her E. G. Anderson, '16, visited the campus several times during the past year. Brother Scott P. Hart, '12, who returned from service on the western front, paid the Chapter a visit shortly after Christmas holidays. He had many interesting things to tell about life in France.

He spoke of meeting "Sigs" at the front and of informal gatherings held back of the lines. Brother W. C. Franklin, Gamma Chi, spent a few hours with us a short time ago.

With eleven Brothers returning for the second semester and eleven pledges, Delta Tau is starting to bring the Chapter back to a normal basis. We are back in our Chapter House and are endeavoring to wipe out the unfavorable effects of the S. A. T. C. Several of the old men who left school to fight for Uncle Sam will probably return. We are sadly in need of upperclassmen and the return of the old men will be welcomed by all the Brothers.

A short time ago the Oregon Legislature visited the college and reviewed the military department and looked into the various needs of the institution with a result that a few days later an appropriation of \$700,000 for the institution was made, \$160,000 is to be spent for a new three-story engineering building to contain all the modern equipment and experimental laboratories necessary for such a building. The rest of the appropriation will be used to provide a new swimming tank, an annex to the Home Economics Building and general fund for agricultural experimental stations.

The week-end of the review brought several of our Alumni to the campus. Among them were Lyle B. Kiddle, '18, and wife, also Clifford Ross, '16, and wife. We certainly were glad to see them and wish that other of our Alumni would pay us a visit.

Due to the unsettled conditions of the S. A. T. C. and ruling of the college authorities we were unable to initiate our pledges this semester. However we intend to initiate as soon as possible. We have a fine bunch of them and will be proud to have them as Brothers.

ZINA A. WISE, Reporter.

COLGATE UNIVERSITY

Delta Upsilon Chapter

Colgate is fast beginning to be reconciled to the tranquility of peace. The S. A. T. C. wrought havoc to a certain extent here, especially in the Fraternity Houses. In fact our House was stripped for a diphtheria hospital. But perhaps the most noticeable change was the decline of Colgate traditions resulting in an apparent lack of Colgate spirit and "fight". The military regime evidently caused a reaction which is extremely deterrent in small colleges. Under the careful nursing and guidance of the upperclassmen this feature of Colgate life is again blooming forth in all its glory.

Through work and constant effort things are now righting themselves and once more we see the sunny side on top in the "little college on the hill." The men returning

from service find conditions settled, just as if war had not revolutionized the entire curriculum. Athletes are returning every day, and it is expected that thirteen "C" men will be back to play on the varsity football team next fall. The Colgate Memorial Chapel erected at a cost of \$150,000 is a sight that greets our fighting lads.

This Chapter has passed through the trials of reconstruction as have the other Fraternities on the campus. Yet during this period we have not been lax in campus and collegiate activities. Brothers Hewitt and Mitchell, '19; Myers and Chamberlain, '20, have received their discharges and are singing Sig songs around the fire-place again. Carl J. Truesdale, '20, and Wilbur Harry Cox, '21, are wearing the ruby-eyed serpent as pledged men. These fellows to a man are falling into the swing of Colgate's opportunities and many honors are being heaped on our representatives. Brother Bewkes, '19, is President of the Y. M. C. A. and also of the House of Representatives, of which Myers, '20, Dempsey and Morgan, '21, are members. Brother Myers is Vice-President of the Students Association and Brother Fisher is Vice-President of the Outing Club whose cup rests over our fire-place. Brothers Bewkes and Hewitt, '19, have been elected to the Gorgon's Head Senior Society. Delta Upsilon has the following men in the Musical Clubs: Brothers, '19; Hewitt, '19; Fisher, Nunemaker, Saunders and Stoddard, '20, and Parks, '21. Hewitt, Nunemaker and Dempsey are performing in the Mask and Triangle.

Brother Chamberlain who recently returned holds the distinction of being the only Colgate man to receive a commission from the S. A. T. C. Brother Ford breezed in from France the other day and told us about the "inside dope" concerning sunny France. Pledge Truesdale, who was wounded in action in the Champagne sector, finds war isn't all glory and maintains that life at college is preferable to swimming in the trenches.

Carl J. Truesdale, '20, and Wilbur H. Cox, '21, are now wearing the ruby-eyed serpent around the campus. Brothers Hewitt and Mitchell, '19, and Myers and Chamberlain, '20, have received their discharges and are with us again.

The Chapter is now on a firm financial basis. Plans are being made to paint the "shack" and to remodel it to a certain extent, so that Prom will find us prepared.

JAMES E. DEMPSEY, Reporter.

MARYLAND STATE COLLEGE

Delta Phi Chapter

Maryland State College has returned to its normal condition and is showing more real spirit than has ever been shown before.

Our student government has now been fully organized and is working very smoothly.

The Chapter now has a roll of fourteen men, six of them having just been taken in. The old members comprise Brothers Sullivan, Goodwin, Horn, Sawyer, Jester, Peddicord, J. S. Knode, and R. T. Knode. The new members are Brothers E. K. Morgan, H. I. Scott, H. V. Keene, W. L. Barrall, E. H. L. Myers, Jr., and A. D. Kemp.

All forms of student activities are being resumed and Delta Phi is holding its share of the honors as usual. Brother Sullivan has been elected assistant manager of the baseball team. Brother R. T. Knode is Chairman of the "Junior Prom". Brother Keene has bright prospects of occupying the "mound", having had two weeks experience with the Athletics last summer. Brother R. T. Knode will hold down first base while Brother J. S. Knode will occupy third base. It is worth while to note that we have Navy, V. M. I., V. P. I., Penn State, Washington and Lee, and University of Virginia on this year's baseball schedule. Brothers Scott, Morgan, Barrall and Peddicord are all out for track. A large athletic field is about to be started, to be finished by next spring, which will add much to the college.

The latter part of this month Delta Phi Chapter will hold its "First Annual Reunion Banquet" in one of the Washington hotels. At this meeting we expect to initiate some of the old local Gamma Pi Alumni. Part of the evening will be devoted to business, the remainder to a general good time.

W. CLAYTON JESTER, Reporter.

TRINITY COLLEGE

Delta Chi Chapter

Since the last letter was sent in, many men have returned to Trinity from military service. The college attendance at present is about one hundred and eighty, or about three-quarters of the normal enrollment. The Easter recess will be cut down to three days, and the term will extend to the end of June, to make up for the time lost under the S. A. T. C.

Athletics are again in full swing at Trinity. A fine baseball schedule has been arranged with leading colleges of the East. The following Sigs are out for the team: Bruce, '20; Nichols, '20, and Ransom, '21. Grime, '22 is out for assistant manager. Track will soon get under way, as several former stars have returned to college. Matthews, '21, and Ransom, '21, are our candidates for the squad. After several years of inactivity, the college authorities have promised to put the tennis courts in good condition, and a lively tennis season is hoped for. Valentine, '19, and Stansfield, '20, will try out for the team.

nsfield, '20, has been appointed editor-
of the Ivy, the annual publication
of the Junior Class. Stansfield and Nichols
are members of the new literary club
formed at Trinity. Nichols, '20, is on the
Prom and Junior Smoker Commit-
tee. Ransom, '21, and Warner, '20, are
out for the Jesters, the Trinity
humorous organization.

The Chi Chapter held a dance at the
Senior House, March 7, 1919. Sixteen
were attended. Barber, '19, was Chairman
of the Committee on Arrangements. The
Chapter is planning to hold another dance
in 1919, in conjunction with the Hart-
Alumni Chapter. Brother Raymond
is our graduate adviser, is Chairman
of the Committee on Arrangements.

The Chapter is planning to give an in-
ter-reception to President Luther and
his father sometimes in May. Dr. Luther
leaving this spring after thirty-six years
vice as professor, and fifteen as Presi-
dent of Trinity. His leaving will be deeply
regretted by all who have come in contact
with his forceful attractive personality.

WILLIAM J. CAHILL, Reporter.

BOWDOIN COLLEGE

Delta Psi Chapter

The college is rapidly returning to its
normal activities, having been the first
in the State to resume its track
activities. The prospects of a fast baseball
team this spring is excellent, and it is also
noted that the tennis and track teams
make a good showing against the other
colleges. Debating, dramatics and
non-athletic activities are all well un-
der way, and the Musical Clubs are even
making their annual tour in the south-
west of the State. With the opening
of the third term on April 1, the Fraternity
houses will be reopened by the Chapters,
which were closed during the fall and win-
ter of the S. A. T. C. and fuel situation,
rendered it impracticable to run the
houses during the cold weather. Members
of the three upper classes may room in
the Chapter Houses from April to June
next, while the Freshmen must remain
in dormitories as usual.

The Student Council is again functioning.
The M. C. A. conference for preparatory
students of Maine was held at the
college on March 1, the first time that
Bowdoin has acted the part of host to such
a gathering. About three hundred secondary
men were present at that time, and
approximately the same number attended the
Annual Bowdoin College Indoor In-
elastic Meet on February 22. The
total registration of the college is about
90 per cent. of its normal strength, with
the prospect that more men will enter for
the third term, returning from service in

the fighting forces. Most of the Chapters
are practically back to their former
strength, and none were forced to close
down during the reign of the S. A. T. C.
The Fraternities were combined by the
Faculty for the purpose of running eating
houses, one-half of the men "visiting" with
the other half, whose houses were operated
by the college.

Sigma Nu is finding her place among
the older Fraternities at Bowdoin, and has
men out for practically every activity.
Brother Young is a member of the relay
team, and is one of the three letter men in
that sport. Brother Racine won his letter
in baseball last year and should have but
little difficulty in holding his berth the com-
ing season. Brother G. H. Noyes is meet-
ing keen competition in the contest for as-
sistant manager of track, but seems to have
the "stuff". Brother Hurrell is business
manager of the Bowdoin Publishing Co.,
and assistant manager of the Bugle.
Brother McCrum is a candidate for assis-
tant manager of the Publishing Company,
and is a member of the Band. Brother
Young is a member of the Y. M. C. A.
Cabinet, and was on the Sophomore debat-
ing team which recently defeated the Fresh-
men. The Chapter is represented on the
Board of Managers by Brother Hurrell,
while Brother C. E. Stevens was recently
elected Chairman of the Board of Directors
of the Bowdoin Publishing Co., which has
charge of the publication of the news
weekly, the Orient, and the literary monthly,
the Quill. Brothers Helson and McCrum
are prominent in the college orchestra,
while R. W. Noyes and Lindner hold places
in the college choir.

Since the last report, the Chapter has
been glad to welcome as guests, Brothers
Blake, Rounds, Tuttle, Hurlin and Keene,
all of whom have been in the army. Elton
F. Chase, '19, of Quincy, Mass., and Leo-
pold F. King, '22, of Waterville, were
pledged recently and will be initiated in
the near future. Several promising pros-
pective members of the Class of 1923 have
been signed up for Delta Psi and Sigma
Nu, among them Clement J. Munce, captain
of track at Hebron Academy, and Arthur
C. Hall, captain of basketball, and member
of the baseball and football teams at Co-
burn Classical Institute.

CLYDE E. STEVENS,
Reporter.

UNIVERSITY OF ARIZONA

Epsilon Alpha Chapter

The first semester will be over March
21, and we are preparing to initiate ten
pledges as soon after as possible.

Brother Sampson, who was recently dis-
charged from the service returned to school

for the second semester. Brother Gail I. Lewis has returned from France and is to be with us for the second semester.

The S. A. T. C. did not affect the university nearly as much as we thought it would. While many of the S. A. T. C. men did not return to school their number was more than made up by the returning men and officers from the training camps. So far Epsilon Alpha has had a good year and we are going to continue and advance the good work.

At the start of the year we did not expect to see much in athletics but we are to have a fairly good schedule in baseball, basketball and track.

We only had one man on the basketball team, but we will put four men on the baseball team.

Our Annual Dance given March 14 at the Country Club was (as usual) the biggest and best social event of the college year. Everyone had a good time. One of the best features of the dance was those moonlight waltzes when all the hall was shrouded in darkness except for the rays of light

which shone forth brilliantly from our three-foot replica of the Sigma Nu pin. This made a hit with everyone, especially the girls. Favors and flowers, were given out and for a prize dance we gave a small amtheyst ring to the lucky girl. After the dance a banquet was served in the club rooms.

We have heard that Brothers Upshaw and Mayhew of the Medical Corps, and Jacobus, of the navy are in New York awaiting their discharges from the service.

We also wish to state that Brother A. C. Rubel, captain of Engineers was awarded the Distinguished Service Cross for bravery in action. The citation states that he personally wiped out a German machine gun nest.

We have been talking and planning of a Sigma Nu banquet about the first of June and intend to try and have a reunion of all Sigma Nus from over the State. From the favorable comments we have received from members we imagine it would be a grand success.

FRANCIS H. LYONS,
Reporter.

The Athletes

College Athletics

The past season was one of the hardest seasons ever played at the University of Wisconsin due to S. A. T. C. regulations. The men drilled, studied, and were on duty such a great part of the time that concerted practice was out of the question. In spite of these facts, the team at the University of Wisconsin was up to the standard of other teams. Captain Berthold C. Mann was the mainstay of the team in the position of left tackle and also being chosen as left tackle on the second all conference team.

Lombard College was fourth in the tournament at Bloomington, Ill., on March 1, 7, and 8. The whole team displayed wonderful ability. Saturday, March 1, Brother Charles A. Stokes was forced to quit and the game went to Milliken University with a score of 21 to 18. Saturday afternoon Lombard played Eureka for third place, but the patched up team was unable to cope with them and after a hard battle lost the game, 34 to 32. Lombard had not lost a conference game up to the time of the tournament.

The George Washington University basketball team is making a very good showing in the race for the inter-collegiate championship. Delta Pi Chapter is well represented on the team by Brothers Keblor and Sutliff. Promotion of college spirit

and the raising of the necessary funds to successfully carry on the various activities has rested upon the Student Council. This council composed, as its title implies, of the students, has met with wonderful success in its endeavors. Through its efforts the athletic debt has been completely removed and a reserve fund created.

Chapter Athletics

Beta Mu Chapter boasts of the 1919-20 football captain in Brother Fred Lohman. Brother Lawrence Block will probably go back to his position on the team next year, and Brothers Kaufman and Charlton show big promise of a place.

Brother Leland Cobb White surprised both Ames and Iowa fans by defeating the Ames heavyweight wrestler, Breenen. The Des Moines Register described Brother White as being "strong as a bull, slick as an eel, and quick as a cat."

Brother Burton F. Mitchell, end; William E. Wearn, end and half-back, and Alfred Williams, Jr., quarter-back, helped to fill the line-up of North Carolina State College in the fall of 1918. The varsity lost one of its best men when Brother Mitchell was called away to training camp before the season was over.

Brothers C. H. Bobbee, left guard, and E. G. Bieber, center, aided the basketball

team at Lafayette College materially in completing a most successful season and winning twelve games out of sixteen.

Baseball material at Lafayette College is most promising; ten L men having returned to college. Brother R. A. Moyer, who pitched so successfully last year, is getting into good form and the freshman class has some good material.

Sigma Nu at Lafayette College won the trophies for the past two years in the bowling tournament. She is working hard to win this year's trophy, but has a close rival in the Chi Phi Fraternity.

Brother Charles A. Stokes played at center in the basketball team at Lombard College last season. He played a good, consistent game and was always counted on for a large per cent. of the score.

Brother Neal J. Campbell has recently been appointed student manager of the Carnegie Institute of Technology football team.

Pledge Gibson is captain of the freshman basketball team at Carnegie Tech.

Brother Fred C. Carter was assistant coach of the University of Wisconsin eleven for the season of 1917, and also had complete charge of the spring training in 1918. Prior to this he was athletic director and coach at LaCrosse Normal School and coach at the Colorado School of Mines.

Brother Berthold C. Mann, '20, was captain of the University of Wisconsin football team last fall. Though only a junior, he piloted the varsity through a fairly successful season, considering the conditions under which the team worked last year.

Delta Rho Chapter, at Colorado Agricultural College, was exceedingly well represented in football last fall. Of five active members present, three were represented on the squad.

At Western Reserve, Delta Zeta Chapter, has had the captain of the football team, Brother Howard A. Searl. Brother Searl was the youngest football captain Reserve had ever had. During the last season the Ohio Conference rules were suspended and freshmen played on the team. Brother Robert A. Burri, though a freshman, made the team and was pledged in the Star and Arrow society, an honorary national athletic fraternity, into which Brother Searl was initiated a year go. Brother Frederick H. Krock is assistant baseball manager this spring.

"Father" McKale at Princeton

A postal card from Princeton announced the fact that Brother Fritz (James Fred)

McKale, Gamma Gamma, the father of Epsilon Alpha at the University of Arizona, was at Princeton at a school for the instruction of university coaches in bayonet work at the time the armistice was signed. "Mac" wrote us: "When the Kaiser heard we were here, he quit cold."—The Fifth Point.

Berthold Charles Mann
Gamma Lambda
Captain, Football, 1918

Sigma Nu in Overseas Football

At Bordeaux, doughboy football fans of the St. Andre Camp were treated to an unusual spectacle when two army officers yanked off their Sam Browne belts and broke into one of the hottest football games ever played in this area. Lieutenant Allen A. Zoll, Arkansas University, of the 345th Infantry, found himself opposed to Captain Oliverson, of the 413th Signal Corps Battalion, when he broke into the game as a guard substitute. The 413th won a close game, 6-0, when a forward pass found the open arms of Full-back Simon right on the goal line.—"The Triangle" (Y. M. C. A. overseas paper), sent in by Past Regent A. H. Wilson.

SIGMA WINS BASEBALL CUP OF THE VANDERBILT GREEKS

Brother John C. McMillion reports that Sigma Chapter won the Inter-Fraternity baseball cup at Vanderbilt University, for the season of 1918.

TRACK COACH AGAIN AT COLUMBIA

Across the Atlantic and back again, via the Paris edition of the New York Herald and Past Regent A. H. Wilson, comes the report that Brother Carl Merner, Beta Kappa, has been re-elected this year to coach Columbia's track team.

ROSCOE BRYAN RHODES

Delta Eta

Lincoln, Neb.—Roscoe B. Rhodes, of Ansley, Neb., captain-elect of the 1918 football team of the University of Nebraska, has been reported killed in France.—Clipping sent in by Past Regent A. H. Wilson.

A CAMP COACH OVERSEAS

Have met Brothers Allan Thornton, Beta, and Lester Jones, Gamma Phi, in this camp. Both boys are in the air service. Brother Jones was playing quarter for the camp team (which I am coaching) until he was ordered to Issoudun for flying training. Thornton is trying out for a place in the backs at present.

JOHN J. CADOT, Gamma Eta.

STANFORD COMES BACK

The Stanford University football team was defeated on Thanksgiving Day, 1918, by the University of California, 60 to 0. It was the first time since 1905 that these old rivals had met on the gridiron under the American intercollegiate code of football rules. It was Stanford's first year of American football after thirteen years of play under the British Rugby code.

The proceeds of the game were devoted to war work.

College Notes

New Education Venture

New movement is under way to insure independent research and "academic freedom." It will start off with an endowment fund of \$150,000. The donors will not control its use for the trustees will be elected by the Faculty and once constituted as a body, they will choose their own members who are to be responsible to no one but themselves, their colleagues and the truth.

Independent research will be applied to corporation management, labor organizations, governmental affairs, and international relations. The prime need of study today is reconstructions in the new period after the war by men of vision as well as experts in scientific knowledge. This venture will insure academic freedom to professors of sociology and economics, who are under the control of trustee boards and will prevent "muzzling" the student by the so-called "capitalist". In addition it will free the professors from purely administrative problems, giving them an opportunity to use their time and their brains in the matter at hand.

Columbia's Honor Roll

Columbia University recently held a memorial service for 128 Columbia men who have died in service during the past year.

President James and Illinois

President Edmund J. James has recently resigned from the presidency of the University of Illinois. Under his leadership Illinois has had one of the most phenomenal developments in the history of the world's education.

Term System at Wisconsin

The University of Wisconsin has adopted the quarterly system in all departments for the duration of the war. Instead of being divided into two semesters the present college year is divided into three terms. Whether the summer session will be converted into a fourth quarter has not been decided.

Trinity College

The ninety-second annual commencement at Trinity College was remarkable in the national prominence of men upon whom honorary degrees were conferred. Leading the list of visitors were Colonel Theodore Roosevelt, J. Pierpont Morgan, Jr., a trustee of the college, and George Wharton Pepper, the eminent jurist.

World's Largest High School

The largest high school in the world is the Washington Irving, of New York City. The enrollment last year was 6,510, with 2,000 additional in the night classes. The teaching staff consists of 240 members with 70 additional evening teachers.

Scholarship

What the University Demands

[Brother Harvey B. Mann, Gamma Theta, one of our energetic Pittsburgh Alumni, sends us the following, which is a part of the last annual report of President Schurman of Cornell, which is given under the head of "Fraternities." We recommend this article, not only for reading, but for consideration on the part of all Sigma Nus. We also commend the reports of the Inter-Fraternity Conference to the president of Cornell, showing the rapid improvement in scholarship on the part of the fraternities.—The Editor.]

There is a third reform which the inter-lude of militarization of the university should make it possible to accomplish. The president has often called attention in these reports and in other communications and addresses to the grave problem which the Fraternities, with all their advantages, create for the university. These societies offer delightful homes to students which, in the existing paucity of university halls, is a quite invaluable service to the university; and, in the society Houses occupied by congenial groups of students there are many opportunities for social intercourse, for good fellowship, and, both casually and by design, for mutual improvement and education. But, as Emerson has well said, men pay some price for every good they enjoy—the price being often the good in a form so extreme that it becomes noxious, as courage carried to the highest pitch becomes rashness or even foolhardiness. Now the peculiar excellence of a Fraternity is the association of a congenial group of students in a common life and an intimate fellowship. Herein, by an almost inevitable exaggeration, lies its danger. Devotion to, and absorption in, the life of the Fraternity—not on the official, but on the social side—easily and almost unconsciously undermines the student's will to work and study. And yet it was for the sake of study that he came to the university! The lesser loyalty obliterates the greater! And the end too often is that the "good fellow" of the Fraternity is "dropped" by the university. A tragedy for all three!

The need of reform is crying. If the method is not obvious, the end to be attained is clear as daylight. The Fraternity must be baptized with the spirit of the university. The university stands for truth and knowledge; so must the Fraternity. But you cannot get truth and knowledge without strenuous intellectual effort. The university therefore demands hard study; so must the Fraternity. And until the Fra-

ternity recognizes this fact its relation to the university will be ill-adjusted.

How to make the Fraternities centres of intellectual life and activity? That is the great problem. If it is not solved, Fraternities, in spite of all the delightful opportunities and experiences they furnish to students, are not likely to survive as permanent institutions in the American educational system.

Perhaps a solution may be found in history. The colleges at Oxford and Cambridge were originally undergraduates' lodging houses disconnected officially with the university. The first step in their transformation was the introduction of a graduate master or tutor or "coach." But the undergraduates still retained control. The new official was there to aid them with their home study. Why should there not be a similar tutor in each of our Fraternity Houses? He would be at the same time an intellectual influence, though not clothed with any university authority. And such tutors in neighboring Houses, if they represented different branches of science and learning, might co-operate and through a combination of groups from different Fraternities easily cover the principal subjects—or at any rate the most difficult subjects—of the curriculum. Thus there would spring up under the most natural conditions something like the present tutorial system of Oxford—a system which does more for the individual student, whom it brings into close personal contact with one teacher, than any other system in the world.

Will not the graduate members of Fraternities consider this suggestion? They will not misunderstand the spirit in which it is made. The president's desire is to retain the Fraternities with all the good they bring to the university, but he clearly sees that the first condition necessary to that end is the inoculation of the Fraternities with the spirit, object, and aim of the university.

Kindred Brothers

Brothers Sherman: Father and Son

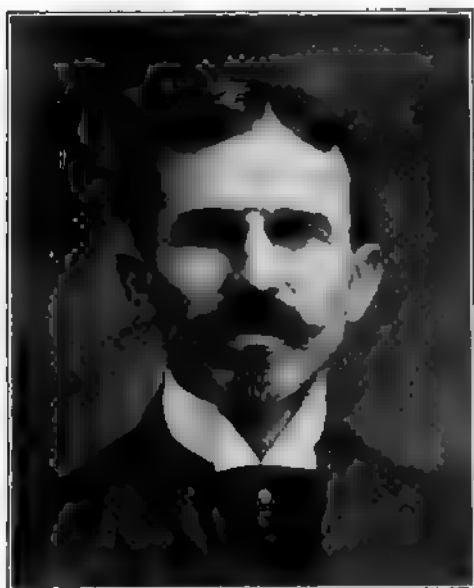

Christopher E. Sherman

Beta Nu

Professor Christopher E. Sherman is the head of the Department of Civil Engineering in the State University. He has conducted the topographical survey of the

fessor, the chair of civil engineering at O. S. U.

Professor Sherman has had much experience in government surveys. Beginning in 1892 as chief draftsman of the Ohio Geological Survey and, in 1895 and 1896, of the United States Barge Canal Survey

Christopher E. Sherman
Beta Nu

State of Ohio and is a practical engineer as well as a college man. His name is ranked among technical authorities of his profession. But he is a Sigma Nu, too, and his pride is that he has given also a Sigma Nu to his Chapter—his son and Brother, Robert B. Sherman.

Christopher Elias Sherman was born in Columbus, Ohio, on December 28, 1869. He was in college and general engineering work from 1888 to 1894, receiving his C. E. degree from Ohio State University in 1894. On June 22, 1897, he married Miss Eleanora Brunning. Since September, 1896, he has held, as assistant professor and then pro-

Robert Bruning Sherman
Beta Nu

in Ohio, he has long been in consulting work for his State. Since 1902 he has been the governor's representative on the State Topographic Survey. In 1898, he was assistant engineer in the 4th U. S. Army Corps, and during the next two summers was an U. S. assistant engineer at Yellowstone Park. He acted as Ohio Commissioner in the settlement of the Ohio-Michigan boundary in 1915.

Brother Sherman has published many technical treatises: Preliminary Report on Topographic Survey of Ohio, 1904; a Communerative Bulletin, 1910; Progress Report on Ohio Topographical Survey, 1910; The Ohio Water Problem, 1915; and had charge

of the preparation of the Final Report, Ohio Topographical Survey, 1916-1917, and many other works. Last year he prepared the State railroad map and the State highway map. His Theory and Practice of Lettering, first published in 1895, has run through five editions and is an acknowledged authority on that subject.

As a pastime, or perhaps as a relief from technical study and writing Brother Sherman is known to indulge in occasional literary forays such as have been noticed under Chapter Bookshelf. In this connection we must not forget the Kit-Kat, a little magazine issued by the Kit-Kat Club, containing the literary excursions of its members. Two of its founders are Brothers Walter J. Sears and Christopher E. Sherman.

Beta Nu

Robert Bruning Sherman, born June 9, 1898, Columbus, O., attended graded school and North High School at Columbus, graduating from North High School with high honors February, 1916. Treasurer of his class. Rodman on Ohio-Michigan Boundary Survey, 1915. Entered Ohio State University in Art College February, 1916, this fall will be junior in Civil Engineering. Joined Sigma Nu in 1917. Won Sophomore prize in engineering drawing and held Sophomore scholarship record in Civil Engineering, 1918. Assistant surveyor or surveying corps on Pennsylvania railroad, summer of 1916, and on Wheeling and Lake Erie railroad, 1917. Transitman for American Rio Grande and Irrigation Company at Mercedes, Texas, summer of 1918.

Kindred Brothers in Nu

Nu Chapter has five younger Brothers of Sigma Nu in its present Chapter roll. They are:

Charles Allen Blair, Jr., 327, a brother to John Merrill Blair, Rho 195.

Wilmer Harms, 313, a brother to Herbert August Harms, Nu 273, and Marvin William Harms, Nu 301.

Everett Leigh Clawson, 316, a brother to Millard Edward Clawson, Nu 274.

Paul Jackson, 319, a brother to Lloyd Earl Jackson, Nu 227.

Raymond Richard Crawford, 329, a brother to Thomas Ralph Crawford, Gamma Xi 118.

HARRIS HARRINGTON.

Second Generation Club of Rho

I note in the recent number of the Delta that Beta Eta Chapter has a "Second Generation Club," composed of four sons of Sigma Nus. Rho can see Beta Eta and raise the Indiana Chapter four, as she has six sons on the Chapter roll.

Before the boys were separated and placed in barracks, we had hoped to get a picture of the six, but were never successful in our efforts to get them all together. Now I fear, at least one of the group will not return the next term.

ORVILLE M. BARNETT,
Rho Chapter Adviser.

The latest statistics, Brother Barnett writes us, give eight sons instead of six.

Three Zewadski Brothers in Service

Gamma Nu Chapter (Michigan) had the three Zewadski Brothers in the service—rather unusual—three Brothers and all from the same Chapter.

The oldest of the three, Guy B. Zewadski, who formerly practiced law in Tampa, Fla., was a lieutenant in the Artillery and got overseas.

The next oldest, Clarence B. Zewadski, who was practicing law in Detroit, was in training at the Field Artillery Training School at Louisville, when the armistice was signed. He has received his discharge and returned to Detroit.

The youngest, Olaf Zewadski, was a first lieutenant, aerial observer, and got overseas.

BRUCE J. MILES,
Gamma Nu.

"Piper on Songs"

The work of Piper on Songs dates far back and revives my memory of his helpful and talented contributions to the Delta's pages prior to 1913. The devoted labors of himself and others in that and other lines of fraternity activity, merit our abiding appreciation and support. I enclose \$1.00 for two sets of Prize Sigma Nu Songs.

PAST GRAND RECORDER C. E. WOODS, Eustis, Florida.

Conventions and Rallies

CHICAGO ALUMNI BANQUET

For several years it has been the custom of the Chicago Alumni Chapter to unite with the two collegiate Chapters in the vicinity, Gamma Beta at Northwestern University and Gamma Rho at the University of Chicago, in a banquet on the evening of Washington's Birthday, at the University Club. Alumni and active members of neighboring cities and Chapters are always included in the invitation. This year, as usual, the banquet was prefaced by an initiation put on by Gamma Beta Chapter. Five likely looking freshmen were given the work in good style, in spite of considerable confusion attendant upon arrangements for the dinner.

Soup was served at about 7 o'clock preceded by a real "Hi Rickety" led by Brother Warren Piper, Gamma Beta, and by the inevitable photograph. The men were grouped at tables by Chapters and during the meal Gamma Beta and Gamma Rho vied with one another in putting over peppy songs and yells. The Wisconsin Chapter, with a delegation of eight men, showed a lot of enthusiasm, and Michigan, Illinois and Indiana were not slow to make their presence known. Gamma Rho had prepared a leaflet of Sigma Nu songs, including some new ones, and provided a young orchestra to lead off, thereby resulting in the rapid warming up of the entire assemblage.

At the approved time the toastmaster, Brother H. J. Bardwell, Beta Alpha, arose and announced the circumstances which prevented the presence in person of Regent Borden H. Burr, who had planned to attend. He called, therefore, upon the only other national officer present, Brother Edwin W. Dunlavy, General Secretary, who protested that he was but a poor substitute for one who had such an important message as the Regent. Brother Dunlavy told of the heroic conduct and death of Brother Lieutenant Charles Judson McGrew, Beta Beta, at the battle of Ferre-en-Tardenois, as it had been related to him by Brother Burr, who performed great service with the Y. M. C. A. in France and who was present in the thick of the fight just referred to. In recalling that the history of Sigma Nu dated back only fifty years, the speaker dwelt upon the wonderful progress of the Fraternity in competition with older organizations, and backed up his remarks with convincing statistics from the last Inter-Fraternity Conference.

Brother Warren Piper's modesty glued him to his seat, while the toastmaster pre-

sented, on his behalf, a beautiful war service memorial to Gamma Beta Chapter. The bronze tablet, which was executed by J. F. Newman, official jeweler, bore the names of 112 members of the Chapter.

Brother Perry Patterson, Gamma Rho, next indulged in a few well scattered remarks on how to address an audience and still not say anything (a la 4-minute men). But in growing serious he expressed the real meaning of Sigma Nu as a "conscious driving force toward newer and higher results." Brother G. D. Randolph, Gamma Beta, representing the active Chapter, discoursed upon the merits of the Northwestern bunch, with a short intermission for the "rendition" of a couple of ditties by their prize crew of freshmen. He returned thanks to Brother Piper for the memorial tablet and concluded by extending the hospitality of the Gamma Beta castle to all loyal Sigma. Brother Ellis Hogland, Gamma Rho, of the active Chapter, who was called upon impromptu, responded with a stirring message of the glory of Sigma Nu and an appeal for continued interest in the Fraternity and obedience to its fundamental principles.

The set program having been concluded, Brother Piper arose and, with deep feeling, announced that Brother Homer Vanderblue had offered to pay for his (Piper's) dinner if he would use his influence with the toastmaster to call upon the ex-captain for a speech. Piper admitted that he was probably making a fool of himself, but said that he would make a fool of anybody for \$2.50. 'Professor Homer's ire brought him to his feet vowing vengeance upon Piper, and for a while the air was permeated with quite unprofessorial speech. But it turned out that he had a valuable message to put across, for he insisted that the most vital need among undergraduates today is for "self-starters"—men who can be depended upon for independent action in Chapter affairs.

Past Regent George M. (Dad) Cook, Beta Eta, was made the next speaker by popular acclaim, and he responded by telling of the achievements of Brother Tom Gibson, Gamma Mu, said to be one of the youngest captains in the regular army. Captain Gibson has been cited for bravery several times, and has been awarded the D. S. C. Inspector John M. Roberts, Beta Gamma, briefly explained the work accomplished by the Ninth Division Convention that day. Professor H. F. Wilson, Gamma Lambda, was called on, but he had smelled

a rat and flown the coop. So with a last rousing "Hi-Rickety" the illustrious evening came to a happy close.

GEORGE A. CHANDLER,
Gamma Lambda.

GAMMA RHO BREAKFAST

Sunday morning, February 23, the active members of Gamma Rho gave a breakfast banquet at the Hotel Del Prado to which the Alumni of the Chapter were invited. All of those who were in Chicago came and helped to make the breakfast the success it was. The Alumni present were Brothers Roberts, Ninth Division Inspector, Patterson, Leith, Steevers, Rascoe, Ring, Stringer. After the breakfast proper was over, the Alumni all gave after-breakfast speeches.

CARL W. ROTHERT, Reporter.

CLEVELAND ALUMNI BANQUET

The biggest thing that I have to report is the Victory banquet, which was held on February 22nd, at the Hollenden Hotel, and which was attended by about ninety men and was a remarkable success. Past Regent Walter J. Sears was the speaker of the evening. His presence was more appreciated because of its unexpectedness. The theme of Brother Sears' address dealt largely with that vital international problem and vicious evil, Bolshevism. Brother Walter E. Myers acted as toastmaster. The speakers' list included Don Rolli, representing Delta Zeta Chapter, and C. W. Meyers, representing Delta Alpha. The toastmaster later called on various Brothers who had been in the service. The military element was very well and largely represented and the responses of these men were certainly very interesting. I am unable to recall all the names of our military Brothers who were present, and not wishing to slight any one of them, will not mention those whose names I do recollect. Suffice it to say, however, that the success of the banquet, and I admit that it was a success, was due largely to the "pep" and spirit put into the affair by the military element. I might add to the list of impromptu speakers, Brothers Shilts and Kirkbride, who responded in their wonted and able manner.

The musical features of the program were furnished by the celebrated Bulltoad Quartet, composed of Coker, McElrath, Millhoff, Braun and Evans, and C. Bullseye Greenlese, leafturner. In simple justice to that eminent vocalist, Charles Morgan Bailey Cooper, who is now overseas and who, during the late unpleasantness, was engaged in wafting vile and poisonous gasses in the general direction of Germany, I must state that the aforementioned quartet is entirely different from and disassociated with the famous Pig-Iron Quartet, which has

performed so capably at previous banquets. A quartet and jazz band from the Active Chapters furnished the music.

Preceding the banquet the Active Chapters, Delta Alpha and Delta Zeta, conducted the initiatory rites for their pledges. I can not give too much credit to the boys who composed the initiating teams for the splendid manner in which these services were conducted. After the formal initiation Brother Walter J. Sears, Past Regent, spoke a few words of advice to the initiates.

We of the Cleveland Alumni Chapter are sincerely grateful to those Brothers of the Akron Alumni Chapter and Beta Iota who came from some distance to help us put this affair across. Another unexpected pleasure was the presence of Brother Harry A. Rider, Assistant General Secretary, who spoke briefly at the banquet outlining the general status of the Fraternity at this time.

M. E. EVANS, Secretary.

HOOSIER RALLY

The Indianapolis Alumni Chapter of the Sigma Nu Fraternity held its monthly banquet at the Lincoln Hotel March 22, 1919, and discussed plans for a "victory rally" in honor of all members who participated in the war.

The Hoosier rally will be held in Indianapolis, May 3, 1919, and representatives from the Chapters in Indiana and Kentucky will participate. As the Delta goes to press before this rally, we regret that a full account cannot be printed until the next issue.

As this rally is in honor of our Knights of the Republic who have returned, the toast list is given over largely to men who have been overseas. The headliner is Brother Cal C. Lyon, Beta Eta, war correspondent for the United Press and whose account of his interview with Hindenburg—the first an American newspaper man had with him after the armistice—appears in this Delta. Congressman Bland, Beta Eta, will also speak—Brother Bland was on the Congressional Committee which spent several weeks with the A. E. F. Captain Keeling Pulliam, Gamma Iota, will be one of Kentucky's leading speakers. Among the officials of the Fraternity who have promised to come are Past Regent Walter J. Sears, Past Regent George M. Cook, Grand Treasurer Samuel F. Pegues, and General Secretary Edwin W. Dunlavy.

HARRELL V. BAILY, Secretary.

SONG-FEST AT MIAMI, FLORIDA

Twenty Sigma Nus gathered at the Berni grill room, January 15, 1919, representing fifteen chapters. The stag party

was informal, with the singing of college and fraternity songs. College yells were among the most enthusiastic events performed during the evening.

Many men from the local air stations were among those present and it was interesting to note how many colleges and cities were represented at the banquet. Fourteen colleges and universities were represented, together with eleven cities. In the party were:

Ensign J. G. English, Delta Rho, Colorado Aggies College, Greeley, Col.

Lieutenant W. P. Hill, Delta Epsilon, Oklahoma University, Evanston, Ill.

E. B. Kurtz, Beta Eta, Indiana University, Miami.

Dann C. Squires, Gamma Psi, Syracuse University, Miami.

J. W. Junkin, Delta Mu, Stetson University, Miami.

M. B. Newman, Kappa, North Georgia Agricultural College, Miami.

Harold Withers, Delta Mu, Stetson University, Miami.

R. Donald Conn, Delta Mu, Stetson University, Point Marion, Pa.

William G. Kane, Gamma Phi, Montana University, Missoula, Mont.

Roy George W. Fox, Gamma Tau, Minnesota University, St. Paul, Minn.

Thomas H. Rentz, Eta, Mercer University, Columbus, Ga.

C. Frank Schilt, Beta Upsilon, Rose Polytechnic Institute, Olney, Ill.

J. Norton Dyer, Beta Mu, Ohio State University, Columbus, O.

Robert L. Platt, Rho, Missouri University, Carthage, Mo.

H. W. Watts, Beta Upsilon, Rose Polytechnic Institute, Miami.

R. L. Tilly, Beta Upsilon, Rose Polytechnic Institute, Terre Haute, Ind.

L. H. Sanders, Gamma Phi, Montana University, Shelton, Wash.

G. E. McCaskill, Delta Mu, Stetson University, Miami.

Lawrence Gautier, Delta Mu, Stetson University, Miami.

J. E. Junkin, Jr., Nu, University of Kansas, Miami.

—Miami (Fla.) Metropolis, sent in by Everett B. Kurtz, Beta Eta.

DR. THOMAS M. OWEN ENTERTAINS MONTGOMERY ALUMNI

One of the most enjoyable and notable gatherings in Montgomery for some time was the entertainment of the Sigma Nu Fraternity members of Central Alabama by Dr. and Mrs. Thomas M. Owen, at their home in this city. Several visitors of note from other points in Alabama were present to take part in the program and to enjoy the festivities of the evening.

The rooms of the Owen residence were tastefully decorated with the fraternity colors of black, white and old gold, the pennants of the three Alabama colleges, the university, Auburn and Howard, and the flags of the allied countries. Delicious refreshments were served, and general good fellowship abounded among the Sigs of various ages and callings who were brought together by Dr. Owen's hospitality.

Judge Henry D. Clayton, of the United States District Court, made a most interesting talk on the duties of a Sigma Nu in the new world that is now being shaped before the eyes of humanity. Every member of the Fraternity, said Judge Clayton, had but to live up to its noble creed to fulfill the duties of a man and of an American.

Judge Lucien D. Garner, of the court of appeals; Judge C. E. McCall, chief examiner of public accounts, and James Q. Smith, attorney general-elect, all made appropriate remarks concerning different phases of the order.

Capt. Robert W. Duthie responded to the sentiment of "Sigma Nu in the Army." Captain Duthie is an alumnus of the University of West Virginia, and there were two other West Virginia soldier Sigs present in the persons of Lieutenants John W. Easley and Frank L. Yates. Lieutenants Otis M. Tupper, University of California; Roger M. Schade, Colorado School of Mines, and Darwin C. Hindman, Case School of Applied Science, also spoke.

Lucien D. Gardner, Jr., spoke for Theta Chapter at the University of Alabama; W. Forbes Yarbrough for Iota at Howard, and Eugene Reid for Beta Theta at Auburn.

Among the Montgomery Sigma Nus who were present may be mentioned F. M. Moseley, John Tullis, Dr. C. G. Laslie, John Paul Jones, Steiner May, Eason Cook and Bernard Steiner, the president of the Sigma Nu Alumni Association.

NEW YORK ALUMNI VICTORY BANQUET

Banquets to celebrate the return of our own kin are so much a matter of warmth around the heart that it is difficult to transmute them into the written word. So it is

with the New York Alumni Victory Banquet held at the Hotel Astor on Friday evening, January 31. We were all there and had a great time, and have tucked the remembrance of the same away in a nice comfortable place to act as an inspiration to us in the days to come. But if we must submit this remembrance to the view of the ones who were not there we would expose it somewhat as follows:

Probably one of the most representative gatherings of the "old boys" of the New York Alumni Chapter took place at the Victory Banquet in the Belvidere Room of the Hotel Astor on the evening of January 31 when the Brothers met in honor of the Sigma Nu heroes of the world war. Men who had not been at the Alumni Banquet Board for years sauntered in with the same old greeting and the "I belong" look—and stayed from start to finish.

Our toastmaster of the evening was, of course, Brother Rufus A. Vance, first initiate of Beta Gamma Chapter, who always insists that he is chosen for the position because he is the patriarch of the Chapter. But the truth is that he is chosen because he is the one man in the Chapter who can blend the humor of the ancients with that of the futurists into such a delicious concoction that even the waiters refrain from going to sleep. Vance takes the cake, candles and all, when it comes to tying words in knots and using them to trip up the men he is to introduce.

Vice-Regent George A. Smith gave the first toast, having as his subject "Sigma Nu Today". In a very able manner Brother Smith gave an interesting survey of the work of the present day fraternity and told some of the ambitions for the future. Many of the men who had not been in touch with the fraternity for some time, were greatly pleased to learn of the splendid progress Sigma Nu has made, and in conversations afterwards contrasted present day conditions to the time when they were undergraduates and the Fraternity was still very young and the Chapters weak.

Lieutenant "Bobby" Byrns, Beta Zeta, was then introduced to talk on the subject, "War". With his arm in a sling, an instrument he will probably have to use for many months to come, and his coat bearing the British Military Cross and the American Distinguished Service Cross, "Bobby" arose to a burst of applause. He said that the only part of the war that he knew was the portion of it that he had been through, and he proceeded to relate a number of interesting incidents concerning the experiences of the troops he was with. It was especially noticeable that Brother Byrns did not allude in any way to the part he played in the action of the 107th Infantry near Venduille, on September 29, when he was wounded twice while rallying his troops, being the only surviving officer in three companies in that section. His long

experience in the old 7th caused him to speak most casually of the different maneuvers and his entire speech was characterized by his extreme modesty. The regard he felt for his men is shown by the fact that he refused offers of advances when he found that to advance himself he would have to leave his old troops.

Judge John A. L. Campbell, who was the fifth initiate of the old Yale Chapter back in the days when some of us were just learning to walk, gave his views on "Current Events", and very pronounced views they were too. Savored a bit of politics they did, but then the judge was in politics in Ohio when we were going to school two hours in the morning to learn to string beads, and he ought to know if experience is a teacher. Brother Campbell is a fearless lawyer, a loyal Sigma Nu and intensely interested in seeing his Chapter at "Old Eli" revived. Stranger things have been done.

Brother Maurice V. Samuels, who was also the fifth initiate of his Chapter at the University of California, spoke on "Ideals", and among other things paid a splendid tribute to the memory of our late Brother Hurbert S. Nulsen, whose presence will ever be missed when New York Sigs meet. Brother Samuels is a very convincing speaker, always feeling his subject deeply. Prominent in dramatic circles in New York, he is the secretary of the Society of American Dramatists and Composers, and among other plays wrote "The Wanderer" which has become a rival to "Ben-Hur" in its magnitude and the reception it is receiving throughout America. Brother Samuels has another play completed which David Belasco will produce next season.

Brother Ralph Folks, Gamma Gamma, former Commissioner of Public Works, responded to an impromptu toast after Toastmaster Vance had introduced him as the man to blame for Governor Smith's election because he did not run against Smith on the Republican ticket. Brother Folks recently received a very fine bronze plaque from the captains and lieutenants of the New York Fire Department for "fair adjustment of the salary schedule and as a token of their high regard and esteem."

Brother William R. Edgar, Delta Kappa, who has taken a prominent part in the Wilmington, Delaware Alumni Chapter and is the Inspector of the First Division, was present and responded with a few very acceptable remarks. Brother Edgar, who is with the Du Pont Company, is always a welcome visitor at our table.

Visitors from out of the city included Brother H. E. Sibson, Gamma Theta, Inspector of the Sixth Division; Brother John M. Roberts, Beta Pi, Inspector of the Ninth Division; and Brother Raymond Segur of the Hartford Alumni Chapter.

We were very glad to have these Brothers with us.

Some of the "old boys" who were present were Past Regent Hamilton M. Dawes, Rho, who administered the affairs of the Fraternity from 1898 until 1902, and is now a prominent lawyer in this city; Brother Ray C. Ewry, holder of three world's records—standing high jump, standing broad jump, and three standing jumps, and winner of Olympic championships in all these events in Paris, St. Louis, Athens and London; Brother Dallas Flannagan, Alpha, New York attorney; Brother John S. Parker, Theta, who has recently retired from the practice of law following a very active career which included the writing of a number of books on legal subjects; and Brother Edward G. Pringle, Rho, also a lawyer.

New York's Victory Banquet is now a remembrance—one of the few pleasant memories which came as the result of the war.

LeROY E. KIMBALL,
Gamma Gamma.

THIRD DIVISION CONVENTION

About fifty members of the Sigma Nu Fraternity attended the dinner March 19, 1919, at the Southern Club, Birmingham, Ala., which brought the two-day session of the High Council to a close. Prominent Alumni from throughout the State, the entire Howard College Chapter, the officers of the High Council, and many college members from nearby schools attended.

Inspector Manly R. Joiner, of Talladega, is ex-officio-president of the Third District Division Association; Hill Ferguson, of Birmingham, was elected first vice-president; Dr. Thomas M. Owen, of Montgomery, secretary; Roy R. Cox, of Montgomery, treasurer, and J. T. Frazer, of Auburn, sergeant-at-arms. The Commander of each Chapter was also made a vice-president ex-officio.

The High Council and general officers visited Iota Chapter of Howard College on March 19th and Theta Chapter at the University of Alabama on March 20th.

FIFTH DIVISION CONVENTION

Delta Zeta and Delta Alpha Chapters of Cleveland will hold the Fifth Division Convention on the 25th and 26th of April, being hosts to the remainder of the division. Great plans are now under way to make this another "regular" Sigma Nu affair. The Alumni are going to give their united support, consequently, the success of this convention is assured. A big dance has been planned in conjunction with the affair and indications are that Sigma Nu will

have lived up to her name of doing things right.

JOHN N. McCULLOUGH,
Delta Alpha.

NINTH DIVISION CONVENTION

The opening session of the Ninth Division Convention was called to order at 10:30 a. m., in Parlor A of the LaSalle Hotel, Chicago, February 22, 1919, by the President, Inspector John M. Roberts, Beta Gamma; Lieutenant George A. Chandler, Gamma Lambda, was appointed Secretary pro tem. Representatives from each Chapter in the Division, with the exception of Gamma Gamma, were present; the list follows:

Gamma Beta (Northwestern): G. D. Randolph, R. E. Schweser.

Gamma Lambda (Wisconsin): G. E. Miller, Jr., M. S. Nelson.

Gamma Mu (Illinois): J. B. Mallers, III, E. E. Spangler.

Gamma Nu (Michigan): G. B. Daniels, A. G. Pickard.

Gamma Rho (Chicago): J. E. McLoone, E. S. Hoglund.

Delta Theta (Lombard): G. C. Stephenson, J. R. Anderson.

Chicago Alumni Chapter: C. E. Williams, Gamma Mu, C. A. Ward, Beta Eta.

Fraternity officials in attendance were: Grand Treasurer S. F. Pegues, Theta; General Secretary E. W. Dunlavy, Beta Beta; Professor H. F. Wilson, Gamma Lambda, Chapter Adviser of Gamma Lambda; Professor Homer B. Vanderblue, Gamma Beta, former Inspector of Ninth Division; Past Regent Avery M. Cook, Beta Eta, Chapter Adviser of Gamma Rho, and the following visitors were also present:

Lieutenant W. M. Young, Jr., U. S. N., Gamma Lambda; Ensign H. J. Koch, Gamma Lambda; Sergeant A. A. Barlow, Gamma Tau; C. S. Conley, Gamma Lambda; H. W. Ring, Gamma Rho.

Inspector Roberts explained that inasmuch as copies of the Constitution and other records were not available, the meeting would be conducted informally.

The first important subject of discussion was that of a need for more concerted action in securing information about high school graduates who are planning to attend the various colleges in the Division, particular emphasis being placed upon the wonderful opportunities existing in the high schools of Cook County, Illinois (Chicago and suburbs), whose graduates go out to all the different conference colleges. The matter was placed in the hands of a committee which reported later in the session

the recommendation that a permanent organizing committee be organized in the city of Chicago to try out the proposed coactive rushing plan before installing it fully throughout the Division. President Roberts appointed Past Regent Cook Chairman of this committee, and each member was authorized to elect one representative, preferably an active member or alumnus living in or near Chi-

representative of each Chapter was asked to give a brief resume of the status and condition of his Chapter, and all had been heard it was apparent the entire Division was generally in better condition than it had been previous to the war. According to the views expressed by the active men, the Ninth Division in a period of the greatest prosperity, the condition was said by General Secretary Dunlavy to prevail throughout the Fraternity.

The proposition of a Chapter House for the Gamma Rho Chapter at the University of Chicago was next presented and a considerable discussion was entered into by Brothman, Cook, Pegues, Dunlavy and others, during which the Active Chapter members were called upon for an expression of sentiment. It was clear that all chapters in the Division are strong in support of the Chicago Chapter. Realizing the peculiar situation confronting the Fraternity at that institution and believing the problem is one deserving of more local attention, it was decided that an advisory committee consisting of one member from each Chapter should be appointed. President Dunlavy to co-operate with a committee of Gamma Rho Chapter in securing a suitable Chapter House.

The following officers for the ensuing year were elected:

President, Inspector John M. Roberts (ex-officio).

First President, Ellis S. Hoglund, Gamma

Secretary, Mark S. Nelson, Gamma Lambda.

Treasurer, John B. Mallers, Gamma Mu.

Sergeant-at-Arms, A. G. Pickard, Gamma Nu.

The convention adjourned at 3:45 p. m. to permit the delegates to attend the Gamma Beta initiation and Chicago Alumni banquet at the University Club.

LIEUTENANT GEORGE A. CHANDLER,
Secretary Pro Tem.

BIG SIGMA NU REUNION AT LOMBARD COLLEGE

Delta Theta of Sigma Nu opened their Fraternity House on New Year's day with a stag dinner party. Since the opening of school last fall they have been unable to live in their House because of S. A. T. C. regulations.

The affair was given in commemoration of the 50th anniversary of Sigma Nu and also in honor of the boys who are returning from different branches of the service.

The dining room was tastefully decorated in the Fraternity colors. Favors in the form of a little service flag were placed at each plate together with the menus printed on small folders in the form of a service flag containing the names of all Sigma Nus in the service.

After a sumptuous five-course dinner the following men responded to toasts:

"Why I Went to War," Arthur Stokes.

"On Twenty-mile Hikes," Harold Bates.

"My Knowledge of Officers," Harold Matteson.

"Odds and Ends," Harold Graham.

George Stephenson acted as toastmaster. After the toasts the men retired to the living room where, before a roaring grate fire, they spun yarns until the small hours of the night.—Galesburg (Ill.) Evening Mail.

A Practical Sentiment

My mother sent me a clipping of a prayer by Victor L. Kebler, Delta Pi, from the October Delta—which sure is short, but what more could it have in it?

May we hope that our Brothers who have fallen for this just cause will reap their just reward with those of the "Unknown Band"!

May Sigma Nu continue to live and I hope to return before long to help build again!

SERGEANT HERMAN E. WILSON, Gamma Pi.

The Alumni

Richard J. Hopkins
Nu

RICHARD J. HOPKINS
Nu

Attorney General of Kansas

A visit to the office of Attorney General Richard J. Hopkins of Kansas, Nu 73, shows that Sigma Nu has taken full possession of that office. The two assistant attorney generals in the office are Clifton A. Matson, Nu 127, and John K. Rankin, Nu 138. Matson comes from Wichita and Rankin from Topeka, and both are prominent in Kansas political circles.

Richard J. Hopkins, attorney general for the State of Kansas, is a member of Nu Chapter of Sigma Nu, who has never lost his interest in the Fraternity. Brother Hopkins was born in Jefferson City, Mo., in 1873. In 1899 he moved to Finney County, Kansas, where he graduated from the Garden City High School in 1892. The next year he entered the Liberal Arts Department of the University of Kansas, and

was initiated as a member of Nu Chapter. He did not finish his course at the University of Kansas, but later entered the law school at Northwestern University where he received the degree of LL.B. in 1901. Returning to Garden City he went into partnership with his father who was one of the leading lawyers of Western Kansas. This partnership continued until his father's death. It is hard for a Kansan to keep out of politics and Brother Hopkins is no exception to the rule. In 1908 he was elected to the legislature from Finney County and was made speaker pro tem when the House was organized in January, 1909. Two years later he was elected Lieutenant Governor and as such official presided over the State Senate in the 1911 session. Later he became chairman of the Republican State Central Committee. In 1918 he was the nominee of the party for attorney general and was elected by a majority of practically a hundred thousand, taking the office in January, 1919.

Brother Hopkins was married in 1909 to Miss May Cathcart, daughter of D. P. Cathcart of Knoxville, Iowa. Several members of the Cathcart family are also Sigma Nus. Mrs. Hopkins died November 18, 1918, of pneumonia, developed from influenza. There are three children in the Hopkins family.

Kansas, like many other States, is hampered by an antiquated constitution which makes it difficult for her cities to deal adequately with public service corporations. The demand for constitutional changes that will remedy this is a live issue in Kansas. Brother Hopkins is a Progressive in politics and naturally became a leader in this movement. His prominence in this movement has given him an acquaintance in Kansas greater probably than any man has ever brought to the attorney general's office. He has made good wherever he has been put to the test and his friends have no question but that he will make good in his new station.

GRANT W. HARRINGTON.

CURATOR OF THE UNIVERSITY OF MISSOURI

Judge James E. Goodrich
Rho

Judge James E. Goodrich of Kansas City, who was appointed to the Board of Curators of the university last Saturday, by Governor Gardner, is an Alumnus of the university. He received his A. B. degree in 1892 and LL.B. in 1893. He was born in Cameron, Mo., September 20, 1871.

James E. Goodrich was graduated from the Cameron High School in 1888 with valedictorian honors. He received his degree from the university cum laude. After his graduation he returned to Cameron where he served as cashier of the First National Bank for two years. He then formed a partnership with Judge Thomas E. Turney. Mr. Goodrich served for five years as city attorney of Cameron and was a recognized political leader in the community. He was Republican candidate for congress in 1898 and in 1900 a delegate to the Republican National Convention. In 1901 he dissolved his partnership with Judge Turney and thereafter practiced alone until his elevation to the bench.

He moved to Kansas City in 1901 where he retained a large percentage of his former practice. For four years he was a member of the Republican Central State Committee. He was elected judge of Division No. 5 of the sixth judicial district in November, 1907.

He married Miss Harper Riggins in 1894. She is the daughter of Dr. George W. Riggins, a confederate colonel and pioneer physician of the State.

Judge Goodrich holds membership in several fraternal and social organizations, among which are the Masons, Odd Fellows, Knights of Pythias, Modern Woodmen, and Sigma Nu and Phi Delta Phi Fraternities. He is a member of the Central Presbyterian Church, Kansas City.—Evening Missourian.

Mr. H. J. Blanton, also appointed curator of the university, is the father of Brother Edgar P. Blanton, Nu-Rho.

GRANT HARRINGTON.

PAST VICE REGENT MURPHEY Lambda

Gives Recital of His Own Songs

One of the most interesting meetings of the Music Study Club was held yesterday with Mrs. Newman Green, leader. The subject of the day was "Song Writers of America." Mrs. Green introduced Colonel Clarence Wainwright Murphey, an American composer, and song writer of note who played a number of selections and played the accompaniments of a number of his songs which Mrs. Morgan McCall rendered in artistic style. Mr. Murphey, who is a gifted musician, prefaced his appearance before the club with an address. The first number given was a "Courtship in Spring." The motif was joyful and happy. Mr. Murphey weaves little romances about his numbers whose inspirations are mostly pleasant happenings. "Goodbye," another number expressing resigned sorrow, using the Japanese word "Sagonara." "It Must Be" and several others were given. Mr. Murphey concluded the program by playing his latest composition, "March on the Victory," which was a paean of might and militancy.—Gadsden Evening Journal.

Sigma Nus all know Brother Murphey's "Official March" and other Fraternity music. His latest in one of the prize winners in the new pamphlet issued by the Committee on Songs.

ATLANTAN TO APPRAISE DAMAGE DONE BY HUNS

Captain Benjamin M. Hall, Jr., [Gamma Alpha], 26th engineers, A. E. F., in France, has been appointed as a member of the engineering commission to make appraisal of the value of property destroyed in France and Belgium by the German army.

Captain Warren E. Hall, [Gamma Alpha] 506th engineers, is the water supply engineer for the great shipping docks at Bordeaux.

Both boys were associated with their father, B. M. Hall, of Atlanta, in the firm of B. M. Hall & Sons, civil and mining engineers, and both will return to the firm upon the completion of their service abroad.—Atlanta Constitution, sent in by W. L. Kemp.

AUTO INDUSTRY MAKES RAPID STRIDE TO PEACE BASIS

By Thomas G. Young, Beta Rho.

The rapidity with which the manufacturers in the automobile industry have turned their attention and converted their plants from the manufacturing of war materials to industrial purposes again is just as wonderful an accomplishment as their record in turning out war supplies.

Every one allied in this big business since the signing of the armistice has turned his efforts toward making the coming year one of the best we ever have had. A great deal of credit should be given the men at the head of this industry for the energy and ability they have displayed in order to meet the problems presented, the solution of which meant victory.

Due to the request of the Government, all automobile shows for 1919 had been abandoned, as it was feared the transportation of the exhibits would greatly interfere with the already congested condition of the railroads; but hardly had the armistice been signed before nearly every show committee in the country had got together, completed their arrangements, and there is no question now but there will be just as many shows in 1919 as in former years, and they will be just as interesting.—Baltimore Sun.

Brother Thomas G. Young, Beta Rho, a member of the Automobile Club of Maryland and the Baltimore Automobile Dealers Association, was a member of the automobile show committee which in February put on the biggest event in automobile circles ever held there, according to Brother Norman Angell, Delta Gamma, and the Baltimore newspapers agree with him.

DICKEY RETIRES AS REGISTRAR AT COLUMBIA

Delta Gamma

Alumni and friends of Frank A. Dickey, '07, will regret to learn that he is leaving the university to become business manager of the Rockefeller Institute for Medical Research. When his resignation takes effect on June 30, next, Columbia will have lost one of her most faithful servants. Dickey has been part of Columbia since his undergraduate days. He prepared at Colgate Academy and entered Columbia College in the fall of 1903. While a student he was connected with the business management of *Spectator*. He was also a member of the Cadmus Club, and took part in various class activities. In June, 1907, he graduated with the degree of A.B., and from that time to the present he has been in the service of the university. From 1907 to 1908 he acted as employment secretary, and many remember how his efforts

landed "summer jobs" for needy students. In 1908 he became chief clerk in the office of the Registrar. He was appointed assistant registrar in 1911 and acted in that capacity until 1913, when he was made registrar of the university.

Dickey's achievements as registrar are evident to all in close touch with the university, but it is well to recall them. The registrar's office, as reorganized and developed under his administration, speaks for his ability, success, and devotion to his Alma Mater. Students and officers alike have always found a welcome there whenever they have come to him with their troubles. His activities since graduation from college have not been limited to official duties. As secretary of the Columbia University Committee on Athletics since 1908 he has helped in the upbuilding of a strong athletic organization. It is not generally known that his quiet and earnest efforts aided in a considerable measure the restoration of football at Columbia. He worked on plans long before it was even known that there was a movement on foot to bring the game back to the university. In the enforcement of the eligibility rules governing athletic standing Dickey has been guided by the highest standards of clean sportsmanship, as well as by a keen desire to see the best available men on Columbia teams.

Dickey was president of the American Association of Collegiate Registrars. He is also a member of the Columbia University Club, the White Plains University Club, and the Sigma Nu Fraternity.—Columbia Alumni News.

ANGELL LEADS AGAIN

His "Y" Team "Cleans Up"

In the Baltimore campaign in February for the Armenian-Syrian Relief, the team headed by Brother Norman H. Angell, Delta Gamma, of the Y. M. C. A., as captain, secured the second largest amount of subscriptions. Angell's team which got to be known by the newspapers as the "Y" team collected \$10,683.94. The team captained by R. Mooney of the Baltimore Bargain House only went ahead of Angell's men by a few hundred dollars. M. W.

BROTHERS AND VISITING FIREMEN

Brother Jay R. Monroe, Gamma Nu, and family have recovered from a long visit from the "flu" and have gone to Deland, Florida, for the winter. One of the first things Brother Monroe did when he arrived in Florida this year was to join the local fire department. From an authentic source we understand that he defies Brother Bill Lewis of the Mountain Lakes Department, or any other famous fire chief, to equal the feats he accomplished at the first fire.—The Fifth Point.

GOOD ORGANIZER**Mr. Walter E. Myers**

Two years ago Mr. Walter E. Myers withdrew from the law firm of Myers, Green and Keough, of which he was senior member, to give his attention to business interests. In the legal profession he had won a high standing; in business his success has attracted attention.

Before deciding to accept the position of president of the D. and M. Cord Tire Company, he spent some months in the study of the rubber industry, especially the future prospects.

Mr. Myers is of Quaker stock, his grandfather, Mr. Pleasant Coppock, being a leader in the Friends' church at Damascus, Ohio. The boy was graduated from high school, and then worked his way through Mount Union college. Coming to Cleveland he took a law course, paying his own expenses and finishing with a substantial bank account.

He is president of the Ohio Royal Building and Loan Company, president of the Alexandria Company and treasurer of the Federal Mortgage Finance Company.—Finance and Industry, Cleveland.

The D. and M. Cord Tire Company of Cleveland, Ohio, has other Sigma Nu affiliations. Besides our Grand Counselor Walter E. Myers, Beta Iota, who is president, Walter R. Denman, Delta Alpha, is secretary and general manager. Brother C. L. Royan, Delta Alpha, has returned to Cleveland and joined the sales force.

THREE SIGMA NUS ON WAR DEPARTMENT COMMITTEE**Education and Special Training**

Professor Errett R. Newby, Delta Omicron, of the University of Oklahoma, has been at Washington with the Committee on Education and Special Training of the War Department. Associated with him on this committee are two other Sigs, Professor Frank Aydelotte, Beta Eta, of the Massachusetts Institute of Technology and Stanley A. Zweible, Pi, formerly welfare director of the Bethlehem Steel Company. Brother Newby has been for the past three years inspector of the Twelfth Division and Brother Zweible is chapter adviser at Lehigh.

**WEBSTER W. HOLLOWAY
Nu****A Judge Advocate With Rank of Major**

Webster W. Holloway, third assistant United States attorney for Kansas, who was discharged recently from the United States army with the rank of captain, has been appointed judge advocate in the offi-

cers' reserve with the rank of major. Major Holloway entered the service as second lieutenant in the office of Gen. Enoch H. Crowder as one of the classification officers of the draft. He was advanced to a first lieutenant in the first few months and then to a captain. Major Holloway is 30 years old, and is said to be the second youngest judge advocate in the Officers' Reserve.—Kansas City Star.

WANT TO JOIN U. S. CLUB?

**Harry L. Hopwood, Beta Nu, Chairman
Columbus, Ohio, Unit No. 78**

Want to join the Unconditional Surrender Club?

It stands for the complete surrender of the hun. Even after an armistice is signed, America will be on guard to see that the final peace terms are imposed on that basis.

The Charter of Unit No. 78 has been sent to Harry L. Hopwood, Room 213, New First National Bank Building, who will act as chairman in the formation of the club.

Here is the oath club members will take:

"As a member of the Unconditional Surrender Club of the United States of America,

"I pledge my undying fealty to the United States government;

"I pledge my unfailing support to our soldier boys who are fighting the enemy:

"I pledge myself and all that I possess to the cause of winning the war against Germany, if that be necessary;

"I pledge myself to make any and whatever sacrifices I may be called upon to make, to the end that Germany may be brought to realize that only an UNCONDITIONAL SURRENDER will be acceptable to me and to my country, the United States of America."

National headquarters of the club are at Flint, Mich. If you wish to join the Columbus Unit of the Unconditional Surrender Club, send your name and addresses to Mr. Hopwood, 213 New First National Bank Building. Anybody approving the purpose of the club may join it. No fee or other money consideration is asked.

SAILOR CASTS FIRST VOTE**IN THE PRIMARY**

Lieutenant Julius Zieget, Gamma Theta, 422 West Franklin street, who is stationed at Cape May with the Naval Reserves, mailed his vote to the Executive Department at Annapolis, being the first absent voter to take advantage of the opportunity afforded him under Chapter 78 of the Acts of 1918.—Baltimore News.

Alumni Chapter Letters

The Chapter Letter for October is due August 15, 1919.

We desire an A-No. 1 record in the next Delta. Brother Secretary, keep this date in mind.

AKRON ALUMNI CHAPTER

After a very quiet and uneventful year, Sigma Nu in Akron is now beginning to find itself again. To tell the history of the Akron Alumni Chapter during the last year and a half would not take a great deal of time and in order to fill the allotted space in the Delta, I will have to tell what has just recently happened and what we intend doing in the near future.

Our meeting the last of February was merely a social gathering, sort of an impromptu affair in order to get a line on the Sigma Nus who were in town and those we expected back in the near future.

On April eighth, we held one of the best and most enthusiastic meetings ever held in Akron. Twenty-five men were present and after enjoying a real good meal, digested easily by almost continuous laughing at Brothers Waddle's and Meese's witty remarks, we held our annual election of officers and took care of our regular business.

Brother F. W. Fox was elected president, Brother H. L. Slaybaugh, vice-president, Brother W. W. Schaller, re-elected secretary, and Brother Marsh, treasurer.

The secretary received a letter from Inspector Caldwell in Cleveland, asking us to elect two delegates to the district convention to be held in Cleveland, April 25 and 26. The president, Brother Fox, and secretary, Brother Schaller, were elected as delegates, with Brother Slaybaugh and Bloom, as alternates.

We are encouraged now by the return of several of our old members from the service and also by the addition of new men. We look for the biggest and brightest year Sigma Nu has ever had in Akron.

A great deal of effort is now being put forth in establishing a Chapter House. We hope to have this movement well under way by our next meeting and trust it will not be long till we are able to boast of our own home.

We are willing to undertake any task, no matter what it is, if in the end it means the proper advancement and holds up the name of our Fraternity. We will meet from now on, the first week of each month and ask Brothers who come to Akron to get in

touch with some of our members and can easily do so by calling the secretary, at the B. F. Goodrich Co., Bell Phone Main 2520, and then asking for phone number 105. If any of the active Chapters know of Brothers in Akron, we will deem it a favor if you will drop a card to the secretary and he gives his word to do the rest.

Brother Wilkins, Purdue, has returned from the service and has joined the sales force of the B. F. Goodrich Rubber Company.

Brother Schweizer, Columbia, has returned from Washington, where he has been stationed for some time. I do not know whether he was chief advisor to the president or running the army but anyway he is looking fine and has again taken up his duties at the Firestone Tire & Rubber Company.

The last report of Eldred Barden is that he has taken a southern beauty for a wife. Leave that to Eldred—but we knew he would soon fall.

Brother Kryder is still climbing upwards at the Firestone and we predict the superintendency for him before long.

Several other Brothers than those previously mentioned have returned from the service. Brothers Greenlese, Bloom, Slaybaugh and Myers have returned. We welcome these men back and are mighty proud of them, not only for serving their country but upholding the traditions of our Fraternity. Welcome home, men, for to you our debt is great and our gratitude will last forever.

WILBUR W. SCHALLER, Secretary.

BALTIMORE ALUMNI CHAPTER

It didn't take Brother Julius Zieget, Gamma Theta, long to get into a uniform. Just ten days after war was declared, he was in active service in the Naval Reserve and was sent to Cape May section base. He was first made an ensign, promoted in July, 1918, to lieutenant, junior grade, and last January to lieutenant, senior grade, and also made the executive officer of this important naval base. Practically all the extensive improvements made there were done under his control.

civilian life, Brother Zieget is a r and a good one at that. He has an at 422 East Franklin street, four from the Y. M. C. A. A sign in of his office reads, "Julius Zieget, ay at Law." The door to his office sen locked since April, 1917, and now the card in one corner of the door ug "Gone to War," is dusty. The ns in his office windows are drawn and no one has been in since he left e war. He is still away and probably ore will not see him until September.

ap Holabird, near Baltimore, is a different than any other camp and is ch interest to the visitors. It is from place that all the motor trucks were d to France. There are acres of , as they are now being brought from other camps to be overhauled ored.

ther Leslie J. Bosworth, Gamma da, recently invited Mrs. Angell and spend an afternoon with him at Camp ird. In one field he showed us five and large trucks waiting to be over- l. The cost of each one ranged from to \$5,000, so it was rather an ex- e field we looked upon. Brother rth is clerk of his company of 250

On March 1st he was given another tion, being made a sergeant, first- By a strange coincidence, the day our visit he was taken down with s and for the next nineteen days was rt McHenry Hospital.

ther Lewis T. Leonard, Delta Pi, has ble country place in Montgomery ry, Maryland, one hour's ride from ington. Brother Leonard is connected he Agricultural Department in Wash- l. In the summer on all week ends, kes for this little place of his, which een named "Leonarda." He raises ibles and has a splendid apple d.

ew days ago I met Brother Calvin B. of our University of Pennsylvania er. He was at one time president of Baltimore Alumni Chapter. Gill ed a commission as second lieu- in the Motor Transport Corps and en stationed during most of the war shington.

NORMAN H. ANGELL.

EVELAND ALUMNI CHAPTER

ing down to real gossip, I have some which are more or less authentic. r Mochel introduces his brand new ter, Ellen Jane, the date of whose I am unable exactly to state. Mochel an instructor at Case School of Ap- science. Brother A. C. Ladner is also ructor at Case School. Brother J. rnick is back from the service and is ack Maline at the Hauserman Com-

pany. Brother Ken Strock likewise, and also rooms with Hans. E. M. Braun is also back from the service and is with the Guar-anty Tire and Rubber Company as before the war. C. R. Dietsch who has previously been noted chiefly for his pedagogical activities is now sales manager for the Damascus Oil Company. His favorite slogan now is "Liquid Soap Forever!"

I desire to introduce at this time the firm of Francy, Parks & Allen, who will very shortly engage in the manufacture of various kinds of chemicals, infernal machines and gases. The Allen in question is Si, alias "Birdseed". The two Walters, Denman and Myers, recently formed the D. & M. Rubber Company, or some such similar expansive name, and propose to manufacture cord tires. They have beautiful pictures of their plant which they will be glad to exhibit to all interested free of charge. Brother Myers, I understand, denies the rumor that he has a small wax model of his plant which he carries about with him at all times for the purpose of assiduous study. The D. & M. is not the only Sigma Nu rubber doll of recent birth. R. P. McElrath has bloomed forth with The McElrath Truck Tire Company. It is reported that Brother McElrath is also interested in the manufacture of rubber heels.

M. E. EVANS, Secretary.

DETROIT ALUMNI CHAPTER

The Detroit Alumni is fast recovering from the shock it received by so many of its members volunteering and enlisting for service in the cause of their country. Our members are being discharged daily and we will soon become whole again.

There will be a meeting of the Alumni Chapter in the near future for the election of officers and for the arranging of dates for our future activities. We, as before, take lunch at the Board of Commerce Building every Saturday at 1 p. m. On Saturday last we had an extremely large attendance and were given several personal experiences of the boys who went over.

Glen Shipman, only a mere youth, states that he crossed the ocean thirty-six times and finished with the honors of being a first-class seaman when discharged. George Daniels told us of his experiences connected with the Navy Railroad Batteries. He was three months in France firing shells weighing fourteen hundred pounds, which had a range of forty-eight miles. He informed us that he expected to continue his course at Ann Arbor.

Terry Field, who is now connected with the American Car and Foundry Company, recently made an overland trip from St. Louis to Detroit and enjoyed his visit with the Secretary at Indianapolis, and after spending one year in Depew, New York,

he decides there is no town like Detroit and has been transferred to our city.

Thomas F. Murphy, Gamma Nu, informs us that he is soon to marry a Miss Laura Vic MacKenzie of Blossburg, Pa. Bruce Miles also informed us that he expected to leave the single ranks very soon.

Charlie Jones also decided there is no town like Detroit and has become connected with the White Motor Company. Scotty Ortman is now connected with the Owl Service Company in the Free Press Building, and from all reports they are a very wide-awake company.

Jay E. Hanna, Gamma Nu, University of Michigan, first-class seaman aboard S. S. Dekoloe, was in Detroit on furlough in January. He expects to make one or two more trips to France transporting returning troops before getting his discharge.

It is with deep regret that we submit this item that Mrs. Kathren DeDraine Albertson, wife of F. L. Albertson, Gamma Alpha, died October 27, 1918, of pneumonia, following influenza. Surviving her is her husband and their three-year-old son, Richard George Albertson.

FREDERICK C. DAY, Secretary.

HARTFORD ALUMNI CHAPTER

Hartford is becoming a Sigma Nu center. Why? Because we have two live Chapters in town, two forces which will work together to put Sigma Nu to the front.

If every Alumni Chapter could have a collegiate chapter to which it might act as a big brother, then a great part of that problem "how to keep the Alumni interested" would be solved.

The two Chapters, Delta Chi and Hartford Alumni have united in a series of informal dances. The first was held on the evening of March 7 at the Kings Daughters' Chapter House on Prospect Avenue. The second dance comes on Saturday evening, May 3, at the same place. If the second is as successful as the first we may be compelled to secure a larger hall for the third.

As the program for the March meeting of the Alumni Chapter called for a visit to the Trinity Chapter House, after our usual dinner at the University Club we went out to Vernon Street in a body. Several of the Alumni bore mysterious packages the contents of which came to light later in the evening when the Delta Chi men served coffee.

The attendance at our monthly dinners at the University Club has steadily increased. Several of our old members have returned from the service and other Brothers

have appeared to share the fellowship of an Alumni Chapter.

Brother Malcolm S. Nichols, Delta Zeta, whose article "Social Work as a Profession for College Men" appeared in a recent Delta, is now superintendent of the Charity Organization Society of Hartford.

Brother Maxwell E. Woodward, Beta Sigma is now with the Stanley Works at New Britain.

Brothers Royal G. Higgins, Jr., Delta Nu and Frederick B. Hazeltine, Pi, are attending the schools of the Aetna and Travelers Insurance Companies.

Another new member of our Alumni Chapter is Brother Chauncey M. Bush, Gamma Psi.

Brother N. K. Allison has been missed from our recent meetings as he is recovering from a spinal operation which is believed to have been successful.

The Hartford Sigma Nus are already considering plans for summer activities so if you come within hailing distance let us hear from you.

RAYMOND H. SEGUR, Secretary.

INDIANAPOLIS ALUMNI CHAPTER

The Indianapolis' Alumni Chapter has come back!

On the evening of March 22, we began our post-war activities with a dinner at the Hotel Lincoln. Although the meeting was hastily advertized and many Brothers were still "flying", sixteen "Sigs" were on hand and the pep overflowed.

After we had all been fed and the inner brute satisfied we got busy and elected officers for the year. With Wm. Russell Stuart, Beta Eta, President; Karl W. Hoff, Beta Zeta, Vice-President; Harrell V. Bailey, Beta Beta, Secretary, and Paul Means, Beta Eta, Treasurer. We are ready to go out and drag in every Sigma Nu in the State to our organization.

The one big event for Indiana Sigma Nus, the Annual Hoosier Rally, was brought up and will be put over with a whoop. This year we will welcome back our soldier Brothers with a Victory meeting and expect to land Brother C. C. Lyon, Beta Eta, himself an overseas man, for our main attraction.

Now just a word to all Sigma Nus. Watch the Alumni Chapter of Indianapolis. We mean business and intend to be the foremost of Alumni Chapters before long.

Brothers Leeth, Thomas and Powell are all back in Indianapolis after "flying" visits at Kelly and other southern fields.

er Roy Sahn, Beta Rho, has been secretary of the State Savings and company, Indianapolis, since his return to the Lincoln Division.

I wish to get in touch with Indianapolis. Don't forget our national officers are located in the Lemcke; and either Brother Dunlavy or Rider will put you next in no time.

er Edgar Davis, Beta, Eta, has been in charge of government clinics at Indianapolis and Muncie.

Indiana Medical School at Indianapolis. We have a good Alumni of Medics, including Pitkin, Beta Beta; Steele, of Beta Sigma; Seyford, of Gamma Phi, all being active here.

IRRELL V. BAILY, Secretary.

NEW YORK ALUMNI CHAPTER

are theoretically hanging out of the top of the fifty-first story of the Woolworth Building these days to catch a glimpse of the returning troop ships as they come up the harbor. Business halts and waiting faces await the word that they are here." On March 25 when the 27th Division filed up Fifth Avenue for the largest crowd which probably witnessed a parade, Sigma Nus and as other patriotic citizens were glad to find our own Bobby Byrns, lieutenant in the old 7th, heading the procession in a big car. The sight of his fresh uniform and crosses caused such a tumult that the cries of his name were heard in the cheers. Bobby, abashed by the attention, sat helplessly in his car, no doubt that the whole thing was far more than anything he had previously thought of.

thought of greeting the returning troops brings forcibly to mind those New York Alumni Sigs who will not be in the ranks—those men whose names have been placed on the national roll. There is "Big Jeff" Healy, a rowing champion in football at Columbia was one of all his opponents, and who died in August, 1918, after he had led his troops as a lieutenant.

G. Leonard, also of Columbia, a man who died of wounds in a combat hospital in France after a strenuous counter in the Chateau Thierry sector. Leonard was a charter member of the chapter and was married; John McCormick, Columbia, who was killed in October 18, 1918, thus cutting a brilliant career as a lawyer; "Tomgarty," Mount Union and Columbia, a congenial fellow who fell in duty as Signal Corps; and Chester Peterign in the navy, who succumbed to an attack of the "flu." "Pete" will be remembered as one of the most

brilliant men graduating from Columbia. The war has taken heavy toll of the Columbia men in the New York Alumni Chapter, but we shall all be the better for having known these splendid fellows. They are our ideals of strong men—big hearted, eager and self sacrificing. Typical examples of the best of the American forces. Much honor to their memories!

The Guaranty Trust Company of New York has taken Brother Henry Theis from the Franklin Savings Society and made him assistant trust officer. Henry apparently doesn't mind, though we are inclined to object because the Trust Company serves their officers such good lunches that Henry fails to appear at the Thursday luncheons as often as he used to.

Vice Regent George A. Smith and Brother Jay R. Monroe have been basking in the shine of Florida in an effort to get up more steam to carry them through until the golf season opens again. Brother Monroe is the subject of a very interesting article in the April issue of the National Magazine. The article is "the story of a machine that thinks for you"—the "Monroe Calculating Machine," of which company Brother Monroe is the president. The Monroe is known as the only perfect calculator on the market and the demand is in excess of the capacity of the plant it is said, but Jay isn't bothered with orders from the Alumni fellows as we are still able to add both of our dollar bills in our heads.

Brother Charles T. Bower, Gamma Gamma, assistant secretary of the Union Pacific System, is back from Washington, where he was associated with Judge Robert S. Lovett of the Railroad Administration. "Charley" recently had a rather rocky trip to Salt Lake City. The secretary of the system was incapacitated for the trip through an accident, and it befell "Charley" to keep the seats of the private car shiny by his lonesome. But then he's always playing in such hard luck. Some day we expect they'll sentence him to a trip to Cuba or South America or some such place in a private yacht. He's still a bachelor too.

Letters from Bert Wilson are read these days with a great deal of interest. In spite of his many duties in his new supervisory position, he finds the time to give us all a dig in the ribs and a chuck under the chin now and then. He says he may be back in May, but he doesn't say he'll be glad of it. We've a sneaking notion that Bert glories in an uphill job where teeth, hands and toes are necessary to hang on, and that he is having the time of his life dealing out good fellowship to the large numbers of men who are tearing mad to get home. And when he gets home I guess we'll all take a day off and talk things over. If he makes it on Thursday, we'll swamp the Machinery Club.

When cold weather comes again New York Alumni will be found in a long stride. For the past two years we have been unsettled because we just couldn't think of normal things. Give us a good, hot vacation Mr. Weatherman and a chance to get our breath, and the new year will find us on the job for sure. Incidentally, strangers to New York, but Brothers in Sigma Nu, will always be welcome at the Machinery Club on Thursday. You'll always find a live bunch hailing from California to Maine. Incidentally, our secretary, Brother Sawyer, who comes from Maine, evidently thought we weren't going to have any winter this year, so he moved to Minneapolis the other day. He can now move back, as Maine weather is now ruling Manhattan.

LeROY E. KIMBALL,
Secretary pro tem.

OKLAHOMA CITY ALUMNI CHAPTER

The absent Brothers are gradually returning and we hope in our next letter to give a full and detailed account of their activities in the war.

The Alumni Chapter was recently called into special session for the purpose of meeting with Brother Grant Harrington, who was making a trip of inspection in Oklahoma. Without going into detail, it will be at once understood by all who have had the pleasure of meeting Brother Harrington, that the occasion was indeed a rare one. To see the fires of fraternal brotherhood burning with undiminished brightness in the breast of one who has spent the best years of his life in the service of Sigma Nu causes one's faith in the tenets of the order to take on renewed vitality.

Brothers C. E. Bennett, I. D. Taylor, John H. Dunkin and Solon W. Smith accompanied Brother Harrington to Norman to assist him in the inspection of that Chapter, which was found to be in a very flourishing and healthy condition.

The Chapter continues to meet, without fail, on the first Saturday of each month at the Savoy Cafe at 12:15 p. m. This has been our meeting place for eight years and very few have been the times when the faithful failed to gather. All visiting Sigma Nus are urged to make note of the time and place.

SOLON W. SMITH.

I was not informed that it was any part of my duty as Division Inspector to visit the Alumni Chapters, but I took advantage of the opportunity to stop in Oklahoma City on my way to the University of Oklahoma. Solon W. Smith, the secretary of the Chapter, was in court trying a law suit and Isaac D. Taylor, the Adviser of Delta Epsilon, was hearing a bankruptcy proceedings in his court, but I found O. E. Jones of Delta Epsilon and C. D. Bennett

of Psi. They at once commenced calling such members as they could reach over the phone asking them to be at the Savoy Cafe at 12:00 o'clock for a noonday lunch. Between calls Bennett sung the praises of Walter Murphy, the Chapter dad of old Psi, and told how he was the same phenomenon in North Carolina politics that he was in the old days in the State University.

Twelve o'clock found eight of the Alumni Chapter members at the cafe. They were Isaac D. Taylor and Solon W. Smith of Nu, Fenton M. Savage of Sigma, C. D. Bennett of Psi, C. Edgar Honnold of Gamma Beta, John H. Dunkin of Gamma Xi, and O. E. Jones and Willis K. West of Delta Epsilon. During the luncheon the matter of getting closer to the boys of Delta Epsilon was discussed and Taylor, Smith, Bennett and Dunkin decided to go to Norman with me to help inspect the Chapter. The party took the boys at the university by surprise, but they did their part handsomely and entertained the visitors royally. It is hard to tell which enjoyed the visit the most, the four old graduates, who took a half day off to renew their youth, or the boys who are looking forward to the time when they will be members of some Alumni Chapter. As a result of this visit it is probable that the next class initiation of Delta Epsilon will be held in Oklahoma City with the active Chapter as the guests of the Alumni Chapter. Norman, the seat of the university, is only eighteen miles from Oklahoma City with a car service every hour, so it is comparatively easy to establish visiting relations between the two Chapters which will be mutually helpful.

GRANT W. HARRINGTON,
Inspector, Twelfth Division.

PITTSBURGH ALUMNI CHAPTER

The Pittsburgh Alumni Chapter now has a "mailing list" of 75, but due to the loss of many of the men most actively interested in the Alumni Chapter, has not been able to bring the paid membership above 45. We think this is not bad for this year, however.

The Alumni Chapter has held regular monthly meeting with an attendance of about twenty. The noon lunches at the Kaufmann & Baer Store are regularly attended and the large "round table" is usually filled.

A dance is to be held May 2 by the Active Chapter (Delta Sigma) and the Alumni Chapter.

A. C. Dyer has been elected Treasurer to succeed H. F. Braddock, who contemplates leaving Pittsburgh. We hope Braddock's absence will not be permanent, for he will be missed here. He was a regular attendant at meetings, was at the noon lunches as frequently as possible, and could

be counted in any movement to the interests of the Fraternity.

On March 18, the Secretary of the Pittsburgh Alumni Chapter received from Lieutenant Hibben a copy of "Histoire de la Grande," printed in 1811, which is about all that remains of the library. Hibben has been detailed to the Peace Commission regarding damage to electric plants in North-
Carolina.

Fotheringham, (Ensign U. S. N., "South Pole") spent part of a month in March at the Alumni Lodge.

S. Abernethy (second lieutenant, Air Service) and W. T. Manning (U. S. N., U. S. S. "West Ekong") returned to the employ of the Westinghouse Electric and Manufacturing Co., living at the Pittsburgh Alumni

H. Schuler, Pi, second lieutenant, who was at the Pittsburgh Lodge for a short time after leaving service, has accepted a position with Camden Forging Company, and is now at the Sigma Nu House, 3312 Locust St., Philadelphia.

Lieutenant Wm. Addams, Jr., Gamma Chapter and Ensign R. C. Harding, Gamma Chapter, have both written President Dabney, and we have some hope of seeing both back to Pittsburgh in the future.

P. Hean, Beta Rho, who is located in Pennsylvania, in Y. M. C. A. work under the National War Work Council at the Pittsburgh Alumni Lodge a few days in March while attending a War Relocation Institute in Pittsburgh.

Pittsburgh has never been an important publishing center, but the efforts of one of our Sigas are doing much to "put Pittsburgh on the map" in this respect. A. M. Beta Zeta, is editor of "The Blast and Steel Plant", Pittsburgh. Due to his energetic and judicious management this publication has developed from a relatively little known periodical into the best and most widely consulted technical publications in America. He also gives considerable supervision to the technical journals issued by the publishing company.

Members of the Alumni Chapter are: G. Palmer, Epsilon, Verona, Pa.; J. Jones, Delta Delta, 17 Forbes Ter-
ritory; W. C. Hansen, Gamma Chapter, M. C. A., Butler, Pa.

H. Heywood, former Grand Treasurer Sigma Nu, whose name and signature are known to every older Sig in the chapter has just gone from Pittsburgh to St. Louis, to take charge of the renting of the "Trade Building." His St. Louis address is 1619 Wright Building.

At the meeting of the Pittsburgh Alumni Chapter on February 8, 1919, the matter of the disastrous fire at the Psi Chapter House was presented by President C. T. Dabney. After some discussion it was regularly moved, seconded and carried that the Treasurer be authorized to receive and transmit to Psi Chapter any contributions which members of this Alumni Chapter might desire to make.

At the meeting on March 8th, where the facts in the case were ably presented by C. D. Taylor, a contribution of \$100 was raised to be sent to Psi, as a tangible expression of the sympathy of the Pittsburgh Alumni Chapter. Any further contributions will be forwarded through Treasurer Dyer.

It was also voted unanimously that the Secretary be instructed to write the General Secretary of the Sigma Nu Fraternity to the effect that the Pittsburgh Alumni Chapter invokes and heartily favors the financial assistance of the General Fraternity for Psi Chapter in this emergency, and that the Pittsburgh Alumni Chapter unanimously commends and endorses any action of this nature which may be taken by the General Fraternity for the aid of Psi, as one of our old and honored Chapters.

E. H. McCLELLAND, Secretary.

SALT LAKE CITY ALUMNI CHAPTER

War made such inroads upon the membership of the Salt Lake Alumni Chapter that for a time last fall it seemed that all of the boys whose age permitted were either in the service or on the way. Our old standby, Frank R. Whitzel, too old for war but not for work, Bradstreet wanted nearer the home office, so his transfer was our loss.

J. J. Cadot, Gamma Eta, 1910, is still in service in France. D. R. Dove of the same school now resides in Denver; R. A. Garnett, Beta Xi, and J. Harold Bagley were in the service for a time but are again with us. Since our last letter death has called Brother A. C. Samuelson, Gamma Kappa, 1911, who died with the flu. Brother C. C. Hetzel, of Ogden, tried to get in the service but was badly needed on the examining board where he rendered excellent service.

We have resumed our regular monthly dinners at the University Club on the third Friday of each month. Visiting Sigas to Salt Lake are urged and invited to call upon us when in the city and President Fred A. Clark with offices in the Oregon Short Line Building, or Secretary B. J. Engle, 308 Judge Building, can always easily be found and Sigas en route are always welcome.

Brother Lee Charles Miller recently entertained us with an account of his big

game hunt last fall in British Columbia, where he was accompanied by Mrs. Miller, who makes just claim to killing a part of the big game and one of the ladies of the party killing an eight-foot bear. Our annual all-day Sigma Nu picnic in the mountains is on the program for this year.

B. J. ENGLE, Secretary.

SEATTLE ALUMNI CHAPTER

On March 13, the Alumni in conjunction with the Active Chapter held a dinner at the Butler Hotel. This was the first of a series of dinners which are to be held on the second Thursday of each month.

Through the efforts of Brother Claude J. Hunt, Inspector of the Division, the dinner was a big success. Cards were mailed to all of the Alumni residing in the vicinity, urging their attendance. As a consequence twenty-nine Alumni were present.

Speeches were given by the following: Brothers Claude J. Hunt, Howard G. Cosgrove, Edwin Brown, John Allen, Mike Foran, Walter Doty, Ed Robertson, Claude Anderson, of Beta Beta.

A similar banquet will be held every second Thursday in the month at the Butler Hotel.

ROBERT L. ALLEN, Gamma Chi,
Reporter.

TOPEKA ALUMNI CHAPTER

It was my pleasure to be the guest of the Topeka Alumni Chapter the evening of March 6, and to meet a lot of splendid fellows who have not lost their interest in the Fraternity. This Chapter is located about midway between Nu at the State University and Beta Kappa at the Agricultural College and wants to be helpful to both Chapters. The members of the Chapter went to Lawrence recently and spent an evening with the boys at Nu. As a result of that visit Nu will not hold her annual spring rushing party, but in its stead the Topeka Alumni Chapter with the co-operation of the Alumni of Nu generally, will give an Alumni party for the active Chapter. April 26 has been set as the date and the big Fraternal Aid Hall has been engaged for the occasion. Many of the old boys will be home from the army by that time and it is planned to make it a sort of a general home-coming, get-together party.

GRANT W. HARRINGTON,
Inspector, Twelfth Division.

TUCSON ALUMNI CHAPTER

The Tucson Alumni looks with the greatest pride to Sigma Nu's newest baby Chapter, Epsilon Alpha installed only last June at the University of Arizona. Coming into existence during the most unfavorable

times and having to fight for life during the two epidemics, the S. A. T. C. and the influenza, Epsilon Alpha Chapter has proved its worth. The Tucson Alumni were too weak to aid materially so the credit for the Active Chapters' strong comeback can not be divided.

We are expecting a new lease of life as our soldiers return home. Although many are in service on the other side, two Brothers who saw real action have returned: Major B. F. Morris and Lieutenant A. I. Winsett to resume their practice of medicine and law respectively.

Brothers John Gardiner, Henry Mayhew, Wm. E. Turner and J. E. McElroy are still in France with the Army of Occupation. All are expected to relocate here on their return.

Brother Billie Bush is practicing law and considering a leap into the political field. George Pusch is manager of the Pusch Land and Cattle Company.

J. F. McKALE, Secretary.

WASHINGTON ALUMNI CHAPTER

During all the time hostilities were in progress Brother members of our Fraternity were continually dropping into Washington. These newcomers were mostly transient, many of them being stationed either in the army or navy organizations and with few exceptions they came in contact with the other Sigs here. Many were entertained at Delta Pi Chapter House, 1739 P St., N. W., which the Chapter has fitted up with all the comforts of home for such visitors. The Alumni Association holds its meetings at this House and thereby keeps in close touch with the Active Chapter.

During the month of January the annual election of officers was held and all the officers of last year were duly elected. About the middle of February, however, the Alumni Chapter held another election to fill the position of President as A. L. Harris, who so ably guided us through a difficult year handed in his resignation because of increased duties forced upon him in his office work and of additional classes assigned him at the George Washington University.

As president of the Alumni Chapter the members most appropriately elected G. H. Chasmar. He is one of the old guard who helped put Sigma Nu on the map in the Capitol of the Nation. The officers are now: G. H. Chasmar, President; J. Norman Taylor, Vice-President; F. E. Marvin, Secretary; R. M. Mehurin, Treasurer.

On the first Thursday of each month we meet at Cushman's for a noonday luncheon where all have an opportunity to talk over things of interest both to the Fraternity and to themselves.

FRANCIS E. MARVIN, Secretary.

as be counted in any movement to
for the interests of the Fraternity.

March 18, the Secretary of the Pitts-
burgh Alumni Chapter received from Lieu-
tenant Sam Hibben a copy of "Histoire de
Joseph le Grand," printed in 1811, which
says is about all that remains of the
in library. Hibben has been detailed
out to the Peace Commission regard-
ing damage to electric plants in North-
Carolina.

Y. Fotheringham, (Ensign U. S. N.,
S. "South Pole") spent part of a
week in March at the Alumni Lodge.

Ensign S. Abernethy (second lieutenant,
U. S. Air Service) and W. T. Manning
(Ensign U. S. N., U. S. S. "West Ekong")
returned to the employ of the West-
inghouse Electric and Manufacturing Co.,
where he is living at the Pittsburgh Alumni
Lodge.

Ensign H. Schuler, Pi, second lieutenant,
U. S. Navy, who was at the Pittsburgh
Alumni Lodge for a short time after leav-
ing service, has accepted a position
with the Camden Forging Company, and is
now living at the Sigma Nu House, 3312
N. 1st St., Philadelphia.

Ensign Wm. Addams, Jr., Gamma
Chapter, and Ensign R. C. Harding, Gamma
Chapter, have both written President Dab-
ney recently, and we have some hope of
seeing both back to Pittsburgh in the
future.

Ensign P. Hean, Beta Rho, who is located
in Pottsville, Pa., in Y. M. C. A. work under
direction of the National War Work Coun-
cil, stayed at the Pittsburgh Alumni Lodge
a few days in March while attending a
Construction Institute in Pittsburgh.

Pittsburgh has never been an important
hiding center, but the efforts of one of
Pittsburgh's Sigs are doing much to "put
the map" in this respect. A. M.
Lehle, Beta Zeta, is editor of "The Blast
and Steel Plant", Pittsburgh. Due
to Lehle's energetic and judicious man-
agement this publication has developed from
a comparatively little known periodical into
one of the best and most widely consulted
technical publications in America.
Lehle also gives considerable supervision
over technical journals issued by the
publishing company.

Members of the Alumni Chapter
J. G. Palmer, Epsilon, Verona, Pa.;
Lines, Delta Delta, 17 Forbes Ter-
race, Pittsburgh; W. C. Hansen, Gamma
Chapter, M. C. A., Butler, Pa.

Ensign H. Heywood, former Grand Treas-
urer of Sigma Nu, whose name and signa-
ture are known to every older Sig in the
Fraternity, has just gone from Pittsburgh to
St. Louis, to take charge of the renting of
the Arcade Building. His St. Louis ad-
dress is 1619 Wright Building.

At the meeting of the Pittsburgh Alumni
Chapter on February 8, 1919, the matter
of the disastrous fire at the Psi Chapter
House was presented by President C. T.
Dabney. After some discussion it was reg-
ularly moved, seconded and carried that
the Treasurer be authorized to receive and
transmit to Psi Chapter any contributions
which members of this Alumni Chapter
might desire to make.

At the meeting on March 8th, where the
facts in the case were ably presented by
C. D. Taylor, a contribution of \$100 was
raised to be sent to Psi, as a tangible ex-
pression of the sympathy of the Pittsburgh
Alumni Chapter. Any further contribu-
tions will be forwarded through Treasurer
Dyer.

It was also voted unanimously that the
Secretary be instructed to write the Gen-
eral Secretary of the Sigma Nu Fraternity
to the effect that the Pittsburgh Alumni
Chapter invokes and heartily favors the
financial assistance of the General Fra-
ternity for Psi Chapter in this emergency,
and that the Pittsburgh Alumni Chapter
unanimously commends and endorses any
action of this nature which may be taken by
the General Fraternity for the aid of Psi,
as one of our old and honored Chapters.

E. H. McCLELLAND, Secretary.

SALT LAKE CITY ALUMNI CHAPTER

War made such inroads upon the mem-
bership of the Salt Lake Alumni Chapter
that for a time last fall it seemed that all
of the boys whose age permitted were
either in the service or on the way. Our
old standby, Frank R. Whitzel, too old for
war but not for work, Bradstreets wanted
nearer the home office, so his transfer was
our loss.

J. J. Cadot, Gamma Eta, 1910, is still in
service in France. D. R. Dove of the same
school now resides in Denver; R. A. Gar-
nett, Beta Xi, and J. Harold Bagley were
in the service for a time but are again
with us. Since our last letter death has
called Brother A. C. Samuelson, Gamma
Kappa, 1911, who died with the flu. Brother
C. C. Hetzel, of Ogden, tried to get in the
service but was badly needed on the ex-
amining board where he rendered excellent
service.

We have resumed our regular monthly
dinners at the University Club on the third
Friday of each month. Visiting Sigs to
Salt Lake are urged and invited to call
upon us when in the city and President
Fred A. Clark with offices in the Oregon
Short Line Building, or Secretary B. J.
Engle, 308 Judge Building, can always
easily be found and Sigs en route are al-
ways welcome.

Brother Lee Charles Miller recently en-
tertained us with an account of his big

UNIVERSITY OF ALABAMA

Theta Chapter

Brother Warren Leach, first lieutenant, Aviation, came back for a visit, January 15. Warren was wounded in France and was being treated at the base hospital in Atlanta for a severe wound in the shoulder. It was discovered that a piece of gauze was left in his shoulder after an operation in France. The gauze has been removed and his condition is greatly improved as the result.

Brothers Charner Batson, Clyde Nelson and John Curry were our visitors for the mid-year dances. Brother Curry was wounded in the battle of Chateau Thierry and during his visit discovered that Major Clements, of the R. O. T. C. here, was in his battalion and wounded in the same battle. Needless to say they had quite a "bull-feast."

Brother Bernard Steiner was our visitor at the same time. He is one of our most loyal Alumni and we are proud to know him.

Governor Kilby of Alabama, has appointed three Theta men to high offices. Brother J. Q. Smith is attorney-general. Brother T. M. Owen, Sr., is commissioner of archives and history and Brother Chas. McCall is examiner of public accounts.

Brother V. Hugo Friedman came to see us last week and promised to come again and tell us of his experiences abroad.

Brother Fernwood Rainer has been discharged from the Field Artillery and resumed his practice of law at Union Springs.

UNIVERSITY OF VERMONT

Beta Sigma Chapter

The Chapter received a letter recently from Brother Major Paul Ransom, who at the time he wrote was in Helferskuchen,

Germany, commanding the 2nd M. G. Brigade, the division being at the Coblenz bridgehead. He inclosed an order for twenty dollars as a present to the Chapter and writes, "I know from experience the

financial difficulties surrounding the maintenance of such a splendid home as we have at 49 Williams street. It is with a view of helping just a little that I enclose a money order. It won't buy a new piano or install a new furnace, but it might cover the cost of a few records for the Victrola."

Brother Ransom graduated from Vermont in the class of 1916, but was present in the fall of 1916 to act as toastmaster at the initiation banquet. At the beginning of the war he received his appointment as Second Lieutenant and in June, 1917, went across with the First Expeditionary Force, and was with the 2nd Brigade of the 16th that marched through Paris on July 4, 1917.

We will quote Brother Ransom's letter as to his experiences from then on: "I was promoted to First Lieutenant and commanded a platoon of M. G.'s during the first raid on our lines near Bathlemont in the Luneville sector where we suffered our first casualties. After a bitter two months training again in the Gonchecourt area, I went with the 1st Brigade into the Toul sector at Leichprey as a captain, commanding a Machine Gun Company, which later became a part of the M. G. Brigade. We spent two months in this sector and were then shot up north to Picardy when the Huns started their big spring offensive. We went in at Mondichen and held the line from April to July, making an attack on Cantigney in the latter part of May. From Picardy we were switched to the Marne and went over south of Soissons on the 18th of July, when Foch took the offensive. The Scots relieved us there, but we made the attack on the St. Mihiel Salient. From St. Mihiel we were switched to the Argonne, were relieved and immediately went in again. The 11th of November found the division in front of Sedan. In July I took over command of the 2nd M. G. Brigade and on October 25th was promoted major."

Charles Parker, ex-'18, a first lieutenant in the Infantry, stationed at Camp Devens in the Provost Guards, has received his discharge. After spending a few days in Burlington he has returned to his home in Montgomery, Vt.

Letters have been received from Lieutenant E. O. Thomas, ex-'19, to the effect that he has received his discharge from the service and has accepted a position in Manchester, N. H., in the accounting department of the Amoskeog Cotton Mills.

First Lieutenant J. Randall Roberts has returned from overseas, where he was in active service in the artillery corps in the Toul sector. He has returned to his old position in Montreal.

Roderic M. Olzendam, of Woodstock, U. V. M., '16, who recently received his discharge from the army after serving in the ambulance corps in France and later as an instructor in the Central Officers Training School at Camp Lee, Va., made us a short call on January 21st. He left that night for Sault St. Marie, Ontario, where he will enter the pulp and paper business with the Spanish Pulp & Paper Company.

Lieutenant Myers L. Booth, '18, has obtained his discharge at Camp Custer and accepted a position in Detroit, Mich.

Brother Oliver Alexander Horner is with the General Electric Company and has done

extensive work for the government during the war.

Brother Harold J. Lockwood has been appointed assistant professor of physics at Lafayette College.

CLIFTON J. HOPF, Reporter.

COLORADO SCHOOL OF MINES

Gamma Eta Chapter

Since Christmas we have had short visits from the following Brothers:

H. M. Lavender, who was just discharged from the Engineers, stopped in Denver a few days on his way to Warren, Ariz., where he will return to his former position.

Neil McNeil and his bride paid us a short visit a few days ago. They were on their way to Bisbee, Ariz., from Washington, D. C., where he was a first lieutenant in the Gas and Flame Division.

Ensign Lee K. Worth, of the class of 1916, was in Golden a few days on his way home to Colorado Springs. Brother Worth was a naval aviator.

Oscar Fisher, for the last few weeks, has been doing experimental work here in school.

"Pi" Warren is now located in Denver with the Dorr Company. He has visited us several times in the last few weeks.

Kenneth Ferguson, who held a commission in the Marines, has just been discharged and is now in Denver.

Ben Wells, who for the past few years has been in Central America, is now in the states for a short visit.

R. W. Gibson, late of the Anaconda Copper Company, stopped off on his way to Wyoming where he has accepted a position in the oil fields.

E. J. Dickinson has just returned from France. We see a great deal of him and his wife.

Roger Schade has been up from Denver a few times. He has just been discharged from the army and expresses his intention of returning to school next fall.

Brother John J. Cabot has returned from France and is now with the Hardinge Conical Mill Co., of Denver, Colo.

UNIVERSITY OF KENTUCKY

Gamma Iota Chapter

Brother Morris Pendleton returned recently from overseas, having been stationed with the B. E. F. in both Italy and France. He received his promotion to an ensign on the same day that he did his orders to come

home. He has accepted a position in Muncie, Ind.

Brother Lieutenant Maury J. Crutcher is expected to arrive in Lexington soon, having been discharged from the army March 13th. A girl baby is waiting to greet him home, she being born on the same day he was discharged. Crutcher will never believe that thirteen is an unlucky number as he was married on the 13th, the baby was born on the 13th, he was a member of the 13th Regiment of the 13th Division, and received his discharge on the 13th.

Brother Lieutenant Carrol G. Taylor is at the head of a large concern which proposes to manufacture aeroplanes on a very extensive scale in Texas.

Brother Warren Fletcher is now at home at Lexington, Ky., having been recently discharged from the army.

Brother Bill Baughm is back in Lexington after serving one year in the navy.

Brother Lieutenant Henry Skillman has recently received his discharge from the army and is again in Lexington.

Brother John G. Heber is working on an engineering job at Camp Knox, Ky.

Brother William S. Moore was in Lexington for several days recently, having been discharged from the navy. Brother Moore enlisted in the merchant marine in the early days of the war, and made several trips across, one trip over taking him to Archangel, Russia. He soon won his promotion to ensign and later to that of junior lieutenant. Brother Moore was badly wounded when his ship was torpedoed and sunk while several hundred miles off the coast of France. He has taken a position with a large concern in Pittsburg, Penn.

Brother Nat Aaron is working for a tobacco warehouse company at Carrollton, Ky.

GROVER H. CREECH.

Theodore Slade is assistant general manager of the Kansas Gas and Electric Co., Wichita, Kan.

GRANT HARRINGTON.

UNIVERSITY OF COLORADO

Gamma Kappa Chapter

Brother Grant McFerson, Jr., was recently given his discharge from the Marines, and has been a frequent visitor of late.

Brother Lieutenant Rex Beckett was a Chapter visitor February 14th.

Brothers Lieutenant Rex Beckett, Chester Sells, Frank Hickey, James Donovan, Herman Graves, Grant McFerson, Jr., attended the pledge dance February 28th.

other Lieutenant Hamilton Cooper was a visitor the week of March 2nd.

Andrews, of Longmont, was a Chaplain February 4th.

UNIVERSITY OF WISCONSIN

Gamma Lambda Chapter

at Lieutenant James R. McKay of the Aero Squadron, was awarded the Distinguished Service Cross February 5, 1919, for bravery in action. Lieutenant McKay acting as an aerial guard above a formation of seven American planes that had engaged a squadron of seventeen Fokkers. More enemy planes appeared and he went into them, breaking up their formation and shooting down one of them. This action took place above Doullon on October 4, 1918. Lieutenant McKay has acted for seven enemy planes in all, and he has the honor of being listed as an American Ace.

HOWARD P. JONES, Reporter.

John Thomas "Pansy" Rose, a naval aviator cadet, now on inactive duty, has been named to the presidency of the Bank of Wisconsin, in Madison. Now Tom is really an alum, but only an ex-'20 man; however, they do tell us how it wasn't poor as that kept him from returning to school, and Madison is a long way from Columbus, Ohio. Never mind, Tom, it will be right to have a nice limousine.

leapy" Miller, who woke up long enough to dig several miles of trenches and other unmentionable excavations at Fort Monroe (no, it wasn't a war prison), has recovered his customary degree of somnolence and is back at school as a commandeer, although by all odds he should be an Alumnus. (By the way, it's hard to find real Alumni to write to—they're all pseudos.)

The Bureau of Navigation contemplates the Ensign "Jeff" Koch a permanent assignment in Madison, where he can always be handy to the Sigma Nu House; is in furtherance of the war department's announced policy in "making everything homely," as explained by Shavetail on another page of this Hon. Magazine. The w. k. National City Bank just feels it best to add another vice-president, so Jeff sticks to quit the navy cold.

Eric Passmore and Bob Casey have received honors from their respective departments with the Bureau of Naval Intelligence. Strange, isn't it, how war will reveal hidden knowledge in even the lowliest?

But now that the exploits of this war are being advertised in the papers, it is found back in Milwaukee dusting away books for Bloodgood, Kemper and Bloodgood and Bob is prospering in the ad-

vertising business in Detroit, where he formerly did his sleuthing.

Lieutenant Eddie Voss has resumed the manufacture of washing machines in Davenport, Iowa, after a throw at washing his own clothes in the army. You know he was one of those rough artillery shavetails who would have been amazed to hear the report of a big gun such as we swivel-chair heroes chummed around with. That's deep. But Eddie writes, "Special prices to Sigma Nus on new model washing machine, guaranteed to remove fraternity pins from silk shirts without appreciable damage to the former." (Adv.)

Don McCandless, while a sergeant in the famous 32nd Division, known to the French as "Les Terribles," ran into a shell fragment over in the Argonne. The doc said, "You are gone," but he is back home now, after several months in various hospitals, and bears only fragmentary evidence of his wound. Don says he is going back to school to finish up with the class of '21. My, Donald, but you're backward in your studies; you should have graduated this year.

Ex-Lieutenants Howard Jones and Frank Wolfe, who received summer school diplomas at Ft. Sheridan last September and were induced to believe they were real army officers for a couple of months, are now back in the house trying like dutiful Sophomores to be meek and humble. Yes, they are, lykelle, lykelle. But as we go to press we learn that Howard has been kicked out of school by Dean Nardin (Mrs. Matthews' successor). How about it?

Now a hammock, we opine, is just the right sort of place for an old-time steamship wireless operator to bestow his carcass for the night. Be that as it may, the sea was running high at Great Lakes Naval Training Station, causing one "Sparks" Dodge to be washed from his place of peaceful slumber on the poop deck, whence he fell upon the mizzen-mast. They took him to the Psychiatric Unit where Brother C. A. Hibbard heard him murmur, "I assure you this is the first drop I've had tonight." Yes, he's been that way ever since he met that magician in Valparaiso, Ind., and when we first heard of his fall we dared to hope that it might have brought him to.

Several of the other near Alumni who enjoyed brief military careers are back in school. "Slim" Wagner, whose neck graced (?) a gob's uniform; "Chuck" Dorries, of the "Treat-em-rough" Tank Corps; Ray Lammert, of Coast Artillery fame; daring "Mac" McCartney of the air service, who now dares to tame wild women; Rush Touton, who never was in a hurry for anything, except his discharge from the I. C. O. T. S. at Camp Grant, and others beyond the ken of our humble vision.

"Brig" Young, erstwhile lieutenant in the navy, has come back to earth and now

occupies a good position with the American Appraisal Company in their Chicago office. It is rumored that now that the war is over and everything—oh, well, you know—anyway, it's her Senior year.

"Bogey" White, who, while a lieutenant in the Blackhawk artillery, made bold to fly over in France, is back with Elston and Company, Chicago, and totes an engraved card bearing the magic words, "Investment Securities." The old Ioway Hussar allus wuz there with tha bull.

"Polly" Koch, who also graced the ranks of us shavetails (only he was a machine gun expert down in Gawgia), is now engaged in slaughtering steers, et al., for Wilson & Co., Chicago. Leastwise he is assistant superintendent or something and tells nice things at the table about—oh, what tripe is before it is tripe, and all that.

"Big Harv" McMaster who, as a member of the 4th Division of regulars, gave battle to the Heinies at Chateau Thierry, is now back in America. It appears that he was attending an officers training school over in France and there sustained an injury to the knee which had given him some trouble at the University. He was invalded home, but has now completely recovered. Paul and the Mrs. are now at Windsor, Colo., where the former is airing his knowledge of agriculture for the benefit of the Great Western Sugar Company, miners of beet sugar.

The author hereof was maligned by Ye Editor in the March issue, when he said we were going to get a "road job," he meant we would very likely be sent "over the road." Yes, Togo is now disbursing officer and a few more lesser things at Fort Snelling, Minnesota. Next address will be Fort Leavenworth.

LT. GEORGE A. CHANDLER.

Brother H. W. Bond finished his medical course March 15, 1919. He has been appointed House officer on surgery at Barnes Hospital, St. Louis, Mo., for the coming year.

UNIVERSITY OF ILLINOIS

Gamma Mu Chapter

Brother Charles E. Williams, secretary of Chicago Alumni, at present office manager of Chicago Liberty Loan Committee, will take a position as secretary to assistant to president of Chicago Pneumatic Tool Company. If he hasn't written you about this, write to him for details. He does not take this job until after end of fifth loan drive.

EDGAR KOBAC, Gamma Alpha.

Marshall ("Buck") Wheat has been discharged from the Navy Officers' Training

School and is stationed at the Chicago office of J. F. Newman, fraternity jewelers.

Durbin ("Durb") Downey, who was commissioned as Ensign in the navy, has resigned his commission and returned to his position with J. F. Newman. He will travel eastern territory, making his headquarters at their New York factory.

Brother Joseph N. Greene writes from New York that he is a domesticated civilian, having resigned his commission as captain in the regular army.

Brother Ted C. Eades has been discharged from the government service and is again in Streator, Ill.

A card is now and then received from Brother Alexander M. Tower in France. The last one came from Tours where "Junk" is a first lieutenant in the Ordnance Department.

Brother Frank S. Hagar is now in St. Louis, working for his father.

Brother Germer Petesch has taken a position with the "S" Fitting Company in Birmingham, Ala. He has recently been discharged from the service.

UNIVERSITY OF MICHIGAN

Gamma Nu Chapter

Sergeant Harry A. Wellford, Automotive and Mechanical Regiment, has received his discharge. He spent six months in the ambulance service and was one of those unfortunates who fought mosquitoes and other such dangerous enemies, somewhere in America before the signing of the armistice. He is now in charge of the Port Arthur Cooperage Company, Port Arthur, Texas, but expects to return to either the Memphis or New Orleans office before long.

MISSOURI SCHOOL OF MINES

Gamma Xi Chapter

Captain Harry Ambler, who has been wounded in action in France, paid us a short visit while on his way to the hospital at Ft. Sheridan, Ill., where his wound will receive further treatment.

Brother J. G. Wilson, who is with the Armstrong Cork and Insulating Company, came down from St. Louis for a brief visit with us recently.

Lieutenant E. A. Kayser of the artillery visited us recently before departing to South America where he will enter into the mining profession.

JOE M. WILSON, Reporter.

John H. Duncan is superintendent and buyer of the Parabaugh-Brown Dry Goods Co., of Oklahoma City. He is also the

president of the Sigma Nu Alumni Chapter. During the war he was called to Washington.

GRANT HARRINGTON.

WEST VIRGINIA UNIVERSITY

Gamma Pi Chapter

Dr. Thomas Porter Hardman, who has been doing field work for the Red Cross in France, arrived in this country the first of February and has resumed his position as instructor in the West Virginia University Law School.

Word has been received from Kemper Shelton that he will land at Newport News this week. Kemper has been engaged to coach our baseball team for this year. Last year he turned out a team that was reputed to have been one of the very best college teams in the country.

Notice has been received that Lieutenant F. W. Morgan has been decorated for bravery.

Captain Leslie G. Drake has been appointed commandant of cadets at the University of Nebraska.

MARK T. VALENTINE, Reporter.

IOWA STATE COLLEGE

Gamma Sigma Chapter

Brother W. H. Reller has received his discharge from the Aviation Corps. He is at present at his home in Council Bluffs.

Brother W. H. Davis has received his discharge and is now located at Hitchcock, S. D.

Brother Hank Eichling, county agent for Paige County, was at Ames during the county agents' convention.

Brother F. B. McGregor has been discharged from the army and is at his home in Ames.

Brother O. J. Whittemore is the proud father of a son, Osgood James Whittemore, Jr., born January 24, 1919.

Brother Eugene Van Dyke is working for the Van Dyke Plumbing Company, in Des Moines.

Brother P. A. Warner is still in the navy. He received his commission as ensign about the first of the year and has been transferred to the merchant marine. It has been reported that he has recently joined the benedicts.

Brother Aiden North was recently graduated from the O. T. S. at Camp Zachary Taylor and received his commission in the reserves as a second lieutenant.

Brothers Kraft, Burrows and Worden recently made a visit to the Chapter at Ames in the interest of the House company.

Brother L. A. Clay has been discharged from the army and is working at Gilman, Iowa.

H. S. ROST, Reporter.

UNIVERSITY OF MINNESOTA

Gamma Tau Chapter

Brother Howard Feeney, who is in France, received his commission as first lieutenant in the Dental Reserve Corps. He is attending school in Tours. He is taking French and economics.

The Alumni have reorganized and are going to start their weekly Alumni luncheons, which are to instill life into the organization.

Brothers Campbell, Antone Julien, Wallace Mayer and Ralph Todd have returned and ready to take hand.

WILLARD BALLENBACH, Reporter.

UNIVERSITY OF WASHINGTON

Gamma Chi Chapter

Brother Walter Doty is stationed at Camp Lewis and holds the rank of captain in the Welfare Corps.

Brother Ben Franklin is in Vancouver, Washington. He is interested in the prune industry, having quite an extensive farm.

Brother Hergert has moved to San Francisco where he is engaged in the lumbering industry.

Brother B. L. Lambuth is president of the Seattle Real Estate Association.

Brother Don McDonald is serving on the State Public Service Commission of this state.

Brother Ed Faubert, former captain in Field Artillery, is running a hotel at Shelton, Wash.

Brother George Martin is assistant president of the Federal Reserve Bank of San Francisco.

Brother Kirk Brown has recently received a commission in the navy. He is very proud of the fact that he is the father of a young Sig three weeks old.

Brother Max Bennett is superintending road construction work near Pendleton, Oregon. A unique feature of his work is that only returned service men are employed.

Brother Bell is connected with a bank at Toledo, Wash.

Brothers Prigmore and Sears have a chain of drug stores in southeastern Washington, where they are doing a record business. Brother George Sears has recently joined them, having been lately discharged from the army. He is in charge of their store at Chehalis, Wash.

Brother Hi Corson is a major in the Medical Corps and is at present stationed in Italy.

ROBERT L. ALLEN, Reporter.

SYRACUSE UNIVERSITY

Gamma Psi Chapter

Brother Frederic W. Phillips has been instructor in gas, rifle and motor trucks in eight different camps in this country and has not been discharged as a sergeant in the Motor Truck Corps of the 14th Supply Train.

Brother T. B. Ketcham is back in Syracuse and is vice-president of the Hills and Company, real estate, etc.

Brother Captain George Duryea visited us.

Brother A. Fairfax Montague, first lieutenant, walked in on us the other evening.

LESLIE M. THOMPSON, Reporter.

Delta Delta is trying to secure an up-to-date list of the present addresses of her Alumni. This is a task that is not as easy as it may appear. Will all the Delta Delta Alumni kindly co-operate by sending their permanent addresses to the Chapter?

JOHN F. KELL, Reporter.

Brother George O. Weddell is with the Central Construction Company, Philadelphia, Pa.

Brother Edward N. Sullivan is in the traffic engineering division of the Bell Telephone Company of Philadelphia.

WESTERN RESERVE UNIVERSITY

Delta Zeta Chapter

Moore Emmett claims to be preoccupied in taking care of his Holstein cows, hunting eggs and slopping the hogs. If the latter phrase is not intelligible, he refers us to Bill Hunter or Uncle Howard, who, he intimates, might be prevailed upon to furnish moving pictures of said operation.

Clell Greenlese, once a second lieutenant in the Engineers, in charge of the supply department, has doffed his uniform and is sojourning in Akron. Clell just missed going across by a few days.

Robert Bolwell, formerly of the Psychological Service, is now attached to the medical detachment at the Walter Reed General Hospital, Washington, D. C. He writes us of a visit by Sergeant Ralph Francy, late of the Chemical Warfare Service, who came back to Washington, looking for that little ol' \$60 Uncle Sam had promised him.

Walter Warburton has returned home from camp and is now distributing Hoover suction sweepers around his town of North Canton. He reminds us that this Hoover filis is a Sigma Nu from Ohio State.

Keith Henney is still teaching the radio in Toledo at the Waite High School. He visited the Chapter House a while ago and threatened to enlist in college again. Only the drought of teachers postponed this action, as he felt obligated to keep to his contract for the year.

Lieutenant Tom is writing insurance in Cleveland after a shooting a whole field artillery battery in Camp Taylor and landing at last on a commission. We are of the opinion that in order to get rid of him,

they made him a loot and kissed him an affectionate and fond farewell forever. By the way, Tom's civilian name is T. Blair Scott.

Hon. P. D. Caldwell, Esq., our affable and amiable (as Mike Evans puts it) Alderman from the Nineteenth ward is chairman of the Council Investigating Committee. This committee is investigating the recent crime wave that was about to engulf the Sixth City, but all is now quiet. We hear rumors of other investigations which P. D. is making, not in the line of duty as inspector of the Fifth Division, and his youthful and flamboyant behavior reported at the recent Alumni party at the House, confirms our direst suspicions. [This paragraph has been inserted in this letter by a different hand and is evidently a gross libel on the Esq.'s heart and character.]

Walter Clark, sometimes erroneously called "that" Clark, has been seen in the vicinity of Alten & Newton, public accountants, our mathematical experts, but they will not admit it. It is said he is working them for a living, which anybody who knows them will doubt, but at least he can not afford to attend banquets. B. J. ("Doc") Alten has resigned from Ernst & Ernst to attend strictly to his own business and Newton's hereafter. Doc refuses to deny the matrimonial rumors that flutter round his head and the smile he wears is that of a deluded soul, now suddenly converted to the unwisdom he has so frequently and long preached against.

Ken Strock has taken off the bar of the second lieutenant and is now selling metal sash and like goods for Jack Maline's company. He is living with Hans Wenrick, Delta Alpha, who has returned to his old place at Jack's.

Lieutenant Si Allen surprised us all by coming back to Cleveland. He is a chemist with the Lennox Chemical Company, but Francy and Parks have been talking to him. We hear there are to be developments soon to be announced with the "blue sky" as the limit.

Malcolm Nichols, recently at New London, has gone up to Hartford, Connecticut, as the general secretary of the Charity Organization Society. He likes the staid old town of Hartford, he says, and the Alumni Chapter there.

Lieutenant Murray N. Goodrich is back at the prosaic trade of the law. His card reads Painesville, Ohio, as the Star artists used to say, "At-torney-at-Law." He admits the only advantage of living in the smallest city in Ohio is that his wife can keep track of him without going to the expense of hiring detectives.

Corporal Charles Morgan Bailey Cooper writes at length in a Parisian strain, and, if you will reread Balzac in his more hu-

morous stories, you will get a good idea of how "Chuck" is conducting himself. Yes, the censor passed them all—it is evident how truthful Coop appears to his associates.

Carl Bechberger is spending a well-earned vacation at Heimbach, Germany. Carl is a sergeant-major, but says much less about it than a corporal does. His ammunition train passed through Luxemburg and entered Germany where he expects to stay for some time.

Orange Pomeroy is now a second lieutenant in the Sanitary Corps and has charge of a mobile de-lousing unit—one sergeant, three privates, one Pierce-Arrow truck with a tank and bathing apparatus. His headquarters are at Andernach, Germany.

Corporal Zed Pethtel is playing tackle on the regimental football team and is taking trips round the circuit with such frequency that he has little time left for "squads east."

Harrison Terrell fell out of line some time ago and into a job as assistant librarian in his regimental library. The colonel hated to see him waste his time and lifted him up to regimental publicity man. Now Brother Terrell is writing dope for the "Volley," which is shot off occasionally by the regiment, and sending articles back to the Cleveland Plain Dealer.

No word of late from Corporal Hartman, U. S. army, Corporal Pethtel says, however, that Tuffy Hartman takes to French customs like a duck to water and that Frenchmen drink but little water. There he stops. The corporal has been away on his furlough.

Brother Walter Edward Myers, our Grand Counselor, reports that as he entered the station at Cincinnati the other day, Brother S. Russell Bridges, Atlanta Alumni Chapter, hailed him and inquired thoroughly concerning the present habits of Brother Ed Braun and as to his success in keeping out of jail since he left Colorado Springs. Ed has never filed his official report to the probation officer.

Our Alumni reunion is gathering upon us. As soon as the boys get back from France we will have a rouser. Brother Warburton has put in a concrete suggestion: "I surely would enjoy an old-fashioned 'chewer and smoker,' with Mike Evans, chairman and vociferator, and Lieutenant Ted Breck, eminent high gaboon, and Lieutenant (I beg your pardon, Loot) First Lieutenant Eldred Barden, vice or substitute. I can almost hear their war-cry: 'Gaboon—atten-shin!'" Whatever its nature, that reunion is coming in June or September, so all you get ready!

PERRY D. CALDWELL.

LOMBARD COLLEGE

Delta Theta Chapter

Brother Carl Olson and wife have returned to Galesburg from Kelly field, Texas, where Brother Olson has been stationed as flying instructor. Brother Olson received his discharge but recently and is now assisting his father in the shoe store here.

Word was recently received from Brother Alva Spring who is a lieutenant in the chemical warfare department in Washington. Brother Spring does not expect to be discharged soon, but as he can be associated with the Sigma Nus at Washington he reports things the best ever.

Brother Ralph Austin of Joliet, Ill., attended the district convention of Sigma Nu in Chicago on February 22nd.

Brother Mark Nelson, ex-'17, who is taking post graduate work at Wisconsin, has affiliated with Gamma Lambda.

Brother Glenn Stokes, superintendent of the Altona schools, was in the city Saturday, March 15th, attending the Alpha Xi Delta formal.

Brother and Mrs. Dwight Beatty of this city are the proud parents of a fine baby girl born February 26, 1919. "Doc" is wearing the proverbial smile.

HAROLD S. BATES, Reporter.

STATE COLLEGE OF WASHINGTON

Delta Iota Chapter

Virgil O. McWhorter, '13, was a visitor in Pullman during the latter part of March. "Mac" is running the government sheep ranch at DuBois, Idaho.

Alvin A. Eustis, '15, arrived in Pullman during the week of March 27. He is to work for the college in an unannounced official capacity.

Ralph E. Wilson, '18, returned for a weeks' stay March 26, after mixing chemicals in the army.

Guy R. Coe, '15, returned to his home in Spokane from the army and is coming down to school during the coming week.

Frank T. Barnard, '04, Registrar, State College of Washington, has returned home after a vacation spent in California.

J. Houston McCroskey, '09, was in Pullman for a short visit during the past month. He is an extensive rancher at Garfield, Washington.

J. Maurice McGregor, lieutenant, Marine Corps, Brest, France, is to receive a degree this year. He is allowed credit for a commission. He lacked only four hours of get-

ting a degree when war called to his adventurous spirit. At present he is editing the official Marine newspaper at that port.

EARLE McCROSKEY.

UNIVERSITY OF MAINE

Delta Mu Chapter

Among the Brothers recently discharged from the service are Captain Royal G. Higgins, '17, an all-round athlete while in college; Lieutenant Lincoln B. Copp, '17; Sergeant Earle L. Emery, '17, who has seen eight months serve in France; Corporal Clarence B. Springer, '17, and Walter G. Hill, '13. Among those released from active service are Ensign Richard Silva and Ensign Herbert Tinker.

Captain Royal G. Higgins has accepted a position with the Aetna Life Insurance Company in Hartford, Conn.

Among the Alumni who have visited us this year are Captain R. G. Higgins, '17; Lieutenant L. B. Copp, '17; Ensign R. Silva; Ensign H. Tinker, ex-'20; C. B. Springer, '17; Captain C. I. Emery, '17; Leland S. Towne, ex-'19; Lieutenant T. Whitehouse, ex-'19.

Captain Charles I. Emery, '17, who is on the Arkansas is now cruising in Cuban waters.

Brother Benjamin C. Kent, '14, is associate professor in mechanical engineering and Brother Carl Mangus, '15, is teaching in the chemistry department, having charge of the paper-making course. Brother Mangus has been in South America for three years as a general manager of a large paper-making concern and recently returned to this country to enter the service, but sickness and the signing of the armistice prevented him from doing this, as a result he has accepted a temporary position in the chemistry department at the University of Maine.

Brother Ralph E. Sawyer is now in the west with the Northwestern Telephone Exchange Company, and is making his headquarters in Minneapolis.

UNIVERSITY OF IDAHO

Delta Omicron Chapter

We recently have word that Captain "Dutch" Downing, '14, was promoted to major some little time before the armistice was signed. As far as we can learn he is the only Idaho student who has attained that rank in this war.

VERNA PATTON, Reporter.

CARNEGIE INSTITUTE OF TECHNOLOGY

Delta Sigma Chapter

Brother Lieutenant R. M. Crosby of the navy is at present stationed in New York and probably will be there for some time. He advises of participating in the Sigma Nu luncheons in the big city and of his enjoyment of this feature.

Lieutenant J. B. Hays writes from Angiers, France, saying that he and R. Simpson will probably have to extend their sojourn in that country for three or four months longer.

G. H. Haynes writes from Clamecy, France, stating that from present prospects he will be detained for some time to come. Glenn is in the hospital division and from his letter, it appears there is plenty of work still to be done. Such being the case, Glenn is rather pessimistic about his chances of a quick return.

Pop Stewart writes from France advising that the 15th Engineers are daily expecting to be sent on their way home rejoicing. After eighteen months in the fighting zone, these boys are pretty anxious to get back. Not only will this bring Pop back into our midst, but also Brockman and Sunny Kesner.

Eddie McKee was mustered out of service about February 15th. He is now in Chicago visiting with his mother.

Bob Crawford is now located in Pittsburgh. For some time Bob held a very lucrative position with the chemical company in Newcastle, Pa., and this move is said to be betterment. Evidently Bob is doing pretty well.

W. P. Gettman is engaged in the advertising business in Pittsburgh.

F. H. HAAREN.

COLGATE UNIVERSITY

Delta Upsilon Chapter

Brother Frank C. Carpenter, '15, who has been manager and part owner of the John Wilcox Estate, printers and publishers, of Milford, N. Y., has consolidated his business with another large publishing firm in Cooperstown. The new firm will do a mail order business of national scope in the printing line, and in addition will handle book and magazine printing. One of Brother Carpenter's partners is Brother Rowan D. Spraker, Cornell, '14, a member of Gamma Theta Chapter of Sigma Nu.

Brother Floyd B. Chamberlain, '17, is teaching French and Spanish in the Cascadilla School at Ithaca, N. Y. He is suffering from the effects of a broken ankle sustained in coaching athletics at the school last fall.

Brother Jesse S. Boughton, '17, who was recently discharged from the army as a first lieutenant, is now military instructor at St. John's Prep School, Ossining, N. Y.

Brother Ferris J. Edwards, '17, a shave-tail of the past, has a position with the Monroe Calculating Machine Company, at Brooklyn, N. Y.

Brother Philip G. Otterback has received his commission as a naval flier. To celebrate the occasion, Brothers Murray B. Parks, Sherman E. Brush and Philip G. Otterback, all ensigns, had a Colgate 1917-18, Sigma Nu, U. S. navy reunion at the Astor in New York.

Brother Lyndon H. Strough is endeavoring to hold down the position of vice-principal at Oneida High School at Oneida, N. Y.

Brother George E. Inman is now an instructor of chemistry on the Faculty of Colgate University. Brother Cyrus Colton McDuffee is also a member of the Faculty as instructor of mathematics.

Brother William R. Wikoff is manager of the Fuller Brush Company in the Chicago district, with offices in that city.

Brother Homer A. DeFriest expects to leave for China in June as a representative of the Standard Oil Company.

JAMES E. DEMPSEY, Reporter.

Brother Orrin E. Dunlap, Jr., is a radio operator at the U. S. N. radio station at Otter Cliffs, Bar Harbor, Maine.

TRINITY COLLEGE

Delta Chi Chapter

Brother Allison, '11, is at the Hartford Hospital recovering from a severe surgical operation, involving grafting of bone on his spine.

Brothers Churchill, '16, and Pierpont, ex-'16, have arrived home from France. Brother Pierpont is undergoing treatment for a shrapnel wound at the Base Hospital at Camp Upton, Long Island.

Brother Schlier, '17, received a commission at the last officers training camp at Fortress Monroe, Virginia.

Brother Burnap, ex-'18, has been recommended for a commission in the regular army.

The Hartford Alumni Chapter and Delta Chi Chapter held a get-together meeting on Wednesday, March 12, 1919. Light refreshments were served and the Alumni Brothers present made short speeches. The Alumni present were Woodard, Beta Sigma;

Anthony, Beta Tau; Judd, Delta Beta; Nichols, Delta Zeta; Higgins, Delta Nu; Barber, Segur, Trotter, Geer, Whalen, all from Delta Chi, and Hazeltine, Pi.

WILLIAM J. CAHILL, Reporter.

BOWDOIN COLLEGE

Delta Psi Chapter

In the March Delta it was stated that Brother L. R. White, B. S., '12, is a student in Bowdoin Medical School. He received his degree in '16 and not in '12, as there stated.

Brother W. H. VanWart, Ab. B., '18, has transferred to Harvard Medical School.

Brother G. H. Blake received his commission as second lieutenant at Camp Lee, last August, and is now visiting at his home before resuming his profession of teaching.

Brother DeMott was commissioned at Camp Sherman in October and received his

discharge in December. He plans to enter teaching in the near future.

Brother J. W. Hone has entered business with his father at Presque Isle, Maine.

Keene is in the employ of the Bath Iron Works at Bath, Maine, engaged in the construction of torpedo boat destroyers for the U. S. navy.

R. B. Knott is in the office of the Eastern Manufacturing Company, of Bangor, Maine. This firm is one of the largest paper manufacturers in the country.

Ralph Peabody is engaged in farming at Richmond, Maine.

Brother R. C. Tuttle is now employed by the Lewiston, Augusta & Waterville Street Railway.

Brother and Mrs. Douglass A. Haddock announce a daughter, Bernice Elizabeth, February 9, 1919.

CLYDE E. STEVENS, Reporter.

Jazzin 'Roun' Again!

Piper's Last Call—Someone's Goin' to Get Their Feelin's Hurt

You Modest Violet! I'll bet the only thing that is keeping you from entering that Sigma Nu Song Contest is that you hate to make yourself conspicuous by having your name on the cover in large type, and that you could find no place for all the Dough and Prizes and Ordinary Glory that might land in your resisting hands!

If you happen to have an ingrown disposition, use it to its best advantage. Instead of raisinell about nothing in particular, raise some of it because no one from your Chapter has entered the Song Contest.

About the middle of June some Sigma Nu is going to hand the Only One the One-Best-Bet Trophy, and if you think he won't stand Aces High you're entirely Out of Luck.

Verily, I say to thee, a college youth is a wondrous being. For he will ruin the peace of a Chapter finding "chords" on the uke, bore some Fairly Fair Co-ed to extinction framing rhymes of "me" and "thee," and it never occurs to him that a rhyme and a ditty to Sigma Nu might bring him honors, prizes and every little thing.

Do you think it would hurt your feelings to visit some Chapter a few years from now and hear the gang sing your song—the one you entered in the Sigma Nu Contest? Do you think it would? Take a chance, anyway!

On the Way to Berlin

Shells From the Front and Training Camps

*"To be steadfast in the performance of every trust; * * * to be content to live the ancient Faith that our Honor is dearer to us than our lives; to emulate the chivalrous deeds of courtesy, * * * And so to be loyal to the Knighthood of Honor."—The Creed of Sigma Nu.*

X Captain Boone at the Big Bertha
Captured during the Chateau Thierry Drive
(Taken in July, 1918)

CAPTAIN JAMES L. BOONE of Rainbow Division

Captain James L. Boone of Ambulance Company 166 of the 42d (Rainbow) division, who has returned home from service overseas, was graduated in June, 1917, from Vanderbilt medical school. At the time of his enlistment he was an interne at St. Thomas Hospital.

Captain Boone was commissioned a first lieutenant in August, 1917, by Gov. Tom C. Rye and trained with the 42d division at Camp Mills, L. I., sailing for France in October, 1917. He worked with the division in ambulance service and battalion aid work continuously from February, 1918, when it took over the sector on the Luneville front until the day before the armistice was signed, when the division was relieved just south of Sedan, taking part in drives at Champagne, Chateau Thierry, St. Mihiel and twice in the Argonne. He received his commission as captain in October, 1918.

I might add that he landed in New York on Jan. 26, 1919, and has been with us for

a month's leave. His father is seriously ill here in Nashville. He was on sectors four months—at Luneville one month and at Baccarat three months. Afterwards, he was in the drives at Champagne, Chateau Thierry, St. Mihiel, and in the Argonne Forrest two times. "I was never away from my organization a single day," although his dugouts and other places of shelter were shelled and caved in.

LYLE G. KILVINGTON, Sigma.

DELTA OMICRON MEN IN FRANCE

Received a few lines from Brother Jno. B. Mullen, Delta Omicron, ex-'18, who is with the Engineers in France, and who desired to receive the Delta.

Brothers Hallard W. Foester, '18, Felix Plastino, '18, F. J. Babcock, '16, and myself, all of Delta Omicron, were commissioned at the Artillery Training School at Camp Taylor, Ky., last month. Captain Oscar F. Carlson is in the Infantry, A. E. F.

LIEUTENANT ROBERT R. MILLER,
Delta Omicron.

Brother Smart's machine in the Toul sector
Arrow points to L. Landon Smart
Delta Kappa

LIEUTENANT L. LANDON SMART

Delta Kappa

Lieutenant Smart of the air service has a record. Smart began his military career as a buck private in the Delaware Militia during the Mexican Border trouble. When the U. S. entered the war against Germany, he

L. Landon Smart
Delta Kappa

immediately went to the 1st Officers' Training Camp at Fort Meyer, Va., where, after a few weeks of training, he was selected among thirty men to go to an aviation school at Toronto, Canada. In Canada, he finished British courses in the ground school and flying school by October, 1917. He was then sent to Fort Worth, Texas, as an instructor, and on the 26th of December, he received a commission as first lieutenant. In February, 1918, he was sent to England

to the Boscombe Down Aviation Field where he took a course of training in way type machines. From here he was sent to Turnberry, Scotland for a course in aerial gunnery. On July 10th, he landed in France and was assigned to the 135th Aero Squadron—the first all American squadron on the front. Within a week after reaching the fighting zone, he was made a flight commander, which rank he held until his discharge.

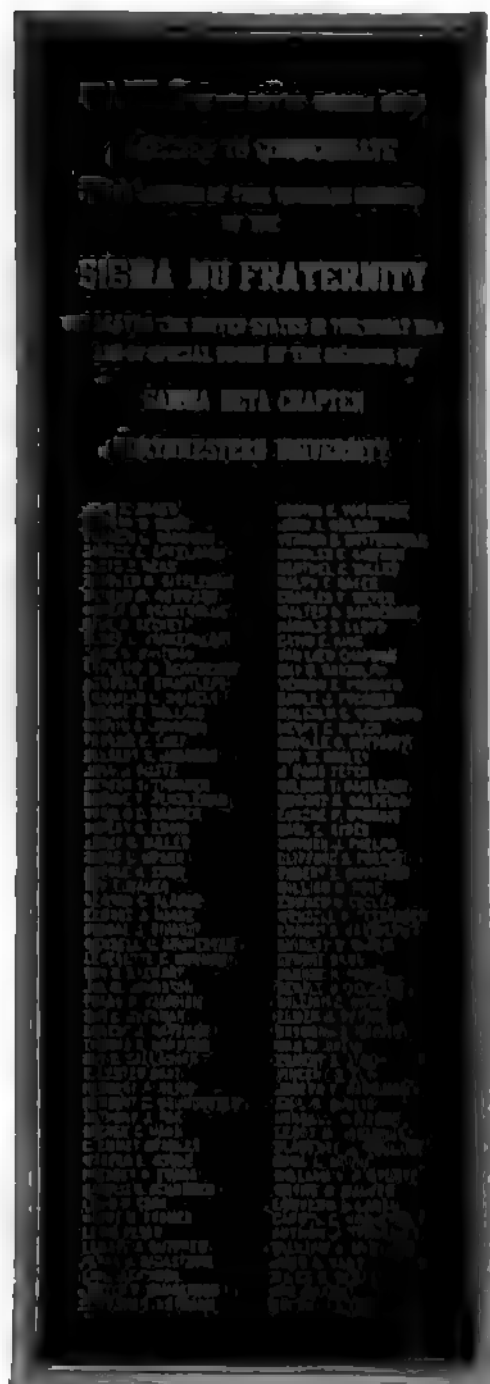

Lieutenant Smart and his observer are officially credited with bringing down one Hun plane, after a fierce battle with four German Fokkers. He was recommended for a D. S. M. for bravery in saving the life of his Colonel, when their machine had been shot down by anti-aircraft guns, and they had been left stranded at the mercy of the German machine guns.

Since his discharge, Brother Smart has returned to Delaware College to finish his last year.

W. A. HEMPHILL, Reporter.

H. S. WELTY GETS FRENCH WAR CROSS

Private H. Stanley Welty, Gamma Epsilon, of Hokendauqua, formerly of Portland, is probably the first Lehigh county soldier to wear the French Croix de Guerre. As an individual he was formally cited for bravery by the French government and his unit, Section No. 623, American Ambulance Corps, has been cited twice for bravery by the French government. Private Welty graduated from Lafayette in 1917, and is a member of the Sigma Nu Fraternity. He received his training at Camp Crane.—Easton, Pa., Free Press.

This is the gift of Warren Piper, Gamma Beta, '09, and was designed and executed by J. F. Newman, Official Jewelers.

GAMMA BETA'S MEMORIAL TABLET

This bronze tablet was presented to Gamma Beta Chapter at the annual dinner held in Chicago at the University Club on Washington's birthday. It contains the names of the 112 members of Gamma Beta who served in the Army, Navy or Marine Corps of the United States. Each name appears in raised metal letters, no attempt being made to indicate commissions, honors or casualties. The tablet will be erected in the chapter house, to be dedicated on Memorial Day with suitable services.

LIEUTENANT HAROLD W. HERRICK

Gamma Epsilon

At the outbreak of the war, Lieutenant Herrick was a member of the cavalry squadron of the National Guard at New Haven, Conn., having previously seen service on the Mexican Border. This squadron later became the 103rd machine gun battalion of the famous 28th (New England) Division. Lieutenant Herrick was among one of the very earliest casualties of this Division, having been wounded at Xivray-Marvacin, on June 16, 1918. He was in various hospitals in France until October, 1918, when he was stationed at Tours, awaiting re-assignment for active duty. He was then returned to the hospital under a severe attack of influenza and was in the hospital at the time of the signing of the armistice. He returned from France the early part of this year in command of a casual company, and has since been discharged.

F. H. HENNESSEY, Gamma Epsilon.

FRED A. TILLMAN

Gamma Upsilon

Lieutenant Fred A. Tillman, Gamma Upsilon, son of the representative in Congress from Arkansas, has returned wearing the Croix de Guerre and the D. S. C., and he has been honored by the Legion of Honor.

GEORGE F. WATKINS

Delta Beta

General Pershing recently awarded posthumously the Distinguished Service Cross to Lieutenant G. F. Watkins, '14. The citation states: "During the storming of the heights north of the river Oureq near Villers-sur-Fere, France, he was an example of courage and soldierly fortitude. He was continually with the foremost elements of his platoon in the most dangerous areas it had to occupy, both during the advance and during the maintenance of the position gained." His platoon was almost annihilated and he himself was killed.—The Dartmouth.

WATCHING OTHERS GO HOME

I am still in the army and "over there." Got over here rather late to see any real fighting but was sent over very soon after leaving the training camp at Fort Oglethorpe.

I received my commission in the Sanitary Corps in August and have command of what is known as a Sanitary Squad composed of 26 enlisted men. I am at present located at Camp Pontanezen near Brest, which is a base port and where thousands of our boys are embarking for the U. S. every day.

We expect Peace to be signed very soon now, but our work will go on just the same and if I am back to Ohio by July 4th will be quite satisfied. As my outfit is a construction unit we are kept pretty busy.

The climate here is abominable, as it has rained every day since our landing. The mud is inches deep and would much prefer snow but it never snows. The expression "Sunny France" seems to be a misnomer. I am living in comparative comfort, army style, and can't complain as I am in good health.

Remember me to the boys of good old Sigma Nu and hope to get back in the fold when I cease to be a member of the A. E. F. and return to the good old U. S. A.

LIEUTENANT J. F. SCHAEFFER,
Beta Nu-Delta Alpha

C. O. Sanitary Squad 115,
A. P. O. 716, A. E. F.

EARL F. HUGHES

Gamma Phi

Earl F. Hughes has received the Cross of Bravery. The cross was pinned upon his chest by the Belgian king for distinguished service at the front. Hughes is the first University of Montana man to be decorated for bravery. He was with the machine gun company of the 361st infantry.

JAMES PAYTON

Gamma Lambda

Lieutenant James M. A. Payton has been flying one of the newest type American planes, equipped with the Liberty motor "over there."

I had an interesting trip today in the Liberty. I was photographing St. Nazaire in the Liberty. It is one of the U. S. ports. We flew over the harbor for an hour and then out to sea about 10 miles. I saw a large convoy of ships on their way home with the boys. I think if I had had enough gas I'd be home about tomorrow morning.

I can learn much here in the agricultural implement line. The government has organ-

ized schools in which men can take different courses. This would be a golden opportunity for me, one that would broaden one's ideas on the entire industry.

HOWARD P. JONES, Reporter.

INSTRUCTORS IN THE S. A. T. C.

Sigma Nu had a dozen or more officers in the S. A. T. C. The list below gives their names, chapters, and stations. These men were army officers transferred to the work of training army students. No local officers in the S. A. T. C. are included.

Price, Sidney Lanier, Iota, second lieutenant, S. A. T. C., Lombard College, Galesburg, Illinois. (262).

Brimberry, William Harrison, Xi, second lieutenant, S. A. T. C., College at Charleston, S. C. (290).

Payne, Maxwell Carr, Sigma, second lieutenant, S. A. T. C., Delaware College, Newark, Del. (240).

Barrett, Wendell, Beta Zeta, second lieutenant, instructor, S. A. T. C., Northwestern Normal School, Denton, Texas. (228).

Esterly, Archibald Russell, Beta Iota, instructor, S. A. T. C., Case School of Applied Science, Cleveland, Ohio. (262).

Eynon, Charles Chester, Beta Iota, captain, instructor, S. A. T. C., Mount Union College, Alliance, Ohio. (246).

Hunt, Glen Arthur, Beta Iota, instructor, S. A. T. C., Bethany College, Bethany, W. Va. (278).

Ritchie, Harry Elder, Beta Iota, lieutenant, S. A. T. C., Louisville University, Louisville, Ky. (239).

Barringer, Carroll Miller, Beta Kappa, lieutenant, instructor S. A. T. C., University of Missouri, Columbia, Mo. (144).

Jones, Howard Palfrey, Gamma Lambda, lieutenant, S. A. T. C., University of Missouri, Columbia, Mo. (202).

Drake, Leslie Giles, Gamma Pi, Captain, commanding officer, S. A. T. C., University of Nebraska, Lincoln, Nebr. (90).

Walker, Reford Bond, Gamma Pi, second lieutenant, instructor, S. A. T. C., Hampden-Sidney College, Prince Edward County, Va. (158).

Cassady, Edward Mike, Gamma Sigma, first lieutenant, commanding officer, S. A. T. C., University of Nebraska, Lincoln, Nebraska. (52). [Aff. from Beta Mu (11)]. (During November).

McCardell, Frank Paul, Delta Kappa, second lieutenant, instructor S. A. T. C., St. Joseph's College, Philadelphia, Pa. (105).

"A BARBER SHOP CHORD."**Brother Toole Falls to State On Which Side Was the Brotherly Love**

I was in France in the old French Ambulance service. I am sending you a snapshot of myself and Ralph Johnston Aldrich, Delta Eta.

Brotherly love? This picture is an example. Brother Aldrich sets himself up as a barber. "There's a reason."

Brother Ralph Aldrich, Delta Eta, sets himself up as a barber, with the aid of Brother W. Brice Toole, Gamma Phi-Delta Iota

We were in the same training camp in France and later in the same section at the front. We parted company when the United States Army took the service away from the French. Aldrich enlisted and I was rejected and sent back to the United States. It sure seemed good in France to meet a Sig.

WM. BRICE TOOLE,
Gamma Phi-Delta Iota.

FROM A B. E. F. HOSPITAL
Fishes' Memories

The Delta Zeta news letter reached me. As I sat down to write, it occurred to me that eighteen months ago today we were on the Atlantic, the first day out of New York, with the old boat doing more acrobatics in a minute than the best man could in an hour. If fishes have any memory at all I suppose they are all rubbing their bellies with their fins, smiling from gill to gill and thinking of the good feed

on that day. I fooled some of them though as I did not always have time to get to the rail.

A Full Fledged Medic

Since landing in France we have been stationed here in a British Hospital, and most of us have seen no other part of France except for a three-day trip to Paris last spring. I spent the first nine months here doing ward work and have been in the operating room between eight and nine months now, and like it much better than on a ward.

Bob Knowlton, Delta Alpha, and I are the only Sigs left here now as both Medsker and Packard, Delta Alpha, have gone to Artillery Officers' Training School. I heard today that Medsker has received his commission and that "Pack" is getting along fine. It is a question as to how long "Bob" and I will be here as we both have passed our examinations and been recommended for commissions in the Sanitary Corps in Gas Defense work.

There are four or five Sigs in another hospital unit which is located fairly near here. Early in the summer we all got together and had a feed and went to a show in a nearby town. We all had a mighty fine time.

Sig Patients

About two weeks ago Brother S. H. Murray, Beta Xi, from that unit died of influenza and pneumonia. I was unable to attend the services, but "Bob" managed to get away and attend them. About three months ago Brother Clifford Myers, Gamma Pi, from the University of West Virginia, was a patient here. He was here quite a while as he was in pretty bad shape and we got to know him very well. His left leg was amputation at the knee and he had shell wounds of the left thigh. I received a letter from him from Base Hospital No. 29, in England about two weeks ago. He is able to get around in a wheel chair.

ORANGE B. POMEROY, Delta Zeta.
Base Hospital No. 9, B. E. F.

LIEUTENANT EDGAR W. MONTELL
Mustered Out of Federal Service

Lieutenant Edgar W. Montell, Delta Tau, has been mustered out of service. Lieutenant Montell was stationed at Camp Lee, Va., when the armistice was signed.

He received his commission at one of the Officers' Training Schools at Camp Meade, entering with a unit from the Maryland State College last January. Previous to entering the service Montell held a position with the United States Department of Agriculture, being stationed at Wenatchee, Wash.—Baltimore Sun, sent in by Past Regent I. P. Robinson.

MANAGES A POST PAPER

Lieutenant Wise, Beta Nu, and "Straight Grain"

Last week saw a change in the management of "Straight Grain," (Vancouver Barracks.) Chaplain Frank V. Hoag, who established the paper, left his post as editor, and has been succeeded by Lieutenant Lloyd W. Wise.

"Straight Grain", the post newspaper of Vancouver Barracks, is the largest post paper among the numerous cantonment papers on this side. Lieutenant Wise, who took charge of the management of Straight Grain, is an able and experienced newspa-

Lieutenant Lloyd W. Wise
Beta Nu

per man. In addition to his duties with the paper, he has certain responsibilities with the 28th Squadron, to which he is attached, and is in charge of construction work carried on by the 113th Squadron in Portland. In spite of all these cares, the staff of Straight Grain consider Lieutenant Wise a valuable asset, through his practical knowledge of the newspaper game, and welcome his supervision of the paper.—Straight Grain, sent in by Harry L. Hopwood, Beta Nu.

A brief summary of Brother Wise's military career is given below:

Entered service December, 1917; graduated, Third Infantry Officers' Training

Camp, Camp Sherman, Ohio, April 19, 1918; assigned to and commissioned at Camp Lee, Va., June 1, 1918; assigned to aviation cup-up plant, Vancouver Barracks, Washington, as wood-technologist, July 4, 1918; detailed to 113th Engineers immediately after date of armistice signing. At present in addition to newspaper duties and being in charge of construction work carried on by the 113th Engineers in Portland, Ore., Lieutenant Wise has been placed in charge of the 28th Aviation Squadron located at his post.

CAPTAIN BAIN MORRISON

Gamma Iota

Wildly Applauded by Men He Commanded Overseas—Wild Demonstration For Him

LOUISVILLE, Ky., January 11, 1919.—The feature of the farewell to the First Kentucky Regiment, Friday afternoon at Camp Taylor, was the ovation given Captain Bain Morrison of Lexington.

When Captain Morrison's name was mentioned at the start of the exercises the men jumped to their feet, cheered for five minutes and could scarcely be stopped. Morrison's popularity with the men is unbounded.—Lexington Leader.

Brother Morrison was an officer in the old First Kentucky and saw service on the Mexican border. He was stationed for many months of service at Camp Shelby, where his regiment was transformed into the 138th Field Artillery. His regiment was on the way to the front when the armistice was signed.

GROVER H. CREECH, E. C.

DR. ARMSBY ABROAD ON U. S. FOOD COMMISSION

Dr. H. P. Armsby, Delta Delta, head of the Institute of Animal Nutrition, has been in Europe, where he has been serving as one of four United States delegates on the Inter-Allied Commission for studying food nutrition. Four conferences have been held, one in London, another in Paris, the third in Rome, and the final one in Naples, at each of which the general question of crop production and feeding the Allies was carefully studied. While the conferences were called primarily for saving food toward winning the war, the armistice has nevertheless brought up a new set of food problems, which are being solved. Several conferences have also been held with U. S. Food Administrator Hoover.

Dr. Armsby writes home that the work has been very interesting but rather difficult on account of the difference in language. He is now on his way home and will be back at the college in time for the opening of the second semester.—Penn State Collegian, sent in by John F. Kell, Delta Delta.

COMMENDED FOR BRAVERY

Regimental Headquarters Praises Captain Frank Terrell, Nu, for Heroism in Action

That Jackson County soldiers are real fighting men, is further proved by a letter of commendation that Captain Frank Terrell received from his commanding officers. In a letter to his parents, Dr. and Mrs. J. W. Terrell, Frank casually refers to his commendation as follows:

"Am enclosing copy of letter General Dashiell sent to me. Am rather proud of it, though I guess it's not very modest to be

Captain Frank H. Terrell
Nu

sending it to you. In case I'm knocked off, though, I want you to have it. War news sure looks good, and maybe some of these days in the near future, I'll be coming home.

"FRANK TERRELL."

The note of commendation is given for "your determination, good judgment, and personal bravery in securing the body of Lieutenant J. H. Carter, 51st Infantry, which was in a wire entanglement near the enemy's trenches. You knowingly braved discovery by the enemy and his hostile fire for a long period and in addition overcame other difficulties in cutting through a wire heavily charged with electricity, as well as a considerable quantity of wire entanglement on the nights of October 4 and 5."

In the letter, Frank Terrell is addressed as First Lieutenant Terrell. He has since been notified officially that his captaincy dates from last June.—Clipping sent in by Past Grand Recorder Grant Harrington.

NEWARK BOY WINS WAR CROSS

Lieutenant J. W. O'Daniel, Delta Kappa, Leads Men After Being Wounded in the St. Mihiel Fight

Lieutenant John Wilson O'Daniel of Newark, Delaware College, ex-1917, has been awarded the distinguished service cross for extraordinary valor and heroism displayed while in action on September 12 when he received a face wound. His citation papers follow:

"The commander in chief of the American Expeditionary Forces, in the name of the President, has awarded the distinguished service cross to Second Lieutenant John W. O'Daniel, 11th Infantry, for extraordinary heroism in action near Bois St. Claude, in the St. Mihiel salient, on September 12. After being severely wounded in the head early in the action, Lieutenant O'Daniel continued in command of his platoon, leading his men for several hours until forced to give in to complete physical exhaustion, thus displaying most exceptional courage, determination and devotion to duty."

Lieutenant O'Daniel was born in Newark, Del., February 15, 1894. He received his early education in the schools of Delaware and Chester Counties, Pennsylvania, coming to Newark in 1913 and entering Delaware College. He was president of his class in the freshman and sophomore years, and throughout his course took an active part in the athletic life of the college.

His letters to relatives here written since the St. Mihiel fight have been full of enthusiasm concerning the spirit of the men, but have contained practically nothing relative to his personal part in the battle. He was discharged from the hospital the second week in October and rejoined his regiment on the 15th of the month. His division, the Fifth, has been repeatedly mentioned in dispatches concerning the battle before Sedan, and also is included among those who are occupying the German provinces.

Although referred to in the citation as a second lieutenant, his commission as first lieutenant has recently been forwarded by the War Department to his home here.—Newark, Del., Post.

Accompanying this letter is an account of the citation of Lieutenant John Wilson O'Daniel for the distinguished service cross.

O'Daniel was a member of Delta Kappa Chapter at Delaware College, Class of 1917. At the time of the Mexican border trouble in 1916 he was a sergeant in Company E, Delaware Militia, stationed at Deming, N. M. And when this country declared war on Germany, O'Daniel was among the first to try for a commission, leaving college to do so.

JOHN EDGAR, Delta Kappa.

PROF. C. C. SPIKER IN BOMBED HUT Member of Delaware College Faculty Had Some Thrills on the War Front

NEWARK, December 31.—Dean E. Laurence Smith yesterday received a letter from Professor C. C. Spiker, a member of the Delaware College Faculty, who has been in the Army Y. M. C. A. work since last spring. He was an assistant in the Modern Language Department for two years and secured a leave of absence last spring to go overseas. He speaks of having been transferred to the French Army, where he is teaching English. Several months ago Professor Spiker had a narrow

Claude J. Spiker
Gamma Pi

escape when a piece of shrapnel broke his eye glasses, but he was apparently uninjured.

Professor Spiker writes: "Since the middle of September I have been exclusively with the French. About three months ago I was transferred from the American to the French work and sent to an Officers' Artillery Training School to take charge of the English teaching. I have as assistants a New England lawyer and a California artist.

"Previous to joining the French division of the 'Y' I was with the American forces. I spent a couple of months in what was called a quiet sector near Baccaroc in Lorraine. Just following the Chateau-Thierry drive the division I was with moved to that sector which was not termed 'quiet' at that time. I spent a month there attached to a regiment of light artillery, French 75's. We were between Soissons and Rheims, on the Vesle. There I enjoyed (?) the sensations that came with 'Jerry's' arrival over our heads whenever the weather permitted. He used to come regularly about 9 o'clock

and stay until 11. As my hut was about one hundred yards from a road that he showed considerable interest in I used to get all the excitement I could while wondering where the next one would drop. Then one day after we left the woods the Boche located us near the town of Bosches and shelled us rather suddenly. I got my glasses broken by a piece of shrapnel and while in Paris getting new ones was transferred to the French work."

Inspector William R. Edgar sends in the above clipping say, "Brother Claude C. Spiker, Gamma Pi, was an instructor in modern languages at Delaware College and went overseas this year. He was very popular with the student body at Delaware and a loyal Sig.

[Delta readers will remember Brother Spiker's interesting sketch of his student days in Madrid, published in the Delta for May, 1918.—The Editor.]

SERGEANT BARRON ARRIVES

Delta Delta

Our little detachment of non-combatant ordnance men arrived in this section of the "near front" about a week before the armistice was signed and we were glad that our view (from the rear) of the fireworks was so short.

That remembrance of sea-sickness is only a little over a month old, but I could step on to the outbound troop ship without thinking of anything but "back in the States."

A short trip into Germany and out again, plus a trip to Paris, would fit well upon me, but the Army wasn't fitted that way.

One of the Brothers passed our depot and asked for me while I was on a visit to famous shelled city (Lieutenant Albert Everett Lee, Beta Rho, Ordnance Corps), and I surely was disappointed to have missed him, because we had been together at courses at University of Pennsylvania and Augusta Arsenal.

SERGEANT HAROLD E. BARRON,

Delta Delta.

Ordnance, P. R. A. 22,
(Artillery Repair Park),
Sector 215, A. P. O. 774

WILSON IN FRANCE

Amer. Ex. F.

For the past ten weeks I have been stationed here in the Candidates School for Officers. The last orders have almost made it so it looks like there will be no more commissions given. The school has continued and sometimes we hear that we may get to come home soon.

I was walking down one of the streets and whom should I meet but Brother "Spig" J. B. Webster, also an affiliate of Gamma Pi from Bethany. His address is the same postoffice address, but he is with a sanitary train. I do not know the organization.

It has been my misfortune or good luck, I don't know which, to never get to the front, although I have been here in France over five months. I was on Detached Service in a classification camp for over two months. then I came here, (Langres).

SERGEANT HERMAN E. WILSON,
Gamma Pi.

4th Co. 1st Bn.
Army Candidates School
A. P. O. 714, A. E. F.
Langres, France.

A "WAR INITIATE" TELLS US WHAT SIGMA NU MEANS

No Travel Orders for a Twelvemonth

The Delta is still to come, and I'm anxiously awaiting its arrival. I crave some "hot" Fraternity "dope," and The Delta is the place to get it.

I wrote to Brother Johnson, and am awaiting his reply. I hope that I shall be able to see him before our return to the States.

Yesterday was a red letter day, "on dit," though from outward appearances 'round here one would never know it. They tell me that Paris was a "madhouse" sure enough, and I'll bet that Havre and Orleans were also. Even in the little old town near our camp the "spirits" seemed to be flowing quite freely, with the Yanks on the receiving end. Our boys here were all a mighty peeved bunch to learn of the "lay me down" actions taken by the huns. But later their common sense and consideration of the folks back home convinced them that it was indeed a wondrous thing. But I reckon you can imagine how keen is the disappointment to miss going to the front by less than a week! And we have been advised to not expect any "travel orders" for home for another twelve months!

Found another Sigma Nu right in my own outfit, and we're good pals of course—Goldcamp, from our Lehigh Chapter, a "prince" of a fellow. He joined our outfit just previous to our departure from Camp Colt, though I didn't "identify" him until about a week ago.

Must close and hit the old line for "retreat."

DON WARNER,
Gamma Sigma.

Sergeant Don Warner, "A" Co., 306th Heavy Tank Bn., Am. Ex. Forces, France, A. P. O. 714.

A PEACE NOTE

Football and Equitation are Camp Diversions

Dear Harry Hopwood:

I was mighty glad to hear from you and to know that Cummings and Doc Miller were in Columbus. Gee, I wish I was home getting ready to go over there. I am getting so damn tired of trying to get a commission that I wish that I could get into anything so as to get into it before they close the hunting season on these Huns. Looks as though we won't get a shot at the birds from the papers. You should have heard the yelling in camp today when a wild rumor got started that peace had been declared. The boys yelled for an hour. Some noise, about 30,000 voices, made me feel like I was at O. S. U. football game. By the way, I am on the team here and expect to play Georgia Tech Saturday.

Say this influenza is hell. About four hundred fellows died in camp so far and besides being in quarantine, we have to work and march with masks over our nose and mouth. Today we had some more equitation. Some fun to see the boys fall off those wild army horses. The hard one is to jump aboard with horse on the run and hurdle with feet out of the stirrups.

Just finished an examination on tactical situation. It is now 9 p. m., so you see how we work. I hope to get a commission here and go over as a fighting observer. This is a great and interesting branch. Takes hard work and lots of brains. I lack both.

Yours fraternally,

HENRY METCALF, Beta Nu.
Camp Hancock,

NATHAN SWAIM

Beta Beta

Friends in Indianapolis have received word from Camp Dodge of the promotion of Nathan Swaim to a first lieutenant. Swaim is an Indianapolis attorney. He was a member of the second Officers' Training Camp at Fort Harrison and was commissioned a second lieutenant. From there he went to Camp Dodge, where he was with the 88th Division. Recently he was transferred to the 163d Depot Brigade and was commissioned a first lieutenant.

Lieutenant Swaim is a graduate of Depauw of the Class of 1913. Later he attended the law school of the University of Chicago, from which he was graduated in 1916. He is the son of Mr. and Mrs. Charles R. Swaim, of Zionsville. He was married in July, 1917, to Miss Clara Kenner, who is with him at Camp Dodge.—Indianapolis News.

With Military Honors

Here We Write "Immortal Dates"

"Thinking of our Fraternity not only as a Brotherhood of militant power, but also as a creative force for the spiritual development of men."—The Creed of Sigma Nu.

LIEUTENANT LEON L. FOLSOM

Mu

Lieutenant Leon Lamar Folsom died of wounds received in France. Only a few of the older men now in the Chapter know Brother Folsom, but he was one of the leaders of everything in college.

B. Y. RAMSEY.

WYLLYS BENSON

Nu

Particulars of the death of Wyllys Benson were received from Sergeant Don Olliver, Nu, of same company, 110th Field Signal Battalion. Olliver wrote that a week previous to his death, "Swede," as he was called, returned from Argonne well and without a scratch. A week later Olliver was summoned to attend his funeral—the death occasioned from pneumonia following influenza. After the funeral Olliver wrote as follows:

You will have no doubt received my letter about "Swede" long before you get this. I tried to get hold of Herman Engel and Pete Frater, but couldn't make connections with Herman and Pete was away on permission, so I was the only one of the boys who was there. The company marched in a body with side arms to Base 91, where the ceremony was held. The battalion chaplain conducted the ceremony. We used an ambulance for a hearse and marched from the hospital to the cemetery where he was buried. There was one section which had nothing but Amex graves, and he is among them. It is a very pretty cemetery and well kept up, located just on the outskirts of Commercy. There was some lady at the funeral who knew Swede's father. She represents the Red Cross and takes care of the marking of the graves of all Kansas boys. His grave is only marked with a wooden cross, but I intend to go to Commercy Monday and buy a stone marker and have it placed. I hate to think of his grave looking so plain, like the several hundred others there. It was certainly a sad affair, for Swede was liked by all.

WILHELM RUDOLPH FISHER

Nu

Wilhelm Rudolph Fisher died in Wichita, Kan., November 6, 1918, of influenza. He had been commissioned as a first lieutenant in the Medical Corps and was under orders to report at Camp Funston for duty. The following obituary notice is taken from a Wichita paper:

Dr. Wilhelm R. Fisher was born at Racine, Ohio, November 2, 1881. He came to Kansas in the year 1885 with his parents, Dr. and Mrs. E. C. Fisher. His boyhood and young manhood were spent at Lyons, where he was graduated from high school in 1901. His subsequent education was acquired at the University of Kansas from 1901 to 1906. His training as a physician and surgeon was finished in Northwestern University, where he received the degree Doctor of Medicine in 1909. During the year 1912 he was an interne in the Chicago Lying In Hospital.

His active career as a physician has been at Lyons, Coffeyville and Wichita, Kan., having practiced his profession at Wichita during the last two years. He was a member of the Sedgewick County Medical Association, the (Kansas) State Medical Association, and the American Medical Association.

He married Miss Gertrude Johnston of Wichita, Kan., July 14, 1917.

During the present epidemic of Spanish influenza the calls upon Dr. Fisher's time were many and frequent. But the constant calls upon him for professional service and the hard work had reduced his powers of resistance until he himself contracted the influenza which rapidly developed into bronchial pneumonia.

GRANT W. HARRINGTON.

ROBERT DURELL BUSH

Xi-Mu

Robert Durell Bush, judge of the city court of Camilla, and one of the most prom-

man of that section of Georgia, died yesterday morning at a private hospital in Atlanta after a lingering illness. Judge was connected with many prominent families over the state, and has a circle of friends who will regret to hear of his death.

Judge Bush was forty-six years of age, nearly above the military age, according to a draft act, but he felt that he could serve to his country by giving his talents to the Young Men's Christian Association in its work among the soldiers and through his faithful attention to the work he had taken upon himself with the organization he lost his health and the supreme sacrifice within a few days after returning to this city from his tour in France. The nervous breakdown was the direct cause of Judge Bush's death. It was the result of his arduous and extended service to the boys as educational director of an American camp at Nampes, France, which duty he performed with great spirit, perhaps, because of the presence of his own son, Ashley Bush, who is fighting with the 348th regiment of the 87th Infantry division, United States army.

Some of the impressive incidents recounted by Judge Bush after returning to this city, as he lay on his last bed of illness, were his meeting with his son, Ashley, on the front lines in France, the young man wearing the uniform of the United States army, while the other was clothed in that of the Y. M. C. A., which formed one of the effective fighting forces to the boys in France.

Judge Bush was a native Georgian, having been born in Early County forty-six years ago. He graduated at Emory College, Oxford, Ga., and studied law at the University at Athens.

Judge Bush was a member of the Georgia Association, of the Sigma Nu Fraternity and a prominent member of the state Y. M. C. A.—Atlanta Constitution, sent in by L. Kemp, Mu.

EDWARD MARCUS SMITH

Xi-Alpha-Beta Rho

Edward Marcus Smith, Medical Student, is reported as having died. No particulars.

HAROLD BACON WARE

III

Harold Bacon Ware of Lehigh Chapter was killed in the Marine Corps, Aviation Section on March 25, 1918. He went over with the First Marine Aviation Force on July 1, 1918, served with the Northern Army Group Headquarters in the vicinity of Dunkirk and Calais until the time of his death from influenza, on November

12, 1918. Brother Ware was buried in the British Military Cemetery at Calais, Plot 5, Row C, Grave No. 9.

CAPTAIN NORMAN M. SHAW,
Gamma Beta.

Harold Bacon Ware, Pi Chapter, died in France on November 13, following an attack of influenza. Brother Ware was a member of the Marine Aviation Corps which was operating with the British Naval Aviation Forces in northern France.

Harold Bacon Ware
Pi

Word of Brother Ware's death was received on November 21 by his father, Dr. Horace B. Ware, of Scranton, Pa., and came from his captain, Robert Williams, also of Scranton. Since the receipt of the cable message the father and mother of Brother Ware have received from many of our Brother's comrades and through many sources information as to the standing of the young man in the company, his devotion to duty, his manliness and his courage.

Tonight I called at the Ware home and his father and mother took delight, even in their sorrow, in recalling the zeal the young Brother had in his Fraternity life. His mother, Mrs. Ware, wears Brother Ware's Fraternity pin which was found on his clothes near Calais, France.

Brother Ware was an undergraduate at Lehigh when the war broke out. He enlisted for service March 25, 1918, was in training at Miami, Fla., until June. He sailed for France on August 1, 1918. During his service in France, the young man, to provide smokes and good things for his

fellows in the headquarters company, managed successfully a canteen for the company, doing this in addition to his military duties.

The following letter, signed by nine of Brother Ware's comrades, gives some idea of their feeling towards him:

France, November 13, 1918.

My Dear Mrs. Ware:

There is little that I can offer in the way of condolence, but we who have worked and lived with your son want you to know that we think of you, his mother, and his family at this time.

As a man among men, we know him as "Ware," and his going leaves an empty place in the outfit that cannot be filled. When life seemed pretty hard "over here" and there was no tobacco or chocolate—and tobacco and chocolate mean more than food to the soldiers in the field—it was Ware who spent his time, energy and money in getting these comforts for us. Upon his own initiative he ran a canteen for the men, with little or no reward other than knowing that he was helping to keep up the spirits of the men thousands of miles away from home.

This has been a tremendous war, and millions of men have been given to win victory for liberty. Until you have seen France and stricken Belgium and the French and Belgian people you can never realize what the words "for liberty" mean, but we know that the whole world must forever pay homage to the man who made the great sacrifice for liberty. If you can come to know what the victory means, then it must be some recompense to know that your son was one of the heroic men who made possible that victory.

It was not hard for the men to undergo the hardships of war, because they stand side by side with other brave men, but to those at home, particularly the mothers, is left the greatest burden. It is the noble mothers of America, England, France, Belgium and Italy who have given noble sons that the credit is due. With our expression of sympathy we want to pay our respects to you as one of the noble mothers of this war.

Ware was a good soldier and a man worthy of the uniform of the United States Marines. No greater tribute can be paid him.

We offer our very sincere respect and sympathy to the family of Ware, a man who gave his all and gave it cheerfully for the greatest cause that men have ever given for.

Sincerely,

(Signed by Charles S. Schloss, private; Lawrence M. McCauley, private; David

MacL. Church, private; Raymond Smith, private; Verne L. Roehm, private; Gregory H. Korzeniewski, corporal; John J. Nolan, private; Lawrence Keyes, corporal; W. S. Lovejoy, sergeant—U. S. M. C., Northern Bombing Group, Headquarters Detachment.)

What a tribute is that for a Knight of the Republic! What remains to be said?

From his commander, Captain Robert Williams, the following information comes relative to the burial in France of our Sigma Nu Brother, the excerpt being from a letter to the captain's wife in Scranton:

"I have just been notified from the base hospital that poor Harold Ware died this morning. He made a gallant fight for life and all of us, from the major down, were in hopes that he would pull through. I cabled his father an hour ago and have done everything I could to be of help to the poor boy. Tell his mother that no man or officer in the command had more friends. The boys have subscribed 100 francs for a handsome wreath and bouquets, and officers will send a similar token. We bury him at 3 p. m., and Mr. Trofall, who liked Ware very much, and myself are going to attend in addition to all the men of the headquarters detachment."

So this Brother in Sigma Nu has passed on to join his comrades who fell before him in France. He lived and died a true Knight, he fulfilled the mandates of our Creed. Those of the Sigma Nus in Scranton who knew Brother Ware appreciate the loss sustained by his Chapter, Pi.

ROSWELL PHILLIPS,
Gamma Epsilon.

HORACE BAXTER COWELL

Psi

Washington, February 1.—The following letter, lauding Captain Horace B. Cowell, who was killed in action in France, has been received by his parents here from Major General C. J. Bailey, of the 81st Division:

"Dear Mr. Cowell—You have been notified before this of the death of your dear son, Horace B. He was killed while gallantly leading his men in action on November 9, near the little village of Grimaucourt. He is buried among his fallen comrades at Moulainville, some five miles southwest of Verdun. His grave is marked and can be identified when the government brings back the bodies of those who have fallen, and, in the meantime, it will be cared for.

"I feel while I can do little to help you in the hour of your affliction, you will be glad to have a word from his commanding general to tell you that he was a fine officer,

by his men, and the division feels his keenly. He died like a brave soldier, to the enemy's lines, and his career in the army and his soldier's end form a glorious heritage for those he leaves behind.

Yours very sincerely,

"C. J. BAILEY."

Clipping sent in by Psi Chapter.

ALBERT HANSFORD COWART

Beta Theta

way of Bombay, India, comes the news from France of the death of Brother Albert Hansford Cowart, Beta Theta. We publish below a brief tribute from a friend:

"I was a member of Alpha Tau Omega, and my good friend of 'Judge' Cowart, I see herewith probably one of the last letters written by him from France. This letter was originally written to Captain J. Whitney, of Madras. [The Editor regrets that space does not permit the publication of this letter.]

Albert H. Cowart was initiated into Alpha Nu at Alabama Polytechnic Institute in 1907. I knew him in Manila and sailed with him from Hong-Kong to Manila. 'Judge' Cowart was a true Yankee in his death you have lost a loyal soldier, and we who knew him have lost a friend. He was killed in action, in France, in July, 1918.

T. A. McDONALD,
Alpha Tau Omega.

COVINGTON DRANE JENKINS

Beta Theta

Covington Drane Jenkins, Beta Theta, died in January, 1919, at Camp Johnston, Jacksonville, Fla., in the service of his country. He was in the Department of Judge Advocate. He was a loyal and enthusiastic Sigma Nu and a noble young man clean in all his habits, and possessed high ideals.

W. L. KEMP, Mu.

ALMAR HUNT DETCHON

Beta Iota

Almar Hunt Detchon died of pneumonia at New York on February 1, 1919. He was stationed there in the Chemical Service.

Another Detchon, who was a son of Almar and Julia Hunt Detchon, was born March 19, 1892, in the old homestead in Poland township. He spent his childhood and received his early education in the district school. He graduated from Poland high school in 1910. In the autumn of 1912 he entered Union College, where he studied two years. He then took up agricultural

studies in Ohio State University, from which he graduated in 1917. May 29, 1918, he went to Camp Gordon for military training and in October was detailed to the field testing section of the gas defense division in Boston. Following the signing of the armistice he was transferred for special duty in New York. Since early childhood he attended the Poland M. E. Church and at an early age became an active member of the church and was superintendent of the Sunday school at the time of entering army service.

LEROY E. MARLOWE, Reporter.

THOMAS A. HEGARTY

Beta Iota—Delta Gamma

Sergeant Thomas A. Hegarty died of pneumonia on October 30, 1918, after suffering from a gas attack. He took an active part in the fighting just before that time and died a good soldier. He is reported as being the most popular man in his company.

LEROY E. MARLOWE, Reporter.

SELDON HOWE MURRAY

Beta Xi

Seldon H. Murray died at Base Hospital No. 28, in Rouen, France, of pneumonia. Miss Dangerfield, a nurse in the hospital, has written her mother in St. Louis of having that day, October 22, attended the military funeral of two boys of the Washington University unit, one of whom was Seldon Murray, of Liberty, Mo., and whom she stated was a general favorite with all the hospital force.

The last news received before this announcement was a letter from Tom Hunt, who enlisted with him, dated October 19, to Seldon's father, C. S. Murray, that Seldon was suffering from pneumonia.

Seldon Murray was born in Liberty, April 6, 1893. He graduated with honors from Liberty high school and from William Jewell College. He was elected treasurer of Liberty in 1917, which office he held when war was declared by the United States against Germany, and he volunteered for service and was sent at once to France.

WATSON BEATTY LENDERMAN

Beta Rho

I just heard today of the death in France of Watson Lenderman, Beta Rho. He was a victim of disease.

We all knew 'Wats' so well at Columbia, especially those of us who were there in the first years of the life of the Chapter, from 1908 to 1911. In order to help us out

financially "Wats" came to live with us, and he stood faithfully by Delta Gamma in those early years. I am certainly sorry to hear of his death.

NORMAN H. ANGELL.

WILBUR THOMAS RAWLEIGH

Gamma Beta

It is with a sense of profound sadness that Gamma Beta reports the death of Wilbur Thomas Rawleigh on September 27, 1918, at Great Lakes, Ill., from influenza.

Brother Rawleigh, who was known as "Tick" by all the fellows, was born in Freeport, Ill., April 6, 1896, having at-

Wilbur Thomas Rawleigh
Gamma Beta

tended local public schools and on graduation from high school entered the Law Department of Northwestern University. When President Wilson declared war, Tick at once decided to enlist, and chose the navy as his branch of the service. Having been proficient in the art of "hammering the drums" about the Fraternity House, he was chosen to fill in as a drummer in the Regimental Band, in which capacity he served until his death.

No one in the Chapter will ever forget the cheery smile, the hearty laugh and the pleasant spirit that Brother Rawleigh had; a Sigma Nu in the broadest meaning of the words—one whom we were proud to see wearing the five-armed star. "His smiling face and gleaming eyes were ever an expression of his spirit."

H. P. HEISS, Gamma Beta.

ERIC FREDERICK PIHLGARD

Gamma Mu

First Lieutenant Eric Frederick Pihlgard, 61st Infantry, 5th Division, Army of Occupation, died at Differdange, Luxemburg, February 28, 1919.

While the immediate cause of his death is given as lobar pneumonia, the remote cause is a wound which he received in the Meuse-Argonne battle, October 13, 1918. Influenza developed and was followed by the fatal attack of pneumonia.

Eric F. Pihlgard was born April 9, 1893. He was graduated from the Bowen high school in 1911, and then completed a four-year course in architecture at the University of Illinois. He also had a one-year course in French.

During his years at Bowen high school he took part in various activities of the school and was a recognized leader among his companions. He made a splendid officer, and was admired by all the men under his command. He said very little, but was intensely patriotic and a young man of whom the entire community has every reason to feel proud.

His service record was as follows:

Joined the 61st Infantry August 29, 1917, at Gettysburg, Pa., from First Officers' Training Camp, Fort Sheridan; regiment moved to Camp Green, N. C., February 16, 1918; transferred to 9th Brigade Headquarters as liaison officer; sailed for France April 16, 1918. Training at Bar Sur-Aube and Gerardmer; trenches at Fraise, Vosges, about July 1, 1918, transferred to 61st Infantry, as liaison officer, 2d Battalion; battles and training with regiment until wounded October 13, 1918, in the Meuse-Argonne offensive; in hospital from October 13, 1918, to January 9, 1919. Wounded and influenza. Rejoined regiment January 28, 1919, and attached to Company E, for duty.—Clipping sent in by Russell LaBier, Reporter, Gamma Mu.

WILLARD EDWIN VESTRE

Gamma Tau

Brother Willard E. Vestre was killed in action October 4, 1918, in combat with the enemy in front of St. Etienne; location and number of grave unknown.

I have talked with several officers of the 49th Company, which was the organization to which Brother Vestre was attached, and while no one with whom I have yet spoken was personally acquainted with him, this is about the situation: St. Etienne is a small village located on the southern slope of Blanc Mont Ridge, a commanding position, strongly fortified, which had been occupied by the Germans since the beginning

of the war, from which the Allied troops had endeavored to dislodge them at various times, without success. It has been said that in efforts to capture this hill the French army lost, one time and another, over 100,000 men.

The Second Division was thrown into the Champagne in the last days of September, 1918, and immediately attacked the strongest part of the line. They made decided advance and the morning of the 4th of October were in a position to begin operations against the ridge. Officers who were with the 49th Company tell me that they went "over the top" early in the day; that the "heinies" were giving them everything—"heavy stuff," shrapnel, gas, and machine gunfire from the emplacements on the higher ground. Veteran Marines have described that day as "pretty hot"; to the ordinary man that would make it seem miraculous that one man from any organization could escape alive. Brother Vestre fell somewhere in this attack.

NORMAN M. SHAW.

ELMER JOHN NOBLE

Gamma Chi

It was with deepest sorrow and regret that we learned of the death of Brother "Cy" Noble. Brother Noble was liked by all who knew him. In his death Sigma Nu lost one of her biggest men. "Cy" was known all over the Northwest and was one of the most loyal supporters of Sigma Nu. We extend our sincerest sympathies to Gamma Chi in their loss.

Z. A. WISE, Reporter,
Delta Tau.

It is evident that the Brothers of Gamma Chi have not appraised The Delta of the fact that Brother Elmer J. Noble gave his life to his country. Good old Cy was blown to atoms in the Battle of the Argonne Forest while serving as acting captain of a company in the 91st Division.

He was one of the biggest athletes that ever donned a Washington football uniform. He played for four years on Washington's championship football teams, being a star performer at right half. No fellow who ever attended the university enjoyed as enviable a reputation as Cy. Every one liked him. His cheerfulness and wholeheartedness made him welcome wherever he went. In his death Sigma Nu has lost a *real man*—a splendid and loyal Brother.

Noble was one of the first men to offer his services after the declaration of war. He attended the first officers' training camp at the Presidio and was one of the few men at that camp to win a first lieutenantcy. Immediately after receiving his commission he was sent to Fort Sill, Oklahoma, for special bayonet work and in November, 1917, was detailed as bayonet instructor of

the 91st Division in training at Camp Lewis. During his stay there he was one of the best-liked and most highly respected officers in that huge cantonment—revered alike by brother officers and men of the ranks.

Shortly after receiving his commission, Brother Noble was married to Miss Doris Smith, a Kappa Kappa Gamma from Washington Chapter. The marriage was the culmination of a college romance extending over his entire college days.

C. E. ARNEY, JR., Gamma Chi.

ALLEN DODGE LEWIS

Delta Beta

Allen Dodge Lewis died on October 13, 1918, at the officers' training camp for the Engineer Corps at Camp Humphreys, Virginia. He died of influenza after an illness of three weeks.

Brother Lewis was born in Manchester, N. H., October 5, 1894. He prepared for college at the local high school and entered Dartmouth in the fall of 1912. Both at school and in college he was prominent in athletics, being a member of the varsity cross-country team and winning his "D" as a long-distance runner. After he was graduated he entered the Thayer School of Engineering and took his degree of C. E. in 1917. Immediately after graduating he was appointed first assistant engineer on the new government dry dock at Portsmouth, Va. About July 1 he resigned his position to enter the officers' training camp.

O. L. HODGKINS, Reporter.

GEORGE FRANCIS WATKINS

Delta Beta

Mrs. Frances Watkins of Springfield, Mass., the mother of Second Lieutenant George F. Watkins, has received a Distinguished Service Cross awarded posthumously to her son by General Pershing. His citation states that "during the storming of the heights north of the River Ourcq near Villers-sur-Fere, France, July 23, 1918, he was an example of courage and soldierly fortitude. He was continually with the foremost elements of his platoon in the most dangerous areas it had to occupy, both during the advance and during the maintenance of the position gained. His platoon was almost annihilated and he himself was killed."

I came across the above information in the last issue of the Dartmouth Alumni Magazine. We had heard unofficially that he was missing in action and have therefore refrained from sending in any news about him. Brother Watkins was a member of the class of 1914 and was No. 69 in this Chapter.

O. L. HODGKINS, Reporter.

OSCAR FRED CARLSON

Delta Omicron

Brother Oscar Fred (Captain "Fritz") Carlson, '15, a veteran of many battles in France, wounded twice and gassed once, was killed in a railroad accident in France while on his way to join his company after having been discharged from the hospital.

VERNA PATTON, Reporter.

GEORGE LEE SYLVESTER

Delta Omicron

Brother George Lee Sylvester, '16, was reported missing in action, in France, September 29, 1918. So far this is all we have been able to learn of Brother Sylvester's death.

VERNA PATTON, Reporter.

JOHN ALEXANDER MCKINSTRY

Delta Rho Chapter

We feel that our greatest loss through the war has been that of Brother John McKinstry, who left school in his second year to answer his country's call and made the Supreme Sacrifice, being killed in action while serving as a lieutenant in the Infantry. We may rest assured that he died as we had always known him to live, a true and loyal Sigma Nu.

JAMES C. ATTEBERRY, Reporter.

HENRY JOHN SCOBELL

Delta Sigma

Brother Henry J. Scobell was a second lieutenant, Company M, 26th Division, was all through the second battle of the Marne in which he was cited for bravery and the St. Mihiel drive. He was severely wounded presumably by shrapnel and was hit eight or ten times. After several attacks of pleurisy and pneumonia, he died November 15th when edema set in. He is buried in the American cemetery at Allerey, France. Thus do we with sorrow intermingled with pride, add the third gold star to our service flag.

F. H. HAAREN.

Brother Henry J. Scobell entered the School of Applied Design at the Carnegie Institute of Technology in the fall of 1914. He registered in the Architecture House and while there took a prominent part in all the student activities.

Brother Scobell was initiated in Beta Theta Epsilon on February 20, 1916, and became a Sigma Nu when Beta Theta was installed in October, 1916. "Scobie" was a most active man in the Fraternity and it was his enthusiasm which carried many of our fondest hopes come true. Brother

Scobell made his home with his uncle and aunt, Mr. and Mrs. F. W. Sackett, Cape Vincent, N. Y.

Brother Scobell left school in the spring of 1917 and entered the officers training camp at Fort Niagara. He received his commission as a second lieutenant in the Infantry, regular army, on November 27, 1917, with orders to report at Hoboken, January 5, 1918. He was then stationed at Camp Merritt until he sailed for France, February 7. Upon his arrival in France, he was assigned to a replacement office for three months. However, he wanted very much to get into the line and at last suc-

Henry G. Scobell
Delta Sigma

ceeded in going up to the trenches in June. On his return he spent four weeks at a corps school for advanced training. In July he was assigned to Company M, 103rd Infantry (26th Division). The 103rd Infantry was the first regiment over the top in the big July drive and it was the second battle of the Marne that Lieutenant Scobell received his citation for bravery. After this the regiment was in rest billets until they went into action again for the St. Mihiel drive. He came through this safely but while they were in position for the Argonne drive, the 103rd was very heavily shelled and Brother Scobell was severely wounded on the night of the 22nd of September. He had gone back to the kitchen to arrange about food being sent up to the men. He received eight wounds, caused by high explosive shells, four in the back, one in the head, one in the left side, compound fracture of the left arm and had his right index finger amputated.

He was taken to an evacuation hospital where they did not expect him to recover, but he improved and was sent to Base 49. His wounds and the wounds brought on by the gas which later developed into double pneumonia. Even then the doctors thought he had a chance as he showed so much life and wonderful spirit, but edema of the lungs set in and he died on November 14 at 8:15 p. m. His twin brother, George, who was connected with Base 31, had been with him for ten days until November 14th.

Brother Scobell is buried in the hospital burying ground at Allery, in the town of Savone-s-Lowe, about twenty miles south of Dizon.

This is a copy of Brother Scobell's recommendations which was sent to General Ed-
wards:

Henry J. Scobell, second lieutenant, 103rd Infantry, while in command of his platoon advanced under heavy artillery and machine gun fire, gained his objective and consolidated his position.

At another occasion with his platoon he sent out to gain contact with a major part of a battalion which had been cut off by the enemy. By careful maneuvering he reached the surrounded position of the major, gathered valuable information and return with eleven prisoners.

At still another occasion he went out with twenty men in search of enemy machine gun nests in front of Epierdes and learned with the location of about ten

guns plotted on a map for our artillery to fire on.

"In view of the above I recommend him for citation in Division Orders.

"CHARLES R. CABOT,
"Captain 103rd Infantry, Co. M."

H. DONALD DICKINSON,
Commander, Delta Sigma.

SHELDON W. SIMMS

Epsilon Pledge

Sheldon W. Simms has been reported killed in action in France.

FRANK CLEMMER

Lambda Pledge

Frank Clemmer, of the 80th Division, was killed in action in France.

EARL DYSTER DOBBYN

Beta Iota Pledge

Earl Dyster Dobbyn died of pneumonia, December 22, 1918.

HOMER WHIPP

Epsilon Alpha Pledge

Homer Whipp, a pledge of Epsilon Alpha Chapter, died in France, in August, 1918, of influenza.

That I May Play the Man Whether I Go East or West

"To live and to die in honor," a great thought, and worthy of every Sigma Nu, and of which every Sigma Nu should strive to be worthy. To many of us who have often repeated it, perhaps without thought, it has taken on a new significance. We have seen how loyal Sigma Nus and Americans can die in honor. Let us, in memory of them, strive to live as they have died.

JOHN N. BULLEN,
Gamma Theta.

Knights of the Republic

*"To guard with jealous care * * * the ancient rights of human freedom, in whose name we shall destroy all wrong and oppression, * * * And so to be faithful to the Knighthood of Truth."—The Creed of Sigma Nu.*

Our honor roll of the Knights of the Republic will be a part of the historic archives of Sigma Nu. We all desire to have it, in its permanent form, accurate and complete. Our thanks are due to the Chapter Reporters and our Alumni Correspondents and Secretaries who are taking a keen interest in their Chapter record herein. But every one of our readers must add his "bit" to our list. Not one of our Knights-in-Arms dare be missing.

Corrections are coming in every day and it would appear that our permanent record cannot be printed until the next (October) Delta. Our readers and correspondents are, therefore, urged to send in promptly, up to August 15, 1919, additions or corrections.

Please specify, where possible, whether initiate or pledge, give Chapter name and do not use nicknames or initials. Remember we often have several men of the same name so that as full information as you can obtain is sometimes necessary for identification.

Every Brother in the service is asked to fill out the blank on page 775, giving his war record and other details of interest.—The Editor.

Hold That Line!

Now that peace is almost a reality, tell the active men to stick to their work, not forgetting that the active chapters must be brought back to a better standard than that of the days before the war. Reconstruction will be the biggest proposition that the active fraternity man has ever handled. They must hit hard until the time when their Brothers in O. D. return to a civilian status and then the "old timers" will shoulder a large part of the burden.

LIEUTENANT SIDNEY W. BISHOP, Gamma Kappa.

Summary

This honor roll, as shown by the following tabulations, includes every live Chapter and most of our dead Chapters. This table is correct as far as data has been furnished our office. The total number is, of course, larger.

Chapter	Total	Affili- ates	Net Total	Dead	Chapter	Total	Affili- ates	Net Total	Dead
Gamma Lambda	113	3	110	1	Phi	45	4	41	0
Nu	112	3	109	4	Gamma Pi	45	2	43	0
Beta Psi	107	3	104	1	Delta Mu	45	1	44	0
Gamma Beta	106	2	104	1	Kappa	44	6	38	1
Gamma Theta	99	4	95	5	Xi	44	6	38	1

Delta Eta	47	2	45	2					
Delta Sigma	47	0	47	2					

Sigma Nu Out of College

Captain Alfred A. Grant, Beta Kappa, Aviation Corps, is an Ace in the American Army. He sure knows why is Sigma Nu:

A copy of the Delta has just reached me after having done service for two other Brothers. I have passed it on to a fourth, but not until I had read it from cover to cover, including the advertisements. It was the first copy that I had seen since going into the service, May, 1917, hence it was thoroughly appreciated. It was good to look over the items of the various Chapters and get the thrill again, almost the same as we used to in the active Chapter.

I have long since decided that the fellow

who thinks that the usefulness of the old Fraternity ceases when he graduates, is unworthy of its membership. Only then does he begin to appreciate its worth and its deeper benefits.

I had the pleasure of attending the Sigma Nu banquet with Brother Burr at the Wagram in Paris, last August. I am sure that he will have given an account of the enjoyable time we had there that night.

With all good wishes to the Delta and to the dear old Fraternity in general, believe me,

ALFRED A. GRANT,

Beta Kappa.

Greek News

By PAST REGENT A. H. WILSON

James Duane Livingston, Delta Phi, has been retained as chairman of the Inter-Fraternity Conference. His address is No. 7 Pine Street, New York City. Mr. Livingston is not only versed in the history of his own Fraternity but has a working knowledge of all the other Greek Letter organizations. His retention in office will mean much to the inter-fraternity organization.

Sigma Phi Epsilon is considering petitions from Tufts College, Mass., and the University of Southern California.

Phi Mu Delta is a brand new Greek Letter Fraternity, being formed by the confederation of a number of college organizations known as the Commons' Club.

The Fraternities at William and Mary College, Virginia, are arranging to build a full list of Fraternity Lodges near the main entrance to the campus and this part of the grounds to be known as "Fraternity Row." The Fraternities interested are: Theta Delta Chi, Kappa Alpha, Kappa Sigma, Pi Kappa Alpha, Sigma Phi Epsilon and local Phi Tau Beta.

Phi Delta Theta is looking with favor upon a petition from the Utah State Agricultural College. Should Phi Delta Theta enter there she would be the pioneer organization. So far the national Fraternity life is confined to the State University where we find: Phi Delta Theta, Beta Theta Pi, Sigma Chi and Pi Kappa Alpha.

Kappa Sigma in her recent establishment at Rutgers College, New Jersey, made a full sweep of the Mollineux family by the initiating of General Mollineux and his three sons, all of whom are Rutgers men. Rutgers has become the State University of New Jersey and has doubled her student body within the past half dozen years. Fraternities: Delta Phi, Delta Kappa Epsilon, Chi Psi, Chi Phi, Zeta Psi, Delta Upsilon, Pi Kappa Alpha, Theta Chi, Lambda Chi Alpha, Phi Gamma Delta and Kappa Sigma.

Carnegie Institute of Technology with Chapters of Sigma Nu and Delta Upsilon has local societies petitioning Alpha Tau Omega and Beta Theta Pi.

Denison University, Ohio, with Chapters of Phi Gamma Delta, Beta Theta Pi, Phi Delta Theta, Kappa Sigma, and Sigma Chi

has local groups seeking Charters from Phi Kappa Psi and Sigma Alpha Epsilon.

Wofford College, South Carolina, is quickly welcoming back the Chapters of her debarred fraternities. Kappa Alpha, Pi Kappa Phi and Kappa Sigma have re-entered there while reports infer that Chi Psi and Pi Kappa Alpha will be re-established before a great time has passed. In re-establishing her Wofford Chapter the Grand Scribe of Kappa Sigma said: "Taken all in all the 400 college men at Wofford College are as clean cut, fine appearing set of young men as I have been privileged to meet anywhere among our colleges and universities."

Delta Tau Delta's sixtieth anniversary occurs this year. It was organized in 1859 at Bethany College, W. Va., where the students were largely southern. Of the six founders, one was killed in the Civil War, two died within the last two years, and three survive. Delta Tau Delta now numbers sixty-one Chapters. There is no special program planned as yet, but its convention meets in Boston, August, 1919. Sherman Arter, the old standby of the Karneas, to whom we are indebted for this note, adds: "For our fiftieth anniversary, we met in Pittsburgh, and a party left at the close of the convention and visited Bethany for a day. A meeting was held in the very room in the house where the Fraternity was organized, presided over by one of the founders."

Chi Psi re-established its Chapter at Bowdoin last fall, chartering Phi Theta Upsilon. This is the tenth national Fraternity now at Bowdoin, exclusive of Phi Beta Kappa and two medical Fraternities.

Drury College, Missouri, after many years of anti-fraternity laws, changed her attitude a few years ago and Kappa Alpha (Southern) paved the Fraternal way at Drury. At the present time two strong local organizations are petitioning, respectively, Phi Delta Theta and Sigma Nu. "The Obelisk" Fraternity, desiring to enter Sigma Nu, is of several years standing and has founded a strong following within the city of Springfield, the seat of the college, and throughout the state of Missouri.

Alpha Phi sorority has placed her twenty-first chapter at the University of Oklahoma.

Editor's Miscellany

GOOD FOR CLEVELAND

The Cleveland Alumni Chapter found itself with a small surplus in its treasury this year. As encouragement to their members' Fraternity zeal, decided to expend their money by sending to each Brother who subscribed to the Entertainment Fund of the Grand Chapter, a copy of the Delta for one year. Forty-two Brothers were thus surprised and the Fraternity strengthened.

Good for Cleveland—also good for the Delta.

THE DELTA IN FRANCE

Brother John J. Cadot, Gamma Eta, has written an editorial for us, and as we cannot improve on his version, we will give you his letter as it stands.

"I received a very agreeable surprise yesterday in the form of the October Delta. Any old magazine is very welcome over here, but believe me I pushed 'em all aside when I pulled the wrapper off that Delta. Brothers W. H. Pearse, Gamma Mu, and E. J. Dickinson, Gamma Eta, have also buried their noses in (for us) the first Delta to hit France.

"We undoubtedly meet a great many Sigs that we do not recognize because Fraternity pins and uniforms do not go hand in hand. With the aid of The Delta I expect to be able to find a few here in camp and make an attempt to get them together some night in town.

"The Roll of Sigma Nus in the service is indeed one to make a Fraternity man proud, especially if he is a Sigma Nu. Every Fraternity man in this barracks has looked it over."

COLLEGE PAPERS

The Editor desires to thank Brothers Edward R. Halperin, LeRoy E. Marlowe, and Sergeant Donald Krull for putting the Fraternity on their mailing list.

Sergeant Donald Krull, Gamma Mu, as we have before mentioned, is the editor of the Fort Des Moines Post, a real newspaper for that camp. It looks as if the sergeant would be wearing his uniform a long time, for they say editors are scarce in the army.

Brother Edward R. Halperin, Gamma Beta, who was one of our prize reporters last year, is business manager of the Daily Northwestern. This is a newsy four-page sheet that comes out every day. Northwestern University has a first-class reputation, of course, but the Daily surely lives up to it.

Brother LeRoy E. Marlowe, Beta Iota, is editor-in-chief of the Dynamo this year. You can bet your "collar jewelry" that there is plenty of news about Sigma Nu at Mount Union now. We note especially Brothers Walter Braun and Harry E. Ritchie writing back frequently.

We would be pleased if other Sigma Nu editors and managers would remember the General Office on their mailing list. These college papers are an inspiration and also a great help to us.

COLUMBIA ALUMNI NEWS

The Editor of the Columbia Alumni News writes concerning the March Delta: "I wish to congratulate you very sincerely on this very interesting number."

Brother Archie Coates's verses "Homecoming" and the Governor Davis front-piece appear in the above magazine with credit to the Delta.

VISITORS' REGISTER

Below are given the names of the Brothers who have visited the General Office since our last record in the March Delta. Come in!

January 30, Errett R. Newby, Delta Epsilon, Norman, Okla.

January 31, Lieutenant Floyd S. Galey, Beta Zeta, Russellville, Indiana.

February 2, J. M. Asbury, Beta Beta, Indianapolis, Ind.

February 17, G. E. Sears, Beta Eta, Danville, Ind.

February 17, Clifford W. Snoke, Beta Eta, Goshen, Ind.

February 18, Captain John O. Crose, Gamma Mu, Camp Custer, Mich.

March 4, Paul R. Dunten, Beta Nu, La-Grange, Ind.

March 10, H. P. Benbow, Beta Zeta, Anderson, Ind.

March 12, C. C. Lyon, Beta Eta, 1636 Richmond Ave., Columbus, Ohio.

March 12, H. V. Baily, Beta Beta, Oaklandon, Ind.

March 14, A. N. Robinson, Delta Delta, 4017 Green St., Philadelphia, Pa.

March 19, Merrill E. Steele, Beta Eta, 2323 E. 10th St., Indianapolis, Ind.

March 21, F. W. Fox, Delta Zeta, 730 Wellesley Ave., Akron, Ohio.

March 22, McKendree C. Pitkin, Beta Beta, 724 N. Illinois St., Indianapolis, Ind.

SIGMA NU IN THE NORTH WOODS

We have received a most interesting article on a trip through the woods of Northern Minnesota by Brother Ivan Benson, Delta Upsilon. This article was especially desired for this issue of the Delta, but along with much other matter, was crowded out by "war" copy.

Any Brother, however, who is interested in a trip through the great North Woods with Indian guides will do well to write to Brother Benson, who can and will give all needed information. His address is Box 3098, University of Minnesota, Minneapolis.

Our Boys Are Coming Back!

By R. E. PETTUS, Theta.

Ahoy, our boys are coming back
From o'er the surging sea,
They went to fight for God and right
And for humanity!

To arms, to arms, our country called!
They, like a brave true man,
Left home and lov'd ones all behind
And army life began.

With college mates and boyhood
friends,
They to the drill grounds went,
And there were trained to soldiers be
On victory intent.

Soon orders came to be conveyed
To Europe's warring shore;
So camps they broke and knapsacks pack'd,
And quickly started o'er.

As soon as they had disembarked
They heard the dread command;
"Forward march, to the battle front,
Led by your stirring band."

In time you are to save the day,
Both Foch and Pershing said;
The men who met the foe at first,
Are numbered with the dead.

To you poor ravish'd Belgium,
And bleeding down trod France
Are looking for deliverance,
From further Hun's advance.

So fired with those burning words
And war like scenes in view,
Themselves forgot and onward sped,
Till o'er the top they flew,

And fought the Germans face to face,
And struggled man to man,

Until they met their Waterloo,
As earth with crimson ran.

Our boys a glorious victory won,
While all America cheered;
But many were among the slain,
When battle smoke had cleared.

This was the greatest day of earth
When armistice nations sign.
Cease firing, warriors, sheathe the sword,
Was sent all down the line!

Upon their knees brave men went down,
And rent the air with praise,
That true Democracy had won,
In God's appointed ways.

The most heartrending sight of all,
Survivors sadly said,
Was leaving comrades on the field,
Some wounded, and some dead.

They thought of mothers, wives at home,
With bleeding hearts and sore,
They could not cheer with empty words,
Whose killed could come no more.

The world now sings our laddies praise,
In admiration—awe—
Such daring deeds were never done
In any other war.

But now they say that peace supreme
Shall reign the earth around;
Good will to man our heritage,
Will evermore abound.

Oh, joy, our boys are coming back
From o'er the surging sea.
They went to fight for God and right
And for humanity!

—Huntsville, Ala., Times.

Chapter Book Shelf

COMRADES IN COURAGE. Lieutenant Antoine Redier. Translated by Mrs. Philip Duncan Wilson. Doubleday Page & Co. (260 pages, \$1.40 net.)

This interesting volume has the distinction of having been denominated by the French Government Press Bureau as one of the three great books which the war has brought forth in France. There is revealed here not only the spirit of heroism and adventure which characterizes all then war literature, but has at least three characteristics which we have not equally found in any other volume on the war. There is here the finest revelation of the spirit of France. This French officer is able to view the horrors of the conflict and at the same time interpret the spirit which underlies it all from the standpoint of his own people. The Chapters Larks, Poppies and Mice and "The God of the Armies" are characteristic in this respect. The psychology of the common French soldier is set forth in this volume with uncommon clearness. This is especially indicated in "The Motherland" and "The Enemy."

This book is especially to be commended to our own soldier Brothers as they will find much to enlighten them concerning their comrades-in-arms.

THE WANDERER

Brother Norman H. Angell, Delta Gamma, sends us this review from the Baltimore Sun. Brother Maurice V. Samuels, Beta Psi, wrote "The Wanderer" some years ago, but it is not forgotten.

The simple, world-old story of the Prodigal Son has been made the theme for the beautiful production, "The Wanderer," which is being presented at the Auditorium Theatre this week. It is a biblical story by Maurice V. Samuels, Beta Psi, with the time 1,000 years before Christ, while the place of the first and last acts is near Hebron and the second act in the city of Jerusalem. The House of Jesse, whose son Jether is to become the prodigal son, is made the setting for the first and last acts, and it is a beautiful picture. With the dull sand color of the house and the hills as a background, the soft, rich costumes of old Judea are so beautifully blended as to remind one of the paintings of old masters, while a touch of reality is given the evening scene at the House of Jesse with the re-

turn of sheep to their fold, driven in by two lovely shepherd dogs. No little of the effectiveness of "The Wanderer," which serves its first purpose in being a beautiful spectacle is due to the excellent lighting effects used to exceptional advantage in the last act.

Frederick Lewis appears as Jether, an exuberant youth, chafing under the restraint of his home and dreaming while out on the hills with his flock of the golden streets and the poetic beauty of Jerusalem. He is the favorite of his father and mother, but when he asks his portion of his father's estate so that he may go out into the world, and finally demands it, he leaves his home with his father's face turned against him, but with his mother's blessing. Florence Auer as the mother is a gracious, lovely figure and her work is most impressive.

The second act finds Jether in a palace in Jerusalem, among the Babylonians. Completely carried away with love of Tisna, the daughter of Nadina, a keeper of lodgings, and drunk with wine, Jether abandons himself, denying the God of Israel. He loans or spends all his shekels and finally cheats with false dice in an effort to win back enough to pay for a bauble for Tisna. Louise Orth as Tisna does telling work, but the interpretation of Mabel Montgomery as Nadina seemed garish and heavy for even a mother who would sell her daughter.

The last act, the return of the son, ragged and emaciated, to his mother, is a scene of rare strength and beauty, and it is here that Miss Auer and Mr. Lewis are seen at their best. He presents three very distinct pictures in his character study, and it is in the restraint and simplicity of his work in the last act that he is most artistic.

HAIL! THE SONGS

We gambled fifty cents worth just before Christmas and invested in the three Sigma Nu songs which have just been published, and believe us they're no gamble at all after you receive them. What we cannot understand is how they can sell such good stuff at such a remarkably low price and still have any left for the late comers. Congratulations, Committee! You're there! And you're doing one of the finest pieces of work to awaken the old "pep" we've seen in a long time. Success!—The Fifth Point.

Pickwick Club

By MR. SAMUEL PICKWICK, Esq., G. C., M. P. C.

THE POSTHUMOROUS PAPERS OF THE PICKWICK CLUB

Containing a Faithful Record of the Perambulations, Perils, Travels, Adventures and Sporting Transactions of the Corresponding Members

TRADE MARKS AGAIN

In December, Mr. Pickwick discoursed on the familiarity of our Alumni Brothers with the great names of Sigma Nu. Every once in a while, the Editor receives mail addressed to the Editors of past years. Our active man, it seems, likewise confuses past and present. Now comes Delta Gamma's Reporter sending in his Chapter Letter to John C. Scott, Editor, The Delta.

For long years as Alumni Editor and then as Editor-in-Chief, Brother Scott has identified his personality with the Delta and with the Fraternity. Dear John Scott lives in our magazine and in our hearts just as vitally as when his active association endowed its pages through and through with his Fraternity love and zeal.

FRENCH 1

A Little Dissertation on College French

Corporal Hartman, U. S. Army, has entered the University of Poitiers, as a nephew of his uncle, through the good graces of the A. E. F. He finds himself well prepared by his thorough training in the French language during his college course in the States.

Mr. Samuel Pickwick, Esq., G. C., M. P. C.

Dear Sir:

As you remember, I took French that last year at college. At least I thought I took French; but since I have been over here I have developed some serious doubts on that matter. I believe the University ought to rename that course; call it a course in Irregular Verbs, or something like that; but don't call it French!

I really needed nouns, but verbs were all I had—and irregular verbs at that. If there is anything irregular, irrational, irrelevant or irritable about a French verb, I know it. But you can't carry on a regu-

lar conversation with irregular verbs alone. When some pretty mademoiselle comes up to talk with me, the only means I have of answering her questions is to conjugate a few irregular verbs. I need nouns not verbs above all *not* irregular verbs. I hope the University authorities will give this matter due consideration.

Though my college French has failed me in my direst need; my college Public Speaking has been my aid. One good gesture is far better than a dozen irregular verbs. Remember how F. Moore used to "register" hate, desire, pain, etc. That's how I converse over here. The French do most of their talking by gestures anyway. Never gag a Frenchie to keep him quiet—just tie his arms.

Just wait till I get home, I'll—but what's the use of talking about that, it won't be long before I'll be there on the ground to demonstrate. And I'll expect you to help me—so save plenty of red paint; for I understand there's a big shortage in the visible supply.

CORPORAL DALE HARTMAN,
Delta Zeta.

"A PERFECT RECORD IN SCHOLARSHIP"

Why Colleges Are Dropping Studies Out of Their Curricula

The Editor of the Delta has often been tempted to publish Chapter Letters in the form in which they come to him. Mr. Pickwick happened to read this one as it passed through the Editor's desk and nonchalantly abstracted part of it for this corner in perambulations. Rest assured, dear reader, that it appears exactly as our good friend, the Reporter, wrote it, except that names are disguised. We would not give him away too easily. There is no doubt about what he thinks of his Chapter.

In Spring Training

"With the advent of spring Alfalfa Excelsis reflects happily on a glorious and successful winter term and looks expectantly forward to the realization of even greater fraternal activity. Situated as we are, surrounded by lakes and a beautiful, mountainous, woody country, and enjoying such fine spring weather, perfect for athletics.

Where Four is Less Than One

"First let us get the names of our four newest members before the fraternity, they are, * * * * But all these men would have to hustle, with all their good qualities to compensate for the great loss we suffered when, Brother Nonesuch was forced to withdraw from college, owing to fisical disability, however we hope to have him with us again next year. He only likes one year to get his degree in Minning and Engineering he was also a valuable assest to our football team for two years.

A Perfect Record

"Alfalfa Excelsis is still following her perfect record in scholarship, we were awarded the prize by the faculty last year and are sure to receive the honors again this year and making it our fifth strait year amoung three fraternities and five locals.

An Injection That Takes

"Sincerely and not boastful we are justly proud of the records attained by our seniors. Brother Victory has copped his eventful college career by being elected editor-in-chief of our college annual, also treasure of the senior class, with ceaseless appreciation the student body for four years has thrust upon him honors, and honors all of which he has merited and modestly worn. He is also president of the Literary society. Stout is business manager of the annual while Hemm is atheletic editor. It is seen that, in the various class elections as well as athletics we inevitable leave an injection as athletics we inevitable leave an injection of Sigma Nuism, and with twenty active members all working for the welfare of Alfalfa Excelsis and honor of our grand old fraternity we boast of a most succesful season."

Another Perfect Chapter

The Reporter for Grammar Formalis writes us that: "The outlook in the future is very bright for each pledge has lots of "pep" and automatically makes "100% Efficient" his motto."

"THE OLD COUNTRY"

Mr. Samuel Pickwick, Esq., G. C., M. P. C.

Dear Sir:

We have almost given up seeing friends for months to come, so keep ourselves happy and discontented reading letters from the "Old Country." Americans over here are talking of going home to the "Old Country"—this expression amused me at first but it will doubtless be used commonly before long by Yanks.

Fraternally,

LIEUTENANT BYRON E. JACKSON,
Epsilon.

DOUBLE FILE

Togo Resigns Index Cards But Gen. Knows It Not

O dear! Sammy (minus titular abbreviations denoting degree of college Commencement exercises).

To compose this last melodrama narration of militia inactivity on Michigan front and other insular theatres becomes a task devolving two or three modicums of impeccability, but in order to complete volume in Delta and obtain recompense from typesetter of same, this deed are essential—even if liberty is indulged of in using U. S. time while office-jobbing.

First after becoming official with shouldered decorations and collar jewelry the requirements arises to fill 8 or 7 cards of about 17x22 in. size, each containing entirely similar print words and ballot rulings, with duplicate histories of life and other miscellaneous occurrences of adolescent youth period, as also prospects of future jobs and desire for promotion as high as Brig. Gen. (which are how rank Old Bro. Generally Sears is). All copies are not made together, but only two and these sent in to Pres. Wilson, who gives them the double O' and turns them over to Phi-gammish person who perspires as pvt. secy of War Dept. In 1 month or 2 this secy cleans out his desk, dumps beforementioned qualifying cards in wasteful basket, and makes dictation to girl steno as per the following:

From: Hon. Pvt. Secy. to War Dept, D.C.

To: Bro....., 2nd or 3rd Lieut. in Home Army of Salvation (Note: Consignee will fill in own name to make sure of correction.)

Subject: Why is card Missing?

1. His Excellency the Pres. informs me this A. M. that he elected you a collar jewelry agent of army on.....; but he is sorry not by this time to have become the recipient of your Qualifying Card.

2. Please send it in.

3. At once.

4. In duplicate: or explain by indorsing hereon why you don't want to.

By direction of The Chief Clerk:

NEWT. BAKER, Fiji
Main Squeeze

By: I Suppressa Yawn
4th Asst. Office Manager

AXB:tj/GcM
64973 1/4-102.6

Upon arrival of above threat you at once make out 2 more such cards, trying for ex-

¹Antique speech of Homer, Wm. of the Shaking Spear, and other contemporaries.

pression of originality, so duplication will not resemble original too close. Then just as you go to post-store for mailing stamps, intrudes a telegram with curtness wording: "In the most revered name of Col. Sam Hill, why not hustle them cards a wee bit? But if not convenient, take plenty time, as no hurry requisite." Thereby concluding epitome until next time for desk renovation.

Among information gathered on this card (which is mostly columns for voting Yes and No on question of which occupations cost largest money to be employed with) are space countersigned "Member of Society," where it is possible to state if initiated into I. O. O. F., T. N. E., W. C. T. U., etc. This is on acct. of Hon. Secy, who would like to make every body homely by appointing him agent in Co. where all members are brothers to each another in same frat club or insurance assn. Do you still wonder why this war army of U. S. are such noble machinery?

Having been recited for meretricious conduct in engagement subsequent to Battle Creek armistice signatory, I am telegraphed by a big Gen. to come to his large Temple of labor and Storage, where all chattels of O. D. Club and other supplies of eating materials, etc., for army are marooned. Not like the great soldier-cities of Gens. Custer & Grant is this beehive in Chicago, City of Wind (atmospheric and vocal) and Minneapolis of the Middling West. Here succulent agricultural perfume of Armour, Swift & Bros. Co. pervade the daily public oxygen, and desks are filled with female typos, pennists, etc., of youthful brow, whereby great out-bursts of no-work are occasioned on part of many males, however few and far between.

Before closing, attention should be pulled to words in Dec. Phi Gamish Mag., which make bold to intimidate that these hysterical writings of events in my career is somewhat of resemblance to another similar series; in different words, I should be a plague-artist toward my literature-college of "Life" fame, Major W. Irwin. To issue disillusioning statement: this penman Irwin are pressing agent of my Cousin Hashimura and are complete authoritative to tell of him in school and kitchen adventures, while of course not allowed to use of same script-speeches as me, a/c copy-write law. So all honest Sigmund Knews who read book of Life will know completely how not to make unjustly accusations against co-author therein.

How ignoble that militia career should close up with me so far in rear as merely at 5,000,000 sq. ft. warehouse storage factory of Govt. Army! But when big strike pulls off on July 4 (instead of regular rocket-bang celebrating), my electing to command trench cannon crew toward Americanized bosheviki will be advertised. Then good-

night to striking, and dinner pails will resume to work, but without amber foam at 12:00 noon.

Adieu, old Pumperknickle, and if my retreat to Nippon are not accomplished with resignation from Army, expect possibly to hear another assay from me on civil subjects in Oct.

Yours per annum,

MUCH-HASH TOGO.

(Lieutenant George A. Chandler,
Gamma Lambda).

BALAAM THE MULE SKINNER

Ye Right Honorable Mr. Pickwick, Esq.

Why the good Lord ever put such animals as mules on this earth is a question beyond me and why in the army they choose sons of the well known Mr. Moses to drive them now and anon is a thing that soars far above my power of comprehension. But they do and had you ever seen one of the said Hebrew gentlemen driving one of the said quadrupeds at Fort Des Moines you could probably appreciate my stand in the matter.

As it happened, a young Jewish fellow enlisted in the army and after endeavoring to trade the commanding officer a real woolen shirt for the one he wore and selling the flag staff to an unsuspecting Armenian, he was fitted out with the army blues and put to work.

In civil life this self same man had been a silk salesman but the army is no respecter of former occupations and the first job that was given to the new recruit was driving a balky mule to a grass cutter.

"But sergeant," he protested in tones loud and wailing, "I ain't no mule drifer, I sold a silk shoit to de commanding officer just two days before I enlisted."

"Don't care if you sold harps to Saint Peter," answered the sergeant, "They gotcha booked to drive this long ear here and drive him you do."

The recruit's hair began to stand on end. That is, as much as there was of it, for he was not overburdened with verdure on his upper extremity. His legs shook and his knees cracked. He trembled like a mouse with his tail caught in a rat trap and the sound he emitted could have been better understood by an Eskimo than a white man.

"What do I do?" asked the terrified son of Shedrak.

"Do?" bellowed the sergeant in charge of the gang. "Why," in tones sarcastic, "All you gotta do is climb up on that seat and say, 'Now nice mule, come on and help me cut this grass?'"

"And I suppose he cuts most of it with his teeth," answered the newly made soldier. "Is it as slow as cutting teeth?"

"G'wan, get busy," and with that the sergeant lifted the Hebrew off his feet and put him into the seat and with a well aimed kick, caught the mule directly between his kitchen and his dining room.

The recruit grabbed frantically for the lines and the mule, being of a nature to stop at the slightest provocation, felt the lines jerk and stopped at least two minutes before the driver called, "Whoa."

If Charles Dickens could only have been present to witness the antics of the next few moments, history might have another bit of humorous description added to the literature dispensed by the late Mr. Dickens.

The recruit's face began to get wry. His muscles twitched as if he had attended St. Vitus' dancing school. He looked around to see if the sergeant was watching him. He felt himself to see if he was altogether and took his hand off the brake. His hand was covered with grease from the brake and in his anxiety, part of this grease was transferred to the tip of his nose, making that part of him look like the inhabitants of the South Sea islands.

Finally it dawned on him that the grass had to be cut. Fine, brilliant idea! That's what he came out there for.

He looked at the mule, calmly grazing, in despair.

"Get up," he called and jerked his arms, in an endeavor to jerk the lines, like a woman drives a nail.

"Vell," he called again, "Start, start. You ain't supposed to be eating now anyhow. What you think you're here for. Commence! Begin!" and with that slapped the animal vigorously with the lines.

But the mule heeded not. He was as calm as the recruit was excited and the latter resembled a small boy singing the Battle Hymn of The Republic at a Fourth of July picnic.

"Come, come," he called. "Ain't you goin' to work. Vell, don't, but for the love of Jehovah, move!"

The sergeant had been watching all the while in despair and seeing his protege's predicament finally came to his rescue.

He of the three stripes brought with him an old mule skinner who took charge of the situation.

The oldtimer climber into the seat and in so doing knocked the recruit on his west side.

"Hike, you long eared, lollywopped, good-for-nothin', low-down '%\$&'()?!'" he called and the animal responded.

"See now?" queried the sergeant of the recruit.

"Yuh, I see," answered the latter, "But what would my mother say to such language?"

DON KRULL, Gamma Mu.

"CONTES DROLATIQUES"

Our own original Samuel Weller, P. V. P., M. P. C., one of the Charter Members of this Honored and Noble Society, has at last thrown aside his gas mask and stepped out into the open. There is none like him, no, not one!"

In his adventures among that inspirational people, the Parisians, he has imbibed in native style, the fancies and wit of Balzac. These flights of reminiscence in the style of that philosopher of the common people, combined with our own Weller's military flourish à la D'Artagnan, will delight the inward being of every true Pickwickian and flood the memory of our Originals with a riot of color, sound, and emotion.

One thing we note: the Censor passed it O. K., this showing how much reliance his lieutenant puts on Samivel's truthfulness in retailing his army adventures. Guess they've found him out—a true Gas Defense corporal.

When the Post Arrives

Mr. Samuel Pickwick, Esq., G. C., M. P. C.
Most Honored Sir:

Twice have I granted myself the privilege of writing you and each time I finished, feeling that I was inspired. However I find that the true source of inspiration was lacking, for your original letter just came by post. As the hackney came alongside, he called to the two cannoneers riding on the piece (do not misunderstand my use of the word piece) and at the word of command they reverently handed me your message. Of course they expected remuneration. I did not deceive them for when I looked at the post-mark and saw that the fountain had been three and one-half months in transit, I dealt him on my right a lusty blow with the fist. Whereupon they all ran off howling dismally.

Cursing under the breath, I laboriously climbed the steps to the six by eight chamber where twenty of us reside. The men in the room sensed the importance of the letter (probably my mien impressed them) and all conversation ceased. Then I sat down and read your letter. When I had

finished, they spontaneously broke into the perspiring strains of "Halleluiah, see the Tiger" and ended with three cheers and a Passenger.

Observations Bored and Aboard

But now to your message.
I regret the heat which caused you to sweat so much and I thank God that your head is not the knee.

I met Jno. Barleycorn and H. Ops last night, but they looked like a low grade liquid. Therefore I did not inspire.

Clem Grief and the Brierly Co. seems rather a forbidding association. Sorrow usually comes to those who are stung. Not that I think that Clem would sting anyone, but you must admit that the coincidence is striking.

Dal Glauner's feet always remind me of piles, because they usually remain where they are first placed. Also they frequently drop down on one.

Cheerfulness is a wonderful boon. I never shall forget a heavy lady acquaintance of mine who smashed the steamer chair and the purser charged me a dollar. "Chairfulness" was her strong point.

Dad Clark will make a wonderful coxman for the Naval Reserve for a reserve of them is usually a good thing to have about. Dad could easily make his way through life even though blind, for his canine olfactory organs always enabled him to distinguish you from Noah Dahm.

You say that Murray is hanging on "by the skin of his teeth." Do you know that I have always worried about Joe Goosick since the night he came home with me after a few jolly hours with John Henry Lee at the "Sign of the Gillsey Home" and insisted on taking a bath with me in the same tub and at the same time. I think that he was drunk.

I have an idea that Francy's girl got wise. As a musician and a fighting man he was hard to beat.

Emmettics

Emmett will make a wonderful husband for any lady if she grips him with an iron hand. Even your Iron Hand which compares favorably with that of the late Kaiser, was often at a loss as to how to curb his wild indiscretions at college. I shall not presume to intrude my sight knowledge of connubial property upon H. M. Emmett (his name sounds terribly European; I wonder if he is related to H. M. George V). You remember the "Droll Tales and the Dangers of Too Much Innocence." Let us hope that such will not be his fate.

Strained Relations

In pain I decide to stop writing. Of my love for you you have proof and like Tennyson's "Brook" it will "run on forever." Let us hope, however, that the last named verb will be figurative. The French and Belgium climates have tempted me to give a Parisienne strain to this literary adventure and I trust that it gives no offense. If it does, I shall be glad to meet the offended either with French 75s or with shovels. My puns are crude and partake of the medieval period, but you, my honored chairman, will grasp the subtle ones.

"The catcher always gets caught" but he should function well as an officer.

I shall tear the stamp from your enclosed envelope and try to sell it to some blind crippled German. Bill in the U. S., Franc in France, and now Mark in Germany are the most popular here.

Honor me with another letter and give fresh impetus to my love and respect for you.

SAMIVEL WELLER.
(CORPORAL CHARLES M. COOPER,
Delta Zeta.)

O. K. H. J. Nourse, 2nd Lt. Co. E.

PICKWICKIAN PERSONALS

Gamma Psi has repapered the Chapter House inside. So says the Reporter. This strange feature is worth noting since outside papering has been in vogue.

The Commander of Alpha Chapter in 1874 is still just as much as Sigma Nu as he was in V. M. I. Who else would write as jovially: "I am a very absent-minded man! Have I sent you my subscription to the Delta?"

We are glad to assure Brother William M. Walton he is in good standing and will not be passed up.

After a diet of sweets a frank dash of vinegar is welcome. No doubt about Brother Herbert P. Heiss being frank. Yet he gives the Editor an encouraging pat—in hopes he may get back to the standard of "the good old days." "I might add by way of comment that the Delta is without doubt more interesting than it ever has been since under direction of your supervision."

Nicknames are often displeasing, especially to fond parents. Copeland pere surely found a good way out. Simple isn't it? The recorder of Eta excuses his not filling an initiation form in full, by saying: "Initiate 303. H. J. Copeland. This Brother has no further name than his initials. They are his given name."

THAT DELTA GAMMA MAN

Is Still on the Editor's Trail

The exigencies of war and the army post only prevent Brother Fraser from hitting back sooner. You sports Pickwickian will remember the fevered imprecations against ye Editor which Mr. Pickwick published broadcast last December. (Note: Mr. Pickwick secured that dollar which the Editor had tried in vain to pry loose from our Chaplain of the F. A.)

Dear Brother Dunlavy:

I take my Corona in hand to let you know that I am well and hope you are the same.

A recent issue of the Delta intimated that I had better come through to the extent of one Bone if I wished to continue reading the aforementioned publication. Lemme tell you that such is not the case and the enclosed \$1 is just an out and out donation for Bert Wilson is gracing the Muddy Moores of Camp Meucon these days and he lends me his copy and I never do get the durn copy I subscribe for anyhow. An' lemme tell you something else, you just escaped losing about one-half your old subscription list by that rather belated recognition of the existence of Delta Gamma a Chapter which there isn't many like it anywhere.

Hastily,

HARRY C. FRASER, Delta Gamma.

Chaplain's Quarters, 79th F. A., American Ex. Forces, Jan. 30, 1919.

Bert, Please Don't Read This

P. S. You better cut Bert Wilson off that free list for Johnny Hadesty, Penn State, and Carl Koch, Mt. Union-Siwash, are both getting the same graft copies I am. Don't let it out on me that I told you this especially Bert.

WHAT IS ZANE GREY?

A great light has reached the Hoosier fastnesses wherein authors are born every day and where every native over six years of age has published at least six novels and contribute daily classics of their mother tongue in undying verse to the "Poetry by Fireside Corner" of the county seat weekly. At last does the great state of Indiana (so they say) deign to admit the possibility of an author dwelling in the foreign confines of the benighted East. An inquirer in the question department of the Indianapolis News rises to ask the sex of our most popular American novelist, thereby casually recognizing his or her existence.

Read and behold!

Answers To Questions

E. M. Greenwood—Is Zane Grey a man or woman?—A man.

"MIKE"

College nicknames are often pregnant with truth. The citation of Lieutenant John Wilson O'Daniel, (Delta Kappa), by the War Department, "for extraordinary heroism in action," recalls to the mind of many friends in this community the incident that gave rise to the nickname of "Mike," by which all his college associates knew him.

The occasion was an indoor class meet, in which the Freshman was boxing for the honor of his class. Inexperienced in the art, a bone in the wrist was dislocated in the first few minutes of the round. Ignoring the injury, however, he stuck it out for the first and entered the ring for the second round, until the coach, discovering the condition, ordered in a substitute.

"You hung on like an old bull dog," the boys consoled him, and dubbed him "Mike" from that time on.

Congratulations, Mike!—Newark (N. J.) Post, sent in by John Edgar, Delta Kappa.

A SORORITY SPREAD

An Inside Tip as to Greekesses' Doings

Mr. Pickwick never admits stories of others than Sigma Nus in these sacred pages, but this time he has fallen for the frank admissions of a sorority sister (and her husband is a Sigma Nu.) Let the benedicts in our Pickwickian ranks answer whether Mr. Pi Phi is right or not. (This confession comes by way of an industrious member of our Illustrious Band who is a traveling bundle of Sigma Nuism as well as a perilous perambulator.)

"We have a Pi Phi spread tomorrow, but my husband says I can't go. He is going back to Chicago tonight. I will do as I please about going. It really is strenuous for a well woman to go and listen to fifty women all talking at once and trying to out-talk each other, so maybe Fred is wise after all.

"A SIGMA NU'S WIFE."

JUST SET

Mr. Pickwick found this bit of Kentucky philosophy in "By the Way" in the Outlook. It'll bear repeating, for the best stories are the old ones.

Representative (Harvey) Helm [Zeta], of Kentucky, is credited with this story of a lazy man: "I asked this man how he managed to pass away the time, since he had been too lazy to learn either to read or write. 'Wal,' he answered, taking a fresh chew of tobacco, 'sometimes I set an' think, an' sometimes if it's too hot, I just set.'"

A CORRECTION—HE BEAT HIS OWN RECORD!

Hark! a wail from old Beta Iota. It seems she didn't get due credit in the May Delta, but our Fraternity records do not show pledgeships.

In the Editor's Miscellany, in the Delta, May, 1918, appeared the following curious notice of a much bechaptered member of Sigma Nu.

A Member of Four Chapters

In the process of correcting our card system a unique record card has come to our attention. It is that of Brother Harry Harbrough Glessner. He was initiated into Pi Chapter No. 68, affiliated with Gamma Epsilon No. 1, affiliated with Beta Chi No. 83, and finally affiliated with Beta Psi as No. 87.

We believe that Brother Glessner holds the record. Several Brothers have been members of three Chapters, but we find no other Brother with four Chapters to claim organic relationship with.

Well, the record is already reported as broken, and by Brother Glessner himself. Listen to this:

A Pledge at B. I.

Mr. Samuel Pickwick, Esq., G. C., M. P. C.:

Dear Sir:

The editor of the Delta failed to give Brother Harry Harbaugh Glessner all that was coming to him in the chapter affiliations, also cuts my old Beta Iota Chapter out of proper recognition. Here is the addenda: I personally pledged Brother Glessner to Sigma Nu at Mount Union College, in the fall of '99. He received a scholarship to Lafayette College and left after a few weeks with Beta Iota and before our initiation time. When he left he said, "I will not leave Sigma Nu behind me for I am going to found a Chapter at Lafayette," and he did. When he left for the East every man in Beta Iota went down to the station to bid him good-bye, and among his warmest friends in Beta Iota was William F. Atterholt, who afterward founded Gamma Nu at Michigan by organizing the Colony Club in his room at Ann Arbor, where he was studying law.

A Lost Ride—Too True!

Therefore, before initiation at Pi Chapter, this Brother was an honored pledge at Mount Union and what is more held as one of the best men we ever added at that Chapter. When he was married in California he demanded that I come to that State and marry him, but I was not yet ordained and lost a free ride over the Rockies to tie the knot.

This is almost good enough for Mr. Pickwick except that it is too true to facts, perhaps. After I came East to Drew Seminary I was a frequent visitor at Lafayette, and I know personally that Brother Glessner turned down several invitations to join other fraternities and in long established Chapter in order to keep his first pledge at Beta Iota intact.

So when you record the Chapter activities of this good Brother, I am sure the older men in my Chapter would like to have Beta Iota mentioned. It was a big piece of work that we performed when the pledge to Sigma Nu was taken by this man at Mount Union College.

A. H. WILSON, Beta Iota.

WITHOUT HIS SHEPHERD'S CROOK

Here is one which I have heard Grand Recorder Clarence E. Woods tell on himself. Few of the hundreds who have heard his magnificent speeches at Grand Chapters and District Conventions, would believe that this eminent brother has a faulty memory. His ability to recognize faces and to connect names with incidents which happened years ago is nothing short of marvelous. Yet Brother Woods confesses that he cannot commit to memory as one would suppose it necessary for an orator of his reputation. It is claimed that his failing in this regard kept him out of Masonry because it is said he was unable to memorize the work.

In at least one other fraternal order this was no handicap to him. I think he called it the Order of the Good Shepherd. The purpose of the organization was to fight on the side of prohibition, and this was sufficient cause for Brother Wood's desire for admission to membership. He joined a lodge of this name down in Kentucky and, although they had secret signs and passwords, designed to keep the uninitiated from the lodge meetings, Brother Woods was never called upon for a test when he visited lodges in Kentucky since he was known to most every one in the State, and his word was sufficient voucher for admittance.

When he was in Washington, D. C., serving as secretary to U. S. Senator McCreary, Brother Woods noticed in a newspaper that there was to be a meeting of the Order of the Good Shepherd over in Alexandria, Virginia. He set out to find the appointed place on the night advertised for the meeting and after several hours of search located the Shepherds in a distant woods. The lodge was in session when he arrived. Upon seeking admittance he found that the name of Clarence E. Woods had not the power in that section of the country that it carried in Kentucky, and he was denied admittance to the meeting when he failed to respond to the test of membership.

His quick wit prevented him from losing his temper upon being denied his right to admission. He asked the doorkeeper the amount of initiation fee required of an applicant. When being informed the amount, he took the necessary sum from his bill case and handed it to the doorkeeper with the request that the regular business of the lodge be suspended and a vote taken immediately upon his application for membership. This was done and for the second time Brother Woods became one of the Order of the Good Shepherd.

ONE OF THE GOATS.

A NUT HUNT

Or "Look Before You Leap," Being a Tale of a Midnight Adventure in the Iowayan Wildernesses.

YE OFFICE OF YE FORT DAZE MOINZ
PEST, U. S. GOVERNMENT HOSPITAL,
NUMBER 26, FORT DAZE
MOINZ, IOWAY, OCT. 5, 1918.

Ye Right Honorable Samuel X. Q. Pickwick,
Sr., S. C., B. V. D., K. C. B., esq.:

Have you ever had the pleasure of indulging in what is known as a "Nut Hunt?" No, I do not mean the kind in which the small boys indulge in the late fall when they come home, their hands all besmeared with that lovely walnut juice. Nor do I mean various other and sundry kinds. The kind I am talking about is one where some person with the delusion that he is Joan of Arc or Napoleon Bonaparte, breaks loose from his attendants and proceeds to get a little exercise which is not afforded him while in the hospital.

Well, I participated in several of those and survived. But one which came the other evening shook all the lemons right off the Christmas tree.

We were all dressed in our best and finest raiment, all adorned to step to the city and capture the hearts of the fairest maidens in town by tripping a light and fantastic toe.

(By we, I mean the enlisted personnel of the U. S. General Hospital No. 26, Fort Des Moines, Iowa, where we happen to have the good misfortune of being stationed and where they have a number of such men as are mentioned in the first paragraph.)

As I was saying, we were all litup like a new "Temp Bar," the name given places in the city of Des Moines where they sell alleged beer. Our faces were shaven, that is, those of us who had any whiskers had cut them off, and we looked like a peach blushing in the sun. Our shoes were shined so that even the most skeptical inspector would have to say that we were O.

K. and our clothes were pressed better than any collegian ever had his pressed by a Chio or a Theta.

"Twas just 7:14 P. M. and all that was necessary was for us to put on our blouses, which incidentally fit like Madame Lucille advertises her corsets to, and step out among the elite of the city. For there was to be a ball such as the city (?) of Des Moines had never before witnessed.

Just at 7:15, a half minute later, we heard that welcome sound, well, you fellows in the Army know what "Assembly" sounds like, and we knew that something had either gone wrong with the silo or that the Germans of Des Moines were advancing on the fort.

"Aha," thought we (bright idea), "Chance for a scrap."

But alas, the top kicker's loud voice belowered forth upon our ears, "Nut loose. Roll out o' here youse birds and don't stand there like youse was planted to the floor."

We rolled.

And far and wide did we hunt. Up the country and down, for this particular section of Ioway seems to have been laid out way back in the prehistoric days by some fellow that had a roaring mania to imbibe a little too freely of Brother Noah's or Father John's cough medicine or something of the sort, and as a result put in more little hills, creeks and obstructions to the square inch than any other land-layer-out who ever plied his trade.

As we were going through some rather dense underbrush, getting our clothes so full of beggar lice that we couldn't tell each other from bramble bushes, I suddenly heard one fellow (a Greek from the U. of Nebraska but not a "white man," as he isn't a Sig) ejaculate some words that sounded as if he were imploring a well known character in the greatest of all histories.

He passed out of sight and before I had time to utter, "Here," in answer to his pleas, I was going down, down, down. It seemed as if this particular place where I was going had no end and after several minutes (so it seemed) of falling, I hit and hit lightly, for the ground wasn't VERY SOFT. It was just plain, old-fashioned, Ioway mud that sticks worse than Mississippi molasses and has a wonderful tendency to penetrate every part of a person's anatomy. Especially his eyes, nose, ears and mouth.

After I had hit bottom, I heard another fellow "hunter," a guy from the University of California, who had suffered the same fate as I but who was invisible because of the inkiness of the night, say,

"Kschmncr—ull, whereinell are youszch—spit—splutter—spit?"

"Gnmosch schu — choke — sputter-ugh — 'ell," was all that I was able to get out of my system.

Well—with the noble aid of the aforesaid personage from Nebraska, the California man and myself were able to extricate ourselves from the ooze and slime. We rushed for the light the first thing, not being able to tell into what we had fallen without the aid of light because of the fact that we all had colds.

But when we did finally reach the post proper, after crawling over freshly ploughed fields and through fields of stubble, we found that we had fallen into one of those abandoned holes on the outskirts of the post, where formerly a farmhouse had stood. Perhaps "abandoned holes" isn't plain enough, so let me add that at one time, the hole had evidently been covered by one of those structures which small boys delight in tipping over on the night of October 31 in their endeavors to improve the sanitary conditions of their city.

Needless to say, we hunted no more "nuts" that evening and as luck would have it, some other fellow who didn't even soil his leggings, apprehended the escaped madman somewhere near his ward.

Au revoir until next month.

PVT. DE-LUXE DONALD C. KRULL,
Gamma Mu.

WORSE'N HORSE PLAY EVER WAS

"Somebody's always taking the joy out of life." Just imagine the fresh turning from the sport page or war news or even possibly the French direct conversation book, to learn the law. Bring the paddle, Joe, it's over sooner!
Editor of the Delta:

In pursuance of instructions from the upper-classman in charge of the Freshman Sigma Nus of Beta Rho Chapter, I hereby request the sending of ten copies of the Law of Sigma Nu in order to facilitate the acquiring of a knowledge of such by the newly initiated members.

Hoping to receive them soon and thanking you for any action taken, I am,

Fraternally,

G. E. STRICKLAND, Beta Rho, '21.
Sigma Nu House, Philadelphia, Pa.,

A YOUNG ATTORNEY'S SCRIPT

This laconic sentence from a biographical sketch in the new Directory, says far more than many a longer list of dates and data duly entered therein. It is a character

sketch in itself and promises a future Corresponding Member of our learned Society.

ETA. Clifford Eugene Hay, author of numerous duns and barristers' briefs.

IT MIGHT HAVE HAPPENED (BUT IT DIDN'T)

Did you ever sit down before the fireplace after dinner and gaze directly into the flames, thinking all the while that the whole world was dead—absolutely dead; that there was nothing at all for one to do but sit and sit and sit? At such times, hadn't you become disgustingly tired of shows, books, dances, magazines, music—in fact, of everything? Of course you have. Every one has. Well, that's just what was the matter of us on the night of our story. We were squatting there before the fire, too dead to read or to sing or even to talk.

"This bunch is just about as dead as the nails in a coffin," grumbled one.

"Yourself included," came the peevish retort.

Then came five minutes of profound silence.

"O-o-oh," yawned one, "Guess I'll hit the hay. Wish there was a fire or something going on."

Then the telephone rang. Here at least was diversion. Perhaps it was a girl calling one of the fellows. If so, we would be able to get a little entertainment from his end of the line.

"Hello-o," drawled the fellow at the phone. "Ye-es," then suddenly, "What's that?" A bomb explosion couldn't have excited him more. "A hula show at the College for Women?!!!"

"Fellows!" he gasped, diving for his hat, "There's a hula-hula show on over at the Woman's College!!!"

We literally crushed each other in getting our hats. We tried to get through the front door sixteen abreast. We did the distance to the gate in nothing flat. Everybody tramped on everyone else in getting into the machine. On we went. Street after street shot by. Traffic police heard us coming, and, thinking it an emergency police call, cleared the "corners" for us. We rounded the University Circle on two wheels. Traffic scurried to the curb at our approach. We skidded ten feet in stopping when we had reached our destination. Up the walk we went, a bunch of wild, breathless maniacs. Other bands were following.

And, when we arrived, we found—only a ukelele concert!

MORTIMER J. SHEA, JR.,
Delta Zeta.

Marriages

Iota.—Brother Guy W. Ray, in Paris, France, some few months ago to a little Parisin beauty. Brother, in writing, declined to give her name. Brother Ray is in the American Embassy Service.

Pi.—Brother Theodore H. Cook and Miss Florence Woodring of South Bethlehem, Pa., during the Christmas holidays.

Phi.—Brother Charles Stewart Churchill of Lakeland, La., and Miss Eugenia Sentell of Bunkie, La., at Washington, D. C. Mrs. Churchill is a sister of two Alumni of Phi Chapter.

Phi.—Brother Marshall L. Gosserand of New Roads, La., and Mrs. James Space Bailey, of Buffalo, New York, October, 1918, at New York City, just before Brother Gosserand sailed for qverseas.

Phi.—Brother Arthur Nadler and Miss Eunice Lockett of Houma, La. Brother Nadler was recently discharged from military service, after completing his course in expert gunnery at Fortress Monroe, Va. The Nadlers will locate in Baton Rouge, La., where Brother Nadler will be connected with the Standard Oil Company.

Beta Eta.—Lieutenant Fred C. Wilson and Miss Gladys Hughes, of Indianapolis, Indiana, on January 18, 1919. Brother and Mrs. Wilson are living at Davenport, Iowa.

Beta Sigma.—Lieutenant Asa S. Bloomer, '14, was married to Miss Florence O'Neil of West Rutland, Vt. The couple are now residing in San Antonio, Texas.

Beta Sigma.—Lieutenant Roderick Smith, ex-'18, and Miss Hammond, of Pittsfield, Mass. He has obtained his discharge from the service and joined the Vacuum Oil Company, of New York City, and the couple are now residing in Highland Park, N. Y.

Beta Psi.—Brother Harrul B. Kenney, '16, and Miss Marie Farnum of New Rochelle, in New York, February 14, 1919. Brother Kenney received his commission as ensign from the Pelham Bay Naval Training Station and is at present connected with the same station.

Beta Psi.—Hans Lemke, '17, and Miss Mary Dunbar, of Seattle, Wash., in November, 1918. The couple are living at Durham, Calif., where Brother Lemke is engaged in agricultural pursuance.

Gamma Gamma.—Brother Albert Mienke, of Detroit, recently. Details unknown.

Gamma Gamma.—Brother Herman Meinke (brother to "Al"). Details unknown.

Gamma Delta.—Brother Frederick Willard Van Orden and Miss Rose Evelyn Parpart, February 12, 1919, Hoboken, N. J.

Gamma Epsilon.—Brother Harold H. Rahn and Miss Gladys Hauser, December, 1918, at Kutztown, Pa.

Gamma Eta.—We have just heard that one of our Alumni, Ben Wells, '02, was married lately. This is the only wedding I know of.—Reporter.

Gamma Omicron.—Brother Hubert Wattles Swender and Miss Marian Maisey Bezzo, March 17, 1919, at Los Angeles, Calif.

Gamma Sigma.—Brother John Kelleher and Miss Helen Kane, on February 26, 1919, at Des Moines, Iowa. Mrs. Kelleher is a member of Pi Beta Phi Sorority.

Gamma Sigma.—Brother E. S. Welles and Miss Ruth Carver, at Sioux City, Iowa, sometime in February.

Gamma Tau.—Brother Ralph Emerson Gruye and Miss Alpha Larson.

Gamma Tau.—Brother Merrill Arthur Howard and Miss Josephine Mather, a member of Alpha Gamma Delta Sorority.

Gamma Tau.—Brother Emerson Gruye and Miss Alpha Larson. No particulars.

Gamma Upsilon.—Brother Lowell R. Moss and Miss Gertrude Rittenhouse Sumner, on January 10, 1919, at Woodbury, New Jersey.

Gamma Psi.—Brother Ralph Carrick and Miss Shew, at Gloversville, N. Y. They have gone to the Bermudas for their wedding trip.

Delta Alpha.—Brother C. L. Royan and Miss Vera O. Williams, October 18, 1918, at Cleveland. Brother Franklyn Sebelin, Delta Alpha, acted as "best man".

Delta Beta.—Before he left for Camp Greenleaf, Ga., Brother Edwin B. Judd and Miss Anna A. Bubser, of Hartford.

Delta Epsilon.—Brother Charles Raymond Gray and Miss Grace Roberts, on January 4, 1919, at Shreveport, Louisiana. Brother Gray is an attorney at Pawhuska, Okla.

Delta Epsilon.—Brother Charles W. Breedlove, Muldrow, Okla., and Miss Esther L. Snyder, of Los Angeles, Calif., in Washington, December 20, 1918. Brother Breedlove is a lieutenant in the Marine Corps.

Delta Eta-Beta Mu.—Brother Carl Magee and Miss Margaret Cook, at Clinton, Iowa. Mrs. Magee is a Delta Gamma sorority girl from the University of Iowa.

Delta Theta.—Brother Lawrence Vancel Ingraham of Canton, Ill., and Miss Edna Sullivan also of Canton were united in marriage on March 1, at the home of the bride in Canton. Brother Ingraham attended Lombard in 1916-17, and has been at Illinois University since last September.

Delta Nu.—Lieutenant Lincoln B. Copp. No particulars.

Delta Nu.—Ensign Richard Silva. No particulars.

Delta Nu.—Brother Alfred C. Sturgis and Miss Hazel Mower of Auburn, Me., February 19, 1919.

Delta Pi.—Lieutenant Claude E. Bates, married in London, England, in 1919. No particulars.

Delta Pi.—Brother James R. Boyd and Miss Ada Bentley, of Washington, D. C., in May, 1918, at Washington, D. C.

Delta Pi.—Brother Leslie W. Getchell and Miss Frances Page, of Salem, Mass., during the month of May, 1918.

Delta Pi.—Brother Raymond Kelly and Miss Grace Hall, of Washington, D. C., on January 28, 1919.

Delta Pi.—Brother Royal R. Rommel, during the month of February, 1919. No particulars.

Delta Rho.—Brothers Miles F. House, Foster W. Humphrey, Herbert P. White, John W. Childs and James C. Bowen. No particulars.

Delta Tau.—Brother Dale A. Perry and Miss Elizabeth Smith, on August 24, 1918, at Portland, Oregon.

Delta Tau.—Brother Dana S. Frame and Miss Helen McDonald, on October 13, 1918, at Corvallis, Oregon.

Delta Tau.—Brother Paul B. Hofer and Mrs. Frances Morgan Spence, on January 1, 1919, at Pasadena, Calif.

Delta Psi.—Lieutenant Karl Vernon Palmer and Miss Helen Rosette Harlow, at Woodfords, Maine, on January 5, 1919. Lieutenant George S. DeMott, Delta Psi, was best man. Brother Palmer is in the regular army at Camp Lee, Va.

Roscoe Rises to Remark

J. F. Newman is the name of Warren Piper's office boy.

A Fraternity Brother is a fellow who affects the same style in jewelry as you do and who expects to borrow your money without paying interest. (Ed. Note: Or paying it back, either.)

Pete's name isn't that at all, but Edgar Floyd. And he has the cutest lavalier tatooed right on his neck.

A recognition pin is a jigger that no Brother ever recognizes you by, but that everybody else asks embarrassing questions about.

As for a sister pin, why they ain't no such thing. You just give your own pin to somebody else's sister.

An old pill is what Doc Bardwell eats but isn't, even though he is president of the Chicago Alumni Chapter and never stays out after seven o'clock in the evening, except on the occasion of the annual banquet.

LIEUTENANT GEORGE A. CHANDLER,
Gamma Lambda.

Deaths

ROBERT HARRISON HARTSFIELD

Iota Theta

I am enclosing you a clipping with reference to Brother Harry Hartsfield's death, which occurred March 3. When on a leave of absence a little more than a month ago I had the pleasure of seeing Brother Hartsfield and having a talk with him with reference to Theta Chapter. He had just been discharged from the navy and was entering the university to receive his master's degree this summer. A fine young man, well liked, and one who could be counted on to do his part, has been removed from the midst of his Brothers by a most untimely death.

A. H. ALSTON, JR., Theta.

Harry Hartsfield, popular university student, son of B. H. Hartsfield, president of the Birmingham Stove and Range Company of Birmingham, was shot through the head and killed by a .22 caliber rifle this afternoon at 5 o'clock. The shot is supposed to have occurred accidentally while he was handling the rifle.

Only a few weeks ago he had returned from the navy, he being in an officers' material school at the time of his discharge.

Hartsfield was a member of Sigma Nu Fraternity here and was one of the most popular students of the university. He took an active part in all student activities and last year was associate editor of the *Crimson and White*.—Birmingham (Ala.) *Age-Herald*.

This is Theta's expression of her appreciation of our friend and Brother, R. H. Hartsfield:

The death of Harry Hartsfield at the University of Alabama was peculiarly sad and untimely. If there was anybody who, knowing Harry, was not his friend, I never knew that person. A quiet, dignified, reserved and gentle, lovable boy, he was the kind who made friends and kept them.

I was his roommate at the university, so it was probably my good fortune to know Harry better than most people knew him. He responded to the call of his country last summer and spent six months in the service, stationed at Washington.

I wish I could tell just how I feel about Harry's death, just what he meant to me as a friend and companion—above all, what a good, noble, honorable boy he was, but words are terribly inadequate to express

one's feelings. In such cases one can only know and feel.

CHARNER BATSON, Theta.

LEON LAMAR FOLSOM

Mu

Brother Leon Lamar Folsom died of wounds received in France.

WILLIAM RUDOLPH FISHER

Nu

Brother William Rudolph Fisher died of influenza, November 6, 1918. See extended notice under "With Military Honors."

ROBERT DURELL BUSH

Xi-Mu

Brother Robert Durell Bush died January 24, 1919, at a private hospital in Atlanta, Ga. See extended notice in "With Military Honors."

EDWARD MARCUS SMITH

Xi-Alpha-Beta Rho

Brother Edward Marcus Smith, Medical Corps, is reported as having died. No particulars.

ROLAND PHILOMEN CLAIBORNE

Phi

Brother Roland Philomen Claiborne died recently at his home in New Roads, La.

HORACE BAXTER COWELL

Psi

Captain Horace Baxter Cowell was killed in action in France, November 9, 1918. See extended notice in "With Military Honors."

ALBERT HANSFORD COWART

Beta Theta

Brother Albert Hansford Cowart was killed in action, in France, in July, 1918. See extended notice under "With Military Honors."

COVINGTON DRANE JENKINS

Beta Theta

Brother Covington Drane Jenkins died in January, 1919, at Camp Johnston, Jackson-

"Kschmncr—ull, whereinell are youszch—spit—splutter—spit?"

"Gnmosch schu — choke — sputter-ugh — 'ell," was all that I was able to get out of my system.

Well—with the noble aid of the aforesaid personage from Nebrasky, the California man and myself were able to extricate ourselves from the ooze and slime. We rushed for the light the first thing, not being able to tell into what we had fallen without the aid of light because of the fact that we all had colds.

But when we did finally reach the post proper, after crawling over freshly ploughed fields and through fields of stubble, we found that we had fallen into one of those abandoned holes on the outskirts of the post, where formerly a farmhouse had stood. Perhaps "abandoned holes" isn't plain enough, so let me add that at one time, the hole had evidently been covered by one of those structures which small boys delight in tipping over on the night of October 31 in their endeavors to improve the sanitary conditions of their city.

Needless to say, we hunted no more "nuts" that evening and as luck would have it, some other fellow who didn't even soil his leggings, apprehended the escaped madman somewhere near his ward.

We literally crushed each other in getting our hats. We tried to get through the front door sixteen abreast. We did the distance to the gate in nothing flat. Everybody tramped on everyone else in getting into the machine. On we went. Street after street shot by. Traffic police heard us coming, and, thinking it an emergency police call, cleared the "corners" for us. We rounded the University Circle on two wheels. Traffic scurried to the curb at our approach. We skidded ten feet in stopping when we had reached our destination. Up the walk we went, a bunch of wild, breathless maniacs. Other bands were following.

And, when we arrived, we found—only a ukelele concert!

MORTIMER J. SHEA, JR.,
Delta Zeta.

Marriages

Iota.—Brother Guy W. Ray, in Paris, France, some few months ago to a little Parisian beauty. Brother, in writing, declined to give her name. Brother Ray is in the American Embassy Service.

Pi.—Brother Theodore H. Cook and Miss Florence Woodring of South Bethlehem, Pa., during the Christmas holidays.

Phi.—Brother Charles Stewart Churchill of Lakeland, La., and Miss Eugenia Sentell of Bunkie, La., at Washington, D. C. Mrs. Churchill is a sister of two Alumni of Phi Chapter.

Phi.—Brother Marshall L. Gosserand of New Roads, La., and Mrs. James Space Bailey, of Buffalo, New York, October, 1918, at New York City, just before Brother Gosserand sailed for qverseas.

Phi.—Brother Arthur Nadler and Miss Eunice Lockett of Houma, La. Brother Nadler was recently discharged from military service, after completing his course in expert gunnery at Fortress Monroe, Va. The Nadlers will locate in Baton Rouge, La., where Brother Nadler will be connected with the Standard Oil Company.

Beta Eta.—Lieutenant Fred C. Wilson and Miss Gladys Hughes, of Indianapolis, Indiana, on January 18, 1919. Brother and Mrs. Wilson are living at Davenport, Iowa.

Beta Sigma.—Lieutenant Asa S. Bloomer, '14, was married to Miss Florence O'Neil of West Rutland, Vt. The couple are now residing in San Antonio, Texas.

Beta Sigma.—Lieutenant Roderick Smith, ex-'18, and Miss Hammond, of Pittsfield, Mass. He has obtained his discharge from the service and joined the Vacuum Oil Company, of New York City, and the couple are now residing in Highland Park, N. Y.

Beta Psi.—Brother Harrul B. Kenney, '16, and Miss Marie Farnum of New Rochelle, in New York, February 14, 1919. Brother Kenney received his commission as ensign from the Pelham Bay Naval Training Station and is at present connected with the same station.

Beta Psi.—Hans Lemke, '17, and Miss Mary Dunbar, of Seattle, Wash., in November, 1918. The couple are living at Durham, Calif., where Brother Lemke is engaged in agricultural pursuance.

Gamma Gamma.—Brother Albert Mienke, of Detroit, recently. Details unknown.

Gamma Gamma.—Brother Herman Meinke (brother to "Al"). Details unknown.

Gamma Delta.—Brother Frederick Willard Van Orden and Miss Rose Evelyn Parpart, February 12, 1919, Hoboken, N. J.

Gamma Epsilon.—Brother Harold H. Rahn and Miss Gladys Hauser, December, 1918, at Kutztown, Pa.

Gamma Eta.—We have just heard that one of our Alumni, Ben Wells, '02, was married lately. This is the only wedding I know of.—Reporter.

Gamma Omicron.—Brother Hubert Wattles Swender and Miss Marian Maisey Bezzo, March 17, 1919, at Los Angeles, Calif.

Gamma Sigma.—Brother John Kelleher and Miss Helen Kane, on February 26, 1919, at Des Moines, Iowa. Mrs. Kelleher is a member of Pi Beta Phi Sorority.

Gamma Sigma.—Brother E. S. Welles and Miss Ruth Carver, at Sioux City, Iowa, sometime in February.

Gamma Tau.—Brother Ralph Emerson Gruye and Miss Alpha Larson.

Gamma Tau.—Brother Merrill Arthur Howard and Miss Josephine Mather, a member of Alpha Gamma Delta Sorority.

Gamma Tau.—Brother Emerson Gruye and Miss Alpha Larson. No particulars.

Gamma Upsilon.—Brother Lowell R. Moss and Miss Gertrude Rittenhouse Summerill, on January 10, 1919, at Woodbury, New Jersey.

Gamma Psi.—Brother Ralph Carrick and Miss Shew, at Gloversville, N. Y. They have gone to the Bermudas for their wedding trip.

Delta Alpha.—Brother C. L. Royan and Miss Vera O. Williams, October 18, 1918, at Cleveland. Brother Franklyn Sebelin, Delta Alpha, acted as "best man".

Delta Beta.—Before he left for Camp Greenleaf, Ga., Brother Edwin B. Judd and Miss Anna A. Bubser, of Hartford.

Delta Epsilon.—Brother Charles Raymond Gray and Miss Grace Roberts, on January 4, 1919, at Shreveport, Louisiana. Brother Gray is an attorney at Pawhuska, Okla.

Delta Epsilon.—Brother Charles W. Breedlove, Muldrow, Okla., and Miss Esther L. Snyder, of Los Angeles, Calif., in Washington, December 20, 1918. Brother Breedlove is a lieutenant in the Marine Corps.

Delta Eta-Beta Mu.—Brother Carl Magee and Miss Margaret Cook, at Clinton, Iowa. Mrs. Magee is a Delta Gamma sorority girl from the University of Iowa.

Delta Theta.—Brother Lawrence Vancel Ingraham of Canton, Ill., and Miss Edna Sullivan also of Canton were united in marriage on March 1, at the home of the bride in Canton. Brother Ingraham attended Lombard in 1916-17, and has been at Illinois University since last September.

Delta Nu.—Lieutenant Lincoln B. Copp. No particulars.

Delta Nu.—Ensign Richard Silva. No particulars.

Delta Nu.—Brother Alfred C. Sturgis and Miss Hazel Mower of Auburn, Me., February 19, 1919.

Delta Pi.—Lieutenant Claude E. Bates, married in London, England, in 1919. No particulars.

Delta Pi.—Brother James R. Boyd and Miss Ada Bentley, of Washington, D. C., in May, 1918, at Washington, D. C.

Delta Pi.—Brother Leslie W. Getchell and Miss Frances Page, of Salem, Mass., during the month of May, 1918.

Delta Pi.—Brother Raymond Kelly and Miss Grace Hall, of Washington, D. C., on January 28, 1919.

Delta Pi.—Brother Royal R. Rommel, during the month of February, 1919. No particulars.

Delta Rho.—Brothers Miles F. House, Foster W. Humphrey, Herbert P. White, John W. Childs and James C. Bowen. No particulars.

Delta Tau.—Brother Dale A. Perry and Miss Elizabeth Smith, on August 24, 1918, at Portland, Oregon.

Delta Tau.—Brother Dana S. Frame and Miss Helen McDonald, on October 13, 1918, at Corvallis, Oregon.

Delta Tau.—Brother Paul B. Hofer and Mrs. Frances Morgan Spence, on January 1, 1919, at Pasadena, Calif.

Delta Psi.—Lieutenant Karl Vernon Palmer and Miss Helen Rosette Harlow, at Woodfords, Maine, on January 5, 1919. Lieutenant George S. DeMott, Delta Psi, was best man. Brother Palmer is in the regular army at Camp Lee, Va.

Roscoe Rises to Remark

J. F. Newman is the name of Warren Piper's office boy.

A Fraternity Brother is a fellow who affects the same style in jewelry as you do and who expects to borrow your money without paying interest. (Ed. Note: Or paying it back, either.)

Pete's name isn't that at all, but Edgar Floyd. And he has the cutest lavalier tatooed right on his neck.

A recognition pin is a jigger that no Brother ever recognizes you by, but that everybody else asks embarrassing questions about.

As for a sister pin, why they ain't no such thing. You just give your own pin to somebody else's sister.

An old pill is what Doc Bardwell eats but isn't, even though he is president of the Chicago Alumni Chapter and never stays out after seven o'clock in the evening, except on the occasion of the annual banquet.

LIEUTENANT GEORGE A. CHANDLER,
Gamma Lambda.

Deaths

ROBERT HARRISON HARTSFIELD

Iota Theta

I am enclosing you a clipping with reference to Brother Harry Hartsfield's death, which occurred March 3. When on a leave of absence a little more than a month ago I had the pleasure of seeing Brother Hartsfield and having a talk with him with reference to Theta Chapter. He had just been discharged from the navy and was entering the university to receive his master's degree this summer. A fine young man, well liked, and one who could be counted on to do his part, has been removed from the midst of his Brothers by a most untimely death.

A. H. ALSTON, JR., Theta.

Harry Hartsfield, popular university student, son of B. H. Hartsfield, president of the Birmingham Stove and Range Company of Birmingham, was shot through the head and killed by a .22 caliber rifle this afternoon at 5 o'clock. The shot is supposed to have occurred accidentally while he was handling the rifle.

Only a few weeks ago he had returned from the navy, he being in an officers' material school at the time of his discharge.

Hartsfield was a member of Sigma Nu Fraternity here and was one of the most popular students of the university. He took an active part in all student activities and last year was associate editor of the *Crimson and White*.—Birmingham (Ala.) *Age-Herald*.

This is Theta's expression of her appreciation of our friend and Brother, R. H. Hartsfield:

The death of Harry Hartsfield at the University of Alabama was peculiarly sad and untimely. If there was anybody who, knowing Harry, was not his friend, I never knew that person. A quiet, dignified, reserved and gentle, lovable boy, he was the kind who made friends and kept them.

I was his roommate at the university, so it was probably my good fortune to know Harry better than most people knew him. He responded to the call of his country last summer and spent six months in the service, stationed at Washington.

I wish I could tell just how I feel about Harry's death, just what he meant to me as a friend and companion—above all, what a good, noble, honorable boy he was, but words are terribly inadequate to express

one's feelings. In such cases one can only know and feel.

CHARNER BATSON, Theta.

LEON LAMAR FOLSOM

Mu

Brother Leon Lamar Folsom died of wounds received in France.

WILLIAM RUDOLPH FISHER

Nu

Brother William Rudolph Fisher died of influenza, November 6, 1918. See extended notice under "With Military Honors."

ROBERT DURELL BUSH

Xi-Mu

Brother Robert Durell Bush died January 24, 1919, at a private hospital in Atlanta, Ga. See extended notice in "With Military Honors."

EDWARD MARCUS SMITH

Xi-Alpha-Beta Rho

Brother Edward Marcus Smith, Medical Corps, is reported as having died. No particulars.

ROLAND PHILOMEN CLAIBORNE

Phi

Brother Roland Philomen Claiborne died recently at his home in New Roads, La.

HORACE BAXTER COWELL

Psi

Captain Horace Baxter Cowell was killed in action, in France, in July, 1918. See extended notice in "With Military Honors."

ALBERT HANSFORD COWART

Beta Theta

Brother Albert Hansford Cowart was killed in action, in France, in July, 1918. See extended notice under "With Military Honors."

COVINGTON DRANE JENKINS

Beta Theta

Brother Covington Drane Jenkins died in January, 1919, at Camp Johnston, Jackson-

Sigma Nu Fraternity

Founded at Virginia Military Institute, January 1, 1869.

FOUNDERS

JAMES F. HOPKINS, Alpha No. 1, '70; born December 30, 1845; died December 15, 1913.
GREENFIELD QUARLES, Alpha No. 2, '70; Helena, Ark.
JAMES M. RILEY, Alpha No. 3, '70; born May 16, 1849; died June 8, 1911.

GENERAL OFFICERS

Sigma Nus! Put your name here

THE continued appointment of the L. G. Balfour Company as Official Jeweler to Sigma Nu and as sole manufacturers and distributors of Initiate Badges, Pledge Pins, and Wall Plaques, is contingent for its successful fulfillment upon the "service" the Company can render its individual members. We will, therefore, be deeply grateful to have your earnest co-operation and to receive suggestions which will aid our efforts to make the term "service" more effective. Our desire for your continued patronage is no stronger than our intention to deserve it. Balfour Blue Book, repeatedly recognized as the Standard Reference for Sigma Nu Jewelry, and Illustrated Badge Price List on application.

L. G. Balfour Company

Attleboro, Mass.

Official Jeweler to Sigma Nu Fraternity

Why Don't You Write a Sigma Nu Song?

If you have any musical talent here's a chance to develop it, make a name for yourself and help give Sigma Nu better songs than any other fraternity.

You never know until you try. You may have special talents in this direction, perhaps unknown even to yourself. Song writers are in big demand, and command high salaries. This Sigma Nu Song Contest is a chance for you to show what you can do.

Don't be bashful or self-conscious. All contributions are strictly confidential, and the work is judged from the standpoint of originality and merit rather than arrangement or form. If you are afraid to try you'll never win anything.

The First Contest ended last June, and the winning songs have been published and are on the market. The Second Contest is now open, and will close in June. Contributions are already coming in, and we want every one to compete for the prizes and honors. Get busy now and find out what you can do.

Send all contributions to Song Contest Committee, care of Sigma Nu Fraternity, Lemcke Building, Indianapolis.

Official Announcement

Official Jewelers to Sigma Nu

By Contract with the Fraternity

J. F. Newman
L. G. Balfour Co.

To the Active Chapters of Sigma Nu Fraternity.

Pursuant to the action of the Eighteenth Grand Chapter, the High Council has entered into a contract with J. F. Newman and L. G. Balfour Co., making these two concerns the sole Official Jewelers to the Fraternity, and granting them all rights and privileges pertaining thereto.

These Official Jewelers hold entirely different and distinct relation to the Fraternity than those who were formerly known under that title.

Under our contract they become really Official Jewelers—the interests of the Fraternity and of our members are conserved and the Fraternity has a direct means of control over their actions.

The spirit of this contract is binding upon all Sigma Nus, whether active or Alumni. It is not only to the advantage of the Fraternity that you confine your dealings to our Official Jewelers—it is to your own benefit as well.

To Chapter Officers:

Specific Duties

1. Post the Official Placard in a conspicuous place on or near the Chapter's bulletin board.
2. Send all orders for Phylae Pins and Initiates' Badges to the General Office, as heretofore.
3. Extend all courtesies and privileges involved in this contract to the salesmen of the Official Jewelers *and to them only*.
4. Do not permit the salesmen of any other companies to display or sell their goods in the Chapter House or to the active men.
5. Report to the General Office *at once* any salesman not of these two concerns purporting to be official salesman.
6. Make reports to the General Office, *promptly*, on the forms provided, of all sales of jewelry and novelties made in the Chapter House or to the members of the Chapter.
